BOLSHEVISTS CONTINUE IRRESISTIBLE ADVANCE

NOVOCHERKASK IS THE LATEST CITY TO FALL BEFORE BOLSHEVISTS

City of Novocherkask, which is the Principal Seat of the Don Cossack Region, was Captured by the Enemy After a Battle of the Most Severe Character With General Denekine's Troops.—Fall of the City and Also Rostov-on-the-Don was Predicted in Reports Received From Moscow Yesterday.

(Associated Press Despatch)
LONDON, Jan. 9.—The city of Novocherkask has been captured by the Bolsheviks, it is asserted in a wireless message from Moscow today. The city was taken on January 7, after a battle of the most severe character with General Denekine's troops.

Novocherkask is twenty miles northeast of Rostov, the principal seat of the Don Cossack region.

Moscow despatches yesterday declared that the Bolsheviks were continuing their irresistible march against Denekine and that the fall of both Novocherkask and Rostov-on-the-Don was expected shortly.

BOLSHEVISTS PLAN IMPORTANT MOVEMENTS IN DIRECTION OF INDIA—PROPAGANDA AGENTS BUSY

(Associated Press Despatch)
LONDON, Jan. 9.—Bokhara, the capital of the important Khanate of Bokhara, in Central Asia, and less than two hundred miles from the Afghanistan border, has been occupied by the Bolsheviks, according to reports reaching the War Office.

Further west the Soviet troops have occupied Krasnovodsk, on the eastern shore of the Caspian Sea, it is claimed in reports from Moscow.

Direct railway communication between Trans-Caspia and Europe, Russia has been secured by the Reds, who will be able to concentrate bodies of troops in Turkestan, with a view to carrying out possibly far-reaching plans westward towards the Caucasus region and southward towards Persia and Afghanistan, it is said. Bolshevik authorities have announced their intention to penetrate Persia by way of Khorassan as soon as they could secure control of the Caspian Sea, and recent reports have indicated that Soviet garrisons along the Khorassan frontier had been heavily reinforced.

The Bolsheviks have as their purpose an offensive against the British and plan important movements in the direction of India in conjunction with the Afghans and other people who might be influenced by Pan-Islamic aspirations, it is asserted. For this purpose swarms of propaganda agents are said to be undergoing intensive training and many have been sent to Persia and the Caucasus being provided with large supplies of forged English money.

It is reported fifteen hundred Soviet agents have gone into Persia from Georgian and Azerbaijan, and anti-Bolshevik authorities have taken steps to put a stop to this movement.

ESTHONIA WILL ASSIST GENERAL YUDENITCH

(Associated Press Despatch)
STOCKHOLM, Jan. 9.—(Russia)—Esthonia has acceded to the request for General Yudenitch for the transfer of the latter's army to the Southern Russian front, where it will reinforce General Denekine, according to a Helsinki despatch to the Tidningen. It is said Esthonia will assist in the transportation of the troops by water.

FACTORY WORKERS IN FRANCE TO BE ORGANIZED

PARIS, Jan. 9.—(Russia)—Plans for the reorganization of the French army, which will soon be laid before Parliament, will include preparations for the mobilization of factory workers at the same time that fighting units are called to the colors, according to La Victoire which quotes Under Secretary of State Henri Pate.

The programme contemplates the physical education of soldiers, simplification of military work, gathering of soldiers for short periods of instruction which would, in effect, be rehearsals of mobilization and the increasing of the number of officers and troops protecting the frontiers of France. It is said the probable length of the period of military service will be one year.

THE WEATHER

STRONG NORTHEAST WINDS WITH SNOW.

The disturbance which was north of the Gulf of Mexico yesterday is centered this morning south of Lake Erie. The weather is moderately cold in Ontario and Quebec and comparatively mild in the Western Provinces. Light local snow falls have occurred in Southwestern Ontario, Quebec and the Maritime Provinces.

Strong northeast winds with now, Saturday—Westerly winds, mostly cloudy and moderately cold.

ALD. EDWARDS CONSENTS TO STAND AGAIN

Numerously Signed Petition Presented to Him, with Address by Ex-Mayor Ernest Sylvestre.

An eloquent expression of appreciation for the work which Ald. J. K. Edwards has done for the city during his term of office, as representative of the Centre Ward, was coupled with the hope that he would consent to stand for that position again, was contained in a brief address by Ex-Mayor Ernest Sylvestre yesterday afternoon, when a large delegation called upon Ald. Edwards, to prevent a numerous signed petition, asking him to continue his duties.

Mr. Sylvestre dwelt upon the faithful attendance to his duties which had characterized Ald. Edwards' part in civic affairs. He had been reliable, disinterested and fair-minded, and it had been felt that such a man could not be spared from a responsible municipal position. The petition which was to be presented was signed by nearly two hundred prominent citizens.

Mr. J. S. Mitchell, who presented the petition, also spoke along the same lines, stating that it was remarkable that in circulating it, not one refusal had been made.

Ald. Edwards replied, thanking the delegates for their expression of appreciation, and as he knew it was sincere, he would be glad to consent to stand for re-election, and would continue his duties to the best of his ability.

Among those actually present at the presentation of the petition, were Messrs. H. Echenberg, J. Rosenbloom, J. H. Poupard, M. E. Woodard, W. Wiggitt, J. F. Kerr, Ernest Sylvestre, A. C. Skinner, C. O. Genest, W. V. Shaw, J. S. Mitchell and Arthur Chevalier.

Hon. Mr. Crerar Denounces The Present Tariff System And Opposes Any Naval Scheme Involving A Big Expenditure

Former Minister of Agriculture Said He Had Little Doubt That There Would Be A Good Representation of Farmers in the Next Parliament—Advises Federal Government to Remove All Restrictions on Personal Liberties and Restore All Liberties Enjoyed Before the War.

B. RANDON, Man., Jan. 9.—"The only way to escape the vast financial burdens which rest on us is by the practice of drastic taxation and rigid economy," said Hon. Mr. Crerar, former minister of agriculture for the Dominion, in addressing the convention of United Farmers of Manitoba here yesterday.

He urged the importance of the supremacy of Parliament over Cabinet, and advised the Federal Government to remove all restrictions on personal liberties and restore all the liberties enjoyed before the war.

Mr. Crerar said he had little doubt that there would be a good representation of farmers in the next Parliament, and he would like to see fifteen or twenty of them there too. The farmers would meet heavy opposition, since special privilege died hard. Mr. Crerar expressed his belief in the principle of direct taxation, and denounced the existing tariff system.

"I am," he continued, "unalterably opposed to the building up of any spirit of militarism in Canada."

"There are some in Canada who would tie this country up to a military system. I am not prepared to say what our naval system should be, but I am unalterably opposed to any naval scheme which involves an initial expenditure of fifty or sixty million dollars, and then millions annually for maintenance."

He thought, after thorough discussion, the sober sense of the Canadian people would be against an extensive military and naval organization.

"This country should not be committed," continued Mr. Crerar, "to any form of Imperial parliament or cabinet, or council, without the fullest and freest discussion by the Canadian people."

LEG. BROKEN IN PULLEY BELT.

Caught in a pulley belt which he was adjusting, Leonard Conway, an employee of the Brompton Pulp and Paper Company at East Angus, had his leg broken yesterday afternoon.

He was attempting to lift the belt into position when in some way he became tangled up in it, and he suffered a fracture of the right leg just above the knee.

He was attempting to lift the belt when it broke, and he was transported to the St. Vincent de Paul Hospital by Lord's ambulance.

WILSON WOULD MAKE LEAGUE ELECTION ISSUE

(Associated Press Despatch)
WASHINGTON, Jan. 9.—In messages to Jackson Day dinners last night, President Wilson and W. J. Bryan, split definitely on the League of Nations question.

The president says that to ascertain the will of the American people, it should be made a direct issue at the next Presidential election. Bryan says that the Democrats cannot make it an issue.

Bryan also states that he was not a candidate for election, and so might be listened to more seriously.

ITALY WILL AGREE TO ANGLO-FRENCH SOLUTION OF TURKISH QUESTION

PARIS, Jan. 9.—(Havas)—Italy will adhere to the Anglo-French solution of the Turkish question, according to newspaper despatches received here.

It is said that reports of the conference held in London by Premier Nitti and Premier Lloyd George have been examined at Rome by the Council of Ministers.

REVOLUTIONARY MOVEMENT IN BULGARIA IS SPREADING AMONG PEASANTS AND WORKINGMEN

(Associated Press Despatch)

GENEVA, Jan. 9.—The revolutionary movement in Bulgaria is spreading among peasants and workingmen, according to Belgrade advices received here. Another important railroad bridge has been blown up by strikers, it is alleged.

King Boris and the Royal Family are said to be secluded in the palace, which is under a heavy guard.

The French Foreign Office, which is in constant touch with the Balkan situation, has not as yet received confirmation of alarming reports relative to the spread of a revolutionary movement in that country, according to a Paris report.

DISMISSAL OF SIR JOSEPH BYRNE AS INSPECTOR OF ROYAL IRISH CONSTABULARY A BIG SURPRISE

Irish Unionists Declare that Premier Lloyd George's Irish Proposals, Instead of Bringing Peace and Contentment to Ireland, Would Still Further Embitter the Present Difficulties Between Various Sections of the Irish People and Put a Dangerous Weapon Into the Hands of the Declared Enemies of the Empire.

(Associated Press Despatch)
LONDON, Jan. 9.—In a resolution declaring that Premier Lloyd George had made an honest endeavor to settle the Irish problem on fair and reasonable lines, the executive of the Irish Unionists declared it feels bound to inform him that his proposals, instead of bringing peace and contentment to Ireland, would simply still further accentuate and embitter the present difficulties between various sections of the Irish people and put a dangerous weapon into the hands of the declared enemies of the Empire.

The resolution further declared that the proposals were condemned by every party and creed in Ireland, and asserts the present unhappy state of the country is simply the natural result of many years of misadministration, and finally announced that the Union form of Government is the only one under which Ireland can be saved from civil war and anarchy.

