RUSSIANS ADVANCE FIVE MILES IN RIGA SECTOR

GENERAL VON LINSINGEN'S RECENT LOSSES ARE COMPUTED AT FIFTY THOUSAND MEN — RUSSIANS ARE NEAR SUMMIT OF CARPATHIANS.

London, July 23.—A despatch to Reuters from Petrograd says: "A Russian advance of five miles is reported on the left wing of the Riga sector. General von Linsingen's recent losses on the Styr and Lipa rivers are computed at least 50,000 men out of the three corps engaged."

"The Russians are on the point of entering the northeast corner of Galicia. Colonel-General Boehm-Ermolli and General Count von Bothmer being outflanked both on the north and south."

"The heights captured by the Russians are only four miles from the summit of the Carpathians and the Hungarian frontier in the direction of Maramaros Sziget."

"The Russians hold the whole of the Trebbion-Erezerum road in Asiatic Turkey."

GERMANS SHELL DANISH VESSEL

NORWEGIAN AND SWEDISH
SAILING VESSELS WERE SET
ON FIRE.

London, July 23.—According to a Lloyd's despatch the Danish motor ship Samsoe from Lynmouth has been towed to that port in a water-logged condition after having been shelled by a German submarine. The crew was saved.

The Norwegian sailing vessel Bats and the Swedish sailing vessels Juno and Ida are reported in Lloyd's advices to have been set on fire and in a sinking condition.

MOTOR ACCIDENT IN EASTERN TOWNSHIPS

ONE IS KILLED, TWO SERIOUSLY HURT AND THREE ARE BRUISED.

Sherbrooke, Que., July 23.—David Tailleux was fatally injured and R. St. Denis and L. Deralais were seriously hurt while three others received bruises, through a motor car in which they were riding on the Lennoxville road toward their homes in St. Hermenegile, near Coaticook, turning turtle this afternoon. Mr. Tailleux died a few hours after the accident.

SIX KILLED AT SAN FRANCISCO

TIME BOMB EXPLODES IN
THROWING VIEWING PREPARATION
EDNESS PARADE.

San Francisco, July 23.—At least six persons were killed and more than two more injured by the explosion here yesterday of a time bomb in the midst of a throng viewing a parade.

The police arrested and are holding Frank Josephson, a lodger in a sailors boarding house, who denied any knowledge of the crime.

The explosion occurred at Steuart and Market streets, San Francisco's main thoroughfare. The bomb was concealed in a suit case packed with cartridges, bullets, gas pipe, glass and scrap iron and blew a gap through the crowd, blasting men, women and children.

The one storey brick building against which the suit case stood was wrecked. The holiday throng, cheering a contingent of veterans of the Spanish war, became a shambles. The blast of bands and the roar of drums drowned the cries of the injured but the sidewalk was strewn with torn bodies. The parade, however, was not interrupted.

"Two women standing beside me were blown to bits," said Mrs. Kinsley Van Loom, who with her two children was injured. The police say it is possible that some bodies were blown out of existence.

Today was spent in shadowing anarchist headquarters and investigating rumors but had brought to the police tonight no tangible trace of the culprit.

FIRE NEAR BERLIN, ONT.

Berlin, Ont., July 23.—The plant of the Durbin Fibre Company, five miles south of here, was totally destroyed yesterday a fire which started from the overheated bearings of a counter-shaft. The loss is \$45,000, with \$5,000 insurance. Adjoining buildings were saved by the bucket brigade.

KILLED BY AUTOMOBILE.

Toronto, July 23.—Four-year-old Arthur Butwell, Lake Shore road, while playing on the road yesterday afternoon, was run over by a motor car owned and driven by M. E. Bolton, Stop 18, Lake Shore Road. He was rushed to the Western hospital where he died a few hours later.

STEAMER ARRIVALS.

Austrians Establish Themselves On Ground Gained At Pozieres—British Resume Offensive Over Big Front — Kuropatkin Penetrates Von Hindenburg's Line

Attacking along a seven-mile front running from Thiépval through the villages of Pozieres and Longueval to Guillemont, in the Somme region of France, the British have captured the outer works of Pozieres, according to the British official communication. Longueval also was taken, but the Germans in a heavy counter-attack regained the northern end of the village. During Sunday the outskirts of Guillemont twice changed hands. The fighting, which is described as being of intense violence, continues from Pozieres to Guillemont.

Berlin is at variance with the British official communication, declaring that along the entire line the attacks of the British were fruitless and that they suffered heavy casualties. Around Pozieres and the Fouraux wood the combatants came to grips in hand-to-hand fighting.

South of the Somme Sunday was relatively calm, following strong attacks Saturday night against the French near Soyecourt, which Paris asserts broke down under the French fire. The Germans in the Verdun sector, according to Berlin, have gained some ground south of Damloup. Considerable heavy artillery activity has been in progress at various other points around Verdun.

The Austrians in the Carpathian region, threatened with a heavy Russian attack in the district southeast of Tatarow, have withdrawn their forces toward the main ridge of the Carpathians, the Vienna War Office announces. Petrograd reports the capture of additional men and guns in this region.

While unofficial advices from Petrograd give a report of a five-mile gain by the Russians in the Riga region, the Berlin War Office says Russian attempts to advance southeast of that city were broken up by the Germans, as also was a manoeuvre in which the crossing of the Styr river in Volhynia was the objective. On the other hand, Petrograd asserts that the Germans attempted an attack on the Stokhod river in Volhynia but were compelled to retire and that an effort of the Germans to recapture lost positions near Smorgon, to the east of Vilna, proved futile.

Fresh advances by the Italians against the Austrians in the Trentino and Dolomites sector of the Austro-Italian theatre are chronicled in the Rome communication and further gains by the Russians against the Turks in the Black Sea littoral and farther south near Erzincan are reported by Petrograd.

London, July 23.—The fourth week of the Somme battle begins well for the Allies and is expected to be fruitful of important developments. Before Saturday night the British began a new attack on the whole line from Pozieres to Guillemont and the fact that General Haig has been able to resume the offensive so soon after the unsuccessful German counter-attacks of last week, in which very strong German forces were brought forward, is regarded as a good augury.

The fighting has been of the fiercest character, the Germans working with their utmost strength to prevent the British from advancing to their third line positions, but when the last reports left headquarters in France the Australians had firmly established themselves in Pozieres and are reported to have placed themselves astride the road in the direction of Bapaume, while at Guillemont and Longueval fortunes fluctuated, both places changing hands several times. Late tonight fighting was proceeding with the utmost violence. The German counter-attacks recently delivered against the French front have proved equally unsuccessful, and the Allies are now fighting slowly in the direction of Combles, which is only two miles distant from Guillemont.

According to a reliable estimate the British and French together have captured since July 1 more than 26,000 prisoners, 140 guns and hundreds of machine guns.

From the eastern frontier come further reports of continued Russian successes. General Kuropatkin has cut Field Marshal Von Hindenburg's line at several points and, according to an unofficial report, has penetrated a distance of five miles. Russian official reports of the operations in this sector (Riga) are exceedingly reticent, but Von Hindenburg's line was considered the strongest on the whole eastern front, and that the Russians were able to break it is regarded as most significant here.

At the other extremity of the long line the Austrians officially admit their withdrawal toward the main ridge of the Carpathians, and the Russians are within four miles of the Hungarian frontier, moving toward Maramaros Sziget.

Except in the Dniester region heavy fighting is proceeding along the whole front. There is no further official news of General Sakharoff's operations, but, according to unofficial accounts, he is on the point of entering northeast Galicia, General Boehmer and General Berthler being outflanked on the north and south. General Sakharoff's forces are opposed to the forces along the Sohel.

DEUTSCHLAND NOT CLEARED YET.

Baltimore, Md., July 23.—The only thing that can be affirmed of the submarine Deutschland tonight is that she is alongside a pier in the Patapsco river where she was berthed fourteen days ago when she completed her voyage from Germany. It was officially stated tonight that clearance papers as yet have not been filed.

PTE. W. A. WATTERS WOUNDED AT FRONT

QUEBEC BOY IS SUFFERING FROM SHRAPNEL WOUNDS IN KNEE.

Mr. and Mrs. R. Watters, of 80 St. Louis Road, have received official notification that their son Private W. A. Watters has been wounded at the front.

Private Watters left Quebec with the 23rd Battalion for England and was sent to the front with a draft to the 4th Battalion. He had been in the trenches for fifteen months when he was struck.

Private Watters is another member of the 8th R.R. who upholds its reputation at the front.

He took an active interest in sports here and played hockey in the local City League.

The telegram received is as follows: Ottawa, July 21, 1916.

Mr. and Mrs. R. Watters, 80 St. Louis Road, Quebec.

Sincerely regret to inform you 63961 Pte. W. A. Watters, infantry, officially reported admitted to No. 10 Casualty Clearing Station July 8th, 1916, shrapnel knee. Will send further particulars when received.

Officer in Charge, Record Office.

The Weather

Toronto, July 23.—Since Saturday showers and thunderstorms have been fairly general in the Western and Maritime Provinces, accompanied by comparatively cool winds, while in Quebec, there have been a few scattered thunderstorms, but the weather has remained fine and excessively warm.

Temperatures:

	Min.	Max.
Dawson	44	74
Prince Rupert	44	62
Victoria	50	64
Vancouver	54	70
Kamloops	50	76
Edmonton	38	66
Battleford	39	64
Prince Albert	30	64
Calgary	38	66
Medicine Hat	44	74
Moose Jaw	48	70
Winnipeg	60	74
Port Arthur	58	80
Perry Sound	64	94
Toronto	63	90
Ottawa	66	90
Montreal	66	88
Quebec	66	88
Halifax	60	76

Forecasts.

Lower Lakes, Georgian Bay, Ottawa Valley, Upper and Lower St. Lawrence: Moderate winds, fair and very warm; thunderstorms in a few localities.

The Gulf and North Shore: Fair and westerly; a few scattered showers, but generally fair and warm.

Maritime Prov.: Moderate to south and west winds.

Lake Superior District: Moderate to fresh and somewhat warmer; generally fair.

Alberta: A few scattered showers, but mostly fair with not much change in temperature.

BRITAIN'S MEMO ON MAIL SEIZURE.

Washington, July 23.—Great Britain's memorandum regarding mail seizures was received at the State department today and will be delivered to Acting Secretary Polk tomorrow. Officials of the department had read it tonight, but it was understood to deal only with specific complaints, avoiding discussion of the principles at issues between the two governments. It has been indicated that nothing short of a readjustment of the censorship of neutral mails on the principles for which the United States has contended would be accepted as satisfactory.

The note was transmitted by Ambassador Page at London, and has been submitted to Paris for approval of the French government.

SALE OF LADIES SUITS

Extraordinary sale of Summer Suits at \$8.00. Regular Prices of which were \$15.00 and \$16.50

Palm Beach and Novelty Wash Goods in White Natural Crash and color combinations.

A collection in which are included the very newest of summer suit vanities—so new in fact. Some have not even yet been tried on—all size and there are many many styles.

Sale price \$8.00

Taffetas reduced from \$30 and \$35 to \$20, \$22 and \$25.

Our White Coats are now at special prices.

Holt, Rensfrew & Co.
Limited

Travel from one to two years free in your Ford on your saving in one year's depreciation

Other cars in the \$1,000 or less class, after one year of service, are worth from \$250 to \$400 less than their purchase price. That is THEIR depreciation.

Ford cars, after a year's hard work, sell on an average for only \$125 less than they cost brand new. That's FORD depreciation. The difference in depreciation of these year-old cars ranges from \$125 in the one case to \$275 in the other—both considerable savings for Ford owners.

Thousands of owners tell us that it costs .024 per mile on an average to drive a Ford—paying for gasoline, oil, tires and repairs. So, if you are saving in depreciation for a year \$125, you pay all your expenses for 5,208 miles—while if it is \$275, you have kept enough money in your pocket to pay for driving your Ford 11,458 miles.

Buying a Ford in preference to other less than \$1,000 cars, lets you save in one year's time a difference in depreciation that pays all your motoring bills for from one to two years. Think it over.

MISS A. M. DOUGLAS, AUTHOR, IS DEAD

THE WRITER OF NUMEROUS
VOLUMES OF GIRLS' STORIES
PASSES AWAY IN NEWARK.

Miss Amanda M. Douglas, author of girls books and of several historic novels and other volumes, died the other day in her home, No. 470 Summer avenue, Newark, N.J. Last Friday she celebrated the eighty-fifth anniversary of her birth. She had been in failing health for the last six months owing to a complication of ailments due to advanced age.

