

## RUSSIANS GAIN BREATHING SPACE ALONG EASTERN FRONT

### Austro-Germans Meeting With Stubborn Resistance on Centre Line in Galicia. On Western Front the French Make Usual Report of Slow Progress, and Are Now in Possession of Entire Village of Neuville St. Vaast. In Spite of German Denials Petrograd Insists That One German Torpedo Boat and a Transport Were Sunk in Naval Engagement in Baltic.

London, June 10.—(Special)—A careful reading between the lines of the various official announcements of the last twelve hours leads British observers of the situation on the Continent to the belief that the weary Russians have been successful in gaining a breathing space along the eastern front. Furthermore, evidence of the stubborn opposition which the Austro-Germans are said to be meeting near the centre of the line in Galicia is declared here to exist in the statement from Petrograd that 2,000 Austro-German prisoners have been taken in a series of counter attacks near Przemyśl.

According to Russian reports, the Austro-German offensive in South-east Galicia has not been able to cross the river Dniester at any point other than Scirawna, which is forty miles from Lemberg, and which they reached last Sunday.

Berlin contradicts this with the statement that the right wing of the army under General von Linsingen has advanced ten miles further and occupied Stanislaw, an important railway centre. GERMANS ADMIT LOSS OF NEUVILLE.

In the west, the French make their usual report of slow progress, accompanied by the repulse of German counter-attacks. The French claim and Berlin admits that the French now are in occupation of the entire village of Neuville St. Vaast. From other portions of the French frontier come reports of minor advances.

### GERMAN ATTACKS REPULSED

Paris, June 10.—(Special)—The War Office this afternoon issued the following statement:—

"There was all last night a very violent artillery engagement in the region between Lorette and the sugar refinery at Souchez. At nine o'clock at night the enemy delivered an attack which was, however, at once repulsed.

"The Germans bombarded Neuville St. Vaast but they made no endeavor to recapture it. We made further progress yesterday in 'the labyrinthes.'

"In the vicinity of Hebuterne we maintained all our advance on a front of 1,800 yards long and for a depth of about 1,000 yards. There is nothing further to report from the remainder of the front."

### GERMAN TORPEDO BOAT AND TRANSPORT SUNK

Petrograd, June 10.—(Special)—In spite of the German denial it is insisted upon in authoritative circles here that one German torpedo boat and one transport were sunk and another torpedo boat damaged by a Russian submarine in the recent naval engagement in the Baltic.

### AUSTRIANS DISLOGGED FROM POSITIONS BY ITALIANS.

Rome, June 10.—(Special)—An official statement issued by the Italian War Office follows:—

"Reports received of the operations on June 7 and 8 show that the Italians, in pursuing along the Isonzo River the task of dislodging the Austrians from strong natural positions and establishing bridge heads, are displaying great bravery and tenacity in the face of heavy obstacles, intensified by floods.

"We have occupied the town of Monfalcone (16 miles northwest of Trieste, near the Adriatic). Our losses were not serious, while we took 400 Austrians prisoners."

### ITALIANS MEET WITH STUBBORN RESISTANCE.

Rome, June 10, via Paris.—(Special)—Efforts of Italian troops to force a passage of the Isonzo River are being stubbornly contested by the Austrians, but are meeting with success, according to a statement signed by General Cadorna, chief of the general staff, issued at the war office.

### ITALIAN ARTILLERY INFLECTS HEAVY LOSSES.

Geneva, June 10.—(Special)—A despatch to the Tribune from Laibach says: "The Austrian artillery at Tolmino has suffered heavy damage from the Italian bombardment. The Austrian losses are becoming serious, as the Italian fire is singularly well directed. An ammunition depot has been blown up at Tolmino. There were three hundred victims."

