## INDUSTRY AND ECONOMICS TAKEN UP AT MANUFACTURERS' MEETING

### Minister of Finance and British High Commissioner Dealt With Problems of Coming Economic Conference at Concluding Sessions of Canadian Manufacturers' Association Meeting—Eastern Townships Well Represented on Executive Council.

Ottawa, June 9.—Following their three day meeting here, the sixty-first in the history of the organization, the members of the Canadian Manufacturers' Association were today en route for their homes. Addresses that have travelled the whole field of national and industrial economy, of politics and commerce, were delivered to the three hundred representatives who were present at the sessions.

Last night the manufacturers heard Hon. E. N. Rhodes, Minister of Finance, upholding their faith in Canada, and emphasizing that in spite of the welter of depression into which the world has been precipitated, the credit of the Dominion continues to stand high among the nations. Speeches by Sir William Clark, the British High Commissioner, and by Hon. H. H. Stevens, Minister of Trade and Commerce, were also features of the manufacturers' meetings.

The imminence of the Imperial Economic Conference dominated the deliberations of the Association. Confidence that practical results would be achieved was frequently expressed, while the reciprocal advantages that would have to be offered in the negotiation of any agreements among the British nations were recognized by all the speakers.

W. C. Coulter, of Toronto, was elected president of the Association yesterday. Mr. Coulter, who was first vice-president during the year just ended, succeeds W. H. Miner, of Granby. George Henderson, of Montreal, was elected first vice-president; L. L. Anthes, Toronto, second vice-president, and T. F. Morypenny, Toronto, treasurer.

The following were among those elected to the executive council: W. C. Gauld, Drummondville; Carl F. Stohn, Granby; C. A. Joslin, Sherbrooke; J. E. Alain, Victoriaville, and V. N. Longtin, St. Johns.

## CANADIAN FINANCES SOUND, SAYS HON. EDGAR N. RHODES

Ottawa, June 9.—When prosperity makes its long awaited return to the world and historians begin to record the statistics of the nations during the past, our obligations as Canadians will be able to look back over their financial history with pride. Hon. E. N. Rhodes, Minister of Finance, told the members of the Canadian Manufacturers' Association assembled here last night.

"We have met all our obligations to both domestic and foreign without undue strain," asserted Mr. Rhodes. "Our banks and great financial institutions have been more than equal to all reasonable demands made upon them. Our national credit stands high, and we can today marshal as strong forces to meet every possible test as we could one year ago, notwithstanding the fact that, in the period which lies immediately behind us, Canada was confronted with, and successfully met and overcame, a number of very real problems of more than ordinary magnitude."

Mr. Rhodes was the speaker at the banquet of the association which concluded its 61st annual general meeting here. The meeting has been in progress during the last three days. It brought together delegates from all parts of Canada. The speech of the Finance Minister was strongly optimistic. He declared that Canada had every confidence to look to the future with confidence.

Touching on the Imperial Conference next month, Mr. Rhodes agreed with the statement made to the association by its past president that "we should not expect miracles." "We should have, nevertheless," he proceeded, "full faith that benefit can accrue to each component part and to the Empire as a whole. The measure of its success will be the degree to which its discussions are approached from the point of view that there can be no advantage which is not mutual." He expressed the "fervent hope" that in making representations to the Government the association would keep this fact in mind.

"During this period of excessive—indeed of unprecedented depression—reason is apt to give way to fear, and atmosphere to be charged and surcharged with dire rumors and evil forebodings," the Finance Minister stated at the outset. Under such circumstances it required courage and cool-headedness to maintain one's sense of proportion. Therefore, without attempting to minimize difficulties it was well to keep in mind those factors which made for encouragement and held out every hope for the future of Canada. In this connection, said Mr. Rhodes, it was impossible to avoid quoting a few figures.

"During the fiscal year ending March 31, 1931," he continued, "we exported of fully or chiefly manufactured goods 300 per cent. of the volume of the year 1914, a quantity equal to that exported in the year 1924, and 75 per cent. of that exported in the buoyant year of 1929. "Figures for partly manufactured goods

## ROOSEVELT RETAINS HIS LIQUOR CONTROL VIEWS

### Believes Democratic Party Will "Clearly Indicate" in Its Platform a Way to Abrogate the Eighteenth Amendment.

Washington, June 9.—Prohibition, the unbridled guest of United States politics for a decade, has started for the Chicago conventions with main entrance tickets and a seat on the platform.

The White House took occasion last night to repudiate reports that President Hoover had approved a re-submission plan for the Republican party but other leaders of the party have indicated that such a plank is receiving consideration. James R. Garfield, who is writing the platform, has declined to discuss the question.

Governor Roosevelt, of New York, in an interview last night, said he believed the Democratic party, which he hopes to lead as Presidential candidate in November, will "clearly indicate" in its platform its attitude toward the eighteenth amendment. His own views on prohibition as pronounced in 1930, he added, have not changed. At that time he said the control of liquor should be returned to the States.

## IRISH SENATE CONTINUING TO CUT DOWN BILL

### In the Meantime, Parliamentary Deadlock Over Abolition of Oath of Allegiance Continues in Free State.

Dublin, June 8.—Two more important sections of Mr. De Valera's pet measure have been rejected by the Irish Senate, thereby prolonging the parliamentary deadlock over the bill providing for abolition of the oath of allegiance to His Majesty the King.

If pieces continue falling of this measure, Mr. De Valera will soon be as scantily clad with parliamentary clothing as Mahatma Gandhi, his brother in sympathy, is with bodily clothing.

Despite reports the Senate might adjourn further consideration of the bill, which has been given section by section, until the conclusion of the negotiations with Britain opened here, President Eamonn de Valera told the Senate the Government had not changed its attitude towards the bill and, therefore, he saw no reason why the Senate should not proceed with it.

After passing without division a section eliminating that part of the constitutional act which defines the form of the oath to be taken by members of Parliament, the Opposition majority rejected two important sections. By a vote of 30 to 22 they rejected a clause which would repeal that section of the Constitution Act stipulating that anything in the constitution repugnant to the Anglo-Irish treaty shall be null and void. They by a vote of 31 to 22 the Senate rejected a third section which would have removed references to the treaty from article 50 of the constitution.

President de Valera, accompanied by Sean T. O'Kelly, vice-president of the Executive Council, and two secretaries, none of whom took part in the preliminary discussions, will leave for a conference in London on Friday at which Prime Minister Ramsay MacDonald will be present. He is expected to return to Dublin on Friday, for he has arranged to leave London at 6 p.m. Friday for Liverpool so he may sleep on the return journey. The conference in London commences at 11.30 a.m., and Prime Minister MacDonald is tendering a luncheon to the Free State visitors.

NORTH WILL NOT END IMPERIAL TIES  
London, June 9.—Reports in London the present negotiations between the Free State and Britain would be widened, on the Free State side, by attempts to reopen the question of union between the Free State and Northern Ireland met with a prompt rebuttal from Viscount Craigavon, Premier of Northern Ireland.

Lord Craigavon, who possibly will attend the conference between representatives of the Free State and Britain here on Friday, declared that union was quite out of the question. "A long time ago," he declared, "we in Ulster made up our minds that we have no change to make. I would never be a party to separation from Great Britain or severance of the Imperial connection. The present British Government and I see eye to eye."

Opinion here is that President de Valera proposes, if he has not indeed already done so, reference of the whole dispute to either an imperial or international tribunal. His bill for abolition of the oath, regarded by the British Government as the root of the present difficulties, is dockaded in the Irish Senate, shorn of most of its teeth by an Opposition majority.

In the Free State Senate a few days ago, President de Valera declared if the principle of the oath bill were to be tried, it should be tried not in a Dublin court, but an

## RAIN ASSISTS FATIGUED FIGHTERS TO CONTROL RAGING FOREST FIRES

### Fires in Lake St. John District Reported Under Control—Several Settlements Vanished in Wake of Roaring Wall of Flames that Swept Humans Before It in a Rush for Their Lives.

Quebec, June 9.—A mist of steam joined the smoke clouds hovering over Northern Quebec forests today as a steady rain beat down on the flames, a belated ally of the fatigued forces of volunteer fire fighters. Fires in the Lake St. John district were reported under control after several days of wholesale destruction of valuable timber lands. Several settlements vanished in the wake of the roaring wall of flames that swept humans before it in a rush for their lives.

The forestry department today reported scarcity of news from the fire fronts, but the encouraging news from the Lake St. John district made up for the lack of information elsewhere.

It was unknown here whether the rain had reached Abitibi or Temiskaming districts, where fires have for several days been chasing settlers from their homes. Yesterday the Nipissing mines plant disappeared into the wall of flame and T. J. Shagnessy and his men fled for their lives, pursued in their flight by live sparks and hungry flames. They reached Amos safely.

Fire swept the tiny village of Tschereau yesterday, reducing three buildings to smouldering ashes. Ontario's chief hazard is northwestern centres. Toronto, June 9.—Wealthy timber limits located in Northern Ontario today lie in the path of one of the most serious bush fires of the season. Smouldering embers of blazes brought under control recently were stirred into action again yesterday by stiff winds, and heavy damage is reported.

Ontario's greatest hazard at the present time is reported in the northwestern centres around the head of the lakes, with minor blazes in the South Ste. Marie district. "Additional fire fighters and equipment is being rushed to areas where outbreaks are reported in Northwestern Ontario in an effort to quell the flames before they reach the height of their proportions.

## FOREIGN TRADE EXCEEDS THAT WITH EMPIRE

### Canada Imported More Than Three Times Merchandise from Foreign Countries During April Than She Did from British

Ottawa, June 9.—Canada in the month of April imported more than three times the merchandise from foreign countries that she purchased from British Empire countries, according to a report issued today by the Dominion Bureau of Statistics.

The exports to foreign countries were valued at \$23,340,562, and from British countries \$6,453,734. Canada sold in April less than twice the goods to foreign countries that she did to British Empire countries. The exports to British countries totalled \$17,534,426 and to British countries \$9,441,330, leaving aside the re-exported foreign products.

The summary shows that Canadian imports in April from foreign countries were 73.2 per cent. of the whole, and from British countries 21.6 per cent. The percentage of purchase from foreign countries was considerably higher than the average for the past twelve months, which was 74.34 per cent.

In the exchange of goods Canada had the better of it in dealing with British countries than with foreign. In other words, Canada sold more merchandise to British countries than she purchased, and sold less to foreign countries than she bought.

