HEAVY EXPLOSIONS AT PORT ARTHUR.

Russians May be Destroying Ships and Defences Preparatory to Giving Up Place.

RUSSIAN COMMUNICATION OPEN.

Train From North Reached Stronghold To-Day—Rumor of Battle—Three Japanese Armies Advancing—Russians Attack An-Ju—Losses in Yalu River Fight.

London, May 11.—(Special.)—A despatch to the Central News from Liao-Yang, dated today, says: A train hence reached Port Arthur yesterday.

The railway officials say that no Japanese troops were observed near the railroad, but that some Japanese cavalry were seen behind Feng-Wang-Cheng.

ARE RUSSIANS DESTROYING SHIPS.

Tokio, May 11.—(Special.)—Admiral Togo reports since May 6 many explosions have been heard coming from the vicinity of Port Arthur, but their cause has not been ascertained.

The impression here is that the Russians, despairing of their ability to defend Port Arthur are destroying their ships before evacuating the place.

RUSSIANS ATTACK AN-JU.

Seoul, May 11.—(Special.)—A Russian force, estimated to number 200 men, began attacking An-Ju yesterday.

The small Japanese garrison of that place is fighting fiercely.

RUMORS OF BATTLE.

Paris, May 11.—The Matin's St. Petersburg correspondent says it is persistently rumored that there has been a big fight near Mo-Tien-Ling between the Russians and General Kuroki's army. The Russians, he says, lost heavily, Lieutenant-General Sasulitch being among the killed.

NO CONFIRMATION.

London, May 11.—So far no confirmation has reached London of the reported battle near Liao Yang.

One of the Daily Chronicle's correspondents at Shan-Hai-Kwan, under date of May 10, says that the Japanese first army from the Yalu River is already threatening the Russian position at Hai-Cheng. The second army, marching in three divisions, in order to co-operate with General Kuroki, has defeated the Russians near Wafung-Tien with great loss, the correspondent says, and he adds the Japanese artillery was splendidly handled.

The Daily Chronicle notes that there are two Wafung-Tien, one on the railway north of Port Arthur, twenty miles from Pitsewei, and the other forty miles west of Kaiping, on the road to Feng-Wang-Cheng.

JAPANESE ADVANCE.

The Shanghai correspondent of the Morning Post, under date of May 10, says that the Japanese army is advancing in three divisions—the first from Feng-Wang-Cheng, towards Liao-Yang, the second from Palandien and Chuehon to Yung-Yao-Cheng, and the third from Sufiencheng, to occupy Kullen-shin with the object of severing communication with the rear of Liao-Yang, where only small preparations for defence have been made.

Spencer Wilkinson, in an article in the Morning Post thinks there is no inherent improbability in the foregoing suggestion. Three armies are advancing against General Kuroki from: Feng-Wang-Cheng, from Port Adams, via Kai-Ping, and the third to General Kuroki's right, with a view of turning the Russian left, but Mr. Wilkinson adds, it is impossible to say whether the Shanghai despatch is based on guesswork or on authentic information.

ANOTHER REPORT.

Shan Hai-Kwan, May 11.—It is reported that General Kuroki is concentrating troops from Feng-Wang-Cheng, Liao-Yang and New-Chung and Mo-Tien-Ling, under his own command, preparatory to engaging the Japanese. Ma-Tien-Ling is expected to be shortly the scene of a battle on a grand scale.

DESPATCH FROM ALEXIEFF.

St. Petersburg, May 11.—A brief despatch from Admiral Alexieff is issued announcing the re-opening of the railway between New-Chung and Port Arthur. He adds that the telegraph line is being repaired. No official explanation is given to the despatch according to one report, General Stoesel, commander of the Port Arthur garrison, operating from that place, attacked and drove off the Japanese. Another version is that the combined pressure of General Stoesel and the forces of General Kuroki

brought about and whether a battle was necessary to accomplish it are mysteries which Viceroy Alexieff failed to clear up. Viceroy Alexieff's despatch produced a feeling among the people that the defeat on the Yalu and the interruption of communication with Port Arthur should not have been taken so seriously, that General Kuroki never had any intention of making a stand on the Yalu, that the attempt to cut off Port Arthur was an absolute feature of the enemy's plan of campaign and was bound to occur sooner or later, and that the Russians should be thankful that they had time to prepare for the defence of Port Arthur until General Kuroki could relieve it.

The people naturally wish for more details concerning the re-establishment of communication with Port Arthur. All they know definitely is that the railroad has been repaired and that at 5 o'clock yesterday afternoon the first despatch passed over the re-constructed telegraph lines.

ONLY SMALL FORCE.

Chee-Foss, May 11.—A letter received here from New-Chung says the Russians are maintaining only a small force at that place.

Chinese carts are not allowed to leave New-Chung, as they are wanted for use in the removal of Russian effects.

The exportation from New-Chung of bean cakes and other produce is not restricted, and a number of steamships are going there for cargoes.

TO DESTROY GUNBOAT.

St. Petersburg, May 11.—The Associated Press is informed that while the Russian garrison is still at New-Chung the untenability of the position is fully realized and preparations for dismantling the forts and removing the garrison have been completed. The Russian gunboat Sivouch, there will be destroyed. The same thing applies to Hai-Cheng 25 miles southeast of New-Chung.

