JOS. MERCIER SPOKE AT ANNUAL MEETING OF OUT.-LAURIER CLUB

Ex-M.P. for Local Division Addressed Gathering Citing the Good of the King Government — Erected New Outremont Post Office Last Year — Will Again Go to Electors — Ald. Gillett New President.

Alderman Alfred Gillett, of Outremont, will head the Laurier-Outremont Liberal Club during the coming twelve months. Ald. Gillett was elected president of the club at the annual meeting held last weekend. This division will support Mr. Joseph Mercier, M.P., during the coming election. Alderman Thos. Holland was elected honorary president.

Formed with the object of looking after the interest of Laurier-Outremont division the Liberal Club boast a distinguished membership including Premier King, Hon. Raoul Gauthier and many other Liberal leaders.

Mr. Mercier, who was presented at the meeting, told the gathering he felt assured of their support to the Liberal cause, and reviewed some of the work he had done during the past year. He pointed out the new post office which was erected on Bernard Avenue, centrally located, and promised that if other public works were needed, the Government would not neglect to have them carried out.

"In retiring from office to await re-election the Liberal Government does so with a clean slate and without any criticism against it," Mr. Mercier declared. Concluding his speech Mr. Mercier touched on problems closer to this city namely the

appropriations for the local harbor and the completion of the Montreal Harbor Bridge, and a further vote of \$400,000 for a new post office.

The election of officers resulted in the following: Honorary president, Ald. Thomas Holland; president, Ald. Alfred Gillett; vice-presidents, J. Latt, Ernest Pitt, Wilfred Besette, K.C., and M. J. Scott, secretary-treasurer, Wilfred Foley; councillors, Ald. Charles Bourassa, M. J. Hayes, Jacob Albert, L. Coviensky, Joseph T. McCarthy, D. L. Desbois, K.C.; W. L. Fleming, O. J. Callary, David Ryan, E. L. Turcotte, J. R. Walsh, R. B. Stuart, J. W. Long, J. Charles Shea, D. J. Lyons, Paul Gagnon, Romeo Bourassa, E. C. Townsend, and A. P. O'Connor.

MRS. WAL. SCOTT SPOKE TO W. M. S. OF FAIR-ST. GILES

The last regular monthly meeting of the Fairmount-St. Giles Woman's Missionary Society, for the season was held last evening when a large and enthusiastic gathering heard Mrs. Walter Scott, President of Park-Melville W.M.S. give a most interesting and instructive talk on the blue-book, the year book of the Society edited in Toronto. The objective of the Society which is the three mottoes of the Societies which united at the time of the Union of the three churches was quoted namely: The world for Christ. Not by might nor by power, but by My Spirit, saith the Lord of Hosts. Whatsoever He saith unto you, do it. The speaker stated that lack of knowledge was responsible for lack of interest and funds. Knowledge could be obtained from the Missionary monthly and the blue-book and asked how we could expect to be enthusiastic over something of which we know little or nothing. Mrs. Scott stated that the harmonizing and consolidating of the work of the three Societies is now practically accomplished. The officers at Toronto who were doing business of over a million dollars, with the exception of a few paid workers, were giving their time gratuitously. We send representatives to the Men's Board and now the men's and women's Boards work in co-operation with one another. Mrs. Scott said we have no choice in this matter, Our Master said "Go ye into all the world and preach the Gospel to every creature". The mission fields of the United Church cover the globe and the sun never sets on them.

It is not the individual, nor the army as a whole, but the everlasting team-work of the army as a whole that will bring the Gospel of Jesus to all the nations of the world. The future of the whole United Church depends on its attitude to missions. We are taught first, love to God and then love to our fellow-men. And we cannot show love to the latter unless we have love for the former and we cannot have love for the former unless we show love to the latter. Peter's vision on the house-top at Joppa made him give up his idea of a national Jewish church and gave him the idea of an inclusive and all-loving God.

We pass this way but once. Today only is ours. Not failure but low aim is crime. The speaker was introduced by Miss Tweedie and a vote of thanks was given the speaker and the

More Playgrounds for Outremont

At the last session of the City Council of Outremont, Alderman Grothe introduced a motion which provided for the acquisition of the property between Springrove, Maplewood, McCulloch, and Pagnuelo avenues by the Municipality, to be converted into a public playground and tennis court for the benefit of the community.

The motion was heartily adopted by the council in session, and the Manager and City Engineer, E. Lacroix, has been served with the necessary authorization to secure options on the land in question.

