PRINCE ARRIVES AT QUEBEC.

Welcome Was Tremendous and Ceremony Passed Off Without Hitch.

VICE-PRESIDENT FAIRBANKS ALSO WARMLY RECEIVED AND WAS DELIGHTED WITH THE SPECTACLE.

Quebec, July 23.—Amidst the most gorgeous state ceremonials, the Prince of Wales arrived at Quebec yesterday afternoon, and at last the Tercentenary has reached its zenith, the reception of the Prince being one of the most interesting events that has happened in Canada. There were representatives of many nations, and in full state array—generals, admirals, dukes and hundreds of the most distinguished citizens of Canada and the United States as well as of Great Britain and France—to add eclat to the scene. The arrangements for the reception of the Prince on the King's wharf were almost perfect and the ceremony passed off without a hitch, the whole reception being concluded within an hour from the time that the first guns were fired from the waiting fleets as the launch bearing the Royal Standard of Great Britain, left the Indomitable, and the air fairly shook with terrific concussions from the big cannon as the Prince and entourage approached the landing. No sooner had H.R.H. landed than the guns of the Citadel boomed out a welcome which echoed for miles down the river while massed bands played the National Anthem, and massed thousands cheered the representative of the might of Great Britain.

The scene was almost mediaeval in its splendor, while the approaches to the wharf were so carefully guarded that there was not the slightest suspicion of crowding, and every official easily found his allotted space.

The Indomitable, the famous new British cruiser, which has set the world guessing, was sighted steaming swiftly up the channel at half-past two, and immediately the ships and Citadel fired a full salute of 21 guns. The Indomitable and her escort, the Minotaur, steamed up without replying to the salutes, this being the usual procedure of a royal procession.

Long before the Prince's ship appeared in the river, there was an immense throng watching for her, which not only thronged the Terrace, but overflowed until the slopes leading up to the Citadel were black with people. The Indomitable steamed up the river at a tremendous speed, so that it was not half an hour from the time she was first sighted before the prolonged series of salutes was over and the two cruisers were at anchor befow the Terrace close to the American and French vessels.

Then a series of cannonading started as the admirals, the Governor-General and other officials made formal calls upon the Prince. These demands of state etiquette being ended, the decks were prepared for the great event of the day, the landing of the Prince, and his progress to the Citadel.

The formal greetings took place at the water's edge, and as the procession moved back the bands played God Save the King, their music being punctuated with the sharp crack of the cannon from the lofty cliffs above.

THREE CHEERS FOR THE PRINCE.

Immediately the National Anthem was over, Sir Wilfrid Laurier, who seemed to be in high spirits, waved his plumed hat in the air, and called for three cheers for the Prince, which were given with a will. The Prince then made a brief inspection of the guard of honou from the 43rd Regiment of Ottawa, and expressed his pleasure to the commanding officer at the smart appearance of the men, with which he was the more pleased as he was honorary commander of the regiment.

The Prince then proceeded to the dais and took up a position in front of the raised seat of honor. His Royal Highness was looking in excellent health, but it was noticed that he seemed to be rather nervous, as though anxious that the business should be got through.

Sir Wilfrid Laurier then stepped to the front, the members of the Cabinet standing in two rows behind him, while the Governor-General and other military and naval officers were gathered around in most picturesque array, Lord Roberts standing immediately behind Earl Grey.

An address of welcome was then read by Sir Wilfrid Laurier, to which the Prince, who wore the uniform of an admiral of the fleet, replied.

MR. FAIRBANKS DELIGHTED.

Amongst the most interested spectators of the pageant was Vice-President Fairbanks of the United States. Hon. Mr. Fairbanks occupied a seat of honor with the other foreign representatives, and followed the brilliant ceremonial with keen enjoyment. He followed in the state procession afterwards and was generally recognized and cheered by the crowds that lined the streets, evidently to his own great enjoyment, he rising repeatedly in his carriage and saluting the crowds. Mr. Fairbanks was evidently having a good time and in conversation with a group of newspaper men during a halt in the procession, he declared that he was entirely delighted with his visit to Quebec, and particularly impressed with the way in which the Prince had been received.

Mr. A. E. Rousseau, of the Magog House, has returned from his vacation which he spent at his home in Three Rivers.

PRESIDENT CASTRO EXPELS MINISTER.

Holland's Representative Offended National Decorum.

MINISTER'S PASSPORTS WERE SENT HIM BY SENOR PAUL.

Caracas, July 23.—President Castro has expelled J. H. Dereus, the minister resident of the Netherlands, from Venezuela.

The minister's passports were sent to him by Senor Paul, the Venezuelan minister of foreign affairs. With them Senor Paul wrote a letter in which he said:—"In view of the opinions expressed in your published letter of April 9th, President Castro, who is entrusted with the guardianship of the national decorus, declares that you are incompetent to serve as a friendly medium in the relations between this Government and the Netherlands. Consequently, he sends you your passports that you leave Venezuela."

Senor Paul has sent another letter to the foreign minister of the Netherlands, in which he says in this connection: "This indispensable measure affects only M. Dereus. It will not alter the existing friendly relations between Venezuela and the Netherlands. Venezuela desires to cultivate these relations, but through an intermediary —a diplomat who would be a messenger of friendship and harmony."

CHINESE-AMERICAN ARBITRATION.

AN AGREEMENT FOR A TREATY IS REACHED BY BACON AND WU TING-FANG.

Washington, July 23.—Wu Ting-fang, Chinese Minister to the United States, and Robert Bacon, acting Secretary of State, have reached an agreement upon the terms of an arbitration treaty between the United States and China. The convention will be signed at the State Department as soon as Minister Wu receives final authority to do so from his Government. It is similar to the arbitration treaties negotiated with many European countries last winter and provides an arbitration of all disputes except those affecting the national honor, the vital interests or the rights of countries other than the contracting nations. The convention will be in force for a term of five years from the date of its ratification.

TURKISH RISING SPREADS.

OKHRIDA DISTRICT DECLARES FOR REVOLUTION.

Constantinople, July 23.—It is reported from Monastir that the whole Okhrida district has declared in favor of the revolutionary movement and that Greek bands are committing serious depredations in the villages near Monastir. Twenty-five Bulgarians were killed at Bibaraska and thirty at Belpilcia, both villages being burned. A despatch from Salonika, European Turkey, represents the situation there as most serious. Macedonia is ripe for revolution, it is said, and the young Turks are well armed and determined to overthrow the absolutist regime or die in the attempt. A great majority of the Mussulmans population is in sympathy with the revolutionary movement and fully ninety per cent. of the Turkish officers and functionaries share the ideas of the young Turks.

CELEBRATE REBELLION'S END.

PLANS FOR SEMI-CENTENNIAL IN CINCINNATI.

Cincinnati, July 23.—A movement to celebrate the semi-centennial of peace between the North and South by holding in 1915 a great southern exposition in Cincinnati and dedicating a southern peace monument in this city was launched at a special meeting of the Chamber of Commerce Tuesday afternoon. A formal report was presented in support of the idea, giving various reasons why such a celebration should be held in Cincinnati.

SENTENCED FOR SEDITION.

TILAK, THE INDIAN LEADER, TO BE TRANSPORTED FOR SIX YEARS.

Bombay, July 23.—Tilak, the Nationalist leader, whose trial for sedition occupied several days, has been found guilty and has been sentenced to transportation for six years and to a fine of 5,000 rupees. The charge was based on articles appearing in the Kesari, a Poonah weekly newspaper, of which Tilak was the editor, inciting the natives to rebellion and to use bombs.

SULTAN OF TURKEY IS WORRIED.

The Unspeakable One May Grant Semblance of a Constitution.

IMPRESSION IS HE'S INSINCERE, BUT HE MAY GET CAUGHT IN THE MESHES OF HIS CHICANERY.