## BRITISH SINK TURKISH GUNBOAT AND CAPTURE A TRANSPORT

London, June 10.—The Turkish gunboat Marmaris has been sunk and the Turkish transport Mosul has been captured, according to an official statement given out last evening by the British Government. The action took place in the Persian Gulf region. The text of the statement follows:—

"Fuller reports of our advance up the Tigris River and the occupation of Amara show that as the result of an action on May 31 and June 1 the enemy's force, which had been threatening Kurnah for some time, became completely demoralized.

"No resistance appears to have been offered to the small party pursuing the river, the Turks trying to escape as fast as they could in mahalas and steamers. The former surrendered on being overtaken, while the Turkish gunboat Marmaris was sunk and the transport Mosul captured.

"Although the strength of the force which arrived at Amara in the 'Comet' (British destroyer) and some small launches was quite insignificant, the entire garrison, which numbered over 1,000, surrendered, including the Turkish civil governor of Amara, Halim Bey, the commandant of the force recently opposing at Kurnah, and Said Ulah, commandant of the two fire brigade battalions.

"Shortly after our occupation of Amara the advance guard troops of Daghestani's column, which had retreated from the Kherka Valley, entered the town and were captured. The remainder of this force, estimated at about 2,000, fled, leaving a heavy gun in our hands.

"The remnants of the enemy, who so far have escaped capture, are retiring in a state of disorganization, many having discarded their arms."

The Turkish gunboat Marmaris displaced 492 tons and carried a complement of 66 men. She was 174 feet long and was armed with four 9-pounders and two 1-pounders. She also was equipped with one torpedo tube. The Marmaris was built at Le Creusot, France, in 1897.

## 222 NAMES ON CASUALTY LIST

### Nearly Half of Losses Are Made up From the British Columbia Battalion

Ottawa, June 10.—Yesterday's casualty lists contained 222 names. Eight Montrealeers, six of them from Lieut.-Col. Meighen's battalion, are among those killed in action. Nearly half of yesterday's list is made up of losses to the Seventh, the British Columbia battalion whose commanding officer, Lieut.-Col. McHarg, the champion rifle shot of the United States and Canada, fell in action during the battle of Langemarck. The Seventh, which received reinforcements from the 30th, another British Columbia battalion, has twice figured heavily in the casualties since the fighting at Langemarck. A number of the men missing from the Thirtieth, Fifth Royal Montreal Highlanders, are reported to be prisoners in Germany. Upwards of two hundred men, it is estimated, were taken prisoners from this battalion.

## FRENCH GAIN IN NEUVILLE DISTRICT

Paris, June 10.—The following official communication was issued by the War Office last night:—

"Artillery fighting has continued very violently in the sector to the north of Neuville. We carried last night and this morning the houses in Neuville St. Vaast, which the enemy still held. All the village on the east side is in our power. We have, besides, progressed up to the north group of houses.

"In the region to the east of Tracy-Beaufort, which is in the south-eastern section.

"In the region of Hebuterne, notwithstanding a violent bombardment, we extended our positions around the Touvent farm.

"In the region to the east of Tracy-Le-Mont, at the Queenneveres farm a counter-attack last night by the enemy was checked.

"We have strengthened all the ground gained by us on June 6.

"On the rest of the front there is nothing to report."

## BRYAN MAKES STATEMENT

### Will Endeavour to Convince People he is Right and President is Wrong

CLAIMS THAT AMERICANS SHOULD BE WARNED NOT TO TRAVEL ON BELLIGERENT SHIPS.

Washington, June 10.—William Jennings Bryan is going before the American people in an effort to persuade them that he is right and President Wilson is wrong in the course adopted by the American Government in dealing with Germany. In a statement issued yesterday, Mr. Bryan indicated that he would follow this programme, although he did not say so specifically. This statement was issued within little more than an hour after Bryan had said good-bye to the President, with parting expressions of friendship and loyalty.

