MYSTERY DEEPENS INTO CAUSE OF DISASTER ABOARD MORRO CASTLE

Board of Inquiry So Far Unable to Substantiate Claims that Fire which Caused Over Hundred Deaths Was of Incidental Origin — Government Agents Seek to Link Fatal Blaze with Outbreak on Second Vessel which Sailed from Havana Shortly After Ward Liner.

New York, September 11.—Federal inquirers poked with fresh determination today among the coals of testimony, hunting the cause—be it God's lightning, a fool's cigarette or a Communist's torch—of the Morro Castle disaster.

They sought some definite evidence, some real prop, to support the suspicion, voiced without substantiation by acting Captain William F. Warms, that "someone set that fire."

While a new procession of witnesses was forming here to appear before the Board of Inquiry, other processions were taking shape at private homes, churches and mortuaries—funeral processions of the Morro Castle's dead. Many funerals were set for today and tonight. Others will be held tomorrow.

There is a third procession, inevitable wherever tragedy rests: The procession of the curious—the camp followers of catastrophe. More than 100,000 persons have flocked to Asbury Park, N.J., where the bulk of the \$5,000,000 Ward liner, still burning, sets in the sand. Already, though she is still the coffin for unknown dead, the Morro Castle is the object of tentative negotiations. The Asbury Park City Council wants to make some arrangement by which the bulk, a flame-scarred monument to an estimated 133 dead, can be retained where she rests, just off Convention pier. The councilmen have found her an attraction, drawing visitors from many miles around.

As the inquiry by the Department of Commerce continued, moving from the customs house to larger quarters in the federal building, a United States grand jury subpoenaed acting Captain Warms and other Morro Castle officers to tell their stories. District Attorney Martin Conboy expected to direct the grand jury officials.

Five department officials at Baltimore, Canal Zone, began an investigation of the fire that broke out in the Grace liner Santa Rita shortly after the Morro Castle tragedy. They said the fire was "perhaps caused by spontaneous combustion, but it could have been started deliberately."

There was no definite evidence to link the Morro Castle and Santa Rita fires, but agents of both the United States and Cuban governments, as well as of the steamship companies operating out of Havana, are making careful and quiet inquiries.

A body believed to be that of Captain Robert R. Willmott, the Morro Castle skipper whose death occurred aboard ship several hours before the vessel burst into flames, was found aboard the vessel last night. The body, badly burned, was on the floor of the captain's cabin. Positive casualty charges are not yet available. The known death list is 116, with ninety-eight of the bodies identified and two tentatively identified. Seventeen persons are still unaccounted for, giving a total of 133 dead or missing.

WARNINGS OF DESTRUCTION OF SHIPS AND AEROPLANES

Havana, Sept. 11.—While the government conducted a four-fold investigation today into charges that Communists fired the Morro Castle, Cubans heard warnings of destruction of other vessels.

The warnings were issued by an announcer over an unidentified and unlicensed radio station.

A telephone warning also was received by the Pan-American Airways that terrorists were planning to smuggle a bomb aboard one of the company's planes.

Police discounted the threats of the radio speaker. It was generally believed the work of a crank. But officers took all possible precautions. Extra guards were placed at all radio stations to prevent their seizure by radicals. Careful examinations were being made of all parcels taken aboard aeroplanes, and a check was being made of cargoes being loaded on boats at Havana docks, at which numerous strikes and disorders have occurred recently.

George Grant Mason, Jr., representative of the Pan-American Airways in the Caribbean region, said that anonymous warnings of danger had been received before. None of the disorders predicted have materialized.

Capt. Oscar Hernandez, Havana's chief of port police, held to his conviction that the Morro Castle was set afire off the New Jersey coast "by an agent of the Caribbean bureau of the Third Internationale."

He believes the agent boarded the vessel as a passenger and carried inflammable chemicals in his baggage.

Four branches of the Cuban government are involved in the investigation, and numerous officers are of the opinion that the terrorists whose bombings, sabotage and disorders have unsettled government in the island for months, are responsible for the disaster.

SEEKS HIGHER STANDARD FOR NURSES' EDUCATION

Saint John, N. B., Sept. 11.—"Lamentable lack of proper legislation" was deplored today by Miss A. J. MacMaster, of Moncton, in her presidential address at the annual meeting of the New Brunswick Association of Registered Nurses. General sessions of the two-day convention opened this afternoon.

"The present deplorable gap between the recommendation of the Association in connection with the prospective educational standard for schools of nursing and the totally inadequate legislation which de-

BELIEVE CATHOLICS WILL SUPPORT GERMANY IN SAAR

Attitude of Catholics Has Been Perplexing Factor in Plebiscite, but It Is Now Predicted that They Will Rally to Support of Germany.

Saarbrücken, the Saar, Sept. 11.—A swing of Catholic sentiment to the support of Germany in the Saar plebiscite next January was indicated by an editorial in the territory's Catholic organ, the *andez Zeitung*, today.

The newspaper expressed the hope that the League of Nations Saar Commission, now administering the region, would end "as soon as possible."

The attitude of Catholics has been a perplexing factor in the plebiscite, in which inhabitants of the Saar will vote whether to become a part of France, reunite with Germany or remain under a League protectorate.

The action of the Saar Electoral Commission, which protested that a Saar Catholic youth organization committed a breach of neutrality by sending a telegram pledging loyalty to President Paul von Hindenburg as he was dying, prompted the newspaper's editorial.

"Sending the telegram was a point of honor," the *Landes Zeitung* said.

DRASTIC ACTION ORDERED TO AID GERMAN FOREIGN TRADE POSITION

All Importations Declared Subject to State Control with Permit Needed for All Imports in Excess of Four Dollars — Present Ten Import Control Departments to Be Increased to Twenty-Five in Drive to Conserve Depleted Exchange Supply.

Berlin, Sept. 11.—All importations into Germany were declared subject to state control today when Dr. Fritz Sarnow, acting president of the Reich government, outlined "Schacht's new plan" designed to save the government's depleted currency reserves through the restriction of imports.

The nation's ten import control departments will be increased to twenty-five, thus putting the whole import system, including the field of farm products, into the government's hands.

Five decrees, three of which will be issued in the near future, define the functions of the control departments. The Ministries of Economics and Agriculture will supervise the departments for distribution of foreign currency permits.

Requests for imports for use in the manufacture of products to be exported will be given first consideration.

The value of materials which may be imported without a permit was radically reduced from fifty marks or twenty dollars, to ten marks, or five dollars.

The newly-created control departments, instead of the Reichsbank, are authorized to issue permits beginning September 24th. The regulations are designated to promote compensatory trade and to readjust Germany's foreign trade balance with countries like the United States which have a wide margin of imports to Germany.

Simultaneously, the measure is calculated by the government to foster an increase of export activity on the part of Germans.

ORDER ENCOURAGES USE OF CANADIAN SOFT COAL

Ottawa, Sept. 11.—The drawback upon imported bituminous coal converted into coke in coke or gas plants in this country has been increased to ninety per cent. This only applies, however, where less than thirty-five per cent by weight of the bituminous coal converted in the claimant's plant into coke, as covered by each drawback claim, was mined in Canada.

A regulation governing the change was issued today by the Department of National Revenue to its collectors. It is not expected a very large percentage of bituminous coal imported would be affected.

Under the budget brought down at the last session of Parliament, a drawback of fifty per cent was provided on all imported bituminous coal converted into coke in coke or gas plants. The present order is to give the higher drawback of ninety per cent on imported bituminous where as high as thirty-five per cent of the Canadian bituminous is used in the conversion.

feats the very end the Association seeks, which is the ultimate protection and preservation of the high standards of the nursing profession, remains the greatest problem to be solved," said Miss MacMaster.

