1910 **Furs Furs** 1911
N. A. OSTIGUY
VALLEYFIELD

Now having his stock ready for the season, he invites you to visit his show room and inspect his splendid assortment of Furs, which exceeds that of any previous year. Having laid in his stock of raw furs very early, he escaped the great advance in values, and, as a result, he has not advanced his prices. He especially calls attention to his choice selections of Ladies' Furs in all the fashionable furs and styles, also fur-lined Jackets, which are made to suit you and your purse. Besides Ladies' Jackets there are Scarfs, Stoles, Boas, and Capelines in great variety and at all prices.

Do not fail to look at our Muffs. They are fashionable and comfortable. You can buy one for less money than you would pay elsewhere.

For men who want Fur Coats, come and see my stock of Raccoon, Wallaby, Natural and Brown, Combat, Bulgarian Lamb, Russian Calf, Lustrated Beaver, Brown Dog Coats. You can choose the Coat you wish at a suitable price.

For Dress Coats, our fur-lined are unequalled. They are made of the best English Beaver Cloth. The linings are our Canadian spring-catch muskrat, collars and severn of Persian Lamb or Otter.

All orders and repairs promptly and carefully done to the client's satisfaction.

Farm and Garden

SELECTING SEED CORN.

Better Run Risk of Frost Than Pick the Ears Too Early.

The first step toward better seed corn for next year must be taken in the fall by selecting the seed ears from the stalks in the field. The corn should be allowed to mature well on the stalk. By selecting the earliest maturing ears and picking them from the stalk as soon as the husks begin to turn yellow, which is a common practice, earliness is secured at the expense of vitality, writes Professor Moore of the University of Wisconsin in the American Agriculturist.

A slight frost will not injure corn if it is well matured, and it is better to run the risk of a frost than to pick the ears too early. The latter part of the growing season seems to improve the vitality of the corn greatly.

Care should be taken in picking seed to secure ears which are attached to the stalk about three feet above the ground. Those ears which grow either very high or very low upon the stalk should be rejected, as they are undesirable, having characteristics which we do not desire. For the same reason we should avoid selecting ears with very short or long shanks from deformed stalks.

Go into the field after the husks the ears have turned yellow and select the well formed ears from good stalks. Put them in sacks or baskets and bring them to the side of the field and husk. It is well to follow definite rows in securing seed corn, otherwise a large number of good ears will be missed. After the corn is husked many ears will be found imperfect and should be discarded. Only those ears that are of good form. Seed corn should be put into the proper place for curing the same day that it is taken from the field.

BEANS AFFECTED WITH ANTHRACNOSE. (From Field and Farm, Denver.)

prop. Nearly every one is familiar with the spotted appearance of snap beans and especially of the wax podded varieties.

Practically all parts of the bean plant except the roots are subject to attack. The most common indication of the presence of the disease is the occurrence of brown or black sunken areas on the stems, leaves and pods. They may also appear on the seed leaves and stems of the plant soon after appearing above ground and cause considerable losses through a reduction in the stand.

On the older plants the attack is most serious on the larger veins of the leaves, and the leaf may be wholly destroyed or its efficiency greatly reduced. From the stems and leaves the fungus spreads to the pods.

Notice of Removal

I have removed my place of business from Gilmore's to Blachford's Block, two doors from the post office, and am prepared to carry on business as formerly. Thanking my customers for past favors and soliciting further orders

Poultry

Wanted

2000 Hens, Ducks, Geese, and Turkeys before Xmas

J. HART is back to his trade buying Poultry and Veal Calves. He is paying the highest prices. Hens and Chickens 10 to 14c per pound. Ducks 12c, Turkeys 14 to 18c, Geese 11 to 13c. He would like you to drop him a line if you have any for sale. He will pay more if they are extra good. He will buy old rubbers, and has kiln-dried and hand-picked Feathers for sale.

J. HART,

Box 85

Huntingdon

L. LAVIGNE is paying 10.1-2c to 12c for Hens and 11 to 13c for Ducks.

Poultry Wanted

The undersigned is buying Cattle, Calves, all kinds of Poultry, Hides, and everything the Farmer has to sell. Highest cash prices paid. Drop a card or send word and I will call at your house.

