## MEIGHEN SWORN THIS MORNING

### Sir Robert Borden Took Final Leave of Cabinet Yesterday Afternoon

Ottawa, Ont., July 9—(Canadian Press)—Hon Arthur Meighen will be formally sworn in at eleven o'clock tomorrow morning as Canada's Prime Minister to succeed Sir Robert Borden. Sir Robert's resignation is effective tomorrow and the last meeting of his Cabinet was held this afternoon, lasting a little over an hour, and consisting chiefly of leave taking of his colleagues who have served with him throughout the war.

Hon. N. W. Rowell, who has been President of the Privy Council and one of the most prominent members of the Government during the session just ended, also took formal leave of his colleagues. It was announced from Mr. Meighen's office tonight that he will not be able to announce the personnel of his Cabinet tomorrow, but hopes to have the slate complete early next week.

F .B .McCurdy, who has already had some experience in Cabinet work is regarded as a certainty for Nova Scotian representation.

He is here, but states that nothing official has been intimated to him as yet.

## BRITISH BONDS IN NEW YORK

### Strengthening Movement Following the Chancellor s Announcement

New York, July 9—British Government bonds have recently displayed unusual strength, many issues advancing last week to high prices for the year. This improvement followed statements made in the House of Commons by Austin Chamberlain, Chancellor of the Exchequer, that the British Government has already provided for half of its share of the Anglo-French loan.

The Anglo-French 5 per cent loan is a direct obligation of the British and French governments, not secured, and originally outstanding in amount of $590,000,000. It falls due October 15, 1920, at par. The bonds sold at a low of 93½ this year.

There are outstanding in the United States in the hands of the public four British loans, exclusive of the Anglo-French loan, aggregating $543,587,000. Of these the next to mature is the five-year 5½ per cent. British loan originally outstanding in amount of $150,000,000. This loan matures in November, 1921.

These bonds have advanced from 94½ to a high of 97 and are now selling around 96½ to yield slightly more than 8 per cent. if held until maturity.

## PULP MILLS BOOMING IN WESTERN ONTARIO

Fort William, Ont., July 9—Word was received today by Dr. R. J. Manion, M.P., to the effect that arrangements had been completed for the formation of the Fort William Pulp and Paper Company, which will immediately proceed to erect a pulp and paper mill on the Mission property at the mouth of the Mission River in this city. The plant will cost three million dollars. This makes the third pulp mill definitely announced for this district in the last two weeks. Port Arthur, Fort William and Nipigon each getting one.

Lt.-Col. J. A. Little announced today that a new company, the Nipigon Fibre and Paper Mills, Ltd., would locate a forty ton per day pulp mill one mile west of the village of Nipigon. Local and eastern capital is interested. Head offices of the company are in Port Arthur.

## SAVED FIFTY AUTOS FROM FIRE

Halifax, N.S., July 9.—(By Can. Press)—Fire broke out this evening in the garage of the Nova Scotia Motor Company on Fenwick Street. Fifty automobiles were stored in the building and the thirty employees of the Company got all the cars out with the exception of two before they were damaged. The tops and cushions of the two cars were burned. Several of the new cars suffered some damage by water. The firemen arrived promptly and confined the blaze to one end of the building. The loss will be about $10,000.

## VICTORIA TIMES OWNER ARRESTED

### British Columbia Newspaper Proprietor Faces Serious Charge of Theft

Victoria, July 9 — Griffith H. Hughes, proprietor of the Victoria Times, was arrested here last night on a charge of stealing $600.25 from Messrs. David Spencer Ltd., a local department store. Application for bail was refused on account of the large sums alleged to be involved.

The Times will say in part today:

"Griffith R. Hughes appeared before Magistrate Jay in Police Court this morning and was remanded until Tuesday morning. Mr. Hughes was released on $20,000 bail. A plea of not guilty was entered by Mr. Hughes' Attorney, H. A. McLean.

"The warrant read in court against Mr. Hughes charged that on the 22nd day of November, 1919, in the City of Victoria, did unlawfully steal $600.25, the property of David Spencer, Limited, contrary to the Criminal Code.'

"We would elect to be tried by a jury," said Mr. MacLean. He then asked for Mr. Hughes' release on bail.

Deputy Attorney-General A. Johnson, K.C., prosecuting, opposed this, asserting that although the warrant against Mr. Hughes was issued on one charge, "certain other information came to us last night."

Magistrate Jay, replying, said that two other informations have already been laid. Mr. Hughes has been for a number of years acting in a financial capacity for the Spencer firm.

Taken on the Spencer staff more than fifteen years ago, as an accountant, and head book-keeper, Mr. Hughes became auditor and occupied that position up to a few days ago.

A few years ago, Mr. Hughes purchased the Daily Times from the estate of the late Senator Templeman.

## MONTREAL BARBERS HOPE TO WIN OUT

### Tomorrow Will Be the Crucial Test of Present Strike—Masters Hopeful, Too

Montreal, July 9.—The journeymen barbers of this city at their meeting this morning expressed the opinion that tomorrow will be the crucial test of the present strike. If they can keep a sufficient number of men out then they believe that victory will be theirs. The secretary of the Master Barbers' Association, A. M. Dore, on the other hand states that the masters consider the strike as good as won in so far as the number of men are returning to work under the old conditions and only a few shops are closed today.

A. T. Foley, second vice-president of the International Journeymen Barbers Union, states that the deputation of masters met the strike committee and offered to compromise on the basis of $22 per week with a bonus of 50 percent of the takings over $31 which was refused by the strike committee.

## CANADIAN AIRMEN ENTHUSIASTIC

Ottawa, July 9—(By Can. Press) Col. O. M. Biggar and Air Commodore, A. K. Tyles of the Canadian Air Force, returned yesterday afternoon from Winnipeg where they attended the Air Force Convention. Both officers were delighted with the enthusiasm shown by the Canadian airmen, which, they thought, promised well for the future of the force. The regulations which are to govern the force, as a purely voluntary body, were laid before the convention in order that the aid of the men themselves might be secured and made use of.

## BRITISH RAILWAYS NOT PAYING

London, July 9—(By Can. Ass'd. Press)—British railways are making a deficiency at a rate of £54,500,000 yearly and the Ministry of Transport are devising plans for making them self-supporting by June of next year, which means the collecting of between sixty and seventy millions of additional revenue in ten months as fares will not be raised until September. Fares have already been increased fifty p.c. It is expected that the new increase will be at least five p.c. and a big jump in freight rates is also likely.

## SPECULATION OVER DEPT. OF HEALTH

### Heretofore Administered By Mr. Rowell—Developments Expected

Ottawa, July 9—(By The Canadian Press)—There is considerable speculation over the fate of the newly created Department of Health Since the Department came into being it has been administered by Hon. R. W. Rowell, President of the Privy Council. With the resignation of Mr. Rowell, however, and the probable merging of the Privy Council with the Department of External Affairs, it is expected that the Department of Health will be placed in the care of a minister holding some other portfolio—possibly Hon. J. A. Calder.

Creation of the Department of Health is regarded as one of the most important developments of the Government's reconstruction programme. The Department is organized in four division:

(1)—Quarantine, Immigration and Marine Hospitals.
(2)—Food and Drugs.
(3)—National Welfare.
(4)—Sanitary Statistics and Publications.

Under the Quarantine Branch, medical inspection of immigrants will be established so as to prevent the landing in Canada of those physically or mentally unfit. The quarantine services are being specially strengthened so as to guard against the introduction of infectious diseases. Under the Marine Hospitals Service, provision is made for the care of sick marines.

## CHARGES WERE ALL DISMISSED

### Insufficient Evidence of Snow Conspiring To Murder His Wife

Washington, D.C. July 9—Charges that Chester A. Show, 76 years old millionaire patent attorney and two other persons conspired to bring about the death of Mrs. Addis Hubbard Snow, divorced wife of the patent attorney, were dismised today by Judge Hardison in the United States Branch of the Police Court.

Evidence presented at the two day preliminary hearing was adjudged by the court to be insufficient to warrant holding for a higher court the three defendants, who in addition to Show were Mrs. Ena P. Acker, wife of another patent attorney, and Hugh W. Langdon, a chauffeur.

Government officials after dismissal of the case would not say whether new warrants would be sworn out against any of the defendants. It was said that the case could still be brought before the Grand Jury regardless of Judge Hardison's action.

## MILITARY ACTIVE AROUND DUBLIN

### Sinn Feinn Courts Rapidly Superseding Crown Tribunals in Power

Dublin, July 9.—Throughout the day the military activity around Dublin resembled that of last Easter At some of the barbed wire barricades tents were erected for the troops who were fed from field kitchens. Occasionally armored cars were rolled up.

The search of incoming traffic was minute. Particular attention was paid to milk cans on vehicles.

Among the recent activities of the Sinn Feiners has been the attendance of volunteers to keep order at the racing meetings. Here they have coerced the disorderly element and captured persons who refused to pay bets. The volunteers turned up to perform these offices at Bellestown but the military appeared there to check them.

The military officers commanded the volunteers to disperse and surrender their armlets on which were inscribed: "Irish Republican Army". About forty of the armlets were surrendered, together with thirty caps of the volunteers. The military also took away a number of documents. It was decided by the military officers that the authorities would not tolerate any outside body wearing anything tending to characterize them as an organized force.

**Crown Superseded**

Evidence is piling up here which seemingly would indicate that the newly organized Sinn Fein courts rapidly are superseding in power the Crown tribunals. A great number of cases on appeal are being withdrawn from the Crown Supreme Court because it is stated that the litigants have little confidence in the power of that court. For the reason, it is alleged that Unionists are appealing to the Sinn Fein lower courts. One Unionist attorney is credited with saying that it was useless to take a case before the Crown Court, and that as his client desired "quick action", he took the case to a Sinn Fein tribunal.

In many parts of the provinces, Sinn Feiners have taken over control of liquor selling and have issued orders to saloons regarding the hours of closing. Sinn Fein pickets have been effective in stopping Sunday drinking by checking up bona fide travelers who are entitled under the law to drink. The policy of serving drinks on Sunday hitherto has been spasmodic. Now it has been made regular by a code issued to license holders by which they may be open only from 8 o'clock in the morning until 9 at night and which prohibits the selling of liquors on Sunday or church holidays.

Railwaymen who have been dismissed for refusing to move trains carrying police or soldiers have put forward a new plea. They contend that they are acting within the Board of Trade regulations in refusing to work because of restrictions against the carrying of "dangerous objects". They threaten action against the railroads for wrongful dismissal. The railway company officials, however say that the dismissals were inevitable when the men refused to obey orders, and they repudiate the statement that th men were dismissed on government orders. Mail trains and vans continue to be held up.

A letter recently received by the authorities was from a woman to the military officials. It requested that troops be sent to protect loyalists. The woman was haled before a Sinn Fein court and fined £150. This she paid.

The militia, which has been guarding all the roads into Dublin for the past few days, is carefully examining every one who passes. It is reported that the Government hopes by this close scrutiny to intercept communication between the Sinn Fein leaders.

**Insubordination**

In the Sinn Fein publication, the Irish Bulletin, issued to-night, is a story of alleged insubordination among the Irish constabulary and the reported impending importation of English police whose advent is to be accompanied by martial law and other extreme measures.

According to the statements, confirmation of which cannot be obtained the Royal Irish Constabulary at Listowel, County Kerry, were ordered on June 17 to hand over their barracks to the soldiers. The constabulary refused and 14 members resigned, but the resignations were not accepted.

Guns and troops are going north from Dublin to-night, but nothing unusual is happening here.

## SIX YEAR COURSE IN MEDICINE

Kingston, Ont., July 9.—The medical faculty of Queens University has adopted the six year course to apply first to matriculants of September 1920. At the same time there will come into effect a seven year course in arts and medicine, the degree of B. A. to be granted at the end of five years and the degree of M. D. at the end of seven years.

## LAMBETH CONFERENCE

London, July 9.—(By Canadian Associated Press).—The Lambeth conference today discussed the opportunity and duty of the church in industrial and social problems. The numerous speakers included the bishops of Fredericton and Ontario.

## GERMANY SIGNS PROTOCOL FOR DISARMAMENT

### Speedy Action Was Firmly Insisted Upon by the Allied States

### SIGNATURES AFFIXED

### Document Drawn in Exact Form Submitted by Foch and Wilson

Spa, Belgium, July 9—(By The Associated Press).—Germany today in conformity with the unanimous decision of her Cabinet, signed the protocol for her speedy disarmament firmly insisted upon by the Allies. Chancellor Fehrenbach and Dr. Walter Simons, the Foreign Minister, affixed their signatures to the document which was drawn in the exact form submitted by Marshal Foch and Field Marshal Wilson, the Allied military chiefs. The signature was preceded by a notification from Dr. Simons, on behalf of his Government, that in signing the protocol Germany did not give her consent to further occupation of German territory which could only be given by the Reichstag.

Premier Lloyd George, as Spokesman, told the Germans:

"We do not ask your agreement to the penalties we reserve the right to take in case of non-execution of your engagements. We simply warn you of our intentions. It is notification we have given you, purely and simply, of the measures you may expect if you do not disarm under the conditions specified. To these conditions we ask your acceptance, so as to adopt them with common accord. To sum up, the penalties are for the allies alone, while we are making disarmament a two-sided matter."

The disarmament protocol also contains naval and aerial conditions.

It is now generally accepted that the Conference will proceed rapidly with the other business on its program.

After a short adjournment, Premier Lloyd George took the floor and said:

"I am very glad the German delegation has decided to sign the protocol. It would have been disastrous if the conference had been broken off."

The Premier then pointed out that the protocol contained real concessions to Germany, saying it gave her more time to sign and allowed her certain increases in the number of officers and armament, notably machine guns.

He declared:

"The first official report required from Germany about execution of the terms will be forthcoming September 1st, giving her two months to put the disarmament under way."

As to Dr. Simons' objection to the clause providing for further occupation, the Premier asserted:

"The protocol signed January 10 provided that in the event that Germany failed to fulfill her obligations the Powers reserved the right to use all military measures.

"Occupation in the present protocol," added Mr. Lloyd George, "is simply an intimation by the Allies as to the steps they would take if Germany did not fulfill her obligations. It will occur only if the terms are not carried out. It relates not to action by Germany but to action by the Allies."

At this point the Conference proceeded with a discussion of war criminals, while secretaries drafted the disarmament protocol for signature.

Discussion of war criminals was opened by the German Minister of Justice, Carl Heinze, who said:

"German courts have already taken preliminary steps. On the first list of war guilty presented by the Allies it contained nine hundred names, which up to May 2nd, were reduced to 45. There are still considerable difficulties to be overcome, as some of the names are inaccurate and some charges are inadequately specified. Some of the accused have left Germany."

Herr Heinze thought reduction in the list by the Allies showed what the difficulties were.

Premier Lloyd George denied the accuracy of the German Minister's deductions. He said it was evident Germany did not want to carry out the treaty in this respect. Dr. Simons then interjected:

"We have every intention of carrying out these obligations. What we want is evidence. The courts cannot convict without it and we want the Allies to help us get it."

Mr. Lloyd George asked: "Have any arrests been made?"

Dr. Simons answered: "No."

**Allied Unanimity.**

Paris, July 9.—The Spa correspondent of the Havas Agency telegraphs that the unanimity of the Allies during the discussion with Germany on disarmament had a great influence on the decision of the Germans to sign the conditions presented by the Allies.

## CUSTOMS AIR HARBOR.

Ottawa, July 9.—(By Canadian Press).—One of the first notices of permission to esablish a public customs air harbor appears in this week's issue of the Canada Gazette and covers land at Virden, Man. The size of the air harbor is 800 yards in circular diameter.

## ALARM OVER THE COAL SITUATION

### Secretary of Canadian War Mission Fearful For Winter Supply

Washington, D.C., July 9.—Alarm over the present coal situation in the United States because of its possible effect on Canada was expressed in a letter sent to the United States Inter-State Commerce Commission today by M. M. Mahoney, Secretary of the Canadian War Mission. Declaring that Central Canada normally was dependent of the United States for 17,000,000 tons of coal annually, Mr. Mahoney wrote:

"Our government officials are beginning to fear that we may not get sufficient coal to tide over the winter."

Reduced shipments to Canada this year, the letter added, "seem to indicate that American producers have neglected the long established Canadian market to take advantage of the European demand."

Widely divergent opinions as to the coal supply of the United States were heard by the Commission today at its hearing on the advisability of modifying its order requiring that preference be given coal mines east of the Mississippi in the assignment of open top cars. Some witnesses said the country was experiencing the worst coal shortage in its history while others declared with equal finality that no shortage existed. The hearing will continue tomorrow.

The plea for modification was made by manufacturers who ask to share the car supply with the coal mines.

For the West, Carl Jackson, a member of the Wisconsin Railway Commission asked that the Commission amend its order so as to give preference to coal mines having contracts for coal to supply Wisconsin, Minnesota, North and South Dakota and Northern Michigan. He declared that 4,000 cars must be moved to this city daily until November 1 to save the people from freezing.

## GRANT MORDEN GIVES INTERVIEW IN LONDON

### Declares His Merger Will Make Empire Independent of Foreign Supplies

London, July 9.—(By Canadian Associated Press).—Col. Grant Morden, who arrived yesterday on the Mauretania, says that he went to Canada in February with the full authority of the Prime Minister to undertake a task on behalf of the British Empire Steel Corporation. What had been accomplished means, he claimed, the retention within the empire of the great single control of ore and coal deposits in the world. It will make the empire independent of foreign supplies and put the old country in a position to regain its supremacy in the coal iron and steel industries.

## BOLSHEVIKS IN PERSIA

Paris, July 9.—Dispatches from Teheran, Persia, report new landings of Bolshevik troops at several Persian ports on the Caspian Sea.

## The Weather.

Toronto, Ont., July 9—The weather has been fair and moderately warm today in nearly all parts of the Dominion.

Minimum and maximum temperatures:

**Temperatures:**

| | Min. | Max. |
|---|---|---|
| Vancouver | 56 | 72 |
| Victoria | 50 | 60 |
| Prince Albert | 48 | 82 |
| Kamloops | 60 | 92 |
| Calgary | 52 | 82 |
| Medicine Hat | 54 | 92 |
| Battleford | 48 | 82 |
| Swift Current | 50 | 82 |
| Regina | 44 | 82 |
| Winnipeg | 44 | 78 |
| Port Arthur | 52 | 72 |
| London | 56 | 76 |
| Toronto | 58 | 74 |
| Kingston | 58 | 70 |
| Ottawa | 60 | 76 |
| Montreal | 62 | 76 |
| Quebec | 58 | 74 |
| St. John | 50 | 78 |
| Halifax | 56 | 84 |

**Forecasts:**

Lower Lakes and Georgian Bay—Light to moderate winds fair and warm.

Ottawa, upper and Lower St. Lawrence — Valleys — Moderately west winds, fair and warm.

Gulf and North Shore—Moderate westerly winds, fair and a little warmer.

Maritime — Moderate westerly winds, fair and warm.

Superior — Light to moderate winds, scattered showers in Eastern districts but mostly fair not much change in temperature.

Manitoba—Fair and warm.

Saskatchewan — Scattered showers but mostly fairly and warm.

Alberta—Mostly fair but some local showers.

Holt, Renfrew & Co. Limited

REPAIR DEPARTMENT

This is the month to examine the household Table-ware, Spoons, Forks and all silver plated articles.

Collect the worn and damaged pieces and send them to us to be repaired, replated and refinished.

The work will be done carefully and thoroughly during the summer months, and the goods returned to the owners in first class order in September.

For July and August we make a special display of Antique Jewels to interest Tourists. This exhibition of old fashioned jewellry has developed until, today, it is a feature of our business in the summer time. The demand is for old Jewels in solid gold, old solid silver wares, diamonds in antique settings, more especially solitaires.

We again submit our advice on accidents to watches during the boating, bathing and fishing season.

☞ If during your vacation your watch should fall into water, open up the case and immerse the whole watch in coal oil, sweet oil, or any oil obtainable, do not delay; watch materials are excessively expensive at present and often difficult to procure, the oil will prevent rust.

Mail the watch to us as quickly as possible.

## POLICE DISCOVER BOMB AND DYNAMITE CACHE.

Windsor, Ont., July 9—A cache containing 250 sticks of dynamite, four canister bombs and one hand bomb was found concealed in a bluff on the Walker Estate on the Drouillard Road, about two hundred yards beyond Ford city, late Thursday afternoon. The discovery was made by a small boy who took a stick of dynamite to the authorities. Investigation by the Royal Canadian Provincial and Ford City police followed.

The contents of the cache was taken possession of by the Royal Canadian Mounted Police, who purpose having an inquiry into the matter. No clue as to the owner or for what use the explosives were intended have yet been secured.

# Do You Embroider With "Broiderfast"

Come and see the demonstration of this wonderful needle—it will work equally fine on coarse material. Just the thing for French Knot work, now so popular.

Learn its use, it is quick-and easy, and you can fill agreeably your spare holiday moments doing the prettiest fancy work.

Demonstration on the ground floor, Today, Saturday, and the following days.

PAQUET

## CLOTHES FOR VACATION

By Rita Stuyvesant.

At this season girls are busy planning vacation clothes and with a limited income it is quite a problem. If you go to a farm for a rest, a few gingham frocks will suffice, but if to the mountains or seashore your wardrobe will be different.

For morning wear at the shore or mountain Summer hotel, choose two simple gingham frocks and one of voile. The small checks and plaids are smart and the stripes are good if you are inclined to be stout.

Avoid organdy, as it requires too much pressing to keep fresh and crisp. Choose your ginghams and voile with only a little white trimming, because that will soil easily. Select three distinct colors, as that will offer a complete change.

One of the never sport silks so popular this season will be useful. With this one can have several overblouses of various colors and styles, thus making complete costumes. The overblouse may be made at home if desired, for their charm is their simplicity. One interesting blouse might be cut from peach color crepe de chine, and fall considerable below the hips. Short sleeves and a round neck, finished with sheer hemstitched, and girdled with self-material, make this blouse both comfortable and dainty.

Orange silk sport crepe fashioned after the mandarin style, loose and hip length and slashed at the bottom in deep scallops, makes another attractive blouse. White silk sleeves and plenty of white wool embroidery mark this as quite distinctive. This might also be developed in jade green, turquoise or rose. Very smart with a white skirt.

### A SIMPLE MORNING FROCK.

By Gertrude Beresford.

Summer days demand cool clothes hence the popularity of the chambray or gingham dress for morning hours. This frock is made of pale blue chambray, although you may copy it in any other color that you like. The full overskirt is adorned with narrow bands of blue and white check gingham cut on the bias. The same style of trimming is used on the waist, collar and sleeves. The latter are slightly shut up on the under arm side. But this opening is bridged by a strap of the chambray. Pearl buttons on the blouse and a crush belt of the chambray complete the dress. The floppy hat of orchid-colored hemp is decorated with gingham flowers.

## Chronicle Files 100 Years Ago

**Duel.**

Philadelphia — On Monday 19th June, a duel was fought between Messrs Richard Stuart and Townsend S. Dade, both of King George County, Virginia, on the Maryland shore, immediately opposite their residence, at a short distance, with muskets loaded with buckshot. Mr. Dade was killed dead. Mr. Stuart so severely wounded that he expired in a few hours after. They were neighbours, near relations and heretofore friends the unfortunate differences which resulted in so tragic an end, occurred about a mere trifle; and thus adds two more to the list of wretched victims, who have fallen a sacrifice to false notions of honor and the horrid and gothic practice of dwelling.

**Reprieved.**

Montreal, July 8—Yesterday Andre Combalias Brindamour, was pursuant of his sentence, brought to the place of execution, but while a great concourse were waiting in painful expectation of the catastrophe it was announced that His Excellency had been pleased to grant him a pardon in the condition of his leaving His Majesty's dominions within a certain time.

## Chronicle Files 25 Years Ago

**Hanging Will Do.**

In adhering to the old-fashioned custom of executing murderers by "hanging by the neck" we may be behind the time, but after the dreadful scene at the electrocution of Dr. Buchanan in Sing Sing prison the other day, our people will feel that our own system is the most humane after all. When Welter and Hendershott fell into the pit at St. Thomas they were dead beyond any doubt, and it was not necessary for the surgeon's knife to complete the work of the hangman.

**Railway Catastrophe**

On of the most terrible railway disasters that has ever occurred in this vicinity was that which occurred yesterday morning at Craig's Road, some eighteen miles from Levis, upon the lines of the Grand Trunk Railway.

The most serious part of the story is told by thirteen dead bodies and the thirty-one injured who were taken from the wrecked cars and one of whom has since died from the effect of his injuries. The catastrophe was caused by the collision of two special train loads of pilgrims travelling from Vermont and from Sherbrooke, Richmond, Magog and other points in the Eastern Townships to the shrine of St. Anne de Beaupre. The dead are as follows: Rev. Abbe Dignan, Windsor Mills; Rev. Abbe Mercier, Vicar of Richmond; Rev. Mr. Kearney, Magog; Driver Hector McLeod; Fireman Richard Perkins; Miss Varin, Ct. Joseph of Levis; Charles Bedard, Richmond; Miss Phaneuf, St. Ives; Mrs. Cayer, Danville; two unknown bodies from Fley, Shefford County; three young ladies unidentified.