"It is the sound conclusion of your chairman that there is only one logical way by which we may overcome this basic defect in the logical scheme of nurse training," she said. "This is to bring about a closer affiliation with the New Brunswick Hospital Association, and to convince by sound reasoning the need for sympathetic co-operation with us in the matter of securing proper and adequate Provincial legislation protecting each of these important bodies contributing to the health welfare of our people."

CHILD BORN WITH TWO TEETH

Memphis, Tenn., Sept. 11.—Mr. and Mrs. W. N. Linville insist it is not so unusual—especially in their family.

But nurses at a Memphis hospital today were telling all visitors of little Betty Jane Linville, who was born with two teeth.

The parents recalled that their seven year old son, James, had a tooth when he was born.

Browder, Ky., Sept. 11.—Burglars entered the post office of this little Muhlenberg county town, and left with only eight cents—all the cash they could find. Federal authorities were notified by W. E. Wickliffe, postmaster.

'SNATCHERS' HAD BENNETT LINED UP FOR RANSOM

Ottawa Police Claim to Have Confession that Gang Planned to Kidnap Prime Minister Before He Left for Geneva.

Ottawa, Sept. 11.—Premier R. B. Bennett was shadowed by a kidnap gang who planned to snatch him and hold him for a large ransom a few days before he left Ottawa for Geneva as a delegate to the League of Nations, police announced today.

Inspector Mortimer Culver, of the City Detective Bureau, said a prisoner held on a housebreaking charge disclosed details of the plot which called for the Prime Minister to be taken from his apartment in the Chateau Laurier Hotel. Police declined to reveal the name of the prisoner nor the details of the plot, but insisted it was a genuine kidnap setup. Federal police denied knowledge.

According to the man's story, as related to the police, there were four Ottawa men in the gang counting himself three and at other times breaking charges and police are searching for the fourth. Police say they will not lay attempted kidnap charges because they cannot secure the corroborative evidence necessary when an accomplice turns state evidence. Police refused to say definitely, but it was understood the two other prisoners denied the plot.

According to the story told the police, the Chateau Laurier was shadowed by the gang, but the plot failed when the men disagreed over details. Prime Minister Bennett often walks unguarded from his office to the hotel and at other times is driven by his chauffeur. He left here on August 31st for Geneva.

"It was apparently a genuine kidnaping plot," said Inspector Culver, while Chief of Police Emile Joliat said the plan was feasible and he did not believe the man was talking for publicity.

Police declined to say why the gang failed to go ahead with the scheme, but it was believed they fell out over hideout locations. In his confession to the police, the prisoner said he merely was asked to join the gang and did not know all the details.

City police said two or three weeks ago they heard many rumours of plans to kidnap the Prime Minister, probably influenced by the John S. Labatt snatch.

REFUSES TO EXTRADITE THE FORMER CUBAN PRESIDENT

Dominican Republic Turns Down Havana Government's Request for Extradition of Gerardo Machado.

Havana, Sept. 11.—The Cuban state department announced today that the Dominican republic had formally refused this government's request for extradition of Gerardo Machado, former President of Cuba.

Gerardo Machado fled from the United States to the Dominican republic some two months ago.

Former President Machado stands charged in Cuban courts with numerous crimes during his eight years in office. He was overthrown in August, 1933, fled to the Bahamas, thence to Canada and the United States.

SET NEW MARK FOR NEW YORK-BERMUDA RUN

Hamilton, Bermuda, Sept. 11.—The liner *Monarch* of Bermuda pegged up a record yesterday for the run between New York and Bermuda, by covering the distance in 36 hours and 38 minutes.

The vessel docked in New York late Saturday after participating in rescue work on the flaming Morro Castle. She was further delayed by a threatened hurricane and was unable to leave New York until 6:17 a.m. Sunday.

LATE LEAVE ABSOLUTELY REFUSED IN THIS JAIL

Key West, Fla., Sept. 11.—Strict laws govern the Key West jail. Prisoners are turned out in the daytime under the requirement that they return at night. A sign over the door reads:

"Unless you are back by 6:00 we will lock you out."

BATTLE PLANE SALES TO WARRING NATIONS REVIEWED BY COMMITTEE

United States Firms Charged with Supplying Military Aircraft to Belligerents or Nations on Verge of War—Elimination of Profit Motive by Government Manufacture Seen as Great Aid to World Peace — Chemical Firms Claim Profits of Peace Greater than Those of War.

Washington, Sept. 11.—The United States of America's largest manufacturers of powder and munitions, asserting they were engaged in fomenting war through their sales.

"The Du Pont Company does not want war and has vastly more to gain from peace," said the statement issued through its president, Lamont Du Pont, who has been summoned to appear this week.

"The charges of conspiracy against the peace of mankind which are currently made against the munitions makers of the world have no foundation whatsoever," so far as the Du Ponts are concerned, the statement said.

Discussing the hearings so far, Nye said to newspapers: "Embargoes don't embargo."

INTEREST NOW CENTRED UPON BYE-ELECTIONS

Federal and Provincial Leaders Taking Part in Five Campaigns in Ontario Rural and Urban Ridings.

Political leaders of the Dominion and province today prepared for what promises to be a hectic two weeks' campaign for five federal bye-elections in Ontario. Official nominations were held in two ridings yesterday, Frontenac-Addington and Kenora-Rainy River while cabinet ministers and Premier Mitchell F. Hepburn, of Ontario, launched the fight for the votes which will be cast on September 24.

W. R. Aylesworth, Cataqui farmer, was officially nominated Conservative candidate in Frontenac-Addington, and Colin Campbell, mining engineer of North Brook, received the official sanction as Liberal standard-bearer. In Kenora-Rainy River the official nominees were Hugh B. McKinnon, Liberal-Labor, and Joseph Derry, Liberal-Conservative, North York.

Toronto East and Elgin West will be the scenes of bye-elections also. Hon. Dr. R. J. Manion, Minister of Railways and Canals; Hon. H. H. Stevens, Minister of Trade and Commerce; and Hon. D. M. Sutherland, Minister of National Defence, were the cabinet ministers who entered the campaign last night in support of Conservative candidates.

In his address at Enterprise last night, supporting Mr. Aylesworth in the Frontenac-Addington fight, Mr. Stevens described prices received by the farmers as outrageously low and declared they were the result of chain store operations which sold beef at ten cents a pound, making it impossible for farmers to compete. He stated fifty per cent of the beef on the market today was inferior and declared his department intended to "find out just what is wrong with the beef market."

In his address in Toronto East in support of the candidature of Major H. P. Snelbrove, Premier Hepburn charged Mr. Stevens as champion of the mass buying committee of the Commons was in collusion with Prime Minister R. B. Bennett to delude the electorate. He declared despite Mr. Stevens' attacks on chain stores and mass buying he had never been known to vote against his party.

EXPRESS WAGON CARRIED FAMILY A LONG DISTANCE

Father, Six Children and a Dog Journey from Oklahoma to Former Home in Harrisburg, Pa., 2,004 Miles.

Harrisburg, Pa., Sept. 11.—It took six sets of wheels for the express wagon on the Knolls—fifty-six-year-old Thomas E. Knoll, his six children and their dog—are home from Oklahoma.

With Bessie Lee, thirteen, ill of a strange disease of the bones, four-year-old Clyde riding on the wagon and the other children trudging behind, Knoll wound up a 2,004-mile journey last night.

Willie, thirteen, Jimmie, sixteen, Ruby, nine, and Clifford, seven, were lively at the finish and Knoll says the first thousand miles are the hardest. They had been on the road since July 4th.

Knoll said the drought drove him from Oklahoma. Thirty years ago he was a teamster in Harrisburg.

Key West, Fla., Sept. 11.—Strict laws govern the Key West jail. Prisoners are turned out in the daytime under the requirement that they return at night. A sign over the door reads:

"Unless you are back by 6:00 we will lock you out."

