REDUCTION IN NUMBER OF CABINET MINISTERS IS BEING CONSIDERED

Premier Bennett Informed House Last Night that He Was Giving Serious Consideration to Consolidating Certain Departments—Public Works Estimates Will Be Taken Up Today—Another Loan for Railways Predicted Unless Business Picks Up.

OTTAWA, Ont., April 24.—Government business will again occupy the House of Commons today, the Prime Minister having announced that the estimates would be taken into consideration. Those on public works are first, this policy being usually carried out in order to ensure that, with the necessary appropriations voted operations on public construction might be proceeded with as early as possible. The public works votes are smaller this year than formerly, which may delay their passing.

Whether the Dominion will come time in future conduct business with fewer Cabinet Ministers is a matter receiving the Prime Minister's attention. Last night he informed the Commons that he was giving serious consideration to consolidating certain departments. At the same time, however, he spoke of establishing a Department of Communication, which would supervise the air services, radio, railways, canals, post office and other mediums.

A bill designed to increase the personnel of the Canadian National Railways directorate so that Alberta and Saskatchewan might have representation thereon became the occasion of a debate which traversed the whole field of Canadian National Railway affairs yesterday. The two Prairie Provinces have hitherto been unrepresented on the board. The whys and wherefores of the increase, the duties of the directors, the extent of their powers as such, the knotty problem of freight rates, railway financing, and the recent reduction in railway services throughout the Dominion were discussed, elaborated, analysed and duly enshrined in the official records of the House.

Hon. R. J. Manion, Minister of Railways, who was piloting the bill, made it clear that the Government had no control over the management of the National Road. The representations made in the course of the debate would, however, be forwarded to Sir Henry Thornton for whatever action the railway president might deem advisable under the circumstances.

One statement of the Minister was taken as foreshadowing another in different year for the railways. At the present rate, the National System would lose another \$46,000,000 gross revenues—the figure it dropped last year from that of 1929—unless business picked up. Facing this possibility, the present was not the time to ask for a reduction in freight rates which were already lower than those prevailing in the United States. Besides, the matter of rates lay primarily between the railways themselves and the Board of Railway Commissioners.

Second reading was given to a measure designed to eliminate inconsistencies connected with naturalization. As a case in point, if a Canadian woman marries a United States citizen, she ceases to be a Canadian subject (under the present Canadian law), but she does not become a United States national (under the United States law). Consequently she is without a country. The present measure contemplates adjusting this condition so that a woman in the foregoing circumstances would not lose her Canadian citizenship until she automatically became a citizen of the United States, in accordance with the laws promulgated by that country.

A number of questions were asked and answered, of which the most interesting was that Parliament will this session have an opportunity of discussing due to the special session last September. Due to the necessity of getting the Prime Minister away to the Imperial Conference, the debate on these was greatly curtailed.

It was also stated that the mechanization of the Canadian artillery (permanent force) has cost the country \$158,146.

S. W. Jacobs, (Liberal, Carleton Place), got first reading of a bill which would do away with the necessity of re-electing members of the Commons on their appointment to Cabinet rank.

OTTAWA, April 24.—Declaring that he was "greatly perturbed about a situation in respect to the Montreal Harbor Commission which I inherited with which I must deal," Premier R. B. Bennett, in reply to a question by Hon. P. J. A. Carlin, former Minister of Marine, announced that all further work on the Montreal harbor had been halted.

Mr. Carlin put his question as follows: "Is it the intention of the (Continued on Page 11.)"

CIVIL SERVICE SALARIES LEAD TO QUESTIONS

Former Secretary of State Also Makes Request for Information on War Claims.

OTTAWA, April 24.—A series of questions in respect to war claims to be dealt with by the commissioner has been placed on the order paper of the House of Commons by Hon. Fernand Rinfret, (Lib.-St. James), and former Secretary of State. Mr. Rinfret enquires as to the number of claims which remain to be heard by the war claims' commissioner. He also wishes to know the total amount of claims still to be examined; and the date when Commissioner Errol McDougall is expected to present his final report.

"Will the Government ask for authorization to pay at once the sums in this final report?" queries Mr. Rinfret.

Mr. Rinfret has also a number of questions in respect to the Beatty commission appointed to investigate the activities of Civil Service employees. Mr. Rinfret wishes to know if the commission is still in operation, and if so when and where its last sitting was held.

If the commission is not in operation, he asks on what authority it was discontinued. He also inquires as to whether steamships of Canada are a report of the decisions of the commission will be made.

"Does the Government expect to be able to make a full test case of the grain loading facilities at Churchill?" asks W. G. Weir, (Lib.-McDonald). If so, Mr. Weir wishes to know when the test will be made.

Mr. Rinfret also wishes to know when the test will be made. Mr. Rinfret also wishes to know when the test will be made.

NEGOTIATING WHEAT SALES TO BRITISH CO-OPERATIVE

Premier Anderson Hints at Possible Purchase of Thirty Million Bushels at a Dollar Per Bushel.

SASKATOON, SASK., April 24.—Announcement that the annual sale of 30,000,000 bushels of grain to the British Co-operative Wholesale Society, at \$1 per bushel, is being negotiated was made last night by Premier J. T. M. Anderson, of Saskatchewan, in a speech at the Sons of England celebration.

The Premier said that the arrangement with the British Society regarding the purchase of Canadian wheat would probably include consideration of any advance in the price of wheat.

ASTOUND COURT WITH AMAZING REVELATIONS

Names of Dead Men Affixed to Papers of Naturalization—Court of Inquiry into Alleged Racket.

MONTREAL, April 24.—Names of men who apparently signed certificates after they had been dead for years, were born twenty or so years before their parents' marriage, or somehow managed to exist without the knowledge of their fathers and mothers, were cited before a flabbergasted court yesterday at the continued hearing of the commission appointed by the Federal Government to inquire into a supposed racket in naturalization papers.

In one case, a certain individual stated in his application for renewal of naturalization papers that he was the son of a witness in the court room who bore the same name. The witness denied he ever had a son, and when questioned the "son" said he did not know a thing. He had come from Russia, applied for papers, and secured them through an agent.

From further questions and answers, it appeared that the agent had improved on the man's genealogical tree in the same way as does other true sleight-of-hand researchers have been known to do for the nouveau riche. That is, he had endowed him with a brand new, highly desirable father and mother, without, however, mentioning the matter to the new parents.

In another instance, an applicant stood foursquare on the authenticity of the signature on a form that enabled him to become a subject of His Majesty. Although the applicant declared that the form was signed last June, the counsel had records to show that the man whose name was attached to the form had died in 1921.

Whether in French or English, it was revealed that the letters of recommendation bore a remarkable family resemblance as though dictated from one brain rather than conceived by different local business men. The moral to draw was that someone was running a racket in citizenship papers.

DISMISSAL OF INSPECTOR TO BE QUESTIONED

Former Minister of National Defence Takes Keen Interest in Dismissal of Harry H. Marshall as Inspector of Fisheries in Nova Scotia.

OTTAWA, Ont., April 24.—The Government was asked to furnish the House of Commons with information relating to the filling of the position of inspector of fisheries for western Nova Scotia.

Col. J. L. Ralston, former Minister of National Defence, and Liberal member for Shelburne-Yarmouth has given notice on the order paper of the House of Commons of a motion calling for all records of investigation, letters, correspondence, etc., relating to the retirement from office or dismissal of Harry H. Marshall from the position of Inspector of Fisheries, western division of Nova Scotia.

In addition to this information, Col. Ralston will ask for correspondence received or despatched by the Minister of Fisheries, and any other member of the Government, or any official of the Government, or the Civil Service Commission, since August 8th, 1930, respecting the qualifications of applicants "or in any way relating to the filling of" the above position.

SIX FISHERMEN DROWNED BELGRADE, Jugoslavia, April 24.—Six fishermen were drowned today when their bark sank in the vicinity of the Isle of Sag. Four members of the crew were saved by a second bark.

A severe tempest has been raging on the Jugo-Slavian coast for the last twelve hours.

PROMINENT REPUBLICANS OPPOSE PRESENT POLICY OF HIGH TARIFF

U. S. Democratic Commentators Making Most of Slight Dissatisfaction Evident in Opposition Camp—Observers Wonder if a Split Is Likely in Republican Ranks.

WASHINGTON, D. C., April 24.—A slight disaffection based upon dissatisfaction with the policy of ultra-high protection, has been discovered in the Republican Party and Democratic commentators are making the most of it. The disorder has manifested itself in public utterances of General W. W. Atterbury, head of the Pennsylvania Railroad and formerly Republican national committeeman from Pennsylvania, and Bertrand H. Snell, of New York, Chairman of the House Rules Committee.

General Atterbury addressing the bankers of Philadelphia, denounced "the high tariff walls which nearly all nations are building against each other, tending to separate different nations into hermetically-sealed compartments."

Chairman Snell said "the tariff limit has been reached." Observers are wondering whether these statements by two of the leading party stalwarts meeting the appearance of a split in the Republican ranks, whether they mean a shift in the policies of the party with the possible result of tariff revision downward.

In the meantime, the Republican organization is not doing much about it. It has been decided to send Senator Dickinson to Des Moines, Iowa, to set up a headquarters for the purpose of proving to the middle-westerners that the grand old party, was, is, and will be all right. The National Committee has agreed upon a programme including: Discussion of world economic conditions, a defense of the tariff and a vindication of the Farm Board.

This move is interpreted as meaning the Republicans feel a weakness in the middle west, a section of the country which they must have in order to return Mr. Herbert Hoover to the White House in 1932.

The speeches of Snell and Atterbury added to the announcement for rallying middle western support are giving "aid and comfort" to the Democrats as they look toward next year's elections.

FUNDS FOR THE ST. LAWRENCE ARE ASSURED

Need for Providing Deep Water Way to Sea Recognized by Minister of Marine—Future of Canada Depends on Maritime Trade.

MONTREAL, Que., April 24.—Shipping interests here were assured yesterday by Hon. Alfred Durand, K.C., that reasonable amounts of money will be available for improving the St. Lawrence River. The Minister of Marine addressed a large and representative gathering aboard the Canadian Pacific liner Duchess of Richmond, the first official "canal" of the Atlantic line to enter the port of Montreal this season.

Speaking of the St. Lawrence, the Minister pointed out that it was one of Canada's greatest assets. "And I can assure you," he said, "that we shall do our utmost to give it the depth and width it needs. Last year the programme of dredging the St. Lawrence to thirty-five feet was carried on, and a large part has now that that depth. In two years we hope that that entire channel from Father Point to Montreal will be thirty-five feet deep. At the same time, that depth alone is not sufficient, and will do something to widen the curves as well as the channel itself."

"It is the duty of the Department of Marine to see that the St. Lawrence, for certain appropriations are made annually. I can assure you that reasonable amounts of money will be available for improving the St. Lawrence." The Minister concluded with the remark that he hoped to see even larger vessels sailing up to the metropolis of Canada in a few years' time; even the Empress of Britain herself.

The Hon. Mr. Durand explained that the future of Canada depended on its maritime trade. As evidence of this, he mentioned the allusion to the 363-ton steamer Royal William, which arrived here one hundred years ago with a cargo consisting of pork, stuffed birds, household furniture, a harp and seven passengers. This vessel, he said, might be compared with the 20,000-ton Duchess aboard which he was then speaking. It was necessary to look ahead and plan for the future, and for generations a hundred years hence. "Our aim is to make the St. Lawrence a waterway as possible," the Minister continued. "Our means may be small in these times of depression, but we shall see that every facility within these means is given."

IRISH REPUBLICANS SEEK COMFORT FROM SPANIARDS

Possibility of Establishing Independent Irish Republic Advanced by Events in Spain, Official Says.

DUBLIN, Irish Free State, April 24.—Declaring that the recent events in Spain had "special significance" for Irish Republicans, Sean O'Kelly, president of the Sinn Féin, told a conference of the party representatives yesterday that the time had come for Republicans "to assert themselves publicly and declare allegiance" to a republic in Ireland.

"The Spanish people, through an election, declared for a republic," he said, "and the republic was recognized by the British Commonwealth of Nations, but in 1919, when the Irish Republic was established by an overwhelming majority of the Irish people, England sent Black and Tans to stifle the will of the people in blood."