**REOPEN SILVER MINE.**

Fort William, Ont., July 9.—The famous Silver Islet mine near this city is to be reopened soon. Three million dollars in pure silver was taken from this mine between 1870 and 1878 when the prospect was abandoned owing to flooding

**Time Has Tested It.**— Dr. Thomas' Eclectric Oil has been on the market upward of thirty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. It has no equal in the whole list of liniments. If it were double the price if would be a cheap liniment.

## NEW BIRD LAWS ARE ISSUED

### Under Migratory Birds Convention Act, Sportsmen Please Take Notice

Ottawa, July 9—New regulations under the Migratory Birds Convention Act, have just been issued by the Department of the Interior and involve important changes.

At present, under Ontario regulations, no person is allowed to kill in one season in excess of 200 ducks. Under the new regulations issued by the Department of the Interior, daily bag limits are imposed in various Provinces including Ontario and Quebec, as follows:

Ducks, 25 in the aggregate of all kinds ;Geese, 15; Brant, 15; Rails, Coots, Gallinules, 25; Black Bellied and Golden Plovers and Greater and Lesser Yellowlegs, 15; Wilson Snipe or Jack Snipe, 25; Woodcock, 10; Doves, 25.

The following shooting restrictions are imposed throughout all Canada:

No person shall kill or attempt to kill any migratory game birds by the use of any automatic, swivel or machine gun or battery, or by the use of an airplane, power boat, sailboat, or sunken boat.

No person shall kill or attempt to kill any migratory game bird between the hours of sunset and sunrise.

No person shall kill or attempt to kill from any motor vehicle or horse drawn vehicle any migratory game bird. There is practically no change in the regulations for scientific permits, but important new regulations are passed regarding the propaganda of migratory birds for the purpose of keeping tab upon and controlling the propagation of migratory birds in captivity, whether to be used for food, ornamental or zoological purposes, etc.

Taxidermists have to register in future and secure a license at a fee of one dollar.

One change has been made in the open season in Ontario.

## CO-OPERATIVE SOCIETIES ARE RUSSIA'S HOPE

### They Include More Than a Hundred Million Serious-Minded People

Washington, July 9—The Co-operative Societies of Russia with a membership representing more than 100,000,000 people are the "most hopeful element" in Russian society and will play a vital part in the economic rehabilitation of that country, Frederic E. Lee, Economist in the office of the Foreign Trade Adviser of the United States Department, declared today in a report on the Russian cooperative movement.

"While for the present at least," Mr Lee declared "the cooperatives must be considered a part of the state machinery of, Soviet Russia and have been made use of in order to carry out the policy and aims of the new economic order proclaimed by the Soviets, there is strong reason to hope that in the struggle for the right to serve the interests of the masses of Russia the cooperative idea will emerge as the keynote of the new economic order in that country."

### COAL SHORTAGE HANDICAP TO CEMENT WORKS

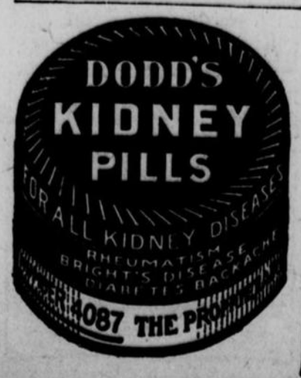

Ottawa, Ont., July 9—The short age of coal and the lack of foreign railway cars to bring it into Canada from the mine, were this morning cited as the two principal factors contributing to the continent-wide shortage of cement, which may result in some of the largest cement plants in Canada having to close down. The cement situation is causing considerable thought on the part of local builders and contractors. So far no works nor buildings have been held up or delayed for want of cement, though contractors report that they are not receiving all they would care to get or could use.

### FREIGHT TRAIN STRUCK MOTOR

Ottawa, Ont., July 9—Eugene Racine, a liveryman from Brownsburg, Que., is dead, and O. Lafleur and J. Nadon, of Lachute, are in a serious condition, as the result of a level crossing accident on half mile from the Lachute station. Racine and the two men were in the act of crossing the tracks when the motor truck in which they were riding was struck by a freight train.

### CENSUS FIGURES

Washington, July 9.—Revision of the population figures of Minneapolis, announced today by the United States Census Bureau places the total at 380,582, instead of 380,498 as previously announced.

## SOVIET ACCEPTS ALL CONDITIONS

### Laid Down by Lloyd George For Resumption of Trade Relations

Spa, July 9—(By the Ass'd. Press)—The Russian Soviet government has accepted all the conditions laid down by Premier Lloyd-George for a resumption of trade relations as a result of the conferences in London with Leonid Krassin, according to announcement made in British circles here tonight.

Paris, July 9—Formal official acceptance of the terms arranged by Premier Lloyd George and Leonid Krassin for the re-opening of commercial relations between Soviet Russia and the British Empire has been sent by the Moscow government to the British government, it is learned here. An official declaration on the subject, it is under stood, will shortly be made by the British government.

#### Tchitcherin's Note

London, July 9—The text of a note sent by M. Tchitcherin, Russian Bolshevik Foreign Minister, accepting the principles laid down in the Allied memorandum transmitted July 1 by the British Government to M. Krassin as the basis of agreement between Russian and Grea: Britain is given in a despatch to the Herald from Christiania.

The note sets forth the Soviet government's belief "that the plan proposed will have to be considered as an armistice between Russia and Great Britain and shares the British government's expectation that this armistice will pave the way to definite peace."

"At the same time," adds the note the Soviet government protests against affirmation, contrary to the real facts, relative to presumed attacks by Soviet Russia upon the British Empire. The Soviet government emphasizes once more that she desires nothing but peace with Great Britain and that the absence of the same disposition on the other side was the only cause preventing it".

## ORDERED BOND CANCELLATION

### Arthur Ecrement Remanded To Detention Quarters At Ellis Island

New York, July 9 — Arthur Ecrement, former member of the Canadian Parliament against whom deportation proceedings are pending, was remanded to detention quarters at Ellis Island Imimgration Station here today when instructions ordering the cancellation of his $10,000 bond were received from the United States Secretary of Labor.

Ecrement, whose name figured in the trial of Jules W. (Nicky) Arnstein, alleged New York bond theft plotter, is said to be wanted in Canada to explain certain financial transactions through which wealthy Canadians are said to have lost heavily. He is contesting the deportation proceedings.

The technical charge against Ecrement is that he entered the United States without being examined at the border, he is making an effort through his New York lawyer to have his examination taken at the Immigration Station here. He requested that the case be put over to July 21, to enable him to get certain "credentials" from Montreal.

No objecion was made to this, but Ecrement was informed he must spend the intervening time in the detention station.

The case will be resumed tomorrow before the Commissioner of Immigration when Ecrement's counsel will make further efforts to secure his release.

Michael J. Connelly said to be one of those who lost through Ecrement's alleged activities is said to have told immigration circles that Ecrement induced him and others to lay wagers on horse races on the strength of what was represented as "bona fide" advance information.

### SHIPPING MOVEMENTS.

Arrivals at Montreal, July 9: Strs. Generale Petitto from Louisburg, N.S.; Lowlands from Liverpool; Valencia from Avonmouth. Cleared: Strs. Pretorian for Glasgow; Pelican for Hudson Bay ports; Treloske for Antwerp; Oakland for Antwerp; Lock Try for Christiania.

Arrivals at Halifax, July 9: Strs. Sachem and Pro Patria from Sydney, N.S. Cleared: Strs. Canadian Sailor for Montreal; Chignecto for West Indies; Cableship Lord Kelvin for sea; French cruiser Soucy for St. John's, Nfld.

Steamer Arrivals: La Touraine at New York from Havre; Celtic at Boston from Naples; Mauretania at Southampton from New York; Admiral Cochrane at Piraeus from Montreal; Western Plains at Avonmouth from Montreal. Cleared: Saturnia from Greenock for Montreal; Waldenburg from Liverpool for Montreal.

## WILL FINISH THE DEFENDER TODAY

### Inspection of Resolute Nearly Complete — Finish Shamrock by Monday

New York, July 9.—Work has progressed so far in the measurement of Resolute defender of the America's Cup, at a Brooklyn, drydock, that the yacht probably will be launched again to-morrow. No attempt will be made to measure her sail area until the craft is in the water According to present plans, the defender will be taken at once to Sandy Hook where she probably will have a tuning up spin on Sunday.

Nat Herreshoff, designer of the yacht, will inspect her to-morrow while she is still in drydock.

The work on Shamrock IV, challenger for the Cup, is expected to be finished Monday when the yacht will be launched and taken to Sandy Hook. The underbody of each yacht was scraped, painted and polished today for the first race which is to be sailed off Sandy Hook on July 15. Measurer H. W. Webb found today a difference of 1-2 inch in the port and the starboard sides of the big keel of the challenger. This probably is the result of the yacht being laid up for six years since she first came to the United States. Webb said that the ratings of the yachts probably would not be known until just before the first race.

Final arrangements for the series are rapidly being made by the New York Yacht Club. Captain Lewis Blix, who will log the course and drop the turning marks today chartered the tug Eileen Morse. On Tuesday the tug will be taken down to the Hook to have her speed tested. On Wednesday, the Committee boat, the tug Barrington will be inspected and her compass compared with than on board the Eileen Morse.

## WHITE EULOGIZES NEW PRIME MINISTER

### And Adds That He is Well Satisfied With Political Situation at Ottawa

Toronto, Ont., July 9—Sir Thomas White, in an interview today said that he had nothing to add to the statement which he gave to the Press on Tuesday evening. He is well satisfied with the political situation at Ottawa, and expressed an affectionate personal regard for Hon. Mr. Meighen, as well as high admiration for his talent and character. "He is" he said, "an exceptionally brilliant public man, with an absolutely clean record, sincere, honorable and straightforward. Canada is to be congratulated that such a leader is available." He said the present cabinet was in harmonious accord as to the choice of the new leader, and that he looked with confidence to a continuance of stable government in Canada.

### ROUGH WORK AMONG THE HALIFAX STRIKERS

Halifax, N.S., July 9.—(By Can. Press)—Robert Duncan, one of the Halifax shipyards employees, now out on strike who was convicted by Magistrates McLeod and McDonald, on three charges, came before the Magistrates today for sentence.

On the first charge, that of watching and besetting the premises of A. Webber and Sons, Ltd., with a view to preventing workmen from going to work there, the prisoner was fined $25 and costs, or in default one month in jail.

On the second charge, that of using violence toward Norman L. Garret, for the purpose of preventing him from going to work at A. Webber and Sons shop, he was fined $50 and costs, and in default two months in jail.

On the third charge, for common assault, a minimum fine of $2 and costs was imposed, and in default of payment, ten days in jail.

Counsel for the prisoner stated that no appeal from these convictions would be carried to the higher courts and asked that the prisoner be given until Monday at 11 o'clock to pay the fine, which was granted.

### AMBASSADOR GEDDES WILL SPEAK IN OTTAWA

Winnipeg, July 9.—Sir Auckland Geddes, British Ambassador to the United States, has accepted the invitation of the Canadian Bar Association at Ottawa on September 1, 2 and 3, according to information received here today from Washington.

Among other speakers will be Viscount Cave, a member of the Judicial Commission of the Privy Council and former Home Secretary of England, and probably Wm. H Taft, ex-President of the United States.

### ROTTEN EGGS USED

Peterboro, Ont., July 9.—An echo of the strike trouble here last Saturday was heard in the Police Court this afternoon, when Frank Meeks was committed for trial on a charge of having assaulted an employee of the Canadian General Electric Company. It was alleged that while strike breakers were being conveyed in taxi cabs to work, striking machinists pelted them with stones and rotten eggs.

## QUEEN MARY IS VERY SUCCESSFUL

### Wife of Rumanian King Calls It Trade To Be Successful Queen

Bucharest, July 9—"How to be a successful queen?" said Queen Mary of Rumania repeating the question of the correspondent.

"Why, it is something of a trade to be a queen, and the chief implements of the trade are courage and courtesy. Smile when your head is aching, smile when you are ready to drop from fatigue and worry, smile when all is going wrong, smile at good news and at bad news. Always keep yourself interested in others. No matter how great may be the strain on your patience when talking or listening to a bore, make him or her think that you think the conversation is vital. Never think of your personal troubles but those of your country. I don't even own up when I know that I don't know a thing; but I always go and find it out all about this unknown subject".

Ask anybody, peasant or politician who rules Rumania, and they will look at you with eyes wide open in suprise and say: "Why, the Queen of course".

Queen Mary is the scene-shifter, the silken hand, the power behind the throne of King Ferdinand every minute. Since she came out from England, nearly 25 years ago, she has been learning this trade of being queen, and now she has been at it for more than five years, in place of Carmen Slyva, and she has made it her business to know Her country and her people.

She aspires to be queen in every sense, and she is quite as willing to take the duties of the job as well as its pleasures. As for its pleasures she gets all the fun she can out of it; dresses as well as she can, to enhance her beauty which is famous. "If a queen goes around, shabby and rednosed, it makes a great deal of difference, I think", she said. "It is not expected of us and so why should I do it? I felt rather mortified when in Paris just after the armistice and I had to attend receptions frequented by all the beauties of the world, and was not able to wear some of my splendid jewels which had been sent to Moscow. Just to think that I had four or five crowns some of them inherited from my Russian mother, and not a one to wear in Paris".

That the Queen is quite as willing to shoulder the duties of queendom is testified to by thousands of men and women who met her during the German occupation of Rumania. As a Red Cross nurse she was visiting the hospital of the incurables at Jassy. When she and the surgeon reached the door of the hopeless; "there's no need of going in there, it is too dangerous", said the surgeon. "They are dying—it is my duty", answered the Queen. Just after she entered the Queen heard a dying soldier calling for his wife. Without a word the Queen walked over to the bed of the typhus victim, saying "Here I am," and knelt and embraced the man, who died in her arms, happy.

The Queen is a practical queen. In the same city of Jassy, this fact was discovered and when the mayor wanted to get the snow cleaned off the streets, he timidly applied to the Queen for help. "Why, bless you, of course I will help," said the Queen, and she led the gang of snow-shovelers. After this whenever medicines and instruments were needed in the hospitals or extra nurses, the Queen was called upon.

Once there was a bread famine. The Queen got her own private motor cars scouring the country for flour and then she organized the bakeries of the city. She did the same when there was a wood and coal famine. "As a child I was taught to live for others," said the Queen in one part of the conversation with the The Associated Press correspondent. "So whatever I do I do naturally without effort. As a little girl I was told that this was part of the trade."

"Should the Queen get a touch of internationalism and go on strike some day, that would be a hard day for Rumania," said laughingly Take Jonescu, one of her admirers, a man regarded as the keenest minded lawyer, financier and politician in the country.

### RIORDON CONSPICUOUS AMONG NEW INCORPORATION

Ottawa, July 9.—(By Canadian Press).—Prominent among the company incorporations in this week's Canada Gazette is again the Riordon Company, Limited, with a capital stock fixed at $80,000,000. This company has acquired valuable pulp and paper, also timber and mining reports in the Ottawa Valley and big developments are expected. One of the clauses in their charter gives the promoters power to own, operate maintain and lease residences, boating houses, hotels, schools, theatres and places of instruction and recreation. Other companies incorporated included: Joliette Castings and Forgings, Limited, Montreal $1,000,000; Steamship Julius Kessler Corporation, Ltd., Montreal, $650,000; Fletcher Corporation, Limited, Sherbrooke, $100,000.

### GROCERS REFUSE TO COMPLY

Windsor, Ont., July 9—W. C. Kennedy, M.P., for North Essex was notified this morning by the Secretary of the Retail Merchants' Association that local grocers would refuse to comply with the order of the Dominion Board of Commerce requiring that a monthly report must be made by each grocer on all sales.

## ALAND ISLANDS DECISION PENDING

### Their Fate Now Before the League of Nations — Will Be Determined Soon

London, July 9—The Council of the League of Nations met in private session in St. James Palace, today with Hjalman Branting, the Swedish Premier, and M. Enckell, Finnish Minister in Paris, who presented the claims of their countries with reference to the future of the Aland Islands.

The subject of discussion was brought up by Earl Curzon, the British Foreign Minister, on behalf of the British, who stepped in when the controversy between Sweden and Finland threatened to create complications. The issue is whether the Aland Islands, lying at the entrance of the Gulf of Bothnia should continue to belong to Finland or on the self-determination principle pay to Sweden.

The matter brought to the Council under Article 11, paragraph 2, of the League covenant, is the first of its kind submitted. This paragraph makes it a friendly right of league members to call the Council's attention to any circumstances affecting international relations which threaten to disturb international peace. The councils conclusions and recommendations will be announced at a public meeting, probably tomorrow.

The meeting was attended by Arthur J. Balfour for Great Britain Leon Bourgeois, for France; the Marquis Imperiali for Italy; Dr. Gaston Da Cunha for Brazil, M. Nagai, Counsellor of the Japanese Embassy for Japan; Count Quinones De Leon for Spain and Baron Moncheur for Belgium.

## GOVERNMENT GRANT TO DEVELOP HELIUM

### Canada Has Empire Monopoly Of This Great Natural Resource

Ottawa, Ont., July 9—(By Can Press)—By the award of a grant of $5,000 to Assistant Professor J. C. McLennan, in his investigations of the properties of helium to determine its uses for lamps of various kinds, amplifying valves, high resistances, etc., the honorary advisory council for scientific and industrial research hopes to see accomplished a method of conserving helium, which at present is being wasted in Canada at the rate of one million cubic feet per month. Its value is estimated at not less than ten cents per cubic foot. Most of the wastage at present taking place is in the gas field of the Bow River district near Calgary. In Calgary it is estimated that 12,000,000 cubic feet of helium is being lost yearly.

Canada is the only part of the British Empire having helium resources and because of its peculiar lightness and other properties, the gas has been highly regarded and has been in great demand for the inflation of lighter than air craft. Now it is hoped to find other uses for it also.

### OAK LEAF EMBLEMS.

Ottawa, July 9—Oak leaf emblems for members of the Canadian Expeditionary Force who were mentioned in despatches during the war have just been authorized by the British War Office and will shortly be sent out to Canadians who have earned them.

### HOD-CARRIERS CEASE WORK.

Hamilton, Ont., July 9.—Because the majority of building contractors in this city had refused to pay the hod-carriers and laborers 65 cents an hour, 500 men went on strike today and as a result more than 200 bricklayers and carpenters were also idle.

### TEACHERS SALARIES.

New Liskard, Ont., July 9.—Instead of a ten per cent increase on present salaries as has been proposed to take place September 1st, the Public School Board has decided to make the minimum rate $900, a still higher raise, as will advertise for teachers to fill the vacancies on the staff of the schools here at the figure named.

### TOO COMPELLING THIRST

St. John, N.B., July 9.—In the Police Court today the case against five young men charged with breaking into and stealing five cases of whiskey from the premises of George K. Bell Licensed Vendor, was completed. McGarrigle, one of the five, was exonerated, Haynes and Alexander and the two Doyle's pleaded guilty, and were let go on suspended sentence.

### WILL NOT EXTRADITE AUTOMOBILE THIEF

Montreal, July 9—The appeal of David L. Baumgarten against a judgment rendered by Judge Choquette as Extradition Commissioner ordering his extradition to the United States, was dismissed this morning by Mr. Justice Greenshields, in the Court of King's Bench and the plaintiff was delivered into the hands of High Constable St. Mars, pending the arrival of a United States Marshal.

Baumgarten was arrested in Montreal some time ago charged with the theft of a Lozier automobile, the property of J. L. Davis, of Boston. He and Miss Virginia Carr, who, he claimed, was his wife, were arrested on February 10th. Miss Carr finally received her liberty while he was released on $5,000 bail.

## TRADE IS QUIET THROUGH CANADA

### Not Unusually So, However, For This Time of Year Says Report

Winnipeg, Man., July 9. — (By Canadian Press). — Trade, both wholesale and manufacturing, is quiet throughout Canada, but on the whole, not unusually so, for the time of year, says the weekly report of the Canadian Creditmen's Trust Association, compiled from advices received from ten of the principal centers. Toronto advices say that wholesale trade is quiet, but not out of the way for the time of the year.

In drygoods lines, sorting business is fairly active. In this line, cancellations have practically ceased and ladies wear and clothing houses are exchanging a heavy sorting trade this fall. Some clothing factories are closed down, others working only part time due to cancellations. Some factories are also working on part time basis. The grocery trade is fairly active. In retail lines in the Ontario area, trade is generally quiet except in groceries and provisions. A number of sales are being put on in clothing lines and shoes.

Montreal advices state wholesale trade not so active, but fair for the season. Manufacturing trade only fair. The retail trade is good in seasonable lines; luxury tax apparently having effect on higher class goods.

Collections in the East are reported "good" and "very good" but in Western and Pacific Coast points 'slow", "very slow"" and "poor".

## PLEBISCITE ON PROHIBITION

### "Night Before" Was Lively One in City of St. John, N. B.

St. John, N.B., July 9—"The night before" plebiscite on the prohibition question was a lively one in this city. Crowds thronged the public thoroughfares, gathered in bunches at various corners to discuss the all important question of "what is to be" when the votes are all cast. Both the "pros" and the "cons" had their emissaries at work buttonholing every one who looked like a voter, and filled his ear with the arguments of his side. Bugle bands traversed the railed thoroughfares in a trolley car calling attention to their streaming banners inviting votes for light wines and beers. Soap box orators were busy and everybody was waiting for something to happen.

Some of the arguments were such as would jiggle the cherries on sisters hat, they were so lurid and farfetched. Each side was guilty of possessing very vivid imaginations.

The oratorical campaign closes to-night, and the final shot in propaganda goes with the morning papers.

A hard and strained warfare along educational lines has been carried on, and all are awaiting the decision of the ballots to-morrow night as to what side in the victor.

### ASKS AN EXPLICIT DEFINITION OF POLICY

London, July 9—Dr. Max Nordau, speaking at today's session of the International Zionists' Conference asked that the British Government give an explicit definition of the policy it will pursue as the mandatory power for Palestine and define clearly the terms of the mandate so that all Jews may know just what relationship there may be existing between the Zionist organization and the British Government.

Dr. Nordau declared there should be unrestricted immigration to Palestine. He also stated that Palestine should be known as the Jewish State, and not as a home for the Jews.

### RECOVERY PROBABLE.

Calgary, Alberta., July 9.—W. Wanklyn, son of the Chief Executive Agent of the Canadian Pacific Railway at Montreal, who was seriously wounded by the discharge of a gun early Thursday morning at the Banff Springs Hotel., was operated on today. His condition late this afternoon was reported as favorable, and strong hopes are held out for his recovery.

### BOLSHEVIK HAVE BROKEN POLISH NORTHERN FRONT

Berlin, July 9.—A dispatch to the Vossische Veitung from Tilsit says that after severe fighting the Bolsheviki have broken through the Polish northern front and crossed the Beresina River at three points. The dispatch adds that panic has broken out in Vilna, from which the Polish occupation authorities have fled.

#### Occupy Road

Paris, July 9.—In addition to reported landing of the Bolsheviki at several Persian ports on the Caspian Sea, they are reported also to have occupied the road running between Teheran and Taurus.

## SATISFIED WITH RESTRICTIONS

### Dealer Testifies to Have Made Record Profits in Sugar Last Year

Ottawa, Ont., July 9—"That he had sold more sugar during the past year; had made a bigger profit on this commodity than ever before, and that he was entirely satisfied with the present restrictive regulations of the Board of Commerce with regard to the sale of sugar, which he thought were quite fair" was the outspoken and most unexpected statement made by President B. G. Crabtree, President of the Retail Grocers' Association, at the conference between the newly constituted Board of Commerce, and a delegation representative of the different retail trades, held in the Board of Commerce rooms this afternoon. Mr. Crabtree's remarks were in direct opposition to those of other members of the Association.

Mr. E. M. Trowern, Dominion Secretary of the Retail Merchants Association of Canada, who headed the delegation, followed by Mr. J. C. Campbell, the District Secretary, were endeavoring to show the members of the Board that their action in fixing the sale price of sugar had meant that the retail grocers were now being compelled to sell it almost at a loss, when the Chairman of the Board, Captain William White, interjected the question: "Do you not think that the action of the Board in controlling profits upon sugar during the past few months has saved the consumers of the country many millions of dollars?

"If you will compare the sugar prices in the United States and Canada, who will find that the consumers here have benefitted largely. I understand that sugar in the United States is at present selling at from 27 to 29 cents a pound, while here in Canada the prices are 23 to 24 cents. The object of the Board of Commerce was not to fix prices but to control profits and prevent hoarding. The old Board rescinded its restrictions on the sale of sugar and I think clearly demonstrated that their first action in controlling the profit on this commodity had saved nearly twenty million of dollars to the consumers of this country since August, 1919."

"Yes, but at the expense of the retailers," interjected Mr. Campbell.

"No," replied the Chairman of the Board. "You know as well as I do that 40 per cent. of the turn-over in a grocery store is from sugar and that the profit must necessarily be confined to a small estimate. To use there is any kick coming from the a vulgar expression, I do not think grocers, with a profit of two cents per pound, when all you got before the embargo was lifted was one cent."

### ADMIRAL FISHER CRITICALLY ILL

London, July 9.—The Times says today that it learns that Admiral Lord Fisher, former First Sea Lord, is critically ill.

### KILED BY LIGHTNING.

New Orleans, La., July 9 — Eight workmen employed on the State Industrial Canal were killed today by lightning striking a pile-driver under which they had taken refuge from a storm.

