THE LORETTE PICNIC.

The Demonstration in Honor of the Minister of Militia.

QUEBEC, September 29.—The political picnic in honor of the Hon. A. P. Caron, Minister of Militia, came off to-day at La Jeune Lorette. From an early hour special trains left the city to take out persons who might wish to be present, and it is said that no less than 4,000 persons reached the grounds by this means. Carriages and vehicles of all kinds conveyed the people of the county to the spot, so that at midday the crowd had been considerably augmented. On arrival of the special train, which left the Palais station at half-past ten, with Mr. Caron and the principal guests, an immense crowd received the distinguished party with great enthusiasm. Among the public men present to join in this demonstration to the Minister of Militia were Sir Leonard Tilley, Hon. Mr. Bowell, Hon. J. A. Chapleau and the members of the Provincial Government; Messrs. Coursol, M. P. Ryan, T. White, Boultbee, Landry, Valin, Tasse, Bolduc, Tarte, McGreevy, Brooks, Gauthier, Baker, Vallee, Houde and others. The Warden of the county, Mr. Kirouac, took the chair, and read an address to the Minister of Militia in French. Col. Forsyth read it in English, and also read an address to Sir Leonard Tilley, welcoming him to the county and congratulating him upon the success of his fiscal and financial policy. Speeches were then delivered by Messrs. Caron, Chapleau, Coursol and Vallee in French, and by Sir Leonard Tilley and Mr. Bowell in English. The speeches were all good, dealing exhaustively with the leading questions of the day, and being loudly applauded.

DOMINION EXHIBITION.

A Successful Day—Some Montreal Prize Winners.

HALIFAX, September 29.—There was a tremendous crush at the exhibition this afternoon and evening, the number of people attending being about 15,000. The prize of $50, offered by Hon. J. H. Pope, Minister of Agriculture, for the best horse, was to-day awarded to "Orphan Boy," owned by Dr. McMonagle, of Sussex, N. B. The following Montreal exhibitors take prizes:—For Shetland ponies Joseph Hickson gets first prize for best stallion and first and second for mare; foal is commended. In cotton the following are successful:—Hochelaga cotton mills, first for assortment of cotton or linen bags; Montreal Cotton Co., first for unbleached and bleached cotton; V. Hudon Co., first for cotton sheeting and fleecy cotton; Walter Wilson & Co., honorable mention for spool cotton; E. Buck & Sons, honorable mention for assorted hosiery. J. A. I. Craig, second for dining room furniture and commended for drawing room furniture; John Tye & Co., first for spring mattress; C. W. Williams Mfg. Co., diploma for best sewing machine for manufacturing use; diploma for best sewing machine for family use; diploma for best sewing machine for button holes, and honorable mention for hand or foot machine.

This afternoon the Scottish games took place on the exhibition grounds, at which prizes amounting to $300 were given, and passed off very successfully. A trotting race came off at the Polo grounds in which W. C. Brennan's "Wormwood" won first money. This evening there was a display of fireworks in the harbor, and the men-of-war and shipping in port were illuminated, the whole making a magnificent spectacle.

SHOCKING RAILWAY COLLISION.

An Excursion Train Smashes into a Freight Train—Five Persons Killed and Many Injured—Both Trains Badly Wrecked.

ST. THOMAS, Ont., September 29.—About 10 o'clock this morning a collision occurred on the Air Line Railway, about two miles west of Aylmer, between an east-bound freight train and an excursion train coming West. Both locomotives were badly broken up, and five passenger cars and one freight car smashed to atoms. The second passenger car was completely telescoped into the third. The scene at the wreck is one of great confusion. The cause of the accident is said to be the fault of the conductor and driver of the excursion train, who had orders to hold the train at Aylmer, but failed to do so.

THE DEAD AND WOUNDED.

The following are the names of the dead and wounded as far as can be learned:—Wm. Cook, Aylmer, killed; young man named Hines, from Jarvis, killed; man from Delhi, name unknown, killed; Walmsley and son, engineer and fireman of the excursion train, both buried under the *debris* of the engine. A large number were injured, but it is impossible to get all the names at present. Mr. Cheeseborough, the driver of the freight train, is lying dangerously wounded at the house of a farmer; his case is critical. Frank Morrison, Aylmer, jaw broken in two places and injured internally. Stanley, from Copenhagen; fatally injured. Mr. Dennis and wife, Bay City, Mich., badly hurt, stopping at T. Michael's, Aylmer; Elias Adams and wife, Malahide, slightly injured; R. P. Black, Vienna, slightly; a young lady from Bay City, Mich., stopping at Heaffman's, Aylmer, slightly; Charles Brown and daughter, 4th concession, Malahide, slightly. About 2 o'clock a conveyance was secured, and the dead removed to Aylmer.

CAUSE OF THE DISASTER.

The cause of the collision is at present involved in doubt; the driver of the freight train had orders to pass to Aylmer, and the driver of the excursion train had orders not to leave Aylmer until the freight train passed. Why the latter disobeyed this order cannot be learned. Six passenger cars, the two engines and a number of freight cars were piled on top of each other. The scene of destruction and death passes all powers of description. Men are at work endeavoring to get the bodies of Walmsley and his son from the wreck. The Coroner, Dr. McLay, had the bodies removed to Aylmer, where an inquest will be held.

THE SCENE OF THE COLLISION.

The collision occurred at a bridge on the farm of Mrs. Mary Davis. The passenger train was travelling at a rapid rate, but Cheeseborough, driver of the freight train, saw the danger and slackened up somewhat, but too late to prevent the crash. J. C. Stevens, a farmer living close by the scene, saw the whole affair, and wondered what the driver of the passenger train meant, as he seemed to be coming at full speed, making no effort to stop, and must have had two miles straight view. He says the freight train was at nearly a dead stop, and kept up a furious whistling for some time. Mr. Stevens rendered every assistance to the wounded. W. Blackall, the fireman of the freight train, saw the passenger train when about a mile away. Walmsley never whistled for brakes. Blackall looked for Walmsley as the trains were approaching, but could not see him. Cheeseborough jumped when he got over the bridge, and fell into the mud, the cab and stoke-stack rolling over on top of him, seriously injuring him.

WHO IS TO BLAME?

The special train was ordered to meet No. 32 freight train at Aylmer, and when they arrived, Conductor Maxwell went into the telegraph office to get orders concerning the freight train. The operator being busy selling tickets came up to Walmsley and told him all right, and on he went. It is reported that Maxwell takes the whole blame on himself, but why Walmsley did not stop the train or call for brakes when he saw the other train in sight will never be known. One car has not yet been reached by the rescuing party, and fears are entertained that some bodies are still to be found. The bulk of the passengers were fortunately in the rear end of the train, otherwise the effects of the collision must have been much more serious.

AN UNLUCKY CHANGE.

Arthur Tremellyn was Walmsley's regular fireman, but young Walmsley being anxious to attend a wedding in London, changed at Cayuga with Tremellyn, and thus met his untimely end. His body was recovered about 4 o'clock, but that of his father was still beneath the mass of *debris*. One passenger who was in the rear part of the train describes the shock of the collision as not being nearly so violent as would have been supposed, the telescoping of the cars in front moderating the extent of the shock to the rear cars. J. A. Dawson, assistant superintendent G.W.R., was early on the scene superintending the removal of the wreck. A large force of men are at work on the wreck, and a good many officers of the road are present.

ANOTHER ACCOUNT.

AYLMER, Ont., September 29.—The 9:55 excursion train from here to the exhibition at London collided with a freight train at Orwell two and a half miles from here, this morning. So much excitement and so many conflicting rumors are abroad it is impossible to get full particulars. The following, however, appear to be the facts:—The excursion train had orders to meet the freight train here, but being ten minutes ahead of time, the conductor went on, intending to meet the freight train at Orwell. The collision occurred on a straight piece of road, where the view was uninterrupted for two or three miles. The driver of the freight appears to have seen the other train, and was nearly stopped, but the driver of the excursion train did not see the freight, and kept on at full speed. The passenger train consisted of nine coaches, five of which were completely wrecked. Five persons are known to be killed, and several more missing, who are thought to be buried in the wreck. About twenty were wounded, some of them seriously. The dead are Willie Cook, of Aylmer; Walmsley and his son, driver and fireman of the excursion train, of St. Thomas, and two young men, names as yet unknown, from Jarvis. Walmsley and his son are still under the wreck of the engines. The dead will be brought here this evening, and an inquest be held. The driver of the freight train jumped from the engine and alighted all right, but was severely wounded by the flying *debris*. Frank Morrison and Enrich Stanley, of this place, were severely wounded. Detective Clayton, W. Warneck, J. Glover, George Morrison and W. Carron, of this place, were slightly injured.

THE IRISH TROUBLES.

Accepting the Land Bill—A Dynamite Plot—More Outrages—Father Sheehy.

DUBLIN, Sept. 29.—Forty landed proprietors and land agents in County Carlow passed resolutions declaring their intention to give effect to the Land Bill in a spirit friendly to the tenants, and asking their co-operation in re-establishing confidence and good feeling.

The Irish Bishops, in resolutions adopted at Maynooth College, exhort their flocks to avail themselves of the advantages of the Land Act, and urge the tenant farmers to use the means provided in the Act and every other means in their power to improve the condition of laborers. The Bishops claim State aid for training Catholic teachers for convent schools.

LONDON, September 29.—An attempt has been made to blow up the residence of Capt. Thos. Lloyd, at Pallas Green, County Limerick. The residence was occupied by Lloyd, seventeen emergency men and police. One side of the building was shattered, it is believed by dynamite. Nobody injured.

DUBLIN, Sept. 29.—The explosion at Pallas to-day was malicious, as the fuse was found attached to a barrel of powder.

A man named Moffat was fired at and wounded while leading an Orange emergency expedition in County Louth.

Harrigan, a farmer, returning to Ballyclogan, after assisting in saving Boycotted crops, was fired at and dangerously wounded.

Communications are reaching the Land Commissioners from all parts of the country, and are almost entirely from tenants, asking to have their rents fixed.

KILMALLOCK, Sept. 29.—Father Sheehy, speaking to-day, said he had come out from prison with the same spirit he entered it.

THE SS. "CITY OF ROME."

Trial Trip.

GLASGOW, Sept. 28.—The Inman steamer, "City of Rome," made her trial trip on the Firth of the Clyde this morning. The vessel, which is of 8,000 tons and 1,000 horse power, with a passenger and crew accommodation for 2,400 persons, carried a large and distinguished company, including the Earl of Shaftesbury, Sir James Ramsden, Mr. Birley, of the Inman Co., Mr. John Burns of the Cunard Line. Owing to the engines getting overheated, it was found impossible to do more than a portion of the intended trip, but the steamer, when taken over a measured mile, attained a speed of 15 knots with a 45 revolution. Mr. Birley expressed satistaction at the results of the trial so far as had been ascertained. The vessel afterward proceeded to Liverpool *via* Kingston. She takes her place on the New York route soon.

THE SCOTTISH LAND BILL.

