SCHOOLGIRL SUICIDES.

READING OF CRAZY NOVELS LED HER TO COMMIT THE ACT.

Ottawa, Mich., October 10.—Bessie Gray, aged 12, a schoolgirl, committed suicide by taking poison Monday in the presence of four of her playmates at the farmhouse of the country school in Venice township. That the child should commit a crime so heinous is a sad commentary on the reading of sensational novels.

MISS BAACON HAS RETURNED FROM A VISIT TO FRIENDS IN MONTREAL.

The opening of the Association Evening School was held last night in the Y.M.C.A. A large number of students were present and the school is enrolling a larger number than past years. After the enrollment was completed, Mr. H. V. Haight, B. A. Sc., the Educational Work chairman described all the courses and addressed the students on matters pertaining to education. Rev. G. E. Read then gave the opening address on the value of education and gave advice to the students on how best to pursue the work. Mr. W. S. Hopkins, managing secretary of the Association, spoke on the advantages of the Association Evening School to young men. The average young man is either compelled or voluntarily does quit school too soon. To all such the Association school gives an opportunity to supplement their lack. Then courses in all commercial and technical branches are offered. There are 47,750 students studying in Association evening schools. Last year the Sherbrooke Association school ranked highest for any town of 15,000 population in Canada. Only 4 larger schools were reported in large cities. In efficiency the school ranked 6th in U. S. and Canada.

TEACHERS WILL MEET AT SHERBROOKE.

Bidwell, M.A., Headmaster Bishop's College School, Lennoxville; Rev. Dr. Gibbins, Principal of the University of Bishop's College; Principal N. E. Truell, of the High School, Sherbrooke; and Major R. J. Hewton, M.A., Inspector of Public Schools. The public are invited to attend this meeting.

CELEBRATE SILVER WEDDING.

On the 5th of October, 1881, Mr. Robert Price and Miss Rebecca McCoomby were united in marriage at St. Peter's Church, in this city, by Rev. Canon Brock, then rector.

Last Friday, Oct. 5th, 1906, Mr. and Mrs. Price celebrated their silver wedding in a pleasant, informal fashion at the St. Louis Hotel, surrounded by their large family and friends.

The guests to the number of about eighty, were cordially received by Mr. and Mrs. Price, in the parlor, the latter wearing a handsome dress of black beau de soie, with touches of white.

Many were the congratulations and good wishes bestowed upon the host and hostess, who received suitably. An elegant supper was served in the large dining room, the tables being beautifully decorated with potted palms, carnations and smilax. Mr. and Mrs. Price presided, and the young people waited upon the guests, and sides of nothing and characterize all of the details incident to the work of extension and betterment.

The company has their own spacious and well-equipped office and exchange buildings at all important points in the territory in and here in Montreal, besides the imposing office building fronting Notre Dame Hospital and St. John streets, also have two large exchange buildings at other points in the city. They also manufacture their own instruments, cables and wires, and have in the world is there to be found a better equipped or more capably managed plant than that of the Bell Telephone Company of Canada. The company now give employment to an average force of more than 1,500 persons engaged on both inside and outside work, and every year it has been business more than a quarter of a century ago has been marked by a substantial increase in the number of subscribers and stations in use. It is expected that 1906 will show greater gains than any previous year in the company's history, which significant fact attests a widespread and growing appreciation of its superior and satisfactory service in the newly-settled districts as well as throughout the Dominion.

The company's executive and official staff is to be commended for its strength, ability and high character. The president, Mr. C. F. Sise, held the office of vice-president from the company's organization until 1890, when he was elevated to his present important and responsible position. Mr. C. P. Sclater has been secretary and treasurer since the organization in 1880, while Mr. L. B. McFarlane, who has been in the company for the past 25 years, formerly held the position of general superintendent, but was promoted to be general manager a few months ago. All of these gentlemen are widely and favorably known for practical experience and intimate knowledge of the details of telephonic management, and the great forward strides made by the company may be attributed in no small measure to their intelligent and well-applied efforts.

Regarding the new issue of \$1,000,000 of capital stock, it may be noted that each stockholder of record August 31, 1906, will be entitled to take, at \$125.00 per share, an allotment of new stock in the proportion of one share for every share now held, and the right to subscribe will expire at one o'clock on the afternoon of September 15th. It is not to be doubted but that the present stockholders will speedily avail themselves of the opportunity to increase their holdings in this desirable dividend-paying stock.