This feature of the exchange of goods was brought about largely by the trend of the trade with the United States. Canadian purchases of United States merchandise were 66.30 of the total imports, whereas the export of Canadian merchandise to that country was only 44.80 of the whole.

Kingston, Ont., June 9.—Dr. Desmond Burke, well-known Canadian rifleman and recent graduate of Queen's University, today married Miss Frances Simpson, of Kingston. The ceremony was performed by His Excellency Archbishop M. J. O'Brien, in St. Mary's Cathedral.

## REVOLUTION RESULTS FROM BITTER POLITICAL FIGHT

### Honduras Government Mobilizing Regular Army Troops to Put Down Revolt.

Tegucigalpa, Honduras, June 9.—The Government of President Mejia Colindres was mobilizing its regular army troops and pushing them northward today to put down a revolt in which more than three score were slain yesterday. The revolt, which centred today around the Espiritu Santo mountains and was moving northward into the Department of Cortes, is the outcome of a bitter political campaign which already has reached fever heat, although the elections are not until next October.

The Government said the revolutionaries were carrying the banners of General Tuburcio Carias Andino, Nationalist candidate for the presidency, although General Carias issued a statement yesterday condemning the revolt. ## CHILD BEING PREPARED FOR BURIAL WAS ALIVE

### Rushed to Hospital, Where He Was Placed in an Incubator, But Later Passed Away.

Pittsburgh, Pa., June 9.—An infant boy being prepared for burial in an undertaking establishment burst into a loud cry.

The child, born a few days ago to Mr. and Mrs. Walter G. Become III last night, a physician pronounced him dead, and he was taken to the undertaker.

The undertaker rushed the child to a hospital where he was placed in an incubator, but passed away today.

## THE CONSERVATIVES HOLD DULWICH

London, June 9.—Bracewell Smith, Conservative, last night won the Dulwich, Camberwell, bye-election by a majority of 8,344 votes over his nearest opponent, Cooke-Taylor, Liberal.

The vote was: Smith, Conservative, 12,342; C. R. Cooke-Taylor, Liberal, 3,998; Mr. Helen Brentwich, Labor, 3,905.

The result in this traditionally Conservative London borough, reduced the Conservative majority by 9,661 votes.

## UNITED STATES STILL AGAINST REDUCING DEBT

### European Nations Warned on Eve of Lausanne Conference of Impossibility of Linking Debts and Reparations.

Washington, June 9.—As the opening of the Lausanne reparations conference nears, the countries receiving reparations payments from Germany have been informed through diplomatic channels that the United States cannot look with favor on any scheme for the cancellation of these payments contingent upon the annulment of war time debts owed the United States Government. These have all been indirect statements, as the United States officially has no interest in reparations payments and the only official comment in Washington was in one form of three oral statements from the State department.

First, it has been repeatedly pointed out, not only by Secretary Stimson, but by his predecessors, that, as the United States does not receive reparations from Germany the question of the settlement of those reparations is one which must be determined between the nations which received them and Germany.

Third, whenever the question of a total cancellation of reparations and debts has come up through such inquiries, it has been pointed out that such a proposition would make the United States the only Government which gave up everything and received nothing, and such a proposition would certainly not be the opinion of the Hoover administration be one that would appeal to Americans.

Whether Secretary Stimson in his reported conversation with the British Ambassador went further than the official outline of the American position and conveyed an intimation that, quite apart from the American debt phase, it would be just for Germany to pay a reasonable amount of reparations, was a question that remained unanswered today. Officials declined to elaborate on the three-point informal outline of American policy given by the State Department.

This silence led to extensive speculation as to how far the United States may have gone informally in suggesting some solution of the reparations problem at the forthcoming Lausanne conference. As understood here, Great Britain favors cancellation of reparations and of debts owed the United States, and so might encourage at Lausanne the German attitude of non-payment of reparations.

This view is reported to have worked against solidarity between France and Great Britain as they approach Lausanne, since France is contending for a continuation of reparations payments. In the circumstances, some solution of the reparations problem at the forthcoming Lausanne conference could well cause concern here as imperiling the prospects for European understanding and a favorable outcome of the general disarmament conference at Geneva and of the projected world economic conference at London in the fall.

Moreover, there is a feeling in some responsible circles here that for all reparations to be forgiven Germany would mean that the cost of the war would be transferred to Allied and American shoulders. It is not known, however, to what extent these views are those of the Government, or how far they have been communicated to the interested governments.

New York, June 9.—British currencies displayed a firmer tendency during early trading today on local foreign exchanges. The Canadian dollar advanced one-sixteenth of one per cent. to eighty-six cents in United States funds, while the pound sterling gained a quarter of a cent to \$3.67½.

NEW QUEBEC BRIDGE OPENED.  
Quebec, June 9.—The new bridge built by the city across St. Charles River at the foot of Henderson street was opened yesterday when Mayor H. E. Lavigne, with alder-

## FORMER STUDENTS OF SEMINARY ORGANIZE AN OLD BOYS' SOCIETY

### Graduates of St. Charles Borromeo Seminary Fulfill Long-Felt Need by Forming Alumni Association—Weather Cancelled But One Item of Programme and Scheduled Parade Held as Planned This Morning—Interesting Sessions Yesterday.

The principal objective of the two-day reunion of former students of Sherbrooke's Seminary was accomplished this morning with the formation of the Old Boys' Association of St. Charles Borromeo. At the second general meeting of old pupils, a long-unaccomplished dream assumed tangible form, and a sound foundation was laid to include among the ranks of the alumni society all those who have passed through the portals of the local institution and all those who will graduate from its noted threshold in future years. The idea of the newly-formed group was enthusiastically received, and the keen interest manifest throughout the session gave evidence that the movement was backed and supported by all present.

## DUBLIN ADMITS TARIFF POLICY WAS TOO HASTY

### Imposed Duties With Such Rapidity that It Was Impossible to See What Effects Would Be.

Dublin, Irish Free State, June 9.—Sean Lemass, Irish Free State Minister of Industry, last night told the Dail Eireann the Government had "made mistakes" in its tariff policy.

"We have imposed over sixty duties in six months and it was not possible to give precise examination to all to see what the effects would be," he said.

He added, "We had to proceed by a system of trial by error, if you like."

The Minister gave no indication what changes, if any, would be made in the schedule of duties the Government has put in force.

## FIRE DEATH TOLL MOUNTS

Cleveland, Ohio, June 9.—Evidence that a charge of nitro-glycerine, set off by amateur safecrackers, may have caused the disastrous Ellington apartments fire, was being investigated today while the death toll mounted.

The eleventh body, that of an unidentified elderly woman, was taken from the debris early today. Firemen were kept digging in the ruins for the bodies of three women still listed as missing.

The weather, however, cancelled the proposed visit to Arona, the college farm in East Shakerock, and also prevented the alumni from hearing Bishop Gagnon who, in all probability, would have been able to attend the function had the weather been better. Nevertheless Bishop Gagnon and Canon E. C. Fiset, two of the charter members of the Seminary, received the visit of many of their former conferees at St. Vincent de Paul Hospital and reminiscences were exchanged with the two temporary invalids.

This morning's meeting was presided over by Firmin Campbell, when the objects of the Association were outlined. The constitution stated that the principal reason of the society was to enliven the affection of the old pupils towards their Alma Mater and cement the bonds of friendship existing between the students and the institution. The bureau of directors will be established in Sherbrooke, and annual meetings will be held, subject to the approval of the principal, Bishop Gagnon was named honorary president and the code of rules pointed out that two honorary vice-presidents would be elected yearly and sanctioned by the head of the Seminary.

Prior to the meeting, Mass was celebrated in St. Michael's Cathedral by one of the oldest pupils, Rev. Father I. Lavalle, of Richmond, and the sermon was preached by Rev. Father Louis T. Rodier, of Chicopee, Mass.

This afternoon a visit will be paid to Lake Montjeu, and this evening address will be made till the first meeting of the newly-organized society.

The time-hallowed walls of the modern structure resounded with friendly greetings yesterday afternoon as the influx of old boys continued and the thousand mark was gradually approached. The official inauguration of the two-day celebration took the form of a largely-attended general session in the spacious auditorium, over which Mr. Firmin Campbell, president of the graduates for the past thirty-two years, presided. The gathering resembled a class of unruly young students about to receive a boring

NEW YORK DETECTIVES GRAB MAN BELIEVED GREATEST OF ALL LIVING ADVENTURERS

Sought since 1919, when he escaped from the prison ward of a New York hospital, a man believed to be Captain Fritz Joubert Duquesne is shown (at right) with a detective after his arrest in New York. Lower left is a close-up of the alleged German spy.

New York, June 9.—He says his name is Frank De Trofford Craven. Police call him Frederick Joubert Duquesne. He claims he is an advertising and motion picture film agent. Officials believe he is a soldier of fortune, former Boer rebel, the "cleverest and most dangerous" agent of the Central Powers in the World War, and a fugitive from justice on a warrant charging murder on the high seas.

For thirteen years Duquesne has been sought throughout the world. Detectives who arrested him in 1919 declare that Craven is the same man. Reporters who worked with Duquesne when he was a Park Row newspaperman also have identified him. Craven carries a lion-skin tobacco pouch which Duquesne used to own.

But the suave and handsome suspect remained imperturbable under hours of questioning, revealing neither a trace of emotion nor a single incriminating fact. Police are not surprised at that, however, recalling Duquesne's amazing escape when he was seized here in 1919. He feigned illness, was sent to a city hospital, and after three months succeeded in convincing physicians that he was a hopeless paralytic. As soon as the vigilance of his guards was relaxed, he sawed through two iron bars and vanished.

After that the police received taunting messages from Fritz Duquesne. From Mexico, Argentina, Holland—wherever his wanderings took him—"there came sneering invitations to 'come and get me.' But he never could be traced.

Born in South Africa, Duquesne had fought against the British in the Boer War, was captured in the plot to blow up Cape Town, was exiled, and escaped to America. He was reported killed in a battle in Bolivia, but was very much alive when he posed as a British officer in New York at the outbreak of the World War.

According to a book written about his adventures, Duquesne was the man who killed General Kitchener by bombing the battleship Hampshire off the Orkney Islands. In 1916 he was charged with murder by Great Britain after an explosion had killed three seamen on an English freighter.

Three years later he was arrested in New York and escaped before he could be extradited to England. At that time he carried papers showing he had acted as a German spy. He is still wanted abroad, and if the Frank De Trofford Craven now being detained here is conclusively identified as Frederick Duquesne he may be sent back to face a double charge of murder and escape from exile.