LONDON, September 29.—The *Times* publishes a draft of the Scottish Land Bill, prepared by the Scottish Chamber of Agriculture, which provides for the adjustment of rents by arbitration, revaluation of farms, and for power in the tenant to sell his holding. The *Times* says it is one of the most far-reaching measures on the land question ever yet submitted to Parliament. It makes the strictest provision relative to compensation for improvements.

Sporting Notes.

The horse "Foxhall" is the favorite for the Czarewitch stakes at 7 to 1 against him.

An international small-bore rifle match has been arranged between Ottawa and Ogdensburg riflemen.

The Independent Lacrosse Club resolved on Wednesday evening to again challenge the Shamrocks to play for the championship.

The Toronto Football Club has accepted the challenge of the Britannias of Montreal for a match in Toronto on the 15th of October.

Wallace Ross in St. John, N.B., yesterday said that until he got the amended articles from Hanlan he would not know just what to do. He had made the stake $1,000 instead of $2,000 because the former was the sum for which Hanlan originally rowed for the championship.

In the yacht race at New York yesterday between the "Madge" and the "Minstrel," the latter gave up. The "Madge," which also beat the "Wave" of the Seawonhaka Club two days ago, is owned by Mr. James Coates, jr., Paisley, Scotland. She is known on the other side as a "ten-tonner," and was long almost invincible there. In 1879 (her first season) she won 22 victories out of 24 starts, and in 1880 twenty victories out of 32 starts.

The games to be held by the Amateur Athletic Association to-morrow afternoon promise to be very well contested. New York, Boston, Hamilton, Toronto and Glengarry all send their quota of athletes to contend for the amateur championship of the Dominion, and, having to match themselves against such men as Summerhayes, Patton, McTaggart, Moffat, Fletcher, Hood, McGillivray and Thompson, exciting sport most result. In the 100 and 220 yards, our men have to meet Bowell (Toronto), Sadlier (Hamilton), and Messrs. Waldron and White, of New York. In putting the stone, throwing hammer, or 56 lbs. weight, Queckberner, of the New York Scottish-American Club, Stewart, of Hamilton, Moore, of New York, and MacDonnell, of Glengarry, will contest. In nearly all the other competitions except bicycling "crack" men from the West or across the lines have entered.

Railway Enterprises.

On Thursday, the 29th inst., a meeting in favor of the Gatineau Valley Railway scheme is to be held at the Pickaneck, when stock-books will be opened in order to give a good start. Mr. Alonzo Wright, M.P.; Mr. J. M. Currier, M.P.; Mr. Murray Mitchell, and other parties interested in the matter will be present. McLaren & Co., Gilmour & Co., Hamilton Bros., G. B. Hall & Co., and other firms are in favor of the project, which should be supported by the people of the valley. A meeting of provisional directors for organization will be held at Aylmer on the 5th of October.

The rails have been laid on the Canada Atlantic Road from Coteau to the village of Alexandria some time ago, and the contractor expects to have the rails laid to the Town Hall of Kenyon, a distance of 34 miles, by the 1st of October. It is expected that regular trains will run between Kenyon and Coteau on and after the 1st of November. Ballasting trains with a large gang of men are working day and night ballasting the road in order to have this portion of the road ready on the date mentioned. That portion between Kenyon and High Falls is also making satisfactory progress, and engineers are at work locating the line between the High Falls and Ottawa, as stated some weeks ago. The lands for station grounds and work shops have already been purchased on the line of Elgin street, as required by the city By-laws.

Another New Enterprise.

Mr. J. B. Rolland, publisher of this city, intends, at the next session of the local legislature, to apply for a charter to incorporate the Rolland Paper Company. The work of erecting the mills at St. Jerome is already far advanced, and employment will be given to a large number of hands. The capital of the Company is half a million dollars.

Shipping Notes.

SS. "Wisconsin," from Liverpool, has arrived at New York.

The Allans' SS. "Nestorian" arrived out on Wednesday, with loss of 75 oxen and 432 sheep out of live-stock shipment of 193 oxen and 1,262 sheep.

Special Notice.

A CONCEDED fact is that the Boston One-price Clothing Store is certainly not to be surpassed in their efforts to make our city as attractive and profitable as possible to strangers visiting Montreal during the coming Exhibition, as they have decided to continue their cheap sale for two weeks longer.

HYDROLEINE!
("HYDRATED OIL,")
For Consumption and all Wasting Diseases
Among the many new preparations brought to the notice of the profession, none perhaps deserves more attention than Hydroleine, a preparation of Cod Liver Oil. The efficacy of Hydroleine is, it is claimed, not confined to cases of phthisis solely, but it also has a valuable tonic effect on the system generally. We have been using Hydroleine for some time, with the most satisfactory results, and value it very highly for its nutritive and waste preventing properties. We have also been using Maltopepsyn in cases of indigestion with marked success.—*Canada Medical and Surgical Journal*, Montreal, November, 1880.
This is not a patent medicine (secret remedy) the exact formula is printed on the label attached to each bottle. For sale by all Chemists.

Beique & McGowen, inasmuch as it appears by the return of Ledger Croze, one of the bailiffs of the Superior Court for Lower Canada, acting in the District of Montreal, written on the writ of summons in this cause issued, that the Defendants, Bridget Delia McClosky, Frank B. Dresser and William McClosky, have left their domicile in the Province of Quebec; that the said Defendants, Bridget Delia McClosky, Frank B. Dresser, and William McClosky, by an advertisement to be twice inserted in the French language, in the newspaper of this city called *La Tribune*, and twice in the English language in the newspaper of this city called THE STAR, be notified to appear before this Court, and there to answer the demand of the Plaintiffs within two months after the last insertion of such advertisement, and that upon the neglect of the said Defendants, Bridget Delia McClosky, Frank B. Dresser, and William McClosky, to appear and to answer to such demand within the period aforesaid, the said Plaintiffs will be permitted to proceed to trial and judgment as in a cause by default. (By the Court.)

FRIDAY, SEPTEMBER 30, 1881.

Out of 578 trees that were planted in Manchester, 203 have died owing, it is said, to the effect of smoke. But this is not to be wondered at. In the "Black Country," between Wolverhampton and Birmingham, in the chemical lands all around Widnes, in Lancashire, and in the smelting localities near Durham and Newcastle-on-Tyne, the land looks as if it had been overrun by fire. A blade of grass or a green leaf is not to be seen. Everything in nature is sickly. The people are pale, the barnyard fowls are sickly looking, the birds of the air avoid the places, and everything pales and sickens and dies before smoke and industry.

CECIL COOK, or Col. Cook, or Lieut. Cook, or whatever he was, went to Quebec some months ago as a stranger. He ran up bills, defrauded everybody he could, and played "confidence man" generally. He was arrested, tried, and has just been sentenced to six months' imprisonment. But the lesson will be of little avail. Another confidence man will come along and play a somewhat similar game in a short time. In Canada there is so much snobbish running after everything English that a stranger has only to wear round toes to his boots, a broad brim to his hat, and speak broad English, and he is put up at the clubs at once. Can't you see by his boots that he is a gentleman!

THE Fruit-Growers' Association have held their annual meeting at London, Ont. Among other things discussed was the question of protecting the orchard from pests, "including the small boy." That small boy is heard of everywhere. If there is a sour apple or an unripe gooseberry anywhere in the neighborhood, the "small boy" is sure to turn up and cause mischief. But if the Ontario fruit growers want to protect themselves from the small boy, there are just two things they must do. The first is the small boy must not be born, and the second is that those that are already alive must die out, for so long as there are green gages on the bushes and apples on the trees, the wicked small boy will steal them.

COL. SMYTHE, of H. M. 100th Regiment, is about to retire from the service. Col. Smythe is a Canadian. He commanded a company of volunteers at Brockville before he joined the 100th Regiment, and now a couple of papers think that he is the proper man to succeed Gen. Luard as Commander of the Canadian Volunteers. This is simply asking us, in another way, to buy a pig in a poke. Col. Smythe may be a good man—experienced and qualified—but we may be allowed to think that there are other men in Canada who may have had as much experience in the Imperial army and a great deal more in the Canadian Volunteers. Let our contemporaries bide their time and let us see what kind of a man Col. Smythe is first of all.

THE DeSalaberry Monument Committee is short some $200 or $300. This is something more than strange. Here is a country that has fewer military heroes than any other country in the world of equal population. With a million of French Canadians, a loyal people numbering 4,000,000, who are professedly patriotic, we see the DeSalaberry monument unpaid for! Is it because the French Canadians did not love DeSalaberry; is it because the English-Canadians are not enthusiastic about his memory; or is it because the monument is buried at Chambly, when it should be in Montreal, that this debt remains? It might be hard to decide these questions, but it looks odd that Canada, with its few military heroes, cannot pay the debt of a monument to one of the most remarkable men she has, in a way, produced.

The Male Creature Struts.

"When times are good people get married. Tested by this axiom the N. P. ought to be dear to every young woman in Canada." So says the Toronto *Mail*, but it occurs to us that if anything could turn "young women" against the N. P. it would be just such an insulting way as this of stating its benefits. The advantage of matrimony, according to the Toronto organ, is mainly on the side of the "young women," who ought to be very thankful to the young men for marrying them, and very thankful to the N. P. for enabling them to do so. This view of the position of women carries us back to barbarous times when there was no pretence of equality between the races, but when the more potent animal had all the rights on his side, and the weaker only burdens and obligations, when man was truly the master of woman, and when woman could aspire to nothing higher than being the plaything of man. We have never been pronouncedly in favor of "woman's rights"; but when it comes to calling upon women to return thanks for an N. P. which enables them to get husbands, we feel that masculine arrogance is passing all bounds, and that any movement towards restraining it within the limits of decency has strong claims to support.

NOTE AND COMMENT.

Cardinal Manning's estimate of the moral condition of Canada is one that will be gratifying to the people of this highly favoured land. He spoke of Canada as "a colony the pure spiritual life of which was known throughout the world." Taking everything into consideration, there is no doubt that this witness is true, though our ideal is so high that we are painfully conscious of much that is wrong that we should like to see made right. To one like Cardinal Manning, knowing the moral and spiritual state of Europe and the degraded condition of New York, our spiritual atmosphere must seem as clear as our skies.—*Toronto Mail.*

Lt.-Governor Robinson will have to be classed among the advocates of Canadian independence. At the opening of the Chatham fair, he said:—"Permit me to say that this Dominion, of which your town and county form so prominent a part, will before long be called upon to fill no inconsiderable place in the world. Nobly are our people evincing their capacity to respond to this call. We have within ourselves every essential to a nation's greatness. Let us be true to ourselves, and the accomplishment will not be far off."—*Ottawa Free Press.*

CITY ITEMS.

—In the Police Court yesterday Louis Philippe *alias* Quarakete was fined fifty dollars and costs or three months, for selling liquor on the Caughnawaga Indian Reserve.

—At the Police Court yesterday afternoon the argument in the Tabb-Dorion case for the Defence was concluded before His Honor Mr. Desnoyers, who announced that he would give his decision on the 5th of October.

—As the forms were being lowered to the pressroom in the office of *Le Monde* newspaper yesterday the rope broke and the type was strewn all over the floor below. The accident prevented the issue of the noon edition of the paper.

