BRITISH INCREASE POUNDING OF GERMAN PORT

Latest Attacks On Rostock Are Record For War

British Sources Declare that at the Height of Its Power, the Luftwaffe Never Launched Raids of Intensity of Those Loosed on Rostock, Supply Port for Russian Front During Past Two Nights.

London, April 25.—(P)—The Baltic port of Rostock was attacked by the Royal Air Force again last night in clear weather and "heavy bombs were dropped on the Heinkel aircraft works and the Neptune shipyards, where large fires were left burning," the Air Ministry said today.

This was one of a series of night operations which cost three planes and R.A.F. squadrons took to the air again by daylight to strike at Nazi bases across the English Channel.

Docks at Dunkerque were raided anew and air fields in France and the Low Countries were attacked by night by aircraft of the Bomber and Fighter commands, the Air Ministry said.

A Coastal Command bomber on patrol off the Norwegian coast bombed an enemy supply ship and set it afire.

British planes crossed and re-crossed Dover Strait in a haze today and heavy explosions and gunfire sounded from France—at times apparently from the areas of Calais, Boulogne and inland.

The new attack upon Rostock—a marshalling port for Nazi war supplies—drew from the London Star the comment:

"Even at the height of its power the Luftwaffe never launched raids of such intensity."

Benefited by excellent weather, the fliers were said to have hit with particularly good effect at the Heinkel plant.

The attack sustained a new round-the-clock cycle of British air raids on Germany in which the R.A.F. struck with unprecedented power twice within twenty-four hours—first with a pre-dawn assault on the important Nazi port where, in one hour Thursday night, the "greatest weight of bombs" in R.A.F. history was loosed and later when the largest fighter force ever sent against a single objective escorted bombers attacking the Nazi-held Netherlands port of Flushing in daylight.

The Air Ministry's report on the Flushing raid said that nine fighters were lost while five Nazi defending planes were knocked down. The report did not disclose the number of aircraft which took part in the foray.

Canadians participated in the Thursday attack on Rostock.

It is not known immediately whether Canadians participated in the latest attack on the Baltic port.

That the British fliers struck on successive nights against the comparatively small city of Rostock was regarded in some quarters as a sign the Germans are using it as a great base for using men and supplies both to Russia and Norway.

DUTIES ON IMPORTED DRIED MILK REMOVED

Ottawa, April 25.—(P)—Dried whey, dried skim milk and dried buttermilk imported for use as animal or poultry feed or in manufacture of animal or poultry feed are exempted from customs duties and war exchange tax under an order-in-Council in the Canada Gazette today.

The move was taken on recommendation of the War-time Prices and Trade Board that there is a shortage of dried milk products for use in preparation of specialized feeds, preamble to the order said.

Soviet Forces Cross River In Central Front Fighting

Official Russian Sources Declare that Nazi-Occupied Village Has Been Re-taken by Advancing Russian Forces—Communique Indicates that Fighting Is Intensive All Along Battle Front.

Kuibyshev, Russia, April 25.—(P)—Light Red army forces have driven across a river on the Central Front, plunged through barbed wire and captured a Nazi-occupied village, according to a communique issued by the Soviet Press today.

The Germans counter-attacked by night, but were crushed and suffered heavy losses. The exact site of the action was not announced.

The army newspaper Red Star said German units occupying a sector of the Southern front had shifted from small-scale counter attacks to defensive fighting and erection of fortifications.

A Soviet battalion was reported to have recently completed the thirty-sixth of a series of night raids in which its members killed 2,070 Germans.

Red Star said the Russians were massing artillery on the Leningrad front and that Cossacks were raiding Axis positions in the Crimea.

The weather was believed to be making operations difficult over huge areas of the front.

MANY GERMANS SLAIN
Moscow, April 25.—(P)—Red army troops have slain more than one thousand Germans and captured prisoners and equipment in forty-eight hours of fighting on the Leningrad front, the Soviet Information Bureau said in a communique broadcast today.

A roundabout report from Istanbul said Russian soldiers had cut the Turkish railway and were driving West toward Ertsez, thirty miles away, in an apparent attempt to outflank the Nazi defences of Kursk, a rail centre 280 miles South of Moscow. The Istanbul account was broadcast by the German-controlled Vichy radio and recorded in London by Reuters.

"Twenty-five German planes were destroyed on April 23," the Information Bureau said. "Our losses were eleven planes."

Tass quoted a Peoples' Finance Commissariat announcement that a 10,000,000-ruble state war loan floated April 14 had been oversubscribed by 2,860,831,000 rubles in ten days.

(The ruble formerly equalled nineteen cents, but it is no longer quoted in foreign exchange and special conditions surrounding Russian money system prevent accurate conversion).

ELECTION SERMON IN CATHOLIC CHURCHES

Quebec, April 25.—(P)—Text of the election sermon, contained in the Roman Catholic ritual, will be read in churches throughout the country the Sunday before the Dominion plebiscite.

The text, read in Roman Catholic churches before all elections, urges the people to beware of perjury, to abstain from liquor, to not sell their votes or fall into other evils especially prevalent at election time.

"After you have made up your minds," the text reads in part, "follow the true religious and social principles, give your vote conscientiously, under the eye of God, to the proposition which you truly believe the most useful to the good of the country and of religion."

WILL SPEED UP DELIVERIES BY FERRY COMMAND

Improving Weather to See Increase in Flow of Bombing Planes to European Battle Front, Officials Say.

By LOUIS HUNTER
(Canadian Press Staff Writer)
London, April 25.—(P)—Now that the perils of winter flying over the Atlantic have vanished with the spring, Ferry Command of the Royal Air Force is busy putting into effect plans to handle a delivery of American aircraft exceeding anything previously brought across the ocean.

Work of the Command, impeded temporarily after the United States entered the war, has been stepped up and the flow of bombers to Britain has begun again at an increased rate. Streams of big Liberators, Fortresses and Hudson bombers and Catalina flying boats will be flown over to bolster the might of the R.A.F.

Only after the war will it be revealed just how many aircraft have

Newly-Created Navy College To Meet Long-Felt Canadian Need

Ottawa, April 25.—(P)—Under the direction of an experienced educationist, Canada's new Naval College will open its doors in September with a class of fifty cadets.

Arrangements to start instruction for future officers of the Royal Canadian Navy are underway and Kenneth Ketchum, headmaster of St. Andrew's College, Aurora, Ont., is expected to spend the next few months conferring with naval officials in preparation for assuming the post of head of the College.

Mr. Ketchum will receive the rank of Lieutenant-Commander in the navy on taking over the appointment for which he has been loaned by St. Andrew's. The College will be established at Hatley Park, B.C., near Victoria, on the spacious estate taken over by the navy a year or so ago and used now as a training school for Naval Reserve

officers going into immediate service with the naval forces. The establishment is called "Royal Roads" in the navy.

When the College opens, the Reserve Officers Training establishment, now operating at Royal Roads and located at King's College, The work of training Naval Reserve officers for the immediate wartime needs of the navy service now is carried out partly at Royal Roads and partly at King's College and in future will be entirely centred at the latter institution.

The new Naval College is to be a permanent institution, destined to meet the long-term needs of the navy, as well as assist in meeting immediate wartime requirements. It will replace the old Naval College.

Activities Of Provincial Police Again Feature Assembly Debates

Quebec, April 25.—(P)—The Legislative Assembly stood adjourned today until next Tuesday when it may resume a debate on Provincial Police activities in Montreal.

Before adjourning yesterday, the House heard Hon. Wilfrid Groulx, Provincial Attorney-General, declare that the "Provincial Police have never worked harder than during the last two years to abolish gambling halls and houses of prostitution in Montreal."

"As far as the Provincial Police are concerned," he said "they are ready to co-operate with the Montreal Police to stop any abuses."

Mr. Groulx spoke after Maurice Duplessis, leader of the Opposition Union Nationale Party, asked "if the Attorney-General is aware of the campaigns being carried on by the Montreal Star and Standard against bookies and gambling houses."

"The newspapers," Mr. Duplessis said when the House began debate of budget estimates for the Attorney-General's department, alleged that the gambling houses had the protection of the Municipal and Provincial Police.

"Two Standard reporters recently wrote that they were in a gambling house and that at a certain time the owner received a telephone call. All they had to do was to pick up the receiver and the owner was gone."

"If the number of bookies is growing, it is because of Jargaille (Louis Jargaille, Deputy Director of the Provincial Police). He was head of the Provincial Police when they flourished before and they stopped when we dismissed him. Now he is back and the bookies are flourishing again."

J. O. Asselin, head of the City Executive Committee and a good Liberal, declared that there were so many bookies and gambling houses in Montreal that it was scandalous.

"It is a fact that the increase in crime coincides with the appointment of Jargaille, Re-appearance of all these evils show that the Attorney-General made a monumental error in reappointing Jargaille."

Mr. Groulx said that at the time of the "newspaper campaign" there was question of an enquiry into the municipal police, Montreal aldermen understood that the problem was their own. As far as the Provincial Police are concerned they are ready to co-operate with the Montreal Police to stop any abuses.

ORDERS SPEEDY COLLECTION OF VOTING RESULT

Chief Plebiscite Officer Instructs Returning Officers to Co-operate with The Canadian Press.

Ottawa, April 25.—(P)—Returning Officers and Deputy Returning Officers are especially requested to do whatever they can to aid The Canadian Press in promptly collecting accurate returns of the Dominion plebiscite on Monday, Jules Castonguay, Chief Plebiscite Officer, said today.

Describing steps which have been taken to facilitate results of the vote being made available to the Canadian people quickly, Mr. Castonguay said that in every urban polling station established in the locality of the Returning Officer's office, the Deputy Returning Officer has been instructed to deliver his ballot box and an accompanying envelope containing a preliminary statement of the poll to the Returning Officer as soon as possible after

Continued on page 2, col. 4.

Japs Launch Twin Thrusts Against Mandalay Defences

Mandalay and Lashio Appear Chief Objectives of Japanese Forces in Drive Northwards Through Burma—British and Chinese Troops Prepare for Bitter Defence of Last Bases of Resistance in Burma.

London, April 25.—(P)—Twin Japanese thrusts on Mandalay and Lashio appeared to be developing rapidly today as the British army, after a brief respite, prepared to defend its last bases of resistance in Burma.

Latest dispatches from Burma, a military commentator said, indicate that the Chinese are fighting stubbornly around Taunggyi and at Hopong and Shwengyang, East and West of that town, in an effort to halt the deepest enemy penetration—now one hundred miles from Mandalay.

A further Japanese advance in this sector would directly threaten Chinese communications on the Sittang front to the West and place the invaders astride roads running into Lashio and Mandalay.

The commentator said that a full apparently was continuing on the Irrawaddy front at the West end of the Allied line.

Chinese forces there were reported holding positions along the Enchayung river while British and Indian forces are resting and refitting in the rear for the climax of the campaign expected to take the form of a triple drive on Mandalay by the Japanese.

JAPANESE LAUNCH PRODIGIOUS DRIVES

New Delhi, April 25.—(P)—Burma's defenders faced a sudden new peril today as the Japanese, with an almost spendthrift use of manpower, pushed forward to within about one hundred miles of Mandalay in furious and confused fighting.

A Chinese communiqué indicated the Chinese-held Left Bank either had been rolled back or was in imminent danger of being turned by the fast-moving Japanese.

Few details amplified the communiqué, which said the invaders had advanced about eighty miles Northward from captured Mawlaik to the area of Taunggyi under cover of continuous air attack.

A British communiqué today announced another air raid on Mandalay. It indicated that the front was fluid on the Chinese-defended side.

"Recent reports are confused regarding the Japanese progress in the Northward drive through the Shan states," it said. "It is fairly clear that the drive has made progress."

The communiqué reiterated, however, that the situation in the Yenangyang sector on the West Bank was unchanged. In the Central sector continued fighting was reported around Takton, thirty miles North of Pyinmana, which the Chinese abandoned earlier this week.

The Chinese said the Japanese had lost 3,000 men in one week's fighting between the Swa river and Pyinmana and another 3,000 in four days in the vicinity of Pyinmana alone, while the Chinese altogether lost 1,000 killed and wounded.

The full significance of this burst of Japanese pressure aimed at Mandalay still is not apparent, but there is no doubt of the gravity of the situation for the Allies in Burma.

At worst, it means the over-

Continued on Page 2, Col. 5.

Affirmative Vote Held Essential For Safety Of Canadian Territory

Prime Minister Mackenzie King Warns Canadians that Earlier Statements on Gravity of International Situation Were Not Exaggerated—Declares It Is Essential to Keep Enemy Away from Shores of Dominion.

HOUSING SHORTAGE ACUTE IN MONTREAL

Montreal, April 24.—(P)—The Montreal City Planning Department, in a report presented yesterday to the City Executive Committee, said "There is not a single habitable home in the lower rental group vacant in Montreal." The shortage has now reached "critical proportions," the report said.

The report said that by 1945 there would be a deficiency of 50,000 homes, "if the comparatively low rate of dwelling construction continues and if the worst slums in the city are razed as they should be."

IMPOSE LIGHT SENTENCES FOR DISTURBANCES

Two Youths Fined and Third Sentenced to Pay Costs as Aftermath of Anti-Conscription Trouble.

Montreal, April 25.—(P)—Three youths pleaded guilty yesterday to charges of loitering and "refusing to move" as an aftermath to demonstrations which followed a meeting Thursday night sponsored by supporters of a negative vote in Monday's plebiscite.

A fourth youth pleaded not guilty to a charge of disturbing the peace. Charles Lesperance, nineteen, and Roland Perron, twenty, were fined on loitering charges, and Benoit Normand, nineteen, escaped with costs on the charge of refusing to move. Jean Fortin was remanded until May 1 when he pleaded not guilty to the charge of disturbing the peace.

Fortin was arrested when police dispersed a group of youths around Atwater Market meeting hall where a rally was in progress under auspices of La Ligue Pour la Defense du

Continued on Page 2, Col. 5.

Seven Million Canadians Listed As Possible Plebiscite Voters

Ottawa, April 25.—(P)—Canada's manpower plebiscite campaign reached its closing stages today as officials prepared to handle an expected total of more than 4,000,000 civilian votes in the polling next Monday.

Here is the question on which voters will record their verdict: "Are you in favor of releasing the Government from any obligation arising out of any past commitments restricting the methods of raising men for military service?"

Voters will signify their answer with a cross after a "Yes" or "No" printed in bold type on the ballot papers.

Officials said the voters' list prepared by enumerators were expected to contain about 7,000,000 names of those entitled to go to the polls. They estimated that more than 4,000,000 civilians would exercise the right to vote.

As in the general election of 1940, special arrangements were made for members of Canada's armed forces to vote. Voters in the defence services—estimated to number nearly 500,000—have had facilities to record their verdict since April 16. Taking of the service vote ends today.

But the result of the voting by members of the armed forces will

Continued on page 2, col. 3.

Ottawa, April 25.—(P)—Prime Minister Mackenzie King closed the National radio campaign for an affirmative vote in Monday's manpower plebiscite with a warning that if disaster should overtake Canada it would be said "for generations" that it would not have occurred if the Government had not been restricted in its powers.

Speaking over a national network of the Canadian Broadcasting Corporation last night, he declared that a negative vote to the plebiscite question would be an indication that those who so voted did not trust the Government and Parliament it elected.

He urged the people to show that trust by voting "Yes" to the plebiscite question which asks "Are you in favor of releasing the Government from any obligation arising out of any past commitments restricting the methods of raising men for military service?"

The Prime Minister emphasized that the vote was not for or against conscription for service overseas.

"Whom can you trust?" he asked, if trust could not be placed in the Government and in the Parliament elected since the war started.

For himself, Mr. King said, "If I did not believe that . . . I continued to enjoy the confidence of the people . . . I would not wish to remain in office an hour longer."

Mr. King warned that his statements in his earlier radio speech in the plebiscite campaign April 7 last, describing the gravity of the world situation, were not exaggerations. Conditions now were even worse with the Japanese successes in the South-eastern Pacific.

He declared the enemy's plan was to join land forces in the Far East and achieve sea supremacy which would open the way for an attack on the Western Hemisphere—an attack that might come through Canada.

He said the object of the United Nations would be to keep the enemy as far as possible from this hemisphere and that was why Canadians were in England and Americans were in Ireland and Australia.

"Despite the magnitude of Canada's war effort the impression is being fostered among other nations that because of a restriction on the powers of the Government Canada's effort was not an all-out effort," Mr. King said.

This was not true but it was "working a grave injustice to our country as a whole and every man and woman who is making any contribution toward the winning of the war. I want that injustice to end," he said.

Rapidly-Gathering Allied Power To Teach Japs Real War Meaning

London, April 25.—(P)—Clement R. Attlee, Secretary of State for Dominions, declared today the United Nations are just beginning to gather the power which will prove that Japanese losses to date have been only a taste of what is to come.

In an Anzac Day broadcast to Australia, he pledged that Britain and the United States are standing solidly with the island dominions of Australia and New Zealand. He said help would flow more and more and, with unified strategy, would turn the tables on the Axis.

Hitler, he said, has erred as the Kaiser did by failing to understand the "invisible links which bind together the English-speaking nations all over the world."

"The world is a single battlefield, whether the fight is in Europe, Asia, Africa, or Oceania," Mr. Attlee said. "The United Nations form a united front. This unity of purpose demands unity of strategy."

"It is a paramount principle in war that available forces must be concentrated at the point where they can most effectively be used against the enemy. To achieve this, especially when the forces are inadequate and the difficulties of transport

Continued on Page 2, Col. 5.