SUPPLIES ARE SMALL.

Shan Hai Kwan, May 11.—A merchant here, who is in a position to have trustworthy information, has informed a correspondent of the Associated Press that Port Arthur has only coal sufficient to last the warships for six weeks and that the food supply there will feed 8,000 men for three months only.

U. S. GUNBOAT.

Washington, May 11.—The Navy Department has cabled Admiral Cooper, commander-in-chief of the United States Asiatic station, to send a cruiser and a gunboat to Che Foo. This is the nearest neutral port to Port Arthur, but is outside the zone of military operations.

IN HONOR OF BISHOP LaROCQUE.

ENTERTAINMENT AT CONVENT ON ANNIVERSARY OF HIS ORDINATION TO THE PRIESTHOOD.

On Monday evening, the anniversary of the ordination of His Lordship, Bishop LaRoque to the priesthood, which took place thirty-five years ago in Montreal, was appropriately celebrated at Mont Notre Dame, by a very charming literary and musical entertainment. The guest of honor, Mgr. Paul LaRoque, was accompanied by Mgr. H. O. Chalifoux, V.G., Rev. Abbe Gignac, and Rev. Father Herbert, and was received by the Rev. Mother Superior.

The audience was composed of the Rev. ladies of the convent, the pupils in residence, and a few old pupils, invited guests, and a thoroughly enjoyable evening was spent by all present. The programme included piano duos, admirably rendered, choruses, violin solos, and a couple of recitations, from the best French authors, which were well worthy of the applause they received.

At the close Mgr. LaRoque spoke a few words expressing his appreciation of the loyal affection of the pupils of Mont Notre Dame, and his gratification at the worthy manner in which his anniversary had been celebrated.

The Sherbrooke Dairymen's Exchange will hold its first sale of the season, Monday, the 16th, at 2 p.m. in the rooms of the E.T.A. Association.

ST. FRANCIS WATER POWER COMPANY.

Bill to Amend Incorporation Act is Discussed.

MR. G. R. SMITH OBJECTS ON BEHALF OF THE MINE OWNERS OF MEGANTIC.

Quebec, May 11.—Mr. Girard's bill to amend the act incorporating the St. Francis Water Power Company, was discussed in the Legislature yesterday.

Mr. Smith, of Megantic, objected to clause 3 of the bill, the object of which was to replace section 20, of the original act. The clause objected to read as follows: "The company shall so build and place its works, offices and electric lines and all accessories and appliances, belonging thereto to mining lands, in such manner as not to interfere with the working of such mining lands on which they may be erected. Every owner of mining lands may require the removal of the company's works for the purpose of extracting the ores that may be underneath them."

Mr. Smith remarked that there were serious objections to that clause from the mine owners of Megantic, when the bill first passed the House. The company secured certain privileges with the understanding that it would not interfere with the vested rights of mine owners. According to this new clause, every owner of mining lands could only have the company's works removed for the purpose of extracting the ores that might be underneath them. This was next to impossible. The present company had placed electric lines over private property and the mining companies had treated the Power Company fairly, but now these same companies considered that the St. Francis Water Power Company was going too far and strongly objected to the clause which Mr. Smith proposed he struck out.

Mr. Girard regretted to have to differ in opinion with the member for Megantic, who was looking after the interests of his own people while he (Mr. Girard) was also looking to the interests of his people. Mr. Smith was manager of one of the largest American mining companies, while he represented a Canadian company and he did not ask for anything unjust. The present bill was similar to that passed in 1902, only he wanted the French and English clauses to agree.

Mr. Smith replied that the clause complained of was not the same as in the bill of 1902, and if so, why did Mr. Girard want to bring it again before the House. He was not there to represent his own interests, but those of the county of Megantic, and he had letters from every mine owner of that district against the clause.

Mr. Girard continued the debate in favor of the clause, while Hon. Mr. Pelletier and Messrs. Teller and Taschereau spoke against it. The clause was finally struck out on division and the remainder of the bill was adopted in a brief reading.

FOREMAN KILLED AT ASBESTOS.

Scaffolding Gave Way and Shafting Fell.

EVERISTE BOISLARD RECEIVED INTERNAL INJURIES FROM WHICH HE DIED.

Asbestos, May 11.—(Special.)—A fatal accident occurred at the works of the Asbestos and Asbestic Co. yesterday, which cost the life of Everiste Boislard, one of the company's foremen.

A shafting was being erected when the scaffolding gave way. The shafting also fell and Boislard received internal injuries from which he died a few hours later.

He was forty-five years of age and leaves a wife and family. He was a member of the I.O.F.

Coroner Baghand, of Sherbrooke, was summoned and last night held an inquest. A verdict of accidental death was returned.

TO ESCAPE THE ICEBERGS.

White Star Liners Will Change Routes.

OTHER STEAMSHIP LINES WILL PROBABLY FOLLOW SUIT.

New York, May 11.—Owing to icebergs, especially an immense one, estimated to be from 100 to 200 feet in height, and 1,000 feet in length, on the trans-Atlantic routes taken by the principal steamships, the White Star line has notified its commanders that until further notice they will make their courses for longitude 47 degrees west at latitude 40 degrees 10 north. The initiative of the White Star line in changing their routes 50 of latitude (about fifty-eight miles) to the southward of the regular routes probably will be followed by the other trans-Atlantic lines.