Miss Douglas was born in New York, July 14, 1831, the daughter of John N. and Elizabeth Horton Douglas, and was educated in the City Institute of New York. Since 1853 she had made her home in Belleville and Newark. Her earliest literary efforts were contributions to the New York Ledger, the Saturday Evening Post, and the Ladies' Friend. Her first book, "In Trust," appeared in 1858, and for a long time thereafter she wrote one and sometimes more than one book each year, besides other literary work. A story entitled "Larry," published in 1897 won a \$200 prize from the Youth's Companion. That and her "Sherburne Series," the "Helen Grant" series, "A Little Girl in Old New Orleans," "A Little Girl in Old Chicago," and several others along the same lines earned for her works wide popularity.

She was a student of history and her researches in that direction brought forth several novels which gained wide circulation, among them "Heroes of the Crusades." Her last book was published in 1913 and was called "Red House Children at Crafton."

She was actively interested in several women's clubs and was an honorary vice-president of the New Jersey Woman's Press Club. She leaves two nephews, the Rev. Charles M. Douglas, of Short Hills, N.J., and Mr. Robert S. Douglas, of Bloomfield, N.J., and a niece, Mrs. Isabelle Jefferson, of Brooklyn.

PECULIAR STORY.

Supposed Sister She Aided Proved a German Spy.

New York, July 21.—Mrs. J. Randolph Marshall, sister-in-law of Mr. Walter H. Marshall, manager of the Vanderbilt, and Mr. Newton Marshall, assistant manager of the McAlpin, this week declared at the latter hotel that she had seen much of the effects of the war at close range during a few months she passed with an American woman in Paris.

"Like almost every other householder in the city," said Mrs. Marshall, "who could possibly afford it, we decided to house some of the refugees who flocked to Paris from the villages of the north. My friend and I set out one morning to pick out two of the most needy, and we came across two aged women huddled close to each other on the curb. Their heads were covered with threadbare shawls. They wept bitterly when we told them that they could have a home with us. Before they consented to come, though, they made us promise that they would not be separated. All went well, although the widowed sisters, as we knew them, kept much to themselves. One of the maids one day went up one morning and was horrified to see one of the dear aged widows in the act of shaving, having carelessly left the door open. The maid told my friend and she sent for a policeman. Not long afterward the house was the scene of a thrilling raid, for our refugees turned out to be German spies."

CLEARING THE SEAS OF GERMAN MINES.

Announcement that the British Government is about to place on exhibition a German mine-laying submarine calls attention to a phase of the war that has been almost unchanged in the past two years, namely, the laying of mines by Germany. She was never more reckless in laying mines than now. There being no German commerce or German warships on the seas, she has argued that every ship that is destroyed by a mine will not be a German ship. It may be a British or French ship. It may be a neutral. If it is a neutral, then the probability is that she was engaged in some business that might help the Allies; and the certainty is that her destruction could not be actually proved against Germany. Therefore, the seas have been strewn with mines as far as German mine-layers have been able to operate, and scarcely a day passes that some vessel does not fall a prey to this invention.

How Mines Are Laid.

Germany has employed unusual shifts to get her mines laid. She uses when possible her own vessels which are built for this trade. They lay mines at entrances to German harbors, for they dare not venture far from shore. They also lay the mines that will be carried by wind and tide into the open sea. For laying these death-dealing bombs nearer the enemies' coast she has employed neutral vessels, submarines and even Zeppelins. Although she sets many mines adrift with only a vague idea where they will be struck by a ship, she also places them in certain well-known ocean pathways, just as a poacher sets his snares in the runways of the game. Therefore, while the floating mine is a difficult thing to detect and remove, the British Admiralty, like the keeper on the poacher's track, knows that certain parts of the sea are favored by the German

mine-layers. These parts, therefore, are more than carefully examined by the sweepers, hundreds of which are working every day in the waters near the British Isles.

The Day's Work.

Recently the Admiralty lifted for a moment the veil that conceals the operations of the mine-sweepers, and correspondents were permitted to accompany the mine-sweeping fleet in order that they might learn just how the work was done. One of the correspondents, an American named Gordon Bruce, says that he came back from his trip with a real idea of what the British navy is, "Duty, courage, efficiency," he says, "are the summary of a week's trip in the North Sea." The night before he set out he was met with a number of visiting officers from various branches of the service. These men told of the most thrilling experiences in the most casual way. Each one seemed to consider the other fellow's job the most dangerous; each seemed unaware that he himself was called on to risk his life daily or hourly in his own particular branch of the service. These representatives of the British navy spoke and acted as though from the cradle they had been at war with Germany, and as though they expected to be at war with her when the time came for them to retire from the service or to meet their death. It was all in the day's work.

Snaring the Mines.

The mine-sweepers hunt in pairs over certain parts of the sea where they were almost certain to come across a mine. The fixed mine is nothing more or less than a huge bomb anchored to the ocean's bottom and floating below the surface in such a position that it will just be concealed at low tide. It is not once in a thousand times that an approaching ship can detect a bomb. So it is the business of the mine-sweepers to do the work for them. The boats advance slowly over the sea at a distance of several hundred yards apart. Between them is a wire cable, but one judges that it is a special kind of cable which will cut the bomb loose from its anchor when it strikes.

More "Frightfulness."

Then when it is cut free it will rise to the surface, whereupon the men in the sweepers, armed with rifles, will fire at the bomb until they penetrate the air chamber and the mine sinks or until they explode it. It was explained to Mr. Bruce that under the Hague convention signed by Germany mines were of certain prescribed kinds; each one of them is supposed to be fitted with a device which renders it harmless should it break from its moorings. This is in order that innocent vessels shall not be injured. The German mines are all found thus equipped, but also it has been found that the apparatus that is supposed to render the drifting bombs harmless has been tampered with so that they are as deadly a hundred miles away from where they had been anchored as when they were first set out. The mine-sweepers run the risk of striking a mine while they are searching for one, and on this account all the crew work in pneumatic lifebelts. They are also liable to be fired upon by a prowling submarine or any other German ship-of-war. Their work is not spectacular, but it is as dangerous and as efficient as any work being done by the British navy.

IMPORTANCE OF FRUIT INDUSTRY

(1) Gaspareaux Valley, King's Co.
(2) Starrs Point, King's Co., N.S.
(3) Packing Room at Hillcrest, N.S.

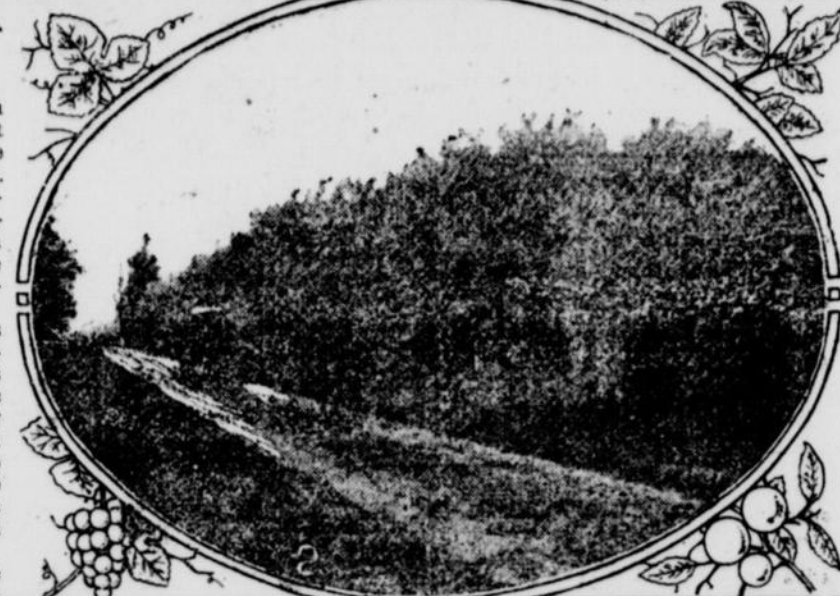

It is said \$140,000,000 has been invested in Canadian fruit production so that this is one of our great national industries. In a year of average production 15,000,000 bushels of Canadian apples are marketed, of which Ontario alone ships on an average 1,800 car-loads into the prairie provinces.

Most famous of all orchard areas is the Annapolis Valley in Nova Scotia nine miles wide and eighty miles long. With the Dominion Atlantic Railway running through the valley the growers have ideal packing and shipping facilities. 60 p.c. of the crop being handled co-operatively by one central association. Plums and pears are also grown here on a commercial scale.

Ontario is the proud possessor of the original McIntosh Red Tree which still stands at Dundas. Large apple orchard districts are found (1) Along the lake shore line of the C.P.R. (2) West of Toronto bordering on Lake Erie and Lake Huron. (3) In the Georgian Bay District, and (4) in the Niagara Peninsula which also produces 95 p.c. of the grape crop and at least 75 p.c. of the Ontario peach crop. Plums and pears are grown wherever apples are produced in Ontario.

British Columbia has developed its fruit industry during quite recent years, the number of fruit trees increasing from 650,000 in 1901 to approximately 3,000,000 in 1913; and the production of apples from 210,000 bushels in 1910 to 787,750 bushels in 1915. The principal fruit-producing section of the Province is the Okanagan Valley, where fruit is packed and marketed largely in a co-operative way, similar to that in vogue in Nova Scotia. There is also a large apple section in the Kootenay Lake District and on the Lower Mainland. Pears and plums are also grown very successfully in these sections of the province already mentioned, and peaches have been planted quite extensively in the southern part of the Okanagan Valley.

Between 1,250,000 and 1,500,000 barrels of Canadian apples are consumed outside of Canada every year, and most of these in Great Britain. The growers of Nova Scotia and Ontario cater especially to the Old Country market, though some British Colum-

bia fruit also reaches it. Nova Scotia has been developing for some years past, a trade in South America and South Africa with very satisfactory results. British Columbia exports considerable quantities to Australia and has even experimented with Chile and Argentina.

Should any emergency of circumstances interfere with the export trade, a very serious situation would present itself, for it would be necessary either to double the consumption of fruit in Canada, or to allow tremendous quantities to waste in the orchards. The severity of the situation would only be lessened by concerted co-operation on the part of the consuming public and those who cater to its demands.

FRANCE'S RESOLVE STRONGER THAN EVER.

Recently the first secret session of the Chamber of Deputies was held. The French constitution provided for such a gathering, but oddly enough insisted that however secret the debates might be there should be no private votes. The electors of France must know how every deputy votes on every motion. So the deputies met and debated in secret for a week, and then finally the curtain was raised and they voted upon a carefully prepared motion. It might be thought that the bill or resolution that they finally and publicly disposed of would frustrate their secrecy; that they were permitted to come in silence to the very denouement of their deliberations and then to blurt forth to the world their secret. This supposition does little justice to the French. The meeting of the deputies in secret was an event of the first magnitude; the motion put to a ballot would seem to be of no more importance than a last year's weather forecast.

The Great Republic.

It is to be remembered always that France is a Republic, that France dreads the possibility of any "man on horseback" and dictator, who might arise in times of national distress and then forge chains that would have to be worn forever. There were in France many who feared that Joffre might become another Napoleon; a Napoleon in peace who had earned his title in war. Therefore there has been considerable criticism of Joffre for many months past, not so much for what he has done or has failed to do as for what he might be able to do. And France loves liberty, and fears a French autocrat only less than a German autocrat. There have been many criticisms of Joffre prompted by this secret fear that the generalissimo was getting to be too big a man; and other criticisms prompted by the suspicion that he was not a big enough man, that he was not a great general. Obviously it would be a great mistake that these sentiments of distrust should be given voice publicly; French Chamber could not deny itself the right and

perhaps the duty of making these expressions privately. So the secret session was arranged.

A Socialist Triumph.

The idea was a Socialist one. While the French Socialists appear to have been as loyal and enthusiastic as any other body of Frenchmen since the beginning of the war, they were especially reluctant to relinquish any of their rights of free speech, and when they felt that things were not going well they burned to say so. Some of them thought that Joffre had blundered. They were not permitted to express themselves in the Chamber; they urged a secret session. The notion was laughed at, but finally it was agreed to, and there was what is called a "heart-to-heart talk" held in Paris recently. To merely read the resolution which was passed as a result of the conference would convey a slight impression to the reader of the proceedings. It is more illuminating to read the interpretation put upon that resolution by the Paris correspondent of the Brooklyn Eagle.

The Decision of the Deputies

He says, reading between the lines:—First—The Chamber of Deputies, elected by the French people, is the supreme authority in France. Inferentially the Higher Military Command, i. e. General Joffre and his staff, are its servants. Second—The Chamber of Deputies will take a greater initiative in pushing the war. It will not interfere in the technical business of the Higher Command, but it will see to it that there is no laxity in getting things ready. In other words, it will see to it that the soldiers have plenty to eat; that they get all the ammunition they need, reinforcements at critical points, and plenty of barbed wire and trenches to help them fight the Germans on equal terms. Third—There will be more secret sessions, or in other words, the Chamber will continue to keep an eye on what the chief generals do. Furthermore, it will send a delegation to the front and to the ammunition factories to see to it with their own eyes that trenches are dug

guns put up, and shells made. Fourth—While giving the present Cabinet a renewed lease of life, it does so on the strict understanding that the Government takes notice of the lessons of the past and goes resolutely to work pushing the war and "backing up" the Higher Command. This is especially significant in view of the oft-repeated assertions of Senator Clemenceau that the Government has "abdicated" before the Higher Command.