### H. M. S. CALCUTTA.

St. John, N.B., July 9 — Mayor Schofield announced today that word had been received from H. M. S. Calcutta that she would arrive in the harbor on Saturday evening at six o'clock and asking that all official visits be postponed until Monday.

### NEW HONOR FOR HOUSE OF LORDS

London, July 8.—(By Canadian Associated Press).—The King will dine with the Lord Chancellor and the peers in the House of Lords on July 23. No sovereign has dined at the House of Lords since the time of the Henry the Eighth.

### WOODWORKERS SATISFIED

Ottawa, July 9—As a result of the conference held yesterday afternoon between Senator Robertson and representatives of the woodworkers employees, it is altogether likely that the men will return to work on Monday and that a board of arbitration will be appointed to adjudiciate the dispute which has led to a five weeks strike of over 450 men employed in the woodworking factories and mills in the city.

### FINE CROP OUTLOOK

Winnipeg, Man., July 9 — The crops in Western Canada are probably as promising at at any time in the history of Canada, according to C. W. Murphy, General Manager of the C.P.R. in Winnipeg, who returned to the city this morning, following an extensive tour of the West He reports that there is no burned grass in the country and that in some places the wheat is commencing to head out.

### GREEK FORCES HAVE OCCUPIED BRUSSA

Athens, Greece, July 9—Brussa, an important Asia Minor city, 57 miles southeast of Constantinople, has been occupied by Greek forces, according to reports reaching this city.

#### Have Not Entered

Mundania, Asia Minor, July 9—(Ass'd. Press)—Although the Greek army was reported near Brussa, advices received indicated that up to Wednesday the Greeks had not entered the city.

## ADMITS THAT HE KILLED HIS WIFE

### Lieut. Carl Wanderer Wanted To Get Rid of Her For Her Money

Chicago, Ill., July 9.—Lieutenant Carl Wanderer in a new confession which the State's Attorney gave out tonight, admitted that he shot and killed his wife to get rid of her and get possession of her money He admitted, officers said, that he planned a "framed-up" robbery with the man he killed, on the same occasion in the doorway of their home. He was also quoted as saying that he had "tired of married life and decided to return to the easy life of the army."

Wanderer denied, the State's Attorney said, that he knew the accomplice whom he shot to death. The tragedy occurred on the night of June 21.

This was the second alleged confession by the former army lieutenant announced today. In the first he was said to have confessed that he fired the shots which killed his wife and the unidentified stranger.

Wanderer declared that the shooting of his wife was accidental, and maintained that the stranger whom he killed had attempted to rob them. He explained the withdrawal of $1,500 by his wife from a bank by saying that they wished to have it in an institution nearer home

He said she drew it out of the bank on Saturday too late to consummate the transfer and placed it in a bureau drawer. That evening they went to a picture show and on the way home, according to that confession a man come out of an alley and followed them upstairs, saying: "Fork over the money."

"I grabbed both guns out of my pocket and started shooting," Wanderer was quoted by the officials as saying. "The second shot I believe hit my wife. I fired the ten shots and when both guns were empty put them beside the man. Later I took one gun away and left the other there."

## OPEN TO PRESS AND THE PUBLIC

### Mine Workers and Coal Consumers Win Their First Victory

Scranton, Pa., July 9—Mine workers and the coal consuming public won their first victory in the hearings of the Anthracite Mine Commission here this afternoon, when the Commission ruled that argument on the jurisdiction of the Commission on the admissability of exhibits, seven in number, objected to by the operators, will be open to the Press and public.

The excluded exhibits, evidence which the mine workers are determined to read into the official records and which the operators are opposed to having become public property, deal with alleged monopolistic control and profiteering in the anthracite industry during the past five years.

No sesion of the Commission will be held tomorrow, Chairman Thompson setting 11:00 o'clock Monday morning in the Federal Building in this city as the time for the public argument.

During the day the District President Kennedy presented a prepared paper on the "Ferry plan," the suggestion offered by the miners representative on the Commission that the Government take over a number of mines in the anthracite region and operate them for a term of years to determine whether or not the demands of the miners are justified.

### GOOD APPLE CROP.

Toronto, Ont, July 9.—That there is every prospect of an immense apple crop in the province this year is the opinion of the agricultural committee in the Federal house.

### MANUFACTURE SPARK PLUGS.

Brantford, Ont., July 9.—A plant for the manufacture of automobile accessories is to be established in this city by the A. C. Spark Plug Co., said to be the largest spark plug manufacturers in the world, and a subsidiary of the General Motors Corporation. Construction of the plant will be begun immediately.

### FINE CROP PROSPECTS IN THE UNITED STATES.

Washington, D.C., July 9—An increase of 28,000,000 bushels in the United States wheat crop as compared with last month, with a total forecast of 809,000,000 bushels; a prespective corn crop larger than last year's and larger crops of oats, barley, wheat, potatoes, tobacco, flax and rice than were grown a year ago, were the features of the Government's July crop report issued today by the United States Department of Agriculture.

QUEBEC, JULY 10, 1920.

## CAPITAL PUNISHMENT.

The trial of Marie Anne Houde for the murder of her step-daughter, Aurore Gagnon, a child barely in her 'teens, was marked by features of such sensational and revolting cruelty, as to attract wide-spread publicity in the Press of the Dominion. In consequence, notwithstanding the most damning evidence, the Judge's charge and the jury's verdict, the usual flock of sentimentalists and cranks have rushed to the rescue of the condemned woman with all the energy that a better cause might merit but would probably not receive.

So far as we are aware, there is no demand for clemency in this district where the crime was committed and where all the circumstances are best known, but has arisen mainly from a number of well-meaning people at a distance who are less impressed by the enormity of the offense than by the fate and sex of the offender.

Mr. Robert Bickerdike, the former Member of Parliament for St. Lawrence Division, Montreal, is of course a man with one great objective that he has kept before him for years: the abolition of capital punishment. With him it is a matter of general principle, this particular case being only an incident that serves him with fresh arguments to promote his cause. Even those who do not agree with this gentleman must respect his benevolent sincerity.

Both Mr. Bickerdike and other correspondents of the Chronicle have quoted Scripture very freely for and against the hanging of Mrs. Gagnon. Some of the texts appear to be appropriate, while others are less happy to say the least. But the main fact that emerges is one already admitted: that by selecting isolated passages from the Bible it is possible to claim Scriptural warrant for diametrically opposed views on any conceivable issue.

As Christian people it is of course important to ascertain the attitude of Scripture, although there must always be a distinction between secular and ecclesiastical law. It is our impression moreover, that Christ himself was very cautious about laying down general principles, preferring to deal with every individual case upon its merits. If this be so, texts taken from the bible have little or no bearing upon the case of Marie Anne Houde.

There is a real need of defining the points in controversy clearly and dispassionately, in view of all the facts, prejudices and emotionalism with which they have been overlaid. They are very simply stated: first, is capital punishment justifiable? If it is, then there can be no protest against the enforcement of the penalty where it has been indisputably deserved: if it is not, then neither Mrs. Gagnon nor any other murderer should be put to death by Society.

Second, if capital punishment be justifiable is there any valid reason why it should not be imposed on women? The woman now under sentence is entitled to clemency only if such a reason can be found and not otherwise.

Capital punishment is a legal penalty that has existed in every Country and in every age under some form or other. Originally the underlying principle was that of retribution—"an eye for an eye, a tooth for a tooth." More recently it has been one of deterrence—to ensure as fas as possible that those who do not hold human life sacred will refrain from violating it through fear of the consequences. Naturally capital punishment has not abolished and cannot abolish the crime of murder since there are always those who act on impulse or are prepared to accept any risk, however grave. On the other hand there can be no doubt but that it exercises a restraining influence, that there would be many more tragic crimes than actually occur, but for the knowledge of an impending hangman's rope.

We consider therefore that capital punishment is not only justifiable but that there is no lesser penalty which would prove an equally effective deterrent. Life imprisonment sounds serious—even more so than it is—but there are many men willing to face that hazard, who would balk at sentence of death. Accordingly we have only now to consider whether or not women should be hung.

In the present case the pregnancy of Mrs. Gagnon has been urged as an excuse but it is one that has never been recognized by law. No doubt women in this condition are apt to be irritable and irrational at times but seldom go so far as to practise calculated cruelty, culminating in death. Were it otherwise, every prospective mother would have to be placed under restraint as a protection to Society, until her normal health should be restored.

Again it has been urged that the death sentence may exercise a disastrous pre-natal influence. It is hard to see how this could be any more disastrous than the criminal indulgence of which it is the result but, in any event, the children are now born and will be physically uninfluenced by what may become of their unhappy mother.

British justice has always made a distinction between sexes that appears to be a wise one, extending clemency to murderesses, though never as a matter of right or settled rule. As a woman therefore, Marie Anne Houde may plead for commutation of sentence but her case must be considered upon its special merits and settled in the best interests of Society, not out of maudlin sentiment or to gratify the eccentric fads of any crank. According to report she is quite undisturbed over what she has done or the doom that awaits her and experiences none of the agitation felt by her unknown supplicants for a mercy that she never bestowed.

We leave it to the judgment of our readers whether the nature of the condemned prisoner's crime is such as to demand the most severe deterrent or whether imprisonment will serve the ends of justice, in view of her womanhood; only insisting that the life of Mrs. Gagnon should neither be taken out of vengeance nor spared through moral weakness.

## TRACTORS AND PROTECTION.

Some time ago reference was made in these columns to the importation of tractors from the United States as an outcome of the removal of customs duty from this class of agricultural implement, with a resulting trade loss to Canada and unemployment in Canadian factories. Now the Canadian Reconstruction Association has addressed an open letter to the Editor of the Grain Growers' Guide, in which it says: "In the issue of The Grain Growers' Guide of June 23, you published a statement in which it was pointed out that tractors made in the United States had been imported into the Canadian West with resulting loss to Canada... You said in part:

"'With many of their men and horses taken from the land for war service overseas, and with appeals being made to them 'to feed the Allies' and 'produce and save,' many Canadian farmers secured mechanical power so that they might farm increased acreages and help win the war. It would be a queer kind of reconstruction to prevent them from obtaining the tractors or to have imposed a tax upon them which would undoubtedly have greatly lessened the number employed.'"

The Guide contends that the price of commodities to the consumer is increased by the full amount of the customs duty, the letter then points out. Such claim is quite at variance with the facts but, even if it were sound, the resulting increase in the cost of producing grain by reason of a duty on tractors would be almost negligible. The average farm in Western Canada is 320 acres in extent, of which perhaps 200 acres are arable land. These 200 acres could be plowed by a tractor in 25 days and at the low average of 17½ bushels per acre, would produce 35000 bushels per annum. If tractors valued at not more than $1400 were subject to an import duty of 20 percent, and if the price to the consumer were increased by the full amount of the duty, the additional cost on a $1400 tractor would be $280. But with average care a light tractor will give efficient service for at least eight years, so that the added cost by reason of the duty would only be $35 per year. Thirty-five dollars when distributed over 35000 bushels of wheat means an increase of only one percent per bushel. With wheat netting the farmer an average of $2.25 or more per bushel, the increased cost by reason of duty would be less than one-half of one percent. To allege that such an increase in cost of production would have materially limited the acreage in grain, is, to say the least, a remarkable contention.

When wheat was sown in the spring of 1919 the farmers faced a prospect of perhaps $1.75 per bushel. The Canadian Wheat Board paid $2.15 per bushel and issued participation certificates which the farmers for months considered of little value. It now appears that these certificates will be worth some 50 cents per bushel, which means that the farmers will receive probably 90 cents per bushel more than was commonly expected at seeding time. The participation certificates alone would pay the entire duty on a tractor for every farm in the prairie provinces.

But under a system of moderate protection, the price of Canadian-made commodities is not increased by the amount of the duty. For example, Canadian manufacturers of binders, mowers and reapers, with such protection have built up an efficient industry which today is supplying the farmers of Western Canada with implements at as low prices as those at which machinery of equal quality is available to farmers of the Western States. As in the manufacture of binders, mowers and reapers and other agricultural implements, so in the tractor industry, domestic competition would secure to Canadian farmers well made Canadian tractors at prices representing only a moderate profit over the cost of production. During the war Canadian manufacturers produced great quantities of munitions as cheaply as similar supplies were made anywhere in the world. The efficiency of Canadian producers has been proved and if they are afforded an opportunity to attain reasonable quantity production, Canadian-made goods can be, and are, sold at prices as low as the lowest anywhere, or higher only by the amount of taxation on the raw materials. If, by moderate protection, the Canadian tractor business of, say, 20,000 machines per year, were ensured to Canadian manufacturers, there would be encouragement for an enterprising industry to meet the demand. But when most of this trade is divided among United States manufacturers on a free-trade basis, the proportion available to Canadian producers is not sufficient to enable them to obtain low cost, economical production.

"You charge also," cincludes the letter, "that Canadian manufacturers have not shown the necessary enterprise to produce enough tractors of the class which most farmers can use profitably and that the farmers must, therefore, use imported tractors or none at all. The fact is that Canadian manufactuers have shown more enterprise in the manufacture of tractors than was good for their own interests. As has already been pointed out, no fewer than nine reliable manufacturing companies either were already producing tractors or were preparing to do so when the Order-in-Council was passed putting the equipment on the free list, without giving Canadians an opportunity to supply such machines. These companies have lost money as a result of such enterprise: one has failed, and others have either abandoned the tractor business or will do so just as soon as other business can be developed."

## Press Comment.

### ITALY'S PREMIER.

(Boston Transcript)

Difficult indeed is the task which will confront Giolitti and his new ministry. Francesco Nitti, by reason of the clear-cut liberalism of his policies and his moderation, had won the confidence of Italy's friends and allies, France and England. Giolitti will come to the Premiership with a record that shows him in the critical hours of the past to have been clearly pro-German. He may live that record down. But his ministry, at the beginning, at least, will enter into negotiations with foreign Powers under a distinct handicap. The friendliness and cordiality which greeted Nitti will not be so easily accorded to Nitti's successor. Giolitti must fight an up-hill battle to win the respect and the trust which the statesmen of Europe reposed in Francesco Nitti.

### A PHASE OF NEWS MONGERING.

(Worcester Telegram)

It ought to be explained that the principal reason the Elwell murder gets so much more prominence than it would have gained had its victim been a decent, ordinary citizen murdered in a decently murderous way is that the crime is intimately connected with nastiness. And in New York nastiness is regarded as the equivalent of romance.

### PERPLEXING.

(Los Angeles Times)

CITY OF QUEBEC—CITY HALL.
BY-LAW NO. 24E.
By-law to Amend By-law No. 23B Reconstruction.

(Drawn up in the French Language)

At a meeting of the City Council of the City of Quebec, held on Friday, the 18th day of June instant, (1920), the following By-law was read for the first time.

It is hereby ordained and enacted by the Municipal Council of the City of Quebec, and the said Council ordains and enacts as follows, to wit:

Article 59 of By-law No. 24B, passed by this Council the 11th day of January, 1918, is replaced by the following:

59A—No covering or "Marquise" whatsoever shall be built over a sidewalk unless a plan thereof shall have been submitted to the City Engineer and accepted by the Road Committee.

However, in every case, said marquises must hang from the wall and cannot be supported by columns.

The present By-law is declared as forming part of By-law No. 24B.

Public Notice

is hereby given that in conformity with the dispositions of the law, the above By-law shall be read a second time for adoption, on Friday, the 23rd day of July, 1920.

By order,
H. J. J. B. CHOUINARD,
City Clerk.

HEALTH DEPARTMENT
IMPORTANT NOTICE

In virtue of a new by-law, all bottles which have been used for the distribution of milk, must be washed as soon as they are empty, before they are returned to the milkmen.

This new precaution is all in the interests of the public, because it is the surest means of ascertaining the cleanliness of these bottles, which are all the harder to wash when they are left over.

It is also condemnable to use these bottles for any other purpose.

DR. C. R. PAQUIN,
Municipal Physician.

City of Quebec, District of Quebec, to wit:

City of Quebec, City Hall, By-law No. 28B.

By-Law to Amend By-Law No. 23 concerning the Pension Fund of Officers and Employees of the Permanent Staff. Drawn up in the French language.

At a meeting of the Municipal Council of the City of Quebec, held at the City Hall, in the said City of Quebec, on the twenty-eighth day of May, one thousand nine hundred and twenty, (1920), in conformity to law, and in virtue of a by-law passed by this Council, pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting were present the absolute majority of the members composing the Council of the City of Quebec, that is to say: His Worship the Mayor, Aldermen Bedard, Bertrand, Bouchard, (St. R.); Bouchard, (J. C.); Collier, Delagrave, Fiset, Lesage, Martin, Mercier.

It is ordered and enacted by the Municipal Council of the City of Quebec and the said Council doth hereby ordain and enact as follows:

1.—Article 22 of By-law No. 28, passed by this Council, the 11th April, 1918, and amended by By-law No. 28A, passed 9th January, 1920, is replaced by the following:

2.—The pension payable to an officer or pensioned employee is two and one half per cent of the average salary he received during the five years preceding the date of his admission to the pension fund, said two and one half per cent to be multiplied by the number of years of service, but such pension shall in no case exceed the two thirds of said average.

4.—The present By-law is declared forming part of By-law No. 28.

# IN AND ABOUT TOWN

## NEW PREMIER IS SWORN IN

### Hon. L. A. Taschereau Retains All His Former Colleagues in Cabinet

Hon. L. A. Taschereau was sworn in as Prime Minister of the Province of Quebec yesterday forenoon by His Honor the Lieutenant-Governor, Sir Charles Fitzpatrick, and immediately afterwards started in to construct his Cabinet, inviting all his colleagues in the Gouin administration to continue in office with him which they agreed to do. Thus the new Cabinet presided over by Hon. Mr. Taschereau will be the same with one additional member in the person of Hon. Mr. J. L. Perron, M.L.C., who becomes minister without portfolio.

The new Cabinet was sworn in at 11 a.m. and shortly afterwards the Prime Minister received the newspapermen in his office. After an exchange of courtesies, Mr. Taschereau referred to Sir Lomer Gouin's resignation, and his succeeding him in office at the request of the Lieut.-Governor to form a new Cabinet.

He expressed his regret at the resignation of Sir Lomer, which he said was a great loss to the Province of Quebec, and a great blow to his colleagues in the Cabinet. He also referred to the splendid work done by Sir Lomer in the interest of the Province. As for himself, he said he would continue the policy of Sir Lomer Gouin, and give particular attention to the further development of all Quebec's natural resources in Forests, Lands and Mines. Regarding education, he would also continue the policy of Sir Lomer, and special attention would be given for the full development of agricultural and technical knowledge.

Hon. L. A. Taschereau left yesterday afternoon for Riviere-du-Loup to spend the weekend with Mrs. Taschereau and family, but will return to the city on Monday.

Bag limits for the Maritime Provinces are 25 Ducks per day aggregate, 15 Geese, 15 Brant, 25 Rails, Coots and Gallinules, 15 Plovers or Yellowlegs, 25 Snipe, ten Woodcock and 25 Doves. The season's Duck limit is 200.

### EUROPEAN MAILS

Mails to be despatched by the SS. Empress of France, sailing on the 14th instant, will be closed at noon on the 14th, and will contain letters, papers and parcels.

**Footwear at less than the wholesale prices—advance styles, too—at The American Shoe Market Sale, 251 St. Joseph street, now going on.**

### RECORDER'S COURT

A carter pleaded not guilty in the Recorder's Court yesterday to three charges preferred against him by the Police. The defendant was charged with having annoyed pedestrians by soliticing their patronage secondly with having abused the constable who had spoken to him as to his conduct, and thirdly he was accused of having been intoxicated. The case was adjourned until Monday next for further evidence, when judgment will be rendered.

### PROVINCIAL APPOINTMENTS

Mr. L. A. Richard was yesterday morning appointed a special officer of the Department of Colonization Mines and Fisheries. Mr. Richard was private secretary to Sir Lomer Gouin previous to the latter's resignation as Prime Minister.

Hon. L. A. Taschereau, Prime Minister, has appointed Mr. R. A. Benoit his private secretary, to replace Mr. Eugene Des Rivieres, who has been appointed to the position of Recorder of the City of Quebec.

### COURT OF SESSIONS

Emile Fecteau appeared in the Court of Sessions yesterday morning on a charge of having assaulted Hormidas Maranda and was condemned to pay a fine of thirty dollars and costs in addition to two dollars to the plaintiff.

Sentence was deferred to a later date in the case of Eugene Verret, who had been found guilty on a charge of stealing a bicycle.

Fines of ten dollars and costs each were imposed upon five automobile drivers against whom actions were taken for speeding.

### MR. HANNA HAS WESTERN ENGAGEMENTS

The Quebec Board of Trade at its last general meeting, decided to send a deputation to Montreal to meet Mr. D. B. Hanna, President of the Canadian National Railways and discuss certain questions with him in regard to Quebec's interests. The Secretary of the Board, acting under instructions wrote to Mr. Hanna asking him when he would be in Montreal, and if he would receive a delegation from the Board.

Yesterday the following reply was received by the Board:—

Toronto, July 7th, 1920.

Mr. Levasseur,
Secretary Quebec Board of Trade,
Quebec, Que.

As I have a number of appointments in West during month of July, regret exceedingly it will not be possible for me to be in Montreal before first or second week of August; I could arrange to meet your Board about that time.

**Everyone is waiting for a fine day to go to the Island dance tomorrow afternoon and night. Boats leave at 2:15 and 7:45.**

## VIEWS POSITION PHILOSOPHICALLY

### Case of Mrs. Gagnon Not To Be Reviewed till September By Department of Justice

On inquiry last evening it was learned that both Mrs. Gagnon and her twin babies, who were born in the jail on Thursday last, were doing well. Notwithstanding the fact that she is still under sentence of death, Mrs. Gagnon appears to take a philosophical view of her position, and apparently displays little concern as to her fate.

**Case Not Yet Reviewed**

Ottawa, July 9—The case of Mary Houde Gagnon, the woman under sentence of death for the murder of her little step-child and who has just given birth to twins in the Quebec Jail while awaiting execution, will not come up for review by the Minister of Justice before September as the hanging is not fixed till some time in October.

In passing sentence last spring the trial judge gave due consideration to the woman's condition and fixed the date of the execution accordingly.

## WHOLESALE WASTE OF STRAWBERRIES

### Two Carloads Thrown Over Point-a-Carcy Wharf Into Customs House Pond

The Customs House pond was covered with hundreds of large boxes of strawberries yesterday that were dumped over the wharf from two Grand Trunk Railway refrigerator cars on Thursday afternoon, and were to be seen floating on the surface of the water all day yesterday, waiting for the tides to carry them away. The two cars that brought the fruit from the West to a Quebec preserving establishment, arrived on the Point-a-Carcy wharf on the 7th instant, and were shunted to a siding in line with Shed 21. The numbers of the cars are 46866 and 45255. It is alleged that when the cars were opened and the fruit inspected, the strawberries said to be valued at $6,000, were found bluemoulded and soft, that gave them the appearance of being last year's product, and in cold storage for a year.

Each of the cars contained three dozen quart boxes of the fruit, and not only were the berries dumped into the river, but the boxes that encased the small boxes containing the berries.

### WILL APPEAL CASE

It was announced yesterday morning at the Court House that the judgment rendered against the News Pulp and Paper Co., in favor of Mrs. McMillan for $15,000, will be appealed by the defendant firm.

**The dancing at the Island tomorrow will start after the arrival of the 2:15 boat. The night boat leaves at 7:45.**

### NOTICE OF ABSENCE

Dr. Elz. Miville-Dechene, Deputy Minister of Lands and Forests will be absent from July 15th to September 5th. Jn15,19,23,26,30jy3,7,10,14x9

### SAILOR TRANSPORTED TO THE HOTEL DIEU

The ambulance was called upon at midnight to transport a man who was found lying in the road at the corner of St. Peter and St. Andre streets, to the Hotel Dieu. It appears that the man, who is a member of the crew of the Empress of France, was attacked and beaten up by his own companions and left lying at the corner of St. Peter and Andre streets until he was seen and the ambulance summoned.

It was later ascertained at the Hotel Dieu, however, that the unfortunate man, who is a Hebrew, was not seriously injured, but simply suffered from minor cuts and bruises.

## PROSKO IS NOW IN QUEBEC JAIL

### Remanded by Judge Choquette—Preliminary Hearing Set for Wednesday

Mike Prosko, alias Joe Bibouwick, was taken from his cell in the Provincial Police Station, yesterday afternoon to the Court of Sessions, where he appeared before Hon. Judge Choquette, who remanded him to jail pending the preliminary hearing of the case which will be held at Chicoutimi on the 14th instant.

The prisoner will leave here on Tuesday for Chicoutimi, and following the hearing will probably be brought back to Quebec and again lodged in jail.

The decision to hold the preliminary investigation in Chicoutimi was reached yesterday morning by the Crown. This was due to the fact that Prosko was not arrested in Quebec as was the case with the two men Morari and Debeka, now in the jail under sentence of death, the execution of which is set for Tuesday next, 13th instant. Many of the witnesses in the case are residing in the vicinity of Chicoutimi, and it will more convient for them to hold the hearing in that place. Amongst those who will be brought to testify at the hearing will be a woman from Montreal.

In the event of the prisoner being committed for trial, it is believed it will take place in this city at the next session of the Criminal Court Prosko has retained Mr. Alleyn Taschereau, K.C., to defend him and has pleaded not guilty.