MILITIA REPORT IS PRESENTED.

Lord Dundonald Explains the Proposed New Establishment—To Change System in Schools of Instruction.

Ottawa, May 11.—Sir F. W. Borden presented to the House, yesterday the annual report of his department. General Lord Dundonald in his report explained the proposed new establishment to provide 100,000 men constituting the first line of defence. He strongly urges that provision should be made as soon as possible for the supply of ordnance, arms, equipment and ammunition for the hundred thousand, and that action should be taken regarding the securing of rifles and ammunition for the second line of defence. The General emphasizes the importance of the provision of leaders as an important point connected with the efficiency of the militia. He declares that the system of education pursued in the schools of instruction has been very unsatisfactory, and he submits a plan with the object of completely changing the system now in vogue.

All examinations for promotion he says may be divided into five classes. Each class will be carried on throughout the year, divided into courses of twelve days (or more for special arms.)

The first class is for the appointment of lieutenant.

The second class is for promotion to lieutenant-colonel commanding.

The fifth class is for promotion to staff and higher commands.

COURSES OF TRAINING.

A candidate for a commission will be first appointed provisionally, after a course of theoretical work studied at his own discretion, at home and at a school of instruction or to the central camp. Here he will take a twelve days' course in class 1, at the end of which he may take the examination. If he fails to pass, or if he does not feel equal to the test, he may either stay on for another course of identical work or he may go home and come up again later on.

There is a similar course of training for non-commissioned officers, divided into three classes. The first two classes may be held at local schools of instruction, the last must be held at the central camp. This plan for the education of officers has been approved by you and will be carried into effect as soon as possible.

"I look to very good results from this change of system, but as a further means to the desired end I would strongly urge a reconsideration of the scale of allowances to officers and non-commissioned officers attending schools of instruction."

A CENTRAL CAMP.

Lord Dundonald once more emphasizes the importance of a central camp at which the best men of every arm in Canada will be the instructors, the camp to be attended by the permanent corps, the instructional staff of militia and the proportion of the officers and non-commissioned officers of every unit. The district camps, he thinks, should still be held and should be attended by the peace establishment of every unit. He favors giving city corps more opportunities for training in camp.

HIGHER COMMANDS.

The General advocates the establishment of higher commands by the grouping of different districts. He recommends that there be five such commands, designated first class commands, and that the troops composing them be drawn from the following areas:

- (a) Maritime Provinces, including the present districts 8, 9, and 12.
- (b) Quebec, including the present district 5, 6, and 7.
- (c) Eastern Ontario, including the present districts 3 and 4.
- (d) Western Ontario, including the present districts 1 and 2.
- (e) The Northwest, including the present districts 10 and 11.

BIG FIRE AT GANANOQUE, ONT.

Skinner Co's. Factory Destroyed Last Night.

THE LOSS IS ESTIMATED AT \$75,000.

Gananoque, Ont., May 11.—(Special.)—The Skinner Company's Hame and Carriage Hardware Factory was completely destroyed by fire during last night.

The loss is estimated at \$75,000, partially insured.

The brass foundry and warehouses were, also, badly damaged by fire and water.

CASES BEFORE JUDGE MULVENA.

BOY BEGGAR AGAIN ARRESTED—AN ASSAULT CASE—TYPICAL TRAMP.

Octave Mercier, who was arrested for begging last week, and promised to leave the city at once, was again arrested yesterday for the same offence. He is 17 years of age and earns \$1 a day at his trade. He will come before Judge Mulvena in a day or two.

CHARGED WITH ASSAULT.

Virginie Davril, wife of Wilfrid Demers, was before Judge Mulvena on a charge of assault and battery upon Mary Fortier, wife of Ernest Beaudry. The evidence revealed a shocking state of affairs.

The defendant, who is the mother of five young children, was let off with a fine of one dollar or 15 days.

A TRAMP WITH CRUTCHES.

John McWilliams, a typical tramp, hailing from the State of New York, was arrested by the police for vagrancy, soliciting alms, etc. The accused goes around on crutches and is said to be shamming infirmity. He was remanded till Saturday in order to be examined by the jail physician.

GRANITE CUTTERS GET THEIR PAY.

THEIR PLACES, IT IS EXPECTED WILL BE EASILY FILLED.

The granite cutters in connection with the new court house construction, who quite work yesterday, were paid off today.

Mr. Parent, the subcontractor, anticipates no difficulty in filling their places.

THE THIBETANS ATTEMPT SURPRISE.

Mission Had a Narrow Escape.

NATIVES STILL HOPE TO EXTINGUISH THE BRITISH FORCE.

Gyangtse, Tibet, May 11.—The story of the attempted surprise on the morning of the 5th, is most dramatic. The Thibetans actually gained the walls of the compounds. Their shouting betrayed their intention just in time for the defenders to take their positions, otherwise no doubt large numbers of the enemy would have surmounted the defences and an indiscriminate slaughter of those inside would have followed. The sick men in the hospital insisted on joining the fight and the mission servants were valuable, both in defence of the walls and the subsequent chase of the enemy.

THIBETANS OBJECT.