Nevertheless, it may be recorded that in other quarters there is at least appreciation of the fact that to admit as once an utterly non possumus attitude would gravely compromise the credit of any disputants. There seems at any rate readiness to wait until the bill is in print before condemning the proposals out of hand.

Father Lawless, Dundalk writes to the Dublin Evening Telegraph that "the constant stream of insult poured upon the Premier and, indeed, upon the whole people of Great Britain, indicates neither sanity nor a generous heart in Ireland. Lifelong foes of Home Rule may get off scot free, while the hate of all Ireland is concentrated on the one statesman, capable and wishful of settling the Irish cause. After forty years of disappointment let Irishmen grasp the present chance of making a beginning of self government, if we do really believe in Home Rule at all."

Enquiries among other Irishmen show that while keenly alive to the subtleties of the question, they are not eager adherents of any particular school of opinion. They do, however, reveal impatience with others who profess themselves ready to reject the present offers forthwith. It does seem as though there was an idea among a considerable lot, but almost voiceless section of Ireland, that in the present proposals there is an opportunity of eventually merging out a settlement. Many for instance, believe it an appreciable advance that affairs of purely Irish local self-government should be removed from Westminster.

Meanwhile there comes the news today that the Irish Government has dismissed General Sir Joseph Byrne as Inspector-General of the Royal Irish Constabulary. Some reports indeed say that he has been summarily dismissed. Byrne is an Irishman and a Catholic, and it seems his dismissal comes as a complete surprise to himself. The Times, in a lengthy editorial, says such a dismissal of one of the most important officials at the present grave juncture of Irish affairs, demands the most ample justification.

The Westminster Gazette says that if the general impression of the grounds of dismissal is correct, the step taken by the Government is ominous of further trouble. "Journals which have always represented the Unionists view in Ireland," adds the Westminster Gazette, "are agreed that the dismissal of Byrne is in the nature of a calamity and it is difficult to take any other view."

NINE MILLION AND A HALF BANK CLEARINGS FOR LAST WEEK.

Bank clearings for last week reached a new high level, according to the report of the Sherbrooke Clearing House, which gives the total for the fiscal week ending yesterday, as \$1,560,995.39, an increase of \$348,411.34 over the figure of \$1,212,584.05 for the corresponding week of last year.

In 1917, the total was \$22,032.42.

SIXTEEN CENTS MAXIMUM PRICE FOR SUGAR, FIXED BY BOARD OF COMMERCE

(Associated Press Despatch)
OTTAWA, Jan. 9.—The Dominion Board of Commerce has rescinded the order limiting sugar profits, and has issued a new order, fixing the maximum retail sugar price at sixteen cents per pound.

SAYS FARMERS ARE BEING DEFRAUDED.

Arthur Sauve, leader of the opposition in the Legislative Assembly, yesterday urged the Government to institute an inquiry before the Committee of Agriculture into the activities of the "Chambre de Commerce des Cultivateurs," which, he alleges, has defrauded farmers in this Province out of Sums Aggregating \$300,000.

(Associated Press Despatch)
QUEBEC, Jan. 9.—In the Legislature yesterday, Hon. Athanase David, provincial secretary, brought in a bill dealing with juvenile delinquents. It is of far-reaching importance. The main effect of the bill is that it will no longer be possible, if such has been the case, for reformatory labor to be exploited for the benefit of manufacturers or of reformatory authorities. Young delinquents after serving their term will have some money on which to start in the world. At the same time the Government's budget for the upkeep of these schools will not be so heavy. A boy's work is to go first to the payment of his upkeep, and secondly for himself when he leaves the institution.

The Legislative Assembly will have a debate on labor matters this session. Mr. A. Lacombe, labor member for Dorion, has given notice that he will call for copies of all correspondence between the Government and labor unions with respect to changes in the law relating to accidents as to amount of wages paid to workmen.

EAST ANGUS

Mrs. Martyn and her brother, Mr. H. C. Armstrong, both of East Angus, received the sad news of the death of their oldest brother, George Richard Armstrong, of Worcester, N.Y., on Wednesday. Mr. Armstrong had been poorly for some time, and had been taking treatment at St. Albany Hospital, N.Y., and the last report was that he was gaining, but on Sunday last he took to his bed and gradually grew worse until the end came.

The annual meeting of the Ladies' Guild of Christ Church took place on Wednesday afternoon at Mrs. Stoddart's home. Mrs. Banfill read the an-

nual report, which showed an expenditure for the current year of over \$700 and a small balance in hand. Through the energy of the Guild, the Parish Hall built eight years ago, has been freed from all encumbrance, and lately a sum of \$400 spent on the Parsonage, which has been equipped with a powerful furnace and renovated throughout. A vote of appreciation was passed to the retiring officers, Mrs. Stoddart and Mrs. Montgomery, who have been untiring in their devoted work. In the election of officers for the coming year the following appointments were made: President, Mrs. Warner; vice-presidents, Mrs. Muir and Mrs. Oakley; secretary, Mrs. Banfill. Mrs. Stoddart served a dainty tea to the Guild.

The Junior Guild held a Twelfth Night party at the Parsonage and report plenty of fun. The Misses Neil

and Gray served supper.

School opened on Monday with two teachers away through illness, the Principal (Miss Black) being unable to leave her home at St. Johns, Que., till next week.

On Tuesday next, war pictures will be shown at the Parish Hall at 8 p.m. "Fire and Sword in Belgium." Popular prices. Proceeds for Sunday School.

Next Sunday morning in the Methodist Sunday School the Knights of Honor will have an open Sunday when questions will be asked and answered. All young men not attending a class are invited.

The Rev. F. J. Hayden will preach both morning and evening next in the Methodist Church. In the morning the subject will be "Weaving the web of Life." In the evening, the study of a great book, Robert Browning's "SAUL," or "The Downfall of a Great King and Soul." All are invited.

Rev. F. J. Hayden preached at Bury on Monday evening last. A good audience was in attendance.

The Methodist Week of Prayer commences next Monday night at Mrs. J. A. Planché's. It is hoped there will be a large attendance.

On Monday, January 19th a Union service between the Anglicans and Methodists will be held in the Parish Hall.

MOTHER OF 14;
SAYS LIFE WAS
A BURDEN TO HER

Had Long, Hard Struggle with Ill Health, But is Like Different Person Now

"I have had a long, hard struggle with ill health, but by the help of Tanlac I am getting rid of my troubles at last."

Mrs. Johnnie Clavet, who made the above statement, is the proud mother of fourteen children. She resides at 1179 Saint Catherine East and her many friends will be glad to learn of her wonderful improvement.

"I have been almost a constant sufferer from indigestion, constipation, headaches and rheumatism, for the past eight years," continued Mrs. Clavet, "and Tanlac is the first medicine I have found during all that time that did me any real good."

"I had no appetite whatever and what little I did manage to eat caused pains in all my body. My food would invariably sour and the gas formed by it almost suffocated me at times. I had rheumatism in my elbows, knees and ankles, in fact, everywhere there is a joint in my limbs, and I was often in the worst of agony with pain. When these attacks of rheumatism came on me, which was almost every week, I had to stay in bed for two or three days all covered with mustard plasters and suffering the worst of pain. I was often almost frantic with headache and was so nervous that a mere trifle or the least noise would completely upset me. I had been under treatment and tried all the drugs without the slightest relief and life, in such a state of health, was a burden to me."

"But now I am feeling like a different person from what I did three weeks ago and I am just so glad to see how perfectly my health is being restored that I want to tell everybody about Tanlac. I also feel very grateful to others who allowed the news of their recovery published for that is how I came to know about Tanlac. I now have a splendid appetite and my food seems to digest perfectly for the gas and pains have disappeared from my stomach entirely. I am no longer constipated and as for the rheumatism, I believe it is gone for good as it troubles me no longer. I am also mastering my nerves and the headaches have been broken up. Tanlac is, indeed, a wonderful medicine and my daughter and sister are now taking it with splendid results. I am glad to recommend Tanlac for it is one medicine that should be in every household. I will never cease praising it for what it has done and is still doing for me."

Tanlac is sold in Sherbrooke by Griffith's Drug Store and A. E. Duberger under the personal direction of a special Tanlac representative. (Adv.)

Mr. and Mrs. J. B. Ledoux have been entertaining relatives from Sherbrooke at their home on Massawippi street.

Word has been received from Mr. Roy F. Woodward, of this place, that while engaged in the performance of his duties at the North Station, Boston, Mass., a heavy trunk fell from a truck, striking his side and inflicting a painful injury.

"A new germ has been discovered which makes it almost impossible for people to talk."

"You don't say so!" exclaimed Mr. Meekton. "Where do you buy it?"—Washington Star.

A TRESS TELLS SECRET

Tells How to Darken Gray Hair with a Home Made Mixture.

Joicy Williams, the well known American actress, who was recently playing at the Imperial Theatre in St. Louis, made the following statement about gray hair and how to darken it.

"Anyone can prepare a simple mixture at home, that will darken gray streaked or faded hair, and make it soft and glossy. To a half pint of water add 1 ounce of bay rum, a small box of Orlex Compound, and ¼ ounce of glycerine. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray haired person look 20 years younger. It does not color the scalp, is not sticky or greasy and does not rub off."

TWO COUNCILS HELD MEETINGS AT DUNHAM**Routine Business Dealt with at Sessions of Township and Village Bodies—General News.**

(Special to The Record.)

DUNHAM, Jan. 9.—On Monday last was held the regular session of the township council, there being present Mayor Jas. A. Miller and Councillors W. J. Millamore, G. H. Garrick, Jos. Boucher and P. Noisieux.

Mr. Homer Royeston appeared in connection with damages sustained to a horse on the evening of December 18 while driving home from Dunham, at a point near the residence of B. Lafamme. The council heard the complaint and decided, after hearing several witnesses, that the case was one that should not be paid by the municipality.

The bill of Mr. Guillette, which was laid over at the last regular session of the council, was brought to the attention of the board, and on the motion of Councillor G. H. Garrick, seconded by Councillor Noisieux, was placed in the hands of Councillor W. P. Millmore for settlement.

A bill of \$42 in connection with the burial of Mrs. David Jones was brought before the board and ordered paid. Various bills were received and ordered paid, and other general routine business was carried out.