FIVE KILLED WHEN AUTO WRECKED FREIGHT TRAIN

Death Toll in Level Crossing Accidents in Chicago Area Raised to Ten in Twenty-Four Hours.

CHICAGO, ILL., April 24.—Five men were killed early today at Antioch, Ill., when their automobile struck a freight train with such force that five cars were derailed. The dead are Herriek O. Harrington, aged twenty-one, a graduate of Marquette University; Daniel Wigham, twenty-four; George H. Eaton, twenty-four; Gustafson, twenty-two; and Edgar Lindroth, twenty-one, a bank clerk. Eaton is a stepson of the Lak County coroner.

The deaths brought to ten the number killed in automobile crossing accidents in the Chicago area within twenty-four hours.

A FINAL ANSWER FOR ALFONSO IN JUNE ELECTION

Spain Will Definitely Decide Whether It Wants Monarchy or Republic at the Polls on June 21.

MADRID, April 24.—The Provisional Republican government of Spain laid its plans today for national parliamentary elections on June 21st the resulting assembly to be the first cortes Spain will have known in eight years.

Since the issue will be clear cut "republican, or monarchy," the elections will give the dethroned Alfonso the answer which when he left Madrid he said he would await in exile, whether his people wish him to return to power or not.

The assembly to be elected will be a "constituent cortes" or constitutional convention, and will have the power to rewrite the Spanish constitution, determining in their work the exact form the new government will take.

Two factors will work strongly for a republican victory at least equal to that in the municipal elections held on April 12th. These are, that the elections will be held before serious reaction can have set in, and that many monarchists have left the country.

While united in their belief that Spain should be a republic, all the sevoing against the monarchy are by no means of one opinion on matters of policy, constitutional forms and other questions. Important differences which might undo much which has been accomplished toward transforming the monarchy to a republic could develop easily once the new cortes meets.

Word was received here today from Tokyo that the Japanese Government has recognized the new republic.

The Government was notified today that Turkey and Paraguay had recognized the new regime.

The Government announced that it was satisfied with progress in its campaign to prevent exportation of Spanish capital. During Thursday alone it received 133 telegrams from various banks in the provinces expressing complete co-operation with its moves in this direction.

WEEDS CONTAIN VERY VALUABLE SUGAR ELEMENT

Three Newly Discovered Sugars Valued at \$50,000 a Pound Discovered in Dandelions and Goldenrod — Is Many Times Sweeter Than Ordinary Table Sweetening.

WASHINGTON, April 24.—Weeds like dandelions and goldenrod contain three newly-discovered sugars valued by Government chemists at \$50,000 a pound.

The Bureau of Standards, in announcing this discovery, said the sugars were not previously known to science. They were found by Dr. R. F. Jackson, of the Bureau, and his assistant, Miss Emma McDonald, while studying the amount of levulose and fruit sugar that can be obtained from inulin.

Inulin is a white, starch-like substance found in the roots of goldenrod, dandelions, Jerusalem artichokes, dahlias and chicory. Dr. Jackson found that inulin is ninety-two per cent levulose, a sugar many times sweeter than ordinary cane or table sugar, three per cent glucose, like corn sugar, and the remaining five per cent is made up of the new triplets of the sugar family.

FIRE AT MONTREAL TODAY CAUSED HALF A MILLION DOLLARS DAMAGE

Plant of Western Flour Mills Company Destroyed in Most Dangerous Conflagration in Metropolis in Past Five Years—Six Firemen Were Injured Fighting Blaze—Fire Is Under Control, But Will Not Be Entirely Extinguished Until Late This Afternoon.

MONTREAL, April 24.—Fire that started about four o'clock this morning swept through the huge plant of the Western Flour Mills Company in the north end, causing damage estimated at \$500,000 and sending six firemen to hospital, some of them seriously injured. At ten o'clock this morning the danger of the flames spreading to nearby buildings had passed, but Fire Chief Gauthier declared it had been the most dangerous conflagration in five years.

The three storey structure covers an entire city block and will be a total loss. Tons of flour stored on the second and third floors, crashed through the weakened floors and created dense clouds of smoke throughout the blaze, making gas masks necessary equipment for the fire-fighters.

Starting in an elevator shaft the flames spread so quickly that three alarms were sounded in quick succession bringing two hundred men from seventeen fire stations. The victims were mainly those caught in falling walls and collapsing floors. Firemen Cadeau and Ouellette were overcome by smoke and also suffered glass cuts. Ouellette was taken unconscious to a nearby hospital.

A falling wall of the doomed flour mill caught four firemen who were rescued only after they had suffered serious injuries. Lieut. Filion was extricated from the wreckage with two broken legs while Firemen Beauchamp, Nadeau and Paquette had suffered painful bruises, burns and lacerations, the seriousness of which could not be ascertained at once. All were rushed to hospital.

It was expected that the blaze would not be entirely extinguished until late this afternoon, although completely under control. Three walls had fallen in at ten o'clock and the front wall was tottering. Two years ago the plant was practically destroyed by fire but was immediately rebuilt.

First aid to Loveliness

HANDS that are busy all day with dishpans and typewriters and golf clubs can be kept lovely as any lady's by using Vaseline. Vaseline Petroleum Jelly and wearing old cotton or silk gloves overnight. Even one such treatment shows results.

Eyes, like mirrors, are strictly useful always, but only ornamental when beautifully framed. A little "Vaseline" Jelly applied to the eyelashes every night encourages growth. A little applied to eyebrows with a small brush will keep them shapely and smooth. Do try it.

Skin! What crimes we commit against it every day! Exposing it alternately to heat and cold, to dryness and to water. Let "Vaseline" Jelly help keep it fine and smooth. Apply it liberally to soothe all irritations such as windburn, chapping, sunburn, minor cuts, scratches, etc. Helps prevent scabs or scallins. This is such a simple way to give your beauty first aid, and so safe, too, that you should always have a supply of "Vaseline" Jelly handy. Get a jar today.

And remember when you buy, that the trade-mark "Vaseline" on the label is your assurance that you are getting the genuine product of the Chesbrough Manufacturing Co., Canada, 5520 Chabot Ave., Montreal, Canada.

for PIMPLES

Add an equal amount of cream, or sweet oil, to the Vaseline, and apply the mixture once daily. A simple treatment which will clear up your skin!

Beautiful Complexion Without Rouge

Do you want a beautiful complexion? Without the use of rouge? And color that is all your own? Then give your system just a tiny calcium wafer. Don't take that customary pill on Saturday night—let a Stuart calcium wafer do its magic work for you!

Stuart's calcium wafers clear away impurities that keep the skin sallow and dull. They help to keep pores purged and the cuticle clean. You will feel and see the difference from the very first day you take a tiny, sugar-coated Stuart calcium wafer!

Don't take anything you have to cut out time—take something you can eat in two each time.

Make This Test

A few days' use will prove to you very conclusively the system's need for Stuart's calcium wafers, and the decided benefit from the use of these little wafers. Your druggist has them.

NORTH HATLEY HOME DAMAGED BY BAD FIRE

Property of Mr. Grant LeBaron Threatened by Severe Blaze—Social Notes from North Hatley.

NORTH HATLEY, Que., April 24.—The home of Mr. and Mrs. Grant LeBaron was damaged by fire on Tuesday. The flames originated from sparks of a brush fire burning nearby. The blaze started in a shed adjoining the house.

Summons for help by Mr. Chas. Best were immediately answered by many men in the village. With pails and fire extinguishers and through the untiring efforts of the men, the main part of the building was saved. All the household articles and furniture were removed for fear the buildings would be razed to the ground.

The damage is partly covered by insurance.

General Notes.

On Friday evening several from here enjoyed an outing at Mr. D. C. Bell's camp, at Little Lake. After motoring to the camp, the guests did justice to the appetizing menu provided. Prizes were later played at four tables. After the distribution of prizes the guests departed, uniting in voicing the sentiment "For He's A Jolly Good Fellow." The hostesses were Mrs. C. N. Howse, Mrs. Mary LeBaron, Mrs. A. J. Conner and Mrs. H. D. Turcotte.

The Triumph of Right

Let patience all your way attend,
That right may triumph in the end.
—Mrs. Yellow Wing.

Mrs. Yellow Wing the Flicker sat in the doorway of her house in a telegraph pole in front of Farmer Brown's and sent forth a long, ringing, triumphant call. Yellow Wing, picking up ants in the Old Orchard, heard it and lifted his head quickly. Again came that ringing call.

"I thought I wasn't mistaken," muttered he as he took to his wings and headed for that telegraph pole. Mrs. Yellow Wing is over at our new house where we were robbed of by those hateful Starlings. I do believe she has got it back." The very thought set his wings to beating faster.

When Yellow Wing came in sight of that pole he saw at once that Mrs. Yellow Wing was in the doorway, while Speckles and Mrs. Speckles were dashing at her and vainly trying to get hold of her to pull her out.

"I don't know how she managed to get there," thought Yellow Wing, "but now she is there, they will never get her out again. She must have been watching her chance and slipped in there when Mrs. Speckles left for a moment. I've wondered where she has been keeping herself for the last two or three days. Every now and then she slipped away and I couldn't find her. She must have been hiding where she could watch those Starlings."

This was a very good guess on the part of Yellow Wing, for it was exactly what Mrs. Yellow Wing had been doing. Not once had she given up hope of getting that home back. It was hers by right and she felt that in the end right would triumph if only she were watchful and patient. She knew that once she got in that house not all the Starling family would be able to get her out again. And now here she was!

Straight at Speckles and Mrs. Speckles flew Yellow Wing. They didn't see him coming. No, sir, they didn't see him at all. You see, they were so intent on trying to get Mrs. Yellow Wing out of that house that they quite forgot that Yellow Wing might be about. So it was that he managed to strike Speckles a hard blow, a blow that hurt. It sent Speckles flustered down to the ground. Yellow Wing followed and I fear he might have killed Speckles in the end had not Mrs. Speckles flown to his rescue. She was furious, and she fought.

"I don't know how she managed to get there," thought Yellow Wing.

like a fury. She was furious because she had been outwitted by Mrs. Yellow Wing. She knew that house was lost to her now and she knew that it was her own fault. She shouldn't have left it unguarded for a moment but she had, and now Mrs. Yellow Wing had possession. So she fell on Yellow Wing and gave him no chance to follow up his advantage.

Speckles fluttered away and hid in the grass while Mrs. Speckles fought with Yellow Wing. Gladly would he have joined her if he could, but one wing was injured and he knew that there would be no more fighting for awhile. Mrs. Speckles and Yellow Wing fought until they were too tired to fight more. Then abruptly Mrs. Speckles gave up. Alone she could do nothing. She knew when she was beaten. She called and Speckles answered. She flew over to him. "A-ee you badly hurt?" she asked anxiously.

"I feel better now," replied Speckles. "I think I can fly a little if I try." He tried and succeeded, but he could make but short flights from tree to tree, and in each had to stop to rest. Mrs. Speckles remained with him talking gently and telling him how sorry she felt. From the doorway of her house in the telegraph pole Mrs. Yellow Wing watched them until they disappeared.

"That's that!" said she. "Now my dear, we must clean this mess out at once. We will have no more trouble from those robbers; they have had all they want." By this mess she meant the nest the Starlings had built in that snug house and she straightway fell to work pulling out the grass and few feathers of which that nest was made. Not until the last blade of grass went fluttering to the ground did she stop.

- Cum-Dipping which increases tire life from 25% to 40%.
- Double Cord Breaker—a new feature which gives added protection against punctures and blowouts.
- Non-skid tread of toughest rubber which gives utmost traction and mileage.

When you can buy Oldfield tires that are guaranteed by Firestone to give you long, dependable mileage, it does not pay to take chances with tires of unknown quality. See your nearest Firestone dealer today.

COMPTON SEAT OFTEN CHANGED PARTY LOYALTY

Important Constituency Has Provided Interesting Contest in Every Election Campaign.