## RECORDER DERY HAS RETIRED FROM OFFICE

### Is Succeeded by Deputy Recorder DesRivieres, Following Superannuation

Mr. Eugene DesRivieres, advocate and Deputy-Recorder, has been named as successor to Recorder Dery, who has been superannuated. The appointment of Mr. DesRivieres was made on Thursday last by the Provincial Government in executive session, and meets with general satisfaction. Recorder Dery, who presided over the Municipal Court for over thirty years, and who retires for a well deserved rest, was always looked up to with the greatest respect, not only as a conscientious and impartial Judge, but as an exemplary citizen. It is the wish of his many friends that he will live long and enjoy the best of health in private life.

Recorder DesRivieres, who succeeds to the office of Quebec Recorder, is still a young man of energy and legal knowledge, as he has demonstrated during the past five years that he has held the office of deputy-Recorder, which is a guarantee that he will carry on the duties of the office in the interest of the public morals of the city.

### REGISTRATION FEES

The Postmaster announces that on and after July 15th, the Registration Fee will be 10 cents instead of 5 cents.

### MORE READING MATTER REQUIRED

Although the collection of reading matter for the Czecho-Slovak troops, at Valcartier Camp, has been so far successful, much more is however required, and further request has been made for a further supply. It is therefore hoped that any citizen having any spare books, magazines and papers, French or English, would send them in for distribution to the men at the Camp. The collection closes Monday evening.

### IS ON VISIT TO FURNITURE EXPOSITION

Mr. O. Marceau, member of the firm of Marceau and Sons, well-known furniture dealers of this city, is at present visiting the Exposition of Fine Furniture at Grand Rapids, Michigan. He will also visit Chicago in the interests of his business and especially in view of the opening of his new store at 121 St. Joseph St., which is scheduled to take place early next October. Mr. Marceau will meet the foremost American furniture experts and will no doubt return to Quebec with all the most artistic and up-to-date ideas on the subject of house furnishings, and thereby be in a position to acquaint his clients with the last and most authoritative plans for beautifying the home.

The arrangements made for his new Furniture Emporium at 121 St. Joseph street are on a scale of excellence unsurpassed in the Province, and the opening day is awaited with impatience by all lovers of good furniture.

### GIFTS OF GLASS.

In the ruined villages of France there are no glass windows left in the shattered houses, and the inhabitants are using oiled paper. An ordinary pane of glass which cost less than a franc and a half before the war now costs between ten and twelve francs. And even at that price it is difficult to obtain, and still more difficult to transport. Oiled paper does not matter so much in the summer, when life is pleasant out of doors; but it will be a different story in the winter, when the family will have to spend the day indoors. A French newspaper recently appealed to those living in the unravaged districts of France to give up one pane of glass apiece for the benefit of their less fortunate countrymen.

## PARADISE FOR LUCKY KIDDIES

### I.O.D.E. Municipal Chapters Splendid Work at Portneuf Fresh Air Home

To live in a big green house with a group of smiling, carefree youngsters, to run out into the woods, the real green woods where you can pick the berries off the bushes your very self; to go in swimming, not in a pool but the very river itself, and around twice a day; to have a brown-eyed cheerful matron look after you and teach you "things"; to have visitors come out and arrange picnics and let you drive around in their cars all alone, to live each summer day—that is what the Fresh Air Home at Portneuf stands for to the children whom the I.O.E.D are bringing out every two weeks.

When the Municipal Chapter with Mrs. C. de . Finnis at the head, decided to bring the youngsters out, they saw to it that every detail of the programme was planned so that the kiddies would lack nothing. The location of the Home was chosen and Mrs. Lamplough's roomy house, set around with big trees a wide verandah, and the bedrooms facing the river, became the scene of bustling preparations, and Miss Weir became matron. Then the different committees were formed; the Central Committee, the Purchasing Committee, with Mrs. F.Marsh as convenor, which became busy and tooth brushes various articles of clothing and everything that a youngster needs out in the country had to be provided, while Miss Burstall, at the head of the Selection Committee, selected the different groups of soldiers' children, had them examined by the doctor and brought them out for their two-weeks holiday; and out at the Home the Entertainment Committee, under the charge of the General Turner Chapter, I.O.D.E., provided the books, the toys and drew up the day's programme.

The programme pinned on the wall of the corridor upstairs, reads; "On arrival, before going to the house, children to be washed, and put in clean I.O.D.E. clothes. No bathing allowed without permission of matron.

Day's Programme—7 a.m. Rising Bell; 7:15 a.m. Tooth Brush Brigade; 8 a.m. Breakfast; 8:30 Make beds and tidy the rooms; 9-12 a.m Games, bathing, etc; 12.30 Dinner. 2-3 p.m. Rest; 5:30 p.m. Tea; 8:00 p.m. Prayers; 8.30 p.m. Bedtime.'

But the mere outline of the day doesn't tell of the fun, the joy of each minute close to nature and under the open sky.

There are fifteen children out this week, ten girls and five boys, the youngest six years old, and all of them browned, healthy and happy looking. When the morning bell rings, the occupants of the clean white bed-rooms, jump out of bed help each other to dress and with excited whispers of "its going to be nice", "gee, ain't the river just grand!" hurry down to the bath-room, with individual comb, hair brush, face cloth and towel. Each child has its own laundry bag with its name marked in pencil on it The elder children do their own light washing once a week and feel so proud and happy that they are useful. Clean hands and faces, a bright smile, and the children go down to the dining room for breakfast.

Then after the cleaning up is finished, there comes the rush into the grounds; some don their bathing suits and with one great shout, race each other down to see who gets wet first. Others go into the library and with their favourite book under their arm find a quiet nook and forget themselves in the printed page Upstairs to dry and down again for dinner. Then for one hour they go to their bedrooms and lie down to rest and the whole house is quiet Then perhaps, Miss Weir reads a story or plays a game or sets the phonograph in motion before tea And more often they hear the sound of a motor and are quite sure, that it means a picnic, and ride in the visitors' car. The shouts and the laughter and the three hearty cheers given when the car leaves for the city. This is not the only ride. The baker, the butcher, the neighbours any passing rig know the happy bunch on the wide verandah and they are always glad to give them a lift to the village or the post-office

On Sunday the children walk in their white clothes to the Roman Catholic Church or the little Protestant Church at the end of the hill In the evening, all join in familiar hymns, while some of the neighbours come in and furnish the music. And then as each child trots up to bed the little head is bowed and a tremulous voice whispers "Oh God, please let me stay longer and I wish my mother was here too."

The I.O.D.E. is doing a great and a good work, the work of making little children happy and they need every encouragment the public can give them. A visit to the Fresh Air Home is not likely to be easily forgotten and one goes away with something learned. It is hoped that the time may yet come when, instead of only fifteen children at a time, the Municipal Chapter of the I.O.D.E. will be able to double and treble the number of their young charges.

### MARKED IMPROVEMENT IN PRINCIPAL FOOD CROPS

Chicago, July 9—Marked improvement in the principal food crops of the middle west has been reported in the last few weeks, in contrast to unfavorable prospects earlier in the season which gave rise to some alarm. "There is no danger that the country wil starve this year," is the comment that J. R. Howard, president of the American Farm Bureau Federation, made on reviewing the situation.

President Howard reported that the corn prospect was now very fair and that wheat was really better. Corn production promised to be a little under normal, but it was well cultivated and clean and would turn out well with good weather in July and August.

While the wheat crop would not be normal the crop condition was very fair. As against a lighter acreage there was a heavy carry over. Mr. Howard estimated that 30 per cent of last year's wheat remained on Kansas farms today. In Kansas and Oklahama a better wheat crop than last year is expected.

Oats were very short and showed no improvement, Mr. Howard added.

Crops are reported late.

North Dakota sends word of better crop conditions than for several years.

### OUTGROWS SERVICE

St. John, N.B., July 9—That the Canada and West Indies trade has outgrown the present steamship service, and that the Royal Mail Steam Packet Company is prepared ot put on a better class of boats if given a satisfactory contract over a number of years, were statements made by the West Indian delegates who arrived here enroute to Ottawa for a conference with government authorities on trade matters.

**CIRE SATIN POPULAR.**
Cire satin is quite as popular in hats as it is dresses. Because it has so many qualities that will contribute toward its success we may be sure of its continued use in spring and summer millinery. Its slight stiffness gives it an advantage over ordinary satin as a material from which to make an entire hat. Then its glazed surface makes it successful as a dust shedding material. It will be used in dark color only, the preference being given to brown, navy blue and black.

MUCH LOCAL SPORT OVER THE WEEK END

# LATEST IN THE WORLD OF SPORT

FINISH MEASURING RESOLUTE TODAY

## BOTH WRESTLING AND BOXING INCLUDED IN THE BILL AT THE RUSTIC THEATRE ON MONDAY

### Three Good Boxing Bouts and Wrestling Match on Card—Horace Jones to Meet Silas Green—"Spike" Sullivan To Be Pitted Against Empress' of France Fighter

The bouts that are going to be run off at the Rustic Theatre, Kent House, next Monday night promise to furnish plenty of excitement in each. There is a six round preliminary between Corrigan, the lad who stopped Charlie Chaplin Crevrier in the first round of their bout last Monday, and Redempti Paquet, which ought to provide the excitement to the semi final.

Spike Sullivan will meet Young Jendry in a ten round affair for the semi final bout. Spike staged a come back in a Quebec ring last Monday evening, and stopped Dave Marshall, of Montreal, who holds two decisions over Mike McTigue, in five rounds. His boxing was an agreeable surprise, even to his most intimate friends, and he ought to put up a great scrap against Jendry who hails from the Empress of France. Nothing is known of Jendry locally, but he is said to be a good man, and to be a hard hitter. Both men are light heavyweights.

Silas Green, and Horace Jones will furnish the fireworks in the final. Each has been after the other's scalp for the last eight or nine months but Monday night will be the first time they will have had an opportunity of meeting together in the same ring.

Green is well known, having met the best of them. He was defeated recently in Baltimore by Kid Norfolks, the champion colored heavyweight boxer in the States, but that is no disgrace.

Jones has not been seen in a local ring since he stopped Rocky Knights at the Rustic Theatre last year. He is said to be under the management of Jack Twin Sullivan, and is reported to have improved one hundred percent in his fighting since going under Sullivan's care.

Although the program was only announced yesterday, there has been a great demand for seats already, and from all indications there will be a packed house when the first pair of combatants step into the ring to commence their wrestling match. The names of the two grapplers is not yet made public, but they are reported to be good men.

Alfie Lynch will act as third man in the ring for the boxing, while Ad. Audette will be the referee for the wrestling.

## FRONTENACS TO MEET FIREMEN

### In League Lacrosse Game Tomorrow Afternoon at the Kent House—Good Races

The Firemen, who clash with the Frontenac twelve to-morrow afternoon at the Kent House enclosure, Montmorency Falls, in a scheduled Quebec and District Lacrosse League game, will leave no stone unturned to gain a victory, and thus have the honor of being the first team in the league to spoil the clean sheet at present enjoyed by the wearers of the Blue and White.

True, the Firemen have not been meeting with any luck in their last couple of games, but they claim that is all the more reason why they will start a winning streak by taking the Frontenacs into camp to-morrow afternoon.

Both teams have been training hard for the game, and the Firemen in particular have been making special efforts to be in the best possible condition when they step on the grass to-morrow afternoon to commence hostilities.

The last lacrosse game at the Falls attracted in the vicinity of four thousand people, and there is no reason why all games should not be just as well patronized.

To-morrow, in addition to the lacrosse game, there will be held the remainder of the sports that were scheduled for Dominion Day, such as the tug of war, the half mile run, and the quarter mile race, so that there is a big program to be seen by those who go down to witness the game.

## *Sporting Notes*

Quebec sportsmen will have enough to interest them over the week-end. Horse racing both today and tomorrow, football this evening; lacrosse, baseball and foot races to-morrow afternoon. Who could ask for more?

• • •

The Boston Braves cut down the Cincinnati Reds' lead in the National League pennant race by taking them into camp yesterday to the tune of 3 to 1.

• • •

The protest made by the C. N. R. lacrosse team against the Frontenacs for their game on Dominion Day at the Falls was sustained by the Board of Arbitration and the game annulled. It will be replayed if it has any effect on the championship.

• • •

Cleveland doubled the score on Washington in the American League yesterday, and thus retained the lead.

• • •

The following gentlmen will represent Quebec today in a match with the Sherbrooke Golf Club at Sherbrooke: Sir George Garneau, H. Mills, J. McManamy, W. Mungall, P. Garneau, H. Price, H. Bosse, G. Van Felson, A. W. MacAllister, L. Garneau, Major J. Roy, G. Parent and F. Locke, the professional of the club.

• • •

It is expected that the Resolute, the America Cup defender, will be launched again today, at the rate of progress that is being made with her measurements. The Shamrock is expected to be out of drydock on Monday next.

• • •

There is not much space between the first three clubs in the International League, only about half a game separating the first and the third clubs.

• • •

Babe Ruth may be the mightiest batsman of all, but he is one of the most ludicrous sights as a base stealer in the majors. Miller Huggins has forbidden him to try and pilfer sacks as he dives head first, and Hug is afraid that Ruth will break his wrists some time trying to grab the bag.—Ottawa Journal.

## LEGAL BATTLE OVER RINGER

### Being Prepared To Decide Who Shall Possess the Colt "Little Boy"

Ottawa, Ont., July 9.—A lively legal battle is being prepared to decide who is to possess "Little Boy" the colt which galloped home winner in the fourth race at Connaught Park on Monday June 21 and is alleged to be a "ringer".

The case will come up in the Hull Superior Court next Wednesday. Solicitors acting for Mr. Fred Bamford, of Detroit, who claims to be the real owner of the horse, have appealed to the court to have "Little Boy" turned over to their client, while the Connaught Park Jockey Club has filed notice of motion to have the horse returned to the Club. Representatives of the Racing Association, which authorized the Connaught Club to seize the animal are coming here in connection with the dispute. Meanwhile "Little Boy" is being closely guarded by men appointed by court officials.

Attend the Big Shoe Sale of The American Shoe Market 251 St. Joseph street, today.

Out on the coast they claim to have a man named Paddock who can do the 100 yards in 9 2-5 seconds. He was caught unofficially in this time and predictions are made that when he enters the Olympic games, for which he seems to be pointed, he will break a long established record.

## Big Horse Races

EXHIBITION GROUNDS, Saturday-Sunday, July 10-11

PROGRAMME.—First Day:

2:24 Trot.....$200.00
2:25 Pace.....$200.00

### VEYSEY QUALIFIED

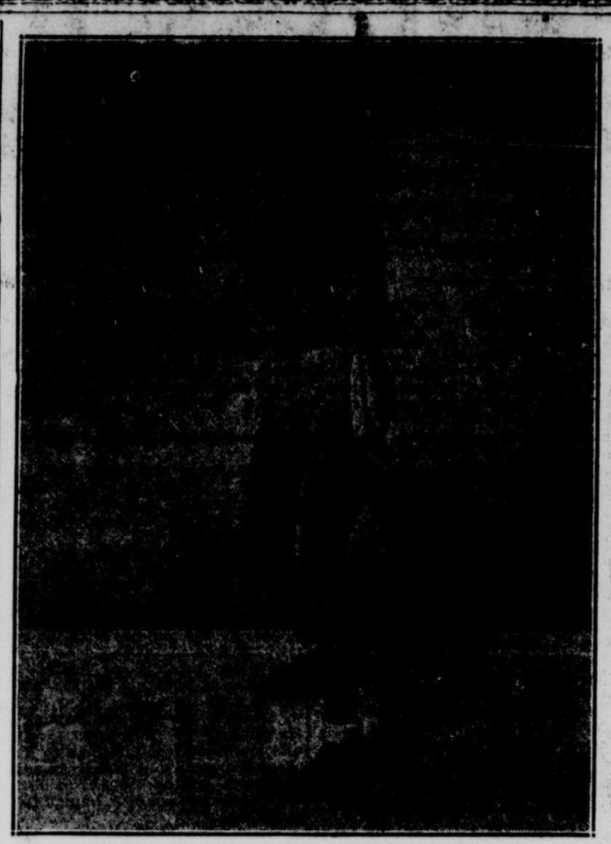

Montreal, July 9—In the Province of Quebec Lawn Tennis Tournament here A. J. Veysey today qualified to play in the challenge round for the singles championship by eliminating H. Morin.

P. L. Douglas won the junior open singles championship from A. O. Gilpin.

To-morrow the open singles tennis championship is fought for between E. H. Laframboise, the present champion and A. J. Veysey. Miss Boyd will defend her title as champion of the ladies open singles against the winner of the match between Miss Ogilvie and Miss Simpson.

### GREB BEAT WILLIAMS.

Buffalo, N.Y., July 9—Harry Greb, Pittsburgh, outfought Larry Williams, Bridgeport, Conn., in a ten-round bout here last night. Both are light heavy-weights and fought at catch weights.

SILAS GREEN, who meets Horace Jones in the main attraction at the Rustic Theatre, Kent House on Monday evening.

## HORSE RACES AT THE EXHIBITION

### Will Be Held Both This Afternoon and Tomorrow—Good Races Promised

The horse races at the Exhibition Grounds this afternoon and tomorrow afternoon promise to provide local horse lovers with a sufficiency of thrills.

There are two classes this afternoon and three tomorrow, and the best horses in the Province are entered for the events. The third race that was scheduled for this afternoon had to be cancelled owing to the very inclement weather we have enjoyed all week in Quebec, but the two races this afternoon will, if one is to judge by the entry list, make up for the loss of the third event.

The entry lists for this afternoon and tomorrow afternoon are as follows:—

2:24 Trot—Grace Dawn, Lew Aquilin, Miss Marble, Transact, Lena Peters, Bob Dromore.

Classified Pace—Iwanna, Bingen R., Dolly G., Lauretta Patch, Grand Opera, Frankie Bogash.

**Sunday.**

Classified Pace—Rolling Joe, Peter Alexander, Miss Marble, Bob Dromore, Trassact, Robin Red Breast, Frankie Bogash, Lena Peters.

2:15 Trot, $200.00 — Guy Boy, Lauretta Oakland, Stephens, Montferris, John Mack.

Free For All—Judge Ormonds, Dolly G., Bingen R., The Assessor, Iwanna.

### OLD COUNTRY CRICKET.

London, July 9—(By Canadian Associated Press)—In the cricket championship test, Leicestershire today beat Derbyshire at Leicester by wicket, the scores being: Leicestershire 83 and 182 for four wickets; Derbyshire, 144 and 118. Rain caused the Worcestershire-Sussex match to be abandoned.

Surrey and Hampshire drew at Southampton, play only being possible on the last day, and the same thing happened in the Gloucestershire-Sussex match at Bristol.

Hobbs, in the Surrey innings made 165, his eight three-figure innings this season.

## ST. PATRICK'S MEET THE NAPS.

### Dominion Arsenal and Athletics Will Stage Game Before City League Match

There will be two baseball games to-morrow afternoon at the C. B. grounds, despite the refusal of Standards to perform. Bell Telephone and C. B's were to have staged an exhibition game, but last evening it was arranged that the Dominion Arsenal and the Athletics would run off an Intermediate League game at 1.30 at the C. B. grounds, preparatory to the City League fixture.

St. Patricks and Napoleons is the tit bit offered to real dyed in the wool ball fans. These two teams staged one heartbreaking battle at the Exhibition Grounds in the not very far distant past, which went to the Levisites by a 5 to 4 count, but since that time manager Billy Walsh has been breathing vengeance, and declares that his chance has come, and that he will trim the Naps so darned bad that they will wish they had never won the other fixture.

The game ought to be a corker, and will no doubt be one, if the weather man has not got his bad eye open. The opposing batteries are likely to be Metivier and Pitcher with Piton and Acquin or McGowan behind the bat respectively. Whichever way the game pans out, it will be one hotly contested battle from start to finish.

The umpires will probably be Joe Ledden and H. P. Drouin.

### SCOTLAND WON THE ELCHO SHIELD

### Came From Behind To Defeat England At Bisley Yesterday Afternoon

Bisley Camp, England, July 9.—(By Canadian Associated Press).—The Elcho Shield match between England, Scotland and Ireland furnished one of the best contests for this trophy of recent years today.

England which had such noted shots on the team as Major P. Pixley, Dr. Kelly, Colonel Hopton and C. Marck, led by three points in the first stage. Half way through the match, Scotland led by three points. Final resut was: Scotland 1,582; England 1,529; Ireland 1,479. The highest score was made by Lieut. A. E. Martin, nephew of Captain F. R. Martin, of Calgary, who scored 207 for Scotland, his father in the same team scoring 199. The highest score for England was 201 by Mack of North London.

Additional Canadian winners in the sweepstakes were Private Geo. Weir, of Toronto; Captain F. R. Martin, of Calgary; Lieut. J. O. Nix, Winnipeg; Captain C. R. Crowe, of Guelph; Sergeant James Boa, of Montreal; Utton and Sergeant Major F. Goodhouse, Ottawa.

The Hopton Cup match rifle aggregate winner was Captain J. E. Martin.

### JOHNSON AND TILDEN WERE BOTH WINNERS

London, July 9—(By Canadian Associated Press)—At Eastbourne today, Johnson and Tilden, both of the United States, beat the Frenchmen, Cobert and Laurents, in the lawn tennis singles, thus winning the first two of their five matches, namely, four singles and one double, in the Davic Cup competition.

The winners at Eastbourne have to play the English representatives at Wimbledon, and then comes the play at Auckland, New Zealand in December next.

## NO TENNIS GAMES IN QUEBEC TODAY

### Montreal Players Will Not Be Able To Come Down Until Later

There will be no matches between the racquet experts of Quebec and Montreal this afternoon at the Quebec Lawn Tennis Club courts

Messrs. Cassils, Brown, Laframboise, Dunlop and Grier, all notable exponents of the great summer pastime, were expected to make the trip to represent the Metropolis, but owing to the inclement weather in Montreal the Provincial Tournament is just finishing, and therefore the Montrealers will be unable to play here today.

It is probable, however, that they will come down next week. The following members of the Quebec Lawn Tennis Club have been chosen to represent the Quebec Club at Shawinigan Falls to-morrow. Messrs. E. Savard, C. Murphy, H. P Hamel, Horace Coulombe, Dr. Jos. Labrecque and J. des R. Tessier. With such a powerful sextette representing the Ancient Capital, it is impossible to imagine otherwise than that Quebec will make an excellent showing at Shawinigan.

### THIRTY NATIONS IN FOR OLYMPIC GAMES

### Opening Five Weeks Off in Belgium — New Dates Are Announced

Antwerp, Belg., July 9. — Five weeks before the opening of the Olympic games at the Stadium, and with the entries rapidly closing, thirty nations have entered for the contests, two of them being China and British India, which have not hitherto been listed as probable competitors.

The Olympic committee has received a cablegram from the Argentine Committee indicating that Argentine will not enter the Olympiad. The cablegram said:

"Unable to sail. A thousand regrets". Chile and Brazil are the only South American countries entered. Mexico will have contestants in several events. In addition to the countries already named the following may stand as the official list of competing nations:

Australia, Belgium, Canada, Denmark, Egypt, Spain, the United States, Finland, France, Great Britain, Greece, Holland, Italy, Japan, Luxemburg, Norway, New Zealand, Portugal, Poland, South Africa, Rumania, Sweden, Switzerland, Czecho-Slovakia and Jugo-Slavia.

A number of changes in the dates for events have been made by the executive committee. The new dates for polo will be from August 24 to Aug. 31; for weight throwing August 28 to August 31; Pentathlon August 16; Boxing August 20 to August 23; Greco-Roman wrestling August 16 to 19; free wrestling August 24 to 27, and fencing August 15 to 23.

Harry's Jazz Band (with the new Banjo player) at the Island dances tomorrow afternoon and night.

### DIBBLE CHALLENGES KELLY

Toronto, July 9.—Bob Dibble, the Canadian oarsman who was defeated by Jack Kelly on the Schuylkill River last Monday, has challanged the United States champion to race him at the Canadian Henley. Dibble takes no credit away from his conqueror, but believes that under equal conditions he can reverse the table and prove he is the better oarsman.

### ADVANCE GUARD ARRIVE.

Toronto, Ont., July 9—The advance guard of Western Canada's Olympic representatives arrived in the city today. They are: John Cameron, all-around champion of Canada, who is going in for the Olympic Decathlon; Archy McDiarmid, a 56-pound weight man, and John Murdock, a hammer-thrower, all from Vancouver. They will train here a week under Coach Walter Knox and then go to Montreal for the Olympic finals.

A country outing, with city amusements. Go to the Island Dance. Boats leave tomorrow afternoon at 2:15 and 7:45 at at night.

# Fontaine-Masson Week

Opening of the big sale organized, directed and controlled to give all the advantages possible to purchasers.

## THE BEST OF ALL MARKETS

| First Call | Second Call | Third Call |
|---|---|---|
| Sweaters in White Jersey ..... 44c | Camisoles in White Canvas ..... 69c | Sailors in Straw for Boys ..... 19c |

### TO TEST THE MEN.

Each of our employees is liable to become one of these young chiefs, manager and even co-associates of our store. To render account of the aptitudes of these chiefs, the Direction has organized a contest which will give to each of them the chance to show his spirit of enterprise and initiative.