On the evening of January 5 the village council had its regular session. Those present were Mayor M. Curley, Councillors A. E. Brown, A. E. Selby and Councillor Beauvais.

There was only the general routine business carried on, and bills to the amount of \$290 were received and ordered paid.

General Notes.

Mr. McKay, of the road department, visited the township of Dunham on January 7, and took away samples of gravel in connection with the La-Collie-Knowlton road.

Mr. and Mrs. Carlton and son Russell returned from Montreal on Tuesday evening.

Miss Alice O'Brien, a former resident of Dunham, died at the age of 71, at the home of her sister, Mrs. Marshall, in Hardwick, Vt. The body was brought to Dunham for burial.

The funeral service, which was conducted by Rev. M. Coffin, took place in All Saints' Church on Tuesday at 10.30 a.m. The mourners from out of town were her sister and husband, Mr. and Mrs. Marshall, of Hardwick, Vt.; a brother, Mr. Will O'Brien, and wife, of Swanton, Vt., and three daughters, Beatrice, of Swanton, Vt., and Muriel and Alice, of Montreal; Mr. and Mrs. Alice Burnett, of Brighams; Mr. and Mrs. Westover, of Abbott's Corner; Mr. and Mrs. Manson, of Iron Hill; Mr. John Doherty and Mr. Heatherington, of Cowansville.

Mrs. Dudley Carlton was at Mr. Will Watson's on Wednesday.

Another Epidemic OF THE SPANISH INFLUENZA

A great many authorities have predicted a return of that terrible plague which swept Canada from one end to the other not long ago and left so many deaths in its wake, and those who did survive were left in a great many cases with some serious after effect such as weak heart, shattered nerves, impoverished blood and a general weakened and exhausted condition of the system.

If you are run down, heart not just right, nerves a little shaky, take a few boxes of Milburn's Heart and Nerve Pills and fortify your system against this terrible plague.

If you had the "Flu" before and it left you with any bad after effect Milburn's Heart and Nerve Pills will bring you back to health and strength.

Mrs. C. C. Palmer, Keppel, Sask., writes:—"I wish to inform you of the great good Milburn's Heart and Nerve Pills did for me. After a bad attack of the Spanish influenza my heart and nerves were left in a very bad condition. I got two boxes of your pills and must say they are the best I ever used, and I have taken a great many different kinds. I will always keep Heart and Nerve Pills in the house."

GOOD ATTENDANCE AT HOME- MAKERS MEETING.

The members of the Homemakers' Club enjoyed a pleasant afternoon at the home of Mrs. Austin Cote yesterday, when the regular business was transacted and an interesting address was given by Mr. F. Ritchie, of the Experimental Farm.

The President, Mrs. Armitage, gave notice that the annual convention of the Social Service Committee was to be held in Montreal on January 27th, and as a request had been made to have a delegate represent the club, it was decided to send on delegate and the club would bear the expenses.

Ten dollars for prizes at the Seed Fair competition on February 12th, was voted, for any girl under sixteen years, for the best layer cake. The members will also compete in bread and cake making.

At the close of the business ses-
sion, Mr. Ritchie came in and gave an excellent address on "Our duty as citizens for the New Year." Mr. Ritchie's address was a summary of practical ideas given in a way that made his audience realize how much there is for everyone to do in order to be real citizens. He said in part: "We all make good resolutions at the New Year, but they usually fall through. Nevertheless by making them we recognize the fact that they are needed in doing our duty to self, our fellow men, and to God. In regard to self, it behooves us to better conditions in which we live and thereby better others, while our duty to boys and girls means that parents have a large responsibility in development of character. Right and virtue should ever be in mind."

He explained that our duty to our fellowmen and community includes education, business, social and political relations, and when duty calls we must answer. Interest in organiza-
tions, and attendance at meetings, instead of leaving it to a certain few always tends to uplift, and should be included in the regular duties of a live citizen.

In referring to our community, Mr. Ritchie quoted Carlyle who said, "do the duty nearest you," and regarding patriotism he said that influence for betterment was within our grasp, and a clear policy could not but help to train the mind so each will follow his or her ideals in this characteris-
tic as well as in a political sense. As an example of this the speaker referred to our neighbors across the line who he said had recognized their duties, and have been actors in making their influence felt.

"Some of our greatest duties are in our homes, and to fulfill these we must practice truth and friendship, and from there it will radiate to wider spheres," concluded Mr. Ritchie, who was accorded a hearty vote of thanks for his practical address.

At the tea hour refreshments were served by the hostess, and it was decided to meet at the home of Mrs. Trenholme, Church street the first Thursday in February.

Fairbairn, General Passenger Agent, Canadian National Railways, and J.F. Pierce, Assistant Traffic Manager, Canada Steamship Lines, Ltd., were elected as an Executive Committee, and Mr. G. H. Webster was elected Secretary.

BOARD OF TRADE SEEKS PUBLI- CITY SECRETARY.

A meeting of the Council of the Board of Trade was held yesterday afternoon, to consider the question of a secretary of the Board, Mr. Leonidas Bachand having resigned.

It was decided to advertise for ap-
plications, with a view of securing a man qualified in publicity work, who would be able to take charge of the promotional work of the Board, seeking to make Sherbrooke's advantages more widely known.

"THE CASE OF LADY CAMBER" A PLAY OF NOTE TO BE GIVEN, AT HIS MAJESTY'S.

"The Case of Lady Camber," the four act play by H. A. Vachell, which the Court Players of Montreal will present tomorrow afternoon and evening, at His Majesty's Theatre, is a play that should appeal to every lover of the theatre, as it contains a clever and well sustained plot that holds the attention of the audience to the final curtain fall. There is also a sufficient amount of humour to lighten the more dramatic develop-
ments, which centre round a medicine cabinet in a nursing home to which only the doctor and the nurse have the key.

Lady Camber is a patient in the home under the care of Harley Napier, M.R.C.P., and Nurse Yorke. Lord Camber and Miss Yorke had been friends years before and Camber still loves the girl and renews his atten-
tions when he discovers her in the home. His wife's jealousy is aroused, and she receives a shock which undoes the work of the doctor. An injection of strychnine is ordered by the doctor and prepared by the nurse, but its failure to stimulate leads to suspicion of the nurse having administered a narcotic instead, a discovery of the doctor's, of which she knew the secret.

How the mystery of Lady Camber's death is solved, can be ascertained by best witnessing the performance. The parts are all said to be in capable hands.

Miss Minnie Norris, formerly of Capleton, and now of St. Lambert, has returned home, after spending the holidays with friends at Capleton and Sherbrooke.

Miss Alice Fenwick, of Calgary, who has been visiting relatives and friends in town left yesterday for Toronto, where she will spend a week before returning to her home.

The Bridge and "500" party takes place in the G.W.V.A. Rooms, Tuesday, January 13th, in the afternoon at 3 o'clock, and in the evening at 8 o'clock. Ladies having tables are asked to bring cards, scores and table cloth.

Miss Alice E. Wilson, who has been spending the holidays with her parents, Mr. and Mrs. F. B. Wilson, Dominion Avenue, has returned to the Royal Victoria College, Montreal, to continue her studies at McGill University.

Mrs. William Wright, "Grand View," East Sherbrooke, entertained on Wednesday, at a pleasant little party in honor of her young daughter, Miss Bertha Wright, who was celebrating her fourteenth birthday and Miss Irene Wright. About sixteen school friends and playmates of the little girls assembled, and spent the early hours in skating on the private rink near the house. High tea, with a delectable birthday cake, was served by Mrs. Wright, and heartily appreciated by the guests, whose youthful appetites were sharpened by the keen air and exercise, and after the meal, a couple of hours were spent in amusing games. The young hostess received many pretty gifts, and good wishes on her birthday.

The Young Peoples' Society of the Brompton Road enjoyed a drive to the home of Mr. and Mrs. Nathan Varney, East Sherbrooke, Wednesday evening, the outing being most successfully arranged. The thirty-five young people assembled at "Willow Retreat," the home of Mr. and Mrs. Ernest Hatch, and some were comfortably packed up in two huge sleighs, furnished by Mr. Hatch and Mr. W. Seaward, accompanied by Mrs. Seaward and Mrs. Hatch, the party drove along the quiet country road, with songs and laughter, and soon arrived at their destination. After a warm welcome, a couple of hours passed quickly in games, music, etc., and acceptable refreshments were provided by Mrs. Varney. Shortly after, with many thanks to their host and hostess, the homeward way was taken.

MARRIAGES

DYER—TRIPLEHORN.

SUTTON, QUE., Jan. 9.—An event of unusual interest to members of the younger set of Chatham and Detroit was the marriage which took place at Detroit on New Year's Day at the town home of Mr. and Mrs. George Henry Triplehorn, of their second daughter Pauline Eugenia, to George Edward Dyer, of London, son of Mr. and Mrs. V. N. Dyer, of Ingersoll, formerly of Sutton, Que.

The ceremony was solemnized by the Rev. C. F. Patterson, pastor First Universalist Church, Detroit. The house was artistically set with seasonal floral decorations and promptly at noon the bridal party entered the drawing-room to the strains of Mendelssohn's wedding march, played by Mrs. W. G. Ryan. The bride wore a gown of silver georgette over satin and carried a shawl bouquet of bride roses. Her bridesmaid, Miss Violet Clements, of Chatham, wore a frock of white tulle with cordage of violets and roses. The groom was supported by his brother, John P. Dyer. Only relatives and a few intimate friends were present. Immediately following the ceremony a dainty wedding breakfast was served, and soon afterwards Mr. and Mrs. Dyer left on the Montreal express for a short trip east, after which they will open their new home at London.

C.N.R. EMPLOYEES CRITICIZED BY STOCK BREEDERS

Maritime Association Complains Regarding Manner Live Stock Was Handled at Time of Winter Fair at Amherst.

