THURSDAY, APRIL 29th, 1943

Stallion Show Withdrawn

The annual Stallion Show, under the auspices of Pontiac Agricultural Society, (Div. A) is withdrawn this year because of the extreme pressure of farm-work.

Women's Institute to Hold Bingo Party

Shawville Women's Institute will hold a Bingo party at the Theatre Hall on Friday evening, May 14th, valuable prizes will be given away. The proceeds will be used to send boxes to soldier boys overseas. Last year a dance was held for this purpose when \$204.45 was realized and this was not quite sufficient for the forty boxes sent, after all sending costs had been paid. The members of the Institute are hopeful of a large attendance to provide for these really worthwhile boxes.

Red Cross Drive Returns

In the recent drive for funds by the Canadian Red Cross the county of Pontiac passed its objective by \$317.00 raising in all \$4517.00. Shawville District did particularly well, passing its objective by \$875.00. The returns by districts were as follows:

Pontiac County Council	\$ 500.00
Shawville District	1875.00
Campbell's Bay District	877.84
Quyon District	608.35
Fort Coulonge District	237.20
Chapleau District	109.40
Litchfield Township	87.80
Portage du Fort	84.00
Otter Lake	40.00
Bryson	38.40
Total	\$ 4517.00

Annual Meeting of the Ladies' Auxiliary of Pontiac Community Hospital

The Ladies' Auxiliary of the Pontiac Community Hospital met on the afternoon of April 13th. Ten ladies were present and carried on the usual work of mending worn articles and making surgical dressings. It was the annual meeting and was presided over by the president, Mrs. R. P. Eades, assisted by Mrs. S. E. McDowell, Secretary. Mrs. McDowell also read the annual report which showed that the Auxiliary had a very busy and successful year. Mrs. Caldwell occupied the chair for the election of officers which resulted in all retiring officers being re-elected and Mrs. Jacques added to the surgical committee. Refreshments were served by Mrs. Eades and Mrs. Caldwell.

Inquest Held into the Death of William McDonald

An inquest into the death of Wm. McDonald, whose body was found in the stable of the Clarendon Hotel on Sunday morning, April 18th, was conducted at Hynes Hall following an autopsy performed by Dr. J. M. Roussel, of Montreal, assistant medico legal expert for Quebec.

Dr. L. Renaud, of Campbell's Bay, County Coroner, presided with J. Oscar Laflamme, K.C., Crown Attorney, questioning the witnesses. Dr. Roussel said that he found no fracture of the skull but a severe hemorrhage of the brain resulting from a blow. The cut at the back of the head was consistent with a fall against a sharp object. He also found bruises about the face and knees and expressed the opinion that McDonald may have fallen several times. Evidence was to the effect that the victim was intoxicated.

Dr. S. E. McDowell testified that he had found McDonald lying face down in a pool of blood in a horse stall. His clothing had not been disturbed, and there was no evidence of a struggle. He had been dead for three or four hours. Examining the body, he found superficial cuts and was of the opinion that the cause of death was hemorrhage of the brain due to some form of violence, possibly a fall.

Erskine Hodgins, proprietor of the hotel, said he saw McDonald in an intoxicated condition in the tavern Saturday night. He saw him again sitting on the front door step of the hotel at 1.30 a. m. Sunday. McDonald was alone at the time.

Lieut. Davis, of the provincial police told the jury that he was satisfied that there had been no foul play. After deliberating a few minutes the jury returned a verdict that: "William McDonald died from a hemorrhage of the brain, caused by external violence, probably through a fall. We are satisfied from the evidence that no crime was committed."

ENGAGEMENT

MURRAY-LYNCH

Mr. and Mrs. J. H. Murray wish to announce the engagement of their daughter, Marjorie Manetta, to Pilot Officer Raymond V. Lynch. Marriage to take place in May.

STANLEY-BROCK

Mr. and Mrs. Leonard Stanley, of Wyman, Que., announce the engagement of their eldest daughter, Maria Sybil Ruth, to Nelson William, youngest son of Mr. and Mrs. William Brock, of Danville, Que. The marriage will take place in late June.

PERSONAL MENTION

Among those visiting relatives and friends for the Easter Holiday were the following:

From Ottawa

Earl Garrett
Borden Hodgins
Cpl. Manson Smith
Pte. Bud Hines
Spr. Reuben Sparling
Miss Minola Gould, R. N.
Phyllis Haughton, R. N.
Misses Ayla and Enella Turner
Miss Ruth Horner

From Montreal

Wm. McKinley
Thos. Wallace
Wilson Judd
Miss Beverley Masson
Misses Maude and Amy Dahms
Cameron Rowat
Ac. Alwyn Dale
Miss Mary Brownlee
Other Places
Cecil Wallace, Iroquois, Ont.
Miss Lorna Palmer, Perth, Ont.
P. O. Graydon Masson, Pocologan, N. B.
Staff Sgt. Douglas McDowell, Camp Borden.
Mrs. Ed. Code, Perth, Ont.
Rev. and Mrs. Wm. Dickson, Toronto.
Miss Lucille Brough, Thetford Mines, Que.
Kingsley Smyth, Granby, Que.
Miss Marion Lester, Thurso, Que.
Miss Ray Smart, Silver Creek.
Mrs. Gordon Bradley, Three Rivers, Que.
Mr. and Mrs. Walter Findlay, Fitzroy Harbour, Ont.
Miss Elsie Brown, Kinburn
Staff Sgt. Heraldo Walsh and Mrs. Walsh, Brantford
Tpr. Keith Bean, Owen Sound

Mr. J. H. Murray spent Easter visiting her daughters in Montreal.
Mrs. Edna Young, and Mrs. Gilbert L. Young and Heather, spent the Easter holidays in Ottawa and Portmore.
Mr. G. A. McDougall, local manager of the Bank of Montreal, returned last week from a three weeks' vacation in Western Canada.
Miss Embury Eades, R. N., who has recently enlisted in the nursing service of the United States Army, is visiting her father, Mr. Thos. Eades, this week.
Mr. Wellington Armstrong returned last week from Port Colborne, Ont., where he had been visiting his son, Mr. Melvin Armstrong, for several weeks.
Mrs. Brigger, who has been with her parents, Mr. and Mrs. W. J. Hayes for a few weeks, received a cable from her husband, P. O. Herbert Brigger, of his safe arrival overseas.
Mr. Harper Campbell, of Noranda, visited her mother, Mrs. Wm. Campbell, at Wyman, and other friends in this district on his return from Montreal, where he had spent some days on business.

The Young People of St. Andrew's United Church will present their humorous four act drama of rural life, "Down in Maine" in the theatre, under the auspices of the Shawville United W. A., on Friday, April 30th. This fine production has already been presented to a large audience of enthusiastic people, who report it a drama enjoyable and laugh provoking—Prices 25 and 15 cents.

MARRIED

COLE-WALL

A very quiet but pretty wedding was solemnized Thursday afternoon, April 15th, at three o'clock, at Devine street United Church, Sarnia, Ont., by Rev. A. Matthews, when Francis Eleanor, daughter of Mrs. Thos. Wall, and the late Mr. Wall, of Shawville, Que., became the bride of Mr. Percy Delbert, son of Mrs. Chas. Cole and the late Mr. Cole, of Cobden, Ont.

The bride was smartly dressed in a street length dress of heavenly blue crepe, and she wore a waist-length jacket of opposum fur. On her shoulder was a bouquet of roses and sweet peas.

The bride was attended by Mrs. Dave Turnbull, who wore a two-piece suit with powder blue accessories, and a corsage of roses and sweet peas.

The groom was supported by Mr. Dave Turnbull, of Sarnia, as best man.

After the wedding the young couple left for a short motor trip along the St. Clair River.

For travelling the bride wore a dark grey tailored suit with pale blue accessories. The young couple will take up residence in Sarnia.

Mrs. Grenville Atkinson Dies in Ottawa Following Lengthy Illness

Mrs. Grenville Atkinson, died at the home of her parents, Mr. and Mrs. Thos. J. Tubman, 83 Gloucester St. Ottawa, on Friday morning, April 23rd, following a lengthy illness, in her 33rd year.

Mrs. Atkinson was born in Greenmount section of Thorne Township, and following her marriage 14 years ago, she had resided in Clarendon township on the Somerville farm, near Litchfield. She had been in Ottawa for the past four months because of ill health.

