May 29. 76

AMERICAN BOOK AND PERIODICAL DEPOT, 193 Notre Dame Street, where the leading PERIODICALS and NEWSPAPERS can be obtained at much less trouble and risk than from New York!

In accordance with a late postal arrangement, American Newspapers can be mailed in Montreal to any part of Canada for one copper each, and Periodica's at one copper per ounce. Thus the hazard of remitting money, as well as the American postage, may be avoided.

The following are among the most useful and popular Works for which the subscriber is Agent. They will be mailed to order, at New York prices, viz:—

Eclectic Review,	per annum,	$5,00
Hunt's Magazine,	do	5,00
Harper's Monthly	do	3,00
Godey's, Graham's, and Sartain's Magazines	do each	3,00
New York Journal of Medicine	do	3,00
The Bibliotheca Sacra	do	4,00
London Lancet	do	5,00
Braithwaite's Retrospect	do	1,50
New York Tribune, a Weekly	do	2,00
Home Journal	do	2,00

The Subscriber publishes 'The Lower Canada Agricultural Journal,' and 'The Snow Drop,' each per annum $1,00.
ROBT. W. LAY.
June 2. 79

Chocolate, Broma, and Cocoa.

THE Proprietor of the CANTON HOUSE having been solicited to give his attention to procuring those luxuries of the Table, (declared by the faculty to be so essential to health), has succeeded in arranging for a steady supply from the First Manufacturers of the above Articles, in all their most desired forms, and has now for sale, PRESTON'S, RAPHAEL'S, MOTT'S, MILLER'S, TOULMIN'S, and THOMAS'S celebrated PREPARED CHOCOLATE, COCOA and BROMA; also, COCOA BEANS and SHELLS, prepared COCOA PASTE, and CHOCOLATE CONFECTIONARY,—all this Spring's Manufacture, and at Prices to place such Luxuries on the Table of the most humble Individual.

N.B.—Preston's Chocolate and preparation of Cocoa, has received unqualified approbation from the most intelligent and scientific persons in the United States and in England.
109, Notre Dame Street,
Montreal, May 23. Tts—71

MILD-CURED HAMS AND BACON.

THE Subscriber begs leave to acquaint the Gentry and inhabitants of Montreal and its vicinity, that he has on hand and now ready for Sale, at his Store, No 83, Commissioner Street, (between the Montreal House and St. Ann's Market), a quantity of the above named deliciously flavored articles, which he can, with confidence, recommend to their notice.

He has for some years cured for the LONDON MARKET, where their excellence has been duly appreciated.

THE HAMS
have been declared by the most competent judges here to equal, if not excel, any cured on this Continent.

THE BACON
is equally fine: many who have tried it, declare that the cure of such an article has not even been attempted here hitherto.

Parties intending to purchase BACON and HAMS, would do well to give those a trial—as, while they are perfectly cured to keep, the taste of salt is not more than to be agreeable.
PETER CONOLAN.

CANTON HOUSE.
Family Tea, Coffee and Sugar Warehouse,
No. 109, Notre Dame Street.

SAMUEL COCHRAN invites the attention of Consumers to his Stock of TEAS and COFFEES, which have been selected with the greatest care, and on such terms as allow him to offer them at unusually low prices.

The MACHINERY on the Premises, worked by a Four Horse Power Steam Engine, for Roasting and Grinding Coffee, is on the most approved plan, the Coffee being closely confined in *polished metal spheres*, which are constantly revolving and oscillating in *heated air chambers*, is prevented imbibing taint from Smoke, danger of partial carbonization of the Bean and loss of Aroma, so important to *Connoisseurs*, which is further ensured by attention to Grinding at the shortest time prior to Sale. To this elaborate process SAMUEL COCHRAN owes the high reputation his Coffee has obtained through a large portion of the Provinces.

CRYSTALLIZED SUGAR (much admired for Coffee); REFINED SUGAR in small loaves, and WEST INDIA SUGARS, of the best quality, always on hand.

A few of the choicest selections of TEAS may be had at the CANTON HOUSE, in Native Catty Packages, unrivalled in flavour and perfume, at moderate rates.

Families residing distant from Montreal will have their orders scrupulously attended to, and forwarded with immediate despatch.
109, Notre Dame Street,
Montreal, May 23. mwf—71

THE NATIONAL SCHOOL BOOKS.
NEW EDITIONS.
ARMOUR AND RAMSAY'S.

THE Subscribers, in publishing NEW EDITIONS of the NATIONAL SCHOOL BOOKS, beg leave to return their most grateful acknowledgments, for the liberal patronage which has been extended by all classes of the community to their publications. The rapidity with which the previous Editions were disposed of, evinces in the most satisfactory and decided manner that the publishers did not miscalculate, when they reckoned with the most entire confidence, upon the intrinsic merits of these Books securing for themselves the countenance and favour of the inhabitants of British America.

The Series consists of the following Books, all of which are printed on substantial paper, in a clear type, and strongly bound in linen:—
A B C AND FIGURES, ON SHEETS TO BE HUNG UP.
GENERAL LESSONS, TO BE HUNG UP IN SCHOOLS.
THE FIRST BOOK OF LESSONS.
THE SECOND BOOK OF LESSONS.
THE SEQUEL TO THE SECOND BOOK.
THE THIRD BOOK OF LESSONS
THE FOURTH BOOK OF LESSONS.
THE FIFTH BOOK OF LESSONS, JUST PUBLISHED FROM NEW STEREOTYPE PLATES.
THE FIRST BOOK OF ARITHMETIC.
KEY OF DITTO.
AN ENGLISH GRAMMAR.
KEY TO DITTO.
A TREATIES ON BOOK KEEPING.
KEY TO DITTO.
A TREATIES ON MENSURATION.
APPENDIX TO THE MENSURATION, FOR THE USE OF TEACHERS.
AN INTRODUCTION TO GEOGRAPHY AND HISTORY, BY PROFESSOR SULLIVAN, WITH SEVERAL MAPS.
ELEMENTS OF GEOMETRY.
LESSONS ON THE TRUTH OF CHRISTIANITY.