(Associated Press Despatch)
TRURO, Jan. 9.—Strong denunciation of the way the Canadian National Railways handled certain live stock last month at the time of the winter fair at Amherst was the feature of the annual meeting of the Maritime Stock Breeders' Association, held at the College of Agriculture yesterday afternoon. Stanley Logan, of Amherst, at the invitation of the president, A. E. Trites (of Salisbury, dealt exhaustively with the matter, and those who joined in the discussion included Hon. W. M. Lee, minister of agriculture for Prince Edward Island; James Roper, of Roper Bros., Charlottetown, and Fred Fuller, of Truro, secretary of the Stock Breeders' Association. Mr. Devonish, superintendent for the Moncton district of the Canadian National Railways, was present, and made a lengthy reply to the criticisms.

The following resolution was passed unanimously on motion of S. A. Logan and Hon. W. M. Lee: "Whereas exhibitors at our Maritime shows have repeatedly suffered loss and inconvenience, due to negligence and indifference of officials and employees of the railways, and 'Whereas they have repeatedly fallen down on promises and assurances given over and over again, 'Whereas breeders of valuable high-class stock cannot afford further the risk and danger of injury and damage occasioned by such treatment, 'Therefore resolved that we, the members of the Maritime Stock Breeders' Association, now assembled in annual session, protest emphatically against such treatments; and 'Further resolved that unless we have a guarantee against all financial loss and injury, due to such mismanagement, we will appeal to the press, the public and Allied Farmers' Associations to assist in securing justice."

BISHOP GAUTHIER SPEAKS ON LAVAL COLLEGE CAMPAIGN

Address Given at St. Charles Seminary in Connection with Appeal.

Mgr. George Gauthier, auxiliary bishop of Montreal, was in town yesterday, and spoke at St. Charles Seminary last evening in the interests of the University of Montreal, until recently a branch of Laval University of Montreal, but now entirely separated. The large hall was crowded, those present including Mgr. Paul Larocque, the clergy of the palace, and the city, the professors of the college, the senior students, and all the leading French laymen of the city.

Mr. Ernest Sylvestre, N.P., acted as chairman, and introduced the speaker, who was received with prolonged applause. Mgr. Gauthier is a brilliant orator, and his fine voice, polished language, and easy flow of words, interspersed with apposite illustrations, would render any subject interesting.

The whole question of the support and upholding of the great French institution of learning, famous for so many years, was laid before the audience with clearness and power. The speaker pointed out the benefit conferred by the university upon the youth of French Canada, and referred to those who, after studying within its walls and taking their degree, had brought honor upon their Alma Mater. At the University of Montreal the French language was preserved in its pristine purity, and the Catholic religion upheld and strengthened, while that knowledge which is power, was attained by its students. Now the university needed help. It had suffered a great disaster. Its handsome old buildings had been destroyed by fire, and must be replaced by more modern structures. In addition, laboratories and much other equipment would be required. New chairs must also be endowed in order to keep pace with other universities, and for all this a large sum of money must be raised and a campaign organized. Mgr. Gauthier made a stirring appeal to the French population of the city and the Townships to rise to the occasion and do their part.

The chairman thanked Mgr. Gauthier on behalf of the audience for his excellent address.

The choir of the cathedral rendered two selections during the evening, and at the close of the evening sang "O Canada," the audience joining heartily.

SOLDIERS' SETTLEMENT IN THE TOWNSHIPS.

A press despatch from Ottawa relative to Soldiers' Land Settlement work states: "It is feared that the high prices at which land is being held in the Townships will diminish the activities of the Board in that district in the future."

Whether this news item is a forerunner to a gradual closing down of operations in the Townships will be revealed as time goes by.

It is true farms are bringing fairly high prices in the Townships but if, under present agricultural conditions, such was not the case the situation would not be one to attract either soldier or civilian interested in prosperous agriculture.

The difficulty in the Townships with regard to Soldiers' Settlement work does not arise from a lack of value in well selected farms but from an error in policy inaugurated early in the season by the Ottawa authorities with regard to the purchase of farms in this territory resulting in some soldiers taking up land at excessive prices. The keynote to the whole thing, after the qualification of the soldier has been determined, is the proper appraisal of the farm by the man who goes out into the country to examine it on behalf of the soldier, and whose report forms the basis of action by the Loan Board meeting in the Sherbrooke office. If he is not a bargainer and keenly alive to the soldier's interest and ready to fight for a rock-bottom price as he would if he were buying for himself the soldier loses and that is what has happened in some cases.

These do not justify an abandonment of the work here on the ground that farm prices are too high. They call for more careful buying. They call for a determination that the men who go out to do this field work and examine these farms for the soldiers shall be qualified for their undertaking.

The Loan Board sitting in the office at Sherbrooke, upon whom the responsibility of recommending the loan falls, cannot fully protect the soldier otherwise.

There is no part of Canada where agriculture is more steadily prosperous than here. Farm values have advanced but good farms are available throughout Southern Quebec at prices to assure success to a qualified farmer. There is no call for a discontinuance of Soldiers' Settlement work in the Townships. Agriculture in this territory will continue to offer unsurpassed opportunities for the returned soldier who is qualified for efficient farming.

THE CANTEN FUND.

About two million dollars was the Dominion's share of the canteen fund, which represents Canada's share of the war canteen profits. About twenty thousand pounds of this money was held in England, for the use of overseas soldiers, out of work. It is the desire of those interested in the soldiers' welfare to repatriate those soldiers who are down on their luck, and would like to come home.

There is no means of getting the soldiers home except by using this money, as the Canadian Government is not moving in their behalf, and apparently does not intend to help them. But Sir George Perley is wholly decided as to whether the money ought to be used for this purpose.

Why the Canadian Government persists in ignoring the need of Canadian soldiers overseas must be answered by some one wiser than the public and the soldiers. Though this lack of interest is becoming a scandal, no move is made, and assistance is refused. Sir George Perley, with enough of the soldiers' own canteen fund to give them a lift, is not sure as to the fine points of his case, and sits tight.

REBUILDING EUROPE.

The position of Great Britain in regard to meeting the situation in Central Europe, where lack of funds, and lack of food, is causing critical concern, has been stated by Sir George Paish. Great Britain has loaned to the extent of her ability, to the Allies. They are already in her debt to the sum of eight and a half billion. The need of Central Europe must be met by the country that most easily can shoulder the burden, and this country is the United States.

That Sir George Paish was in America to raise a loan of thirteen billions to Great Britain, was the statement made by the Hearst papers in the United States. The Wall Street Journal has denied this, calling it a fabrication to influence the anti-French element in that country. Sir George Paish comes out on no such

PRESS COMMENT

CANADA'S IMMIGRATION POLICY.

(Farmer's Sun.)

In framing an after-the-war immigration policy the main point to be kept in mind is the sort of immigration this country is in need of and the sort it is better without. Two classes of immigrants are needed—those who are prepared to take off their coats and engage in manual labor, and those with capital, knowledge and enterprise who are capable of assisting in developing our natural resources. Of idlers who come here to live in genteel poverty on capital already accumulated we have no need; of those who are looking for easy jobs at big pay we have still less need.

Even in the case of migration from the British Isles there is call for intelligent supervision. As is pointed out in a special article in this issue by a returned Canadian soldier there are two classes in Britain with eyes turned in this direction. One class is made up of those who have been led to the belief that Canada is a country in which riches are to be obtained without labor; the other is the breed of those who came here in the first half of the last century and hewed homes out of the wilderness. Of the first class we have too many now; of the latter we cannot secure enough.

CANADA'S NEW TRADING POSTS.

(Christian Science Monitor.)
Judging by the plans of those who conduct the Canadian trade with the Arctic wilderness, their business conviction is strong that their Indian and Eskimo customers will be feeling unusually prosperous when the next trading season begins. A number of new trading posts will be established, and the northern traders, looking forward to prospective business with the dwellers in the wilderness country of Athabasca and Mackenzie River basin, are reported to be laying in heavy stocks of merchandise. New steamers will be in commission to help in transporting merchandise to the northern posts. The trade is changing. It used to be conducted wholly on a system of barter, but the plan is now being adopted of paying money and receiving money. Business is an Arctic post, at times, tends to become a matter-of-fact as business in a city department store.

"LABOR JOYOUSLY PERFORMED."

(Toronto Globe.)
It has remained for M. Brioux of the French Academy to put into a few sentences the lesson the world has been slow to learn since the awakening from the nightmare of war. He says:—

"The year 1920 must be a return to a normal life, bearing the fruits of labor joyously performed. For four years all activity was consecrated to war. For one year all activity has been sacrificed to feasting. It is time to take a new path. Fortunately we can see in the new dawn consoling signs which justify fond hopes for the morning."

These words have their lesson for every country that has passed through the ordeal of war. It cannot be too strongly emphasized or reiterated. It applies to every class of all communities, without distinction of rank or material condition. That is a truth not always applied to himself by the man who would have no hesitancy about urging it upon others. The manual worker and laborer is prone to feel that there is too pronounced a tendency to preach industry and production to him by those whose hands are not soiled by physical toil. The planner and brain worker considers that he is expected to devise too much without the materials essential to the realization of the plans he conceives. There is often a lack of the sympathetic understanding and hearty co-operation vital to the attainment of the greatest good for all. Wherever these qualities of heart and mind are co-ordinated to the work in hand success is a reward.

THE WIND AT THE DOOR.

(William Barne.)

As daylight darkened in the dewless grass,

There still, with no one come by me,

To stay while at home by me,

Within the house, now dumb by me,

I sat me still as eveningtide did pass.

And there a windblast shook the rattling door,

And seemed, as wind did moan without,

As if my love alone without,

And standing on the stone without,

Had there come back with happiness once more.

I went to-door, and out from trees, above

My head, upon the blast by me,

Sweet blossoms there were cast by me,

As if my love had passed by me,

And flung them down, a token of her love.

Sweet blossoms of the tree where now I mourn,

I thought, if you did blow for her,

For apples that should grow for her,

And fall red-ripe below for her.

Oh! then how happy I should see you kern.

But no, too soon my fond illusion broke,

No comely soul in white like her,

No fair one, tripping light like her,

No wife of comely height like her,

Went by, but all my grief again awoke.

errand. But he is explaining that the conditions in Europe require a larger remedy than British can supply.