In conclusion, it may be said that able and conservative management has been an important factor in the continued success and prosperity of the Bell Telephone Company of Canada, and there is every reason to believe that the coming years will but add to the company's possibilities of usefulness and influence. The stockholders have abundant reason to felicitate themselves upon the capable and intelligent management in which their interests have been advanced and promoted, and they must naturally feel great gratification at the many evidences of the company's continued success and prosperity.

BIRCHTON SHOOTING CASE.
(Continued from page 1.)
shot was fired when the young men were passing again.

Cross-examined—The rifle now produced in Court was the one that I used. Mrs. Sharpe said: "Let me see this rifle first." A few moments ago she lost his rifle, she further said that she would scare them, too. I had no intention to hurt them—simply to scare them. They were very noisy when they passed and were disturbing the peace. I now produce a cartridge similar to the one I used.

This closed the evidence and Mrs. Sharpe was bound over to take her trial at the next term of the Court of King's Bench. She was liberated on bail, the bonds being a personal bond of two hundred dollars, and two sureties of one hundred dollars each.

EAST BOLTON.
Oct. 10.—Mrs. E. Paige died at her home on Wednesday evening, Oct. 3rd, after several months' illness, which she bore with Christian patience. She leaves a husband and five children. Mr. Paige is in poor health. A few months ago he lost his little son. The funeral service was held in the school house. Rev. W. Smith, of Knowlton, preached to a large and sympathetic congregation. The floral gifts were numerous, resting the casket in the church was held.

A number of our young people attended the chicken pie supper at East Bolton Friday evening.

Mr. James Mooney and sister, Miss Susie visited Mr. and Mrs. R. Brown on Wednesday.

The first snow storm came Oct. 7th, reminding us that winter is near.

Mr. A. McLaughlin has been improving his house by painting, and a few months ago he lost his little son.

Mr. and Mrs. G. Pashy and family spent Saturday and Sunday, with relatives at Millington.

Mrs. P. McGuire and son, Willie visited Mrs. McGuire's sister, Mrs. M. Sweet, of West Bolton, on Saturday.

Mrs. Selby and Mr. Selby, of West Bolton, who have been caring for Mrs. Paige, have returned home.

The recent box social held here was largely attended. A most enjoyable evening was spent.

GREAT FORWARD STRIDES.

FACTS AND FIGURES RELATIVE TO THE STEADILY INCREASING BUSINESS OF THE BELL TELEPHONE COMPANY OF CANADA, WHICH HAS RECENTLY INCREASED ITS CAPITAL STOCK FROM \$9,000,000 TO \$10,000,000. (From the New York Mercantile and Financial Times.)

The City of Montreal proper has a population of about 350,000, to which must be added a population of about 75,000 residing in the suburbs of Greater Montreal. This in itself would constitute a most desirable field for telephonic service and development; but when to Montreal we add the numerous large municipalities throughout the Dominion the subject assumes an aspect of even greater magnitude and importance. The people of Canada are in no wise lacking in their appreciation of modern improvements, and as a consequence they look upon the telephone as one of the agents of progress and one of the most important factors in the development of business and commerce.

Apologies of these thoughts it will be of interest to note the fact that the Telephone Company of Canada is generally recognized as being one of the most prosperous and useful public service corporations in the entire Dominion, and a significant evidence of its continued success and prosperity is evinced by the fact that its capital has recently been increased from \$9,000,000 to \$10,000,000, with the object of providing additional cash for the immediate and systematic extension of its system and development of its service.

The new issue of stock is being subscribed by the public at the rate of \$125.00 per share, its par being \$100.00, and at this figure it is an investment of such great promise as to assure a speedy purchase of the entire issue by those who are fortunate enough to be present stockholders of the company. The stock is now quoted on the exchange at \$152.00 per share, hence it will be seen that the interests of the 1200 or more stockholders of the company have been wisely considered by the management in offering the new stock to them at a figure so much below the market price. The dividend on the stock is at the rate of 8 per cent. per annum, and has been so for twenty years past.