There has been no time yet for the receipt of orders from Brigadier-General MacDonald, now at Chumbi, at least nine days distant. The Thibetans apparently never act in small parties, so that despatch riders are yet able to travel backwards and forwards. Col. Branders' victory at Karola will probably have a great effect, but it is clear that the Thibetans contemplated a combined effort to extinguish the mission for whom, however, not the slightest anxiety need be felt in England.

RESCUED AFTER SIXTY HOURS.

ALL THAT TIME TWO HORSES HAD HELD HEADS ABOVE WATER.

New York, May 11.—Two horses have been taken alive from beneath the ruins of the Universal Storage Warehouse, which was burned last Friday night. They were in the basement, which contained nearly six feet of water, and apparently had saved themselves from death by holding their heads above the flood and near a small window. The horses were found by a fire patrolman sixty hours after the building was destroyed. He quickly procured pails filled with oats and clambered down to their rescue. A runway was soon made and the horses were led out through a window, to the great joy of a large crowd which had gathered.

CHINA AND RUSSIA. THE WAR MAY END IN A DRAW.

A WELL-INFORMED TRAVELLER SAYS EFFECTS OF JAPANESE VICTORIES ON RUSSIANS IS OVERESTIMATED.

Washington, May 11.—"The American press," said a well-informed traveller who has just come from the seat of the Asiatic war, but whose official position precludes the use of his name, "may not be over-estimating the importance of the Japanese victories, for these are remarkable, but it is certainly over-estimating very greatly their effect in crippling the Russians. The war has not progressed nearly so far as most Americans suppose; nothing has yet occurred to make me regard the outlook as at all one-sided. The further westward the Japanese get the more their condition approximates that of the Russians in relation to a base of supply. If the Japanese army, in marching overland from the Yalu region, divides into three columns the Russians will find it out and can mass their men, by moving them up or down the railroad, just where they are wanted. The Japanese army might aim at a number of strategic points on this line, but because marching overland, it must show its hand much earlier than the Russians need to with their railroad. Unless this line of communication can be broken north of the fighting zone, the Japanese will continue to fight at great odds.

"Many of my friends in the East, including a German strategist and a Russian military officer, who has gone over the subject with entire calmness, think that before many months the war will develop into a 'draw game.' Japan will hold certain places from which the Russians cannot dislodge her, and the further efforts of the Japanese to push inland and westward will prove fruitless. Then it will become a question of endurance, and an opportunity for the play of European diplomacy. The Russians are not yet crippled, even on the sea, as most Americans seem to think, although they have met with some humiliating losses.

"The newspaper correspondents in the East have had a hard time. They have been bottled up in Tokio and other Japanese cities for the most part, and treated with Oriental politeness in regular rotation. The Japanese have not wanted them with the army, for the reasons that appeal to every Government which is fighting in dead earnest; at the same time it did not want to offend the representatives of English and American newspapers, whose reports would have so much to do in making public opinion in the countries where Japan must chiefly look for aid. The correspondents have at last been allowed to get near the scene, but under limitations, I understand, to which they were not subjected in the Spanish-American War, and other recent struggles. While I was in Tokio, however, they were still waiting. One day they would call at the foreign office and be informed that efforts were making to press their claims; the next day they would be informed that the general staff had their request under advisement, but had not yet been able to make an answer. Finally, the correspondents were given commissary privileges, which at a high price they found very unsatisfactory, and they were able to see little or nothing. I never knew such a disgusted set of men as these were, but just as I was leaving Japan on the 4th of April the impression prevailed that they were at least to enter the promised land, and from what appears in the newspapers since I have been here I judge that this is the case."

FITCH BAY.

May 11.—The Maple Leaf Society of Fitch Bay, composed mostly of little children, gave a very enjoyable concert in Mr. Clifford's hall last Thursday night. The chief part of the programme was the play of Mother Goose reciting various nursery rhymes while her children acted parts in keeping with them. The rest of the programme consisted of recitations by the children and a dialogue. The concert closed with a candy sale and games. The proceeds were for the children's Cot Fund of the Sherbrooke Protestant Hospital. The manner in which the children carried out their parts reflected great credit on themselves and also on Mrs. F. G. Vial, who had arranged for the concert and trained the little ones for their parts. This is the second concert of the children of this society have given for this purpose.

Ladies costume Cloth

For Our Ladies' Tailoring Department.

Just arrived, direct importation from that centre of fashion, London. These goods, we regret to report, owing to unforeseen delays, reached us just about six weeks late for our season's trade, and as we cannot afford to carry them over the season we are forced to sacrifice our profits.

They are lovely goods. In one, Costume lengths. Look the stock through, ladies. You will not find a length that has not a charming air of distinctive style to it, not ordinary style, remember, but that chic air, that fascinating dash that only the best makers produce.

Ladies' Tailoring Of course, if you do not care to employ us we will gladly sell you the material and you can have your costume manufactured elsewhere, but you ought to see one of our tailored Suits, then you would see what "man tailored by hand" means—the sewing, the heavy iron pressing, a little pull here, a little easing up there. "Shaping"—no other word describes it. That is why our **Ladies' Man-Tailored-by-Hand Costumes Fit and Hang so Well.**

J. R. McBAIN, Ladies' Tailoring Department.

Slabs for the hot summer months delivered to all parts of the city by Fletcher & Ross.

