NEW YEAR'S IN SOUTH AFRICA

Situation Considered to be Very Hopeful—Boer Losses for the Year.

Protea, January 2.—In spite of the reverses to the Voortrekkers reported last week, the New Year finds the general situation here vastly more serene than it was a year ago. For instance, last January, the Boer commandants, Kemp and Beyers, maintained a vigorous bombardment of Kaalfontein, a place that placed the entire frontier between Pretoria and Johannesburg, and for miles around, almost as safe as Piccadilly in London or Broadway in New York. The markets here are booming, property sales are of daily occurrence, and seven miles from Johannesburg is selling at \$20 an acre in anticipation of the growth of a great city with electric tramways radiating wide into the suburbs. New industrial and commercial enterprises are being promoted. Work at the mines is now maintained unabated and the supply of native labor is satisfactory. It is understood that 50,000 natives are coming almost annually from Mozambique to pass the

FATAL ACCIDENT.

Windsor Mills Man Killed Yesterday.

WAS STRUCK BY THE MORNING PASSENGER TRAIN.

Windsor Mills, Jan. 2. (Special.)—While crossing the Grand Trunk Railway track, yesterday, at the Bridge street crossing, Mr. Joseph Hill was struck by the 10 a.m. mail train, running west from Sherbrooke. He was hurled against a stone wall, upon one side of the track and instantly killed. Mr. Albert Sykes, who was about sixty feet distant from the unfortunate man when the accident occurred, upon reaching Mr. Hill, found him lying beside the track, with his head and several bones broken. The deceased was a trusted employee of the Canada Paper Company for years, and was universally popular with all classes, needless to say. His untimely death has cast a gloom over the entire community. His widow has the sympathy of all in her sorrow. Mr. Hill has a sister, Mrs. Joseph Stringer, living somewhere in Boston. Dr. Gauthier, deputy coroner of Sherbrooke, came down last night, to hold an inquest. Several witnesses were examined and the inquest was adjourned till tonight, when the inquest will be present and testify.

N.Y. THEATRE FIRE

Keith's Badly Damaged This Morning.

GUESTS AT MORTON HOUSE DROVE INTO THE STREETS.

New York, January 2. Fire was discovered early this (Thursday) morning in the engine room of Keith's Union Square Theatre. The flames were first seen by the engineer of the Morton House, which adjoins the theatre. He ran to the hotel office and gave the alarm. There were 200 guests in the hotel, who were hurriedly notified and made their escape to the street and in the night. The halls and corridors of the hotel were filled with smoke and the guests from the upper floors were compelled to escape their way to the street. So far as known they all got out in safety. Keith's Theatre is a six-story building and the Morton House is five stories, and both are practically the same building. By 2 o'clock the flames had spread with remarkable rapidity, and it seemed as if the firemen would not be able to prevent their spread to every part of the building. At 2:30 a.m. the flames were rapidly spreading through the entire theatre, but had not eaten their way into the hotel. They spread to the eastward, destroying quickly two small stores, and the prospects were that the fire would spread still further in that direction. The guests of the Morton House were taken to other hotels in the vicinity to be cared for, and many of the men had time to go back to their rooms to save their valuables. The excitement in the hotel was added to by the firemen dragging long lines of hose through the halls so that they could get the steam to lay on the rear of the theatre. There were wild scenes in the hotel as the guests, porters, waiters and maids ran screaming to the street. Many of the women fainted and were carried out, but a search of the hotel seemed to satisfy the police that all were able to reach a place of safety. At 3 o'clock the fire had not been checked. LATER DISPATCH. New York, January 2. (Special.) The blaze in Keith's Theatre and Morton House was subdued this morning after \$30,000 damage had been done. A score of firemen were temporarily overcome by smoke. HALF A MILLION FOR A PAINTING. New York, Jan. 2. (Special.) J. Pierpont Morgan admits that he bought Raphael's "Madonna," of St. Anthony of Padua, for half a million dollars. It will not be brought to the United States, as the tariff charge would cost \$100,000. THE SPIRIT THAT WILL MAKE IT. (From the Florida Times.) Contribute to the happiness of your friends; forgive their faults as they should forgive yours; pardon the aggressions of your enemies and make merry with what you have without envy of what others may have, and thereby cause Christmas-time to be glad with the music of laughter.

ROSEBERY'S VIEWS.

His Comment on Public Reception of His Speech.

POLITICAL OPINION TO BE EFFECTIVE MUST BE ORGANIZED.

London, January 2. Lord Rosebery has issued an authorized statement on his recent speech at Cheltenham. In a prophetic note he says regarding the help he is to be given, "I have received a large number of personal appeals, but political action will be effective only if organized and sustained. I want some of the great work of the future to be done in the way of popular education which will be the best preparation for the future." THE TIMES COMMENT. London, January 2. The speech of Lord Rosebery is the most important that has been made in England for many years. It is a masterpiece of statesmanship and a model of political wisdom. The Times interpret it as a pledge that he intends to do his utmost to act upon and win support for his policy. It adds that his words have the ring of a leader who summons his adherents to accomplish a great work, at which he is resolved to labor with all his mind and strength. It should finally extinguish any faint hopes that he would consent to divide authority with Sir Henry Campbell-Bannerman. Some papers hesitate to attach definite meaning to the declaration, or appear still to doubt Lord Rosebery's intention to lead.