The purpose of the ex-secretary of state, according to his own explanation, is not exactly as stated above. The way Mr. Bryan puts it is that he will call public attention to the matters that brought about his difference with the President in the hope of securing such an expression of public sentiment "as will support the President" in applying the remedy of investigation in an international commission in disputes between the United States and other countries before there shall be a resort to more positive measures and in warning Americans travelling on belligerent ships or ships that carry cargoes of ammunition.

In other words, it is Mr. Bryan's purpose to arouse public sentiment in the United States to such an extent that President Wilson will realize that the American people wish him to pursue this course in future dealings with Germany; that is, to adopt the course which Mr. Bryan wanted enunciated in the American answer to the German contentions in connection with the sinking of the Lusitania. President Wilson declined to follow Mr. Bryan's reasoning, and as a result of their differences Mr. Bryan resigned from the office of secretary of state.

## BRITISH LINER FLEW U. S. FLAG

### Captain of the Colonial Says he Was Ordered to Fly a Neutral Flag

EXPLAINED THAT HE USED AMERICAN FLAG IN PREFERENCE TO THAT OF ANY OTHER COUNTRY.

Boston, Mass., June 10.—The British steamer Colonial, of the Leyland line, flew the American flag for forty hours as a protection against German submarines while passing through the war zone, according to her commander, Captain J. McDonald. The Colonial arrived yesterday from Avonmouth, England.

It was on May 30th, Captain McDonald said, that he was hailed by a British patrol boat two days out of Avonmouth and told to "display the flag of a neutral nation or no flag at all." He sent the stars and stripes up the staff immediately, he said. He explained that he used the American flag in preference to any other, because he could back up his bluff if hailed by speaking in the English language.

Among the hundred and thirty passengers on the steamer, all of whom were men who had crossed to England as horsemen and had been given free transportation on the return were 90 Americans.

Scotstown, June 10.—(Special)—The showers which came on Tuesday after the hot spell of the previous week have made a very appreciable difference in the appearance of the town and surrounding country.

A YOUNG WATERVILLE HERO

Sydney Skailles Saved Two Boys From Drowning in the Coat-cook River

SINGLE HANDED, HE BROUGHT SAFELY TO THE SHORE WHEN THEY WERE ABOUT ALL IN.

The gallant conduct displayed by a Waterville boy, Sydney Skailles, who, although only 15 years of age, was the means of saving two lives on Saturday last, and certainly prevented a drowning fatality, which would have brought grief and mourning to two local families.

It appears that two young boys went out on a raft into the middle of the Coatcook River, at a deep place, both unable to swim. Owing to some accident they fell off the raft and were in great danger, when young Sid Skailles (or, as he is better known to Waterville people, Sid Williams) dived in, swam out, and catching hold of both boys, who apparently were all in, brought them safely to the bank, where after some time they revived sufficiently to go home.

To Folks Who Daily With Corns

To you who pare corns— You who use liquids— Or other old-time ways. You've amply proved that using such things is merely dallying with a corn.

For your own sake, prove the right way. Millions of people have found it. Half the corns that grow are ended by this wondrous Blue-jay plaster.

The corn pain ceases the moment you apply it. Then the B & B wax—a famous chemist's invention—gently undermines the corn. In 48 hours the whole corn comes out, without any pain or soreness.

WELL THAT'S A GOOD JOB! and it will last, too. The way to estimate the cost of keeping your house properly painted is to divide the cost of paint and labor by the number of years the paint will last. Brandram-Henderson's "English" Paint is the paint of longest service - the 100 per cent pure paint - because it contains 70 per cent Brandram's B. B. Genuine White Lead and 30 per cent White Zinc, ground in pure linseed oil, turpentine and dryer for all paints that can be made on a white base. Figure its cost, not merely by the space a gallon will cover but by what it will keep covered. To the painter the formula of B-H "English" gives a feeling of confidence from the start. A beautiful booklet of color-schemes is ready for distribution. Call today. FRYE & CROSS 187 Wellington St. SHERBROOKE, QUE.