She was a member of the Bryson Anglican Church and was secretary of the Women's Auxiliary of that church.

Besides her husband and parents, Mrs. Atkinson is survived by a daughter, Claire; a son, Gary; two sisters, Mrs. Percy Sparling and Mrs. Sirus Little, both of Ottawa, and several nieces and nephews.

A funeral service was conducted at the parlors of Hulse and Playfair, Ottawa, on Saturday afternoon, by Canon Howard Clarke. The remains were then conveyed to Shawville on the evening train, and taken to the home of W. D. Hodgins, at Litchfield. The funeral was held on Monday afternoon at St. George's Anglican Church, Campbell's Bay, where service was conducted by Rev. Frank Hughes. Interment was made in the parish cemetery.

Rev. Herbert C. Brown, Former Minister at Bryson, Dies at Newboro

Rev. Herbert C. Brown, a former minister of Bryson and Portage du Fort Presbyterian churches died in Newboro, Ontario, on Tuesday at the age of 73 years. Born in Cambridge, England, son of Mr. and Mrs. Charles Brown. After completing his education he became a minister of the Presbyterian Church, serving for about 19 years, coming to Canada in 1910, and continued his ministry in Presbyterian Churches, later entering the United Church at the time of Union. During his ministry, he served at Bryson, Lower Litchfield and Cantley, in Quebec, and at Sharbot Lake and Parham, Ont.

He was married to Miss Elizabeth Holland, in England, who predeceased him in 1920. Of this marriage, there survives, one son, Bert, of Montreal; three daughters, Mrs. Marcus Walsh, (Joyce) of Montreal; Mrs. A. Thurston, (Nellie) of Cambridge, England, and Mrs. Daniel Stewart (Ethel), of Lower Litchfield. About five years ago he was married to Miss Maud Singleton, of Newboro, who survives.

After a brief service at Newboro, the body was brought by motor to the home of his daughter, Mrs. Stewart, from where the funeral was held Thursday to Lower Litchfield Church. The service was conducted by a friend of the deceased, Rev. George Empey, of Westmeath, Ont., assisted by Rev. T. P. Shaver, of Campbell's Bay, and Rev. A. F. Fokes, of Shawville.

Interment was made in the adjoining cemetery, the pall-bearers were, Messrs. George, Gordon and Charles Stewart, Jack Elliott, Jas McLean and Thos. Dagg.

AUCTION SALE—An auction sale of live stock and farm machinery will be held at the home of Wm. Armstrong, Elmside, Bristol, on Friday, May 7th. Nothing reserved. Sale to start at 12 o'clock, noon. Lunch will be served by the Women's Institute. Thos. F. Burgess, of Cobden, Auctioneer.

VOICE OF THE PRESS

A BUSY MEMBER

Gordon Ross is one of the hardest-headed men in the Canadian Parliament. He manages to operate an orange grove in California, a large wheat farm near Moose Jaw and the business of an active parliamentarian. Last year Mr. Ross became convinced that America would be short of vegetable oils, so he bought up all the sunflower seed he could find and raised Canada's largest single crop of sunflowers. They were profitable and they provided useful oils.

—Vancouver Sun

MANPOWER ON THE FARM

A horsepower is roughly estimated to be the work which one and one-half horses can do. And a manpower, on the farm, is the work of eight hired men done by a farmer, his wife, and a dog.

—Peterborough Examiner

INTERNATIONAL FORCE

American bombers were escorted back to their bases after a raid by Norwegian fighter planes led by a New Zealand wing commander. That's the kind of League of Nations that means something.

—Windsor Star

ENCIRCLEMENT

The Axis in Tunisia have in front of them the British, the Americans and the French, above them the British and American air fleets and behind them the blue Mediterranean and the British Navy.

—Port Arthur News-Chronicle

BILLY BISHOP KNOWS

Air Marshal Billy Bishop is still urging a "healthy hatred" of the Axis. He doesn't seem to think that the "This hurts me more than it does you" attitude is enough.

LEGITIMATE HOARDING

If you must hoard, concentrate on accumulating war savings certificates.

Ships Used To Be Launched By Men

Launching a ship with champagne means more than swinging a bottle against a steel prow. To prevent splinters from flying into the face of the lady who says "I christen thee Tuscaloosa," the bottle is encased in a mesh holder. Provision is also made for a sixty-foot strip of red, white and blue bunting woven to keep its shape after the bottle has been smashed. Preparation of the bottle takes about five hours.

The whole ceremony dates from a time when a launching was attended with human sacrifice. With a decline in bloodthirstiness red wine was used — symbolic blood. At first the wine was drunk in a toast and the cup flung after the ship. Champagne was introduced simply because it was more expensive. Once upon a time men (priests in very early times) always launched ships. In the nineteenth century women took their places.

23 U-Boats Lost In Month Of March

An underground German radio station said last week that Germany lost six submarines during March in the Atlantic or Mediterranean and that 17 additional U-boats did not return to base and are regarded as lost.

The broadcast said nine others were damaged but made port and 11 were damaged slightly. In all, 1,039 crew members were dead, missing or possibly prisoners. March losses exceeded February, the broadcast said.

New construction still is ahead of U-boat losses, according to the radio, but only a little and Allied defence measures are improving.

It's Double Summer Time In Britain

Great Britain last week went on double summer time until Aug. 15 to take advantage of the early sunrise.

The change shortens the black-out by an hour.

The new time puts Great Britain six hours ahead of eastern war time in the United States.

PLANE IN A PLANE

With wings taken off and tied beneath the transport, this British P-40 Warhawk fits snugly inside a giant Douglas C-47 Skytrain somewhere in Africa. The P-40 was being flown to a base for repairs.

THE WAR - WEEK — Commentary on Current Events

Bombings Alone Cannot Bring War To Successful Conclusion

That the most difficult period of the war is still in the indefinite future and that the victory may not be won until 1944-1945, or perhaps, later, probably stem from the increasing effectiveness of the Nazi U-boat campaign. If the Allies cannot deliver men and supplies to the fighting fronts they cannot win the war. If their already hazardous supply lines were disrupted for any long period of time it would be most difficult and, perhaps, impossible for them to launch their officially promised assaults on Europe this year. The Nazis have the ability to get up off the floor as they did on the Southern front in Russia and their is the feeling in some quarters that the Russians may have over-exerted themselves in their great offensive. There is also the possibility that the Luftwaffe is not dead, but is merely playing possum.

Step-Up Air Assaults

Yet, the Nazis can be defeated under water as well as on the land and in the air. The Allies were late in tackling the submarine problem in earnest but the means for combating it are becoming available. The so-called "rim-of-the-wheel" thesis that bombings from bases in Britain, North Africa, the Middle East and Russia could be decisive has gained strength in official quarters.

Rim-of-the-wheel advocates would step up the current air assaults on German industry and transport to twelve 1,000-plane raids per month. They hold that when 36 such raids had been made, victory would be within the Allies' grasp.

The rim-of-the-wheel theory is strengthened, rather than weakened, by the fact that its proponents do not hold that air bombings alone can bring the war to a successful conclusion. "After the rim-of-the-wheel has been made secure, after Germany has been contained, after the air attacks have been brought to a proper intensity from all sides, then will be the time to equip our land forces for a concerted push against a tottering German structure. Russian troops from Russia, British and American troops from the Middle East land bridge, British, American and French troops from the Gibraltar bridge, British and American troops swarming at last over the Channel—these are the land movements which can administer the coup de grace. The time for it will be after our combined air power has cut the hub out of the wheel." This appears to be the current plan of attack.

Advance Notice

An interesting proposal is that bombing schedules be announced by radio a week in advance. When

the bombers leave their bases their takeoff would be announced also. Thus, it is argued, industries in a score or more of cities would be paralyzed. The theory demonstrates contempt, which appears to be justified, for the Nazis' ability to fight off bombers.

Where is The Luftwaffe?

In view of the clear-cut and mounting air superiority of the United Nations in the European and African theatres, and in view also of the success of the Russian Winter offensive, one certainly is entitled to ask what has become of the vaunted might of the German air arm. From time to time there are reports of great reserves of giant bombers in the Reich: bombers capable of making the 7,000-mile round trip flight from the nearest available European fields to our own Atlantic shores with a bomb load. In this connection some figures of distance are highly significant, since range is a balancing factor against load. It is only 930 miles from Berlin to Vyasma, only 230 from Smolensk to Moscow, 550 from Greece to Tunisia, 350 from Naples to Bizerte, 140 from Cagliari to that Tunisian stronghold and ninety miles from Sicily to the same port. From Paris to London is only 220 miles. If the Flying Fortresses and Liberators and the R. A. F.'s Lancasters and Stirlings have been able to make the devastating raids from Great Britain on German cities—it is 580 air miles from London to Berlin—why have not the German bombers of this reputed armada struck in reprisal on Great Britain, laid waste Moscow, or turned the whole tide in Tunisia from the near-by spring-boards of Italy and Greece?