The first loan to aid European reconstruction has already been made by the American government. Four loans, aggregating seventeen millions, have been made by the War Finance Corporation to manufacturing exporters. This loan will enable the manufacturers to make and ship locomotives, agricultural machinery, electrical machinery and steel mill machinery, to France, Belgium, Poland and England.

LETTERS TO THE EDITOR

ANSWER TO MAC.

Editor of Record:
Sir,—In Tuesday's Record I see a sort of reply to Mr. Irwin Sawdon's article. Mac says he read it very carefully. I think if he had read it more carefully it might have done him some good. He is not taking much notice of the world in general or he would see that it is not going on the same as ever, and some great change will have to take place in the hearts of the people soon, or what good will come of that sacrifice our dear ones made out on the battlefields for us. It seems as though they are all forgotten so soon. Shame on Mac and all who can think of their pretty enjoyment instead of trying to be up and doing all the good they can with the time and money spent on such worthless things. The world would be a better place and the real joy of life would begin. I think Mac is altogether on the wrong path with his reply, and that he would be far happier if he did not bother about these selfish pleasures.

Yours,
A. ALLERTON.

ST. PAUL'S GUILD AT BURY ELECT THEIR OFFICERS

Excellent Reports Were Presented for the Past Year—Financial Statement Shows Balance on Hand.

BURY, Que., Jan. 9.—The annual meeting of the St. Paul's Guild was held at the residence of Mrs. A. Byron Hunt on Wednesday. The afternoon was devoted entirely to business matters. An excellent financial report was presented by the auditor, showing a balance on hand after discharging all debts, of \$343.96. The two treasurers, Mrs. Fred Morrill and Mrs. Geo. McClintock, received a hearty vote of thanks for their work, as did also the presidents, vice-presidents and the secretary.

Mrs. Isaac Goodenough asked to be allowed to resign, but was re-elected unanimously with enthusiasm by the members of St. Paul's Guild.

Mrs. Lewis was re-elected first vice-president and Mrs. Chas. Goodenough second vice-president, both officers being elected unanimously.

The treasurers and secretary asked to be relieved of their office. Mrs. George Hamilton was unanimously elected secretary, and Mrs. Royal Wilson was unanimously elected treasurer.

The Rev. C. T. Lewis addressed the meeting, thanking all the members for the valuable services they had rendered in the parish. He congratulated them upon the excellent financial standing, and spoke in eulogistic terms of the complete harmony that had always existed amongst the members. He was glad to see the senior members still taking an active part, and was sure that the younger officers and members would make the burdens of the president as light as possible. Mr. Lewis conducted his remarks by a short address upon the "Forward Movement." A very hearty vote of thanks was accorded the Rev. Mr. Lewis for his address.

The following committees were appointed:—

Work—Mrs. Cumming, Mrs. Sharran, Mrs. Ernest Roe.

Entertainment—Rev. C. T. Lewis, Mrs. Thos. Morrow, Mrs. Thos. Harrison and Mrs. W. J. Morrow.

Mrs. Bradley was appointed collector of annual membership fees.

Tea was served to nearly forty persons by the hostess, assisted by the Misses Gladys, Jenny and Lena Hunt.

The next meeting will be held on the 1st inst., at the residence of Mrs. W. J. Morrow.

General Notes.

The regular monthly meeting of the W. A. was held at the Rectory on the 5th. There was a large attendance. After the routine business had been transacted, an address upon the "Forward Movement" and Eskimo missions was given by the Rev. C. T. Lewis.

Mrs. Scott, George, Mr. and Mrs. Edmund LeRoux went to Wotton on Thursday, having been called there by the death of their aged uncle, Mr. Joseph Perrault.

WAR VETS TAKE LEAD IN CITY HOCKEY LEAGUE

Defeated Bank of Commerce Team by Score of 6 to 5 in Game Last Night.

By winning last night's game from the Bank of Commerce team, the Great War Veterans Association took the lead in the Senior City Hockey League at the Stadium, in a close and well-played game, the final tally of which was 6 to 5. The War Vets took the lead from the start, and ran up three goals in succession, while at the end of the second period, the score stood 3 to 1. The Bankers came back strong in the third, however, and pressed their opponents hard at the end. "Tommy" Wolfe, of the Veterans, was the outstanding star of the game, his stick handling being unusual, and his general playing being indicated by the fact that he scored all six goals for the winning team.

The game opened with a good crowd on hand, and the first score was made after a few minutes of play. Before the period ended, Wolfe had chalked up two more, and the score stood at 3 to nil.

In the second period, Wolfe scored again, while Pearson broke the ice for the Bankers, and left the tally at 4 to 1.

In the last period, the Commerce team came back strong, Pearson tallying two more for them, Thayer one and Cawling one, while Wolfe, for the Vets, brought in another two. The tally was not enough to save the Bankers from defeat, however, but it did come earlier in the game, things might have been different.

Besides the playing of Wolfe, the feature of the game, was the long rush by Cawling, for the Bankers, in which he passed the defence, and scored for his team.

The line-ups:
G.W.V.A.—Murphy, Goal; Bryant, Point; Trudeau, Cover; Cloutier, Left Wing; Reid, Centre; Wolfe, Right Wing; Subs: Gauthier, Hogue, Martin and Legare.

Bankers.—Belford, Goal; Cawling, Point; Pearson, Cover; O'Donnell, Left Wing; Thayer, Centre; Barlow, Right Wing; Subs: Hamel, Robinson, Shailes and Kilgour.

Referees: Steve Newton and R. Moe.

STANSTEAD OLYMPICS ISSUE CHALLENGE

STANSTEAD, Jan. 9.—The Stanstead Olympic Hockey team openly challenge all hockey teams of the Eastern Townships, for home and away games. Especially would they like to meet any or all teams from Sherbrooke. Correspondence should be addressed to Mr. Ben Marjie.

MONTREAL HOCKEYISTS BUSY.

MONTREAL, Jan. 9.—Hochelaga defeated Laval, five to nothing in the schedule game of the Montreal Hockey League last night. In the second game of the schedule Garnets and St. Francois-Xavier played a two goal draw.

In the City Hockey League series, Nationals defeated Loyola College five to three. The other league game was won by St. Anns, defeating Shamrocks 10 to 1.

KNIGHTS OF COLUMBUS OUT TONIGHT.

Mrs. "Gordie" Maguire, of the Knights of Columbus Hockey team, would like to see all the players of the above team at the Stadium Rink at 6.45, so as to be in readiness for a fast work out this evening.

BOXING

WILDE WON BOUT EASILY

(Associated Press Despatch)

ST. LOUIS, Mo., Jan. 9.—Apparently without extending himself, Jimmy Wilde, the British flyweight champion, last night carried off the honors in every round in the no-decision bout with "Babe" Asher, the American bantamweight champion.

In the fourth, fifth and sixth the British scored knockdowns. Wilde fought coolly and deliberately, following Asher around the ring. Asher, however, occasionally speedily stepped in and out, scoring points, but the blows had no evident effect on Wilde.

CURLING

EASY VICTORIES IN TWO GAMES AT CURLING CLUB

Easy victories featured the two games played last night at the Sherbrooke Curling Club, at which a goodly number of followers of the ancient and honorable sport turned out, the scores in both matches being too large for much excitement as to the outcome.

F. Dinning's rink took the first game from that of W. H. Fuller, by the score of 18 to 7, while in the second game J. W. McKee's rink defeated that of Dr. Lambly by a score of 18 to 3.

The rinks and scores were: F. Dinning, W. H. Baker, H. C. King, Dr. H. McCrea, J. P. LeRoux, W. H. Fuller, F. Dinning, Skip—18, Skip—7.

E. C. Kerr, L. D. Hyndman, C. H. Mack, Charles Hall, C. S. Ives, W. F. O'Brien, J. W. McKee, Dr. W. Lambly, Skip—18, Skip—3.

The results of the Club matches on Wednesday and Thursday are as follows:

R. E. W. Wright's rink 14
H. A. Hyndman's rink 5
H. W. F. Downs' rink 18
J. A. Craig's rink 18
N. T. Dinning's rink 14
W. H. Fuller's rink 18
J. W. McKee's rink 18
Dr. Lambly's rink 3

Tomorrow afternoon the following foreign rinks will practice on sheets two and three at 2.45 sharp:

S. LeRoux, W. M. Moore, P. L. Stewart, J. K. Edwards, R. W. E. Wright, J. W. McKee, J. Balfour, E. Graves, F. T. Vaughan, W. H. Fuller, H. A. Hyndman, A. P. Blue, J. P. Watson, R. McMurray.

STANSTEAD TNP. COUNCIL MEETS AT TOMIFOBIA

Routine Business is Attended to at Last Regular Session—Other General News of Vicinity.

TOMIFOBIA, Jan. 9.—(Special)—At the last regular session of the Council of the Municipality of the Township of Stanstead, it was decided to keep open the Mack Cross road, leading from this municipality to the Magog road.

Mayor Curtis, Councillor Ticehurst and the Secretary-Treasurer, were chosen delegates to interview Mr. A. J. Bissonnette, M.L.A., in regard to paying the 50¢ p.c. levied by the Government, for the maintenance of the Sherbrooke to Derby Line Highway for the year 1918.

It was moved by Councillor Corlias, seconded by Councillor Ticehurst, that the bill of the Beebe Garage amounting to \$111.46 for repairs to the car of Rev. Mr. Longland, be paid, this amount to settle all damages and claims against the Municipality.

The Council voted to give \$25.00 to the Homemakers' Club to assist them in the good work they are doing, for Miss Bronson, in a hospital in Montreal.

The Mayor and Secretary-Treasurer were authorized to effect a loan to pay the notes due the estate of the late W. A. Wyman, also to sign the note of P. F. Remick, to the amount of \$6,360.00, for six months.

The Secretary-Treasurer was engaged for the ensuing year of 1920, at a salary of \$800.00.

A Bill to the amount of \$11,180.00 were approved.

Tomifobia Items.

Mr. Richard Allen, of this place, met with a very painful accident while working in the sawmill here, his right hand got under the saw, severing the cord, nearly all of the middle finger, and part of the third finger. Drs. Colby and Rose, of Stanstead, were called and dressed the wounded hand, although suffering much pain he is getting on as well as can be expected.