London, July 23.—A news agency here has received a despatch from its correspondent in Constantinople saying the Sultan is so worried over the Macedonian situation that he has decided to grant a semblance of a constitution immediately. After a consultation with his ministers, he has concluded, it is said, that this is the only possible method of ending the uprising.

The despatch adds that there is a general impression that the Sultan is insincere in his proposed move. It is even declared positively in Constantinople that the Sultan, in response to remonstrances from members of his council, said that the granting of a constitution was a small matter, as he would find means to annul it as soon as the uprising had been put down.

GRETE BEIER BEHEADED.

DAUGHTER OF MAYOR OF FREIBERG BEHEADED FOR MURDER OF MAN TO WHOM SHE WAS ENGAGED.

Freiberg, Saxony, July 23.— Grete Beier, the 18-year-old daughter of the Mayor of Freiberg, was beheaded on Tuesday night sometime between dark and dawn, in punishment for the murder of the man to whom she was engaged to be married. The executioner, as usual, was an anonymous person, who was sent down here from Dresden on the announcement that the King of Saxony had refused to pardon Grete Beier for her crime.

The young girl's carefully planned murder of her fiance attracted international attraction. She was seemingly a happy and fun-loving girl. The social position of her family was very good, and she became engaged to Herr Preffler, a rich young professional man. At her trial it was brought out and she admitted with the utmost simplicity, that she visited her fiance's house one evening, gave him cyanide of pottasium in a drink she mixed for him, and then, to make sure of his death, she shot him in the mouth with his own revolver. She then dropped the weapon at the dead man's side, placed a forged will in her own favor on his desk together with a note of good-by also forged, saying that he feared to lose her love through the revelation of a dishonorable liason. These forgeries were so skillfully done that they successfully deceived the police and coroner. Grete fell under suspicion about a month after the crime through a loveletter that she wrote to an unworthy man hinting at what she had done. This letter was found on this man's person when he was arrested for a misdemeanor.

NEW STEAMSHIP LINE PROJECTED.

REPORTED PLANS OF GERMAN CAPITALISTS TO ORGANIZE GREAT NAVIGATION COMPANY.

Berlin, July 23.—The project of a new steamship line in opposition to the Hamburg-American company which is to be financed by Prince Christian Kraft Zu Hohenlohe-Oehringen and Prince Egon Fuerstenburg, appears to have strong purposes behind it. A good deal of time will be required for the development of the plan which has not yet reached the publicity stage. One of the ideas to be worked out is the creation of a great navigation company which shall enter into competition with American as well as other shipping in all parts of the world.

According to the Kleine Journal, Prince Egon Fuerstenburg, who is described as the emperor's most intimate friend, has agreed to become a heavy stockholder in the new enterprise.

In a four-column article, written in a spirit of opposition to this project, Herr Ballin, director-general of the Hamburg-American Line, affirms that Prince Zu Hohenlohe-Oehringen will presently announce the new company's plan for competing with Lloyds and the Hamburg-American Line for American and other trade.

BEETLE WORSE THAN EVER.

HAS SPREAD OUT ENORMOUSLY IN MASSACHUSETTS.

Boston, July 23.—This is the worst year Massachusetts has had in its experience with the elm leaf beetle, a destructive little insect which lays its eggs and feeds upon the elm leaves. There is little that can be done now to check it, as the season for effective spraying has passed, unless a second brood appears.

All the suburbs of Boston report bad infestations. In many sections the elms are completely denuded. Their leaves have turned brown from the destruction of the epidermis, have curled up and fallen off in large quantities. That heavy storm of Saturday night washed them down and strewed the ground with them as if it were late fall. The one redeeming feature of this defoliation is that it came so early in the season that the trees probably will leaf out again.

DEEDS OF UNION CEMETERY, KIRKDALE.

Made Over by Council to Holy Trinity Church.

A NUMBER OF NON-ANGLICANS DISAPPROVE OF TRANSFER.

Kirkdale, July 23.—(Special.) —The deeds of the Union Cemetery held by the municipal council of Ulverton as trustees, by the pioneers who granted the land, has been made over to Holy Trinity church. A great many of the lot holders who are non-Anglicans disapprove of the transfer as being made without their desire or consent and not in accordance with the will of the granters. However, one trusts that the cemetery will continue to be a union one and not part or parcel of any religious body.

NEW YORK RICHEST DIOCESE

THE CHURCH PROPERTY IS VALUED AT $51,000,000

Boston, July 23rd.—The diocese of New York of the Protestant church Episcopal church is easily first in church population and wealth of the sixty-two diocesan and twenty missionary districts of the United States. It takes in Manhatten and the Bronx and the counties of Dutchess and Westchester. In this, according to the latest returns available, are 400 ordained clergy and 99 lay readers, serving 254 churches and chapels. The use made of lay readers was one of the marked features of Bishop Potters.

In the yera 1906-1907 there were 6383 baptisms, of which 1093 were of adults. The number of confirmations was 5058, and from a comparison of these figures with those of baptisms it is believed that the Protestant Episcopal Church has been making distinct gains from those of other denominations and the unchurched.

The total gifts of the churches of New York diocese in 1906-1907 amounted to $2,405,161, exclusive of legacies. The church property within the Borough of Manhattan is assessed at a valuation of about $51,-municants is returned at 81,388. 000,-000. The total number of com-

Comparing thes! figures with those of the entire Protestant Episcopal Church of the United States, it appears that the diocese of New York has about one-tenth of the communicants and has contributed one-eighth of the sums given for all church work For missions the contributions of the diocease have amounted to about one-sixth of the total collected by the Church in this country.

AMERICAN CITIZEN RELEASED.

HE WAS HELD FOR FIVE MONTHS AS A PRISONER IN MEXICO.

Galveston, July 23.—Juan Velastra, a Mexican, who became an American citizen twelve years ago, has been released from the famous prison on San Juan de Ulua Island, where he has been confined as a revolutionary prisoner. Velastra was arrested with eight other Mexicans near Durango, five months ago, and was put through a sort of trial. San Juan prison is filled with revolutionists, says Velastra, who are condemned to slow death and the cruelties inflicted upon them are unbearable. The revolutionists are confined in a tier of cells only four and one-half feet high, and below the surface of the ground, and are tortured with rats and vermin. They are fed on bread and water once a day and their only communication is through the guards, who taunt them with stories of their slow death sentence. Velastra, who was touring Mexico in the interest of a mining syndicate, disappeared five months ago and was thought to have been a Yaqui victim.

DROWNED WHILE SWIMMING

PERCY SHEPPARD OF QUEENSTON SEIZED WITH CRAMPS IN NIAGARA RIVER.

Niagara Falls, July 21st.—In front of his parents' home at Queenston, Percy Sheppard, nineteen years old lost his life by drowning last night in the lower Niagara River. He had spent the evening with companions diving off the fruit wharf. At the time of the fatality he was swimming down the stream and was seized with cramps. He sank in view of fellow swimmers. They swam to the rescue and a boat also put out, but the efforts were unsuccessful. It was an hour later when the body, entangled with weeds, was recovered with grappling irons.

BURNINGS BY NIGHT RIDERS

DESTROY RAILROAD STATIONS FOR REVENGE.

Louisville, Ky., July 23.—Night riders burned the Illinois Central station at Gracey, Otter Pond and Cerulean Springs in Christian County, Ky., on Tuesday night. The object is supposed to have been revenge for the company's allowing the State militia to camp on the railroad property at Cobb during a recent disturbance.

FOREIGN SPIES IN ENGLAND.

Secretary of War Treats Col. Lockwerth's Accusations With Levity.

FURTHER LEGISLATION IS NOT NECESSARY OR PRACTICABLE.