REV. W. J. HURLOW WILL SPEAK HERE

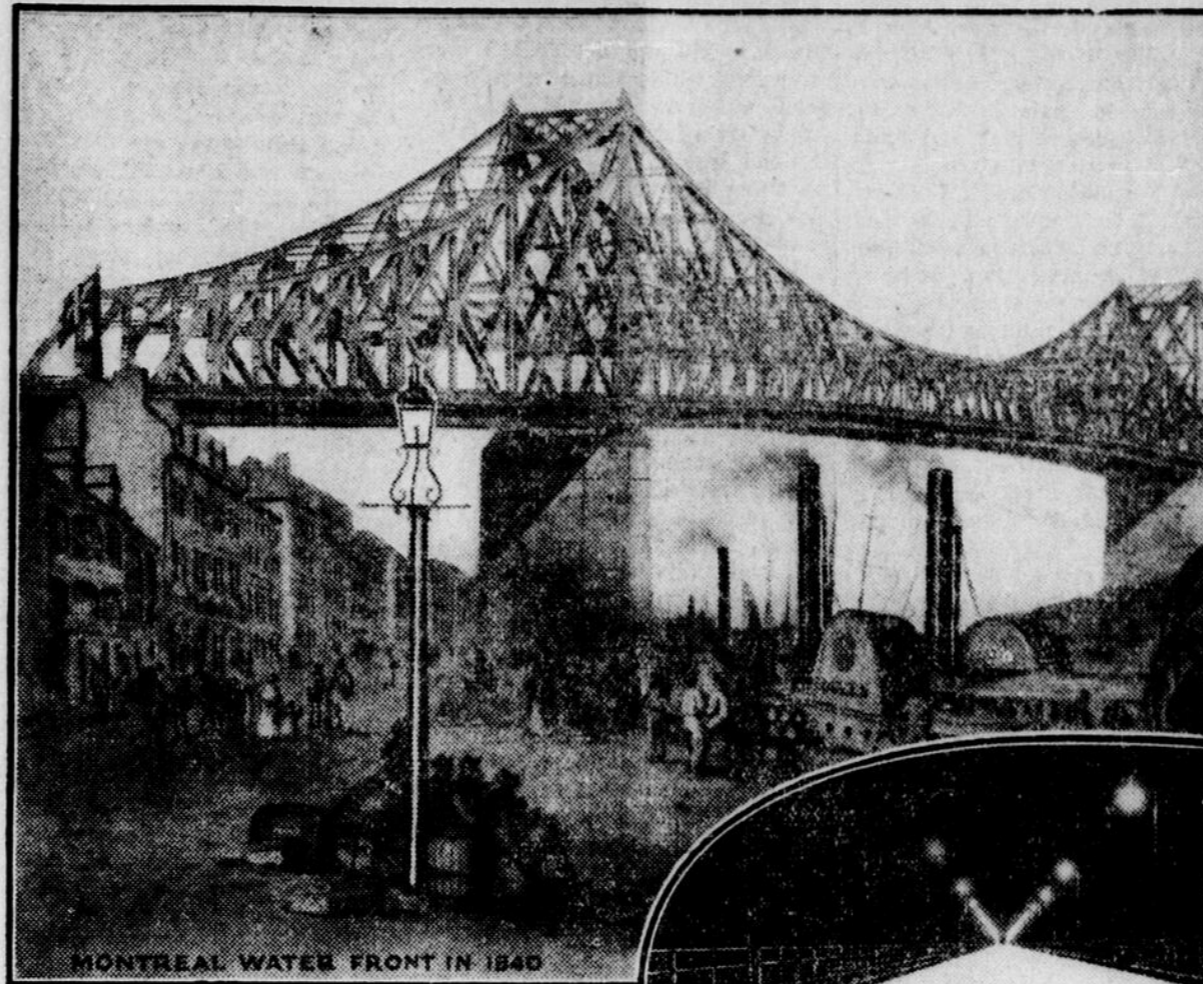

Will Be in Charge of Preparatory Service on Friday Night

The Sacrament of the Lord's Supper will be celebrated in MacVicar Memorial Presbyterian Church on Sunday June 16th at the 11 A.M. Service and at the close of the evening Service. The Service Preparatory to Communion will take place this Friday night (June 13th) at 8 o'clock, when the Rev. W. J. Hurlow, M.A., Bermuda will preach.

The Annual Sunday School picnic will be held at Chambly Park on Saturday June 21st. Tickets will be distributed to the scholars on Sunday afternoon.

soloist, Miss Beryl Tarlton, by Mrs. Jordan. The devotional exercises were taken by Mrs. Burden, Mrs. Fyfe and Mrs. Ashald. It was announced that a lecture would be given by Canon Shatford early in October. Mrs. Fenner announced that a dozen red roses had been sent to Mrs. Huxtable on her 90th birthday which was on June 8th. It was decided to hold a tea and sale of home-cooking on the third Friday of September. The temperance convener, Mrs. Curran, was asked to take up the matter with the Young People's groups, of devoting two or three minutes of each meeting to the study of temperance. The treasurer reported \$514.84 raised. The President, Mrs. I. Thompson, presided. The meeting was in charge of Mrs. J. P. McFarlane. Regret was expressed at the withdrawal of Mrs. Shearer from our midst, on account of her removal to St. Lambert.

A Dream of Ninety Years Ago Comes True

MONTREAL WATER FRONT IN 1840
Main picture shows the steamboat wharf as it looked in 1840.

Superimposed is the main span of the Montreal Harbour Bridge where it crosses over the steamer channel of the harbour.

Oral: a view of the new bridge at night showing the brilliancy of the illumination.

In 1840 the people of Montreal dreamed of a bridge to join the harbour with the communities of the South Shore. The site they then selected was that on which now stands the magnificent structure known to us, three generations later, as the Montreal Harbour Bridge, officially opened on May 24th, 1930.

The single 16 candle-power gas lamp in the foreground is typical of the scientific darkness of its day, for it was not till 1880 that electric light was installed in the Harbour of Montreal. Today the dream of ninety years ago is realized in the bridge—one of the world's finest monuments to modern science and engineering—illuminated by 165 one thousand candle-power incandescent electric lamps—a total of 165,000 candle-power. Special plans for this unique installation were designed by the engineers of the Harbour Commission in conjunction with illumination engineers of the Northern Electric Company Limited.

CITY TO ENFORCE NEW BY-LAW TO AID TRAFFIC

Schedule Includes Many Safety Precautions for the Public

NO STREET PLAY

Children Warned Not to Seek Rides and Bikes Must Carry Light

A new and lengthy schedule of traffic by-laws have just been made public from the office of the City Engineer and Manager, of Outremont, Mr. J. E. Lacroix.

The substance of the new draft, which was converted into statute by a panel of Aldermen under the chairmanship of His Worship, Mayor Joseph Beaubien sitting on the fourth of last December, is to facilitate the movement of traffic generally, having especial regard for the safety of pedestrian and those driving or riding in vehicles of any kind, alike.

Section 83 definitely prohibits the use of coasters, roller skates, and other children's devices on the public streets. Under the new draft, also, it is notable that the exigent young man of modern propensity, who beligerently honks his auto horn outside the front door of his 'girl' friend' will no longer be indulged in this respect. A special section of the civic by-laws deal with this practice in point, and definitely prohibit it as a nuisance and a disturber of public equanimity.

No longer can either man, woman or child, beg a ride from a passing vehicle; for again, a special ordinance of the articles of traffic as enacted, place this contingency as outside the law.

Children are definitely prohibited to play on the roadways by the by-law, and all riders of bicycles will be compelled to carry a bright light. Respecting the new 'stop' system, the police have been in receipt of instructions to commence prosecuting the enforcement of this by-law. The chief of police has been issued with specially worded notices in counter-foil. Over last weekend, the police department were active in enforcing the 'stop' system, and in every in-

OUTREMONT TO BE REPRESENTED AT NFLD.

Announcement is made from the office of E. T. Sampson, Secretary-treasurer of the City of Outremont, that His Worship, Mayor Joseph Beaubien, accompanied by a delegation from the City of Outremont, will proceed to Newfoundland, there to represent the City at the excursion-convention of the Union of Quebec Municipalities, scheduled to take place on June 21st till 28th inclusive.

POPULAR MORSE OPERATOR BURIED

One of the best-known, best-liked and most capable of the old-time Morse telegraphers in Montreal passed away in his home her last weekend in the person of Michael McFadden.

Ailing for some time with heart trouble, Mickey breathed his last at 6:30 p.m. last Friday and his funeral took place from his late residence 1075 Van Horne avenue, to St. Michael's on Monday morning.