Rev. Mr. and Mrs. Carr, of Pith Bay, were calling on friends in this place. Mr. F. Ticehurst, father and brother, from Bury, were visiting here, the first of the week.

CASTLEBAR

Mrs. Seth A. Olney left on Wednesday afternoon for Manchester, N.H., and Boston for an extended visit.

Mr. and Mrs. Guy T. Robinson have returned to Montreal after spending the holidays here.

Mr. Douglas Stewart has gone to Montreal after the holidays here with relatives.

Mrs. Roland Gray and children spent a few days with her mother, Mrs. Thos. Robinson recently.

School has opened again after the holidays for the rest of the term.

Mr. Albert Morrill was taken to Montreal to undergo an operation.

Miss Ethel Morrill is staying with Mrs. Albert Morrill during his absence.

BURY

The installation of the officers of Alexandra Rebekah Lodge, No. 22, took place in their lodge room on Tuesday evening last, with Special Deputy, Mrs. L. Prangley presiding, owing to the unavoidable absence of the District Deputy President, Mrs. Lindsay. The following officers were installed: N.G., Mrs. Robt. Kane; V.G., Miss L. Palmer; Warden, Mrs. H. Morrow; Conductor, Mrs. R. Crawford; Recorder, Mrs. Olive McLeod; Fin-Secretary, Mrs. L. McLeod; Treasurer, Mrs. A. Cummings; Chaplain, Mrs. Thos. Morrow; I.G., Miss Mar-

RECENT INVENTIONS OF INTEREST
TO EASTERN TOWNSHIPS FARMERS

(By C. J. Lynde, Macdonald College, Que.)

POWER SHOVEL.

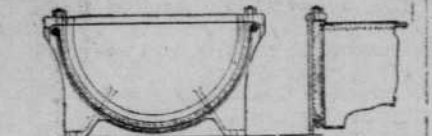

In operation the shovel here is driven into the material to be loaded, and is then elevated over the hood and driver seats, until it drops the load into the box. It is raised by means of a hydraulic oil cylinder and pump operated by the main shaft of the motor. (Carolina Motor Co., Statesville, N. C. U.S. Patent 1,320,970.)

to the box. It is raised by means of a hydraulic oil cylinder and pump operated by the main shaft of the motor. (Carolina Motor Co., Statesville, N. C. U.S. Patent 1,320,970.)

METAL TANK.

The improvement in this tank lies in the end piece which is made of cast iron and has a grooved half circle flange into which fits the banded end

of the sheet metal sides. Suitable packing is used and the two are clamped together by a curved bolt. (California Corrugated Culvert Co., Oakland, Cal. U.S. Patent 1,319,826.)

SOIL BREAKER.

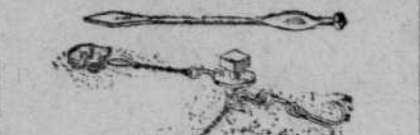

This machine has six sharp picks (we show two only) which operate something like a hay tedder and break

up the hardpan under the cultivated soil. It can be used on plowed land, alfalfa, grass, or even grain which is up. (Billington Co., Los Angeles, Cal. U.S. Patent 1,321,004.)

TRAP STAKE.

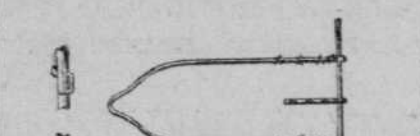

The metal stake here anchors one or more traps as desired and carries a brush hook as a second anchor. It is

withdrawn easily after being first turned with a wrench. (John S. Knight, La Jara, Colorado. U.S. Patent 1,309,036.)

FUR STRETCHER.

In using this device the operator stretches the skin over the frame, moves the arms outward, and clamps them in this position. He uses the

short central arm to hold the edges, or turns it outward to stretch the head part. (John H. Sturh, Midway, Wisconsin. U.S. Patent 1,307,522.)

MUSKRAT FUR.

Farmers' Bulletin, 869, "The Muskrat as a Fur Bearer," has twenty-two pages and three illustrations devoted

to this subject. It also mentions a number of bulletins of interest to trappers. Write for it to: Superintendent of Documents, Washington, D.C. It costs five cents.

From Eastern Townships
Experimental FarmTHE WINTER CARE SEED FAIR TO BE
AND THE REPAIR HELD ON TWELFTH
OF MACHINERY OF FEBRUARY

Farmers Who Look After Their Machinery Will Cut Down Operating Costs.

"Let him use more machinery then," is the stock phrase and cure all prescribed by the "know-it-all" of the farmer's labour problem. This is just what he has been doing for a generation or ever since city wages were distinctly higher than those upon the farm. To-day machinery has doubled in cost because it does not grow upon the land by the free agency of sunlight like crops but is made in cities and by labour that exacts far more than the farmer's wage. Thus there is a limit to the machinery the farmer can afford to buy and to the extent to which he can substitute machinery for expensive labour. In other words machinery is now expensive labour.

Farmers, therefore are going to house their machinery in some way since the price is still soaring and since the life of an implement well cared for is prolonged four or five times the life of machinery which is left in the open. An energetic farmer will not allow his horse or cow to stand out in the rain or snow. He will rush to get his crop into the ground in time and in the best possible condition and he will gather his harvest promptly and carefully so that there is the least possible loss. Many of us will do all these things and still allow a part of the toil earned revenue to be swallowed up in the purchase of sky-soaring repair machinery or in expensive repairs.

See to it that each implement wears out and does not rust out. Every one knows that it should be housed but housing under any condition and not properly caring for it otherwise, constitute very poor care. Machinery may be just as well cared for if it is allowed to stand in the shade of a tree as if stored in some of the leaky sheds, open sheds, poorly drained sheds or combined implement sheds and hen roosts which are found.

Do not merely go through the motion but shelter, considerately and before doing so, first list the repairs needed for next season and secure them along with an assortment of bolts, rivets, springs, etc. in time to have each implement repaired and ready for use on time. An implement in repair at all times will have a longer life and will give more satisfactory service during its life than one receiving irregular attention. Secondly clean and oil each machine and give all polished surfaces an application of some antirust preparation. Axle grease or other lubricant will answer the purpose.

Another "critter" occupies space in the implement shed, the twenty-four-hour-day iron horse or tractor has arrived on the farm. To insure more efficient use of this implement next season there are two things that should be given special attention. First, take steps to put it in the best possible condition now, and secondly learn as much as possible about the fundamentals of tractor operation. Read carefully the instruction book; newspapers, books and magazine articles also furnish a wealth of information. If possible attend one of the tractor schools which will be conducted during the winter. Leave nothing undone that will fit you to become a more proficient tractor operator.

A properly fitted work shop is a necessity on most farms. It provides a means of acquiring the "knack" in doing repair work. Again at critical times, such as harvesting or seeding seasons, one long trip to town for repairs may cause a loss more than equal to the value of a well equipped shop.

Paint although last mentioned is by no means the least important factor in prolonging the usefulness of an implement. Painted machinery on the farm is an exception rather than a general rule. The chief utility of paint is in protecting materials rather than improving appearances. Paint of good quality only should be used and the surface to be painted should be dry and clean before the paint is applied.

Prizes Offered Are Very Substantial and Should Attract Numerous Entries.

With the continual need of improvement in connection with all branches of agriculture, it is imperative that the farmer himself show a whole-hearted spirit in helping to attain the objectives that all the branches of the various divisions of the Department of Agriculture are trying to stimulate interest in. If the agricultural industry is ever to rank with the other industries of the land, then the farmers must adhere to the principle of producing the best product which can be turned out from the plant, which, after co-operation has been fully established, the whole of the forms will be included in the plant with the farmers themselves as the managers of this big organization.

The Sherbrooke County Agricultural Society has been endeavoring to help the farming community as a whole, without exception, during at least seventeen years, and is still in existence with the same objective in view, to encourage the farmer to produce better crops. The question naturally arises: "Are the farmers making any effort to improve the products of their farms?" The answer to this question will be got by attending the annual Winter Seed Fair, which is to be held in the town hall, Lennoxville, Que., Thursday, February 12, 1920.

Last year the seed fair was one of the best that was ever held in this locality. There was 171 entries, including all classes, and it is hoped that the response this year will be just as good as last year, and even better. The prize lists will soon be received, and all those interested may have them on request. The competitions are open to the Eastern Townships, and the prizes offered in all classes are very substantial and should attract exhibitors from quite a distance.

In preparing samples of grain for the various classes, it should be borne in mind that the use of the fanning mill is one of the best guarantees to a well-be successful exhibitor. Poorly cleaned grain is simply outclassed, though the grain itself may be of good quality, by samples of poorer grain which have been cleaned properly. Remove all chaff, straw joints, and noxious weed seeds, being careful to avoid having much light or shrunken grains in the samples. If these points are closely followed there should be very little difficulty in securing ample reward for the extra cleaning. However, it should not be forgotten that all the seed sown should be prepared according to the same rules. If this was the case, the grain crops of this country would soon reach a very high standard of quality.

Class as included in the prize list for bread and cake, and the usual judging competition for farmers' sons under 20 years of age.

To continue the work of the society, it is necessary that every farmer or friend of the society give all the support possible. In this way co-operation will have been partly accomplished.

All the farmers of this locality should make it a point to attend the annual meeting of the directors of the society, which is to be held in the town hall, Lennoxville, Que., Monday, January 12, 1920, at 8 o'clock p.m. Sherbrooke.

Everybody will be welcome—Sherbrooke County Agricultural Society, T. Fred Ritchie, Sec.-Treas.

FARMER SHOULD
IMPROVE HOME
CONDITIONS

Betterment of Conditions in the Homes Should Be Included in New Year's Resolutions.

Who has been making good resolutions for the new year? No doubt many have, which is only a repetition of what has been done for many years, and in the most number of cases only to end in non-fulfillment. Let the plans for this year be carried out to the last degree of completion. As a suggestion, it is not advisable to plan too many things, because in the end little will be accomplished, due to the stupendous amount of work to be done before accomplishment has been attained, let alone the commencement of the work at all.