GRANT FOR ROAD WORK IN BROME

Construction of New Highway in the Township Will Be Proceeded With at Once

THE MUNICIPAL COUNCIL AND SCHOOL COMMISSIONERS MEET AND DISPOSE OF REGULAR BUSINESS

Brome, June 10 (Special)—A meeting of the Municipal Council took place on Monday when by-law No. 188 was passed levying 5 mills on the dollar for town liabilities for the past year.

The members of the Council in a body visited the tile works and expressed themselves as well pleased with the tile manufactured by Mr. Walter Tracey. They will continue drawing the gravel from the Ruiter Brook on Councilor Draper's farm.

An adjourned meeting will take place on June 26 to take into consideration the changes in the valuation roll for 1915 for local purposes. Many bills were passed and ordered paid.

Brome municipality has received another grant from the Provincial Government for the construction of roads and will resume road building early in the week, commencing where the work stopped in the fall of 1914 and will continue through the village in the direction of Knowlton. Mr. J.F. Armstrong has charge of the road construction. Road Inspector S. M. Stone with the road men at work on the division east of the village widening it out. No doubt he will have a good road when completed.

SCHOOL COMMISSIONERS

An adjourned meeting of the School Commissioners took place on Saturday to secure teachers to fill the vacancies in the several schools. School manager C. W. Richard was asked to call the district together to discuss the engagement of a teacher in that particular school. Secretary G. F. Hall was appointed to preside at the election of Commissioners to take place on the first Monday in July.

The retiring commissioners are Messrs L. H. Lawrence and J. F. Armstrong. Reports were ordered on the shed of school District No. 10. A few bills were passed and ordered paid.

BUILDING OPERATIONS

The new Roman Catholic School building is progressing rapidly. Mr. Alvin Farmer is having his large barn roofed with corrugated iron, also Messrs. Chas. and C. Libby are having a metal roof on their house. The painting of Mrs. D. R. Martin's house in this village is now completed and makes a vast improvement. Messrs. Henry and Draper will build a new garage for their car. They are also now roofing their shed and barn and making general improvements.

RAIN DID MUCH GOOD

The fine shower on Tuesday revived vegetation. Having had no rain for nearly two weeks previous it came just in time to relieve the situation which was becoming a matter of concern. The dry weather, however, gave the farmers a chance to put in their crops on low lying ground, also their root and corn crops. As the strawberry blossoms are not damaged by the past frosts crop suffered to any great extent. Mr. E. Caldwell reported picking fresh strawberries from his pasture field on May 31st, and strange to say tomato plants set out in the open and unprotected were not frozen, while the same protected were frozen and had to be replanted.

CRUELTY TO ANIMALS

Two recent cases of cruelty have been reported to the S. P. C. A. and dealt with by the officers of the Society. A horse owned by one Jerry Macier of Mansenville was put to death by (Picer Beals, and a case was dealt with before J. P.'s Emerson and Hall, and a fine of \$10 and costs imposed on a resident of Fulford with a warning that a second offence would be dealt with more severely. Other cases have been reported which are being investigated. No cases reported without convincing evidence will be taken notice of in the future.

Mrs. Goodall, wife of Captain J. R. Goodall, M.D., with her little daughter and nurse, left yesterday for "Cedarhurst," Lake Memphremagog, to spend some time with her mother, Mrs. Weir.

Mr. Robert C. Wilkins, of Farnham, ex-president of the Associated Boards of Trade, was in town yesterday and delivered a most excellent address before a meeting of the Sherbrooke Board of Trade, on trade question. A summary of this address will appear in to-morrow's paper.

A very pleasant occasion took place today when Mr. W. J. Corder was presented with a heart-shaped birthday cake decorated with red candles and a flag of old Ireland by his many friends of the Canadian Bank of Commerce, with whom he is immensely popular.

Letters received recently by friends in Lennoxville from Mrs. Drummond, widow of the late Dr. Drummond, speak of a painful accident which her son, Lisit, Barkley Drummond, sustained by falling from a motorcycle, fracturing his leg. The young officer is much chagrined, as he will be unable to join his regiment, the 42nd Highlanders, for some time to come.