To all the clerks go the proportions of the store, and they will have the task of organizing a sale of one week, and following their personal ideas, and their manner of proceeding, the store will supply all the means and put the thing in action.

The emulation is already great and inspires hope of much success.

Messrs. Theodore Fontaine and Oscar Masson are the two chosen to open the series. They ask encouragement, and their friends and clients have promised them favors such as they have never known.

The public has much to gain during this sale of inauguration. They will be recompensed for the couple who have obtained the best results.

Encourage these excellent employees by purchasing during their respective weeks. You will be rendering service to yourself.

## THE FONTAINE MASSON SALE

Listen to the call of the bell, it calls you to participate in the very great benefits.

Two of our oldest chiefs of departments have taken over the direction of the store for one whole week, and want you to come and encourage them.

It is proposed to effect a great displacement of merchandise with a big crash in reductions. The Store will change its aspect.

These gentlemen have carte blanche in the administration, and may do what they wish without dissent.

It will be interesting for the public to assist at this sale of a new kind, where they can see and wonder.

The sale will start on Monday, July 12, at 8 a.m., and will terminate at 9 p.m., on Saturday, July 17.

NOTICE.—For all information regarding the sale or the purchase of merchandise from the 12th to the 17th, clients are requested to address themselves to Mr. T. Fontaine or Mr. O. Masson, who are the directors of the sale, recognized by the directors.

## *Chronicle's Review of Coming Attractions For Next Week*

### THE CLASSIC.

For Monday, Tuesday and Wednesday, the management of the Classic have secured Olive Thomas, described as the "prettiest girl on the screen," in her latest and most recent effort "Love's Prisoner."It is a fascinating tale of a lady Raffles with the charming and popular demure little star at her very best,and should go big with Quebec theatregoers.

A Chester Outing picture, as well as a comedy, Topics of the Day and the Classic Weekly News are also on the bill.

The attraction at the Classic for the three last days of the coming week is Pauline Frederick in "The Woman In Room 13," and it is said to be one of the best pictures that this talented star has ever appeared in.

It concerns the terrible crisis in a married woman's life when the other man enters, and Miss Frederick has a role in the production that is simply superb. Her acting is unequalled, while she is supported by an exceedingly powerful cast. The settings of the picture are also excellent, while the story itself is one of intense dramatic interest, full of heart appeal.

It is a thrilling mystery drama wherein the souls of women are tried by the sins of men, and there is no doubt that big crowds will witness the showing of this picture in Quebec.

A side splitting two reel comedy entitled "Close To Nature," featuring Mr. and Mrs. Carter de Haven, and the eleventh episode of the enchanting serial "Trailed By Three" are also on the bill.

### THE EMPIRE.

Two well known and popular stars enact the leading roles in the picture which comes to the Empire for Monday, Tuesday and Wednesday of next week. Carlyle Blackwell and Evelyn Greeley. The story entitled "Hit Or Miss" is a comedy drama, tells of a vagrant love and has an original plot which furnishes engaging entertainment to those who delight in romantic stories.

An exciting two part outdoor drama, with Daredevil Hoot Gibson in another strenuous role, is an added attraction. A polite Strand comedy and the latest News Weekly are also down for Monday.

For Thursday, Friday and Saturday, "The Day She Paid," Fanny Hurst's remarkable story which appeared in book form as "Oats And The Woman,' will be the stellar attraction. This picture is a hugely dramatic ultra modern story of models and morals and the past of a model wife. For such a story it was necessary to find an actress whose talents and personality would flawlessly picture the anguish of soul through which the heroine of the story had to pass and Francelia Billington was selected for the role.

Another episode of the tremendously popular serial story "The Lost City" and a high powered comedy complete the week-end program.

The Empire, built along hygenic lines, with its extra high ceilings and air circulating vents, offers perfect ventilation and a surprising degree of coolness these warm days.

### THE VICTORIA.

For the first three days of the coming week, the management of the Victoria have secured a five reel feature comdy, starring that ever popular comedian ,Max Linder. "The Little Cafe" is his first screen appearance in several years, and the leading man has a noble part. Linder was one of the earliest of screen comedians, and his name was among the first of fun makers to become known to the public. A native of France, Mr. Linder fought in the war and was wounded at Aisne and discharged as unfit for further service. He then came to the United States and made several comedies, but complications resulted from his wounds and he was forced to give up picture making and return to France. "The Little Cafe" is his first screen appearance in several years.

The last episode of that fascinating and enthralling serial "The Trail Of The Octopus," which has attracted thousands, is also on the bill, as is the Pathe Weekly showing the inspection of the Czecho-Slovak troops at Valcartier Camp on Dominion Day by His Honor the Lieutenant Governor. A comedy is also on the bill.

For Thursday, Friday and Saturday Dorothy Dalton will be seen in "L'Apache," a big special production. "L'Apache" is Miss Dalton's latest picture, and it contains a powerful story of compelling interest.

The tenth episode of the latest William Duncan serial, "The Silent Avenger," and an Al St. John comedy are also on the bill.

### THE AUDITORIUM.

Tomorrow afternoon and evening the Auditorium will offer another splendid bill. Lillian Walker will be seen in the fourth episode of "$1,000,000 Reward," the fascinating serial that is attracting crowds to every performance, as well as Elsie Ferguson, the famous society beauty in her latest effort "A Society Exile," a picture that dwells with dramatic force on the ups and downs of society. The settings and costumes are gorgeous, and the picture ought to go over big. A Ham and Bud comedy entitled "A Melodious Mix-Up" is also on the bill.

For the first three days of the coming week, a big special production with an all star cast entitled "When Bear Cat Went Dry." This is a picture that is full of pep from the word go, and has a powerful story. Miss Ferguson is seen to exceptional advantage.

A Kaufman Weekly entitled "Pity The Poor" and a Hank Mann comedy in two reels entitled "The Billposter," are also on the bill. In this picture Mann is supported by his galaxy of beauties that have gained international fame.

Thursday, Friday and Saturday, Elaine Hammerstein, the ever popular favorite, will be seen in "Whispers." The showing of this picture in Quebec next week will mark its release in Canada.

A Pollard comedy, entitled "Don't Rock The Boat," and another Kaufman Weekly are also on the bill.

Coming, "Male And Female."

# Still 7 Days For You To Profit

## By OUR SALE of BOOTS and SHOES

**BEFORE MOVING**

We will finally close our "Store of Honest Bargains" at 88 St. Joseph Street, on Saturday Evening, the 17th instant, and will re-open in

**OUR NEW STORE**

**316 ST. JOSEPH STREET**

WHEN we commenced this Big Moving Sale we expected it to continue throughout the month of July, but the public have profited by our Reductions to such an extent that our lines are beginning to get broken :: ::

SO that, rather than sell with a stock of broken lines, we will close our Store earlier than at first intended, in order that we may better serve our customers with complete lines and good assortment :: :: :: ::

# EVERJET ELASTIC PAINT

For METAL WOOD and all EXPOSED SURFACES

EVERJET ELASTIC PAINT is a lustrous black carbon paint that combines the qualities of cheapness and durability. It is bituminous product and is elastic adhesive; will not rub, peel or scale; will not become brittle and crack; is impervious to moisture; can be used in any climate; resists all action of acids, alkalies, gases, steam vapors, etc.

IT is superior to the majority of carbon paints, as it is never cheapened by the admixture of coloring matter or so-called fireproofing sediments.

## SITUATION SAID TO BE CRITICAL

**Sweden's Attitude Over the Aland Islands Promises To Cause Trouble**

Stockholm, July 9—A critical situation has arisen between Sweden and Finland over Sweden's attitude toward a delegation from Aland Islands which represented to the Swedish government that the population of the islands desired self-determination on the basis of referendum. After a sharp exchange of notes between the two governments a battalion of Finnish troops has been landed on Aland and encamped near Mariehamn

The Finnish Government has arrested two leaders of the Aland population on a charge of high treason.

Sweden has despatched a note to Finland urging the Finnish government to consent to a plebiscite by which the population of the islands would decide whether they shall belong to Sweden or Finland but it is understood the Finnish government is unshaken in its determination to oppose any such measure

Offical opinion here is that Finland's attitude is based upon the assumption that the initiative for separation of the Alands from Finland was taken in Sweden, whereas, it is declared the agitation began with Alanders who based their right on self-determination on historical grounds and upon principles recognized by the League of Nations.

The Finnish Government has announced that it "absolutely rejects all such claims as are irreconcilable with her soverignty over the Alands, which Sweden recognized without reservation."

The Aland archipelago, in the Gulf of Bothnia, consists of 80 inhabited islands, with a population of 24,000 of whom 12,000 reside on Aland island, the principal town of which is Mariehamn. The Islands formerly belonged to Sweden but were taken by Russia in 1809. The Finnish government holds that the political importance of the islands is so great that no Finnish government could cede them to a foreign power and that united with Sweden they could constitute a constant source of danger to Finland.

# "AQUITANIA" IS BACK IN HARNESS

## Is First of Cunard Fleet To Be Transformed Into Oil Burning Vessel

After having been off the trans-Atlantic route for eight months, the Cunarder "Aquitania" re-enters service when she sails from Liverpool for New York on July 17th next, to return to Cherbourg and Southampton on July 31st. During her tie-up she has been completely refitted, even improved in some structural details making for the greater comfort of passengers. She also has been converted into an oil burner, being the first of the present Cunard fleet to be so transformed. As a result it will be possible to bunker ship in about six hours without noise or dirt.

Leaving Liverpool on her maiden voyage, May 30th, 1914, the 'Aquitania" arrived early on Friday, June 5th, at New York, having covered a distance of 3,181 miles at an average speed of 23.10 knots. On two days her speed averaged well over 24 knots. The return voyage was accomplished at an average speed of 23.45 knots.

The "Acquitania" had just completed three round voyages between this country and America when war broke out; rapidaly converted into an armed merchant cruiser, carrying six-inch guns, she left the Mersey on August 8th, 1914, for Patrol duties. Later on in the war she served as a hospital ship, and then again the spring of 1918 she was employed as a transport, rushing American troops to Europe.

Subsequent to the Armistice, the repatriation of troops and heavy demands of the passenger trade kept the "Acquitania" busy, and it was not until the end of last year that she could be withdrawn from service for re-conditioning and conversion to an oil fuel burner.

Since November 30th, 1919, she has been lying at Messrs. Armstrong, Whitworth's Walker yard, at Newcastle-on-Tyne, where the work of refitting has been in progress.

When the "Aquitania" sails from Liverpool on July 17th, she will be a more luxurious, comfortable and beautiful ship than ever before.

Since the work of re-conditioning has started, there has been working continually on her an average of one hundred and sixty joiners, eighty painters, and thirty polishers. Not an inch of the ship but has been cleaned or re-painted, new carpets have been very largely supplied throughout the ship, and new rubber tiling for the floors, but the furniture itself is in most cases the furniture that the ship carried on her maiden voyage. This has been stored in the company's own warehouses since August, 1914, and such is its quality that it has not deteriorated in the slightest, indeed, and additional reason for the replacing of the old furniture is, that such beauty and strength could not be obtained at the present day. No new ship, can hope to vie with the "Acquitania" in the magnificence of her appointments. The wonderful prints and paintings which adorned the public rooms and many of the state rooms of the ship have been replaced.

Many improvements have been effected, among which the following are the most important. On "D" Deck, in the reception room opposite the great restaurant, a bank and enquiry office, or information bureau, have been installed. To the swimming bath and gymnasium have been added a big sun-bath room. The state-rooms on the boat deck have been converted into one-berth rooms, each fitted with a bed and settee, and the whole of "C" Deck amidships has been perfectly rebuilt. The state rooms have been greatly enlarged, and in order to obtain this result, the original accommodation has been reduced to thirty-two rooms. Many of these staterooms now have private dressing rooms.

The dimensions of the "Acquitania" are:—

| | |
|---|---|
| Length | 901' 6" |
| Breadth moulded | 97' 0" |
| Depth | 64' 6" |
| Dept from boat deck | 92½ 0" |
| Gross Tonnage | 46,647 tons. |
| Average speed | 23½ knots |
| Height to top of funnels | 164' 0" |
| Height to mast head | 220' 0" |

It will be interesting to note some of the advantages to be gained in this particular vessel by conversion to oil fuel burning, which will account for the action of the Cunard Company in laying up nothing of the cost of equipping the ship for oil burning.

As is well known, with coal fired boilers there is always a considerable loss, of steam every watch, through burning down and cleaning of fires.

In the "Acquitania" there are 168 furnaces. Assuming that twenty-eight fires are cleaned every watch, approximately 8,000 H.P., is lost every four hours. With oil-fired boilers there is no such loss incurred as the oil can be supplied continously to the burners, and the heating maintained so that a constant steam pressure can be kept up. This will have the effect of improving the speed of the vessel.

As the temperature of the boilers is maintained at constant figure the bill for boiler repairs will be considerably reduced. There will be no ashes to remove, and consequently no dust and inconvenience to passengers from that source.

The absence of noise and dust when bunkering is also not to be overlooked in a vessel of this type and size.

The comparison of the Atlantic Greyhounds to express trains will be accentuated in the case of the "Acquitania" by the rapidity with which it will be possible to turn the ship round for the return journey.

Very specal attention has been given to the accommodation on the ship for the oil fuel attendants and cleaners. The rooms provided make a new standard of comfort, for cabins containing two, three or four berths each have been fitted up for the boiler room complement.

### Oil Fuel Installation

The many advantages obtained by discarding coal are now generally well known. It is not surprising, then to learn that the Cunard Company, a unique opportunity having presented itself, decided to convert their latest and largest vessel, the "Acquitania" from a coal burning ship to an oil burning one.

### Storage of the Oil

One of the advantages claimed by the use of oil fuel in ships is the additional cargo space available due to the fuel being carried in the ship's cellular double-bottom tanks. The "Acquitania" however, is not a cargo carrier, and it was not a practical proposition to utilize the orginal coal bunkers for cargo purposes. As no great advantage was to be gained by using the double-bottom tanks for storing the oil, it was decided to reconstruct the coal bunkers for oil carrying.

In this ship, with a beam of ninety-seven feet, with three large double-ended boilers arranged abreast, there remains a space of about eighteen feet amidships gradually reducing to six feet at the forward end of the boiler space, which formed the coal bunker on each side and in this space, extending the full length of the boiler space, a matter of 369 feet, the oil is carried. These side tanks do not form one continuous group on each side, but are broken into two groups, port and starboard, by Frahm's anti-rolling tanks, which take up thirty-two feet of the length. In addition to these side bunkers, large athwartship bunkers, arranged forwarded of No. 1 boiler room, between Nos. 1 and 2, and between Nos. 2 and 3, have also been made suitable for oil carrying. The large storage capacity in these side tanks and cross bunker tanks, however, did not prove sufficient to enable the ship to perform the double trip without requiring replenishing, so that six of the double-bottom tanks have been made suitable for oil, to enable the 7,600 tons of oil required to be shipped at New York. Of the total quantity, 5,200 tons will be carried in the fore and aft side bunkers, 1,900 tons in the athwartship storage tanks, including the double-bottom tanks, will be used solely for oil, no water ballast connections being provided. These connections are usual where double-bottom tanks are used for oil, and involve many complications.

### Reconstructing Bunkers.

To make the coal bunkers suitable for carrying oil, a large amount of structural steel work has been necessary. For instance, all the bunker bulkheads have been specially stiffened, so that deformation will not occur with the weight of all pressing against them.

All the plate joints have been specially treated, the general practice adopted being to fit stout double riveted joggled plate straps over each plate landing, making a thoroughly oil-tight joint. Special attention has been given to plating and riveting of all steam pipe trunks and passages where these penetrate the cross bunkers.

Transverse wash bulkheads have been fitted in all the side bunkers, and suitable wash bulkheads have also been constructed in the cross bunker tanks to ensure that oil is not in any way affected by the movement of the ship.

For the full length of the side bunkers, and also round the cross bunkers, gutterways have been constructed to catch any oil which may find its way outside the tanks through leaky joints. In communication with these gutterways are bilge wells in each boiler room from which the oil bilge well pumps draw.

In the cross bunker storage tanks forward of boiler rooms Nos. 1, 2 and 3, four settling tanks have been constructed, each tank being of sixty tons capacity. In No. 4 boiler room two settling tanks of similar capacity each have been incorporated in the side bunkers, one port and one starboard.

In this ship, it will be remembered, there are four boiler rooms, the three forward ones each containing six double-ended boilers, and the after one three double-ended boilers. Two settling tanks, it will be noted, are provided for each group of three boilers.

In certain parts of the boiler rooms the side bunkers overhang the wing boilers, and to ensure that there will be no chance of oil dripping on the hot boiler tops, special screen plates have been fitted in way of these overhanging parts, so that any oil which may leak through will be directed to the oil gutter below.

In addition to the special riveting which has been adopted to ensure oil-tight points on all the tanks, electric welding has also been largely employed, with the result that a thoroughly sound and substantial tank construction has been made. The oil fuel will be burned under the "White" low pressure mechanical system, which has proved efficient and reliable on existing oil burning vessels.

### Pumping The Oil.

The pumping and heating plant has been supplied by Messrs. Brigham & Cowan, South Shields, and a complete installation in duplicate has been provided for each group of three boilers, that is, in the large boiler rooms each containing six boilers there are four sets of pumping and heating plants, while in the small boiler rooms there are two sets. This ensures that only under very exceptional circumstances will the supply of fuel to the burners be interfered with through any fault of the pumping plant.

The pumping and filling arrangement throughout the ship has been prepared on a very substantial scale with a view to ensuring the satisfactory operation of the ship under all circumstances.

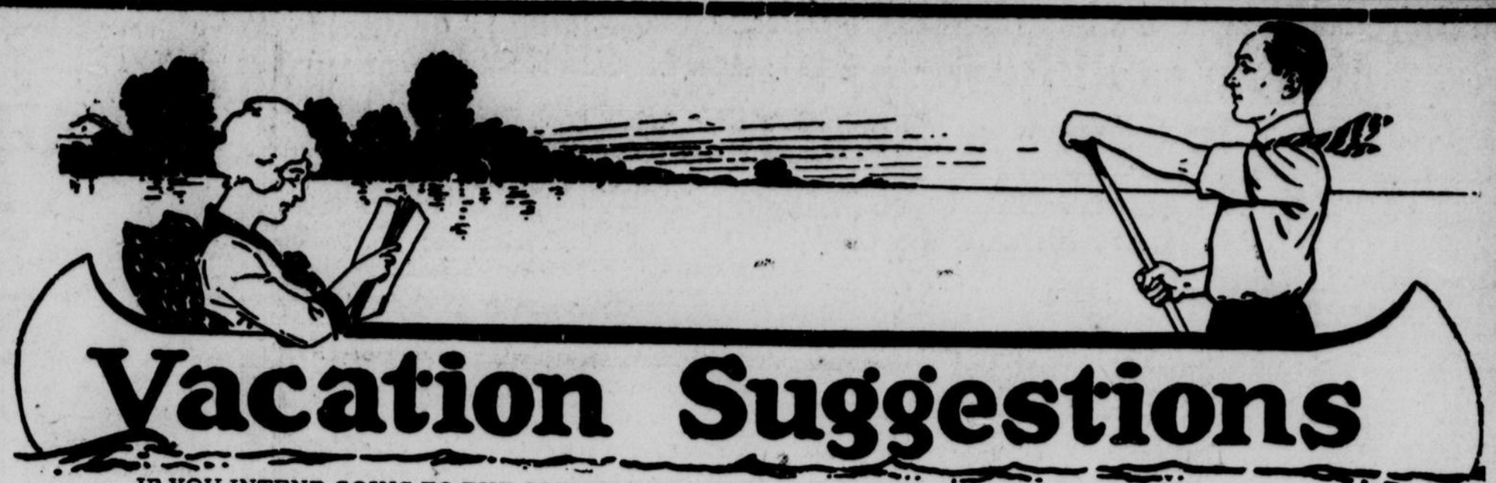

For the full length of the boiler rooms two suction and filling mains, 8" bore, are fitted, one port and one starboard. In each boiler room these mains are cross connected, and in addition suitable shut-off valves are provided, so that the system in one boiler room can be entirely isolated from any other boiler room.

### "Bunkering" the Ship in 6 Hours.

Special attention has also been given to the bunkering arrangements so as to ensure that the minimum of time will be required to bunker the vessel. Each boiler room is provided with two 8" filling pipes from the working deck, one port and one starboard. These pipes communicate with the suction mains already referred to.

Special filling compartments have been arranged on "E" deck, where the connections for coupling to the tank steamer or shore hose are fitted. These compartments are entirely separate from adjoining accommodation, so that should any oil escape from the save-all trays which are fitted under the valves and strainers the oil will not be free to

# Duke of Devonshire Keeps His Date

Canada is crowing over the exploits of a new Canadian Pacific Ocean Services' liner, the Empress of France.

The Duke of Devonshire promised Sir Auckland Geddes, by cable, that he would preside at a dinner given to the new British Ambassador at Washington by the Canadian Club at the Prince's Restaurant, Picadilly, London, England. The specific purpose of the Duke's visit, however, was to attend the wedding of his daughter, Lady Dorothy Cavendish, to Captain Harold MacMillan.

He was to sail on the Empress of France. Things looked bad at the start when the boat's schedule read "Sailing from St. John, N. B., March 13th." The 13 was a hoodoo right enough because a terrible gale set in with such fury that it was deemed advisable to delay the sailing twenty-four hours.

Capt. Cook, the commander, consulted by the Duke, gave a solemn promise, "Your Excellency will be in Liverpool at the appointed time on the stroke of the clock—if the ship's engines can manage it." Steam gauges were never so popular. Stokers were heroes. A spirit of adventure tightened the nerves of all on board. The Duke kept his date.

Just as an after-thought, the Hoodoo of the 13 tried to break the Duke's promise by hanging a dense fog over the Mersey, but by cautious navigation Capt. Cook brought his great vessel to anchor opposite the Prince's Landing Stage at Liverpool at six o'clock on the morning of March 23nd, the date and hour scheduled for its arrival.

# Druggists and Doctors Astonished At Wonderful Power of Nicotol To Stop the Use of Tobacco

## To Detect Harmful Effects of Tobacco Try These Simple Tests

New York—Mr. Tobacco User, any druggist will tell you that a remedy to be successfully sold must, above everything, possess, merit, otherwise failure is inevitable. Nicotol, the famous remedy for the tobacco habit, was a success right from the start, simply because it quickly does the work promised. We publish a few letters from some of the best known druggists in the country to give you an idea of what they think of Nicotol, and you may rest assured that they would not permit the use of their names unless Nicotol was something out of the ordinary. The Peoples Drug Stores have five of the best stores in Washington, D.C. They write: "Since we have handled Nicotol the sale has been greater than that of all the rest of the articles of this nature which we have ever sold. The demand was so great that we were compelled to order it locally pending receipt of a shipment from you direct." Schramm-Johnson, who have six stores in Salt Lake City, say: "We take this oportunity of expressing ourselves relative to Nicotol. We have enjoyed a very large sale on same and it has given entire satisfaction to our customers." Jacob Brothers of Philadelphia, Pa., have this to say: "Our sales of Nicotol have passed our expectations. Our first order was placed late in March and we were forced to re-order before the end of April; the sales have kept up well ever since. There is no doubt that we are receiving many repeat orders from our customers and many expressions of opinion regarding the merit of this article have been very favorable." Dr. Conner, formerly of Johns Hopkins Hospital, tells how to detect the harmful effects of tobacco. Here is what he says: "Many men who smoke, chew or snuff incessantly and who are seemingly healthy are suffering from progressive organic ailments. Thousands of them would never have been affected had it not been for the use of tobacco to excess, and thousands would soon get well if they would stop. The chief habit forming principle of tobacco is nicotine, a deadly poison which when absorbed by the system, slowly affects the nerves, membranes, tissues and vital organs of the body. The harmful effect of tobacco varies and depends on circumstances. One will be afflicted with general debility, others with catarrh of the throat, indigestion, constipation, extreme nervousness, sleeplessness, loss of memory, lack of will power, mental confusion, etc. Others may suffer from heart disease, bronchial trouble, hardening of the arteries, tuberculosis, blindness or even cancer or the common affliction known as tobacco heart. If you use tobacco to excess in any form you can easily detect the harmful effects, by making the following simple tests: Read aloud one full page from a book. If in the course of reading your voice becomes muffled, hoarse and indistinct and you must frequently clear your throat, the chances are that your throat is affected by catarrh and it may be the beginning of more serious trouble. Next, in the morning before taking your usual smoke, walk up three flights of stairs at a regular pace, then stop if you find that you are out of breath, your heart beat is forced, trembling or irregular, you may be a victim of functional or organic heart trouble. If you feel that you must smoke, chew or snuff to quiet your nerves, you are a slave to the tobacco habit and are positively poisoning yourself with the deadly drug, nicotine. In either case you have just two alternatives—Keep on with the self poisoning process irrespective of the dangers and suffer the consequences; or give up the habit and escape the dangers. You can overcome the craving and stop the habit in a very short time by using the following inexpensive formula. Go to any drug store and ask for Nicotol tablets, take one tablet after each meal, and in a comparatively short time you will have no desire for tobacco—the craving will have left you. With the nicotine poison out of your system, your general health will quickly improve."

