**BRITAIN'S NEW NAVAL
BASE AT SINGAPORE**

Will be of Highest Strategic Value in
Connection with Affairs in the
Far East.

IT IS THE GATEWAY TO THE PACIFIC.

London, Sept. 24.—The fact that the British Government proposes to establish a vast naval base at Singapore, which was announced by the Sunday Observer with the suggestion that this was the first result of the New Anglo-Japanese alliance and the conclusion of the Russo-Japanese war, affords the newspapers an opportunity for discussing a subject which was passed without notice at the time. The decision of the Government to use Singapore as a base was first announced some time ago, when Admiral Fisher outlined the naval reorganization plan. The newspapers now point out the tremendous strategic value of Singapore as the gateway to the Pacific and when open to Japan's war vessels, as giving Great Britain and Japan the whip hand over the other European countries where the far east is concerned. Some of the morning papers are inclined to dwell upon this phase of the requirement of Singapore, as though just at this time it were a demonstration of power by Great Britain. But the Government's intention to purchase the docks at Singapore has been an open secret for many months, and according to a good authority the British Government is simply facing the result of the new strategic situation in the far east and providing her navy with convenient docks at Singapore, which is the centre of the far east. The Japanese alliance permits the withdrawal of few battleships from China seas and there is no intention in the direction of peace to despatch any battleship to the far east. The three cruiser groups, The China, the East Indies and the Australian Squadrons, will remain as before. Meanwhile the extensive docks of the Tanjong Pagar Co. will be purchased at a price to be fixed by the arbitrators now in the far east, of which board Sir Michael Hicks-Beach is chairman, and Great Britain will have one of the finest naval bases, which in the event of war, would be of highest strategic value.

STRUCK BY TRAIN

But Would-be Suicide Failed
to Meet the Death He
Sought.

Toronto, Sept. 25.—To throw one self in front of a quickly moving train is generally considered a very certain method of committing suicide. Glover Ryan, who is in the Western Hospital to-night, can give evidence that the efficacy of this route has its limitations. Ryan, who is 20 years of age, has been a student at St. Jerome's Catholic College at Berlin, Ont., for three years. During the summer he has hired himself out to farmers. He returned to the college last Monday only to find that he had suffered a complete loss of memory and ability to study. Becoming despondent he left the school and while walking along the track between Bronte and Oakville this afternoon suddenly decided upon suicide. He threw himself deliberately in front of a rapid moving C.P.R. train. The engineer noticing the deed backed up the train and the young man was picked up not dead but alive. He had been thrown a considerable distance and nearly every stitch of clothing was torn off him. He was given medical attendance at Oakville and brought to the city. His injuries, strange to say, are slight.

TROOPS FOR FINLAND.
Helsingfors, Sept. 24.—Large forces of troops have already been drafted into Finland. Over 1,200 men arrived at Helsingfors to-day to reinforce the garrison of Sveaborg, which is adjacent to Helsingfors, and garrisons at other points have also been reinforced by between 700 and 1,000.

ALL QUIET AT CIENFUEGOS.
Washington, Sept. 24.—The Cuban Minister received the following despatches from his Government at Havana: "The members of the executive board of the liberal party at Cienfuegos have addressed a communication to the Mayor asking him to express their gratitude to the municipal authorities, police and custom house functionaries for the way their lives were protected during the occurrence Friday, which caused the death of the brave Chief of Police while doing his duty." There has been no disturbance since the local one at Cienfuegos. There is perfect order throughout the Republic and the Government has ample means to guarantee it. "The elections for the Boards were held yesterday with strict legality and without any disorder. In almost all the Boards the moderates won."

THE SIGNING OF AMICABLE TREATY

For Dissolution of Swedish-Norwegian Union

SWEDEN'S COMMISSIONERS

Received by An Immense Crowd on Their Return from Karlstad—Comments of the Press.

Stockholm, Sept. 24.—Christian Lundberg, the Premier, Count A. F. Wachtmeister, Minister of Foreign Affairs; M. Staaf, member of the cabinet without portfolio, and M. Hammarström, Minister of Education and Ecclesiastical Affairs, the commissioners of Sweden who have successfully negotiated an amicable arrangement with the commissioners of Norway at Karlstad, arrived here to-day and were met at the railroad station by the regent, Crown Prince Gustave, the members of the cabinet all the members of the Riksdag and a great outpouring of the general public. The state council met in the afternoon under the presidency of the Prince Regent and decided to summon the Riksdag.

The newspapers discuss the result of the conference at Karlstad with approval. The Svenska Dagbladet says: "It is to be hoped that the Karlstad convention will give us neighbors whose eyes are opened by their newly won sovereignty and isolated position to the great dangers threatening their national existence. When Norway proves by her acts that her policy is at one with the only policy possible for the Scandinavian peoples, having regard to their future, great joy will be written in our history as a great national day." The Dagbladet says the thanks of the whole nation are due to the whole government and not to its individual members.

Karlstad, Sept. 23.—After protracted sessions extending over some weeks the Norwegian and Swedish delegates who met here to settle the terms of separation of the two countries, early this evening arrived at an agreement on all points. The terms were not made public.

In anticipation of an agreement large crowds assembled around the building in which the meetings had been held to witness the departure of the delegates.

The Norwegians emerged immediately upon the conclusion of the session and were on board the train and on their way to Christiania a few minutes after the announcement was made of the outcome of the negotiations. The Swedish delegates remained within for some time but when they did show themselves they received an ovation and was escorted to the hotel by the crowd which sang the Swedish national anthem. They spent the evening in town but left at midnight for Stockholm.

The delegates refused to discuss the terms of agreement simply saying that they would be given out early next week.

PRINTERS' EIGHT HOUR MOVEMENT.

Indianapolis, Sept. 24.—A bulletin issued from the office of the International Typographical Union to-night shows that 221 subordinate unions are now working on an eight hour basis. They have arranged to do so not later than Jan. 1st, 1906. Since Sept. 24th such agreements have been signed in sixty-six cities.

U.S. ARMY OFFICER'S SUICIDE

Atlanta, Sept. 24.—Captain G. M. C. Coffey, assistant surgeon in the U.S. army, stationed at Fort McPherson, committed suicide by shooting himself through the brain with an army revolver at his residence at the post late Saturday night. Capt. Coffey was 35 years old and a graduate at West Point. The act is attributed to temporary mental aberration.

PAYMASTER OF R.D.R.

Belleville, Ont., Sept. 23.—Capt. W. S. Conger, of this city, has been gazetted paymaster of the Royal Canadian Regiment, which is to garrison Halifax shortly. Captain Conger was adjutant of the fifteenth for some time and also was an officer in the Provincial Regiment which garrisoned Halifax when the British regulars were withdrawn to go to the South African war.

HOMELESS PEOPLE OF CALABRIA.

Rome, Sept. 24.—Another cyclone to-day caused enormous damage in Calabria. Great quantities of the buildings were destroyed by the recent earthquakes shows that the number of persons to be sheltered is greater than given in the first estimates. Large numbers of bodies are being found daily. The work of erecting wooden cabins under government supervision is progressing rapidly. 2,000 have already been completed and 1,000 more will be necessary to shelter the homeless people, who are sleeping in the railway depots. According to statistics 2,000 cattle perished during the earthquakes.

MILITIA NEWS.

Lieut. H. L. Hughes, District Engineer, Western Ontario, is transferred to Halifax to be attached to the Royal Engineers for duty and instruction. Lieut. P. S. Benoit, District Engineer, Quebec, is transferred from St. Jean, Que., to be District Engineer, Toronto, to be District Engineer, Western Ontario, vice Lieut. Hughes, transferred to Halifax. The next long course of instruction at the Royal Military College will be held in March, 1906. Commencing on a date to be notified later in militia orders. Officers desirous of taking the course will apply through the usual channel not later than the 31st December. The class will be limited to 16 officers.

A NEWSPAPER QUERY

Resulted in Foiling a Would-be Suicide's Attempt on His Life.

Guelph, Ont., Sept. 23.—A man named C. W. Sterling, registered at the King Edward Hotel here yesterday. To-day about 2 p.m. one of the newspapers received a message asking if a man of that name had committed suicide. A reporter was sent to the hotel to enquire. He and the proprietor went to Sterling's room, and found the door bolted. When it was forced open they found Sterling lying on the bed under the influence of a strong drug and a doctor was immediately called in. Sterling is supposed to be from Windsor, Ont. He may recover.

Windsor, Ont., Sept. 23.—The C. W. Sterling who was found in a Guelph hotel to-day suffering from the effect of a powerful drug, is a resident of Windsor. He notified his family here this morning that he would be no more when they received his message. He tried to commit suicide in the International Hotel here a few months ago by taking a dose of laudanum. It is reported he was pulled out of the river two months ago nearly drowned. Sterling was employed until two months ago by the Walkerville Match Co. There was no domestic trouble, but it is possible that business worries have unsettled his brain.

RAILWAY EARNINGS.

Toronto, Sept. 24.—The gross earnings of the Canadian Northern Railway for the week ending Sept. 21st, were \$88,700, an increase over the corresponding period of last year of \$23,100.