London, July 23.—The English people, at least nearly all the London journals, treat with characteristic British apathy, letters from the provinces stating that foreign military officers, chiefly German, are making careful surveys of the entire country. About a month ago twenty German officers arrived in London from Berlin, presumably to study the English language. They quickly scattered, several going to Epping, in Essex, which is represented in Parliament by Col. Mark Lockwood. The Colonel made inquiries and discovered the status and occupation of the invaders.

He, therefore, interpellated the War Office on the subject when Mr. Haldane, the Secretary of War, treated the whole subject with levity, and said that foreigners were welcome to go where they pleased in the United Kingdom, except in the neighborhood of fortifications.

Col. Lockwood next interpellated the Premier, and asked: "Whether the Government department concerned are causing enquiry to be made as to the truth of the reports of foreign espionage in various countries in England, and if, in view of the fact that the Secretary of State for War has confessed his inability to deal with such a state of affairs, if proved to be true, by any existing law, he will consider the necessity of introducing legislation."

Mr. Asquith replied: "The Government departments concerned keep themselves as fully informed in regard to this matter as the nature of the case will allow. I am not, as at present advised, of opinion, that any fresh legislation is either necessary or practicable.

MORE PLAGUE IN VENEZUELA.

FRESH OUTBREAK IS REPORTED IN CARACAS.

Willemstad, Curacao, July 23.—The steamer Maracaibo came in here Tuesday from Puerto Cabello with eleven passengers, including Chas. W. Vogel, surgeon in the United States Marine Hospital Service, who went to Venezuela to investigate the bubonic plague. Admittance at Puerto Cabello was refused to the steamer, but the mail was delivered. Puerto Cabello is healthy, but there are well founded rumors there that the bubonic plague has broken out afresh at Caracas and La Guayra.

Mrs. F. J. Griffith and her sister, Miss Gertrude Paul, of Montreal, are among the visitors to Quebec.

WILD MEN IN BOSTON.

Two Desperadoes Shot-Up and Wounded Eleven People.

DISAPPEARED IN THE WOODS NEAR FRANKLIN PARK.

Boston, July 23.—Eleven people were shot last night, two of them fatally and two probably fatally, by two desperadoes, who, pursued by policemen and a crowd of citizens, fled for two miles through a thickly settled district of Jamaica Plain, firing madly right and left, disappearing later in the woods near Franklin Park. The men are believed to be two of the gang of three who last night robbed a saloon in Jamaica Plain, after shooting and killing one man and wounding two others.

Mrs. Delia Fallon, of South street, was standing in front of her home, with her baby in her arms, when the two men, pursued by a crowd, came down the street. As they passed her one of the fugitives fired a shot which entered her head. She is in a critical condition.

Herbert E. Knox, 42 years old, a night watchman at the Forest Hills cemetery, and Edward McMahon, 21 years old, a policeman, both received bullets in the abdomen. Knox died later, and McMahon is not expected to survive the night.

The others injured are:

John Nolan, shot in arm; Thos. F. Leming, shot in hand; Thos. Moore, street car conductor, shot in leg; Patrolman Ingalls, bullet in leg; Patrolman Cox, shot in ankle.

Patrick McGill was shot in the side, Michael Flynn was slightly wounded in the head, and Policeman Thompson was shot in the leg.

FORTY PERSONS INJURED.

FAST RUNNING TROLLEY CARS COLLIDED AT LOVE. DALE, ILL.

Chicago, July 23.—Nearly forty persons were injured Tuesday in a collision between two Aurora, Elgin and Chicago cars at Lovedale, four miles north of Aurora. Some of the injured may die. The collision occurred when the cars were each running at a speed of forty miles an hour, and the two cars were telescoped more than half their length. Passengers, among whom were nearly fifty women, were thrown through the windows, and tossed to the side of the tracks several feet away. The cars almost immediately caught fire from the trolley wire, but the injured passengers soon put out the blaze with water from a nearby stream, and dragged the wounded to places of safety.

The failure of the motorman of one of the cars to switch to a side track and await the passage of the other is said to have caused the accident.

The cars, each containing nearly 100 passengers, met head on. A great many passengers and both motormen saved themselves by jumping.

THE LAW OF CONTRACT.

Granby, July 24.—(Special.)—Among those whose fortune it is to labor for others the fact is sometimes lost sight of that the contract to work a year, month or day is equally binding on both employer and employee. The aid of the law was recently invoked to bring parties leaving their employers for better wages in haying to a proper realization of this fact. In one case the party was content to pay the costs and $10 to be released from his engagement. Saturday a man who had left the employ of Roadmaster Larrive and hired to Mr. Dougall was forced to return after paying the cost of legal proceedings.

PERHAPS HE THOUGHT BETTER OF IT?

Granby, July 23. — (Special.) — Knowlton has quite a reputation as a summer resort, but the air of that village had a singular effect upon a young man employed by Mr. A. W. Wallace, who left here with two horses to muster with the 13th Scottish for Quebec. He secured his uniform but when the roll was called in the afternoon, Major Seale found his squadron short one man and two horses. Late the same night the lost trooper in full regimentals turned up at Mr. Wallace's residence, having exchanged suits at some barn on the road. The net result of the misadventure is Mr. Wallace will be out of pocket $4 per day during the camp, and the young man will miss the event of his life.

HAY CROP AROUND SUTTON.

Sutton, July 23.—(Special.)— Haying has progressed finely and many have already finished, while many others are nearly through. HIGH CHIEF RANGER TO PAY A VISIT.

Hatley, Que., July 23.—(Special) — The High Chief Ranger is expected to visit Court "Good Cheer," No. 746, I.O.F., on Thursday evening, the 30th inst. It is important that all members who can should attend.

BROKE HIS ARM.

Coaticook, July 23.—(Special)—Mr. Oliver Marcoux, who is employed at Penman's Limited, had been in the habit with other young men of the firm, of jumping out of a window seven feet from the ground. At the dinner hour on Tuesday he came down rather clumsily and broke his right arm in two places. A doctor was called who promptly set the bone and

GERMAN ON A TOUR HAS HIS BICYCLE STOLEN.

Chicago, July 23.—After completing the first American section of a bicycle tour around the world, Robert Hellmich, of the Windsbrut Bicycle Club, of Shandaut, Germany, arrived in Chicago, only to be deserted by the man who rode with him from New York and to have his wheel stolen from Social Turner Hall. Chief of Police Schuelter interested himself in the matter and a Chicago firm has agreed to supply the tourist with a new wheel. He will start next Monday in company with F. G. Koegel, now a resident of this city, who holds the Fox medal for a walking tour around the world, which he finished in 1896. The pair will follow most of the route taken by the automobiles in the New York to Paris race. Hellmich is making the ride on a $2,500 wager, made by a member of the Windsbrut Club, and has two years in which to complete the journey.

Cowansville, July 23.—(Special)—Mr. John Tetreault met with a painful accident on Monday last. Mr. Tetreault was returning to his work in the evening on his bicycle, and on account of the roads having been worked on that day by the scraper, he was riding on the sidewalk. When near the bridge his wheel caught in a crack and threw him off, badly bruising his face. This was dressed by the doctor and is at present doing well.

RINK OR NO RINK.

Coaticook, July 23.—(Special.)—Interest in the skating rink, which was to be built this summer seems to have lagged and hockey players and skaters are wondering if Coaticook is going to have a covered rink or even the same sort of an open rink as heretofore. Coaticook has been one in comprising the hockey league and the healthful pastime has been indulged in by many every winter. If there is no rink this winter it will be greatly missed.

HATLEY COUNCIL ADOPTS NEW VALUATION ROLL.

Hatley, Que., July 23.—(Special) — The Municipal Council at its last session voted to adopt the Valuation Roll as made by the Valuators Messrs. F. W. Maloney, C. O. LeBaron and A.A. Bean. Two or three protests against increased values were brought before the Council but that body saw fit to sustain the Valuators in their work. The assessment for municipal expenses was made seven mills, the same as in the past three years and a special assessment of four and one-half mills was levied for the purpose of paying the Eugene Parker damage claim and costs of the Court in that cause, two and one-fourth mills to be collected in 1908 and the balance in 1909.