RECORD DEATHS OF MANY PROMINENT PERSONAGES

Sir George Henschel and Admiral Thomas Sturges Jackson Among World Famous Figures Who Passed Away Yesterday.

The deaths of many prominent persons, including an internationally famous singer, were reported in yesterday's news reports as follows:

Aviemore, Scotland—Sir George Henschel, aged eighty-four, internationally famous singer.

New York—Isaac D. Levy, aged sixty-six, who rose from a two dollar a week cash boy to a merchant prince.

Budapest—Count Joseph Karolyi, aged fifty, Hungarian Legationist leader.

Colchester, England—Admiral Thomas Sturges Jackson, aged ninety-two, a veteran of the Boxer rebellion.

Ottawa—Mrs. J. F. Argue, wife of Dr. J. F. Argue, registrar of the Medical Council of Canada.

TWO ABDUCTORS IDENTIFIED BY JOHN S. LABATT

Police Today Seeking Remaining Members of Gang that Kidnapped the Wealthy London Brewer—One Arrest Reported.

Toronto, Sept. 11.—Identification of two of the kidnappers of John S. Labatt, wealthy London, Ont., Brewer, led police today to study more photographs of known criminals who might have turned to the kidnap racket for lucrative returns.

In Detroit, Fred W. Frank, chief of detectives, announced Labatt had recognized two of his kidnapers after scanning forty-five pictures.

Ontario Provincial Police were reported en route to the Wildwood district of Muskoka, near Gravenhurst, with photographs of criminals in the hope that Horace Prowse would recognize some of them as the men to whom he rented the cottage where Labatt was held for sixty-six hours after being kidnapped while driving from Sarnia Beach to London on August 14. He was released early August 17, with a promise to pay \$25,000.

Major General V.A.S. Williams, commissioner of the Provincial Police, and Attorney General Arthur W. Roebuck announced yesterday a man was being held for identification in Detroit but police of the Michigan city denied knowledge of any arrests or anyone held for questioning. Major General Williams and Mr. Roebuck did not divulge any further information.

It was reported the man was arrested after a Labatt brewery employee failed to contact his kidnappers and hand over the \$25,000 demanded when Labatt was released. The employee made the attempt in Windsor but presence of a number of police officers in the district blocked his attempts at ransom payment.

MAIL ORDER CATALOGUE PURCHASING CONDEMNED

Hon. Adelaar Godbout Blames Much of Present Troubles on Habit of Buying from Mail Order Houses.

Louisville, Que., Sept. 11.—Buying from mail order firms has been greatly injured by local order and residents of the district, said the Hon. Adelaar Godbout, Quebec Provincial Minister of Agriculture, told guests at the closing banquet of an Agricultural Exhibition here.

Local trade had been practically ruined by the attitude of citizens of the district in buying by mail order and purchasing from local merchants on credit, the Minister declared.

Mr. Godbout suggested eating of a Canadian apple before breakfast instead of an orange coming from some foreign country in pointing out residents of the district and Canadians in general had to reform themselves in their food beliefs. Canada had just as good natural foodstuffs as other countries, he believed.

PROSPECTS OF EARLY SETTLEMENT IN TEXTILE STRIKE VERY REMOTE

Manufacturers and Labor Far from Agreement on Principle of Carrying on Peace Negotiations—Additional Troops Called Out as More Mills in South Re-open—Presidential Mediation Board Discussed Strikers' Ultimatum with Operators.

Washington, September 11.—Additional troops were called out today in textile centers to prevent violence as President Roosevelt's mediation board sat down to discuss the United States textile strike with manufacturers.

National Guardsmen were ordered on duty in Maine, Connecticut and Rhode Island, while troops continued to patrol mill centers in North and South Carolina where some mills re-opened yesterday.

Although the mediation board asserted it believed the dispute was "not incapable of solution" and that a "settlement can be reached which will be fair to workers, employers and in the public interest," the difficulty in reaching a solution was indicated in the diverse views of how a proposal for arbitration should be carried out.

George A. Sloan, president of the Cotton Textile Institute, insisted such negotiations must be between owners and workers of individual mills.

Francis J. Gorman, national strike director, said settlement must be made with the "textile industries as such."

"That means," he said, "there must be a settlement with the entire cotton textile industry, with the entire wool and worsted industry, with the entire silk industry, and so on. There will be no settlement mill by mill in any of the divisions of the industry."

Nevertheless, the decision of Sloan to call a number of manufacturers to meet with the mediation board was regarded as a hopeful note. Although the names of those who will join in the conference today was not made public, it was understood they will include ten or twelve of the most prominent manufacturers in the north and south. Among them will be Ernest M. Hood, president of the National Association of Cotton Manufacturers, comprising the northern mills, and W. D. Anderson, president of the American Cotton Manufacturers' Association, the southern mills.

Labatt's offer to let the mediation board headed by Governor John G. Winant, of New Hampshire, arbitrate the dispute was continued until 6 p.m. today—until after the meeting with the manufacturers.

Under the proposal, which was said to have expired yesterday, both sides would accept the decision of the board and all mills would be closed during the negotiations.

Approximately sixty mills re-opened in the Carolinas yesterday, but the five thousand who returned to work were offset by walk-outs in New England. Independent surveys showed the number on strike gained slightly as a result of the day's events.

Five mills closed in Georgia, bolstering the number on strike by 2,275.

A few cases of violence were reported.

STEVENS RENEWS ATTACKS ON MASS BUYING TACTICS

Claims Deplorable Methods Resulted in Prices Against which Farmer Could Not Compete and Prevented Fair Livelihood for City Worker.

Enterprise, Ont., Sept. 11.—Hon. H. H. Stevens, Dominion Minister of Trade and Commerce, last night renewed his criticism of "mass buying tactics" that resulted in prices against which the farmer could not compete and prevented a fair livelihood for the city worker.

He addressed a meeting here in support of W. R. Aylesworth, Conservative candidate in the Frontenac-Addington federal bye-election, declaring the Government intended to eliminate present conditions that followed in the wake of the chain store.

FOREST FIRES UNDER CONTROL

Kentville, N.S., Sept. 11.—Two serious forest fires in this county were under control today and wearied fire-fighters rested, hoping for heavy rain to remove the imminent danger of other outbreaks in the tinder-dry woods.

THE WEATHER

SCATTERED SHOWERS.

An area of high pressure and quite cool weather covers the Northwest Territories, 30.60 inches near Fort Norman, and pressure is also high on Ontario and Quebec southward to the Gulf of Mexico, while moderate depressions are centered this morning over Saskatchewan—Minnesota, Hudson Bay and to the eastward of Newfoundland. A few light scattered showers have occurred in eastern Quebec and the Maritime Provinces and moderate to heavy showers in some sections of Saskatchewan and Alberta, while in nearly all other parts of the Dominion the weather has been fair. It has become quite cool in Alberta but continues moderately warm from Manitoba eastward to the Atlantic.

Forecast: Fair and warm today and part of Wednesday; probably followed by scattered showers; moderate westerly winds today; shifting to southeast and south on Wednesday.

Northern New England: Generally fair with slight temperature change tonight and Wednesday; gentle variable winds.

Temperatures yesterday: Maximum 74; minimum, 55.

Same day last year: Maximum, 63; minimum, 48.

TROUBLE IN STORE FOR BUTLER, PA., MOTORISTS

Butler, Pa., Sept. 11.—They don't know it, but every motorist in Butler, nearly, is a law-breaker.

An ordinance was passed in 1906, prohibiting motor vehicles of all kinds from the public square, due to many pedestrians being injured after "gasoline" buggies frightened horses and caused runaways.

Although not enforced for years, the law still stands, and it provides fines of \$1 to \$100 for each violator.