—The annual thanksgiving services at St. Martin's church were held last evening. The church was beautifully decorated for the occasion, and the services were very imposing and impressive. The Rev. Dr. Sullivan preached the thanksgiving sermon.

—At the afternoon session of the Queen's Bench Joseph Downs was arraigned on the charge of assaulting a police constable and found not guilty. John A. McEnroe was placed in the dock charged with stealing two pictures, the property of Joseph Leclaire, and was found not guilty.

River Notes.

Numbers of river craft are already going into Winter quarters at Boucherville.

Capt. Prowse, of the SS. "Texas," which arrived in port yesterday, states that he had to anchor in the Gulf twice on account of the dense fog.

The daily line of steamers of the Ottawa River Navigation Company cease running to-day for the season on account of the shallowness of the water.

Captains of ships arriving in port lately report numbers of large icebergs in the Gulf. Strange visitors for this season of the year, and owing to the fogs very dangerous to navigation.

The Norwegian barque "Racer," which is well known in our harbor, was passed in mid-ocean by the barque "President Overdrop," which arrived in Quebec yesterday from Fleetwood, a complete wreck and deserted.

Capt. Sharpe, of the Great Western Line steamer "Riversdale," which arrived in port last evening, states that on September 19 his vessel experienced a hurricane with a terrific sea. Two heavy seas struck the ship in quick succession flooding the decks fore and aft, staving in the engine room, skylights, port lifeboats and washing away the bridge, binnacle, and engine telegraph. It also broke the steering gear and did other damages. So heavy was the sea that the steel rails with which the vessel was freighted shifted in the hold and there was considerable danger of their penetrating the ship's hull.

Personal.

Hon. Mr. Church and family are at the Hall.

Mr. Chas. Panneton, Professor of music, has taken up his residence in the city.

Mr. Mapleson left Liverpool yesterday for New York by the steamer "City of Berlin."

Vennor says we are going to have cold, wet and unsettled weather for the next few days. *Nous verrons!*

Stanley McNider, an old Montrealer, has a large contract for building telegraph lines in South America.

Sir Hector Langevin visited Brantford yesterday, and will hold a reception at St. Thomas, Ont., to-day.

Vennor is to be out-Vennored; a Mr. Higgins, of Ottawa, intends entering the field as prophet, weather or no.

Rev. John Walters, acting Rector of Trinity church, it is expected will shortly be appointed full Rector to the Parish of Trinity.

London *World* says: Tobacco combined with a cigarette-paper, and a pretty woman, has become not vicious, but improper. What is impropriety?

Labouchere, in last week's *Truth*, had to eat his words in a most undignified manner regarding the debt of Ontario. That Province has a surplus, and has no debt.

A Toronto despatch says it is understood that Mr. Costigan will soon enter the Cabinet as successor to Hon. J. C. Pope, whose health incapacitates him from the public service.

Hon. Sackville West, who succeeds Sir Edward Thornton at Washington as British Ambassador, has been courteously offered a passage by the American line from Liverpool to New York.

The name of Hon. C. B. DeBoucherville, Senator and Legislative Councillor, is mentioned as a probable successor of the late Dr. Hubert Larue upon the Council of Public Instruction of Quebec Province.

A pretty Parisian circus rider is shortly to swell the ranks of the upper ten thousand. Mlle. Emilie Loisset, whose sister's marriage to Prince E. Van Russ made such a sensation a short time ago, is said to be betrothed to Count Emile Bathyani.

Edward McGillivray, Esq., of Ottawa, the President of the Canada Atlantic road, is at the St. Lawrence Hall. Under his energetic management the connection between Coteau and Ottawa is being rapidly pushed through. Gangs of men are working night and day upon the line.

London *World* says: Englishmen who have received the hospitality of the Snow-shoe Club at Montreal may be glad to hear that its President, Mr. Chas. Peers Davidson, Q.C., is at present visiting the Mother country. Mr. Davidson is one of the most rising men in Canada, and is as popular with his friends as he is successful for his clients.

The Laval Difficulty.

The coming term of the branch of Laval University in Montreal will open on Monday next. A solemn Mass will be celebrated on that morning in the Cathedral, and the opening address will possibly be given by His Grace Bishop Fabre. The professors and students of the different faculties will be present, also the ecclesiastics of the Seminary and of the Faculty of Theology. It is perhaps not well known that a petition for a writ of *quo warranto* to prevent the branch from existing here has been for a long time before the Superior Court, and that also a petition is before the Privy Council of Canada to have the bill legalizing the branch disallowed. The opposants of Laval hold that the action of the University in continuing the working of the branch here in the face of the former petition pending a decision is showing more or less disrespect for the Court, but as far as is present known, do not intend to take any action against it. They say that they have the opinion of Sir Farrar Herschell, Solicitor-General of England, that the establishment of the branch here is illegal, and on his opinion and on that of other high legal authorities the petition for the writ of *quo warranto* was made. They hold that the telegram from Rome some ten days ago that a decision had been given against them was bogus and got up to assure students in their intention to attend the branch here.

THE BOER CONVENTION. — LONDON, September 30.—About a dozen members of the Transvaal Volksraad, now assembled in Pretoria, have spoken on the treaty with England. All of them were strongly opposed to the convention, but it is believed that a motion will be passed referring it to a committee at the close of the debate. A despatch from Durban says:—"It was expected that the debate on the convention with England would last several days."

LORD LORNE.—LONDON, September 30.—*Truth* says:—"It is probable that the Marquis of Lorne, Governor-General of Canada, will return to England next season, when he will be called to the House of Lords."

FARMERS FOR TEXAS. — LONDON, September 30.—The steamer "Teutonia," which sailed from Liverpool on Tuesday, took sixty-three farmers and others for Texas.

STEEL RAILS.—LONDON, September 30.—Herr Krupp, of Essen, has accepted a contract for the exportation of 25,000 tons of steel rails to the United States.

MURDER AND LYNCHING IN WISCONSIN.—MILWAUKEE, Sept. 28.—The first case of lynching that has occurred in Wisconsin for many years is reported from Oconto. The particulars of the tragic event and the circumstances which led up to it are sensational in the extreme. The victims of the lynching were two cousins named McDonald, who on Sunday last brutally murdered two brothers named Kitson in a house of ill-fame near Menomon. The McDonalds had served terms in the State Prison and were widely known as desperate characters. On Sunday they went to the bagnio, where they found the Kitson brothers, whom they insulted. A fight ensued and the Kitsons were stabbed and beaten to death. Last night the McDonalds were taken from jail and lynched by a mob numbering nearly 100. The two men were handled without mercy. They were clubbed, shot and hanged. The community is greatly excited, but there will be nothing done further in the affair other than a coroner's investigation.

A Sure Cure for Piles.

Do you know what it is to suffer with Piles? If you do, you know what is one of the worst torments of the human frame. The most perfect cure ever known is Kidney-Wort. It cures constipation, and then its tonic action restores health to the diseased bowels and prevents recurrence of disease. Try it without delay. The dry and the liquid are both sold by druggists.—*Globe.*

THE BEST PIANOS IN THE WORLD.—It has long been conceded by European makers that the best pianos are made in America, and that the best American pianos are made by Chickering, Steinway, Gabler, Dunham and Haines.—A. & S. UNFERMENTED WINE!

Prepared for Sacramental and Dietetic uses by
F. WRIGHT, Manufacturing Chemist,
KENSINGTON HIGH STREET, LONDON, W.

This Wine is guaranteed to be the juice of the finest grapes of the Cote d'or, Andalusia, and the Medoc. It is perfectly free from Alcohol, and is guaranteed to be Pure Grape Juice. It has stood the test of 22 years' continuous sale in every climate, and is now used in upwards of 1,500 Churches of all denominations.

From the Rev. Dawson Burns, M.A., F.S.S.

"Some churches, it is to be feared, are deceived by advertisements of wine merchants into ordering wines containing a considerable amount of alcohol, but paraded as strictly unfermented. Great caution ought to be used in this matter; and churches wishing to be safe and to commune in 'the juice of the grape,' *pure and simple*, should send direct to Mr. Frank Wright, of 68 Kensington High Street, London. That gentleman has applied himself for years, and with the greatest success, to the manufacture of Sacramental Wine.

The Rev. Newman Hall, LL.D.,
Christ Church, Kensington, London, S.

"Unfermented wine has been adopted at Christ Church, Lambeth, for the Holy Communion, by the unanimous decision of the ministers and elders. The communicants at Christ Church number 1,500 persons. The wine is prepared by Mr. Frank Wright, of Kensington."

Auction Sales.

By Benning & Barsalou.

VOLUNTARY LICITATION.

Sale by Auction of the Celebrated Goldring Phosphate Mine.

The Subscribers have received instructions from the Co-proprietors, Messrs. C. H. Letourneau, R. A. R. Hubert and Adolphe Ouimet, to sell at their Auction Rooms, No. 86 St. Peter Street, on

Monday, 10th October next,

the celebrated Goldring Mine, with Buildings, Tools and and Furniture. The Property comprises 1,600 acres of Land, more or less: the Lots join one another, and from an analysis made by J. Baker Edwards, of the Phosphate, on 4th September, 1880, yielded 90.10.

The Mine is situated in East Templeton, County of Ottawa. This Township, according to the Geological Map, is considered the richest in Phosphate; only distant from the Q., M., O. & O. Railway and the Ottawa River about ten miles, which makes the shipping, either by rail or water, easy: the roads leading to the Mine are good, and the transportation of the Phosphate, at all seasons, done at moderate rates; several large and substantial buildings are erected, boarding-house for Miners, dwelling for Superintendent, large buildings for Phosphate, powder magazine, store for provisions, forge and tools, office for the Company, tramway cars, and a line of telegraphy connecting direct with the Dominion Telegraph Co. at Montreal; a large quantity of tools of the best make. The property is wooded chiefly with hard wood.

Any one desirous of visiting the property can do so in the space of 24 hours, including going and coming, from Montreal. There is a guardian on the property, who is there for the purpose of showing the property. From the Station, at East Templeton, the public road leads direct to the Mine.

The conditions of the sale will be ⅓ cash, ⅓ in six months, and ⅓ in twelve months, with interest at the rate of 6 per cent. on the balance unpaid. Each bidder will have to deposit $1,500.

Further information to be obtained from the Auctioneers.

THE NORTH SHORE ROAD.

Mr. Senecal Speaks—He Advises the Sale of the Road.

"Mr. Senecal, is it true that you are opposed to the sale of the Q., M., O. & O.?"