Or he may wriggle free again, as he has done so often in the past. Craven's lawyers say the British Government must prove identification first, and then prove that Duquesne is properly extraditable. Craven, cool and smiling, says nothing at all.

MAGOG TALENT PRESENT PLAY AT WATERLOO

Large Audience Witnessed Minstrel Show by Magog Group—General Notes and Personal from Vicinity.

Waterloo, Que., June 9.—Saturday, June 4th, afforded a full and very enjoyable day and evening to citizens of Waterloo and vicinity, for following the busy day with the Scout Rally, the "Cotton Town Coons" of Magog presented their minstrel show which had previously afforded large audiences in Magog, a delightful evening's entertainment to a large and highly appreciative assembly in the Waterloo Town Hall. Magog is indeed fortunate in possessing so much local talent, for the individual and massed singing was as good as could be seen on any stage and the witty and clever jokes on the local men proved very amusing. The accompaniment contributed greatly to the success of the entertainment, as did an attractively decorated stage. The event held under the auspices of St. Luke's Parochial W. A. was most gratifying to the officers and members of the organization, whose treasury was greatly benefited by the function. At the conclusion of the entertainment, Rev. Norman Egerton tendered a vote of thanks to those taking part and invited the Magog people to St. Luke's Church hall, where refreshments were served.

The Misses Mable and Florence Jamieson, of Montreal West, were week-end guests of Mr. and Mrs. E. J. McKenna and Miss McKenna. ## WHEREIN LIE OUR SENATORIAL RIGHTS?

Few of the citizens of one of the largest and certainly the most important senatorial district in Canada were aware that Dr. W. L. McDougald, of Beauharnois ill-fame, was the appointed representative of Wellington district.

How he ever qualified for this district is a mystery, the solution of which lies only with himself and the Hon. Mackenzie King.

McDougald had everything that he should not have had for qualification.

He did not know the District of Wellington, possibly had never even visited its Hub, the city of Sherbrooke, and certainly he never addressed a gathering of his constituents.

Known best to the wharf men of Montreal as chairman of the Harbour Commission, McDougald did not have a single vested interest east of Montreal.

He was an interloper in a time-honoured and traditional Protestant district, with specially fixed boundaries as such arranged by the Fathers of Confederation.

His fame rests as a promoter of free excursions to Bermuda, but no one has ever been able to find a single unselfish political gesture in his whole career. Yet in the days when every suggestion from the Eastern Townships was being ignored, this man was, in 1926, appointed to the Senate from Wellington district and no protest was made by any single individual.

He succeeded the late Senator William Mitchell, and before him was the late Senator Cochrane. In 1867 the first appointee for this district was Senator Sanborn, all distinguished men of the highest character. The Hon. Walter G. Mitchell is a son of Senator Mitchell, and was a Liberal administration in power in Ottawa, he would no doubt get the appointment.

Wellington District for Senatorial appointments comprises these counties and townships:

- The whole of Compton County
- The whole of Richmond
- The whole of Sherbrooke
- The whole of Stanstead
- The whole of Wolfe.

In Frontenac these townships—Chesham, Clinton, Marston, Whitton, Winslow.

In Drummond County—the Townships of Wickham and Simpson.

These are the same boundaries for the Quebec Legislative Council.

In this latter Council the representative for Wellington district is Senator Bullock, of Roxton Pond, whilst Senator Jacob Nicol represents Bedford district. Both these honorable members reside in each others backliewick, a matter which should be righted. For hereafter the governments must not play ducks and drakes with our clearly designated rights.

A Senatorial member, to qualify, must be either a native of his district, or a resident therein for the greater part of the year. It is not a parochial matter, but it must be relatively appropriate.

## SITTING IN A GROOVE.

Hotels and golf clubs and summer and winter camps have for years been used as features by the railways, one railway following the example of the other in entering channels of trade which are ultra vires of the transportation business.

For years the C.P.R. made money through the sale of huge land grants which were quite rightly given to the original promoters in lieu of cash grants by the government of the day. It was demonstrated that a good hotel here and there would give out a good impression to intending settlers, even though they were too expensive for the settlers themselves, but were luxurious homes for the speculators and traders who took a little "off the top" on land and townsites.

The C.N.R. was led on by envy rather than by good judgment to imitate the C.P.R. But imitations are never as profitable as originals, neither in the arts or the mechanics of trade.

We have advocated the merging of the telegraph companies under one organization, and we would follow the suggestion up with another business thought.

The railways own telegraphs and they control the express and the money order business, both being legitimate outgrowths of their trade in transportation.

The expansion of these two organisms within their channels have been woefully neglected, almost entirely overlooked in fact.

Demand is created by suggestion, but in all the passing years there has been no intelligent effort

made to expand either of these two specifics controlled by the two railways.

The Bell Telephone Company set a good example in their promotion of long distance messages by telephone, but the management of the telegraphs and of the express companies seems to have failed in catching the idea. They rest placidly in their mechanical groove, taking no thought of an opportunity to double their business.

## WHO PAYS? NO ONE ESCAPES.

Some people think they are not paying their part of the Canadian National Railway deficits. They surely are. We subscribed generously for a National Service loan made necessary by these recurrent deficits. The bond market is depressed. Stocks and bonds are low in price because so many millions are floated on the market for government loans. House property is down in price because the people, after income tax day, have little money left to invest in immovables. When a government borrows money you must know that about forty per cent. of all the taxes you pay are gobbled up for "fixed charges," that is for interest on loans or bonds issued by the government of Canada since the war and the drunken spending era in all governments—Federal, provincial and municipal.

Our own City of Sherbrooke recently sought to submit a money-by-law to pay for such fallows as the Langis Canal, which will cost some \$300,000 before it is finished. The proposed by-law had many hidden features in it.

The Department of Municipal Affairs stepped in and forbade the bans. Practically the Minister of Municipal Affairs said you shall not.

At the time this piece of monumental folly was squeezed or zig-zagged through the Council we pointed out that such an expenditure was illegal and contrary to the word and the spirit of the city charter.

There is a way out, and a sound way out, but to suggest it to the present Finance Committee would be like casting the proverbial pearls.

## EDITOR'S NOTES.

George Lanigan was a versatile journalist who had an early connection with the "Sherbrooke Leader," a weekly paper published in this city in 1860. But George, who was a brilliant parapsychist, joined Lord Atholstan, then Hugh Graham, in the launching of the Montreal Star in 1869. With a vivid imagination, Lanigan would make a merry quip out of a news item, thus:

"It is said to be so cold in St. Petersburg this winter that the people cannot breathe out of doors, and the streets have been empty for several days. This is not so frigid, as that described by a traveler, where the cold was so intense that the words dropped in congealed pellets from the lips of the speaker, so that in a half an hour, he was literally up to his knees in conversation."

A new planet has been discovered just five million miles away from the Earth. But why worry, for the C.N.R. has taught us to think in billions, and we have only begun to know that some day something will strike us. The astrologer does not say which way that planet is headed, but we do know that Canada will have a head-on collision unless we settle our railway question within the year. Several wise people have submitted constructive ideas, but ours is the best: Have a separation and a divorce, and let those who risk their own money carry on. Sell the C.N.R. en bloc or in detail.

Government House in Toronto has been bereft of an occupant for a full year, and yet there has been no clamour for its re-opening. The salary paid does not attract an executive, and the "honour" does not seem to appeal to the men who could maintain the House and "keep up with the Joneses." There may be claimants for the throne, but thus far they have not been elevated.

One glass of milk a day, just one more glass than you drink now, and the dairy farmers will be happy and prosperous.

## THIRTY YEARS AGO TODAY

From the Files of the Sherbrooke Record.

June 9th, 1902.

Visitors in town included Mrs. William Cote, of Lyndonville, Vt., a guest of her parents, Mr. and Mrs. William Wilcox; J. J. Doherty, of the Worcester, Mass. Polytechnic Institute, to spend a vacation with his mother, Mrs. Rose Doherty; Mrs. A. E. Beckett, of Montreal; Mrs. W. J. Gikerson, of Minneapolis, Minn., to visit her mother, Mrs. Avery.

Capt. F. W. Loomis entertained the members of his company of the 53rd Regiment at his home on Court street. During the evening prizes for general efficiency were presented to Privates Kenalty and Turner; for shooting to Private Redmond; for regular attendance to Private Smith.

William Dowd, one of the famous Danville bank robbers, was brought to the Sherbrooke Jail by Chief Detective K. P. McGaskill. He was the fifth member of the "gang" who perpetrated the robbery to be brought to justice.

The marriage of Robert Neilson, of Sherbrooke, to Miss Marion Walker, daughter of J. R. Walker, took place at Melville Church, Westmount, a reception being held after the ceremony at the home of the bride's father.

Rev. P. L. Richardson was presented by the congregation of St. James' Methodist Church, Montreal, with a gold watch, accompanied by an address prior to leaving for his new field in Sherbrooke. Mrs. Richardson was similarly honored by the ladies of the church.

Gilbert Chapman arrived at his home in Windsor Mills from Capetown, South Africa. Among the souvenirs he brought with him were several ostrich eggs and a Boer pipe, which were placed on exhibition in John Chapman's show windows.

A letter from Rev. F. J. Day, written from Switzerland, mentioned his having met Ralph H. Fletcher, who was also touring Europe, while on a visit to Milan, Italy.

At the closing meeting of the Brotherhood of St. Andrew, the speakers of the evening were Rev. R. W. E. Wright, of Magog, Rev. C. W. Balfour and Hon. Henry Aylmer.

## Letters to The Editor

FROM AN OLD CANADIAN, RESIDENT IN NEW YORK

To the Editor, Sir—What we need, to restore confidence and prosperity, is a floodtide of constructive, optimistic, elevated thought, and found particularly in poetry of the heartening kind. Here is an example:

Be an optimistic optimist,  
No matter how you feel;  
If doubt or gloom assails you,  
Work on with greater zeal.  
Think always of the sunshine  
Behind the lowering sky;  
You can rise above depression  
If you let dull care go by.  
It is better to be pleasant  
Than to wear a frowning face;  
All good things work together  
To promote a happy race.  
Be an optimistic optimist,  
The man who wins life's prizes  
Is the man who works and sings.  
Ventilating and illuminating  
The mind will give an increased  
sense of poise, courage, and contentment.

The widespread readjustment will be well worth-while if, among other valuable things, it leads men and women to read and assimilate inspiring types of poetry and the better forms of prose literature.

If people would saturate their minds with uplifting poetry, thoughts of limitation and discouragement would automatically vanish.