There are several things which every farmer should bear in mind at all times, and they suggest themselves every day as the work on the farm proceeds. If the farmer wishes to enjoy life, as no question he ought to, then there must be a certain amount of modern appliances around the farm to enable the accomplishment of the tasks that are daily to be performed. The help on the farms at these times is not any too plentiful, and why should the farmer have to drudge and toil unnecessarily hard to succeed, when much of the heavy laborious work could be done by labor-saving machinery. These ideas are constantly presenting themselves to, not only the owner of the small holdings, but also to those owning large farms.

After all, where is the real seat of contentment on the farm? It is to be found right in the home, where it ought to be, and to make the home all that can be desired it is necessary to equip with such necessities as are desirable to enable the work to progress rapidly. With contentment and happiness comes health, which, as a rule,

FORAGE PLANTS
ARE OF VERY
GREAT VALUE

Much Interest Being Taken in Sudan Grass as a Forage Plant in Canada.

Considerable interest has lately been taken in Sudan Grass as a forage plant in Canada. Some who have tried it claim that they have had good results and, consequently, they have expressed favorable opinions on its merits and possible value. Certain seed firms have also begun to advertise it as a valuable grass, no doubt in a bona fide belief that it has a place in Canadian agriculture.

It has come to my notice, however, that the value of the grass has been grossly misrepresented by at least one seed dealer operating in the Province of Quebec. A farmer from Quebec wrote a short time ago asking for information on Sudan Grass. He enclosed a clipping taken from a seedman's catalogue in which the marvelous qualities of Sudan Grass were described in glowing terms. The description was accompanied by a cut showing the grass growing to a height of some ten or twelve feet at least.

The publication of such a picture is in itself a culpable representation, but in the particular case referred to it is more than that. It is a clear case of fraudulent advertisement. The cut supposed to show what Sudan Grass can do was published some years ago in an American seed catalogue but then the grass was not called Sudan Grass, but Teosinte, which is a Mexican plant closely related to Indian Corn. And to be sure, the same cut has also been used to illustrate the merits of so-called "Man's Wonder," which is a Southern Millet that is perfectly useless in Canada.

Under the circumstances a few words may be said about the real value of Sudan Grass, as borne out by unbiased observations.

Sudan Grass is, as the name indicates, a grass from tropical Africa. As such, it requires considerable heat to develop properly. The United States Department of Agriculture, Bureau of Plant Industry, Washington, D.C., published a few years ago a bulletin on Sudan Grass, telling about the results of experiments obtained by experimental stations in the United States. These results clearly indicate that Sudan Grass has no particular value except in the southern parts of the United States. In the northern States its value is not any greater than that of any of the ordinary millets. It is quite obvious, then, that Sudan Grass cannot claim to be of any outstanding value to Canada, and certainly not to any district where the summer heat is less than in the warmest parts of New York State.

When this summer I visited Washington, D.C., I asked several of the United States Forage Plant Experts for their opinion on the subject, and they all considered it most unlikely that Sudan Grass, at least the varieties now available, would have any outstanding value for Canadian agriculture.

A few experiments conducted in Canada have confirmed this opinion and, under the circumstances, the Sudan Grass must, at present at least, be looked upon as a forage plant of very doubtful value.

is followed by prosperity. The boys and girls brought up in such an atmosphere are of a superior class, possessing the true love for home, and with well-trained minds to judge whether the farm is to be their future home or not. If more of the farm homes were made more convenient, there would be less reason for discontentment and a much larger percentage of the younger generation see agricultural life from a different aspect.

Then let some of the resolutions for 1920 be betterment of the conditions in the home, so as to enable the housewife to systematize the work; sanitation in the buildings, crop rotations, crop improvement, live stock improvement, with better education and improved social conditions throughout the rural communities.

To our many friends throughout the country we wish to be of assistance in connection with the problems of agriculture, and may the new year bring happiness and prosperity to all.—Lennoxville Experimental Station, T. Fred Ritchie, assistant.

The Farm's Hardest Work Becomes Play with a Hinman!

If ever a farm expenditure was justified, it's for putting in a Hinman Milker. 15,000 Canadian dairymen—big and little—will tell you it's the one to buy. The Hinmans—inventors—were practical dairymen. They produced a wonderfully simple machine that does simply wonderful work.

INVESTIGATE DEATH OF ITALIAN MUSICIAN BY BRITISH AT CAIRO

Feeling is Running High Among Italians and Egyptian Nationalists.

CAIRO, Jan. 9.—Authorities here have begun an investigation of the killing of an Italian musician by a British soldier on January 4. Feeling is running high among Italians and Egyptian nationalists, the latter seeking to make capital out of the incident.

A number of moderate nationalists, including a former premier, and members of the Egyptian delegation, have issued a statement, expressing acceptance of Viscount Milner's invitation to a frank discussion of the pending issue. This is regarded as preparatory to a decisive adjustment of the session.

ONE FIREMAN SERIOUSLY INJURED AT BUFFALO

Damage Estimated at \$350,000 Was Done by Flames Yesterday.

(Associated Press Despatch)
BUFFALO, Jan. 9.—One fireman was probably fatally injured and the lives of seventy-five employees of the Sturtz Automobile Manufacturing Company were endangered in a fire which destroyed the four-story brick building at number 145-147 Seneca street, yesterday. The loss was placed at \$350,000.

One group of firemen engaged in rescue work was trapped on the roof of the building. Fireman Martin J. Daley was reaching for a ladder that was being passed up to them when he lost his balance and fell.

BANDITS ARRESTED AT TORONTO.

(Associated Press Despatch)
TORONTO, Jan. 9.—Four bandits, Frank Burke, Philip Gamin, Tony Papilio and Michael Gurmo, the latter three Italians, were roped in by the police last night, just after the quartette had held up Oliver Deluco. Later on Patrick Conran was arrested, charged with having attempted to rob George McGregor. The capture of Burke, a lad of eighteen, was preceded by a sensational chase.

NEW CRATER OF THE VOLCANO OF ORIZABA OPENS

(Associated Press Despatch)
MEXICO CITY, Jan. 9.—Intense excitement and panic reigns among the inhabitants of the cities of Cordoba and Orizaba, in the western part of the state of Vera Cruz, because of the opening of a new crater of the Volcano of Orizaba, fifteen miles to the northward. The new crater is smoking, according to information received here last night at the offices of the presidential military staff from army officers in the earthquake district.

It is officially reported that nothing untoward has been noticed at the other volcanoes in Mexico, including the two large extinct craters of Popocatepetl-Ixtashual, southeast of this city, or at the extinct crater of Colima, near the Pacific coast.

The tremors detected by instruments here yesterday were felt at Coscomatepec, Cordoba and Zongolica, state of Vera Cruz, but no damage was done by them.

New advices tell of the report of the opening of a small and supposedly extinct volcano at San Miguel, and the breaking out of a new crater on Mount Orizaba, provided an explanation of the earthquake which on Saturday night centered, with terrific effect, along the line between the states of Vera Cruz and Puebla.

Experts believe that the report of the opening of a small and supposedly extinct volcano at San Miguel, and the breaking out of a new crater on Mount Orizaba, provided an explanation of the earthquake which on Saturday night centered, with terrific effect, along the line between the states of Vera Cruz and Puebla.

FUME PROBLEM WAS TAKEN UP AT MEETING TODAY

Germany Must Pay Cost of High Commission in Charge of Rhine Regions.

PARIS, Jan. 9.—The fume problem was taken up at a meeting held in private to-day by the Premiers and other Allied statesmen assembled here for conference. The meeting was attended by Premiers Lloyd George and Clemenceau, Earl Curzon, Vittorio Scialoja, and Bonar Law, Hugh C. Wallace, the American Ambassador to France, Baron Naitani, the Japanese Ambassador, Paul Dutasta, General Secretary of the peace conference and Philippe Berthelot, political director of the French Foreign Office.

A session of the Supreme Council preceded this meeting. It was presided over by Premier Clemenceau.

The Council decided that the expenses of the high-commission in control of the Rhine regions should be borne by Germany, as well as the cost of the army of occupation. The council took up the subject of the first meeting of the executive council of the League of Nations, which the treaty provides shall be called by President Wilson. It was announced that the date for the meeting would be fixed later.

Before the Supreme Council Session, Premier Clemenceau conferred for an hour with Lloyd George. Previously he had received Alexandre Millerand, the Governor of Alsace.

The Supreme Council will also hold another session tomorrow.

THE CONTROLLER OF PAPER TAKES A FIRM STAND

Partial Embargo Has Been Made Effective Against Price Brothers' Mill.

(Associated Press Despatch)
OTATWA, Ont., Jan. 9.—Following the new issue of the order-in-council authorizing prohibition of license for the export of newsprint paper from any mill refusing to obey any order of the paper controller, R. A. Pringle, a partial embargo has been made effective against the output of Price Brothers' mill. The amount allotted to Canadian publishers must be supplied before any export is allowed.

Sir William Price, head of the firm of Price Brothers, admitted to the Canadian press last night that his company had taken steps to contest the constitutionality of the Dominion Government order-in-council on them to supply newsprint in Canada at eighty dollars a ton.

THREE BIG STEEL COMPANIES TO AMALGAMATE

Likely that There Will Be Alliance Between Canada Steel, Nova Scotia and Dominion Coal and Steel Companies.

NORTH SYDNEY, Jan. 9.—Indications here point to a final amalgamation of three of the largest industrial concerns on the continent, Canada Steel, Nova Scotia and Dominion Coal and Steel. In a conversation, one of the officials of the companies concerned stated yesterday that negotiations are now going on in Montreal between the representatives of each. President McDougall left here Monday with Superintendent of the mines McNeil. They are now in Montreal, presumably for the consummation of a triple alliance. Colonel Canitey is at Sydney Mines today on a similar mission, it is reported.

HARDWARE AND PLUMBING COS. MUST REPORT

Board of Commerce Declares Building Materials, Plumbing Fixtures and Hardware are Necessaries of Life and Come Under Fair Price Act.

(Associated Press Despatch)

OTTAWA, Ont., Jan. 9.—The Board of Commerce, in an order issued yesterday and signed by Judge Robson, chairman, and Commissioners O'Connor and Murdoch, declares that building materials of all kinds, plumbing fixtures and building hardware are necessities of life under Part 2 of the Combines and Fair Price Act.