ITALY'S ROYAL RULERS WELCOMED

Milan, Sept. 24.—King Victor Emanuel and Queen Helena received a popular ovation here to-day on the occasion of the dedication of a monumental tower on Sforzaco Castle erected to the memory of His Majesty King Humbert. Many members of the Cabinet were present.

THE HUNGARIAN CRISIS.

Vienna, Sept. 24.—Count Cziraky, who was yesterday appointed by the King-Emperor Francis Joseph, to negotiate with the leaders of the coalition parties in the Hungarian Diet with a view to the formation of Hungarian Cabinet, had a conference with these leaders to-day at the Hotel Bristol, lasting for an hour and a half. It is understood that the Count received from them a written declaration to the effect that they would be unable to assume the responsibility of Government on the condition imposed by His Majesty as these conditions were directly in opposition to the personal views, and also in opposition to the mandate of the people at the last election. Count Cziraky then left the conference in order to report to the King-Emperor, promising to return with His Majesty's reply. After an audience of the King-Emperor Count Cziraky returned to the hotel and founded that Count Julius Andrássy, Count Zichy, Baron Banffy and Francis Kosuth had departed for Budapest, and that Count Albert Apponyi the other representative of the coalition, had come to join his family at Weidlingau. This apparently brings the negotiations to a close. It is admitted here that the situation is now worse than ever and Count Cziraky's mission is considered hopeless. Count Andrássy's excellent prevails in political circles and the developments of the next few days are anxiously awaited.

The King-Emperor received the five leaders on the Hungarian coalition at the Palace in Vienna Saturday and after outlining the conditions on which he would sanction a ministry under the control of the coalition, suggested that the leaders enter into negotiations with Count Goluchowski, the minister of the Imperial and Royal army, relative to the formation of a cabinet.

They declined to negotiate with Count Goluchowski, declaring that if the King-Emperor did not want to negotiate directly with the leaders he ought to appoint a Hungarian go-between and not an Austrian. Later His Majesty appointed Count Cziraky.

A CLEVER CAPTURE

Toronto Police Think They Have Perpetrators of the Recent Robberies.

Toronto, Sept. 24.—What is considered as a most important arrest was made this morning by the police. During the past few weeks there have been an unusually large number of street holdups, burglaries and robberies, including the theft from Ryrie's jewellery store of diamonds valued at \$7,000. About six weeks ago Detective Forrest happened to be in Port Huron and was given particulars by the police there of several notorious crooks wanted for burglary, etc. This included the picture of a girl. The other day Forrest saw a girl on the streets of Toronto very much like the one in the picture. He shadowed her for days and was thereby led to watch a boarding house on Willow avenue. This morning at 8 o'clock in company with Detective Mackie, Forrest visited the house. There in one room they found two Toronto girls and two men. All were asleep. The detectives pounced on the handcuffs on them. It is well they did for under the pillows of the men they found loaded revolvers. In the room they also came across two masks, cartridges, drills, braces and bit, two candles and a bottle of chloroform. One of the men is Thos. Watson, a much wanted man, and the other is Thos. Morse, also greatly sought by the police in many cities. The girls had been living with them for about ten days. They say that the men came in at all hours of the night. The description of the men tallies with that given by several parties who have been robbed on the streets recently.

JAPANESE SEIZED KOMMANDER ISLANDS

A Party of Russian Officials Captured

ABOARD AMERICAN VESSEL

September 4th Given as the Date of the Seizure of the American Steamer and Officials.

hours of the night. The description of been received here that the American steamer Montara, having on board Baron Bruggen, manager of the Kamtschatka Trading Society, was seized by the Japanese near Nipklosko, Behring Island, and that the Japanese afterwards occupied the Kommander Islands and hoisted the Japanese flag. Neither the date of the seizure of the vessel nor that of the occupation of the Islands is given.

The seizure of the Montara has already been chronicled, but there has been no mention of any occupation of the Kommander Islands. Rear Admiral Kataoka reported to the Imperial Navy Department on August 26th as follows:—The division despatched to Kamtschatka captured a number of Russians on board the American steamer Montara off the port of Nipklosko, among them Commander Eskky. Mr. Griscorn, the American Minister at Tokio, on Sept. 4, notified the State Department of the capture. St. Petersburg, Sept. 24.—Newz has place and August 16 as the date. The Yokosuka naval station and the case brought before the Court at Yokohama which had not rendered a decision at the time the report was filed. The Montara was engaged in carrying provisions from one point to another along the Siberian coast. Early in the war the government of Gibraltar and the United States entered into an agreement to preserve the seals in the Kommander Islands until the termination of the hostilities. The Russian Government consented to this arrangement.

SCHOONER CUT DOWN.

Vinyard-Haven, Mass., Sept. 24.—The British schooner Viola, bound from St. John, N.B., to New York, with a cargo of lumber, was worked into the harbor here to-day in a water-logged condition, the vessel having been cut down last night by the steamer In dian, of the Boston and Philadelphia Steamship Company. No one was injured and the Indian was not seriously damaged.

HUNGARIAN CLIQUES BATTLE

Bridgeport, Conn., Sept. 24.—The bitter feeling between two cliques in the Hungarian colony of the city culminated about midnight last night with murderous assault by one party upon the other, which resulted in the arrest of six men and the fatal injury of Steven Rinko, who now lies in St. Vincent's Hospital with a terrible bullet wound in his abdomen and death is expected at any moment. His friend, Steven Dempek, also was shot and received a blow over the head, which knocked him unconscious, but his injuries are not considered fatal.

REORGANIZATION OF CHINESE ARMY

London, Sept. 24.—The correspondent of the Morning Post at Shanghai says that Yin-Tehang, the Chinese Minister at Berlin, has been recalled to be appointed to a command in the army under General Yuan-shikai, viceroy of Pechili. The same correspondent gives some interesting statistics regarding the reorganization of the Chinese army. He says that the army will be divided into twenty military districts, each with four regiments of infantry, one regiment of cavalry, an engineer corps and artillery in proportion. All the men will be enlisted for nine years. By 1910 China expects to have half a million trained men ready for service in the field.

TRADES AND LABOR CONGRESS.

Toronto, Ont., Sept. 23.—The Trade and Labor Congress flopped again to-day on the Dominion Senate question and are again on record as favoring the abolition of the Senate instead of having it an elective body, as their second resolution on the question provided. There was an objection about a phrase in this resolution characterizing the Upper House as a political graveyard to which money was the open sesame. On further discussion this was considered too strong and was struck out. Another resolution upon this vexed question urged Trades Councils and unions to demand that all political candidates give a definite promise to support legislation in the next session of Parliament to oppose the "usual and recently increased supplies of the Senate." The Congress passed a resolution calling attention to Canada's deficiency in technical education and authorizing the executive to request the Provincial and Federal Governments to enact legislation permitting the mechanics and artisans of Canada to enjoy the privilege of education on lines of electrical engineering, chemistry, wood carving, modelling, etc. The Dominion Government will be asked to pass an act providing a legal eight hour day throughout the Dominion. Secretary Patrick M. Draper, of Ottawa, was reminded pleasantly of his recent marriage by the presentation to him of a set of cut glass and the congratulations of the Congress. Before the close of the convention, President Verville took occasion to express his thanks for being elected. He said it was a compliment not only to him, a French-Canadian, but to his countrymen in the province of Quebec, that he should be elected without opposition in the greatest English-speaking city in the Dominion. The Congress closed this afternoon with the singing of Auld Lang Syne.

The Quebec Chronicle

QUEBEC, SEPTEMBER 25, 1905.

TWO IMPORTANT STATEMENTS.

Mr. W. Mackenzie, President of the Canadian Northern Pacific Railroad, during his recent visit to the city last week made two statements that will be received with great satisfaction by the community. The first of these was that it was intended to lose no time in the building of the extension of the Great Northern to Garneau Junction, that the contracts for it had been given out, and that work would shortly be commenced at both ends and at intersections and vigorously pushed. It is needless to say how important it is that this should be done without loss of time in order to provide a quantity of grain freight for the Quebec Transportation Steamship Line, and thus materially contribute to its success, and also because with the completion of the extension of the Great Northern from Garneau Junction there will no longer be the shadow of an excuse for the company's neglect to fulfil the conditions on which it received a subsidy from the city, and to rebuild its workshops which were burned down here.

The other statement that the Canadian Northern Pacific would connect with the Great Northern by a line from the Georgian Bay to Hawkesbury is quite as important as it means the establishment of another virtually transcontinental line with its interests at Quebec during the summer season and while navigation is opened. We are not inclined to expect too much for Quebec from Sir Wilfrid Laurier's transcontinental, as that is practically under the control of the Grand Trunk Railway, whose interests are in Portland, and which will certainly not neglect them for the beaux yeux of Quebec, but the Mackenzie & Mann transcontinental will be very differently situated, and if we can only get the Great Northern to establish its headquarters here, we shall have what is practically a transcontinental of our own tapping the fertile grain fields of the Northwest. And this is of the more importance to us because every year brings nearer the accomplishment of what we have for some time past been urging our readers to anticipate, the establishment of a new outlet for the Northwest products via the James and Hudson Bays. Not only have the Governments of Ontario and Manitoba already taken steps to reach the shore of the great northern inland sea, but late despatches from Ottawa show that the Dominion Government has also turned its attention in that direction, and is investigating, or going to investigate, the period of navigation in those waters, and the practicability of the new route, a fact which may seem to lead some significance to the Premier's remark at Fort William, that the last spike in the National Transcontinental will scarcely be driven before a third transcontinental will become necessary. In that case, with one line carrying the Northwest products to James' Bay, and another to Portland in the United States, it would be absolutely necessary to Quebec to have a third line whose interests were bound up in hers.