INSTITUTE AT NORTH HATLEY HELD MEETING

Interesting Paper Read at Regular Session of North Hatley Women's Institute — Bride-Elect Feted.

North Hatley, September 11.—The regular meeting of the North Hatley Women's Institute was held with Mrs. A. H. Ham. The president, Miss M. Kezar, presided and the usual opening exercises were carried out. The treasurer's report showed a balance of \$71.95 on hand.

A letter was read from the Sherbrooke Hospital cafeteria committee asking for the annual donation. Ten dollars was voted to be sent to this society.

Mrs. F. Sampson gave a very fine report of the August quarterly meeting held recently at Beebe.

Mrs. J. B. Reed and Mrs. J. Robinson kindly volunteered to take charge of the Women's Institute room at the Ayer's Cliff County Fair.

Mrs. C. J. Reed, convener of education and better schools, read a letter from Mrs. Kubring, provincial convener of that department of work, regarding the adult study groups, one of which may be established here during the winter months.

The programme for the afternoon was Canadian Industries with Mrs. Roy W. Bowen and Mrs. A. R. Virgin in charge. This took the form of the discussion and arrangements of plans for a handicraft exhibit which were carried out the following Wednesday at the Community Club and which was a decided success. Much credit is due Mrs. Bowen and Mrs. Virgin for this unusual and attractive display of old and new handicraft.

A rising vote of thanks was given to Mrs. Ham for her interest in Institute work and for the use of her shop for this meeting with "Canadian Industries" as its topic.

Two new members were welcomed and several guests were present.

Light refreshments were served after which the meeting adjourned.

BRIDE-ELECT HONORED A very delightful miscellaneous shower was recently held in the community rooms for Miss Eldora Parker, whose marriage takes place the latter part of September.

About fifty friends of the guest-of-honor were present and many useful and beautiful gifts were presented to her.

After these were opened and admired by all Miss Parker thanked those present in her usual charming manner.

Very dainty refreshments were served by several of the local young ladies. In departing each guest wished Eldora much happiness in her new home.

General Notes. A well patronized and successful rummage sale was held in the town hall. Much credit is due the chairman, Mrs. C. S. Haughton, and others in charge, for the success of this annual event. The proceeds, which were in aid of a most worthy cause, the Village Improvement Society, were very gratifying.

School re-opened with the following staff of teachers: Mr. H. C. Mayhew, Miss E. Butler, Miss M. Robertson, Miss M. Riley and Mrs. E. L. Burns in charge of the various classes.

Mrs. C. Ernest Parker, who has been confined to the house with rheumatism, is much improved.

"NIL SINE NUMINE."

James Potter Knough.
 Some folks say, "there is no God,"
 And they say it with a sneer,
 Well, they've never seen the mountains
 In the Autumn of the year!
 When the aspen leaves are turning
 To the hue of goldenrod,
 'Mid the redd'ning glow of maples!
 Could one say "There is no God?"
 Setting sun o'er lofty summit
 Touched with first of season's snow;
 Clouds like fleecy droves wide-drifting!
 How could mortal help but know?
 When folks say, "There is no God,"
 And can say it without fear,
 They have never seen the mountains
 In the Autumn of the year.

SILENCE CAN SMOTHER, BUT IT IS NOT ALWAYS ADVISABLE.

The courage to be outspoken, the ability to defend, the skill to attack—it is refreshing to see the head of the Robert Simpson Company return to the attack in response to the avalanche of criticism which he invited when first he resented remarks of the Minister of Trade and Commerce, about a year ago.

Silence, and too much of it, has been the weak point of big business men when they become the target of the demagogue and the politician. Masters of business publicity, the successful merchandiser or manufacturer, have been too timid in meeting attacks made in public. This weakness has been evidenced in the case of strikes, where the employers have huddled together in silent conference and permitted the professional agitator to give voice to many prevarications and inventions, the while they arouse hatred, prejudice and revenge among those who pay them salaries to be their leaders.

Charles L. Burton showed that he was even more skilful as a master of retort and of plain English than are the loud-voiced politicians who are smart and superficial, glib and gabby.

As statesmen, most politicians are checker players. Given the same play in publicity the business mind can usually overcome the duplicity or the adroitness of the clever politicians, because their knowledge is deeper, and they understand concentration.

Too often publicity becomes trouble-making. Keen observation teaches us that the better way is often to smother trouble with silence. We venture the belief that were the press of Canada and the United States to ignore the textile strike, it would be all over within a week. Agitators and politicians thrive on publicity, whether it be favourable or adverse.

Let the demagogue choose his weapons, but meet him promptly with ones of better calibre.

DIG DEEP INTO EACH INDIVIDUAL BEGGAR.

The Bureau of Municipal Research, a body organized to interpret to the people the inner meaning of waste and extravagance in town and city government, asks some pointed questions. Here is one of them clearly set forth by an organized body which has been set up since the Record gained some fame through its exposure of waste:

"Is it a wholesome influence on the public life of Canada, that municipalities which are careful in the selection of families and individuals for unemployment relief, and are efficient in controlling the cost of such relief, should be penalized, as they are, by the present system of payment by percentage by Provinces and Dominion Governments?"

The question as presented is slightly involved, clumsily constructed, and should have been more lucidly stated. Continuing:

"Are the careful and economical councils to be penalized by being compelled through both provincial and national taxation to pay the costs of municipalities which, in their administration of relief, have been lax, improvident and inefficient?"

As stated: "The inefficient we have always with us, but why put a premium on inefficiency by subsidizing it?"

Distribution of public relief by public bodies has usually been characterized by inefficiency, by generosity with other people's money, and by careless construing of common honesty.

The thrifless soon consider donations as a vested right, and have even considered going on strike to impress the donors with their importance as partakers of charity. Such sorry exhibitions of ingratitude have been evidenced here in our own city.

Wholesale generosity encourages wholesale graft. Despite a steady improvement in general conditions there is a steady rise in demands, not

just requests, that more money be voted. The partakers would choke the golden goose for dinner, forgetting the eggs for breakfast.

Concerted effort to better conditions should not be met with avarice, laziness and greed. This should not be tolerated.

APPLES, SCARCE AND HIGHER IN PRICE.

After the extremely cold winter of 1933-34 the fruit trees of Quebec have played many pranks and been subject to many vagaries. Blossoms and formed fruit often appear on the same branch or sprig, and whole branches suddenly wilt. The Quebec famous apple trees seem to have suffered more than any other of the better known varieties. In the Chateauguay district, where the famous was brought to perfect form and fruition in the passing years, whole orchards have been destroyed, the owners hopefully and yearningly watching their trees just die and peter out. The frost struck in deep and in the springtime the warm sun split the inner bark, the sap-carrying envelope around the trunk.

With the growing number of pests which orchardists have had to battle with, despite the increased number of inspectors and experts, one is inclined to believe in the inverse ratio whenever government departments stick their noses in. Possibly it is true that paternalism breeds apathy and inertia and has a tendency to slow up that sturdy self-dependence which marked the pioneers.

Apples are going to be scarce and prices high, for not only is there a dearth in quantity, but there is a lack of quality.

So life continues to be just one darn thing after another, whilst we munch and ruminate over our apple pie, and drop into the plain vernacular, evading the Latin and Greek of the horticulturist and botanist.

COULD NOW, BUT WILL BE WISE TO WAIT.

There are three governments which could take the plunge into a general election this year and offer justification for it to their followers:

- The Dominion Government.
- The Quebec Government.
- The New Brunswick Government.

But 1934 is not a fortunate year for administrative appeal. There are too many unsettled problems which must be settled for any master mind to approve an election contest.

It would be the height of folly, just tempting Providence; almost like committing political harikari for any call to a general election. The people are in rebellious mind over the increasing load of taxation, the imposition of new ones, and the lack of promise of any reduction in the heavy load.