"It is quite the contrary; I am convinced that the Province can never realize from it as much as a private company could. The electors, as you are aware, are hard to please, and besides as everything requires to be submitted to the Government and to the Chambers, it necessitates a large amount of red tapeism, entailing great delays, tending to augment the expenses of the road, and which, if it was under the control of a private company, would of course be unnecessary. Moreover the Government cannot develop the line as a private Company would in the way of building feeders and outlets to it. A private Company, having its interests at heart, would have long before now constructed on one hand the Toronto and Ottawa Railway, and on the other the Tunnel and the South Shore Railroad. Last Winter the interests of the road absolutely required the construction of a branch road to Berthier and the control of the Joliette Railway, but the hands of the Government were tied, and personally I did not care to interfere in what did not affect me. Although it may be thought that it is to my interest that the Government should continue to hold the road, and, if I may be permitted to express an opinion, notwithstanding the position I hold, I am most desirous, in the interest of the finances of the Province, that the line should be sold. I am aware, of course, that the main objection to its sale is the fact that it forms the only school of instruction for the population of the Province in railway matters, as, from one reason and another, the great majority of our people are excluded from the other roads; but perhaps the Government might obviate this difficulty by reserving to itself a certain controlling power in this direction. I cannot say in what manner, but I know that these suggestions are capable of being carried out, and that capitalists, either English, American or French, can be found to do it."

"Is it then strictly correct that you did not endeavour to sell the road to French capitalists?"

"I did not; as I have already told THE STAR, all I did was to give all the information in my power to every one who desired it, and I am convinced this had the effect of greatly increasing its value."

"A word as to the Sunday trains: Would their suppression really be a source of great loss to the revenue of the province?"

"Certainly it would; we have the river traffic to combat against, which is carried on on Sundays as well as week days, and the Grand Trunk Railway, although it has no regular trains on Sunday, still generally despatches a train from Levis on Sunday morning on the arrival of the steamer from Europe, without speaking of the freight trains it runs on Sundays. If we force the public to take advantage of other routes on Sundays, then we certainly will lose their carrying business. I estimate the net earnings of our Sunday trains at $50,000, and, as you know, the Province insists on the road producing the utmost in its power. I do not think it would be justifiable to suppress these trains, thereby diminishing the revenue of the Province and bringing us another step nearer direct taxation, but, at the same time, I have given orders to stop all work on Sundays which is not absolutely necessary.

MONTREAL EAST IN THE MARKET.

Retirement of Mr. Taillon, M. P. P.—A Quiet Chat With Him.

The announcement that Mr. L. O. Taillon, M.P.P. for Montreal East, is retiring from politics will be greeted with surprise by most people.

"Are you going on the Bench?" he was asked to-day.

"No. I am retiring entirely from politics and intend devoting myself altogether to my profession. I retire perfectly satisfied with my party, and I simply refused the Recordership to serve its interests."

"Are you in favor of selling the North Shore road?"

"I am not in favor of the Government keeping it any longer than it is necessary, but I am opposed to its being disposed of at present, until such times as we can recoup ourselves for the amount expended on it. I am in favor of any means which can be suggested to ameliorate the financial condition of the Province, but I am not in favor of the abolition of the Legislative Council. I consider it a safeguard for the protection of the people, whose wish might, without its existence, be over-ridden by the other Chamber, as in the *coup d'etat* by the Letellier party. However, the expense entailed by that body may be very materially decreased, and I understand it is the intention of the Councillors themselves to reduce the annual estimates as regards the Upper Chamber to $22,000. I will tell you what I am in favor of, and that is, increasing the emolument of the ministers. Three thousand a year is ridiculously little for such important positions."

"And thereby still further burden our already overtaxed Province."

"No; I would propose to reduce the allowance of members, say from $500 to $400 and let the ministers have the difference."

"What do you think of Mr. Mercier's idea, as published in THE STAR, relative to each municipality paying its share for the administration of justice?"

"I think it might be very beneficial, and I also think that the question of the grant to the different charities is capable of modification."

"Who do you think will succeed you in the representation of the Eastern Division of the city?"

"I really have no idea. I do not think any one has been specially spoken of."

"Probably Mr. Rivard?"

"I cannot say."

DROWNED IN THE RAPIDS.

Chief Louis' Version of the Accident.

Chief Louis Shatikaienton of Caughnawaga, who is in town to-day, gives the following as his version of how the unfortunate men, Louis Rice and Thomas Deere, lost their lives last Saturday. The two braves had been picking wild grapes all day, and in the evening about eight o'clock, they started for the other shore, to dispose of them, in an old leaky canoe. They were cautioned not to take her, but paying no attention to the advice of their friends they started off without even a bailing tin; and the canoe must have swamped shortly after they put off. He discredits the story of their having lost their paddles. Louis Rice was about forty-five years of age and leaves a widow and seven children, one being married, while Thomas Deere was forty years old and leaves a wife and four young children. In both instances the fatherless families are entirely destitute, and any contributions will be thankfully received to aid them in their struggle for life. The canoe has been found nearly rent in two, bottom upwards, near Longueuil.

WHOLESALE BURGLARIES.

St. Martin and St. Rose Victimized.

Two atrocious, ruffianly-looking tramps have been having it all their own way in the villages of St. Martin and St. Rose lately. In St. Rose, they broke into the church, robbed the two poor boxes, and walked off with a valuable communion cup worth $200. They then proceeded to the residence of the parish priest, invaded the reverend gentleman's bedroom, appropriated his gold time-keeper, which was hanging over his bed, and ransacked his pockets, and relieved him of all his loose cash. They then adjourned to the refectory and helped themselves to all the delicacies of the season and enjoyed a good supper. In another village they entered a dry goods store, where they helped themselves to the best of everything, left their not over-cleanly wearing apparel behind them and retreated with, at any rate, an improvement in their outer man.

Convict Labor.

The new workshops of the Q., M., O. & O. Railway Company, situate on Colborne avenue and St. Catherine street, are being pushed forward rapidly. The contractors, Messrs. St. Louis Brothers & Beemer, commenced the work on the 29th day of July last, and expect to complete the buildings now in the course of construction before December. The works will have a frontage of 450 feet on Colborne avenue and 274 feet on St. Catherine street; fronting on St. Catherine street will be the erecting, machinery, blacksmith and boiler shops, and on Colborne avenue will be the offices and store rooms, car building and machinery shops. The other buildings will be inside the square, which will cover about six acres of land, and will consist of turn-table, boiler house, paint shop, &c., &c.; the chimney of the boiler house is to be 130 feet in height.

There are now working about 150 men, of whom some 53 are convicts.

They are under the direction of Mr. P. Bertrand, foreman, who states the convicts are well fed, are supplied with tobacco, but no whiskey, and are apparently contented.

He also states that the men are doing their work well.

Montreal Abroad.

The Kingston *News* says:—"The conduct of some of the Montreal cricketers, before leaving Kingston last night, was rather different from what is expected of gentlemen. Having imbibed too freely, they became rather boisterous, and concluded their day's sport by gathering all the boots on two flats in the hotel and mixing them up in utter confusion, throwing some out on the street, others on the top of the roof of an adjoining wing of the building, and others in the back yard. When the owners of the boots arose and went to look for them they were nowhere to be found and the scenes at the hotel, as one by one the guests came down stairs, were rather amusing. One gentleman was obliged to go to the boat with one shoe and one slipper, another came down in his slippers and one lady having neither shoes nor slippers, came down in her stocking feet. One of the perpetrators of the outrage was so muddled that he went away without his valise which is detained here for damages to the amount of $50.

CITY ITEMS.

—About thirty Caughnawaga Indians left town by this morning's train for Chicago, where they expect to find a good market for their fancy work.

—Every train for the West during the past few days has carried from the city parties of bricklayers and carpenters bound for Michigan, where they expect to find an abundance of work in the districts devastated by the late fires.

—Detective Richardson, of this city, and Constable Montgomery, of Ottawa, have succeeded in arresting an important witness in connection with the Cole circus murder case which happened on the Grand Trunk Railway some little time ago.

—Helen Freeland, the young girl who alleged that she was outrageously assaulted by a number of young men some time since, leaves this city this evening by Richelieu steamer, to take passage by the steamship sailing from Quebec for Liverpool.

—There will be three matinees to-morrow afternoon, "Hazel Kirke" at the Academy, "My Sweetheart" at the Theatre Royal, and "Uncle Tom's Cabin" at the Victoria Rink. All three pieces are excellent and deserving of support, and we bespeak bumper houses.

—When the tenants of No. 163 Laval avenue arose from sleep, a few mornings ago, they found that some one had, for reasons unaccountable, broken into the house during the night before, and had amused himself by sprinkling everything he could lay his hands on in the pantry with flour.

—This morning the police authorities received information to the effect that the young girl accused of having robbed her master, Mr. J. Duhamel, advocate, had taken passage by the Allan steamer which leaves Quebec to-morrow morning. The police here sent a telegram ordering her detention at the port of Quebec.

—An inquest was held at St. Ann's yesterday on the body of a man found floating in the river between Pointe Claire and St. Ann's. The body was fearfully disfigured and swollen, and entirely denude of clothing, and was that of a short, stout person five feet six high, with dark hair. No clue has been found as to who the unfortunate fellow is.

—Three little girls, Elsie Stevenson, Addie Gillelan, and Winifred St. George, laid their wise little heads together the other day and decided to hold a bazaar for the sale of their own work, for the benefit of the children's ward of the Montreal General Hospital. The result was a most successful bazaar, and the realization of the net sum of $12. This is an evidence of what even the little ones can do.

—At the weekly parade of the Sixth Fusiliers in the old City Hall last evening, Lieut.-Colonel Gardner read a letter from the Troy Citizens' Corps, expressing the thanks of that body for the hospitality they had experienced while in Montreal at the hands of the gallant Sixth, and the hope that an opportunity would soon present itself for the members of the two corps to renew their acquaintance with one another.

—At a meeting of the Independent Lacrosse Club, held on Wednesday evening, it was unanimously resolved that the Secretary, Mr. Wm. Scullion, be instructed to again challenge the Shamrocks to play for the championship. It was also decided that votes of thanks be tendered to the Lawn Tennis and Montreal Lacrosse Clubs for their kindness in letting the Club have the use of their grounds on several afternoons previous to the match of Saturday last.

—The former pupils of St. Mary's College, of this city, purpose holding an annual convention and will celebrate the event by a banquet. A meeting to forward this movement was held last evening, when Mr. C. C. DeLorimier occupied the chair, and Mr. D. Masson acted as secretary. The following gentlemen were appointed a committee of management:—Hon. Mr. Mercier, F. A. Quinn, R. Prefontaine, M.P.P., George E. Desbarats, C. O. Perrault, D. R. Grant, A. Leclaire and P. B. Migneault.

—Mr. Vennor says that the present warm condition of the atmosphere is likely to continue through the Autumn, giving us unusually warm and balmy periods in October and November and well into the Winter months. He thinks, however, October will be a colder and more wintry month than November and December, in like manner more so than January. In Great Britain, Mr. Vennor thinks it probable a very severe Winter will be experienced, and that the Autumn will be cold and wet.

River Notes.

The tug "Plover" ran the Lachine rapids again this morning with a loaded barge in tow.

Owing to the shallowness of the water in the rapids, the rafts have to be brought down the canal in cribs.

The "Corinthian," of the Upper Canada Mail Line, having been delayed on the lakes, was five hours late in arriving in port last night.

The first shipment of apples to Europe from Montreal this season left by the SS. "Brooklyn," of the Dominion Line, the day before yesterday.