TWO AND TWO.

The old saying that "figures cannot lie," is only conditionally true, as those of our readers who have ever taken the trouble to look closely into the feats of arithmetical legerdemain in which our Ministers of Finance and Provincial Treasurers indulge every year are but too well aware—it is true, generally speaking that two and two make four, but whether in particular cases the product is a satisfactory one depends very much on the nature of the component parts. The trade returns of the Dominion afford a continually recurring example of this proposition, and the Government journals have lately brought those for the two first months of the current financial year into prominence as showing the increasing prosperity of the country, and an improvement in the Customs' Revenue of \$377,611 as compared with the same period of last year. In this case, "two and two make four" for Mr. Fielding, who sees the foundations arising for the construction of a gigantic phantasmal surplus next year, and a very tangible contribution to the needs of the Treasury and all who live thereon, but a closer examination shows that, so far as the nation is concerned, "two and two" do not "make four," or anything near it. The customs returns do indeed show a betterment of the sum we have mentioned, but the Customs' Revenue are derived from imports; these have increased during the last two months as compared with the imports of the corresponding period last year, but at the same time the exports have diminished in value to the extent of \$1,736,930; that is to say

that the country has increased her purchases from outside sources, and has some million and three quarters less money to pay for them.

No doubt, speaking broadly and at large, surpluses are very fine things, but their desirability depends very much on the manner in which they have been obtained. In this country they are got mainly from the Customs, that is to say, from taxation on imports, and it is very evident that the more you import the greater the amount of revenue you may expect, and the larger the volume of imports, the larger the drain on the pockets of those who purchase them; if that drain can be made up by corresponding sales abroad, well and good; if it can be more than so met, the country is becoming richer, that is to say, it is accumulating money; but if the expenditure abroad is more than the receipts from abroad the country loses instead of gains the circulating medium. Canada is nothing more nor less than a farmer on a big scale—if he can provide his groceries and his clothes out of the sale of the products of his farm, he is all right; if he cannot he is all wrong; and the mortgage of his property is only a question of time, and that time is shorter the more groceries and clothes he buys; but if he wants to get rich he must not go to the store more than he can help, but must attempt to supply his needs from his own resources.

No doubt the doctrine will be disputed, and declared heretical by the Free-Traders, and those who see in increasing imports the infallible signs of national prosperity, but an ounce of experience is worth a pound of theory, and we have a very striking example of the truth of what we say in our own Province. It has been a matter of surprise to some, and speculation to others, how thoroughly the French-Canadians have succeeded in spreading over the province, and, in the Eastern Townships especially, in dispossessing the original English settlers. Other causes, have no doubt, contributed to this result, but the main cause is the very intelligent appreciation by Jean Baptiste of the true theory of imports and exports. He comes of a thrifty stock, and he purchases from outside sources nothing that he can by any possibility supply for himself; perhaps not to the extent now that he did when he laid the foundations of the comfortable homes he now possesses, but to a considerable extent still. In days not long gone by, he left to his English brother the duty of providing snuffboxes for Finance Ministers; he grew and spun the flax from which his shirts were made; he spun the wool for his outside wear; he grew his own tobacco; if he wanted sugar he got it from his maples; if tea, from the privet by the roadside, and the blackberry and raspberry bushes in his garden; if coffee, he roasted beans on his stove; he made his own candles and his own soap, and wicked people went so far as to say that he made his own whiskey too; in a word, he kept "imports" at a very considerable distance; meantime he went on selling whatever he could spare off his farm and accumulating capital. His English brother, as a rule, has not done this, the proceeds of his farm have gone to pay for imported goods, and when these were not sufficient, he ran into debt. The result is before our eyes to-day, a lesson so plain that he who runs may read, and it is one that the people of the Dominion would do well to take to heart.

CANADA'S FOREIGN TRADE DECLINES.

Canada's total foreign trade during the fiscal year up to June 30, 1905, totalled \$470,151,289, a decrease of \$2,581,740 compared with the previous year. The import trade reached \$266,834,417; an increase of \$7,662,014; and the export trade \$203,316,872; a decrease of \$7,559,493 in domestic products only, and of more than ten millions in foreign and domestic products together. The imports consisted of \$157,164,975, in dutiable goods an increase of \$1,056,522 and \$109,669,442, in free goods, an increase of \$6,567,092.

The imports from Britain last fiscal year were \$69,338,811, a decrease of \$1,422,098. The exports to the Motherland in the same period were \$101,955,771, a decrease of \$15,632,605. Canada's purchases from all the British possessions together were \$73,662,190, a decrease of \$13,121. The exports to the British Empire totalled \$112,876,484, a decline of fifteen millions. On the other hand, our purchases of \$193,172,127 from foreign countries represented an increase of nearly eight millions, whilst the exports to foreign countries of \$87,595,213 represented an increase of \$5,491,083.

From the United States Canada imports 116,040,890, an increase of over nine millions, whilst the exports to that country were \$75,563,015, a betterment of close on five millions. Trade with France shows an increase of almost one million dollars in imports and of \$66,030 in exports.

Germany, in spite of the customs surtax, sold the Dominion goods to the value of \$6,642,139, a decrease of \$1,386,405 compared with 1904. On the other hand we sold \$3,473,589, as compared with \$2,598,690 in 1904,

whilst our imports from that colony were \$1,020,417, as compared with \$1,071,621 in 1904.

We imported \$6,077,013 from the British West Indies as against \$4,815,768 in 1904, and sold them in return \$2,404,232 worth of goods, as against \$2,179,774 in 1904.

AN INVESTIGATION AND A MORAL.
As the investigation into the practices of certain Insurance Companies in New York progresses, some very sensational developments are coming out. The President of one of them for instance has admitted that \$235,000 had been paid out to a single individual for the forwarding of the plans of the Company in the New York Legislature; he defended this on the plea that it was necessary for the protection of the Company's interest in its real estate investment, but on cross-examination admitted that no part of the sum had been applied to this purpose. The same company, it was shown in evidence, had contributed \$50,000 to the Republican Campaign Fund. From these, and similar exposures, the Ottawa Journal deduces two plain morals, first, that Canadian insurance investments are safe in Canadian companies, and secondly, the necessity for enactment to provide that the accounts of great corporations holding public charters should be open to public audit, because "apparently a scrutiny of the annual statements presented by law would not suffice to uncover such transactions as those of the Life Insurance Companies whose methods have been under inspection in New York." The advice is good in both instances.

"DESERTED AT THE ALTAR."

"Deserted at the Altar" is a play of to-day, modern in every feature, clean and wholesome, and void of vulgarity. It is the sort of play that parents need not hesitate to have their children see, and Pierce Kingsley, the young Canadian author, deserves the greatest praise for writing an offering that will live for years.

MRS. BEATRICE LANGLEY.

Madame Beatrice Langley, whose magnificent violin playing is being so much talked about just now has an unpleasant experience in London, Eng., not long ago that goes to show that she is able to hold her own in more ways than one. The opera at Covent Garden was over and she had just stepped into a handsome cab, when one of the many leaders who haunt the theatre entrances when the audience are making their way out, suddenly sprang on the footboard of the cab, snatched Madame Langley's purse out of her hand and set off with it at a smart run down the ill-lighted and squalid streets just by. In an instant Madame was out and after him, and succeeded in overtaking the lad, who was about eighteen years of age, and was just able to hold him till the arrival of the police. When Madame Langley was called, much against her will, as a witness to the Bow Street Police Court the next day, the magistrate congratulated her warmly upon her remarkable pluck.

Loss of Power

To Digest Food

AMONG THE FIRST INDICATIONS OF EXHAUSTED NERVES—THE CURE IS

Dr. Chase's

Nerve Food.

The most important function of the organs of the body is the digestion and assimilation of food, and in this process is consumed an enormous quantity of nervous energy.

As the result the moment disorders of the nerves arise, digestion is impaired and the very source of health, strength and vitality interfered with. To prevent physical bankruptcy the nervous system must be built up by outside aid such as the use of Dr. Chase's Nerve Food, a preparation composed of the very elements of nature which go to form new blood and nerve cells.

Besides this restorative influence on the whole system Dr. Chase's Nerve Food has an immediate and direct effect on the digestive system.

It stimulates the nerves of taste and induces a good flow of saliva to aid digestion. It excites the glands of the stomach and produces a plentiful supply of the gastric digestive fluids. It sharpens the appetite and arouses hunger.