Note—When asked about Nicotol tablets one of our leading druggists said: "It is truly a wonderful remedy for the tobacco habit; away ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to every dissatisfied customer, and we would not permit the use of our name unless the remedy possessed unusual merit." Nicotol tablets are sold in this city under an iron-clad money-back guarantee by all up-to-date druggists.

FINE WHISKY

PEOPLE of good taste appreciate Haig & Haig Five Stars Scots Whisky because of its exquisite delicacy of flavour. But it is a scarce commodity—you cannot get it everywhere. It is obtainable only in the very best places. Get a supply of Haig & Haig Five Stars Scots Whisky and have the satisfaction of knowing that you have the finest Whisky from Scotland.

# AIDS TO GRACE AND BEAUTY

## Priscilla Dean Gives Useful Hints As To How Retain Youthfulness

(By Priscilla Dean.)

Did you ever notice, how much younger a girl looks at 26 than she does at 16? Of course, this is not true in all cases, but if you will look carefully and observe the young flappers going to and from school, you will often see flowing veils, earrings, exaggerated style and paint and powder to the extreme.

Now don't get angry girls, for really you know this is so. I, know too. I was sixteen myself, once.

The reason for this is a tendency to emulate the older women and girls, to grow up too quickly and by so doing the young sub deb, looses most of her charm . . . the greatest charm there is, the charm of youth. She adds years to her age and unconsciously does the very thing every woman tries to avoid, she makes herself old.

Ten years later she has more sense. She realizes that the flowing veil, the French heels and the paint, whispers of maturity and she discards them for the ingenue dress and hats that would fit little sister.

Look around at the thousands of girls who work in the city every day. Most of these stenographers, typists, clerks and shop girls are nearer 25 than they are 16 and if you will observe you will notice that the majority wear flat heels, Norfolk or tailored suits with severe sailor hats or close fitting turbans. They have to keep their precious youth, not throw it away like the young school girl.

Now don't think I'm a crank, or want to keep you from having pretty clothes, or up-to-date models . . . I don't, but I simply want you to look your best in the clothes that are most becoming.

I have received many letters requesting information relative to clothes a young girl from 15 to 18 should wear. I am going to try and tell you what I considered best, but personal figure, height, etc., must be brought into consideration. The red haired girl should not wear the pink gingham (although many do), nor should the stout, chubby girl wear a sailor suit with a conspicuous waist line.

Sailor suits that all girls in their 'teens should have in their wardrobe. I'm glad I have thought to tell you this. Nothing is more becoming or youthful. Didn't you ever notice how the motion picture actress will struggle to wear one, every chance she gets? She knows its secret, also that of the middy blouse.

Yes, sailor suits and middy blouses are all right in their place, but, girls, DON'T wear them in the evening or in a big city on the streets. They do not belong there.

Pongee is all the rage, this summer, and nothing is better or more durable than this silky material. The girl that has a pongee suit or one-piece dress, may be sure that she has something appropriate for all occasions. It washes well and is inexpensive.

The gingham dress has just made its way into society; so has the sweater. You see ginghams every way you turn. Afternoon or evening Fifth avenue or Connersville, Ind. The sweater is worn in the evening at restaurants and cafes. (Silk ones, of course). You may be sure that you are well dressed if you have a silk sweater and silk sport skirt, but it isn't necessary to buy the most expensive materials and make your silk outfit come to the price of last year's suit.

The silk may be bought by the spool and the cloth by the yard, and as Fashion decrees the most simple styles, you will not have a difficult time in making yourself a stylist combination that would rival the outputs of the expensive shops.

Last, but not least, girls, don't forget the earrings and the veils.

Honestly, you do not need them.

What eartly reason could a pretty girl, right in the bloom of youth, have for covering her face with all these freakish and outlandish flowing silks the retailers are selling for veils? The horrible scroles make her face seem scared. Even a plain veil is unnecessary.

You'er young, YOUNG, think of that, lifes ahead of you. Throw your head back and face the world . . . . beauty unadorned.

### FAVORABLE RESULTS.

Jefferson City, Mo., July 9 — Favorable crop results are expected in Missouri, according to the state board of Agriculture, despite the inclement weather in May, which rendered wheat conditions to 69 per cent of normal.

It is estimated the state will yield 29,162,160 bushels of winter wheat, 161,000 of spring wheat and 39,775,750 of oats, although 550,000 acres are idle.

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, sake well, and freckle, sunburn and tan lotion, an complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

# AQUITANIA IS BACK IN HARNESS

(Continued From Page Nine)

spread over the deck.

On each side of the ship there are four connections for bunkering purposes. Should the connections on one side of the ship be in use at one time, it would be possible to completely bunker the vessel in about six hours. From this it will be seen that the time required in port for changing over is not likely to be determined by the fuelling arrangements.

**Storage Tanks.**

Special precautions have been taken to eliminate all possibility of over-filling the tanks. A special arrangement of air and overflow pipes has been installed, by means of which should any tank be inadvertently over-filled the oil will overflow into one of the storage tanks specially arranged for this purpose. An overflow storage tank is provided in each group of tanks in each boiler room, port and starboard.

With the arrangement of overflow pipes and tanks, a sequence of tank-filling must be adhered to. These overflow connections, however, are only fitted as a safeguard should the other means provided for ascertaining the quantity of oil in the tanks fail.

Each storage tank if provided with a Pneaumercator gauge, as supplied by Messrs. Kelvin, Bottomley & Baird, Glasgow. By means of these gauges the depth of oil and quantity of oil in the tanks can be noted at any time.

It is usual to fil the tanks to 95% of their capacity, and this quantity is indicated on each Pneumercator gauge. In addition to these gauges, electric float alarms are fitted, so that when the 95% capacity level is reached a bell rings. No sounding pipers are fitted in any of the oil tanks.

To ensure that the oil will run freely from the tanks in cold weather, or when heavy oil is being used, heating coils are fitted in all the side bunkers tanks and in the double bottom tanks, but not in the cross bunker tanks, where it is considered the heating of the adjacent boiler rooms renders heating coils unnecessary.

**Settling Tanks.**

From the storage tanks the oil is pumped by large vertical direct acting pumps of Weirs' make to the settling tanks. Two of these transfer pumps are fitted in each boiler room, those in No. 4 boiler room being of seventy tons per hour capacity each, and those in the other boiler rooms of 100 tons per hour capacity each. The capacity of each settling tank is such as to ensure sixteen hours' supply for three double-ended boilers, so that about fifteen hours, will be allowed for the settling of the oil in one tank while the other tank is in use. To facilitate separation of water from the oil heating coils are fitted in these tanks. Pneaumercator gauges and electric float alarms are also fitted to the settling tanks. The removal of the settled water from the tanks is done by the transfer pumps, which have special connections for this purpose, so arranged that it will not be possible for the pumps to draw oil from the settling tanks and discharge it overboard.

**Supplying Oil to the Boilers.**

From the settling tanks the oil pressure pumps take their supply through suction strainers, discharging through the heaters and discharge filters to the burners in the furnaces. A ring main is fitted in each boiler room to which each pumping unit is connected. An emergency connection is also made to this ring main so that the pressure pumps can draw direct from the oil storage tanks. Special attention has been given to the fire extinguishing arrangement in the boiler room.

With a view to speedy detection of oil on the double-bottom tank tops, a special skeleton arrangement of stockhold flooring has been fitted.

Broad working gangways have been fitted in front of the furnaces, but these gangways are kept well clear of the bulkheads, leaving an open space to view the tank top and oil gutters.

No wood has been used in the construction of the flooring.

The installation of the boilers has been increased, with a view to keeping the boiler temperature as low as possible.

The electric wiring of the boiler rooms has been rearranged to suit the altered conditions. The ventilation of each boiler room auxiliary machinery room, passage, fan flat, tank tops, etc., has been very thoroughly considered. Additional ventilating fans and trunks have been fitted. For raising steam from cold boilers, a motor-driven pump is fitted in one boiler room.

# RISK LIFE TO OBTAIN FAME

## One Hundred Men Offered To Ride Over Niagara Falls In a Houseboat

Much has been written about the number of people who undergo privation to win screen fame. Yet, how many would actually risk their lives for a chance to linger in the celluloid spotlight?

This question came up recently when R. A. Walsh, motion picture producer, inserted an advertisement in a New York Daily calling for a man to ride over Niagra Falls in a a houseboat for a scene in a picture to be presented by the Mayflower Photoplay Corporation. Walsh was determined to invest the scene with all possible realism, hence the call for a man to actually go over the Falls, the reward offered was $1,000.

The producer expected no more than four or five applicants. Imagine his surprise when 139 death-defying demons appeared. Almost every nationality, color and creed had its representative, eager to flirt with the God of Chance in order to win film fame.

The applicants came from a varied assortment of comparatively safe occupation. A large number, many very ...men and salesmen; three were bank clerks; two were insurance brokers while one was a deputy sheriff. The majority were ex-service men, willing to take any chance.

Included in the number of applicants was Allan Law, brother of the late Rodman Law, and himself a famous dare-devil who rode over the Falls in a barrel several years ago. Another was Frank Dupree, newspaper corresponden' who made the first long-distance aeroplane flight in 1913—from Dover, England to Cologne, Germany.

A specially constructed house-boat will be used for the scene. It includes the compartment and bulkhead construction principle used in life boats and the hulls of ocean liners. Tests of the craft show that its scientific construction has reduced to a minimum the disk incured by the dare-devil who rides over the Falls.

To Banish Wrinkles and Freshen Up Quickly

After a strenous day outdoors, when winds, heat and exhaustion have combined to take away one's freshness and caused the skin to wrinkle and sag—or after a tedious or fretful day indoors— one often has urgent need for some quick rejuvenator. Maybe there's a dance on for the evening, or some other social event. How in the world can one make herself presentable, looking as she does? It's quite easy.

Just get an ounce of powdered saxolite and a half pint witch hazel at the nearest drug store, mix the two and bathe the face in the solution for two or three minutes. Then look into your mirror and behold the wonderful transformation! Wrinkles have vanished, loose, tired muscles have been rested and "firmed up," marks of fatigue have flown, and you look so much brighter and younger you can hardly believe your eyes. No one need hesitate to try this, the witch hazel and saxolite being so perfectly harmless.

### NORTH DAKOTA CROP CONDITIONS EXCELLENT

Fargo, N. D., July 9—Crop conditions in North Dakota are better than they have been for several years. Small grains in the Red river valley are reported in excellent condition, sufficient rains falling in that section to reduce materially the grasshopper menace. In the western part of the state the small grains also are in good condition, but the rain fall there has been light and farmers are apprehensive on account of the grasshoppers. The 1920 small grain accreage in the state is 20 per cent less than last year's

### TO MAKE KINGSTON FIRST CLASS PORT

Kingston, Jamaica, July 9—The Jamaican government is planning to borrow in London $15,00,000 in order to make the port of Kingston a first class one by deepening of the channel to the piers and other improvements. It is proposed to extend the railway to the wharves, to construct additional piers, erect a big dry dock and a wireless station and establish an oil and coaling depot for ships. One purpose of this program is to make Kingston a port of call for vessels passing through the Panama Canal. Members of the legislature assert that Kingston should be as well equipped as Cristobal, the Atlantic entrance to the Panama Canal.

# USE TREE BARK FOR CLOTHING

## Natives of Tahiti Have Curious Way of Manufacturing Clothing.

London, July 9.—"July 1769, at Tahiti, I shall now describe their way of making clothes, which, in my opinion, is the only curious manufacture they have." So wrote Lieut. (later Commander) James Cook, in the diary he kept during his first voyage around the world made 1768-71, in H. M. Bark "Endeavor." He proceeded: "All their cloth is, I believe, made from the bark of trees; the finest is made from a plant which they cultivate for no other purpose. Dr. Solander thinks it is the same plant the bark of which the Chinese make paper.

"They let this plant grow till it is about six or eight feet high, the stem is then about as thick as one's thumb or thicker; after this they cut it down and lay it a certain time in water. This makes the bark strip off easy, the outside of which is scraped off with a rough shell. After this is done, it looks like long strips of ragged linen; these they lay together, by means of a fine paste made of some sort of a root, to the breadth of a yard more or less, and in lengths six, eight or ten yards or more, according to the use it is for.

"After it is thus put together it is beat out to its proper breadth and fineness, upon a large square piece of wood, with wooden beaters, the cloth being kept wet all the time. The beaters are made of hard wood with four square sides, are about three or four inches broad and cut into grooves of different fineness; this makes the cloth look at first sight as if it was wove with thread, but I believe the principal use of the grooves is to facilitate the beating it out, in the doing of which they often beat holes in it, or one place thinner than another; but this is easily repaired by pasting on small bits, and this they do in such a manner that the cloth is not the least injured. The finest sort when bleached is very white and comes nearest to fine cotton. Thick cloth, especially fine, is made by pasting two or more thicknesses of thin cloth, made for that purpose, together. Coarse thick cloth and ordinary thin cloth is made of the bark of bread fruit trees, and I think I have been told that it is sometimes made from the bark of other trees. The making of cloth is wholly the work of the women, in which all ranks are employed. Their common colors are red, brown and yellow, with which they dye some pieces just as their fancy leads them."

This bark cloth is known as "tapa." In many localities throughout the tropics of both hemispheres, crude civilizations, lacking both the knowledge and means of weaving, have fashioned cloth from the inner bark of certain trees. The Micronesian, Polynesian and Melanesian Islands, and Africa were all tapa-making countries. The Maoris of New Zealand, too, knew the art. But with them it was only briefly cultivated, due to the scarcity of trees producing the sort of bark needed and the severer climate which soon led to the use of the strong native flax for the manufacture of cloth.

Within the last century tapa has become a rarity in practically all the regions where it was once so abundant, save in Samoa, where an excellent quality is still manufactured for the sake of the tourist trade, and in those parts of Africa to which the textile of a higher culture have not yet been introduced. But thanks to the efforts of a few interested people, excellent collections of bark-cloth have been brought together. In all the regions mentioned, curious implements were used in the manufacture of the cloth.

The implements include shells for cutting the bark, peeling it from the stems and scraping it; the wooden slabs on which the bark was laid for beating; and mallets, square or round according to the locality in which they were used. These mallets are carved into grooves, square or other patterns of various sizes according to the degree of coarseness or fineness desired for the finished piece of tapa. The African beaters are made of pieces of tusk fastened to bamboo handles and wrapped about with rattan. Hawaiian ruling pens, for making lined designs on the tapa and stamped bamboo stencils sometimes in the form of a half-cylinder, testify to the progress which the Hawaiians had made in the technique of tapa decoration. They seem also to have led in variety and beauty of design.

As to the cloth itself, the finer varieties resemble fine cotton in softness, are frail and easily torn, and very cool. In Samoa and the Tonga Islands the cloth was glazed with a sort of varnish which rendered it rainproof.

With the passing of the art of tapa making, one of the most curious characteristics of the tapa-making islands has gone. This is the sound of tapa beating, which especially in the morning, when the women gathered together in numbers to pound the bark, echoed across country reverberantly. Dr. William T. Brigham declares that a code of signals, of some such nature as our Morse alphabet, was employed to carry on communication between the groups of tapa-making women. By this means current gossip was rapidly passed over considerable distances. Which brings us back to the old truth that human nature is much the same the world over.

# "DANDERINE"

## Stops Hair Coming Out: Doubles Its Beauty.

A few cents buys "Danderine". After an application of "Danderine" you cannot find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

### ANCIENT INNS.

What is the oldest English Inn? The Crown, at Chiddingford, which is announced for sale, is stated to date from the fourteenth century, but there are some still more ancient. There is the Fighting Cocks of St. Albans, claiming to date from 795, and to be the oldest inhabited house in England. At the Angel at Blyth, Nottingham, Richard Bishop of Durham, stayed in 1274, and his bill is still preserved. The Saracen's Head at Newark and the Old Green Man at Erdington has a respectable antiquity—fourteenth century or thereabouts. We have of course, a small cluster of Stuart inns, led by the Cheshire Cheese, still remaining.

THE Arabian Nights Enchantments are rivalled by the modern magic of the Automobile. The motorist's miraculous vehicle will transport him with the swiftness of an eagle's flight to the sea, the mountains, the lakes or where he can view some broad panorama of endless hills that roll on into the infinite distance. But a motor trip should not be taken without the assurance that the tires will carry through. Where safe and timely arrival are important, one should make assurance doubly sure by having his car equipped with "Cross" Tread "Gutta Percha" Tires. Why? Because they can be depended upon. They are built with unusually strong side walls, exceptionally tough rubber tread, plentifully rubberized cotton duck fabric, beads that have never been known to break, and a reputation that bears out the slogan—

# GREATER GREECE NOW IS BORN

## New Empire As a Result of Diplomacy of Eleutherios Venizelos.

New York, July 9.—Quietly almost unnoticed, and without any astentatious flag-wagging, a new empire has just been born in Europe—the empire of Greater Greece.

The event took place at San Remo, but it escaped the attention it deserved because the world was at that time more interested in the fate of Germany, Turkey and Armenia, and the patching up of the Frankfort quarrel.

The empire-builder who has put a bigger Greece on the map is Elentherios Venizelos, who dethroned King Constantine, and who was regarded as the brainiest of all the delegates attending the Paris Peace Conference. In triumphently rounding off at San Remo fifteen months of the cleverest and the most consistent diplomatic labors, he had the backing of Lloyd George and Millerand, with Nitti dissenting.

Greater Greece now touches four seas—the Adriatic, the Aegean, the Black Sea and the Mediterranean. Its northern frontier runs in an unbroken line from Epirus in the west to the Catalja lines in the east. It takes in disputed territories peopled by Albanians, Jugo-Slavs, Bulgarians and Turks. It gets the Dodecannes (the Aegean Islands that Italy occupied), and in Smyrna it will establish a strong outpost on the mainland of Asia.

According to Venizelos, the subjects of Greece now number 7,500,000, compared with 5,500,000 before the war; but other estimates place the new figure at nearer 10,000,000.

The Smyrna settlement was a compromise. The population of the town is overwhelmingly Greek, but with its port it is the gateway to Asia, indispensable to the commerce of every nation and prized beyond measure by the Turks. To hand it over to Greece would almost certainly have rallied all that remains of Turkey to die in the last ditch under Mustapha Kemal. It was therefore decided to give the Greeks of Smyrna local autonomy under Turkish sovereignty, with guarantees for the freedom of the port and a plebiscite five years hence.

A strategic wedge has now been driven across Thrace, dispelling any future menace of a renewed "drang nach osten" by a German-Magyar combination, with Bulgaria as its spearhead. The Berlin-Bagdad road to India is permanently barred, and Bulgaria has been isolated between the Greater Greece, the Greater Roumania, and the Greater Serbia.

# PARAGUAY-BOLIVIA CONTROVERSY

## Question of Ownership of the Chaco, Now Before League of Nations

New Orleans, La., July 9.—Most people have heard of the serious dispute between Chile, Peru and Bolivia over the ownership of the Tacna and Arica districts, on which several attempts at arbitration have failed, but there is another even more interesting bit of land controversy going on between Paraguay and Bolivia, of which the world has heard little, yet which has been put before the League of Nations with a request for settlement.

This is the disputed possession of a strip of land as large as California, and known diversely as the "Paraguan Chaco" and the "Bolivian Chaco," accordingly as one is a Paraguayan or a Bolivian. If he be neutral, he calls it merely "Chaco" and, apparently every one in South America knows what he means. The attention of the United States to the claims of these two countries for this large piece of territory has been brought to the United States by Hy. Metz, an American engineer who has been for some seven years engaged in surveying the Bolivian settlements and land grants in the Chaco for the Bolivian Government. Mr. Metz arrived in New Orleans recently, on his way to Washington, where he has been asked to present his own personal views as to what should be done to settle the dispute and do justice to each nation.

**Equal Division Favored.**

"I believe," said Mr. Metz "that the Chaco should be divided equally, and the half nearest Bolivia given to that country, while the other half goes to Paraguay. The great problem for Bolivia, hemmed in as she is by other countries, is her lack of and need for an outlet to the sea, which she can get only through Chaco, which borders on the Paraguay River. This stream flows into the historic River Plate, and, on the Chaco side of the Paraguay, 2000 miles from Buenos Aires and Atlantic Ocean, is a little port called Bahia Negra. There is, however, nearly 100 feet of water in this stream, and the largest steamships from America and Europe could come direct up the Plate and the Paraguay rivers to this port, thus giving Bolivia an outlet on the Atlantic.

"Railroad construction across the Chaco from Bolivian industrial and agricultural and mining centres to Bahia Negra would be comparatively simple, and Bolivia already has made these surveys, so that such roads would be built immediately on the allotment to Bolivia of the territory involved. Paraguay, on the other hand, does not need this port, inasmuch as she has abundant ports of her own, while its possession means the commercial success or failure of Bolivian industry.

"Shortly after Bolivia lost her Pacific port of Antofogasta to Chile, in war, she turned to Bahia Negra, but Paraguay, moving faster, seized this port and has held it ever since. It was discovered that in the original surveys of this section no accurate boundaries ever had been drawn of a territory larger than the State of California, which is to this time undeveloped, uncultivated and inhabited by the most primitive of the Indians of South America, with the possible exceptions of the few remaining on the islands of Tierra del Fuego.

**Land of Bolivian Maps.**

The land always had been included in Bolivian territory on the maps but then Paraguay, learning that Bolivia never had officially surveyed the Chaco, came out with maps of her own, claiming all the territory. It is doubtful if any white man has crossed this Chaco since the days of the Spanish conquistadores until I crossed it with a number of Bolivian surveyors, three times during the past five years.

"The Chaco stretches northward more than 500 miles in length by 50 to 65 in width, from the Pilcomayo, river, the border of Argentina, to undisputed Bolivian territory. It is broken by several rivers, with low rolling mountain ranges bounding on fertile plains: These hills are covered with fine forests, and there are deposits of iron, copper, silver, lead, and, probably gold, though I did not make close investigation of the mineral resources.

"The Indians of the Chaco are low in civilization, but disposed to treat strangers civilly, and we had no trouble with them in seven years. The climate is, naturally warm as that of the southern part of United States, but, being at greater elevation, the country is more accustomed to cooling breezes and the nights are comfortable. Much of the Chaco has been given away in large grants by both Paraguay and Bolivia, and there will arise many nice questions of titles, when ownership of the big strip finally is decided."

# COUNTRY OF TEN NATIONALITIES

## Rumania, With Addition of Five Provinces, Becomes Fairly Large Country

Bucharest July 9—Roumania, with the addition of the provinces of Bessarabia, Bukovina, Transylvania, the Banat and Dobrudja, is now a country of at least 10 distinct nationalities. In its parliament are seen peasants with white kirtle and embroidered vests and leggings reminding of the red Indian, sitting together with red fezzed Turks.

"It is especially in the Dobrudja that these different nationalities jostle together," said Queen Marie of Roumania. "Together with Roumanians, live peacefully side by side, Bulgarians, Turks, Tartars, Russians, and in places even Germans.

"I have been to a village in the Dobrudja which was part Roumanian part Russian, part German and part Turkish. I went from one side to another, visiting many a cottage, entering each church, ending my round in the tiny mosque hung with faded carpets, and there in a crowd of lowly Turks I listened to their curious service, of which I understood naught. A woman who is not veiled has no right to enter the holy precinct but a royal name opens many a door, and many a severe rule is broken in the joy of receiving so unusual a guest.

"On a burning summer's day I came to a tiny town almost entirely inhabited by Turks. I was distributing money among the poor and forsaken, and had been moving from place to place. Now it was the turn of the Mussulman population, therefore, I visited the most wretched quarters, my hands filled with many a coin.

"Such was their joy at my coming that the real object of my visit was almost forgotten. I found myself surrounded by a swarm of excited women in strange attire, prattling a language I could not understand.

"They called me Sultana, and each one wanted to touch me; they fingered my clothes, patted me on the back, one old hag even chucked me under the chin. They drew me with them from hut to hut, from court to court. I found myself separated from my companions, wandering in a world I had never known. In a labyrinth of tiny mud-built huts, of ridiculously small gardens, of hidden little courts, they dragged me with them, making me enter their hovels, put my hand on their children and sit down.

"The poorer Mussulman women are not really veiled. They wear wide cotton trousers, and over these a sort of mantle which they hold together under the nose. The shape of these mantles gives them that indescribable line, so agreeable to the eye, and which alone belongs to the East. Also the colors they choose are always harmonious; they are toned down to their surroundings by sun and dust. They wear strange dull blues and mauves—even their blacks are not really black, but have taken rusty tints that mingle pleasingly with the mud-coloured environment in which they dwell.

"When attired for long excursions, their garb is generally black, with a snow-white cloth on their heads, wrapped in such manner that it conceals the entire face, except the eyes. Indescribably picturesque and mysterious are these dusk figures, generally carrying a heavy staff in their hands: there is something biblical about them, something that takes one back to far-away times."

**They Cleanse While They Cure.** — The vegetable compounds of which Parmalee's Vegetable Pills are composed, mainly dandelion and mandrake, clear the stomach and intestines of deleterious matter and restore the deranged organs to healthful action. Hence they are the best remedy for indigestion available to-day. A trial of them will establish the truth of this assertion and do more to convince the ailing than anything that can be written of these pills.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying the best of remedies—Mother Graves' Worm Exterminator.

### Bungalow of Stucco for Small Family

DESIGNED BY CHAS. S. SEDGWICK.