The manager of His Majesty's Theatre states that he will be glad to open the theatre to H. Price Webber company or other travelling companies for a performance in aid of patriotic objects. The only negotiations he had had with Mr. Webber up to the present was for a performance on percentage basis, the item in yesterday's paper being, he feels, somewhat misleading.

Dainty refreshments will be included with the delights of the outdoor entertainment and all will be given for the small sum of 25 cents.

SHERBROOKE COUNTY AGRICULTURAL SOCIETY.

In this month's issue of the Journal of Agriculture a letter appears from Mr. H. B. Miller, secretary of the Sherbrooke County Agricultural Society, calling the attention of the

farmers of the county to the benefits to be derived from membership. The editor of the Journal refers in complimentary terms to the value and usefulness of the society's undertakings.

The Farmer's Advocate also makes similar reference to the society's operations in the province in the interests of agriculture.

**FIRE ON ALEXANDER STREET.**

The brigade was called to 111 Alexander street at 11.25 yesterday morning for a small fire in the cellar of the house owned by Mrs. F. Cantin. No damage resulted.

**CORRECTION.**

An error crept into the heading of the report in yesterday's issue, of the license cases heard at Sweetburg on Monday. As will be seen from the text of the report, it was a notkeeper at Roxton Falls only who was fined, and not the one at Lawrenceville.

**FUNERAL OF THE LATE GEORGE GEOFREY GRUNDY TOMORROW AFTERNOON.**

The remains of the late George Geoffrey Grundy, general manager of the Temiscouata Railway, who passed away suddenly on Tuesday evening at Riviere du Loup, arrived in his private car over the Quebec Central Railway this afternoon at 1.15. The body was accompanied by Mr. E. O. Grundy, a brother, Mr. J. H. Walsh, general manager of the Q.C.R., and other friends. The remains were taken to the home of Mr. W. E. Paton, Moore street.

The funeral will be held on Friday afternoon at 2.30 from Moore street, to St. Peter's Church, and thence to Elmwood Cemetery.

**THE FROG ROAST**

A serio comic act which some boys were performing on Council Street, yesterday afternoon terminated in a manner which the authors had not foreseen.

They were playing round a barn belonging to Mr. Eugene Bourque and endeavored to roast a frog by setting fire to some straw which was protruding from the barn. The flames spread two rapidly for their purpose and threatened the safety of the buildings. The brigade from No. 4 station answered the alarm but in the meantime the outbreak was extinguished by men from the Crown Manfg. Co. opposite before any damage was done. It is believed that the juvenile cooks got "roasted" as well as their victim.

**ST. PETER'S GUILD.**

The closing of St. Peter's Guild for the summer was marked yesterday by a luncheon, sale and tea, which were quite as successful as in previous years. The day was perfect, and the church hall, with bright sunshine and summer air pouring in through the long open windows, looked most attractive, and was crowded from 12 until 2 o'clock. The tables, arranged with early summer flowers, lilacs, columbines, etc., and shining with silver and glass, were gay with tiny flags, which were also in evidence on the white dresses of the attendants. They were in charge of the following members: Mrs. A. F. Fraser and Mrs. Hugh Tomlinson; Mrs. Vernon, Mrs. David Salls and Mrs. Lawrence Wyatt; Mrs. Reginald Smith and Mrs. Welsh, assisted by Miss Geraldine Clough; Mrs. Chapman and Mrs. R. N. Robins, with Misses Annie King and Marion Tomlinson; Mrs. J. D. Parmalee, Mrs. Holmes and Miss Aitkin; Mrs. Darey and Miss Bennetts; Mrs. Rawson, assisted by Miss Marjorie Hume; Mrs. Harding and Miss Mary Twose.