Jacob Sherman,
Huntingdon
President

FOR SALE, fresh milkers and springers. Why keep your stables full of dry cows, which do not pay when with fresh cows and about an average of 10lb. of meal daily you could make from \$15 to \$20 a month and increase the fertility of the soil, which would enhance the price of your revenue more every year. Sold for cash or on time. John A. Smellie, half mile west of Smellie's Crossing, Clyde's corner Que. Phone 46, ring 12.

PRINGLE, STARK & CO.

HUNTINGDON

—W. F. Stephen has bought the office he occupies, adjoining the county building, from Mr. Dewick.

—The interest in the band of hope meetings is well maintained. St. Andrew's annex was comfortably filled Friday evening; the Rev. J. B. Maclean presiding. Recitations were given by Greta Cagland, May Pringle, Johanne McFarlane, Ada Dewick, Marjory Clouston, Edith Antoine, Fannie Friend, Robena Pringle, Helen Shanks, Ellen Somerville, Adam Seilar, Ruth Haws, Edward Goodfellow, Anna Somerville, Mildred Scott, Donald Ross, Marjory Goodfellow, Clifford Boyd, Allan Goodfellow, Mary Dewick, Irene Hildridge, Gladys Pringle, Laurie Friend, Bertie Tedstone. The pieces being short they did not take up much time. Of the older contributors, Miss Sangster came first, and the Misses Craik and Will gave a piano duet, while Robena Kelly did herself credit in a solo. The Rev. R. Smith made an appropriate address.

—When everybody says this is the longest cold spell they ever experienced the first of December must be so. Mercury has ranged between 12 below zero to 25 above with fine sleighing.

—A. N. McDonald now occupies the property he bought from Mrs. Blachford on front street.

—The past week has seen many boys on the river skating. The rink opened Wednesday.

—The junior village league is progressing. M. McClatchie has been appointed president, John A. Lanktree secretary. The committee will be composed of the four captains. The teams are to be: Westmount, Wanderers, Nationals and Academy.

—A meeting of the Huntingdon hockey team was held at Chas. H. Lamb's Tuesday evening. Wm. James was unanimously re-elected captain. Delegates will attend the annual Junior league meeting in Montreal Friday night.

—The curling rinks opened Wednesday. The club promises to be larger.

—The academy closes for the Xmas holidays on Friday, 23rd, and re-opens Monday, 9th January.

—St. Andrew's ladies' aid, at their annual meeting on Tuesday, decided on making a Xmas present to the minister in the form of placing a telephone in the manse. The former board was re-elected.

—The ladies of St. John's church had not consulted the clerk of the weather when they fixed on the 14th Dec. as the date of their bazaar. A wilder day than yesterday is rarely experienced in this month. The ladies had gone to much trouble in preparation, had arranged five booths, a wonderful well, tables, and transformed the lecture-room into a bower of beauty. As they will reopen tomorrow afternoon and evening those kept at home by the storm have a chance of seeing all for themselves.

EASTERN TOWNSHIPS' BANK

The 51st annual meeting of the Eastern Townships' Bank was held at Sherbrooke, on Dec. 7. President Farwell occupied the chair. Manager J. Mackinnon acted as secretary.

The annual report was as follows: The net profits for the year amounted to \$410,696, which, with the balance brought forward from last year gives the sum of \$559,538 available.

Out of this the regular quarterly dividends have been provided for—that payable on the first January proximo being at the rate of nine per cent. per annum; \$150,000 has been added to the reserve fund bringing that account up to \$2,250,000; \$15,000 set aside for bonus to employees, \$2,000 transferred to officers' guarantee fund and a balance of \$145,038 carried forward. In view of the reserve fund having reached 75 per cent. of the paid up capital, the directors feel justified in increasing the dividend to nine per cent., and are confident their action will be approved.