RECOVERING C.P.R. BRIDGE AT NORTH TROY.

North Troy, Vt., July 23.—(Special) —Mr. George Norris, C.P.R. foreman, of Newport, is here with a force of bridge men recovering the large railway bridge which spans the Missisquoi river at this place. The bridge is quite wide and stands some 70 feet or over above the water of the river. New ties and cross plates are being used, and are being renewed throughout. All the rest of the bridge is iron. The ties are sawed from hard pine and are 8x14 in. in size and 360 of these ties will be used on the bridge. This structure is a very strong one as is proved by the fact that a few years ago a snow plow going east jumped the track near the bridge and went into the ditch, while the trucks and the engine also left the rails and actually crossed this bridge, climbing across on the ties and this without affecting the bridge in the least.

SPECIAL SESSION OF DUNHAM SCHOOL BOARD.

Dunham, July 23. — (Special)— A special session of the Township School Board took place on Tuesday evening, in the Town Hall. The first business was to elect a new chairman to replace Mr. George M. Beach, whose term of office had expired. Mr. Arthur Longeway reluctantly consented to act for the coming year and the report of the auditor, Mr. O. C. Selby, who audited the books of Secretary P. C. Duboyce, was read and accepted. This report stated that $2,130. 31 had been received from common tax; $175 for monthly fees; $274.12 of Government grant; $160 from a loan; $104.35, of arrears of taxes; and other amounts to total the sum of $3,027.01. This has been paid out as follows: — $1,557 for teaching; $225 for wood; $392 for repairs; $190 for Secretary's salary; $100.65 for debts; $147.49 for other amounts, leaving a balance on hand of $414.87.

Several bills were accepted and the chairman was elected as a committee to bring school furniture from the abandoned school house at Meig's Corner to the Town Hall.

The Secretary was authorized to get a search in the Registry Office regarding the Tree school house on the Cowansville road.

HOW BIRDS SMELL.

(From the London Morning Post.)

Some rather entertaining speculations on the habits and attributes of birds are to be culled from the report of the American Association of Zoologists. Mr. R. M. Strong records some attempts to determine the vexed question whether birds have a sense of smell. The behavior of four ring doves with reference to the odors of cologne, violet sachet powder, and oil of bergamot was observed with the aid of a labyrinth, or maze. This apparatus was provided with four apartments opening into a central square enclosure. The doves were fed twice a day in one of these apartments which was chosen at random. An odor was driven out of the chamber containing the food into the central enclosure by a gentle air current. So as to make sure that it was not the air current which should give the hint of direction to the birds, but only the scent in it, air currents uncharged with scent emerged from the other compartments. Thus, in order to find the food, the doves had merely to follow their nose. The chamber was always ventilated, and as far as possible deodorized after each experiment. Gradually it was seen that in the course of three months an improvement took place in the doves capacity to find the food by scent. But evidently scent was not a very good guide to them, and therefore it seems likely that though they possess the power of smell they do not make use of it. Mr. Wallace Craig had some more recondite observations on pigeons. Nobody has yet satisfactorily explained why birds sing and coo, dance and strut, though there are many partial explanations. Mr. Craig suggests that the cooing and strutting performances of the pigeons are a kind of ceremony. Just as the primitive man must perform a certain ceremony on every important occasion in his life, so the pigeon must give a certain call or coo, and must go through a bowing or strutting performance on all important occasions; as when he awakes in the morning, goes to roost at night, when he joins the flock, when he meets another male to fight. The pigeon is a social bird, and the utility of these performances in pigeons is the same as that of ceremony in primitive man—social contact.

There is nothing mechanical about the playing of the Gourlay Angelus. It is the only Player-Piano that gives forth music with all the warmth and color of the finished performance of a master. Its superiority lies in the exclusive possession of such features as the melodant, the phrasing lever, the melody buttons, the diaphragm, pneumatic, etc. The Player attachment does not interfere with the playing of the instrument by hand.

PRODUCTION LAST YEAR WORTH $471,300, OR DOUBLE THAT OF 1906.

EUROPE'S HARVEST FAIR.

YIELD PROBABLY WILL BE BELOW AVERAGE.

Washington, July 23.—According to the "Crop Register," published by the Department of Agriculture, the crop outlook in Europe is fair, but the yield is likely to be below the average. The report states:

"A wheat crop much superior to that of last year, but probably below the average, seems now fully assured throughout the important producing countries of eastern Europe and also in Germany and Austria, the production in the western countries, on the contrary, where excellent crops were reaped last year, bids fair to fall below the results then obtained. The prospects consequently point in almost all cases to greater uniformity in yield than in 1907, and nowhere does either a record crop or an unusual shortage seem at present probable. On the whole the prospects generally point to a fair harvest, but perhaps below the average for a five-year period.

"The chief drawback suffered by the crops has been the drought that at the beginning of the month jeopardized the agricultural welfare of Spain, southern Italy, parts of Austria, Hungary, Russia and the Balkan Peninsula. Fortunately widespread rains have completely broken it except in some small regions, but part of the injury inflicted remains and it is now too late for damage to the winter crops to be fully repaired. The spring crops generally are more promising and a satisfactory outturn seems probable."

COMMENTS ON EASTERN TOWNSHIPS HAPPENINGS.

Insurance Rates in the Townships.

I don't blame the people of Cowansville for making a kick against the insurance rates charged by the Underwriters' Association. I have long time been of the opinion that the insurance companies are recouping themselves here in the Townships for losses made in the cities in the large conflagrations that take place there periodically. To the ordinary mortal it is hard to understand their ratings even when these are specific as is the case in some of the towns in the Townships. It was hoped that when each mercantile risk was rated on its merits there would be some reduction in rates, but instead of this taking place the rates as a whole under the specific tariff are higher than they were formerly. If proof were needed to the fact that the regular stock companies are charging us more than they need to for the risks they are carrying here it would be forthcoming through the mutual companies. There are several mutual companies doing business in the Townships and making money. They are not charging as much as the stock companies either. If these companies can make money and charge all the way from ten to twenty-five per cent. less in premiums than do the stock companies, it is pretty good proof that we are paying more than we justly should considering the risk that the companies are carrying.

Contributory Negligence.

To a man who doesn't know the law the judgment in the Scotstown cow case, recorded in your columns a few days ago, would be a surprise. It would seem queer to him that if a railroad company does not keep up its fences according to law the company is not responsible unless the animal was in the field adjoining the track and got upon the railroad through the bad place in the fence at that point. Yet, such would appear to be the law. Some years ago we didn't hear very much about contributory negligence, but in these days it is considered in nearly every case in which damages are adjudicated upon by the courts. The time was when if a man suffered damages and himself contributed towards these damages by his negligence he got no judgment, but in these days matters are equalized and perhaps greater justice done by dividing up the amount of damages sustained according to the negligence of the party who suffered them. Of course, the damages in the cow case were adjudicated wholly according to railroad law and there are some things in the railroad law which do not hold good when the ordinary individual is concerned.

The Good Roads Movement.

While we do not hear as much of the agitation for good roads in the Townships just now as we did some months ago, there likely never was a time when municipal authorities have thought so seriously on the question as they are doing now. There likely never was a time either, when they were doing as much to secure good roads as they are doing at present. With the aid offered by the government there is little excuse for any municipality letting its roads go by default. In Ontario they are not only building good roads but they are also agitating there for a provincial policy to take care of future requirements. Perhaps never since the days when the roads were blazed through the forests by the pioneers here in the Townships has the question of good roads been more vital than it is to-day to the welfare of the country; and yet, withal, we likely have hundreds of farmers who do not realize that the destruction of vehicles and the delay in travel exceed any good roads tax that may be imposed. This is true, nevertheless. The farmer to-day, in many parts of the Townships pays a larger tax in the breakdown of his horses and vehicles and in delay in business than he would pay to put the roads of his township in first-class condition. In the Province of Ontario, under the present County Good Roads plan the government and some sixteen counties in partnership are working out a system of good roads which involves an expenditure of over three million dollars, of which the government will pay one-third. I wonder what would be the effect upon the people of any sixteen counties in this province if a proposition were made to them to spend two million dollars on their roads?

