## ALLIES AT PEKIN IN DANGER.

### Japanese Despatch Says 80,000 Chinese Troops Have Gathered Near Pekin.

## EMPEROR AND TUAN CAPTURED.

### It is Stated That They Are Held a Pekin--Chinese Are Fleeing From Pekin in Large Numbers.

Moscow, August 25.—(Special)—The Japanese legation has received news that the allies at Pekin are in danger. Eighty thousand Chinese are reported to be gathering at Pekin.

#### EMPEROR INCURABLY ILL.

London, August 25.—(Special)—Noon.—There is nothing new from Pekin this forenoon except the report that the Emperor is incurably ill with cancer in the throat.

Reports from the southern provinces show that uprisings continue, and it may be necessary to send the allied army to every treaty port in Europe.

#### VON KETTELER'S BODY FOUND.

Berlin, August 25.—A Pekin despatch to the Lokal Anzeiger says the body of Baron von Ketteler, the German minister who was killed by the Chinese, has been found in a Chinese cemetery near the place where he was assassinated. It was found on examination that his death was caused by a bullet in the head. The body will be reinterred in a Christian cemetery.

#### REINFORCEMENTS AT PEKIN.

Berlin, August 25.—An official despatch from Tien-Tsin, Aug. 21, says the German naval detachment arrived at Pekin Aug. 18, and that the marine battalion reached Ho-si-wu Aug. 20.

#### GERMANY'S CHINESE POLICY.

Berlin, August 25.—A section of the German press is talking about Count von Waldersee's "political programme in China." Such a phrase is entirely inapplicable. Count von Waldersee is going without any political programme. The German Government is carrying on ceaseless diplomatic negotiations here and in the capitals of the powers to agree to a joint programme for the immediate present, and the policy for months ahead is not even dreamed of now. Perfect harmony regarding China continues to prevail between Germany and the United States. The Cologne Gazette, in the course of an inspired article, replying to demands made by a number of German jingo papers that Germany should seize a godly portion of the Yangtze Valley, says: "Germany most emphatically does not harbor any such intention."

#### STUDYING THE SITUATION.

Washington, August 25.—To-day's Cabinet meeting was devoted to the diplomatic phases of the Chinese situation, particularly the place which the United States should take in the concert of Powers with regard to each rapid change in the aspect of affairs. A long reply has been received from General Chaffee in response to the direction to observe and report on the diplomatic as well as the military situation. This despatch, which has not been made public, and it is said, will not be furnished material for considerable discussion in the Cabinet meeting to-day. Russia's attitude and the meaning of the press reports this morning to the effect that the Russian commander at Pekin regards himself as at war with China, seemed to occasion the greatest concern. The position of the Administration now is a waiting one, and efforts will now be directed towards ascertaining what the powers propose to do. The Administration's general attitude continues hopeful; the Chinese are known to be exceedingly eager for a settlement, and if the European nations are also sincere in desiring one, no doubt the whole trouble will soon be in process of clearing.

#### CHING STILL IN PEKIN.

Washington, August 24.—Acting Secretary Adee made public to-night the following despatch from Consul Fowler at Chefoo, hearing on events in Pekin: "Chefoo (undated)—Received Aug. 23, midnight: Secretary State, Washington, 23rd.—Japanese report Emperor and Empress Dowager left Pekin 14th, rested at Wai Shou Shan, supposed destination. Ta-

ment they landed until they reached their quarters. The men were brought over from Lewis by tender. As they neared the wharf the vast crowd that awaited their arrival sent up volley upon volley of welcoming cheers. The cheering and flag waving continued without cessation until the mayor advanced to welcome the boys in person.

#### Yuan Fu (Tai Yuan Fu?) Shen S;

Prince Ching believed in Pekin, Li Ping Heng died. Half population left. (Signed) Fowler.

#### PRINCE TUAN CAPTURED.

London, August 25.—3.45 a.m.—A Chinese telegram from Tsin Fu says that Prince Tuan has been captured by a detachment of the allies.

#### EMPRESS ALSO IN PEKIN.

From Shanghai comes the report, qualified by the assertion that it is from purely Chinese sources that the Empress Dowager, after proceeding on a day's journey from Pekin, because terrified at the looting by Gen. Tung Fuh Siang's troops and went back to Pekin.

#### EMPEROR SU FOUND.

Shanghai advises announce the receipt there of a Chinese official despatch asserting that Emperor Kwang Su had been found and rescued by the Japanese.

## YET ANOTHER WAR.

### British Press Anticipates Fight Between England and France.

#### BOTH COUNTRIES ARE STRENGTHENING THEIR SEAPORT FORTIFICATIONS.

London, August 25.—(Special)—All papers throughout England are convinced that France is preparing for war with Great Britain.