MACARTHUR AT MELBOURNE CEREMONY

Melbourne, April 25.—(P)—Gen. Douglas MacArthur participated in Anzac Day services commemorating Australia's First Great War dead today by placing a wreath on the shrine in Saint Hilda Road.

Prime Minister Curtin received a cable from Prime Minister Churchill of Britain which said:

"Greetings to you on Anzac Day. We will never forget the great comradeship of Gallipoli with its imperishable memories."

United Nations Headquarters, Australia, April 25.—(P)—United Nations headquarters announced today that fighter planes defending Port Moresby "successfully intercepted in sanguinary combat" seven Japanese Navy "Zero" fighters which raided the New Guinea port yesterday.

Allied raiders, it said, bombed the airfield at Japanese-held Lae, on New Guinea. There were no further

AN IMPRESSIVE TRIBUTE PAID H. TOURVILLE

Popular Young Sportsman
Lost His Life in Middle East
—Thousands Joined in Last
Tribute.

Victoriaville, April 25. — This thriving French-Canadian city paused Tuesday to pay a final and impressive tribute to one of its favorite sons, a fine young gentleman and a real sportsman, Sgt. Pilot Charles H. Tourville, R.C.A.F., who was killed in action the morning of April 7, 1942, under Libyan skies in the Middle East.

Thousands of citizens of all ranks and ages thronged through the streets, along which many stores were dressed in mourning, with enlarged photographs of the R.C.A.F. hero, and wended their way to the church, which they filled to capacity. Arrangements for the memorial service were in the hands of Major J. E. Alain and the officials of the Shawinigan Water and Power Company, where the deceased had been employed for many years following his years of study at the Victoria College.

The service was held in St. Victoire Church. Monseigneur Milot was present in the sanctuary and the solemn Requiem Mass was sung by Rev. Father Colle, assisted by Rev. Fathers Beauchesne and Allard as Deacon and Sub-Deacon. The choir was under the leadership of Lucien Daveluy.

A Guard of Honor was formed outside the church by a body of Frontenacians under command of Adrien Gingras and Roland Kirouac, of Warwick. The local police force was in attendance, and a large company of members of the R.C.A.F. attended under the command of

SEVENTEEN MINERS ARE BELIEVED DEAD IN COLLIERY BLAST

Barnborough, England, April 25.—(CP Cable)—Officials of the Barnborough main colliery said at noon today they feared there was no longer hope of extricating alive seventeen miners trapped yesterday when a mine shaft fell in after an unexplained explosion.

Rescue work, which had gone on in relays through the night, continued, however. The only man who had been rescued so far, Matthew Fairhurst, said he was buried to his shoulders by the cave-in but managed to crawl to safety. He said he heard no cry from the others who were in a seam where seven hundred men normally work.

Seven Million

Continued from Page 1. Government then in power decided against imposing prohibition before the provinces had consulted their voters and no further action was taken.

Those who vote Monday must be at least twenty-one years old, British subjects by birth or naturalization, have been resident in Canada twelve months before polling day and been ordinarily resident in the polling division in which they vote on March 30 of this year.

All Japanese, except forty who served with the Canadian forces in the First Great War, are disqualified from voting. Naturalized citizens of German and Italian origin may vote unless they are detained or interned under Defence of Canada regulations.

Mr. Castonguay said it would not be possible before the plebiscite is held to estimate the total number of eligible voters by provinces. He explained that the short space of time in which arrangements for the plebiscite were completed would not give the enumerators an opportunity to report how many eligible voters there were in the nine provinces until some time after April 27.

For the first time, the remote mining district of Yellowknife, in the Northwest Territories, will be included in the electoral district organization for voting purposes. It has 1,400 residents.

Mr. Castonguay said he expected that very few Canadians, no matter how remote the district where they lived, would be prevented from voting because of transportation difficulties. Favorable weather during the past week, he remarked, had enabled returning officers in almost every district to send the necessary papers to outlying polls. The vote takes place at a time when the spring breakup in Northern areas often impedes travel by airplane, dog team or boat.

The campaign was climaxed last night with speeches by Prime Minister Mackenzie King and two Federal Cabinet Ministers, urging an affirmative vote.

Conservative House Leader Hanson and C.C.F. House Leader N. J. Caldwell also have made speeches calling for a "Yes" vote at the polls. The leader of the New Democracy party, John Blackmore, urged Canadians to vote but did not recommend any particular returns of a general election, and without the cooperation of the Returning Officers and Deputy Returning Officers the citizens of Canada will not be informed of the plebiscite results as soon as they should.

Wing Commander B. D. Finley, officer in charge of No. 3 Initial Training School, R.C.A.F., Victoriaville.

The local unit of the 4th Army Reserve Corps, of which Sgt. Pilot Tourville had been a lieutenant prior to his transfer to the Air Force, was led by Major J. E. Alain, the R.C.A.F. detachment stood at attention in the three principal aisles of the church throughout the funeral service. A beautiful solo was rendered by Omer Fecteau, and the Last Post was sounded at the end of the mass by Bugler D. A. Deadman, R.C.A.F. "God Save the King" was played as the members of the R.C.A.F. marched out of the church.

Speaking from the church steps in the name of Monseigneur Milot and the Tourville family, Rev. Father Beauchesne offered thanks to the officers and men of the Air Force and Army, and gave them a special blessing.

Among those present at the funeral were members of the Bench, Bar, Municipal Council, the officials and entire staff of the local office of the Shawinigan Water and Power Co., Joseph Desautels, of Montreal, a large delegation of employees from Fashion Craft Company, Lieut. Codere and Roger Cormier, of Sherbrooke, Mr. and Mrs. Wilfred Bontin, Leo St. Cyr and Redmond Hayes, of Richmond, and a large number of friends from surrounding districts.

Scrap metal salvaged from the scuttled German fleet of 1918 went into the building of the giant British liner, Queen Mary and Queen Elizabeth.

SEEKING RECRUITS FOR WOMEN'S CORPS

Mrs. Juliette Pelletier-Ramsey, Junior Commandant of the Canadian Women's Army Corps, who was in Sherbrooke earlier this week to seek recruits, will be in this city again on Wednesday next when she will be stationed at the offices of the Sherbrooke Chamber of Commerce in the Sherbrooke Trust Building.

Mrs. Ramsey will provide information to women from eighteen to forty-five wishing to enlist in the C.W.A.C.

Latest Attacks

Continued from Page 1. Observers pointed out the great weight of bombs probably left the port even worse battered than Luebeck, twice its size. Luebeck was hit just once with the full force of the new R.A.F. bomber power on March 28, and British authorities have said forty per cent of the city was devastated.

The Air Ministry's announcement indicated that Rostock was hit as hard as Luebeck on Thursday night alone.

German planes executed scattered attacks again on Southeast coast towns of England. Air raid precautions workers toiled throughout the night to rescue citizens trapped under debris in one area.

Reports from the coast towns said at least ten persons were killed and a number of others were wounded.

May Increase

(Continued from Page 1.) Shortage. He said that reports later what he had in mind was not a substitute fuel, but use of alternate methods of transportation to avoid the dangers of moving the oil up the East coast by tank ships.

Orders Speedy

Continued from Page 1. closing of the poll.

Every Deputy Returning Officer for outlying polling divisions, whose polling station is convenient to a telephone or telephone office, has been instructed to telephone or telegraph the Returning Officer the results of his polling station as soon as the counting of the votes has been completed.

"The Returning Officer for each electoral district has been specially directed to prepare an advance compilation of the votes cast in each polling station of his electoral district as the ballot boxes are received in urban polling divisions and as the results of the telegraph or telephone return to him from outlying polling divisions," Mr. Castonguay said.

"The Returning Officers have also been directed to furnish the public and the representatives of The Canadian Press with progressive bulletins giving the state of the poll at various intervals during the evening of polling day.

"In order that the public throughout Canada may be informed of these progressive bulletins it is of the utmost importance that Returning Officers and Deputy Returning Officers take care to see that their instructions on the subject are carefully carried out.

"The collection of plebiscite returns on the evening of polling day is an altogether different procedure from the collection of returns of a general election, and without the cooperation of the Returning Officers and Deputy Returning Officers the citizens of Canada will not be informed of the plebiscite results as soon as they should."

Will Speed Up

Continued from Page 1. been ferried across, but newspapermen who visited a Command base in the West of Britain were told that millions of dollars worth of bomber aircraft have been put into the nation's striking force against the Axis without the loss of a single machine through enemy action.

There have been casualties from flying accidents, but the loss of all types of aircraft on the Atlantic crossing has been less than one per cent.

During the winter bombers were flown over without mishap of any kind and weather delays were not long. The planes arrived more punctually than the trains from Glasgow to London.

The success of the Empire air plan may be gauged by the fact that recently a Hudson was flown safely over by a crew of graduates whose average age was just over twenty. They were Pilot Officer H. W. Luss, of Lethbridge, Alta., Pilot Officer C. Badham, of New South Wales, and Sergeant H. G. Black, of Arvida, Que. Black, a wireless operator, celebrated his twentieth birthday during the crossing.

The trip took eleven hours and ten minutes despite bad weather in mid-ocean. When airport officials asked them how the yield it, the airman simply replied: "We just followed our instructions."

CERTAIN POINTS ON PLEBISCITE ARE CLEARED UP

Alphonse Trudeau, Plebiscite Returning Officer for Sherbrooke County, today clarified a certain amount of confusion as to who can vote in the plebiscite on Monday.

He said that contrary to the practice in general Federal elections, in the plebiscite any person who is a qualified voter in any polling division and is, on polling day, ordinarily resident in that polling division, may, notwithstanding that his name does not appear on the official list of voters, vote at the appropriate voting station.

Such a person is entitled to vote only (A) upon being vouched for by a voter whose name appears on the official list of voters, personally attending at the polling station with him, and taking the oath; (B) upon himself or herself taking the oath; and (C) upon producing for inspection his or her National Registration certificate.

Furthermore, every employer shall, on polling day, allow to every voter in his employ at least two hours' time for voting other than the noon hour, and shall not make any deduction from the pay of such voter because of his or her absence during such time.

He stated that it also might be pointed out that as at the last General Election, no floating polls are authorized; which unfortunately means that an incapacitated person who is unable to go directly to the appropriate polling station will not be able to vote.

AWARDS ANNOUNCED

The fifth annual Canadian Rural Health Conservation Contest held by the Canadian Public Health Association in co-operation with the American Public Health Association is ended. The awards in the Eastern Division went to the following county health units in the Province of Quebec: Arthabaska, Nicolet, Shefford, St. Hyacinthe-Rouville, Jean-Jacques-Laprairie, Napierville.

Plaques will be presented to the Medical Officers of these counties at a dinner on Monday, June 1, during the thirty-first annual meeting of the Association, which will be held in Toronto June 1, 2 and 3.

Plaques will be presented to the Medical Officers of these counties at a dinner on Monday, June 1, during the thirty-first annual meeting of the Association, which will be held in Toronto June 1, 2 and 3.

Plaques will be presented to the Medical Officers of these counties at a dinner on Monday, June 1, during the thirty-first annual meeting of the Association, which will be held in Toronto June 1, 2 and 3.

Affirmative Vote

Continued from Page 1. Canada should make it plain to other United Nations, and particularly to the United States, that she is "as ready to help them as we know they will be ready to help us."

An overwhelming affirmative vote would make that clear.

"Let me just say this," Mr. King added, "that if disaster should ever overtake us it will certainly be said for generations to come that had the Government's powers not been restricted the disaster would not have occurred."

"Such is the responsibility that may come to rest upon those who, in this existing crisis, are unwilling to remove any restrictions and to give the Government a free hand in its war policies."

Japs Launch

(Continued from Page 1.) whelmily stronger invaders have turned the Chinese flank, thus swinging the United Nations' line on its irrevocably river hinge like a gate, and that the Allies will be able to reestablish the line, if at all, only with prodigious effort.

At best, it means that the Japanese have shot out a powerful armored spearhead far beyond their former main line.

If this is true, it may mean that the Japanese have located a soft spot in the defence line, punched a hole through it, driven their steel wedge into the breach as deeply as possible.

Time now has become a prime element.

The monsoon which should mire the Burma front is due in mid-May and if the Japanese have not achieved their aim by then they may have to halt until October before starting their machine in motion again.

Impose Light

Continued from Page 1. Canada. The others were taken into custody when police charged a group demonstrating before the Place Vigor Hotel, now a manning depot for merchant seamen.

Police said that all was quiet near the seamen's manning depot yesterday and that no constables had been detailed to guard the building during the day.

Capt. G. M. Fry, Superintendent at the manning pool, said that the demonstrators had been "nothing to get excited about."

Rapidly-Gathering

Continued from Page One. detail immediately of either air action.

The New Guinea village of Komiatum was described as having been "sacked and burned" by an enemy raiding party Thursday.

Elsewhere, except for continued artillery duelling between Japanese shore batteries in the Philippines and United Nations guns on the Corregidor Island fortress in Manila Bay, the communique said there was no activity.

Subject: "Probation After Death."
Testimonial meeting Wednesday evening at 8 o'clock.
Reading room open daily from 3 to 5 except Saturday, Sunday and Holidays, Fridays 7:30 to 9 p.m., at His Majesty's Building.

"Probation After Death" is the subject of the Lesson-Scripture to be read in Churches of Christ, Scientist on Sunday, April 26th.
The Golden Text is from Matthew 24:13. "He that shall endure unto the end, the same shall be saved."
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Now this I say, brethren, that flesh and blood cannot inherit the kingdom of God; neither doth corruption inherit incorruption. For this corruptible must put on incorruption, and this mortal must put on immortality." (1 Corinthians 15: 50, 53)

The Lesson-Sermon also includes the following passage from the Christian Science textbook "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "We know that all will be changed in the twinkling of an eye when the last trump shall sound; but this last call of wisdom cannot come till mortals have already yielded to each lesser call in the growth of Christian character. Mortals need not fancy that belief in the experience of death will awaken them to glorified being. As death findeth mortal man, so shall he be after death, until probation and growth shall effect the needed change." (Page 291).

GRACE CHAPEL
19 Montreal St.
11 a.m.—The Lord's Supper.

Newly-Created

Continued from Page One which functioned at Halifax prior to 1923 when it was disbanded and in which many of Canada's senior naval officers received their training.

In purpose and in mode of operation it will be the naval counterpart of the Royal Military College at Kingston.

Prices Unchanged During Quiet Trading On Market

Prices were all unchanged for the second straight dull shopping week at the Lansdowne Market yesterday. All dealers reported business as "slow."

Prices were about steady under continued quiet buying of fruits and vegetables, provisions and dairy products. There was a scarcity of beef for the second consecutive week.

Since the demand for eggs and butter was small prices of both these commodities still were holding steadily.

In view of the fact that there is a big stock of dairy butter on hand due to new stock, dairy dealers expected a price drop by next week. Dairy butter was listed at thirty-three cents a pound.

No immediate reaction was in evidence concerning the Ottawa announcement that dairy products are being subject to a complete re-organization, as regards price fixing.

However, a slightly better demand was reported by cheese dealers, but prices still were unchanged and supplies were plentiful.

The price of potatoes remained the same, with trade being moderate and supplies medium.

DAIRY MARKET

Butter, best creamery, lb. 38c
Butter, best dairy, lb. 38c
Eggs, Grade A-1 40c
Grade A-large 38c
Grade A-medium 38c
Pullets, eggs 30c
Kraft cheese 35c
New cheese, Quebec 35c
Old cheese 40c to 45c
Oka, lb. 48c

THE FRUIT MARKET

Apples, per bushel \$1.50
Blue Grapes, pound 25c
Grapes, pound 30c
Grapefruit, (Florida) 3 for 25c
Lemons, dozen 25c to 35c
Mashed apples, U.S.A., peck \$1.10
Grapes, per dozen 35c to 40c
Pineapples, each 25c
Pears, dozen 40c

THE VEGETABLE MARKET

Beets, imported, bunch 10c
Cucumbers, Ont. nothouse, each 25c
Celery, bunch 5c to 25c
Carrots, pound 07c
Carrots, new, lb. 08c
Cabbage, pound (new) 05c

Sherbrooke Air Cadets Will Receive Training Airplane

In place of the airplane parts which were to be issued for lecture purposes, headquarters of the Air Cadets of Canada advised the No. 67 Sherbrooke Squadron, under the sponsorship of the Sherbrooke Rotary Club, following receipt of the quarterly training report, that the local squadron has been selected as one of the very few units across Canada which will receive at an early date a complete training plane with motor for future lectures. This announcement was made today by Air Cadet Pilot Officer L. D. Audet.

The first annual inspection of the Sherbrooke (Rotary) Squadron, Air Cadets of Canada, which was organized last November, will be held next month, Mr. Audet announced at the same time.

He said that this event, the date of which will be announced within the next fortnight, is open to the public. Training events will be held outdoors, weather permitting, and class exhibitions will be held in the William Street Armory.

It was also announced that inspection for "drill proficiency shield" will be carried out by three visiting R.C.A.F. officers and this event will be open to the parents of the Air Cadets, members of the Rotary Club and a limited number of the general public. This inspection will be held in the William Street Armory and the date will be announced as soon as the advice is received.

AC. Pilot Officer Audet stated that the change in army drill movements as announced in the press throughout Canada last Friday, will not affect air cadet units until their R.C.A.F. command decides that these or other changes are essential in the R.C.A.F. Technical Training Programme.