One of the new lock gates has been at last got into working order, the last nut connecting the valve gearing on the lower gate being turned this morning.

Mr. Arnoldi, the mechanical engineer of the Department of Public Works, arrived in port yesterday in the Government yacht "Rocket," which he built himself, and about the purchase of which by the Government, a week or two ago, a scandal was raised by some of the opposition papers, who claimed that the yacht was actually built with Government material and by men drawing pay from the Department of Public Works.

Personal.

P. B. Benoit, M.P., St. Hubert, is at the Canada Hotel.

H. Hurteau, M.P., St. Lin, was among this morning's arrivals at the Richelieu Hotel.

Hon Mr. McLelan, Acting Minister of Marine and Fisheries, and Sir Edward Stafford, England, are registered at the St. Lawrence Hall.

Armitage Rhodes, Quebec, and Rev. C. J. Ketchum, Vergennes, Vt., Hon. J. H. Pope, Minister of Agriculture, and Col. Allan Gilmour, of Ottawa, are at the Windsor.

Police Court.

Eulalie Dagenais, for committing an assault and battery on Joseph Lalonde, was fined $1 and costs or ten days.

Julius Remugum, a seaman on the barque "Blanche," was charged with desertion. He was sent back to the ship.

John Patterson, for stealing a chisel, the property of Honore Charey, was sentenced to six months in gaol with hard labor.

MYSTERIOUS MOVEMENTS OF THE CZAR—ST. PETERSBURG, September 30.—A rumor of the departure of the Emperor is generally current, despite the precautions to conceal his movements. An Imperial yacht, with steam up, is stationed before Peterhoff, and has already received a batch of Court cooks. His real destination will not be known here until the Emperor arrives there. To deceive the inhabitants of Peterhoff, the flag indicative of his presence will be floated over the Chateau, which in the Sovereign's absence is contrary to all usage.

PROPOSED HONOR FOR GAMBETTA.—PARIS, September 30.—The *Paris*, a Gambetta organ, intimates that the majority in the Chamber of Deputies, to mark its confidence in M. Gambetta and point him out to President Grevy as the proper person to be asked to form a Ministry, will, on the first day of the session, name him as the Provisional President of the Chamber.

THE WAR IN TUNIS.—LONDON, September 30.—A despatch to the *Times* from Tunis says that Bou Amena, the insurgent chief in Oran, has succeeded in establishing communication with the Tunisian insurgents, and is urging them to act in concert with him.

AMERICAN

BASE BALL LEAGUE.—SARATOGA, Sept. 30.—The Base Ball League directors met last night. Buffalo, Cleveland, Chicago, Boston, Troy, Worcester, Providence and Detroit were represented. W. A. Hurlburt, of Chicago, was elected chairman, and C. H. Defreest, of Troy, secretary. A resolution was adopted agreeing not to hire or play against any other club which employs or presents as a player, manager or umpire certain players who are on the black list for dissipated habits or insubordination. It was not thought best to make the black list public for the present.

UNCLE SAM'S CASH.—WASHINGTON, Sept. 30.—It is estimated the receipts of the Government in September will reach $33,000,000. The indications are that the reduction of the public debt for the month will exceed $13,000,000. For the first quarter of the current fiscal year, which closes to-day, the aggregate receipts will be over $107,000,000, against $98,000,000 the corresponding quarter last year. It is believed the reduction of the public debt the current quarter will be $37,000,000.

THE STAR ROUTE FRAUDS.—NEW YORK, Sept. 30.—There are unusual signs of activity among the officials who have the star route prosecutions in hand. One case is known to be ready for the grand jury, and others only require condensation. The President's policy will not stop with the punishment of the Star Route ring. The equally corrupt ring in the Treasury will receive an early and searching investigation.

VIRGINIA POLITICS.—RICHMOND, September 30.—The State Committee of the straight-out Republicans have issued an address recommending that straight-out candidates for the Legislature be nominated in all counties where Republican vote is strong. The object is to draw Republican votes from the Coalition candidates. Most of the nominations for the Legislature have already been made throughout the State.

DR. BOYNTON PREPARING ANOTHER STATEMENT.—NEW YORK, September 30.—The *Sun's* Washington special says Dr. Boynton is making a very careful statement in the form of an affidavit. The statement would have been made public before this but for the delay in getting an affidavit from General Swaim.

A HOUSE BLOWN DOWN AND ITS OCCUPANTS BURIED.—CENTRALIA, Ks., September 30.—Mr. Dewale's house was blown down and himself, wife and four children buried in the ruins. One child was killed and another fatally injured.

FAILURE.—ST. LOUIS, September 30.—The live stock firm of Homer, Stewart and Burnsia have suspended; liabilities, $200,000; assets said be small. Homer drew several hundreds from the bank and disappeared.

STRUCK BY LIGHTNING—IRVINGTON, Ia., September 30.—The depot was struck by lightning yesterday, prostrating eighteen men. All recovered except one. The building was destroyed.

DROUGHT.—NEW YORK, September 30.—The drought in West Chester County is the most disastrous ever experienced. Since June there has been no rain.

TRAIN ROBBERS CAPTURED.—LITTLE ROCK, September 30.—Three men who robbed the train of the Iron Mountain road last week have been captured.

FROM OTTAWA.

(SPECIAL DESPATCH TO THE STAR.)

RAILWAY SURVEY.—OTTAWA, September 30.—Surveys on the Ottawa & Morrisburg Railway are proceeding rapidly. An excellent route is being found.

PERSONAL.—Sir Leonard Tilley is expected back here to-day. Hon. Mr. McLelan, President of the Council, left for Londonderry, N.S., yesterday, to bring his family to Ottawa.

CABINET CHANGES. — The rumored changes in the Cabinet, by which Mr. Costigan will succeed Hon. J. C. Pope, as Minister of Marine, are generally accepted here as having good foundation. It is said Mr. Brecken, of P. E. Island, runs the favorite for the position, but his constituency was deemed not so safe as Mr. Costigan's. Mr. Pope's resignation has been in the hands of the Government for some time past.

THE ASSIZES open next Monday. There are two murder cases on the list, that of the old man, Weatherill, killed at a charivari, and the recent tragedy on the Canada Central.

A RELAPSE.—A report comes from Charlottetown that Mr. Pope has had a relapse, and now lies dangerously ill.

PRESIDENT ARTHUR.

The President in Need of Rest—Rumors of Cabinet Changes.

NEW YORK, September 30.—It is stated the President came here on private business, and will return to Washington before the assembling of the Republican State Convention. It is said he will resign the chairmanship of the State Committee. Friends state that the President had very little sleep for five days, and sadly needs rest now. It is said Mrs. McElroy, the President's sister, is not to be the presiding mistress at the White House. The President has engaged rooms at the Fifth Avenue Hotel. It is stated he will take possession to-day.

The *Tribune's* Washington special says not one member of the Cabinet has given the President the most distant intimation that he desires to retain his place in the new Cabinet. A rumor comes through channels which gave a warrant for saying it is at least thought of. It is that the President may tender the position of Attorney-General to Senator Davis, of Illinois. One result hoped for would be the election of Mr. Lincoln to the United States Senate.

Close friends of the President say that even if he should tender a Cabinet position to Mr. Conkling the latter would not accept it. If Mr. James goes out of the Cabinet he will accept the Presidency of the Bank of New York. The visit of Mr. Jones to Mr. Conkling is regarded here as having been made at the request of the President.

CINCINNATI, September 30.—Senator Pendleton discredits the report that Senators of both parties agreed *en route* to Cleveland upon a programme for organizing the Senate with a Republican President.

Important to Ship Agents.

Three actions brought respectively by Thompson, Murray & Co., D. Shaw and J. G. Sidey against the Corporation of Montreal, to recover each $50 tax which had been collected from them under the city's By-law, relating to the taxation of brokers, etc., were decided today by Judge Johnson against the city. The By-law says that brokers, money-lenders and commission merchants are liable to the tax without defining these terms, and the chief question in these cases was whether or not the plaintiffs followed any of the three occupations above enumerated. His Honor decided that they were ship agents and nothing more and gave judgment for them.

Trade and Commerce.

WEEKLY REVIEW — WHOLESALE PRICES.

STAR OFFICE, September 30.

Wholesale houses report a fair business during the week just ended. The week has been characterized by stronger markets for breadstuffs, iron and wool, but other departments of trade have not been unduly excited though steadily active as a rule.

DRY GOODS.—Remittances for the past week have been hardly up to the mark, and great expectations of large payments are disappointing, however. October reports, we trust, will be more favorable. In many of the wholesale stores visited we noticed a goodly number of fair sized parcels being made up, and there are other indications that buyers have been operating here to some purpose of late. Travellers have not yet, as a body, started out on what is called the sorting trip, but there is to be seen here and there evidences of preparations on their behalf, and we trust that partly through their efforts the hopes of the trade relative to a large and successful Fall business entertained as long ago as July will be realized. Our city retailers have been "immensely busy" and are yet fully employed as visitors to the leading establishments would have found out yesterday. Stocks are tolerably well assorted in all lines, but it is to be inferred from the manifests published weekly, that supplies generally are being "re-assorted" by importations. It is to be hoped, of course, that too many goods will not be brought to the market as wholesalers must know that the market here for certain classes of goods, fine fabrics particularly, is very limited and the demand once supplied a long time must elapse before stocks now old perhaps as to pattern, etc., can be worked off. Prices of goods of Canadian manufacture are strong with a decidedly upward tendency.

GROCERIES.—The market has displayed a better tone. Some large transactions have taken place in raw sugar at 7c to 7½c for fair to good refining grades. In all, something like 3,600 tons of Muscovado have been taken by the refiners from importers since our last. In refined sugars it appears the advance of ⅛c in granulated to 10c, was only the action of one of the refiners, the others refusing to join in the movement by offering to sell at 9⅞c. There is a good demand for both raw and refined, and values are steadily on the increase. Sellers of Valencia raisins are asking 8½c to 9c to arrive. A cable from Malaga states a further rise of three reals all round, with the market excited and no sellers at the advance. A few sales of new Malaga fruit have transpired at the following rates:—Layers at $2.95, loose muscatels $3.10, and London layers at $3.25. Sultanas are scarce and a few transactions have taken place at 12½c to 13c, and are selling freely at those figures to arrive. Currants are still firm, caused by the brisk American demand, after which the English demand will be coming in, and the Xmas requirements it is thought will prevent any considerable fall in values. Teas remain dull, the only kinds meeting with any enquiry being fine to finest Japans at prices ranging from 40c to 46c. In rice there have been several transactions at $3.72½ to 3.75.