The only hope of a return of the Federal administration in the fall of 1935 lies with a settlement of the railway problem. This has been so long deferred that even that hope has grown slim.

Premier Tilley, of New Brunswick, has called a Conservative convention in his province, and from it he may be able to gather both hope and new policies. His strength lies in the weakness of the Opposition, but even that strength may crumble.

Premier Taschereau seems to sit safely in the saddle with all the hurdles easy to vault. Maurice Duplessis is gaining in prestige, but his chief strength must be the ability to be patient and to keep away from Federal politics.

EDITOR'S NOTE BOOK.

In the criminal courts there is a resort to the lash as a crime deterrent. Habitual criminals are usually the product of an upbringing under the spare the rod and spoil the child form of paternalism. Criminals are usually cowards. They fear spanking as youths, and howl when punished. But the main cause of continuous law-breaking lies in the craze for building and conducting prisons which are a mixture of farm and college, with a dash of movies, and a sprinkling of sports and pastimes. Recently in the United States a truckload of prisoners from one jail were injured in a smash-up as they were proceeding along the highway to visit a team in another prison yard. Why should a criminal fear being sent to a gaol where joy is unconfined?

A Council is a body of men who, individually, seem to be normal, but when assembled together, act like a lot of wimps.

PROPOSAL FOR REDUCTION IN EXPENDITURES

Recommendations of National Committee to Chamber of Commerce Urge Radical Policies to Put Country on Sure Footing.

Winnipeg, Sept. 11.—Material reduction in the number of Dominion Cabinet Ministers and reduction of membership in the House of Commons, the Senate and the various provincial legislatures is recommended in the report of the National Committee of Sound Public Finance, presented at the annual meeting of the Canadian Chamber of Commerce today by Sir Henry Drayton, former Minister of Finance, chairman of the committee.

Recommendations of the committee include an impartial inquiry into existing pension systems, proper national and systematized control of relief expenditures and adoption of such radical policies as will eliminate wasteful duplication of railway services. Amendments to the British North America Act are asked for to "allow Canadians in any province to carry on a business with their fellow Canadians in other provinces without let or hindrance from provincial legislation."

Sir Henry recalled that recognizing heavy and duplicated taxation as an obstacle to the complete economic recovery of Canada, the Chamber of Commerce began a Dominion-wide campaign in 1932 which involved a concerted move toward balanced budgets, decreased governmental expenditure and reduced taxation. Sixty business leaders across Canada formed a committee with Sir Henry as chairman. Members of the committee travelled 10,000 miles spreading the doctrine of sound public finance.

Impressed with the length of time such an effort must extend to obtain desired results Sir Henry urged the campaign of education already underway be continued with a gradually increasing treatment of details. "I believe we have made a very substantial progress which justifies our confidence in the ultimate result," the chairman said.

In the matter of economy in governmental expenditures the committee pointed to the announcement of Hon. N. B. Rhodes, Minister of Finance, that the controllable expenditure of the Dominion for 1933 was reduced \$81,000,000 as compared with 1932. For the provincial governments a net decrease of \$73,634,244 was reported. This change was more marked when it was realized a like survey of the preceding year showed a net increase of \$28,822,336.

"The provincial picture, however, has its sombre side," Sir Henry went on. "The inevitable result of further borrowings—the increasing debt called for the payment by provinces of \$5,267,655 additional interest. Loans act as a soporific. The average citizen soon forgets them. But no budget can be balanced on borrowed money. Excessive debts are more dangerous than heavy taxation which everyone feels."

Sir Henry's recommendations carry in all cases a large majority backing of members of the committee and in a number of cases unanimous endorsement. It is suggested there should be continuation of conferences, to be made more regular and definite, between the proper ministers and deputy ministers of the Dominion and the provinces, to the end that all duplication of government activities should cease. The report recommends "judicious if not radical culling of departmental publications, which are estimated at \$77,000,000 a year, at an average cost of \$2,500,000, on practically every phase of human activity."

In regard to railways Sir Henry suggested elimination of service duplication would afford "real assistance to the Canadian ratepayer." While recognizing some economies had already been made it was declared results showed a cost last year to the Dominion taxpayers of over \$58,000,000 or a sum greater than all the cash advanced by the Dominion for relief purposes.

While not overlooking the fact there had developed a system of greater supervision of expenditures by the Dominion department of finance the report recommended stricter budgetary control by permanent government officers along the lines of treasury board control in Great Britain.

In the provincial field the committee recommended realignment of provincial ministries, commissions, boards and bureaux into more business-like administrations with the end in view of reducing overhead cost. Proper control of bond issues was highly desirable and immediate consideration of reorganization of county, township and school district forms of government.

Co-ordination of education activities and the greater nationalization of text-books was considered desirable.

Adoption of a set and uniform style of bookkeeping and public accounting by provincial governments, establishment of properly-balanced budgets and the cessation of the practice of provinces and municipalities of funding expenditures which do not add to capital assets, such as relief, are recommended as very essential.

LIGHTNING SHOCK CURE FOR TOOTHACHE.

Bergamo, Italy, Sept. 11.—Luigi Spampatti believes in electric treatment for toothache, but in his own words, "it has to be real high powered electricity."

He was nursing a sore molar one night, waiting for a wild summer storm to pass so that he could visit the village dentist. Lightning suddenly gave him a shock. "But it cured my toothache," says Spampatti. "I haven't had a twinge since."

NEWSPAPERMAN REFUSES TO DIVULGE SOURCE OF NEWS

Calgary Magistrate Will Decide Whether Journalist Shall Tell where He Obtained Information Concerning Relief Administration.

Calgary, Sept. 11.—Whether a newspaperman should be called upon to give sources of information privately obtained will be one of the first major points to be decided by Magistrate H. G. Scott, president of an investigation into civic relief administration in Calgary.

At today's session of the probe, D. E. C. Campbell, acting city editor at the time the Calgary Albertan made charges against the administration of relief, admitted responsibility for the stories published, but refused to divulge the names of the relief officers who supplied him the information. He refused on the advice of his counsel, R. S. McKay.

Pending further argument the decision was adjourned until tomorrow by Magistrate Scott.

YOUNG CLERGYMAN VICTIM OF SAD HUNTING TRAGEDY

Rev. E. Basken Frootes, of Ste. Therese de Blainville, Que., Was Ordained Last June and Married Only Three Weeks Ago.

St. Henri de Mascouche, Que., Sept. 11.—A promising young clergyman who had been married only three weeks, Rev. E. Basken Frootes, of the United Church of Canada at Ste. Therese de Blainville, Que., near here, is dead today, killed when his gun accidentally discharged while he was hunting partridges.

The youthful clergyman, who was ordained last June after graduating with honors from the United Theological College in Montreal last spring, was only married three weeks ago to Miss Mabel Orr, of this village. He was visiting his wife's parents when the accident occurred yesterday.

Out hunting partridge with his brother-in-law, he started to climb a wire fence to get a closer shot at some birds when he fell to the ground. His gun discharged, several of the pellets became lodged in his brain and he was instantly killed. A verdict of accidental death was returned at the inquest.

ENGLAND NOW RECEIVING INFLUX OF IMMIGRANTS

Figures for Past Twelve Months Show Arrivals in Great Britain Are Greater than Number Leaving.

Montreal, Sept. 11.—Possibility that the wave of emigrants and tourists from Great Britain to other countries of the Empire which prevailed for a dozen years after the end of the Great War is now being followed by a counter-wave in the opposite direction—from the Dominions and colonies into the United Kingdom, is indicated in official statistics of the Board of Trade of Great Britain, which have been received at Montreal Board of Trade here.