An advanced engines course will be held every alternate Friday evening at the William Street Armory.

complete motor supplied by A.C. Pilot Officer Barbeau is being mounted on a stand for lecture purposes.

French and English classes run concurrently in separate lecture rooms, where a large class is involved, and bilingually when in a small class.

The present strength of the local Air Cadet unit is 164 members. The squadron has its own band, under the direction of Band Major H. Simons, and squadron parades are conducted by Sgt.-Major P. Gray.

The Sherbrooke Air Cadets unit has progressed so rapidly during the five months since being organized that the Lions Clubs of Magog and Coaticook have written officials of the local squadron to send speakers to their respective meetings in order to outline the Air Cadet scheme.

B. N. Holtham, Chairman of the local unit, said that Canada's air cadets have been asked to produce a vast armada of scale model planes to be used in the R.C.A.F. training schools, following receipt of a communication from George B. Foster, President of the Air Cadet League.

In the letter to the Sherbrooke Air Cadet Unit, Mr. Foster urged that the R.C.A.F. is in urgent need of solid wood copies of fighter and bomber planes for teaching aerial gunnery and aircraft recognition. Cadet liaison officers in each R.C.A.F. training command are asking squadrons in the district to turn out in exact size the types and quantities required by the command. The models are shaped from solid pine wood in definite proportion to real aircraft. Fighters will be built 1/20 actual size, light bombers 1/30 and heavy bombers 1/40. When complete they are camouflaged with green and brown above and azure blue below.

Complete instructions and plans are being sent to all air cadet squadrons through their official magazine, Canadian Air Cadet, the letter reads.

Officials of the Sherbrooke Air Cadet Unit pointed out that the League directors feel that such a model programme should be encouraged as a means of both helping the R.C.A.F. and providing practical training course cadets are taking. It is expected that the local squadron will have a set of models for its own use after filling air force needs.

Officials of the Sherbrooke No. 67 Squadron, Air Cadets of Canada are Col. A. A. Munster, Honorary President; B. N. Holtham, Chairman; Art Kerridge, Treasurer; J. A. Archambault, Secretary; Bert Williams and E. Gingras, members of the Committee.

Headed by Air Cadet Pilot Officer L. D. Audet and Adjutant N. T. Hunter, there are five Flight Commanders, Pilot Officers Art Kerridge, Norey Hunting, Phil Mathias, L. Barbeau and Art McKinnsey, who are in charge of training the squadron members.

Last Day For Advance Poll In Plebiscite

Today is the last day for the advance poll for the use of only properly identified commercial travellers, railway workers and others whose regular duty takes them away from their homes on Monday, Plebiscite Returning Officer Alphonse Trudeau for Sherbrooke County said this morning.

The advance poll will be open from two to ten p.m. today at the Sherbrooke County Plebiscite Headquarters in the office of Albert Rivard, 6 Wellington Street North, Suite 108, Sherbrooke.

Voting was reported light at the advance poll which opened on Thursday. Persons not entitled to use an advance poll and who are unable to get to their designated polling sub-division on Monday, will lose their vote, Returning Officer Trudeau pointed out. He said that people who have moved since the enumeration can vote under their old address at the proper poll.

Residents of Sherbrooke and Sherbrooke County desiring to obtain further data concerning the plebiscite regulations, can get the information by telephoning Sherbrooke 218.

NEW PRESIDENT OF ROTARY CLUB IS APPOINTED

E. E. Goodenough to Take Over Duties Being Relinquished by Albert Munster July 1—W. G. Cross Vice-President.

At their first meeting since being elected, the Directors of the Rotary Club taking office at the start of the new Rotary year on July 1, named Everett E. Goodenough as President to replace the present Chief Executive, Albert Munster.

Willard G. Cross was elected Vice-President and Robert L. Curphey was named Treasurer, succeeding Emilien Gingras, who, because of ill health felt compelled to withdraw from the Executive of the club. Bert Williams was re-elected Secretary and John Stewart, a new member, was named Sergeant-at-Arms.

In addition to Rotarians Goodenough, Cross, Curphey and Williams, the Directorate includes J. A. Archambault, Walter Mutchler, Robert Webster and Walter Sutherland.

WILLIE DUSSAULT SAYS:

'Tis Spring, tra-la! Already you see some of our incurable optimists raking their lawns and tearing up the grass. The urge of the season of re-birth is upon them.

While it is a bit early for garden work, it is not too soon to see about fixing up the house in town or repairing the cottage at the lake. And for this, you may just as well have workmen who are experts in their lines.

No matter what you have to do, whether it be a small job or a big one, our organization will undertake to do it promptly and thoroughly. I stake my reputation on the quality of our work. Of a certainty, you'll be well pleased.

If you need some practical advice on building, renovating or repairing, I'll be glad to drop around and help you with your problem. Just give me a phone call.

Asks People To Give Prime Minister Free Hand In War

Rev. Fred Williams, Speaking Here Last Night, Demands "Yes" Vote in Plebiscite Monday—Says "No" Vote or Failure to Vote, Means Vote for Germany and Japan, and All They Stand For—Home Defence Would Be Useless in Face of Attack.

"The Prime Minister has flung down to us a challenge for a free hand for total war—let us give it to him in full measure. Liberals, conservatives or C.C.F. and all others," declared Rev. Fred Williams in an address in favor of a "Yes" vote in the plebiscite, delivered here last night.

"Then let us fling down our challenge to him that he will, without delay mobilize every human and material resource of this great Dominion to push this war to a final and early victory, so that when the great day of peace comes, Canada may not be ashamed, but will take her place in the front rank of the great nations of the world," declared Mr. Williams said.

"That is what your 'Yes' vote on the ballot will mean on Monday. Canada expects, that day, that every Canadian will do his duty."

Pointing out that this is a solemn moment in Canadian history, with the country facing a verdict that affects its relations with the free nations of the world, its own deeply important national unity and the peace of Canadian individual consciences, Mr. Williams declared that no man or woman of voting age is exempt from responsibility.

"Whether we vote or do not vote, we are giving our verdict on an issue of life and death," the speaker maintained. "Some will vote a strong, brave, intelligent, decisive Yes; some may vote a blind, selfish, cowardly No; but the man or woman who thinks to find the easy solution by not voting at all will by that act have voted No, the only difference being that their negative action will be more cowardly and contemptible than the blind and selfish voter who marks the ballot with a vote for Hitler."

"Let me make this inescapably plain to the thinking citizen: no middle road. If you vote No, or if you do not vote at all, you are voting for Germany and Japan with all the stark horrors they stand for." Rev. Mr. Williams emphasized the fact that this is no squabble, party or creed, between political parties contending for a place in political leadership, since the leaders of all the parties have one message.

He pointed out that while a lot of people have said with conviction that the calling of the plebiscite was an unwarranted and unjustifiable act, that the vast changes on every war front, bringing new situations into making changes without reference to the electorate, a promise, a solemn promise was given to the Canadian people that there was no need of conscription, and that there would be no conscription in Canada, but that rather our part in the world war would be in the munitions, food-stuffs and the air training operation. This plan of co-operation was made in good faith, in consultation Canada faces is totally different and it met the necessities of the situation then before us," Mr. Williams said.

Now, the speaker said, the situa-

Has No Notice Local Fair To Be Cancelled

Commenting today on a story in La Tribune to the effect that the annual Eastern Townships Agricultural Association Exhibition will be cancelled for the second straight year because of the fact that the Fair Grounds will be taken over for military purposes, Secretary-Manager Norrey Price said that he had received no definite information of this nature from the Federal authorities.

Mr. Price said he was still awaiting definite orders from the Department of National Defence at Ottawa as to what course of action to take, and it is assumed that this word should be received within a short time.

In the meantime, Mr. Price said, it would be wrong to state that instructions to cancel arrangements for the Fair, which were inaugurated several months ago at the E.T.A.A. annual meeting, have been received.

NAMED PRESIDENT

Local Youth Promoted To Pilot Officer

Ottawa, April 25.—(C)—John K. Abbott, of Montreal, and D. A. Ross, of Sherbrooke, who have done just about everything together except ride in the same cockpit, have passed another joint milestone.

Both are pilot officers now, Royal Canadian Air Force headquarters announced last night, and both received their commissions on the same day.

This maintained a tradition, the Air Force said, which started when the so-called "heavenly twins" enlisted on the same day, trained at the same initial and service flying training schools in Canada and the same school of general reconnaissance in Britain. They were posted to their present coastal command squadron the same day and later received promotions to Flight Sergeant and Warrant Officer—on the same day.

THREE FIRE CALLS

The Municipal Fire Department responded to three calls yesterday. Firemen extinguished two grass fires, one at a vacant lot on Pacific Street and the other at another vacant lot owned by Mrs. I. Hatcher, 377 Bowen Street South.

A stovepipe blaze was put out at the home of Mrs. A. Asselin, 10-a Princess Street, before any damage resulted.

FIRE BORROWED

Before flames came into use, borrowing fire was a regular chore, and when neighbors were distant it was necessary to be speedy.

Local Seaman Receives O.B.E. For Amazing Feat Of Amateur Surgery

Florent Morin, son of Mr. and Mrs. Joseph Morin, 21 Gillespie Street, Sherbrooke, is looked upon by fellow seamen at Halifax as the iron-nerved chap who last November used a pitching deck of a Canadian corvette as an operating room and with fish hooks and curtain clasps as surgical instruments, saved the life of a Norwegian sailor. But the seaman from Sherbrooke claims he is "just a dirty fireman" aboard a harbor craft.

Incidentally, he won the Order of the British Empire for the feat, but the 23-year-old French-Canadian doesn't think that is half as important as the fact that his emergency patient lived. "I would have felt terrible had he died," he said.

Morin and the Norwegian were thrown together in a lifeboat after their ship had been torpedoed off Iceland. "The chap was sitting there, not saying a word, with his scalp ripped off and hanging down his back like a hood," Morin said.

For three hours they drifted while the French-Canadian attempted to ease the Norwegian's pain by feeding him some sleeping tablets he had stored away in his waterproof seaman's kit. Finally a Canadian corvette, commanded by a Vancouver man—loomed up out of the night and took aboard the survivors.

"I never saw anything like the manoeuvring that chap did," Morin said. "The submarine that sank us launched two torpedoes at the corvette while we were being picked up and each time the commander swung his ship out of range, yet never once left us."

Aboard the corvette Morin found no doctor—instead there was a sick bay attendant who was only too glad to have the courageous survivor operate on the injured Norwegian. "I studied some medicine while at college in Paris and Montreal," he said, "so had a vague idea of what to do. First he washed the wounds and carefully placed the bleeding scalp back in position."

The next step was infinitely more difficult. The scalp had to be clamped in position so it could be sewn properly. "I used fish hooks and curtain clasps as clamps," Morin said, "and horse hairs ripped from seamen's coats as thread. I had a needle in my seaman's kit."

For the entire three hours—the duration of the operation—the Norwegian was conscious. "He smoked cigarette after cigarette during the time," Morin said, "and I told him every funny story I knew. He winced only when the needle dug too deeply and swore occasionally. He was the bravest man I ever saw."

Several days later they arrived in Iceland and the patient was placed in hospital. "The doctors there said I had done a good job, but I felt embarrassed when the Norwegian insisted on kissing my hands in front of everybody."

As for Morin's feelings during the operation: "Well," he said with a typical Gallic shrug, "it was repulsive but necessary."

BICYCLE STRUCK BY AUTOMOBILE

Leo Paul Guillemette, 16 years old, 7 Lepage Lane, escaped unscathed yesterday afternoon when the bicycle he was riding figured in a collision with a truck at the corner of King Street East and Bowen Avenue, police reported today.

Andre Camire, 148 St. Martin Street, was the operator of the truck, according to police. The truck and the bicycle were West-bound on King Street. Both were damaged slightly.

Sherbrooke Daily Record

Established Ninth Day of February, 1897, with which is incorporated the Sherbrooke Gazette, established 1897, and Sherbrooke Examiner, established 1878.

— Eastern Townships' Only English Daily —

The Record is printed and published every week-day by the Sherbrooke Record Company, Limited, of which Edna A. Beerworth is Secretary-Treasurer, at the office, 69 Wellington Street North, in the City of Sherbrooke, incorporating the news services of The Canadian Press, The Associated Press, and Reuters. The Record is a member of the Audit Bureau of Circulations, its circulation being regularly audited and guaranteed.

Subscription rates: 75c a month, delivered at any home in the city and suburbs. Post Office delivery to any place in Canada, Great Britain or the United States, \$4 per year; six months, \$2; three months, \$1; one month, 50c. Single copies, 3c.

SATURDAY, APRIL 25, 1942.

O God, Who art the author of peace
and lover of concord, defend us Thy
humble servants in all assaults of our enemies.

GET DOWN TO BUSINESS

Maurice Duplessis, leader of the Union Nationale Opposition to the present Quebec administration has done little to enhance his somewhat battered political reputation by his actions since returning to the Legislative Assembly following his recent illness. Ever since resuming his seat, he has confined his statements and declarations to objections to the manner in which the Provincial Government is co-operating in the prosecution of the war. The prime object of his criticism is the Dominion-provincial agreement providing for the exclusive use of the income and corporation tax field by the Federal Government. He advances no arguments that such an agreement is not one to promote efficiency in Government service and ease the burdens on business, which is being called upon to bear a heavy burden in aiding the nation to assure victory.

Rather he raises the well-worn cry that the autonomy of the Provincial Government is threatened and that Ottawa is usurping the functions of the Provincial administration. The mere fact that the Dominion Government is paying a high price for the temporary evacuation of these fields by the Province and that strong safeguards are contained in the agreement to ensure that these powers will be restored to the Province when the emergency is over is ignored.

The cry of autonomy is all very well under certain conditions but it is becoming rather tiresome to the people of this Province, who with the rest of loyal Canadians are busily engaged in carrying out an important task—that of winning the war against those forces who would remove all democratic institutions entirely. The job which faces the Provincial Legislatures today, and every member of them, is to ensure that every possible opportunity is offered the Federal authorities in the great task they face—and this includes the Quebec Opposition Leader and his cohorts. If Canada does not win this war, and the speeches of certain Opposition members indicate that they do not care if it does not, the question will not be whether Quebec maintains its provincial rights assured it under the constitution, but rather will Canada be able to retain any rights other than those given a slave nation.

Certainly a Nazi-Fascist occupation of this country would find little desirable to its concept of living in the maintenance of Provincial Legislatures and Maurice Duplessis might find that he and his followers would not be even a voice crying in the wilderness. Their voice would be removed entirely. If the Opposition leader would show a greater spirit of co-operation at present, he might find his future efforts to return to power easier. But certainly his present actions will do little to win him any substantial amount of public support.

THE HIDDEN WAR

Two interesting books recently published tell of the hidden war in Europe. One is "Underground Europe" and the other "The Sixth Column," thirteen representatives of the ten occupied nations being responsible for the production of the second which is the story of hands, hearts and courage against the Nazis. Among the tales included in the book are:

In the Skoda munitions plant in Czechoslovakia, Vacek, a crane worker, overturned a caldron of molten lead at the moment twenty-two members of a Nazi army commission were walking beneath it.

In Holland, on Prince Bernhard's birthday, many loyal citizens wore white carnations as a tribute to the royal family in exile in England and as a protest against the Nazis. Bands of Nazis roved through the streets trying to tear the flowers from the wearers. They suffered cuts from razor blades skilfully concealed in the carnations.

In Poland there are more than one hundred underground newspapers. More than two hundred men are ready to die at any moment for what they are doing—the printing and distribution of these sheets. The papers vary in size from five or six inches in width and seven to ten inches in length. They have from four to sixteen pages. The majority is set by hand and printed on small hand presses. Some are stenciled. The most important are published two or three times a week and contain com-

plete digests of foreign news broadcast from Britain and the United States. The Poles claim that these papers are read eventually by 3,000,000 people.

Will the time come when the stricken peoples of Europe can be remobilized as combatants against the invader? Most people believe it will come, including Prime Minister Churchill.

In the review of these two recent books, a writer in The New York Times Magazine has these thoughts:

To win the war we shall have to get our teeth into the enemy. Once we do that to the Nazis, more than a hundred million people in Europe will help bite them to death. For we have a great army of allies on the Continent.

We would make a bad mistake if we believed that the desperate acts of opposition to the Nazis inside Europe can be decisive. Nothing can take the place of flying fortresses, of tanks, of guns, of millions of trained troops fighting their way through the Nazi lines. But in these days, when the going is rough, we can gain fearlessness from the example of millions of our fellow human beings who have only their brains, their hands and the courage in their hearts.

ANGLO-JAPANESE SHOWDOWN NEAR

Events seem to be developing rapidly towards a major showdown between Japan and Britain in the Indian Ocean, and that means a great naval battle. Japanese control of the Eastern Indian Ocean, and the danger that this domination may be extended throughout that vast sea, is one of the grave threats to the Allied cause. The Middle East, whose shores are washed by the Indian Ocean, has been designated by Hitler as the possible meeting ground of the Axis forces. Should the Japs and Nazis manage to join hands there it might mean a thirty-year war.

There are two new signs pointing to a possible major engagement in the Indian Ocean. One is the indication that the Allies may be preparing to take over the strategic French Island of Madagascar, which dominates the shipping routes around the Cape of Good Hope, to keep the Japs from occupying it. The second is the tiny news item which is cryptic but suggests huge possibilities. This latter is the report in Vichy that a powerful British flotilla, including a battleship, passed through the Strait of Gibraltar into the Mediterranean. There is no satisfactory explanation of where these fighting ships are going, and it must be admitted there are several missions on which they might be bent. Still, in view of the emergency in the Indian Ocean, one cannot help feeling this flotilla may well be taking a short cut through the Mediterranean and the Suez Canal to help deal with the Japanese fleet.