"Mickey" McFadden was born in the Maritimes. In fact, he first saw the light of day at Buctouche, N.B., forty-one years ago. Coming to Montreal some thirty years ago he at once made for himself a reputation as a news operator. He later went into the brokerage end of the business and at the time of his death was known as one of the best old-time Morse men in both the newspaper and brokerage field. He worked in many of local newspapers and several brokerage offices. At the time of his death he was employed by Jones, Howard and Co., St. James street.

stance where violations were observed each car owner was given the detachable end of the ticket-notice. This notice directed the recipient to report to the police station within a delay of twenty-four hours. Here, the person in receipt of the ticket-notice was given courteous instruction in the new 'stop' signs. He was also further informed on the newer innovations in traffic enactments, and permitted his liberty with a warning that the next violation would necessarily be followed by law procedure.

EXTERMINATING OF RATS COSTLY TO OUTREMONT

Will Rid City Dumps of Mischievous Rodents

WORK STARTED

W. Coinpointer in Charge of Scientific Elimination

The civic authorities of Outremont have planned and carried into effect a fast one on the rat infesting several districts of the City. J. E. Lacroix, City Engineer, acting under instructions of the Outremont City Council after the receipt of complaints from citizens resident in the neighbourhood of the city ash-dumps that have had trouble with rats, has completed arrangements with the National Chemical Exterminating Company who have a very effective program for the removal of rodents from the scheme of things generally.

W. Coinpointer, chief executive of the National Chemical Exterminating Company, is an acknowledged authority on the habits of the rat. It appears that the rat is of essentially pioneering characteristics, and inside of twelve months after a 'mama' and 'papa' rat have started housekeeping, they can usually increase the rodent population of that particular section to the extent of some eight hundred rats. In view of this tendency towards the prolific, drastic measures for extermination have become a civic necessity in many large communities where the rat may have started an opposition colony.

To this end, W. Coinpointer has developed a scientific means of permanently getting rid of the rat. First, Coinpointer gives them a 'porridge'. Secondly, he serves them 'sandwiches', and thirdly, he administers them gas. The gas is the final touch and if it fails to dispatch the rat to join the greater majority of his antecedents, then the rat simply 'aint human' that's all.

In Atchison if a man is lazy we say he is lazy. In Lawrence, a university town, a lazy man is referred to as a person lacking initiative.

Y.M.H.A. PLAN SUMMER CAMP FOR BOYS ON MOUNT ROYAL SLOPES

Program Will Include Sports, Handicrafts and Library, With Competent Instructor—Seven Weeks Duration—Health and Education Away From Traffic.

A "Camp in the City" for 1500 boys living in the north end of the city is the latest project of the Young Men's Hebrew Association. The idea has met with the hearty approval of many school principals and physical instructors throughout Montreal. The proposed Urban Camp will give all these boys, who would otherwise roam the streets all summer, the opportunity of healthy and educational recreation away from the traffic dangers of the city.

The work of Urban Camp will be carried on in the Y.M.H.A. Building, on Fletcher's Field and on the Mountain. The athletic program will include baseball, volley ball, football, track and field sports, and many other games. Swimming instruction will be given to every youngster in the "Y" swimming pool. Library and story hours will also take place in the building.

A large program of Arts and Handicrafts will be enlarged to include many of the boys in the Urban Camp and the younger boys will be taught how to build and fly kites.

Carving of statuettes in blocks of soap and clay modeling will be taught by two artists. Hikes over the mountain for nature study will be conducted under the direction of leaders to be supplied by the Department of the Interior at Ottawa.

Every Friday will be health day when medical examinations will be held. Health talks will be given on the care of the body. Instruction in accident prevention and safety will also be given.

Seven Weeks
The Urban Camp will operate for seven weeks in all, commencing on July 1st, during the afternoons of the five week days. Every group of twenty boys will be under the continuous supervision of a trained counsellor. A large trained staff of experts will look after each special activity.

Everything in the Urban Camp is open without cost to all members of the Association between the ages of ten and fourteen. Registrations are now being accepted at the Y.M.H.A. Building where further information may be obtained.

GIRL GUIDES ATTENDED CHURCH

The Girl Guides of Outremont and the Northend parish added to the MacVicar Memorial Church on Sunday last for their annual service. Rev. J. G. Potter, M.A., D.D., preached a special sermon on the lessons of Pentecost and their application to Guiding.

The various companies of Girl Guides in Montreal held similar services throughout the city.

O.J. DELANEY BURIED MONDAY

Was Well Known Resident of Town of Mount Royal

The funeral of Oswald J. Delaney, general sales manager of T. McAvity & Sons Ltd., of Saint John, N.B., and Montreal, took place on Monday morning at 8:30 from Kane's Chapel, 5229 Park avenue to St. Michael's Church, corner of St. Viateur and St. Urbain, where the funeral service was held at nine o'clock, with subsequent interment in Cote des Neiges cemetery.

Mr. Delaney, who resided at 56 Beverly road, Mount Royal, was 42 years of age, the son of the late Mr. and Mrs. John Delaney, of Montreal and formerly of Cobourg, Ont. Educated at St. Patrick's School, he graduated from Mount St. Louis College, and the last public function he attended before his illness was the Old Boys' Re-Union of his class of 25 years ago at the College, which was held on May 19.

Mr. Delaney married Miss Pearl Almond, of Montreal, and started his business career with Mott Co. Ltd., plumber's appliances, afterwards travelling throughout Eastern Canada for Thomas Robertson & Co.

Then he joined the firm of T. McAvity & Sons and became general sales manager, a position which entailed his residing at Saint John, N.B. for two years, although he travelled from coast to coast in behalf of his firm. Subsequently he returned to the Montreal office on University street.

Mr. Delaney also leaves two sisters, Mother St. George of St. Joseph's School, Fort William, and Mrs. Harry Grace of Montreal, and two brothers, James of Minneapolis and George of Montreal.

BURIAL OF ALEX. ORSALI YESTERDAY

Well Known Wholesale Grocer Passed Away Last Weekend

Known throughout the province as one of Montreal's most successful French-Canadian business men, Alexandre Orsali, co-founder and vice-president of Hudon and Orsali, Limited, wholesale grocers, died on Saturday evening at his residence, 5607 Durocher avenue, Outremont, following a long illness. He was in his 81st year.

