THE LACROSSE FIELD.

Shamrocks and Cornwalls Win Senior Matches.

Victorias Defeat Thistles in the E. T. League.

Two senior lacrosse matches were played Saturday, viz.: Shamrocks vs. Nationals in Montreal, and Cornwall vs. Quebec in Quebec.

The Shamrocks won the former after a hard struggle, by a score of four to three, the summary of the score being as follows:

Game.	Won by.	Scored by.	Time.
1	Shamrocks	Brennan	3.40
2	Shamrocks	Hoobin	3.87
3	Nationals	Wells	19.27
4	Nationals	Moore	30.46
5	Nationals	Marcelin	3.06
6	Shamrocks	Brennan	.47
7	Shamrocks	Hoobin	10.23

The match at Quebec resulted in a victory for Cornwall by a score of 5 to 0. A Quebec despatch says of the match:

The Quebecers struggled hard, but all to no purpose, for they were outplayed at every point. The Cornwallis were in the pink of condition, and every man was up to the mark. Moran and Copeman, of the Quebecs, were the only two who played in anything like their old form. Dolly Swift and McCormick were the two new men, and neither of them had been on the field for practice more than twice.

E. T. LEAGUE.

An interesting lacrosse match was played on Sherbrooke grounds Saturday, between Victorias and Thistles of the E. T. League. It resulted in a victory of the former by a score of two to one. These junior teams play very good lacrosse and both contain players who will soon be worthy of a place on the senior team.

Victorias won the first game Saturday and the Thistles the second in a short time. The third game continued for fifty-seven minutes when Parsons scored and decided the match in favor of Victorias.

At times the play was a little rough and the referee, Archie Exley, was right in promptly checking any of this kind of work which should not be given any encouragement. Minard, Roquet, F. Byrd and Povey were ruled off for foul play.

The teams lined up as follows:

Victorias.	Position.	Thistles.
Wiggat	Goal	Jas. Byrd
J. Price	Point	H. Martin
Belknap	C. Point	Peterson
Fuller	Defence field.	Dore
McDonald	"	F. Byrd
Woolsey	"	McCabe
Geo. Price	Center	Southwood
Minard	Home field	Rocque
Povey	"	G. Ross
Bartlett	"	P. Ross
Parsons	Outside home	Southwood
Moore	Inside home	Southwood
Slattery	Captain	G. McCourt
Fergie	Umpire	Davis
Referee, Mr. Archie Exley.		

This league stands at present as follows:

Victorias.	Won.	Lost.
Thistles	2	1
Nationals	1	1
	0	1

SUNDAY SCHOOL PICNIC.

Two Sunday School picnics were held on Saturday, and the weather being all that could be desired it is needless to say that both were a success.

The Congregational Church School left the Church early in the afternoon by special cars for a trip to Lennoxville and on return to Victoria Park where the afternoon was spent. The attendance was large and in the beautiful park the children and older ones as well spent a very pleasant time.

The other picnic was at Little Lake, being that of the Presbyterian Sunday School. The party went out by C. P. R. train, and spent the afternoon in boating and other recreations. The attendance was large and everything conspired to make the picnic one of the most enjoyable ever held by the school. The merry party returned by train in the early evening.

Mr. E. H. Crean expects to leave for his new position in Quebec, this week. His successor in Sherbrooke will be Mr. W. H. Bottom, of Kentville.

MAN-O-WAR'S MISHAP.

British Sloop Buzzard Runs Into an Iceberg.

St. John's Nfld., June 26.—The British armed sloop Buzzard, while trying to reach the French Treaty Shore on Friday, collided with an iceberg, which stove in her bows. By means of collision mats and moving the guns and heavy stuff to the stern, she made her way back here safely. She will be docked tomorrow. At the time of the accident perfect discipline existed on board and prompt preparations were made to leave the ship should it prove impossible to keep her above water. It was soon seen, however, that the damage was not serious enough to endanger the vessel.

SHERBROOKE FAIR.

Some of the Special Attractions Which Have Been Secured.