TO DIVIDE COMPTON.

Another Scheme to Dismember the County.

IT COMES FROM LAKE MEGANTIC WHICH WOULD BE CHIEF LIAISON OF NEW COUNTY.

Another scheme to dismember Compton County is announced. It comes from Lake Megantic and is set forth by a correspondent of that place as follows: "There is a project on foot to form a new county in this part of the province, with Lake Megantic as the centre and comprising the townships of Winslow, Whittington, North and South Chatham and Ditton in Compton County; Woburn, Clinton, Louise, Ditchfield, Spaulding, Hishborough, Grayhurst, St. Sebastian and Landown in the County of Beauve, but, unlike the movement in Stanstead, it will not affect the representation of either Compton or Beauve counties. The object is principally for judicial, municipal and registration purposes. "There was a public meeting in the Town Hall, Monday last week, to (Continued on Page 2.)

A PROSPEROUS YEAR.

Is Shown by Record of Failures in 1901.

IN CANADA FEWER IN NUMBER AND SMALLER IN LIABILITIES.

New York, Jan. 2.—Reports to R. G. Dunn & Co. show that failures for the year 1901 were 11,002 in number and \$13,092,376 in amount of liabilities, while in 1900 there were 74 insolvencies, involving \$18,018,774, a total of 11,076 defaults and \$13,111,150 liabilities. These figures compare very favorably with the 10,833 failures in 1900, with liabilities of \$17,114,236, of which 59 were banks for \$35,617,563. Manufacturing disasters in 1901 numbered 2,411, with an indebtedness of \$14,200,983, compared with 2,409 in the previous year, owing \$51,702,142, while there were 7,965 suspensions of traders for \$52,060,640, against 7,844 in 1900, with liabilities of \$59,415,592. The defaulted liabilities were 91 cents to each \$1,000 of bank exchanges. A ratio to the number of firms in business shows that the entire of defaulted indebtedness averaged 91.33 for each concern. This amount compares with \$119.63 in 1900, while going back to 1893 the average was \$290.65. In many ways the prosperous conditions in the United States were shared in Canada, for commercial failures in the Dominion were fewer in number and smaller in amount of liabilities than in five of the preceding seven years. As to banking insolvencies the statement was even more favorable, no one of the earlier years making as good an exhibit. All commercial defaults numbered 1,241, with liabilities of \$10,811,671, which compares with 1,355 in 1900, owing \$11,613,208. In manufacturing there were 289 failures for \$3,595,095, against 308 in the previous year, with liabilities of \$3,201,665. Trading failures numbered 1,029, with a total indebtedness of \$6,845,329, compared with 1,010 in the previous year for \$7,252,340.

ROSEBERY FIRM.

He Declines to Unite With the Liberals.

CAMPBELL-BANNERMAN'S DEMANDS ARE NOT SATISFIED.

London, Jan. 2. The air is once more filled with rumors concerning Lord Rosebery's attitude toward the Liberal party. They are stimulated by a statement made by the London correspondent of a Dundee newspaper, that Lord Rosebery has refused overtures made to him by Sir Henry Campbell-Bannerman to join the party. The correspondent adds that Lord Rosebery is resolved to maintain his detached position, declining to join forces with the Liberal party in its present state and the Daily News takes the same view. There is no doubt that Sir Henry Campbell-Bannerman has been in communication with Lord Rosebery and that Rosebery has been unable to satisfy his demands. The Standard thinks that Sir Henry has shown tactical skill in forcing Lord Rosebery to decline co-operation with him, as it will give Sir Henry an advantage in appealing for party support. The Standard also understands that shortly before the Parliament Sir Henry will demand that the Liberal Imperialists declare unequivocally whether they are prepared or not to support his leadership in the House of Commons, a step which is likely to precipitate a crisis in the party. It adds that Lord Rosebery's aim is to create a national Liberal party in which the services of Sir Henry will be useless if he (Rosebery) ever takes office, and that either Mr. Asquith or Sir Edward Grey will be his lieutenant in the House of Commons, more probably the latter. The Chronicle says that Lord Rosebery is evidently determined to force his views, confident of the energetic support of the Liberals. It indignantly scolds the notion of Lord Rosebery abandoning the party.

BOMB EXPLODED

Under Residence of the Czar's Grandfather.

FIFTEEN Nihilists HAVE BEEN ARRESTED.

Kieve, January 2.—(Special.)—A bomb was exploded today, under the residence of Grand Duke Constantine, grandfather of the Czar. Fifteen nihilist students have been arrested. The Chronicle says that Lord Rosebery is evidently determined to force his views, confident of the energetic support of the Liberals. It indignantly scolds the notion of Lord Rosebery abandoning the party.

STOLE FUR COAT.

Bold Tramp Prepares for Cold Weather.

GOT INTO MR. S. FRASER'S COAT AND BOARDED FREIGHT BUT IS CAPTURED.

