CLIPPING.

We will furnish any of the undermentioned periodicals with the Journal, for the price mentioned in the second column of figures.

LOUISIANA.

Recent events in the state of Louisiana have attracted a good deal of attention to that State. It will be remembered that there has been a good deal of trouble there for several years.

The Kellogg government, so called, was supported by the Federal authorities, although there was a question as to the legality of the election.

The strife and animosity engendered have been very disastrous to the welfare of the State, already burdened by the effects of the rebellion.

The Kellogg party. Notwithstanding this the opposition claim and probably have a majority of the members.

The returning board have kept the matter in their hands almost up to the time of the meeting of the legislature on the 4th inst., and it is charged, have manipulated the returns in the interest of their friends.

The following is the order issued by Gen. Sheridan on assuming command:

HEAD-QUARTERS, MILITARY DIVISION OF THE MISSISSIPPI, NEW ORLEANS, JAN. 4, 1875.

General Order No. 1.—Under instructions from the President of the United States, communicated through the adjutant-general of the army, the undersigned hereby assumes control of the department of the Gulf, consisting of the states of Louisiana, Arkansas, Mississippi, and embracing Fort Jefferson and Key West, Florida, excluding the posts in Mobile bay, which will hereafter constitute one of the departments of the military division of the Missouri.

"Bible Christians."

A recent event in England is suggestive of the above title, are the followers of an elderly woman whom they consider a prophetess.

They started with the platform of the brotherhood of man and the immediate advent of the Messiah. About two years ago, a wealthy spinster became a convert, and flung her purse into the common fund; they then bought an estate of 35 acres of land on the borders of the "New Forest," near Lynton, and from fourteen believers at that time had increased their number ten-fold.

They were unlike the American Shakers in some respects. They hold sundry doctrines in common, it is true, such as community of goods, celibacy, the death of all natural relations (such as husband and wife, father and son) separation from the world, the inner voice, and dancing as a mode of worship.

But one thing would suffice to distinguish them—they do not make money. Here they dwell, all these people, on about 35 acres of not very good land, tilling the soil for sole subsistence; never selling anything, but living on their own produce.

They were a mortgage and no money to meet it, still they said, "The Lord will provide." With more than modern faith, subsisted for weeks on beans and carrots, and simply said "we are in Christ's fold."

In Congress, the act of military usurpation and the accompanying dispatches of Gen. Sheridan, have created a great sensation. In the Senate two or three days have been spent in a debate on a resolution of enquiry, the only question being on a matter of form, but the debate covering the whole subject. The general expression of the people at the North, is condemnation of the use of the powers of the Government by the President.

Latest from Washington.

WASHINGTON, Monday Eve., Jan. 11. The Louisiana debate went on in the Senate with undiminished vigor today, Mr. Schurz making the noblest speech yet. It was impartial and statesmanlike. It called out an audience such as the Senate rarely sees, comprising multitudes of the very best people in Washington.

President MacMahon has again asked the Assembly to take steps toward deciding the future of France, and has again been refused. He desired the opinion of a second chamber to consult with the present one in determining upon the form of government to succeed the septennat.

The New Orleans committee, predicting that they would find that United States troops are sustaining a Legislature never elected by the people of Louisiana, and that they overturn one which was elected. Howe, Conkling, Logan and Sargent have been busy all day trying to arrange to meet the crisis.

Butler and Carpenter have been together trying to agree upon a bill for a new election, but nearly everybody is hopeless of the success of any plan, and this leaves Kellogg and his Legislature to be sustained by United States troops, till after the presidential election which is regarded by many as fatal.

The New Orleans committee will soon arrange to get their evidence before the House. It has first to go to the entire committee, but if Messrs Foster, Phelps and Potter are united as it is reported they are, they can reckon on the support of a majority of the entire committee. If Mr. Schurz had any warrant for his allusion to the views of the sub-committee, it will be a damaging document to Sheridan, if not to the administration.

The more thoughtful of the republican members, like Dawes, Hawley, Judge Hoar, and others of their stamp while disinclined to criticize the administration, feel a deep regret at the occurrences at New Orleans. They state to their friends that they wait to hear what the president has to say, to get at all the facts. There are very few actual defenders of Sheridan from the North and West, but he is left with the southern republicans.

The rumors are that the president's message on Louisiana will be aggressive and rather sharp. If so there will be a break in the ranks, for a good many republicans in Congress, who are now willing to overlook what has been done, won't endure any attempt to bully those who think Sheridan has blundered.

For the Journal.

GRUNDY CENTRE, IOWA, Jan. 1st, '75.

MR. EDITOR.—Thinking it might interest a portion of the numerous readers of the Journal, especially in the Eastern Townships, to hear from this part of the country by one who is interested in your midst, with your indulgence I will write a few lines.