These editions have met with the sanction and approval of His Excellency the Governor General, of the Bishops of the Roman Catholic Church, of many influential Clergymen of the Church of England, of the Synod of the Church of Scotland, of Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, of the Chief Superintendents of Education in Canada, East and West, and they have in consequence been brought into rapid and extensive use throughout the Province. When commenting on the value of the National series of School Books, the Edinburgh Review declares them "to be the very best books of the kind in the English language."

These Editions bear the following on the title page:
"DUBLIN: PUBLISHED BY THE DIRECTION OF THE COMMISSIONERS OF NATIONAL EDUCATION, AND REPRINTED BY EXPRESS PERMISSION, AT MONTREAL, BY ARMOUR & RAMSAY."

The Trade, Country Merchants, Teachers, and others supplied on the most liberal terms.
ARMOUR & RAMSAY.

(Successor to the late Miss MAJOR.)
No. 13, Great Saint James Street,
MONTREAL.

SHOW ROOMS open for the Season, with the latest Fashions from London, Paris and New York.
May 20. 68

GYMNASTICS, FENCING,
AND
Management of the Gun.

SHOOTING GALLERY,
49, *Notre Dame Street.*

MONS. REY offers his grateful acknowledgments to the public for the encouragement he has been favored with as a Fencing Master, and, in accordance with the request of a large number of estimable persons, he now begs to announce that he proposes forming an Establishment, at his residence in the centre of the city, for giving instruction in and for the practice of the exercises above mentioned, upon the following conditions:—

1st. He must have at least 50 subscribers.

2nd. The 50 subscribers will at once place in the hands of some party selected by themselves, Three Dollars each, for the formation of the Establishment, and pay One Dollar and a Half, in advance, for the following month.

As the formation of an Establishment of this nature, so necessary to complete the physical education of youth and to develope the powers and graces of the body, is a desideratum generally felt, Mons. REY presumes to hope that his project will be favorably received by the public of Montreal.
May 20. 68

THE MONTREAL HERALD

ANIMOS NOVITATE TENEBO. OVID.

MONDAY MORNING, JUNE 9, 1851.

TIMBER TRADE—CULLERS ACT.—We need scarcely say how cheerfully we comply with the request contained in the following letter. With such conclusive and incontrovertible evidence against Mr. Laurin's Bill, we can only plead, in excuse for our error, our want of information as to the practical details in the shipment of timber for home and foreign markets ; and, we must be permitted to add, the comparative silence of our Quebec contemporaries, on a subject of so much importance to the great staple of the commerce of their port. The truth is, in matters not immediately affecting the interests of the community for whose special benefit it is published, however faithful his memory, and however cautious his temperament, it is almost impossible for the editor of a daily paper to escape, occasionally, falling into errors, such as our friends, so justly, comment upon. In the present instance, we candidly admit, we had forgotten the action taken last session upon Mr. Laurin's Bill, and, misled by the plausible preamble to his present measure, we took it for granted his object was good, and that the new regulations proposed by him were in accordance with the interests and the result of the demands of the trade. We may take another opportunity of explaining to our general readers, so far as we understand them, the practical evils, which could not fail to ensue to the trade, from the adoption by the Legislature of Mr. Laurin's bill.

To the Editor of the MONTREAL HERALD.

SIR,—We noticed in your paper of the 2nd instant some editorial remarks, laudatory of the Bill lately introduced into the House of Assembly by Mr. Laurin, to alter the Lumber Act.

This Bill is solely a renewed attempt on the part of the Cullers, to force their services on those who do not want them. It is totally undesired by, and highly objectionable to the Trade.

We feel assured that the remarks alluded to were made from a misrepresentation of the subject, and we doubt not your perfect willingness to lay the matter before the public in its true light. A Bill for a similar object was rejected last Session. Accompanying this letter we send a printed copy of a Petition against it, which was sent from this city, and we respectfully request that you will give it an insertion, *with the names of the Petitioners*, in the columns of your next issue ; they include all interested in the Trade—manufacturers and shippers, sellers and buyers.

Petitions to the Legislature, against the present Bill, are going forward, from the Board of Trade of this city and from the individuals engaged in the Trade.

We feel convinced that your remarks, to which we have already alluded, are very likely to do harm, for the subject is but little understood by many members of the Legislature, and we trust that you will comply with our request.

We remain, Sir,
Your very obedient servants,
HAMILTON BROTHERS,
ALLAN GILMOUR & Co.

Quebec, June 6, 1851.

TO THE HONORABLE THE LEGISLATIVE ASSEMBLY OF THE PROVINCE OF CANADA, IN PARLIAMENT ASSEMBLED.

The Memorial of the undersigned Merchants and Manufacturers extensively engaged in the Timber Trade of Canada,

HUMBLY SHEWETH :

That Your Memorialists have been much surprised to learn, that the Cullers have this Session of Parliament, renewed their attempts to induce the Legislature to make an alteration in the present "Lumber Act," whereby the interests of those engaged in the Trade, buyers as well as sellers, will be seriously affected and materially injured ; and that a Bill, embodying the proposed alteration, has been introduced into Your Honorable House by Mr. Laurin.

That this alteration has not been asked for, and is not desired by those interested in the Trade, either manufacturers, or buyers, or sellers, and that it is sought for by the Cullers alone, who have no interest whatever in the matter, and whose object appears to be to force their services on those who do not want them.

Wherefore, Your Memorialists humbly pray that Your Honorable House will not pass the Bill. And Your Memorialists, as in duty bound, will ever pray.

Quebec, 14th June, 1850.

QUEBEC, 4th June, 1851.