Preparations for Sherbrooke's big annual exhibition are progressing favorably. The manager, Mr. H. R. Fraser, announces that among the special attractions which have already been closed for are: Adgie, famous dancing girl and cage of trained lions; Carl Dammon Co., three ladies and two gentlemen, European acrobats, lately with Barnum and Bailey Circus; the daring Beckett Family, six in number, trapeze performers. All these will perform daily on the platform before the grand stand. It is also, likely that Rice Bros., comic performers on car, and Etta Victoria, contortionist, will be secured together with several other special attractions which are now being negotiated for.

The race programme is now being prepared and will be announced shortly.

BURY.

June 26.—Mr. Frank Prangley has been confined to his bed with a bad attack of pneumonia for the past ten days, but is at the present time much better.

Mrs. William Herring went to Magog on Saturday last, to make a short visit to her daughter, Mrs. Mills, who resides there.

Fire started in the roof of Messrs. T. Stokes and Sons' carriage factory, on Tuesday last; fortunately was extinguished at once. During the excitement of the fire two horses were left alone in the blacksmith shop, and in their fright one got cut very severely, making the animal useless. The owner was Mr. Albert Berwick.

Miss Washer returned home on Friday last for the summer holidays.

Our schools in the village here closed last week for the summer. Miss Bown and Miss Dawson both received a small token of esteem from their pupils.

All our military men have gone to camp, leaving us timid citizens unprotected. May the boys return with flying colors.

Mr. A. B. Hunt imported his second cartload of carriages last week.

The C. P. R. have laid a few inches of gravel around their station here. It is to be hoped this good streak will last, and that they will grade up their siding, as at present it is difficult to get anywhere near the cars to load and unload freight. A few days ago a horse belonging to Mr. Anderson, had to be helped out of the mud, a few feet from the cars on the siding. Send on the gravel.

Mr. Robt. Lavellier returned on Friday last from the General Hospital, Montreal, where he has been having his eyes attended to.

Mrs. John Maines has been suffering greatly with inflammation of the eyes.

Mrs. Hodge and Mrs. Rogers, of Eaton Corner, have been visiting Mrs. McCanna last week.

Mrs. Klock, of Klock's Mills, Ont., is visiting her parents here, Col. and Mrs. Pope.

Dr. Wales is greatly improving his residence with a coat of paint.

Trade with the crowd at Boydell's, you will find it is money saved. A few men's and boys' suits left which we will reduce twenty per cent. for cash.

LIVES WITH A BROKEN BACK.

Hope of Recovery of a Lynn Electrician Who Was Badly Injured.

Boston, Mass., June 26.—Jules Yeener, a young Russian, employed as wireman in the General Electric Works at Lynn, received a shock Friday afternoon, while repairing a wire and was thrown from a step-ladder, breaking his back on the iron tramway which runs through the factory. He was removed to the hospital, and a broken section of the spinal column was removed by a surgeon, the delicate operation being successfully performed. He had been working for the General Electric Company since last January. There are hopes of his recovery. His lower limbs are paralyzed, but he is resting comfortably.

FIRE AT ST. RAYMOND.

Business Portion of the Town Destroyed.

Over 250 People Were Rendered Homeless.

Quebec, June 26.—The business portion of the flourishing village of St. Raymond, in the County of Portneuf, was wiped out by fire yesterday afternoon. The loss is estimated at from \$50,000 to \$75,000.

The fire started about 11 30 a.m. in a stable in rear of Widow Edward Plamondon's house. It is supposed to have been started by a spark from a pipe. An old man and a boy from a neighboring parish were seen going into the stable shortly before the flames were discovered, and as the man was under the influence of liquor at the time he is believed to have caused the disaster. It is reported in the village that both were burned, but this cannot be verified.

Assistance in fighting the fire was received from Quebec. Thirty houses, besides outbuildings, were destroyed, and as some were tenement houses, at least 250 people are rendered homeless. About half the loss is covered by insurance.

BRIEFLETS.

The attendance at St. Peter's Church yesterday was fairly good, considering the fact that many of the congregation are out of town. A very earnest and practical sermon was preached by the Rev. Mr. Viail.

We strongly advise those intending to put up strawberries to do it at once. We are ordering a large lot for tomorrow, but they won't last long. First come, first served, at Fletcher's.