It is generally recognized that the current depression is largely psychological, but few persons take the necessary steps to change their negative thoughts and gloomy topics of conversation to constructive and cheerful themes.

Anyone who will begin each day by reciting aloud and earnestly lines like the following will have a feeling of augmented power and encouragement:

Don't say it can't  
When it can be done,  
No matter how hard the work;  
The thing to do  
Is to see it through.  
Not idly to sit and shrink.  
Don't say it can't  
When it can be done,  
Whatever your task today;  
Stand up like a man,  
Say, "I know that I can!"  
Valor will blaze the way.  
Grenville Kleiser.

## HOW MUCH CROP ACREAGE NEEDED TO PAY TAXES

To the Editor, Sir—We are accustomed to read in the columns of your paper as well as the columns of various other daily papers of the different schemes for assisting the unemployed. One of which is to place them on deserted farms.

In the first instance, Mr. Editor, what caused these farms to become vacant on which it is proposed to place the unemployed and their families? It was because the owners found it impossible to make a decent living on it and left it. So why place a poor unfortunate on it when the buildings have become scarcely habitable and the fields will only grow red top and not much of that. Another feature of the situation is that the party who left the farm originally was a farmer, knew something of agriculture, had some equipment and was willing to work long hours, yet he was obliged to leave the place and at a time when the price of farm products was much higher than at present. So what will become of the new occupants, unaccustomed to farm life, no stock and no implements? The answer is easy; they will starve or the municipality into which they have come to reside will be obliged to feed them.

The unemployment situation has been painted by many a pen but in my opinion it is going to be aggravated by the large number of farmers who will be obliged to leave large well-worked farms unless something is done and at once. You see these farms would be all ready for the unemployed. No one realizes how serious the situation is in our farming communities and unless legislation of a constructive nature is enacted at once to assist farmers then our different governments can make arrangements to extend their bread lines this coming winter. I say this in all sincerity, because I have in mind many farmers who will find it impossible to pay their taxes this fall and no shame to them, either. Permit me to give you the amount of produce that has to be sold to pay \$120 taxes on a farm valued at \$4,000: 400 pounds maple sugar at 25 cents a pound, \$20; 40 bags of potatoes at 55 cents a bag, \$22; 200 pounds of butter fat at 18 cents a pound, \$36; 600 pounds dressed pork at 32 cents a pound, \$38; 100 dozen eggs, \$10. Total \$126. Take that amount of produce out of the exportable surplus of the average farmer, and it will make a serious hole in it. So is it any wonder, Sir, that the farmers have come to almost bankruptcy?

Again I repeat that unless something is done that the unemployment situation will be greatly aggravated, and the only solution that the writer can see is to let the government be that all taxes, both school and municipal, should be cancelled for the present year.

Our provincial and federal governments claim that they are studying the unemployment question very carefully, and I believe they are, because the more the government studies a question the worse it becomes. The federal government has voted large sums to relieve this unfortunate state of affairs and have failed in their efforts because they are tackling the proposition in the wrong way. In a country with a population so largely composed of farmers it is imperative that the agricultural community be made prosperous before the urban centres will enjoy good times. When the farmer receives good prices for his products he spends his money freely buying manufactured goods, automobiles,

## LOCNBEAMS

by Ted Bullock.

Most haunting of the poems of that ancient French rascal, Francois Villon, is the Ballade of mourning for dear, dead women of long ago. Each verse, you may remember, asks plaintively: "Mais ou sont les neiges d'antan?" Rendered into English, losing some of its wistfulness, the line is: "Where are the snows of yesterday?"

I was reminded last night of that poem.

In a corner of the Record office I came across a bound volume of the 1895 numbers of Godey's magazine, the ultra-fashionable review of the Gay 90's.

I poked it up with a whoop of delight and thumbed it happily. I pass on a few sprigs of rosemary culled from the yellowing pages.

Rupert Hughes writes a review of the Metropolitan Opera season of that year. The four novelties of the winter had been: Bemberg's setting of a libretto taken from Tennyson's "Elaine"; Massenet's "Ma non Lasciate," described as a "very light opera"; Saint-Saens' "Samson and Delilah" and Verdi's "Falstaff."

Headliners in the company were Pol Plancon, Victor Maurel, Jean and Edouard de Reszki, Lillian Nordica, Sofia Scalchi and Nellie Melba.

The article gives Melba "the place of honor in the present aristocracy of art," calling her voice "more a magic flute than a voice."

Yet Nordica remains "in many respects the greatest singer before the public."

The fashion department, always a feature of Godey's, describes as "certainly very stunning," a long cloak "fitted to the figure in the back, with loose fronts. The material was red and black matisse. It was made with a full cape of the same material, trimmed with black fur; the sleeves were enormous, and were finished at the hand by being made with a long pointed cuff which could be drawn down over the hand at will. This garment was lined throughout with black quilted satin, the quilting being of the largest pattern possible. "Stunning," I agree.

There is an essay, entitled "The New Woman, Athletically Considered," illustrated with charming pictures of lovely young ladies leaping about on trapezes and dressed as if they were setting out for the North Pole, their hair carefully pinned up in towering puffs, their sleeves daintily ornamented at the shoulders with puffs about a foot and a half high, their legs—pardon, their limbs—decently swathed in thick, black wool, and their necks solicitously sheltered behind extremely moral collars.

If you were a boy of circus age in the Gay 90's you will remember Miss Annie Jones—"The Bearded Lady," and "The Skeleton Dude", and "The Two-headed Nightingale," and Herr Haag—of the elastic skin, and "Big Eliza—The Fat Lady," and "The Leopard Boy," and "Jo-Jo—The Dog-faced Boy," and Colonel Goshen, and The Sisters Aama, and Jack and Annie O'Brien—The Irish Giants, and Tom Thumb, and the Rossy Midgets and Charles B. Tripp—"The Armless Adept." Godey's prints realistic pictures of them all.

There is an article on the latest cycle show, illustrating all the fashionable models. There are convertible tandems, "bicycles built for two," tandem attachments, buggy cycles, giraffes, folding wheels, sextets, racers, even bicycles on skates. There is a thing called "The Vertical Power Machine," which looks like a cross between an X-ray contraption and a kiddie car. There is even a thing labelled "armoured cruiser," a stout bike with a machine gun fastened to the handle bars—the armoured tank of the 90's, I suppose.

But why go on? Who really wants the "snows of yesterday?"

## DUDSWELL

Nurse Turner, of Sawyerville, is taking care of Mrs. Stanley Bell.

radios, furniture, implements, labor saving equipment, paints, roofing, fencing supplies, etc., and the factories are busy with a full complement of workers. But now when the purchasing power of the farmer is cut to the vanishing point, their factories and offices are empty and the streets are full. Were it possible to treble the prices of all farm products it would mean more to alleviate the unemployment situation than anything else that could be done.

Trusting that this may mean something to help in the right direction and thanking you for valuable space,

## PRESS COMMENT

EX PARTE EVIDENCE Halifax Herald.

It is said that the British broadcasting system is the finest in the world. As no doubt it is. And advocates of public ownership of utilities point to this as a significant fact.

Just what is significant about it we are unable to understand. It is the finest in the world, not necessarily because it is publicly owned, but because it is British.

The British railway system is the finest in the world. Trains do not run on the minute—they run on the second—and Britain holds the record for the world's fastest and heat train. These facts are indisputable. And it would be quite as open to advocates of private ownership to invoke the example of the British railways as for advocates of public ownership to invoke the example of British radio. The British railways are privately owned and operated.

The British telephone system, as another example, is not the finest in the world. Britain lagged in the matter of telephone installation and equipment, and it is only in recent years that the British public have been given anything like an adequate and satisfactory telephone service. But the British telephone system is publicly owned and operated, while, on this side of the Atlantic, the telephone systems, which are the finest in the world, are owned and operated by private enterprise.

We draw attention to these facts merely to show how easy it is to adduce ex parte evidence in support of any policy, and, certainly, Canada's experience with some forms of public ownership has not been a happy one. During the session just closed at Ottawa, there were revelations before a parliamentary committee which astounded the people of the country who have to pay the bills. These revelations of waste and extravagance in publicly owned railway and steamship operations have left Canadian taxpayers wondering just where it all would have ended had the disclosures not been made.

## A REAL HERO

Vancouver Sun.

Risking one's life in a brief and gallant gesture isn't half as hard as being consistently brave over a period of weeks. Perhaps this is why an unknown 12-year-old Eskimo boy is being acclaimed a hero today.

Not very long ago a sledge pulled into Wagner Inlet. Harnessed to it were two dogs and a sturdy, tired little boy. For weeks and weeks—so many he didn't try to remember them—the boy had pulled with the dogs. Under the blankets on the sled were a three-year-old boy and a woman who was dangerously ill.

The story the group told was very simple. When the Eskimo family had been left destitute at the death of the father, the boy had gone into the forests, hunting game and fish. One day he had too much meat for the dogs to pull. He fitted a harness to his own shoulders and had to drag the provisions home. It was hard work. But he didn't complain.

His mother, who had been ill when he left, was much worse. There was nothing to do but take his place with the dogs again and start on the 160-mile trip to the place where the nearest doctor had an office. For the last three days of the drive he had no food.

The boy didn't ask for any praise. His mother would live, he was told. That was enough reward for him.

The modesty of the lad, the fact that he did something brave merely because it was his duty, have attracted attention to him. It reminds us that the spectacular feat isn't necessarily the courageous one. It isn't so hard to rise to heights when the banners wave and the bands play. But to push through the northland, pulling with the dogs, racing against death, with nobody to know or care if you make it or if you don't—that requires stamina.

It is quite in keeping with the episode that the name of the youngster is not known. He wouldn't want it to be.

Proof that man has conquered the air consists in his survival to do it all over tomorrow.

JUST let the children have Quaker Corn Flakes once, and then they will want them always. The flavour is intriguing. It is the highest quality of flavour ever put into a corn flake. Special malt, pure CANE sugar and salt of crystal purity.

And preserved crisp and fresh by our triple seal and wax wrapper.

Rich energy food of sun-ripened corn, plus the nourishment of milk and cream. The children need no coaxing to take milk when you serve it on Quaker Corn Flakes. Let them have all of this delicious cereal they will eat. For any meal, or at any time of day. Costs but a cent a serving.

Quaker Corn Flakes are always fresh in the stores. MADE IN CANADA.

EXECUTIVE OF COUNTY UNION HELD MEETING

Seventeenth Annual Meeting of Executive of Women's Institutes of Stanstead County Held at Beebe—Officers Elected for Coming Year.