The Dominion Government has recently empowered the Bell Telephone Company of Canada to increase its capital stock from \$10,000,000 to \$12,000,000, so that the company may issue additional stock from time to time as conditions may make such action necessary for the extension of its system. This is the parent Bell company in Canada, and has been in existence since 1880. The territory covered includes the provinces of Quebec, Ontario, Manitoba, Alberta, and the entire Canadian Northwest, in which the company now have about 100,000 stations, the number of which is being increased daily.

The company also have about 1,500 offices, 550 of which are telephone exchanges, as well as 40,000 miles of long distance wire, and about 9,000 poles. The wires of all the larger exchanges in all of the most important cities are underground, and their installation and characterize all of the details incident to the work of extension and betterment.

The company has their own spacious and well-equipped office and exchange buildings at all important points in the territory in and here in Montreal, besides the imposing office building fronting Notre Dame Hospital and St. John streets, also have two large exchange buildings at other points in the city. CASES BEFORE JUDGE MULVENA.

Heard at Waterloo and Sherbrooke.

SKIM MILK CASE FROM LAWRENCEVILLE — LIQUOR CASES FROM LA PATRIE.

Judge Mulvena was in Waterloo yesterday and held a term of Court.

The attention of the Court was occupied nearly all day with the case of M. Masse against Lewis S. Gervais, of Lawrenceville. The accused was charged with furnishing deteriorated skim milk at the creamery. The evidence of the experts and factory inspector and Government chemist showed that the samples tested by the inspectors, and analyzed by the chemist were lacking 25 per cent. of butter fat. A large number of witnesses were examined, and the evidence being somewhat conflicting the Judge took the case under deliberation until the 14th of November.

In the case of J. S. Roberge against V. Hudon, of Lawrenceville, charged with unlawfully killing a heifer in the month of April, 1898, the Court, after hearing the evidence for the prosecution, dismissed the complaint and discharged the accused.

IN SHERBROOKE COURT.
Before Judge Mulvena, in Sherbrooke this morning, J. B. Lohman, of La Patrie, was charged with selling liquor without a license. As this was his second offence, he was condemned to pay a fine of \$100 and costs.

L. Cote, of the same place, was fined \$50 and costs for a similar offence.

CHARGED WITH HOUSE-BREAKING.
Robert Smith, of Kingsley, and P. Sullivan, of Cleveland, were brought to Sherbrooke jail yesterday evening, on a charge of breaking into the house of Mrs. Hyndman, of Cleveland, last June and with stealing a quantity of household goods. They were arrested under a search warrant and some of the goods was found in their possession.

They will come to-day before Judge Mulvena for preliminary hearing.

EAST DURHAM.
Oct. 11.—George Johnson has his new house nearly completed.

Mr. A. Carter, from East Durham, was here visiting friends last evening, and Mrs. Eddie McCrum, of Iron Hill, spent Saturday and Sunday with Mr. and Mrs. J. N. Townsend.

We understand that John Dymond, Jr., has sold to the Jates & Johnson Co., his iron mine, consideration, \$600. Others are about to follow suit, and dispose of their property for mining.

Mr. Ernest Curley had the misfortune to have a cow break its leg while in the pasture.

J. N. Townsend and John Pasha are at Iron Hill for a few days.

Our stage route has changed hands again. Mr. M. Polander started in October 1.

BIRTHS.

NOYES—At South Barnston, on Tuesday, the 2nd of October, a son to Mr. and Mrs. J. Oris Noyes.

A PRISON MYSTERY

PUZZLES POLICE AND PUBLIC IN TYROLESE TOWN.
Geneva, Oct. 10.—Two head of women, whose identity has been established, are wanted on a charge of having poisoned a wealthy man at the Swiss-Austrian frontier. The old woman, who kept number of servants, had lived in the house for two years, and a few months ago she was found in bed, mortally poisoned. The body was made an examination of the stomach. As there was no evidence to arouse suspicion, the jury returned a verdict of acquittal.

Thursday, when the funeral have taken place, the police moved, and it appears that the body of the old woman was received information that the old woman's death was due to poisoning. An inspection of the house established that a window had been forced from the outside. The police believe that the old woman was being visited by her visitors.

CONSERVATIVES WIN IN NORTH RENFREW.