On Sunday last at the church of St. Jean Baptiste, East Sherbrooke, the ceremony of the first communion took place. Seventy-five children, forty-two boys and thirty-three girls received the sacrament at the hands of the Rev. Mr. Vincent, who celebrated mass. The little church was nicely decorated for the occasion with natural flowers, banners, etc., and the singing, which was unusually fine, was executed by Messrs. E. Sylvestre, J. A. Genest, Dr. Gadbois, A. J. Genest, B. A. Dugal and G. Lafleur, while the children in the body of the church assisted. In the evening those who had made their first communion in the morning received the scapular, renewed their baptismal vows, and consecrated themselves anew to the Sacred Heart of Jesus and the Holy Virgin. The singing was in charge of the young girls of the Order of Mary.

INJUNCTION CASE TAKEN EN DELIBERE.

ATTORNEYS ARGUED THE POINTS INVOLVED AT CONSIDERABLE LENGTH.

The case of Wm. Farwell et al vs. the city of Sherbrooke has been taken en delibere.

The argument of the attorney's occupied considerable time yesterday afternoon.

The plaintiffs argued that the resolution accepting the tender of Mr. Arkley for dam at Westbury should be set aside as irregular, that the Council had no power to enter into such an agreement involving large expenditure of money without first submitting the question to a vote of the ratepayers.

The defendants claim that the proceedings of the Council were regular and that the Council had a perfect right to pass such a resolution which did not mean the immediate expenditure of any large sum of public money, not even within the present year.

These gentlemen, who are McGill men, are conducting the preliminary survey, and inform us that on Thursday of this week a gang of section hands will be put to work to cut down the heavy grade between our station and Sweetburg, and that they will, later on, be assisted by a large steam-shovel.

Colebrook, N.H., May 11.—Former Cashier Harry F. Bailey, of the Colebrook National Bank, will be released from the Hillsboro County Jail at Manchester on June 19. Bailey was sentenced to serve a five-year term in November, 1899, for violating the United States banking laws, by permitting depositors to overdraw their accounts to the amount of about \$25,000. Because of good conduct in jail, Bailey will have five months deducted from his term.

TETFOID MINES.

May 11.—Miss E. Bailey left here last week for Sligbrooke, where she is visiting. The Bell Company's men were to have gone to work thirty minutes earlier the first working day in May to keep up the insurance they have accepted this year on account of the excessive rate charged. It is only an accident insurance, with no pay for sickness, only for death from accidents at the mines.

Mr. W. W. Wair is here on a visit to his father, who, while not being out of danger, is improving slightly. Whooping cough and mumps seem to be the prevailing diseases principally among the school children. A slide of dirt occurred in one of the King Bros. pits last week while the men were working, but fortunately it was noticed in time for the men to get away. The Bell Company's steam shovel commenced last week for the summer season under the direction of R. Gilchrist and Duncan Ross.

Morrier has returned to Chicoutimi, after spending a month with his family on London street. Mrs. S. R. Tate, who was taken so dangerously ill last week, has so far recovered that she is able to be up. The Rev. Father Colin, of St. Jean d'Iberville, has been appointed executor of the will of the late Abbe F. E. Beaudreau. Mr. and Mrs. Henry A. Tinker, child and maid, from England, have been in the city for a day or two, leaving to-day for Coaticook. Mr. and Mrs. Audet, of this city, leave Saturday for Quebec, to be present at the ordination of their nephew, Mr. Pierre Dion. Tobin, M.P., Bromptonville, left on Monday morning for Ottawa, to resume his parliamentary duties, accompanied by Mrs. Tobin, and Mrs. F. Campbell, of Sherbrooke. The Rev. F. Venant Charest, secretary of the Agricultural Missionaries, goes to Montreal next week to make arrangements for the annual convention which is to be held this year at the College of Ste. Therese. The regular monthly meeting of the W.C.T.U. will be held Friday at three o'clock at the home of Mrs. Philip Hovey, Montreal street. Owing to the illness of Mrs. Sanderson the parlor meeting has been postponed indefinitely. The Board of Protestant School Commissioners held their regular meeting yesterday at the office of the chairman of the Board, Mr. H. D. Lawrence. It was decided to close the schools of the city on the 23rd and 24th of June for the summer holidays. FUNERAL OF THE LATE WILLIAM JARRETT. The funeral of the late Mr. William Jarrett, which took place yesterday afternoon from his home, Beckett street, was very largely attended. A most impressive service was conducted at the house by the Rev. F. J. Day, pastor of Plymouth Congregational Church, who spoke in feeling terms of the departed. At the conclusion of the service, the remains were taken to Elmwood cemetery and laid to rest. The pall-bearers were Mr. William H. Wiggitt, Mr. Daniel Hallett, Mr. John W. Stocks, Mr. John Atto, Mr. Jas. K. Moy (Waterville), and Mr. Wm. Brooks, all old friends of the deceased. The mourners were Messrs. John and David Jarrett, sons; Mr. Chas. Kennedy, Mr. Chas. Hallett, and Mr. Wm. Duncan, sons-in-law; Masters Charles and Wendell Kennedy, Bruce Duncan and Gerald Hallett, grandsons.