Is th Consolidated School Idea Dead?

Under the heading "Consolidated Schools," the last issue of the Canada Courier says: "The movement for consolidated rural schools seems to have died away. Professor Robertson and Sir William Macdonald have been most generous and persistent but they are apparently powerless. The farmer dislikes paternalism. He also dislikes expenditures which come directly out of his pocket. He dislikes direct tax and believes that schools and school teachers should be provided by the government." Perhaps this quotation is comparatively true with the exception of the first statement to the effect that the movement for consolidated rural schools has died away. True, there is not as much agitation for these throughout the Townships as there was when it was first brought before the public, and yet it is a living issue in many rural municipalities to-day. As a matter of fact it cannot die unless our rural schools are to die. Little by little Protestants are realizing the absolute necessity for consolidation. Until they do recognize it as a necessity there is no consolidation. Even when there is consolidation there is generally some feeling. No one seems to be willing to give way and have the school moved to some other centre which is to be a consolidated school. I know, however, as a matter of fact, the movement is not dead here in the Townships and that it is bound to extend as necessity for it arises.

The Increase in Forester's Rates.

Grumbling among the Foresters of the Townships is still to be heard anent the raising of the rates for old members. Previous to the session of the Supreme Court a little time ago many of the Courts in the Townships sent on representatives, some of them quite threatening in character, if the rates should be raised. The rates were raised and the effect is yet to be seen. The readjustment is without doubt a live issue in Independent Foresters today. The murmuring members must remember, however, that a committee of 25 of the ablest men in the order wrestled with the problem for nearly a week before the Supreme Court convened. The raising of the rates appears to have been inevitable if the order was to continue. A table prepared by this committee, the accuracy of which is easily verified, shows that the monthly contributions of the members, if immediately invested at 4 per cent. and the interest compounded annually until the member attains the age of 70, would make a total sum that the mortuary fund of the society could receive from such members of $575 at age of 40 for each thousand dollars of insurance. It is easily seen that the company could not long continue to pay $1,000 when it had received only $575 without doing away with its reserve and soon becoming insolvent. On the other hand, I am not unmindful of the fact that the members of this order were led to believe that they were paying for life protection, not term protection, and that it is a hardship now to call upon them for additional contributions to make up deficiencies in the amount they have paid in the past which they believed were sufficient to pay for the benefits they had been promised. According to the adjustment the old members must now either pay more for their insurance or pay the same amount they have been paying and accept a certificate for a less amount of insurance, or continue to pay the same amount they have been paying and borrow at 4 per cent. interest enough to make up the increased rate, the amount borrowed being a lien on the policy. The order has a large number of members in the Townships and it is somewhat of a question now what the effect of this readjustment will be upon the membership.

CONDITIONS IMPROVE IN KOREA.

THIS THE REPORT REACHING TOKIO — NATIVES BEING DRILLED AS POLICE, IT IS SAID.

Tokio, July 23.—Prince Ito, Japanese president general in Korea, is at his country residence at Oiso, and will be received in audience by the emperor next Thursday. The Prince says he will return to Korea in October. It is understood that the new government will not change the Korean policy. The 4,000 Koreans who have enlisted in the gendarmerie are now being drilled under Japanese officers and will soon be distributed through the disturbed districts. Despatches from Seoul indicate a decided improvement in the conditions in the outlying provinces.

CHICAGO UNDER 2,000,000.

THE TOTAL POPULATION IS ABOUT 1,940,000.

Chicago, July 23.—The school census of Chicago, which has been under way for several months, is now practically completed, and the count does not reach the 2,000,000 mark. The exact result will be announced the last of the week and will be about 1,940,000. When the enumerators were through with their work and the checkers were counting up it looked at the start as if a phenomenal gain would be shown, several hundred thousand above the 2,000,000 mark. But the enumerators failed to make good on their preliminary reports.

PROHIBITIONISTS OPEN CAMPAIGN.

Chicago, July 23.—The prohibition national campaign was formally opened last night with addresses delivered by prominent leaders of that party at a mass meeting held in Evanston, Ill. The principal speech was made by Eugene W. Chafin, the presidential nominee. Other speakers were Charles R. Jones, chairman of the prohibition national committee; A. G. Wolfenbarger, national chairman, and others.

AERONAUT BADLY BURNED.

Paterson, N.J., July 23.—Edward B. Allen, an aeronaut, of Bridgeport, Conn., is in an hospital here in a serious condition from burns received Tuesday night while getting ready for an ascension at the amusement park. He was caught inside the big bag after the fire which was to have inflated it with hot air had been started. His face, head, arms and neck were badly burned and the balloon was destroyed. Allen probably will recover.

SUTTON.

The members of Sutton Valley Lodge, I.O.O.F., will march from their hall in a body on Sunday next at 2 p.m. to the Methodist church, where services will be conducted by Rev. Geo. S. Schagel, of West Brome. Invitations have also been extended to all the I.O.O.F. lodges in the district as well as to the Richford, Vt., lodge, and it is expected they will be present. Dinner will be served in the Odd Fellows' hall, and will be served by the ladies of the Rebekah Lodge of Sutton.

Mrs. Charles Bessette, of Glen Sutton, is a guest of her son, Section Foreman, Nap. Bessette, here, for a few days. She goes from here later to visit her sons at Brigham and Farnham. Mr. Bessette was killed at Brigham by accident some years ago.

Mrs. L. M. Mills, of Richford, Vt., came here on Tuesday to visit friends for a few days.

Mr. V. N. Dyer left for Quebec on Tuesday, while Mrs. Russell and daughter return to Springfield, Mass., on Thursday night.

A new industry has been opened up here by a party of a dozen or more people styling themselves feather washers. They carry their machines and move from place to place, stopping in each town as long as business warrants. Feather beds and pillows are washed by them by a process new here, and judging from the amount of goods that their teams are hauling in and out they must be getting a good run of business.

The item saying Mr. William Curley, Jr., who is visiting his parents and other friends here, intended to take back a car of horses to Maple Creek, was a mistake. Mr. Curley's visit here is simply to visit friends at his old home in Sutton and other friends in this vicinity.

Mr. William Smith, the temperance lecturer, left for Northfield and Randolph, Vt., on Wednesday, via St. Albans, where he will visit his brother, who lives there. Mr. Smith has been home on sick leave for a few days.

The Misses Alice Bombardier and Annie Coulomb went to Richford on Wednesday to visit friends, while Mrs. J. E. Call goes to Rivere Beach, near Boston early in the week and will return after her outing with her daughter, Mrs. C. D. Griggs, who has been there for some days already.

On the return journey they will revisit the home of Mrs. Lynch at Inverness, from which she has been absent for twenty-two years.

St. Bridget's Day seems to vary, but the 23rd of July seems to be considered the proper festival of that saint. St. Bridget as a widow made many pilgrimages to holy places, full of the Holy Ghost, and, dying at Rome, her body was removed to Suevia. The observance of this saint's day seems to have superseded a pagan rite. The Jewish women burned incense, poured out drink offerings and made cakes with their own hands in honor of a "Queen of Heaven," supposed to have been the Roman Ceres. This custom was common in Ireland till recent years. A well-known writer says: "On St. Bridget's eve every farmer's wife in Ireland makes a cake called "bairin bread," the neighbors are invited to partake, the ale and pipe go round and the evening concludes with mirth and festivity."