IRON AND HARDWARE.—Since last weekly review there has been a further advance of 2s 6d in pig iron, and the anticipated rise of 10s in finished bars has taken place. On this market there have been sales of 500 tons of Summerlee and also of 200 tons at full prices. A cable despatch quotes galvanized sheets at £4 per ton. A cablegram quoted ingot tin at £103 per ton, an advance of fully £10. Tin plates are quiet at firm prices. Cut nails are quoted steady at former prices by the nail manufacturers' association here. We quote:—Pig iron per ton, Coltness, $22 to 22.50; Siemens, $21 to 22; Gartsherrie, $22 to 22.50; Summerlee, $22 to $22.50; Langloan, 22 to 22.50; Eglinton, $20 to 21; Carnbroe, $21 to 21.50. Bars per 100 lbs, Siemens, $2.00 to 2.25; Scotch and Staffordshire, $1.90; best ditto, $2.15 to 2.25; Swede, $4.25 to 4.60; Norway, $4.00 to 5.00; Lowmoor & Bowling, $6.25 to 7.00. Canada plates, per box: Hatton, $3.25; other brands, $3.25 to 3.50; tin plates, per box: charcoal IC, $5 50; ditto, IX, $7.50; ditto, DC, $5; ditto, DX, $7. Coke, IC, $4.50 to 5. Tinned sheets, No. 26, charcoal, $10.50 to 11; Galvanized Sheets, No. 28, best, $7.00 to 7.50; Hoops and bands, per 100 lbs, $2.35 to 2.50; Sheets, best brands, $2.85. Boiler Plates, $3.00 to 3.50. Russia Sheet Iron, per lb., 12½c. Lead, pig, per 100 lbs, $4.25; do sheet, $5.50; do bar, $5 to 5.50; do shot, $6 to 6.50; Steel, cast, per lb, 11½c to 12½c; do Spring, per 100 lbs, $3.75 to 4; do Tire, $3.50 to 3.75; do Sleigh Shoe, $2.25 to 2.50. Ingot tin, $26 to 27. Ingot copper, $17.25 to 18.50; sheet zinc, per 100 lbs, $5.40 to 5.50; spelter, $5.25 to 5.50. Horse shoes, per 100 lbs, $4.25 to 4.50. Proved coil chain, ⅜ inch, $5.50. Iron wire, No. 6, per brl, $1.60 to 1.70. Cut Nails:—Prices, net cash within 30 days or 4 months note: 10 day to 60 day, Hot Cut, American or Canada Pattern, $2.85 per keg; 8 day and 9 day, Hot Cut, do, $2.60 per keg; 6 day and 7 day, Hot Cut, do, $2.85 per keg; 4 day to 5 day, Hot Cut, American Pattern, $3.10 per keg; 3 day, Hot Cut, do, $3.85 per keg; 3 day, Fine, Hot Cut, $5.35 per keg; 4 day to 5 day, Cold Cut, Canada Pattern, $2.85; 3 day, Cold Cut, Canada Pattern, $3.35.

DRUGS AND CHEMICALS.—The market has been only moderately active, and so far there appears to be little doing in heavy goods. The British market is quiet. We quote:—Bicarb-soda, $3.10 to 3.20; soda-ash, $1.50 to 1.65; bi-chromate of potash, 13½c to 15c; borax, 17c to 18c; cream tartar crystals, 29c to 30c; ditto ground, 31c to 33c; caustic soda, $2.40 to 2.50; sugar of lead, 13c to 15c; bleaching powder, $1.50 to 1.75; alum, $1.75 to 2; copperas, 100 lbs., 90c to $1; flour sulphur, $2.90 to 3.25; epsom salts, $1.30 to 1.50; sal soda, 90c to $1.10; saltpetre, per keg, $9.50 to 10; sulphate of copper, 5½c to 7c; whiting, 55c to 60c; Howard's quinine, $3.00; morphia, $2.40 to 2.55; castor oil, 10c; shellac, 42c to 45c; opium, $4.50 to 4.75.

LEATHER.—Good slaughter sole and good plump Spanish sole is scarce and firm and in fair demand. There is not much doing in inferior grades which are generally in large stock. We quote:—Hemlock Spanish Sole, No. 1, B. A., 25 to 27c; Ordinary, 24½ to 25½c; No. 2, B.A., 23 to 24½c; No. 2, Ordinary, 22½ to 23½c. Buffalo Sole, No. 1, 21 to 23c; No. 2, 19 to 21c; Hemlock Slaughter, No. 1, 27 to 29c; Waxed Upper, light and medium, 36 to 42c; Splits, large, 25 to 30c; small, 22 to 25c; Calfskins (27 to 36 lbs.), 60 to 80c; do (18 to 26 lbs.), 60 to 70c. Harness, 26 to 34c; Buff, 14 to 16c; Pebble, 12½ to 15½c; Rough, 26 to 28c.

BOOTS AND SHOES.—Manufacturers have not yet commenced on sorting orders, but the leading houses, though we are now between seasons, are still working over hours. Remittances continue to please rather than otherwise. Men's thick boots wax, $2.25 to 2.75; men's split do, $1.60 to 2.25; men's kip boots, 2.50 to 3.00; men's calf boots, pegged, $3 to 3.75; men's kip brogans, $1.35 to 1.40; men's split do, 90c to $1.10; men's buff congress, $1.50 to 2; men's buff and pebbled bals, $1.75 to 2.25; men's split do, $1.25 to 1.50; shoe packs, $1.00 to 1.75; women's pebbled and buff bals, $1.00 to 1.40; do split bals, 90c to $1.10; do prunella bals, 50c to 1.50; do inferior bals, 45c to 50c; do Cong. bals, 50c to 1.25; do buskins bals, 60c to 80c; misses' pebbled and buff bals, 90c to 1.10; do split bals, 75c to 90c; do prunella bals, 60c to 1.00; do cong. bals, 60c to 70c; childs' pebbled and buff bals, 60c to 90c; do split bals, 50c to 60c; do prunella bals, 50c to 75c; infants' cacks, per dozen, $3.75 to 6.00.

WOOL.—The market during the week has ruled firm. We quote as follows:—Greasy Cape, 19½c to 21c; Australian, 23c to 30c; Canadian pulled, A super, 34c to 35; B super, 30c to 32c; and unassorted, 30c.

HIDES are in demand at $10, $9 and $8 for Nos. 1, 2 and 3. Sheepskins are firmer at 80c to 85; Calfskins, 12c.

PETROLEUM is firm and in demand at former prices. Car lots are quoted at 23½c to 24c; broken lots at 24½c 25c; and single bbls. at 25½c to 26c.

SALT.—There is a steady market. Coarse is worth 57½c to 60c; factory filled $1 to $1.10 and eureka, $2.

FISH quiet. We quote Canso herrings at $5 to 5.25 per bbl; dry Cod at $4; green do at $3.80; mackerel, No. 2 at $5 to 5.50 per bbl; white fish at $4.75 per bbl and salmon trout at $4.50.

Newfoundland cod oil is still quoted at 45c to 47½c

Shipping Notes.

SS. "Melrose Abbey" passed Magdalen Light inward at 9 a.m.

SS. "State of Indiana" from Glasgow, "Algeria" from Liverpool, and "France" from Havre, have arrived at New York.

The Dominion Line SS. "Dominion" from Quebec, 17th inst., with 238 cattle and 957 sheep, arrived at Liverpool to-day, and landed her live stock in good condition, except four cattle and 50 sheep, which died on the passage.

COMMERCIAL.

The flour market to-day was strong and higher. THE RIGHTS OF AUTHORSHIP SUSTAINED.

Bray vs. Devins—The Case decided—$300 Damages to the Plaintiff.

Judgment was given by Mr. Justice Rainville in the *cause celebre* of Bray *vs.* Devins late this afternoon. The curious nature of the case is well known, and the outline only need be repeated. The Rev. Mr. Bray, clergyman and lecturer, delivered a lecture on England and Ireland last Winter, which the defendant, without permission, the plaintiff alleges, published in a pamphlet form, with its pages interspersed with advertisements of patent medicines. The plaintiff sued for $10,000 damages, alleged to have been sustained from losing the profits of publishing his lecture himself, and from bringing his reputation into ridicule. The defendant pleaded that the lecture was not delivered from manuscript but *viva voce* and that he consequently had the right to publish it, and further that permission had been obtained to publish it.

The Court held against the defendant on both points. His Honor said the lecture had been carefully prepared and had excited great interest and had been delivered from manuscript; that the evidence was satisfactory that permission to publish had not been given, that the law protected the rights of authors to their manuscript, and defendant could only be permitted to publish a summary of it in the public press and not the whole as he had done. The damages from the plaintiff's being unable to deliver the lecture any more, owing to its publication, and from being unable to sell the manuscript, he would estimate at $200. As to the damages from hurt to the plaintiff's reputation from the insertion of the advertisements of patent medicine, he would put that at $100. Judgment then would be given for $300. Macmaster & Co., for plaintiff; Kavanagh and Kerr & Co., for defendant.

Court of Queen's Bench.

Court opened at 10 o'clock, Mr. Ritchie presented a motion asking that the second count of the indictment against W. B. Sills and H. F. J. T. Sills for the libel contained in the *Illustrated Police News* be struck out. Mr. Ritchie alleged that the count was not sufficiently definite.

Mr. Greenshields, in reply, contended that the charge was sufficiently clear in the first count, and the references in the second count to the first count were sufficiently clear to establish the offence, and that the count must stand.

Mr. Kerr, Q. C., followed on the same side and cited authorities to support the pretension that the count must remain.

Decission was reserved by their Honors on the motion, but whether granted or not, it will not materially affect the case, as there will still remain two other counts in the indictment charging almost the same matter as contained in the second count.

STILL MISSING.

No News of Mr. J. H. Elliott.

Notwithstanding the most strenuous efforts of Detective Fahey and his energetic staff of assistants, the fact that a liberal reward is offered for any information which may lead to his being found, not the slightest clue has been traced of Mr. Elliott's whereabouts. The whole island of Montreal has been scoured, and every publicity given to the fact, both through the press and otherwise, but without avail. Any information will be thankfully received, either by Mrs. Elliott, 41 St. Famille street, or at the Dominion Detective Agency, 204 St. James street.

Athletic.

The annual games of the Montreal Amateur Athletic Association, which come off to-morrow on the Montreal Lacrosse Grounds, promise to be the sporting event of the season. The programme prepared for the occasion is a capital one, and there is scarcely an athlete of any note in the city who has not entered for one event or another. Add to this that Myers, of the Manhattan Club; Bonnell, of Toronto; Stewart, of Hamilton, and Martin, of Ottawa, have decided to compete, some idea may be obtained of the keenness of the contests.

Found Drowned.

A man was found drowned at Vercheres, yesterday afternoon. His age seemed to be 30 or 40 years of age, black moustache, dark and close-cut hair, blue jersey and trousers held by belt at the waist. One foot was bare and the other wore a rubber boot. Coroner Geoffrion will hold the inquest to-day. Three raftsmen, who stopped a moment at Vercheres, thought the deceased was a boatman who, in a drunken brawl, fell out of his boat at St. Anne's.

Returned.

Mr. George Stephen, President of the Canadian Pacific Railway, returned to the city from the North-West this morning. He reports everything flourishing, the land office of the Company satisfactorily organized and the sales of lands commenced with great vigor.

THE SURGEONS CONDEMNED.—LONDON, September 30.—The *Lancet* condemns the surgeons for making the best of Garfield's case in the bulletins, and says a bulletin should be the truth and nothing but the truth.

AMERICAN.