During the forthcoming campaign, considerable interest is focussed on Compton County, the scene of many hard fought battles. Compton has possibly passed back and forth from one party to another oftener than any other riding in the district. The first member was Mr. Sawyer, who sat continuously from 1867 to 1886, representing the Conservative interests. In 1886 the representation of the county was entrusted to John McIntosh, also a Conservative, who overcame all opposition until his resignation in 1892.

In the election which followed, C. McClary, Conservative, won by a majority of 688 over the Liberal candidate, J. B. St. Laurent. However, the tide turned in the election of 1897, when J. Hunt, carrying the Liberal banner, obtained a majority of 304 over the Conservative candidate, C. W. B. French. His reign was not for long for in 1900, A. W. Girard, Conservative, obtained a majority of 337 in a three-cornered struggle. Mr. Girard was successful in the contests of 1904 and 1908, but went down to defeat by 174 votes before W. G. Scott in 1912. Mr. Scott was re-elected in 1916, but in 1919 made way for C. Desjolis. In 1923, Hon. Jacob Nicol, then Provincial Treasurer, was elected, and in 1927, was re-elected by a majority of 1,275 votes over B. Girard.

On the elevation of Mr. Nicol to the Legislative Council in 1929, Hon. A. R. McMaster, appointed Treasurer, carried the county by 139 votes in a bitter fight with A. L. Pomeroy, the Conservative representative. While no definite announcement has been made, it is assumed that Mr. McMaster will not present himself again this year, as ill health has forced him to relinquish the Treasuryship.

Andrew Ross McMaster, B.A., B.C.L., K.C., was born in Montreal in 1876, of Manx descent. In 1917 he was elected to the Federal House for Brumby county and re-elected in 1921 but withdrew from the Dominion field in 1925. In September 1929 he was appointed Provincial Treasurer, but was compelled to resign in 1930.

MARRIAGES IN CANADA SHOW A BIG DECLINE

Number of Weddings in Cities Last Month Twenty-One Per Cent. Below Same Period Last Year.

Undoubtedly affected by the prevailing economic depression, the number of marriages solemnized in Canada during the month of March, 1931, showed a sharp decline compared with the total in March, 1930. There were 1,536 marriages in March of this year and 2,001 for the similar period last year, a decline of 21.1 per cent.

Births registered in cities of ten thousand and over in Canada totaled 7,436, last month, according to a report of the Dominion Bureau of Statistics compared with 7,684 last year, a drop of three per cent.

Deaths in the same period declined from 4,407 in 1930 to 4,168 in 1931, or 5.1 per cent.

For the first three months of 1931 births totaled 21,076, a decrease of two per cent when compared with the 21,454 recorded in a similar period last year. Deaths for the first quarter also declined two per cent, 12,364 occurring to date this year and 12,603 for the first three months in 1930. Marriages were down 12.1 per cent, falling from 6,416 in 1930 to 5,608 in 1931.

In the Province of Quebec, Sherbrooke occupied fifth position in the number of births recorded last month with fifty-eight, being exceeded by Montreal, Quebec, Three Rivers and Hull. With thirty deaths, this city held the same relative position, while three marriages served to put it in fourth place, Montreal, Quebec and Hull recording more unions.

home of her son-in-law, Mr. A. T. Arnold. She arrived in town from New Carlisle Friday, and took a chill which developed into pneumonia. Mrs. Kempfer was well known for her loving Christian character, and was a faithful member of St. Andrew's Church, New Carlisle. For many years she was president of the Women's Auxiliary and Ladies' Guild. Family prayers were offered by her old rector and friend of many years, Rev. A. W. Buckland, rector of Cookshire, assisted by Rev. A. Vibert, for some years on the Gaspe coast. The remains were taken to the train en route for interment at New Carlisle.

ANOTHER QUIET NIGHT FOR POLICE
What is the meaning of this quietude so evident at the local

police headquarters? Is it the calm before the storm? For the past week police activities have been extremely light and the firemen have been enjoying a holiday as far as alarms are concerned. Chief Camirand, however, hastens to assure all that things are not as quiet as they might appear to be. In fact, he declares that if the inner movements of the department were made public, they would record considerable activity.

Y.M.C.A. PHYSICAL EXHIBITION

Each night large numbers are gathering at the "Y" in preparation for the tenth annual exhibition and circus next Wednesday and Thursday, which promises to be of high merit. Last night the employed boys went through their part of the programme, which gives promise of being one of the brightest items on the card. This was followed by the leaders corps having a workout.

NEW PIPE ORGAN AT BAPTIST CHURCH

With the installation of a two-manual pipe organ in the Baptist Church on Portland avenue, a worthy addition is being made to the religious musical life of Sherbrooke.

A unique feature of this organ is the entire absence of show-pipes, the front being a cabinet work design in brown ash, backed with bronze screening, thus giving a very pleasing effect.

The installation of the instrument will be completed by Sunday, and a special programme for the week-end has been arranged. The services of Mr. C. Versel Chamberlain, formerly organist of St. James' Church, Montreal, and Calvary Baptist Church, New York, have been secured and he will officiate at the regular services on Sunday.

On Monday evening a programme of special music has been arranged by the choir assisted by Mrs. Mackay. Others taking part will be Mrs. Stevenson and Mrs. Tremblay, of Lennoxville, and a quartette from Magog. Rev. D. W. Terry, of St. Lambert, a former pastor of the church through whose influence the new organ was to no little extent made possible, will be present and take part in the programme.

QUEBEC CENTRAL RAILWAY CHANGES IN PASSENGER TRAIN SCHEDULES

In order to conform with Daylight Saving Time, the Quebec Central Ry. will make a number of alterations in its passenger train service effective Sunday, April 26th.

WARM WEATHER GIVES WAY TO COOLER SPELL

Temperature Dropped Considerably During Night—Mercury Hovering Around Thirty-Three Above This Morning.

In contrast with the fine warm weather experienced at the beginning of this week, the temperature dropped considerably last night and led many citizens to believe that King Winter was making a bid to return. But cool weather at this time of spring is not an unusual thing. One must remember that spring came at a comparatively early date this year.

Overcoats which had been discarded made their reappearance towards evening yesterday. The temperature for yesterday was maximum 65 and minimum 37, while for the corresponding day last year it was maximum 35 and minimum 20.

The mercury this spring climbed as high as 82 degrees on Tuesday of this week. A sharp difference is seen between this mark and the temperature registered last night at the Lennoxville Experimental Farm of 33 above. This morning at seven o'clock the air was still cool.

"BLUE COAL" IS A DISTINCTIVE MARK OF QUALITY
Carloads of "blue coal" were received at the yards of the J. S. Mitchell and Co. Limited, and will be sold to home owners in this vicinity.

Although the coal is actually blue in color, it is the same D.L. and W. hard coal, the best grade of square-fracture, medium free-burning Pennsylvania anthracite which home-owners have always chosen as the best hard coal for use in their homes.

Mr. Shaw, of the J. S. Mitchell Company, stated that the world's largest producers of anthracite are coloring their hard coal blue so that a householder can readily tell it from inferior coal. He states that "blue coal" costs no more than black coal of the same grade, that it is positively guaranteed from pit-head to furnace door.

This "blue coal" is colored with a harmless "blue" solely for identification purposes. The blue color trade marks and distinguishes it from all others, just as the various branded products carry a distinguishing label and brand name.

The color used on "blue coal" is

harmless. It is made up of two "blues"—one is used for whitening sugar and in the manufacture of bread, the other blue is prescribed internally as a medicine. The "blue" does not affect the burning qualities.

BEIT RAILWAY COMPLETES ITS NEW PROJECT

New Scheme of Fellowship Helps Students to Take Post-Graduate Courses.

CAPE TOWN, South Africa. April 24.—The Beit Railway Trust has completed its new scheme of Fellowship for the two Rhodesias. In order to provide opportunities for young men in Rhodesia to undertake post-graduate studies, the trustees offer three post-graduate fellowships annually tenable for two years at universities, or for special studies at institutions approved by the trustees in South Africa, Great Britain, the overseas Dominions, the Continent of Europe, or the United States.

The value of a fellowship is \$1,250 per annum if held in South Africa, and \$1,875 per annum if held overseas. If the course described by a candidate at an approved institution is obtainable in South Africa preference will be given to that country. Candidates must hold a recognized university degree, be unmarried, and be of European descent. They must not have passed their twenty-sixth birthday on the date of application, and must have resided in Northern or Southern Rhodesia for three full years before the date of application save that, where a candidate has spent all or part of that period outside Rhodesia at a university or university college, his parents must have resided in Rhodesia for at least five years before the date of application.

The administration of the fellowships will be in the hands of an advisory board, of which the chairman will be the Governor of Southern Rhodesia. It is pointed out that out of the funds provided by the will of the late Alfred Beit it will now be possible for a boy who begins his education in a Rhodesian primary school to obtain assistance through the secondary school to a South African university and thence to a university or technical institution in Great Britain, the overseas Dominions, the Continent of Europe, or the United States.

Alfred Beit (1853-1906), British South African financier, was a native of Hamburg, Germany. After a commercial education at home he was sent out to Kimberley, South Africa, to investigate the diamond prospects. He rapidly acquired a leading position on the diamond fields, and became closely allied with the ideals of Cecil Rhodes, with whom he joined forces and became very rich. He gave \$500,000 to establish a university in his native city of Hamburg, and \$1,000,000 for a university in Johannesburg, South Africa.

PROGRAMME FOR PAVING SEEMS RATHER LIGHT

City Apparently Does Not Intend Doing Any Extensive Work This Spring in Spite of Necessity of Providing Work.

Just what spring programme the city authorities intend carrying out seems to be rather uncertain. At least the taxpayers have little information on the matter, as no definite project has been announced in spite of the need of providing as much work as possible to relieve unemployment.

There is another question frequently asked on the street. This is: How much of the money provided by the Government for the relief of unemployment has the city received? How this money has been spent and what work has been accomplished or is being done at the present time are other points causing public concern.

One thing is certain. That is Sherbrooke had a total of \$175,000 to be used in a wise and sane manner to relieve unemployment in the city. Of this amount, \$87,500 was provided by the Government and the remainder was to come from the city's funds.

The city originally had several projects under consideration. These included a new water main costing \$92,000; water mains on King street west, \$3,600; gas mains on King street east, \$3,600; water mains on Victoria street, \$3,400; water mains on McManamy street, \$3,000; gas mains on McManamy street, \$2,200; water mains on Federal street, \$1,000; gas mains on the same street, \$500; retaining wall at Lansdowne Market, \$51,500; enlarging of Galt street viaduct, \$30,000.

The citizens have, no doubt, been expecting for some time that the City Council would make an official statement explaining what has been done. Information at the City Hall is rather conflicting. Some of the municipal employees state that the greater part of the work has been completed, while others are not quite so frank.

From observation it is quite evident that nothing has been done in connection with the retaining wall at Lansdowne Market, while the delay in acceptance of plans by the railway company is given as the reason for the hold-up in connection with the Galt street viaduct.

The city's paving programme seems to be rather light this year. There is a question of doing some work on Montcalm street. This street, although a short one, is a connecting link between two of the north ward's important streets, and is one of the most frequently used roads in the city. It is also the intention of the road department to do considerable repair work on various streets of the city. No extensive paving scheme is, however, under consideration.

It is felt by many citizens that the time has come when the aldermen, or some municipal employee in authority, should present a public statement informing the citizens exactly how much of the relief scheme money has been spent, and how much remains to be spent.

David, of Sawyerville, and Mr. and Mrs. L. I. Hurley and son, George, of Hereford, were Sunday guests of Mr. and Mrs. Ed. Waldron.

RECORD MOTOR TRIP ACROSS TO VANCOUVER

President of Sherbrooke Motors Tells the Story of Meteoric Journey Across Continent in a Ford Coupe, With Dunlop Tires On.

Slightly less than four days, or exactly 95 hours and 15 minutes elapsed time, was the record of the two young men from Oakville, Ontario, in their motor journey from Toronto to Vancouver. Dick Merry and Vernon Dynes made the journey in a Ford coupe, equipped with Dunlop cable cord tires. A photograph of the tires shows little evidence of the journey over tortuous and precipitous roads, stretches of which were extremely rocky and difficult to negotiate, where the tires were submitted to gruelling wear and tear.