Prime Minister Churchill told the House of Commons April 13 that the Nipponese had in the Bay of Bengal at least three battleships, five aircraft carriers, a number of heavy and light cruisers and several flotillas of destroyers. And that is a formidable fleet. We have no exact check on the British naval force under the famous Admiral Sir James Somerville in those waters, but it is smaller than the Japanese. However, should the mystery flotilla now plowing through the Mediterranean be on its way to reinforce Somerville, it might mean a sufficient levelling off of relative strength so that the British could challenge the Japs. British reinforcements also would be necessary in event the Allies do occupy Madagascar. Most Allied military experts have been praying the operation would be carried out before the Axis could take over this great island. If it were in the hands of the Japs they could play havoc with the supply routes to India and the Middle East which in turn feed Russia. A filip has been given to the hope of Allied occupation by the fact that South Africa, the Dominion Government near Madagascar, has suddenly severed diplomatic relations with Vichy. The Union may have been assigned the job.

A glance at the map will show how Madagascar dominates the shipping lane as it swings round the Cape of Good Hope and enters the Indian Ocean. That fact is of vast importance. Because it is not possible for ordinary shipping to pass through the Mediterranean and the Suez Canal to the Persian Gulf and India, all Britain's convoys have to make the long journey around the tip of Africa and thence up into the Indian Ocean. American ships for Indian Ocean ports have to take this route. These shipping routes are priceless, since the Allies must depend on them to hold the Middle East and India. The theatre comprising Syria, Iraq and Iran is one of the most important strategically in the world. Allied domination is necessary to prevent Hitler from breaking down into the oil fields, and to keep him from uniting forces with the Japs.

BIBLE THOUGHT FOR TODAY

The grass withereth, the flower fadeth; but the word of our God shall stand forever.—Isaiah 40:8.

'Twas he that ranged the words at random flung, pierced the fair pearls and then together strung.—Bidaipai.

The tongue can no man tame; it is an unruly evil, full of deadly poison.—James 3:8.

Since word is thrall, and thought is free, keep well thy tongue, I counsel thee.—James 1 of Scotland.

Thirty Years Ago

FROM THE RECORD FILES

The recent loss of the Titanic, which struck an iceberg and carried twelve hundred persons to their death, has brought proposals from the German Government for an international agreement to increase the safety of ocean shipping.

First reading was given in the British House of Commons to disestablish and disendow the Welsh dioceses of the Church of England.

Death today claimed M. T. Stenson, a prominent Sherbrooke citizen and for over twelve years Collector of Customs here.

The following officers were elected at the annual meeting of the Epworth League of Centenary United Church in Stanstead: Rev. W. S. Jamieson, Earle S. Beerworth, Fred J. Montle, Edna Beerworth, Edythe Raymond, Ethel Montle, Bernice Lincoln, and Christine Macintosh.

A number of travellers and boarders staying at the Scots-town Hotel had to make a hurried exit in the middle of the night when the building was threatened by flames.

Three Mormon elders who appeared before Judge Mulvena this morning were fined five dollars and costs each on charges of distributing their literature without a license.

At the annual meeting of St. Agnes' Guild of the Church of the Advent, the following officers were elected: Mrs. J. H. Bryant, Mrs. J. E. Mills, Mrs. E. Wilcox, Miss M. Armstrong, Mrs. R. A. Bartlett and Miss Ada Hatcher.

Saint George And Saint Mark

Prof. the Rev. H. C. Burt, Lennoxville.

St. Mark IV, 7: "Unto every one of us is given grace according to the measure of the gift of Christ."

Two saints stand out in this week's calendar, one whose life is more or less obscured by myth and fable, Saint George of Aragon, Portugal, and Merrie England; and the other universally recognized as the writer of the second Gospel, St. Mark, the patron saint of Venice in the heyday of her power and glory.

The story of St. George, so far as it is available, is full of romance. Though born of Christian parents, a native of Cappadocia, he was raised to high military rank under the heathen emperor, and persecutor of Christianity, Diocletian. In spite of his royal master's attitude towards the religion of the Man of Nazareth, the saint helped and inspired the church of Armenia, and was sent to the obscure fog-bound isles of Britain. When the persecution was at its height St. George had the courage to seek a personal interview with his emperor, in which he remonstrated against the senseless cruelties that were disgracing his reign.

It might be worth suggesting that this "bearding the lion in his den" would give rise to the well-known story of the dragon. In any case, the saint's intercessions were unavailing and he suffered tortures for his faith, and, persisting in his allegiance to Christ, was at last put to death. Both the Greek and the Roman Churches venerated him as saint and martyr.

Curiously enough, even among the Mohammedans this Cappadocian hero was revered. Among the causes for this was the fact that St. George was buried near the scene of the old Greek legend of Perseus and Andromeda; also, his relics being moved from Lydda in Wales to Haunau, impressed his fame upon the people of Syria, and when that country was conquered by the Saracens they too adopted him as one of their own saints. Indeed, these followers of the Prophet have identified St. George with Eljish.

It is worthy of note that no less authority than George Adam Smith suggests that the word "dragon" really should read "Dagon"—as two neighboring villages bear the latter name to this day, and one of the gates of the city of Lydda was known as "The Gate of Dagon!"

It is true that this soldier-saint has never aroused such fervor and enthusiasm in England as St. Andrew in Scotland, and St. Patrick in Ireland, or even St. David in Wales. In the year 1222 the Great Council of Oxford ordered that the dragon-slayer's feast should be observed as a national festival; but it was not until the reign of Edward III, towards the close of the fourteenth century, that St. George was authoritatively proclaimed the Patron Saint of England.

To St. Mark no great amount of space in the New Testament is devoted. He is referred to in Acts XII as John, whose surname was Mark, and we are permitted to infer that his mother's home in Jerusalem was an important center of Christian life and thought, which the Apostle Peter made his headquarters. We know that Mark was a kinsman of St. Paul's co-worker Barnabas, and the companion of the Apostle to the Gentiles in his later journeyings.

A tradition handed down by Eusebius gives Mark the credit of

Today's Favorite Poem

THE HEIGHT OF LAND

The last weird lakelet foul with weedy growths
And slimy viscid things the spirit loathes,
Skin of vile water over viler mud
Where the paddle stirred unutterable stench,
And the canoes seemed heavy with fear,
Not to be urged toward the fatal shore
Where a bush fire, smouldering, with sudden roar
Leaped on a cedar and smothered it with light
And terror. It had left the portage-height
A tangle of slanted spruces burned to the roots,
Covered still with patches of bright fire
Smoking with incense of the fragrant resin
That even then began to thin and lessen
Into the gloom and glimmer of ruin.

—Duncan Campbell Scott.

FIGHTING THE SUMMER BATTLE FOR FOOD

To the Editor of the Record.
Dear Sir:—In your issue of April 20, there is an inspirational editorial entitled "Russia Seeks Food Reserves," and outlining some of the efforts being put forth by our valiant ally "to fight the summer battle for food."

The position of "The Golden Ukraine," still predominantly West of the battle-line, is the core of the problem, and it seems now to be conceded that neither friend nor foe may expect much "surplus" food from those fertile areas in 1942. Except under the whip of the invader, the natural trend will be to the third defence line under "scorched earth" policy—subsistence farming.

Agriculture, as you well know, does not take kindly to aggression, turmoil, uncertainty as to where the markets will be and who will be the buyers. Yet, within this area, there are, even today, somewhere around 25,000,000 people (exclusive of other millions of the Nazi soldiers, forced laborers, etc.), who must, somehow, be fed.

Of the 3,600 million bushels (all grains) grown in the Soviet Union, almost every fourth bushel (820 million) in 1937-38 came from the Ukraine. The position of our comparative handful of "primary producers" on the Canadian prairies may be quickly visualized by urban readers, from the fact that the normal productivity (all grains) also reaches up to the 800 million-bushel level, from a total population of below 2,750,000.

Here is an intriguing sample of the vernacular saying: "Figures don't lie, but liars can figure," and I don't blame the far-away reader for assuming that the "handful" of growers of primary wealth in the Canadian West should be as choosy of gold as the wheat kernel is crammed with nutriment and the precious vitamin B.

How wrong that impression or assumption is, cannot be compressed into this little letter to the Editor; but the fact remains that, after producing ten billion bushels of the world's finest wheat—plus a mountainous tonnage of other farm products—those growers are beneath a farm debt burden of \$1,000,000,000. Strange, isn't it? However, at the moment, eighteen divisions of these "soldiers of the soil" are moving out "to fight the summer battle for food." We are 100 per cent behind our valiant Allies everywhere.

Yours truly,

I. O. U.

Now that they are going to do away with the cellophane windows on envelopes, all might be a lot rosier if they could also do away with what's so often behind them at the first of the month.—Boston Herald.

Something that contains no eggs, no sugar and no butter is hailed as the Victory Cake. Or maybe we've got the whole thing confused with the hunt for a rubber substitute.—Detroit News.

The difference between a folding chair and an antique chair is that the former is expected to fold when desired.—Greensboro (Ga.) Herald-Journal.

The new 40-mile an hour speed limit is going to relieve drivers of some of our older models of considerable embarrassment.—Peterborough Examiner.

McKENNEY ON BRIDGE

By Wm. E. McKenney, America's Card Authority.

SACRIFICE OF TRICK DEFEATS CONTRACT

In match-point play it is just as important to set a part-score contract as to defeat a game. Today's hand would be of no consequence in rubber bridge, for the difference between making and losing a trump would be only a few points compared to the game hands. But in the recent Eastern States women's pair event, this hand brought a top score to Ruth Sherman of New York, who was the East defender. West won the opening lead with the ace of hearts and returned the suit. North ducked and Miss Sherman won with the jack. Seeing North held the major tenace in hearts, Miss Sherman shifted to the singleton club. Dummy played the king. West the ace, and West continued with the jack. Dummy won with the queen, cashed the ace of diamonds and then led the five-spot for a finesse of the ten.

That put Miss Sherman in the lead again with the king of diamonds. Now she decided to keep North out of the lead at all costs. She led the king of spades, which was allowed to win. The queen of spades came next and dummy won. Dummy cashed the jack of spades, and here Miss Sherman was careful to play the nine-spot, so as to force dummy to hold the fourth round

with eight. This sacrifice of one spade trick forced dummy to give West his two club tricks, defeating the contract one trick.

If the hydrogen in a teaspoonful of water is converted into helium about 100,000 kilowatt hours of energy, or \$10,000 worth of electrical current, is set free.

A mountain can be weighed with a plumb line, by measuring the distance the plumb bob is pulled out of line by the mountain's attraction.

IN THE WOMEN'S SPHERE

OUTSTANDING WORK OF MERCY ACCOMPLISHED

Junior Welfare League Wrote
Records to Year Filled with
Records of Benevolence at
Annual Session Yesterday.

Reports covering the disbursement of approximately \$650, the distribution of 1,382 articles of clothing, 1,847 quarts of milk, the donation of 224 knitted and sewn articles to the V.O.N., layette cupboard, together with Christmas Cheer food and medicine provided after personal investigation, sums up but a part of the work achieved by the Junior Welfare League during the past year, as revealed at the annual meeting held at the Mackinon Memorial yesterday afternoon when Mrs. V. G. Southern, was again acclaimed President after three years of devoted service.

No blast of trumpets or street parades proclaim the noble work of the Junior Welfare League, which for upwards of thirteen years has quietly and unobtrusively ministered to the poor and needy, especially to children, but deep in the hearts of hundreds of its beneficiaries, golden memories of kindly help and cheer are forever enshrined.

The annual session over which

Mrs. Southern presided was brief, but during the several reports the members evinced by their attention and interest that to each and every one the League's work is of vital importance and is considered a sacred duty.

The minutes of the last annual compiled by Mrs. J. J. McKnight, were read by Mrs. C. P. Buckland and approved; following which the annual financial statement for the year ending April 1st, 1942, was presented by Mrs. E. N. Fidler as follows:

Receipts: Teas \$73.25, dues \$27, donations \$387.45, rummage sale \$39.75, bank interest, \$4.64. Total \$526.09.

Disbursements: Advertising \$3.20, cartage \$2.25, clothes: Fraser \$267, 88, Nault \$26.71, Zellers \$13.63, \$208.22, drugs \$4.05, flossers \$1.28, fuel \$4.53, furniture and repairs \$12.51, groceries \$20.50, gratuities \$29.50, the \$185.75, rent (Y.W.C.A.) \$17, shoe repairs \$9.60, stamps and stationery \$5.34, tea supplies \$6.75, wool and flannellette \$43.68. Total \$654.26.

Cash balance, April 1st, 1941, \$281.48, receipts for year \$526.09, Total \$807.57.

Disbursements for year \$654.26, cash on hand \$5. Total \$659.26.

Balance in bank, April 1st, 1942, \$148.31.

Mrs. Fidler also submitted a supplementary report of receipts and expenditures to date.

Mrs. Southern then announced from the chair that the annual grant from the city of \$200 would be forthcoming in the near future.

Mrs. Arthur M. Edwards, Convener for the League's Milk Fund, stated that there were now nine families on her list and that during the year just closed 1,847 quarts of milk had been distributed.

That the League Sewing Committee had made and handed over 224 articles to the V.O.N., was reported by Mrs. Earle Peabody, Convener. Mrs. Peabody also stated that wool and materials had been distributed to the members in order that this most important branch of the League's service might continue during the summer months.

Teas at the regular meetings are one of the League's sources of income, and Mrs. Frank Milne, Convener, reported twenty-four held during the past year besides the Christmas Toy Tea, over forty-eight hostesses acting on different occasions. To the members who so willingly assumed this responsibility, Mrs. Milne extended her grateful thanks, remarking that their cheerful acquiescence had made her duties a pleasant task.

The Store Room, which has been open every Tuesday afternoon from

December until the end of March, is perhaps, apart from personal visits to homes, one of the most arduous tasks in connection with the League's work, and Mrs. Southern, who in addition to her manifold duties as Chief Executive, assumes the major responsibility for the distribution and buying of all necessities, extended her personal thanks to all who had contributed towards the 278 new articles or the 1,104 used articles which included everything from stockings to blankets and quilts.

Toys and candy from the Toy Tea were given to each child on the League's list at Christmas time, and said Mrs. Southern, through the kindly and generous co-operation of the Women's Association of Plymouth Church, each child received a pair of lovely hand-knitted mittens.

To Mrs. Roy Stewart and to Mrs. S. B. Wood, the President was deeply grateful and to the latter she expressed special thanks for making skirts for little girls. In conclusion Mrs. Southern moved a special vote of thanks to the Board of Stewards of Plymouth Church for giving the League the privilege of using a room in the Church Hall for a Store Room.

Still another evidence of the President's indefatigable work is her personal supervision of the Welfare Work of the League, which consists of personal visits to homes and hospitals, where her sympathy and kindly ministrations bring relief and happiness to many.

Mrs. Southern spoke of the splendid co-operation existing between the League and the Ministerial Association, which especially at Christmas time had resulted in a fuller understanding and averted any overlapping.

To the Press, the President voiced her thanks and appreciation; and Mrs. Southern also read a letter from the Institute for the Blind, acknowledging a donation from the League, which by this action gave further proof of the scope and widespread interest of the members in every branch of philanthropic work.

"The success of the League is due to the untiring work of the members," said Mrs. Southern, as she paid tribute to each officer and convener of the several departments.

To the City of Sherbrooke, the Rotary Club, Mr. A. W. Kerridge and to the officers and members who had stood so loyally behind her, Mrs. Southern expressed her personal thanks and appreciation.

Mrs. A. A. Munster, who moved a vote of thanks to the retiring officers, paid high tribute to the indefatigable work done by Mrs. Southern, and said, "I am personally grateful that she has consented to carry on for another year."

For the election of officers, Mrs. Arthur M. Edwards took the chair, the slate prepared by the nominating committee being presented by Mrs. Earle Peabody as follows: Honorary President, Mrs. A. A. Munster; President, Mrs. V. G. Southern; First Vice-President, Mrs. B. N. Holtham; Second Vice-President, Mrs. John Hovey; Treasurer, Miss R. Leonard; Secretary, Mrs. N. T. Hunter; Counsellors, Mrs. A. Edwards, Mrs. G. Miller, and Mrs. O.

Social and Personal

Mr. and Mrs. Joseph Paulhus are leaving Sherbrooke today to take up residence in Montreal.

Mrs. J. A. C. Thomson has arrived from Truro, N.S., to visit her parents, Mr. and Mrs. W. G. Cross, Moore Street.

The engagement is announced of Beryl Audrey Mandigo, R.N., daughter of Mr. and Mrs. Dewart Mandigo, of Sherbrooke, Que., to George Barton Slater, of Montreal, Que., son of Mr. and Mrs. Frank Slater, of Sherbrooke. The wedding will take place in May.

Mrs. H. G. Evans and her daughter, Miss Jean Evans, are leaving Sherbrooke on Monday en route for Toronto to join Mr. Evans, who has been in residence there for the past year. Mrs. Evans will go directly to the Queen City leaving Miss Jean in Montreal, where she will spend a week visiting friends and upon her arrival in the metropolis will be a guest for a few days of Mrs. Don Henry.