Quite a sensation was caused at the Grand Central, Tuesday afternoon, about 3 o'clock, when it was discovered, that a valuable fur coat belonging to Mr. S. Fraser, joint probrotonary, was missing. Upon discovery of this fact Mr. Fraser, accompanied by Mr. Gauthier, took the afternoon train for Brompton Falls, having previously learned that three tramps who had been seen in the Grand Central, a little while before, had boarded a freight train going in the direction of Richmond. Mr. Gauthier telegraphed the information, both to Brompton and Richmond, before leaving. On arrival at Brompton, it was learned that the men in question had boarded an east bound train, and were on their way towards Sherbrooke. Mr. Gauthier, then telephoned the police station to have officers at the depot to await the arrival of the freight. The officers were successful in capturing two of the tramps, one wearing the fur coat. They were taken to jail, and will come up for trial before the Magistrate's Court, some time this week.

NOT YET SETTLED.

ANGLO-FRENCH MODUS-VIVENDI NOT RENEWED.

London, January 2.—The Daily Express publishes a cablegram from one of the highest officials of the Newfoundland Cabinet, as follows: "St. John's, Nfld., January 1.—This Government has not considered the renewal of the modus vivendi and hopes there will be no occasion to consider the re-enactment of a measure so detrimental to the interests of the Empire and the Colony. "The Government has not received any advice from the Imperial Government as to what has been done in reference to the negotiations with France, since the Newfoundland delegates left London last May. All the Colony's representations to the Colonial office have been unanswered, and no reply has been received regarding reciprocity with America, although the Imperial Government's desire respecting a discussion of that question between Sir Wilfrid Laurier and Sir Robert Bond (respectively the Premiers of Canada and Newfoundland), have been fully complied with, and the result has been reported to the Colonial Office. The successful management of the Colony's affairs by the present administration is manifested in its financial condition unparalleled in its history. We maintain unimpaired justice to the hands of the only regular justice in the removal of the restriction as to the treaty shore, and trade relations with America, and assure us a position of permanent prosperity. "The Anglo-French modus vivendi covering the lobster question on the French shore of Newfoundland expired yesterday and apparently no arrangement with France is in sight. "Marvin—'Poor Job was sorely tried, but he came out of the ordeal most gloriously.' "Nykott—'Yes, I suspect he was a great smoker. Nothing but tobacco would have reconciled him to his misfortune.'"

HAY DENIES.

THE N.Y. HERALD YARN REGARDING CHINESE INDEMNITY.

Peking, January 2.—The brief diplomatic sensation caused here by the cable announcement that the United States would reduce its Chinese indemnity claim by \$18,000,000 has been ended by a dispatch from Secretary of State Hay to Mr. Conger, the United States minister here, saying the report to this effect was a fabrication. Secretary Hay also said in his message that the American claim is moderate and that the United States was willing to waive its pro-rata share if necessary.

DROWNED IN LAKE.

SAD ACCIDENT AT MEGANTIC ON CHRISTMAS DAY.

On Christmas Day, yesterday, a very sad accident at Lake Megantic, whereby a little girl of five years, a daughter of a Mr. Belanger, of Woburn, lost her life, and Jos. Dion lost a valuable horse, valued at \$125. It appears that Mrs. Belanger and three children came from the States to join her husband, who works in Champlain, and hiring a team from Jos. Dion, with David Lacourse, as driver, they started up the lake to go to their home, and when they came near Woburn wharf, Lacourse noticed water on the ice, he got out of the sleigh to investigate the cause, but not finding anything wrong with the ice, started to drive on, and had only gone a few yards when the horse suddenly pitched head first into a hole formed by two cracks in the ice, and disappeared, and the sleigh being overturned all were thrown into the water. Lacourse, who had a lacerated sore hand, succeeded in rescuing himself and Mrs. Belanger and two of the children, but the little girl had disappeared, and her body was afterwards pulled out of the water, with the sleigh and the body of the horse, and with the reins fastened around one of her hands.

ERLE. January 2.—It is with regret we announce the death of Mrs. Lowe, of Portland, Me., the daughter of Mr. J. H. Thompson of this place, who died very suddenly on Saturday morning, December 28th, Mr. Thompson and daughter, Olive, left on the evening train for Portland, to attend the funeral. Much sympathy is expressed for the bereaved family.

The annual Christmas tree was held in the Methodist church on the evening of the 24th inst. An interesting and pleasing entertainment was given by the young people of the place, after which Mr. and Mrs. Santa Claus arrived in full attire and for once old Santa failed to take a back seat, while Mrs. Santa reigned supreme. A purse containing over eight dollars was presented to the pastor, Rev. J. H. Sellar, by his congregation.

Mr. Will Cole, of Massachusetts, is spending a few days with his brother, G. D. Cole.

Miss Maria Currier is at home for the winter.

A number of our young people came home for the Xmas holidays, among whom were Mr. George H. and Charles W. Gorham, Willie and Austin Good, Miss Mary Gorham and Miss Agnes Jackson.

Miss L. T. Metcalfe is spending her Xmas holidays at her home in Halifax.

The Patrons annual supper and entertainment will be held in Dawson's Hall, on the evening of the 15th of January.

CAREY-COUNTY. A very pretty but quiet wedding took place at St. Patrick's Church, Tuesday morning, when Miss Maria Currier was united in marriage to Mr. Dennis Carey.

The bride looked very pretty, dressed in a handsome gown, acted as bridesmaid, and Master Frank Currier as groom.