Just One France

In other words, the war will be prosecuted by France more vigorously than ever—and nobody ever accused France of being slack in this respect. The deputies forced the Government to take them into its confidence, and explain things that looked dubious; especially some of the matters concerning Verdun. The Government was able to satisfy the deputies; Joffre was able to satisfy the Government. More than ever France is "one harmonious whole." From the beginning of the war there has been a hope in Germany that internal differences might lead to France quitting the fight, that a quarrel among factions might hasten what German military successes had begun. The secret session of the Chamber has shattered this hope. France is one—she is France. Events that have happened since this secret conference have tended to approve the wisdom of the decision then privately arrived at. France will be at the mercy of no dictator domestic or foreign. Confidence in Joffre has never been higher.

Official Statements

BRITISH STATEMENT.

London, July 23.—A Reuter despatch from the British front in France filed at 3.30 p.m. today, says:

"Following a heavy bombardment last night British troops and Anzacs attacked towards Pozieres and Guillemont. Despite desperate resistance the Anzacs succeeded in establishing themselves in Pozieres, where they are now consolidating their lines. It is reported that the casualties were comparatively light.

"West of Pozieres the British successfully advanced. On the right of Pozieres, the wire entanglements were insufficiently destroyed and progress consequently was checked by heavy machine gun fire. Nevertheless, we gained a footing in Guillemont but owing to a determined counter-attack we were unable to maintain the advance.

"On the whole, our progress continues satisfactory, especially in the neighborhood of Pozieres and along the road through the village northward, on which we are reported as established."

RUSSIAN STATEMENT.

Petrograd, July 23, via London.—The official communication issued by the War Office, says:

"On the Caucasian front our advance continues. According to supplementary information we seized at the capture of Grigoriyev not two but six guns. On the heights of Baraban Daglari, we took 600 prisoners yesterday and captured ammunition and stores.

"In the direction of Bagdad there have been patrol engagements with Kurds."

Petrograd, July 23, via London, 4 p.m.:

"In the Riga positions there has been an intense artillery duel.

"Northeast of Smorgon (50 miles of Vilna), in the vicinity of the village of Martyschi the Germans tried to advance with the object of regaining the positions we took from them yesterday, but under the fire of our batteries were compelled to retire. All further efforts of the enemy to develop counter attacks failed under our rifle and artillery fire.

"On the Stokhod, in the district of Zajezi-Bereznic, the enemy attacked at nine o'clock in the evening, but was compelled to retire.

"In the district of Vorokhty-Tatarow, on the road from delty to Maramos-Sziget we have taken prisoners five officers, including a battalion commander; 483 men and three cannon and 4 machine guns.

"In the Carpathians there are rains and snow.

"Caucasian front: On the shore of the Black Sea we have effected a considerable advance.

"We have taken a great number of prisoners and captured the town of Kialik-Chevitik, situated at Esit-Armka. After some fighting we carried the town of Foll by storm and advanced a considerable distance southward of that point.

"In the direction of Erzincan we have crossed the River West Euphrates.

"In the district of Mosta Ketuv Kerri, in the direction of Mosul to the east of the Revabuz district, we had engagements with large Turkish forces.

"Note: During July 20 and 21, we took prisoners 370 officers (1 general and 1 colonel), 13,700 men, and ten guns. The total number of prisoners, including those given in the official communication yesterday morning, amounts to 27,000 men. The total number of guns taken is 40."

BELGIAN STATEMENT.

"Belgian communication is as follows:

"The day was calm."

Belgian communication for July 22nd:

"The night and day were relatively calm except in the region of Dixmude, where we silenced German guns which had displayed considerable activity. The Belgian artillery carried out with marked success destructive fires against the enemy organizations at Hetsas."

FRENCH STATEMENT.

Paris, July 23 10.50 p.m.—The official communication issued by the War Office tonight, reads:

"Except for a rather spirited cannonade north of the Somme, there is no event of importance to report on the whole front.

"On the day of July 21st, our aeroplanes bombarded the station at Vignelles, and in the night of July 21-22 the station at Thionville, where three great fires broke out, the station at Arnayville and those at Laon and Sterme. On the night of July 22-23 the station and military establishments at Thionville were again bombarded. One hundred and fifteen shells were dropped in the course of these expeditions.

"On the morning of July 22, a group of twelve French aeroplanes bombed the military establishments in the town of Mulheim on the right bank of the Rhine. Projectiles were dropped on the station and barracks, most of which are reported to have reached their mark.

"On the return of the expedition our aeroplanes engaged in battle with an enemy squadron. Four of the German machines were brought down and crushed to the earth. Two of ours were obliged to make a landing in the enemy lines.

"Last evening a long range gun fired several shells of heavy calibre in the region of Belfort. This morning a German aeroplane bombed the town, succeeded in no material damage."

ITALIAN STATEMENT.

Rome, July 23, via London, 6 p.m.—Italian troops are continuing their pressure on the Trentino, scoring new advances along the Posina line and on the Sette Comuni plateau. They have also taken strong positions between the Trevignolo and Cison valleys in the Dolomites.

The official statement recording these operations, issued today, is as follows:

"In the Lagarina valley the artillery on both sides has been active. The enemy's batteries also shelled Avio, damaging the civil hospital. Our heavy artillery resumed the bombardment of Riva, Nago and Rovereto.

"On the Posina line and on the slopes of Monte Zebio where our Bersaglieri brilliantly carried carried some trenches, capturing 120 prisoners and a machine gun.

"In the Dolomites, between the heads of the Trevignolo and Cison valleys, we captured the strong positions of Monte Cavalazza and Monte Codriccon, taking 142 prisoners, including three officers; two machine guns, some trench mortars and a large quantity of arms and ammunition.

"On the upper Boite the enemy's artillery again shelled Cortina and Ampezzo. It was answered by our batteries, which bombarded Toblach, Sillian and Innichen.

"On the remainder of the front nothing of importance occurred."

CALLED VISCOUNT INSTEAD OF EARL

London, July 23.—For "personal and family reasons" Sir Edward Grey, the British Foreign Secretary who recently was created an earl, has received the royal permission to take the title of Viscount instead of Earl, under the style Viscount Grey of Fallodon.

The inference is that the Foreign Secretary took the lower dignity to avoid the risk of being confused with Earl Grey, former Governor-General of Canada.

ANOTHER NOTE COMING!

Washington, July 23.—Indications that officials are considering the advisability of taking economic measures against Great Britain for black-listing nearly a hundred American firms and individuals under the trading with the enemy act were apparent in administration circles here tonight. Definite conclusions and plans were said not to have developed, but it was intimated that action of that kind might be determined upon after the State department learned more of the plans of the British government.

CARDINAL GIBBONS FAVORS UNIVERSAL MILITARY TRAINING.

Baltimore, July 23.—Cardinal Gibbons today marked his 82nd birthday by declaring for universal military training as the best possible thing for America.

HAGUE ORANGE BOOK READY AT LAST

IT ILLUSTRATES VIVIDLY THE DIFFICULTIES AGAINST WHICH HOLLAND CONTENTED.

The Hague, via London, July 23, 11 p.m.—The long expected orange book, covering the period from October, 1913, to July of the present year, was issued today. It vividly illustrates the difficulties with which Holland has had to deal, owing to her geographical situation between the belligerents. The book has been delayed for months in the hope that some settlements of the questions at issue would be reached, but several matters are still in suspense, it says, and some apparently in hopeless deadlock. The principal of these is the sinking of the Dutch liner Tubantia. Germany declared the incident closed; that no German warship had sunk the Tubantia while Holland maintains its previous attitude that a German torpedo sank the Tubantia.

Another case dealt with is that of the destruction in April by a German submarine of the Dutch liner Berkeström. They demand full reparation for this act and especially protested against the German submarine commander's alleged utterance that all goods bound for England were contraband and all ships bound for England would be sent to the bottom.

Germany justified the sinking of the Berkeström, but invited the owners of the cargo to make their claims to the Hamburg prize court. Germany denied that the submarine commander used the words complained of. Holland, however, complained that the destruction of the Berkeström was illegal. The orange book says that an answer is still expected from Germany as to whether the explosions on the Holland-American line freighter Eemdiik, and on the Dutch steamer Rijnijk, were caused by German torpedoes.

BISHOP CALLS ON ALL TO PRAY FOR SUCCESS OF THE ALLIES SOON.

London, July 23.—Cardinal Bourne, Archbishop of London, has issued a pastoral letter in connection with the approaching second anniversary of the beginning of the war, in the course of which he says:

"We enjoin that either on August 4 or August 6 as found convenient in each locality, the Blessed Sacrament be exposed for a fitting space in the churches of the diocese and the chapels of religious communities in order that all the faithful may have a special time of offering fervent prayers to God for His Blessing on the Allied armies and the speedy conclusion of a just and stable peace."

The Cardinal says that it is also the wish and direction of the Pope that on Sunday, July 30, throughout Europe, children of both sexes shall participate in solemn religious services.

ALPINE CLUB CAMP IN FULL SWING.

Banff, Alta., July 23.—The eleventh annual camp of the Alpine club of Canada is in full swing here and will be open until July 31. The following officers have been elected: Hon. President, Sir Edmund Walker, Toronto; president, J. D. Patterson, Woodstock, Ont.; Eastern vice-president, Lieut. Colonel C. H. Mitchell, Toronto; Western vice-president, Captain W. W. Foster, Victoria, B. C.; directors, A. C. Wheeler, Sydney, B. C., and F. H. Mitchell, Sydney, B. C.

Grape-Nuts

(Made in Canada)

embodies the full, rich nutriment of whole wheat combined with malted barley. This combination gives it a distinctive, delicious flavour unknown to foods made from wheat alone.

Only selected grain is used in making Grape-Nuts and through skillful processing it comes from the package fresh, crisp, untouched by hand, and ready to eat.

Through long baking, the energy producing starches of the grain are made wonderfully easy of digestion.

A daily ration of this splendid food yields a marvellous return of health and comfort.

GERMAN OFFICER KILLED HIS MEN

HE WENT MAD AND SHOUTED WILDLY AT IMAGINARY ENEMIES.

Paris, July 23.—The destruction of a German fortified work on the Somme front was marked by a tragic episode, says La Liberté. The order was given to destroy the fort at whatever cost. In less than six hours more than 2,500 great shells were fired at it, and the defenses gave way one by one in a cloud of dust and smoke. The infantry then went forward and the German positions were conquered.

French artillery officers, examining the ruins, discovered amid a mass of debris a Bavarian officer with his chest crushed and at the point of death. At sight of the French officers the Bavarian seemed to collect himself, then began to speak softly, the Frenchmen kneeling about him.

The story told by the Bavarian and later recounted by an artillery officer was to the effect that 32 men had occupied the work. After the bombardment had continued for a time half of the men were victims of an awful death. Two were decapitated and of three others, near whom a shell exploded, not a vestige remained. The survivors crouched at the bottom of the subterranean shelters and awaited their fate.

Another terrific explosion occurred. The men being thrown together in a confused heap. Almost immediately flames shot up from under the cavern. There was a moment of indescribable terror, for now fire was ravaging the work. The lieutenant in command went mad and shouted wildly at imaginary enemies. Then in the sinister glare of the flames the officer set furiously upon his men, killing one after another and was himself burned to death.

The Bavarian determined not to die by the hand of his chief and scaled the ruins, clinging to a slope of the work, only to be buried under a block of stone. He died soon after the French officers found him in the hospital to which they carried him.

SIR W. RAMSAY DEAD.

London, July 24, 2.27 a.m.—Sir William Ramsay, 62, chemist as a chemist, died Sunday at Beechcroft, Hazlemere, Bucks.

STEAMERS SUNK.

London, July 24, 1.52.—Lloyd's announces that the British steamers Longwen, 4,653 tons and Knutsford, 3,452 tons, have been sunk. The crews of both vessels were saved.

MANS LAUGHTER CHARGE AGAINST ELEVATOR MAN.

Vancouver, B.C., July 23.—Following the finding of the coroner's jury in the case of the death of the infant daughter of Mrs. W. E. Smith, which was caused through an elevator accident at the Bayview rooms, 1,390 Granville street, Thursday evening, a charge of manslaughter has been laid against D. R. Herberle, the elevator man, who has been held by the police since the accident.

ACCIDENTALLY SHOT.