At the refreshment table Mrs. Moe and Mrs. Goff poured tea and coffee, assisted by Mrs. Fred Pearson, Mrs. Dumbell, Mrs. Harkness, Mrs. Sewell, Mrs. Byrd, Mrs. J. F. Wilson, Mrs. Hillhouse, Mrs. Martin, Mrs. Horsefield and Miss Twose. Mrs. Jones, the president, received at the door, and the tickets were taken by Mrs. Mackinnon. The menu was at once appetizing, dainty and substantial, and was well served.

In the afternoon the hall was again open, and again well filled. The fancy table, which had many novelties displayed, was looked after by Mrs. David Wilson, Mrs. Libby and Mrs. W. C. Fuller, and the apron table by Mrs. Gustafson and Mrs. Johnston. At the tea table Mrs. James Price and Mrs. George Bradford presided, with Mrs. Parmalee, Mrs. Byrd, Mrs. Moore, Mrs. Wyatt, Mrs. Darey, Mrs. H. Bradford, Mrs. Saunders, Mrs. Harding and Mrs. Balance as assistants. The receipts were very satisfactory.

## SLANG IN THE NAVY

To explain the origin of some of the picturesque terms which "Jack" has bestowed upon many things in connection with his calling is almost impossible. It is quite obvious, however, why he refers to tinned beef as the "Accident," while the ration of baked meat with vegetables is known as a "Schooner on the Rocks," and baked meat as "Burnt Offering."

On his officers Jack has bestowed some amusing names. The Commander-in-Chief is called "The Ral," an abbreviation of admiral; the Commander "The Bloke," "Number One" is the first lieutenant, also known as a "First Loot." "Gold-Dust" signifies the paymaster, the bosun is "Tommy Pipes," and his mate "The Buffer."

The marines are known as "leather necks," from the fact that the collar of their jacket was once lined with a thin strip of leather. The ship's band is composed of "windjammers," while signalmen are "bunting tossers."

The torpedo is known among battleship men as the "stink fish" from the fumes which the early tubes gave off when fired, and wireless telegraphy is "atmospherics."

Arguing, Jack's favorite pastime when "make and mend clothes" is the order, is known as being "up the rigging," while grumbling is "flogging the cat."

## Military Funerals

It is not universally known what is meant by a funeral "with full military honors." In such a funeral the coffin is borne on a gun-carriage. If the dead soldier was an infantryman his sword and helmet rest on his coffin.

At the funeral of a cavalry soldier his sword and helmet are fastened to the saddle of his horse, which is led immediately behind the gun-carriage, and his top-boots, with spurs attached, are fastened in the stirrups, with the toes pointing backwards. A firing party, drawn, if possible, from the deceased's regiment, fires three volleys over the grave, and the "Last Post" is then sounded by buglers.

## IMPORTANT AUSTRIAN TOWN CAPTURED

London, June 10.—(Special)—Capture of the Austrian town of Montefalcone is announced in an official communication from Rome. General Cadorna, Italian Chief of Staff, reports that the town was occupied after stubborn fighting along the Isonzo River. Montefalcone lies three miles east of the river and about an equal distance north of the Gulf of Trieste. It is sixteen miles northwest of the city of Trieste, against which the Italian invasion presumably is directed.

Possession of Montefalcone would be of strategic importance to the Italians, particularly as that point is connected by railway with Trieste. The latest mention of the town in official Austrian despatches was in last night's report, which said an Italian attack in that vicinity had failed.

At various points along the Isonzo sharp fighting has occurred, and several successes for the Italians are announced, but it is conceded the Austrians still hold dominating positions on the right or west bank of the river. Italian forces are still moving northward over the Trent frontier, but thus far the engagements have been little more than skirmishes.

## Honored With Knighthood

SIR HENRY L. DRAYTON, Chairman of the Dominion Railway Commission, knighted on the King's birthday.