STUCCO is a popular material for home building. It is largely used because it makes a pretty and picturesque appearance and because it adapts itself harmoniously to almost any surroundings. Also it is durable and serviceable, doesn't require painting and is more or less fire proof. Therefore it is not to be wondered that many of the new house designs are shown built of stucco, either on metal lath or on frame.

The house shown today is a charming five room bungalow designed particularly for the small servantless family. No woman could ever complain of having too much to do in this conveniently arranged little house. One of the reasons a woman complains so constantly of her housework is because she has to climb up and down stairs so many times during the day and this in itself is exhausting. It is perhaps for this reason that the bungalow has come into such popular favor and since the servant problem has become so acute more stairless houses than ever are being built.

The most delightful part of this design is the living room which extends the entire width of the house and which, with its large cheery, open fireplace and plenty of windows, makes a bright happy spot for the family to gather on cool evenings. Cozy seats are built in beside the fireplace and surely the piano is meant to go cat-a-corner; then with either a gate leg or just a plain mahogany library table in the center of the room, and with a deep "comfy" davenport between it and the open fire, one would never want for friends to share this cheery, homey spot. On summer evenings, the broad shady veranda which could be so delightfully furnished, would provide a charming place for the outdoor entertainment of guests and callers. The pantry is between the dining room and kitchen and by leaving the pantry door open on sultry evenings a cool draught of air can always be circulated through the hallway, thus cooling the bed rooms. The kitchen is modern in every way to minimize housework.

## ASBESTOS

### The Permanent Building Material

When you are going over the figures for buildings, you want, most of all, to specify material that will require the least amount of attention. In short, you want to obviate REPAIRS—use "Asbestoslate" shingles.

With the "Asbestoslate" you construct a roof or side wall that is weatherproof, will not admit rain or moisture, cannot burn or carry fire and is not affected by sudden change of weather. You provide a roof that will practically last forever without repairs or patches. A roof that will never require paint.

Besides all these desirable qualities, the use of Asbestos allows a decorative treatment unsurpassed. You get strength without bulk, permanence without expense, and beauty as well as economy.

We have some interesting illustrations showing Asbestos shingles used in many types of buildings. Write us today for complete information.

# CONSTIPATION AND HEADACHES

**Completely Relieved by this Grand Fruit Medicine, "FRUIT-A-TIVES"**

MR. ALFRED DUBOISSEAU

482 St. Catherine St. E., Montreal.

"For three years, I was *a terrible sufferer from Indigestion, constant Headaches and Constipation.* I took various medicines for the trouble but nothing seemed to do me any good.

Then, a friend advised me to try *'Fruit-a-tives'*. Now I am free of Indigestion and Headaches, the Constipation is cured, and I have gained considerable weight; and my general health is fine.

*'Fruit-a-tives' is a grand medicine* and I cannot say enough in its favor."

ALFRED DUBOISSEAU.

'Fruit-a-tives' are made from fruit juices and valuable tonics—and are pleasant to take, their action being gentle and mild, yet always most effective.

50c. a box, 6 for $2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

## CITY HALL—CITY OF QUEBEC.

**Lodgings and Accommodations for Tourists and Travellers Hotels and Private Boarding Houses—Rooms to Let—Restaurants—Cafes and Dining Rooms and Automobile Garages.**

Quebec, 17th June, 1920.

In view of the large number of tourists and travellers who are expected to visit Quebec during the summer season, and also of the numerous conventions and gatherings to be held in this City, the Civic Authorities are anxious to offer to all facilities for lodgings and useful informations, so that all may easily find the accommodations required, in order that they may carry back home an agreeable impression of their visit to Quebec.

In consequence thereof, the Mayor of Quebec earnestly requests all proprietors and managers of Hotels, Boarding Houses, Restaurants, Cafes, Dining Rooms of all kind, Automobile Garages, etc., and all those who exercise the trade habitually of giving to the public lodgings and meals, to forward in writing to the City Clerk, in the City Hall, a statement of the rooms which they can dispose of, the prices they charge, in order to facilitate the making up of a register containing all information useful to tourists and travellers.

The Mayor also requests all residents who during the summer season can accommodate one or several passing tourists or travellers with furnished rooms to forward to the City Clerk a letter mentioning the number of rooms they can dispose of and the prices charged.

All such informations will facilitate the establishment of a special Office permanently opened in the City Hall, during the whole summer season.

By order.

JOSEPH SAMSON,
H. J. J. B. CHOUINARD, Mayor of Quebec.
City Clerk.

June18x1m.

Thorough training service conferred by expert Sales Manager. Submit full particulars including average earnings in application. Chance to advance to District Salesmanagership if display proper qualifications. Box I. M., Co., care Chronicle.

# EMPRESS HAD SIX STOWAWAYS

## Passengers Landed Yesterday, Including a Number of Prospective Brides

The C. P. O. S. Empress of France, which arrived and docked at the Louise Docks Breakwater at eleven o'clock on Thursday night, brought out 1,485 passengers, 316 first-class, 370 second and 794 third class, who were landed yesterday morning at 7 o'clock. The Empress also carried 1,800 bags of European mail, 2,500 tons of general cargo for Quebec, Montreal and the West; also a large number of express parcels. The ship on leaving Liverpool and putting to sea was found to have six more passengers than booked on the ship's records. These were found to be a half-dozen stowaways who claim Liverpool as their domicile, but were determined to come out to Canada, and not having the wherewithal, carried out their intention by simply walking aboard the vessel and keeping under cover until the liner was far out to sea when their presence was detected. The stowaways, who were handed over to the custody of the Quebec immigration officials on the ship's arrival, are a fine lot of stout lads whose ages average 20 years, and represent the Shamrock, Thistle and the Rose. As a matter of course they are being held by the immigration officials for deportation.

During the night and early morning after the vessel's arrival, the mail and passengers' effects were landed, and shortly after the first and second class passengers were examined by the immigration officials and passed, they were landed and proceeded to their Western destinations in special C. P. R. trains. The third-class passengers, a splendid aggregation of English immigrants on landing were conducted to the immigration building for inspection and when this was concluded were sent forward to their Western destinations shortly after noon. Among the third-class passengers were 100 unattended women, some of whom came out to Canada to be married, and the rest going to Canadian relatives or situations procured before they left England, were in charge of a Government conductress. With the exception of 53, all the third-class passengers were booked for Ontario and the West. The Quebec contingent, also provided for in advance, were composed of farm laborers, five cotton spinners, three shoemakers, four wheelwrights, two electricians, several machinists and carpenters, as well as confection workers, who proceeded on to Montreal for distribution.

A large part of the first-class passengers were Canadians and Americans returning home from Europe. Among the prominent Canadians were Brig.-Gen. Cartwright, C.B., C.M.G., Mrs., Miss B. and Mr. S. Cartwright, of Toronto; Colonel Barlow, of Vancouver; Lady H. M. Davis and two maids, Montreal; Mrs. J. and Miss E. A. Laird, Quebec; Col. M. Kincaid-Smith, Basingstoke; General A. MacDougall, C.B., C.M.G., L.H., of Ottawa; Brig.-General Micklem, D.S.O., M.C., and Mrs. Micklem, London; Rev. C. J. Mea, Kingston, Ont.; Baroness V. Rummel, Kew; Alt.; Prof. P. F. Purcell and Mrs. Purcell, Dublin; Lt.-Col. C. Stibbard, D.S.O., and Mrs. Stibbard, Montreal; M. le Comte de Villatte, Juniquy, France; Major Turnbull, Montreal; Major V. Sifton, Montreal, etc.

Captain Cook, commander of the Empress of France, speaking of the trip across, said there was nothing unusual to report, except that the ship was delayed two days by fog.

## SALVAGE COMMENCED.

Halifax, July 9—The Atlantic Salvage Company, who have the contract to refloat the American steamer Lake Elwin, which struck a submerged rock near the Straits of Canso and was brached early this week, have commenced salvage operations. The tug La Canadienne has arrived on the scene and it is hoped to have the ship afloat in a few days.

The Canada SS. Lines steamer Cape Diamond left going down at 8:50 a.m. yesterday.

• • •

The steam barge Maplegreen arrived down at 11:40 a.m. yesterday.

• • •

The tug Boston, towing barge Northern 35, arrived down at 1:20 p.m. yesterday.

• • •

The steamer Treloske passed down at 5:40 p.m. yesterday.

• • •

The C. P. O. S. steamer Metagama, with passengers and cargo, passed down at 10:15 p.m. last night.

• • •

The Anchor-Donaldson Line steamer Saturnia passed Cape Ray at 4 p.m. on Thursday and is due to arrive at Quebec Sunday.

• • •

The White Star-Dominion Line steamer Canada passed Cape Race at 6:15 a.m. on Thursday and is due at Quebec Sunday.

• • •

The C. P. O. S. steamers Metagama and Tunisian will sail from Montreal via Quebec to the United Kingdom on Sunday, carrying between them 2,300 passengers.

• • •

The steamers Corsican and Saturnia are due to arrive at Quebec tomorrow.

The steamer Champion, which plies between Quebec, St. Jean, I.O., and Berthier, met with a slight accident to her machinery in midstream while coming up the river yesterday morning. The Champion had reached opposite Lauzon when a pin in her crank shaft gave way, that forced the boat to stop running. The steamer Frontenac from the Island was in the vicinity on her way to her Quebec landing at the time, and answering the Champion's signal of distress, took her in tow and brought her up to her landing. The accident was shortly afterwards rectified by the Champion's engineer.

## CURIOUS POTTERY.

The use of dried fruits of trees, such as the guord and the cocoanut, for holding water and liquid substances, is familiar, but it is not so generally known that cups, saucers and jars to take the place of ordinary earthenware are made in the Orient of a glutinous and plastic material entirely of vegetable origin, which is easily moulded and dried.

There is more than one instance in history of vegetable matter being confused with earth and clay. The pulpy parts of various astringent fruits have the peculiar plastic property of clay, and by hardening in pots, they are impervious to water, and have the additional advantage that they can fall to the ground without being broken.

There is a peculiar ware that is made by the Banjaras in the Central Provinces of India from the fruit of the aoula. The fruit is collected and dried. It is then boiled in water until quite soft and pounded, the stones removed and the pulp beaten up and worked with the hands into a thick, brown, sticky mass. When this is quite ready the manufacturer takes an earthen vessel—any shape that pleases him—and covers it all over with a thick layer or coat of the pulp. This is the put aside to set a bit, and when hard rude devices are stamped round the neck and shoulders of the article, which is then set aside to dry. When entirely hard, the gharra inside is broken and the pieces removed. These vegetable pots are sold according to size from four to eight annas each, and are much sought after by the people.

The aoula tree is abundant throughout the forests of tropical India and Burma, and the fruits are frequently employed in medicine and for tanning.

Low Prices Are That Are Offered ..at.. MARCEAU & CO. Corset Covers, Undervests and Drawers; extra quality for 98c and $1.24. Petticoats; first-class quality, for $1.24, $1.50 and $2.50 Night Gowns, for $1.39, $1.89, $2.00, and $3.00, superior quality. MARCEAU & CO., 155 St. Joseph St., Quebec.

# CHINA'S REPLY RE. SHANTUNG

## Concessions May Now Be Abandoned in Favor of Good Friendly Understanding

Peking, July 9.—As anticipated in a previous communication, the reply of China to the two notes of Japan concerning the restoration of the former German rights and privileges in Shantung, expressly stated that China is not willing to enter into negotiations based upon the stipulations of the Versailles Treaty which she did not sign. China notes with pleasure the intention of Japan to withdraw her military forces from the railway between Kiaochow and Tsinan "as soon as a Chinese force has been formed for the purpose" and states that the Shantung authorities have been instructed to enter into the necessary negotiations for taking over the duties of the Japanese military forces along the railroad line "as soon as possible."

China sets up the claim that no negotiations are necessary for the withdrawal of these troops and that this can be done at once by Japan without any further discussion.

An additional paragraph calls the attention of the Japanese Government to the continued presence of military establishments outside of the leased territory of Kiaochow and its hinterland, and requests that they be gradually removed. It states that there is no further need for these establishments since the war with Germany was over some time ago. These requests are made "in the interest of the peace of the Far East"— phrase upon which Japan has rung the changes many times during the past years. The Foreign Office at Tokyo must have been startled to have one of its familiar sayings quoted for its discomfiture, but surely it is a poor sentence that cannot be used by both sides.

There have been no unfavorable comments by the Chinese press on the reply. The Shantung people are satisfied with the action of the Central Government. Even the Southern independents that are always on the lookout for some slip of the government, have found nothing to criticize. All recognize that the government has refused to negotiate on the basis of the Versailles Treaty and that by doing so it has placed itself in a consistent attitude to the rest of the world even though it has made no progress in getting back the German rights. It is seen that the government, though obtaining nothing, has at least lost nothing; and this is a new experience in dealings with powerful neighbors.

It is generally supposed that China will proceed to lay before the League of Nations the question as to the validity of the treaty and notes of May 25, 1915, which concluded the negotiations after the Twenty-One Demands If she is supported in her contention that these documents were invalidated by her declaration of war on Germany, then the field will be clear for disposing of all outstanding questions between the two nations on an amicable basis. Concessions obtained at the point of a fixed bayonet will be abandoned in favor of a good friendly understanding between two near neighbors, each of which needs the help of the other.

Such a result would react beneficially upon the relations of all the world with China and Japan. It would obviate the necessity of an Anglo-Japanese alliance, a Lansing-Ishii agreement, or a universal recognition of the territorial integrity and open door in China. It has only been the danger of trouble that has made any of these ententes necessary; if China and Japan can make up their minds to live together in amity the rest of the world will be spared a deal of anxiety.

## ORIENTAL WOMEN.

Korean women are forming an exclusively feminine corporation capitalized at 400,000 yen to buy and sell "clothing, lingerie and toilet accessories," according to an advertisement in the first issue of the new Korean daily, the Chosen Ilpo, just issued. None of the capital stock, divided into 20,000 shares, will be sold to any man. The enterprise is regarded by many as a move toward breaking down an ancient Korean tradition.

The directors and all other officials of the company it is announced, will be women only and in addition to merchandise the company will have a sewing department. Its aim is said to be "the promotion of the comfort of living and improvement of Korean women in economic knowledge and experience."

In Japan, cases of women successfully conducting business are not rare. The head of the Owariya Bank, one of the most successful banking enterprises, was a woman who died leaving a large fortune to the cause of female education. The great Suzuki firm, which has a branch in Seoul, is likewise headed by a woman. In Seoul itself, the Keijo Printing House and the Urao Hotel are good examples of what women can do.

While Japanese women are entrusted by their husbands with the complete management of household affairs, the Korean women generally looks to her spouse to finance the home.

## HISTORIC WRECKS.

The Kent (Ontario) Historical Society has been given permission to salvage two vessels which formed part of Proctor's fleet and were lost during the retreat of 1813. The vessels are now reported to be lying at the bottom of the Thames River, Kent county, Ontario.

The right of ownership in the vessels and of any other material salvaged is given to the Kent Historical Society, in trust for the Dominion.

# IMPOSING ARRAY OF BIG JURISTS

## The World's Most Competent Authorities on International Legislation.

The Hague, July 9.—The twelve distinguished international jurists, among them Elihu Root, of the United States, invited by the Executive Council of the League of Nations to plan the organization of the new Permanent Court of International Justice, constitute an impressing array of the world's most competent authorities on questions of international legislation. Those who accepted the invitation gathered here in mid June to undertake the task. Those invited were:

Baron Descamps, Belgian Minister of State, Professor of International Law at Louvain University; Member of the Permanent Court of Arbitration of the Hague; and Secretary-General, formerly president, of the Institute of International Law and writer on international questions.

M. Drago, formerly Foreign Minister of the Argentine Republic. While holding that office he sent to the Argentine Minister in Washington instructions known as the Drago Doctrine (1902). He was formerly judge in Argentine; one of the arbitrators nominated by agreement between Great Britain and the United States in the North Atlantic Fisheries Arbitration, The Hague (1910); one of the Argentine delegates to the Second Peace Conference at The Hague and member of the Permanent Court of Arbitration of The Hague.

Professor Fadda, professor of Roman Law at Naples University.

M. Fromageot, legal adviser to the French Foreign Minister; member of the Permanent Court of Arbitration of The Hague, and delegate to the second Hague Peace Conference.

M. Gram, formerly a judge on the mixed tribunals in Egypt; former member of the Supreme Court of Norway; Minister of State at Stockholm before the severance of the union between Norway and Sweden; member of the Permanent Court of Arbitration at The Hague and member of the Institute of International Law.

Doctor Loder, member of the Cour de Cassation of the Netherlands.

Lord Phillimore, English Privy Councillor; a Lord Justice of Appeal (1913-1916); president of the International Law Association (1905-1908); author of publications on ecclesiastical and international law and "Three Centuries of Treaties of Peace and their Teaching" (1917); president of Committee of Inquiry appointed by the British government on the subject of the League of Nations.

Elihu Root, former Secretary of State, United States; president of the American Society of International Law; member of the Permanent Court of Arbitration of the Hague, senior counsel for the United States in the North Atlantic Fisheries Arbitration at the Hague (1910); member of the Alaskan Boundary Tribunal and head of special United States Mission to Russia (1917).

M. Vesnitch, Ambassador Extraordinary and Minister Plenipotentiary of the Kingdom of the Serbs, Croats and Slovenes at Paris.

Satsuo Akidiuki, formerly Japanese Ambassador to Vienna, and one of the legal advisers of Japanese Peace Delegation in Paris.

Rafael Altamira, professor of Law in Madrid University; Senator.

Clovis Bevilacqua, professor of Law and legal adviser to the Minister of Foreign Affairs, Brazil.

## WOMAN JOURNALIST COMING.

The only lady representative to attend the Imperial Press Conference in Canada, will be Miss Mary Frances Billington, of the London Telegraph, who officially represents the Society of Women Journalists, of which Viscountess Northcliffe is now president. Miss Billington was herself president of the society from 1913 to 1919, and did valuable work in helping to obtain permission for a few women writers to visit munition factories where women were employed, and later to visit the base and lines of communication in France in connection with the work of women. Miss Billington has been twice to India, but this will be her first visit to Canada.

## SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child will prevent their coming on pure. They are sold by medicine government analyst to be absolutely harmless even to the newborn babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

## MAY LOCATE AGAIN.

St. Johns, Que., July 9—It is probable that the Massey Concrete Products Company will again locate here and enter into the manufacture of cement building blocks. This firm established a plant here in 1914 but business was discontinued for the duration of the war and the plant sold.

## IMPROVED C. P. R. TRAIN SERVICE BETWEEN QUEBEC AND MONTREAL.

In order to take proper care of the heavy traffic in and out of Quebec, this summer, the Canadian Pacific Railway have arranged the following schedule of trains between Quebec and Montreal:

Times shown below are Eastern Standard Time. To convert to daylight saving time, add one hour.

Trains Leave Palais Station, Quebec, as follows:

7:50 a.m.—Local. Daily except Sunday. For Trois Rivieres and Montreal. Intermediate stations. Arrives Montreal, Place Viger Station, 2:20 p.m.

7:50 a.m.—Local. Sunday only. For Trois Rivieres and intermediate stations.

2:00 p.m.—"The Frontenac." Daily. For Montreal. The only stops are at Pont Rouge, Portneuf (both flag to pick up passengers), Batiscan, Trois Rivieres, Berthier Jct., Lanoraie, St. Martin's Jct., Montreal West, Westmount. Arrives at Montreal, Windsor Street station, 7:15 p.m.

3:30 p.m.—Local. Daily except Sunday. For Trois Rivieres and intermediate stations.

4:20 p.m.—"The Viger." Daily except Sunday. For Montreal. Only stops at Lorette, Trois Rivieres, Yamachiche, Louisville, Lanoraie, St. Martin Jct., Laval des Rapids (stop to let off passengers from Quebec and Trois Rivieres), Mile End, Montreal. Arrives Montreal, Place Viger at 9:20 p.m.

10:45 p.m. — Local. Daily. For Montreal and intermediate stations. Arrives Montreal, Place Viger Station at 5:50 a.m.

Trains Arrive at Palais Station, Quebec, as follows:

5:30 a.m. — Local. Daily. From Montreal (16:45 p.m. Place Viger Stn.), and intermediate stations.

8:30 a.m.—Local. Daily except Sunday. From Trois Rivieres (6:00 a.m.), and intermediate stations

1:55 p.m.—Local. Except Sunday. From Montreal (7:50 a.m. Place Viger Stn.), and intermediate stations.

3:00 p.m.—"The Frontenac." Daily. From Montreal (9:4 a.m. Windsor Street station), stopping only at St. Martin Jct., Lanoraie Berthier Jct., Louiseville and (on Sunday only), Trois Rivieres, Batiscan and Pont Rouge (both for passengers from Montreal and beyond).

8:45 p.m. — Local. Sunday only. From Trois Rivieres (6:00 p.m.) and intermediate stations.

9:15 p.m.—"The Viger." Except Sunday. From Montreal (4:15 p.m. Place Viger Stn.), stops at Mile End, St. Martin Jct., Lanoraie, Trois Rivieres, Batiscan (to let off from Montreal and Trois Rivieres and to let on for Quebec), La Perade and Pont Rouge (to let off from Montreal and Trois Rivieres), Portneuf.

C.P.R Ticket Agents will gladly furnish additional information on request. Jn.8x.tf

## CANADIAN PACIFIC RY.

**Improved Train Service Between Quebec and Montreal**

Including the "Viger" running between Quebec, Palais Station, and Montreal, Place Viger Station, and the "Frontenac" running between Quebec and Montreal, Windsor St., Station.

The Canadian Pacific Railway operate the following improved and convenient train service between Quebec and Montreal. Times shown below are Eastern Standard Time. To convert to Daylight Saving Time, add one hour.

**Quebec, Palais Station, and Montreal, Place Viger Station**

"The Viger" leaves Quebec Palais Station, 4:20 p.m. daily except Sunday, arriving Montreal, Place Viger Stn., at 9:20 p.m.

Returning, "The Viger" leaves Place Viger Stn., Montreal, at 4:15 p.m. daily except Sunday, arriving Quebec at 9:15 p.m.

**Montreal, Windsor St., Station and Quebec, Palais Station**

"The Frontenac" leaves Montreal, Windsor St. Station, 9:45 a.m., daily arriving Quebec 3:00 p.m.

Returning "The Frontenac" leaves Quebec 2:00 p.m. daily, arriving Montreal, Windsor St. Station 7:15 p.m.

**Quebec, Palais Station, and Montreal, Place Viger Station (Westbound)**

Trains leave Quebec at 7:50 a.m. daily except Sunday, and 10:45 p.m. daily arriving Montreal 2:20 p.m. and 5:30 a.m. respectively.

**(Eastbound)**

Trains leave Montreal at 7:50 a.m. daily except Sunday and 10:45 p.m. daily, arriving Quebec 1:55 p.m. and 5:30 a.m. respectfully.

Attention is called specially to the "Frontenac" leaving Montreal, Windsor Street Station at 9:45 a.m. daily, (Eastern Standard Time), which is 10:45 a.m. Daylight Saving Time. This train makes connection, at the same station with trains from New York, Boston, Chicago, Detroit, Toronto and Western Canada.

The "Viger" leaving Quebec, Palais Stn., at 4:20 p.m., Standard Time, (which means 5:20 p.m. Daylight Saving Time), daily permits of journey being made in coolness. This train also connects with trains for Toronto, Chicago and Western Canada.

The "Viger" and the "Frontenac" carry most modern equipment consisting of first and second class coaches, parlor car, observation parlor car and dining car.

### TEXAS CROPS ARE MUCH IMPROVED

Dallas, Tex., July 9—Crop conditions in Texas improved materially during the three week period ending June 20, according to the Texas Industrial Congress. All crops are reported from 30 to 40 days late, however, but with generally favorable weather since June 1 farmers are said to have made "wonderful progress in planting and replanting and cultivating."

A summary of the report shows: From 20 to 25 per cent of the cotton crop remains to be planted; wheat and oats harvesting is in progress and potato digging is under way. A protracted drouth in portions of west Texas has broken by general rains and cattle range conditions are excellent.

The total cultivated acreage of the state this year is 8 per cent less than in 1919. One hundred and fourteen counties report a probable cotton acreage of 10,139,000 acres or 98 per cent of last year's acreage; condition compared with 1919, 75.8 per cent.

### ONE OBJECTION.

Mistress (nervously)—"I do hope the place will suit you."

New Maid—"Well, the house is not bad, ad I rather like the look of the policeman on the beat, but if I stay here you'll kindly take them horrible pictures down!"

If Miller's Worm Powders needed the support of testimonials they could be got by the thousands from mothers who know the great virtue of this excellent medicine. But the powders will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

## MONTREAL EXCHANGE

(By Canadian Press)

Montreal, July 9—Abitibi took the leadership of the market today, both in strength and activity. On a turnover exceeding 15,000 shares the net gain for the day was 5¾ points with the close at the best, 86¼. This is a new high. National Breweries was also active, but was irregular and weak, selling down as low as 60 and closing somewhat stronger at 62¾, a net loss of a fraction. The Paper stocks monopolized most of the attention, two of the Spanish issues, Brompton and Laurentide each attaining new highs. Spanish preferred moved up 4 points to 125 with the close at 124. The common sold as high as 118¾ and finished at 117, a gain of a point. Laurentide and Brompton each gained a couple of points at 117 and 145½ respectively. The day's best on each was 117½ and 146½. Riordon, although relatively inactive also touched a new high at 203½, ending the day at 203.