The above Petition was prepared against the Bill of last Session. The Bill introduced this Session by Mr. Laurin, has precisely and solely the same object in view.

HAMILTON BROTHERS,
ALLAN GILMOUR & Co.

Trinity House Dues.—We take the liberty of correcting an important inaccuracy which occurs in the Herald's leading article of Thursday last. Our contemporary says, while referring to the sum now charged, according to the new rate of dues, "that it will save every vessel of five hunhundred tons visiting us £6 5s. on its passage between Quebec and Montreal." The *Herald* should have stated, with reference to the new rate as compared with the old—that the sum saved to vessels of 500 tons would amount to £3 2s. 6d., instead of £6 5s. ; which sum, we may remark, is chargeable under the given circumstances, upon all vessels irrespective of burthen.—Pilot.

We thank our contemporary for his correction. We were led into the error from our informant stating the reduction to be from 3d to 1½d, without mentioning that this charge covered the voyage both ways. The dues now are three farthings, and not, as we had supposed, three half-pence per ton, upon each voyage between the ports of Quebec and Montreal.

COMPLIMENTARY TO HER MAJESTY'S TROOPS.—We are happy to see that the Sheriff of the District, and the Magistrates residing in the Town of Three Rivers, presented an address to Captain Poley, commanding a detachment of the 20th Regiment, for some time back stationed in that place, on his departure, expressive of their approval of the admirable conduct of the men during their stay, and of their regret at Capt. Poley's removal—to which the gallant officer made a courteous and appropriate reply, in his own name and in that of the detachment.

Messrs. George N. Shaw & Co., in their San Francisco circular of April 30, say, "the general opinion prevails that the product of gold this year will exceed two-fold that of last year."

THE SAGUENAY.—As the season for excursions in search of health and pleasure advances, we have thought that the following interesting narrative, which we translate from the *Journal de Quebec*, may induce intending tourists to visit the romantic scenery of our magnificent river and its gigantic tributary the Saguenay :—

EXPLORATION OF THE SOUTH SHORE OF THE RIVER BELOW QUEBEC.

RIMOUSKI, 28th Sept., 1850.

SIR,—I have just returned from Metis and Matane. I thought, on leaving St. Thomas, that I should be able to write you oftener and give you a regular account of our excursions, which you may call by whatever name you please. To reach the *Doris*, which, like an impatient steed was only awaiting the order of her master to rush into the watery plain, we were obliged to trust to a frail conveyance which the waves tossed about with great violence—not that I feared any danger, but I dreaded the sea (or river) sickness, an evil for which, as Punch says, there is but one remedy, *to remain ashore !* Stretched at the bottom of the boat, I did not go ashore at l'Islet with the Engineer to examine that part which had already been explored by Mr. Rubidge. Mr. Keefer, and I went ashore at *Pointe aux Orignaux* (Moose Point) between St. Denis and river Ouelle. On Saturday night we had reached River du Loup.

I shall not undertake to describe to you this charming place, which has been so long frequented by visitors who go thither, as well as to Kakouna to renew the vitality they have lost in the heavy and corrupt atmosphere of the towns. The spirit of enterprise by which the inhabitants of River du Loup are animated, and the eagerness of the Seignior, Mr. John Fraser of Terrebonne, to effect any local improvement, whatever be its cost, are an earnest of the future industrial prosperity of this parish, a prosperity which is besides guaranteed to it by its considerable water powers and its numerous water falls.

Opposite River du Loup at some distance in the stream, are the harbour and anchorage grounds so well known to mariners by the name of *Pot a l'eau de vie*, which has been naturally translated into English as Brandy Pots I am not aware whether the small group of rocks which lie a little above the water close to Hare Island, owes its name to some marine adventurer in the shape of a pot of Brandy, or whether mariners have given that characteristic name to this anchorage on account of its calmness in the greatest storm, when every thing is agitated and dashes itself around you ; but at all events, we were happy in finding it the other day as night came on, to shelter ourselves from the difficulties and dangers of a boisterous north-west wind. When the sky becomes clouded, and the wind whistles with violence through the rigging, and the waves show their white crests, the mariner sighs as ardently after the Brandy Pots, as he dreads the approaches of Red Island, so mournfully remarkable by the shipwrecks it has caused, and towards which you are drawn by fatal currents, notwithstanding all your efforts to avoid them.

On Sunday the sky was clear and serene ; and as every one seemed anxious to see at least the mouth of the Saguenay—that river, at the head of which lies a country, the fertility and fine climate of which were until very lately unknown—the Doris changed her course to that direction. The wind soon sprung up and the vessel sped along at the rate of 10 knots an hour. At twelve we were in Tadoussac. Who can fathom the mystery of these enormous depths, of this immeasurable mass of water lying between two walls of mountains, the majesty of which inspires you with awe ?—The Saguenay is as calm as a mirror, while the waters of the Saint Lawrence are agitated and foaming with fury ; the sky is clear. But the aspect of this gigantic wonder of nature, so solemn and so silent, fills the soul with unspeakable dread. Man, almost hidden and lost in these abysses, considers himself as a mere nothing. His thoughts alone soar above this horizon of rocks, to adore the Author of this Great Creation : his worship is admiration. "If the sources of the St. Lawrence," says Captain Bayfield, "were dried up and its bed laid bare, the Saguenay would present to the astonished eye of the beholder the extraordinary phenomenon of a river one hundred fathoms in depth." In many places the explorer must doubtless have said with grief, "We have thrown out 150 fathoms of line, and found no bottom.

In a few hours we were under Cape Trinity, the largest of the mountains by which the Saguenay is walled in. This mountain, which rises 1867 feet above the level of the water, and probably sinks below it to the same depth, is cut perpendicularly from top to bottom like the wall of a house. It may be said even that it bends over the abyss. Its base, which, at the water's edge, is detached to the north and south from the chain of mountains it forms part of, is not more than half a league in width. What, by the side of such a mass, would be the largest pyramid of Egypt, which has challenged the admiration of the world during so many ages ?—An undistinguishable mole-hill—a pebble disappearing in the depth of this mysterious flood. See there the hand of man. Beheld here the work of God !