#### Both countries are hurrying preparations.

Britain is mobilizing her fleet and strengthening her seaport fortifications. France is doing the same. A genuine war scare is spreading throughout the country.

#### IN TWO ROUNDS.

### FITZSIMMONS DEFEATED SHARKEY LAST NIGHT.

New York, August 25.—Whipped into insensibility in less than two rounds is the story in brief of Tom Sharkey's meeting with Bob Fitzsimmons at the Coney Island Sporting Club last night. Fitzsimmons was the victor; Sharkey the loser.

#### GENERAL AMNESTY FOR DREYFUS.

Report That a Message Is Being Prepared by President Loubet.

Paris, August 25.—The Libre Parole says President Loubet is preparing a message asking general amnesty for Capt. in Dreyfus and Colonel Picquart, and also for five persons sentenced by the High Court. Afterwards, the paper says, Mr. Loubet will retire from the presidency.

#### PARIS EXPOSITION.

A despatch from Stockholm says that the Swedish Government has voted a large sum of money for the purpose of enabling intelligent workmen to proceed to the French capital, and there glean new ideas from an inspection of the manufactures and goods exhibited. As a result some scores of mechanics, artisans carefully selected from various trades, draughtsmen, and engineers have been granted travelling allowances varying in amount from \$75 to \$150, and have been despatched to the exposition in drafts. Each of the delegates received two-thirds of his allowance prior to his departure from Sweden, and the balance is given him on his return home when he has to hand in a report of his impressions of what he has seen.

#### WEATHER PROBABILITIES.

August 25.—11 a.m.—Forecast for the next 24 hours, issued by the Meteorological Bureau: A few scattered thunderstorms, but generally fine and exceedingly warm.

## BURY.

August 24.—A bicycle record was established from Bury to Sherbrooke and return last Sunday afternoon by O. L. Pope, of Bury, who rode the distance in three hours and twenty minutes. The distance is 53 miles, the roads being in very poor condition.

The death of Mr. William Ross occurred last Wednesday evening. The deceased has been ill a very long time and been a great sufferer. The funeral was held at St. Paul's church, Friday, 24th inst., and was one of the largest ever held in the village, which testified to the high esteem in which the young man was held.

The community is very sorry to hear of the sudden illness of Mr. George Sawyer, of Cookshire.

Misses Katie and Mabel Chester, of Marlinton, spent a few days this week visiting Miss G. Ward.

A large party from here enjoyed the trip to Newport, Vt., Thursday.

Dr. Amable and wife are visiting at Mr. Hawley's.

## DANVILLE.

August 24.—The Rev. Richard Robinson returned to his home in Magog today. While here he has visited at sixty-three different places, 37 being in the village and 26 outside. He regrets that, owing to his time being limited, he was unable to call on all he wished to see. The regret, we may add, is not only on his part.

Mr. Fred Archer, of Kaslo, B.C., formerly in business here as Gismith, arrived on the 11 today. He is interested largely in mining enterprises, and has with him some fine samples of ore.

Master Henry McGovern, of Richmond, is spending a few days with Mr. Nelson Smith and family, at the Lakes.

Mr. and Mrs. S. Fortier, who have been the guests of Mr. Roderick McLeay, left today for their home in Denver, Col.

Mr. Bert Jarvis, who came here to attend the funeral of his father, has returned to Medford.

We hear that Mr. Milo Gallup has some idea of making his home out West.

Mr. John Sparkes, of Nicolet, died at his home this morning.

## INCREASED THE PAY.

### MINERS' WAGES AT THETFORD RECENTLY ADVANCED 25 PER CENT.

The mining companies at Thetford Mines recently increased the miners' wages 25 per cent. Asbestos is bringing good prices now, and the advance was made by agreement of the companies. One company delayed in announcing the change, and consequently the miners' quit work, but returned on being informed that they were to receive the same increase as the employees at the other mines.

Following the raise of miners' pay, the Quebec Central track laborers made a demand for an increase, which was granted.

## HORSE STOLEN.

### JAMES HARKNESS REPORTS LOSS OF HORSE AND WAGGON AT THE MARKET.

Mr. James Harkness reports to the police office that his horse and wagon were stolen from near the new market this morning.

He left the horse hitched to a post, and when he returned it was gone. He says it could not possibly have freed itself.

The animal is described as a brown mare, wearing open bridle and hitched to an old Concord wagon. There was a milk can in the wagon.

## PERSONALS and BRIEFLETS.

Miss Lena McKee, of Richmond, is in the city on a visit to her cousins, Misses Frances and Florence Armstrong, Peel street.

Mr. A. H. Genge returned this morning from a ten days' trip to Montreal, New York and Boston.

Mrs. S. S. McDonald has gone to Ottawa for a month's visit to her parents, Mr. and Mrs. Brain.