Born in Montreal on July 14, 1849, the son of Thomas Orsali and Marguerite Watt, Mr. Orsali was educated by the Christian brothers, following which he entered business. In 1875, along with the late Phirmin Hudon, he founded the firm which bears their names. Gifted with sound business acumen and initiative, Mr. Orsali's tireless energy and foresight enabled the firm to grow from the modest business of its early days to the position of one of the leading wholesale grocery businesses in this province. Upon the death of Mr. Hudon thirty-five years ago, Albert, his son, became president, and Mr. Orsali, devoted to the business management of the firm, became vice-president.

A Philanthropist

Mr. Orsali was a past director of the Montreal Board of Trade and the Chambre de Commerce. A philanthropist, his name was closely linked to the growth of the Notre Dame Hospital here, of which institution he was a life governor. He was a staunch Liberal in politics, though he never really took an active part in campaigns. He was also a member of the congregation of St. Viateur's Church, Outremont. Mr. Orsali was married three times, his first wife being Marie Louise Gauthier; his second, Sophie Gilbert, and his third, Onesime Marchal, daughter of the late Mr. Justice Marchal, who survives him. He is also survived by four sons, Thomas Orsali, of Belet; Alexandre, Jr., Henri and Eugene Orsali, of Montreal. A fifth son, Aime, died three days ago. One daughter, Mrs. Antoinette Martin, widow of the late J. A. Martin, also survives, as well as a brother, Joseph, and two sisters, Mrs. Daniel Logan and Mrs. Delphis Paquette; also ten grandchildren, Eugene, Aime, Robert and Paul Orsali, Philippe and Armand Martin, and Misses Lucille, Yvette, Simone and Cecile Orsali.

The funeral service took place on Wednesday morning at 8:30 o'clock, from his late residence, to St. Viateur's Church.

MONTREAL, JUNE 12, 1930.

Radio and Culture

That bump of curiosity which so distinguishes some branches of the government of the United States will lead the federal bureau of education to install 100 radio sets in isolated mountain homes which have little or no contact with the outside world. The object of this generosity is to ascertain what are the cultural effects of this medium of education and to determine if radio can take the place of reading as a means of contact otherwise impossible.

As an educational experiment the undertaking is unique, in the opinion of the bureau's specialist in adult education, L. R. Alderman. He holds that it is one of the most concrete and truly scientific approaches to the correlation of radio and education in its widest meaning yet attempted.

Well, perhaps so. Not being an expert we do not know. Just at the moment the suggestion gives us a titillating sensation. May be, later on, we shall become deviously interested. But we miss our guess if the experts of the bureau of education do not get just about 100 different results from the 100 individual experiments it makes. Off hand we would say that the correlation between radio and education depends a good deal on, first, the thirst for education which may afflict the person who operates the receiving set; and, second, on what the broadcasters throw on the air. We fancy there will be some who will show a great desire to acquire a liberal education in the sort of thing that passes for entertainment in the night clubs. Some others will feed their minds on the inane, colorless or highly prejudiced stuff with which the air waves are filled. Others will mistake propaganda for knowledge. A few may be gifted with a natural power of discrimination and know when to turn off.

However, we are glad that the bureau of education is going to distribute 100 receiving sets among the isolated homes of the country whose owners can not afford to supply themselves. We wish it could see its way to distribute many times 100 sets. For if those isolated homes do not get much in the way of culture and education out of the radio they will get a lot of entertainment. And if you are stuck in an out-of-the-way corner that is a good deal.

INTERESTING AUTOMOBILE FIGURES

Some interesting automobile figures are given in the current number of Barron's Weekly. The statistics cover the first four months of this year and are compared with the same figures for the corresponding period a year ago. Ford is shown as manufacturing forty-one per cent. of all the automobiles made on this continent for the quarter—more than all of General Motors cars combined. The General Motors figure is 32.3 per cent., the bigger part of which is made up by the figures for Chevrolet. Chevrolet made 24.2 per cent. of the cars during the four months. Also interesting is the unit profits made by the various manufacturers. In practically all cases a decline from last year is shown. General Motors reports a profit of \$122 per car; Chrysler of \$2.38; Hudson-Essex, \$42.00; Packard, 434.00; Nash, \$162.00; Studebaker, \$76.00; Willys-Overland, \$4.52; Hupmobile, \$9.00; Auburn, \$24.00; and Reo, a loss per car of \$23.00. General Motors and Nash are the only companies showing increases in the profits per unit over last year. No figures are given for Ford, presumably because Ford stock is not held by the general public in the United States, and no statements are forthcoming from the Company, except, of course, number of cars made.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION

SPITTING

In a very interesting report of a study made on Tuberculosis covering a section of England, we find that the report closes with the following:—"There is one reform, and that by no means unimportant, which need not cost anything. If the filthy habit of spitting in public places could be ended by pressure of public opinion, a considerable source of infection would disappear."

That a report which deals with the relationship of tuberculosis to housing, employment, and malnutrition should close with such a definite statement as regards the dangers of spitting shows just how serious the matter is in the opinion of the writer. Spitting is largely a habit. Not so

many years ago, every man spat when he smoked. Why did he? Just because he had seen others do it, and, therefore, it seemed to him to be associated with the smoke. The cuspidor was part of the household furnishings. This has all changed, however; the smoker no longer spits, and the cuspidor in the home, is becoming rare.

There are men and boys who seem to spit in order to have something to do. They stand on the corner and talk and spit. This is simply a bad habit. There is no disagreement as to the habit's being an objectionable and a filthy one. There is, however, judgment from what we see every day a lack of understanding that the habit

Social & Personal

The marriage of Miss Claire McKinnon, of Montreal, only daughter of the late Mr. and Mrs. Henry McKinnon, of Cornwall, Ont., to Mr. C. Frank Britt, of Outremont, Que., took place Tuesday morning at a quarter to nine o'clock at St. Michael's Church, Montreal, the Rev. John F. Britt, brother of the groom officiating. The church decorations were carried out in palms, ferns and peonies in shades of pink and white.

The bride, who was given in marriage by her uncle, Mr. E. J. Cleary, of Cornwall, Ont., wore a Lucile model of altar satin, cut on princess lines, the rippled hemline just brushing the heels of her satin slippers, with puffed sleeves of satin and yoke of Alencon lace. The bridal head-dress was a Juliet cap of waxed orange blossoms; her shower bouquet being composed of gardenias and lilies-of-the-valley. The bride's only attendant, Miss Rita Vandry of Quebec City, wore a gown of cloud blue chiffon, a replica of that of the bride's, a large maline hat of cloud blue with shoes to match and carried a sheaf bouquet of pastel sweet peas. Mr. William Britt acted as best man for his brother. The ushers were Mr. Alec Britt, Mr. Edwin Britt, brothers of the groom, Mr. Horace Morin and Mr. Alec Wims. During the ceremony solos were rendered by Mrs. L. N. Panmeton and Mr. Albert Marier.