Prior to March 31, 1920, all dealers within Canada of such materials must deliver to the secretary of the Board a statement of cost and selling price of all such articles and the date at which such prices are reported. Any dealer or dealers holding or offering for sale within Canada such building materials will be deemed to have committed an offence under the Combines and Fair Price Act, if an unfair profit is made by him or them.

BRITISH TRADE RETURNS SHOW A BIG INCREASE

Imports Were Over a Million Sterling More Last Month than in December, 1917.

(Canadian Associated Press)

LONDON, Jan. 9.—British trade returns show imports were over a million sterling more last month than in December, 1917. Bacon imports increased over the previous December by 400,000 pounds sterling, but considerable declines were shown in American butter and cheese. Exports of spirits to Canada in December, 1917, were valued at 56,008 pounds sterling; in December, 1918, 6,695 pounds sterling; and in December, 1919, 119,000 pounds sterling. Woollen and worsted exports are considerably larger.

Interesting Figures Show Work Of the Local Police And Fire Departments In The City During The Past Year 1919

Annual Report of the Police and Fire Forces for the Past Twelve Months Shows Great Decrease in the Number of Arrests Made—Number of Fire Calls Exactly the Same as in Previous Year—Other Statistics.

That the number of arrests made in Sherbrooke during the past year of 1919, is far under that of the previous year, is the fact contained, with many other interesting figures, in the annual report of the Sherbrooke City Police department, details of which were secured today. The number of arrests made by the municipal police during the last twelve months was 490, a decrease of 310 prisoners as compared to the year of 1918. The following statement compares this figure with the last ten years: 1909, 472; 1910, 479; 1911, 511; 1912, 460; 1913, 650; 1914, 663; 1915, 542; 1916, 723; 1917, 591; 1918, 800. It will be seen that this year's total is lower than for six years past.

Notwithstanding the facility with which the people can secure alcoholic liquors, the statistics of the Recorder's Court show that the number of arrests for drunkenness changed from 598 for 1918, to 350, for 1919, a decrease of 248 arrests, or almost fifty per cent. This report gives the statistics for the entire year, but it must be remembered that the four first months of the year were not under the prohibition laws, and that, if the whole year has been under this law, the decrease of arrests for intoxication would probably have gone as high as seventy-five per cent.

On their arrival, the 490 prisoners were searched and different sums from one cent up were taken from them, and were given back to them after their appearance. This money, during the year, amounted to \$8,817.25, with 155 watches, of more or less value.

The following statement shows the different accusations against 490 prisoners, arrested during the year:

Offences against municipal rules, 9; cruelty to animals, 2; desertion of children, 3; damages to property, 12; intoxicated and incapable of walking, 142; intoxicated and making noise, 142; intoxicated and driving auto, 16; threats, 2; carrying illegal weapons, 3; refusing to provide, 8; seduction, 1; vagabondage, 49; thefts, 29; assault, 18; breaking and theft, 2; selling liquor to soldiers, 2.

OTHER DUTIES OF POLICE.

Figures in regard to other duties performed by the police are as follows:

No. of ambulance calls, 141; no. of patrol calls, 420; no. of persons who received protection, 135; no. of valuable objects which have been found on the street, 80; no. of business places which have been found open in evenings, not locked, 283; no. of occasions when the presence of policemen have been required at the Recorder's Court, 17; no. of electric lights reported not burning on the street, 457; no. of wandering animals on the street, 48; no. of lost children reported by the police, 26; no. of loads of wood drawn to the poor, 669; no. of loads weighed on the public scale, 15,880.

Collections made by the police department during 1919, according to the report made are as follows:

Recorder, \$198.00; balances, \$1,588.00; rents, \$288.00; hospital, \$116.00; disinfection, \$141.75; police service, \$132.00; fire service, \$366.00; wood, \$657.00; total—\$5,977.33.

REPORT OF FIRE DEPARTMENT.

Further facts of much interest are contained in the report of the Fire Department, which shows a remarkable coincidence, in that the brigade had to answer 180 alarms of fire during 1919, which is exactly the same number as the previous year.

Insurance on real estate property and on the contents, damaged or exposed to fire amounts to \$730,700.00, whilst the losses paid by the different insurance companies amounted to \$87,421.20.

The statement showing the number of alarms, the amount of insurance on the property exposed, and also, the losses in the different parts of the city, is as follows:

Ward Alarms Insur. Losses

Centre	.35	\$237,350.00	\$72,210.75
North	.20	137,250.00	638.75
South	.40	147,750.00	9,724.75
West	.31	73,400.00	373.20
East	.46	114,350.00	474.00
Total	.184	730,700.00	87,421.20

STATISTICS FOR LOCAL JAIL.

Interest is also attached to the annual report of the St. Francis District Jail, located here, as to prisoners incarcerated and liberated during the year. The figures are about the same as last year, for although there were fewer cases for the police, the numerous charges of default laid under the Military Service Act brought up the total.

Prisoners who were in the jail on the last day of 1918 numbered 28, of whom 24 were men and 4 women. During the past year of 1919, a total of 308 prisoners have been received, of whom 278 were men and 30 women, making the total number of prisoners who passed through the jail during 1919, 336, with 302 men and 34 women.

Of these, 336 have been released, 289 men and 34 women, leaving 13 prisoners, all men, on the first of January.

As to nationality, of the 308, 229 were French Canadian, 30 English Canadian, and 49 other nationalities, while 253 were Catholics and 55 Protestants. As to their matrimonial state, 118 had had their marital vows, while 190 were yet in a state of celibacy. Two hundred and seventeen were able to read and write, and 91 were illiterate.

DIFFERENT VIEWS.

"I think Mr. Bolt is quite an intellectual young man," the girl remarked.

"Oh, do you?" sneered his rival.

"Why, yes. It seems to me he is quite a hard thinker on many important subjects."

"Well, now, that I come to consider it," he returned, "I believe you are right. I never knew a man who thought with so much difficulty."

THE PRICE OF SUGAR TAKES ANOTHER JUMP

Refineries Boost Their Prices in Order to Meet Increased Costs.

MONTREAL, Jan. 9.—Mr. F. G. O'Grady, general manager of the Atlantic Sugar Refineries, Limited, in discussing the sugar situation last night stated that an advance of \$2.50 per hundred had been put into effect yesterday over the former basic price of \$12 per hundred, this bringing the price to \$14.50 per hundred. This advance was occasioned by the increased prices which it was necessary to pay for the raw material of the new crop, increased cost of refining and other items.

Mr. O'Grady pointed out the advantage of the Canadian sugar situation over that in the United States, where in New York it is now relaying at 17 1/2 cents per pound with little being offered, and the market constantly waxing stronger. This in spite of the fact that Canadian refiners have to pay thirty seven cents more duty and twenty-five cents more freight charges than do those of the United States. This he explained, was due to the fact that Canadian refiners beat United States and European buyers to the Cuban market about three months ago, when the market was much lower. He stated that the Cuban producers have disposed of about half of their crop, and are now holding out for the more attractive prices being created by the American markets.

With regard to the effect of the raise upon the consumer, Mr. O'Grady thought that the price mentioned by the Board of Commerce could be obtained by both wholesaler and retailer giving them an increased margin of profit of which they were deserving, by reason of increased cost of handling. It was explained that the wholesaler buys from the refiner at a reduction of five per cent on the quoted price. Thus when sugar was quoted at \$12, he paid \$11.40, a margin of 60 cents per hundred whilst with the new prices in effect his margin will be 72 1/2 cents.

NEGRESS IS LISTED AS BEING 115 YEARS OLD

Was Sold Fifteen Times as a Slave and Acted as "Mammy" to Fifty-two White Children.

LOS ANGELES, Cal., Jan. 9.—Anna Prater, a negress, today officially was listed as 115 years old by federal census enumerators. She was born in South Carolina, she said, was sold fifteen times as a slave, acted as "mammy" to fifty-two white children, and ran away from three masters, only to be recaptured each time. While telling her life history she busied herself with sewing.

ARTILLERY BODY AGAIN RESUMED ITS ACTIVITIES

Plans for the Future Were Discussed at Meeting of Executive in Montreal Yesterday.

(Canadian Associated Press.) OTTAWA, Ont., Jan. 9.—The Canadian Artillery Association resumed its activities at Ottawa yesterday after a five years absence overseas on the part of the members of the executive committee, who, under the chairmanship of Sir Edward Morrison, Deputy Inspector General for Artillery, met to discuss the future bearing of the re-organization of the Canadian Militia on the activities of the Artillery Association.

Those attending, in addition to Major General Morrison were, Brig. Gen. C. H. MacLaren, Brig. Gen. H. Ralston, Port Hope; Lieutenant Colonel J. J. Creelman, Montreal; Lieutenant Colonel W. G. Hurdman, Ottawa, and Colonel C. H. L. Sherman, secretary. It was decided to make every effort to keep the demobilized artillery men in touch with the Canadian Artillery Association and plans were laid for a large attendance from all parts of Canada at the annual meeting which will be held at Ottawa on February 26th, the day of which Parliament will open.

General Morrison outlined the proposed arrangement for future activity, which were carefully gone into and which will, it is hoped, result in that arrangement of the service maintaining its high record of efficiency overseas.

THREE MONTHS IN JAIL FOR THEFT OF PANTS

Desire St. Pierre Pleads Guilty to Accusation Before the Magistrate.

Three months in jail was the sentence rendered today by Judge Mulvena, in the Magistrate's Court, in the case of Desire St. Pierre, who was charged with the theft of a pair of trousers belonging to Captain Irwin, from the New Method Cleaning Shop, on Wellington Street.

The complainant, Mr. Maurice Goldberg, claimed that St. Pierre had come into his store yesterday and presented a two dollar bill for some work which he had done. The woman in charge of the store went into the rear of the store, and when she returned, the pair of pants were missing.

Before the Magistrate's Court, the accused at first claimed that he was intoxicated, and pleaded not guilty, but after being committed for trial, he pleaded guilty and asked for a speedy trial. He was given three months in the common jail.