Among the late arrivals at the Continental are: Jos. Lapointe, Garthby, Jas. S. Christie, Rock Island; J. O. Laporte, Montreal; J. A. Chevalier, Brompton Falls; John Champoux, D'Issraeli; P. Martel, Quebec; A. L. Moffatt, Hartford; E. E. Bouchard, Waterloo.

Mr. F. M. Clement, promoter of the proposed new opera house, is in town today.

Mrs. (Rev.) Wm. Adams, of Chateaugay, N.Y., was visiting friends in Sherbrooke and Lennoxville yesterday on her way through to Sawyerville.

Miss Minnie Smallhorn, from South Quebec, is the guest of Mrs. G. G. Bryant, Gordon street.

Mr. Carl Juvel is attending the street fair at Burlington, Vt., in the interests of Canada's Great Eastern Exhibition.

Miss Kate Menzies, of Providence, R.I., is visiting the family of Mr. F. J. Davis, in this city.

Miss Campbell and Miss Annie Campbell, from Montreal, are at present staying with Mrs. M. McKenzie.

Miss E. C. Lee is taking her vacation at her home in Barrie, Ont., and is also visiting Toronto, for the millinery openings.

Mr. and Mrs. E. C. Fraser have returned from a holiday spent in camping on the shores of Lake Memphremagog.

Mr. J. E. Boswell, Secretary of the Paton mill, is again confined to his bed, suffering from a slight relapse.

Mrs. J. H. Kellar is very ill, and not recovering as quickly as friends could wish.

Miss Kate Beckett, who has finished her first year of training at the Brooklyn General Hospital, N.Y., arrived in town this morning to spend her vacation at home.

Mrs. Kenneth McDonald, formerly a resident of Sherbrooke, but who has been living in Greenfield, Ont., since the death of her husband, is visiting old friends in town.

Mr. and Mrs. P. P. Buck drove to the Little Lake this morning to spend Sunday and Monday at their cottage.

Mr. E. H. R. Brooks is spending a few weeks at Abenakis Springs.

Mrs. McNulty, who has been staying for the past few weeks with friends in Sherbrooke, has left for her home in New York.

Miss Armstrong, from Montreal, is the guest at present of Mrs. Alex Ames Sherbrooke.

Mr. and Mrs. Fred Pullen and child left for their home in Chicago this morning, after spending the holidays with his parents in this city.

Mr. W. D. Fraser, of the E. T. Bank, has returned from his vacation, which was spent at North Hatley, with the exception of a trip to the Saguenay.

Mrs. A. N. Worthington entertained the "Duplicate Whist" Club last evening at the first meeting of the series which has been arranged. Three tables were filled and the game was most interesting; even more so than as ordinarily played. Refreshments were served, and the evening was much enjoyed by the twelve guests.

Misses Georgianna and Jeanette Gadbois are back from Stanstead, where they have spent a couple weeks.

## CORDUA IS SHOT.

### Pretoria Plotter Pays the Penalty.

#### THE EXECUTION TOOK PLACE YESTERDAY.

London, August 25.—(Special)—Lt. Cordua, the Pretoria conspirator, was shot yesterday afternoon. He was a lieutenant in the Transvaal army and taken prisoner by the British, but released on parole. He then headed a conspiracy to kill the British officers in Pretoria and kidnap Lord Roberts. The plot was discovered as it was about to be carried out, and Cordua arrested.

## WELCOMED AT OLD QUEBEC.

### Returning Canadians Given A Magnificent Reception At The Ancient Capital Last Evening.

Quebec, August 25.—The reception given last evening to the men of the Canadian contingent, who arrived on the steamship Lake Ontario, surpassed anything ever seen here. The arrival of the brave boys at 6 p.m. was convenient to all, and it is estimated that at least 30,000 spectators witnessed the reception and cheered the boys from the moment they landed until they reached their quarters. The men were brought over from Lewis by tender. As they neared the wharf the vast crowd that awaited their arrival sent up volley upon volley of welcoming cheers. The cheering and flag waving continued without cessation until the mayor advanced to welcome the boys in person.

## MURDER AT MONTEBELLO, QUE.

### S. Lacroix, Prompted by Jealousy, Kills His Wife and An Old Man.

Montebello, Que., August 25.—Jealousy, as bitter as it was probably unwarranted, prompted Stanislas Lacroix, a laborer, to kill his wife and Hypolite Thomas de Transmontagne, an aged shantyman, yesterday afternoon at the home of Mrs. Commandant, a squaw. Mrs. Lacroix was killed almost instantly. Three bullets from a heavy calibre revolver hit her in the hand, neck, and left breast. She fell to the sidewalk dead, with her three months' old baby clasped to her breast. The shantyman, who was struck in the arm and left side, walked several rods before he fell lifeless in the road. Lacroix was overpowered and lodged in temporary confinement in a room at Charette's hotel, after holding an armed posse, led by Mayor Fortin, at bay for nearly six hours. The man who made the capture is L. N. Castonguay, one of the prominent business men in the village.