MAJORITY OF A THOUSAND—ONE OF THE LIBERAL CANDIDATES LOST HIS DEPOSIT.
Pembroke, Ont., Oct. 10.—The election held yesterday for the vacancy in the House of Commons for the constituency of North Renfrew, rendered necessary by the death of Hon. Peter White, resulted in the return of Gerald White, Conservative. The report of the House of Commons, the majority in the victory of the Conservatives. The returns so far are incomplete, but indicate that White's majority will be in the neighborhood of 1,000. It is certain that Dr. McKeay, who ran as the Laurier candidate, will lose his deposit, and the probability is that the full returns will show that the nominee of the Liberal convention, Thos. Murray, will also, share the same fate.

A PRISON MYSTERY.

PEZZLES—POLICE AND EXCITES PUBLIC IN TYROLESE TOWN.
Genua, Oct. 10.—Two heavily veiled women, whose identity has not been published, are wanted on a charge of having poisoned a wealthy old woman at Schwanegg, a small town near the Swiss-Austrian frontier.
The old woman, who kept a large number of servants, had lived in the house for two years, and a few days ago was found dead in bed. A post-mortem examination of the body was made and arsenic was found in the stomach. As there was no evidence to arouse suspicion of foul play, the jury returned a verdict of "Not guilty."

Some Troops Leave Bucking... -Inquest To-Day- Defect In Warrant

Buckingham, Que., October 9.—With detachments of infantry cavalry patrolling both banks of the river for a distance of one hundred yards, the Montreal Company yesterday afternoon successfully carried out an attempt to start the log jam course down stream. The breakers of the strike were in any sort on the demonstration, the operations of the strikers, the operations of a few spectators gathered and displayed but a mild interest in the proceedings. Last night at 11 o'clock fifty men, half of the 43rd regiment, and half of the Foot Guards, remained on a special force. Major Morrison in command. The original detachment of today-today tawa will leave for home to-day. It is expected that the squad of Royal Canadian Dragoons which was rumored for at least two weeks ago, there is military protection in Ottawa for at least two weeks. However, it is anticipated that the men well defined. There is, however, well as withdrawn the situation again become serious. Those of more than ordinary experience with strikes and state that they have seldom seen more determined body of strikers, more determined and intelligent men who appeared in the city of the strikers are laying in a large quantity of ammunition in Ottawa. The progress of events now until the 10 o'clock this morning. The inquest in Ottawa this morning was reached to stay proceedings on the warrants already issued, for either side to make arrests. The coroner's jury had returned verdict.

Crown Prosecutor, Guerin will this morning, presumably to an advisor to the coroner through inquest. A technical illegality voided the warrants against seven men who appeared in the inquest, among them Alex. and McLaren, new warrants were a for and issued last night. These ever, will not be served until the inquest. All seven returned Buckingham in the course of the inquest in Ottawa on Monday, it was stated yesterday that a warrant had been issued for the arrest of Mr. Lamontagne, legal advisor, union. Mr. Lamontagne said night that he had heard the verdict and hoped that they would be released and arrested him. "I am afraid," he said, "let them proceed. Dr. Penoyer, of Montreal, and Lacombe and Costello, of Buckingham, yesterday afternoon performed second operation on Picard and the Montreal detectives were seriously injured in Monday's inquest. The first operation on Monday physicians failed to locate the bullet and in Picard's case yesterday again resulted. Picard again was taken without an anesthetic, though suffering great pain, he the cutting and probing with mummum. The physicians are so with his condition, the bullet well away from the lung. The case is more serious. He was hours under the physicians' knife yesterday afternoon and results of a most terrible wound in the chest. The bullet apparently had exploded, hitting the bone, spreading in fragments of a quarter of an inch from the top. While expert-tops will be given later, it was concluded last night that the bullet was a dum-dum, or a Lee-Method, the lead bitten off. The upper part of the femur was broken, the muscles are ripped and torn. The physicians are trying to

TOOK OVERDOSE OF STRYCHNINE. CHICAGO WIDOW DIES AT HOME OF RELATIVES. Guelph, Ont., Oct. 9.—Mrs. Drum, Chicago, a widow, who was visiting relatives in Guelph Township, is dead as a result of an overdose of strychnine. Whether it was taken accidentally or with suicidal intent is not known, as the unfortunate woman was alone in her room at the time. Mrs. Drum went into her room shortly after dinner hour on Thursday and was apparently engaged with some work. A little after two o'clock some of the members of the household heard a heavy fall in the room and opening the door found the unfortunate woman lying on the floor in an unconscious condition. The empty bottle which contained the strychnine was standing on the table. Medical assistance was immediately summoned, but all efforts to save the woman proved futile, and Mrs. Drum died shortly after five o'clock. Mrs. Drum was 33 years of age. Her husband has been dead for some years.