The quarterly meeting of Lodge Gloucester, S. O. E. B. S., will be held tomorrow evening, when arrangements for the picnic to be held on Dominion Day at Dudswell, will be completed.

Another large shipment of berries expected tomorrow. They are getting near the last. Forewarned is to be forearmed, Fletcher's.

WEATHER PROBABILITIES.

June 26, 11 a. m.—Forecast for next 24 hours, issued by the Meteorological bureau.

Moderate wind; fine and warm.

THE HONEY MAKERS.

Use foundations to control the number of drones.

Sulphur will destroy the moth larvae in old combs.

The entrance to hives must always be arranged so that the bees can enter conveniently as soon as they arrive.

When necessary to work among the bees, put them under perfect control with smoke, and they will not hinder you.

To produce an abundance of drones use drone comb in the colony selected, which should not be used for any other purpose.

If desired to increase the number of colonies of bees, regardless of the honey crops, it can be done by allowing them to swarm naturally.

Considerable care must be taken in the selection of the queen for breeding. The best looking queen is not always the best for breeding.

A cell properly developed and of full size is sure to produce a well developed queen. A well developed cell is from 1 1/4 to 1 1/2 inches long.

It requires care to remove comb honey from the hives. It can be one easier during the honey season than at any other time.—St. Louis Republic.

ORCHARD AND GARDEN.

The plum and cherry require a little pruning.

Never allow insect destroying birds to be killed.

When it can be done, it will be a good plan to top dress the strawberry plants with wood ashes.

By adding lime to the emulsion used for spraying injury to the foliage may often be prevented.

Well rotted stable manure, wood ashes and air slacked lime make good fertilizers for all kinds of fruit trees and plants.

Common whitewash is less effective for repelling borers than common soft soap. A little carbolic acid added improves the soap.

Common white lead paint is good to apply on the stub when large limbs have been removed. It keeps out the rain and prevents cracking.

It rarely pays to fill up an old orchard with young trees; better select a new location. The old trees have exhausted the old site more or less.

Old apple and other trees are often benefited by cutting out the branches in the center, where they are apt to crowd one another too close to the stem.—Exchange.

Killed by a Poem.

An author, having waited in vain for a check for an accepted poem, wrote the editor mildly inquiring about it. The editor replied:

Dear Sir—The magazine is dead. It could not stand everything. It passed peacefully away, with your poem on the front page. The sheriff, who is a man of some literary ability, is now writing his obituary. The blow is a sad one, but we hope to get damages out of you.—Atlanta Constitution.

WAS TIRED OF LIFE.

Eva Rivert Took 2 1-2 Spoonfuls of Paris Green.

She Was Unwell and Wanted to Die but Failed in Her Purpose.

Eva Rivert, the 15-year-old daughter of Francois Rivert, a farmer, living about 2 1/2 miles from this city, made a desperate attempt to end her life, Friday afternoon, by swallowing two and a half spoonfuls of paris green in a cup of milk. The very quantity of poison, however, enough to kill two or three persons, prevented the realization of her intention, and Dr. Fregeau, who was called to attend the girl, says she will live.

It appears that for about four months the unfortunate child has been suffering from nervous fits and during this time has often threatened that she would destroy her life. For about a year she has been employed at the home of Mr. George Long, this city, but was taken to her home about the middle of last week. She was in the yard, near her father, when she took the poison. Having mixed the dose, hoping that it would prove fatal she swallowed it, and then told her father what she had done and said she would soon be dead. The poor girl was at once taken terribly ill and threw up the greater portion of the poison she had taken. Dr. Fregeau was summoned and succeeded in destroying the effects of the poison.

After learning that her effort to destroy her life was not to prove successful, the girl declared that she would yet succeed in killing herself. Next time she would cut her throat or set fire to the barn and burn herself up.

It is thought that the child's illness for the past few months has so preyed upon her mind as to unbalance it and that she is not responsible for her actions.

MAGISTRATE'S COURT.

In this Court, before Judge Mulvena, this morning, the argument in the case of the G. T. R. against W. J. Antoine and Wm. Wright, charged with shooting at a boarding house car at Compton station recently, is being heard.