Cape Trinity is separated from another and probably higher mountain (unless it is cut down a little less perpendicularly) by a small river, upon which Mr. Price has erected a saw mill. On whatever side, therefore, you turn your eyes, they encounter enormous mountains, whose aspect is pleasing, notwithstanding their bulk, and whose leafy and waving heads resemble magnificent carpets, enriched by the most beautiful colors of nature. We were told that the echoes here were prolonged far into the hollows of the mountains ; and, in fact, our voices, strongly accentuated, like proud messengers of our fancies, ascended to the summits of the monstrous piles. These sonorous reverberations had not, it is true, the intelligence of that Irish echo, which, from the shores of a celebrated lake, replied "Very well thank you," to the question, "How do you do ?" but they were solemn, and the sounds rolled majestically on the surface of these gigantic walls. The *Doris* advanced slowly against the rapid current, and we observed here and there vessels attached to the trees which sprung from fissures in the rocks, serving for anchorage in places were the anchor would vainly seek a point of resistance in the unfathomable gulf.—How small they were, these vessels, confident as they are upon the wave which they defy and divide, proud of their white sails, by which they fly before the tempest playing with its wrath ! What insignificant shells, scarce marking their outline on these formidable rocks. And man—he who unthinkingly yielded himself to be rocked on these almost imperceptible atoms—man, immeasurably great, but only in his heart and his intelligence—where was he ; for the eye could not distinguish him ? We soon perceived the Isle St. Lewis. Who could expect isles in these waters without bottom, and so straitly bounded ? The Saguenay is hardly more than a nautical mile at its greatest breadth. All round the Isle St. Louis, it is 50 or 60 fathoms deep. The base of the island cannot be large. It is like an enormous stack of hay, whose base must be sunk into an unknown precipice—a pyramid which, if it were placed upon the burning sands of Africa, would efface the glory of the pyramids of the desert.—Yet, its dimensions diminish and disappear at the aspect of the giants charged to retain the mysterious flood within its bed. I mounted one of the masts of the vessel to see if I deceived myself, and if illusion did not enlarge the surrounding objects to our astonished eyes ardently seeking new marvels, I had not then changed the horizon. Looking down on the water, I believed myself lifted up ; but, if I turned my eyes to the shore, which I have just described, it seemed that I had not mounted at all. I felt my feet in the water.

We now divided the waters with accelerated speed, and at nightfall we entered Grand Bay, having passed a distance of twenty-three leagues from Tadoussac. This Bay is also called Ha Ha, because our ancestors, upon reaching this spot, constantly supposing that they ascended the river, which in fact they had left unperceived, on account of its straitness, on the right, cried "Ha ! ha ! then, the Saguenay is not a river : it is a bay." The waters of the bay, which runs up two leagues into the land, are as deep as those of the river ; and it is not till the vessel almost touches the bank that the anchor touches the bottom, in 25 fathoms water. A ship's length more distant, and there is no anchorage. Explorers have tried at 50, 60, 100, and 180 fathoms, without finding the bottom. Here the mountains are flattened, in order to afford an horizon to the eye, fatigued with their colossal majesty. The bank at the foot of which Mr. Price's establishments are erected, is raised fifty or sixty feet above the level of the water.

It is said that Saguenay is not an Indian word, but a corruption of *Sac-au-nez*, because Ha Ha Bay has the form of a bag which seems attached to the Saguenay, like a bag to a horse's nose. It is maintained, in like manner, that Tadoussac is a corruption of *Tete-au-Sac*, that small bay being placed precisely at the head of the large bay, into which all the other bays might be put without any trouble.

We passed the night on the vessel, and did not land till early the following morning. We had not even the consolation accorded to the august chief of the Hebrews, to mount to the high place, in order that he might cast a look upon the land of promise. Curiosity conducted us to the Bay-of-Surprize ; duty dragged us from it almost forcibly ; and this precipitated departure—too hasty in some respects—would necessarily have left on the minds of some, the conviction that these sublime mountains, which caused his admiration, could only have behind them bare and uncultivated rocks, which might be presented gratuitously to any who had courage to draw from them with hardship, the means of subsistence. Thus to judge without seeing, is to resemble not a little the Jewish explorers, who, from terror or discouragement, turned back in the way, and reported that the land of promise was sterile and inhabited by giants. But those who followed the first, returned loaded with delicious fruits of prodigious size.—— Such are the confident hopes of the best friends of this country.

The tide-water in the Saguenay is felt as high as Chicoutimi ; and rises seventeen feet at spring tides. It rises six hours and falls six hours, unlike the St. Lawrence, where it rises five hours and falls seven.

Raising the anchor, we presently saw again all the places that we had admired. We passed close to Cape Trinity, in order the better to see its dimensions and structure. How I then wished to be a painter, in order to reproduce on the canvass this savage nature, with formidable aspects, the gigantic productions of a commotion, which has dug an abyss that requires mountains to serve it for walls.

We set out about 2 o'clock from the waters of the Saguenay ; but had hardly done so when a thick fog, taking all sorts of forms, and creating multiplied delusions, stopped us suddenly. It became necessary to seek an anchorage, and we there passed the rest of the day and the night.

On Saturday afternoon Major Talbot was presented with a handsome solid Silver Salver, made by Messrs. Geo. Savage & Son, bearing the following inscription :—

From the
Congregation of Christ Church Cathedral,
to
MAJOR TALBOT,
In token of their thankful acknowledgement of his zealous, indefatigable and valuable services in training and directing the Choir, during a period of nearly seven years.
Montreal, 7th June, 1851.