The statistics refer to passenger traffic between the United Kingdom and places outside Europe and not within the Mediterranean Sea who arrived in the United Kingdom as passengers from such countries during the first six months of this year. Tourist traffic naturally accounts for a large percentage of the figures, but in past years the incoming and outgoing figures have roughly balanced.

During the six-month period the number of persons entering Britain

exceeded the number leaving by 30,719, while the corresponding "inward balance" during the first half of 1933 was 39,349. For the whole twelve-months' period ended June 30, the inward balance was 20,209—against 42,569 during the period ended June 30, 1933.

Passengers arriving in Britain during the last six-month period exceeded those leaving for Canada or Newfoundland in number by 4,426, while the corresponding inward balance for other parts of the Empire was: Australia, 5,136; New Zealand, 1,304; British South Africa, 4,813; India and Ceylon, 5,872; other British countries, 3,819; while the United States figure was 4,454 and that for other foreign countries 3,008.

FISH POLE BURGLAR MADE QUITE A FAIR CATCH.

Berkeley, Calif., Sept. 11.—Harold Goldstein awoke at 4:20 a.m. to see his trousers sailing out the window. Soon afterward, E. G. Weldon reported a similar phenomenon, and a purse holding \$2.50 went through a transom at Mrs. Clara Chilcote's home. Police said a fish pole burglar was casting his line through open windows and transoms.

CANADIAN NATIONAL RAILWAYS

SAFETY SPEED COMFORT SERVICE

The Excellence of C.N.R. Service Exemplified by Dining Cars and Hotels.

With practically all forms of land transportation, other than railways, the only service rendered is the conveyance of the passenger from one place to another—that is all. Problems of personal convenience and comfort are left to the passenger to solve for himself as best he may. Railways, however, are the outstanding exception.

Not merely is this matter of transportation attended to, but it is done in such a way as to add to it the important considerations of safety, comfort and speed. The ideal striven for is to make the passenger feel—and be—as comfortable and as free from anxiety as he would be in his own home. That, at any rate, is the C.N.R. ideal. How this is being done can perhaps best be illustrated by taking C.N.R. dining cars and hotels as typical examples.

The dining car of a C.N.R. train is highly organized and expertly managed, and it meets adequately and unobtrusively the desires of even the most fastidious traveller. Here are to be had fixed-priced meals of a quality and variety which challenge those served under the most favourable conditions anywhere. In keeping with C.N.R. policy, the dining car service has been improved and modernized, and prices are as low as—and frequently lower than—prevail in city restaurants.

Then the C.N.R. hotels are among the best on the American continent. The Chateau Laurier at Ottawa, The Macdonald at Edmonton, and The Fort Garry at Winnipeg not only lend lustre to the cities in which they are situated, but are known all over the world. They have afforded hospitality to leading statesmen, financiers, and travellers from all corners of the globe, and their praises are proclaimed everywhere by those who appreciate and are able to command the best. One does not, however, require to be exalted in position or in purse to enjoy these and other C.N.R. hotels—their hospitality is available to all, whether it be for a sojourn of long duration or just for a meal.

The standards set by C.N.R. hotels and dining cars are very high. They are instanced here as being typical of C.N.R. service throughout the whole system. The desire is to provide the best at the lowest cost. You can test this for yourself. Travel by C.N.R. and be thoroughly satisfied.

NEW EVIDENCE IS SOUGHT IN MURDER CASE

Provincial Police Officers Returned to South Ham This Morning to Continue Their Investigation as Conrad Audy and Louis Audy Await Preliminary Hearing.

Still working on the theory that landed Conrad Audy and Louis Audy behind the bars, charged with murder, provincial police detectives today continued to press their investigation into the slaying of Saul Gregoire, fifty year old South Ham farmer.

The police are faced with a difficult case. True, they have two men held on charges of murder; but that does not mean that their investigation is complete.

Detective Guyon seemed quite preoccupied reading his morning mail when a Record reporter saw him at his hotel this morning.

"I'm going back to South Ham," he admitted. "I'm leaving within a few minutes. No, there is nothing new."

"What is going on in South Ham?" "There is nothing much going on," the detective said. "We are simply continuing our investigation. There are loose threads to be gathered in."

The reporter asked if other arrests in the case were probable. The detective shook his head. He did not believe other arrests would be made.

In the interim, awaiting their preliminary hearing, set for this coming Friday, although it is very doubtful that proceedings will be inaugurated on that date—Conrad Audy, thirty-two years old, and his father-in-law, Louis Audy, fifty-seven years old, are inmates of the local jail.

The day following their arrest the two Audy were visited by their wives. This week they were interviewed by their attorney.

SUDDEN CRIME WAVE HAS HIT THIS DISTRICT

Murder, Attempted Murder, Bank Robberies, Post Office Burglaries, Criminal Assault and Petty Thefts Have Kept Police Forces Active During Past Several Weeks.

A mysterious slaying in South Ham; an attempted murder at Orford; a brutal attack on a thirteen-year-old girl in Sherbrooke; two attempted bank robberies, one at Lennoxville, the other at Granby; burglaries at the Lennoxville and Cowansville post-offices, dynamite being used in the latter case to blow open the safe; the blasting of a strong-box with nitro-glycerine at Magog; discovery of a mutilated body on the Drummond road, and a chamber of petty thefts have combined to make municipal proceedings as usual required by law.

The motion requesting that permission be granted the accused woman to file only three copies, on the grounds that it is "utterly impossible" for her or for her relatives and friends to supply the necessary funds for the transcription of the case, which covers approximately eight hundred pages, was made to the registrar of the Supreme Court of Canada by Cesare Gervais, her attorney.

In his motion, Mr. Gervais pointed out that the appellant is now appealing from a judgment of the Court of King's Bench, Appeal Side, rendered on June 29th, 1934, dismissing her appeal from the Court of King's Bench verdict in Sherbrooke. The ruling is a majority decision, consisting of Justice Sir Mathias Teller and Hon. Justice St. Jacques both "strongly dissenting," Mr. Gervais remarks.

"The appellant is entirely destitute and... it is utterly impossible also for her relatives and friends to supply the necessary funds to cover the costs of the transcription of the case, which covers approximately eight hundred pages, and file seven copies, as provided by rule 65 of the Rules of the Supreme Court of Canada," the motion continues.

Mr. Gervais added that the appellant was allowed to proceed with three copies of the case, which are now available and which can be filed before the Supreme Court.

With the motion being filed and the necessary signatures of Mrs. Chapdelaine's mother and brother to support her contention.

The motion having been granted, it is expected that Mrs. Chapdelaine's case will be pleaded before the Supreme Court on or about October 20th, being one of the first Province of Quebec cases to be heard.

Beatrice Bernard Chapdelaine, who has been twice convicted of murdering her husband, Ludger Chapdelaine, an East Angus taxi-cab driver, is a present under sentence of death. The date for her execution has been fixed for December 14th.

ACCUSED WOMAN WINS POINT IN FIGHT FOR LIFE

Mrs. Ludger Chapdelaine, Under Sentence of Death for Murder of Her Husband, Granted Motion Made Before Registrar of Supreme Court of Canada.

Beatrice Bernard Chapdelaine's determined bid for liberty—a two-year fight for life which has been waged before two sessions of the Court of King's Bench, two sessions of the Appeal Court, and which is now entering another stage before the Supreme Court of Canada—has exhausted the funds of her relatives and friends; and in order to be able to proceed before the Ottawa tribunal she made application for and was granted permission to plead her case without filing seven copies of the transcript of the proceedings as usually required by law.

The motion requesting that permission be granted the accused woman to file only three copies, on the grounds that it is "utterly impossible" for her or for her relatives and friends to supply the necessary funds for the transcription of the case, which covers approximately eight hundred pages, was made to the registrar of the Supreme Court of Canada by Cesare Gervais, her attorney.