Especially where appetite and the ability to digest have diminished, as in nervous exhaustion, anaemia, the result of sickness, overwork or worry, Dr. Chase's Nerve Food is by all odds the most effective treatment that can possibly be obtained.

It ensures good digestion, regular, healthful action of the liver, kidneys and bowels and the building up and revitalizing of the whole system. Mrs. Alexander Buchanan, Island Brook, Compton Co., Que., writes:—"My system was very much run down and I was troubled for a long time with weak stomach and dizziness. I could scarcely get about the house to attend to my work and felt very miserable most all the time. After having used a few boxes of Dr. Chase's Nerve Food my condition is entirely changed and my system wonderfully built up. I can with all confidence recommend Dr. Chase's Nerve Food to any person troubled with weak stomach or weakness of any kind."

Dr. Chase's Nerve Food, 50cts. a box, at all dealers, or Edmondson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

RADIANT WOMANHOOD.

The glory and satisfaction of beautiful womanhood can be known only to those possessing the unlimited advantages of health. No weak woman can be happy or enjoy half the pleasures of life. Faded cheeks, sunken eyes, exhausted nerves, all tell of a terrible disease and vitalizes instantly—it's a struggle to keep up. What the weak woman needs is Ferrozone; it renews, restores, vitalizes instantly—it's a "woman's remedy"—that's why. Ferrozone makes women strong, plump and healthy because it contains lots of nutriment, the kind that forms muscle, sinew, bone and nerve. Vitalizing blood courses through the body, making delightful color, happy spirits, true womanly strength. Fifty cents buys a box of Ferrozone in any drug store.

CHINESE BOMB THROWING.

Pekin, Sept. 24—At the Pekin railway station to-day as a train carrying one of the four missions ordered abroad to study foreign political methods was leaving, a bomb was exploded inside a private car, killing four minor officials and wounding over 20 other persons. The wounded include Prince Tsai Tche, who heads the most important of the missions, both of whom received slight injuries. The perpetrator of the outrage, who was in the car, was blown to pieces. The affair has created a profound sensation and causes apprehension regarding the safety of members of the court and leading officials of the Government. The Government offices and the railways are now strongly guarded.

The edict appointing the missions mentioned in the foregoing despatch was issued July 16th. A despatch from Peking August 29th said that the missions were appointed to study foreign systems of government because of the Dowager Empress intended to issue a decree at the New Year for the establishment of a parliament twelve years hence.

THOUSANDS DIE OF CONSTIPATION

No condition causes so many incurable diseases as constipation. It not only prevents the kidneys from eliminating the poisonous wastes, but causes anaemia, stomach trouble and indigestion. Why won't you use Dr. Hamilton's Pills and get cured? This excellent medicine restores normal bowel action in one night. Thousands say so. Your system will be pure and clean, you'll be free from headaches, no more sour stomach—in short you'll have jovial spirits and perfect good health. Dr. Hamilton's Pills are sold everywhere, 25c. a box. Get the genuine.

THE VENEZUELAN TROUBLES.

Caracas, Sept. 23—The French Government has asked the Venezuelan Government to reconsider its last note. The note referred to in the above despatch was issued September 19 by M. Taigny, the French chargé d'affaires, against the closing of the land stations of the French Cable Company and the expulsion of the manager of the company, M. Brun. The Government holds documents proving that the French Cable Company has accepted the result of the judicial proceedings brought against it. The Government is only waiting to establish new relations between it and the company. M. Taigny knows this, and therefore the protest can only be considered an act of personal hostility. For this reason the Government will abstain from treating with the French Government through M. Taigny.

Former Judge W. J. Calhoun, who is charged with a special mission to Venezuela on behalf of the United States, is studying the situation brought about by the closing of the land station of the French Cable Company, the expulsion of the company's manager, M. Brun, and the refusal of Venezuela to deal with the French Government through its chargé d'affaires, M. Taigny. Judge Calhoun conferred for two hours to-day with M. Taigny.

SUNLIGHT SOAP

If you wash linoleums and oilcloths with ordinary soap you will find the colors will fade. You can preserve their colors and make them last a long time if you wash them with Sunlight Soap. When dirty, wash with warm water and Sunlight Soap, rinse with clean water and wipe completely dry with a soft cloth. Use Sunlight Soap throughout the house. It makes homes bright and hearts light. It contains no impurities or free alkalis to injure the most delicate fabric.

ASK FOR THE OCTAGON BAR.

Sunlight Soap washes the clothes white and won't injure the hands. LEVER BROTHERS LIMITED, TORONTO.

MINTO CUP STAYS
Shamrocks Swamped St.
Catharines in Second
Match Saturday.
Montreal, Sept. 23.—That the St.
Catharines team are not in the same
class with the Shamrocks was amply
demonstrated when this afternoon, in
the second and final match of the
Minto Cup series, they were swamped
by the boys in green and grey by a
score of 8 goals to 1, the Shamrocks
thus successfully defending the Cup
by the total score of 13 goals to 1.
The St. Catharines were lucky to get
the single goal which they did to-day,
and which only came in the third
quarter, when, with a lead of seven
goals to nothing, the Shamrocks
seemingly let up a bit to take a
breathing spell. It was claimed that
the St. Catharines team did not play
as finished a game as on the pre-
vious Saturday, but the real facts of
the case appeared to be that the
Shamrocks opened out, and played
more of their usual style of game, and
the visitors never had a chance. The
visitors are a speedy lot of athletes,
but their style of lacrosse is not the
kind that goes in this section of Can-
ada. The game was largely a battle
of the Shamrock home against the
St. Kitts' defence, for the latter's
home were non-effective, and the Sham-
rock defence had little difficulty in
keeping them out and rendering their
efforts fruitless. The visitors' home
failed to go in on the poles, and
seemed to be more interested in pass-
ing the ball around among themselves
than shooting at the poles, even when
there appeared to be a good chance
for a score. That the Shamrock
score was not greater was due in a
large degree to the excellent work
of Hesse in goal, and the brilliant work
of the lightning home of the Sham-
rocks was timed and again by
his good eye.

A crowd of between four and five
thousand spectators witnessed the
match, but the play was so one-sided
that the enthusiasm failed to reach
the fever heat that might be expected
on an occasion of such an important
match. The weather was cool and
threatened rain, but it was not so
cold that the enthusiasm after the
match had started somewhat should not
warm up the crowd. The players
themselves were kept so busy that they
could not help keeping warm, and the
sky was just cloudy enough to
keep the sun from bothering them. On
the face of things there did not seem
very much difference between the rules
of last Saturday and the Canadian
Lacrosse Association rules that were
played to-day, and one of the rules
referring to keeping outside the goal
crease, was broken frequently when
the referee was not looking. As a
rule, he was looking, however, when
anything occurred that was not quite
right, and he sent a number of men
to the fence. There was little or no
damage done to the players on either
side, and the reason that Barnett went
off was that his leg, which had not
been too strong after the first match
for the trophy, went back on him.
The Shamrocks scored four in the
first quarter, two in the second and
two in the third. At one time the
Shamrocks had only nine men on to
their opponents' twelve, but even this
could not keep them from scoring, and
they slammed one in to show that
numbers do not always count. There
were at this period only three men on
the Shamrock home to the visitors' five.

The last quarter was a purely de-
fence one on the part of the visitors.
They evidently came to the conclusion
that it was no use trying to score and
that it was better to prevent the score
against them from climbing up since
they had managed to save themselves
from a whitewash. So they massed
all the men they could spare in front
of their goals and finished that way.
Referee Lally in this quarter appeared
to get over-strict and put men on
either side off for what appeared to
be very minor offences, so that at one
time there were only seven men aside
on the field.
The score and the summary were:—

AN OUTSIDER WON
Tongorder Beaten at Last Day
of the Woodbine
Meeting.
Toronto, Sept. 23.—The afternoon's
sport marked the close of the Ontario
Jockey Club meeting, which has been
in point of attendance, the numbers
and quality of horses engaged by far
the most successful in the history of
the club. This afternoon's crowd was
a holiday one in every respect. The
increased accommodation was taxed to
its utmost and the playing was brisk,
and very heavy. The track was fast,
the weather was fine and clear al-
though a little chilly. There were
seven events besides the Polo Ponies
and three favorites, Lord Fador, Peter
Paul and Chipewa won, al-
though Peter Shirwin was split with
the last named. Away was the rank
outsider, the Kirkfield Pair second
choice, Alibert at fives and Arab at
tens. It was a great day for Little
Preston, who won the two feature
events and also had two seconds.