This achievement is remarkable when one considers that even the fastest Canadian Pacific express does not make the trip in such fast time. Dick and Vernon took turns in driving, and stops were made only to take on gas and oil and get their hasty meals. The total distance travelled was 6,500 miles.

The Sherbrooke Motors are carrying all styles of Dunlop cable cord tires, for Fords and for all the higher-priced cars, and also for trucks. The President, J. V. Ames, says they have made arrangements to carry Dunlop tires for quick supply to any garage in the Eastern Townships, and particularly for emergency calls.

With factories in many countries, the Dunlop tires are sold wherever there are motor cars throughout the world, and it is by service, and with depot at every pivotal point, that they look so well after their patrons.

Beware of eyeglasses bought on the bargain counter or by mail without a scientific examination to determine your visual defects. Wearing glasses without previous examination of the eyes is just as dangerous as swallowing pills without knowing what they are.

Instead of improving your eyesight you risk losing it altogether. Glasses sold by mail are as a rule magnifying glasses, and while they temporarily help, they finally, instead of curing, but only aggravate the troubles but may even blind you.

Confirmation Service was held on Monday evening at St. John's Church, when twenty candidates were presented to Right Reverend Lemox Williams, D.D., Lord Bishop of Quebec, by the rector, Rev. Oscar Berry. The solemn rite of Confirmation is ever an impressive ceremony when the candidates, kneeling before the Bishop for the "laying on of hands", renew their baptismal vows and are admitted into the fellowship of the Holy Communion. Many beautiful flowers adorned the altar and special hymns for the Confirmation service were sung.

Right Rev. L. Williams, D.D., Lord Bishop of Quebec, was the guest of Rev. and Mrs. Oscar Berry at the rectory during his stay in town.

Mrs. H. L. Parkes is spending a couple of days in Kingsbury, the guest of her parents, Mr. and Mrs. J. A. Johnson.

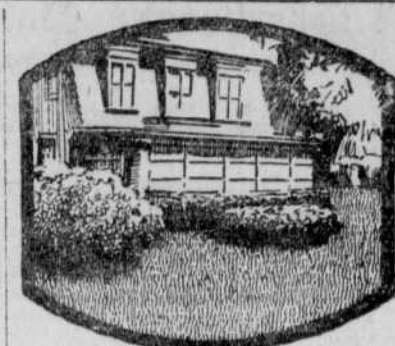

Friends of Miss Olive Drew will regret to hear that she is a patient in the Sherbrooke Hospital, where on Monday she underwent an operation for appendicitis. Latest reports state that Miss Drew is progressing favorably.

Mrs. W. Healy was in Sherbrooke on Tuesday.

Mr. H. L. Parkes returned home on Thursday from Montreal, where he was a business visitor.

Mrs. C. Peasley, Mrs. Parkinson and Miss Mary Parkinson were in Sherbrooke on Wednesday to see Miss Olive Drew, who is a patient at the Sherbrooke Hospital.

Mr. Hollis Bowen, of Hillhurst, was a recent guest of Mr. and Mrs. Kenneth Spafford.

"The letter of the law killeth, but the spirit maketh alive." Blackstone, the interpreter of law, both common and uncommon, applies rules of reason and common sense, whilst Lord Coke says: "He who takes all that the law allows is a rascal at heart."

ACCEPT THE SPIRIT OF ECONOMY AND CARRY ON.

With but four days' intensive training the 53rd Sherbrooke Regiment passed creditably through a critical inspection by the staff officers from military headquarters at Montreal and Ottawa. Colonel Beaman, D.S.O., the officer commanding, was accompanied by Colonel Prower, D.S.O., and the gunnery commandant, Colonel Snell, had also his retinue. It was a trenchant inspection in every detail, and the O.C. not only congratulated the regiment on parade, but in the mess-room he also expressed his appreciation of the regimental standing to Lt.-Col. Echenberg and his enthusiastic staff.

All the officers have entered into the spirit of economy laid down by the regime at Ottawa, and have willingly helped in every detail. Even the visiting officers from headquarters, instead of tarrying for a day or two in the city, motored from Montreal in the morning and after formal and informal gatherings they dashed back by car to headquarters, thus cutting their usual expenses in half.

Not one word of complaint or criticism has been made of the call for rigorous economy, but rather is there a general agreement that the efficiency of the corps shall be upheld by more conscientious application to the work.

The Armouries are not only a college of discipline and of exercise, but there exists that clubby spirit which makes duties become pleasures. In both the officers' mess and in the sergeants' mess there is ever that spirit of camaraderie which makes for good fellowship and for lifelong friendships.

It was reward enough for the boys this week when the Officer Commanding so highly commended them for their soldierlike bearing in the diversity of exercises.

One feature, aside from the splendid music provided by the Regimental Band under Sergeant-Major Havard, was the spirited military music from the cornet and drum band trained in a few months by Captain Wally Barrie. Their showing was exceptionally good.

DELIBERATE DECEPTION OF THE CANADIAN NATIONAL.

One often wonders why people allow themselves to be victimized by confidence men or gold brick artists, or by stock salesmen representing worthless companies never heard of nor spoken of outside the glib salesmen.

Yet when we find the simple-minded sitting in the editorial chair at the Capital of Canada, we cease to wonder, and only pity the puny intellect.

The Ottawa Citizen, in criticizing the plain truths told by John T. Hackett, M.P., for Stanstead, in the House of Commons, makes the following statement:

"Eventually the Government assumed the debts and liabilities of the defaulting lines. They were merged to form the Canadian National Railways to such a beneficial effect that net earnings in 1920 exceeded operating costs by more than \$50,000,000."

The net deficit of the Canadian National Railways system for the year 1920 was \$46,099,250.

There is just a small matter of a hundred millions between the Editor of the Citizen and the truth.

Conceive the abysmal simplicity of an Editor who can be deceived by a play upon words, and who will then make a statement which is intended for the cruel deception of the few simple-minded who still believe that public ownership of railways can be successful.

During an election year there were agile-minded auditorial experts who could figure a profit in the operation of the old Intercolonial Railway, a profitless statement which would be followed the next year by another staggering loss. The concealed figures would have to be brought to light to keep the books straight.

A billion dollars of the taxpayers' money has been cast into the most disastrous experiment in the history of Canada. The losses in eight years total over \$300,000,000. And they will continue and bring Canada to the verge of bankruptcy unless something is done—and that right quickly.

We repeat that the member for Stanstead is the first member of Parliament who has had the courage to turn on the radium and to tell the people the truth about this gigantic blunder.

They may shout "Hands off the C. N. R.!" but we want heads on that White Elephant and its all-consuming trunk.

THE ONLY V. C. WON IN CANADA.

Timothy O'Hea, a private in the British Army, is the only person who ever won the Victoria Cross in Canada. In all the annals of the Victoria Cross the exploit of Private O'Hea is the only one recorded of the winning of the most coveted honour in the military world, to commemorate a brave deed done in the Dominion.

This medal was won at the Village of Danville in the year 1865, during the time of unrest following the Civil War in the United States, and just a few months before the Fenian raiders entered Canada at Lacolle and other points. O'Hea was a member of the guard in charge of the military train. A car full of powder caught fire, and

despite the adjuration of his fellows that he had better get away, "five miles from here," the British private seized two buckets of water, entered the car and put the fire out.

He was rewarded by being decorated by Queen Victoria on his return to England in 1868, and there is now in the Museum at Sydney, Australia, a tablet recording his brave feat.

Though the present regulations enforce the rule that the Victoria Cross shall only be given for bravery "in the face of the enemy," Private O'Hea was given the scroll and medal when the regulations were different.

Private O'Hea was stationed in Australia afterwards, and with that reckless courage which characterized him and many of his good Irish countrymen, he started for a faroff point, entered the almost unpenetrable bush and was never heard of again. Though it is whispered that in Central Australia there are little quadrangles who bear the name of Hay-o-Hay.

That this tablet, which was seen and reported upon by Ex-Principal Connolly, a former teacher in Danville, relates the exploit as having taken place in "Danville, Canada," suggests that a replica should be set up in the Town Hall at Danville. If the matter were brought to the attention of the Quebec Historic Society, it surely would be done. For to the brave are due all honour and glory.

A majority of forty-three on the first test vote on Government policies would indicate that the Bennett administration has sufficient strength to be held responsible for the outcome of the fiscal measures which they are preparing to help the return of prosperity in both industrial and farm life. Of wheat there is an overproduction throughout the world. This is natural. Wheat is the lazy farmer's special crop activity, for it permits of so much inactivity before and after the harvesting.

THIS DAY THIRTY YEARS AGO

From the Files of the Sherbrooke Record.

April 24th, 1901.

Major Heneker, one of the only two Canadian officers with the British Expeditionary Force in West Africa, is reported to have been wounded in action. The Major is a son of Dr. R. W. Heneker, commissioner for the British American Land Company in Sherbrooke.

Frank Cote, of Sherbrooke, has leased the hotel at Waterville from W. L. Hodgson, who is to engage in the bakery business.

T. H. Addie, son of Mrs. William Addie, and Alexander Baird, son of John Baird, both of Sherbrooke, have passed their third year examinations in mechanical engineering at McGill University.

The stork has been busy in the Townships during the past few days. Among the new arrivals are: Daughters to Dr. and Mrs. Irwin J. Porter, and Mr. and Mrs. Chester C. Barnard, of Danville; sons to Mr. and Mrs. George Bennett and Mr. and Mrs. O. F. Jenkinson, of Bishop's Crossing; a daughter to Mr. and Mrs. Frank Safford, of Sutton; and a son to Mr. and Mrs. Wilber M. Whiteber, of West Bolton.

Hon. Messrs. Duffy and Gouin, of the Quebec Government, are in town to look over the proposed site for the new court house. The ministers were also met, on behalf of the E. T. A. A. by Directors N. T. Dussault, Dr. P. Pelletier, C. A. French and H. R. Fraser in connection with a request for a loan of \$30,000, which the Government is said to consider favorably.

Extensive preparations for "spring moving" are under way, as no less than fourteen auction sales of household furniture, etc., are advertised by auctioneers C. J. Odell, John J. Griffith, Edwin Howe, H. T. Taylor, R. L. Craig and Campbell & Bedard.

Homer Hartell, of Stanstead, who was severely injured in a train wreck some months ago, has returned to his duties on the Boston & Maine Railroad.

J. E. O'Halloran, teller of the E. T. Bank at Richmond, has been transferred to Montreal and will leave for that city in a few days.

H. W. Blaylock, B.A., son of Rev. Thomas Blaylock, of Danville, headed his class in the law examinations at McGill and is the recipient of a \$100 scholarship. Mr. Blaylock is now head of the great Consolidated Mining and Smelting Company in British Columbia, and his chief aides are two Eastern Townships boys, the Messrs. Oughtred, of Marlinton.

Mrs. E. N. Akhurst, of Coaticook, has gone to North Newcastle, Me., to be present at the wedding of her son, E. A. Akhurst.

PRESS COMMENT

A HINT FOR RAILROAD IMPROVEMENT

Worcester Telegram.

It is true that the railroads cannot provide comfort for passengers without spending money. But it is also true that in many cases the difference between comfort and the lack of it is not in the amount of money spent, but in the way in which it is spent. It is also true that the surest way to expand a business is to furnish better service to customers.

ALWAYS CRITICISM.

Stratford Beacon-Herald.

Come to think of it, Eve was criticized by Adam; Noah had many critics when he built his ark; Abraham did not escape; Moses had to listen to the children of Israel in their critical moments; Joseph had his unpleasant hours, and the prophet Elijah was so hard set upon by Jezebel, wife of Ahab, that he had to run for his life to a hiding place in the desert. None of those people had easy going; none escaped criticism.

"OTHER PEOPLE'S MONEY" IS ALWAYS "NOMINAL."

Toronto Mail and Empire.

The Ontario Government announced that a nominal sum of \$500,000 will be paid out for old age pensions in 1932, in view of the expectation that the Federal Government will bear the cost.

The association of half a million dollars with the word "nominal" recalls a joke in the Bystander. A plumber had presented his bill which the "in the magnificent home regards with raised eyebrows." "Why," she says, "this is a small fortune!"