## FIFE AND DRUM BANDS

Almost from time immemorial soldiers have marched to the tune of the drum or the skirling of the pipes. Perhaps however, the most interesting of the early records of martial music in the British Isles is that concerning an episode in 1333, the date of the Battle of Halidon Hill, when "the Englysche mynstralles beate their tabors and blewen their trompes, and pipers pipedone loud and made a great schowte upon the Skottes."

The earliest date at which drums were carried on horseback in England appears to be 1642, when Henry VIII sent to Vienna for kettle drums that could be played on horseback "after the Hungarian manner." Mounted bands were in vogue in the last decade of the eighteenth century, the two regiments of Life Guards having them in 1795.

Regimental kettle drums are usually draped in beautifully-worked drum banners, which often display great artistic taste, and are inscribed with the regimental honors. The Royal Horse Guards have a pair of silver drums which were presented by King George III. in 1805.

Fifes also have a claim to notice. They were in favor before the reign of James I., when they were withdrawn to be restored by the Duke of Cumberland in 1745, who reintroduced them into the Guards. Thereafter the drums and fifes took their place as a recognized body, distinct from the band generally speaking, but a valuable asset for marching purposes.

An epoch in the history of military music was the adoption of wooden instruments with keys. This enabled melodies to be played long before the brass instruments could come more than sound their "open" notes.

## A RUSSIAN HERO

General Ruzsky, Schooled in Manchuria, Knew Lemberg Well

The member of the Grand Duke Nicholas' General Staff whom his commander-in-chief has had most occasion to honor in the present war is Nicholas Vladimirovitch Ruzsky, the victor of Lemberg.

For taking this strategic fortress the Third Class of the Order of St. George was conferred upon him.

The man thus decorated is in his sixty-first year, a veteran of proof, and one of the most prominent members of the Russian General Staff. He studied at Petrograd, beginning first, like all Russian boys, at one of the gymnasiums, or public schools. Thence he passed to the Constantine Military Academy and the Nicholas Staff College. His career there was distinguished, and he passed out with high honors.

When the Russo-Turkish war broke out, Ruzsky was eighteen years of age, and a Sub-Lieutenant in the Grenadier Guards. He served through the campaign and thereafter his rise was rapid. His colonelcy came when he was only thirty-one. Eleven years later he had attained the rank of Major-General.

When Russia found herself again at war, Ruzsky was appointed Chief of the Staff in the Second Manchurian Army, a post of singular difficulty, which brought him a deeper and a

more actual experience in the organization and handling of vast masses of troops over an extended area. The Manchurian campaign was indeed, with all its disadvantages, the most valuable of all possible rehearsals for the colossal operations of the present war, and General Ruzsky has known how to profit thereby. Apart from field operations, too, he gained a complete knowledge of all questions of transport, control, and supply from his position as a member of the Russian Army Council, where he was closely associated with General Soukominoff, that officer and the Grand Duke have together wrought the marvelous reconstruction of the Russian army which has surprised a world which hardly believed that the disasters of ten years ago could have been so thoroughly repaired.

Ruzsky is one of the typical men of the new school. He knew the whole ground around Lemberg like the proverbial book. His practicality is immense—so is his memory. At manoeuvres it was noticed that he could tell at any given moment where any regiment stood, and could get the maximum of performance out of every unit.

## CONGREGATIONAL MINISTERS MEET

62nd Annual Session of Union is Presided Over by Rev. G. H. Craik, Melbourne

REFERRED IN ADDRESS TO THE SCANDALS IN WAR CONTRACTS IN CONNECTION WITH CANADIAN CONINGENT

Ottawa, June 10.—The bulk of the ecclesiastical machinery of the Canadian Congregational denomination is concentrated in Ottawa, some eighty clerical and lay delegates attending the 62nd annual Congregational Union in Welcome Zion Church which opened yesterday. "Hundreds of our men have gone to the front," stated Rev. W. T. Gunn, Toronto, general secretary, in presenting the report of the executive, "and eight ministers, including the chairman, Rev. Mr. Craik, have contributed to patriotic duty."