Mrs. E. J. Cleary, aunt of the bride, wore a French model of navy blue chiffon, with hat and shoes to match, her corsage bouquet being of pink tea roses. Mrs. Thomas Britt, mother of the groom, wore a Molyneux model of figured crepe with black lace hat, her corsage bouquet consisting of orchids and lilies of the valley. Miss Gertrude Britt, sister of the groom, wore a gown of chiffon in shades of orchid with hat and

slippers to match. Miss Winnifred Britt, also a sister of the groom, wore a Chanel model of maize chiffon, with hat and slippers to match. The wedding reception was held at the residence of the groom's parents, 186 Bloomfield Avenue, Outremont, for relatives and immediate friends, when the decorations were carried out with pink and white roses, palms and ferns. Mr. and Mrs. Britt left by train for New York, Washington and West Virginia, the bride travelling in an ensemble of navy blue figured crepe, with blouse of powder blue, French ribbon beret and bag to match, wearing a silver fox, the gift of the groom. On their return, they will reside on Maplewood Avenue.

The wedding of Miss Madeleine Germain, daughter of Mr. and Mrs. Alban Germain, Outremont, to Mr. Robert Gueugnier, of Paris, France, took place Saturday morning at ten o'clock, in the Church of St. Viateur. The bride, who was given away by her father, wore a white satin dress made in long lines; the court train falling from the waistline. Her veil of tulle was held in place by a cap of Dutch lace and orange blossoms; her bouquet being of Calla lilies.

The bridesmaids were: Miss Margot Germain as maid of honor, sister of the bride, Miss Janine Gueugnier of Paris, sister of the groom; Miss Dyonise Rochereau de la Sabliere of Toronto and Miss Agathe Dore of Montreal. They were all dressed alike in pink georgette with satin hats to match and pale pink satin shoes. They carried arm bouquets of sweet peas and baby's breath. The groom was accompanied by the French Council General, Mr. Edouard Carteron. The bride's mother wore a dress of black and white chiffon with a black georgette hat of Italian straw trimmed in white and a corsage bouquet of violets and lilies of the valley. The ushers were: Mr. Jean Nolin, Mr. Yves Guerin, Count Bernard de Roussy de Saes and Mr. Henry de la Myre Marie. After the ceremony a reception was held at the residence of the bride's parents. The reception rooms were decorated in white lilacs and ferns.

The marriage of Simone, daughter of Mr. and Mrs. J. B. O. Archambault, to Mr. Oscar Charles Gregoire, son of Mrs. A. Daudelin Gregoire, of Outremont, has been arranged to take place on Thursday, June 26th, at St. Louis de France Church.

The Rhyming Optimist

By Alice Michaelis

Better and better year by year, so does this old Earth spin, more of vision and more of cheer, closer men grow akin. Ages on ages they strove and fought, each for himself alone; ages on ages they dimly sought light they had never known. Slowly and sternly their war was waged, slowly they grasped and gained; fiercely the envious elements raged, never men's courage waned. Brighter and brighter year by year, rarer the heights they won, bringing their roseate hopes more near, striving and never done. Many the miracles

The bride and groom left later for Quebec, where they will sail by the Empress of Australia for France. They will remain abroad until September when they will return to Montreal. For travelling the former wore a black crepe ensemble with trimming of white and a black hat.

The marriage of Simone, daughter of Mr. and Mrs. J. B. O. Archambault, to Mr. Oscar Charles Gregoire, son of Mrs. A. Daudelin Gregoire, of Outremont, has been arranged to take place on Thursday, June 26th, at St. Louis de France Church.

NIGHT BASEBALL PROVES SUCCESS AT DES MOINES

Nocturnal Game Has All the Thrills; Superior in Many Respects to Day Play

MONTREAL TO TRY

Local Officials Contend That Baseball Would Attract More Than Hockey

Night baseball has been tried with considerable success at Des Moines—in fact, so successful has it been that already there is talk of playing nocturnal big league baseball, at some uncertain future date.

In St. Louis and Cincinnati, especially, where crowds this year have been so slim as to cause real alarm, the night baseball idea has been given especially impetus. Whether the plan will ever be brought to fruition, is something else again. And now Montreal is considering it. Undoubtedly hockey at night attracts crowds and it is contended that baseball can do the same.

It cannot be denied that baseball can be played at night under physical conditions which are superior in many respects, to day baseball.

Des Moines Experiment

It was demonstrated at Des Moines that the outfielders, under a steady and far reaching light, could follow the trajectory of a baseball better than under ordinary daylight conditions. There is no sun—dodging around the clouds to bother the eyesight, which recalls how Old Sol make Hack Wilson look like a bush leaguer in the 1929 series.

The possibilities of night baseball are almost unlimited. It is not difficult to imagine ball teams playing matinee and night engagements on the same day, instead of double-headers. But the main factor in favor of night ball is that many more fans on week days can get off to a game at night than in the daytime.

Since the idea of luring more people through the turnstiles is always foremost in the minds of the magnates, night baseball may become so popular that we may see games starting at midnight. If you think this is far fetched, just try and edge your way into midnight motion picture shows that all the theatres along Broadway are giving.

Another Viewpoint

Looking at the question from another angle, it will not be denied that baseball won its popularity before sunset—that a great many people go to a ball game primarily to get out in the sun and fresh air. It is a question whether many people who go to ball games during the day would go at night.

However, there is just as much thrill in seeing a home run or a stolen base at night as there is in the daytime. And since it has been proven that artificial light is no bar to good playing, there is much likelihood that night baseball will sometime become popular.

SWITZERLAND URGED TO SAVE GOLDEN EAGLE

Government Officials, Hunters and Farmers State Birds Cause Widespread Damage

Geneva—The Swiss government is being pressed to take steps to protect golden eagles in Switzerland. The government and cantonal authorities, hunters, game keepers, and farmers state that eagles are numerous, cause widespread damage and

THRU' THE SPORT SIEVE

By BOBBY FORSTER

Our "Babe" Ruth Of Cricket

A former member of the Monitor staff broke into bold black print last weekend, when "Scotty" Ferguson more than distinguished himself on the cricket pitch. Our Mr. Ferguson went to bat for the Westward "B" cricket team early on Saturday afternoon, and if the laws of cricket permitted, Fergie might still be going strong. Anyway Fergie started out to emulate that famous batsman Jack Hobbs, and made a thorough job of it against Verdun bowlers, smacking the ball left, right and centre to carry the affair far into the night. Verdun went to bat first and when tea was served they had only collected forty runs, all out.