THE REPORT OF THE AUTOPSY.—PHILADELPHIA, September 30.—It is stated that Garfield's heart was unusually small, weighing only 8 or 9 ounces. It is asserted that the forthcoming detailed report of the autopsy will show that the heart was carefully examined and no blood clot found. It is also said the autopsy revealed that the President had peritonitis before he was shot. It had entirely healed and was caused by chronic dysentery during the war. The report will show that the peritoneum was ulcerated and one of the arteries entering it was also inflamed and ulcerated and gave way, letting out the blood upon the weakened peritoneum, which could not hold it and was ruptured.

Wholesale Provision Market.

The situation as regards dairy produce is altogether unchanged and there is scarcely anything doing in either butter or cheese. The following *resumé* of the New York butter market fitly represents the condition of things here. "Demand does not greatly improve, the high cost of desirable stock leading to caution among buyers, and the warm weather having had an influence to keep purchases down to a close limit of actual necessity. Even with the outlet thus reduced, however, there is no gain in the supply of strictly fine butter, and offerings that will pass muster under the critical examination of buyers readily command a price in accordance with their condition." Eggs here are steady and fresh supplies would command 18c. Hog products are firm and we quote sales of lard at 15½c and 16c. Examined heavy mess pork brings $23.50 to $24; hams, city cured, 13c to 14c, and bacon 12c to 13c. We quote dairy produce as follows:—Butter—Wholesale prices—Creamery, late made per lb, 24c to 26c; Townships, good to choice, per lb, 21c to 22½c; Morrisburg and district per lb, 20c to 21½c; Western dairy, per lb, 18c to 19½c. Cheese—September, per lb, 13c to 13½c; August, per lb, 12c to 12½; Skims, per lb, 5½c to 7c.

Montreal Cattle Market.

The market continues dull for shipping cattle at former prices. Exporters complained of low prices on the other side of the Atlantic and only took a few lots to fill their engaged space on the steamers, paying from 4½c to 5c per lb, the latter, however, being an exceptional rate. Small butchers' cattle were plentiful and were selling at 3c up to 4½c according to quality. Live hogs were firm at 7½c to 7½c. A large business was done in lambs at $3 to $4 per head. Fat sheep brought 4½c to 5c per lb. Ocean cattle freights from this port are quoted at £2 5s to £3. The following were the exports:—Per SS. "Cynthia," for Glasgow, J. Sullivan, 42 cattle; J. Eakins, 55 cattle; J. McNicol, 150 sheep; H. Beaudry & Co., 101 sheep; H. Kelly, 21 cattle; P. Irving, 119 cattle; C. M. Acer & Co., 47 cattle. Per SS. "Lake Manitoba," for Liverpool, R. Craig, 33 cattle; D. McIntosh, 102 cattle; D. D. Thompson, 54 cattle; T. Bonnor & Son, 58 cattle; A. Armstrong, 96 cattle; Price & Delorme, 685 sheep; J. McShane, 233 sheep. Per SS. "Brooklyn," for Liverpool, Jas. McShane, 266 sheep; McDougall & McLean, 80 cattle; T. & J. Lingham, 373 sheep; A. J. Thompson, 112 cattle; T. Gowenlock, 151 cattle. Total shipments this week, 970 cattle, 1,806 sheep; last week, 1,759 cattle, 3,668 sheep; total exports to date, 37,612 cattle and 53,332 sheep.

Financial Items.

The *Daily Telegraph* in its financial article says: "Little importance is attached to the failure of the Bank of Luxemburg, which was fully anticipated. Some influential firms in London closed their transactions with the bank a year ago. The total liabilities are estimated at £300,000, and the liquidation will probably be unfavorable."

In announcing the resumption of business by the Maritime Bank, the St. John *News* says:—"The shareholders have authorized a ninth and tenth call on the stock, from which will be realized about $140,000. The assets of the Bank—reduced to an absolutely cash basis—are worth another $140,000, in excess of its liabilities. Then the Bank retains 3,000 unsold shares, the par value of which is $300,000. And under the charter the capital can be increased by another million of dollars. With such resources, present and prospective, the shareholders have acted wisely in deciding to go forward, rather than abandon the affair altogether. The Bank is needed. For a time, doubtless, its business will be of a conservative character, and the aim of its management will be rather to re-establish its credit than to engage in very extensive operations. But with so good a board as is indicated in our report of yesterday's meeting, and who, it is hoped, will be secured for the new management, and with so experienced a banker as Mr. McLellan at its head, much time need not elapse before the Maritime should again stand high in public favor."

Special Notices.

THE LARGEST SALE of the kind ever held in Canada, the amount being over $7,000. We are sorry to learn that the sale of Oriental Carpets, Rugs, &c., by M. Hicks & Co., did not go off with the spirit that was anticipated for such a valuable collection. This must be attributed to the inexperience of the majority of our people with such expensive goods; for amongst the principal buyers were ladies and gentlemen from New York and Boston, who made their selections here with the facts before them that, in addition to having paid the Canadian duty, the goods had farther to bear the enormous rate of 45 per cent. on being taken into the States. The large Turkey Carpet which took the first prize at our Exhibition goes with others to Boston.

MINNIGREY!

BY

J. FREDERICK SMITH.

Author of "The Jesuit," "Amy Lawrence," &c.

This story was commenced in THE STAR under the title of

"THE HIDDEN RING,"

and the original title of "Minnigrey" has been restored, as the author was suffering injustice by the change.

CHAPTER XXXI.—*Continued.*

"I do not think so," replied the illustrious soldier; "from boyhood I have been accustomed to study motives more than words. I am not often deceived."

The colonel felt, as he fell back into his place, that he was destined to hate the two unoffending youths, whose only crimes were a manly resistance of tyranny and oppression, and a devoted attachment to each other.

An hour's gallop brought them to that plain destined to be immortalized by the first victory of the Great Captain in the Peninsula. Gus, upon whose memory every word which had fallen from the treacherous Zingari was impressed, had not once erred in the route. He carefully avoided the wood on the right hand of the plain where the French were concealed, and brought the party to the mountain road on the left. As soon as they made their appearance on the heights, a hearty cheer was heard, and the gallant 7th, who had been stationed near the Convent of San Joachim as a matter of precaution, and despatched by an order from Wellesley the instant he was aware of the intended treachery, broke from the wood, and found on the plain that they had a number of French officers and men prisoners in their ranks. The intended ambuscade, so artfully planted, had been surrounded and defeated.

Sir Arthur raised his hat, and the cheer was hastily repeated. Then the men began to understand him. Despite his severity, which was necessary as the only means of preserving discipline in the army, it did not prevent his being at first more liked by the privates than the officers, who mistook the natural nerve and coldness of his manner for pride—a feeling which soon yielded to the *prestige* of his genius and military glories.

With a rapid glance Wellesley scanned the plain, marked its capabilities, surveyed the neighboring heights, ascended the road which Gus pointed out, assured himself by personal observation that it was practically available for artillery. For nearly an hour he sat upon his impatient steed, resolving in his mind the stratagem which was to insure the victory to his arms, and chase the invaders from Portugal. Whilst thus occupied, none presumed to address him. Peter and Gus, who both anxiously watched his movements, saw him at last close his telescope with an air of satisfaction.

"It will be soon over with the French," they thought; "there is more in that Roman-looking head than the world at present supposes."

Three days later, and their prediction was accomplished.

On their arrival at the encampment of the main body of the British army, the two friends were struck with admiration at the order which reigned throughout; they did not draw rein till they reached the tent of the commander-in-chief.

"Hill," he said, addressing the colonel, "you will bring up your regiment in the morning."

"And my two men?" observed Hill, pointing to the deserters.

"Will remain here under close arrest," replied Sir Arthur. "Don't be uneasy, Hill; you will find them on your return."

With these words the commander-in-chief passed into his tent. Half an hour afterwards Gus and his friend were close prisoners in the sacristy of a neighboring church, which served as hospital and prison for the army. To the satisfaction of both they were served with the usual rations, to which, at the expense of a doubloon, they bribed the sentinel to add a flask of excellent wine. The repast finished, the two friends surveyed each other in silence.

"Well, Gus," exclaimed Peter, thrusting out his legs with an air of amiable satisfaction, "what think you of our position? An hour ago I should scarcely have objected to being shot; but after a good repast, and that excellent flask of wine—by-the-bye I wonder if the sentinel could procure us any more of it—I confess life once more possesses a charm for me."

"I confess I do not understand Sir Arthur," replied our hero; "but I do not doubt him. My opinion is, he only waits to try us."

"Mine, too," observed his companion in misfortune, drily; "and after trial, we know what generally follows."

"Pshaw! it is not that I meant."

"What then?"

"Try our metal—what heart-courage we sinners are composed of. True, we have rendered both to him and to the army an essential service."

Peter nodded, as much as to say, "Go on."

"But for all that," continued Gus, "we may be two of the greatest scamps unhanged for anything he knows to the contrary. The evening battle—for I saw by his eye as he glanced over the plain this morning that there is sure to be one—will decide our fate."

The speaker was right—it did decide their fate.

The evening before Sir Arthur Wellesley drew up his forces on the plain of Vimiera, to protect the disembarkation of the reinforcements under General Austruther, which had several days been waiting in the bay, Hickman entered the sacristy. There was an anxious shade upon the countenance of the rigid old soldier; he was as much puzzled to understand the conduct of the commander-in-chief as the two friends themselves. Despite the difference of rank, and the severe laws of military etiquette, he could not avoid shaking hands with our hero. The annoyance he had endured from Colonel Hill on his account only increased the interest he felt in his favor. He made the young men recount all that had taken place When they had done, he shook his head.

"An evil sign," thought Peter mentally.

But the confidence of Gus was not in the least disturbed by the omen.

"It is a great service you have rendered, doubtless; but Wellesly will never pardon desertion and breach of discipline. If you are brought to trial, you are lost. I almost wish you had escaped; he gave you ample opportunity."

"And were he to give it to me again, I should act as I have done," replied Gus. "I somehow fancy, adjutant, that I understand the character of the commander-in-chief better than you do."

"Better than I do!" repeated Hickman, who served with him in India. "Don't deceive yourself, my poor boy. I know that he this very morning refused your pardon to Major Talbot, who has as much influence with him as any officer in the army, although he pleaded warmly in your behalf, and explained from beginning to end the cause of your quarrel with Howard."

Peter looked very black at the intelligence, but the countenance of his friend was still unmoved.

"His answer was," continued the speaker, "that he had resolved never to pardon a deserter, and requested the major not to press him further on the subject."

"Then we are still prisoners?" observed Gus.

"No," replied Hickman; "that is the most extraordinary part of all. He commanded, that to-morrow you should take your places in the ranks; the attack is expected; it is only to give you a chance of being honorably killed, instead of being shot like dogs."

A smile of triumph illumined the countenance of both the young men; they felt that Wellesley had understood them as they wished to be understood; had given them an opportunity of redeeming their honor. They desired no more. With a light heart they left the prison, and followed their friendly visitor to the quarters of the regiment. A spontaneous cheer broke from the men as they approached the fire, round which the troop they belonged to were bivouacked.