Does It Exist?

Presumably the answer is to be found in several factors. In the first place, one may question the existence of any such fleet. Failure to use it when the tide of freedom is running so heavily against the Axis in the air on each of the several vital fronts surely puts a large interrogation point against its reality. Secondly, shortage in both quantity and quality of fuel and lubricants may make full use of existing aircraft by the Germans impossible. Thirdly, the constant attrition of both pilots and planes of the Luftwaffe may have depleted necessary fighter protection for such bombers as are available to a point when they cannot safely be risked. It is probable that all these factors enter into the mystery of Germany's progressively developing comparative weakness in the air.

"Sitting Ducks"

Now, of all times, it would be foolish to underestimate the strength of the enemy. He may have cards up his sleeve which will prove dangerous indeed. Increasingly it appears, however, that limiting factors as to production, design and certain accessory weaknesses of the German combat air arm are contributing to the mounting odds in favor of the United Nations in the skies. Russian courage and blood have shown that the dread Panzers were not invincible. In the harsh, broken country of North Africa the Stukas have been described as "sitting ducks" and have fallen prey to the Lightnings and the Warhawks, the Mitchells and the Marauders in an ever-increasing bag. It begins to appear that the bemedaled Goering has missed his greatest chance. The failure to date of the vaunted Luftwaffe to rescue Rommel and to strike back blow for ruinous blow on Britain is perhaps the most heartening current aspect of the war.

British Armies Will Take Sure Revenge

British armies have already in this war done a great deal more fighting than is apt to be recognized, says The Navy (London).

They have had sad and serious reverses—often because the dice were loaded impossibly against them, and sometimes because performance fell short of conception. But the British armies which began with the small highly trained expeditionary force which fought its way out of Dunkirk and went on with the insufficiently trained contingents which did their damndest in Norway, are now a great and formidable power.

They will, we are convinced, take a sure and ample revenge for all the setbacks which they have suffered.

THE UNCONQUERABLES

AN EASTER MORNING IN POLAND

Around a table in a crowded shabby room in a Polish city, once thriving and proud of its place in the march of civilization and progress, but now shattered and in decay, a little group had gathered to eat together the Easter breakfast. Compared with that meal in days of peace, this was a poor parody. But by indomitable endeavor, pooling of resources, and ingenuity, enough had been provided to serve as symbols of the traditional Polish Easter fare.

The assembled company, mostly women, on this outstanding Polish family holiday, were more keenly aware than on ordinary days of the tragedies that had befallen, and of loved ones they would never see again. But on this occasion they had, as it were, resolved to put away sorrowful thoughts and smile and talk of other things. And for a time things went well.

Then a young woman who had suffered recent loss found the strain too great and broke into weeping. Conversation hushed. Instantly an elderly woman rose from her place, laid her hand upon the girl's shaking shoulder and standing erect, in a voice without a tremor addressed her:

"Do not weep. Today, the Day of the Resurrection, is not a day for tears. Remember the words of the Lord, His assurance that He would rise again. And He did rise, and we are celebrating His resurrection, as so many have celebrated it before us, and will celebrate it after us. Don't weep; for Poland will rise again. And then the martyrdom of your dear ones will be enshrined and live forever in the memory of the nation, and God and our dear country will comfort you."

With that the speaker walked slowly back to her chair at the end of the table. But the sobbing ceased and the voices that took up the interrupted conversation were strong with a reassured faith and confidence, strong in the knowledge that what has never perished must of a certainty rise again.

"And it seemed," said the guest who related this incident, "as if the room had suddenly been filled with sunshine."

Fog Is No Longer Hazard To Fliers

Research in aviation to further the war effort has brought many new advances in the industry, including an invention that means the elimination of the hazards of blind flying through fog, even at night, says President Ernest R. Breech of the Bendix Aviation Corporation.

He divulged no details, stating that "these developments are so broad in the scope of their application for military purposes that I cannot hint to you how this has been accomplished."

"I can tell you that it is no longer experimental, and I can give you positive assurance that fog, even at night, will join the long list of weather hazards conquered by man in his desire to fly. 'Man's genius has added another great invention to the long list of engineering advances that now assures the airline pilot, regardless of actual weather conditions, a ceiling and visibility unlimited.'"

Sir Edward Beatty

With his employees his relations were the finest, says The Ottawa Journal. There was the day, telling his great heart, when Grant Hall brought him a list of workers to be laid off. It was a cold wintry day. "E. W." as they called him, looked at the list, then turned to a window to gaze out at a blizzard that was raging. All he said was:

"This is a helluva day to let men out, Grant. Let's forget it."

Thus Edward Beatty, sportsman, humanitarian, philanthropist, railway builder; in heart and soul a big Canadian. To him, to all his kind, our country and Empire owe much. May we keep long and honor his memory.

Tugs Go to Sea by Rail

When ships go down to the sea by rail a difficult transportation problem is involved. A record in rail transport has been set by operating officers of the Canadian National Railways in the recent successful movement of two large tugs, built far inland, to the seaboard.

"Ward" and "Watch," terms associated with security and guardianship, are the names of these tugs. They were transferred from their native element in Georgian Bay waters over the lines of the National System to an East Coast seaport where they are now engaged in war work. These 60-foot overall tugs were built at Owen Sound, given their trials there, taken from the water and swung on board flat cars to begin a railway journey of more than 1,300 miles.

That sounds simple but a tug cannot be knocked down or folded up, particularly in this instance where the steel hulls are welded. Height and breadth of the hull provided material for a lot of operating headaches which lasted from Owen Sound to the Atlantic. Placed on her side on a flatcar the top of the load was 18 feet, 9 inches above the top of the rail. The actual beam of the tug is 14 feet 6 inches so that when loaded on the car the hull

projected two feet beyond the car edge on one side, the awkward position being due to the necessity for establishing a safe centre of gravity. Overhang constitutes a problem on any part of a railway and particularly so at curves. It was necessary for the National System engineering department to check the plan of every bridge between the terminal points, a big task when carried out over 1,300 miles. Some clearances were of the scantiest, the smallest being barely one inch from the top of the load at a point where a highway crossed over the railway.

The side overhang was a bigger problem than the height and it was necessary to arrange for every train in which this load was included to move at restricted speed when the second track was vacant. The entire transportation involved a series of carefully planned movements.

The transportation was carried out successfully and "Ward" and "Watch" are now in salt water performing their tasks of moving barges in the Canadian National lighterage service which daily handles great quantities of supplies and war material taken from the rail terminal and transferred to ships carrying vital cargoes for the United Nations.

REG'LAR FELLERS—He's Stuck with 'Em

By GENE BYRNES

FROM A FAMOUS HERD

At the two-day dispersal sale at Markham, Strathmore Hello Nonpareil cost Harry Hays of Calgary \$1,275.

Western Holsteins Sold At Markham

Herd of C.P.R. Supply Farms, Alberta, Realized \$60,760

One hundred and forty-one Holstein-Friesian cattle from the C. P. R. supply farms at Strathmore, Alberta, were sold at Markham April 12 and 13 for the sum of \$60,760.

Cattlemen from every Province in Canada, as well as buyers from the United States, crowded the canopied tent erected on the Fair Grounds, to bid for the famous Strathmore cattle.

The sale was officially opened by George C. Jackson, Downsview, Ont., president of the Holstein-Friesian Association, and in a brief ceremony before the sale commenced a presentation on behalf of Holstein breeders of Eastern Canada for their great work in developing Strathmore Holsteins, was made by George M. Clemons, secretary of the Holstein-Friesian Association, to John McCulloch, superintendent of agriculture for the C.P.R. in Western Canada, and J. Arthur Hay, farm manager at Strathmore.

Founded 33 years ago to demonstrate that dairying could be carried out successfully in Western Canada, the Strathmore herd has made a magnificent contribution to agriculture and to the development of the Holstein breed throughout Canada and the United States.