"It may look small to you, my lady," replies the plumber, "you bein' that well off."

POLAND AND GERMANY

London Truth.

A blind fear of Russia and a hatred of Germany are the sum total of Polish statecraft. Situated between the two of them, Poland cannot remain the enemy of both and survive. To Germany, Poland is bound by the most sacred of all ties—the tie of self-interest. Communism is no more welcome to Germany than to Poland. It is the common interest of both countries to unite and consolidate, the better to withstand the Red tide. Instead of this, Poland and Germany by their senseless quarrels are bringing their own doom upon themselves and threatening the collapse of all Europe before Communism.

A MATTER OF DATES

Vancouver Sun.

"Here is a nation that murdered its emperor, murdered three young royal princes in a dark cellar and put the czarvitch, a young boy, to death." This is the impassioned declaration of Armand Lavergne, M.P., in the House of Commons, in his comment on Russia.

True, Russia murdered her royal ty. And so, in history, did England, with Charles I and earlier princes. And so did France—Louis XV and Marie Antoinette guillotined.

And so did nearly every country in Europe, if we search history, back to Julius Caesar.

Russia's murders happened in 1919, instead of 1819, 1719 or 1519. Hence the color in M. Lavergne's charge.

SAFETY AND BRAKING SPACE

Minneapolis Journal.

Importance of motor car control and space ahead in which to exercise such control is strikingly shown in traffic studies made in the District of Columbia, where the stream of cars is heavy.

Traffic officers found there that the capacity of the street is diminished by speed rates above the efficiency point, which is placed at 23.5 miles an hour. Higher speed means fewer cars to the hour. At 23.5 miles an hour, assuming brake conditions good and with a fourteen foot average length of car, 2600 cars can be accommodated in an hour in a single traffic lane. Run the speed up to thirty-five miles an hour, and only 2340 cars can move safely in the same lane; and at forty-five miles an hour, the number of cars drops to 1790.

The higher the speed, the greater the interval between cars if reasonable safety is to be assured. It all depends on control space. And if this is true in dense traffic, what must be the injunction of caution on the driver elsewhere? Safety depends upon control within the open space ahead.

EASY MONEY FOR THE MOVIES

Christian Century.

Movie producers have found a new way to make money. It consists in making films for advertising purposes and then palming them off on the public as entertainment. For example, two of the largest producers are reported to be making and distributing a series of thirteen special reels in praise of Chesterfield cigarettes. Other contracts are said to call for the manufacturing of films ostensibly entertainment but really designed to help sell the products of this or that manufacturer of soft drinks or cosmetics or motor oil or radio. The chain theater charge the advertisers for those films on the basis of "five dollars per thousand actual attendance" and one large chain estimates that a national showing of such an advertising picture will result in a clear profit of about \$25,000. Local exhibitors all over the country are receiving films for the same purpose, and others under the block-booking contracts. Naturally the independent exhibitors are objecting and many are resorting to legal means to protect their screens from such abuse. In the meantime the producers are collecting money from both ends—the advertisers and the public. Parents who want their children to see the better movies must now reckon with this fact: that a good Booth Tarkington story may be preceded or followed by a reel depicting the value of certain brands of cigarettes.

SEA CHANTEYS WERE SUNG IN REGULAR STYLE

Sir James Sexton and Ben Tillett, Two Interesting Personages in British Parliament, Rendered Interesting Radio Programme.

LONDON, April 24.—Sailor music as rendered in the days when seafaring was much less a matter of oil and steam than it now is, was provided to an unseen audience of a million or so Wednesday when two of the most interesting personages in Parliament, Sir James Sexton, M.P., and Ben Tillett, M.P., both of whom knew what it was to serve as humble foremast lads well over half a century ago, combined in singing sea chanteys from the British Broadcasting Studio in Savoy Hill.

A chanterey is a song, or one of a collection of songs, which sailors in the "wind-jamming" days used to sing during such tasks as weighing the anchor.

An authoritative description of the sea chanterey is that is "characterized by the emphatic ietus, and use of strong open vowel sounds in the chorus." "Jimmy" Sexton and Ben Tillett heartily concur in this description. In fact their recollection of certain sea chanteys with strong open vowel sounds is such that they carefully pruned today's performance, recognizing that some ditties heard around the captain and in the fo'c'sle of times past are hardly suitable to be heard through the sitting room loud speaker of today.

HECKLERS DO NOT WORRY FORMER PREMIER TARDIEU

When Hecklers Boomed and Whistled at Him, He Simply Drew Little Tin Whistle Out of His Pocket and Returned Their Compliment.

TOULOUSE, France April 24.—Andre Tardieu, former French Premier and now Minister of Agriculture, gave an audience of hecklers a dose of their own medicine here today at the inauguration of the Toulouse Fair. They booed him and whistled at him while he was speaking and Tardieu drew a tin whistle from his pocket and sent back a series of ear-splitting blasts. The laughter and cheers of his partisans drowned out the hecklers.

TRIBUTE PAID TO MEMORY OF GREAT FARADAY

Lord Bessborough Delivered Message Over Trans-Atlantic Telephone When Commemoration Stone Was Unveiled.

OTTAWA, Ont., April 24.—Over the trans-Atlantic telephone, through a message from the Earl of Bessborough, a stone of commemoration was unveiled yesterday in London, England, to Michael Faraday.

From Government House, His Excellency, a former director of the London Power Company, paid tribute to Faraday, whose epoch-making discovery one hundred years ago led to the birth of the electrical industry. The remembrance stone is erected in the Battersea Power Station, by the banks of the Thames.

"From Ottawa, the beautiful Capital of Canada," Earl Bessborough declared, "my voice is this day carried to the city I have but lately left, the Capital of the beloved Motherland."

"It is carried by a miracle of science which is in the line of succession to those experiments begun in a laboratory at the Royal Institution one hundred years ago."

"It is appropriate that a remembrance stone is erected in the Battersea Power Station by the banks of the Thames, so that there also the name of Faraday may be recalled in a place designed to increase the amenities of light and power in larger London."

"Canada is at one with Great Britain in desiring to honor the name of that great Englishman, whose genius penetrated into the mysteries of physical science, and whose epoch-making discovery led to the birth of the electrical industry, thus giving constant promise and foretelling of what electricity has been to mankind."

LESSER KNOWN ARTISTS TO BE GIVEN CHANCE

British Artists' Exhibition Stimulates Sale of Works in Their Own Country.

LONDON, April 24.—An important movement for the stimulation of sales of works by the lesser-known British artists in their own country is that of the British Artists' Exhibitions, of which Sir Martin Conway, M.P., is chairman of the executive committee, but founded and entirely financed by Sir Joseph Duveen. Sir Martin Conway is a Conservative member of the House of Commons for the Combined English Universities, and has written a number of books on art and other subjects. Sir Joseph Duveen is known internationally as an art collector and dealer, and is a trustee of the National Gallery and also of the Wallace Collection, London, besides being a trustee of the Imperial Gallery of Art. Sir Martin reports:

"We have now held exhibitions in the City of Art Galleries at Leeds, Manchester, Bradford, Belfast, Plymouth, Liverpool, Glasgow, and Hull, and all the summer had an exhibition in the Guildhall which was opened by Prince George, and consisted of works of art which had been sold at previous exhibitions and borrowed from their owners. The Press generally spoke in warm praise of the exhibition, saying that 'if one bears in mind that none of the great painters of our generation had been included in the British Artists' Exhibitions one cannot but admire the high average of the country's artistic production.' Four of the works shown belonged to Prince George himself, a fact he referred to when the Lord Mayor of London asked him to speak at the opening ceremony. The next two exhibitions will probably be held at Birmingham and Edinburgh, the idea of the committee being to cover in turn all the big cities."

"The works shown at these exhibitions are those of our lesser-known artists. The whole subject in fact, is to help the lesser-known men, and the best way of helping him is by selling his work. Some seven hundred works altogether have now been sold. Often we discover talent of the most promising kind. At the exhibitions at Plymouth, for example, he discovered Lionel Ellis, who is now having a 'one-man show' at the Redfern Gallery in Old Bond street. He got his start entirely from the exhibition at Plymouth, and we have helped him since."

"Besides the exhibitions in this country, an exhibition of representative contemporary British art is held every year in some foreign capital, and is guided by the British Foreign Office in its choice of sphere. These exhibitions contain the works of superior artists as well as those of the lesser-known men. These exhibitions have been held in Paris, Brussels, Venice, Buenos Aires, Belgrade, Zagreb, Ljubljana, and Stockholm, and we are now sending out to Tokyo an exhibition which is being patronized by the Japanese Government, and will be opened in November by the British Ambassador in the presence of Prince Chichibu."

DUNHAM

Mr. and Mrs. Omer Noisieux and three children and Miss Noisieux returned from a motor trip to Central Falls, R.I. via New York. They left New York Sunday morning and reached home the same evening.

Mr. Demers, of West Sheffield, has purchased the residence formerly owned by the late Dr. Yeats and now occupied by Mr. Gustave Noisieux.

Mr. Kenneth Milmore, of Sheffield, has leased the Stone residence from Mrs. O. C. Selby and expects to take possession May 1.

Mr. and Mrs. Joseph Favreau celebrated their twenty-fifth wedding anniversary on Saturday evening. A large number of friends were present to offer their congratulations and good wishes. A pleasant evening was spent in dancing and cards.

Mr. and Mrs. J. L. Kilbourn, of Farnham, were guests on Saturday of Mr. and Mrs. George Taylor.

A large number of friends attended the funeral of the late Mrs. Herbert McElroy at West Brome on Sunday.

KNOWLTON

The meeting of Sir John Fisher Chapter, I.O.D.E. was held Thursday afternoon, April 2, at the home of their Regent, Mrs. F. P. Williams, and was made the occasion of a presentation to Mrs. Williams by the members of the chapter. The occasion marked the forty-eighth anniversary of Mrs. Williams' wedding-day and the presentation was in the form of a floor-lamp and flowers. At the request of Mrs. S. W. Foster, who had charge of the proceedings, business was put aside for the afternoon and a pleasant programme, consisting of a recitation by Mrs. Foster, songs by Mrs. Knowlton and readings by Miss Knowlton, was substituted and enjoyed by the twenty-five or thirty members and friends of the chapter present. At the conclusion of the

CONSERVATIVE LADIES MET AT SWEETSBURG

Mr. Frank Pouliot Delivered Fine Address and Gave Brief Resume of Last Session of Legislative Assembly—Sweetzburg Notes.

SWEETSBURG, Que., April 24.—A meeting of the Conservative Women's Association of Missisquoi County was held at the Ottawa Hotel recently, when there was an unusually large attendance. Madame F. X. A. Giroux presided and explained that the object of this organization was to educate the people to use their franchise to its best advantage; to vote fairly and wisely, in order that the younger generation would have transmitted to them the same knowledge and disposition and become capable citizens.

Mrs. Sydney Yates introduced the speaker of the evening, Mr. Frank Pouliot, of Farnham, Conservative candidate-elect for the Lower House. Making an eulogy on the fact that Mr. Pouliot is a railway man. She said: "A train travels only because a vigilant and incessant corporation directs and opens the way. So does a government devise or suggest arrangements and plans for better living conditions only because a force of thinking men direct and open the way."

Mr. Pouliot proved himself a fluent speaker and gave a brief resume of the last session of the Legislative Assembly at Quebec. The votes of women are necessary to purify the political atmosphere, he said. It is a well-known fact that men rely upon women for their moral education given to children; therefore women should be given an active part in provincial politics. "In 1867," he continues, "a lady judge presided over the Tribunal and from 1810 to the time of Confederation, women had the right to vote in all matters. It is only since then that they have been deprived of this necessary privilege."

Mr. and Mrs. Hugh Ashness-Wells and daughter, Alison, and Miss Kate Bulman motored to King's Hall, Cornwall, on Sunday, to accompany Miss Joyce Ashness-Wells to her college studies there.

Mrs. E. M. Gloddy and Miss Mary Gloddy and Mr. and Mrs. Lloyd Ruitter motored to Drummondville on Sunday. They were accompanied home by Mrs. M. H. Tetrault.