Mrs. J. W. Buck entertained delightfully at a miscellaneous shower on Wednesday evening at the home of Mrs. H. Clark, Camfrant Street, in honor of Miss Beatrice Savage, a bride-to-be of the week whom many friends have feted. The early hours were enjoyably spent in playing games, the prizes being won by Mrs. Charles Gordon, Mrs. L. Dorey and Mrs. W. Billing. At the conclusion of the games, refreshments were served by the hostess, with Mrs. H. Clark doing the honors and Mrs. L. Dorey assisting. During the interim the bride-elect was presented with a shower of many miscellaneous gifts, all the pretty parcels being arranged for presentation in a large basket decorated in pink and white.

Miss Jean Evans, who is leaving Sherbrooke shortly for Toronto, was the raison d'être for a delightful party, given on Tuesday evening, by a bridge club, of which she has ever been a popular member, at Mr. and Mrs. E. M. Wiggitt's residence on Queen Street, where Miss Lois Wiggitt and Miss Betty Havard were joint hostesses for the farewell party. Bridge was played at three tables, and later on behalf of the club, Miss Wiggitt presented the guest of honor with a lovely set of costume jewelry, and voiced in an affectionate manner their regret at "Jean's" departure from Sherbrooke, where during the comparatively short time she has lived here, she has won a large circle of friends, all of whom will miss her sadly, especially the club members, who have so much enjoyed her companionship. Dainty refreshments were served by the hostesses with members of the club assisting.

Mrs. Percy Buckland, Worthy Matron of the Sherbrooke Chapter, I.O.E.S., convened a most successful farewell party, which was given at the Masonic Temple on Wednesday evening, in honor of two of the Chapter's officers, Mr. and Mrs. Joseph Paulhus, who are leaving Sherbrooke today to take up residence in Montreal. Games were enjoyed under the supervision of Mrs. Jack Imrie, and prizes were awarded to Mrs. Fred Williams, Mrs. Paulhus, Mrs. Bertha Hersey and Mrs. W. Marchant. On behalf of the Chapter, Rev. Fred Williams presented farewell gifts to both Mr. and Mrs. Paulhus, voicing the regret of all at their departure, especially the members of Trinity United Church, of which they had been devoted adherents since coming to Sherbrooke. Dainty refreshments were served and prior to dispersing Mrs. Mullin presided at the piano and the entire party united in singing "Auld Lang Syne," "God Be With You Till We Meet Again" and "God Save the King."

Members of the Thursday Musical were delightfully entertained for this week's recital by Miss G. Dube, Mr. Adrien LeBlanc and Mr. Romeo Labbe, at the former's home on Brewster Street. The program was exceptionally enjoyable and at its close dainty refreshments were served by Miss Dube and her assistant hosts. The musical numbers included: piano Duos, Menuet de la premiere symphonie (Beethoven), Miss Emilienne Cambron and Gilles Corbelle; vocal solos, Si tu m'ami (G. B. Pergolesi), and Chantant papillon (Andre Capra), Miss Kathleen Shea, accompanied at the piano by Mr. Sylvio Lacharite; piano solo, Seguedille (Isaac Albeniz), Mr. Corbelle; songs, Poique j'ai mis ma levee (Reynaldo Hahn), his elegant trois petits chats blancs (Pierre), Miss Shea; cello, Berceuse, (Hauser), Le cygne (C. Saint-Saens), Berceuse, "Joelynn" (B. Goddard), Gerard Benoit, with Sylvio Lacharite at the piano; piano solos, Sonate en la bemol majeur, Op. 28 (Beethoven), ler mouvement, Andante con variazioni by Miss Cambron.

R. Webster. When Mrs. Southern re-assumed the chair she thanked the members for her re-election and their expression of confidence. She referred to her work in the League as a duty, remarking that she would endeavor to uphold the faith shown by the members in her re-election as President.

After adjournment, tea and delicious sandwiches were served by the hostesses, Mrs. H. Clark and Mrs. Frank Milne, the pleasant social hour around the long tea table resembling a happy family re-union, truly symbolic of the splendid co-operation and pleasant relations existing between all officers and members who work so harmoniously together.

Friends of Mrs. James Wickham, Montreal Street, will regret to hear that she is a patient under observation in the Sherbrooke Hospital.

Sgt. Observer M. Neill H. Graham, R.C.A.F., who spent a forty-eight-hour leave at home with his parents, returned yesterday afternoon to Penfield Ridge, N.B.

Mrs. E. Hazen Drury, of Montreal, and her son, Lieutenant Colonel Morris Drury, of Toronto, are in Sherbrooke today to attend the funeral of the former's mother, Mrs. F. J. Austin.

Trooper F. H. Samuels has arrived from Debert, N.S., to spend the week-end in Sherbrooke visiting Mrs. Anna Lee and family at their home on Prospect Street, en route for Kansas, Mo., to visit his mother.

Mrs. A. D. Lindley entertained at bridge, mahjong and tea on Thursday afternoon at Mrs. Clifford Goodhue's residence in honor of her mother, Mrs. E. Martins, who is visiting her at her home on Ontario Street.

Mrs. Maurice Biron, who has spent the past week with her parents, Mr. and Mrs. Rudolph Becker, will accompany them when they leave Sherbrooke tomorrow en route for Ontario as far as Montreal, whence she will return to rejoin her husband at Sorel.

AW. 2 Frederica Bradley, R.C.A.F., W.D., who arrived here early yesterday morning, en route from Montreal, N.B., to Toronto, left this morning for the Queen City after spending the brief interim visiting her parents, Dr. and Mrs. F. H. Bradley.

Mrs. E. E. Goodenough entertained informally at three tables of bridge yesterday afternoon at her home on Quebec Street, in honor of Mrs. Rudolph Becker, to whom she presented a special gift prize. After the game tea was served, Mrs. Alex C. Ross doing the honors. Among the guests was the guest of honor's daughter, Mrs. Maurice Biron, of Sorel.

Mrs. George H. Carr gave a delightful luncheon-bridge at her home on Prospect Street yesterday in honor of Mrs. Albert W. Reid, whose departure from Sherbrooke is sincerely regretted by hosts of friends. Covers were laid for eight, the table being charmingly centered with lovely sweet peas in bud-vases. After luncheon bridge was played, the prizes being won by Mrs. W. W. Davey and Mrs. A. W. Reid.

Mrs. W. Wilfred Davey entertained delightfully on Wednesday evening at her residence on Walton Avenue for Mrs. Albert W. Reid, who is leaving shortly to take up residence in Ottawa. Bridge was played at two tables, the prizes being won by Mrs. R. Havard and Mrs. Frank Thompson. The hostess also presented a special gift prize to the guest of honor. Dainty refreshments were served at the conclusion of the game.

The 53rd Chapter, I.O.E.F., is sponsoring a card party at the Chateau Frontenac on Wednesday evening, April 29th. The following have already subscribed, Mrs. R. M. Loughheed, Mrs. W. Reid, Mrs. W. F. Foye, Mrs. G. Wilson, Mrs. Tomlinson, Mrs. Cuthbert, Mrs. Fred Paterson, Mrs. E. Soper, Mrs. F. Phelps, Mrs. T. A. Loughheed, Mrs. Dearborn, Mrs. E. Samson, Mrs. Grimes, Mrs. F. Cathcart, Mrs. E. Worby, Mrs. Rawlings and Mrs. A. Moore.

MARRIAGES

POIRIER-MAILHOT

Thetford Mines, April 25.—A very pretty wedding took place at the Parish Church of St. Alphonse in this city on April 18, when Miss Juliette Mailhot, daughter of Mrs. Emile Mailhot, of 60 Bennett Street, and of Mr. Emile Mailhot, of Thetford Mines, were united in marriage to Mr. George Emile Poirier, son of Mrs. Ernest Poirier, of 226 Johnson Street, and of the late Mr. Ernest Poirier, of Thetford Mines.

The ceremony was performed by Father Emile Poirier, cousin of the bridegroom, of St. Joseph, County Beauce. The sacred edifice was decorated with ferns and spring flowers, and the guests' pews were marked with bows of tulle and lilies of the valley.

The bride, who was unattended, was given away by her uncle, Mr. Philippe Mailhot, of Montreal. She wore a couturiere suit of Queen's blue, with blue fox furs, her only ornament being a pair of earrings, the gift of the bridegroom. She carried the same prayer book, with streamers and red roses, which her mother carried at her wedding.

The bridegroom was attended by his brother, Mr. Roland Poirier. The ushers were Messrs. Henri Louis Tanguay, cousin of the bride, and Lucien Baillargeon, brother-in-law of the bridegroom. During Mass solos were rendered by Mrs. J. E. A. Martineau, of Quebec, and Roselee Provencal, the bride's aunt. Mr. H. Bernier played a violin solo, Mrs. J. P. Lafontaine, organist of the church, was accompanist.

A reception at the Manoir Hebert was attended by about one hundred guests. The bride's table was centered with a beautiful wedding cake, and all the tables were decorated with spring flowers. The bride's mother, Mrs. Mailhot, was gowned in a black suit with

"ALL-DAY" FROCK FOR MATRONS

MARIAN MARTIN
Pattern 9986

Just what you're looking for—a smartly simple style that you can wear all day long; that you can make of inexpensive cotton! Pattern 9986, designed by Marian Martin, has gay details in a scalloped neckline, curved shoulder yokes and matching sleeve tabs. Up-and-down paneling in the front makes you slim and so do the long side bodice sections. The two-piece back takes a jiffy to cut and sew.

Pattern 9986 may be ordered only in women's sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 36 requires 2½ yards 36 inch fabric. Send twenty cents (20c) in coins (stamps cannot be accepted) for this Marian Martin pattern. Be sure to write plainly your size, name, address and style number.

Send your order to Sherbrooke Daily Record, Pattern Department, Sherbrooke, Quebec.

lynx fur, with corsage of Talisman roses.

Mrs. Poirier, the bridegroom's mother, wore a black gown, with tulle coat, and corsage of red roses.

Mr. and Mrs. Poirier left by motor for a trip to Montreal, Toronto and Niagara Falls. The bride wore a sea green coat with white fox collar, brown hat and accessories. On their return they will reside at 60 Bennett Street, Thetford Mines.

The out-of-town guests included Mr. Philippe Mailhot, Mr. Philippe Merin, Miss J. R. Robert, Mrs. E. B. Tetreau, Miss Alice Poirier, Miss Blanche Poirier and Mr. Harold Cole, of Montreal; Mrs. J. E. Gervais, Mr. and Mrs. Henri Kromstrom, Mr. Horace Morin, Mrs. C. H. Plante, Miss M. A. Plante and Mrs. J. E. A. Martineau, of Quebec.

Prior to her wedding, Mrs. Poirier was guest of honor at several social gatherings. Her grandmother, Mrs. Philippe Morin, entertained at a bridge, Mrs. Roselee Provencal had a cup and saucer shower; Mrs. Phillis Tanguay held a linen shower, and Miss Gerald Labrecque gave a party, at which the bride-to-be received a tri-lite lamp.

Plan your meals well ahead—three or four days if possible—and you can work in sugar-saving better than if you just work out a single day's food. In this way you can be certain that your family gets enough energy foods without much sugar over a period of time.

Butterscotch puddings or gelatin desserts with fresh or canned fruit added require no extra sugar.

RED CROSS NEWS

COATCOOK BRANCH

The Coatcook Branch of the Red Cross acknowledges with thanks the loan of a sewing machine from Mrs. Raymond Allard. Mrs. F. R. Sampson has also loaned a machine, as reported in a recent issue, and these machines will be of great help to the faithful workers at the Red Cross rooms.

Announcement is made that, owing to the voting to take place on Monday in the St. Jean Baptiste Hall, Red Cross work would not be done at the hall on that day. A great deal of work is on hand to be done, and more workers are urgently needed.

Work handed in at the Wednesday meeting was as follows: From Coatcook, sixteen bandages, two pairs of pyjamas, four hospital nightgowns; from Barnston, one dress, twenty-five bandages; from Compton, three hospital nightgowns, twelve abdominal bandages; from Hereford, four pink nightdresses, one pair of pyjamas. The gift of a quilt from the Coatcook Baptist Church is acknowledged with thanks.

Knitting received: From East Hereford, one girl's sweater, one pair of gloves, three amputation covers, four toe-caps, six caps, four pairs of mitts, six pairs of gloves, one sweater, ten tuck-ins, forty scarves; from Coatcook, thirteen scarves, twelve toe-caps, eight tuck-ins, seven amputation covers, two sweaters, one pair of mitts, one pair of convalescent socks; from Barnston, three scarves, one tuck-in, one toe-cap.

MIND YOUR MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1—Is it good manners for a woman to wear so much perfume that everyone who is in an elevator with her is conscious of it?

2—Is it good manners to invite yourself for a visit of several days?

3—If you are a house guest and feel yourself beginning to have a severe cold, should you cut your visit short?

4—Should a woman pack so as not to have to press something to wear

CRISP GOLDEN WAFFLES

2 eggs
1½ cups water
2 cups pancake flour
3 tablespoons melted butter
Separate the egg yolks and whites. Beat the yolks until very light. Add the water and stir into the flour. Add the melted butter. Lastly fold in the stiffly beaten egg whites. Bake on a hot waffle iron.

MAPLE APPLES

(A Chatelaine Institute Approved Recipe)

1 cupful of maple syrup
1½ cupfuls of water

6 apples

Boil the syrup and water together for one minute. Pare and core the whole apples, place in this syrup and simmer slowly until the apples are soft, then remove carefully to a serving dish. Boil the liquid until thick and pour over the apples.

as soon as she arrives on a visit?

5—Should a hostess tell a woman guest where she may press if she needs it?

What would you do if—

You have a headache on an evening when you have guests—

(a) Don't say anything about it?

(b) Say that you have a headache?

ANSWERS

1—No.

2—No.

3—Yes. Unless you don't feel well enough to travel.

4—Yes.

5—Yes, since so many women do not pack well.

Better "What Would You Do?" solution—(a).

No washing job is complete without...

SUNLIGHT'S

"EXTRA-SOAPINESS"
for the extra dirty parts

Aprons and smocks get dirty in front where you brush up against furniture or the stove.

Few things get grimmer than children's school clothes. And the dirt sticks tight!

CLOTHES get badly soiled in the same difficult places week after week. Any soap—flakes, powders, or bar—will remove the ordinary dirt. But you need Sunlight's "extra-soapiness" for those special places where the dirt sticks tightly. The reason is that Sunlight Soap is exactly suited for giving an extra soaping to the very dirty spots. Its wonderful "extra-soapiness" allows you to get right on to the real dirt at once—and without hard rubbing. Just apply Sunlight lightly—scarcely more than a mere touch—and you leave a film of soap right in contact with the dirt. As

the clothes are washed this soapy film lathers instantly into rich suds that speedily loosen the dirt and remove it entirely. That's the Sunlight method of washing—a positively sure way of getting your clothes spotlessly clean all over with perfect safety. You don't have to scrub a bit.

You'll find house cleaning, the weekly and the day-to-day washing, all the easier when you have Sunlight's "extra-soapiness" to help you. And you'll save money as well, for Sunlight's purity safeguards the finest and most delicate materials—protects your hands, too.

You can't do without

About a century ago, many well-informed persons believed that the greater portion of the Western United States was uninhabitable.

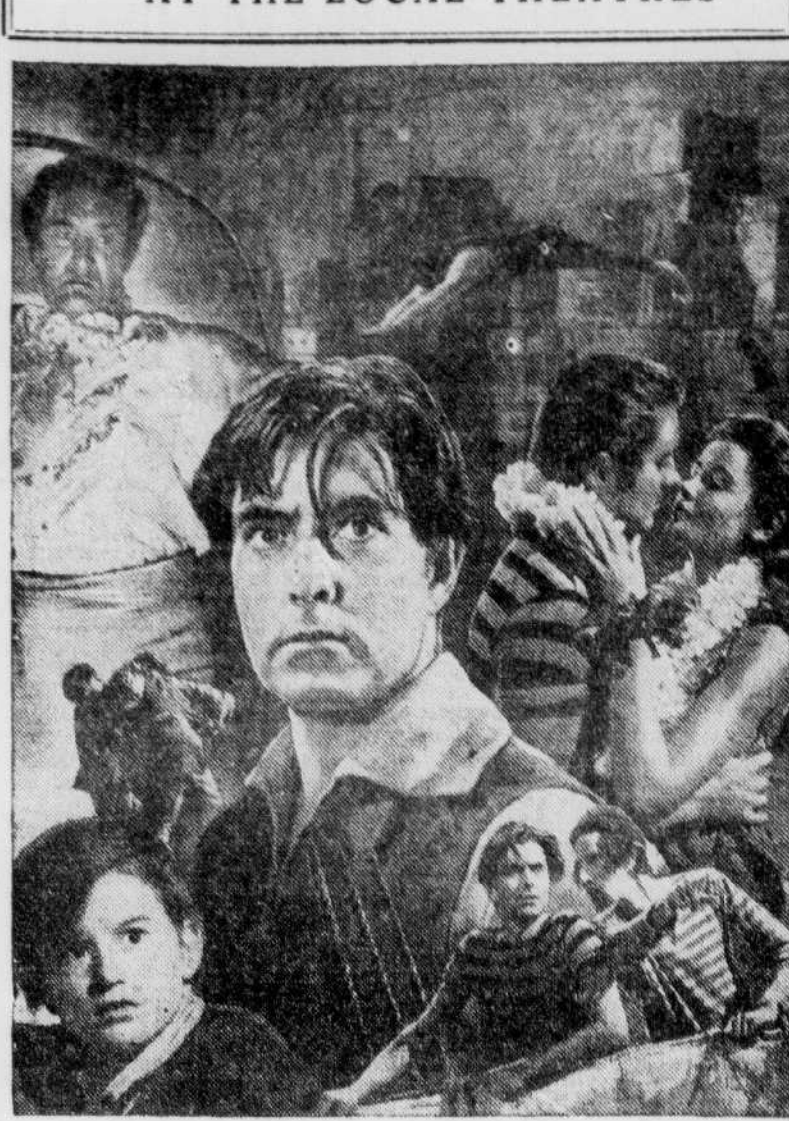

KING OF THE ROYAL MOUNTED.