## NEWS NOT CONFIRMED.

New York, August 25.—There was no confirmation in Wall street yesterday of a rumor from London that the Russian Government is going to negotiate a loan of \$150,000,000 in this country. At the offices of the New York Security and Trust Company, the fiscal agents of Russia in this country, it was said that nothing had been heard there of the loan.

According to the London despatch, the Russian Minister of Finance, M. De Witte, was about to make an arrangement with a syndicate of insurance companies to raise the money. The New York Life Insurance Company and the Equitable Life Assurance Society both have money invested in Russian securities already, but there is no indication that the amounts will be increased. The president of an important bank with Russian connections said yesterday: "Russia is a debtor nation; but she must borrow where she can get the cheapest. I think that just now she could get better terms in France than in the United States."

Rev. Dr. Warriner and family, of Montreal, who have spent the summer at Glen Villa, North Hatley, were the guests of the Rev. G. H. Craik on Monday. They were much pleased with the beauties of the Coaticook river as seen from the deck of Capt. Sprigg's steam yacht, "Mona."

NEW QUEEN'S HOTEL. Mr. J. H. McDonnell will open his new hotel, near the new market, to the public, next week. It will be known as the "Queen's" hotel. The new house has been equipped with all modern conveniences and well furnished. It is evident that it will be one of the best appointed hotels in the city and deserve a liberal patronage from the travelling public.

It is expected that the appointment of Postmaster and Collector of Customs in Sherbrooke, will be made to-day at the meeting of the Council at Ottawa.

## COATICOOK.

August 24.—Mr. and Mrs. Paige Taylor and daughter, of Canaan, Vt., and Mr. Haman, of Lawrence, Mass., who are taking a driving tour through the "Eastern Townships," were in Coaticook to-day, the guests of Mrs. A. F. Adams.

While Mr. E. W. Akhurst and his two daughters, the Misses Edith and Myra Akhurst, were driving last evening, the horses became frightened and suddenly bolted, throwing Mr. Akhurst out, with such force as to render him unconscious for some time. Miss Akhurst and her sister remained in the carriage, and succeeded in controlling the terrified animal after it had run for some distance.

Mr. A. E. Doak, of Waterville, and Mr. Wm. Taylor, of Coaticook, are in town to-day, guests of Mrs. Doak. They rode in on their wheels, and are making a bicycling tour of the Townships, and immortalizing the many lovely views of "the garden of Canada" by means of a camera.

Miss Mamie Andrews, of Hereford, who has been spending a week with her aunt, Mrs. O. Garceau, returns home to-morrow.

Miss Myra Sutton is spending a few days with friends at Lake Lyster.

Mr. and Mrs. George Parents, accompanied by their niece, Miss Erna Walker of Boston, Mass., arrived in town yesterday. They will spend a few weeks in Coaticook and vicinity with friends, before proceeding to Denver, Col., to spend the winter. They are at present visiting Mrs. Parent's sister, Mrs. Wright Davis, sr., at Ladd's Mills.

Mrs. Bassett, of Hyde Park, Vt., accompanied by her son, is the guest of her brother, Mr. N. G. Stevens, for a few days.

Among the late arrivals at the Magog House are: A. O. Hurst, H. Greif, Toronto; R. A. Darker, B. A. Planché, Cookshire; F. Withers, Magog; W. Macdonald, T. S. Currie, J. J. Goodwin, J. H. Dunn, Montreal; C. Weyland, Marlinton; C. E. Gale, Chester, Vt.; J. D. Ferguson, Cumberland, Ont.; W. G. Evel, Hamilton, Ont.; O. B. Lafort, Manchester, N.H.

MENACE IN ALASKA. MANY CASES OF SMALLPOX ARE REPORTED.

Washington, August 25.—Captain Shoe maker, chief of the revenue cutter Service, has received a report from Captain Cushing, commanding the Rush, dated Dutch Harbor, Alaska, July 19.

He states that a schooner from Nome to Seattle had just put into that port with a case of smallpox on board.

The fifty-four passengers and a crew of seven were quickly vaccinated, and the patient isolated on Hog Island, Captain's Harbor, with a nurse and a surgeon, together with medicines and a supply of food.

At about the same time the Gay Head whaling barque, came in with half her crew ill, the second mate dead and two others dying.

Captain Cushing says that, as the season advances and the crowds flock out of Nome, there are sure to be many infected vessels stopping at Dutch Harbor, and it will require constant vigilance to keep the natives from getting among the natives.

A marine hospital surgeon has taken charge of the quarantine station at Hog Island, and the quarantined schooner, and will do everything possible to prevent the spread of the disease.

GLUCOSE TRUST HAS A RIVAL. The National Starch Company Organized With a Capitalization of \$13,000,000.