The chastisement of the Suloo pirates by the Spanish Government of the Philippine Islands, was attended with great loss of life, and it is thought without any valuable object. The Spaniards disembarked at Suloo, Feby. 28, and as they marched on the town, they were supported by a steady fire from their three steamers, brig and corvettes. The Governer General himself led the attack on Fort Daniel, the strongest fort, but the Sulooites contested every inch of ground with the utmost bravery ; and every one of them perished. Finally, the Spanish flag was hoisted on the fortress by Father Pascual Ibanez, a priest of the order of Recoletos, who paid for his daring by being slain. The Sultan, in escaping from his fort, accompanied by his Datoos and a large force of Suloos, encountered the right division, which appears to have been panic-struck. At all events, the officers were, and two colonels will be tried by a court-martial for cowardice. Had these officers acted with decision, the Sultan must have been either slain or made captive. The left division suffered a loss of 33 killed and 84 wounded. The whole of the forts and part of the town were destroyed ; the captured artillery consisted of 130 pieces of ordnance.

ATTEMPTED REVOLUTION IN CHILI.—At Santiago on Sunday, April 20, Col. Urriola's battalion of Valdavia mutinied, and, led by him, attacked and carried the armory and engineers' barracks ; but in attacking the barracks of the artillery they were checked by the militia, when Col. Garcia, in command of the national guard, soon defeated the insurgents. Sixteen or twenty were killed in the skirmish, and fifty wounded. Col. Urriola was killed. President Bulnez declared the provinces of Santiago and Valparaiso in a state of siege till June 1, when congress meets.

The earthquakes which began at Valparaiso, April 3, continued up to the 25th, but the alarm had subsided. The houses thrown down by the first shock were old ones, but all other houses were injured ; the greatest damage was in the Calle de la Victoria. A boy and a woman appear to have been the only persons killed ; others had limbs fractured. Since 1822 there has not been so heavy a shock. From the interior it is reported that the villages of Casa Blanca and Renca were tumbled into ruins. A woman lost her life at Santiago, which, with its environs, suffered quite as much as Valparaiso. The church in Curucavi was thrown down.

PORTS OF ENTRY, &C.—The extra of last Saturday's *Official Gazette* contains a proclamation declaring Gaspé, in the District of Gaspé, New Carlisle, in the District of Bonaventure, and Port Amherst, in the Isle of Amherst (one of the Magdalen Islands), to be Ports of Entry and Warehousing Ports.

A coroner's inquest was held on Saturday, on the body of a man who fell from the parapet wharf and was killed.

We would call the attention of the public to Messrs. Fisher & Armour's sale of Books. The Works which will be offered are of the first order.—See Advt.

PANORAMA OF THE UPPER MISSISSIPPI.—It will be seen by the advertisement that this is the last week of this beautiful and interesting exhibition in Montreal, as next week the picture will be replaced by that of the Lower River, from the Gulf of Mexico to the City of St. Louis. There is no time then to be lost, for to appreciate the varied scenery on the mighty river of the West and South, both sections of its course should be seen.

CORRESPONDENCE.

To the Editor of the MONTREAL HERALD.

SIR,—You were so obliging as to inform your readers in yesterday's issue of my arrival in Montreal, and the object with which I had come. Will you permit me to trespass farther upon your columns, to make known to them that I am meeting with the most encouraging success in my canvass for subscribers towards the erection of a new Theatre. From all I can learn, I fancy that the public mind is now pretty well made up as to the soundness of the views I have ever entertained and expressed with regard to the only means of establishing the Drama on a *respectable* footing in this city—I mean by the agency of a small, elegant centrally situated and low priced Theatre, where our citizens can be diverted and instructed from one year's end to the other, at as small an amount as is paid for similar amusements in the neighbouring States, and (in our day) at all the leading Theatres in London and the Provinces. I conceive, sir, that this is a matter in which *all* have a direct interest—not only the Theatre goers, but those who never frequent such places. Whether is it better for us to have such an establishment under the management of one of ourselves, and over whom we can, from that simple circumstance, exercise a certain control and influence, or to be at the mercy, for about 8 weeks in the Summer, of any mountebank who chooses to take a large and unwieldy concern ; and who the Lessee, whoever he may be, is compelled to charge an exorbitant price, to cover the interest of his outlay ?—It is easy of proof that for a few weeks occupancy, for many years past, the American managers and others, have had to pay an equal amount for the Montreal Theatre, as would be a fair remuneration for a twelve months tenancy. During the remainder of the year (say 10 months) we have had to be satisfied with the cheering prospect of the *exterior* of Messrs. Molson's and Hays' Theatres. And thus will it ever be : a *large*, and consequently *expensive* Theatre, will be seldom opened—a small and well conducted one, need as seldom be closed.

Yours, very faithfully,
JOSEPH S. LEE.

Montreal, June 7.

Porpoise Skin Leather.—Since the display of this excellent article, at the World's Fair, Mr. Têtû has made considerable improvements in the manufacture, and specimens of the improved leather may be examined at the book-store attached to the office of the *Canadien*. Among them is some admirable imitation of chamois, which has a beautiful velvety texture, and is well adapted for gloves, gaiters, and riding breeches. Of this, Mr. Têtû is preparing a pair of slippers for presentation to Her Majesty. He is also preparing a pair of boots of the ordinary porpoise skin leather for presentation to His Royal Highness Prince Albert.—Quebec Mercury.

Jenny Lind, it will be gratifying to know, is not to leave this country immediately upon the termination of her engagement with Mr. Barnum, nor is the 100th concert, under this engagement, to be her last in America. Her Secretary publishes a card to this effect in the New York papers, concluding as follows :—

"The fatigue and exertion incidental to such continuous effort, make it necessary for her to enjoy for some time repose and relaxation. After that, she may, if her strength permit, make a short tour in Western New York and Canada, in order not to disappoint those who, from expecting to hear her at home, have refrained from visiting the Atlantic cities."