The weather is cold and atmosphere clear and bright. There is about four inches of snow on the ground. The subject of Railroads seems to be the chief topic of discussion at present.

There was an enthusiastic meeting held at this place on the 30th of Dec. for the purpose of building a railroad from Marshalltown to this place, a distance of thirty miles. Stock books were brought forward by directors that had been previously chosen, and shares freely taken, with the prospect of the cars running from Marshalltown to this place next fall. Considerable is being realized from the products of the dairy. Cheese factories are being started in Illinois and this state that prove satisfactory to all concerned.

The quality of the cheese compares favorably with that of the East, but whether as good articles of butter can be made during the summer months is for the future to determine. Those living upon lands that are somewhat worn are looking for a change in husbandry. Considerable has been done in this favored land to alleviate the sufferings of the unfortunate in the neighboring states, caused by the destruction of their crops by grasshoppers.

It seems to me that parties who possess comfortable homes in the East run some risk in making a change by going West.

Yours truly, STANSTEAD.

The Montreal Herald is calling for the redemption of the ragged and filthy one dollar notes in circulation and the issue of new paper. While this is just what is wanted, it would be equally agreeable to the country to call in all of the twenty-five cent shillings and give us silver instead.

A poet is in our midst with long hair. His poem is also long, and the only reason that all his long lines don't rhyme, is because the paper isn't wide enough.—(Lewiston Journal.)

But the lesson is one that should be judiciously kept from the ken of intellect.

The news from New Orleans is voluminous, the city is quiet, and the public schools resume their sessions to-day, thus assuring the fact that no further trouble is apprehended. General Sheridan has forwarded his promised report to Washington, in which he reviews Monday's work, and avows his intention to hold himself responsible for the action of the military body he assumed command. The memorial of the conservative members is published in full: Gen. Ogden, the commander of the White League, declares that famous organization to have no politics, but to have the common weal of New Orleans at heart.

I.O.G.T.—International Temple, No. 11. Meetings every Tuesday evening at 6:15 o'clock.

Oriental Lodge, No. 36, I.O.O.F. Derby Line. Meetings Thursday evening at 7:30.

New York, Jan. 12.—Gold 1.124. Orders for binding should be sent in at once.

A few more of those Diaries for 1875 at very low figures.

Subscribers in the United States are requested to make their remittances for the ensuing year at \$1.75 in advance. Those in arrears can, if paid immediately, wipe out the old score at the same price per year.

We understand that Mr. J. L. Terrill, after securing a requisition from the larger portion of the rate-payers of Stanstead Plain, and after having been elected councillor by acclamation, has concluded to serve, although by law he could claim exemption.

A case was tried at the Circuit Court, Sherbrooke, last week, Wilson vs. Farwell, for not sending his milk to the factory of plaintiff last year, after signing an agreement to do so.

The defendant contended that in case a factory was built nearer to him than the factory of plaintiff, he ought to be released from the guarantee; also, that the guarantee was not obtained in an honorable manner. Judge Doherty reserved his decision until the 28th January.

At a meeting of the stockholders of the National Bank of Derby Line, held yesterday, the old board of Directors were re-elected, and re-elected the old officers. A semi-annual dividend of 6 per cent. was declared, payable on the first Monday in February.

The Municipal election for the Township of Stanstead resulted in the re-election of the late members—Messrs. O. Morrill, J. C. Peaseley and S. J. Bartlett—by acclamation.

The Stanstead Plain election resulted in the return of Messrs. Daily, Moulton and J. C. Terrill without opposition. The two first named were members of the late council.

The ice-cutters have begun work on the Hubbard pond, and are getting a solid article free from snow. Mr. Gardner Harvey has procured an icel-clip and all the necessary tools for cutting and handling, and is doing a good business.

On Sunday last, our Catholic friends in this vicinity were favored with a visit from his Lordship, Bishop Racine, the first Bishop of the new Diocese of Sherbrooke.

He was met at the train by a delegation of the Parishioners, and after Divine service, two addresses were presented to him on behalf of the congregation, in English by Thomas O'Rourke, Esq. of Rock Island, and in French by P. A. Bissonnette, Esq. of Stanstead Plain. His Lordship expressed himself highly delighted with Stanstead and its people, and expressed the desire to be soon able to return for the dedication of the new Church, the strongest mark a people could give of their progress in religious matters.

The Concert at the Town Hall on Saturday evening, was a success—well considering the weather—a great success. The attendance was almost three hundred persons. The music, as was expected, was very good. The opening anthem by the choir was well rendered, and the cavanna by Miss Clough which followed, was given with spirit and effect. The vocalism of this lady received several deserved honores. Owing to the bad storm prevailing Mr. and Mrs. Chas. Pierce and Miss Nims were unable to be present.