The famous herd, has won more than 900 R.O.P. records, including two 1,000 and 1,100 pound fat records and 30 of from 800 to 900 pounds of fat. The greater proportion of the records was made under normal conditions. One of such record-holding cows, Strathmore Koba Nina, with a record of more than 900 pounds of butterfat in a year, was purchased by V.M. Butterfield, Brockfort, N.Y.

Highest price of the first day was brought by Strathmore Lenore Hello, three-year-old daughter of Colony Vale Romeo Sir Hello, for which \$1,575 was paid by Armstrong Brothers of Brampton after stiff bidding against J. A. Sutton of Vasalia, Cal. The sire was bought by W. J. Wood of Alliston for \$825.

Mr. Sutton was the largest individual buyer at the sale, taking 48 head of cattle, including a pair of full sisters that cost him \$1,200 each.

Armstrong Brothers also took Strathmore Koba WeWinton at \$1,025, Arthur G. Maddigan of Ridgeway claimed Strathmore Pearly Vrouka at \$1,000, and the two-year-old Strathmore Daisy Vrouka made \$950 on the bid of Smithhaven Farm of Woodstock.

Outside of Mr. Sutton's purchases few animals left Ontario. Altogether 23 buyers purchased Holsteins, one calf going to Erskine Smith of Stephentown, N.Y., and two going to the New Brunswick Holstein Club.

Have You Heard?

We are all familiar with the value of the tourist traffic to the Dominion in normal times. One of the resolutions adopted by the hotel men opened with the statement: "Tourist expenditures constituted the most important export item in Canada's balance of international payments before the war," and added that after the war "tourist expenditures are going to play an even more vital role."

The picture of the tourist industry was presented by Mr. Cardy in colourful terms. He pointed out that when we sell or deliver material resources we deliver something which is gone forever; but when we deliver value to the amount of \$100 to the tourist, we sell him scenery, atmosphere, room accommodation, service or transportation, most of which remains in the country to be "sold" again.

This is an interesting commentary on the nature of tourist business and its value as a continuing asset. We should plan now to take full advantage of the wider opportunity the post-war period will present.

Modern Etiquette

By Roberta Lee

1. To whom should a wedding gift be addressed?
2. When no entertainment follows a dinner, how late should a guest feel privileged to remain?
3. Is it all right to effect little mannerisms and peculiarities of speech?
4. Isn't it out of place for one person to always monopolize the conversation, and try to do all the talking?
5. Is the fork used to take all vegetables from the dinner plate when eating?
6. Is white the only color of paper permissible for engraving wedding invitations?

Answers
1. To the bride, even though we may not know her personally, and should be sent as soon as possible after the wedding invitation is received. 2. Not later than eleven o'clock. 3. No; avoid them, since they are as bad as affectations in manner. 4. Yes. Sir Walter Raleigh said, "Speaking much is a sign of vanity; for he that is lavish in words is a niggard in deed." 5. Yes, all vegetables except the few which are taken in the fingers should be eaten with the fork. 6. White or ivory may be used.

How Can I??

By Anne Ashley

Q. How can I make mashed potatoes light and fluffy?
A. Hot milk, added a little at a time, while mashing potatoes, will make them light and fluffy. Heat, do not boil, the milk.

Q. How can I remove onion odor from pans and dishes?
A. Wash and dry the utensils, then scour with common salt, and place them on the stove until the salt is brown. Shake often, then wash as usual.

Q. How can I remove spots and dirt from enameled beds?
A. Use a little turpentine on a soft cloth. This will leave a nice gloss on the surface.

Q. How can I clean a greasy frying pan?
A. One simple way is to fill the pan with hot water to which a teaspoonful of washing soda or soap powder has been added. Allow to boil for a few minutes, empty, and rinse.

Q. How can I make sweet peas bloom better?
A. When planting sweet peas, run the rows north and south and they will bloom far better than when run east and west.

Have You Heard?

Forced to put on his brakes suddenly, the driver of the sports car found it shooting crabwise across the road, just missing a lamp-post before it stopped.

Up strolled a policeman. "Well," he remarked genially, "you got a nice skid there, sir." "Pardon me, officer," was the haughty reply, "this lady is my wife."

"Wife: 'The doctor said at once that I needed a stimulant. Then he asked to see my tongue.'"

Husband (alarmed): "Good heavens! I do hope he didn't give you a stimulant for that, dear."

"Is you de judge of reprobrates?"

"Well, I am the probate judge, if that is what you mean."

"Yassuh, das'sit, Ah 'spects. Well, Mistuh Judge, it's like dis mah husband has done died de- tested, and lef' me with ob-on little infidels, and Ah wants to be appointed as de executioner."

Mrs. Style: "I want a hat, but it must be in the latest style."

Shopman: "Kindly take a chair madam, and wait a few minutes, the fashion is just changing."

"Your methods of cultivation are hopelessly out of date," said the youthful agricultural college graduate to the old farmer. "Why I'd be astonished if you got even ten pounds of apples from that tree."

"So would I," replied the farmer, "It's a pear tree."

Hillbilly drama:

"Ye better move yair foot paw; yer standin' on a live coal."

"Which foot, maw?"

"Why won't you advertise?" asked the representative of a newspaper of a man who owned

Big Market Basket Needed For Army

When the U. S. Army goes to market, these are some of the things it keeps in mind. About 15,000 tons of food a day need to be purchased, or enough to feed each soldier five and a half pounds a day, as compared with the four pounds a civilian eats. When the army reaches its goal of 8,200,000 men, the rations for a month will make a pile of food almost as big as the Empire State Building. The bill comes to \$2,750,000 a day.

The least popular food is spinach; next is oysters. For shipment overseas, a ton of carrots can be reduced to 190 pounds by new methods of dehydration, and a pound of dehydrated potatoes feeds 25 men.

Germans Extend Slave Labor Laws

Allied Government sources in London reported recently that German compulsory labor laws have been extended to include all women in all the occupied countries.

Announcement of the conscription of French women for German labor service was made a few days ago.

Since then local Quislings and German commissars in other nations have received orders to take preliminary steps toward the total enrolment of women, these sources said. Norwegians, Belgians, Czechs and the Dutch apparently are the first affected.

All women in those countries between the ages of 17 and 45 are being registered and questioned about any previous experience in factories.

Married women are included, but expectant mothers and those with very small children are excepted.

WHAT SCIENCE IS DOING

THE SCRAP PILE

Unscrambling the proverbial emelet is a simple problem compared with the task of separating copper, zinc and steel that are all mixed together in the scrap resulting from bullet-making operations in American munitions plants. The difficulty is a new one, caused by the decision of the U.S. Army's Ordnance Department to change over from bullet jackets made entirely of soft brass to brass-clad steel jackets, Science Service says.

A modern bullet is a relatively complex affair. Instead of the simple solid leaden slug used in other wars, high-velocity rifles like the Garand and the Springfield demand a bullet with a hard jacket, filled with a lead-antimony alloy to give it weight and balance. A copper-zinc alloy that amounts to a soft brass (technically, "gilding metal") has been used. Scrap from jacket-making operations with this metal can simply be melted down and re-used.

But for economy's sake, it was decided to use a steel jacket coated with only about 20 percent of its weight in the gilding-metal alloy. In the scrap, the steel is still firmly stuck to the alloy and it becomes a chemical job to separate them. It is decidedly worth doing for the scrap production is now estimated at nearly 20,000 tons a month.

The problem has been met by the use of a common solvent, cupric ammonium carbonate, already used by some copper producers on ore and commercial scrap.

Bullets For Farm Pests

Farmers in some parts of Canada have become unduly alarmed over the Prices Board order rationing ammunition for small arms. Some have the impression they will get no more ammunition for such necessary jobs as shooting crows. That is not the case. The order makes it clear that anyone who needs ammunition for the protection of crops or livestock can get it. So the farmer who needs ammunition can get it by merely signing a form explaining the need.

Farm Co-ops are Favored

Although co-operatives are not exempt from Prices Board regulations, an exception is being made on behalf of farmers' livestock pools. The advantages of co-operative selling have been recognized by Board officials and they are anxious to remove any obstacles to the free movement of livestock to markets. Other types of farm co-ops also will receive favorable consideration when they apply for licenses.

Meat Rationing and Farmers

There are definite reasons why meat rationing has become necessary. One is to keep Britain and overseas forces supplied with enough to make up for supplies not available now from other countries. Another is that rationing is the fairest way of providing a fair distribution of what remains in Canada.