BRINGING UP FATHER.

AT THE LOCAL THEATRES

Tyrone Power starred in "Son of Fury," which begins today at the Granada Theatre.

Ralph Bellamy, who is starred in "Ellery Queen and the Murder Ring," which begins tomorrow at the New Premier Theatre.

At The Granada

Spanning three continents and the Seven Seas, "Son of Fury," the story of Benjamin Blake, is the story of a man who battles the world for his birthright. Starring Tyrone Power in the title role, the filmization of Edison Marshall's best-seller, "Benjamin Blake," contains the adventures of ten lifetimes. It starts today at the Granada.

A top-flight cast was assembled, including Gene Tierney as the alluring native girl; George Sanders who portrays Tyrone's vindictive uncle; gorgeous Frances Farmer as Tyrone's English sweetheart; and Roddy McDowall as the youthful Blake.

Camera crews were dispatched to the South Seas to photograph authentic scenes, and an accurate replica of the old port of Bristol takes shape on the Studio's back lot. A complete torture ship of the early 1800's was built as John Cromwell put the cast through its rigorous paces.

Also featured in the cast are John Carradine, Elsa Lanchester, Harry Davenport and Dudley Digges. The cast is said to turn in unusually fine performances with credits spread evenly throughout.

The added attraction at the Granada is one of the best British comedies to come to the screen in some time, "Let George Do It," starring dars occur before the super-sleuth is

George Formby. In the belief—a belief not necessarily held by everyone in the business—that wartime films must have a wartime setting, and that patrons of comedy want to be kept in full view of their graver problems, George Formby's producers have herein cast him as a misfit adventurer in an international spy incident.

At The New Premier

Latest in the sensational series of Ellery Queen crime films, "Ellery Queen and the Murder Ring," which begins tomorrow at the New Premier Theatre, is one of the most absorbing mystery dramas of the season. Ralph Bellamy again appears as the famed amateur sleuth of fiction, radio and screen, with lovely Margaret Lindsay returning as Nikki Porter. Ellery's man-hunting secretary who doesn't particularly care whether she catches Ellery or a murderer—but prefers Ellery! Other familiars are Charley Grapewin, as Inspector Queen, and James Burke, as Sergeant Vele.

"Ellery Queen and the Murder Ring" begins with a fatal operation, necessitated by an automobile accident, upon a wealthy Wall Street widow—but prefers Ellery! Other familiars are Charley Grapewin, as Inspector Queen, and James Burke, as Sergeant Vele.

SOUTH BOLTON

Mr. Garnet Glen Wedge, of this place, was married to Miss Iris Nellie Armstrong at the Rectory in Knowlton by Rev. A. E. Rollitt. The bride was becomingly gowned in blue. They went to Montreal for a short honeymoon before Mrs. Wedge returned to her school at Coledige. When the term is finished they expect to reside in their apartment, which has been newly decorated and finished by Mr. Wedge. Their many friends join in wishing them a long and happy life.

Mrs. E. Bracey is visiting relatives in Eastman.

Inspector Wells visited the school here.

Mrs. L. Davis and infant son are home from Magog. Her sister, Miss Burnham is spending some time with her.

Mrs. F. Willey, Miss A. Willey and Mr. R. Davis spent the weekend in Currier, visiting Mrs. Willey's mother, who has suffered another shock.

Mr. W. Durrell was in Knowlton. He was accompanied home by Mr. F. Durrell, who spent the night with him, before going on to visit his sister, Mrs. Schoolcraft, and family.

Guests of Mr. and Mrs. W. Durrell were Rev. Davies and son, of Waterloo, and Mr. R. F. Cowan, of Mansonville.

Pte. H. Bracey, of Farnham, and Mrs. H. Bracey, of Magog, were overnight guests of Miss F. Bracey.

Miss M. Snowe, of Sherbrooke, was a guest of Mr. A. Lane, of Magog, and Mr. E. Crawford, of Sherbrooke, were in town and reported that their son, Pte. A. Crawford, is ill with pneumonia again in Hamilton, Ont. His many friends wish him a speedy recovery.

Mr. and Mrs. Robert Lavery and son, Ronnie, of Chambly Basin, were weekend guests of Mr. and Mrs. S. Barnes. They were accompanied home by Miss R. Barnes.

Mr. and Mrs. K. Younges, of Magog, visited his mother in Potton.

Mr. C. C. Davis spent the weekend with Mr. B. Davis in Magog.

Mr. and Mrs. D. Taylor were guests in Granby.

Little Colin John Atkins was christened after the service on Sunday afternoon. Messrs. H. Lane, W. Durrell and Mrs. J. Atkins acted as god-parents.

Mr. and Mrs. H. Davis, of Millington, were guests of Mr. L. Davis and family.

Mr. B. Tracey visited Mr. W. Burbank in Coledige.

Friends of Mrs. W. Mills, of Coledige, were pleased to know that she was able to return home from the hospital and is gaining.

Mrs. C. M. Clark and Mr. A. C. McManus, of Sherbrooke, were guests of Mr. and Mrs. J. M. Cameron. Mrs. Clark is staying on for a week's visit.

Messrs. C. Randall and G. St. Pierre were business visitors in Magog.

Mrs. A. O'Reilly, of Montreal, is visiting relatives here for a few days and with Mr. E. Taylor, called at "Highland Farm."

able to pin his finger on the guilty individual.

In his investigations, Ellery tangles with a band of gunmen, with hospital and police routines, and with suspects galore. Nikki, who conducts her own private investigations of the crimes upon which Ellery is called in, spends most of her time tending with her boss.

The other picture is "Stagecoach Express," starring Don "Red" Barry.

Covering an area of 693 square miles, London is the world's largest city in area.

A Vote For The Plebiscite Is Not A Vote For Conscription

The following is the text of a radio address by Brooke Claxton, K.C., M.P., entitled "Be a 'Yes' Man For Canada."

As I speak to you tonight about the plebiscite, you are sitting at home in safety and, I hope, in comfort. I ask you to think of that comfort and safety. Contrast your position with the position of the people in every country in Europe and in most of the countries of the world. We, citizens of Canada, have reason to be grateful for our good fortune in being Canadians and for being in North America. We can be grateful for the fact that other people and our own Canadian forces have thus far been able to keep the enemy from our shores. When you are considering this plebiscite question, remember that the only way the enemy can be kept from our shores is by action outside of Canada. I mention this at the outset because those who want a "No" vote try to make out that the only place to defend Canada is in Canada. Of course Canada should be defended in Canada; but that is not our first line. It is our last line. This misunderstanding of what is in the best interests of Canada is the only reason I know for any conscientious Canadian contemplating a "No" vote.

But first, on what do we vote? On Monday, the twenty-seventh day of April, the electors of Canada will be asked to vote "Yes" or "No" on a single question. The question is: "Are you in favor of releasing the Government from any obligation arising out of any past commitments restricting the methods for raising men for military service?"

This is not a vote for or against holding the plebiscite. Nor is it a vote for or against conscription. It is a vote on whether the Government shall be free to take all measures necessary to defend Canada wherever it is best to defend Canada.

Every Canadian must now see that we are fighting for the future of Canada and that our fate and the fate of humanity hang in the balance. We fool ourselves if we do not recognize that the fate of Canada depends on how much is put into the fight by Canadians and by Canada's Allies, and that it depends on nothing else. The question each of us must ask himself is: Will I most help my country to face whatever lies ahead by voting "Yes" or by voting "No"? To that question only one answer can be given by anyone who believes this war is worth fighting and winning. I am speaking to you because I believe that it is in our interest that a "Yes" vote should be given. Like every other Canadian I want more than anything else in the world to see a united Canada emerge from a victorious war.

DEFENCE OF CANADA—DEFEAT THE AXIS

Here's what a "Yes" vote will do. A "Yes" vote will strengthen the Government in defending Canada. We entered the war because we felt our interests were at stake; but many of us did not feel that our very existence was at stake. Since 1939 and 1940 the whole basis of our position has changed. Hitler has overrun Europe. Japan has swept through the Pacific. This is a desperate struggle for survival. No one can now doubt that if Hitler and Japan win, Canada would be their most coveted prize. We know that no nation can be strong enough to stand alone. To meet the danger the United Nations was formed in January, 1942. This is one of the United Nations. Today the enemy is being kept away from Canada by the action of the United Nations—in China, in the Southern Pacific, in India, in the Middle East, in Russia, in England and on the Atlantic. If these fronts go we shall have to fight the Germans and the Japanese on Canadian soil.

It is sheer and utter nonsense to suggest (and it is being suggested) that Canada is in this war to maintain any selfish or imperialistic interest. For Canada, as for everyone of the United Nations, this is a war of defence against aggression. We are in the war to defend our shores and our homes just as much as if they were the homes of Englishmen in London or Australians at Darwin.

Today, Canada is being defended wherever there is a front against Hitler and Japan. On entering the war did the United States sit down behind their own coasts? Some elements in the United States thought they should, but the United States changed the draft law so they could send men out of the country. American troops are serving in Australia, India, Burma, even in the British Isles. The British did not sit in their island fortress waiting for the enemy to come to them. Britain has more men fighting out of England than she has ready to fight in England. If every ally only fought at home the war would have already

been lost. Yet the main argument of those who want a "No" vote is that Canada's forces should be kept at home, as if defence of Canada were the same thing as defence of Canada. Nothing would have served the enemy better than to be able to terrify all nations into keeping their forces at home. Then each nation would have been separately defeated and separately destroyed.

The plain fact is that we shall not be safe until the enemy is defeated. While we can't say where the best place for us to help in defeating the enemy is going to be, we all want that place to be a long way from Canada. Where can we best use our resources to defend Canada by defeating the enemy? Those who urge a "No" vote are downright on it. They take the position that in no circumstances shall men drafted to defend their country make that defence before the enemy comes to Canada's shores. That is the position they take. Are you willing to base your security and the safety of your homes and families on the experience, knowledge and judgment of the people urging a "No" vote? They take an awful responsibility on their shoulders. They put the fate of Canada on the shoulders of a few men. The local Boy Scouts were stage managers, and Mr. A. E. W. Godwin acted as chairman. The net proceeds amounted to \$26.10.

Prizes were given for those holding the lucky admission tickets, and these were as follows: Adult's ticket, a bag of flour was won by Mrs. Arthur Ward, Bury; children's ticket, War Savings Stamp, won by Mrs. Estelle Marshall, Bury. Prizes were also given to the children selling the most tickets, and these were won by Miss Shirley Loveland, and Bobbie Noble.

The following very enjoyable programme was presented in a manner which won the enthusiastic applause of the audience, and which did credit to Mrs. Donahue and her pupils. Opening chorus, "Hello, Hello!" by the entire cast, accompanied by the Rhythm Band, under the direction of Mrs. Labonte. Chalk talk, by Mrs. Donahue, Waltz (clog dance) by Shirley Loveland; Irish jig, by Mrs. Ira Henderson, of Sawyerville, and Miss Gloria Coates, of Bury. Comedy song, with original verse, "Let's All Sing Like the Birdies Sing," E. Phyllis Donahue, accompanied by the Dainty Dancers. Several selections were given by the Rhythm Band, while the stage was being prepared for the next number, which was a classical Greek dance, entitled "Narcissus." Mr. Godwin gave a brief description of this number, explaining that Narcissus was a very vain boy who was so fond of admiring his reflection in the pool, that the Greek gods turned him into a flower, so that he would remain constantly by the pool. Those taking part as the dancers were Anne Ward, Gloria Coates, Patsy Webster, and Claudette Lapointe, of Bury; Barbara Kees, Doris Mackell, and Phyllis Donahue, of Cookshire, and Shirley Loveland, of Sawyerville.

While the flowers in the pond were Connie Bryant, of Bury, Iris Henderson, and Vivian Henderson, of Sawyerville.

The Dutch Clog dance was given by Barbara Kees, of Cookshire, and Iris Henderson, Sawyerville. "Rag" (picture of home) was given by E. Phyllis Donahue, who also gave a short address in which she appealed for the support of the Red Cross.

Song selections were given by Gloria Coates, of Bury, and Doris Mackell, of Cookshire, the former accompanying on the guitar.

Comedy dances were presented by E. Phyllis Donahue, including the Comedy Waltz Clog, Black Bottom, Tap Charleston and Trucking Jitter Bug. Mrs. Donahue explained that these dances were originally Irish Jigs and Reels, done to the music of African Rhythm.

The programme concluded with "The Highland Fling," by the entire cast, after which a card party was held, at which the prize winners at bridge were Mr. and Mrs. Alex Babin, and the winners at "500" were Miss Sumner Labrecque, and Mr. Philip Tremblay.

General Notes
Mr. Ernest Johnson, of Kamloops, B.C., who has been spending several weeks with his brother-in-law and sister, Mr. and Mrs. Robert Tannahill, was also a visitor at the home of his nephew, Mr. E. M. Tannahill.

Messrs. E. M. Tannahill and Ernest Middlemiss entertained at a sugaring-off at the former's camp. About one hundred friends from Randboro and Sawyerville were present, and all reported a most enjoyable evening.

The many friends of Mr. I. E. Lobdell are sorry to learn that he is a patient in the Sherbrooke Hospital, where he has undergone an operation. All join in wishing Mr. Lobdell a speedy and complete recovery.

Mrs. A. Joseph Donahue, of Cookshire, was a guest at the Anglican Parsonage during preparation for the concert, which was presented for the benefit of the Red Cross.

Rev. A. E. W. and Mrs. Godwin entertained the dancers from Bury and Cookshire, at dinner before the concert. Mrs. Kenneth Bryant, of Bury, was also a guest at the same home.

Miss Dorothy Palmer, who has completed her nursing course at the Sherbrooke Hospital, is spending a few weeks at her home here, prior to her graduation, which will take place next month.

Graniteville
Mr. Hugh Melness, of Springfield, Vt., and daughter of Katharine, of Derby, Vt., spent a day at the home of his parents, Mr. and Mrs. Donald Melness.

Dawson and Murray Smith, of Beebe, spent the week-end with their grandparents, Mr. and Mrs. J. H. Smith.

Pte. George Mann, of Debert, N.S., spent a few days with his parents, Mr. and Mrs. George Mann.

Mr. and Mrs. W. C. Duncan have returned to their home at Gline's Corner, after being absent the past year.

Because of the large number of congressional bills he vetoed, Andrew Johnson, former President of the United States, sometimes was called "Sir Veto."

BE A "YES" MAN FOR CANADA!

NEWSPAPER RAISES PRICES
Newburyport, Mass., April 25.—(P)—The Newburyport Daily News will increase its price from two to three cents a copy on Monday. The newspaper said the increase was being made because of rising production costs and declining advertising volume. The News has sold for two cents since the First Great War.

CONCERT HELD FOR RED CROSS AT SAWYERVILLE

Members of Dancing Classes at Cookshire, Bury and Sawyerville Presented Splendid Entertainment.

Sawyerville, April 25.—The concert held in the I.O.O.F. Hall, for the benefit of the Red Cross was given under the capable direction of Mrs. A. Joseph Donahue, of Cookshire, and the cast consisted of members of her dancing classes, at Cookshire, Bury and Sawyerville, assisted by the Rhythm Band, comprised of pupils of the primary classes of the Sawyerville High School, under the direction of their teacher, Miss Eleanor Labonte.

The local Boy Scouts were stage managers, and Mr. A. E. W. Godwin acted as chairman. The net proceeds amounted to \$26.10.

Prizes were given for those holding the lucky admission tickets, and these were as follows: Adult's ticket, a bag of flour was won by Mrs. Arthur Ward, Bury; children's ticket, War Savings Stamp, won by Mrs. Estelle Marshall, Bury. Prizes were also given to the children selling the most tickets, and these were won by Miss Shirley Loveland, and Bobbie Noble.

SALVAGE GROUP IS REORGANIZED AT COWANSVILLE

Town Divided into Ten Districts with Local Committee in Charge of Each—R. A. Hanson Chairman.

Cowansville, April 25.—The local salvage committee has been reorganized with Mr. R. A. Hanson appointed as chairman, and Mrs. E. A. Boisvert on behalf of the women's section.

There has been a tremendous amount of organization work to get the various departments and committees functioning, and this has been accomplished.

The town has been divided into ten districts with a local committee in charge of each and a district warehouse selected in each locality.

Cards have been printed showing what is required and how to prepare it. These will be distributed to every household and business man by the district committee members, who will explain how and when to have salvage ready for collection.

This is one of the most important details in connection with salvage work as it is entirely voluntary. It is therefore essential that this work should spread out as much as is reasonably possible.

The cards will be distributed with in the next few days and the committees will be prepared to start collections and to receive goods at the local depots by Saturday, April 25.

FRIENDLY SOCIETY'S ACTIVITIES
A very successful tea and food sale was held in Trinity Church Hall, under the auspices of the Friendly Society.