Beebe, June 9.—The seventeenth annual executive meeting of the Women's Institutes of Stanstead County was held at Beebe on May 25th. Delegates, members and friends gathered at the new town hall where the county president, Mrs. C. S. Daintrey, of Ayer's Cliff, called the meeting to order and all repeated the Club Women's Creed in unison.

Mrs. Clark, of the Beebe branch, extended a most cordial address of welcome to which Mrs. Willard Rexford, of the Ayer's Cliff branch, gave an appreciative response. General regret was expressed when Mrs. Daintrey announced that Miss McCain, provincial superintendent, would not be able to attend this meeting as had been anticipated.

The minutes of the February quarterly meeting were read by the secretary, Mrs. Guy F. Kezar, and were adopted. The secretary's report for the year showed there have been seven branch clubs in the county with a total membership of 175. These clubs have altogether raised \$1,773.74 and have distributed \$1,603.74 in many channels. County work of special note included the industrial exhibit carried out at the county fair last August; the rest room on the fair grounds during the three days of the fair and on school fair day; some investigation work on health units and Victorian Order of Nurses; school fair sports improved and supervised; two life memberships presented; delegate sent to provincial convention; articles sent for provincial exhibits at the exhibitions at Ottawa, Toronto and Sherbrooke; supply of mother's books distributed at county fair; Mrs. Daintrey was one of the speakers at the Board of Trade meeting at Coaticook; a sales table was operated at county fair and the proceeds donated to school fair work; supply of poppies sold for Canadian Legion, and donations were made to MacKinnon Memorial fund and western relief work.

The county treasurer's report showed cash on hand to May, 1931, \$164.41; receipts for year \$211.25; expenses \$238.18; balance on hand \$37.48; obligations to be met \$119.90; balance in treasury \$17.58.

Mrs. Rexford, chairman of the county industrial exhibit reported that plans were being carried out for another exhibit this year, when it is hoped the different manufacturers in the county will co-operate with the committees in charge. Some discussion followed on sales table work and each club's quota was given to the delegates. It was decided that each club could either meet their quota with money or articles for the sales table as they prefer.

Miss Alice Turner, of the Beebe High School, kindly rendered a musical number which she had prepared as a part of her examination in music in grade II at the Eastern Townships Conservatory of Music, at Stanstead College.

Adjournment for lunch followed when a most satisfactory dinner was served by the members of the Beebe branch in the dining room of the United Church.

The afternoon session was called to order and Mrs. Bailey and Mrs. Leavitt were appointed as the rest room committee for the year. Miss Ketcham was asked to take charge of the sales table as formerly and each branch was requested to apply to Mr. Beaulieu, legal advisor of Department of Agriculture, Quebec City, for their incorporation papers.

The reports from the branch clubs were shown and showed each branch in an active condition. Some of the suggestions received from the conveners were better reports, more papers, control of tent caterpillars, demand of Canadian products, make each meeting more educational so each member can go home feeling that she has learned something, the study of current events and the affairs of each one's municipality, exchange ideas with new Canadians all the year and follow-up work after medical inspection.

Miss Berry, of Beebe High School, gave a musical selection from musical work in grade III. Both Miss Turner and Miss Berry showed very creditable work and M. S. Daintrey, in thanking them, expressed the wish that their examinations would be most successful. The matter of how to increase the county funds was discussed. The delegates were asked to take this matter home to their branches and a discussion will be made at the quarterly meeting in August. A most interesting item on the programme for the afternoon was the address by Professor A. H. Martin, director of music at Stanstead College, on the "Interests of General Education." Prof. Martin fully explained the new course of study which has been prepared by the Board of Education in Quebec, and urged the parents, principals and teachers to understand it and use it. Music, as the cultural side of education, has been included as one of the elective subjects so that the child with an ear for music may now have the chance of learning it along with the rest of his course.

Mrs. Daintrey expressed the appreciation all felt to Professor Martin for his most interesting and instructive talk.

Mrs. Bliss, convener of the nominating committee reported that several resignations had been received and she presented the nominations. The election of officers and conveners resulted as follows: president, Mrs. Willard Rexford, Ayer's Cliff; vice-president, Mrs. W. A. Abbott, Stanstead; secretary-treasurer, Mrs. Guy Kezar, North Hatley; conveners, agriculture, Mrs. A. E. Curtis, Stanstead; immigration, Mrs. J. Adolphe Seguin, North Hatley; Canadian and national events, Mrs. B. B. Morrill, Stanstead; legislation, Mrs. Crook, Ayer's Cliff; education and better schools, Mrs. Whitcomb, Hatley; home economies, Mrs. J. Turner, Beebe; publicity, Mrs. Morton Leavitt, Ayer's Cliff; Canadian industries, Mrs. W. Sargent, Way's Mills; sales table work, Miss Ketcham, Beebe.

Mrs. Daintrey introduced the new president, Mrs. Rexford, who, in a few words, expressed the wish to carry on the work in the county as successfully as it had been in the past and asked for the support of the members to accomplish the desire.

The secretary-treasurer was presented with an honorarium of ten dollars for her services during the past year. A vote of thanks was extended to the Beebe members for their kind hospitality and the meeting adjourned to meet at Hatley in August.

# PRESBYTERIANS STUDY PLAN TO FILL TREASURY

### Legal Committee Studying Official Protest of United Church Over Use of Name Presbyterian Church in Canada.

London, Ont., June 9.—The Presbyterian General Assembly entered its last session today. The most contentious item remaining on the agenda is the report of the legal committee to which was referred the official protest of the United Church over the use of the term "Presbyterian Church in Canada."

Financial matters were before the Assembly yesterday. Rev. A. S. Reid, Montreal, was appointed financial agent of travelling secretary to lead a general drive for church funds. He will receive \$4,000 a year and expenses. The church has a total deficit of \$189,000 and endorsement was made of two schemes—the one step forward movement to raise \$180,000 to be applied to the deficit and another plan with an objective of \$500,000 to be raised over a period of years through all church organizations.

A budget of \$500,000 for the church year 1932 was approved. The board of administration agreed to reallocate among the spending board \$50,000 originally earmarked to cover deficits.

There are two kinds of police officers: square ones, and those who say: "Well, get your evidence and I'll arrest them."

The romance still endures if he doesn't grow when, for the 1867th time, he hears the question: "What do you want for dinner?"

# INSULL PROPERTIES SEEM TO BE IN GOOD POSITION

### Only Nine Per Cent. of Assets of Chicago Area Utilities Reported to Be of Doubtful Value.

Chicago, June 9.—Reports were current here today in LaSalle street that between \$85,000,000 and \$90,000,000 of assets in the three major utilities in Chicago and suburbs developed by Samuel Insull are to be "written off."

The sum represents about nine per cent. of the assets and its comparative smallness is looked upon by financiers as highly favorable and indicative of "the thorough soundness of the properties."

The three utilities are the Commonwealth Edison, Peoples' Gas, Light and Coke Company and the Public Service Company of Northern Illinois, from control of which Samuel Insull abdicated this week in resigning in favor of James Simpson, prominent merchant.

In \$847,300,000 of assets of the three Chicago area utilities, certified accountants who have been auditing for weeks have been able to find only \$90,000,000 in assets that they could "question, doubt" or "separate," it was stated.

The sum was not looked upon as a total loss, it was reported and the figures of the auditors were in the hands of eastern bankers for inspection.

NEW TWIST TO EARLY HISTORY OF COLUMBUS.

Barcelona, Spain, June 9.—Father Adrian Sanchez, a priest in the town of Olvia De La Frontera, added a new twist to the scores of claims regarding the early history of Christopher Columbus today.

He telegraphed authorities here he had found a marble sepulchral slab on which was Columbus' shield and crest, and also a script which "undoubtedly proved" the discoverer of America was born, confirmed and buried in Olvia De La Frontera.

# DEBT PAYMENT IS DISCUSSED BY BEAVERBROOK

### U. S. May Agree to Cancellation of War Debts, But Does Not Believe Europe Will Ever Disarm.

New York, June 9.—Lord Beaverbrook, British newspaper proprietor, said he thought it extremely likely that the United States would be willing to cancel war debts in consideration of disarmament in Europe, but he added that Europe, and especially France, would never disarm.

His comment on war debts and disarmament was inspired by an editorial printed in the London Evening Standard, one of his papers. The editorial suggested that perhaps an agreement between the United States and Europe offering cancellation of war debts had been effected.

He was asked if his papers had any information to lead them to believe there was such an agreement. "No," he replied, "anyway, it shows that my papers are active."

# FORMER STUDENTS OF SEMINARY ORGANIZE AN OLD BOYS SOCIETY

Continued From Page 1.

lecture on an uninteresting subject. Long after the meeting had been called to order the hubbub of voices continued, and several orders had to be issued from the chair to quell the outbursts of enthusiasm which accompanied comical anecdotes of college days. Reminiscences were received from the store house of old souvenirs, and the ring of carefree laughter gave testimony that many of the scenes of school days were being revived.

Rev. Father Victor Vincent, present principal of the Seminary, was the first speaker. In a well-worded and appropriately delivered address, he expressed a heartfelt welcome to the visitors. "The position of St. Charles Seminary today," Father Vincent remarked in his introductory words, "may be compared to that of a mother welcoming the return of her long-absent sons. She opens wide her arms to receive them just as an Alma Mater does when one of its graduates returns from the shore whence it embarked, equipped with a sound Christian education, to sail the sea of life."

The Superior stressed the pride the college felt towards her sons, and especially those first members whose character had been molded by the pioneers of this momentous educational movement. "The College has solid faith in her graduates' role in

the future when concentrated effort will be required to successfully combat the various schemes which are at present raising their heads and threatening to disrupt and destroy civilization," Father Vincent stated. "In a few hours, the members of this large graduate family will be molded into a unit, and from this consolidation of spirit, progress and development is anticipated towards continuing the good work of the institution."

In conclusion, Father Vincent eulogized His Lordship, Bishop O'Leary, Mgr. Emile Vincent, Vicar-General of the diocese, and Mr. Campbell for the untiring efforts they had expended towards realizing the principal object of the convention.

Mgr. Vincent seconded the address of welcome proposed by Father Vincent, and paid a stirring tribute to the head of the local diocese, whose illness, was unable to be present at the proceedings, "Bishop Gagnon is confined to the St. Vincent de Paul Hospital," the speaker mentioned in referring to His Lordship, "and although he is not here that his thoughts are following all our activities, and his blessing is imparted to all those who are in attendance." Mgr. Vincent declared that, despite distance and the present depression, the call of the Alma Mater had been answered in a manly and noble spirit.