The bride was given away by her father, and the groom was conducted to the altar by his brother, Mr. Edward Carey, of Lakeport, N.H. After the ceremony the happy couple a sumptuous breakfast was served. After the congratulations of many friends, they left by C.T.R. for Megantic, to visit relations, and will go from there to Boston, and then to Lacomia, N.H., their future home.

Fuddy—"Don't you consider it the duty of the Government to look out for the people?"

Duddy—"It seems to me things would come out better if the people would look out for their Government a little more."

Grimes—"What in time do you want to buy that paper for? It isn't worth any more just because it has job type all over its pages."

Belcher—"But think of the saving in reading that results from that big type."

CHEESE.—Finest Townships make, 10c to 10 1/2c; finest Quebec makes, 9c to 10c.

BUTTER.—Butter is steady under a fair local jobbing enquiry. Exporters have orders also that permit paying 20c, but find it difficult to get the right quality. Finest Townships fall creamery, 20c to 20 1/2c; finest Quebec fall creamery, 19c to 19 1/2c; western dairy, 17c to 18c; Manitoba dairy, 14c to 15c.

EGGS.—There is a fair demand at steady prices. Strictly fresh, 25c to 30c; selected old storage, 22c to 24c; Montreal, 19c, and others, 17c to 19c per dozen.

POULTRY.—Good to choice fresh killed, dry-plucked turkeys sold at 10 1/2c to 11c; and ordinary stock at 7c to 9c; choice dry-plucked chickens at 9c to 9 1/2c; good at 7c to 8c; and ordinary at 6c to 7c; fowls, 4c to 6c; ducks, 3c to 10c; and geese, 5c to 7c per lb.

DRESSED MEATS.—The demand for dressed meats was limited and the market is quiet but steady. Hindquarters of beef sold at 5c to 7c; forequarters at 4c to 5c; and lamb, at 5c to 6c; mutton, at 3c to 5c; and veal at 5c to 8c per lb.

LIVE STOCK TRADE. London, December 31.—The trade in cattle and sheep was fair, but the market was not so active as it was a week ago. American cattle sold at 12 1/2c to 13c; Canadian cattle at 11c to 12c; States and Canadian sheep at 11c to 12c.

A private cable from Liverpool quoted choice Canadian cattle at 12 1/2c, medium at 11c to 12c, and sheep at 10c.

MONTREAL. At the East End Abattoir market Monday morning the receipts of live stock were 800 cattle, 200 sheep and lambs, and 50 calves. The feature of the market was the weaker feeling that prevailed in common and medium cattle, owing to the increased receipts of the same, and prices since this day week show a decline of fully 4c per lb., but on the other hand the supply of good to choice stock was limited, and values for such were steady. The attendance of butchers was large, but trade early was slow, as holders asked full prices, which buyers would not pay and held off until the above reduction was made, when purchases became more active, but as the offerings were in excess of the requirements, some were left over at the close. Choice beefs sold at 4 1/2c, good at 4c to 4 1/2c, fair at 3c to 3 1/2c, common at 2c to 3c, and inferior at 2c to 2 1/2c per lb.

The demand for sheep and lambs was good, and as the supply was small, prices show no change. Sheep sold at 3c, and lambs at 4c per lb. The calves offered met with a fair sale, but as they were only of poor to medium quality the prices realized were low, ranging from 2c to 4c each. There was no change in live hogs, for which the demand was good, at 6c to 6 1/2c per lb., weighed cars.

STILL HOSTILE TO FOREIGNERS. London, Jan. 2.—Bishop Anzer, of Shan-Tung, says the Berlin correspondent of the Times, reports that, in spite of the respect with which he was received by the Chinese on his return, he detects hostility among them toward foreigners, more bitter than before the war. He declares that the course of the allied troops further intensified the hatred of foreigners.

CHINESE Hesitate to Abandon Inland Taxation. London, Jan. 2.—A despatch from Shanghai to the Times says it is difficult to forecast the result of the negotiations for the revision of the commercial treaties. While the Chinese realize the necessity of obtaining higher import duties, which they hope eventually will be raised to 15 per cent, they do not entirely recognize that the time has come when such an arrangement must be balanced by bona fide guarantees of no further taxation inland. The Wu-chang viceroys has frankly stated that the Chinese will not consent to the abolition of the Likin Barriers for native trade.

RUSSIAN EFACINATION DESIRED. National Unionists in Tokio Adopt Manifesto as to Manchuria. London, Jan. 2.—A despatch from Tokio to the Times says the National Unionists has unanimously adopted a manifesto declaring that Russia's continued occupation of Manchuria is incompatible with the re-establishment of tranquility in the Orient, and announcing the conviction that the time is ripe for insisting on complete evacuation of Russia. This policy, the manifesto declared, would be supported by the Japanese nation.

RUSSIA TAKES TELEGRAPHS. Action Causes Clash with Foreign Consuls at Niuchwang. Peking, Jan. 2.—The Russians have secured control of the telegraphs and cables at Niuchwang. This action is causing disputes between Russia and the foreign consuls at Niuchwang.

AN ARTIST'S DEATH. Well Known Scotch Painter Succumbs to Starvation. London, December 31.—The Evening News prints the following despatch from Belfast: "A well known Scottish artist, John Dalrymple, died of starvation here on Christmas night. His body was found in miserably squalid surroundings. Dalrymple exhibited at the Royal Academy and took three first prizes for designs at the Paris exhibition."