The casket was covered with beautiful floral offerings, from sympathizing friends. The late Mr. Jarrett was a native of Maidstone, Kent, England, and was for many years a respected resident of this city. WATERVILLE. May 11.—The Waterville Cricket Club would like to arrange a match with some neighboring club to be played at Waterville on May 24th. R. Heath, Waterville, is secretary. Mr. S. Gilson has broken ground for his new house. Mr. A. Chamberlain has also got his new house started. Mr. A. B. Little has a house nearly completed, and is going to build two more. We hope others may do likewise, as tenements are very scarce. Mr. John House and family are moving into the village, and will occupy the house they recently built. Mr. Rouben House, who assisted Mr. G. B. Wells so many years in the grist mill, has moved on his farm, recently vacated by Mr. John House. Mr. William Somerville has moved into the new Town Hall tenement. The open air concert given by the Waterville Brass Band, Tuesday night, was exceedingly good, and elicited hearty applause from the people who flocked out of their houses and promenade the street to listen to the music. The Waterville Band has been doing excellent work lately, under the baton of Mr. Turcott, and is an institution of which our citizens are justly proud. A subscription list has been started for the purpose of building a much-needed band stand, which, it is hoped, will be finished and ready for use for the annual Victoria Day celebration. Surely the Band is a worthy one, and deserving of liberal patronage.

CORRESPONDENCE.

THE SPIRIT OF THE PEAK AND HIS NEW CHURCH.

Editor of the Record: Sir,—On your issue of May the 4th I noticed an article signed Citizen, which I feel inclined to reply to. According to the writer's views public opinion has of late materially changed and too in favor of the spirit which I can assure you is highly gratifying after having withstood the fierce onslaughts of many a furious opponent. I repeat it is highly gratifying to at length realize that my good intentions are appreciated. In the Spirit's case history is repeating itself. It is not the first time that truths have been discovered and the discoverers persecuted and defamed, pronounced insane, cranky and heretical. Galileo and Bruno had to stand the persecutions of the church of Rome because they had discovered that which the church was too blind to discover with all its God-given power and intelligence. Lucky for the Spirit she has lived in an age when the power of bigoted religion or what they claim to be religion is not so supreme. Yes, I am more than pleased that at last I am being fairly understood. As the prospects seem to stand to-day I have strong hopes of doing a great deal of beneficent work with my new church and religious newspaper at Dudswell Junction. I shall not spend my time in trying to convince my hearers that infants if not christened are in danger of being lost. I shall not endeavor to make my hearers believe that my church has an apostolic descent, and is the only true church in existence, and that all the other Christian churches are of no account when perhaps I could not prove that my own is of very ancient date, that it would be impossible to trace its descent farther back than say the time of Henry VIII. But the antiquity of a thing is not always proof of real value. In the Spirit's opinion modern things, modern ideas and reason unclouded by a dense veil of superstition are far superior to that which we behold as we look back through by-gone centuries. Citizen seems surprised because he seems to have understood me to say that I was going to allow people to whisper inside my church. He certainly did not understand what I actually meant. I did not say that I should permit whispering during service. If I cannot preach well enough to claim their attention sufficiently to prevent my audience from having any desire to whisper I will give up the business and retire which some of our present ministers had better do I think. My neighbor, Bishop, is highly gratified to think that I have selected him for warden. A large number of the very best people of our townships have interviewed me and have told me that they were ready and willing to give me their moral as well as their financial support. The latter seems to be the most essential now-a-days. To return to the whispering business. I will say that it will be allowed at all times except during service. I do not wish to try to establish nonsensical and arbitrary rules. While carrying on the reformation I am about to begin, I trust that outsiders as well as the people of Dudswell will donate freely to assist the Spirit in carrying on its noble enterprise, the lifting up of mankind to a higher plane through appealing to their better natures through the power of common sense, charity and humanity, superstition and bigotry will find no seat in my church at Dudswell Junction.

SLEEPING SICKNESS.

EUROPEAN OFFICIALS ARE NOW FALLING VICTIMS.

New York, May 11.—The Sun has the following from Brussels: A young Congo official, M. Van der Stichel, died in the Antwerp Hospital on Thursday of the sleeping sickness. From the day of his admission on his return from the Congo all efforts to check the disease were without effect. The trance-like sleep grew longer and longer every day, and finally on Monday he fell asleep again and died without awakening. It was impossible to give him any nourishment while he was sleeping. Another patient, the captain of the Congo steamer, who is in the Antwerp Hospital, is now in the last stage of beri-beri, or the sleeping sickness. M. Dupont, a Congo State doctor, who has had charge of all the beri-beri cases returning to Belgium, points out that the fact that the disease is contagious to Europeans has now been proved. Its progress through the British and Portuguese possessions can be accounted for only by its contagious character. Dr. Dupont considers it probable, though not yet certain, that the element causing it is trypanosomia. A monkey inoculated with this will show symptoms of beri-beri. Three experiments were made, and in each case the disease was transmitted to healthy monkeys by the bites of flies which had been on infected persons. The disease was transmitted by the tsetse fly. Dr. Dupont considers that it can be transmitted by other bloodsucking insects, such as the mosquito.

TWO SEALERS LOST.

TRIUMPH AND UMBRINA GIVEN UP AT VICTORIA.