The organizers, and the speakers present furnished eloquent testimony of the esteem and respect in which Sherbrooke's seat of learning is held. Mgr. Vincent, while the entire audience stood respectfully at attention, read a telegram from the Sovereign Pontiff in which His Holiness sent the Pontifical blessing and wished the celebration every success.

"In laying the foundation for this college, I am planting the seed of a tree which I hope will in the years to come grow to such dimensions that its branches will spread over the entire Eastern Townships, and the words of Bishop Antoine Racine when he founded St. Charles Seminary, according to Mr. Firmin Campbell, one of the first pupils to enter the portals of the Marquette street institution, now these ambitious legs have been realized in a measure today, and as the years roll by our great debt to this venerable prelate is augmented."

Mr. Campbell referred to Bishop Racine as one of the most illustrious Canadians in the Province of Quebec, and in his eulogistic words, his collections he called instances which tended to show the many qualities possessed by this loyal son of the Catholic Church. In succession, the speaker gave interesting sidelights on the principals who had succeeded the first Bishop of Sherbrooke as head of the college, and gave significant estimates of what each individual director had contributed towards the advance of the local French college.

To hear Mr. John T. Hackett, federal member of Parliament for Stanstead County, is always a privilege, and a young man whose words no exception when the genial orator occupied the platform and delivered a forceful address amid scenes where he had spent some of the happiest days of his life. During his inspiring discourse Mr. Hackett related a number of incidents which in his opinion was not sufficiently impressed on present-day students. "Man must be taught to be fully cognizant of the duty he owes the state," said the well-known barrister. "It is imperative that youth be imbued with the idea that it is his duty to organize for the public welfare. The attitude of the masses towards government must be radically changed if a country is to forge ahead, and this task of infusing the right spirit is left in the hands of the rising generation."

Mr. Hackett explained what a gathering of this kind meant to former students. "We come to pay tribute to the institution and to the valiant founders; we return to thank those who laid the foundation for a sound citizenry; and we come back to warm our hearts on the hopes of the future. We must incorporate in this organization a spirit of perpetuity without which no society is complete. Science, in late years, has broken down barriers which existed when the older pupils attended this college. But science cannot break down the human heart, which alone survives into the past and envisage the future."

Before the meeting had been opened, a telegram of regret was read from Mr. Louis St. Laurent, of Quebec City, who expressed his regrets at being unable to attend the celebration from the Ottawa, where Mr. St. Laurent is on a visit, came heartiest wishes for the unalloyed success of the convention. A motion of sympathy was unanimously adopted to be forwarded to Dr. John Hayes, of Richmond, one of the Seminary's most brilliant pupils, whom illness also restrained from attending. Before the gathering was released to make a tour of inspection of the college, a few remarks

# Social and Personal

Mrs. Chester Hodge, of North Hatley, has returned home after spending a vacation at Shadow Lake, Glover, Vt., the guest of her friend, Mrs. Virginia Rives Barrows.

Mr. and Mrs. J. H. Burton, of Long Island, N.Y., have arrived in Ayer's Cliff to spend a short time at "The Grange," their summer home on the shore of Lake Massawippi.

Mr. and Mrs. Gordon Fee, of South Durban, Que., wish to announce the engagement of their eldest daughter, Doris Hazel, to Malcolm Chas. Cote, of South Durban, Que. The marriage to take place in June.

Mr. and Mrs. Robert Newell, Lisgar, Que., wish to announce the engagement of their eldest daughter, Esther Gwyneth, to Calvin Arguele Cote, fourth son of Mr. and Mrs. James Cote, Lisgar, Que. The marriage to take place in June.

Four members of the graduating class at the Sherbrooke Hospital were among those who passed the biennial examinations of the Association of Registered Nurses of the Province of Quebec. These were Doris M. Carmichael, Myrtle Y. Carmichael, Vivian Hatch and Dorothy A. Sande.

About forty couples enjoyed themselves last evening in the Officers' Mess of the Sherbrooke Regiment at a very delightful dance given by the officers of the Regiment. A feature of the evening was the presentation of a little souvenir to Captain J. W. Houlden, who left for Montreal today enroute for England, where he will take part in the Bisley shoot. Col. E. B. and Mrs. Worthington and Col. M. W. McAnulty and Mrs. McAnulty were patronesses for the evening.

were heard from Magistrate J. H. Lemay.

Sitting in the front rank with Mr. Vincent, Father I. Lavallo, of Richmond, Mayor Ludger Forest, Emery H. Fortier, M.L.A. for Sherbrooke, Doric Lemaire, of Montreal, John T. Hackett, and Magistrates Roland Miller, of Hull, and J. Sylvain Couture and J. H. Lemay, of this city.

Last evening after the guests had partaken of the supper prepared under the capable supervision of Rev. Father Napoleon Gagnon, an impromptu concert was held, and the varied programme kept the entertainment at a high pitch. The out of town guests were augmented by their Sherbrooke conferees as the cares and troubles of the world were forgotten and scenes of boyhood days re-enacted. Contributions were made to the programme by pupils of every era, many of whom recalled the members of past classes who had been called from this earth, but whose memory remained forever green in the memories of their fellow-students.

Rounds of applause greeted the tributes paid to former teachers whose names are inseparably linked with the progress and development of the Seminary as each speaker touched on the Racines, Roys, Girards, Lafobres, Gagnons, Maltais, Castonguays and other noted members of the personnel who had left long-remembered souvenirs with the classes they had instructed.

Mr. Redmond Hayes, one of the more recent graduates, delivered a brilliant address on behalf of his father, Dr. John Hayes, of Richmond, and transmitted a letter which the former pupil had written from his sick bed wishing the convention every possible success. To the surviving members of his father's class the young speaker had a special word of greeting while, in the name of his father, he exhorted the present pupils to carry on the traditions established by their seniors.

Other speakers included Dr. Arthur Dussault, of Quebec City; Father Joseph Tetu, of Lennoxville; Magistrate Roland Miller, of Hull; Rev. Tancred Beauregard, on behalf of the American delegates; Mayor Ludger Forest and Alderman Emery Fortier. Musical numbers were rendered by Messrs. Leonidas Bachand, Lawrence I. McMahon, of Montreal, and the choir composed of former pupils, while Professor Bourgeat added violin solo. Professor Oscar Carter, and Eugene Caron played the accompaniments to the individual numbers. To bring the programme to a close, Rev. Father Emile Gauthier and Notary George Sylvestre gave their interpretation of a selection especially composed for the occasion by Louis Philippe Robitoux, a former student and now editor of La Tribune.

St. Andrew's Auxiliary met yesterday afternoon in the church hall with the president, Mrs. Arthur Jobel, presiding. During the business hour the society accepted the invitation of Mrs. Douglas Ross to hold their closing meeting of the season at her home on Brompton Road.

The "Lavender Mystery Tea" then followed. The large tea table was centered with a silver basket filled with lily-of-the-valley, and the small tables were graced with vases of lily-of-the-valley tied with lavender ribbon, while large baskets of lilies were placed around the room.

Mrs. Jobel received the guests and Mrs. C. J. Ferguson presided at the tea table. The hostesses for the afternoon were Mrs. A. Jobel, Mrs. Vernon Mayhew, Mrs. R. S. Giff, Mrs. W. Sawyer, Mrs. W. Sjolander and Mrs. W. J. Humphrey.

Much merriment was caused when the mystery packages wrapped in lavender paper were opened. These proved to be useful articles for the kitchen.

Mrs. George MacDonald, of Montreal, was a visitor in the city yesterday.

Mrs. E. A. Chadsey, of Bedford, is the guest of her mother, Mrs. T. Flaherty, Fulton avenue.

Miss Viola Mullins, Bromptonville, is spending some time in Barre, Vt., a guest of Mrs. M. Holden.

Mrs. H. S. C. Moffatt, Newton street, is spending a few days the guest of Miss Eileen Brown at Levis, Que.

Mr. G. D. MacKinnon returned on Sunday from England and Scotland, where he has been spending the past month.

Miss Alice Sangster and Miss Ann Van Buskirk returned yesterday from "Glen Holm" camp, Lake Massawippi, where they were the guests of Miss Emily Le Baron for a few days.

Miss Alice Sangster and Miss Ann Van Buskirk returned yesterday from "Glen Holm" camp, Lake Massawippi, where they were the guests of Miss Emily Le Baron for a few days.

Miss Geraldine Martin, a recent graduate at the Children's Memorial Hospital, Montreal, is visiting Mrs. Nelson Lothrop, Summer street, Lennoxville.

Friends of Miss Margaret Gough, Queen street, will be pleased to know that she has returned from the Sherbrooke Hospital, where she underwent a slight operation.

Capt. J. W. Houlden, of the Sherbrooke Regiment, left this morning for Montreal, where he will join the Canadian Bisley squad, which sails for England on Saturday.

Mr. and Mrs. W. F. Bowles, of Cowansville, arrived in town yesterday. Mr. Bowles, who is the guest of his aunt, Mrs. T. Flaherty, Fulton avenue, is attending the re-union at St. Charles' Seminary. Mrs. Bowles has gone to Cookshire, where she is visiting her sister, Mrs. Hannibal Sheltus, and Mr. Sheltus.

Mr. and Mrs. H. W. Paige, of Greenlay, announce the engagement of their youngest daughter, Pearl Mary, graduate of the Sherbrooke Hospital to Mr. Iwona W. Greenlay, of the same place, eldest son of Mr. W. Greenlay and the late Mr. Greenlay. The marriage will take place quietly the latter part of June.

A meeting of the Sherbrooke Hospital Ladies' Auxiliary was held at the MacKinnon Memorial Building yesterday with the president, Mrs. C. B. Howard, in the chair. It was announced that the net proceeds from the dinner at which Hon. Senator Cairine Wilson was the guest-speaker totalled \$57.72. Plans were then made for a garden party and band concert to be held towards the end of this month at Howardside, the home of the president. The conveners and members of the various committees appointed were Mesdames D. J. Scalls, R. Howard, J. Hovey, D. Diplock, G. Harkness, R. Wiggett, G. Bryant, G. T. Armstrong, C. A. Turner and W. R. Moore. Plans were also discussed regarding the cafeteria which will be held as usual on the Exhibition grounds during the annual fair.