There must have been a real kick in that refreshment for when Fergie came to bat there was no stopping him. He ran his total up to 101, with no sign of weakening, when the gentleman in the white coat decided that enough was enough and called a halt. Mr. Ferguson's big score was the second century made in local cricket this year.

"Jolly" Rodgers Holding Classes

While on the subject of this old English game, to our way of thinking cricket is gradually forging ahead in this city, making progress in very conservative style.

One has to know cricket to appreciate it, and the average Canadian has not the patience to sit around all forenoon, and watch a dozen or so white clad figures go through the motions with slow deliberation. It has its fine points, undoubtedly, or it would not go over so big in the Old Country, but one has just about to take the whole day off to go through a real game, and that sort of thing is just not done in these parts.

To our vague knowledge of the game, Canadian cricket has been noticeably lacking in "ppe", and badly in need of young blood to bring it along. That new life seems on the way now, and should show results.

Out at the Westward A.A.A. there are strange sights these nights. Hard-bitten addicts of baseball and lacrosse are taken rather aghast at the sight of a bunch of youngsters wielding cricket bats, and hurling balls around in the approved manner of a bowler.

The kids like it too, and do not hang around in twos and threes, but in dozens, listening attentively to "Jolly" Rodgers and other veterans giving instructions on the fine points of the game.

Baseball seems pushed into the background for the time being at least with these youngsters, and cricket is getting a domestic source of supply for years to come.

Simplicity Results In Popularity

Softball appears to be going over bigger than ever in Montreal this year, and in all sections of the city teams are to be found in action on almost any sizeable vacant land. This game is drawing a lot of players from baseball, perhaps not because it is a better game, but on account of its simplicity.

Collect a bat and ball and you are set to play this game, provided you can find a suitable bit of real estate. No big outfields are needed, no scraped infields nor half a dozen balls, a dozen gloves, masks, and mits, protectors and whatnots. Such things are essentials of hardball, but not this offspring game.

All you need is a pair of hands, and an eye or two to keep the ball in proper focus. Hence the popularity of the softball.

The quality of the game is improving too, as will be witnessed in any of the local major leagues. They play nearly air-tight ball in the Railway-Telephone League, and it is no playground for the novice. Pare Lafontaine, Verdun and Westward too, can boast of pretty fair ball, if there are occasional lapses from form, and cricket scores now and then compiled.

Serve Your Sport On Ice

Winter sports in the summertime might be quite the rage before many years are out, if the proposed hockey match at Atlantic City between the Montreal A.A.A. Allan Cup team and Penn Athletic Club produce the desired effect.

What could be nicer on a blazing hot night in Atlantic City, where it certainly can steam up, than a soothing contest amid cool surroundings—that is at least from a spectator's point of view. It would not be all bliss for the hockey players however, if they got all toggged up in their usual uniforms, with woolen stockings, pads and all the trimmings that are so essential for their well being these days. They would probably die a natural death if they tried to keep up the pace they set in the wintertime.

Die-hard curlers too might take a tip from the skaters, and have the ice planted in their artificial ice rinks, all set for the nights when rainy weather drives them from the golf course or the bowling greens.

Summer skating is not new by any means, and has been tried in Toronto and New York. Los Angeles skaters can strut their stuff in the summertime on the artificial ice rinks, but with so many counter attractions in summer sports it is hardly worth while.

are unlikely to become extinct, but naturalists disagree. The Schnaffhausen ornithologist, Herr Carl Stemmler, says that golden eagles are nesting no more, and that they are rapidly disappearing.

Last summer Herr Stemmler surveyed several districts known to harbor golden eagles, and he reported certain districts with not a nest occupied. Half a century ago there were thousands of golden eagles today there are but a few hundreds. Their worst enemies are the owners of grazing cattle. Small animals—goats, sheep, calves, as well as cats, dogs and poultry—are sometimes carried away by eagles, but the birds usually prey on wild animals, rats,

mice, foxes, martens and marmots, and the losses suffered by farmers are comparatively small. The government is being urged to pay compensation to peasants and shepherds for the animals carried off, in the hope of stopping the shooting of the birds.

"Many budding poets are to be found in our prisons," declares a chaplain. Most of them, however, are still at large.

A speaker at the annual convention of the Canadian Health Association stated that a woman was actually worth in dollars and cents to this country only half as much as a man. Bold fellow.

BASEBALL BUSINESS GOOD BUT PLAYING NOT SO HOT

Not all of the baseball magnates are pleased at the way their clubs have been going in the pennant races, but there have been no complaints against the way the turnstiles have been clicking.

The baseball business, in spite of a week of bad weather early in the season, has been good—excellent, in fact. All of which helps to soothe many magnates, Jake Ruppert of the New York Yankees, in particular. For the Yanks are suffering with and from pitchers who can't pitch and hitters who can't hit.

If there is any business depression, it has not yet hit the baseball yards and the reason is not yet too hard to find.

Speaking generally, a man with a few responsibilities and no job would rather go to the ball game in the afternoon and spend a borrowed dollar than stay off from a steady job and loose a day's pay.

As a matter of fact, if business continues on the up-grade and unemployment decreases, the baseball business may lapse into the doldrums, especially if the races get top-heavy.

The baseball business is as near depression-proof as any business can be. In times of great prosperity, many of the clients buy themselves automobiles and go scooting around the weekend instead of watching the boys and men trading pitches and base hits for hire.

However, from the looks of things there is going to be an unemployment problem among the boys who hit and throw for food and drink.

Quite a few stars of yesterday will soon go back to truck-driving unless they careen the onion with greater efficiency. Larry Benton of the Giants, a star in 1928, a flop in 1929 and ditto in 1930, so far may go to the sticks if he can't pitch anything else but a home run ball for the other fellows.

Almost every club, in fact, has a

NEW CONFECTIONER ON PARK AVE

C. Bainville Opens Store With High Class Goods

It is said that the way to a man's heart is through the stomach. In the same sense, then, if the way to the heart of the greater public is through the stomach, assuredly, C. Bainville, who following many years association in the local retail trade, has opened a new confectionery shop at 5676 Park avenue, stands a good chance of finding his way direct to the great, big heart of the public.