The playing of Prof. Ryder was excellent, and he was more than once called back to satisfy the enthusiasm of the audience. We understand that he played the organ at the Methodist Church during the services of Sunday evening to the gratification of the congregation.

Prof. Perkins, who had just concluded his engagement in conducting a musical convention at Coaticook, took leave of the concert, and favored the audience with two or three songs, and danced in trios and quartets. Miss Gendall played in acceptable piano. The whole affair was a very pleasant and pleasant concert of vocal and instrumental pieces, and was greeted with hearty and enthusiastic applause.

Another "cold wave" passed over the country from west to east on Friday, Saturday and Sunday, reaching this part of the country on Saturday, accompanied by a severe wind. It seems to have been most severe at the extreme West. At Chyrene, Neb., the thermometer Friday night indicated 38 deg. below zero, and at Omaha 21. A school girl at the latter place was so badly frozen that she died Saturday. At Chicago 25° below was reached Friday night, and a man was found frozen to death in the street.—Cold figures reported from other places are, Fort Garry, Manitoba, 27° below; Des Moines, Ia., 28°. Our thermometer here did not indicate as low figures as on two or three other occasions this winter.

On New Years evening a very pleasant time was spent in connection with the Beebe Plain Sunday School. There were interesting addresses from the Revs. Messrs. Cliphamp and Allen, good singing and an abundance of fruit and sweetmeats for the scholars. Toward the close of the proceedings Mr. Abbott, the Superintendent of the School, was very appropriately presented with a purse and contents, as an expression of good will from his numerous friends.

Through the indefatigable labors of the Superintendent and the hearty cooperation of the teachers, this School is in a very flourishing condition.—Com.

The following named gentlemen were elected for Municipal Councillors for Compton by acclamation on Monday, (all temperance men) viz, B. F. Harvey, James Doak and Albert Farwell.

The Rev. J. M. Hagar delivered a very interesting and instructive discourse at the Methodist house at the Corner last Sabbath.

The annual Pastoral visit of the Methodist Society and friends will be made to the Rev. Mr. Hooker and family at the Town house on Thursday the 21st, day and evening. All are invited.

The weather is quite changeable. We have already had several cold snaps, and are at this writing, 10th inst., enjoying a bracing atmosphere of some 20° degrees below zero. We are glad to say that Mr. S. Goodhue has recovered from a quite severe attack of Typhoid fever.

At the Municipal election on Monday the 11th inst., W. L. Oliver, W. H. Lovell and M. C. Clark were elected councillors.

The "Panorama," by Mr. Fish, of views of various places of interest, starting from the Pacific coast at "The Golden Gate," California, thence Eastward across this continent, the British Islands, parts of Europe, Asia and back to California, was exhibited at Messawippi on Tuesday and Wednesday last week, apparently giving good satisfaction. The exhibition is both instructive and interesting, and although Mr. Fish was quite ill of a severe cold at the time, his explanations upon the various places represented, were well expressed, in a clear, concise and pleasing manner. He has purchased a new apparatus, which will doubtless render his exhibitions still more interesting.

The donation visit at Capt. S. Bean's to the Rev. C. P. McIvor, of which notice was given in this Journal I think, was successful in raising between forty and fifty dollars, and in a good social visit, in which old and young equally shared. The tables were amply provided, music, vocal and instrumental, and the usual speeches upon such occasions, formed the programme.

The election of three members to the local Council of Hatley, commenced to-day. Eight candidates are on the poll-book; and a good, jolly time may be expected. The result will be made known to you in due time. The snow drifts are already pretty well trodden down.

HATLEY, Jan. 12th, 1875. Our municipal election has just closed after two days of polling. Eight councillors were proposed yesterday, little or no excitement, only forty-eight votes cast. Tuesday, two hundred votes cast and Chas. E. Kennedy, Geo. W. Kezar and John Johnson were duly elected. Good feeling generally prevailed.

Yours truly, L. E. PARKER, Presiding Officer.

The past week has been, although winter weather not very cold, but no signs of a thaw, which is so much needed, as water is very low in the wells and streams.

The Musical Convention held here the past week was not so well attended as last year. The concerts on Thursday and Friday evenings were well attended and the music was very good.

The Academy has a larger number of scholars this term than ever before, we believe. Something over one hundred scholars now in attendance.

Rev. Mr. Hagar, the former pastor of the W. M. Church, preached here last Sabbath in the new Church. Rev. Mr. Allen from Stanstead preached here last Sabbath.

Rev. T. P. Moulton, who was for a long time pastor of the F. W. Baptist Church here, has returned from the West, and will preach in the new

Methodist Church next Sabbath morning and evening.

We understand several of our citizens are making arrangements to leave us and commence business in the line of furniture, drapery, &c. Some of them will be missed here.