Chicago, August 25.—Announcement is made of the organization of the National Starch Company with a capitalization of \$13,000,000, of which \$10,000,000 will be issued.

The officers will be: President, W. P. Piel, jr., Chicago; vice-presidents, T. P. Kingsford and W. H. Coles, secretary, J. D. Higgins.

The company will in a sense be a competitor of the Glucose Company, but only in the products which are identical to the manufacture of glucose sugar and corn syrups.

OPERA HOUSE. Monday evening, August 27th.

The American Girl is a comedy-drama of the highest type, and appeals to all classes alike.

One critic, speaking of the play said: "After a man sees the 'American Girl,' he believes that there are no women on earth so plucky and noble as the women on this side of the ocean.

After a woman witnesses this play she must feel more compassion for her sex than she ever did before."

Israel Trudeau, of Roxton Pond, committed suicide the other day by drowning himself in a culvert containing about 18 inches of water.

The coroner's jury empaneled by Dr. Mathieu, of Granby, returned a verdict to the effect that Trudeau had made away with himself while suffering from delirium tremens.

Do Not Be Deceived. The Sun Life Assurance Co. of Canada still leads the van, having written over \$4,000,000 more accepted business than any other Canadian company in 1899, as well as having attained the proud position of having the largest net premium income of any Canadian company.

MERCHANT SHIPS. Worlds Total Tonnage of About 29,043,728.

NEARLY 50 PER CENT OWNED BY GREAT BRITAIN. New York, August 25.—A Glasgow, special to the Commercial says: By the issue of a new edition of "Lloyd's Register Book," we are furnished, as usual, with a mass of valuable statistics relating to the mercantile marine of the world.

About forty nations possess trading ships of one kind or another, the total is gradually assuming colossal dimensions.

In the middle of 1899 the vessels numbered 28,150, representing a tonnage of 27,673,528; now the respective figures are 28,422 and 29,043,728.

Close on fifty per cent of this tonnage is owned by Great Britain and her colonies.

One ton of steaming tonnage is equal to three tons of sailing tonnage, and in steam tonnage our merchant is superior to those of all other countries combined.

It is not, then, by the mere number of ships that the actual strength of mercantile navies must be judged. Some twenty years ago our comparatively small total tonnage of 6,000,000 was divided among 20,000 vessels, but more than half were sailing craft.

Bit by bit the ships propelled by the "unbought wind" and, therefore, at the mercy of the elements, have been replaced by steamers of large capacity, which can conduct their trade under all conditions of weather.

Few of our rivals for the carrying trade of the world have made so much progress in this direction; some of them, indeed, still cling as tenaciously as ever to the sailing ship.

Nearly a half of the tonnage of the United States is made up in this way. Steamy and Italy have nearly as many sailing ships as steamers.

The Portuguese stand very much in the same position, and even the French, Germans and Russians have a fairly large proportion of sailing ship tonnage.

The following table shows the vessels and tonnages of all the nations that own more than 100,000 tons.

Table with columns: Country, Vessels, Tonnage. Includes entries for Great Britain, United States, Germany, Norway, France, Italy, Spain, Sweden, Japan, Holland, Denmark, Austro-Hungary, Greece, Brazil, Belgium, Turkey, Portugal, Chile, Argentina, China, Columbia, Cuba, Hayti, Hawaii, Mexico, Montenegro, Peru, Philippine Islands, Roumania, Sarawak, Siam, Uruguay, Venezuela, and Zanzibar.

At the present moment according to Lloyd's, we have more than 1600 steamers of 3000 tons and upwards. Germany has only 127 vessels of that large class, while the United States has 120 and France 60. The supply of these steamers in Russia, Japan, Italy and elsewhere is infinitesimal.

RECALL OF TURKISH MINISTER. Washington Knows of No Reason for the Action.

Washington, August 25.—Though brief despatches announce that the Turkish Government contemplated recalling Ali Ferrouh, the Turkish minister to the United States, no information regarding the matter has been received by the State Department.

Though it is admitted that Secretary Hay was not altogether satisfied with the character of some of the reports made by Ali Ferrouh to his Government relative to the temper of the Administration with respect to the settlement of the claims which this Government was pressing against the Sublime Porte, it is stated emphatically that Mr. Griscom received no instructions to make any representations calculated to lead to the minister's withdrawal.

The authorities are inclined to believe that the minister's prospective recall is rather due to an internal politics of Turkey than to any dissatisfaction with his conduct in Washington.

A DESPERATE CRIMINAL. Swede Who Has Committed Many Murders Detained in Halifax.

Halifax, N.S., August 25.—Immediately upon the arrival of the steamer Assyrian from Liverpool, she was boarded by Detective Power and Immigration Agent Clay. They had been notified by the Department of Justice at Ottawa that an Order-in-Council had been passed which would prevent Johan Hannu, a Swede, from landing.