MORTON WON IN NEW YORK.
New York, Sept. 23.—J. W. Morton,
of the South Leavenworth, Har-
land, made his American debut in a
special sprint of 100 yards, but, al-
though he won rather handily, his
time, 10 1-5 seconds, was three-fifths
of a second behind Champion Duffy's
figures. Morton is the English and
Canadian champion sprinter.
Harry L. Hillman, Jr., of the New
York Athletic Club today broke the
world's record in the 300 yard hurdle
race at the New York Athletic Club
games at Travers Island, covering the
distance in 34 3-5 seconds.
John J. Flanagan, of the Irish Amer-
ican Athletic Club, champion ham-
mer thrower of the world, threw the
16-pound missile 172 feet 1 1/2 inches,
9 1/2 inches short of his own world's
record.
HUNT CLUB RACES.
Many members of the Quebec Riding
and Hunt Club attended the annual
races of the Canadian Hunt Club at
St. Lambert on Saturday afternoon.
The meeting was a most successful
one. The winners were:—1st race,
Gladstone, N. Gravel, 1st; Silver
King, J. Ray, 2nd; Frank G. Van-
delac, 3rd. Second race—Ray McGre-
gor, H. H. Learmont, 1st; Trackson,
E. C. Brousseau, 2nd; Lizzie A.
Shearer, 3rd. Silver Penny, G. Van-
delac, 4th. Third race—Mr. Pace won
1st prize, Mr. H. Shannon, second, and
Mr. G. Sausouci, third. Fourth race—
Marston Moore, J. F. Smith, 1st;
King Top, W. V. Henderson, 2nd; Bob
Satter, D. Raymond, 3rd. Fifth race—
Silver Penny, G. Vandela, 1st; Rose,
J. Wray, 2nd; Virginia, Hugh Ben-
nett, 3rd.

**PROVIDENCE WINS EASTERN PEN-
NANT.**
Providence, R.I., Sept. 24.—The
Providence baseball team to-day won
the championship of the Eastern League
by defeating Rochester 24 to 3. More
than 15,000 persons saw the
game, which was played at Rocky
Point.
At the conclusion of the game the
members of the championship team
were accorded a great ovation by the
crowd. The results of Saturday's
games made Providence and Baltimore
tied for first place, each club hav-
ing won 82 and lost 47 games, giving
a percentage of 63.3. Baltimore's sea-
son closed yesterday, while Providence
was scheduled to play Rochester to-
day. If Providence had lost to-day's
game the team would have been given
second place, but the win over Roch-
ester gave Providence a percentage of
63.8, two-tenths of one per cent.
higher than Baltimore. Next come
Jersey City, Newark, Buffalo, Mon-
treal, Rochester, Toronto.
A number of the players of the
team either on or off the field. St. Kitts
had put up a splendid fight none ever
had done better. He was pleased to
note the spirit of the play. "Never
was there a flat raised in anger in
any of the games," he remarked. It
had not been a child's game. It was
not played by children. Strenuous
throughout, the referee had no trouble.
Every player had deported himself as
a gentleman should. The St. Catharines
team had won the respect of the
citizens of Montreal as was at-
tested by their attendance at both of
the games.

MADE A BIG HAUL
Bookmakers at Gravesend
Cleaned Up Over Half
a Million.

New York, Sept. 23.—Bookmakers
picked up their traps, sealed their cash
boxes and quit Gravesend for Brighton
Beach to-day, taking with them six
hundred thousand dollars of public
money. This was "get away day" of
the most disastrous autumn meeting
from standpoint of the public, ever
known in the history of Brooklyn
jockey clubs. The opening of sport,
at Brighton Beach Monday, will be a
welcome change for thousands of cas-
ual relying patrons who keep the ma-
chinery of the turf moving.
At Gravesend fifty thousand dol-
lars was daily dumped into the ring
to be gobbled up by book makers.
This is the highest daily average of
losses on the part of race track patrons
reached since the midsummer meeting
at Brighton Beach, where one million
dollars was sacrificed to book makers
in twenty-one days of racing. The
unusually large size of the fields be-
cause of the presence of western
horses consequent of the close down
of Chicago and St. Louis tracks, is ac-
countable for the harvest reaped by
the book masers.

W. Cowan, C. A. Jones, Col. Licht-
enstein and George Bowles are the
biggest winners among book makers,
while Jack McDonald among plungers
is reported sixty thousand winner.
James B. Brady's Oiseau, the 4 to 5
favorite, easily won the second special,
one mile and a half, at Gravesend to-
day. The Brooklyn Jockey Club's fall
meeting came to a close to-day and a
big crowd was in attendance.

The second special, which was the
feature event, only brought three
horses to the post, Oxford declining
the issue early in the day. Oiseau
was always a hot favorite with Cana-
dianwaga next in demand at 11 to 5,
while 7 to 2 was laid against First
Mason. At the start O'Neill sent
Oiseau to the front and passing the
stand the first time was leading by
six lengths, with the other two heads
apart. This order remained for about
a mile, when Rodfern began to send
Canadawaga up, but O'Neill gave the
favorite his head and drew away,
gradually increasing his lead to the
finish, won under wraps by 12 lengths.
Canadawaga beat First Mason 10
lengths for the place. The time 2.25
1-5, is within one-fifth of a second of
the track record.

Lady Navarre, at 10 to 1, with a
rush under Burns' vigorous ride, won
the Prospect Handicap, defeating Ac-
countant who also closed strong. Tip-
toe was leading by three lengths in
the first quarter when she shied at a
shadow and dropped back. Burns
then brought Lady Navarre up and
won by three-quarters of a length.
The stewards of the Jockey Club
to-day revoked the license of Jockey
Eugene Hildebrand "For reckless and
careless riding." The ruling of the
stewards practically means that Hilde-
brand will not be able to ride on the
Jockey Club tracks again. Hildebrand
was suspended for four days the early
part of last week for rough riding. He
was also suspended last spring for his
ride on Duenna, which allowed "Last
Cherry, who was backed down from
7 to 1 to 2 to 1, to win by a head,
was then reinstated being at the time
under a contract to H. P. Whitney.
Last year he was at the head of the
list of winning mounts, having scored
over two hundred victories. He was
also in good form this year and stood
close to the top.

QUEBEC HORSES ENTERED.
Among the entries for the Delorimer
Park races, which will be held at Mon-
treal this week, beginning to-morrow,
are Max Clement's Major B. O. and
U. Gauxin's Ilyssia.

DID NOT PLAY.
The lacrosse match for the city cham-
pionship between the Nationals and
Balmagrowns, which was advertised
for Sunday afternoon on the Q.A.A.A.
grounds, did not take place.

QUEBEC BOY'S SUCCESS.
At the annual autumn handicaps of
the Montreal Amateur Athletic Asso-
ciation, which took place at Montreal
on Saturday, Alf. Gale, formerly of
this city, won the 880 yards run, and
was third in the 200 yards run.

STH ROYAL RIFLES.

Further Proof

From Alexander Cameron, Esq., Lancaster,
Ont.: "Such benefits as I have received from
the baths and waters of the old MAGI CALE-
DONIA Springs should be made known, so that
others similarly afflicted may also enjoy the ad-
vantages their use will impart. Of middle age,
I have from my youth been troubled with weak
stomach and dyspepsia till five years ago; at
that time I was quite prostrated with the com-
plaint, and without any special faith in the cure
visited the Springs. The second day all discom-
fort ceased and my appetite gradually returned,
and I was soon able to eat as heartily and enjoy
my meals as much as any one. Till this year I
have had no return of the complaint, but being
again troubled I find the old remedy as effica-
cious as ever, and the despondent feeling induced
by the disease has vanished. I would be pleased
to be referred to as to the efficacy of those old
established waters; any visitor can see for them-
selves the progress to health made by the rheu-
matic, and in skin affections they are also well
known to be most efficacious."

AUTO RACES.

Providence, R.I., Sept. 23—Fully
15,000 people attended the automo-
bile races at the Narragansett Park
track to-day. Barney Oldfield was
the main attraction but his attempt
to lower his own figures for the five
miles was unsuccessful. He covered
the distance in 4.41 1-5, against 4.29
made at Los Angeles, Cal., Dec. 21,
1904. One record was broken during
the afternoon, George G. Read mak-
ing five miles with a touring car in
5.53 2-5. The previous mark was
5.50 2-5. The track was reasonably
fast, but a strong wind held back the
record hunters. The national cham-
pionship race between Oldfield and
Cedeno was the feature. Oldfield had
the worst of the start, but overcame
his opponent's lead in the first mile
and won by nearly three-eighths of a
mile. The time was 2.47 for the five
miles.

Ralph Meyers won the three mile
open motor cycle race, the time being
4.18 1-5. W. R. Files took the five
mile invitation in 9.26 2-5. H. A.
Cepcon, jr., won the open gasoline
car equipment race in 7.45 2-5.

In the first heat for the free for all
Oldfield and H. D. Church had a dead
heat. Cedeno qualified in the second
heat and was easily the winner in
the finals, Oldfield not entering. The
time was 5.02 2-5 for the five miles.

MARATHON ROAD RACE.

Chicago, Sept. 13.—With 200,000 persons
scattered along the 25 mile course
and wet weather prevailing, Rhud
Metzner, of the Illinois Athletic Club,
Chicago, to-day won the Marathon
road race in 3 hours and 15 minutes,
thereby earning a gold medal and the
honor of entering the Olympic games
of Athens, Greece, next summer.

With a 20-mile wind in their back
and boulevards to run on all the way
only seven of the 15 starters finished.
All seven will receive gold medals.
Those who finished with their clubs
and times are as follows:—

Rhud Metzner, Illinois Athletic Club,
Chicago, 3.15.