EAST FARNHAM. Oct. 10.—Mr. and Mrs. L. Fuller, of Rutland, Vt., also Mr. and Mrs. Le-muel Fuller, of Granby, were guests of Mr. and Mrs. Moroy on Saturday. THE CONFERENCE OF PREMIERS. Does Not Proceed Very Harmoniously. PROVINCES' REPRESENTATIVES UNLIKELY TO AGREE UPON A COMMON BASIS REQUEST. Ottawa, Oct. 10.—There is nothing to report, but we are making progress, as the statement made by Premier Lomer Gouin, of Quebec, the chairman, when the interprovincial conference rose shortly before one o'clock yesterday afternoon. The probability is, however, that this formal announcement that the progress indicated anything but harmonious doings with anything outward and visible sign of this was the misarrangement of the morning's programme. It had been arranged that when the conference resumed at ten o'clock the resolution drafted by the select committee the evening before would be taken up, and that at eleven o'clock the Prime Minister would be called in to receive the joint representations of the convention. But it fell out otherwise. At 11 o'clock the secretary of the conference, Mr. Lanctot, made haste out to the courier that the conference was not ready to receive him. This message was duly despatched to the west block, but it failed to intercept the Prime Minister, for, accompanied by the Minister of Justice, he appeared at ten o'clock in the Senate, only to be informed of the fact that the conference was not ready to report. "Sir Wilfrid accordingly retired, but without any manifest symptoms of surprise at the fruitlessness of his errand. There is a feeling that the conference may end in disagreement. SOUTH BARNSTON. Oct. 10.—Gilbert Magoon, from Beech Plain, was the guest of C. W. Humphrey on Sunday, the 7th inst. Mr. E. Sornberger was summoned to Ayer's Cliff Sunday to see Lewis Rexford, who is sick. Mrs. Edwin Chapman is at Rock Island, taking care of Mr. Howe, who was injured in a corn cutter, and had his arm amputated. BLACK LAKE. Oct. 11.—The friends of Mr. and Mrs. D. Wilson, of this place, will regret to learn of the death of their little girl. Mrs. B. C. Doyle came here to attend the funeral.

MONKEYS ATTACK CREW. BATTLED THREE DAYS WITH CHINESE ON BOARD THE LOW-THER CASTLE. New York, October 10.—There was mutiny on board the steamship Lowther Castle, which arrived here from Far Eastern ports, mutiny that lasted two days and two nights. Before it was quelled the mutineers were safe in the hold, fourteen of them had paid the penalty with their lives, and their bodies were thrown to the fishes. When the Lowther Castle, Captain William Lightoller, flying the British flag, sailed from Yokohama on June 30, with a Chinese crew, the officers did not believe that there would be trouble. All went well until after the ship left Singapore on August 10, and was out in the Indian Ocean well on her way to Port Said. At Singapore the bumboat men and other traders had come aboard with monkeys, and when the vessel sailed there were fifty of them stowed in the hold, to say nothing of two fine ring-tailed Simians that Wing Kee, the cook, had in a cage in the galley. In a few days the cook thought that the monkeys were playing, and Kiki, the female, was released. She immediately made a dash for the cage of her jungle companion, and the pair chattered so much and so long that it was finally decided to let both go free. Entering the Indian Ocean the freighter soon after ran into a storm, accompanied with much thunder and more lightning. To appease the demons of the storm the Chinese begged the captain to let them set off fireworks, and he assented. The two monkeys were badly scared and Kiki, jumping from the rail, fell into the sea. Her mate, Chang, saw what had happened, scrambled down the rigging, crouched up and down the rail and then went leaping aloft in the rigging, who he clung on to a backstay, and watched the little black spot drifting astern until it was lost to view. One of the Chinese sailors was sent aloft to bring Chang back to the deck, but the monkey attacked him so viciously that he made a hurried descent to the deck. Others were sent on the same mission, but they fared no better. For two days and nights the monkey kept his perch. On the third morning he disappeared, and it was believed that he had gone overboard, as no trace of him could be found. That night the ship was sedately plowing her way through the waters, when a most unearthly racket broke out from below, and before the startled crew knew what it was all about the decks and rigging became black with capering monkeys. Some of the crew rushed below to the cages, to find Chang capering from one to the other. They had all been fastened with the same simple device, and having found out how to open them Chang had just about opened them all and had just flung the last door open when the men from on deck appeared. Then began a monkey hunt which was to last for three days and nights. The monkeys seemed to multiply more than did their Chinese hunters. Their chief points of attack were the queues of their foes, and dropping from rat-line or stay plump on a Chinaman's shoulders, they would seize the queues pigtail and yank it joyfully, screaming and clanging all the time. Thirty-six of the monkeys were eventually secured, but fourteen were killed in the melee, or jumped overboard to avoid capture.