And yet, there is more to this than just the above bold assumption. The confectioner of long apprenticeship to

his profession must needs study the special tastes and desires of the public which he aims to serve. This is precisely the point in the case of Mr. Bainville's new venture. He has studied the requirements of the public; and in consequence of his long association with the confectionery retail trade at his former location on Papineau avenue, he has developed a fine sensibility as to what are those peculiar needs. Mr. Bainville offers to all comers the best in choice confections and hearty cooperation at all times.

The big thing about Lindbergh is that he makes no ballyhoo over where he is going, but goes there.

A Chicago hoodlum wouldn't agree with the others in his clan, who wanted to cut out the rough stuff, and they shot him. Delegates to the next naval parley might make a note of that.

Strive always for higher quality and lower prices as well as lower costs.—Henry Ford.

DEDICATION OF FAIR-ST. GILES LAST SUNDAY

Church Crowded to Capacity for Opening Service

COMMUNION

Will Be Given for First Time on June 22nd

Last Sunday was a golden day in the calendars of the former Fairmount Methodist, and St. Giles Presbyterian Churches; it was the nineteenth hundredth anniversary of the founding of the Christian Church at Pentecost, and also the fifth anniversary of the establishment of the United Church of Canada, where all the Methodist Churches, and a large percentage of the Presbyterian Churches, in obedience to what they believed was the prayer and command of the "Great Head of the Church," joined together to illustrate the unity of the Spirit in the Bonds of Peace. On this auspicious day, the new congregation of Fairmount-St. Giles of "The United Church of Canada" reverently and joyfully set apart their splendid and commodious new building to the glory of God, and the service of humanity.

At 11 A.M. the Rev. Dr. Trevor Davies of Toronto, led the dedication service and prayer, and in a great address set forth the meaning of Pentecost as a larger consciousness of the presence of God, in the redemptive work of Jesus Christ shown forth by the Holy Spirit of God. The associate ministers, Rev. Dr. J. R. Dobson and Rev. J. P. McFarlane took charge of the services. Professor Gifford, on behalf of the Presbytery of Montreal brought greetings and good wishes. Mr. McLean Marshall and his choir led the services of praise most effectively; the choir was augmented by special soloists; the rendering of the "Te Deum" was most impressive, as was a special solo by Mrs. W. H. Harrison.

In the afternoon, at 3, a united meeting of the Sunday School was held in the church auditorium, when a special address was delivered by Mr. W. J. Holliday. At the evening service the building was again crowded, when Dr. Davies spoke on "The Fellowship of the Spirit"; two anthems were rendered by the choir and Mr. J. W. Stephenson, Montreal's famous baritone sang "Consider and Hear Me."

Next Sunday will continue the special dedication services; the Rev. Principal Alfred Gandier, D.D., LL.D., of Emmanuel College, Toronto, formerly of Knox College, will be the special preacher; he will take as his theme "Pentecost"; at 11 A.M. his subject will be "The Meaning of Pentecost for the Members of Christ's Church" and in the evening the subject of discourse will be "The Heart of the Gospel." The choir will again be helped by special soloists, and simple gospel hymns will be used; the program of the service with the words of the hymns will be printed and distributed as on last Sunday. Rev. Dr. Gandier is well known in Canada as a great missionary leader, and powerful evangelical preacher.

Sunday, June 22nd, will also be part of the "Dedication Services" when "The Holy Sacrament" of the Lord's Supper will be celebrated morning and evening. Former members of Fairmount and St. Giles congregations, as well as strangers in the district, are invited to these communion services.

Wife Floored Him With Broom Divorce Seeker Says

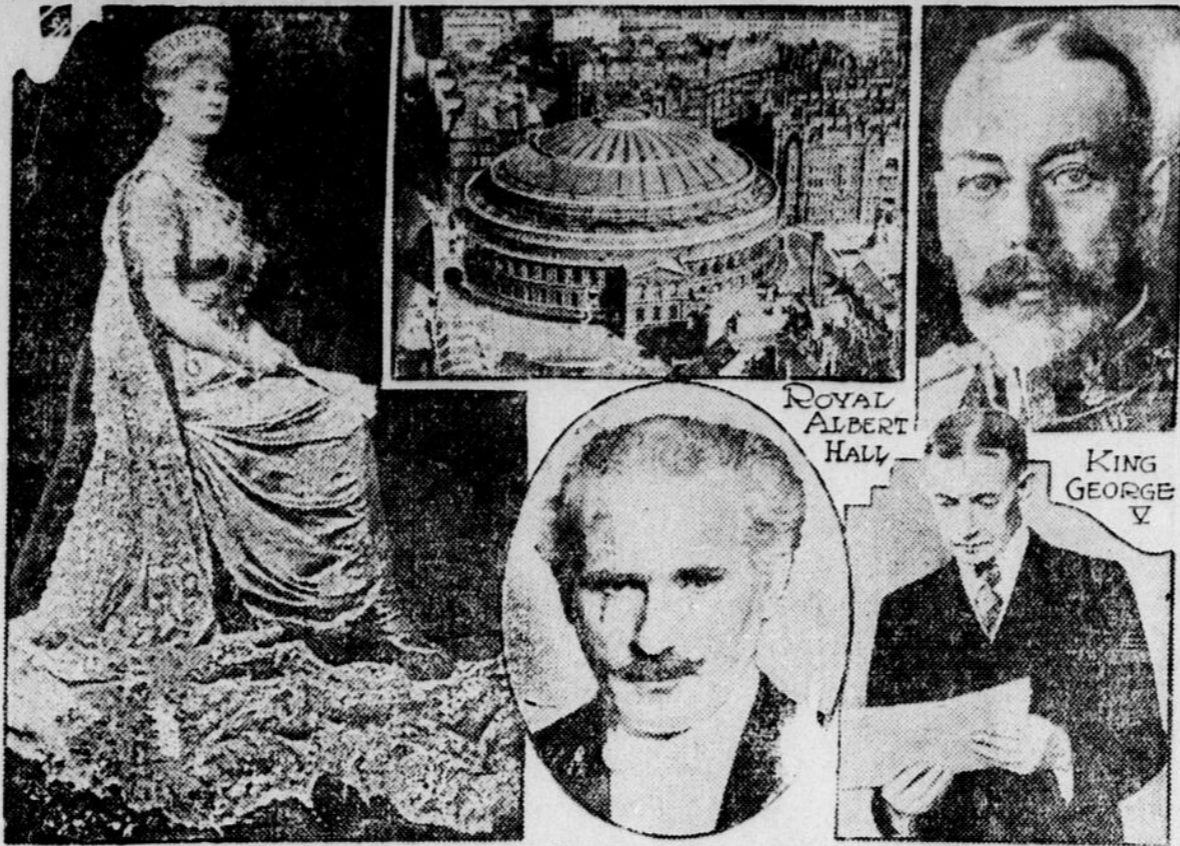

Pittsburgh — His wife practically swept him out of their home two months after their wedding, Gustave J. Miller, 34, Morningside avenue, related in his suit for divorce before Judge Ambrose B. Reid. He said she hit him on the head with a broom, knocked him down, told him to get out, and threw out his clothes. Miller averred his spouse, Victoria V. Miller, now of 117 West Ohio street, insisted upon having her Airedale dog sleep in her bed. He said he was afraid to eat food prepared at home until his wife and her mother had eaten of it.