RELIGIOUS RIOTS. A Serious Outbreak in One of the Hebrides Islands. London, Jan. 2.—The island of Lewis, the northernmost and largest island of the outer Hebrides, has been the scene of serious religious riots, arising from the union of the Free and the United Churches of Scotland. The islanders refused to countenance the alliance, and when the minister at Ness joined the United Church they locked him out of his church. A strong force of police was sent over from the mainland to open the doors whereupon the islanders congregated, and throwing volleys of stones at the constables, drove them inside the building and bombarded them with rocks until they capitulated and agreed to leave the island. Every member of the police force was more or less seriously wounded.

It is probable that a detachment of troops will be sent to subdue the rioters.

Harris—"I say, Charley, you've got a tremendous cold. How in time did you get it?"

Thompson—"Standing on the sidewalk while Yawler gave me directions how to prevent taking cold."

MOSQUITOES AND FEVER. THEORY SUSTAINED BY FURTHER EVIDENCE. Washington, Jan. 2.—The public health bulletin for the current week contains reports to Surgeon General Wyman from officers of the Marine Hospital Service on the theory of Finlay that the germs of malarial and yellow fevers are transmitted by the bite of the mosquito. Dr. Gorges, chief sanitary officer at Havana, reports no cases of yellow fever deaths from that disease in the Cuban capital during the month of November, a condition not occurring since 1762. This result Dr. Gorges attributes to the system introduced last February of killing infected mosquitoes in the neighborhood of each point of infection as it occurs, with the result that the mosquitoes in Havana this year are only about one-tenth as numerous as last year.

Dr. H. D. Gouvea, who has had thirty years' practice in Brazil, in a paper in the Paris Medical Bulletin on the relation of mosquitoes to yellow fever, concludes that the conditions under which the disease has been propagated in Rio de Janeiro and Sao Paulo have at all times been such as to fulfill the requirements of the Finlay theory. While an epidemic of yellow fever was raging in the lower portion of Sao Paulo the higher section, where there were no stagnant pools and no mosquitoes, was exempt, and not a single case of transmission had ever been observed among the attendants at the yellow fever hospitals.

Surgeon Kerr at Hong Kong reports a series of experiments with mosquitoes made by Dr. J. C. Thompson, an English expert there, who examined 31,300 mosquitoes. A chart accompanying the report shows their relative prevalence of malaria and anopheles mosquitoes. The anopheles curve reached its lowest point in February and its highest point in July. The malarial curve, based on the presence of the American troops in Hong Kong, also reached its lowest point in February and its highest in July.

DOWN ON PRIARS. The Filipinos Make a Demonstration at Manila.

Manila, December 31.—There were memorial services and a procession here today, in honor of Jose Rizal, the Filipino leader. The services were celebrated on the Luneta, where Rizal was executed by the Spaniards, December 30th, 1896. The procession called at the Town Hall, and acting Governor Wright addresses a few words to those who took part in it.

The manifestation was chiefly remarkable for the intense hatred displayed towards the Priars. When passing the Augustinian monastery, the processionists cried: "Your power is dead," "Go home," "We don't want you here," "The blood of the martyred Rizal is avenged," "We have witnessed your humiliation," and other cries.

Dr. P. C. McKee, of Boston, is home on a visit.

Mr. Russ Bullock was in Montreal this week visiting his mother, Mrs. E. Bullock.

While out driving the other day, Mr. Peter Corley's team collided with that of Mr. Charles Buckland, of Barnston. The shaft of Mr. Buckland's sleigh was returned away and carried in the harness of Mr. Corley's horse for some twenty rods before he could bring the animal to a standstill. Mr. Buckland was thrown out, but escaped without serious injury, while his horse was caught a short distance down the road. The sleigh was a total wreck.

Little Ralph McCutcheon fell from his high chair the other day, dislocating his shoulder and fracturing his arm in two places. At present, the little fellow is as comfortable as possible.

Mr. Ernest Boyle, of Quebec, is spending a few days in town, the guest of Mr. Howard Lovell.

The R.S.T. drive which was to have taken place New Year's day has been postponed indefinitely.

The City Band was out on New Year's morning, discoursing sweet music to the public. It was their intention to call on the mayor and councillors as has been their custom every 1st of January, but on account of the bitterly cold weather they had to disperse after playing a few selections on Main and Child streets.

Mr. E. L. Skeper and Mr. L. B. Belshe, of Sherbrooke, spent New Year's in town and assisted the band.

A very pretty wedding took place at 9:30 o'clock on New Year's morning, when Miss Minnie Ayling and Mr. R. P. Moffatt, both of Magog, were united in marriage. The ceremony took place at St. Stephen's church, the Rev. Albert Stevens officiating. The bride looked very sweet and bride-like in a gown of pure white organdie muslin with trimmings of valenciennes lace. She was attended by her sister, Miss Rose Ayling, who was prettily attired in pale blue organdie muslin. Mr. Thomas Osborne, of Magog, performed the duties of best man. After the ceremony had taken place, the bridal party drove to the residence of Mr. Harry Bridgman, (brother-in-law of the bride) where a sumptuous wedding breakfast was partaken of. The happy couple left on the afternoon express for Montreal and other points before taking up their abode in Magog.