Hannu is said to have committed nine murders in Stockholm, Sweden, and after serving twelve years in prison was deported from the country. Hannu boarded the steamer at Glasgow and was bound for Winnipeg, where he intended marrying a young Swede woman. Detectives found the man and he admitted his name was Hannu. He was searched, but no weapons were found on him. He is a desperate character.

He told the detective that he had sent four thousand pounds to the woman in Winnipeg. Hannu was locked up on board and will be taken to Philadelphia and thence back to Glasgow.

TREATY WITH SPAIN. FORMER RELATIONS ARE COMPLETELY RESTORED.

Washington, August 25.—Minister Storer at Madrid informs the State Department that a treaty of amity, commerce and navigation and general intercourse has been signed provisionally by the minister of state and himself.

This practically marks the last step in the complete restoration of relations between Spain and the United States.

SHIPS WITH GOLD. TWO STEAMERS ARRIVE WITH PRECIOUS FREIGHT.—MORTALITY AT NOME.

Port Townsend, Wn., August 25.—The steamer Tacoma has arrived with \$800,000 in dust, and 65 passengers from Nome. Most of the gold came down the Yukon from Dawson to St. Michaels.

Among the passengers returning on the Tacoma was Regno Dahl, who is credited with having a small fortune aboard. Dahl went north in charge of Dr. Jackson's Laphlaphers to take charge of the reindeer sent by the Government to relieve the reported distressed miners along the Yukon two years ago.

The steamer Drig has arrived from Skagway, bringing 100 passengers and one ton of gold from Dawson.

The whole number of deaths at Nome since June 1, as shown by the records of the boroner, is 71, of which 29 were natives. There has been only one death from smallpox. Most of the deaths were from pneumonia.

SULTAN TAK ACTION. THE COMMANDER OF BITLIS DISTRICT IS RELIEVED.

Constantinople, August 25.—The Sultan has ordered a committee to investigate the recent massacre of Armenians in the Sassoun district of Asiatic Turkey. In the meantime his majesty has relieved Ali Pacha of the command of Bitlis.

RUSSIA INTERVENES. Julian Ralph Describes a European Movement to Alienate the United States From Great Britain.

London, August 25.—Julian Ralph in the Daily Mail quotes from a diplomat of high standing, "whose name is not given, who declares that Russia is vigorously endeavoring to secure American support, and to break the harmony existing between the United States and Great Britain.

"England," says the diplomat, "has no first class power except America which offers her the slightest ground for helping for a friendly hearing of her case. The bitter feeling of to-day will generate war against her to-morrow.

Russia's plan, which is encouraged by Austria-Hungary, France and Germany, is to strip Great Britain of all support—to leave her naked—before such a war begins."

THOUSANDS FACE STARVATION. Indian Famine Relief Committee Report the Present Situation as Appalling.

New York, August 25.—The Committee of One Hundred on Indian Relief received a cablegram yesterday from Wm. T. Fee, United States Consul at Bombay, chairman of the American-Indian Relief Committee, which reads: "Famine distress appalling. Thousands will die of starvation unless rescued. Money is needed to buy both food and blankets. The suffering from lack of clothing is terrible. Cholera is still active. The condition of destitute women and deserted children is specially pitiable. Many boys and girls are in heartrending need."

## SEE HERE for an Investment IN MINES that will Make Money FOR YOU.

**THIS STOCK GOES UP.** It is the kind to buy. Send for literature and information and learn why you had better invest all the money you can before the price goes higher.  
Both Placer and quartz mining, and a sound enterprise of merit. Money subscribed for stock swells the fund to maintain the works which increases in rapid ratio the value of the properties, and that is what makes the price go up. It will make the PROPERTIES PAY A DIVIDEND before any one imagines it.  
Placer mining is the most fascinating—no smelting—no concentrating. Simply dig up the deposit and wash out the gold—which is MONEY.  
The shares are now 15 cents. Take them before they go up to 20 or 25c.

Do not forget the Centennial celebration which takes place on the 29th inst. Rev. W. A. and Mrs. Adcock, from East Angus, were at Silver Lake this week.

## QUO VADIS.

A festival is to be held in Poland in November in honour of the author of "Quo Vadis," and it is expected that enough money will be subscribed to buy him a fine country estate. It can hardly be that Skoniewick is in need of money, for it is reported that, in addition to the sales at home, 100,000 copies of "Quo Vadis" have been sold in the United States, 40,000 in Italy, and 150,000 in Germany, while in France its boom is just beginning. The story of a million copies in the United States is probably exaggerated, but the number is certainly large enough, and a good share at least of the copies paid a royalty to the author.

Mr. Albert Varney and Mr. Edgar Varney, accompanied by a few friends, went to Brompton Lake this week on a camping and fishing excursion.  
Mr. Paquet, contractor, St. Hyacinthe, was here this week and purchased all of Mr. E. W. Tobin's hard wood lumber for building purposes.