Of course, it is not unreasonable to expect that she will give a concert here, or at Saratoga, or at both places, before the summer is ended and the bird shall have flown. Thousands, in these rural districts, would go miles on foot to hear her.—Albany Argus.

Provincial Parliament.

(*Reported for the Montreal Herald.*)

LEGISLATIVE COUNCIL.

WEDNESDAY, June 4.

Hon. Mr. WIDMER reported from the Select Committee, the Bill to vest in certain parties a Road allowance in the County of York, without amendment.

Hon Mr. ROSS reported from the Select Committee, the Bill to facilitate the leasing of lands and tenements, without amendment. Bill read a third time.

The following petitions were laid on the table : From the Mayor of Hamilton, praying that the Municipal Act may be amended ; from Mr. McPherson and 3095 others, praying that 10 eastern townships of the County of York be erected in the County of Ontario ; from K. Cameron and others of Thorah, and from G. B. Burnham of Scott, for the same purpose ; from D. Paterson and others praying that the Charter of the Toronto and Huron Railroad Company be revised ; from the Sons of Temperance for an Act of Incorporation ; from three persons named Stevens, for the reversal of the Act of Attainder against Aaron Stevens for high treason ; from the Wardens of St. John's Church, Peterboro, for leave to sell a lot of land belonging to the Church.

A Committee was appointed to act in conjunction with a Committee of the Lower House, in the management of the library.

Hon. Mr. BOULTON moved for leave to introduce a Bill to amend the law of Dower. Leave granted and bill read a first time.

LEGISLATIVE ASSEMBLY.

WEDNESDAY, June 4.

Several petitions were brought up.

BOARD OF WORKS.

Col. Prince then moved the reference to a special committee of the petition of a Mr. Cary, who complained that he had been wronged by the award of arbitrators of the Board of Works, inasmuch, as he had proved loss to the extent of £3000, while the award had been only for £40.

Mr. HINCKS said that the act of Parliament constituting the Board of Works committed the trial of cases arising between the Board of Works and individuals to a board of arbitrators ; he therefore could not admit that Parliament should revise these judgments. There would be no end to the cases which would be brought before the House, if this were allowed.

Mr. H. SHERWOOD said the appeal from the arbitrators ought first to have been made to the law Courts, as the law permitted, before it was brought before the House. At the same time he thought great injustice had been done to Mr. Cary.

After some further conversation the motion was rejected.

LAND SCRIP.

Mr. PRICE brought down returns in answer to an address of the House relative to Land Scrip. In doing so he called the attention of the House to a very large volume of manuscript he had in his hand. The information was useless ; hon members would see the immense labour such returns cost the clerks. The hon member was proceeding to dilate in this strain when—

Mr. H. SHERWOOD called him to order. He thought it very unseemly that a messenger of the Government in bringing down returns, should take the opportunity of taunting the House for the impropriety of asking for them.

Mr PRICE was continuing, when—

Mr SHERWOOD again called him to order.

Mr. SPEAKER ruled that he should not be allowed to speak.

Sir A. N. McNab hoped the returns should not be printed in the journals of the House. He put a motion to that effect which was seconded by Mr. Cauchon. Sir Allan said he was obliged to the Commissioner of Crown Lands for having called the attention of the House to the bulkiness of the returns.

Mr. H. SHERWOOD would vote against the motion. If the information was useless the House should have thought of that earlier, and not have allowed it to be brought down ; but as it had been brought down it should be printed.

Mr. HINCKS would support the motion of the hon member for Hamilton. Any one could have access to the return, and anybody could have had it in the public offices. It was a perfect waste of money to print such a document as this, which would cost more than all the appendix. It was not the custom in England to print every document. They were referred to a Committee and not ordered to be printed till they were examined ; and he (Mr. Hincks) was on the point of making a proposal to the House to establish a similar rule.

The motion was then put and carried.

RAILWAY COMMITTEE.

On motion of Sir Allan McNab an address was ordered for copies of correspondence between the Board of Works and the Railway Companies.

On the motion of Sir A. McNab, an address was ordered to His Excellency for referring to the standing Railway Committee, copies of correspondence between the Executive and Railway Companies, and also that paragraph in His Excellency's speech from the throne relating to Railways.

Mr. SOL.-GEN. DRUMMOND then moved the adjournment of the House.

Mr. PRINCE asked what for ?

Mr. SOL.-GEN. DRUMMOND.—Because he believed it to be the desire of the majority of the House.

Mr. PRINCE said that a gentleman near him talked about the adjournment being intended to allow hon gentlemen to get breakfast (Laughter.) What an astonishing world of changes this was ! Formerly people used to breakfast before dinner, (laughter) and he, a plain old farmer, still continued to breakfast at six o'clock. To breakfast at half-past five p. m., was something which he had never heard of in his life ; but out of regard to the gentlemen who had not breakfasted, he would not oppose the motion. (Renewed Laughter.) And the House adjourned.

KOSSUTH TO BE LIBERATED.—The Cabinet of Vienna, in compliance with the reiterated requests of England, has at length consented to set at liberty Kossuth and the other refugees, on the express condition, however, that they shall leave Europe, and engage not to return without the formal consent of the Austrian Government.

Mr. Bulwer, British minister, sailed from New York on Wednesday in the *Africa*, for England. Mr. Crampton will act as Chargé during his absence.

We have been requested to publish the following certificate :—

PLANTAGENET WATER.

When first applied to by Mr. Larocque, for my opinion of the "Plantagenet Water," I could only state that I had found it useful, as a *mild aperient* ; a more extensive experience has convinced me of its utility in various diseases, as chronic and acute rheumatism, derangement of the stomach, liver, and bowels, particularly where mercury and strong purgatives had been frequently employed. In urinary diseases and hemorrhoidal affections, the Water will be found extremely useful, and for the derangement of the stomach and bowels, which accompanies pregnancy, I have found it preferable to all other remedies.