CAPITAL AND TECUMSEH SETTLE ON OCTOBER 13 AND 20 FOR DECISIVE GAMES. Ottawa, Oct. 10.—The question of the final games for the lacrosse championship has been definitely settled. Capitals play Tecumseh's Toronto next Saturday, October 13, and the Indians come to Ottawa, October 20. The effort was made by the Capitals' management to have the game here on Thanksgiving Day, and Monday, Manager Currie, of Tecumseh, and Secretary Foran, of Capitals, had a conference over the long distance phone in which the former made it clear that it would be impossible for his team to come to Ottawa on Thanksgiving Day, much as he would like to do so to give Capitals the benefit of the holiday game. Several of the Tecumseh's players and one Stewart, for business reasons, were unable to get away in mid-week, and refused to play on the suggested date. Therefore the best the Tecumsehs could agree to was final game here the 20th. This was satisfactory to Capitals, under the circumstances.

CHICAGO BASEBALL CRAZY. FANCY PRICES PAID FOR SEATS FROM WHICH TO SEE THE WORLD'S SERIES. Chicago, Oct. 10.—Old Chicago is just now insane over baseball—plumb bug house or dotty, or whatever term best fits the case, where the entire population sits up at night and howls because two pennants have been brought home by the baseball teams. Men who will have hard work digging up a winter overcoat or enough coal for the family, are paying fancy prices for seats at the world series which began Thursday. Thousands of dollars have already been wagered by partisans, and the betting will be something fiercer after the first game. Every seat has been sold, and many are being resold at twice and even four times the original cost. Friday \$100 was paid for a box that originally cost \$5. People residing in the vicinity of the park will derive a handsome revenue for the rental of their roofs and for windows overlooking the grounds.

SCARCITY OF LABOR. REPORTS FROM CANADA HAVE REACHED AS FAR AS JAPAN. Ottawa, Oct. 10.—Reports of the scarcity of labor in Canada have gone abroad, even to Japan, where it is superabundant, and the commercial agent at Yokohama, Mr. Alex. MacLean, thus reports to the Trade and Commerce Department: "It may be safe to say that the Japanese, when they emigrate, unlike others of the Oriental people, do not themselves with their adopted country. The charge that they take the money out of the country will not hold good against them. They are orderly, industrious, and great workers; that is those of them habituated to work alike that so much needed in Canada. They have adaptability to situation, and facility and resource in performing work. And there are plenty of them." Exports of tea from Yokohama up to the 10th of Sept. amounted to 13,335,600 lbs., a decrease of 1,293,900 lbs., partly due to a deficiency of the April and June crops.

RESCUED FROM SEA. SIX SAVED AFTER CLINGING TO CAPSIZED SCHOONER 14 HOURS. New Haven, Conn., October 10.—After clinging to the side of the capsized British Schooner Oceanic, for fourteen hours, Captain Lohems and his crew of five men were rescued Monday by the auxiliary yacht Aloha, belonging to Arthur G. James, of New York, and brought to this port. The Oceanic was towed here by the Aloha, and now lies on her beam ends in the lower bay harbor. She was bound from Louisville, N.S., to New York, with a load of spruce, and was en route while twelve miles west of the Sperm Light she capsized in a squall. The crew jumped overboard, but scrambled up the side after their vessel went over. There they clung until they were taken off by the Aloha, little more than a log of spruce. To prevent their being swept off by the schooner rolled in the sea, a human chain was formed, and the men clung to each other nearly all night.