Farmers are much concerned for they are the producers, and they have been producing more than ever. However, they will be affected only when they go to buy meat from shops. Those who kill a meat animal for their own use will not be interfered with at all. All that is asked is that farmers will act the same as others in the spirit of regulations.

Canadian Farmers on Honour System

Canadian farmers were put on the "honour system" when butter rationing went into effect, and a similar system will be used for meat rationing on farms, according to the Wartime Prices and Trade Board.

There is no accurate way of checking how much meat farmers slaughter and cure at home for their own, or their neighbor's consumption. Local Ration Boards rely on the farmer's honesty in registering extra coupons and the names of members of his local "Beef Ring".

Details of the meat rationing plan as it affects farmers have not yet been released, but it is known that it is not proposed to put burdensome restrictions on the slaughter of livestock by farmers for their own use.

The Government is appealing most earnestly, however, to all farmers who slaughter their own meat to live well within the spirit of the ration. That is they are asked to cut down consumption of meat by 15 to 20 percent this year, as are all rationed consumers elsewhere, officials said.

In order to control the supply of meat entering into channels of trade, there will be restrictions on the right of farmers and of other persons to slaughter for sale, but much of the success of the plan depends on the farmer himself, and the voluntary co-operation he gives in marketing his livestock through regular channels of trade.

Revolution in Medicine Is

Taking Place in Nation

An American medical revolution is on its way! The armed forces are taking approximately one-third of our practicing physicians with the result that some form of socialized medicine is coming into widespread being, writes Michael Evans in a pocket-size monthly magazine.

By January 1, 1943, almost every doctor under 45—and many in the 45 to 55 age group, will be in uniform. The situation for civilians, according to Assistant Surgeon General Mountain, may truly be said to be desperate.

"What's going to happen to us when we're sick?" millions of Americans are asking.

With 50,000 out of our 181,530 registered physicians in khaki and with the concentration of workers in war-industrial communities, problems are arising which must be met, the article states emphatically.

The answer may be socialized medicine—which the American Medical Association has been fighting so bitterly for so long. Today, however, the AMA has no choice in the matter. Medical care must be re-allocated to care for the needs of civilians. The U. S. Public Health Service and other federal agencies under Paul V. McNutt, chairman of the Manpower board, are assigning doctors to towns as they are needed. And the AMA is assisting the government, whether it will or not. Recruiting of physicians for the armed services has been placed in the hands of the American Medical Association. And under an arbitrary but technically voluntary basis, the AMA is assigning physicians to specific localities. Federal and federal ly sponsored clinics will come too, promises the article.

Make Sure Diet Has Food Value Found Also in Meat

Homemakers who are planning on meatless days or who intend to serve meat less frequently than in the past should remember the things which meats supply to the body and should make plans to provide those things in the foods which are substituted for meat.

Alma Garvin, specialist in nutrition, Ohio State University, lists protein, niacin, thiamin, riboflavin, and iron as the principal food values provided by meat. All of them can be obtained from other foods. Another thing to remember about meat is that it is usually the foundation for the rest of the meal so its substitutes should be filling and satisfy hunger. Protein can be obtained from eggs, milk, cheese, poultry, fish, and shell fish. Other sources are peas, beans, soybeans, nuts, peanuts, and grains, especially whole grains. Larger quantities of vegetable proteins than of animal proteins are required to fill nutritional needs.

Niacin, also called nicotinic acid, is a vitamin which helps digestion, keeps the nerves functioning properly, makes the skin healthy, and wards off pellagra. Whole wheat breads or cereals, potatoes, green vegetables, and fruits are sources of niacin.

The other two vitamins in meat, thiamin and riboflavin, likewise are contained in whole grain breads and cereals, vegetables, and fruits.

TENDERS FOR COAL AND COKE

Federal Bldgs.—Province of Quebec
SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Coal, Province of Quebec", will be received until 3.00 p. m. (E.S.T.) Tuesday, May 11th, 1943, for the supply of coal and coke for the Dominion Buildings in the Province of Quebec, EXCEPT MONTREAL, P. Q.

Forms of tender with specifications and conditions attached can be obtained from the Chief Purchasing Agent, Department of Public Works, Ottawa; from Mr. Roland Simard, Supervising Architect, 150 St. Paul St. West, Montreal; and from Mr. J. A. Drolet, Architect, Public Works Department, Customs Building, Quebec, P. Q.

Tenders should be made on the forms supplied by the Department and in accordance with departmental specifications and conditions attached thereto. Coal dealers' license numbers must be given when tendering.

The Department reserves the right to demand from any successful tenderer, before awarding the order, a security deposit in the form of a certified cheque on a chartered bank in Canada, made payable to the order of the Honourable the Minister of Public Works, equal to 10 per cent of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies unconditionally guaranteed as to principal and interest by the Dominion of Canada, or the aforementioned bonds and a certified cheque, if required to make up an odd amount.

By order,
J. M. SOMERVILLE,
Secretary.
Department of Public Works,
Ottawa, April 21, 1943.

NATIONAL SELECTIVE SERVICE

Men Born From 1902 to 1924 Must Prove Compliance With Mobilization Regulations When Asking Permits to Seek Employment

BY Order pursuant to National Selective Service Civilian Regulations, a change is now made in the issue of permits to seek employment.

After April 30, 1943, permits may be refused to any man born from 1902 to 1924, inclusive, who has reached 19, unless he presents satisfactory evidence of compliance with Mobilization Regulations, in one of the following forms:

(a) A certificate of discharge from His Majesty's Forces during this war; or (b) a rejection slip issued by the Army on application for enlistment; or (c) a certificate of medical examination from the Registrar of a Mobilization Board; or (d) a postponement order certificate from the Registrar of a Mobilization Board; or (e) if born from 1902 to 1916 inclusive, a statutory declaration on form available in employment office, that he is not a "single person" under Mobilization Regulations.

Documents in (a), (b) and (c) above need be presented only the first time a permit is sought after April 30, 1943, unless asked for by a Selective Service Officer. Documents in (c) and (d) above must be presented each time a permit is applied for.

(1) Male persons applying for permits by mail should forward with their applications the evidence required, except (c) above.

(2) A Selective Service Officer MAY furnish a permit without first being handed evidence, where the applicant's services are required for immediate employment, or where a permit is asked for by mail, but in these cases the evidence must be presented to the Selective Service Officer later, usually WITHIN THREE DAYS of the issue of the permit.

All men born from 1902 to 1924, who have reached age 19, are urged to co-operate with your Employment and Selective Service Office. Bring your documents with you.

AN OPEN MESSAGE TO DEPOSITORS

of the BANK OF MONTREAL

In this time of national emergency our country is making demands of its citizens such as we have never known before. And rightly, for we have never been faced with a crisis such as this war has brought to our doorsteps.

You — our depositors — have responded loyally in many ways, and we, at the Bank of Montreal, take particular pride in the splendid way you have bought Victory Bonds. We take pride, too, in the record of service of this Bank to its customers and to Canada. For a period of over 125 years — which has embraced the troublous times of eight wars — our Bank has continued on its steady course, always confident that Canada would win through to a future that would far outshine its record of the past. This faith has always been justified . . . it is still as strong as ever.

Today, in this time of national crisis, we appeal to you to support the nation's war effort by drawing on your savings and earnings to the limit of your capacity to buy Victory Bonds. We shall be glad to place them in safekeeping for you at a very small charge. If you must have cash at any time, Victory Bonds are always acceptable as security for a bank loan and the arrangements are simple and prompt.

Your country needs your help NOW through your support of the Fourth Victory Loan.

Fluorescent Lights Have Effect on Painting Scheme

Before painting an interior in which fluorescent lighting is to be used, it may be important to test the color of the paint under the fluorescent light before going ahead with the job, for the normal appearance of colored paint may be quite altered under this new type of lighting. Testing the paint with a light will enable a selection of paint which will look the way the occupants want it to look when the lights are on, even though it may appear a different color in undiluted daylight.

It has been pointed out that the results from the lighting depend upon the particular color involved. In some instances the color change may be comparatively minor, but with certain others, the colors may do peculiar things. For example, a cup of coffee under the light from a daylight fluorescent lamp seems to lose its coffee color and take on a rather unnaturally greenish tint. However, although a color may be changed in appearance under fluorescent light, it is not necessarily less attractive than under incandescent light.