John J. Kennedy, Tileston Athletic
and Outing Club, Roxbury, Mass.,
3.15.30.

S. H. Hatch, River Forest Athletic
Club, River Forest, Ill., 3.20.

John Anderson, Sleipner Athletic
Club, 3.29.03.

E. V. Rohman, unattached, Chicago,
3.30.20.

L. D. Lambakis, unattached, Athens,
Greece, 3.45.

W. S. Timblin, McKinley High School,
Chicago, 5.05.

The runners left the Evanston Golf
Club grounds at 2 o'clock. Winding
through the shaded streets of Evan-
ston, the runners with their pace-
makers reached Sheridan road, which
runs south along Lake Michigan to
Lincoln Park. Each runner was fol-
lowed by an automobile containing
pacers, a doctor and necessary sup-
plies. Many of them became ambulances
before the finish being tucked
races to the Illinois Athletic Club.
Forrest Reilly, of Hamilton, Ont.,
was scratched at the last minute.

GAYNOR AND GREENE WILL BE EXTRADITED

Judge Ouimet Refuses Petition
for Writ of Habeas Corpus

MAINTAINS THE DECISION

Rendered by Commissioner Lafontaine—
Counsel for Prisoners Have Not
Decided on Future Action.

Montreal, Sept. 23.—Lt. Col. John
F. Gaynor and Captain Benjamin D.
Greene will have to go back to Sa-
vannah, Ga., within the next few
days, to stand their trial upon var-
ious charges of fraud to the detriment
of the United States Government.
Such is the effect of the decision ren-
dered yesterday by Mr. Justice Ouimet
on the petition for Habeas Corpus
presented on behalf of the two
prisoners.

Whether this decision will be carried
into effect depends to some extent on
the exertions of the counsel for the
prisoners. Messrs. Alex. Tasche-
reau, K.C., of Quebec and Mr. T.
Chase Casgrain, K.C., of this city.

When seen after the decision yester-
day, Mr. Tascheureau merely said:—
"They have not started yet." Asked
what steps would be taken to pre-
vent the departure of his clients, he
replied: "We have not yet decided
upon our course of action."

In rendering his decision, Mr. Jus-
tice Ouimet referred to Mr. Casgrain
as Hon. T. Chase Casgrain, K.C.
When His Lordship had rendered his
judgment ordering the return of the
prisoners to the jail in conformity
with the decision of the Commissioner
Mr. Casgrain drew the attention of
the Court to the use of the title
"Honorable" in connection with the
name.

"When I ceased to hold office as At-
torney-General, I was no longer en-
titled to the prefix 'Honorable,'" de-
clared the learned counsel, "and I
wish to call Your Lordship's atten-
tion that I do not care to sail under
false colors."

Mr. Justice Ouimet remarked that
while Mr. Casgrain was right, the
title was generally granted by cour-
tesy to gentlemen who had ceased to
be Ministers, so that the Court had
erred on the side of courtesy.

THEY STILL HAVE HOPE.

Mr. Casgrain, when asked later,
what steps would be taken on behalf
of the prisoners, said: "While there's
life there's hope. We have not yet de-
termined on our course of action. I
would like to say this, however, that
while we are disappointed in the de-
termination of His Lordship, we are
highly pleased with the manner in
which the Court has rendered the de-
cision. Mr. Justice Ouimet has evi-
dently deeply considered all the argu-
ments adduced, and has in his deci-
sion weighed each consideration care-
fully. It is always a satisfaction, even
when unsuccessful, for lawyers to find
that their arguments have been care-
fully considered."

The decision of Mr. Justice Ouimet
is quite lengthy and was listened to
with close attention by a number of
the legal fraternity and several out-
siders. The two prisoners were in
charge of Hon. J. R. Thibault, au-
thor of the district, and John F.
Gaynor, jr., sat in the Court, near
his father.

His Lordship took up the points
urged in the petition for Habeas Cor-
pus, one by one.

GROUND OF THE PETITION.

The first is that the order of com-
mittal is insufficiently and improperly
worded in so far that it does not
specify the reason or cause why the
Commissioner has determined that ac-
cused should be surrendered.

The petitioners' contention is that
the Commissioner should specify that
having acquired into the charges laid
against them, and that, having
found that the offences charged are
extradition crimes, and that from the
documentary and oral evidence laid
before him prima facie proof has been
made of the guilt of the petitioners,
to justify him to determine that they
should be committed for surrender.

They argue that such averments
should be made to comply with the
requirement of the Treaty of Extradition.

The answer to this objection is that
the committal is in the terms of the
form prescribed by our own Extradition
Act. The passing of this act by our
Dominion Parliament has been
authorized by the Imperial Extradition
Act of 1870. It was afterwards
approved by various Imperial Orders-
in-Council, and even recognized by
both parties to the Treaty of 1850.

The learned judge remarked that the
insertion proposed by the petition
might have made the committal more
complete, but he need not go beyond
the form prescribed by the Act.

As to the cases cited by the peti-
tioners, the only case after the Ex-
tradition Act was the Zink case, and
it has since been overruled by the
Courts.

His Lordship added that the order
of surrender is not a conviction, and
therefore principles of law concerning
commitments after conviction and
sentence should not apply. The form
of committal is not in the same terms
as the form prescribed by the
Criminal Code for a commitment for
trial after a preliminary investigation.

The form of committal for surrender
under the Imperial Act is also very
nearly the same as that used in the
case, and it has always been found
sufficient. His Lordship therefore dis-
missed the first objection.

THE FORM OF COMMITTAL.

His Lordship then took up "the sec-
ond objection to the form of the com-
mittal, which is that it does not pro-
vide specifically how the prisoners are
to be discharged. After quoting the
portion referred to, he continued:—
"The petitioners' counsel say that it
is not explicit enough as a direction
to the jail keeper, where and how he
may liberate them."

"Again, I observe that this part of
the committal is wholly within the
terms of the form given by our Ex-
tradition Act and should be considered
sufficient. Sections of the above sta-
tute specifically mention how fugitives
of justice may be detained pending ar-
rest after the delay fixed for their sur-
render may be delivered: (1) on a writ
of Habeas Corpus; (2) liberated on

the decision of the Minister of Justice
not to surrender; or (3) in case the
parties seeking their extradition do
not do so within a delay of two
months. This part of the committal
is altogether in the terms of the form
prescribed by the Imperial Statute,
and it has always been held sufficient."

THE THIRD REASON.

The third reason adduced by coun-
sel, why the committal should be
quashed as irregular, is that the of-
fences described in the committal are
not supported by the information
laid before the Commissioner to se-
cure the arrest of the petitioners and
the subsequent procedure in extradi-
tion.

The information was sworn to by
Marion Erwin, Esq., acting for the
Government of the United States, in a
very long document, and the facts
upon which the charge against the
prisoners are based, are recited at
great length.

His Lordship then recited the facts
as revealed in the information, detail-
ing the transactions by which Cap-
tain Oberlin M. Carter and the prison-
ers now under trial are alleged to
have defrauded the Government of the
United States of a sum of \$75,749, in
connection with the works in Savan-
nah Harbor and Cumberland Sound,
the method adopted was for Captain
Carter to approve of the claims made
by Messrs. Gaynor and Greene on these
works.

His Lordship continued:
"Now the charge in the information
is that these claims were unjust, frau-
dulent claims, based on contracts
which had been fraudulently awarded
to the petitioners at exorbitant prices,
with deceptive specifications, and
plans prepared with the intention to
defraud the United States Govern-
ment; also that the approval of the
claims was fraudulent, as such claims
were fraudulent and extortionate;
also that the fraudulent recommenda-
tion for payment made by Carter en-
abled him to get possession and con-
trol of the moneys representing the
amount of said claims and to fraudu-
lently pay them afterwards to the ac-
cused for the use, benefit and profit
of himself, Carter, and of the two ac-
cused."

It is specifically averred that the two
accused were participants in said
fraud by combining, conspiring, and
agreeing with Carter to perpetrate
said frauds, and by aiding and abet-
ing him in the same in the appropriation
of the moneys thus fraudulently ob-
tained from the United States Govern-
ment. Upon these facts and averments
the information charges the accused of
participation in the commission of
three distinct offences so committed by
Carter: 1st, fraud by an agent; 2nd,
obtaining money by false pretences;
and 3rd, embezzlement and theft.

These are the offences mentioned in
the warrant of arrest issued by the
Commissioner against the prisoners
and upon which the evidence has been
received by the Commissioner.

CHANGED THEIR CONCLUSIONS.

In closing their case, the representa-
tive of the United States Government
seem to have somewhat changed their
conclusions. They claimed that the
facts proved the commission by the ac-
cused of three distinct offences: Partic-
ipating in fraud by an agent (Car-
ter); 2, participation in the embezzle-
ment by Carter; and 3, receiving money
from Carter knowing the same to have
been stolen or fraudulently obtained.

This last offence was not specifically
mentioned in the information and war-
rant and the accused contend that the
Commissioner had no right to include
it in his committal for surrender.