Textile featured the cotton issues, moving up three points to 139½ and closing at 139. Converters firmed to 72; the others were neglected.

Quebec Railway held steady around 35.

Steel and Merger stocks were irregular. Iron being up a point to 68 and Steamship issues down, common selling off 1¼ points to 74½ and preferred off a point to 79½. Steel was up a fraction to 74½.

Other strong stocks were Car common, up 3 to 55; Glass up 2 to 67; Kaministiquia up 2½ points to 92½; Tooke's up one to 77; and Merchants Bank up two to 182.

Total trading: Listed, 50,421; Bonds, $19,300; Vouchers, 47.

# Commercial and Financial News

## CLOSING LETTERS BY THE CANADIAN PRESS

(By Canadian Press)

New York, July 9.—Bull pools held undisputed sway during the greater part of today's active stock market session, their more confident manoeuvres in selected issues being attended by the largest and most comprehensive dealings of recent months.

Many extensive gains were registered in the early and intermediate periods, but these suffered material reduction in the final hour when call loans rose gradually from 7 percent, the opening rate, to 10 percent.

The optimism of the professional element seemed based largely on an increasing conviction that credit conditions are tending towards easement; also the belief that industrial and commercial conditions are becoming more stable.

News that the German government had accepted the disarmament terms of the Allies was another factor of sentimental importance. This was evidenced by the strength of French and Belgium exchange which extended in more moderate measure to British bills.

Trade authorities, in their weekly reviews dwelt in detail upon the downward trend of staple commodity prices. Approximately 100 articles of common use were lower by slightly more then 7 per cent from the peak of last February.

In addition to oils, motors and their specialties, independent steels, tobaccos, and sugars the day's trading again embraced rails of high and low degree at extreme gains of 1 to 6 1-2 points. Sales amounted to 900,000 shares.

Absorption of new Armour notes offered further proof of a keen investment demand for new securities. Liberty issues were again the only notable exceptions to a generally firm bond market. Total sales, par value, were $9,735,000.

Old United States coupon 4's reacted 1-4 percent on call. Others unchanged.

## COTTON MARKETS

New York, July 9 — Cotton futures closed steady. Closing bids: July, 38.90-39.00c; October, 32.63-68c; December, 31.01-03c; January, 30.30-32r; March, 29.58-72c. Spot closed quiet. Middling uplands, 40.50c.

Liverpool — Cotton, spot quiet. Prices weak. American middling, fair, 30.37d; good middling, 21.62d; fully middling, 26.37d; middling, 25.12d; low middling, 21.82d; good ordinary, 18.62d; ordinary, 17.62d. The sales of the day were 3,000 bales including 2,60 American. Receipts were 4,000 bales, including 2,800 American. Futures closed steady.

## DAILY GOSSIP ON THE LEADING STOCKS

Yesterday's New York Financial Bulletin was as follows: The market is held in well informed quarters to be discounting the expected railroad rate increase. Reading is strongly bulled. Southern Railway is reported in line for higher prices.

• • •

According to the Wall Strret Journal: For some time past it had been clear to most observers that the rail market had pretty thoroughly discounted everything that was unfavorable.

• • •

C. I. Hudson & Co., say: "Not in many years have we faced two such evenly divided candidates. Both parties have shown a desire to please and the contest wil be fought every inch of the way."

• • •

The New York Times is of the opinion that: Sentiment, rather new and concrete facts in respect to industry and politics, has been directing the market of late, and proper reservation needs to be made in surveys in the security market for the tight credit situation.

• • •

Thomson McKinnon & Co., say that: Market interest lost no time in reaching a conclusion as to the result of the election to take place next November. It is, of course, always possible that the first conclusion may prove to be erroneous, and should circumstances develop which will tend to throw doubt upon this subject, then, of course, a quick response in the market would follow.

• • •

According to the New York Sun: In some quarters the most active and strongest market of the week is anticipated for today on account of the fact that purchases do not have to be paid for until Monday.

• • •

E. W. Wagner & Co., say: "Immediate bullish factors are: Gold arrivals, easier call money, a brisk bond market constructive political outlook, excellent crop conditions and most important of all, returning investment confidence."

• • •

In the opinion of the Journal of Commerce: It is argued that a decline in prices after the advance which has been witnessed since the early days of last week would be only natural.

• • •

Brompton plan is given approval. Shareholders ratify proposal to reorganize capitalization. Expected new securities will be traded in the stock exchange next Monday.

Shareholders of the Brompton **Pulp and Paper Company met hear** yesterday afternoon and gave unanimous ratification to the recommendation of the board of directors in respect to the organizations of the company's common share capitalization.

As already announced, the proposal is to increase the common capitalization, which now consists of 70,000 common shares of a par value of $100 each, to 210,000 shares of no par value. Of the latter issue present shareholders of the company will receive two shares of the new securities for each one of the old, the balance of 70,000 shares remaining in the Brompton treasury to be issued in order to provide for future exigencies in the way of financing.

• • •

Foreign exchange in New York yesterday was as follows:

Sterling: demand 3.94 3-4; cables 3,945 1-2. Francs: demand 11.87; cables 11.85. Lire: demand 16.47; cables 16.45; Guilders: demand 35 3-8; cables 35 1-2; Marks: demand .267; cables .265.

• • •

Ex-dividend in New York yesterday I. S. 1 percent; I. S. pfd. 1 1-2 C. L. 1 1-4 percent; Pc. 1 1-4 percent; P. C. 1 1-2 percent; A. B. S. 1 percent; INS. 1 percent; I. P. pfd. 1 1-2 percent.

## BUTTER MARKET

Montreal, July 9.—At the Quebec Agriculture Cooperative Society sale held at the Board of Trade there were 1,797 packages of creamery butter offered, of which 329 packages pasteurized creamery sold at 58 7-8c per pound, 1,085 packages finest at 58 1-8c and 383 packages of fine at 57 1-8.

## TAKE FIVE YEARS TO DEVELOP WELLS.

Bucharest, July 9.—Despite the heavy speculation in oil lands and oil property now going on in Roumania, expert oil men say that it will take at least five years for this country to properly develop such prospects. The speculators are merely selling prospects to each other rather than developing the property.

The oil production in 1919 was 917,999 tons which was less than fifty per cent of the pre-war production of the oil fiels. The amount of oil shipped out of Roumania in March, 1920, for example was 5,278 tons, which indicates the difficulty of getting the oil transported.

There is one small pipe line which runs from the oil fields to Constanza There are about 2,000 tank cars which might be operated. It takes two years to drill a well, it costs ten times as much now as before the war, the oil transportation is bad, and the government puts many restrictions on the export of oil.

**Pills of Attested Value.**— Parmalee's Vegetable Pills are the result of careful study of the properties of certain roots and herbs, and the action of such sedatives and laxatives on the digestive apparatus. The success the compounders have met with attests the value of their work. These pills have been recognized for many years as the best cleansers of the system that can be got. Their excellence was recognized from the first and they grow more popular daily.

## CLOSING LETTERS BY THE LOCAL BROKERS

(By Bruneau & Dupuis)

New York, July 9.—The market continues its activity and strength but it still wears a distinctly professional aspect with switching from one group of stocks to another, as soon as substantial profits are in hand from the first venture.

Reading has risen sharply and there are rumors of an approaching conclusion, pursuant to the recent Supreme Court decision.

The stocks in the chemical merger have also shown a new advance with very sharp rally in Analine. It is now rumored that this stock is to go in at par consequently the improvement in price.

In the afternoon session there was some reaction from best figures as money ran up to 10 per cent showing once more the scarcity of supply.

There is not much comfort to be gotten from the bankers these days, as to the money outlook, the basis of the present market, is undoubtedly the political outlook, plus the belief of traders that now is the time to take advantage of it, while money is possible, rather than to wait longer and run the risk that money rates in the autumn will be so high as to completely check any market movement.

Sales, 933,400.

(By Breen & Gourdeau)

New York, July 9.—Sentiment in speculative circles underwent marked improvement during the current week, and, as a result, security prices developed an advancing tendency that began at the outset and lasted practically to the close of the period. While there was a number of constructive factors attributed to this improvement, the completion of the Democratic National ticket, a decided easing in the credit situation and the expectation of a more favorable crop report than had been looked for recently, were the chief influences responsible for the better feeling. Trading was on a broader scale than had been seen in the market for some months.

Although interest was pretty general, the various stocks of the industrial department were favored, particularly the leading speculative issues in the oils, steels, equipments and motors. The low priced railroads reflected a better demand, but the higher priced standard railroad shares were inclined to lag. However, some increase in interest was noted in the railroad group, as a whole, in the final sessions.

The action of the market throughout the week was viewed with a greater degree of satisfaction than has been experienced in many months, and the buying of securities reflected a feeling of greater confidence, also, while it is expected that prices will work higher, a trading position seems advisable for the immediate present.

Sales, stocks 1,016,700; bonds, $8,359,000.

(By L. G. Beaubien & Co.)

New York, July 9.—Some reaction and profit taking here and there made its appearance this afternoon so that the market was quite irregular. The standard stocks however held their ground or suffered only slight losses and the declines that really reached the proportions of a point or so were among such specialties as Stromberg, Vanadium, American Wool and Retail Stores. Call money tightened up and finally touched 20 per cent so that the manner in which the market held its ground was quite encouraging when the steady advance of the last few days is considered. The Chemical stocks made further gains in response to rather definite statements that the merger terms have finally been settled and the accumulation of the good railroad stocks particularly Reading and Southern Pacific continued until the close.

## THE TORONTO PRODUCE MARKET

Toronto, Ont., July 9.—The grain quotations on the Toronto Board of Trade today were as follows:

Manitoba Oats: No. 2 Canada Western, $1.18; No. 3 $1.18 1-2; extra No. 1 feed $1.16 1-2; No. 1 feed $1.16 1-2; in store Fort William.

Manitoba wheat, No. 1 Northern $3.15; No. 2 $3.12; No. 3 $3.08, in store, Fort William.

American corn No. 2 yellow, nominal, track Toronto, prompt shipment; No. 3 nominal.

Canadian corn, feed, nominal.

Manitoba barley, in store Fort William $1.73; No. 4 $1.40.

Barley, malting, $1.84 to $1.86.

Ontario wheat, No. 1 $2.00 to $2.01; No. 2, $1.98 to $2.01; f. o. b. shipping points, according to freight No. 3 $1.92 to $1.93; No. 1 spring $2.02 to $2.03; No. 2 $1.98 to $2.01; No. 3 $1.95 to $2.01.

Ontario oats, nominal.

Buckwheat, nominal.

Rye, No. 2 $2.20 to $2.25.

Peas, No. 2 nominal.

Ontario flour, winter, in jute bags Government standard, prompt shipment, delivered at Montreal $12.90, Toronto nominal.

Manitoba flour, Government standard $14.85.

Millfeed, car loads, delivered Montreal. Shorts $61.; bran $54 good feed flour $3.75 to $4.00 per bag.

Hay, baled, track Toronto, car lots No. 1 $30 to $31; No. 2 mixed $27.

Straw, carlots $15 to $16.

Hoyt says: "I feel a lot better than I did toward the market and rather look to see a creeping affair and believe it has already started."

## SCOTTISH WOOL INDUSTRIES BUSY

### Factories Well Engaged At Present, But Future is Less Promising

(Christian Science Monitor)

Those associated with the Scottish textile industrials are keeping all their factories well going at the present moment, but many of them realize that the future is not quite so promising as they expected it to be. Especially in the hosiery and underwear trade they are looking forward to times which may be as anxious as were some of those days not long after war broke out.

Whatever may be in store for the tweed trade, manufacturers have just now a considerable number of orders on their books. Winter goods are being made in large quantities on orders booked a long time ago at prices less than are ruling today, and merchants are glad to get these at the values formerly fixed. The output is chiefly in fine cheviots and saxonies, those who are still making woreteds having great difficuty in getting the necessary yarns from the English spinners who for some time past have been inclined to pay little attention to the requirements of Scottish manufacturers who have tried to keep up this class of trade.

**Woolen Tweeds Prices**

Good woolen tweeds are still being made round about 16s. per yard, but better makes run up to 26s. and more, where manufacturers were covered for yarn supplies to produce them at these figures. The prices for the spring trade of 1921, however, are higher.

Manufacturers have returned from London where they have been showing the new ranges. These were in limited numbers and makers intimated that they could only supply a certain number of pieces. In other words, they decided to ration supplies to their old customers.

These new designs have been taken up, there being a decided preference for fancy and stylish makes as compared with the plainer tweeds which, however, still find a fairly ready market, especially in browns and grays. Prices for these goods mark an advance of from 30 to 45 per cent from last year. Tweeds that were purchased a year ago at about 15s. a yard will cost from 24s. to 26s. and up to 28s. a yard, some makes with woolen warp and a worsted weft being wanted, particularly in the American markets at 29s. a yard.

**Scottish Makes in Demand**

There is a strong impression that the fancy makes will hold the market longer than the plainer goods if an easier time comes, which is not out of the question, although as has been indicated, manufacturers generally have yet several months' work before them. There has certainly been an abnormal demand for Scottish makes, and there is a strong belief that as a result of the combined efforts that have been made to push these pure woolen goods, the demand for the same will continue when competition from abroad becomes keener Manufacturers are naturally averse to speculating to any extent in the purchase of wools. Financial reasons may have something to do with this because material is from four to six times dearer than in pre-war times to that it is difficult to finance stocks.

Hosiery and underwear manufacturers are busy for the moment, but the outlook has peculiar elements about it. The high prices for all kinds of fine-fashioned goods is certainly militating against new business, and there have been additional cancellations of summer orders for underwear. Merchants appear to be hardening themselves against a laying-in of stock at values which customers are averse to give.

**Underwear Prices High**

The wholesale manufacturers are not so much affected as the retail makers, because their deliveries are made earlier but it is just possible that wholesale merchants who have received supplies may find a difficulty in disposing of their stocks which were ordered at a time when it was customary to place orders as large as manufacturers would accept.

The prices of the best makes of underwear are becoming well-nigh prohibitive, it being estimated that ladies' combinations, for instance, will cost about £2 a garment. Manufacturers plead that charges have to be high, because of the rise in the wages and material, and they are paying 20s. a pound for some yarns which formerly cost 2s. 9d. a pound. Silk mixtures and spun silk are abnormally dear, and difficult to obtain. America being credited with virtually having made a corner in silk.

## EGG MARKET

Ottawa, July 9.—The Toronto market is firmer today, particularly for the finer grades, which are becoming more difficult to procure as the season advances.

Toronto very firm, jobbing specials 62c; extras 57 to 59; firsts 56 to 57c; seconds 48c.

Montreal firm jobbing specials 62c; extras 58c; firsts 54c; seconds 48 to 49c. A car of firsts is reported sold today for prompt shipment to London at 63c f. o. b. seaboard.

Live poultry is steady especially broilers from 2 to 2 1-2 pounds, which are jobbing at 48c; fowl 33 to 35c; turkeys 40 to 43c.

Maritime Provinces eggs country points 46c; wholesale 46c; jobbing 45 to 48c; retail 50 to 52c; poultry receipts very light, fowl 45c; chickens 50c.

**Our New Bond List**

has just been received from the printer. It contains full particulars of a number of attractive Government and Municipal Bonds and should prove of interest to those planning to reinvest July dividends.

### HATCHING ALLIGATOR EGGS.

In Florida there is always a ready market for baby alligators. They are sold to tourists for pets, alive, or sometimes stuffed for curios.

The only way to get them in quantity is to dig up alligators nests, which are found usually on the sandy banks of streams, take the eggs and hatch them artificially.

This can be done in rather primitive fashion by burying the eggs in boxes of moist sand and exposing the boxes to sunshine on a roof.

Experience has proved, however, than an ordinary chicken incubator serves the purpose better, temperature and other conditions being perfectly controllable.

The babies, under natural conditions, emerge from the sandbanks and find their way as quickly as possible into the water. But pelicans, skunks and other enemies are on the watch to pick them up and mortality is large.

After the first year or two of life they have virtually no foes to fear except man. They grow very slowly and it is likely that a 12-foot specimen may be a couple of centuries old.

### THE COAL QUESTION

Tadousac, P.Q., July 6, 1920

Dear Sir,

I have read your article of Saturday, July 3rd, re: Coal from the Mines, with much interest and shall watch your paper carefully to see if anything further is being done in this matter.

Ther must be surely a great many householders like myself with no coal in their cellars and not anxious to pay $17. per ton. I for one will gladly join any others to secure coal from the mines at reduced rates.

Yours truly,
CONSUMER.

### MR. BICKERDIKE ANSWERED.

Dear Sir,—In reply to the ten reasons given by Mr.. Bickerdike in which he states that capital punishment should be abolished, I beg to state that below are my reasons why a murderer should be put to death but not necessarily hanged for the crime.

Matthew 19: 16-17-18.

16—And behold one came and said unto Him: "Good master what good thing shall I do that I may have eternal life"?

17—And He said unto him: "Why callest thou me good. There is none good but one, that is, God; but if thou wilt enter into life, keep the Commandments.

18—He saith unto Him: "Which"? Jesus said: (1st) Thou shault do no murder; thou shalt not commit adultry; thou shalt not steal; thou shalt not bear false witness.

19—Honor thy father and thy mother, and love thy neighbor as thyself.

Romans 1: 29-30-31-32.

29—Being filled with all unrighteousness, fornication, wickedness, coveteousness, maliciousness, full of envy, murder, debate, deceit, malignity, whisperers, backbiters, haters of God, despiteful, proud, boasters, inventors of evil things, disobedient to parents, without understanding, covenant breakers, without natural affection, implacable, unmerciful.

31—Who knowing the judgment of God that they which count such things as worthy of death, not only do the same but have pleasure in them that do them.

Revelations 21-8.

But the fearful and unbelieving and the abominable, and murderers, and whoremongers, and sorcerers, idolaters and all liars, shall have their part in the lake which burneth with fire, which is the second death, (the death of the soul), which I believe dies in this world and not in the next.

Revelations 22: 14-15.

14—Blessed are they that do His Commandments, that they may have right to the tree of life and may enter in through the gates into the city.

15—For without are dogs and sorcerers, and whoremongers, and murderers, and idolaters, and whosover loveth and maketh a lie.

I. Peter 4: 15.

But let none of you suffer as a murderer, or as a thief, or as an evildoer, or as a busy-body in other man's matters.

John 8-44.

Ye are of your father the devil, and the lusts of your father, ye will do, he was a murderer from the beginning and abode not in the truth because there is no truth in him; when he speaketh a lie, he speaketh of his own, for he is a liar and the father of it. For out of the heart proceed evil thoughts, murders, adultries, fornications, thefts, false witness, blasphemies.

John 3: 14-15.

And as Moses lifted up the serpent in the wilderness, even so must the Son of Man be lifted up; that whosoever believeth in Him should not perish, but have eternal life.

Note—(Eternal life is love and truth; love never dies. Death is evil and evil always perishes.)

Mark 7: 21-23.

21—For from within out of the heart of men proceed evil thoughts, adultries, fornications, murders, etc.

23—All these evil things come from within and defile the man.

Galatians 5: 21.

Envyings, murders, drunkenness, revelling, and such like of the which I tell you before as I have told you in time past, that they which do such things shall not inherit the kingdom of God.

Note—(The kingdom of God is Truth.)

Acts 28 -4.

When the barbarian saw the venemous beast hang on his hand, they said amongst themselves: No doubt this man is a murderer whom though he hath escaped the sea yet vengeance suffereth not to live.

Revelations 9: 21.

Neither repented they of their murders, nor of their sorceries, nor of their fornication, nor of their thefts.

Acts 3: 14.

But ye denied the Holy One and the Just and desired a murderer to be granted unto you.

Timothy 1: 8-9.

8—But we know that the law is good if a man use it lawfully.

9—Knowing this, that the law is not made for a righteous man, but for the lawless and disobedient, for the ungodly and for sinners, for unholy and for profane, for murderers of fathers, and murderers of mothers, for manslayers.

In answer to Mr. Bickerdike:

10th reason—Christ advised the sinner to "Go and sin no more," but sinners do not obey Him and have to be punished.

Would also like to say that the following has been the writer's experience: I lived next door to a woman for seven years, and as she had the reputation of being a cunning liar, and as I proved her to be a liar, knowing her intimately, I struggled to teach her the truth for my own protection as well as others. She really seemed to love me and in no way could I rid myself of her companionship; but today she is as big a liar as ever, if not worse, so when people reach maturity they do not often change.

"If a little child shall lead them" and I knew hanging to be wrong when a small child—there must be something wrong with hanging.

A. D. R. (A WOMAN.)

## HOW TO OVERCOME NERVOUS TROUBLES

**A Returned Soldier Tells How He Regained Health and Strength.**

Nervous troubles of all kinds, particularly nervous debility, work a remarkable transformation in the patient. The change is both physical and mental. The sufferer loses weight and strength, and frequently becomes irritable and fault finding Troubles that were once thrown off without any difficuly assume exaggerated proportions. Other symptoms of the nervous condtion are poor appetite, headaches, exhaustion after little effort, and frequently distress after meals

The cause of this debilty is generally starved nerves. The blood which gives the nervous system its food and power to work efficienty. has become thin and weak, and until the blood regains its tone and strength there can be no improvement in the condition of the nerves in cases of this kind Dr. Williams Pink Pills will be found the very best medicine They make rich, red blood which feeds and strengthens the starved nerves, and in this way restores the sufferer to full health and strength. Proof of this is found in the case of Mr Fred Sander, London, Ont., who says: "While on service with the Imperial forces in Africa I completely lost my health through continual hardship and shock. I was sent back to the base hospital suffering, so the doctor said, from nervous debility. After spending some time in the hospital I was invalided back to England as unfit for further service. After spending a long time in Netley Hospital, I was given my discharge, but was still a weak and nervous wreck, absolutely unfit for work. I had neither the strength nor ambition to do anything. In London I doctored for three or four months with a civilian doctor, who finally advised a change of climate. I was terribly nervous, suffered from sleeplessness, smothering and sinking spells, and pains in the heart: my hands and feet were always cold and clammy. At this time I decided to come to Canada, and shortly after reaching this country was advised to try Dr Williams Pink Pills. After I had taken the pills for some weeks I found myself improving. I continued taking the pills for several months with the result that they fully restored my health. My nerves are now as steady as a rock; my appetite the best, and my eyes and skin, which had turned yellowish, are clear and healthy looking. I feel like a new man in every way, and fit for anything. I have since recommended the pills to several friends, and know of several cases where they were beneficial in the influenza epidemic. I am of the opinion that should any of my returned soldier comrades use Dr. Williams Pink Pills for shell shock, they would be a great help to them."

You can get Dr. Williams Pink Pills through any dealer in medicine, or by mail, post paid, at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Mr. T. . Enderby, formally managing director of the Montreal Transportation Company, Limited, who has just been appointed operating manager of the Canada Steamship Lines, Limited with headquarters at Montreal. Mr. Enderby, before going to Montreal in 1919, was general manager of the Cameron, Genoa Mills Shipbuilders, Limited, and treasurer of West Coast Navigation Company, Vancouver.

### DRIVES IN RECORD TIME.

Fredericton, N.B., July 9 — The lumber drives on the Bartholomew stream, a branch of the Miramichi river, have been brought out safely in record time. Included were six million feet of logs for the Nashwaak Pulp and Paper Co. to be manufactured at Blackville and two million feet for the Nelson mill of the Fraser Companies Ltd.

**Conquers Asthma.** To be relieved from the terrible suffocating due to asthma is a great thing, but to be safeguarded for the future is even greater. Not only does Dr. J. D. Kellogg's Asthma Remedy bring prompt relief, but it introduces a new era of life for the afflicted. Systematic inhaling of smoke or fumes from the remedy prevents re-attacks and often effects a permanent cure.

**THAT SOFT, ROSY, VELVETY COMPLEXION**

BLEMISHES REMOVED QUICKLY AND PERMANENTLY

Your Complexion Makes Or Mars Your Appearance

Pearl La Sage, former actress who offers women her remarkable complexion treatment

This great beauty marvel has instantly produced a sensation. Stubborn cases have been cured that baffled physicians for years. You have never in all your life used anything like it. Makes muddy complexion, red spots, pimples, blackheads, eruptions vanish almost like magic. No cream, lotion, enamel, salve, bandage, mask, massage, diet or apparatus, nothing to swallow. It doesn't matter whether or not your complexion is a "fright," whether your face is full of muddy spots, peppery blackheads, embarrassing pimples and eruptions, or whether your skin is rough and "porey," and you've tried almost everything under the sun to get rid of the blemishes. This wonderful treatment in just ten days, positively removes every blemish and beautifies your skin in a marvelous way. You look years younger. It gives the skin the bloom and tint of purity of a freshly-blown rose. In 10 days you can be the subject of wild admiration by all your friends, no matter what your age or condition of health. **All methods now known are cast aside.** Your face, even arms, hands, shoulders are beautified beyond your fondest dreams. All this I will absolutely prove to you before your own eyes in your mirror in ten days. This treatment is very pleasant to use. A few minutes every day does it.

Let me tell you about this really astounding treatment free. You take no risk—send no money—just your name and address on coupon below and I will give you full particulars by next mail—Free.