Quantities of beautiful carnations and other flowers were used for decoration. A supply of home-made cooking was very quickly disposed of.

General Notes
Mrs. C. Rollet, of Stanbridge East, is a guest of her daughter, Mrs. G. A. Barker, and family.

Mr. and Mrs. M. Coradi and son, Richard, have left to make their home in Rhode Island State.

Mr. J. Cushman, who has been associated with Bruck Silks for the past fifteen years has resigned and is leaving shortly for Bridgeport, Conn., where he and Mrs. Cushman will make their home in the future.

Mrs. Gordon Scott conducted the first in a series of Home Nursing classes at the Bruck Recreation Club.

A large piece of the cement portion of the dam has been broken off by the high water in the river here, and the flow has been reduced to almost summer level.

Mrs. C. Buchanan spent a day in Dunham.

CHURCH HEADS DEMAND WAR ON FRANCE, SPAIN

Four Hundred Protestant Church Leaders in U.S. Urge Direct Action to Assure Defeat of Axis Forces.

New York, April 25.—(P)—A petition urging the United States and Britain to declare war against the Vichy and Franco Governments was signed by more than four hundred Protestant Church officials, editors of Protestant publications and presidents of colleges with Protestant affiliations.

It was sponsored by Kenneth Leslie, editor of The Protestant Publication.

Dr. John A. Mackay, President of Princeton Theological Seminary, was one of the signers of the petition which called for an attack "on the Nazi hub of the Axis through the Fascist spokes."

Among those listed as signers were Dr. Louis Annin Ames, President of the American Churches of America; Bishop James Cannon of Richmond, Va.; Rt. Rev. Robert B. Gooden, Suffragan Bishop of Los Angeles, Calif.; and Bishop L. H. King, Methodist Bishop, Atlanta, Ga.

THEY DID NOT WAIT TO BE ATTACKED.
Leonidas at Thermopylae: In 480 B.C., Leonidas of Sparta had to hold Thermopylae pass against the large army of Xerxes, the Persian invader. Hearing that the foe would attack him from the rear, too, Leonidas sent a force to repel them.

THEY DID NOT WAIT TO BE ATTACKED.
Napoleon's Old Guard: "The Old Guard" died—but never surrendered. It has become a symbol of prideful last ditch battle. Napoleon's Old Guard was a body of picked troops whose fighting qualities and fierce devotion to their Emperor became legendary. The Guard fought in many campaigns, ending its career in a fight-to-the-finish stand at Waterloo.

FOR THE YOUNG PEOPLE

Margy's May Pole

DEAR MEN!" said Margy. Her chubby little legs were having a time of it keeping up with Sister Susie and Brother Bob, who scrambled about in the pretty wooded pasture.

It was the first of May and the children had come to gather flowers for a May Day frolic with their little friends. There would be a King and a Queen of May, so Sister Susie said, who were to be crowned with flowers. There would be a May pole, too, all gay with ribbons and flowers to dance and sing around. It would be most splendid fun. Margy could hardly wait for the afternoon.

Margy, clapping her hands. "Of course, you should have a Maypole because all the pretty things belong right here around your very own house."

"I'm glad you think I should have one," Mrs. Birdie replied. "I just feel like singing and dancing today!"

"Dancing?" Margy asked. "How do you do it, Mrs. Birdie? On your little feet like people do?"

"Of course not. I do it with my wings, like this," and Mrs. Birdie began skimming round and round, dropping and turning most gracefully.

"How pretty," Margy admired.

streamers. They made charming ribbons, pink and white and purple, brave yellow and blue, all woven together rainbow fashion. Margy fastened them to the little tree shoot while Mrs. Birdie went off to call her friends.

Soon with chirruping and fluttering the birds came. Margy felt so happy to see the dear, bright-eyed, feathery creatures near her. Each little bird took hold of one of the streamers. There were plenty of them, too. So many, in fact, that when a shy little fellow in a striped furry jacket came scurrying down from Chipmunk Hole to join the fun, there was a ribbon for

"This Is How We Dance In May. Dance In May, Dance In May!"

The children had come to gather flowers in the morning—and there they were, pretty wild blossoms, whole beds of violets, stout yellow dandelions, buttercups, daisies, blue-bells—a whole world full of spring flowers! But Margy was tired.

"Dear me!" she said again in a plaintive little voice. "Sister Susie, can't I just rest a wee little bit?"

"Of course," Sister Susie agreed. "Poor little Margy, you sit right down near this nice big tree so I'll know where to find you!"

She settled Margy comfortably in the great roots of a spreading beech tree. "Here are my flowers, too. Take care of them for me, won't you, Margy? I'll have some more in a jiffy."

Margy nodded her head gathering up the flowers carefully in her little skirt as Susie ran off to pick some more.

What a lot of flowers there were! Pink and purple, white and yellow, they lay in Margy's lap like a beautiful carpet. Overhead the leaves whispered together and little bird voices chirruped happily.

Margy scarcely heard the voices at first but gradually it seemed she heard words—yes, really-true words.

"I think I shall take this apartment," said a small sweet voice overhead. Margy was sure it was a bird.

"Oh, no! do come this way!" came a rustling whisper from a neighboring tree.

"Yes, yes," said the beech. "It is a lovely apartment. Stay, do! I am such a big strong tree nothing can hurt your little nest among my great branches. My leaves will keep off rain and sun. Look at my beautiful silver bark, too!"

Margy jumped up, holding her skirt full of flowers. Yes, it was the tree talking, and there was a little brown bird perched on one of its branches. The bird gave quite a start when Margy moved. She peered down from her leafy perch.

"Who is that?" she asked. "A little girl, I see."

"My name is Margy," the little girl answered. "I wondered who it was talking up in the tree. I think it's wonderful to have a house up in a tree, isn't it, Mrs. Birdie?"

"Sweet!" cried Mrs. Birdie. "I should say so. And good Mr. Beech charges only twenty cents for the rent. Why, I have dozens more than that in my repertoire!"

"How very nice," Margy replied just a bit puzzled about the repertoire. "I suppose it is like a music cabinet," she thought to herself.

"Now, what are you doing, Miss Margy, with all those flowers? Building yourself a nest?" asked Mrs. Birdie.

Margy laughed. What a notion to be sure! But she explained politely that the flowers were for the May Day party.

"There will be a King and a Queen and a Maypole," she told Mrs. Birdie.

"What is a Maypole?" asked Mrs. Birdie.

Margy described the Maypole with its long, gay ribbons each for a dancing child to hold.

"Well, that is fun," said Mrs. Birdie. "I'd like a Maypole myself. Don't you think you could make me one? I'll call Mrs. Robin and the Misses Linnell."

"Oh, that will be fine!" cried

"I do wish I could dance that way. But now I must find a pole for the Maypole. What do you think would do, Mrs. Birdie?"

"There is a little shoot right near you, it is still asleep and so straight, it might do, don't you think so, Margy?" said Mrs. Birdie.

"We'll make the ribbons," cried out little voices and much to Margy's surprise, the flowers began stirring in her lap, winding about each other's stems to make long

him. There was a ribbon, too, for a small, gray bunny, who hopped out, timidly twiddling his ears, and one for old, blind Mr. Mole, and the Squirrel twins and funny Mr. Frog.

What an odd party it was, to be sure! But what fun they had! Margy sang for music, clapping her hands to keep time, while her little friends danced and sang with her.

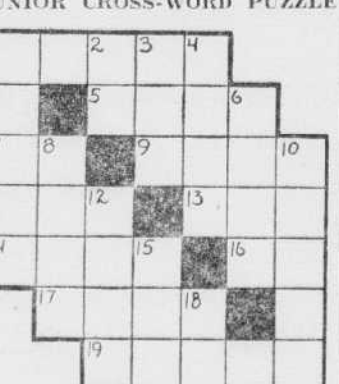

"This is how we dance in May,"

Puzzle Corner

Cut out the black pieces and if you put them together in the proper order you will have a picture of the Queen of May.

JUNIOR CROSS-WORD PUZZLE

FRACTIONAL POET

- Add together:
- 1/4 of tardy.
 - 2/7 of a province of Canada.
 - 1/5 of to watch over.
 - 1/3 of a part of an auto.
 - 2/3 of a house addition.
 - 2/5 of possessed.
- and find the name of a famous poet.

BEHEADING ACROSTIC

The letters beheaded, arranged in order, form the name of a pleasant time of year.

Behead masculine and leave a beverage.

Behead large monkeys and leave a foot-like organ.

Behead a period of time and leave a corn-spike.

Behead a small pastry and leave skill.

Behead Persia and leave moved swiftly.

Behead the fleshy part of an animal and leave fine.

Behead an English school and leave a weight measure.

FOUND IN SOUTH AMERICA

Two prophets, a female relative, six girls names, six boys names, six animals, a boat, frighten, two flowers, two vehicles, a month, an insect.

BOY SCOUT DIAGONAL

One of the necessary qualities for a boy scout will be found by beginning at the first letter of the first word and proceeding diagonally downward to the last letter of the last word. (Nine letter words.) The crosswords are: 1. A company of musicians. 2. Plenty. 3. A United States president. 4. A wading bird. 5. A tempest. 6. Broken to pieces. 7. Warned. 8. To build. 9. A fruit.

OUR MAY QUEEN!

(To be colored with paints or crayons. Whenever you come to a word spelled in CAPITAL letters use that color.)

LITTLE YELLOW-haired Susie May is crowned the Queen of May with a crown of BLUE and PURPLE (use RED lightly) flowers

twined together with little GREEN leaves. Her scepter is a lovely pale PURPLE cosmos with a heart of bright YELLOW. It has a tender GREEN stem and curling GREEN leaves. Susie May's bracelet is of little BLUE flowers and GREEN leaves. Her frock is light PURPLE trimmed with bands of light GREEN silk ribbon. Her sash and slippers are dark PURPLE and her socks are light PURPLE.

Teddy wears a white blouse with a bright RED bow tie at his collar. His pants are BLUE with large white buttons. He has light BLUE socks which have RED bands at the top and bottom of the cuffs. His shoes are BROWN.

Behind the May Queen stands a GOLDEN (paint it bright YELLOW if you haven't GOLD) basket of

your favorite May flowers!" says BROWN-haired Teddy kneeling on the GREEN grass before Queen Susie May.

The basket is tied with a PURPLE ribbon and the flowers are PINK and YELLOW Primroses and PINK and YELLOW roses and BLUE forget-me-nots with narrow GREEN leaves.

Teddy wears a white blouse with a bright RED bow tie at his collar. His pants are BLUE with large white buttons. He has light BLUE socks which have RED bands at the top and bottom of the cuffs. His shoes are BROWN.

Behind the May Queen stands a GOLDEN (paint it bright YELLOW if you haven't GOLD) basket of

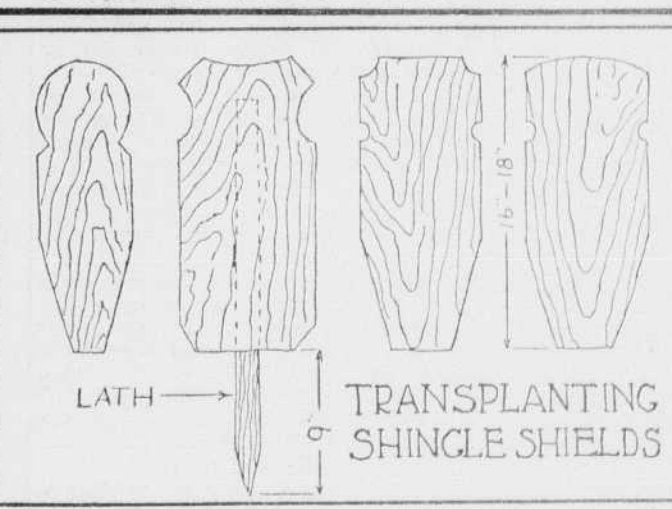

the way Maypole twisted with many colored ribbons, PINK, BLUE, ORANGE (use RED and YELLOW mixed), GREEN and light YELLOW.

The house has a GRAY (use BLACK lightly) slate roof and tall RED brick chimney. The sides of the house are PINK. There are light YELLOW curtains in the window. A dark GREEN evergreen tree stands beside the house. A bright YELLOW flower is in the grass. The sky is BLUE.

Paint the border of this picture RED and the lettering BLUE. Both children have PINK cheeks and RED lips.

The HANDY BOY AT HOME

BY CHARLES A. KING.
STATE NORMAL SCHOOL, PLYMOUTH, N.H.

FEW gardeners, in transplanting delicate plants, have not been troubled to protect them from the wind, too hot sun or from a driving rain. Shingles make excellent guards for this purpose. Select as

many as needed from 6" to 8" wide and point the thin ends so they may be pushed into the ground at the place and at the angle which will best protect the plants. It will be time well spent.

Plain shingles will answer the purpose; if extra height is desired a pointed piece of lath may be nailed upon one side as indicated. However, many garden lovers deplore the dead colors of a garden in the making and would be glad to relieve it. This may be done by shaping the shingles to a number of simple designs by using a coping, scroll or hand saw and painting them in various brilliant colors. Not only will they furnish color to an otherwise uninteresting piece of ground, but the paint will protect the shingles and make it worth while to take care of them with the idea of using them again next year.

THE doors of your ears must be shut against bad language and evil advice.

"The doors of your lips must be shut against unpleasant words and untrue saying. Your lips need constant watching for they guard the tongue which is frequently unruly. Your lips might blow open at unguarded moments and vulgar words may escape." Uncle Tom was silent to allow his words to sink into Jack's brain, but the boy was interested and asked: Aren't there any more doors?"

"Yes," answered his Uncle. "I had almost forgotten the most important one. It is the door of your heart. Guard it against all temptations. This door has a keeper, but very often the keeper is found napping, and then everything goes by sides and severs. I'm sure you have heard his name before. It is Conscience, and unless you give him your very best of attention he will wander just like my cows and horses and chickens."

Jack quickly interrupted his Uncle and said: "Please don't remind me of my shortcomings. I mean to guard all my doors after this."

Jack quickly interrupted his Uncle and said: "Please don't remind me of my shortcomings. I mean to guard all my doors after this."

Jack quickly interrupted his Uncle and said: "Please don't remind me of my shortcomings. I mean to guard all my doors after this."

A Feathered Fish Warden

THIS big headed bird looks something like an overgrown blue Jay, as the clothes he wears are blue, black and white. When he gets excited, and he is that way most of the time, he raises the long, loose feathers on his head until they stand up like the things kings used to wear—crowns. I think they called them. Maybe that is how he got the name of Kingfisher, or maybe he won it by being the best fisher of the mall—the king of fish, anyhow everybody calls him a Kingfisher.

He is certainly a fisher all right, and unlike his human competitor, he does not have to sit down and wait for the fish to bite, but when he sees a fish, he plunges in and does the biting himself.

Somehow he has gotten it into his head that all that part of the stream that he patrols is his individual property, as if he had bought and paid for it, and as far as in him lies he is not going to let any Tom, Dick and Harry do any fishing there.

If the intruder happens to be a crane, a loon or a dipper, he sails in and makes things so lively for them that fishing is out of the question. If it is a man or boy he will light on the nearest snag, and give them a piece of his mind; and his language is positively insulting.

Between rattles, he will tell him just what he thinks of a person who tries to steal his fish, right before his eyes; and he gives the intruder to understand if he were only nearer his size, he would pick him up by the scruff of the neck, and the slack of his pants and pitch him in the deepest hole in the river. But if the fisherman pays no attention to his ravings, he will gradually quiet down, and go to fishing himself.

When he settles down to the day's work of fishing, he takes a position on a limb over the water, and gazes intently down, cocking his head from side to side in the most knowing manner. All at once he drops from his perch and hits the water with a splash, and for an instant disappears from sight. When he comes up it is generally with a fish cross-ways in his bill. Flapping slowly to his favorite eating place he prepares for the great adventure of getting that fish safely down his throat. The first thing he does is to give it an upward toss and catch it by the head when it comes down. By that time the fish's troubles are about over, but the bird's are just beginning.

If the catch is a small one, it disappears at a single gulp, but if it is a big one with spiny fins, it is something else.

He gags and sputters, while the body is shaken by spasmodic quivers, as he tries to get the fish down a throat that is several sizes too small. By a mighty effort he finally manages to get it partly down only

to bring it up again for a fresh start. It is only after the funniest contortions, and the most ridiculous twistings that he does get it down, and the throat assumes its normal size; and then an expression of ineffable relief spreads over his countenance.

But no matter how many times he has choked over a big fish, he never seems to learn that little ones are easier managed, and that it

does not pay to be too greedy.

What a kingfisher does not know about the streams that he haunts is hardly worth knowing. He knows every swifling eddy where the bass feed; every rock ledge where the catfish hide; the sunny shallows where silver sides play, and every lily-pod where the perch loaf. There is no guesswork about his fishing—he knows exactly where they are, and where they are not, and he has got his fishing down to a dead certainty, and he gets his fish whether they are biting or not.

The voice of most birds takes on a softer tone during the courting season, but if anything, the kingfisher's gets harsher and louder.

There are no low whisperings when he tells his love, but he yells it out at the top of his voice, and he and his sweetheart have no secrets, that everything in hearing does not know.

When the mated pair are ready for the nest, they tunnel out a round hole in the river bank, six or eight feet deep, and at the end of the tunnel they dig out a little room, and there the eggs are laid, and the babies raised. They do not pretend to make a nest, but they pile up a lot of sticky fish bones, and that is the only bed the children have.