Williams was the first to shake Gus and Peter by the hand.

"Pardoned!" he said.

"Ay, on condition of getting ourselves killed in the morning," replied one of the men, who had overheard the conversation between Hickman and the deserters in the prison.

A murmur of dissatisfaction broke from the group, which was quickly subdued by our hero explaining to them that the commander-in-chief had acted quite as nobly by them as they could expect.

The men did not understand him, but they inquired no further.

To be continued.

The number of insane persons in the United States is put down by experts at 100,000, and the same authorities say that from ten to twenty per cent. are curable by present methods.

A young Troy lawyer's way of annoying several enemies in his profession was to send them heavy packages of old paper through the mail with single postage stamps only on the envelopes, thus compelling them to pay double the deficient postage.

Truth has discovered that the Americans are an ingenious people. Finding that the boxes in which American apples were sent in such large quantities to England were afterward of little use, they now pack the apples in coffins, which command a ready sale.

A messenger was sent from Muskegon to a Michigan lumber camp to inform a man of the death of his child; but he used the money given him in getting drunk, and did not perform the errand. He never got sober, for lumbermen hanged him before he had time.

Camels were tried for carrying freight across the California desert, a number of years ago, but the experiment proved a failure. Some abandoned camels, however, lived and bred in the Gila and Salt River bottoms, and it is now said that considerable herds, run wild in Arizona and New Mexico.

John Monroe packed his household effects in a wagon, and started from Illinois for Missouri. His wife accompanied him, and there was scant room for two in the vehicle. When she fell ill on the way and required space to lie down in, John was puzzled what to do. He finally laid her by the roadside and went on. She died there alone.

Whitson, as Town Marshal of Chama, New Mexico, was instructed to enforce an ordinance against carrying weapons. He saw a pistol in Keiser's belt, and tried to take it. Then Keiser proposed a duel at ten paces, and the officer agreed. It was a bright moonlight night, and the firing was done at once, with the customary formalities. Both were hit mortally.

The pastor of St. Mary's Roman Catholic Church, Pittsburgh, announces that he will refuse absolution to any parent or guardian who sends children to the public instead of the parochial schools. A member declares that, in case of the priest's refusal to spiritually minister to his family in the manner prescribed by the usages of the Church, recourse will be had to the civil law.

A new Chicago theatre has two "fashion boxes," containing twenty chairs, each directly in front of the customary proscenium boxes, and so arranged, with the rails only slightly above the floor and the seats rising sharply, that a clear view of the occupants can be had from the other parts of the house. The idea is to let handsomely dressed women exhibit themselves, and the astonishing fact in the matter is that they embrace the opportunity.

In Savannah the annual death rate for 1,000 whites for the year 1880 was 19.85, and for the colored, 45.47. In the Mayor's opinion the disparity is due to a non-observance of sanitary laws on the part of a portion of the colored people, and to their unintentional neglect of the necessities of the sick. The authorities provide medical attendance and dispensaries for them, but they have not yet learned to take full advantage of the city's liberality.

In front of Col. Thomas Mead's house in Greenwich, Conn., stands a sycamore, or ball-wood tree, which is 171 years old, having been planted in 1710. It is about 150 feet high, and fifteen feet from the ground, its circumference is twenty-eight feet, and its diameter nine feet. A hole in the trunk, which is now no bigger than a man's hand, was not many years ago large enough for a man to crawl into, and was once used by children as a sort of playhouse. As the tree has grown of late years the aperture has gradually closed.

A Chicago police captain arrested a wife murderer, but could not find the remains of the woman, and the case seemed likely to fall through. Knowing that the prisoner would be speedily discharged unless some proof were forthcoming, the Captain entered the cell with a paper in his hand, and said:—"Your wife isn't dead, after all. She was found alive where you left her, and taken to hospital. This is her sworn statement of what you did to her. She wants to see you." The murderer was completely deceived. On the way to the hospital, as he supposed, he was induced to tell where he had shot his wife, and there the body was found.

Edward D. Armstrong and his niece made a marriage engagement at New Windsor, Ill., and when the girl became convinced, through the arguments of her parents and others, that such a union would be improper, and sent him word that she would not keep her promise, he declared his intention to commit suicide. "But if any of you who are so strong at arguing can convince me that it is worth while to live," he said, "I will not kill myself." They talked with him a whole afternoon, and supposed when they left him he had changed his mind; but they had not got out of hearing when he fired the fatal shot.

Mrs. Cooper, cousin of Colonel Robert Ingersoll, and member of a San Francisco Presbyterian Church, announced her disbelief of the story of Jonah and the whale. She was adjudged a heretic by the session of the Church, and expelled. She retaliated by accusing the pastor, the Rev. Mr. Roberts, of bad conduct of various kinds, and particularly of preaching a sermon which was in effect an advertisement of his own business as a life insurance agent. There has been an acrimonious controversy and a trial before the Presbytery, in which Mr. Roberts incidentally accused a reverend brother of "bombast, malignity, and ingratitude," and Mrs. Cooper remarked that she would rather have her cousin Ingersoll's society in hell than her pastor's in heaven. Mrs. Cooper was pronounced a heretic by a vote of 9 to 8.

Dr. Cream and Mrs. Stott were in love at Belvidere, Ill., and they concocted a peculiar plan for safely murdering the woman's husband. Stott being ill, the Doctor was called in to attend him. A prescription containing a safe amount of strychnine was sent to a druggist, and when the medicine came a large quantity of the poison was added. It was calculated that Stott's death would at once be traced to the strychnine, and that its presence in a fatal proportion would be ascribed to a blunder by the druggists. The murderers would probably never have been detected if the woman had not distrusted her partner. When she heard that he had himself announced that death was the result of poisoning, she mistakenly inferred that he meant to fix the crime upon her, and she hastened to make a statement inculpating him. His trial has just ended in conviction, and she will get off with a lighter punishment, because she became a witness for the prosecution.

Stein's courtship of Miss Mack, in Chicago, was not successful until he pretended to commit suicide. He leaped into the lake in the presence of several hundred persons, and was readily rescued; but the girl believed he was really desperate and married him. Wedlock with such a man naturally proved unhappy, and at the end of three months he threatened to kill her. She said that she would willingly let him do it, provided he would take his own life immediately afterward. With that understanding, they went out to a lonely spot on the prairie. The wife seated herself on a pile of earth, and the husband shot her through the head, killing her instantly. But he either lacked the courage to shoot himself, or had not intended to. He returned to the city, and at first confessed his crime; but afterward denied it, saying that Mrs. Stein had gone away on a visit. The discovery of her body, however, coupled with his admissions, fixes the crime upon him.

PAIN-KILLER!

IS THE GREAT REMEDY!

BELLEVILLE, Ont., February 12, 1880.

This is to certify that I have used Perry Davis' Pain Killer in my house for several years with great satisfaction. I was taken with cramps one night in the stomach, (from eating green fruit), and after taking the Pain Killer according to directions, I was almost instantly relieved. I believe it saved my life.

DON'T BE WITHOUT IT.

Sold Everywhere, 20c and 50c per bottle.

SYR: HYPOPHOS. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES COMP: FELLOWS.

Consumption, Bronchitis, Asthma.

Were Fellows' Compound Syrup useless in all other diseases, the benefit which it undoubtedly yields in Consumption and other diseases of the Respiratory Organs would vindicate its claim to the attention of every medical practitioner. From the statistics of England and America it is a fair estimate that one-tenth of the entire deaths is caused by Consumption alone. If the Syrup is used perseveringly it subdues the tendency to Consumption, and in many confirmed cases, as in that of the inventor, it has effected a cure.

Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases Fellows' Compound Syrup of Hypophosphites has proved itself of the greatest service. The evacuations soon become copious and healthy.

This Syrup will cure Pulmonary Consumption in the first stage, and will give great relief and prolong life in the second and third. It will cure Asthma, Bronchitis, Laryngitis, and Coughs. It will cure all diseases originating from want of Muscular Action and Nervous Force.

Public Speakers and Singers

will find this Syrup of inestimable value. A dose should be taken before speaking or singing.

Aphonia, or the Loss of Voice, is usually cured by a few doses. We have known cases where a single dose has been effectual.

S. JACOB, M.D., St. John, N.B., writes:

"I had occasion to use your Syrup in a case of Aphonia which would not yield to regular treatment; it proved to be all that you claimed for it, having acted with expedition and entire satisfaction."

Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this under any circumstances.

NEW INVENTION.

Dansereau's Patent Carriage Top,

Made and Patented by

PIERRE DANSEREAU, Carriage Maker,

Nos. 219 and 221 Craig street, Montreal.

This new carriage top has been patented in Canada on the 7th May, 1881, and in the United States on the 5th July, 1881. First Prize and Diploma Montreal Exhibition, September, 1881. This patent carriage top is entirely new and possesses the following advantages over the ordinary carriage tops: It is made entirely of wood and so constructed as to open and close like those made of leather. It can be put up on any kind of Summer or Winter carriages or coaches. It is more durable than any made of leather or cloth only which after a very short time break and crack in the folds, show all the ribs and give the carriage a shabby and worn out appearance. Moreover, the cold which in Winter cracks the leather has no effect on this patent top, which can at any time be made new with a fresh coat of paint and varnish, which preserves them for almost any length of time. This patent top is also made to receive glass sashes all around, making the interior of the carriage well lighted and, which is more important, very warm in Winter. It possesses more particularly the great advantage of opening and closing at will and with great ease, in the Winter as well as in the Summer carriages, without any risk of breaking any part of it as it often happens in the other kinds. This top is without doubt the cheapest most economical that can be built. It dispenses also in Winter with the use of a great part of the costly fur robes now necessary. In this respect it secures to the carriage-makers and hackmen immense advantages, by the economy of its construction dispensing with a costly leather and taking much less time in building. Finally, it allows the same body with its top to be used either in a sleigh with glass panels opened or closed or in the same way in a Summer vehicle or coach. This patent top has received the approval of the principal carriage builders of Montreal, who have examined it and whose letter is appended:

P. DANSEREAU, Esq.,—We, the undersigned, after examining your patent carriage top, have much pleasure in saying that we find it a very useful, economical and durable one and we have no doubt it will advantageously replace those utilized until now. Signed, N. & A. C. LARIVIERE, BRUNO LEDOUX, F. SITCHOT, JULES LAJEUNESSE. 221x

New Books.

BY studying the Science of Life; or, SELF-PRESERVATION. It is not only a complete and perfect treatise on Manhood, Exhausted Vitality, Nervous and Physical Debility, Premature Decline in Man, etc., but it contains one hundred and twenty-five prescriptions for acute and chronic diseases, each one of which is invaluable, so proved by the author, whose experience for 21 years is such as probably never before fell to the lot of any physician. It contains 300 pages, bound in beautiful embossed covers, full gilt, embellished with the very finest steel engravings, guaranteed to be a finer work in every sense—mechanical, literary or professional—than any other work retailed in this country for $2.50, or the money will be refunded. Price, only $1.25, by mail. Gold Medal awarded the author by the National Medical Association. Illustrated sample sent on receipt of six cents. Send now.