Social and Personal

Mrs. Arthur Brooks, of St. Johnsbury, Vt., is a guest of Mrs. J. M. Jencks, Quebec street.

Mrs. Ellen Sweet and Mr. E. Maguire, of Montreal, are guests for two weeks of Mr. and Mrs. H. Hetherington, Elizabeth street.

Messrs. Roland Mathurin and Armand Dorais have returned from an enjoyable nine-day motor trip to Toronto, Niagara Falls, Buffalo and Cleveland.

Mrs. J. Harry Blue, "Grey Court," Elizabeth street, entertained at luncheon yesterday for Mrs. M. A. Baldwin, of Andover, Mass., who has spent the summer in Sherbrooke.

Mrs. A. M. Baldwin, who has been visiting her son, Mr. F. A. Baldwin, and family, Dominion avenue, for some time, left this morning en route for her home in Andover, Mass.

Mr. and Mrs. Gordon Miller and their son, Master Stewart, who have been holidaying at Ile Cadieux and were guests for a week of Mr. and Mrs. Alfred Wood at their attractive summer residence at Woodlands, returned to Sherbrooke yesterday.

The home of Mrs. William Trussler, Laurier avenue, was the scene of a very pretty trossouette tea, given by Mrs. E. T. Jones and Mrs. W. W. Howlett, in honor of Miss Daisy Trussler, a young bride-to-be who is being lavishly entertained by her friends.

Extending best wishes to the bride-elect, the numerous guests took pleasure in viewing her trossouette and the wedding gifts already received. Tea was poured by Mrs. F. E. Holtham, the tea table being daintily arranged with yellow and white and yellow candles in silver candlesticks. Assisting at the tea were the Misses Florence McGinty, Vivian Jones and Irene Atkins.

MARRIAGES
OSBORNE—CAMPBELL
Magog, September 11.—The marriage took place quietly on Monday, September 3, at the Bishop Carmichael Memorial Church, Montreal, of Miss Margaret Tait Campbell, of Magog, to Mr. John Osborne, also of Magog. The Rev. A. T. Love performed the ceremony.

The bride, who was unattended, was gowned in navy rough crepe with hat and shoes to match. Mr. and Mrs. Osborne will reside in Magog.

WATTS—MARSH
The marriage of Myrtle Beataix, second daughter of Mr. and Mrs. Connie Marsh, of Foster, to William Andrew, only son of Mr. and Mrs. Thomas Watts, of Inverness, took place at the parsonage of Plymouth United Church, Sherbrooke, on August 4, Rev. Dr. G. E. Read officiating.

The bride was becomingly gowned in her travelling dress, a powder blue crepe swaggar suit, with grey accessories, and carried a bouquet of sweet peas. She was attended by her sister, Mrs. Ray Duboyce, while the groom was attended by Mr. Ray Duboyce.

After a short honeymoon spent at Three Rivers and Quebec City, they returned to Foster, where a reception was tendered them in Foster Hall.

The wedding gifts included china, linen, glass, cheques and silverware.

Mr. and Mrs. Watts will make their future home in Sherbrooke.

NICHOLSON—MACLEOD
Scotstown, September 11.—The home of Mr. and Mrs. Gordon MacLeod was the scene of a quiet but very pretty wedding on Saturday evening, September 1st, when their daughter, Christie Rachel, was united in marriage to Mr. Angus Nicholson, son of Mr. and Mrs. Malcom Nicholson, of Scotstown.

Standing at an arch, tastefully made of greenery and flowers, the ceremony was performed by Rev. George Murray, pastor of St. Paul's Presbyterian Church. The couple were attended by Miss Jessie MacLeod, sister of the bride and Mr. Norman Nicholson brother of the groom.

The bride was becomingly dressed in an ensemble in blue and carried a bouquet of beautiful flowers, a gift of friends.

Miss Jean MacKenzie played the Wedding March as the couple entered the room. The ceremony was performed by Rev. George Murray, pastor of St. Paul's Presbyterian Church. The couple were attended by Miss Jessie MacLeod, sister of the bride and Mr. Norman Nicholson brother of the groom.

UNIQUE EVENT OBSERVED BY LOCAL COUPLE

Mr. and Mrs. Wright B. LeBaron Remembered by Host of Relatives and Friends on Occasion of Golden Wedding Anniversary—Harmony Band Made Touching Presentation.

Fifty years ago Wright B. LeBaron led his bride to the altar. A few years later Mr. LeBaron joined the Sherbrooke Harmony Band.

Yesterday Mr. and Mrs. LeBaron celebrated their golden wedding anniversary and the local musical society remembered its veteran member by turning out in full force to serenade this worthy and highly-respected couple at the home of their daughter, Mrs. K. B. Jenckes.

In full dress, the Harmony Band paraded from the City Hall, where Mr. LeBaron is a valued employee, to the Jenckes home on Victoria street. Standing in the road in front of the home, the band presented its musical salute while Mr. and Mrs. LeBaron stood in a picturesque setting and received the congratulations of their host of friends.

On behalf of the musicians, J. D. Blanchard, one of the founders of the Harmony Band, presented Mr. LeBaron with a slight token of the esteem in which he is held by his conferees. Almost overcome by an emotion he was unable to master, the "youthful" groom expressed his thanks and his wife's appreciation for the thoughtful demonstration.

Mrs. LeBaron was also remembered, Miss Therese Sylvestre, five-year-old daughter of Bandmaster Geo. Sylvestre, presenting her with a beautiful bouquet of roses. Before the brief ceremony was terminated the band played the Wedding March and other appropriate selections.

Hosts of relatives and friends visited the Jenckes home yesterday afternoon and evening to personally extend their congratulations and best wishes to Mr. and Mrs. LeBaron. Mrs. LeBaron, who was assisted in receiving by her daughter, was becomingly gowned in dark blue velvet, with a corsage of red roses and lily of the valley. Tea was served in the dining room. Mrs. Jenckes and Mrs. W. H. Abbott presiding over the well-appointed table, which was artistically arranged with golden helenium and matching candles.

The more formal reception last evening was featured by the band's gesture of good fellowship, while to

make complete the happy day Mr. and Mrs. Jenckes entertained at a dinner party at the Sherbrooke Country Club, where covers were laid for seventeen. In addition to the guests of honor, the host and hostess and their family, the guests included Mr. and Mrs. Karl Beaton, of Three Rivers, Mrs. C. L. Cate and three children, of North Hatley, and Miss Mary Poole, of California.

WHERE BANDITS MADE \$427,950 HAUL

In this busy Brooklyn, N.Y., street, bandits directed by a new "master mind" made the greatest cash haul in the history of United States robbery, escaping with \$427,950 in the holdup of the armored car indicated by "B" in this picture. As the money car was driven to the front of an ice company office to pick up the day's receipts, a machine gun suddenly was turned on it from the innocent-looking pushcart marked "A" as the "peddler" went into action. From autos which roared up simultaneously, six or more bandits leaped out, guns trained on guards and driver. With machine-like precision they shifted the cash to their cars and sped away, leaving the police little to trace them.

LOCAL PLAYERS EVENED SERIES WITH VICTORY

Third Game Necessary in Klein Cup Softball Play-Offs Following Boisvert Squad's Twelve to Seven Triumph Over Lennoxville Last Night.

The Boisvert and Lennoxville entries in the Sherbrooke Softball League last night took the committee room to settle their Klein Cup differences on the playing field. The situation which resulted from the first fixture of this series threatened to interrupt this competition, but oil was poured on the troubled waters and a satisfactory agreement reached.

Lennoxville needed to win last night's contest to gain possession of the Klein Cup. The East Sherbrooke boys, however, had other ideas and their arguments, backed by a strong thirteen-hit assault, prevailed.