London, July 23.—The body of Willard A. Sage, a retired layman of this city, was found today in a field on his farm, two and a half miles from London, with a gunshot wound in the head. Mr. Sage had been driving over his farm on a tour of inspection. The horse was discovered tied to a fence. From the box of the buggy a shotgun protruded and it is supposed Mr. Sage accidentally dislodged it from the vehicle. The body was found lying only a short distance from the rig.

NATIONALISTS AGAINST EXCLUSION OF ULSTER.

Dublin, via London, July 23.—Six thousand Nationalists opposed to the partition of Ulster under the Home Rule compromise, held a meeting in Phoenix Park today. This was the first public meeting permitted by the authorities since the rebellion. The proceedings were marked by good feeling, and no disorder occurred.

Resolutions were carried pledging those present to oppose by every legitimate means exclusion of any portion of Ulster.

WELL-KNOWN ARTIST DIES AT TORONTO.

Toronto, July 23.—George Robert Bruenich, A.R.C.A., the well known painter in water colors, died last evening at the residence of W. A. Hare, 38th street Annex Road, where he had been lying ill for about three months.

Deceased was born 65 years ago, in St. Malo, France, where his father was British consul. He studied art under Signor Murchiani, Paul Rosset, and at Colarossi Academy, Paris. Coming to Canada in 1872 he entered the civil service. His painting attracted the favorable attention charged the piece in an attempt to rest paint in Norway, which hangs in the Royal Palace, Sweden.

BRITISH SEIZURE OF NEUTRAL MAIL

OFFICIAL ANSWER TO OBJECTIONS GIVEN HEREWITH—TEXT OF NOTE.

London, July 24, 1.42 a.m.—The official report has been handed to Ambassador Page regarding the British censorship of mails. The reply is confined to the few specific allegations made in the recent American note. It is stated that the formal answer to the general arguments advanced by the Washington government is still under consideration by the allied governments and will receive reply in due course.

The two principal cases referred to in the present memorandum are those of the Macniff horticultural company of New York and the Standard Underground Cable Company, of Pittsburgh. The Macniff Company complained of the loss of perishable goods owing to the detention by the censor of shipping documents relating thereto.

The British government states that as soon as the matter was brought to its attention it arranged to have a special mail bag for shipping papers which would be immediately censored, so that no delay would occur.

In the case of the cable company it is stated that "the government of the United States appeared to insinuate" that the delay in the mail of the cable company was directly connected with the fact "that a British competitor had obtained a contract for which that company had been tendering."

"His Majesty's government," the note continues, "is astonished that such an insinuation should be made, especially as the complaint from the cable company appears not to have been adequately examined."

The memorandum goes on to show in considerable detail that tenders for the contracts referred to must have passed between the United States and Norway on a date prior to that upon which the censorship of Scandinavian mails began.

After detailing other cases, the note continues:

"The specific complaints do not support the general charge against the efficiency of the British censorship. His Majesty's government will always be ready to explain in detail the working of the censorship, as there is nothing regarding it which they wish to conceal. Many complaints when examined proved to rise from badly directed letters, the irregular sailing of neutral mail boats and other causes entirely outside the control of His Majesty's government and are often due to the action of enemies."

Any Woman's Struggle For Good Health Quickly Rewarded

A SIMPLE HOME TREATMENT NOW ADVOCATED THAT GIVES FINE RESULTS.

When a woman's face grows haggard and pale, when she is tired all day and ready to cry when night comes, she ought to know something is wrong.

Putting off only make matters worse. The best advice we can give any sickly woman is to test out the following treatment.

At the close of every meal, with a sip or two of water, take two chocolate-coated Ferrozone Tablets. This seems to be the best thing going for folks that are tired out, run-down and in need of a strengthening, building-up medicine.

Ferrozone's action aids the three principal functions of the body—digestion, assimilation, elimination. By strengthening digestion it forms an abundance of rich, red blood—this gives good color.

By perfecting assimilation, Ferrozone supplies nutrition—this gives strength, vim, stability. Elimination is assured because Ferrozone quickens the action of the liver, kidneys and bowels—this guarantees the maintenance of vigorous health.

Ferrozone puts you on the right road—the one that leads to health. Not a man, woman or child needing blood, vigor, endurance—not a person who is weak, nervous or sickly, not a person in ill-health who won't receive immediate help from Ferrozone.

As a tonic and restorative, as a health-bringer and body-builder, Ferrozone is unrivalled. It cures because it feeds and nourishes, because it contains the elements that build up and strengthen. Try it yourself—sold everywhere in 50 cent boxes, 6 boxes for \$2.50, or by mail from The Catarthozone Co., Kingston, Ont.

SUNDAY FATALITY.

Toronto, July 23.—Unable to swim, Harold J. O'Neill, 698 West Richmond street, got out of his depth while bathing about 3.30 this afternoon on the west side of Island park, and was drowned.

AUSTRALIANS WIN GLORY IN YESTERDAY'S FIGHTING

MEN FROM THE ANTIPODES MADE GOOD IN THEIR FIRST BIG TEST IN FRANCE—BRITISH ALWAYS FIGHTING.

With the British Armies in the field, July 23, 5 p.m., via London, July 24.—The Australians' is the glory of today's action, which takes the British offensive to the end of its third week and what might be called the third phase. Not once in the three weeks have the guns been silent. All the while the fighting has continued until the spectator has become numb with this super-human struggle.

Mudcovered men return from the trenches and rested. Prisoners taken in each fresh attack express the same wonder at the persistent hammering of the British. It has become 24 hours a day, the army fighting night as well as day.

While resisting many counter-attacks through the week, the British have been creeping forward. More German artillery and more troops have been massed to meet the increasing numbers of the British, while the British guns kept moving nearer.

More important than ever to either side are those points of high ground. Pozieres was under the British shell fire before the Germans were forced out. Not a single human being was seen in the neighborhood, except near a communication trench in front of which a few British were making a shell crater into a field fortress.

Across the way the Germans were engaged in the same business, both having sneaked out of their positions in the night. The British yelled satirical thanks to the Germans for timbers for their trenches, which were being made into British trenches.

By the location of the shell bursts in the morning it could be seen how far the British had wormed their way over night. Through all the army there is a sense of exultation, which seems to allow no one to become tired. The death of comrades is accepted as something inevitable, and there is a strange absence on the part of the British of gloom or sorrow.

German Gas Helmetts.

One of the humors of the week to the army is the German gas helmetts. At first such numbers of them were astounding, especially those which do not explode but emit a volume of gas. One British soldier called out: "If you expect to kill us with them you will have to come over and hold them up to our noses."

Another called to the Germans: "They aren't as sweet as eau de Cologne, but we like them better than your shrapnel and high explosives." "Pozieres will be a hard nut to crack," everybody has been saying in the last few days. That task was given to the Australians this morning.

There is no mistaking the Australian at the front. He wears a slouch hat while all the rest of the British wear caps. Some say that the discipline of the Australian is poor.

Some of the military critics said that the Australians were all right for Gallipoli, but not for this kind of work against the Germans. Today they had their first big test in France. The Australians met the 114th German division, which had been rushed from Ypres, and prisoners taken, including one hundred in a body, say frankly that the Australians came on too quickly for them. At other points over the four mile front the British attacked at the same hour, at some points for diversion and some points in earnest. The hottest fighting was in that terrible region, the Delville woods, the Trones woods and Guillemont village. In the village the second lines trenches, which had been strengthened and supported with in-

CANADA TO HAVE NICKEL REFINERY

HON. MR. FERGUSON THINKS ONE WILL BE BUILT THIS YEAR.

Toronto, July 23.—Hon. G. Ferguson announced that in the very near future Canada would refine her own nickel. He hoped by next year there would be a refinery built.

"We won't be satisfied," he said, "with the International Nickel Company in Nova Scotia, where it is announced they may erect their plant. Ontario ore must be refined in Ontario."

He intimated that the presence of representatives of the company at various Ontario points was proof that they are already getting on the move.

JAMES WHITCOMB

RILEY IS DEAD.

Indianapolis, Ind., July 23.—James Whitcomb Riley, the Hoosier poet, died here last night, from a stroke of paralysis.

ANOTHER MYSTERY FOR WINDSOR POLICE.

Windsor, Ont., July 23.—A woman's waist, skirt and shoes and a man's bathing suit were found this morning on the Michigan Central dock in Sandwich West. This is the third mystery that has been put up to the Windsor police this week, none of which, so far, has been solved.

DROWNED BATHING.

Kenora, Ont., July 23.—Miss Catherine Horan and Mr. Herman O. Lee were drowned in the lake about seven miles from this town this afternoon, the latter losing his life while trying to save Miss Horan from drowning. They were with a party of six others, and all but Mr. Lee had gone in bathing. Miss Horan was carried by a wind out beyond her depth, and she called to Mr. Lee for help. He at once plunged in, caught her as she was about to sink, and together, while they were trying to make shore they sank. Mr. Lee's body was recovered, but Miss Horan's body was still missing late tonight. She was a native of Kincardine, Ont., and Mr. Lee's parents reside at 16 Mainland Place, Toronto. Mr. Lee was manager of the Bank of Ottawa here.

Infantry and artillery reinforcements, was the vital point of the present German defenses. The British rushed the village front from a wood. The battalion on the flank got in, but the attackers on the front were repulsed and the successful battalion was forced back, but it gained a footing which it still holds.

INTERNAL WAR IN GERMANY.

Germany is being rent by bitter strife between the Chancellor's party, and the chauvinists who demand a renewal of ruthless submarine warfare, and the formal annexation of Belgium and the Russian provinces occupied by the German army.

The Chancellor's following embraces groups so diverse as the Centre or Catholic party and the Socialists. The fire-eaters are the Conservatives, the Agrarians and a wing of the National Liberal party. They are supported by many powerful manufacturing interests that seek to make the occupied foreign territory their special preserve.

The movement against the Chancellor is widespread and gaining headway. The Conservatives and Agrarians were the chief pillars of the government before the war, and are the classes which have hitherto dictated the foreign and domestic policies of Prussia and the Empire. They have furnished the majority of the army and navy officers. So formidable has the agitation become that the Chancellor's followers have organized a series of meetings in all parts of the country. The test of strength will come at the next session of the Reichstag. In the meantime the renewal of submarine activity is reviving the clamor of the Von Tirpitz school, and German submarine commanders are liable to get out of hand again. The chauvinists are for sinking all merchant ships trading with the enemy, regardless of human life. They would defy neutral opinion and risk war with the United States.

A METHODICAL ADVANCE.

General Haig's tactics on the western front continue to inspire confidence. Systematic methods are pursued in carrying out the successful attacks. The Germans are making fierce counter-attacks at special points, but the flow of the tide is toward the German frontier. General Haig is economical in infantry but lavish in shells—which is exactly what the people at home want him to be. We would far rather that the end of the war be somewhat delayed if thereby precious lives can be saved to the Empire. The battle which is now taking place on the Somme is more a trial of strength between the opposing armies engaged than a struggle for any particular position or territory. If we prove that we can go through the German army we will have won precisely that triumph of prestige which the Germans have been endeavoring unsuccessfully to gain at Verdun.

Steady, though not always extensive, gains have been made by the British since the beginning of the Somme offensive on July 1. In spite of the fact that the most intensive preparations of the Germans for the defence of their western line were made against those sections of the line held by the British, the latter have pushed ahead at a pace that equals the advance of the French on the section of the line south of the Somme. The German defences have been practically strong along the line of the railroad from Albert to Baupaupe, the main line of the Germans in the Arras-Hardcourt salient.

The British have the Germans in a rather awkward position. Their trenches where the British line now is were designed to protect a line running north and south. They now have to face a line running west to east. This has required a reconstruction of the whole defence system and a consequent weakening for the German position, since it is obvious that defence works constructed during the last few days cannot be in any way equal to those which the Germans

have had months to construct. This, combined with the fact that the British now have reached the first hill line of the plateau of Baupaupe, gives them the greatest advantage that have yet held for further successes. If the Germans could not hold them in their trenches when the British were facing, with every disadvantage of terrain, old field works which the Germans had had ample time to perfect, the probabilities are that they will still prove unable to keep them in check when these disadvantages no longer exist.

Another point, the British have unquestionably broken through the first and second lines of trenches for the first time since the lines in the west were established. At Loos and in Champagne the British and French never reached beyond the first line. Not only have the first two lines gone, but in isolated points the third line has been reached. What lies beyond will not prove as adequate as that which has already been destroyed.

The present British attack, it must be realized, is something largely different from any previous offensive in which British troops have participated. It is not a single smashing blow in the hope of breaking the German line at once. Breaking the German line will not be broken until we see the Huns pivoting on Metz and abandoning their whole series of positions in northern France and western Belgium; and no one expects to witness such a change just yet. The present offensive will doubtless continue for many weeks, and may for a long time be an affair of comparatively small gains and occasional repulses. When Grant had pressed against the lines of Richmond and Petersburg for two months and had fought and lost the Battle of Spotsylvania, he said: "I propose to fight it out on this line, if it takes all summer." We may credit General Haig with a similar resolve, with variations.