FOR SALE—Almost new DeLaval Cream Separator, No. 5; Daniel Incubator, in good condition; Household articles and garden tools. Apply to AUSTIN McLOWELL, Shawville, Que. Phone 16-12.

Caulking Compound Aids In Saving Valuable Fuel

Caulking compounds, which are made in various forms and colors, commonly white, gray or black, and obtainable in any paint store or paint department, can be an important factor in saving fuel this coming winter, if applied promptly to all cracks and chinks around windows, doors, sills and foundations, and to cracks in walls, regardless of whether they be of wood, brick, stucco or masonry. Caulking compound is packaged in various ways by the different manufacturers. It comes in cans like paint, in special containers intended for use in certain types of caulking guns and in tubes. For large jobs on long straight cracks, a caulking gun can be loaded with a compound, which is then expelled into the cracks by pulling a trigger. Or, it may be pressed into a crack with a putty knife and then smoothed down. The purpose is to seal the exterior of the crack rather than to attempt to fill the crack completely. Generally, caulking compound is so prepared that it forms a hard film on the surface of the crack, which may be readily painted, when dry, while beneath the film the compound remains relatively soft and expands and contracts in accordance with changing temperatures.

The Minister of Finance of the Dominion of Canada
offers for public subscription

\$1,100,000,000

Fourth

VICTORY LOAN

Dated and bearing interest from 1st May 1943, and offered in two maturities, the choice of which is optional with the subscriber, as follows:

Fourteen-year

3% Bonds

Due 1st May 1957

Callable in or after 1954

Interest payable 1st May and November

Bearer denominations,
\$50, \$100, \$500, \$1,000, \$5,000, \$25,000

Issue Price: 100%

Principal and interest payable in lawful money of Canada; the principal at any agency of the Bank of Canada and the interest semi-annually, without charge, at any branch in Canada of any Chartered Bank.

Bonds may be registered as to principal or as to principal and interest, as detailed in the Official Prospectus, through any agency of the Bank of Canada.

Three and one-half year

1 3/4% Bonds

Due 1st November 1946

Non-callable to maturity

Interest payable 1st May and November

Bearer denominations,
\$1,000, \$5,000, \$25,000, \$100,000

Issue Price: 100%

Subscriptions for either or both maturities of the loan may be paid in full at the time of application at the issue price in each case without accrued interest. Bearer bonds with coupons will be available for prompt delivery. Subscriptions may also be made payable by instalments, plus accrued interest, as follows:

10% on application;

13% on 1st June 1943;

13% on 1st July 1943;

13% on 2nd August 1943;

13% on 1st September 1943;

13.64% on the 3% bonds OR 13.37% on the 1 3/4% bonds, on 1st October 1943.

The last payment on 1st October 1943, covers the final payment of principal, plus .64 of 1% in the case of the 3% bonds and .37 of 1% in the case of the 1 3/4% bonds representing accrued interest to the due dates of the respective instalments.

The Minister of Finance reserves the right to accept or to allot the whole or any part of the amount of this loan subscribed for either or both maturities if total subscriptions are in excess of \$1,100,000,000.

The proceeds of this loan will be used by the Government to finance expenditures for war purposes.

Subscriptions may be made through any Victory Loan Salesman, the National War Finance Committee or any representative thereof, any branch in Canada of any Chartered Bank, or any authorized Savings Bank, Trust or Loan Company, from whom may be obtained application forms and copies of the Official Prospectus containing complete details of the loan.

The lists will open on 26th April 1943, and will close on or about 15th May 1943, with or without notice, at the discretion of the Minister of Finance.

Department of Finance,
Ottawa, 26th April 1943.

CARDS OF THANKS

We wish to express our sincere thanks to relatives, friends and neighbours for their many acts of kindness, messages of sympathy and floral tributes received during our recent bereavement in the loss of a loving mother with special thanks to Rev. K. C. Bolton, of Shawville, Que.

THE ABBOTT FAMILY

Italy's Great Naval Port, Spezia, Bombed by Britain

When long-range British bombers dropped explosives on Spezia, Italy, they struck at one of that country's greatest concentrations of floating equipment, naval installations, and supplies.

Situated on the west coast, about 50 miles southeast of Genoa, Spezia is approximately 675 air-line miles from London and 610 miles from Malta. It is heavily fortified. At Spezia are ship-building yards, the royal dockyard and arsenal, factories and machine shops, powerful hydraulic cranes, as well as torpedo and gunnery school ships. West of the naval port are large coal sheds and tanks of liquid fuels for the navy.

Amid the many inlets and intricate system of basins making up the vast harbor is a mercantile port, though most of the quays are reserved for the navy. The town of Spezia is at the head of the Gulf of Spezia. It is rated as having the largest and safest natural harbor of the Mediterranean.

Founded in 1371, Spezia now has a resident population of about 75,000.

KING HIGGINS

By
CAPTAIN FRANK H. SHAW

CHAPTER IV

A MAN TO BE WATCHED

Higgins' car was at the Moie when he handed Dolores ashore; and she was quite willing to accept its convenience. Higgins had her driven to the formidable entrance to the Casa Falleiro; the city home of her family in a street near the Plaza Grande. He was anxious to make a definite impression on her, for, accustomed to quick decisions as habit made him, he realized with increasing force that the girl was a disturbing influence in a normally easy-going life; her sheer vivacious beauty had given him a jolt that surprised him.

"Come in and see Mother," Dolores invited, as old Francisco, the door-keeper, undid the ponderous bolts of the grilled outer door. "Daddy said she had a migraine—as usual. But she always seemed to think you were her white-haired boy, if you remember."

Francisco's face, brown and withered like a stale walnut shell, registered incredulous amazement at sight of the girl's sparkling loveliness; his mouth folded into a grin; he threw up his withered hands with a protest to the saints. Dolores gaily kissed him on both cheeks before pushing him aside to run into the patio. She called: "Mother, Mother; where are you?" From the profusion of oleanders, poinsettias, hibiscus and a score of other vivid tropical trees, a languid voice called: "Here! Is that Dolores?" A fountain tinkled musically, and a cardinal began to whistle a definite tune—Il Baccio. Higgins had given the identical bird to Dolores on her twelfth birthday, the year he took up duty in San Josef.

"That's Dick," he remembers me!" the girl excitedly protested, and whistled back a stave of the tune, before heading for the nook where Donna Elenora was established. Higgins held back to permit the reunion to be accomplished in private.

"Dear me," he heard in a querulous tone; "you're terribly big."

ISSUE No. 17—43

BRITISH WOMEN STOP HEADACHE BEFORE IT STOPS THEM

Today, there's a little white tablet that's making a lot of difference... to women throughout the whole British Isles. A recent British Government survey showed up these facts: that women, all over Britain, are counting on Aspirin tablets as one of the three most helpful drug items for maintaining health and morale.

Now that hundreds of thousands of women are working in war plants, doing men's jobs in the factories, there's no time to "give in" to headache, neuritic, or neuralgic pain. So when distress first starts... women reach into their pocket-books, and take the tablet they know they can trust.

Aspirin has helped millions. It's quick, effective, dependable... one of the safest analgesics known. So be sure you have Aspirin. It costs less than 1¢ a tablet in the economy bottle. Aspirin is made in Canada, and "Aspirin" is the trademark of The Bayer Company, Limited. If you don't see the Bayer cross on each tablet you're not getting Aspirin.

Dolores!" He understood that Donna Elenora was chagrined; she was given to feminine vanity in a high degree; and her pretence of extreme youth would no longer hold water now that she had a grown-up daughter to account for. "Must you wear clothes that make you look middle-aged?"

Dolores' laugh tinkled an answer; the years of her absence had not helped her to forget her mother's weakness.

"I'll go back to short skirts and socks," she offered. "You can tell everybody I'm your young sister. Don't you like that?"

and, Mother, I've met the most frightfully fascinating man in the world aboard the ship."

"Do come along, Richard," entreated the elder lady's voice. "What a stranger you are! Is there anything fresh?"

She was lolling in a hammock-chair, languidly waving a palm-leaf fan; a self-indulgent woman apt to pose as an invalid, though actually as strong as one of the wiry mustangs that roamed the inland plains. "I've been too busy to go in for socialities, Donna Elenora," Dickie apologized, her silky hand at his lips. "I'm one of the few hard-working men in Central America. And the newest thing is this remarkable daughter of yours." Donna Elenora lifted heavy lids to consider him, as if a hitherto-unheard note in his voice surprised her. She looked at Dolores again; a slow smile stole over her face. She nodded. It would suit her plans admirably to have the girl married quickly and off her hands; and if she married Dick Higgins the match would be agreeable. Herself British, she wished her daughter to marry into the chosen race, having experienced something of the Spanish attitude towards its womenkind.