Mrs. A. C. Hanson entertained a meeting of the Parish Guild on Tuesday afternoon, April 21. The president, Mrs. Jameson, conducted the devotional exercises, including members' prayer, after which the minutes of last meeting were read and approved. It was decided that the Guild would finance the construction of new steps at the entrance of Christ Church if the men of the congregation would make the necessary arrangements for having the work done. A few small bills were ordered paid and several made-up articles were brought in, preparatory to the summer sale of work. Refreshments were served by the hostesses, assisted by some of her friends.

Mrs. M. H. Baker, of Dunham, was a guest of friends in town on Thursday and Friday.

Messrs. D. Rowland and E. S. Milmore spent the week-end at Clarenceville.

Mrs. Thomas Barber and little daughter, Alfreda, were guests, recently, of Mrs. Anna McCrum and Mrs. J. M. L. Macfarlane, at East Farnham.

Mrs. James Robinson spent Wednesday in Foster, a guest of Mrs. D. W. Blunt.

Mr. George Robb, of Warden, and Mr. and Mrs. Robert Sands, of Fitchburg, Mass., were recent callers of Mrs. C. O. Robb.

News reached here recently that Mrs. Chas. Williams (nee Ethel Beattie), of Boston, Mass., has lost her mother during the past winter. Interment was made at Richford, Vt.

Miss Jessie McWhirley has returned to her duties as nurse-in-training at the District Hospital, having been indisposed for some weeks.

Miss Ruth Millar was a guest, recently, of Sherbrooke friends.

ATTEMPT MADE TO START JAIL RIOT AT WINNIPEG

Half Dozen Men in Solitary Confinement Following Quelling of Unrest in Western Institution.

WINNIPEG, April 24.—Half a dozen prisoner agitators are in solitary confinement at Headingly Jail following an abortive attempt to incite a riot among the 400 prisoners of the institution. Demands for better food and a supply of tobacco had been refused by the jail officials this week and ring-leaders sought to create discontent among the prisoners by urging them to quit work.

Marching up and down jail corridors, a growing group of inmates shouted and booed prison officials a few nights ago. It was revealed yesterday. The affair, rapidly becoming critical, was brought to a sudden climax Tuesday night. Jail heads caught a prisoner in the act of putting soap in soup being prepared for supper. Other discontented leaders were discovered and the ring broken up.

Several score prisoners refused to go to their usual work Tuesday, but authorities believed the situation is in hand. Mutterings over the quality of food served have nearly died down.

All knowledge of any trouble at the jail was denied from the attorney-general's department, though it is known members of the prison commission visited the institution.

Mr. and Mrs. Merton Bockus, of St. Albans, Vt., visited their mother, Mrs. Mary Mollur, on Thursday. Messrs. Gordon Magee and Clare Edmonds motored to Sherbrooke on Friday and attended the funeral of the former's brother, the late Mr. Leonard Magee, who died suddenly on Wednesday night, April 15.

Mr. G. H. Bockus spent Sunday and Monday at Mr. Bernard Holmes' Way's Mills.

Mrs. Alma Suggett was a guest of Mrs. Helen Russell during the week.

Mr. George Proctor, Jr., has purchased the property of the late Miss Mary Atkinson and expects to move at once.

Mr. and Mrs. Kenneth Smith and family motored to West Brome on Sunday and attended the funeral of the late Mrs. Herbert McElroy.

Mr. and Mrs. Wheatly, of Verdun, spent Saturday at Mr. Gordon Magee's.

POPULATION OF WHOLE VILLAGE PARTLY BLIND

Strange Tale Related Is About Little Secluded Village, Hidden Away in Mountains, Where Nine Hundred People Live Unusual Lives.

WASHINGTON, D.C., April 24.—A village of nine hundred people, all totally or partially blind, who never venture from their homes until after sundown was described by Dr. Miguel Bustamante, Mexican delegate to the Second Pan-American Conference of Directors of Health.

The village is Tiltipepec, in the State of Oaxaca, Mexico. Hidden away in the mountains, it is reached only by a few horse trails and has almost no contact with the outside. The malady which blinded the inhabitants is known in the medical world as Onchochercosis.

Tests have shown, Dr. Bustamante said, that an insect has been found the cause of the blindness. Eradication of this insect, he added, has given hope in the fight on the malady, of which little is known.

The disease causes blindness and, in addition, sensibility to light, so that persons stricken with it cannot stand sunlight. It is estimated there are 20,000 cases in Mexico.

Tiltipepec, Dr. Bustamante said, is in a remote mountain valley. When Dr. Ramon Pardo went to the village recently he had difficulty in establishing contact with the people. They speak Zapotec, an Indian language spoken in itself.

They live in crude huts. There is no school, church, a store or a public building in the village.

The inhabitants grow a little corn and some sheep. From the wool, they make simple garments. The climate is mild that very little clothing suffices.

There being no church or civil law, there are no formal marriages, only mating and families. The children, Dr. Bustamante said, are not born blind but are victims of the mosquito-bite which breeds in swift mountain streams.

"It is a weird sensation," Dr. Bustamante said, "to see these folk, creeping from their huts at dusk to hunt their food, berries, corn, a few

BROME OFFERS VARIED STORY IN POLITICS

Liberals, However, Have Retained Possession of Brome County for Thirty-Four Years.

Brome County, which was rendered vacant during the past session of the legislature by the death of the then sitting member, Mr. C. J. Oliver, of Mansonville, has had a varied political history since the creation of the Province of Quebec, its representation changing quite frequently.

In 1890, F. England, a Conservative, was sent to Quebec by the voters of the county, and in 1892 he was re-elected with a majority of 394 over the Liberal candidate, Mr. McMillan. In the election of 1897, the Liberal forces captured the county, H. T. Duffy, later Hon. Mr. Duffy, defeating the Conservative candidate, E. J. Esty, by a majority of 355.

Mr. Duffy continued to represent the county until 1903, when in a bye-election Hon. J. C. McCorkill, Liberal, held the riding against the onslaughts of the Conservatives, represented by D. A. Manson by 334 votes. Mr. McCorkill was re-elected by acclamation in 1904.

From 1908 to 1919 the seat was represented by Hon. W. F. Vilas, Liberal, who was appointed a Legislative Councillor in the latter year. The election of 1919 was carried by W. H. Oliver, Liberal, who held the seat until 1923, when he was succeeded by his brother, Carleton, who passed away suddenly this spring.

HON. M. MACLAREN RECALLS SECOND BATTLE OF YPRES

Co-operation for Solving Problems of Peace Urged on Members of Red Chevron League by Minister of Pensions.

OTTAWA, Ont., April 24.—Hon. Murray MacLaren, Minister of Pensions and National Health, himself a member of the first Canadian contingent, Wednesday night recalled events of second Battle of Ypres. Col. MacLaren, speaking at the Red Chevron dinner on the sixteenth anniversary of the battle, declared everyone had felt the greatest peril, there had been incentive and every man had been determined to achieve victory in the face of tremendous odds.

It must be remembered, Col. MacLaren proceeded, that service was more difficult to render in times of peace than in time of war, and there were many problems with which Canada and the world were confronted. The attitude of "helping the other fellow along" should be carried out Col. MacLaren said.

Premier Bennett, who preceded Col. MacLaren, was the principal speaker at the dinner.

WIND WRECKS EARTHQUAKE PROOF HOUSES AT ANCONA

Three Gravely Injured When Cyclone Struck Village Twice Visited by Earthquakes.

ANCONA, Italy, April 24.—A ten-minute tornado yesterday wrecked three earthquake-proof houses which had survived the devastating July and October tremors, and un-

roofed many houses, after flooding the town with rain. A score of persons were slightly injured and three others more gravely hurt. The wind blew a hundred yard wide path through the old quarter of the town, which suffered badly in the quake, but in other sections the population was hardly aware of its violence.

SUMMER TIME FINDS FAVOR AT COATICOOK

Vote Taken Yesterday Resulted in Majority of Thirty-One for Adoption of Summer Time—Will Go into Force on Saturday.

COATICOOK, April 24.—Coaticook will adopt daylight saving time this year. At the last regular session of the town council it was decided to hold a vote to determine whether the change would be made. Yesterday 243 ratepayers voted in favor of the referendum, while 212 voters cast their ballots against the proposed change.

Citizens of Coaticook will thus advance their time an hour at midnight Saturday night, and "summer time" will remain in force until the last Sunday in September.

SOVIETS THINK OTHER NATIONS ARE HELPLESS

Have Quite a Conceited Opinion of Their Own Ability as a Nation to Set Pace for Whole World.

MOSCOW, U.S.S.R., April 24.—The growing independence of the Soviet Republic and the intention of the Government to retaliate against those countries which obstruct trade with her form the basis of an editorial in Izvestia, official organ of the state.

Commenting on the recent action of Austria in lifting an embargo on Russian eggs and fowls and that of the Soviet Government in stopping trade with Canada, the newspaper says "the effect of the Soviet counter-measures is already felt by Austria and they soon will be apparent to Canada."

"There is still another country where it is being learned that to hinder Soviet exports is cutting off the nose to spite the face," the editorial continues. "That country is America. According to the latest figures, Soviet purchases in America have dropped sharply after the introduction of stupid measures there to interfere with our trade."

"Recent developments indicate that the Soviet Republic holds a position in world trade notwithstanding various hostile outbursts and can conduct its foreign business according to the interests of its own country and not as desired by its enemies. In proportion with the economic development of Russia our connections with world markets will increase."

"As long as the Soviet Republic and capitalism are living in peace no one can stop this development. Some countries, of course, can cut off trade with Russia, but they will be the losers, not us, as illustrated by the Soviet action against Canada."

TWO PROMINENT CONSERVATIVES WERE HONORED

On Behalf of Conservative Members of House of Commons, Premier Bennett Made Presentation to Major-General McRae and Sam Charters.

OTTAWA, Ont., April 24.—From Premier R. B. Bennett and Conservative members of the House of Commons, Major General A. D. McRae, former Chief Party Whip, was the recipient of a beautiful token of appreciation. The presentation took the form of a very large sterling silver salver, twelve pounds in weight, and bearing the names of the 137 Conservative members elected in the general election last year.

The inscription reads: "Presented to Major General A. D. McRae, C.B., by the Conservative members of the House of Commons as a slight token of appreciation and regard, and in recognition of his invaluable services as Chief Whip of the party which contributed so largely to the victory of July 28, 1930. (Signed) R. B. Bennett, Prime Minister."

In his remarks, Premier Bennett, who made the presentation, paid tribute to the services of Major-General McRae, who expressed his deep appreciation. The presentation was made at a "closed" party caucus.

To Sam Charters, (Peel) Former Chief Parliamentary Whip, a second presentation was made. The gift was a sterling silver rose bowl, lined with gold. The Prime Minister spoke appreciatively of the work of Mr. Charters, to which the member for Peel responded in words of thanks. The sitting was in the nature of a happy party gathering.

BUDGET TO BE PRESENTED ON MONDAY NEXT

Mystery Surrounds Announcement Made by Premier Macdonald in British House.

LONDON, April 24.—Parliamentarians are agog over the latest budget mystery.

Prime Minister Ramsay MacDonald announced in the House of Commons yesterday afternoon that Rt. Hon. Philip Snowden, Chancellor of the Exchequer, would personally introduce the budget on Monday. He followed this with the announcement that the three days following the House would consider "the business arising from the budget speech."

Rt. Hon. Stanley Baldwin, Conservative Leader, was immediately on his feet with a query as to why the formula was changed from the usual phrase—"The House will consider the budget speech."

Premier MacDonald declined to tell the secret. To answer now would mean a revelation of the budget, he said. He was prepared, however, to answer any questions after the budget speech.

"I assure the House it is nothing to raise a flutter of any kind," the Prime Minister said.

"Well, whatever the mystery is we will discuss it on Tuesday," said Mr. Baldwin.

"Yes," Premier MacDonald answered. And with that the House had to be content.

HIS HOLINESS AGAIN LEAVES VATICAN CITY

Greeted by Huge Throngs When He Appeared at Inauguration of New Church College.

ROME, April 24.—For the second time in his reign, Pope Pius XI today left Vatican City to attend the inauguration of the new Propaganda Fide College.