The bride's going away gown was of navy blue lilies cloth with jacket to match, trimmed with grey persian lamb. A navy blue velvet toque with grey breast and blue silk trimmings, completed a very handsome travelling costume. The Misses Mary and Lizzie Ayling, of Island Pond, were also present at the wedding and are now the guests of their sister, Mrs. Harry Bridgman.

MAJOR HENEKER'S OPERATIONS.

London, January 2.—A despatch from Bonny, Africa, says Colonel Montanary entered Arochuku on December 24, with Major Heneker's column, and burned the town. Six important chiefs surrendered. The enemy is now between the columns of Col. Fontenay and Major Heneker. The enemy's losses were severe. The British casualties were slight.

Farmer Jones—"I tell you, there's nothing like corn beef and cabbage to make a man of you. It's the healthiest stuff a man can put into him."

His nephew from the city—"You mean, I guess, it is food that only the healthiest of men can eat and live."

RICHMOND.

January 2.—Mr. Frank Moral, of St. Claude, had a very narrow escape from death, Tuesday morning. He was driving pulp wood out of St. Cyr's siding and was coming down the hill to the siding, which is the longest and steepest incline on any road in the county, when some of the pulp wood fell off the front of the load, striking the horses. The terrified animals dashed forward at breakneck speed. In trying to turn a short curve of the hill, horses, wood and driver were hurled over a very high bank. The harnesses were torn to shreds and the sleds splintered into kindling wood, but neither the man nor horses were badly damaged.

Mr. Jeff Davis and wife, of Tilton, N. H., who spent the Xmas vacation with Mr. W. M. Davis, Richmond, have returned home. Jeff is another successful Richmond boy.

Master Sid Dalton, of Winnipeg, is visiting at "The Cedars."

Mr. P. X. and Mrs. Duplessis are visiting the doctor's mother and sister in Ottawa, but as compulsory vaccination will likely be in operation on the 3rd inst., and the doctor is medical health officer, he will return today.

Mr. H. Girard, N.P., is spending his vacation in Montreal.

Next Sunday morning in the Methodist church will be held a roll call and covenant services. Notices have been written to the members asking each to kindly respond to the call of the name to show church relationship. There will be held the impressive Methodist covenant service after which the annual membership cards will be distributed by the pastor.

ULVERTON.

Jan. 2.—A very interesting and successful Christmas tree entertainment was held here in the Methodist Church, last Tuesday evening. The church was decorated with evergreens and loaded with gifts for all. After many recitations, dialogues and singing by scholars and church choir, a fine address was given by the pastor, Rev. Mr. Mossup. Previous to the unloading of the tree, purses were presented to Rev. and Mrs. Mossup, and Miss Marion Reed, and a handsome lamp to Mr. Cyrus Husk, superintendent. Prizes were distributed to scholars, who had learned the greatest number of Bible verses, also, to those most regular in attendance at Sunday School.

The Congregational Church Christmas tree entertainment, last Thursday evening, was a great success.

HATLEY.

Jan. 2.—The new pups for St. James Church have arrived and are being put in position this week.

In accordance with an order from the Provincial Board of Health, the Council of this municipality will pass a by-law compelling all persons (with legal exceptions) to be vaccinated against small-pox at once. Council meets in special session for this purpose, on Tuesday, Dec. 31st. As there seemed no immediate danger from this dreaded disease, the Council has hitherto refrained from enacting such an arbitrary law, but now there seems no escape from it.

On Sunday night, E. Desinde, who has been ill all winter, died at his home in the village.

"CONSUMPTION IS CURABLE."

The Positive Opinion of a French Physician.

Washington, Jan. 2.—Our consul at Lyons, France, has transmitted to the State Department a translation of the report of a French parliamentary commission in the causes, curability and prevalence of tuberculosis in general and in France in particular, where 150,000 deaths from the disease occur annually.

According to the report neither the breath of the consumptive nor the air which he exhales transmits the disease. It is the spittle, dried and reduced to dust, which is generally the agent of contagion. This dry spittle clings to the walls, furniture and floor of the patient's room for months and even years, but sunlight in a few hours destroys the bacilli.

Alcohol, according to the report, makes the best bed for tuberculosis. The departments of France which are the greatest centres for tuberculosis are almost always those in which the consumption of alcohol is highest. The report declares that consumption is curable at all stages. Dr. Darberg is quoted as saying: "During the last ten years I have cured a number of consumptives, who have resumed their occupations, married and had healthy children. I myself am the consumptive that I know the least whom I have cured. I am, therefore, able to say that consumption is curable." Pure air, such as is found in seashore and on high mountains, is the best remedy for consumption, but the remedial process is long and must be continuous.

QUEBEC'S PORT.

THE HARBOR COMMISSIONERS TO INTERVIEW GOVERNMENT. Quebec, January 2.—Mr. Boswell, chief engineer of the Harbor Commission, acting under instructions from the Quebec Harbor Commissioners, has sent to Ottawa plans of improvements which would afford all the accommodation and facilities required, should the Canadian line of steamers come to this port, and it is stated that next week the members of the commission will proceed in a body to Ottawa to hold a consultation with the Government, and urge upon it the necessity of proceeding with the work of these improvements without delay.