Both teams played without the services of the two star pitchers, Bill Elkin and Art Crompton, who had occupied prominent roles in their respective team's successful march through the regular schedule.

The absence of several regulars caused a general shake-up in the Lennoxville line-up. Del. Brundage, regular key sack guard, was missing, while Ken Crawford, an outfielder, was also among those in absentia.

Lennoxville's downfall could be directly traced to the initial frame when an error of judgment started the home team on a four-run rally to establish an early margin.

Douglas issued four free tickets to the first in the Lennoxville half of the opening chapter to give the visitors two unearned runs. With the bases peopled, however, Douglas tightened up to record his lone strike-out of the game, while a foul fly was captured by Dunc. McLeod to end the canto.

An error, Birons double and a single by McLeod combined for two Boisvert runs in the second inning, while Dion's home run, a double by Dufour and Birons' single accounted for the fourth-inning quota of four markers.

Had the score been closer Lennoxville would have captured the game with a rally such as they staged in their last appearance at the plate. The frame started harmlessly enough when Russ Johnston was caught at the plate and Reggie Reid was forced at third base.

The Boisvert attack with a double and two singles, while Roger Dufour and Guss had two singles each to their credit. Every member of the Boisvert squad with but one exception reaped at least one safety. Johnston bagged two singles to take Lennoxville's seven-hit attack, while only three of the Harrismen were held hitless.

SOUTH AFRICAN STAR DEFEATED FRANK SHIELDS

Vernon Kirby, Ranked Number Three in South Africa, Staged Biggest Upset of Current United States Singles Tennis Play by Trouncing American Ace Yesterday.

Forest Hills, N.Y., Sept. 11.—The formalities of getting to a point where the tournament committee of the United States Lawn Tennis Association can give Fred Perry the United States singles tennis championship trophy again continue today at the Westside Lawn Tennis Club.

On the other side of the bracket line were the Americans who were favorably known by Perry. One of them, Sidney B. Wood, recently returned from a disastrous experience at the Englishman's hands in the Davis Cup challenge round at Wimbledon.

Kirby yesterday pulled the biggest upset of the current tournament which was witnessed the unexpected victory of young Frankie Parker over the veteran Czechoslovakian, Roderich Menzel, and the unforeseen elimination of George Lott by a comparative unknown, Edward Feibleman.

Perry joined Kirby in the semifinals in swift fashion, tearing through Cliff. Sutter, of New Orleans, United States ranked number four, by 6-3, 6-0, 6-2, after which he trotted off the courts and reclaimed the press box "I can't play better than that, can I?"

Wood rallied from a poor start to beat Parker, eighteen year old student player, in a match played in alternate rain and sunshine.

Although Shields was the popular favorite with the crowd of 8,000 which watched his match with Kirby, the South African was heartily applauded for his fine court generalship.

HOME RUN STANDING
Home runs were recorded yesterday by Greenber, Tigers, two; Ott, Critz and Mancuso, Giants, Bolton, Senators, Winegarner, Indians, and Simmons, White Sox, one each.

Table with columns for player names and statistics (AB, R, H, PO, A, E). Includes names like H. Harris, P. Povey, D. Brundage, etc.

The score by innings was: Boisvert 4, 2, 0, 0, 0—12; Lennoxville 1, 0, 0, 0, 0—1. The summary: Two-base hits, Birons 4; McLeod, three-base hit, Birons; home run, Dion; double play, Reid to Pargau; left on bases, Boisvert 10; Lennoxville 8; bases on half, off Douglas 6, off S. McLeod 3; struck out, by S. McLeod 3, by Douglas 1; Umpires G. Mathieu and M. Parsons.

NEW YORK'S LEAD WHITTLED DOWN TO FOUR GAMES

Pittsburgh Handed World Champions Second Straight Defeat as St. Louis Turned Back Phillies—Detroit Added Half Game to Margin Over Yankees.

Their National League lead melting rapidly before the threat of the western clubs, the New York Giants sought to apply the brakes and avert a dangerous skid today.

The situation was not yet precarious but the world champions were doing no cheering over the fact the July seven-game lead they enjoyed over the St. Louis Cardinals four days ago had shrunk to four games. Not when they are confronted by a four-game series with the Cards in general and the Dean brothers in particular starting on Thursday.

It was the first time out, too, for Phil Farley, of Toronto, Jack Nash, of London, Ont., Tony Lorraine, the British Walker Cup team winner, and Jesse Swetter, who won the crown twelve years ago, along with the same country club course.

These highly favored performers launched the thirty-eight annual Scotty Campbell's second annual tournament into its second year with interest centered in the exploits of Robert Carpenter "Bobby" Jones, eighteen year old Detroit conqueror of Francis Ouimet, as well as in the initial showing of Dunlap and Little.

Somerville himself was hard-pitched yesterday by down Eddie Kirovack, former state champion of Massachusetts, by two and one.

FOUR LEADING PITCHERS OPEN PLAY-OFFS
New York, Sept. 11.—The International League today set about the task of finding an opponent for the American Association champion in the "Little World Series" with Newark, Rochester, Toronto and Albany meeting in the first games of the play-off series.

PETERSEN RETAINED BRITISH EMPIRE BOXING TITLE
London, Sept. 11.—Britain's newest heavyweight sensation, Jack Petersen, of Wales, who is at least good enough to arouse the promotional blood in Jack Dempsey, had no more important jobs to complete on these Isles today.

THIRD LIPTON CHALLENGER AN UNLUCKY OMEN
Shamrock III, Racing for America's Cup in 1933, Met with Grief Within Few Days of Being Launched.

New York, Sept. 11.—Shamrock III, Sir Thomas Lipton's third straight unsuccessful challenger for the America's Cup, had two strikes on her when she sailed against the new American defender, Reliance, in the series of 1903 and Reliance put over the deciding strike in three successive races.

Table with columns for player names and statistics (W, L, P.C.). Includes names like New York, St. Louis, Chicago, Boston, Pittsburgh, Brooklyn, Philadelphia, Cincinnati.

YESTERDAY'S STARS
Outstanding figures in yesterday's major league games were: Arky Vaughan and Pie Traynor, Pirates; Former's single and latter's long fly drove in the tying and winning runs against the Giants in ninth inning.

FOUR CANADIAN GOLFERS GAIN SECOND ROUND

Ross Somerville and Jack Cameron Victorious in First-Round Matches of United States Amateur Title Play, and Jack Nash and Phil Farley Drew "Byes".

Brookline, Mass., Sept. 11.—The heavy artillery wheeled into action today against the first round shock troops in the all-match play of the United States amateur golf championship.

It was the first time out, too, for Phil Farley, of Toronto, Jack Nash, of London, Ont., Tony Lorraine, the British Walker Cup team winner, and Jesse Swetter, who won the crown twelve years ago, along with the same country club course.

VETERAN COACH PLANS AMATEUR HOCKEY SCHOOL

Planning for Future, Lester Patrick, Silver-Haired Sage of Hockey, Will Personally Supervise "Training School" at Winnipeg Next Month.

New York, Sept. 11.—Winnipeg, hub of Western Canada hockey activities, will be the scene this autumn of one of the most striking pre-season training innovations in the history of the major leagues.

Lester Patrick, slim, debonair and as enthusiastic about the ice sport and its progress as he ever was, has announced plans to corral the seventeen young stars he and his scouts have spotted and take them to Winnipeg for about ten days of intensive training prior to the appearance of the New York Rangers regulars. The latter are due at Winnipeg on or about October 20.

Patrick hopes at least two or three of his all-star amateur cast will make the grade and qualify for lifetime berths. With the teaching they receive, the others will go back to their amateur berths, Lester believes, far advanced in hockey lore. Some may be retained for service on the Ranger farm club which Patrick himself will be roving this season. Negotiations to that effect are now under way.