Business throughout the country has been satisfactory and the outlook encouraging, although expectations of six months ago have fallen short of fulfillment as a result of partial failure of the grain crop in important sections of the Northwest provinces. Nevertheless harvest results throughout the Dominion as a whole, have been sufficient to maintain trade and manufacturing at a high level. Collections are fair, and the number and importance of insolvencies normal. The export trade in lumber and pulpwood is still lagging, though tending towards improvement. The dairy industry continues to be in a very satisfactory condition, and while along the southern border an important change has taken place, cream being shipped in large quantities to factories and others in the large cities of the United States, it is to be hoped that impending changes in the U.S. tariff may lead to a resumption in the localities referred to and of a return to the condition previously prevailing and the manufacture of butter and cheese within our own territory.

It is very gratifying to notice that the tide of immigration continues to flow into the country from both England and the United States. The country is growing fast, and much money and credit are needed to finance its develop-

ment. Our moneyed institutions will be expected to provide increased facilities so long as rapid development continues. As the larger proportion of immigrants are settling in the Northwest, it means a great increase in the territory to come under cultivation, and proportionately the grain supply available for export.

Our manufacturing establishments are prosperous and are increasing in number because of important industries in the United States opening branches here in order to share in Canada's prosperity. Paper and pulp industries are the most active in consequence of new regulations affecting export of pulpwood. It is to be hoped that the necessity of safeguarding our manufacturing industries will be kept in view in any negotiations looking towards reciprocal trade relations with our neighbors to the south.

In view of the remarkable growth of the country it is evident that increased banking facilities will be required, and as this can be met more readily and economically by the present organizations increasing their capital—which several have already done—the directors have decided to recommend that a resolution be passed at this meeting for authority to increase the capital of the bank in the sum of \$2,000,000,—this increase to be issued from time to time in such amounts and at such rate of premium as the directors may determine.

During the year five new offices of the bank have been opened as well as several sub-agencies, all of which are showing satisfactory results.

New office buildings have been erected at Knowlton, Megantic and Grand Forks, and three others are now under construction, viz., Winnipeg, Montreal West and Sutton. We have also moved into commodious new premises at Vancouver in a building specially built for our use, which we occupy under lease for a long term of years.

All the offices of the bank have had the usual thorough inspections.

In conclusion, the directors have much pleasure in testifying to the faithful and painstaking service of the general manager, managers and other officers of the bank.

The whole is respectfully submitted.

The president moved, seconded by the vice-president, Mr. S. H. C. Miner, the adoption of the report which was carried unanimously. A resolution was expressed by shareholders present at the decision of the board to increase the dividend to nine per cent. The directors were authorized to apply to the treasury board of Canada for its approval of an increase of capital stock, of \$2,000,000, raising it to \$5,000,000; new shares to be issued and allotted in such manner and proportion and at such time as the directors of the bank may deem proper.

A vote of thanks was given to the president and directors and to the general manager, managers and staff for their services during the past year.

Montreal, Dec. 12.—In view of the coming holidays butchers bought freely and prices for anything like extra cattle tended upwards. Choice steers sold at 6 to 6.1-4c, good at 5.1-2 to 5.3-4c, fairly good at 5 to 5.1-4c, fair at 4.1-4 to 4.3-4c, common at 4 to 4.1-4c, and cows and bulls from 3 to 4c per lb. A weaker feeling prevailed in the market for hogs and prices scored a decline of 5c to 15c per 100lb., owing to the increased offerings and the fact that stocks on spot are commencing to accumulate some. At the above reduction there was a fair demand from all the packers and sales of selected lots were made at \$7 to \$7.10 per 100lb., weighed off cars.

The foreign markets for Canadian bacon are weak and 1s to 3s per cwt. lower than a week ago. There continues to be a strong undercurrent to the market for sheep and lambs and prices for the former since this day week have scored a further advance of 50c and the latter 25c. The market for calves is also strong and prices are steadily tending towards a higher level. Sales of choice stock were made at 7 to 7.1-2c, and good at 6 to 6.1-2c per lb.

Clark J. Wallace has offered \$25,000 towards establishing a hospital in Malone provided it is named the Alice Hyde Memorial Hospital in memory of his late daughter.