You can buy "Snow Drop" flour at Bernard & Cie., Marquette street, and N. Lacroix's, 89 King street.

Mrs. Daves, Mrs. John Daves and the Misses Daves, of Baltimore, Md., were the hostesses at a most enjoyable tea on Friday last at their charming summer home, "Kenozas," North Hatley, in honor of their cousins, Mrs. Strudwick, and Miss Hughes, of Richmond, Va. A large number of guests, both from North Hatley and Sherbrooke had been invited, but a sudden downpour of rain prevented the attendance of many from a distance, over one hundred, however, being present. The entire quaint cottage was fragrant with quantities of flowers, and in the "yellow room" the tea table was arranged, beautifully decorated with variegated sweet peas, the "painted ladies" of old English gardens. Mrs. Walter Tomlinson, of Sherbrooke, poured tea, and the punch table, with its trails of graceful vines, was presided over by Mrs. Larus. Miss Eunice Westcott, Miss Whedbee, of Baltimore, and Miss Molly Naylor, of Pomfret, Conn., assisted.

Major Tomlinson, of the C.A.S.C., was in the city from Quebec yesterday, returning this evening.

Lieut.-Col. Morehouse, Postmaster, left this morning for a couple of days at Quebec during the Tercentenary celebration.

The contract for the installation of a system of steam heating in the building of the Young Women's Christian Association has been awarded to Messrs. J. C. Waterhouse & Co.

VISITORS OF NOTE.

Five gentlemen struck Sherbrooke this week direct from the historic city of Quebec. They bore upon their persons such evidences of distinction that Chief Davidson sought the pleasure of a private interview, and despatched some of his men to act as a guard of honor as far as his office on the hill. The visitors were much struck with this mark of attention from the Chief of such an important city as Sherbrooke. They were oppressed with a deep sense of modesty that was very touching and had no desire to enlarge on their real quality or the elevated social spheres in which they had been moving.

However, the Chief has a suave persuasive manner with him on such occasions and by some Socratic questioning he elicited a few interesting facts of their history.

One hailed from St. Albans and was spending his vacation travelling about the Townships to complete his education. Another was from New York, and was engaged in the horse business. The third has come as far as Akron, Ohio, and was highly endowed, being both a weaver and a shoemaker. He was on his way to a place called Groveton to take a position, the nature of which, however, he did not know until he got there. The Chief commiserated him on being kept in the dark upon such an important fact. Yet another claimed Rochester, N.Y., as his permanent place of abode when at home. He was also on vacation, but was combining business with pleasure and wished to make a start in the moving picture business.

This gave the Chief an idea — he thought they should all engage in the moving picture business right away. The 11.50 G.T.R. train would give them a move at once which he strongly recommended them not to miss. They were in such haste to take his advice that they did not wait to say good-bye.

THREE RACE TRACK INDICTMENTS.

KINGS COUNTY GRAND JURY TAKES ACTION.

New York, July 23.—Three indictments have been found by the Kings County grand jury as a result of the anti-race track betting inquiry that has been conducted by Assistant District Attorney Elder. The men indicted are William A. Engeman, principal owner of the Brighton Beach race track; Christopher Fitzgerald, president of the Brighton Beach Racing Association; and John G. Cavanagh, manager of the betting ring. Warrants were immediately issued for the arrest of the three men. Half a dozen detectives Tuesday afternoon raided the office of John G. Cavanagh, manager of the betting ring at Brighton Beach. A thorough search was made of the place and every book and scrap of paper that could be found was confiscated. Cavanagh is one of the men who was invited to testify before the grand jury. Christopher Fitzgerald, president of the Brighton Beach Racing Association, was also invited. Both of these men first refused to go before the grand jury, but President Fitzgerald appeared at the court house and asked to be excused. His request was granted.

GUARANTEES WORLD'S PEACE.

OPINION ON FALLIERES' VISIT RUSSIA.

St. Petersburg, July 23.—The official plans for the reception of President Fallieres at Reval follow the general lines of those adopted at the meeting between King Edward and Emperor Nicholas. There will be an exchange of gala dinners, the first night on board the Russian imperial yacht Standart, and the second night on board the French battleship Verite. The duration of the French president's stay, it is expected, will be about 30 hours. He will arrive about 3 o'clock in the afternoon of July 27. Russian official circles fully concur in the French declarations of the great significance of the French President's visit, as tending to strengthen the entente between Great Britain, Russia and France, which would serve to further guarantee the world's peace. The quieter tone of the German press comments concerning President Fallieres is causing satisfaction here.

A FORMER TOWNSHIPS GIRL WINS MEDAL IN THE WEST.

Miss Charlotte Burbeck was the winner of a silver medal June 24th in the W.C.T.U. elocutionary contest, held at Smithville. In all there were seven girls who recited and very pleasingly they spoke their pieces. Noticing the difference between their present ease of manner and the more strained effect on the occasion of their first recital, one cannot question the value of the contests. The entertainment was held last night in the Presbyterian church. Mrs. R. B. Irvine presided, supported by Mrs. Croll and Mrs. Avery Smith, M. F. Monro, B.A., B. D., was one of the judges. Musical selections were contributed by the united Young People's Societies of Smithville. Mr. Kirkpatrick had the honor of presenting the medal. Refreshments were served by the ladies of Smithville and then the home drive was enjoyed. — The Phoenix, Saskatoon.

Miss Charlotte Burbeck is the granddaughter of Chief Davidson, of this city.

THE PROFIT OF BROAD-MINDEDNESS.

(From the Wall Street Journal.)

The decision of the Chinese Government to send four hundred students to the United States and maintain them here for educational purposes will be worth much more to us than the $500,000 which might have been retained out of our share of the indemnity on account of the Boxer troubles.

It will be recalled that the United States was almost alone in reducing her claim to the Boxer indemnity below that insisted on by most of the other nations who were represented on much the same scale in the joint movement powers at Pekin. In returning this balance an opportunity was embraced to show China that our interest in the affair of suppressing Chinese outbreaks was not military glory, political advantage, nor financial gain, nor even the desire of territorial prestige at the expense of China. It has furthermore given the United States an opportunity to dispel much Chinese prejudice against America on account of the excessively zealous application of the exclusion act.

In the maintenance of four hundred young men in an educational capacity in the United States for a period of years, by replacing later arrivals for earlier numbers every few years, this country will, in due time, have several thousand trained Chinese representatives in that country who will as a rule not only speak favorably of the United States to their fellow countrymen, but will be disposed to maintain friendship on the most cordial basis for many years to come. Moreover, they will not only help to promote trade between the two countries, but will, as the result of the magnanimous attitude of the United States, prove themselves a potent factor in Chinese development, so that that country will before many years be all the more able to take care of herself, without beseeching the good offices of any other country against the encroachments of some altogether too hungry neighbors.

On Sunday last at St. Hugues, near St. Hyacinthe, the festival of the dedication of churches was celebrated with much ceremony. The parish church was handsomely decorated, the ornaments being very rich and appropriate. High mass was sung by the young Abbe Edmond Chartier, son of Mr. Etienne Chartier, of Sherbrooke, who was ordained priest last month. He was assisted by the Abbe Emile Chartier, professor of the Seminary of St. Hyacinthe, his brother and the Abbe Emile Vincent of the Seminary of Sherbrooke, his cousin, as deacon and sub-deacon. In the sanctuary were the Rev. Abbe Chartier, parish priest, the Abbe J. B. "BOBS" TO GET DEGREE

UNIVERSITY OF TORONTO WILL HONOR HIM DURING VISIT.

Toronto, July 24.—Among the many fuctions which Lord Roberts will be called upon to attend during his visit to Toronto next month will be one at the University of Toronto, when the honorary degree of LL.D. will be conferred upon the famous Field Marshal.

