Lloyd Richard, farmer
Lloyd Simeon, farmer
Mash Peter, farmer
Mylor Anthony, farmer
Perry James, school teacher
Vantlyke Adelong, farmer

HAMILTON—The "Ambitious City" is beautifully situated on the south-western curve of Burlington bay, township of Barton, county of Wentworth. It occupies a delightful position on a plateau of slightly elevated ground winding around the base of a mountain, and has superior facilities for becoming a large manufacturing city, being accessible from all points by railway and lake navigation, and being situated in the very centre of the finest grain-producing country in the Dominion. The Great Western railway and its branches, having an entire length of three hundred and fifty miles, soon to be increased by the building of the "loop line" from Canfield, on the line of the Grand Trunk Railway, to Glencoe, and passing through the most fertile and populous portions of Ontario, has done much to advance the prosperity of Hamilton. Here are located the chief offices, workshops, rolling mills, grain elevators, &c., connected with the company, in which hundreds of men find employment. The Great Western forms part of the great central route running from the Atlantic to the Pacific, comprising the Hudson river, Boston and Albany, New York Central, Great Western of Canada, and Michigan Central railroads, passing daily through Hamilton, and connecting at every important point with all other railway and steam navigation. The certain prospect of the early completion of the Wellington, Grey and Bruce railway to lake Huron and Georgian Bay, 18 miles of which is now in running order, and other portions under contract, will further tend to increase the mercantile and manufacturing establishments in the city, and add still more to its general prosperity. In addition to the extensive works of the Great Western railway, Hamilton boasts of other large manufactories which will bear favorable comparison with any in the Dominion. The streets of the city are generally laid out at right angles, running north and south from the bay, and crossed by others running east and west. The buildings are chiefly of stone and brick, many presenting an imposing appearance. The chief business streets are King, James, John, York, and McNab. The several banks have branches here, and these buildings, as well as the public buildings, churches, and many of the stores are handsome and costly structures. The city is well lighted with gas, has an excellent system of drainage, and possesses magnificent water works, the supply to the reservoir of which is brought from Lake Ontario, a distance of nine miles. On the rising ground approaching the mountain are a number of elegant residences, having tastefully ornamented and well laid out grounds. From the mountain itself, a magnificent view is to be had of the surrounding country. Burlington Bay is a large and beautiful basin of water, navigable in all parts within a few feet of the shore, and makes one of the safest and most commodious harbors on the lakes. Five miles from Hamilton, connected by rail, and by the Desjardins canal, is Dundas, a thriving manufacturing place, having the advantage of a stream which rushes with great impetuosity through its centre, working on its way numerous mills. Hamilton returns one member to the House of Commons and one to the Provincial Parliament. In summer daily lines of steamers and propellers ply between Hamilton, Toronto, Kingston, and Montreal, while at all seasons of the year there is direct communication with these cities by the Great Western and Grand Trunk railways. Montreal Telegraph Co. and Dominion Telegraph Co. have offices here. Distant from Niagara Falls Suspension bridge 43 miles, from St Catharines, the "Saratoga of Canada," 31 miles from London 76 miles, from Toronto 38 miles, from Montreal 371 miles, from New York 511 miles. Mail daily. Assessed value of real and personal property, 1870, $93,591.33. Population about 27,000.

INGERSOLL—An incorporated town on the River Thames, townships of North and West Oxford, county of Oxford. It contains two of the largest agricultural implement manufactories in the province of Ontario; the one owned by Messrs. Noxon Brothers, employing upwards of 100 hands, the other belonging to W. Eastwood & Co., employing upwards of 80 hands. There is also a large woollen mill owned by Messrs. Waterhouse & Bradbury, which employs 13 hands. This place is increasing very rapidly in population and importance. Wheat and other grain and sawn lumber form the trade of the town and the surrounding country, and are exported extensively. The manufacture of cheese is largely carried on. Considerable quantities of this article are shipped annually for the British markets. Ingersoll possesses many handsome public buildings, and the private residences display excellent taste. Montreal Telegraph Co. has an office here. This place is one of the chief stations of the Great Western railway, 4 passenger trains passing west and 5 east daily. Distant from London 19 miles, from Port Burwell, on Lake Erie, 32 miles, fare $1.75; from Paris 38 miles, from Niagara Falls 100 miles, from Toronto 140 miles. Mail daily. Population about 4500.

KINGSTON—The chief town of the county of Frontenac and the fifth city in the province, is pleasantly situated at the head of the Thousand Islands, River St Lawrence, where Lake Ontario, the last link of the chain of the inland seas of the west, together with the Bay of Quinté and the great Cataraqui creek, are united with the mighty channel which conveys and empties their waters into the Gulf of St Lawrence. It is one of the oldest settled localities in Ontario, and occupies the site of the old French fort of Fron-

* The post office is at King.

tenac, lat. 44° 8' N., lon. 78° 40' W., from Greenwich; was founded in 1784 and incorporated in 1838. As a place of defence it stands next in strength to Quebec. The batteries of Fort Henry are calculated for the reception of numerous cannon and mortars of the largest calibre. These, together with neighboring martello towers, form a formidable and efficient defence against any aggressive movement which might be directed against the city or neighboring country. Fort Henry has recently been transferred to the Canadian authorities, and is now occupied by volunteers. Opposite Kingston are Wolfe and Garden Islands, between which and the city lies the bay, a beautiful sheet o water forming a safe and commodious harbor for vessels of any draught. On the other side of the islands is Cape Vincent, in the State of New York. Steamers constantly ply between the city and this place connecting with the Rome and Watertown railway. Kingston possesses good wharves, and is in every respect well adapted for the large grain shipping trade carried on here. It has also the best facilities for building ships and steamboats. Locomotives, cars, steam engines, agricultural implements, stoves of every description, pianos and melodeons are manufactured in Kingston. The Canadian Engine and Machinery Co. is the largest manufacturing establishment in the city; it gives employment to 167 men, and manufactures locomotives and cars on the most approved principle. Besides it there are several large foundries, tanneries, breweries, &c. The Grand Trunk railway passes within two miles of the city hall, and is connected with the city by a branch line. Freight trains, however, only run on the latter. Direct water communication is had between Kingston and Ottawa, by means of the Rideau Canal, the entrance to which is here, with Montreal, Toronto, Rochester, Hamilton, and Niag ra Falls, and with Belleville and other ports on the Bay of Quinté. Adjacent to the city is Portsmouth, a flourishing village, where the Penitentiary and Lunatic asylum are located. Kingston possesses two colleges—Queen's and Regiopolis—and has several handsome public buildings, such as the courthouse, custom house, city hall, banks, post office, hospital and churches. It is the chief seat of two bishops—the Anglican bishop of Ontario and the R. catholic bishop of Kingston; and returns two members—one to the House of Commons and one to the Provincial Parliament. Montreal Telegraph Co. and Dominion Telegraph Co. have offices here. Distant from Ottawa 95 miles, from Toronto 161 miles, from Montreal 172 miles. Mail daily. Population about 15,000.