Judging from appearances, Captain A. D. Wolvin, of Buffalo, will shortly decide to make the port of Quebec the terminal point of his transhipment of grain from the great lakes to European markets. Negotiations with the Harbor Commissioners will be resumed tomorrow afternoon. There is every possibility that steamers with grain from the lakes will come to Quebec the coming spring. Mr. Wolvin and Mr. Smith, his manager, had a conference with the officers of the Great Northern Railway Company, and it is stated an understanding has been arrived at which is satisfactory to both parties with reference to the leasing of the railway company's new grain elevator.

ADDRESS KWANG SU, JUST OUTSIDE PEKIN.

(From the Louisville Courier Journal.) The Chinese Government wants to employ an American adviser at a salary of \$15,000 a year. There will be no difficulty in securing a man. There are several million Americans who are generally engaged in advising their own Government gratis.

Prof. J. H. Cornyn. Another young Canadian, J. H. Cornyn, has been making quite a reputation for himself late as a writer of stories of Mexico and Mexican life. Prof. Cornyn has two volumes of stories now in the press. One is a collection of short stories of the Mexican people, and the other of Mexican fairy tales. These stories, or fairy tales, are all based upon the early Aztec history, which is full of the marvelous. Prof. Cornyn is a recent graduate of Toronto University, with honors in modern languages, and is now director of the American College in Mexico, editor of the Tierra de Mexico, a paper published in Spanish, and representative of the Scripps-McLure League, and also of several other American papers. He is about 30 or 31 years of age, and was for a short time on the staff of Toronto papers. From Toronto he went to New York and continued his journalistic work before going to Mexico.

De nav dek. At the last meeting, the British Association Mr. John Ojiatekha Brant-Sero, a Canadian Mohawk from the Brantford reserve, read a most instructive and interesting paper on Iroquoianity, the law-giver of the Caniaghwas. Mr. Brant-Sero is one of the Indians who felt so bitterly the refusal of the Imperial authorities to allow an Indian contingent being sent to South Africa last year, and The Times printed several in praise of his letter from him on the subject. I found most interesting little book from the pen of Mr. Kirby, the author of "The Golden Dog," on the subject of the early history of Niagara, and the Indian tribes which then swarmed over the Niagara Peninsula. What a thousand pities it is that we have not more from that author, whose pen can give to the most commonplace of subjects an interest peculiarly its own.—Lally Barnard, in The Globe.

A Question and a Query. Amongst the guests at a wedding breakfast was one whose continued rudeness made him extremely objectionable to the rest of the company.

His conduct, though high unbecomingly, was put up with for some time, until he held up his fork, a piece of meat which had been served to him, and remarked, in a vein of intended humor: "Is this pig?"

This immediately drew forth the query from a quiet-looking individual sitting at the other end of the table: "Which end of the fork do you refer to?"

CITY NEWS.

(Continued from page 1.) Capt. Penhale, of Black Lake, is in the city today on business.

Mr. H. E. Waite, of Lebanon, N.H., is in the city today on business. Mr. A. P. Desève, of Magog, is in town today, the guest of his uncle, Mr. O. Desève.

Dr. Wm. S. Allen, Dentist, Bell Telephone Bldg., 31 Wellington, Sherbrooke, Tel. 303. Night and day attendance.

Mr. Wm. Learned, of Cookshire, passed through the city today, on his way to the Ormstown branch of the E. T. Bank, where he is doing duty for the present, after spending the holidays with his family.

Miss Hartley writes from Boston to G. A. LeBaron as follows: "The Gerhard-Hentzman Piano you furnished for the concert in Sherbrooke, last Friday evening, is one of the finest Upright Pianos I ever played upon." Miss Hartley congratulates Mr. Hentzman as a manufacturer and Mr. LeBaron as a dealer.

Messrs. H. A. Wise and his brother, Mr. Geo. Wise, who were burned out at their home on the Beckett road, some weeks ago, losing everything they had, have decided not to remain in Compton, where they went after the fire, and have taken a few rooms in the house of a farmer named Davis, until spring, when they hope to be able to rebuild their home.

As the spirited horse belonging to Dr. E. J. Williams was being brought by his servant from the stable to his door, yesterday, the animal suddenly bolted and ran up Melbourne street. The man, who was walking and holding the reins, retained his grasp, and pluckily managed to climb into the sleigh, but a sudden lurch threw him out, and the horse tore up Prospect street, and ran for some miles into the country, bringing up at a farm house, without any damage either to himself or the sleigh, or to any other vehicle, although a collision seemed inevitable once or twice. All's well, however, that ends well.

At High Mass on New Year's day, the Feast of the Circumcision at St. Michael's Cathedral, the Rev. Father Dupin was celebrant. The sermon was preached by Rev. J. A. Gignac, rector, who wished his parishioners "a happy New Year." His Lordship Bishop LaRoche was on the throne, and at the end of the sermon Mgr. LaRoche gave the Episcopal blessing. After High Mass a large number of the French and English citizens paid their respects to His Lordship of Sherbrooke, Mgr. Chailouk, V.G., and the Rev. clergy at the Bishopric. Among the visitors was His Worship Mayor Worthington. At 7 p.m. Vespers was sung with the Benediction of the Blessed Sacrament. From the statistics of the parish of St. Michel de Sherbrooke, which comprises this side of the river St. Francis, and about 38 families in Orford, it appears that in the course of the year that has just closed, there were 296 births, 61 marriages and 150 burials.