"You'd better come and dine to-night, Richard," she invited. "We'll ask in a few others—I've been neglectful; and we might go on somewhere and dance. The new orchestra they have at the Superba is divine, they tell me." For a woman afflicted with a stunning headache, as she claimed, she appeared keenly interested in dancing.

"Mailboat day's my busy time," apologized Dickie, wishing, none the less, that he had not invited Barker. "Any other evening, though."

"Did you meet this fascinating frightfulness, Richard? Do tell me what he's like. Fascinating men are so rare in San Josef; a woman has no temptations to be otherwise than loyal to her own home."

"Yes, I met Lafallete." Dickie's manner was suddenly curt. "Charming man. I expect he's a big success—with women. Now, I must be off." He refused the proffered refreshments, made his adieu, walked, with a slight feeling of heaviness, towards the gate. He did not know for what reason that sudden starkness should afflict him; but there it was; as if the sparkle had gone from the champagne of life.

But before he reached the jealously guarded door—and Don Enrico religiously preserved the privacy of his magnificent home—his arm was impulsively caught, he was swung about; Dolores was there, mischievous glints in her remarkable eyes. She grasped the lapels of his coat, without a hint of affectation, she lifted her glowing lips to his.

"Thanks for bringing me home,

darling!" she said. "Have you still got those chocolate biscuits I used to like so much? I'll come round as soon as I can."

Then she danced away to whistle to the cardinal; and the heaviness departed as by magic from Dickie's soul. That kiss, he assured himself, meant nothing, but—but—it explained himself to himself. It still seemed to be thrilling through him as he crossed the Plaza as foot—clean forgetting his waiting car—and entered the Consulate.

"That Lafallete bloke isn't going to marry her without a struggle," he said to himself. And then, such being his constitution, he riddled his mind temporarily of all disturbing thoughts and concentrated on business.

"Let's get that report finished, Sebastian," he told his secretary, who was entering up voluminous details with a spidery pen.

"Yes, Excellency," said the factotum with a gush. He was a glutton for work. "I have already compiled the trade figures for the past month. There is also the statement from the mining company."

"Take this down," Dickie said crisply. "Usual heading."

"Off we go, then; I have the honour to report that although since my last communication there has been a sporadic outbreak of attempted revolution, the situation is now in hand; and it is my fixed conviction that opportunities for the advancement of British trade with Hyatata were never better than at present. It is recommended—"

He dictated decisively, never pausing for a word, and as he did so he stared reflectively at the bullet-marks still pitting the walls of his office. A dry smile creased his mobile lips. In many ways it seemed only yesterday that the Plaza outside had been packed with a vociferous mob, intent on destruction. Two shops had been set on fire; the chief of police had been hanged to a lamp-post; the President had bolted, taking with him as much as was portable of the Treasury.

What might a man expect to do with such a temperamental country? Actually he felt there was nothing to save except conditions as they existed, work strenuously, and pray for better times. Peace had descended on Hyatata, but—but—

"Yes, Excellency?" asked Sebastian, pen poised over the official foolscap.

Dickie Higgins realized that for once his thoughts had strayed from the matter immediately to hand. He was wondering if the arrival of this man Lafallete might not portend evil for the country of his adoption; the country to which he had devoted his heart and nerve and sinew during the colourful, constructive years. "I'd better keep a pretty close eye on that merchant," he thought. "All right, Sebastian—where had I got to?"

(Continued Next Week)

Half The People Of Essen Removed

An estimated 300,000 persons, chiefly women, children and men unable to work, have been removed from bomb-battered Essen to neighboring communities and

GARDEN NOTES

By Gordon L. Smith

Big Croppers for Gardens

Much will depend upon the location and size of the vegetable garden as to the crops grown in it. If tiny, say less than 50 feet square, then authorities advise concentrating on those vegetables which give the biggest yield per row. This means small, compact things like carrots, beets, lettuce, beans, spinach, onions, radish, possibly a few staked tomatoes. With the first items, even 12 feet of row, if given a little attention in the way of thinning, cultivation, and perhaps watering and fertilizer, should produce many good meals for the fair-sized family. And as the rows can be spaced a mere foot apart, a small plot will grow a lot of crop.

The staked tomatoes will take up more room. They should be 18 inches apart in the row, but one plant should grow a big basket of tomatoes, and if all side shoots are nipped off and the plant tied loosely to a six-foot stake it will ripen the fruit surprisingly early.

It doesn't pay to grow bulky things like potatoes in the tiny vegetable garden, and a winter's supply of carrots, onions, beets, etc., should not be attempted. Corn and peas take up a lot of room but because they are never so tasty as when taken right out of the garden at the back door, sometimes even city gardeners try to squeeze them in.

Garden corn should be grown in hills about 15 to 18 inches apart. To supply the small family at least a dozen hills of corn are necessary, and from 40 to 60 feet of row of peas.

Transplanting

The three most important factors in successful transplanting are moisture, shade and the exclusion of air from the roots. Whether the thing to be transplanted is a tiny, young shoot from the next row or a fifteen foot maple, experts stress the same, they say, transplanting should be done on a dull day or evening. Soak with water around the roots and press the soil firm-points mentioned. If at all possible, and especially with big plants, shrubs and trees, regular and heavy watering are advisable, at least until July, with nursery stock.

Moving a plant is something like an operation for a human being, and the larger the specimen the more necessary the attention. With shrubbery and trees, often main roots are cut and the shock is severe. Some pick-up in the way of quickly available commercial fertilizer will help at this time, merely a pinch for small things like tomato plants or asters, and perhaps up to a couple of handfuls for shrubs and trees.

camps, according to reports from Germany.

This is approximately half the population of the great German arsenal, the reports said.

GOOD EATING NEWS

Morning, noon or night, what could be sweeter than the heavenly aroma of All-Brans Maple Syrup Muffins perfuming the air that wends its way from the kitchen. The recipe makes its debut just in time to ring in a new run of maple syrup. You will find these muffins kind to your ration cards and very appealing to your palate.

All-Brans Maple Syrup Muffins
2 tablespoons shortening 1 cup flour
1 1/2 cup maple syrup 2 teaspoons baking powder
1 egg 1/2 teaspoon salt
1 1/2 cup milk 1/2 teaspoon soda

Beat shortening and syrup together; add egg and beat well. Add milk and All-Brans; let soak until most of moisture is taken up. Sift dry ingredients together; add to first mixture stirring until flour disappears. Fill greased muffin pans two-thirds full and bake in a moderately hot oven (400°F.) about 25 minutes.

All-Brans Sugarless Muffins
2 tablespoons shortening 1/2 cup milk
1/4 cup sugar 1 cup flour
1 egg 1/2 teaspoon salt
1 cup All-Brans 2 1/2 teaspoons baking powder
Blend shortening and sugar thoroughly; add egg and beat well. Stir in All-Brans and milk; let soak until most of moisture is taken up. Sift flour with salt and baking powder; add to first mixture and stir only until flour disappears. Fill greased muffin pans two-thirds full and bake in moderately hot oven (400°F.) about 30 minutes.

Yield: 8 large muffins (3 inches in diameter) or 12 small muffins (2 1/2 inches in diameter).

*NOTE: 1/2 cup corn syrup may be used instead of sugar if milk is reduced to 1/2 cup.

Every Canadian Home Should Have the

MAMMOTH SONG BOOK

Over 225 World Famous Songs and Choruses

Mammoth is the word to describe this remarkable volume. It is sheet music size, and has 221 pages of the world's choice songs—truly a mammoth collection. **\$1.00** Plus 12c Postage

AMONG A HOST OF OTHER SONGS the book contains

Rose of No Man's Land
Where Do We Go From Here?
The Star Spangled Banner
O, Canada
Ave Maria (Bach-Gounod)
The Lost Chord
My Task
The Old Rugged Cross
The Stranger of Galilee
John Peel
La Cucaracha
Santa Lucia (Here in the Twilight)
Volga Boat Song
When Love is Kind
Home on the Range
The Band Played On
Down by the Old Mill Stream
I Don't Want to Play in Your Yard
I'm Always Chasing Rainbows
K-K-K-Katy
Beautiful Heaven (Clelio Lindo)
Cradle Song (Brahms)
Dream of Love (Liedstrommer)
I Love You Truly
I'll Sing These Songs of Araby
Just a Wearyin' For You
Short'nin' Bread
Who is Sylvia?
Beautiful Dreamer
I Dream of Jennie with the Light
Brown Hair, etc., etc.