Victoria, B.C., May 11.—Although the owners of the missing sealers Triumph and Umrina, have heretofore sought to allay the fears of the public, and especially the relatives of those aboard, claiming confidence in the belief that they will yet report, it is now admitted by all persons of the sealing fleet that the chances that these two schooners have survived the March and April gales is now but microscopic, and even officials reluctantly concede that they may be written off to the long list of those from this port who have paid with their lives for the hunting of the seal. "It is a practical certainty that the schooners are no longer afloat," said Captain Jacobson, "conclusively, on returning to port a day or so ago. They would have long since been reported; they could have escaped falling in with some inbound vessel. If not reported from along the coast they would have been from sea. It is safe now to account them lost."

ALBERT MINES.

May 11.—There is to be a supper in the Albert Hall on Saturday, May 14th, in aid of the Methodist church. Mr. Andy Cartwell, from Indiana, U.S., a former resident of this place, is visiting his mother and sister, Mrs. Haggan. Mrs. John Richards has gone to Sherbrooke for a few weeks to visit her son George. The Methodist church choir has again re-organized and are apparently making up for lost time. Mr. John Jackson and his son, Freddie, from Virginia, U.S., were visiting friends here last week. The many friends of Miss S. J. Summeret will be glad to know that after her long period of sickness she is once more able to be up and around. Miss Gertrude Price is home from Sherbrooke Protestant Hospital, where she has been very sick with pneumonia.

TWO MEN IN CUSTODY.

CHARGED WITH THEFT OF \$1,662.50 FROM THE BANK OF COMMERCE.

Toronto, May 11.—William Cruickshank and William Britton were arraigned in the Police Court on Saturday on the charge of stealing \$1,662.50. Jeremiah Wallace, a messenger of the Canadian Bank of Commerce, is the complainant. The case was remanded until to-day. A check for \$1,662.50 was torn out of the Harris Abattoir bank book on January 22. This check was made out in favor of William Hogg, a stock farmer, who lives near Uxbridge, and who has large dealings with the Abattoir Company. It was presented at the head office of the Canadian Bank of Commerce by a young man who was dressed in the regulation drover's dress and looked his part well. The endorsement on the back of the check seemed to be all right, but later it was found to be a forgery. Cruickshank, who was an employee of the company, and William Britton a friend of his, disappeared at that time, and were not seen again in Toronto until Thursday. On Saturday they surrendered to Detective Mackie, and asked him to execute the warrants they knew were out for them. Mackie did so, and, asking them why they came back, received the reply, "We couldn't get any peace, because Pinckerton men were on our trail the whole time we were away." Most of the time the young men were in Buffalo.

MR. STEAD'S VIEW.

HE TALKS OF CONDITIONS IN THE AFRICAN COLONIES.

London, May 11.—Mr. W. T. Stead, who returned to London on Saturday, said that when South Africans were dealt with as Canadians and Australians were Britain would have no trouble with the Boers. The bilingual education elaborated by the Board of Education at home was not working satisfactorily, but the English language was being used as the engine to complete the Anglicization of the children and in the interests of the Church of England. The Dutch Reformed church and the Dutch people were scraping together the money to start schools of their own. Mr. Stead declared that despite Lord Milner cancellation of an appointment with him, both are still on the most cordial terms. Lord Milner was formerly Mr. Stead's sub-editor.

MURDER OF YOUNG MILLIONAIRE.

Found Dead in the Mountains of Virginia.

SIGNS THAT HE FOUGHT FOR HIS LIFE WITH HIS ASSAILANTS. Bristol, Tenn., May 11.—Beyond doubt Edward L. Wentz, the young Philadelphia millionaire, whose body was found on Black Mountain, Virginia, this week and identified by friends of the family, was the victim of a murderous attack. The identification was made by the clothing and by articles Mr. Wentz was known to have in his possession. His spurs, riding trousers, and leggings were readily identified, while within a few feet of his body were a blue-bordered silk handkerchief, bearing the initials: "E. L. W."; a revolver, three chambers of which had been discharged, the eyeglasses worn by the young man and his cuffs from which a pair of valuable buttons had been removed. The body lies as if Mr. Wentz had fallen after a struggle. The head rests on a piece of log, while one leg is doubled back under the body. The position indicates murder. There are holes in the coat that appear to have been made by bullets. Every indication points to a battle between Mr. Wentz and his murderers, in which the victim had fired three shots from his revolver before he was killed. The claws will be taken up at once, with the hope of running down the murderers.

POISONED FAMILY TO CONCEAL THEFT.

LADY'S BEDROOM WAS ENTERED AND \$125 STOLEN.

Halifax, N.S., May 11.—The house of Charles H. Cahau, a prominent lawyer of Halifax, was robbed and a dastardly attempt was made to poison Mrs. Cahau and Miss Hetherington her daughter.

