Travelling in Québec

Driving in Québec

Since Canada uses the metric system, speed limits and distances are posted in kilometres per hour (km/h) and gasoline is sold by the litre (l).

It is illegal to transport or use radar detectors in Québec.

Cell phones

Use of a cell phone is prohibited while driving.

Road conditions

For information on road conditions or other aspects of trip-planning, call 511 or 1-888-355-0511, or visit quebec511.info.

Tipping

Tipping is customary in restaurants, bars and taxis. The amount, which is not included in the bill, is generally equivalent to 15% of the total bill before taxes. For quick tip calculations, Québécois normally add up both taxes. Tipping bellhops or porters is at your discretion (generally, \$1 per bag).

Winter tires

From December 1st to March 15, all taxis and passenger vehicles registered in Québec must be equipped with winter tires. This requirement also applies to rental passenger vehicles in Québec.

Tourist routes and trails

The official tourist routes are clearly marked with blue signs. They are designed to highlight the attractions of the regions through which they pass, and to enable visitors to discover the extent of Québec's natural and cultural treasures.

quebecoriginal.com/tourist-routes

Tourist signage

In Québec, tourist regions and directions to services, attractions and activities are indicated by blue road signs. For more information, visit panneaubleu.com and tourisme.gouv.qc.ca/signalisation (in French only).

Taxes

Québec has two taxes : the 5% federal goods and services tax (GST), and the 9.975% Québec sales tax (QST). An accommodation tax of 3.5% of the room price per night also applies in our region..

Village-relais accredited services

If you feel like taking a break or require assistance while on the road, look for the Village-relais signs. These point to towns that, together with local businesses, offer a range of accredited services and a safe and pleasant place to stop.