The exit was his third from the Vatican, but was preceded from the Vatican City only by the procession of July 25th, 1929, when he went to the Piazza before St. Peter's in connection with celebration of the Lateran Treaty.

Cardinal Mundelein, of Chicago, whose archdiocese contributed \$1,

500,000 to the new college, officiated at the dedication ceremonies.

The Pontiff left the Vatican City by a side portal in the walls of the tiny state. He travelled in his car, in which he sat alone. A score of other cars following the Pontiffal vehicle bore his suite and cardinals. The Holy Father's departure from the walls was exactly at 10.57 a.m. (4.57 a.m. E.S.T.) and in two minutes he had arrived at the new college, passing enroute before the American Catholic college.

Great cheers came from the crowd assembled at the college buildings for the dedication as the Pontiff appeared, and all uncovered their heads and knelt.

Cries of "Long Live the Pope" seemed like one long cheer which lasted while the group of cardinals and prelates greeted the Pontiff at the entrance to the new building. Cardinal Mundelein was among the first of the churchmen to kneel and kiss the Pontiff's ring.

The Pope alighted from his car and followed the cardinals into the college chapel, up the centre aisle

to the high altar where he knelt in adoration before the Sacrament for several minutes while the choir chanted. Cardinal Mundelein was at his left and Cardinal Pacelli, the Papal Secretary of State, on his right.

He then arose and went to the Papal throne, the choir chanting "Tues Petrus"—"Thou Art Peter," Monsignor Oaccia Dominioni, the Papal Major-domo, and Monsignor Cremonesi, the Papal Almoner, assisted at the Papal throne.

As the Pope entered the chapel he passed through packed rows of kneeling attendants. He wore a white skull cap, a red mantle with an ermine collar and there was visible in the folds of his clothing his sculptured gold cross.

After Cardinal Von Kossum, prefect of the Congregation for Propagation of the Faith, had thanked His Holiness for coming personally to the dedication, the Pontiff replied: "You do not have to thank us, for this inauguration is important enough to warrant our presence here."

Manufacturer

Yes, Ladies and Gentlemen, at prices lower than those of the manufacturer! And here is why: We have too many suits on our hands and we need money. That is the situation in a nutshell. To get the necessary money, we are sacrificing our suits. We are following the example of those who work but three days a week. We have studied the quality of the materials in our suits, we have kept account of the salaries of our personnel and have come to the conclusion that it is impossible for any manufacturer to offer the quality suits as we are at such low prices.

Why! at BEGIN'S

Because Begin gives you more for your dollar. And this fact is easily understood:

Begin's is one of the largest stores in Sherbrooke. It does enough business to allow it to buy sufficient quantities at low prices.

The store is outside of the division popularly known as the business section and its rent is lower than the firms situated in the centre of the city. But the walk to Begin's is not long.

Combining these two factors: — Buying in large quantities and low rent, reduces the sale prices proportionally. And there is another reason: We are of the opinion that a store is to hold the goods it advertises and not a lot of useless fixtures. By buying at Begin's you do not pay the interest on \$5,000 worth of store fixtures.

There is a fourth reason why you should buy at Begin's. The management takes keen interest in seeing that you are fully satisfied with your purchases. He personally sees that you are pleased with what you buy in his store. If you have not already discovered that Begin's is the place to dress yourself, there is no better time to start your "education" than during the present sale.

FUNERAL OF MR. EDDY LONG

ST. MARY'S OF ELY, QUE.
April 23.—The funeral service of the late Mr. Eddy Long, whose death occurred after a short illness at the age of fifty-five years and seven months, was held in St. Mary's Church, Thursday, April 22nd.

The deceased leaves to mourn his loss his wife, Mrs. Eddy Long; five children, Willie, Beatrice, Edsel, Eugene and Georges; two brothers, Messrs. William and Patrick Long, of Montreal; and four sisters, Katie, Mary, Julia and Agnes.

The funeral was conducted by George Racine, Mayor, as manager. The bearers were Messrs. Uderic Plouffe, Jos. Aillard, Amede Trudeau, Wilfrid Houle, Leopold and Theophile Dupaul.

MR. J. B. McDONALD, GRANTY.

GRANTY, Que., April 24.—John Bernard McDonald passed away at the home of his son, Mr. A. G. McDonald, Denison Avenue, Granty, on Tuesday, April 14th, after a long illness, which was borne with Christian fortitude. The late Mr. McDonald was a son of Jeremiah McDonald, a native of Cork, Ireland, who came to Canada in the year 1844, and his wife, Annie Granty.

He was born at Reading, Pa., on February 11, 1853 and was the eldest of nine children, of whom three girls, four of whom survive, Jerry, of Malden, Mass.; Charles A. and Thomas, of Granty and Mrs. Edward Harvey, of Montreal.

In 1884 he married Julie Barry, of Dunham, Que., who predeceased him on June 3rd, 1923.

In the year 1886 he removed to Granty where he resided for forty-five years until the time of his death.

In 1894, Mr. McDonald was appointed Chief of Police, which position he efficiently held for ten years. He was a home loving man, and kind friend and neighbor and his pleasant smile and genial manner won for him a host of friends. Six sons are left to mourn, Messrs. A. G. McDonald, John B. McDonald, of Granty; Harold J. McDonald, of Toronto; William J. McDonald, of Montreal and A. B. McDonald, of Montreal.

The funeral was held at Notre Dame Church on Thursday morning Requiem Mass was celebrated by Rev. Father Roy, assisted by Father Lacombe and Father Boucher as deacon and sub-deacon. The funeral manager was Mr. M. H. Dunn and the six sons acted as bearers.

Chief of Police Lapierre and Constables St. Martin, Vincent and Gagnon marched in front of the large procession which wended its way to the Roman Catholic Cemetery where the remains were laid beside those of his late wife.

The floral offerings were very

DEATHS REPORTED

MR. S. G. KATHAN, WEST BROME.

On April 17, Mr. Sherman G. Kathan, of West Brome, Que., passed away at his home, following an illness of about one year, during which time he was tenderly cared for by his wife. The survivors of his family were all with him at the last.

He was one of the oldest residents of West Brome and will be greatly missed in the community, where he always took a deep interest in public affairs.

In 1879, he was married to Orpha E. Sweet, who survives him. There were six children from the marriage, Ethel W. (Mrs. Casper Scott), Earl W. and Sherman G. who survive. Almond A., Mildred R. and Ida May, predeceased him.

The funeral, which was conducted from his home, was largely attended and the numerous and beautiful floral tributes indicated the high degree of respect and esteem in which he was held.

The service was conducted by Rev. Rural Dean Gedy. The interment took place in the family lot in the Sweet Cemetery.

The deep sympathy of the entire community is extended to the bereaved family.

MRS. M. B. JUDSON, FORMERLY OF COWANSVILLE.

NAPANEE, Ont., April 24.—Older residents of Cowansville learned with regret of the death of Mrs. M. B. Judson which occurred at her home here on Monday, March 30, after a week's illness of pneumonia. Mr. and Mrs. Judson were former residents of Cowansville, moving to the Ontario town in 1913.

Mrs. Judson, who before her marriage was Miss Florence Purvis, leaves to mourn besides her husband, two daughters, Miss Abbie Judson, R.N., of Toronto, and Mrs. (Dr.) Noel Knapp, Leah, of Lewisport, Nfld., two sons, William, of Brockville, Ont., and John W., who is completing his course in pharmacy, Toronto, three sisters, Mrs. C. Nash, Kingston, Ont., Mrs. John C. Williams, Chicago, Ill., and Miss Clara Purvis, Kingston, one brother, Mr. Stanley Purvis, of Barrie, Ont., and one granddaughter, Miss Patsy Knapp.

The funeral service was held Easter Sunday from Grace United Church where Mrs. Judson had been an active member for many years. She affiliated herself with the choir, the Women's Missionary Society, the Ladies' Aid Society and the Sunday School, giving unsparingly of her time to all these organizations. During the past winter, she rendered splendid assistance to the social service committee of the W.C.T.U.

Interment took place in the Fairmount Cemetery, Sutton. Those from out of town who attended the funeral were Mr. and Mrs. George Hawley and family, Sutton Junction; Mr. and Mrs. Ross Hamilton and daughter, Montreal; Mr. and Mrs. O. McDonald, Sutton; Mrs. Ada Pettis, Cowansville; Mr. and Mrs. W. M. Miltmore, Sherbrooke, and Mrs. George Norton, Sutton Junction.

FUNERAL OF MR. EDDY LONG, ST. MARY'S OF ELY, QUE.

April 23.—The funeral service of the late Mr. Eddy Long, whose death occurred after a short illness at the age of fifty-five years and seven months, was held in St. Mary's Church, Thursday, April 22nd.

A large number of relatives and friends attended the funeral while the associations to which her name was linked attended in a body. Many beautiful floral tributes testified to the loss which the death of Mrs. Judson had created. During the service, her pastor referred very feelingly to the loss sustained by the home, the Church and the community through her death. The choir rendered Tennyson's "Crossing the Bar." Interment was held in Riverview Cemetery.

Mrs. Judson was an ardent and cheerful worker in Church, Sunday School and community wherever her long life was cast and her influence will be felt by those whose lives were touched by her. Her home was ever an open door of welcome and cheer, and besides her immediate family, there are many who will sadly miss her. Her memory and influence will ever live in the hearts of those whose privilege

FREAK ANIMAL REPORTED
AT LEEDS COUNTY FARM

Animal, Half Calf and Half Deer.
Said to Have Appeared at
Rideau Ferry, Near Ottawa.

OTTAWA, April 24.—What is believed to be a hybrid calf—half deer half cow—has been born to a cow on the farm Ambrose O'Meara conducts near Rideau Ferry according to reports here. The freak is shaped in front like any deer and is said to have the head of that animal; the rest of its body conforms to the lines of any other calf.

An order prohibiting the hunting of deer has been enforced for the last five years in Leeds County, in which the hunt of Rideau Ferry is located. As a result, deer have become quite tame and the sight of an antler pasturing with cattle is not uncommon.

With regard to the foregoing, Dr. George Hilton, veterinary inspector general, said yesterday that no case of cross-breeding between deer and domestic cattle had ever come under his notice before. He was inclined to doubt the story from Rideau Ferry.

FRANCE CANCELS VISITORS' TAX

PARIS, April 24.—Beginning on May 1st, the visitors' tax, insofar as it applies to residents of furnished dwellings and hotels, will be cancelled, it was announced today.

RANGOON, BURMA, April 24.—Forty Burmese rebels were killed today in a fight with Punjabi troops at Inbe, near Kama, in the Thayetmyi district. The troops had no casualties.

COMMANDER OF BRITISH
AIR DEFENCES KILLED IN
AN AEROPLANE COLLISION

Distinguished Career Brought to Sudden End by Tragic Death of Air Vice-Marshal Holt—Marked Seventy-Seventh Fatal Accident in Ranks of R. A. F. This Year.

SEAHRST PARK, Sussex, England, April 24.—Air Vice-Marshal Felton Vesey Holt, commander of the air defences of Great Britain, was killed yesterday in an aeroplane collision. His pilot, Flight Lieutenant Henry Moody, also was killed, but the occupant of the other plane escaped injury.

The planes crashed 1,500 feet up, about six miles from Tangmere Aerodrome, and when the aerodrome staff got there both Holt and his pilot already were dead.

The pilot's death was the 77th fatal accident to a member of the Royal Air Force this year.

Vice-Marshal Holt was one of the pioneers of the Royal Air Force and had received the Distinguished Service Order for valor in a distinguished career. He was promoted to his present post on January 1 and appointed "air officer commanding the fighting area of air defence of Great Britain" as recently as April 7.

He gained considerable prominence during the inquiry into the crash of the R-101, inasmuch as he was in charge of the party which made a technical examination of the ship's ruins in France.

Country and Dairy
Produce Prices

MONTREAL, April 24.—First cheese exports of the season to the United Kingdom left Montreal this morning on the Duchess of Richmond. Canada has always shipped a lot of cheese to the British market. A quarter of a century ago the annual exports of cheese from Montreal to the United Kingdom totalled over 2,000,000 boxes, or more than 170,000,000 lbs. Each box representing 85 lbs. Of late years the exports have been declining, and in 1930 the total exports were 849,513 boxes, or 72,208,605 lbs. less than half the figures of 25 years previous.