PLAY or SING
Voice, Piano, Guitar

This wonderful book has everything imaginable between its covers—gems from the great operas, concert songs, recital numbers, patriotic and war songs, sacred songs, songs from the sunny south, Stephen Foster's immortal compositions, negro spirituals, children's songs, ballads, love songs, hymns and Christmas carols. The book also contains a choice selection of the best popular song choruses of the past quarter century. The exquisite piano settings are by Hugo Frey, world renowned editor and arranger. Well printed on good paper—a colossal collection of great songs—the best yet. Marvellous value at \$1.00 plus 12c postage.

HOURS OF ENJOYMENT FOR ALL

TABLE TALKS

SADIE B. CHAMBERS

Your Easter Dinner

Each week it seems just a little more difficult to prepare anything in new menus for company or our seasonal festivities. However, I think almost everyone is taking a very sensible attitude. If we are requested to save food for our armed forces and our allies and help to hasten the end of this horrible turmoil, then let us be about it.

With this in mind I am writing you about your Easter dinner. It is simple and I hope within the limits of everyone's rationing.

Easter Dinner

Baked Ham — Raisin Sauce
Potato Rolls — Pickled Beets
Spinach with hard-cooked egg
Garnish
Salad of spring greens—endive, cress, onions, radish and lettuce
Orange Fluff

Beverage of Choice

Ham baked, boiled or broiled has always been a Canadian favorite, because of its flavor and juiciness. We are fortunate today in having a number of new processes of curing and smoking which adds a new zest to Ham and adds a new tenderness, juiciness and sweetness. The new processed hams really do not require the soaking before cooking, but if you wish soak one-half hour in cold water.

Give your ham a long slow baking, allowing 25 minutes for each pound. Fifteen minutes before serving remove the rind and spread with a coating of brown sugar (1 cup), 1 teaspoon of mustard and 1/2 teaspoon ginger. If you wish insert cloves diagonally and return to the oven for 15 minutes. The remainder of the ham may be used in many interesting ways during the week—a sandwich fill, ham croquettes, etc.

Raisin Sauce

1/2 cup raisins
1 cup water
4 or 5 cloves
1/2 cup brown sugar or corn syrup
1 teaspoon cornstarch
1/2 teaspoon salt
Few grains pepper
1 tablespoon butter
1 tablespoon lemon juice
1 teaspoon of some meat sauce.

Cover raisins with water, add the cloves and simmer for 10 minutes. Remove the cloves. Add sugar, cornstarch, salt and pepper mixed together. Stir until slightly thickened and add remaining ingredients.

Potato Rolls

Boil the potatoes in the usual way for mashed potatoes. When

boiled and mashed add butter, milk, salt and pepper; beat, being sure all lumps are removed.

Have the bake board ready covered with rolled crisp cornflakes. Shape potatoes into rolls about two inches in length dotting the ends into the rolled cornflakes. Place in rows on a slightly greased baking sheet. Heat in a moderate oven for 20 minutes before serving.

The potatoes will mix and roll better if cooled off to a temperature a little less than lukewarm.

Orange Fluff

2 tablespoons lemon juice
1 teaspoon grated orange rind
1/2 cup orange juice
4 tablespoons sugar
2 egg yolks
2 egg whites
1 teaspoon gelatine
1/4 cup cold water

Mix lemon juice, rind, orange juice, sugar and beaten egg yolk. If you like a jelly not too firm, but of a creamy consistency, fill up the two-thirds full cup of orange juice with water. Cook over boiling water stirring constantly, until mixture thickens. Add gelatine soaked in cold water. Chill until mixture thickens slightly. Fold in stiffly beaten egg whites. Pile into serving dishes and chill. Four servings.

Miss Chambers welcomes personal letters from interested readers. She is pleased to receive suggestions on topics for her column, and is always ready to listen to your "pet peeves." Requests for recipes or special menus are in order. Address your letters to "Miss Sadie B. Chambers, 73 West Adelaide St., Toronto." Send stamped self-addressed envelope if you wish a reply.

Improve Your Health by Correcting Sluggish KIDNEYS

This Way is Swift, Economical

Few conditions can wreck your health faster than disordered kidneys and inflamed bladder. Your back aches miserably. You have restless nights. You suffer leg cramps and rheumatic pains. When these things happen your kidneys need help in filtering out acids and poisonous wastes that are undermining your health. Give them this help—quickly—with GOLD MEDAL Haarlem Oil Capsules. GOLD MEDAL Capsules contain accurately measured amounts of the original and genuine Haarlem Oil (Dutch Drops). You will be gratefully surprised at the way they relieve clogged kidneys and irritated bladder. Go to your druggist now and get a 40c box. Be sure you ask for GOLD MEDAL Haarlem Oil Capsules.

Small Exhibit at Seed Fair

The Seed Fair held in Shawville last Tuesday was very disappointing because of the small number of exhibits. However, a start has been made again in what was once a good annual event. This should be a good district for seed production and by boosting our local event we will have a chance of having the annual Ottawa Valley Seed Show at Shawville in our turn. Let us work for that!

The display of models of farm labor saving equipment in the Turner Building in charge of an officer from the Federal Department of Agriculture was of special interest to both ladies and gentlemen, even the children.

The interest in this exhibit and the saving that may be rendered to farmers by introducing these features of service on the farm, caused the officers of the society plan to have the Exhibit at the Shawville Fair, Sept. 16, 17 and 18.

R. W. HODGINS,
Secretary.

Funeral of William McDonald

The funeral of Wm. McDonald, found dead at the Clarendon Hotel stable on Sunday morning, April 18, was held Friday evening from the funeral parlours of Geo. Hynes & Son to St. Paul's Church where service was conducted by the Rector Rev. K. C. Bolton.

The chief mourners were the widow, the former Christina Flatters and seven children, and a elder son of the deceased's first family, Geo. McDonald, of Dacre, Ont.

Interment was made in the parish cemetery.

Spare the Rod

"Spare the rod and spoil the child" is found in Butler's Hudibras, Pt. ii, canto i, and numerous variations of it appear in other literary works, including the following: "They spare the rod and spoil the child," in Ralph Venning's Mysteries and Revelations; "As he spared his rod, he hated his child," in Aelfric's Homilies; "Whoso spareth the spring spoileth his children," in William Langland's Piers Plowman. In substance it appears several times in the Book of Proverbs, the nearest being (13:24), "He that spareth his rod hateth his son."

Sermon Subject—

"A Study in Friendship"

To Help Him NOW . . . and When He Comes Home

YOUR SON (or your neighbor's son) is in battle dress perhaps . . . on a ship at sea, or flying a bomber. You are proud of him, but you pray for the time when he will be back home. You will do anything you can, you say, . . . everything you can . . . to bring him home safe, and bring him home soon.

Well, here is one thing you can do. You can buy Victory Bonds.

When you buy Victory Bonds you help your boy to do the big job he is doing now. You help to make sure that he has everything he needs; better equipment than the enemy has. And you are saving money to have a better home for your boy to return to.

HAVE MONEY FOR HIM WHEN HE COMES HOME

He will want to work with new farm implements . . . new equipment . . . to replace things that may be worn out. He will have new ideas to improve the farm. He may want to experiment with new crops, new stock, new farming methods. He's young and ambitious as you want him to be.

He will need money to do things he plans to do. Victory Bonds . . . money saved now and loaned to Canada to help win the war . . . will be yours and his to use when the war is over.

BACK THE ATTACK

Buy all the
VICTORY BONDS
you can

WHAT IS A VICTORY BOND?

A VICTORY BOND is the promise of the Dominion of Canada to repay in cash the full face value of the Bond at the time stipulated, with half-yearly interest at the rate of 3% per annum until maturity. A Victory Bond is the safest investment in Canada. The entire resources of the Dominion stand behind it. Canada has been issuing bonds for 75 years, and has never failed to pay every dollar of principal and interest. A Victory Bond is an asset more readily converted into cash than any other security.