ANOTHER FAILURE.

In the Superior Court, on the 17th instant, T. T. Blais, of this city, made an abandonment of property for the benefit of his creditors. The property abandoned consisted of the insolvent's stock in trade, consisting of dry goods, ready-made clothing, boots and shoes, and the book debts in connection with the business, also a small farm in Orford.

The principal creditors, with claims over \$200, are as follows:

Estate late Dr. Pare, City,	\$1664
Gault Bros. & Co., Montreal,	1343
Wm. McLemont & Co., Quebec,	986
Doull & Gibson, Montreal,	847

The demand of abandonment was made by Messrs. P. P. Martin & Co., of Montreal.

PERSONALS.

Miss Hargrave has returned from Compton, to spend her vacation at home.

Mr. J. M. Jenckes, accompanied by Mrs. Jenckes, has gone to Toronto, for a trip.

Mrs. R. A. Darker, of Cookshire, is visiting the family of Mr. T. B. Terrill, at their pleasant home in Sherbrooke.

Mrs. D. W. Armstrong, who has been visiting Sherbrooke for some weeks, left last week for New Brunswick.

Madame LeBlanc, who has been visiting her daughter, Mrs. L. E. M. Dastous, has returned to her home in Ottawa.

The family of Mr. O. Stuart Taylor, who is organizing singing classes in Sherbrooke, are in North Hatley for the summer months.

Mr. E. H. B. Brooks has reached Banff, Alta. where the wonderful hot springs are located, on his leisurely way across the continent.

Rev. Wm. H. Rowan, who has been at Minton, near North Hatley, for a year, has been placed in charge of the Methodist Church, at Cote St. Paul.

The late arrivals at the Grand Central are R. W. Leith, Kingsey Falls; W. J. Duquet, Richmond; C. G. Muspell, Geo. Browne, W. Cowan, P. Kane, C. M. Mills, Montreal.

AFRICAN WAR CLOUD.

England Not Ready to Say "Must" to Transvaal.

London, June 26.—Of the talk of war and of war's preparations against the Transvaal the air has been very full this week, but the Cabinet has still to make up its mind to utter to President Kruger the fateful word "Must."

Sir Michael Hicks-Beach holds for "patient firmness." Chamberlain persists in his fervent demand for that "striking proof of the intention of Her Majesty's Government not to be ousted from its position of paramountcy in South Africa," which Sir Alfred Miller has declared to be essential. Lord Salisbury and Mr. Balfour stand hesitatingly between these two sections of the cabinet, and the probability that things will drift on until at least Parliament is up and troublesome cross-questioning members are away on Scottish moors pursuing the August grouse.

ENGINEER INJURED.

John Smith of the C. P. R. Fell From the Steps of His Engine.

Winnipeg, June 26.—(Special)—John Smith, a C. P. R. fireman, fell from the steps of his engine last night. He was found lying on the track unconscious from the force of his fall and no hopes are held out for his recovery, as his skull is badly fractured. Smith is aged 26 years and has been firing for nearly three months. His mother and father live in Guelph.

ST. JEAN BAPTISTE FEAST.

Celebration in Quebec Today.

Quebec, June 26.—(Special)—The St. Jean Baptiste French Canadian national feast is being celebrated here today. There was a large and imposing procession this morning, and this afternoon a picnic to St. Catherine's grove, Lake St. Joseph.

A FINAL DIVIDEND.

Toronto, June 26.—(Special)—The master in ordinary made an order at Osgoode Hall for the payment of the final and only dividend of 17 1/4 cents on the dollar in the case of the Home-Steved Loan Company of Hamilton. Various debts have been paid and balance of assets enables the payment of this dividend.

THE MAIL DIDN'T GO.

Owing to some misunderstanding between the postoffice department and the Quebec Central, the mail from Sherbrooke to Quebec on this line lay in the mail bags at the station all the morning. The Q.C.R. summer timetable went into effect this morning, and the hour of departure for the north bound mail was changed from morning to afternoon. The Government did not accept this change and consequently the mail bags were delivered at the Union Station this morning as usual and consequently lay there till the departure of mail train under the new schedule this afternoon.

BEEBE PLAIN CAMP MEETING.