In addition to those whose names appeared the following were among those who visited Stanstead College during closing week: Mr. and Mrs. Franchoise, Edmonston, N.B.; Mr. B. C. Howard, M.P., Sherbrooke; Miss E. Van Roden, Sherbrooke; Mrs. and Miss E. Scott, Mrs. Scarth, of Scotland; Mr. T. Stokes, Bury; Mr. and Mrs. Dryden, Mrs. Steel, Cowansville; Mrs. Best, Mrs. Noble, Mr. G. Brazier, Cookshire; Mr. and Mrs. D. D'Albena, St. Lambert; Mr. K. Russ, Newport; Miss G. Clayton, Montreal; Mrs. J. F. Carleton, Dunham; Mr. and Mrs. Miss Armitage, Sherbrooke; Miss T. Parker, Miss L. Smith, Bedford; Mr. McKay, North Hatley; Misses Kay, E. and M. Morrill, of Sherbrooke; Mr. and Mrs. C. W. Libby, Mr. and Mrs. C. Libby, of Ayer's Cliff; Miss H. R. Ayer, Mr. J. F. Woodman, Hatley; Dr. and Mrs. Brown, Ayer's Cliff.

### FIRE DESTROYS FARM PROPERTY AT HILLHURST

Buildings on Farm of Gordon Pocock Gutted — Loss Will Amount to Over Ten Thousand Dollars.

Hillhurst, June 9.—Damage exceeding \$10,000 was caused here yesterday afternoon when the house and all the buildings on the farm owned and occupied by Gordon Pocock were burned to the ground. The fire broke out about 3.30 o'clock.

The flames started in the all of the house used as the kitchen, possibly caused by an overheated stove pipe or a defective chimney. The fire spread rapidly, enveloping the house and then jumping to the adjacent small barns. Four of those were soon in flames, and then the blaze spread to the large cow barn.

Neighbors rushed to the scene and helped battle the outbreak, but were unable to control it. Help was called from Coaticook and the fire department from that town soon reached the scene, but before their arrival all the buildings were doomed.

With the aid of the neighbors, Mr. and Mrs. Pocock were able to save the furniture in the lower floor of the house and the stock in the barns, but all the furnishings of the upper flat were lost. The loss was partly covered by insurance.

### LOCAL POLICE ARREST MAN IN HOLD-UP CASE

Edouard Lessard, Fourth Man Wanted in Connection With Robbery at St. Jean de Matha, Placed in Custody in This City Last Evening.

Acting upon information that a taxi coming from Three Rivers and headed in this direction contained a man who answered to the description of Edouard Lessard, the municipal police last evening arrested the fourth man wanted in connection with the daring hold-up at the Banque Canadienne Nationale at St. Jean de Matha last Saturday, when \$2,200 was stolen.

Lessard was stopped near the car barns by Deputy Chief Prunier and Constables Vachon, Roy and Fea. The man answered to the description of Edouard Lessard, the municipal police last evening arrested the fourth man wanted in connection with the daring hold-up at the Banque Canadienne Nationale at St. Jean de Matha last Saturday, when \$2,200 was stolen.

These men are Romeo Desroches, Rosario Boucher and Leo Laplante. According to the provincial police, Desroches and Boucher are charged with being accomplices, while Laplante is charged with committing an armed hold-up.

Immediately after Lessard's arrest, the authorities in Montreal were notified and arrived in Sherbrooke a few hours later. They conveyed Lessard to Montreal.

The hold-up occurred early Saturday morning. The manager of the bank, A. Leveille, was awakened and forced to open the safe by two masked bandits, who locked the manager and his wife in the cellar of the house before they drove off in an automobile.

### ASCOT BRIDGE CLOSED TODAY BY GOVERNMENT

Authorities Have Decided to Repair Bridge at Ascot and Satisfy Residents of That Community, Who Had Placed a Toll Charge of Twenty-Five Cents on Motorists Who Wish to Pass.

The Quebec Government has decided to take a hand in the Ascot toll bridge situation, and, as a result, the bridge has been closed. All motorists who desire to travel in the direction of Quebec along route number one are advised to follow route twenty-eight, via Cookshire, and cross over at East Angus.

Some time ago the municipality of Ascot, desiring to have the bridge repaired, applied to the Government, but apparently had been refused any financial aid, claiming that it was a municipal-owned bridge, not a government structure. The authorities forthwith imposed a toll charge to cover the cost of the repairs and all motorists desiring to pass over the bridge, or in other words through the town of Ascot, were obliged to pay twenty-five cents.

Protests were immediately heard from all directions. But the municipality of Ascot turned a deaf ear to all pleas to have the toll abolished. It seemed that the Government, or the citizens, had to pay.

The situation had reached such a point that the Quebec authorities decided to repair the bridge.

It has been temporarily closed for about a week. And when it is re-opened the toll charge will no longer be in force.

### QUEBEC STATISTICAL BOOK STORED WITH INFORMATION

1931 Edition Varies from Preceding Volumes in Large Number of Graphical Charts It Contains.

Quebec, June 9.—The Bureau of Statistics issue the English edition of the Statistical Year Book of the Province of Quebec for 1931. This volume comprises twelve chapters treating of the following subjects: chronology, physiography, climatology, population, education, administration, finances, production, communications and transportation, economic activity, organized labor, insurance and savings.

There are several additions worthy of mention. A new table is given indicating the counties wherein French-Canadian families returning from the United States have settled since 1928; statistics relative to the last provincial elections and a list of the representatives of each county in the Legislative Assembly since 1867 complete the chapter of administration. The criminal statistics section has been modified. Under the heading public charities, three new tables have been inserted summarizing up the activities of this branch since 1921.

The loans authorized by the government for unemployment relief, an estimate of the pulpwood production since 1912 and a review of the work carried out by the roads department during the past year provide material for new pages. An additional table in the section dealing with co-operative people's banks shows the number and the amount of loans made on notes by

### E. T. LADIES RECEIVED DIPLOMAS FROM MONTREAL GENERAL HOSPITAL

Among the sixty young ladies comprising this year's graduation class at the Montreal General Hospital appear the names of several ladies from the Eastern Townships. Diplomas were awarded yesterday to the Misses E. M. Coffin, Dunham, M. F. Crandell, Theford Mines; J. P. Durand, Beebe; E. M. Maynes, Waterloo; C. B. Springings, North Hatley; E. H. Watson, Windsor Mills; and B. E. Steele, of Sherbrooke.

### AUTOMOBILE MISHAP ENDS IN COURT ACTION

Magistrate J. S. Couture, presiding over the Magistrate's Court, yesterday afternoon, took the case of O. Ralph Webster, of this city, against Frank Clarke, of Quebec City, on delibere.

Webster claimed the sum of \$99.99 from Clarke as the result of damages caused by his car in an accident on November 8th, 1930. Webster, the plaintiff, alleged that at the intersection of Wellington and Aberdeen street, he signalled his intention to turn to the left, upon Aberdeen. He proceeded to do so and had crossed the middle of the intersection when he was run into by the defendant.

The plaintiff claimed that Clarke was driving his car at an excessive rate of speed.

### REV. DR. LENNON ELECTED TO IMPORTANT POST

Towards the close of last evening's session of the Montreal and Ottawa Conference of the United Church of Canada, which was held in St. James' United Church, Montreal, Rev. Dr. W. S. Lennon, pastor of Trinity United Church, of this city, was elected chairman of the conference for the coming year.

Dr. Lennon is a power in United Church circles of this province, and his appointment to this important office is no small honor for Sherbrooke. He is a graduate in Arts of McGill University and in divinity of the former Wesleyan Theological College, Montreal. Before coming to Sherbrooke he held many important pastorates, including Mount Royal Avenue Church, Montreal, Queen Street Church, Kingston, and Gananoque Methodist Church.

Dr. Lennon has also been chairman of districts, president of Montreal annual conference and delegate to the general conference of the Methodist Church and to the general council of the United Church of Canada.

### ATTEMPTED ROBBERY

Thieves that broke into the store of M. Smith, 27 Wellington street south, were apparently frightened away before they could steal anything early this morning. At about 1:15 a.m. the local police were advised that suspicious looking characters were loitering around the Banque Canadienne Nationale and had broken the light in the yard. Three officers were sent to the scene, but found no one about the premises. They remained near the bank all night, however, and early this morning discovered that Smith's store, which is next to the bank, had been entered. The culprit or culprits had cut a hole in the window at the rear of the store large enough to enable some one to enter.

Nothing had been stolen. The glass had apparently been cut, and the store entered, before the arrival of the officers.

### MAGOG GARAGE SUFFERED FROM EVENING BLAZE

Damage Estimated at Five Thousand Dollars Was Caused to Charland Garage Late Last Evening.

Magog, Que., June 9.—The large garage at the corner of Sherbrooke and St. Patrick streets, owned and operated by Romeo Charland, was badly damaged by flames about eleven o'clock last evening. The fire started inside the cement block building, and had made considerable headway before it was discovered. The fire department was immediately summoned and the blaze was confined to the interior of the structure. Five trucks and four passenger cars that were in the garage were somewhat damaged.

Mr. Charland estimated the damage to the building and to the cars at approximately five thousand dollars, partly covered by insurance. The cause of the fire is unknown.

Every good cause has some supporters who are in some measure discredited by excited extremists who try to help.

### 'SLAPPED WRIST' ACTION TAKEN EN DELIBERE

Mrs. Jean Thomas Thibodeau, of St. Malo d'Auckland, Demands \$99.99 for Alleged Slap Received from Wilfred Brault, Also of St. Malo.

Unable to decide at once whether or not a slapped wrist—or the insult that would almost invariably accompany a slapped wrist—is worth \$99.99, the action against Wilfred Brault, of St. Malo d'Auckland, instituted by Mrs. Jean Thomas Thibodeau, also of St. Malo d'Auckland, was taken on delibere in the Magistrate's Court yesterday.

"I am not a curious woman," declared Mrs. Thibodeau, when explaining to the court how it happened that Brault had slapped her, as she alleged, "but I wanted to know of what the checker board was made."

"So you reached out a hand to find out?" Lawyer Landry asked. "Yes, and as soon as I touched the board Brault slapped my wrist."

Wilfred Brault and Albert Roy had been playing a game of checkers at the home of Albert Tailleux on the evening of April 18 last. Mrs. Thibodeau and Mrs. Roy were

watching the match—and admiring the checker board. They could not agree upon what sort of material it was made. It was Mrs. Thibodeau who ventured to find out—and it was Mrs. Thibodeau who was slapped for her curiosity, so she alleged.