Two years ago when there was considerable talk of Lord Roberts visiting this country the Senate of the University decided to confer the honorary degree upon him, and it was understood that he consented to accept it. The visit was postponed, however, at that time, and this is the first opportunity of such a ceremony taking place. President Falconer is out of the city, and Chancellor Sir William Meredith expects to be away during his Lordship's visit, and some member of the Senate will be called upon to officiate at the conferring of the degree.

HE THREATENED HIS MOTHER

JOHN VAN RENSSELAER ACCUSED OF BLACKMAIL — BELIEVED TO BE INSANE.

New York, July 24.—After spending a night in the Tombs, John A. Van Rensselear, son of Mrs. John King Van Rensselaer, a member of one of New York's oldest families, was taken on Tuesday before Magistrate Corrigan on the charge of threatening to do his mother bodily harm unless she gave him $5,000, and was later committed to the psychopathic ward at Bellevue Hospital for observation. A. Russell Peabody, who appeared for Harry K. Thaw in his trials, represented Van Rensselaer at the hearing Tuesday.

Van Rensselaer was arrested Monday, and it was alleged that he admitted writing a letter, which is now in the possession of the police, in which the threat was made to kill Mrs. Van Rensselaer at Newport.

CLASHED IN DENSE FOG.

STEAMERS LAKESIDE AND CHIPPEWA COLLIDE.

Toronto, July 24.—In a dense fog Tuesday afternoon the steamers Chippewa and Lakeside collided in the eastern gap, but fortunately neither vessel was proceeding rapidly enough to any great damage.

The Chippewa was going out to Niagara and the Lakeside was coming from Port Dalhousie. The big boats were not more than fifty yards apart when the engineers were signalled "full steam astern." The vessels met almost head-on, and on both vessels the shock was distinctly felt. For the moment passengers were badly frightened, but the officers were not long in calming all alarms.

On neither vessel was more damage done than a few boards sprung. The vessels were able to resume their trips, since no damage was sustained below the water line.

ON THE VERGE OF WAR

NEW ZEALAND'S PREMIER PREDICTS A RACE WAR.

Wellington, New Zealand, July 24.—The Premier, in resenting the criticism at the arrangements for a welcome of the United States fleet, predicted war for the possession of Australasia between the yellows and whites, and said they could then have the aid of the fleet to resist invasion.

BABY DROWNED IN A TUB.

Woodstock, July 24.—Lewis Peabody, aged eighteen months, was drowned Tuesday evening by falling into a tub of water kept for watering stock. Other children gave the alarm, but help arrived too late.

AN ANNUAL WOLFE HUNT.

(From the Milwaukee Sentinel).

"The annual wolf drive or hunt of the Houghton County trappers and hunters will be the chief subject for discussion in the extreme upper peninsula for the next three weeks," said J. A. Wright of Houghton, Mich. "This hunt will take place in about two weeks and will start from a little town named Alston, a station on the Mineral Range Railroad. Over seventy-five dogs have already been secured, and it is expected that 125 hunters will take part. The hunters congregate at Alston, while the men who handle the dogs distribute themselves along the railroad tracks in preparation for the drive. At a given signal, which is passed along the line by shotguns, all the dogs are taken into the woods and started and the hunt is on. Soon a dog scares up a wolf and chases him in toward Sturgeon River, where he cannot run any further, and then the sounds of barking all along the line tells how first one and then another animal is making for the river. The hunters are following the dogs and the game is plentiful enough, so that forty or fifty wolves are killed annually. At this time of the year the wolf is tamer than at any other season and can be hunted with greater ease. This ordinarily cunning animal seems to lose a good share of his craft in the late spring. The profits of this hunt besides the general good that it does to the farmer and cattle owner in the vicinity are great, as the bounty on wolves in Houghton County, including fees from the State is about $65.

U. S. FLEET SAILS

Honolulu, July 23.—The United States Atlantic battleship fleet sailed last night at 6.15 o'clock for Auckland, New Zealand. The Minnesota was left behind to await the mail steamer from San Francisco, and will overtake the fleet before its arrival at Auckland.

KILLED BY MOTOR CAR.

Daniel O'Donnell Crushed Under Wheels of Machine

DRIVER DID BEST TO STOP CAR IN TIME, BUT WAS TOO LATE.

Montreal, July 23.—Daniel O'Donnell, 61 years of age, who resided at 51 McCord street, was knocked down and run over by an automobile on the crossing of West Lagauchetiere street and Beaver Hall Hill at noon yesterday, sustaining injuries from which he died two hours later in the General Hospital.

The automobile, which it was said at the General Hospital last night, belonged to Mr. J. M. Fortier, cigar manufacturer, was driven by a son of the owner, and was running down Beaver Hall hill when the accident happened.

From what could be learned of the affair, the automobile is said to have been running at a moderate rate of speed, and the chauffeur tooted his horn, but the old man paid no attention to it, and walked right in front of the machine.

PANIC IN SCHOOL

[illegible] CATASTROPHE NARROWLY AVERTED AT PITTSBURG.

Pittsburg, July 24.—Fire in the Holmes public school caused a panic Tuesday among 150 children attending the vacation term. The large building rapidly filled with smoke, and the children, scattering and almost suffocated, rushed from the structure in great disorder. Many were thrown down and trampled, but none was seriously hurt. Adding much to the confusion was the action of parents of children living nearby, who congregated in the main doorway and excitedly called the names of their children.

Principal David Brown and several women teachers barely escaped being overcome.

HERO OF THE ATLANTIC.

DEATH OF REV. W. J. ANCIENT AT HALIFAX.

Halifax, July 23.—The death occurred at his home in this city Monday afternoon of Rev. William J. Ancient, the preacher-hero of the wreck of the White Star liner Atlantic. His death came as a shock to the community at large. Although he had not been in the best of health recently, his early demise was not expected. Mr. Ancient was stationed at Tercen Bay at the time of the wreck of the Atlantic, April 1, 1873, and by his gallant conduct in pushing out to the battered steamer was the means of saving two lives. His boat crew succeeded, in the face of tremendous seas, in rescuing the two last survivors, who were clinging to the masts of the stranded ship. This gallant deed won him renown, and when in 1905 a monument was erected to the drowned at Tercen Bay with money raised by friends of the dead, Mr. Ancient's part was fittingly eulogized. He came to Halifax shortly afterward, and became rector of Trinity Church. Then he went to Londonderry, and was rector there up to the date of his appointment as Diocesan Secretary of the Anglican Church, which position he held with the greatest satisfaction up to the time of his death. He leaves a widow and two daughters, one the wife of Rev. W. P. Sisam, and two at home. He was seventy-five years old.

MANY RUM RS; NO CLUES.

ESCAPED PRISONERS FROM TORONTO JAIL STILL FREE.

Toronto, July 23. — Though the countryside around Toronto is alive with rumors of fleeing men, no arrests have been made as yet. The police and the jail authorities are busy sifting rumors of which each hour sees a fresh crop. Possibly the most interesting clue came from Myrtle, where a C.P.R. engineer reported that five armed men had held up a farmer and his wife. Inquiry at Myrtle revealed the story that the report had originated in the fact that the postmaster's son, Bertram Blacock, and a friend had managed to elude five men who they said had attempted to hold them up. Beyond that nothing was known.

THE DAILY SMILE

LITERALLY AND FIGURATIVELY.

"Nay, sir; I am an adorness," replied the pretty milliner.

IN TROUBLE.

Little Newman's mother had faithfully tried to answer his question in regard to death and the future life and he had been told that when he died just his soul would go to heaven.

One day he came running in from his play, and in excitement cried, "Mama, mama, if just my soul goes to heaven, what am I going to button my pants on to?"—The Delineator.

TRAGEDY NEAR LAKEFIELD ON SUNDAY EVENING—JOSEPH MOLIEF LOST HIS LIFE.