## AROUND THE TOWNSHIPS.

Mrs. Westover, of the Central House, of Brome, had the misfortune to break her wrist while descending the stairs.  
Frank Allen, Melvin Clow and William Stevenson, three young men from Granby, have gone to Manitoba and the Northwest on a trip.  
The Waterloo baseball team played the Farmham game on the grounds of the latter town Saturday. The Farmham winning by a score of 17 to 16.  
The Ven. Archdeacon Lindsay, who has been confined to the house all summer in Waterloo, has not been quite so well of late, but his condition does not excite an immediate alarm.  
July, 1900, was a record breaker at the Rock Island and Derby Line station. 1,225,000 lbs. freight was received in and 143,000 lbs. freight was dispatched outward. Ticket sales, \$590.  
Miss Lena McLaughlin, of Waterloo, sails on Saturday by the Parisian from Montreal for Liege, Belgium, where she is to take a year's course in the conservatory of music under the best masters.

## THE PRESIDENT AND DIRECTORS OF THE SHEFFORD FRUIT GROWERS' ASSOCIATION

have preparations well advanced for the annual exhibition at Granby on Thursday and Friday, September 6th and 7th.  
The breakage of a whistle-tree on Sunday morning while going down the hill near Scott's Mill, Brome, threw out Rev. E. M. Taylor and Prof. Bell-Smith. Both were considerably bruised, but not seriously.  
Mr. A. B. Robichaud met with a rather painful accident Wednesday in Montreal. While engaged in a friendly game with Louis, local manager of the Bell Telephone Company, his left arm was accidentally showed through a pain of glass, cutting it to the bone.  
Lieut.-Col. Hemming, son of E. J. Hemming, Esq., P. C., Knowlton, and recently in command of the Yukon force, paid a flying visit to his parents here last week, en route from Fredericton, N. B., to London, Ont., where he is in command of No. 1 depot of R.C.R.I.  
Dr. C. L. Cotton, M.P.P., and family arrived home at Cowansville last Sunday night after a most delightful tour of European cities. The doctor and his son, Thomas, took in the sights at Paris exposition, whilst Mrs. Cotton and Katherine remained over with relatives in Scotland.  
General Stillman F. Kneeland and Mrs. Kneeland, of New York, and the Hon. James N. Castle, of Minneapolis, are the guests of Mr. H. B. Kneeland, of South Stukely. General Kneeland is not only a leading lawyer but is prominent in New York politics. The Hon. James Castle, who was an old Sherbrooke boy, is also a lawyer with a large practice and has served a term or two in Congress. He expects to remain in Canada a month or more.  
Fred Merrill, of Richmond, Vt., who has been in the employ of E. Miltmore, hotel-keeper, Stanbridge, for the last year as butler, was dismissed on Saturday night, 11th inst. He was under the influence of liquor and went to find a bottle of whiskey that he had hidden beside the road the night before. He did not succeed in finding the bottle and then went back to the house and had down and went to sleep. He did not get up for dinner. They went to call him and tried to revive him but found that life was extinct.

## MAGOG.

News items for insertion in the DAILY RECORD will be gladly received by Dr. W. W. Chalmers, local correspondent, Magog.  
August 24.—A fire broke out this afternoon in the roof of the engine room of A. D. Martin's work shop. A splendid stream efficiently managed by Mr. Martin's private fire brigade succeeded in extinguishing the flames before any great damage was done. The fire caught some of the boards forming the roof becoming overheated. The roof being double ironed, and the ceiling, also of tin, made it a difficult matter to reach the blaze. The town brigades were also on hand but their services were not required.  
Geo. W. Liddell, of Montreal, is in town to-day and will officiate at the organization of a council of the Royal Arcanum to-night.  
A large excursion party from Cookshire arrived in town Thursday morning by the Halifax. On account of the dense fog, the steamer Lady was unable to land until nearly 8 o'clock. The boat returned in the afternoon, and an excursion party was held at the Park House in the evening until the Halifax train arrived, on which the excursionists departed.

## COOKSHIRE.

August 24.—The Foresters' excursion to Newport Thursday was a grand success, about 120 went from Cookshire, 40 from Brompton, 20 from Johnville, and quite a number from Lennoxville, Sherbrooke and Magog. The express arrived in Magog about five a.m. Owing to a dense fog, the steamer did not leave Magog until about 8.40 o'clock giving the excursionists only an hour at Newport. A good orchestra was on board, and after arriving at Magog on the trip home, the evening was spent at the Park House, where the young people enjoyed themselves dancing until 11 p.m., when they took the express for Cookshire.  
Mr. F. A. Hurd and family left Friday for Breche's Lake, where they intend spending a couple of days.