The annual camp meeting at Beebe Plain was brought to a close yesterday. While it has, as usual, been very successful this year, the attendance has not been on the whole as large as in former years owing, probably, to the fact, that the grove has been infested with the caterpillar scourge. The foliage of the trees was nearly destroyed and when there was nothing more to eat the pests departed, so that for the last Sunday, there was little trouble experienced from caterpillars. Special trains were run yesterday from Sherbrooke and other points on the Boston & Maine to the camp grounds.

IMPROVEMENTS.

Among the many improvements and changes which have recently been made in Sherbrooke stores, one of the most marked is that in connection with the retail confectionery department of Mr. C. H. Fletcher's establishment. Its size has been doubled by taking in another store and converting the two into one. The rooms above the store have also been arranged into a spacious and attractive ice cream parlor. In the store has been placed a handsome soda fountain. Everything inside is now attractive, and the public by their patronage are showing appreciation of the improvements made.

Those answering advertisements in this paper will serve the interests of all concerned by mentioning that they saw the same in the SHERBROOKE DAILY RECORD.

ALL EYES ON FRANCE.

Is It Peace at Last or a Revolution?

Abusive Epithets Applied to the New Ministry.

London, June 26.—Is France on the edge of an abyss, or, having at last found strong hands to rule her, is she now to come out into the light? The Waldeck-Rousseau cabinet is, altogether, a cabinet of social defence. The premier himself is an advocate of great practice and a man, they say, of exceptionally high force of will. His minister of commerce, M. Millerand, is a Socialist, while General de Gallifet, his war minister, is the half-Monarchist and Aristocrat who put down the Commune.

"A deceptive mixture," say some; "realism personified," says the Libre Parole, while among other epithets buried at the new cabinet's head by Paris journals of the character of the Echo de Paris, Eclair and Gaulois are "madmen," "the twelve apostles of Dreyfus," "col-blooded Dreyfusian, scoundrelism and filth," and so on.

These indicate the storm of abuse which any man with a firm resolve to save France must face at the present juncture. They do not necessarily impugn the accuracy of today's forecast of M. de Blowitz in the Times, that this remarkable commission of Republicans is a "conception of patriotism and devotion," proving that France, by one of those supreme efforts familiar to her in emergencies, is proudly recovering herself and resuming her proper place in the work of civilization.

The programme of the ministry is not in doubt. President Loubet's influence will prevent ferocity, should General Galliffet tent that way. Col. Fiquet will, doubtless, be restored to the army, and some officers, such as General Hartschmidt and Colonel Saxe, Convertin and Bigolet will certainly be removed, so that a striking cartoon in the Lusage Blatter of Berlin seems near fulfillment.

Le Diable, on his island, soliloquizes resignedly as he sees Dreyfus sail away. "Ah, well, a captain goes, but here comes a handful of generals. Not so bad after all, this affair."

Q. C. AND B. & M. SUMMER TIME TABLES.

The Quebec Central summer time table which appears in another column, shows a very great improvement in the service of this line. New trains and changes of times will both contribute to the accommodation of travelers.

The Boston & Maine summer time table goes into effect today. The new schedule appears in another column. It restores the service which was given last summer and which gave such good satisfaction while it was continued.

GERMANY GRABS POLAR ISLANDS.

Seizes Several of Them Near Spitzbergen, and the Inhabitants Are Angry.

London, June 26.—On the initiative of Norway and Sweden, as well as of Denmark, the British Government is about to summon an international conference to meet here at an early date with the object of settling upon certain spheres and limitations of the various maritime Powers in the polar regions. Emperor William, not satisfied with acquiring by purchase from Spain several groups of islands in the Pacific, has within the last fortnight coolly annexed several large islands in the neighborhood of Spitzbergen. Inasmuch as these islands, although not belonging to King Oscar's dominions or to Denmark, are nevertheless much frequented by Norwegians, Danish and Scottish fishermen, much dissatisfaction and concern has been created by Germany's action in the matter, and after due deliberation it has been resolved that, in order to prevent any one Power from appropriating all arctic islands and polar lands as its own, to the exclusion of other nations, some international agreement on the subject should be concluded either neutralizing the arctic regions or apportioning to each Power a certain sphere, within the limits of which each would be restricted.