Some poultry is also being exported this week to England. Best quality chickens, and heavier grades, are being shipped. The local poultry market is steady, a fairly good trade being done. Prices are steady. Dressed lines are quoted to retailers per lb., depending on weight, as follows:

FORMALLY RELINQUISHED
DUTIES AS SPANISH
AMBASSADOR

WINDSOR, England, April 24.—The Marquis Mery del Val called at Windsor Castle yesterday and formally relinquished his duties as Spanish ambassador extraordinary and plenipotentiary to the Court of St. James.

The Marquis was dean of the diplomatic corps in Great Britain. He and the Marquis lunched with the King and Queen.

REDUCTION IN NUMBER
OF CABINET MINISTERS
IS BEING CONSIDERED

(Continued from Page 1)

Government to authorize the Montreal Harbor Commission to proceed with the construction of the wharf it proposed to build at Windmill Point? In order to help the Prime Minister remember the case, the construction of this wharf was part of a programme which was made public several months ago, and which included the construction of a wharf in the upper Montreal harbor, as well as a wharf at this point in the lower harbor. Since that first part of that undertaking has been carried out and a contract let to the Canadian Foundation Company for the construction of the wharf in the upper part of the harbor, I should like to know from the Prime Minister if he will permit the Montreal Harbor Commission to go on with the second part of their programme, which includes the construction of that wharf at Windmill Point?

The Prime Minister—"I do not understand what the honorable gentleman means by asking if the Prime Minister will permit something to be done."

Mr. Cardin—"I can explain if the right honorable gentleman wishes." The Prime Minister—"The honorable gentleman may be very glib at explaining hearsay, but it might be well to confine ourselves to the facts in this case. The Montreal Harbor Commission is a body corporate which from time to time receives authority to borrow money, which money is secured for it by the Federal Government and involves the credit of Canada. At the moment, the construction of a bridge which is recently constructed, and to which the Montreal Harbor Commission pledged its credit, a situation has arisen which is reflected in the estimates this year. I suppose the honorable gentleman realizes that the result of that is to create a financial condition of the Government which the Commission which never has arisen before, and it involves a reconsideration of the whole problem of that port, for if the Dominion of Canada is to be called upon to raise sums of money to pay a deficit resultant from the building of the bridge, it changes the whole aspect of the relation of this Parliament to that harbor, and I need hardly say that the matter is engaging the very serious consideration of this Government, as it would with any government called upon to face a condition of this kind."

"Until that matter has been finally determined and some conclusion arrived at that will enable this Government to deal with that staggering situation, I am not in a position to answer the honorable gentleman's question, further than to say that the Prime Minister does not permit; the Prime Minister, in his position as Minister of Finance, is very greatly perturbed about a situation which he inherited and with which he must deal, and about which the honorable gentleman should be the last man in this House to ask a question."

Mr. Cardin—"In view of the observations which have been made by the right honorable gentleman I think I am entitled to say just a word. All the reasons which have been advanced by the right honorable Prime Minister existed when the contract was given for the work in the upper part of the Harbor of Montreal."

At another stage in the preliminary proceedings of the House today the Prime Minister referred to the appointment of the Royal Commission to inquire into the harbor commissions and which is headed by Sir Alexander Gibb. Some of the officials connected with that commission, he intimated, were already at work, and he expressed the hope that as a result of that inquiry the ground would be laid for some new system of administering the various ports might be devised.

Proceeding further to state his views on the Montreal Harbor the Prime Minister said, in reply to Mr. Cardin: "I can assure the honorable member that the Government was not fully aware of the situation which exists until within the last few weeks when it received the reports it did from the auditors with respect to that condition. I may add, now that my honorable friend has raised the question, that the city of Montreal claims, with respect to the approaches to that bridge, that there are arrears of taxes amounting to \$288,000, and they say that they propose to offset these taxes against the payment which they were to make upon the interest on the securities of the bridge. I may also add, what the honorable gentleman already knows, that even the titles to the properties have not yet been vested either in the Harbor Commissioners, the bridge or the Crown; and that knowledge has only been brought to the attention of this administration in consequence of the audit which is not yet completed."

Mr. Cardin—"That could not be the reason why the work was stopped in the lower end of the Harbor, because it was stopped three months ago."

The Prime Minister—"That was stopped at the time when it was concluded to be desirable to have a report from an eminent engineer on all harbors in this country. And I do recall that the honorable gentleman himself at one time considered this highly desirable. In view of the opinion, which certainly at that moment was my own, now that the Government is in a position to do so it has employed the services of one of the most outstanding firms of engineers in London (that of Sir Alexander Gibb) some of whose staff are now on the ground. A very earnest effort will be made to try to secure the best possible layout in the various harbors to carry on the trade and commerce of Canada. The work that was stopped in the winter was stopped because of the necessity of ascertaining the facts before it should be resumed. But since then the further information which has come to hand as a result of the work of the auditors has introduced a much more serious question into the whole matter and one with which we must be able to deal; because \$1,000,000 a year is a very large sum

FAMOUS RIVIERE DU LOUP
STATION MAY BE REBUILT

Manion Drops Hint to Member for Temiscouata Affairs Would Move Faster if Less Talking Was Done.

OTTAWA, April 24.—At last there is hope of new station at Riviere du Loup. It is safe to say that few railway stations have ever before obtained so much prominence in Parliament as has this depot in Quebec this session.

J. F. Pouliot, witty and persistent Liberal member for Temiscouata, has talked about it at every opportunity since the opening of Parliament, but last night announced he would say no more

CLEVELAND NOW HOLDING DOWN SECOND PLACE

Indians Promise to Prove Big
Threat in Race for American
League Pennant—Detroit Won
a Close Decision Over St. Louis
Braves.

NEW YORK, April 24.—The ball players who are trying to get their teams in the American League pennant race this year are inclined to fear the Cleveland Indians more than several other teams which mere fans consider about as strong. And Cleveland's playing so far has shown they have a good reason for that fear.

Escaping the first general deluge of postponements yesterday, the Indians won their sixth game in nine starts this season to take undisputed possession of second place. Wesley Ferrell, star hurler of the fine Cleveland staff, gave the Chicago White Sox just five hits to win his third victory of the season by an 8 to 2 score. Behind him the Indians hit safely thirteen times.

This was just one sample of how Cleveland has been going through the early games. Ferrell has hurled two full games and parts of two others, winning three and losing one. Brown, Harder and Huddell also have given Cleveland some good hurling. The batting department, with the recruit, Joe Vosmik setting the pace, also has been going at a great clip. Only three times in their nine games have the Indians failed to connect for ten or more hits.

Yesterday's other game produced a tight battle between the St. Louis Browns and Detroit Tigers, two teams which have shown signs of being "dark horses" in the pennant race, but have not had much chance to display the degree of darkness. They have met five times so far out of six games for the Browns and eight for Detroit, and the standing between them is three to two for St. Louis despite yesterday's defeat.

Tom Bridges, the Tigers' recruit hurler, had the better of the mound duel with Southpaw Walter Stewart, who pitched his third full game of the season. Bridges allowed only four hits and Stewart gave two of which came together to give Detroit a one to nothing decision.

Three successive postponements apparently had taken some of the sharpness of the Browns' batting eyes, for it was the first time they had fallen below eleven hits a game. Rain and cold weather throughout the major league portion of the country caused the postponement of all National League games and two in the American. It was the first time any game in the eastern half of the two circuits had been called off.

FOOTBALL
FIRST GAME OF SEASON TOMORROW
The first exhibition soccer game of the 1931 season is scheduled for the Parade Grounds tomorrow afternoon at 3.30 o'clock, when the two local entries, Quebec Central and Sons of England will meet. The Sons of England squad will be selected from the following players: Anderson, Jackson, Webb, Duffy, Dowling, W. Taylor, H. Iyeman, Booker, P. Aclair, R. Bell, Quinn, Miller, L. McHarg, C. Gardner, J.

A thoughtful presentation took place at the banquet tendered in Montreal to the Canadiens Hockey Team, winners of the Stanley Cup for the second time in succession and which is emblematic of the Professional Hockey Championship of the World. In appreciation of retaining the trophy in Canada and for the splendid showing made by the individual players of team, the Gillette Safety Razor Company presented each member of the team with a beautiful razor and complete shaving outfit. Each set was imprinted with the individual's name in gold leaf lettering. The photograph shows Mr. Lavene, Manager of the Gillette Safety Razors, presenting the gift to Howie Morenz, while Cecil Hart, manager of the team, looks on.

A WELL KNOWN COMPANY WILL TOUR CANADA

Sir Barry Jackson's Birmingham
Repertory Company Comes to
Dominion Next Season.

TORONTO, April 24.—Sir Barry Jackson's Birmingham Repertory Company will tour Canada next season, opening in Ottawa on or about October 19th. Cyril Phillips, Sir Barry's general manager, is now on his way to the Pacific coast, stopping off long enough in

Gadner, Foley, Miller, Perron and Smith.

Toronto to arrange with Ernest M. Rawley, for years connected with the Trans-Canada Circuit, to take charge of the forthcoming tour, which will carry the company from coast to coast.

Among the contemplated plays are "The Barretts of Wimpole Street," originally produced by Sir Barry at the Malvern Festival, "Dear Brutus," "Yellow Sands" and "Quality Street." It is quite probable also that the bulk of the company will be made up from the personnel of this year's Malvern Festival, which is being held this August.

Sir Barry will himself most likely lecture through Canada, under the auspices of the National Council of Education, prior to the arrival of his company. Of special interest is the fact that Sir Barry has expressed the desire to open the Canadian tour in the Capital, especially as the Earl of Bessborough, the new Governor-General, is so keenly interested in the theatre.

LUMBERMEN TOLD OF HOW TO ASSIST WHEAT GROWERS

Head of Farm Board Approves
Suggestion that Lumber Be
Sold on Credit to Build Wheat
Bins.

WASHINGTON, D.C., April 24.—Chairman Stone, of the Farm Board, today approved a suggestion by former chairman Legge that lumber manufacturers conduct a campaign of selling their product to farmers on credit to build bins for wheat storage.

Stone said he believed this would go far in avoiding a rush to market wheat at harvest time.

Such control of the surplus, Stone said, would have a beneficial effect on domestic prices.

A discussion is going on as to the best ten years of a woman's age. A colleague of ours say it is from twenty-one to twenty-four.

SCHOOL BOYS FROM BRITAIN PLANNING TOUR

Thirty British Lads This Summer
Will Enjoy Australian Tour.

LONDON, April 24.—An Australian tour, or rather a voyage around

the world, has been arranged for a party of thirty British schoolboys this summer under the auspices of the Public School Empire Tours organization. In a letter to The Times by M. J. Mitchell, noted educationist, chairman of the School Empire Tours Committee, as well as chairman of the League of Empire, the proposed tour is explained. "We propose," he states, "with the encouragement of the High Commissioner of Australia and other officials, to send thirty boys to visit Australia, sailing out by the Panama Canal on August 14 and returning by the Suez Canal at the beginning of January, 1932. On the

voyage round the world they will touch at Wellington, Colombo, Suez (for Cairo), and Malta. But Australia is their main objective, and they will visit each of the six States in turn. "Boys must be over 17 and under 19½ on August 1. The cost of the tour seems likely to be about \$800 or \$850. The director of the party will be a Westminster Master, J. W. Parr. He will have on his staff an army officer and a civilian, who will act as advance agent. "The aim of the tour is twofold: educational in the widest sense and imperial. Boys will, of course, have a full opportunity of meeting Aus-

trallians, old and young, in their homes and at their stations; they will see great scenery, and take part in various kinds of sport."

THE PRINCE WILL DECORATE PRESIDENT CARMONA.

LISBON, April 24.—President Carmona will receive the Prince of Wales in solemn audience at 11.30 a.m. (6.30 a.m. E.S.T.) tomorrow morning at the Government Palace. The British heir will invest General Carmona with the Grand Cross of the Order of the British Empire.