It was gratifying, the report said, that the seven associations made a total membership of 13,658. It was made up of: Quebec, 2,834; Western Ontario, 2,214; Central Ontario, 2,230; Eastern Ontario, 988; Nova Scotia and New Brunswick, 967; North-West Provinces, 3,352. The delegates were given an official welcome to the city at the evening session. Rev. G. H. Craik, Melbourne, Que., chairman of the Union, in an address on "Some Needs of the Church," said one of the chief was to awaken a deeper protest against wrong-doing. The recent scandals connected with the war contracts should make Christian people active to prevent such evil.

Is it possible that among some of us the first great enthusiasm is wearing down? Surely the need of workers was never greater than it is now. The news from almost every front is far from being as good as we could wish, and the end looks far off. We ought even now to be preparing for

## O. MAGUIRE TELLS OF YPRES FIGHT

Carried Wounded Companion to Safety Through Rain of Bullet and Shell

OUT OF 54 MEN IN HIS PLATOON ONLY THIRTEEN ANSWERED ROLL CALL—NOW IN HOSPITAL

The following extracts are from a letter received by Mr. T. J. Maguire from his brother, Owen W. Maguire, of the Fifth Royal Highlanders, written in London, on May 15, from the Great Northern Central Hospital, Holloway Road, N.

"No doubt you will be surprised to receive a letter from me from the above mentioned place—well, you need not worry, I am not suffering from anything very serious. I came here from Belgium on May 10, suffering a little from the effects of the poisonous gases thrown into us by the Germans. I also had an operation performed last Wednesday. I do not think it is anything very serious but cannot say how long I will be here. We are well located and receiving the best of attention. Am still a little weak from the effects of anaesthetics and German gases. The other wounded soldiers in the ward had quite a picnic when I was brought back from the operating room. I was giving them selections of French and Belgian songs with some of our 'Habitant' thrown in.

"Well, Tom, I can thank God and the good prayers that my friends are offering for my safety that I came through alive in that awful engagement at Ypres, for which the Canadians received so much praise, for my pals were dropping on all sides of me. They carried in wounded under a shell fire that it is impossible for me to describe. For about six days, continually, it was if hell was cut loose. It was the first time the gases were used and it came as a great surprise to us. It requires men of physical endurance and grit to stand up to it and fight.

"I was in a special reserve with Major Norworthy, who was killed a short distance from the trench lines on our left and came down on us like bees. They cut off our reinforcements which left us at their mercy, but with fixed bayonets and a bluff that we were in numbers, we managed to hold them for a while, until we had orders from our Major to get out the best way we could. Poor fellow, he was killed shortly after in the mix-up. One of my pals named Watson was wounded very badly and I dragged him into a ditch and dressed his wounds, then brought him through a volley of bullets and shell fire, not one of which touched me—my coat was utterly torn to shreds. There are three of us who agreed to stick together, which we have, and helped each other on the battlefield. If I should be lucky enough to return, and anyone should throw a brick at me it will not scare me, for after dodging Jack Johnsons I can stand anything. I can tell you it is a terrible war and it certainly requires cast iron nerves to stand up to my nerves, thank goodness, are all right so far; it is surprising to know the number whose nerves have gone to pieces, some even losing their mind.

"Lt.-Col. Fred Loomis, our C. O., is a hero and deserves great praise, for he acted like a great soldier all through—he was glad to see that I had come through safely—thank God! "I can assure you that the Canadians who were at Ypres deserve a V. C., for we were certainly in the thick of the fight—it was shrapnel for breakfast, dinner and supper.

"There are about a dozen of us from the same regiment in this hospital. I could write for hours and give you startling tales but I will describe it all if God spares me to get home. As soon as I am well I will be going to the front.

"Out of 54 men of our platoon when we lined up for roll call after the big engagement, there were only 13 of us answered and we were night's!

"Well, remember me to all my friends—"