A FREE EMPIRE.

In answering a question by Mr. Donald Macmaster, M. P., respecting the "happy relationship" between the Mother Country and the colonies, Premier Asquith remarked: "Obviously no change can be made in the relations between this country and the self-governing dominions without consent of the latter." The statement is worthy of note at a time when there is more or less talk of Imperial federation. The Premier of the United Kingdom has made it plain that whatever decision is arrived at will be with the full consent of all the interested parts. There will be no compulsion, or even pressure exerted by the Government of the United Kingdom. Each self-governing state will be allowed to decide its own future. Freedom is the keynote of the Empire.

The extent to which the various states of the Empire control their movements was shown in an extraordinary manner when Great Britain entered the war against Germany, on that country announcing its intention of violating Belgium's neutrality. The Government at Westminster realized that the war would be a terrible one, and Lord Kitchener and other observers had no delusions as to the task to be faced. They knew that vast numbers of men would be required if victory was to be secured eventually. Yet no demands for men were made on the self-governing states, which were well able to furnish an army of respectable proportions, even from a European point of view. The decision as to participation was left wholly to the various parliaments, the Government of the United Kingdom taking the position that the issue rested with the different peoples themselves. Such confidence was justified, for the moment the Mother Country took up arms offers of assistance came from every capital in the Empire. Each part expressed a desire to do everything in its power, and asked for instructions as to what form the help should take. The advice requested was forthcoming and the dominions and colonies are still voluntarily doing their part. Even when the United Kingdom had resort to compulsory service there was no hint that the dominions should adopt a similar course. They were left free to solve their own problems in their own way, and may call at London at any time for advice or aid, and it will be forthcoming. In fact, in the British Empire there is complete freedom for each state. And this liberty is to continue.

Montreal, July 23.—H. Lariau, 147 St. Lawrence Boulevard, a foreman of a gang of drillers on the Canadian Northern Railway, was struck by a car at the west portal of the C. N. R. tunnel in this city, Saturday morning while dodging a car running in the opposite direction and was killed. He was on his way home from work when the fatality happened.

NOBODY IS AUTHORIZED TO STATE THAT WE DO NOT STILL GIVE BONS.
WE ARE GIVING THEM DOUBLE AT PRESENT.

MYRAND & POULIOT, Reg'd,

PRESS COMMENT.

Liberal Advisory Council in the deliberations of a solemn assembly at Ottawa declares itself in favor of rural credits. Liberal Advisory Council is really in favor of rural votes; also the Decalogue. Especially the Decalogue. The Decalogue is a great comfort to the Laurier party—in Opposition. There is nothing on earth quite so virtuous as a Globe-Star party in Opposition, or quite so vicious as a Globe-Star party in office. The Globe-Star type of organ has a pleasure in preaching the Ten Commandments in Opposition. That pleasure is only surpassed by the supreme Globe-Star pleasure of helping the party machine to break most of these commandments in office.—Toronto Telegram.

In England the finding of suitable work for soldiers who have lost an arm or a foot or other member has already begun in earnest. One of the discoveries is that men who have lost a leg can become motor-car drivers. At a Roehampton hospital a system of fitting on artificial limbs for the purpose is now in use. There seems to be no reason why a man in full use of his faculties, and short only a leg, should not be a chauffeur. To be able to hobble is sufficient for most car-driving, as long as a stump can be made for foot-control work. Some men who have only one leg have driven cars for years, having a combination brake and clutch arrangement after a fashion now being introduced for general use. The centre control system also is a decided help. Here in Canada the opportunities of men who have to get employment at which they can sit, and yet need a nontoxic life, will be very few. The commission having vocational training for disabled soldiers in hand in centering most of its plans for such men on typewriting, bench labor, bookkeeping, and other confined occupations. Motor-car driving is thought by most people to be fit only for the physically sound, but it is perfectly true that so long as a driver can hobble around on his feet, and has full use of his arms and hands, and has normal sight and hearing, he could qualify pretty satisfactorily as a chauffeur. In Ontario there are 30,000 or 40,000 cars, and perhaps several thousand of them will be driven after the war by veterans from France and Belgium.—Toronto Mail

Synopsis of Canadian Northwest Land Regulations.
The sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

W. W. CORY,
Deputy of the Minister of the Interior.

IN AND ABOUT TOWN

HEAT KILLS MANY QUEBEC BABIES

THE INFANTILE MORTALITY REACHED ALARMING PROPORTIONS — NO PARALYSIS REPORTED.

Since the beginning of the present month infantile mortality in Quebec has reached alarming proportions. Statistics, which speak for themselves, show that since the 1st of July at least 98 infants have died in this city, and the tide of death seems to be gradually increasing.

Yesterday afternoon the train of white hearses to Belmont, St. Charles and St. Sauveur Cemeteries told the dismal tale of what is occurring in many Quebec families at the present time.

Mr. Hubert Moisan, the undertaker, alone buried 11 infants yesterday and has five more to carry to the cemetery today.

Mr. Germain Lepine, had two infants funerals yesterday and has two more to bury on Saturday, 3 on Sunday, seven for today and two for Tuesday.

No Infantile Paralysis.

In conversation with the Chronicle last night Dr. Jos. Gosselin, Assistant Civic Health Physician, said that he attributed the unusual number of deaths chiefly to the excessive heat. He admitted, however, that in a great number of cases the deaths were due to poverty and ignorance on the part of the parents. Living in small crowded dwellings which lacked fresh air and swarmed with flies, they did not give the proper attention to cleanliness and the feeding of their children. Asked if any case of infantile paralysis had yet been reported in Quebec, Dr. Gosselin said that he had none in his own practice and that none had been reported to the Health Department at the City Hall.

He had also made inquiries among his fellow practising physicians and thus far no case had come to their attention.

LADIES EMPORIUM

Murphy's discount sale starts Saturday A.M.

MR. M. H. SMITH IS DOING WELL.

Mr. Melvin H. Smith who was injured by the Quebec & Lake St. John train at Valcartier station last week, was operated on at the Hotel Dieu Hospital on Saturday. The physicians found it necessary to amputate the left arm. The hospital authorities last night stated that he passed a good day and was progressing favorably.

At this season lager is the popular beverage. For a wholesome, light and refreshing beverage B. B. Lager is unsurpassed. B. B. Lager is made in Canada—in Quebec. Why buy other lagers.

POLICE RAIDED HOUSE AT ST PIERRE de CHARLESBOURG

The Provincial Police, headed by Chief McCarthy raided a disorderly house at St. Pierre de Charlesbourg on Saturday and brought some ten inmates to the city. The house is a rather notorious one, having been occupied for years by one Mr. Chartrain, who was fined on different occasions for selling liquor without a license.

DR. J. A. PIDGEON DEAD.

Coroner of Gaspé Passed Away at Venerable Age.

Dr. J. A. Pidgeon, Coroner of the Gaspé district, passed away at his home at Perce, Gaspé, on Friday at the age of 72 years. The deceased was a graduate of Bishop's College, Lennoxville, and afterwards practised in Montreal under Sir William Hingston, and held the highest recommendations from the noted surgeon.

The late Dr. Pidgeon was a former resident of Quebec and a devoted member of St. Patrick's parish some thirty five years ago. After practising in Montreal he was sent by the Government to the North Shore with assistants to combat an epidemic of smallpox which had broken out among the inhabitants and Indians settled there. In recognition of his effective work he was later appointed Coroner of Gaspé which position he held until his death.

LADIES EMPORIUM

Murphy's Sale of Ladies and Juveniles

Ready-to-Wear Dresses, etc. starts Saturday A.M.

EXTENSIONS TO THE ROSS FACTORY

NEW BUILDINGS GOING UP AMPLIFIED DENIAL TO REMOVAL RUMORS.

The rumors which crop up from time to time that the Ross Rifle Factory will be removed from Quebec were again quite recently and sound very ridiculous to any who have occasion to visit the factory, where work is being actively pushed on the construction of two extensions.

In this work there is ample proof that the Ross Rifle will not leave the City and that there is a steady increase of business since the present capacity of the factory has to be enlarged.

One extension is to the large building which was erected shortly after the outbreak of the war, while the other is to enlarge the Government Inspection Department.

Help Patriotic Fund.

Very few citizens are aware of what the Ross Rifle Factory is doing for the Canadian Patriotic Fund. With a weekly pay roll which varies between \$50,000 and \$60,000 each employee contributes 1 per cent. of his weekly pay, which means that the contribution to the Patriotic Fund from the Ross Rifle employees alone amounts to between \$500 and \$600 a week.

The management thought it preferable to take one per cent of the pay each week than to take a day's pay every three months. The arrangement works out to the satisfaction of the management and the employees alike and there is no complaint coming from the administrators of the Patriotic Fund.

AMERICAN OFFICERS VISIT VALCARTIER

GENERAL WILSON SHOWS THEM OVER CAMP — ARE MUCH IMPRESSED.

A number of distinguished American officers paid a visit to Valcartier Camp yesterday and while there were entertained by General Wilson and his staff.

The visitors included Lt.-Col. Murray, who is camp commandant at Plattsburg; Lt.-Col. Ketchum, who is in command of the U. S. Artillery on the Atlantic Coast; Major Lawton, Q.M.G. at Plattsburg, and several other officers. They came up by special train and were shown all over the camp by General Wilson in who went to great pains to acquaint them with all its features. In conversation afterwards they expressed themselves as being very much impressed with the lay-out of the ground, its great natural advantages as a training centre, and with the physique, discipline and efficiency of the troops.

General Wilson entertained the Americans to lunch and while they were there the band of the 53rd (Sherbrooke) Regiment gave a fine selection of airs.

After lunch Col. Murray and his friends went on to Lake St. Joseph for the afternoon.

ST. ANN'S DAY ON WEDNESDAY, JULY 26th.

Train Service by Q. R. L. H. & P. Co., for the Occasion.

Departure of train in the morning from Quebec, 6.00, 6.30, 7.00, 7.30 and 8.00. Price of tickets to go and return on these trains, adults, 60c, children 25c. Tickets good to return on all trains day or night. The other trains leaving Quebec every hour from 9 a.m.

Grand ceremony in the evening. Solemn Benediction, Band procession in the Park, Illumination, the Papal Zouaves of Quebec with band and the Palestrina Choir will take part.

For this occasion special tickets will be issued at 30c. for adults and 25c. for children, good to return the same evening. These tickets will be accepted on the trains leaving at 5.15, 5.45, 6.15, 7.00 and 7.15 p.m.

The Zouaves and the Palestrina Choir will go to St. Ann's on the 7 o'clock train.

There will be a sufficient number of trains to bring back the pilgrims to Quebec after the ceremony.

GREAT CLEARING SALE.

Simons & Mingway's Great Midsummer Clearing Sale starts today. Entire stock is very much reduced in price, 10 per cent to 50 per cent reduction. See advertisement.

BAND TONIGHT AT BOULEVARD L'ANGELIER.

The Limoulin Cadet Band will give a concert at the Boulevard L'Angelier tonight beginning at 8 o'clock.

MAN WHO FOUGHT AT GALLIPOLI IS VISITING CANADA

WANTS TO FIGHT IN FRANCE ALTHOUGH OVER SIXTY YEARS OLD.

On board the Allan Line steamship Scandinavian which arrived in Quebec shortly after eight o'clock Saturday night was Col. J. Burston who commanded the Seventh Infantry, Second Division of the Australian Overseas Force which participated in the fighting at Gallipoli.

Col. Burston, who has turned sixty years, is now over the age for active service and much to his regret was, under the circumstances, unable to accompany his fellow-officers and men to France after the return from the Dardanelles. However, he is returning home and hopes to be of assistance to the Australian Militia in the country's continued help to the Empire.

Although he has already visited a part of the Dominion Col. Burston chose this route in order to see more of Canada and particularly the Rockies. He is interested in the grain elevators in the Dominion and will inspect many of them en route to Vancouver from whence he will sail for home on August 7th.

While in England a short time before sailing this returned Australian stated that he had the happy fortune of meeting some members of his brigade who had just come over from France. They were allowed on furlough in appreciation of a successful forage they had made into the German lines.

Col. Burston has a son at present with the R.F.A. near Ypres. He too went through the fighting at Gallipoli and was wounded. After his recovery he went over to France and is now orderly officer in one of the brigades. Col. Burston stated that the voyage across was splendid and he gave great praise to Commander J. M. Reith for the skilful manner in which the Scandinavian was navigated.