Four months ago, James Rouse, an English immigrant boy, seventeen years old, arrived on a steamer, and secured employment as servant with Mrs. Cahau. In the early morning while the family was asleep, Mrs. Cahau's room was entered, and \$125 stolen. On arising Mrs. Cahau discovered her loss. Rouse was also missing. The matter was placed in the hands of the police and Detective Power ascertained that the boy had left on the early train. The detective proceeded immediately to Truro, and found Rouse asleep in a hotel, where he had registered as James Burchell. Sixty dollars of money and a ticket for Winnipeg was found in his clothes. That night after being served with tea by Rouse Mrs. Cahau and daughter became violently ill and medical aid had to be called. The house dog also became sick. The detective searched the room occupied by Rouse and found a quantity of poisonous drugs and as a result of the investigation, the police are convinced that before committing the robbery, Rouse had attempted to poison the family and dog in case he should be discovered at work. The affair has caused a great sensation, as the Cahans are among the most prominent people in Halifax. Mr. Cahau is prominently identified with the Mexican Light and Power Company.

THE LATE REV. FATHER BOUDREAU.

Funeral Took Place To-Day at East Angns.

REVIEW OF THE LIFE OF THE DECEASED PRIEST.

The body of the late Abbe Francois Edouard Boudreau was taken to East Angus, yesterday afternoon, on a special train, chartered for the purpose by the Catholic Order of Foresters, accompanied by the Rev. Eli J. Auclair, Rev. Father Gagnon, Rev. Father Gervais, of the Seminary, Rev. Father Hebert, private secretary of the Bishop, and Rev. Father Colin, parish priest of St. Jean d'Iberville, who arrived in town yesterday. This morning, Mgr. Paul LaRoque, Bishop of Sherbrooke, with Mgr. Chalifoux, V.G., Rev. Father F. V. Charest and Rev. Father Hebert, left for East Angus to attend the funeral, which took place in the parish church of St. Louis de Westbury. His Lordship, Bishop LaRoque sang the solemn requiem mass, assisted by deacon and sub-deacon, and the church was crowded with the former parishioners and friends of the dead priest. The interment was in the Roman Catholic cemetery at East Angus.

Ordained priest on the 7th of June, 1879, for a number of years he fulfilled the duties of Vicar at St. Timothee, Valleyfield and St. Cunegonde, diocese of Montreal.

Called to the diocese of Sherbrooke in 1886, the late Mgr. Racine placed him in charge of St. Agnes, of Lake Megantic, during the absence of the Rev. M. J. B. Cousineau, in Europe, and on the 27th of April, 1887, of St. Joseph d'Elly, replacing the Rev. M. F. Z. Mondor, who was retiring from the sacred ministry. In the month of October, 1887, he was appointed the first resident cure of East Angus, or St. Louis de Westbury.

After ten years of work, struggle, and self-sacrifice of every description, spent in the parish of East Angus, the late Rev. Boudreau was transferred to the parish of Ste. Anne de Stukely, which he was obliged to leave last autumn, on account of failing health.

He took up his abode at the Seminary in Sherbrooke, not so much in order to take advantage of the skillful physicians, as to prepare for the end, for he well knew that his life could not be prolonged, suffering as he had for three years, with a double malady, his heart and other organs being affected.

About a week ago he was suddenly stricken with paralysis, which rendered him almost completely unconscious until his death.

The late Abbe Boudreau was a man of immense determination, and strong will, whom nothing discouraged, and who invariably carried out his religious plans. His ability to work enabled him to overcome every obstacle that arose in his path.

MARRIAGE AND DIVORCE.

NATIONAL CAMPAIGN BEGUN ACROSS THE LINE.

Philadelphia, Pa., May 11.—The inter-church conference on marriage and divorce, a body representing officially fourteen leading denominations, has issued through its secretary, the Rev. W. H. Roberts, D.D., an appeal to the public, calling attention to several aspects of the divorce question. The paper is the beginning of a national campaign of education, to be followed by efforts to secure the enactment of State laws and ultimately to obtain an amendment to the national constitution.

Already action has been taken by the conference looking towards the prevention of the remarriage, by ministers of other communions, of divorcees, whom clergymen of their own faith have refused to marry. This movement is the first occasion of any sort upon which the representatives of the great denominations have officially come together. The members of the conference include many of the most eminent ecclesiastics and laymen in the churches. The denominations which subscribe to the appeal are: Protestant Episcopal Church in the United States, Presbyterian Church in the United States, Methodist Episcopal Church, Methodist Episcopal Church South, Reformed Church of America, Reformed Church in the United States, United Presbyterian Church, Evangelical Lutheran Church, the Baptist Church, the Congregational Churches, the Universalist Churches, the Unitarian Church, the Reformed Presbyterian Church, the Alliance of the Reformed Church holding the Presbyterian service.

Count St. Michel

Vin St. Michel

(St. Michael's Wine.)

For many years—generations in fact—the wine made from the grapes on the rich soil of the Estate of the Count of St. Michel, near Bordeaux, had been performing wonderful cures of diseases whose root lay in debility and exhaustion. In 1469 the wine cured King Louis XI. after a long illness. It had long been called among

the common people of Bordeaux "The Miracle Wine." In order to extend its benefits, in the year 1661, the Count St. Michel created a trademark and began to put the wine up in bottles for medicinal use throughout France. In later years this "miracle wine" found its way into different parts of Europe and was well known among physicians.

This old trade mark, showing St. Michel destroying the Dragon, remains the same to this day, and is on the label of every bottle of the genuine Vin St-Michel.

The quality of the wine, too, is the same as it was when it cured King Louis XI. If you feel languid and out of sorts try a wine glass of Vin St-Michel three times a day—ask your grocer for it.