TEMPORARY OFFICIAL AT GERMAN EMBASSY.

Berlin, June 26.—The North German Gazette announces that Dr. Mu. um von S h w a r z s t e i n, minister of Luxembourg, has been appointed to replace Dr. von Holleben, the German ambassador to the United States during the latter's two months' absence from Washington.

RICHMOND.

News items for insertion in the DAILY RECORD will be gladly received by E. R. Jones, local correspondent, Times Office Richmond.

June 26.—A terrific thunderstorm passed over this place on Friday evening last. The rain fell in torrents and the lightning was very sharp, but no very serious damage was done.

A meeting of the citizens committee for the final arrangements for Dominion Day will be held this evening, June 26th. A full attendance is requested.

Mrs. St. Onge, of South Durham, was the guest of Mrs. S. E. Desmarais last week.

Everything is dull and quiet here at present, owing to most of our young men having gone to camp with the 54th, and the schools closing. A large number of the pupils of St. Francis College, being from the country, have returned home for the vacation.

Mr. N. Dupuis, merchant tailor, is making extensive improvements to his store and shop. A new front is being built next the street, which will add greatly to its usefulness and appearance.

BRIEFLETS.

Last Saturday's issue of the Quebec Daily Telegraph contains a very striking likeness of Mr. E. H. Crean, who has been promoted from the position of city passenger agent in Sherbrooke to a similar position in Quebec.

The ordinance of baptism was administered at the service in the Baptist Church last evening. Three candidates were received into the Church. The ministrations of the present pastor appear to be greatly blessed; the church having made substantial gains in membership of late.

The W. A. of St. Peter's Church will hold the last meeting for the summer months on Tuesday, the 27th inst., at St. Peter's Hall, at 4 p. m. The members of the Church Library can get and exchange books during the holidays by telephoning to the librarian, at 21 High street, or personal application.

LEPERS BURNED TO DEATH.

Chinese Lazaretto at D'Arcy Island Destroyed by Fire.—Suffering Inmates Unable to Help Themselves.

Vancouver, B.C., June 26.—The Chinese lazaretto at D'Arcy Island, British Columbia, has been burned to the ground. The poor lepers could not help themselves. Some were so far gone that they could not crawl from the flames. Two were burned to death, meeting their end but a few weeks before their time.

Medical Health Officer Dr. Frazer went on a steamer to investigate. He found that the fire occurred at 1.30 a.m. on June 15th, and was caused by one of the patients, who was very feeble, upsetting the lamp. The flames spread along the six cabins in a row, which were completely destroyed. The other nine cabins were unscorched, and in them the unfortunates took refuge. They had plenty of provisions and comfort, in fact sufficient for a month.

They had buried the dead lepers, and when the doctor arrived the wounds of the injured ones were dressed.

Illustration of a man with a horse and plow. I am a farmer located near Stony Brook, one of the most malarious districts in this State, and was bothered with malaria for years, at times so I could not work, and was always very contipated as well. For years I had malaria so bad in the spring, when engaged in plowing; that I could do nothing but shake. I must have taken about a barrel of quinine pills besides dozens of other remedies, but never obtained any permanent benefit. Last fall, in peach time, I had a most serious attack of chills and then commenced to take Ripans Tablets, upon a friend's advice, and the first box made me all right and I have never been without them since. I take one Tabule each morning and night and sometimes when I feel more than usually exhausted I take three in a day. They have kept my stomach sweet, my bowels regular and I have not had the least touch of malaria nor splitting headache since I commenced using them. I know also that I sleep better and wake up more refreshed than formerly. I don't know how many other complaints Ripans Tablets will help, but I do know they will cure any one in the condition I was and I would not be without them at any price. I honestly consider them the cheapest-priced medicine in the world, as they are also the most beneficial and the most convenient to take. I am twenty-seven years of age and have worked hard all my life, the same as most farmers, both early and late and in all kinds of weather, and I have never enjoyed such good health as I have since last fall. In fact, my neighbors have all remarked my improved condition and have said, "Say, John, what are you doing to look so healthy?"