Other officers attached to various corps serving the Empire who are returning on leave are: Capt. W. R. Hodge, Capt. Riley, Surgeon W. Young, Lt. F. L. C. Walker, L. S. Robinson.

STR. MATATUA IS IN TROUBLE AGAIN

RAN ASHORE IN ST. MARY'S BAY ON COAST OF NEW-FOUNDLAND.

The Steamer Matatua, owned by Shaw, Savill and Albion, Ltd., of London, 6,188 gross tons, which left this port last week with a cargo of 5,100,000 feet, board measure, of spruce for account of J. R. Goodday, & Co., ran ashore on Saturday night in St. Mary's Bay on the Newfoundland Coast during a dense fog and a heavy south west roll.

The firm of Wm. M. Macpherson, the local agents for the owners, were notified shortly after the accident and the Captain stated that the Government Steamer Canada was standing by while it was learned that the Government had sent two other steamers from Sydney last night.

The Government steamer Strathcona with pumps will leave for the scene of the grounding early this morning.

CANADIAN PACIFIC ROCKIES.

C.P.R. Issues Beautifully Illustrated Booklet, Offering Magnificent Vacation Opportunities.

"Canadian Pacific Rockies is the title of a new booklet issued by the Canadian Pacific Railway which has just come to hand. The book is a gem of the printers and photographer's art and the views shown therein are amongst the finest in the land."

It contains the most alluring descriptions accompanied by actual photographs of beautiful towns in the Rockies, together with full information concerning hotels, places of interest in each town and a glance through this little booklet makes one feel like packing up and leaving the dust of the hot city for a tour in the western mountains.

The booklet also contains a map of the railway system which is invaluable and the cover is artistically colored and designed and is a regular encyclopedia of information for the traveller.

TAFFETA SUITS \$15.00

A certain number of \$25 and \$45 Suits have been reduced to this price.

Holt, Renfrow & Co.

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can now read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable eye specialist and widely prescribed by them. The manufacturer guarantees to strengthen eyesight 50 per cent. in one week's time in many instances cured the money. It can be obtained from any good druggist and is one of the very best preparations I feel should be kept on hand for regular use in every family." Brunet & Co. sell it.

LAVAL TRIMMED THE
CHAMPIONS AT LAST

In The World of Sport

SHAMROCKS WIN

FROM NATIONALS

LAVAL DEFEATED ST. PATS VICTORIAS BEAT PATRICIAS ST. ROMUALD TRIMS C.B.s

CHAMPIONS LOSE TO LAVAL FOR THE FIRST TIME SINCE
THEY HAVE BEEN PLAYING TOGETHER—IRISHMEN CAME
WITHIN ONE OF OVERTAKING NINE-RUN LEAD—THE
VICTORIAS SURPRISED PATRICIAS BY A NINTH INNING
VICTORY—ST. ROMUALD HAD THINGS EASY WITH C.B.'s
BUT ALMOST THREW AWAY GAME BY CARELESSNESS.

Results in local baseball league:
Saturday:—Laval, 9, St. Patrick's 8.
Sunday:—Victoria 4, Patricias 3.
St. Romuald 11, C.B.'s 7.

For the first time since the two clubs have been playing ball against each other, the Laval team defeated St. Patrick's. But the Irishmen didn't go down with a terrific struggle. The score was nine to eight in favour of Laval but a little hit in the ninth inning when the bases were full would have changed a Laval win into a defeat. A defeat which would have almost broken the hearts of the students for they caught the champions on an off-day, the Saints playing one of the most wretched games of their career up till the seventh inning, and Laval had a comfortable lead of nine to nothing when the eighth inning began. St. Pat's were struggling desperately to stave off a white-wash and when Tom Kelly by some fast base-running managed to score, the Irishmen were happy. Way down in their hearts they hoped against hope that the tide would turn. And it did, but not quite enough. The one run seemed to unbalance the Laval team, which up to then had played a magnificent game, and Masse weakened visibly. Hits, passes and errors aided the Saints in their rally and they managed to draw eight runs over the plate before the side was retired. Even then, with two out and two on, it was Arthur Racine, the sorrel-topped second baseman of Laval who plucked the game from the fire by robbing Eddie Ramsay of a sure-hit by galloping back into right field and grabbing the ball with his back turned to this play, this story would have been differently written. In the ninth inning, the Saints filled the corners with two out, but Maurais, who was sent to bat for Campagna, which by the way seemed a bad move, struck out, the gigantic nature of his task appalling him and Laval had at last won from St. Patrick's.

It was a game marked by much crabbing at the umpires and Manager Steve Newton, the St. Patricks catcher was ejected from the game because he persisted in protesting against the umpire's refusal to uphold a claim of interference. Drouin of Laval who was coaching, having collided with Bill Fields when the latter was attempting a foul fly catch back of first base. The Umpire contended that the first-baseman could not have effected the catch. However, in this case the umpire had all the reason in the world for calling the batter out for interference, and putting Drouin off the field, had he been so inclined, though Drouin unquestionably did not try to interfere with the play intentionally. Jack Gaskin replaced Newton behind the bat and if St. Pat's had won, Jack deserved the big share of credit for the win. He caught a fine game, though his throwing was not up to form, and his hitting was a big feature in the St. Pat's rally. With practically no practice behind the bat, he held Campagna's slants in approved fashion and worked the batters with good judgment. Even in the ninth, after George McLeod had been disposed of, Gaskin started things going and the Irishmen filled the bases, but the timely wallow was missing.

Campagna was not in his old-time form when the game started and he added to his own downfall by miffing a little pop-fly with the bases full and two out which allowed two counters across the plate.

A bad first inning put St. Pat's men in bad humour and everything went bad, Ramsay losing a sure run when he stumbled over third base on McLeod's clean drive to right. Had Eddie scored, but that's another story.

Laval deserved their victory. They played a fine game for eight of the nine innings, but the final spasm which they had almost cost them the victory. Masse pitched a good game and though he weakened a bit towards the close, yet had his support been always perfect he would have won easily. Hennessy of Laval was chased off the field for disputing a decision and Paul Drouin took his place. Both Racine brothers played a fine game for Laval and Lachance starred in the outfield making several fine catches.

After the game a kind of a free-for-all occurred which if repeated will put the lid on baseball here. There is a big fight going on just now on the other side which can make use of anybody with or without belligerent natures. But evidently some of those who were in the mill should be on the Huns' side. Ten to one and use the boots.

Victoria Beat Patricia.

The Victoria-Patricia game was a good one and the result was a surprise. Though Patricia were with-out A. Crevier and Viau, yet Vics were without Tommy Buell or the Rose brothers. Nevertheless Jimmy

Walsh's men were in a fighting mood and though the Patricia's jumped ahead in the first inning by counting three runs, mostly on errors, hard and timely hitting by Lou Macé and George Acquin brought this down to 3-2. The Patricia's got another run but Vics, still plugged away and with two on, George Acquin's long drive to right field was dropped and the score was tied. However, Vics looked to have lost when Bourre scored when Poitras beat out a hit to Lou Macé by sliding to first.

The ninth began with Pouliot at bat. "Pete" who pitched a fine game tried hard to open up with a hit but Bourre made a fine running catch off his wallow. Sylvestre, the real "Jeff" of baseball toddled to the plate and worked Crevier for a pass. Macé sacrificed, Crevier to Paquet. With two out and one run needed to tie the Acquin drove one to right field for a base and Sylvestre crossed the plate with the tying run. Laporte undoubtedly fielded this hit of Acquin's very slowly and a smart outfielder would probably have caught the drive. Frank McCarthy followed with another wallow and Acquin went to third.

The Victoria supporters went wild as Frezell came to the plate and pleaded with Billy to win the game.

Frezell, who had already hit safely twice, was right on the job and he placed a beauty to right center which sent Acquin across with the winning run. Frezell was given a big ovation as he came to the bench and the fair-haired boy was entitled to all the credit possible for he played a fine game. Acquin was the big slugger of the day, getting four safe blows while Macé, Cloutier and McCarthy were dangerous with the stick. Fourteen hits were garnered in all by the Vics, while the Patricia's only touched up Pouliot for six safeties. Camille Crevier pitched a good game and fielded and hit very well. Victor Gendron played a splendid game at second. Rick Paquet covered first and the pitcher handled everything that came his way.

Indians Beat C.B.'s.

Chief Jocks and his Indians from St. Romuald beat the C.B.'s by 11-7 in the second game of yesterday's double-header. The game was one-sided up to the fifth when St. Romuald took out several of their regulars and the C.B.'s began to touch up Desjardins. However, defeat was never thought of by the St. Romuald contingent and they were satisfied to win by a four point margin. Desjardins struck out 14.

Colombe pitched for C.B.'s but got poor support, weakness also aiding in bringing about his retirement. Art Bernard got a dandy three base wallow and Rogers also whaled out a hit for three cushions. Emile LaTulippe pulled off a sensational catch in centerfield.

Umpires: H. Stevenson and D. Doyle.

RALPH DE PALMA

WINS MOTOR RACE.

Kansas City, Mo., July 23.—Ralph de Palma, in a German made car, won the 100-mile motor race, the feature of the opening of the new speedway here yesterday afternoon. His time was one hour, forty-two minutes, fifty-four seconds. An average of 58 miles an hour. Ronald O'Donnell, in another race, was probably injured by his car crashing through a fence.

EMMET CREW WON FINE BOAT RACE

LARGE CROWD SAW THE CLIP
DEFEATED IN ACROSS THE
RIVER TRIP.

It looked like old times down the Cove yesterday and the crowds which gathered on the wharves and places of vantage along the river St. Lawrence to witness the boat race between the Emmet boat and the famous Clip, saw a thrilling contest which was only decided in the last couple of hundred yards, the Emmet crew, in the pink of condition passing their rivals and winning by about four lengths.

It has been several years since this popular sport has been taken up, but its revival has aroused keen interest and another race will be rowed over the course next Sunday, another good crew meeting the victors of yesterday.

Starter, Alderman Frank Dinan, sent the boats away from Burstall's wharf on the Levis side and both taced neck and neck on top of high water until but a couple of hundred yards from the finish, which was at Ellis' wharf on the Quebec side. The Emmet boat then shot her nose ahead of the Clip and finally placed herself two or three lengths to the good, increasing this by another boat length at the finish. The course is about one mile and the time of seven minutes is very good. Both crews had large numbers of supporters and they worked hard to win. Ald. Frank Dinan acted as judge also and accompanied the boats in a steam launch to the finish line, giving utmost satisfaction to both crews and spectators.

It is the first defeat the Clip has sustained in such a race.

The crews:—

Emmets:—No. 1 M. Dempsey, No. 2 J. Doyle, No. 3 M. Redmond, No. 4 P. Redmond, Coxswain, Frank Dinan, Jr.

Clip:—No. 1 F. O'Brien, No. 2 J. Phillips, No. 3 R. Sheehy, No. 4 A. Lynch, Coxswain, R. Joynt.

Judge and starter, Ald. F. Dinan.

Time 7:00.

JUNIOR BASEBALL.

By order of the Board.

E. HAY,
General Manager.

Toronto, 21st June, 1916.

Sporting Notes

Some excitement on Saturday at that Laval-St. Pats game. It was the first defeat ever sustained by St. Pats at the hands of Laval, but the game will live long in the memories of those who attended.

Umpire George Cartier was ill before he officiated and the heat affected him very much. Some of his decisions looked off color but there was no reason for such a senseless amount of discussion over them. Harry Ladden's decision in not calling out Racine for interference by the coacher was based on the fact that the umpire believed that Fields was not interfered with insofar as the catch was concerned, the umpire being of the opinion that the first-baseman could not have caught the ball anyway. But, in the interests of the game he should have called the batter out in order to prevent a recurrence of such things. Newton and Hennessey have the distinction of being the first players ordered out of the game on the Exhibition Grounds this season. Both umpires set out to do their best but when players begin crabbing at an umpire, they generally get the worst of the crabbing. Unless the players begin to realize that what the umpire says goes, the few ups we have in the league will chuck up their jobs. St. Pats looked to be the worst kickers in the league while Laval had the bulge, but when the Saints closed on them, the shoe was on the other foot and Laval were the ones to hoiler. Jack Gaskin had Gailloux blocked a foot off the plate, yet the crowd roared that he was safe. If a catcher knows his business, he barricades that road to the plate and takes his chances and Jack knew his business.

Pepin, the Laval catcher, pulled a fancy trick which cost his club two runs. He tossed his mitt in the air to save a wild throw and the ball was struck and fell at his feet. The umpire promptly awarded the runners three bases as called for by the rules.

The Vics hit the ball hard yesterday. Yet with fourteen singles they only won out by 6-5. Cloutier had four hits yesterday but lost one when he failed to touch first base in stretching his hit to a double.