MONKEYS ATTACK CREW. BATTLED THREE DAYS WITH CHINESE ON BOARD THE LOW-THER CASTLE. New York, October 10.—There was mutiny on board the steamship Lowther Castle, which arrived here from Far Eastern ports, mutiny that lasted two days and two nights. Before it was quelled the mutineers were safe in the hold, fourteen of them had paid the penalty with their lives, and their bodies were thrown to the fishes. When the Lowther Castle, Captain William Lightoller, flying the British flag, sailed from Yokohama on June 30, with a Chinese crew, the officers did not believe that there would be trouble. All went well until after the ship left Singapore on August 10, and was out in the Indian Ocean well on her way to Port Said. At Singapore the bumboat men and other traders had come aboard with monkeys, and when the vessel sailed there were fifty of them stowed in the hold, to say nothing of two fine ring-tailed Simians that Wing Kee, the cook, had in a cage in the galley. In a few days the cook thought that the monkeys were playing, and Kiki, the female, was released. She immediately made a dash for the cage of her jungle companion, and the pair chattered so much and so long that it was finally decided to let both go free. Entering the Indian Ocean the freighter soon after ran into a storm, accompanied with much thunder and more lightning. To appease the demons of the storm the Chinese begged the captain to let them set off fireworks, and he assented. The two monkeys were badly scared and Kiki, jumping from the rail, fell into the sea. Her mate, Chang, saw what had happened, scrambled down the rigging, crouched up and down the rail and then went leaping aloft in the rigging, who he clung on to a backstay, and watched the little black spot drifting astern until it was lost to view. One of the Chinese sailors was sent aloft to bring Chang back to the deck, but the monkey attacked him so viciously that he made a hurried descent to the deck. Others were sent on the same mission, but they fared no better. For two days and nights the monkey kept his perch. On the third morning he disappeared, and it was believed that he had gone overboard, as no trace of him could be found. That night the ship was sedately plowing her way through the waters, when a most unearthly racket broke out from below, and before the startled crew knew what it was all about the decks and rigging became black with capering monkeys. Some of the crew rushed below to the cages, to find Chang capering from one to the other. They had all been fastened with the same simple device, and having found out how to open them Chang had just about opened them all and had just flung the last door open when the men from on deck appeared. Then began a monkey hunt which was to last for three days and nights. The monkeys seemed to multiply more than did their Chinese hunters. Their chief points of attack were the queues of their foes, and dropping from rat-line or stay plump on a Chinaman's shoulders, they would seize the queues pigtail and yank it joyfully, screaming and clanging all the time. Thirty-six of the monkeys were eventually secured, but fourteen were killed in the melee, or jumped overboard to avoid capture.

SCARCITY OF LABOR. REPORTS FROM CANADA HAVE REACHED AS FAR AS JAPAN. Ottawa, Oct. 10.—Reports of the scarcity of labor in Canada have gone abroad, even to Japan, where it is superabundant, and the commercial agent at Yokohama, Mr. Alex. MacLean, thus reports to the Trade and Commerce Department: "It may be safe to say that the Japanese, when they emigrate, unlike others of the Oriental people, do not themselves with their adopted country. The charge that they take the money out of the country will not hold good against them. They are orderly, industrious, and great workers; that is those of them habituated to work alike that so much needed in Canada. They have adaptability to situation, and facility and resource in performing work. And there are plenty of them." Exports of tea from Yokohama up to the 10th of Sept. amounted to 13,335,600 lbs., a decrease of 1,293,900 lbs., partly due to a deficiency of the April and June crops.

RESCUED FROM SEA. SIX SAVED AFTER CLINGING TO CAPSIZED SCHOONER 14 HOURS. New Haven, Conn., October 10.—After clinging to the side of the capsized British Schooner Oceanic, for fourteen hours, Captain Lohems and his crew of five men were rescued Monday by the auxiliary yacht Aloha, belonging to Arthur G. James, of New York, and brought to this port. The Oceanic was towed here by the Aloha, and now lies on her beam ends in the lower bay harbor. She was bound from Louisville, N.S., to New York, with a load of spruce, and was en route while twelve miles west of the Sperm Light she capsized in a squall. The crew jumped overboard, but scrambled up the side after their vessel went over. There they clung until they were taken off by the Aloha, little more than a log of spruce. To prevent their being swept off by the schooner rolled in the sea, a human chain was formed, and the men clung to each other nearly all night.