## ARTIFICIAL LIMBS.

THE DEMAND FOR LEGS IS TEN TIMES GREATER THAN FOR ARMS.

It is a Curious Fact That the Elbow Joint Cannot be Duplicated with Springs and Hinges—Artificial Limbs Bring Long Life.

Although the artificial limb industry of Chicago is restricted to an annual output of about 1,000 legs or arms, hands and feet parts thereof, it is as large and as important an industry in its field of operation as the most mammoth of the manufacturing enterprises. The average price of limbs ranges from \$69 to \$100. About 50 people are employed in factories, but most of them are men of decided mechanical ingenuity. In addition to the most careful adjustment of the several parts of the joints, according to existing devices, they are constantly experimenting on models for still better results. That, together with superior workmanship, is the reason why Chicago made artificial limbs are favorites the world over.

The makers do more than fill orders—or at least some of them do. They study the anatomy of man so as to have a better understanding of what is required of artificial limbs; besides, they keep themselves well informed of the case of the demand for limbs and the percentage of one kind over another. The proportion is ten legs or parts of legs to one of arms. Seventy per cent of the whole output comes from employees of railways and 5 per cent from passengers. The rest comes from amputations necessitated by "consumption of the bone," as they call it, 2 per cent from the army and navy and 13 per cent from miscellaneous causes.

It is a curious fact that the elbow joint cannot be duplicated with springs and hinges; hence an amputation above the elbow causes almost a total loss of the arm, but an artificial arm may be put on so true to nature that it will deceive completely until there is use for it, when the fact is made very clear that at best it is only ornamental. But when the amputation is below the elbow the arm can be spliced out, and even the fingers can be made somewhat serviceable.

While it is found that a combination of leather and aluminum makes a lighter and yet stronger limb, with decidedly better knee, ankle and toe action, than other materials, some experts still hold that wood is the best material under all circumstances, and they will make no other kind. The business of artificial limb making is called the "prosthetic industry" and means literally the process of adding to the human body some artificial part in place of one that is wanting. One who makes such artificial parts is called a prosthetician or prosthetist.

Herodotus speaks of at least one man, an Achaean, who had a wooden foot to take the place of the natural one which he lost while escaping from a Spartan prison. Pliny tells of a man, 167 B. C., who wore an artificial hand of his own design and construction, and it was so well done that he could use it to wield a sword in battle. There are the remains of an artificial leg in the museum of the Royal College of Surgeons in London, which was exhumed from a tomb at Capri in 1858. Theologian says "The leg is made with piece of thin bronze fastened by bronze nails to a wooden core. Two iron bars, having holes in their free ends, are attached to the upper extremity of the bronze. A quadrilateral piece of iron, which holds the position of the foot is thought to have given strength to it. The skeleton had its waist surrounded by a belt of sheet bronze edged with small rivets, probably used to fasten a leather lining. The vases found in the tomb place the period at about 300 years B. C."

Since the fifteenth century artificial limb making has been a regular industry in nearly all countries. But nearly all the limbs, have a notion that the amputation of a limb shortens the life of the individual, and also the greater the quantity of the limb cut off the greater the probability of death. By statistics contradicted that theory that, by careful comparison for half a century it is ascertained that cutting off limbs—not all the limbs, of course—does not shorten life at all. Of the patrons of an artificial limb factory less than 25 per cent die during a term of over 40 years, and nearly every one of them died from accident or old age, and not one died as the direct result of being short a leg or an arm. It is claimed that there is no record of any one, or but very few at that, who died of pulmonary or cardiac diseases who wore an artificial limb, except where the disease was contracted before the limb was amputated. However, the amputation of limbs is not recommended by prostheticians as a preventive of lung and heart troubles.

Perhaps it has never occurred to many that the great body of wearers of artificial limbs are poor people—that is, poor people in comparison to the rich. It is very rare that a wealthy person is seen with an artificial limb, and the reason is clear enough. It is the man who works with his hands in the mill, on the railway, in the mine, in the gangway of the steamboat and in the other avocations of employment where danger to limb and life is always present that has to repair himself with artificial bits of mechanism to splice out his once unbroken body. And so the question of the first inventor of the artificial limb was not a matter of profit, but of necessity. It means time lost and a heavy drain upon wages for a long time. Investors have reduced all this to the minimum, and competition obliges limb makers to use the best of material and do their work well. This is particularly true of the ankle joint, where the strain is always great and where the mechanism is delicate and complicated.

**He Caught It.**  
An elderly gentleman was hurrying to catch a train. He was rather short of stature and stout of body; but, notwithstanding that, he was making great headway and moved at a rapid pace. A friend happening to see him yelled out in a good humorful way:  
"Now, Mr. Green, where are you going? Are you training for a race?"  
"No," shouted Mr. Green in return, "I'm racing for a train."—Philadelphia Times.