Campagna was sore when Maurais was sent in to bat for him in the ninth inning. Pierre had come through with a hit in the previous inning and probably would have repeated. Maurais was very nervous.

Hats off to Jack Gaskin! The old war-horse gave a fine exhibition behind the bat. And his wallopers were timely.

Baseball fans! Do you know why lacrosse is dead in Quebec? If so, then please don't kill baseball. Another mix-up like last Saturday will surely spoil the game. There is no place for hoodlums at a ball-game.

Masse pitched a good game for Laval until the eighth. But he weakened then. Laval looked easily the best team in the league for eight innings but they had to spoil it all by a blow-up. However, they won and are still leading with a clean record.

Big Chief Jocks nearly changed the aspect of the game yesterday when he pulled himself out and also switched around other players on the team. The C. B.'s were coming strong at the finish.

Dan Murray the big cheer leader of the Indians was missed yesterday. But Boss Bill O'Brien was right there with the rooting.

Herbert, the new catcher of the Indians, looks to be a good one. Wingo was on the sick list.

Some of the St. Romuald rooters started in to cheer for their team yesterday and were promptly told to shut up by a few local sports. Is that the way to create good feeling amongst the different clubs. The idea of sportsmanship amongst a certain element here is all wrong. Why not jolly each other good-naturedly without bringing up personal and racial remarks.

George McNaughton evidently couldn't stand three games in a week and the Standards got to him yesterday.

Arthur Racine's fine catch of Eddie Ramsay's wallop saved the bacon for Laval.

Heard at the ball-game:—
First Fan: "There's going to be a shortage of snowshoes this winter."
Second Fan: "How's that?"
First Fan: "The girls are having them made into hats. Look at those over there."

CITY CLERK'S OFFICE
CITY HALL.Tenders for Storage Battery Plant
for Fire Alarm Telegraph
Dept.

Quebec, July 20th, 1916.

PUBLIC NOTICE.

Is hereby given that sealed tenders
endorsed: "Tenders for Storage Battery
Plant for the Fire Alarm Tele-
graph" and addressed to the under-
signed, will be received from this
date to the 1st of August next, 1916,
at noon, for the supply and installa-
tion of a complete system of storage
battery plant, comprising the follow-
ing equipment:

- 1 six circuit line switchboard
- 2 insulated battery racks.
- 266 storage cells complete.
- 1 motor-generator set.
- 1 six circuit gong switchboard and a projector board.

All these items which include many
apparatus, are described in the specifi-
cation which can be examined at the
office of the undersigned, by any
one who wishes to tender. The ten-
der shall be in accordance, in every
respect, with the specification and
the tenders shall preferably furnish
drawings of photos showing that the
apparatus they intend to install
are well in conformity with the re-
quirements of the specification.Separate tenders are requested for
items (a), (b), (c), (d), (e), as a
whole, and items (a), (b), (c), (d),
only.The City does not bind itself to ac-
cept the lowest or any of the tenders;
it reserves the right to accept a ten-
der excluding the item (e).The Contractor shall pay the cost
of drawing the contract and of a no-
tarial copy for official use.The change from the present sys-
tem to the new one, shall be made in
such a manner as not to interfere
with the operation of the Fire Alarm
Telegraph.

By order,

AUG. MALOIN,

Sec. Fire Committee

H. J. J. B. CHOUINARD,

City Clerk

July 22nd 1916

STEAMER "FRONTENAC"

Commencing June 1st, 1916.

Weather and circumstances permit-
ting, the Steamer "Frontenac" will run
as follows:

Island of Orleans Ferry.

Saturday, at 2.00 p.m.

On Sundays.

Leaving Quebec at 7.30 a.m. and 1.15

p.m., and leaving St. Jean at 5.30

p.m.

On Saturdays the same steamer will

make a trip to Berthier, giving

citizens an opportunity to breathe

the invigorating air on the river.

Leaving Quebec at 2.00 p.m., and

returning at 9.30 p.m.

Shipping News

ORPHANS ARRIVE
ON SCANDINAVIANPARTY OF 76 REACHED QUE-
BEC SATURDAY — SPLENDID
VOYAGE.A party of seventy-six Catholic Im-
migration Society Children in charge
of Miss C. Fox, of Ottawa arrived in
Quebec on Saturday on board the
Canadian Pacific Ocean Service
steamship Scandinavian which docked
at this port shortly after 8 p.m. The
children left town for the St.
George's Home Ottawa via the G.
T. R.The Scandinavian left Liverpool
July 14th and would have reached
Quebec Saturday morning, as was ex-
pected, had not fog impeded the pro-
gress of the ship on the last lap of a
splendid voyage.There were 179 cabin and 213 third
class passengers. All of the third
class, as is customary, disembarked
here as well as the majority of those
occupying cabins. The vessel carried
899 overseas sacks of mail and 3,400
for Canada as well as two hundred
tons of general cargo and express
which were discharged here. The
Scandinavian left early Sunday for
Montreal.

SHIPPING NOTES.

Among the vessels which passed up
yesterday were the steamer Harbiste,
steam barge Saskatoon, steam barge
Byron Whittaker and the steamer
Sigmaringen.The Manchester Corporation left
the Basin yesterday for Montreal.
The steamer Lord Strathcona ar-
rived up from Sydney with a cargo of
coal.VALUE OF SHIPPING SINCE
THE WAR.London, July 22.—To the rise in
shipping values no end is yet appar-
ent. Second hand boats now fetch
prices that would have been consid-
ered extravagant for new vessels a
couple of years ago. Even very old
craft command more than their origi-
nal costs.Twelve months ago, steamships
were being sold at an average of \$40
a ton, but latterly sales have been on
the basis of about \$100 a ton—a jump
of about 150 per cent. Prices have
ranged up to nearly \$200 per ton for
two-year-old ships, and even vessels
thirty years old have fetched \$135 a
ton. The profits made on sales are
so large that many of the boats have
changed hands several times during
the last two years.Thus, one ten-year-old steamship,
which was sold for \$131,000 in 1914,
was disposed of for \$500,000 last year,
and has lately been knocked down
again for \$700,000. Another vessel
twenty years of age fetched \$182,500
last August, \$450,000 last January and
has now realized \$505,000. A third
ship, built in 1891, which was priced
at only \$37,000 in 1912, sold for \$105-
000 last year, and yet again for \$210-
000 quite recently.Four other craft, the youngest ten
years of age, which together were
disposed of for \$845,000 in 1915, have
recently fetched \$1,777,500. And here
are two other examples. One twenty-
seven-year-old boat, which was sold
for \$225,000 in 1913, has just been dis-
posed of for \$500,000, and one eight-
een-year-old craft, which realized
\$100,000 in 1914, has now changed
hands for \$775,000.The above representative sales re-
late only to steamships, but sailing
ships can supply equally astounding
illustrations of the phenomenal rise in

values. In 1915 the average rate per
ton realized was about \$22, but this
year the mean has been around \$47,
an increase of about 107 per cent.
Twenty-year-old ships and over have
commanded \$65 per ton, while even
craft built in the seventies have
fetched from \$20 to \$30 per ton.

FREIGHTS AND CHARTERS.

New York, July 22.—Steamer char-
tering was light, but a fair business
was reported in sail tonnage for off-
shore account. Freight offers moder-
ately, with tonnage offerings light.
Quotations to Liverpool and London,
16d; Glasgow, 13d; Hull, 20d; cotton
to Liverpool, per 100 lbs. \$1.Charters: Steamer, 2,298 tons, gen-
eral cargo, New York to a French
Atlantic port, 84s net form, August;
Norwegian steamer, 1,947 tons, same,
private terms, August; Norwegian
bark 972 tons, coal Baltimore to
Bahia, at or about \$15.50, prompt;
schooner, 38,000 cases petroleum,
Port Arthur to East Africa, private
terms, September-October; schooner,
30,000 cases petroleum, Port Arthur to
South Africa, private terms, August-
September; schooner, 1,408 tons, coal,
Virginia to Lisbon, \$14, prompt;
schooner, 1,564 tons, same; schooner,
445 tons, general cargo, New York to
five ports, west coast Africa, \$40 per
ton and port charges.

BUGS ON YOUR FLOWERS.

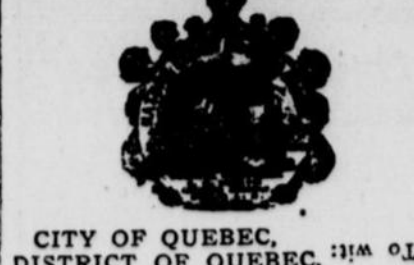

First to get rid of ants, find the
nest, which will be somewhere not far
from the house. Having found it, set
to work as follows: Place an inverted
garden pot over the nest and the ants
will work into it.Plunge the pot with its contents
into boiling water and repeat the pro-
cess if necessary. Another way to
keep them from getting into the house
is to sprinkle sulphur just outside to
prevent them from entering. They
dislike sulphur so much that they will
not come near it.Slugs are soft-bodied creatures, fre-
quently covered with a shell. They
attack many species of plants like vi-
olets, etc. They live in moist places.
They are trapped with cabbage leaves,
sweetened bran, poisoned powdered
lime sprinkled over the soil about the
plants.Caterpillars, sometimes called leaf-
rollers, affect plants and trees, being
very destructive to roses and apples.
They wrap themselves in the leaves
by making cocoons. Pick off cocoons
and spray with Paris green.Rosebugs burrow into the heart of
the rose blooms, spoiling them. There
is no remedy for them which will not
also disfigure the rose. Pick them by
hand, as they are easily caught.

SELFISH AGE.

Mary Wilkins Freeman, the no-
velist, was condemning mercenary
marriages at a Brooklyn tea."It's a great mistake," she said, "to
talk about preparing to be an old
man's darling, rather than a young
man's slave. Age is not more gener-
ous than youth. It is, on the con-
trary, crueler and more selfish.""The poor girl who dreams of
being some rich and generous old
man's darling should remember the
story of the dying pasha."A pasha lay dying. He summoned
the youngest and fairest of his 45
wives, and said to her in a low,
weak voice:"Put on your richest costume and
your most brilliant jewels, and deck
your hair with pearls. The young
wife blushed. Even in her grief she
was flattered."And why, my lord," she said,
"do you desire me to make this sumptu-
ous toilet?""So that death, when he comes,
the pasha answered, 'seeing you so
very beautiful, may perhaps carry
you off instead of me.'"

Cure Your Bad Cough

By Breathing "Catarrhazone"

You may dislike taking medicines—
but coughs are best cured without
medicines. The modern treatment is
"Catarrhazone"—it isn't a drug—it's
a healing vapor full of pine essences
and healing balsams. It spreads over
the surfaces that are weak and sore
from coughing. Every spot that is
congested is healed—irritation is
soothed away, phlegm and secretions
are cleaned out, and all symptoms of
cold or catarrh are cured. Nothing
so quick, so sure, so pleasant as Ca-
tarrhazone. Beware of dangerous
substitutes meant to deceive you for
genuine Catarrhazone. All dealers
sell Catarrhazone, large size which
lasts two months price \$1.00; small
size 50¢ sample size 25¢.CITY OF QUEBEC,

BY-LAW NO. 10A.

By-law Concerning the Assessment
on Immoveable Property in the
City of Quebec, and to Amend By-
law No. 2B, and By-law No. 10,
Concerning the School Tax.(Drawn up in the French language.)
At a meeting of the Municipal
Council of the City of Quebec, held
at the City Hall, in the said City of
Quebec, on the twelfth day of May,
one thousand nine hundred and six-
teen (1916), in conformity to law,
and in virtue of a by-law passed by
this Council, pursuant thereto, and
after the due observance of all the
formalities prescribed by the statute
in such case made and provided, at
which meeting were present the ab-
solute majority of the members com-
posing the Council of the City of
Quebec, that is to say: His Worship
the Mayor, Aldermen Bedard, Ber-
trand, Bois, Dussault (St. Louis),
Dussault (Belvedere), Fiset, Gauvin,
Glode, Lantier, Lockwell, Mercier,
Paquet (Jacques Cartier), Pettigrew,
Plamondon, Verret.It is ordained and enacted by the
Municipal Council of the City of
Quebec, and the said Council doth
hereby ordain and enact as follows:
"Article 5 of By-law No. 2B, passed
on the 19th April, 1912, as amend-
ed by By-law No. 10, passed the
23rd April, 1915, is anew amended by
replacing said article by the follow-
ing:"5. It is hereby imposed and there
shall be levied on the immoveable
property belonging to the Catholics
in said city a tax of thirty-eight
hundredths of one per cent on the
assessed annual real value of said
property, to collect every year the
sum payable by the City of Quebec
to the Board of Catholic School
Commissioners of the city, accord-
ing to law.It is hereby imposed and there
shall be levied on the immoveable
property belonging to Protestants
in this city, a tax of 4.10 of one per
cent of annual real value assessed
on said property, to collect the sums
payable every year by the City of
Quebec to the Board of Protestant
School Commissioners, for the main-
tenance of Protestant schools in
this city, according to law.