His Lordship remarked that this ob-
jection had been dismissed by Com-
missioner Lafontaine, and quoted that
gentleman's remarks, adding: "I fully
agree with the remarks of the
learned Commissioner. The three of-
fences mentioned are cognate, they all
emanate from the same transaction."

His Lordship also cited the case of
Worms, in which a similar judgment
was rendered. He continued:
After carefully reviewing the law
and jurisprudence upon these points
His Lordship concluded:

"I am therefore of opinion that the
committal now submitted to me is le-
gal and valid in so far as the offences
therein charged are all extraditable
crimes."

"Now comes the more serious ob-
jection made to the committal on behalf
of the accused, viz., that the evidence
adduced before the Commissioner in
Extradition was not sufficient to com-
mit them for surrender."

TERMS OF THE TREATY.

"The treaty says that the surrender
shall only be ordered upon such evi-
dence of criminality as, according to
the laws of the place where the fugi-
tive or person so charged shall be
found, would justify his apprehension
and commitment for trial, if the of-
fence had been there committed."

Our Canadian Extradition Act, which
is very nearly similar to the Imperial
Act, supplements that provision of the
statute by prescribing the procedure to
be followed by the Commissioner;
what kind of evidence he may receive,
and what amount of such evidence will
justify a committal.

His Lordship points out that this
evidence was taken in the city and
district of New York in the extradi-
tion proceedings to have the two pri-
soners removed to Georgia. These
depositions were taken before a Com-
missioner duly appointed by the Uni-
ted States Government for that pur-
pose, and they are duly authenticated
as required by the Extradition Act of
Canada. His Lordship continued:

"The Commissioner, Mr. Lafontaine,
decided that such evidence was to be
admitted by him as legal evidence un-
der the provisions of our Act, and that
he was justified in so doing. I have
read the evidence in order to ascer-
tain if the evidence charged, and upon
which such evidence has been ad-
duced, are extraditable crimes, and I
add that in my opinion the ap-
preciation of the evidence by the en-
quiring magistrate is correct."

THE DECISION.

"En resume, I am of opinion that the
committal on its face is legal and
valid; that the offences charged are
extradition crimes within the terms of
the treaty; and that the whole is sup-
ported by the information and evi-
dence adduced."

"Therefore, the writ of habeas cor-
pus is quashed and the prisoners are
ordered to be returned to jail there to
be kept under Judge Lafontaine's or-
der of committal."

A SMART MAN LOST.
A friend of former United States
Marshal Isaac O. Barnes having died,
he attended the funeral. He arrived
promptly, and seated himself in the
crowded room to await the services.
For some reason there was a very
long delay, and the solemn silence of
the darkened room was anything but
congenial to a man of Mr. Barnes'
disposition. The heat, also, was very
oppressive.

Fanning himself vigorously with his
hat, and twisting uneasily in his chair,
Barnes remained silent for what for
him was a very long time. But at
last, being unable to contain himself
longer, he leaned over toward a sol-
emn-looking man on his right and re-
marked, in a hoarse whisper audible
all over the room: "I presume you
were well acquainted with Billy" (re-
ferring to the deceased).

"Yes, indeed," said the stranger,
"he was a very fine man."

"I should say he was," replied Bar-
nes, "and smart, too; smarter than
lightning. Why, sir," he continued,
in a louder whisper, getting excited,
"if he had the running of this funeral
he'd been under ground an hour ago."

EXACT OBEDIENCE.
Native servants in India have the
generally desirable though sometimes
inconvenient virtue of the Chinese—
doing exactly as they are told. The
trouble is that they seldom use judg-
ment.

Lord Roberts, during a campaign
in India, had ordered his man to
prepare his bath at a certain hour.
One day a fierce engagement was go-
ing on, but the servant made his way
through a storm of bullets, and ap-
peared at the commander's side.

"Sahib," said he, "your bath is
ready."

Even a better story comes from an
unknown soldier, who was awakened,
one morning, by feeling the servant of
a brother officer pulling at his foot.

"Sahib," whispered the man, "sahib,
what am I to do? My master told
me to wait him at half past six, but
he did not go to bed till seven."

A FAMOUS JURIST

Sir Frederick Pollock Arrived by R. M. S. Parisian Last Night.

Sir Frederick Pollock, the distinguished English jurist, was a passenger by the Allan mail steamer Parisian, which arrived last evening. Sir Frederick disembarked at Quebec, and registered at the Chateau Frontenac.

Sir Frederick Pollock, LL.D., D.C.L., Corpus professor of jurisprudence in the University of Oxford and editor of the Law Reports from 1895, was born in London on December 10th, 1845. He succeeded his father the second Baron Pollock, in the title in 1888. He married Georgina, daughter of John Duffell, in Calcutta, in 1873. He was educated at Eton, of which he was King's scholar, Trinity College, Cambridge, where he took his M.A. degree and became a Fellow of Trinity College, Cambridge, in 1868. He became a corresponding member of the Institute of France in 1894. Sir Frederick Pollock became a barrister in 1871, Professor of Jurisprudence, University College, London, 1882-83, Professor of Common Law in the Inns of Court, 1884-90, member of Royal Society, 1891-94. Among his well known publications, which have gone through many editions are: "The Principles of Contract," 1875; "The Law of Torts," 1887; "Digest of the Law of Partnership," 1877; "The Land Laws," 1882; "Essays in Jurisprudence and Ethics," 1882; "Oxford Lectures," etc., 1890; "Introduction to the History of the Science of Politics," 1890; "The Law of Fraud," etc., in British India (Tajore Law Lectures), 1894. With Mr. Justice Wright he has published "Possession in the Common Law," 1888, and with Prof. F. W. Maitland a "History of English Law," 1895. Life and Philosophy of Spinoza, Leading Cases Done Into English, Early History of Mountaineering (in Badminton), a First Book of Jurisprudence, and The Etchingham Letters (in conjunction with E. Fuller Maitland) have also come from the prolific and learned pen of Sir Frederick. He was formerly much devoted to mountain climbing and was for some time honorary librarian of the Alpine Club. Fencing and cycling are also recreations in which Sir Frederick Pollard has sought diversion.

INQUEST TO-DAY. The inquest on the remains of the unfortunate man Morency, who was struck by a train on Prince Edward street on Friday evening, will be held at the morgue this morning.

THE LATEST AND THE BEST. Messrs. F. Simard & Co. have just received a very large consignment of the latest styles in lace and garments for autumn and winter gowns. Special attention is drawn to their display of boys' suits for school and early fall wear.

FORTHCOMING MARRIAGE. The marriage of Mr. Lawrence Bogue representing Messrs. Thos. May & Co., and son of Mr. Henry Bogue, to Miss Agnes Maguire, is announced to take place in St. Patrick's Church on the 3rd October next.

NOT THE SAME PARTY. One of the bondsmen for Mr. Huard, M.P., arrested for criminal libel on Friday last, was Mr. Jos. Darveau and not Mr. George Darveau, as published in a number of papers.

FALL FASHIONS. Grand exposition of fall fashions on Tuesday, Sept. 26th, and following days.

NEW LEGAL FIRM. Mr. Ant. Galipeault, advocate, of this city, has entered into partnership with Senator Choquette and Mr. Allyn Taschereau, the firm to be known in future under the name of Choquette, Galipeault & Taschereau.

FIRE AT ST. ROMUALD. Between Friday and Saturday morning last fire completely destroyed the barn of Mr. P. Cantin, advocate, at St. Romuald, over 4,000 bundles of hay and a quantity of farming implements falling a prey to the flames.

YOU ARE TO BE BLAMED. If you make a bad purchase in dry goods, because you know that we are there, and always there waiting on you.

MARCEAU & CO. A GENEROUS ACT. At the different masses in the Diamond Harbor Church yesterday Revd. Father Hickey, C.S.S.R., took occasion to thank Mr. James Fevre, of Mobile, Ala., and formerly a resident of Champlain ward for his generosity in having the exterior of that church painted at his own expense.

OPENING OF FASHIONS. Ladies, we invite you to visit our exposition of hats, which will commence on Monday, 25th instant, and following days.

We will also take pleasure in showing you over our fur department which leaves nothing to be desired.

We are convinced in advance that you will find at our establishment all that you require for next season. A visit is respectfully solicited.

L. HEUREUX & GAUVIN, 183 St. Joseph Street.

PRAISE FOR PRO-MAYOR. Speaking of the recent festivities held in this city, Le Soleil has this to say of Pro-Mayor Cummings:—

"We consider that we would be failing in our duty if we did not specially mention the name of Ald. Cummings, the excellent Pro-Mayor of this city."

As may be well understood, Pro-Mayor Cummings was connected intimately with all the organizations and let us say immediately that he acquitted himself of his task with tact, ability and dignity on each occasion that he was called upon to do the honors of the city and specially at the City Hall reception. We say this with the more pleasure as we, under these circumstances, reflect the sentiments of the public.