The new Councillors are P. T. Baldwin, re-elected, Octave Garceau and Edward Akhurst, elected by acclamation.

Patrick Ryan, of the west part of Clifton, was found dead in the snow about half a mile from his house on Monday. It appears that Ryan had attended a "bee" on Saturday, and at night instead of going home, went to a place where whiskey is sold. Not returning at night, search was made for him through the day on Sunday, but he was not found until about 2 o'clock, p. m., on Monday with a jug of whiskey by his side. Mr. Ryan was a very respectable man and beloved by his neighbors when not under the influence of liquor. He leaves a family of small children, his wife having died several years since. "Rum did it."—Com.

The election for Montreal Centre took place yesterday. At half-past eleven o'clock a. m., the Witness reports as follows: East Ward—Devlin's scrutineers claimed a majority of 27 for their candidate. Ryan's scrutineers in the same ward claimed a majority of 25. Centre Ward—Devlin claimed a majority of 2 for Ryan. Ryan "—Ryan claimed maj. of 104. Devlin allowed " 85. St. Ann's Ward—Devlin claimed maj. of 250. Ryan allowed maj. for Devlin of 23. It may be proper to remark that scrutineers have no means of gaining an exact knowledge of the state of the poll.

P. S. It is claimed that Devlin is elected by a small majority.

STANSTEAD WESLEYAN COLLEGE, MOORE AND WEBSTER. GENERAL MERCHANDISE, FARM PRODUCE, MAGOG, P. Q. DEALERS IN. To all whom it may Concern: In consequence of the steadily increasing amount of our trade we have concluded to offer to all Cash Purchasers and those of undoubted credit. Special Inducements during the ensuing Fall months, to continue to favor us to the extent of the transactions. Having made arrangements to import direct from foreign markets and to buy of our manufacturers many of our Staple Goods, we believe we can safely reduce our prices to that point which will satisfy those wishing to purchase. We also take this opportunity of saying to the Farmers of this and the adjoining Townships, that we have made arrangements with some of the largest dealers in BUTTER, WOOL & HOPS in this Province, which enables us to pay the Highest Market Price in Cash for the above named articles. The permanency and success of this branch of our business, in which the Farmers should take an especial interest, depends entirely on the extent of the transactions. The larger the trade, the greater the amount of farm produce we can command, therefore the price we shall be enabled to pay. The importance of giving us the preference over transient or occasional buyers when they wish to sell their produce. We have bought during the past two months of their produce, for which we have paid CASH, and hope with their friendly assistance and cooperation to largely increase this branch of our business the coming year, thus bringing a MARKET near their own doors, without having to pay the "middleman's bonus," the result of which is getting to be so fashionable. For special rates or arrangements, consult the undersigned, and purchasers will be glad to receive a "DON'T FORGET THE NUMBER!" MOORE & WEBSTER. Magog, October 5, 1874. 1501

Queen's Hotel For Sale. THIS SPLENDID PROPERTY, by far the best location and Hotel building in the place, is offered for sale at a low figure, as the present proprietors are going out of business. The business for the past year has amounted to \$80,000, and the good-will goes with the property. Terms of Payment Easy. THOS. B. TRIBEY, Coaticook, Dec. 23, 1874. 1512w4

NOTICE! ALL PERSONS indebted to the Estate of Dr. N. CHENEY, deceased, are requested to make immediate settlement with either of the undersigned, and all persons having claims against said estate will please present them for adjustment. Those having bonds and notes payable to the estate, are requested to return them without delay. Mrs. D. M. CHENEY, Mrs. M. WHITCHER. December 15, 1874. 11

A General Stock of reasonable CLOTHING, among which will be found prime OVERCOATS.

Important to Inventors. Models Made, Trade Inventions Perfected and Patents Obtained in all the United States and Canada. INVENTORS desiring the advice of a competent and reliable Mechanical Engineer and Draughtsman, should apply to F. A. WISEWELL, whose long experience in model making and experimental machinery (fourteen years) enables him to give valuable advice and assistance to those who have crude, unperfected inventions in process of development. It is often advisable, before incurring the expense of an application for a Patent to have a preliminary examination made in the Patent Office to discover whether a similar Patent has already been granted, in order to avoid conflicting with others, thus enabling the inventor to alter his invention, or prevent further expense. For those desiring models made of their inventions it will only be necessary to send a rough sketch, with an explanation of it and what it is designed to accomplish. All business strictly confidential. F. A. WISEWELL, United States Agent, Beebe Plain, Ontario, Canada. Address, Beebe Plain, Stanstead, Q. 1511

STANSTEAD IRON FOUNDRY AND MACHINE SHOP. THE undersigned having purchased the interest of Mr. T. B. Morrill in the above business, will continue the same at the Old Stand, Rock Island.