But Brault claims to be a gentleman first and foremost—and gentlemen do not slap ladies, except on the moving picture screen. "I did not slap Mrs. Thibodeau, I merely pushed her hand away," he declared.

Whether or not Brault was angry because he was losing the match should really be settled. Mrs. Thibodeau inflicting injuries, not to mention humiliation, the magistrate must decide.

And whether or not, if Brault did slap Mrs. Thibodeau, it was worth \$99.99, a large number of gentlemen—and ladies—are anxious to learn.

### LILAC TEA A SUCCESS

St. George's Guild summer sale is the annual climax of the society's activities for the season and its many features indicate much thought and effort on the part of the officers and members to make it the success that it always is. Yesterday this event held in the parish hall in the late afternoon had a special feature characterized as a "lilac tea" to add to its other attractions.

Cordially welcomed at the door by the president of the Guild, Mrs. W. A. Bown, and Mrs. A. Jones, one was immediately struck with the fittingness of the appellation,

for everywhere were lilacs on the tea tables and on the large table where tea was pottered and in groups of blooms massed about the color scheme was accentuated by lilac streamers, the whole being relieved by the greenish white blossoms of the early snowball.

A beautiful collection of cut bloom in baskets, tulips of various shades, iris and small ferns made an attractive addition to the floral display and these were sold by Mrs. William Pearson and Mrs. William Mitchell.

A sale of fancy work was carried on with Mrs. H. Fraser and Mrs. S. Messenger in charge. Mrs. J. A. McClary, Mrs. E. Reed and Mrs. Stacy had a table with home-made cooking on sale and Mrs. Glass and

Mrs. Arnold had a booth where aprons, both the useful kitchen variety and those for dainty afternoon wear could be purchased.

During the progress of the sale a group of members of the Guild were kept busy serving afternoon tea, with Mrs. E. L. Atto and Mrs. F. Wiggitt pouring. Mrs. C. Herling and Mrs. C. Hall had charge of the icees.

Although the weather was not ideal, as summer weather goes, being cool with periodic small showers of rain the attendance was good and the financial returns very gratifying.

Poor young doctors. Only in the country can they find quick prosperity and prominence, and in the country they must work.

### CINCINNATI'S PENNANT HOPES BADLY CRUSHED

#### Ill Fortune Causes Reds' Bubble to Burst and Practically Eliminates Dan Howley's Forces—Gomez and Grove Continue Southpaw Hurling Battle.

New York, June 9.—The Cincinnati bubble, one of the prettiest of the spring crop, appears to have exploded in Manager Dan Howley's lap. Seven straight defeats have removed the Reds from the first division, dropped them into seventh place and practically eliminated them as possibilities for the 1932 National League pennant. Chick Hafey's illness, which has deprived the club of its clean-up hitter, and pitcher Si Johnson's inability to take his regular turn have contributed to the Reds' rapid tumble. Hafey is expected back in the lineup in another week or ten days, but by that time the club may be beyond recall. They committed four errors in the first four innings yesterday to lose their second straight game to Bill Terry's revived New York Giants by nine to two. All the Giants' runs were unearned. Fred Fitzsimmons kept the Reds' ten hits well spaced.

The see-saw scrap for the league leadership saw the Chicago Cubs bounce up again by defeating the Brooklyn Dodgers by seven to five in fourteen innings, while Boston was taking a fifteen to eight beating from the St. Louis Cardinals. Charlie Root, relief pitcher for the Cubs, held Brooklyn to one hit for the last six innings of their struggle and finally was rewarded in the fourteenth when Gabby Hartnett tripled and Bill Jurgens doubled to drive across the winning runs. Led by the veteran Frankie Frisch, who returned to the line-up after a lengthy absence to bunt a double and three singles, the Cardinals pounded four Boston pitchers for twenty hits in scoring their fifth straight victory. The Phillies took a free-scoring

ing affair from Pittsburgh by eleven to ten. The two eminent southpaws, Vernon Gomez and Bob Grove, continue to burn up the American League in their battle for individual pitching supremacy. Gomez chalked up his tenth victory in eleven games as the Yankees took a close one from Detroit by five to four, while Grove scored his eleventh victory of the year and his tenth in succession in beating Cleveland by three to one. Grove had an edge over Gomez on the basis of yesterday's showing. His pitching was not superior to that of the Yankee ace, but he gave the A's their winning run with a homer in the eighth. "Babe" Ruth and Lou Gehrig knocked in all five Yankee runs, each hitting a home run and a single.

The day's most timely blow was delivered by Charlie Berry, of the Chicago White Sox. Two were out in the ninth inning and the bases filled when he tripled to centre and thereby defeated Washington by three to two. Goose Goslin delivered a home run, a triple and a single and drove in four runs as the St. Louis Browns crushed Boston by eleven to four.

#### SPORTING NOTES

**BASEBALL'S BIG SIX**  
 Ernie Lombardi and Earle Combs held the "Big Six" reputation for slugging yesterday, while all the other active members except Paul Waner lost ground in the major league batting races. They each made three hits, Lombardi going to bat four times and gaining twelve points and Combs making an eight-point gain as he took five trips to the plate. Waner hit two out of five to hold his .401 average. Bill Ducey and Tony Lazzeri, of the Yankees, dropped into a tie for third place in the

American League as both failed to hit, losing six and seven points, respectively. The standing to date follows:

### FIRE DESTROYED ANOTHER GIGANTIC PILE OF LUMBER

Midland, Ont., June 9.—A mass of smouldering ruins is all that remains today of the gigantic lumber pile at the Letherby, Terry and Nicholson pulpwood yard, destroyed by fire last night. The blaze, believed to have originated by the dropping of a cigarette butt, caused damage estimated at \$100,000. Fire-fighters from nearby towns, as well as crews on the freighters tied up in the local harbor, assisted the Midland brigade in extinguishing the flames before they spread to the adjoining mill and neighboring houses.

from the Y's Men and Regiment, respectively. The Lennoxville boys were forced an extra inning before the Y's Men were subdued, the score at the end of the seventh inning being deadlocked at thirteen runs each. In the eighth frame the winners collected six tallies, while the home team crossed the plate but once to make the final count 19 to 14 in favor of the visitors.

The line-ups were:  
 Lennoxville: Reid, Belham, Lochrop, M. Brundage, McLeod, Hadlock, O. Brundage, Ashford, Povey and Hume.  
 Y's Men: Armstrong, Taylor, O'Donnell, Bryce, Richardson, Chamberlain, Kenalty, Keeler, Fitzsimons and Edwards.

A nine-run rally in the third frame followed by eight more runs in the seventh canto gave the league-leading Kayser entry a one-sided 22 to 7 victory over the Regiment.  
 Kayser: McLeod, Govette, Charlier, Klein, Morin, Perron, Maurice, Cava, Courchesne and Blanchard.  
 Regiment: Stoyles, Perrin, Baker, Watson, Bradford, Barlow, Conley, Arnold, Blue and Campbell.

The league standing to date is as follows:

### GENE SARAZEN SETS PACE FOR BRITISH TITLE

#### Long Hitting New York Professional Lost Golden Opportunity on Home Green to Set New Course Record.

Sandwich, England, June 9.—Gene Sarazen, long hitting New York professional, tied the course record at Prince's with a sixty-nine today to take the early lead in the second round of the British open golf championship with his 70-69-139.

Sarazen failed to set a new record because he half smothered an approach shot to the home green when he had an easy four in sight for a sixty-eight. The ball carried into the crowd and down a steep bank near the clubhouse door. He chipped up the slope over short grass to within three yards of the cup and still had a chance for his four, but his putt was a little off the line and he needed five. He was well content, however, with that.

### DANVILLE DEFEATED WATERVILLE

Danville, June 9.—The first of the series of home and home golf games to be played on the local course took place on Saturday afternoon when a match was played between the Danville Country Club and the Waterville Country Club. The weather was ideal and there was a good turnout of players, as well as many tea guests. Seven foursomes took part in the match, which resulted

in a victory for the home team. The games were very close and whilst neither team was up to their mid-season form, good golf was played on both sides. Following the match tea was served in the clubhouse by the following hostesses: Mrs. C. H. Shoemaker, Mrs. G. F. Cleveland, Mrs. K. S. Ingalls, Mrs. Eric Morrison, Miss Rose Riddle and Mrs. A. Ward. The tea tables and room were effectively decorated with tulips and lilacs. The results of the match in detail follow:

### MANY COUNTRIES PROTEST AGAINST SCHNEIDER BILL

Washington, June 9.—Wilbur J. Carr, assistant Secretary of State, yesterday read to the United States House of Representatives immigration committee protests of Canada, Great Britain and seven other nations against the Schneider bill for exclusion and deportation of alien seamen not nationals under the flags of the ships on which they sail. Carr pronounced the measure contrary to commercial comity between nations. The other countries whose objections he presented were Belgium, Denmark, France, Italy, Netherlands, Norway and Sweden.

### COMMISSION TO TAKE UP REPORT AT EARLY DATE

#### Royal Commission on Transportation to Meet on June 22 to Draft Report on Canadian Rail Conditions.

Ottawa, June 9.—The Royal Commission on railways and transportation will sit again in Ottawa, commencing Wednesday, June 22nd, for the consideration of its report, it was announced yesterday. With this meeting the commission will enter upon the final stages of its work, which commenced early in December last. A statement issued yesterday adds:

"The taking of evidence has been concluded, and for the forthcoming meeting it is expected that the report of the committee, which for several months has been engaged upon a comparative analysis of the operations of both railways, from 1923 to 1931, inclusive, will be completely available. The officials of the railways have co-operated in every way and have provided the commission and the committee of experts with an immense amount of information and statistical data dealing with operations which involve in many cases matters of contention and rivalry. It was necessary, therefore, to verify and collate the information provided from railway sources to ensure that it should be presented on a properly comparable basis. For the purpose of this work of verification and co-ordination the commission appointed an independent commit-

tee consisting of B. J. Roberts, comptroller of guarantees, Department of Finance; A. V. Franklin, railway auditor, Department of Railways and Canals, and George H. Parker, transportation analyst, of Washington, with wide experience in practice before the United States Interstate Commerce Commission. The report of this committee is expected to be concluded during the present week."

### ANOTHER U. S. BANK CLOSES ITS DOORS

New Haven, Conn., June 9.—The Mechanics Bank, one of the city's oldest financial institutions with deposits of \$19,000,000, failed to open today in accordance with an order of State Bank Commissioner George J. Bassett. The order was issued as a result of heavy withdrawals increasing in intensity the last few days. The deposits included the city treasury balance of approximately \$2,000,000.