Peterboro, July 23.—A drowning accident occurred on Sunday afternoon at 7 o'clock about two miles south of the village of Lakefield in the Otonabee River in which Joseph Molief lost his life. He and a friend, Harry Daige of Lakefield, were in a sailing canoe when a sudden squall overturned the boat. The two young men at first held their hands across the craft and prevented themselves from sinking. Molief later let go, thinking he could swim to shore, but sank on the way, and what at first appeared to be a mere upset accident ended in a tragedy. The body has not yet been recovered. Molief was a native of Trenton, aged 23, and had been working for the Cavendish Lumber Co. for two seasons. He was unmarried.

LONGBOAT IS FIT.

GREAT INDIAN RUNNER IN CONDITION TO RUN THE RACE OF HIS LIFE.

Toronto, July 23.—Tom Marsh cables—Tom Longboat arrived yesterday from Ireland. He is in grand shape. His injury is trival and he looks fit to run the race of his life on Friday. Longboat finished his training with a three mile run.

The other Canadian Marathoners did 5 miles. Simpson and Lawrence are still the pick of the bunch. Tait and Goulding will both run a good race. Cotter is in grand condition.

CANADA'S FIRST CHAMPIONSHIP

BOBBY KERR OF HAMILTON WINS 200 METRES RACE.

London, July 23.—(Special)—Canada secured it's first Olympic championship to-day when Bobby Kerr, of Hamilton Ont., won the 200 metres race.

CANADA DID WELL

ELEVEN MEMBERS OF THE TEAM IN SECOND STAGE OF THE KING'S.

Bisley, July 23.—Eleven of the Canadians, and, possibly a twelfth, yesterday shot their way into the second stage of the King's. Scores of 96 were good enough to qualify, leaving 56 vacancies for the 96's contend for today, when the ties will be shot off. Lt. Spittal is leading the team, and is also one of the high men, with a splendid score of 101, with Sgt. Smith, also of Ottawa, in second place with 100.

LONGBOAT SAYS HE WILL WIN.

London, July 23.—Tom Longboat, when seen yesterday after his arrival here, said he was feeling quite fit for the Marathon race on Friday. "I guess I can win through all right," was his comment. The Indian likes the Marathon course. If it is a fine day on Friday he says he will beat all records on such a beautiful road. It is noticed that he has cultivated a new stride. Keeping his hands close down by his side, he literally glides over the ground, raising his feet only a few inches.

WALKER'S GREAT VICTORT.

London, July 23.—The Olympian athletics met a dark horse yesterday in the person of the South African youth, R. E. Walker. Walker broke the tape in what is considered the most important event in the Olympian games, the 100 metres dash, a short two feet in front of G. A. Rector, the University of Virginia crack.

The Canadian, Kerr, was a few inches behind the Virginian.

Walker, the South African, had a full half-yard lead on Rector in the final of the 100 metres, and Kerr was only three inches behind the American. Walker jumped into the lead at the start, with Kerr behind Rector. The Canadian came fast and just failed to catch the American. Near the end Kerr glanced sideways and probably lost something by carelessness. After Walker's victory, the crowd cheered the first colonial success, especially because of the Yankee reverse. After his victory, Walker was presented to the Duke of Connaught.

RUN DOWN IN FOG.

SIX FOREIGNERS KILLED IN RAILWAY YARDS AT BUFFALO.

Buffalo, July 23.—Between midnight and daybreak Monday morning six foreigners were run down and killed by train in the railroad yards at South Buffalo. None of the dead men have been identified.

The first body was found on the Lake Shore Railroad just beyond the city limits. Two more were picked up by the crew of a Lake Shore switch engine at the Buffalo Creek railroad crossing. The bodies were badly mutilated. Two hours later the bodies of the other three were found 300 yards west of the Buffalo Creek crossing. Like those found earlier the bodies were so badly cut up that identification will be very difficult.

The six deaths coming within a few hours caused some talk among the foreigners in South Buffalo of a suicide pact among idle and disheartened laborers. It is more probable, however, that the men were on their way to work or to seek employment and were run down in the fog which prevailed this morning.

BLACK HAND THREAT.

A FRUIT-GROWER OF LOUTH RECEIVES DEMAND FOR MONEY.

St. Catharines, July 23.—Mr. A. Sylvane, fruitgrower, residing in the township of Louth, is in possession of a letter addressed to him signed "Black Hand," demanding that he place $500 at the end of a row of new houses recently erected near Maple Leaf Rubber Works, Port Dalhousie. Failing to comply with the demands, Mr. Sylvane is threatened with the destruction of his residence and barns by fire. The matter was reported to the High Constable, who visited the spot mentioned last night, but no one put in an appearance. Mr. Sylvane is quite worked up over the matter. The writer states that a party has determined to wreak vengeance on Mr. Sylvane unless the $500 is paid, but if $100 is given the writer will see to it that everything is all right. If nothing is given, the letter says Mr. Sylvane and family will be murdered. The letter is written in a vertical hand and may be a joke, but the supposed victim cannot see it in that light.

STANHOPE AND NORTON.

Mrs. W. H. Bishop left on Monday last to visit friends in Quebec and attend the celebration there.

Mr. John Damon, of Sawyerville, who spent a few days recently with his parents here, returned home Monday.

DO YOU WANT TO MAKE OR LOSE MONEY THIS SUMMER?

THERE is no good reason for any "summer dullness" in the stores of this city. That's a strong statement—but its not nearly so strong as the one to follow.

No store in this city ever suffered from summer dullness that was not directly traceable to its advertising policy—that was not INEVITABLE on account of its advertising policy. This is a strong statement—but not so strong as the one to follow.

You—if you who read this are a merchant in this city—HAVE THE ABSOLUTE POWER TO DECIDE WHETHER during THIS summer, YOUR STORE SHALL LAG AND LOSE GROUND, through ENCOURAGING THE NON-BUYING HABIT IN THE PEOPLE—or shall keep as busy as in the so-called "busy seasons." You decide the matter one way or the other when you decide on how much or how little you will advertise during these summer months.

To really "gain ground" at a time when some stores are lagging and falling back is not only possible—it is an aspiration worthy of an energetic merchant—worthy of a man who has the habit of accomplishing his purpose.

DIVED TO HIS DEATH.

WM. LOWREY OF TORONTO MET FATE AT DETROIT.

Detroit, July 23.—Diving into the Detroit River for the purpose of enjoying a swim, William Lowrey, aged thirty, a moulder by trade, whose home is at 470 Gerrard street East, Toronto, was rendered unconscious and drowned here Sunday through striking his head upon a submerged pile. He and several friends went to the Public Lighting Commission dock at the foot of Randolph street to enjoy bathing in the river. The unfortunate man was the first ready for the plunge, and, standing up before his companions, he dived in. It was soon discovered that something had happened, as he did not come to the surface.

He was not found for an hour. It was discovered that he had injured himself on the remains of an old pier, and had died of drowning while unconscious. The relatives in Toronto were notified.

HIS DEATH FORETOLD.

QUEER INCIDENT CONNECTED WITH MEDICINE HAT FATALITY.

Winnipeg, July 23.—J. Clarke, inspector of accidents for the Railway Commission, returned Monday from an inspection of the scene of the wreck at Medicine Hat, where seven men met death, and has no hesitation in laying all the blame upon Nicholson, one of the dead engineers.

In connection with this lamentable disaster a strange story comes from Lethbridge, where it is said Engineer Gray, who was driving a passenger train that morning, had been told by a palmist, whom he consulted some time ago, that he would be killed in a railway accident within six months. This made a remarkable impression on him, and so haunted him that he decided to quit the road, intending to adopt some other means of making a livelihood. He was, however, persuaded to take out the ill-fated train on the day in question; it was his first run for months, and he met his death, as was described in the press at the time the accident occurred.