NOTICE

IS HEREBY GIVEN that the Pier at the mouth of the Cap Rouge River is submerged, as well as the other deep water Pier that was there up to last Winter, at the end of the long wharf.
 The position of the Pier at the mouth of the Cap Rouge River is, as heretofore, shown by a flat buoy by day, and a White Light by night, and the position of the Pier recently taken at the end of the long wharf is in a straight line with the said Flat Buoy, and about 600 feet to the west.
 W. A. KINGSLAND,
 Agent.

There are many business and professional men who do not require the constant services of a Bookkeeper.

A few hours each day is ample for their office routine and his continual services would prove too costly. To meet the requirements of such, I will supply a competent man (under my personal supervision) for a reasonable charge, to do their accounting and other office work accurately and promptly.

ROBERT STEWART

Commercial**NEW YORK MARKET.**

(Canadian Press)
 New York, July 22.—For a mid-summer week-end session, today's market was unusually active, broad and strong. Special stocks again afforded the basis of a large proportion of the total overturn being in further demand by the bears or short interest, that faction suffering additional impairment of "paper profits."
 Motor issues were particularly prominent, with gains of 2 to 3 points in Willys-Overland and Maxwell and 10 for General Motors. Munitions and allied shares were substantially better, together with tobaccos, American Hide and Leather preferred, American Beet Sugar and the zinc issues.

United States Steel was the real leader, trading in that stock representing about 20 per cent. of the whole, at an extreme advance of 1-8, most of which was retained. There was a better tone to shares of the independent steel companies, notably Lackawanna and Republic, together with Colorado Fuel and American Car.

Rails were again relegated to a place of minor importance, even the investment issues moving sluggishly. Reading closed with a fractional gain, but Wisconsin Central forfeited four points of its recent advance. Shipping shares also were backward, with no material price changes. Total sales of stocks amounted to 173,000 shares.

The bank statement reflected a substantial cash gain, the actual increase of about \$13,500,000 being in excess of all estimates, while loans showed further contraction, with an increase of almost \$13,000,000 in reserves bringing the total excess up to \$108,000,000 against \$53,546,000 two weeks ago.

Weekly reports of the mercantile agencies were of a confident tenor, the only discouraging note coming from that portion of the south which recently experienced severe storms. In dry goods lines the volume of distribution shows an increase.

Bonds were steady today on nominal trading. International issues were firmer. Total sales, par value, aggregated \$1,055,000.

United States bonds were unchanged on call during the week.

CLOSING LETTER.

Bruneau & Dupuis, Stock Brokers,
 11-13-15, Sault-au-Matelot, Quebec
 A. A. GINGRAS, Manager.

New York, July 22.—The market today has been dull but strong with steel the leader. Report has it that the extra dividend is going to be larger than generally expected, some claim as much as 3 per cent. As we have said all week, the steel dividend is likely to be the stimulus to the market and so it has proved.

Otherwise the situation is flat, state and unprofitable but this action regarding steel may bring it new life. Tuesday and Wednesday will be interesting days for the market. If it continues really strong and active and does not suffer from a sinking spell, after the publication of the good news it will be distinctly encouraging.

Total sales, stocks 170,100; Bonds \$1,050,000.

CLOSING MARKET LETTER.

By Private Wire to Bruneau & Dupuis, Stock Brokers, Telephone No. 185.

New York, July 22.—Quoted values scored substantial gains in today's short session of the stock market on quiet buying, presumably from the short interest. The buying movement was well spread out over the two hours of business and was attributed to a further evening-up on accounts, the beginning of which was inaugurated yesterday. Dealings were conducted on a very limited scale, owing to the fact that the list of absentees among brokers and clients on account of the week-end was large. The general situation remains unchanged, and nothing in today's news occurred to suggest anything in the general outlook.

Sales, stocks, 170,100; bonds \$1,050,000.

CHICAGO GRAIN MARKET.

Chicago, July 22.—Grain quotations today were as follows:

Close. High. Low.

Wheat:			
July	117 1/2	117 3/4	115 1/2

AT THE THEATRES

AUDITORIUM PRESENTS CAESAR RIVOLI WITH 4 OTHER VAUDEVILLE ACTS

Caesar Rivoli, who is featured on this week's programme at the Auditorium, fills the part of seven actors in a sketch he plays all by himself. His quick changes of costumes have kept all audiences before which he has played wondering at how he can change so rapidly that no one can believe it is the same man they are gazing at.
In his impersonations of the great musicians of the world we will see how accurately he imitates Creator the famous band director who played to large audiences during the three days he was here last spring. The great impersonator is also known for his clever imitation of Sousa, another well known leader in our city.
There were contracts to show for it, actual signed contracts, bearing the signatures of 150 of the best business men in the Dominion.
The 150 Overland dealers present at this Convention were guests of Willys Overland Limited for the three Convention days. This was the largest Convention of Canadian automobile dealers ever held.
These men represent nearly every district from Victoria, B.C. to St. John's, N.B. From the former came Thos. Plimley and with him was A. S. French of Vancouver, each of them travelling 3,000 miles.
During one of the opening discussions T. A. Russell fully explained all of the new models for the coming season, telling the complete specifications of the new model 15B, and as Mr. Russell told of the new 31 1/2 H.P. motor to be used in this model considerable enthusiasm was shown by the dealers.
To assist Mr. Russell in the explanation of this model one of these cars was taken with the party to Alexandria Bay.
The Convention adopted as the slogan for the coming year, "Ten Thousand Willys Knight and Overland Automobiles for 1917, not 9,999." A goal that will be attained judging from the enthusiasm that was shown throughout the entire gathering.
In anticipation of this vastly increased volume of business the Overland service has taken a new departure in order to meet the needs of the new owners without lessening, but rather increasing, the service to the present owners of Overland cars. The Canadian corporation has enlarged the authority previously placed in the dealer, knowing that he has absolute knowledge of the service requirements. A service interchange policy has been planned so that an owner touring in another territory or province is assured of obtaining the same attention that he would receive at his local Overland garage.
During the Convention topics of mutual interest vigorously discussed both en route and stay at Alexandria Bay. These meetings, held between many pleasant outings resulted in the contracting for the sale of the entire amount of the 1917 slogan.
Discussions were held by the various department heads outlining the policy of Willys Overland Limited for the coming season. Immense enthusiasm was shown as this policy became clear to the dealers and with the preparations that had been made to assure its being carried out.
Enthusiasm was much increased by the showing of moving pictures of the Willys Overland Company's factory, the largest automobile plant in the world. There films took the observer through the entire plant showing the raw material being transformed into the finished product—Willys Knight and Overland cars. Following this was a lecture on the Knight motor, by H. H. Hower from the Willys Overland Company of Toledo. The exclusive manufacturing license for this already famous Knight sleeve valve motor is held by Willys Overland Limited.
The climax was reached just previous to the conclusion of the Convention when the dealers by an unanimous resolution sent a personal wire by Mr. T. A. Russell and Mr. F. J. Sleight to Mr. Willys the President of the Association expressing their enthusiastic sentiments as follows:
"At the conclusion of our three days Convention of the Canadian distributors and dealers the enthusiasm regarding the superior qualities of the new models of the Willys Knight and Overland Lines was so great that the dealers insisted by a unanimous standing vote that we send you personally a telegram to express how delighted they are with the features of the new sales, advertising and service program and to assure you of their determination to duplicate in Canada the wonderful growth you have had in the United States. So watch that we don't catch up to you!"
(Signed)
WILLYS OVERLAND LIMITED.
T. A. Russell, Vice President.
F. J. Sleight, General Manager.

CHARLES CHAPLIN IN "POLICE" AT OLYMPIA.

One of His Latest and Biggest Hits.

ESSANAY - CHAPLIN "POLICE"

Charles Chaplin's latest and one of his biggest hits "Police" will be offered at the Olympia Theatre today, tomorrow and Wednesday. This Chaplin feature has broken box office records in more than five thousand theatres to date. Chaplin himself says "it's a scream." It's a riot of fun, every foot packed with mirth.

All Chaplin features shown at the Olympia are the latest and first run in Quebec.
In addition to Chaplin, Francis X. Bushman will be offered in "A Voice in the Wilderness" a feature that is bound to win this popular artist new laurels.
There will be a matinee performance daily, and all who can conveniently do so, are requested to attend, and by so doing they will avoid the evening crowds, which no doubt will be great, as it is seldom that Chaplin and Bushman are offered on the same programme in such big features.
It's always cool and cosy at the Olympia, no matter how warm the day is.

AT THE VICTORIA THEATRE TODAY AND TOMORROW.

Celebrated Drama with New Star
"Saints and Sinners" Brings
Peggy Hyland into American Photoplay Firmament.

"Saints and Sinners" the widely discussed Famous Players screen version of Henry Arthur Jones' world-famous drama appearing at the Victoria next week, introduces Peggy Hyland, the talented beautiful English star, to American photoplay audiences. In the stellar role of Letty, this dainty little English actress making her American debut via the screen on the Paramount Program, so distinguishes herself that she is certain to become one of the great photoplay favorites of the nation over night.

The early scenes of the story take place in the picturesque village of Steepleford. Here Letty, the role impersonated by Miss Hyland, lives with her father, the Rev. Fletcher, and her spinster housekeeper, Lydia. The small family is quite contented

NEW RECORD FOR AUTOMOBILE SALES

WILLYS OVERLAND LIMITED
SELLS \$10,000,000 WORTH IN
THREE DAYS.

Toronto, July 22nd, 1916.

Ten Million Dollars worth of Overland automobiles sold in three days! That's a new record for Canadian business, whether in the motor car business or any other industry, but that is what was achieved by Willys Overland Limited during the first Annual Convention held in the Thousand Island House at Alexandria Bay, July 17 to 20 inclusive.

There were contracts to show for it, actual signed contracts, bearing the signatures of 150 of the best business men in the Dominion.

The 150 Overland dealers present at this Convention were guests of Willys Overland Limited for the three Convention days. This was the largest Convention of Canadian automobile dealers ever held.

These men represent nearly every district from Victoria, B.C. to St. John's, N.B. From the former came Thos. Plimley and with him was A. S. French of Vancouver, each of them travelling 3,000 miles.

During one of the opening discussions T. A. Russell fully explained all of the new models for the coming season, telling the complete specifications of the new model 15B, and as Mr. Russell told of the new 31 1/2 H.P. motor to be used in this model considerable enthusiasm was shown by the dealers.

To assist Mr. Russell in the explanation of this model one of these cars was taken with the party to Alexandria Bay.

The Convention adopted as the slogan for the coming year, "Ten Thousand Willys Knight and Overland Automobiles for 1917, not 9,999." A goal that will be attained judging from the enthusiasm that was shown throughout the entire gathering.

In anticipation of this vastly increased volume of business the Overland service has taken a new departure in order to meet the needs of the new owners without lessening, but rather increasing, the service to the present owners of Overland cars. The Canadian corporation has enlarged the authority previously placed in the dealer, knowing that he has absolute knowledge of the service requirements. A service interchange policy has been planned so that an owner touring in another territory or province is assured of obtaining the same attention that he would receive at his local Overland garage.

During the Convention topics of mutual interest vigorously discussed both en route and stay at Alexandria Bay. These meetings, held between many pleasant outings resulted in the contracting for the sale of the entire amount of the 1917 slogan.

Discussions were held by the various department heads outlining the policy of Willys Overland Limited for the coming season. Immense enthusiasm was shown as this policy became clear to the dealers and with the preparations that had been made to assure its being carried out.

Enthusiasm was much increased by the showing of moving pictures of the Willys Overland Company's factory, the largest automobile plant in the world. There films took the observer through the entire plant showing the raw material being transformed into the finished product—Willys Knight and Overland cars. Following this was a lecture on the Knight motor, by H. H. Hower from the Willys Overland Company of Toledo. The exclusive manufacturing license for this already famous Knight sleeve valve motor is held by Willys Overland Limited.

The climax was reached just previous to the conclusion of the Convention when the dealers by an unanimous resolution sent a personal wire by Mr. T. A. Russell and Mr. F. J. Sleight to Mr. Willys the President of the Association expressing their enthusiastic sentiments as follows:

"At the conclusion of our three days Convention of the Canadian distributors and dealers the enthusiasm regarding the superior qualities of the new models of the Willys Knight and Overland Lines was so great that the dealers insisted by a unanimous standing vote that we send you personally a telegram to express how delighted they are with the features of the new sales, advertising and service program and to assure you of their determination to duplicate in Canada the wonderful growth you have had in the United States. So watch that we don't catch up to you!"
(Signed)
WILLYS OVERLAND LIMITED.