FELLER-LESS INDIANS WIN SIX STRAIGHT

Tribe Close On Heels Of Pace-Setting Yanks

Mel Harder, Apparently Washed Up Year Ago, Pitches Four-Hit 2-0 Shutout Against St. Louis Browns—World Champs Rally To Beat Red Sox 8-5—Dodgers' Five-Game Winning Streak Broken in 4-2 Loss to Phils.

When Bob Feller enlisted in the Navy last winter everybody agreed, more or less, that Cleveland Indians had lost their whole ball club.

This was a fine tribute to the great flinger, and at the time it was considered an appraisal of the Cleveland club.

But who do you suppose is painting at the backs of New York Yankees in the American League today? Well, it's no secret. The standings show the Indians boldly camped in second place just a game behind the World Champions.

The are riding the crest of the biggest winning streak in the major leagues to date, six games, and the mound staff which was supposed to have vanished with the departure of Feller has turned in the most consistently well-pitched games in the big show.

Yesterday old Mel Harder, who was apparently washed up a year ago and was handled his outright release only to get back into harness this spring at the request of Lou Boudreau, pitched a four-hit 2-0 shutout against St. Louis Browns. It was a masterpiece that made up for Harder's 1-0 defeat by Chicago White Sox a week before and it sank the Browns into their sixth straight loss.

The Yanks took good care of given him chiefly through homers sion of second place by rallying for seven runs in the ninth inning to beat Boston Red Sox 8-5.

Until the storm broke, Dick Newcome was riding a 5-1 advantage giving him chiefly through homers by Dom DiMaggio and Bobby Doerr and three fast double plays that throttled Yankee threats. But Newcome was shelved off the mound in the final frame without ever getting anyone out and the Yanks climaxed their bombardment of Mike Ryba with a two-run homer by Joe Gordon.

Phil Marchildon pitched a four-hit game to lead Philadelphia Athletics to a 7-2 triumph over Washington Senators.

However, four-hit pitching was not good enough to get Edgar Smith and Chicago White Sox a victory over Detroit. The Tigers won 2-1 in a game in which all the scoring was on home runs—one for Chicago by Don Kolloway and two for the Tigers by Rudy York and Bob Patrick. Patrick's blow was the payoff and came with two out in the ninth.

Four-hit pitching was not good enough to win for Boston Braves, either, against New York Giants. One of the hits was a two-run homer by Rookie Willard Marshall and the Giants won 3-1 on the eight-hit work of Cliff Melton.

The Phils broke up a five-game winning streak for Brooklyn Dodgers, although the interruption did not affect the National League champions' grip on first place. Frank Hoerst held the Dodgers to five hits while Danny Litwiler made four, including a two-run homer, and Ben Warren singled with the bases loaded in an eleven-hit attack that whipped Kirby Hiebe 4-2.

Cincinnati found two four-run rallies better than one five-run flurry by Pittsburgh and beat the Pirates 9-5. Frank McCormick drove in five runs with a homer and a double.

Chicago Cubs chased Howard Pollet with three runs on two hits, two

Whisky is not an effective remedy for snakebit. It actually speeds the spread of the venom, instead of counteracting its effect.

SOCCER STARS ARE DEFENDED BY OFFICIALS

Sports Writer Overseas Taken to Task for Comments on Part Pro Players Are Taking in War Effort.

London, April 25.—(C)—Management of professional football clubs throughout England rose as a body in protest against the suggestion of a London sports writer that soccer players have not shown "any special patriotism" and that the "overwhelming majority are on non-combatant service."

The article was by Frank Carruthers in the Daily Mail. It noted a ban had been placed on service men travelling during the Easter period and said "I have no sympathy with clubs who squeal because their players will be absent."

"It is a gross misstatement which does great injustice to a fine body of men," said Fred Howarth, Secretary of the Football League, in a statement pointing that scores of professional performers are in the armed forces.

"They are in anti-aircraft batteries, on searchlights, Royal Air Force stations, in the army, navy and police, and in hundreds of places where they have been and are exposed to danger. It is not their fault if they remain in this country while on duty and many professionals already have lost their lives on active service."

S. F. Rous, League Secretary charged the "inference in the suggestion cannot be substantiated by facts." Manager C. Paynter, of the West Ham Club, said 28 of his players, both professional and amateur, joined the territorial army a few months prior to the outbreak of war. "During the heavy raids our lads went through hellish experiences in the course of duty," he added.

"There were no soft jobs for them and they didn't want them." Charlton Manager James Seed, member of the Royal Observer Corps, said most of his players also joined the services prior to war's start and "faced all the perils of the severe raids, as police, etc." The Chelsea management said it had fourteen players in the army, five in the R.A.F., two in the police and one in the navy, and that many of these were volunteers. At least two others are engaged in war work. Three Arsenal gunners officials said, had been on an expedition to Brunel in the club's train. Two others and the club trainer held R.A.F. commissions and another is an army captain. Several Blackpool players are in the R.A.F.

Carruthers' article recalled that Col. W. Parkinson, Chairman of the Blackpool Club, had protested to the Under-Secretary of State for Air against the ban in declaring that "it penalized those clubs which have been patriotic and whose players have entered the services." Blackpool players in the R.A.F. were not allowed to travel to Manchester for a Cup Tie match during the Easter week-end. Blackpool then withdrew from the competition, forfeiting the home-and-home series to Manchester.

"I am not aware that the professional footballer has shown any special patriotism," Carruthers wrote. The overwhelming majority are on non-combatant service. Why should a few footballers be allowed to leave and thousands of men be compelled to spend the holidays in their camps?

Frank McCormick and Ival Gooden, Reds — Former hit three-run homer and two-run double and latter had perfect day at plate with

IN SPORTING VEIN

By ALLAN BRYCE

A suggestion from the local district that teams winning a league be allowed to add two forwards and one defenceman from any team in its own circuit for further playoffs will be considered today at the annual meeting of the Quebec Amateur Hockey Association in the Queen's Hotel, Montreal. Sponsors of the suggestion claim this would serve as a tonic for players who, if not on a winning team, might have the honor of being selected to finish the season with the champions, and would also help the league finalist, who needs all the fresh men it can put on the ice after coming through a gruelling schedule.

Other suggestions to be considered call for an increase in the representation of Senior B League teams on the Executive, the elimination of outside referees from Branch playoffs and a closer following of wartime player regulations.

Incidentally, although the registration dropped almost five hundred in number, the Association had the most successful season in its twenty-three year history from a financial point of view, according to Secretary-Treasurer Registrar Alphonse Therien.

Championship of the Y.M.C.A. Business Men's Nut Volley Ball League will be decided on the gym floor on Wednesday night next, when the two teams will meet in the final. On Wednesday night next, when the two teams will meet in the final. On Wednesday night next, when the two teams will meet in the final.

Members of the also-ran Peanut and Donut aggregations will cheer their favorites or boo all the performers in general from the balcony during the playing of the final, after which the scene of action will be shifted to the New Sherbrooke Hotel for the annual wind-up banquet. There will be a brief programme at the Hotel, and prizes will be presented.

Flyers Favored To Beat Bearcats In Final Allan Cup Game Tonight

Toronto, April 25.—(C)—Last words of the Coaches before tonight's Allan Cup hockey battle: Bill Touhey, of Ottawa R.C.A.F. Flyers: "We should win by at least two goals."

Hugh O'Leary, of Port Arthur Bearcats: "We stand an even chance of taking that Cup back home."

Betting support favors the Flyers, even though they lost a 1-3 decision in the first appearance of the teams here last Wednesday. The latest odds made the Ottawa club 17-10 favorites.

The only thing definite about this fifth and final game for the National senior championship is the crowd. It will be huge and Maple Leaf Gardens officials look for an attendance of 14,000.

Slick Senor

four hits to overpower Pirates. Willard Marshall, Giants — Hit two-run homer to lead attack on Braves.

Phil Marchildon, Athletics — Pitched four-hit ball to beat Senators.

Bob Patrick, Tigers — Hit home run after two were out in ninth inning to nose out White Sox 2-1.

Frank Hoerst, Phillies — All combined in stopping Dodgers' five-game winning streak. Hoerst pitched five-hit ball, Litwiler getting four hits, including two-run homer, and Warren knocking in winning runs with single when bases were loaded in eighth.

Frank Crossetti, Yankees — Made four hits and sparked seven-run rally in ninth inning to overtake Red Sox.

John Schmitz, Cubs — Rookie pitched six-hit stop to Cardinals, although needing help in ninth.

sent the members of the winning aggregation.

All the nuts will come out of their shells for the final and the fun. Peanut butter, donuts and coffee will be the main course, with roast Walnuts and Chestnuts as the piece de resistance.

St. Peter's trundlers weren't fooling when they wiped the "Y" alleys with St. Andrew's in the Inter-Church Bowling League final the other night, piling up a new record team total for the circuit and coming mighty close to the all-time high for the alleys. All good bowlers have on and off nights, and it happened that the Anglicans, particularly Ernie Taylor, Wyatt Johnson and Cecil Shufelt, were in the groove. The Presbyterians, champs last year, went down fighting, but could not match the consistent clutching of St. Peter's except in brief periods of the six-string total-pinfall series.

Port Arthur and the Flyers will fight it out to a finish tonight in the last game of the Allan Cup final, and the experts have installed the Royal Canadian Air Force squad as favorites to carry off the coveted mug.

Apparently his usual confident self as far as predictions go, Bill Touhey, the Airmen's mentor, says his boys will win by three goals at least, thus proving true to form.

After the R.C.A.F. took two games in a row, general opinion was that the series was in the bag, a certain dash-straight sweep, but the dashing young men from the Lakehead, led by Edgar and Bert Laprade, roared back to even things up. Those who still favor Ottawa should remember what Toronto did to Detroit after losing three games in succession.

One of the big differences between the clubs is in defence. Bearcats have better defence material than Flyers and their forwards are well-coached in defensive tactics.

This edge in defence, including the goal position—is Port Arthur's only department of superiority over the Flyers and a failure here could be fatal.

In the first two games, Ottawa drew their rivals into a type of open hockey at which Flyers excel. They scored seven goals in the first game and eight in the second to win both. But in the third Bearcats' defence started to click and they won. Their smooth operation continued into the fourth game and produced another victory.

CASUALTIES OF AIR FORCE ARE WELL TREATED

Athletics and Sports Field Much Used Factors as Canadian Lads Regain Use of Limbs Overseas.

Somewhere in England, April 25.—(C)—On the fringe of one of Britain's most famous golf courses many members of the Royal Canadian Air Force frolic about these sunny spring days in what is considered the most advanced form of orthopaedic treatment for rehabilitation of war casualties.

Happy shouts fill the air at this "athletic club," one of four such centres established by the R.A.F., as airmen with cast-encased limbs play wind games of football, softball and cricket, while others hike, ride bicycles or work out in the spacious gymnasium or swimming pool.

From the time a casualty is received at hospital the emphasis is away from the wheel chair, the weight-and-pulley devices and the hospital atmosphere, and towards the patient's condition. As soon as it is feasible after the setting of bones or the treatment of spinal injuries, the patient is moved to the rehabilitation centre to join his comrades on the playing fields.

More than 85 per cent of the men sent to these special centres have resumed their former duties and air force medical experts claim some who might have been injured permanently have been cured. They contend exercise eliminates the former inevitable stage of lack of confidence in limbs and balance and averts atrophy or the wasting away of muscles and tissues.

Here are a few of the cases and all will rejoice their squadrons shortly.

Sgt. Obs. Frank Heron of (540) Glebeholme Blvd., Toronto spent three agonizing nights a few months ago with a shattered ankle. He was the only survivor of a Blenheim bomber that plunged into the sea.

Today, Heron is taking part in strenuous activities, both outdoors and in a gymnasium. While he was in hospital his leg was massaged daily. Although the affected bone and joints were immobilized, muscles and extremities were given full play.

Sgt. G. Douglas Norton, of Boissevain Man., takes daily bicycle jaunts although a few weeks ago his life was despaired of. Dragged from wreckage of his aircraft he was unconscious for five days and suffered head injuries and a fractured ankle.

Sgt. Obs. George Ford, (224) Halifax St., Regina, suffered a fractured arm when a Wellington bomber crashed. He has been active most of his three months on the injured list and the member was but slightly stiff when the cast was removed.

Sgt. Ian McKay of Naramata, B.C., losses about a heavy medicine ball as part of the treatment for a fractured shoulder, and Sgt. James Wilson of Orillia, Ont., cavitates about the gym while recuperating from a smashed knee.

Sgt. Air Gnr. Ed. F. Lyons of (22) Cumberland St., Toronto, has become an expert with the foil and has a few stabs daily at the fencing instructor although his right arm is just out of a cast after being broken.

Sgt. Robert McMillan of Brockville, Ont., had his thigh shattered in a vehicle accident. Bone grafting was resorted to and there is every chance of a complete recovery. Meanwhile, he gets around under his own power. Veteran among the R.C.A.F. personnel receiving treatment is Flt.

Eddie Shore's Hockey Fame Now Shown To Be Liability

Big, Bluff Hockey Magnate Unable to Fool Royal Canadian Air Force Recruiting Officers About Age—Turned Down in Second Attempt to Join Up—May Yet Make Services in Some Capacity.

JOHNNY BABICH HURLS SECOND WIN FOR BEARS

Former Major Leaguer Tops Rochester 6-4—Toronto Leafs Stop Five-Game Baltimore Win Streak—Royals Bow to Chiefs.

Pitcher Johnny Babich of Newark Bears is beating his way back to the majors by way of the International League.

Last season his arm went dead and Philadelphia Athletics traded him and Eric Tipton to New York Yankees for Buddy Blair. His salary was waived to respond in spring training, and the Yankees shipped him to their Newark farm club.

Yesterday Johnny started against Rochester Red Wings and, although relieved by Walter Stewart, he received credit for his second victory of the year. The score was 6-4.

The Bears touched Clem Dreisewitz for all of their hits and runs. Bill Johnson and Frank Kelleher highlighted the attack, the former getting four hits in five trips to the plate, and the latter a home run with a mate aboard that proved to be the margin of victory.

Toronto Maple Leafs won their second game of the year as Bill Brandt stopped a five-game Baltimore winning streak by pitching his team to an 11-5 verdict. John Wroblek with a home run and four singles in six trips to the plate, and Al Rubeling with a home run and a triple in six attempts led the 17-4 attack on four Oriole hurlers. Bob Lemon hit a home run for the losers.

Syracuse Chiefs increased their league lead to one full game as Cuban Tom Delacruz defeated Montreal Royals 2-1. The lone Montreal run was a home run by Gene Moore. Jersey City Giants had a seven-run lead going into the ninth inning, but Buffalo Bisons shoved across five runs for a 7-5 triumph. Al Ott was the winning hurler.

Ed Kobesky, of Buffalo, hit a home run and a double in four trips to the plate.

Sgt. David Kinsey, of Olympia, Wash., a wireless-air gunner who has had 195 hours of operational flying.

Forced to bail out after an attack on Brest last September, Kinsey "spilled" too much air from his parachute when he grabbed the chute cords. He made a heavy landing on his feet. He returned to duty but his injured arm was gave away and he joined the "athletic family."

Commanding officer of the centre is Sgdn. Ldr. George Dawes, who commanded the Royal Flying Corps in the Balkans during the First Great War. Personally attending difficult cases at all centres is Reginald Watson-Jones, one of the world's most brilliant specialists in his line and civilian consultant to the R.A.F. in orthopaedic surgery.

Toronto, April 25.—(C)—For the first time in his long and distinguished career, Eddie Shore has found his hockey fame a liability.

The big, bluff and balding one has tried to join the Royal Canadian Air Force several times since the war started, but his twenty years of hockey have made him so well known that he can't fool recruiting officers about his age.

Turned down at one recruiting centre in Edmonton a few days ago, Shore went to higher officers to try for reconsideration of his application. The first officer he asked took one look at him, then said: "Didn't I see you play hockey 20 years ago?" Shore had to admit 'twas true.

Eddie may make the services in some capacity yet. He learned to fly in Edmonton about ten years ago, and is back home in the Northern Alberta city after piloting Springfield Indians through a successful American Hockey League season.

Athletes Forum: Bobby (Ottawa Flyers) Bauer, in the comparison between his linemate Mike Schmidt and Toronto's Syl Apps, "Apps is a little handier around the nets, but give them each a goalkeeper and let them play it out and my money would ride with Milt. He has more two-way power than Apps."

Art and Chuck Chapman, who starred in Victoria Dominos Western senior basketball title victory over Winnipeg St. Andrews, are two of the most-travelled players in the game. They have been on three Canadian championship teams: Victoria Blue Ribbons (1933 and 1935), and the Dominos of 1939, in addition to bolstering Windsor Alumni, Canada's representative to the Berlin Olympics in 1936. . . . Lynn and Moe Patrick were members of the Blue Ribbons in 1933 and Doug Peden in 1935.

It's Your Privilege and Duty to Vote

There is nothing very strange about a Plebiscite. It is a direct vote of all the voters in Canada on an important issue to find out the views of the Canadian people.

All that is required is an answer to the following question: "Are you in favour of releasing the Government from any obligation arising out of any past commitments restricting the methods of raising men for military service?"

The polls are open from 8 a.m. to 8 p.m., Daylight Saving Time.

This gives ample time for everyone to vote on : : :

MONDAY, APRIL 27th

Issued under authority Dept. of the Secretary of State, Ottawa