YESTERDAY WAS A COLD NEW YEAR'S FOR TAMMANY. New York, January 2.—Mr. Seth Low, former mayor of Brooklyn, and president of Columbia University until he gave up that office to become a candidate of the mayoralty on a fusion ticket, became mayor of New York yesterday. At the same time there was an almost complete turning over of city and county offices by Democratic incumbents to the candidates elected on the fusion ticket in November. The changes in elected officers included the district attorney, the comptroller, the presidents of the boroughs, the sheriff, the county register, and the county clerk.

Of the successful ones all were candidates on the fusion ticket except the presidents of Bronx and Queen's boroughs, where the Democrats were successful. Of the appointed officers, the important changes included the retirement of Police Commissioner Michael C. Murphy, who was succeeded by John N. Partridge, and the appointment of George L. Rives to be corporation counsel in place of John Whalen. Of the thirty-five district leaders of Tammany Hall, eighteen lost their places in the public service yesterday.

CUBA'S ELECTION. Thos. Estrada Palma Has Been Elected First President. Havana, Jan. 2.—The indications are that the entire Palma ticket will be elected, and that Thos. Estrada Palma, the Nationalist candidate, for the Presidency of Cuba, will receive the unanimous vote of the Electoral College.

The adherents of General Bertolome Maso (the Democratic candidate who recently withdrew from the campaign) not only withdrew their candidates, but refused to go to the polls.

A remarkably light vote was polled throughout the island.

A Discussion described this indifference to the certainty on the part of Palmists of being victorious, and that consequently the majority of them remained at home, and did not vote.

La Lucha says that this light vote can be taken as a protest from the Cuban people against the imposition of official candidates.

The Diario de la Marina says that the result is an indication that the Cuban democracy may look upon the American policy as inevitable.

Mrs. Greene (apropos of the Beggar). "My heart goes out in pity for the poor woman. I do wish we could do something for her."

Mrs. Brown. "So do I. Is n't it fortunate that we didn't see her before we did our shopping? How were spent our money, you know?"

Mrs. Greene. "Isn't it funny? That was the very thing I was thinking."

THE SURGEON'S KNIFE

Mrs. Eekis Stevenson of Salt Lake City Tells How Operations For Ovarian Troubles May Be Avoided.

"DEAR MRS. PINKHAM:—I suffered with inflammation of the ovaries and womb for over six years, enduring aches and pains which none can dream of but those who have had the same experience. Hundreds of dollars went to the doctor and the druggist. I was simply a walking medicine chest and a physical wreck. My sister residing in Olden wrote me that she had been cured of nearly all pain had left me; I rarely had headaches, and my nerves were in a much better condition, and I was cured in three months, and this avoided a terrible surgical operation."—MRS. ECKIS STEVENSON, 250 So. State St., Salt Lake City, Utah.—\$6000 forfeit if above testimonial is not genuine.

Remember every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Mrs. Pinkham's address is Lynn, Mass.

SPORTING NEWS.

DEFEATS WESTMOUNT. SHERBROOKE LENNOXVILLE TEAM WINS NEW YEAR'S MATCH.

The exhibition hockey match, between the picked team of Sherbrooke and Lennoxville, and Westmount, of Montreal, was played last night, in Minto rink, Lennoxville. The ice was very good and there were a good many spectators, many going up from Sherbrooke. In the first half, it looked as though it would be a very even match, as the score stood 3 to 2 in Sherbrooke's favor, but in the last half it was very one sided as the score indicates. The following was the team that upheld the Sherbrooke-Lennoxville interest: Goal, Roque; point, S. Kennedy; c. point, Carter; and the forwards were, Gill, Povey, Wiggitt, and S. Kennedy. Roque played a good game in goal, but could be a little more careful. Wiggitt played a good game, but a little too individual. Carter was hard to pass at c. point, Sam Kennedy played well at point, and the forwards Gill, H. Kennedy and Povey played well for the first match. The Westmounts played good clean hockey and have a good forward line.

THE WISDOM OF HANNA. (From Wade's Fibre and Fabric.) Labor can get along without capital, but capital, cannot get along without labor. In a few years more, if let alone, labor would paralyze any industry, in fact all industries, and Mark Hanna can see that. He knows that it is wiser to lock the stable door before the horse is stolen.

Hanson.—"There was a time I couldn't abide Pudge; but I declare if he hasn't become really agreeable of late." Tryter.—"You don't mean it."

Hanson.—"Yes; he hasn't called at my place for a month or two."

A LARGE IF

If every store sold the same kind of clothing, very little care would be necessary in purchasing. But there is an immense amount of "Bargain" that is made to sell and not to wear. Such sweat shop work is costly at any price. It is this "bargain" trash which the buyer must avoid. When it comes to honest clothing our prices are the lowest.

When you pay hard earned cash

Mr. Henry Lalumiere is well known in Cookshire, and many of the citizens of this place were very sorry to learn of his trouble, but he is all right now. Here is what he says about it: "Last week, I caught a sudden cold, had a sore throat and a very bad cough. I used one bottle of Smith's Indian Cough Syrup and Grip Killer. It fixed me all right. At once I advised any of my friends who take cold to try that wonderful remedy. I never saw anything like it before for cough and cold."