Having suspended my opinion until some years experience of this Water had satisfied me of its value, I have the less hesitation in strongly recommending it to the profession and the public, in the above affections, in which I have found it superior to all the other Mineral Waters of Canada ; and as a beverage in hot weather, I can recommend it as preferable to the drinks usually taken during the warm season.

I may state, in conclusion, that I recommend this Water to the members of my own family, and have always kept a supply in the house, since I became personally acquainted with its valuable qualities.

ROBERT L. MACDONNELL, M.D.

Sold only in one place in Montreal, No. 4, Place d'Armes.—Fresh Water twice a week at the Depot.

CIRCULARS, CARDS, &c.

We take the liberty respectfully to remind our mercantile friends and others that we are accustomed to execute all descriptions of JOB PRINTING with neatness and dispatch, and at unusually low rates. We would particularly call attention to our Professional and Business CARDS, which will be found of superior quality, style and workmanship, and which we furnish at a very low rate. In addition to Merchants' Circulars, Cards, &c., we also print Bills of Exchange, Bills of Lading, Receipts, Bank Checks, Bill Heads, Books, Pamphlets, Custom-House, Law and Notarial Blanks ; in short every description of Job Printing, plain and ornamental, at the present reduced prices.

TRADE & COMMERCE.

REMARKS.

FLOUR—The business has been limited. Sales were made at 20s. 1½d. a 20s. 3d., in the early part of the week—since when the price has declined to our quotations, the market to-day closing without animation, and with a considerable quantity offering.

WHEAT—But little of good quality in market 4s. per 60 lbs, being the best price procurable for an inferior cargo. L. C. Red of good sample, is reported to have been sold at 4s 5½d. per minot, but holders demand higher rates.

PEAS.—There have been sales at 3s. and 3s. 2d. per minot.

OATS— } No sales our quotations are pure-
BARLEY— } ly nominal.

INDIAN CORN—Sales to a small extent, at 2s. 9d. per 56 lbs.

PROVISIONS.—The rates quoted for Beef are nominal, there being no sales to report. In Pork, the business of the week has not been extensive—our quotations exhibit a decline upon the lower qualities, and the market to-day is heavy, and without much demand.

BUTTER.—In limited demand, with trifling sales, at the rates quoted.

ASHES.—Both kinds have declined since last week—altho' on Monday and Tuesday an advance was paid. They are to day quiet at our quotations, Pearls being most saleable.

OATMEAL.—Sales have taken place at 20s. 9d. Holders ask to-day 21s.

FREIGHTS.—There have been engagements to a fair extent as quoted.

EXCHANGE.—Steady, and in good demand.

STOCKS.—Montreal Bank—Since payment of dividend sales have been made at 10 per cent. premium, which may be quoted as the rate of to-day. City Bank—The Report of the Directors has had a favorable effect upon the Stock, which advanced from 27½ a 20 discount. It is, however, to-day procurable at 21½ discount. Commercial Bank, M. D.—Continues to sell at 2½ premium. Bank of Upper Canada—Saleable at 8 discount. Montreal Mining Co's Consols—There has not been a single transaction—and we are unable to give a quotation. In other Stocks—We have nothing to notice.

Business remains much in the same state as at the date of our last weekly report, and as no change of any consequence has occurred, we do not repeat our Wholesale Prices Current of groceries, hardware, &c. In dry goods, business is dull. We notice a Catalogue Sale by Stewart & Kerr, at the Warehouse of T. D. Hall, Esq., on Friday—it was well attended by the trade—nearly two hundred packages were sold, principally American Domestic Cottons, which realized fair prices, considering the lateness of the season, and the late fall in price of that staple. "Atlantic's" and "Hadley Fall's" brand, brought 5d. to 5⅛d. We are glad to see trade sales of this description succeeding so well.

Messrs. Young & Benning had a large sale of Dry Goods on Saturday : a large quantity of goods were sold—prices, we believe, were generally satisfactory.

FORSYTH & BELL'S PRICES CURRENT OF TIMBER, DEALS, &c.

QUEBEC, June 7th, 1851.

	s. d.		s. d.

Do do 2nd quality	£5 15s.	a	£6.

REMARKS.

Since we last issued our circular, a good number of vessels have arrived from sea, the tonnage being greater than to the like period last season, but the weather has been wet and boisterous, and has interfered a good deal with the shipment of Timber, and has also retarded many rafts now on their way to market.

White Pine, if of good quality, sells readily ; for inferior rafts there is not the same animated demand as on the opening of the navigation, but the market is well sustained, especially for Timber of a fair quality. Red Pine moves off heavily, and our advices from London confirm the views expressed in our last circular.

Elm has been selling very readily on arrival, and there are only a few rafts on sale at the moment. The high price last year current in England, and particularly in London, are not however realized this season, the demand for Spain having in a great measure ceased.

Oak is in fair demand, especially for either very large or very small, and the market is comparatively bare.

Tamarac finds purchasers on arrival, at from 7d to 8d for square, according to size and quality.

Standard Staves do not sell so readily as was anticipated, and for West India the demand is very languid for White Oak, although Red are scarce and realize our quotations.

Deals continue in fair demand for both Pine and Spruce, and we do not alter our quotations.

Freights are dull, and may be quoted at 28s for Liverpool, and 31s for London.

COMPARATIVE STATEMENT of Arrivals and Tonnage at this Port, in the years 1850 and 1851, to the 6th June, is as follows :—

	Vessels.	Tons.
1850	336	139,004
1851	409	168,639
More this year.	73	29,635

FORSYTH & BELL.

ALBANY MARKET—June 5.

Flour—We have no material change to note in Flour. There is a moderate business doing for the local trade, the river and the east. The sales are 1,400 to 1,500 brls, at $4 a $4,18¾ for mixed to straight western ; $4,18¾ a $4,25 for state from Mediterranean wheat ; $4,44 a $4,50 Genesee ; $4,62½ a 4,75 for fancy do.