LEPERS AS RECRUIT. STARTLING DISCOVERY IN A SWISS VILLAGE. Gnevez, Oct. 9.—Great excitement has been caused throughout Switzerland by the discovery of several alleged cases of leprosy in the Valais Canton. The Federal Government sent their medical experts Friday to make the fullest inquiries into the disease, which is believed to affect three families. Attention was first drawn to the matter during the annual examination of new recruits at Sierre in the Valais Canton. One of the men showed unmistakable signs of leprosy in the opinion of the medical authorities. He was questioned closely and acknowledged that he knew he was leprosy. He stated further that in his village there were many more like him. The Government is also causing investigation to be made at the isolated village of Juntel, where several cases of skin complaint that have the appearance of leprosy have been reported. The newspapers blame the cantonal authorities, and state that the disease is known to have existed for twelve years in the Canton of Valais, and has been spread by intermarriage.

REVIVAL OF BRIDEGROOM'S PRICE. (Indian Review.) As if the millions of evils from which the Brahmin community is suffering are not sufficient, a new evil of a very formidable and demoralizing character, in the form of a "bridegroom's price" has appeared among us. The rich and the poor who have the good fortune of having sons have been shamelessly extorting money and concessions from the parents of the bride, irrespective of the means and circumstances of the latter, taking unduly clean advantage of the Shatratra injunction that girls should be married before they attain puberty.

The John Murphy Company, Limited. Wednesday, Oct. 10, 1906. (We close daily at 5.30) The Serviceable Separate Skirt. Muddy streets mean ruined suits unless you are suitably dressed, and, for morning wear, the most suitable thing is a separate skirt. On a wet, windy day an extra-skirt is a positive blessing. A STRONG GRAY TWEED SKIRT. Even if it does get muddy a hard brushing sets it right again. SKIRTS OF BLACK VECONA. are most useful, too. Either are fashionable and they mean a great saving of trouble and expense. We have a splendid selection to choose from, with a very special line now on at each... CORSETS for all Figures—\$1.25. It is very necessary, both for comfort and appearance, to have a Corset that fits the figure perfectly. Most figures have their own peculiarity and in Corset-fitting need special attention to that point. We are specialists in that line. We have Corsets to fit all figures and moreover, we have them at a Popular price... At that price you have the choice of about eight or ten different kinds of Corsets, and you also can have the services of an expert fitter if you wish. Of course, we have Corsets at almost every price too, but we just call your attention to the ones at the popular price of \$1.25, and these include the C.B. a la Spirit, G. & G., Royal Worcester, C. B. a la Grace, and others. We have fitted up in our Corset Department a very cosy little room for the use of those ladies who prefer having their Corsets fitted at the time of purchasing. A first-class expert corsetiere in attendance.

OVERCOATS. Just glance at our windows, or better still, come into the store and examine our lines of FALL and WINTER OVERCOATS. The Semi-Ready garments are from the latest fashion plate. They are to be had in Chesterfield, Black Beaver, Cheviot and Corona. BOUCHER & LACROIX, 163, 167 Wellington St.

It's a "Hecla" Patent. And no other Furnace has it. FUSED JOINTS are to be found only in Hecla Furnaces. In ordinary furnaces the joints between the steel and the cast iron parts are made with bolts and cement. Such joints are soon pulled apart by the unequal expansion and contraction. In the Hecla this joint is made by fusing the two materials together at a white heat. This joint is everlasting and will never leak gas, dust or smoke. "Hecla" Furnaces are the only ones with FUSED JOINTS—the only means of having a house free of dust, smoke and gas. Send me a rough plan of your home, and I will send you an estimate of the cost of installing the proper "Hecla" Furnace. Also a copy of our catalogue of Hecla Furnaces. Write today to "Clare's Furnace Builder," care of CLARE BROS. & CO., LIMITED, SHERBROOKE AGENT: A. R. WILSON, PRESTON, ONT. PROVINCIAL REPRESENTATIVE: F. P. DRAPER, 46 WAVERLEY ST., MONTREAL, QUE.