Horseshoes Find Favor

Chicago, (AP) — Employees of a department store here have become much interested in horseshoe pitching. The roof of one large store has been converted into courts for use of woman employes. A large number of girls remain to practice pitches after work.

The ultimate minimum of praise is contained in the appraisal made by a dealer when you're trying to trade in your old car.

LONDON PAYS TRIBUTE TO FAMOUS SYMPHONY CONDUCTOR

QUEEN MARY

ARTURO TOSCANINI

GENERAL DAVES

Arturo Toscanini, famous Italian conductor, who came to this continent some years ago after some trouble with Mussolini, has just completed a successful tour of Europe with the Philharmonic Orchestra. Following a concert in Milan, where the Italian people acclaimed him, Toscanini took his orchestra to London, to play in the famous Royal Albert Hall, where he scored a great triumph before 10,000 enthusiasts, including King George and Queen Mary. General Daves, United States Ambassador, to Great Britain, presented Toscanini with a piece of parchment of musical worth after the performance in London.

CHAS. S. PATERSON GAVE INTERESTING TALK AT MEETING

Y.M.C.A. Secretary in India, Spoke to Local Board

The regular monthly meeting of the Board of Management of the North Branch of the Y.M.C.A. was held in the Park Avenue Building on Tuesday evening at the supper hour. The chairman of the Branch, W. J. Moore presided. Others in attendance were A. B. Astle, R. E. Cadwallader, R. W. Darnan, Dr. Eggleston, Wm. Gilmour, Edward Holden, A. D. J. Loader, Geo. J. Rorke, Chas. W. Scott, E. C. Townsend, W. Herb Turner, R. J. Smith and J. M. Graham.

Mr. Chas S. Paterson, senior secretary of the Y.M.C.A. in India, who is home on furlough for a few months gave a most enlightening address upon the present situation in India and showed how the Y.M.C.A. is helping to bridge the gaps between various sections of the community, thoughtful men, from the Vice Roy to radical leaders have paid tribute to the wise useful work which the Association is doing for the young men of their country.

Mr. Paterson, who is an old Montreal boy and a graduate of McGill, has been in India for about 26 years, so is able to speak out of a wide, varied experience. In his student days here he was leader of a Boys Club in the North End and of which grew the North Branch of the Y.M.C.A. Mr. Paterson brought a group of these photographs of this club, taken about 1902-03, which he presented to the Branch.

Lights for Courts

The executive committee reported that a contract had been entered into for lighting four of the eight tennis courts on Beaumont Ave. and that work on this system would be started forthwith. Earl Cadwallader, chairman of the Boys' Division Committee, submitted an interesting report, which showed that the Boys' Membership was growing, and that numerous activities were being carried on, and that already there was

NEW LINGERIE SHOPPE OPENED

The Misses Kositsky Has Splendid Store for Milady

In opening a new store, there is one vital principle to be considered — a principle upon which the success and permanence of the venture must necessarily depend. That principle is 'service' from first to last.

In conceiving, and putting into effect their new store, the Princess Lingerie Shoppe, 1059 Bernard avenue west, the Misses Kositsky have kept the question of 'service' in their mind's eye expressly. In consequence, the new Princess Lingerie Shoppe, presents everything of vital importance relative to the needs of the person. There are silk stockings of every variety, lingerie, fancy drygoods and children's wear. In conjunction with the wide range of goods in stock and on display, there is a spirit of ready spontaneity that is in evidence immediately a customer steps within. That cheerful sense of satisfaction that comes to a shopper upon the realization that he or she is in the midst of friends anxious to please and satisfy, before everything else.

Bite And Sip Menu Proves Too Exhilarating

Tulare, Cal.—Buch Singh of this city had a novel idea regarding refreshments which landed him in police court on an intoxication charge. Singh was strolling in the downtown district with a lump of brown sugar in one hand and a glass of rubbing alcohol in the other. He took a bite of the sugar then a sip of alcohol. He was fined \$25.

a large registration of North Branch boys for Kamp Kanawana. A comprehensive report was read by J. M. Graham, the Executive Secretary. In this he referred to his attendance at the Triennial Conference of the Employed Officers of North America, which was held at Detroit May 27th to 31st. Nearly 1,300 Y.M.C.A. Secretaries were present from all parts of Canada and the United States. The general theme of the Conference was "The Young Men's Christian Association in a Changing World." Outstanding speakers gave challenging addresses on such special themes as "Religion in a Day of Change", "Significant trends in Education", "The Problem of Leisure in Modern Life", etc., which were followed by frank, thoughtful discussions.

The members of the Board heard with regret of the illness of Howard Wilson, son of Mr. W. A. Wilson, Honorary Chairman of North America, and requested the Recording Secretary to convey their sympathy.

It was announced that the Annual Meeting of the Y.M.C.A. of Montreal—including all the branches—will be held on Monday evening, June 23rd.

PLEASANT RECITAL BY MISS BEILER

A very interesting event took place in the School Hall of MacVicar Memorial Church last Tuesday night when the pupils of Miss Alberta Beiler of Bloomfield Ave. gave a very pleasing programme of music.

Everyone did his or her part well and reflected great credit upon their teacher. The following took part:—William Abraham, Winnie Dudgeen, Violet Oliphant, Evelyn Corran, Ruth Ward, Sybil Oliphant, Wilma Lane, Margaret Drysdale, Jean Smart and Hettie Rosenberg, the latter two being senior pupils proved themselves to be exceptionally brilliant. The Piano duets of Margaret Drysdale and Wilma Lane were much appreciated. A contribution by Miss Beiler and Miss Winnifred Drysdale added much to the delight of the evening.

Miss Beiler was ably assisted in the programme in excellent vocal solos by Mrs. W. Smart, soprano, while the elocutionary numbers by Miss Viola Esden and Miss Violet Oliphant pupils of Miss Melrose proved a great treat to the audience.