Grain—We have no sales of Wheat to report ; the parcels afloat a day or two ago are going into store. Rye sells in small lots at 76c. Barley is lower, with sales 2,000 bush at 85c. Oats steady, with sales 7,500 bush at 44 a 45 cts. There is rather more doing in Corn, and the market is easier ; sales 11,000 bush at 54c for western mixed ; 55½ for yellow round. Sales 1,000 bushels Canada Peas p n t.

BOSTON MARKET—June 4.

Flour—There has been some sales of good Southern for shipping at $4,75 a 4,87 per bushel; and extra $5 a $5,25 do. do. ; Ohio and Michigan $4,25 a 4,31 ; and fancy $4,37 per brl.

Grain—The sales of Corn have been to a moderate extent, comprising a few thousand bushels yellow, at 62c ; white 60c ; and mixed 61 cts per bush. Rye scarce—some sales at 90c. Oats—47 a 48c per bush.

BY TELEGRAPH.

(*Reported for the Montreal Herald.*)

MONTREAL AND BUFFALO LINE.

Arrival of the Steamship Pacific.

NEW YORK, June 7.

The American Steamer Pacific arrived at her wharf to-day, making the run in 10 days and 2 hours—the quickest passage on record.

The British Steamer Niagara had arrived at Liverpool from Boston.

150 Hungarian refugees had embarked at Havre for New York.

Brown & Shipley's Circular says :—More doing in Corn Market, at last week's prices.

The meeting of the King of Prussia and the Emperors of Austria and Russia was to take place on the 27th instant.

At the Great Exhibition yesterday, to the great astonishment of every one present, notwithstanding the fall of the price to 1s, the entire Crystal Palace was not so crowded as usual. A rush was anticipated, and the consequence was, that a comparatively small number came.

The Clergy of the Diocese of Exeter, to the number of 44, have entered their formal protest against the Synod, to be held by the Bishop in June. The protest may thus be briefly summed up :—That the said Synod is opposed to the spirit of the constitution of the Church ; that the declaration to be issued is uncalled for ; that the Synod would not bed one of free discussion ; that having no power of itself, it would be futile, and have the appearance of schism.

In the French Chambers there have been very violent debates. On Friday the 23rd the Minister of the interior was assailed, for the exercise of undue influence, in a recent election in the department of Landes. M. Faucher pleaded that his policy had been in the main, neutral ; but that he had expressed a firm opposition in the Cabinet, to the election law of the 31st of May. The defence failed. The Assembly would have been better pleased, if the Ministry had boldly declared that the movement had influenced electors in its favor. Government is using all its influence, to procure petitions to the Assembly, for a revision of the constitution. All the English conservative journals in the interest of President Bonaparte, and in opposition to the Republican Constitution, say that these petitions are numerous.

LIVERPOOL MARKETS.—Flour—Dull at 19s a 20s for Western Canal; 20s a 21s for Philadelphia and Balimore. Corn—White 31s a 33s ; Mixed 29s a 30s. Corn Meal 15s a 16s. Pork and Beef—Show no particular change. Lard in good demand at 50s for prime qualities. Consols —In London on the 27th, 97⅝ a 97¾ for money ; 97⅞ for account.

PROVINCIAL PARLIAMENT.

TORONTO, June 7.

Last night, after the report left, the House was engaged several hours in discussing Mr. Merritt's resolutions, on which to found an Address to the Queen, praying that the British Parliament will impose on the productions of foreign countries imported into England the same rates of duty that these countries levy on the productions of British Colonies.

Mr. Merritt denounced the scheme of closing our canals against American vessels as futile, and calculated only to excite the ridicule of American statesmen. He believed England would have no objection to his proposal, as it only sought an extension of reciprocal imposts contained in the Navigation Act.

Mr. Robinson proposed a series of resolutions, in amendment, in favor of differential duties, to encourage the trade of the St. Lawrence, and to ask England to put a small fixed duty on foreign grain.

The principal objection to Mr. Merritt's resolutions was their stating that Canada does not require protection ; a system which, he contended, it was our true policy to adopt.

The Inspector General said he would have no objection to join in an address that would attract the attention of the protectionists in England ; but he contended that Mr. Merritt's resolutions would be ridiculed by all parties. If retaliation became necessary, the closing of our canals was the best policy that could be adopted. He would make up for the loss of the Canal Tolls by attracting a large trade to the St. Lawrence.

Mr. Cayley was in favor of asking for the restoration of protection in the English markets.

Messrs. Stevenson and Sherwood (Brockville), and Holmes, declared themselves in favor of differential duties. Mr. Holmes proposed to abolish the Customs department, and borrow a million and a half to carry on the Government for 3 years, when the Canals might be made to yield a sufficient revenue for all provincial purposes. The debate was postponed for a fortnight.

Quebec, June 6.—Arrived—Brig Lewes Lass, Tullman, New Haven ; Bark Belle, Jefferson, Hartlepool ; Bark Horem, Neilson, Dublin ; Russian Ship Militie, Brimstrom, Hull ; Ship Mountaineer, Creror, Newport ; Ship William Bootford, Cole, London ; Bark Mary, Johnston, Liverpool ; Schr Primrose, from Halifax.

NEW YORK MARKETS—June 7th.

Flour—Less doing in State and Western, and market heavy, especially for Old Canadian, quiet at $4,12½ in bond ; sales of Domestic—4700 bbls at $3,62 a $3,75 for No. 2 Superfine ; $4 a 4,06 for Common to Straight State ; $4 a $4,06 for Michigan and Indiana ; $4,44 a $4,56 for pure Genesee.

Wheat—Heavy and nominal.

Pork—Only a retail trade—200 bbls sold at $14,25 for Old Mess, and $13,25 for Prime ; Old Prime nominal, at $12,25.