AT THE AUDITORIUM

Of the "Smart Set," which will be given at the Auditorium this evening, the Montreal Star says:—

The "Smart Set" Company certainly made a hit at the Academy of Music last week. The piece put on, like the bill of the previous week, has scarcely any plot. Such complications as there are develop through the efforts of G. Washington Bullion, who is an American millionaire of the darker hue, and quite "It" in Kentucky, to find a young lady who has fallen heir to a great fortune, of which Bullion has been appointed administrator. In the course of his travels he reaches Honolulu, where he is kept so busy in living up to his fame, which has preceded him, that he has hardly a moment to spend in search of the missing heiress. S. H. Dudley made a really excellent Bullion. His interpretation of the part kept the audience laughing almost continually, and when they were not laughing they were applauding. Another member of the company who deserves particular praise is Bill Young, who appeared as John Cain, a sugar planter, and a staunch friend of Bullion, who was admirably filled by John Bailey, while Jerry Mills, as Dible Ketchum, an eccentric detective, caused great amusement. The other members of the company gave excellent support.

MILITIA ORDERS. The militia orders published Saturday contain notice of the retirement of Lieut. L. A. Talbot from the 6th Regiment Quebec and Tevis Artillery and the appointment of Mr. M. A. Piche as veterinary major for the district of Quebec.

FACULTY OF ARTS. The annual meeting of the Faculty of Arts of Laval University took place on Saturday morning, the following officers being elected:—

President—Chs. Angers. Vice-President—Aristide Labrecque. Secretary—Jos. Rouleau. Asst. Secretary—Jules Vallee.

AUTUMN MILLINERY. The attention of readers is directed to the advertisement of Miss O'Neil, whose stock of autumn millinery is now complete and of the most fashionable selection. The choicest of English and Parisian veils may be had at this favorite store, as well as children's millinery of the latest and most varied description. Any one desiring to secure the most fashionable and select offerings in autumn millinery should not fail to call at Miss O'Neil's, Fabrique street.

BEFORE THE COURTS. A young man named Walter Paterson appeared in the Police Court on Saturday on a charge of stealing articles from private houses where he was employed as a weed Sawyer. He was remanded for investigation.

A man named Simard, charged with stealing a brush from Mr. F. Parent, contractor, pleaded that he had only taken it as a loan, and sentence was suspended.

SAVE MONEY. Send your messages to Montreal by DeForest Wireless Telegraph. Call up 43 for a messenger.

A PROMISING YOUNG QUEBECER. The success of a Quebecer abroad is invariably hailed with pleasure by those at home. Mr. James Craib, the twenty-year-old son of Mr. Alexander Craib, an old Quebecer, who left this city about ten years ago, and grandson of the late Mr. Jas. Colvin, and nephew of Mrs. Jos. E. Vincent, of this city, has gained some prominence in Portland, Oregon, through a legal victory gained there. Mr. Craib, who is studying law, acted as Crown prosecutor and an Oregonian exchange has the following to say in connection with the young man's maiden venture in this capacity:—"In the case of the State against Wm. Saylor, of Troutdale, charged with assault on Hermann Fritz on the night of August 16, tried yesterday before Justice Shreve, of the Mount Taylor Court, the defendant was found guilty. It was Jas. Craib's maiden case and a legal victory for him, he representing the State in the prosecution. The assault was an aggravated one. Fritz, who is a small man, was terribly beaten."

ORDINATION. Yesterday morning in the Cathedral of the Holy Trinity the Lord Bishop of Quebec ordained to the priesthood the Rev. Francis Plunkett, B.A., of Bishop's College, Lennoxville. In this solemn service the candidate was presented by the Very Revd. Dean Williams, who preached a very able and appropriate sermon. The Bishop himself said the Litany and celebrated the Holy Communion, the Very Revd. the Dean acting as Epistoler and the Very Revd. Archdeacon of Nova Scotia as Gospeller. The Rev. L. Newton Kerr, M.A., incumbent of Marlinton, acted as Chaplain and bore before the Bishop the Pastoral staff. All more-over united with the Bishop in the solemn Laying on of Hands.

The Rev. F. Plunkett is leaving Quebec immediately to work with the Rev. A. T. Vibert and the lay readers, and schoolmasters on the Canadian Labrador. There will be many who will desire to pray for these heroic missionaries that they may be greatly blessed in their labors and accomplish much good among the poor fishermen on this wide rocky coast.

PRISONER BEATEN TO DEATH. Williamston, W. Va., Sept. 24.—Breaking into the city jail here today, an armed and masked mob of White Ribboners took out Moses Lovrin, an negro serving a sentence for assaulting James Bulger and Thomas Blackburn, the only other prisoner. The mob beat, whipped and stoned Lovrin until he was presumably dead. Lovrin will die. Blackburn gave the names of eight men in the mob and Prosecuting Attorney Shepard has issued warrants for them.

RIOT AT CHURCH DOOR. Adams, Mass., Sept. 24.—A long standing disagreement between 300 parishioners of St. Stanislaus (Polish) Church here and the pastor, Rev. M. F. Kopythiewicz, culminated today in a riot at the church doors during high mass. Stones were thrown and police were obliged to draw revolvers before peace was restored. The dissatisfied parishioners marched to displace the regular collectors with collectors of their own. Chief of Police Curran and several officers who had been summoned were forced to draw their clubs to disperse the crowd. In spite of the intense excitement, Rev. Father Kopythiewicz continued the service without interruption. The trouble in the church developed last month over the financial accounts of the parish. The dissatisfied element had appointed collectors of their own to take collectors of their own. Chief of Police

GALICAN WOMAN'S CRIME. Winnipeg, Sept. 24.—The preliminary hearing of Catarina Czebiak, charged with murder, was heard behind closed doors at the police court by Magistrate Daly. The crime with which she is charged was committed on Sunday, Aug. 27 last. The woman, who is a Galician, gave birth to a child in an outhouse at the rear of a house on Manitoba avenue. Her husband was later discovered, quid dead. The woman herself was found a short distance from the banks of the Red River where, utterly exhausted, she had fallen to the ground. The evidence produced at the trial was given by the detectives who found her, the parties who first found the body, and the Coroner, who saw the infant's remains shortly after the discovery. He gave it as his belief that the child was born alive and came to its death by suffocation. A house surgeon of the General Hospital, where the prisoner has been since Aug. 27, deposed as to her condition when admitted to the hospital. The accused is said to be a married woman, though her husband is not in Winnipeg. She was not represented by counsel at the trial yesterday. She listened to the evidence calmly, offering no remarks. At the conclusion, His Worship committed her to jail to stand trial for murder at the fall assizes.

"The square peg in the round hole" figuratively expresses the use of means unsuited to the desired end. A great many people who have been cured of dyspepsia and other diseases of the stomach and its allied organs of digestion and nutrition by the use of Dr. Pierce's Golden Medical Discovery say: "We tried many medicines with only temporary benefit. It was not until we began the use of 'Golden Medical Discovery' that we found a complete and lasting cure."

It is undoubtedly true that Dr. Pierce's Golden Medical Discovery holds the record for the perfect and permanent cure of indigestion and other diseases of the stomach and associated organs of digestion and nutrition. It is not a palliative. It cures the cause of disease and builds up the body with solid healthy flesh, not flabby fat.

"It is with pleasure that I tell you what Dr. Pierce's Golden Medical Discovery and 'Pell's' have done for me," writes Mrs. T. M. Palmer, of Peede, Kaufman Co., Texas. "Two years ago I was taken with stomach and bowel trouble. Everything I ate would put me in distress. I lived two weeks on milk and even that gave me pain. I felt as though I would starve to death. Three doctors attended me—one said I had dyspepsia, two said catarrh of the stomach and bowels. They attended me (one at a time) for one year. I stopped taking their medicine and tried other patent medicines; got no better, and I grew so weak and nervous my heart would flutter. I could not do any kind of work. Now I can do my house work very well; am gaining in flesh and strength, and can eat anything I want."

Accept no substitute for Dr. Pierce's Golden Medical Discovery. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of customs and mailing only. Send 31 one-cent stamps for the paper covered book, or 50 stamps for the cloth bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

ANNUAL MEETING

Of Shareholders of Montreal Park and Island Railway Company.

The annual general meeting of the Montreal Park & Island Railway Company was held at noon on Thursday, the 21st instant, in the Street Railway Chambers. In the absence of the President, Hon. L. J. Forget, the chair was taken by Hon. W. G. Ross, the Managing Director of the Company, and Mr. P. Dubee acted as Secretary.

The annual report and financial statement was submitted and approved. The financial report shows that the Park & Island Railway is in very unsatisfactory financial conditions. During the past year the results show a large deficit and that no interest was paid on the bonds, and their floating debt is considerable, amounting to nearly \$1,000,000.

Much comment was caused by the fact that their bill to Parliament at its last session asking for an extension of time to complete its system and increase its securities in order to enable them to pay off its floating debt and apply additional funds for betterments and improvements, had been thrown out, principally through the endeavors of western members who knew nothing of conditions in and about Montreal. The Shareholders were asked to join together to obtain legislation, but as some of the Shareholders questioned the Directors as to what benefit other than consolidation of the debt of the Company would gain them, the Directors were unable to give them any encouragement except to prevent the Company being sold out.
