GALLANT FIREMAN

Loses His Life at a Fire in New York After 36 Years' Service.

New York, Feb. 14.-Big-hearted "Charlie," best beloved of New York fire fighters, met to-day the death he had met 36 years ago. From the day in 1872, when a lad of twenty years, he entered the department, Deputy Fire Chief Chas. W. Kruger had never known physical fear. To his mates he seemed to bear a charmed life. Something of this feeling may have possessed the deputy, for when the uniform was removed from the lifeless body to-day a newspaper clipping fluttered from a pocket that had covered his heart. The clipping told of a seemingly miraculous escape from death in early boyhood, and the story bore the headline: "This boy was not hurt when he was burned. He was always well, and when his theory call 'Come on, boys,' rang out for the last time a dozen men were seen at his heels. The situation was desperate. The buildings at 215 and 217 Canal street were in flames and the whole block was threatened. Chief Croker had refused to order his men into the buildings but had consented to Kruger's venture. 'Chief, there's no hope of getting into the basement of No. 217,' the grizzled deputy said. 'Our only chance is to go down into the cellar of 215 and cut a hole through the separating walls. Come on, boys.' Into the cellar filled with water, smoke and overwhelming fumes from melted gas pipes the men threw themselves. Groping in advance, Kruger stumbled through a trap door and presently was floundering helplessly in six feet of water. Unable to see, the other men heard a splash and then a cry: 'Save me, Andy.' Andy had driven his chief to his first fire, and had always shadowed him into every danger. Ten minutes later the unconscious form of Big-Hearted Charlie was stretched on the pavement and Chief Croker on his knees beside it, begged the department surgeons: 'For God's sake do something. Resort was had to every expedient, but before his last fire had burned itself out the soft-grimed fighter was dead.'

BOILER EXPLOSION

In a Public School Throws the Pupils and Teachers into the Cellar.

Adrian, Mo., Feb. 14.-An explosion of a boiler in the basement of the public school to-day tore away the floor of the primary department and precipitated a teacher and sixty pupils into the basement, burning and scalding many of them frightfully. The teacher and half the children were taken out in an unconscious condition and some of the larger boys, engaged in the work of rescue, were overcome by smoke. A son of M. D. Spangler, suffered the most serious injuries, his hands being blown almost off and his body scalded. Miss Maude Morgan, the teacher, was found under a pile of hot cinders and other rubbish. She was severely burned. The son of Wm. Bullock was thrown through a window and severely cut. The older boys of the school jumped into the basement at the risk of their lives and continued their efforts at rescue until every child was found. The cause of the explosion is unknown. The building is a two story brick, containing ten rooms. The property damage was \$2,000.

FOR A REST ONLY

Vice-Presidents of Bethlehem Steel Corporation in England But not on Business.

London, Feb. 14.-Chas. M. Schwab and Archibald Johnson, Vice-Presidents of the Bethlehem Steel Corporation, arrived here today from New York. In an interview Mr. Schwab said: "I have no business of any kind to transact on this side of the Atlantic. I feel the need of a rest and so I came over on the Lusitania. I will remain here for a week, sailing for America on Feb. 22nd. I may go to Paris for a day or two, but it is more likely that I will spend all my time in England. I certainly am not going to Russia, and I will not see anybody on business." Questioned as to the report that Prince Hilko, former Russian Minister of Railroads, was coming to London to meet him regarding a contract for armor plating for the Russian navy, Mr. Schwab said he did not know whether the Prince was coming or not. If he did he would call on him, but not on business. Mr. Johnson is going to Paris for a few days on private business.

WARM DEBATE

IN THE COMMONS

Right of Appeal to House Killed by Liberal Majority

FIGHT FOR FREEDOM

Energetically Waged by the Opposition against the Government Lashed by Number of Speakers.

Ottawa, Feb. 14.-The Opposition put up another strenuous fight yesterday against the encroachment of the Liberal majority on their hard-earned rights, and refused to permit the House to go into committee of supply until 12.30 a.m. The trouble arose over the proclivities of the Liberals in the Public Accounts' Committee, particularly this session, in the way of blocking enquiry into the expenditure of public accounts. Right to appeal to the House had been refused by the committee, and the amendment was for the purpose of re-establishing that right. That right was killed at 12.30 by a party vote of 103 to 49, a majority of 54. The house then went into committee of supply.

LIBERAL OBSTRUCTION.

Mr. Blain moved the following amendment: "That the Committee on Public Accounts is constituted for the purpose of affording full and free examination, and enquiry into the receipts and expenditure of public moneys, and the circumstances in connection therewith; that in the public interest the greatest possible freedom of investigation and enquiry should be enjoyed by that committee; that any action of the majority of that committee in excluding evidence or restricting enquiry, should be the subject of appeal to this House, and upon request for that purpose the necessary report of the proceedings ought immediately to be ordered."

Mr. Blain spoke of the developments which have arisen out of the proceedings of the committee. The rights of the minority had been trampled on. However, of late years, as evidence of the good work which had been done, in robbing the reckless expenditure through middlemen by the Government, he instanced the case of Morwin, who got a rake-off of from 26 per cent. to 187 per cent. without much trouble. The sub-target gun revelations were an instance also. This company was composed chiefly of friends of the Government. They got an order for 250 sub-target guns, and then got them made in Sherbrooke, or 864 apiece, and turned them over to the Department of Militia for \$250 each. The system of employing the middlemen was, in Mr. Blain's opinion, a most pernicious one. But then, the Government had to take great care of their vast army of middlemen and the people paid the piper. The Opposition had a right to probe into these matters, and when the Liberal majority told the minority they had no right the country would draw its own conclusion that the door to investigation was barred by the Government.

DIVIDEND DECLARED

New York, Feb. 14.-Directors of the Texas and Pacific Railway Co. to-day declared a dividend of 3-1/2 per cent. on its second bonds out of the surplus earnings of the fiscal year ended Dec. 31st last. The company has paid 3 per cent. a year for several years.

THE BAYROOZY TROUPE.

Manager McKinley has arranged to give the patrons of the Academy a treat next week, something entirely out of the ordinary, in the way of an interesting and instructive exhibition by the famous Bayroozy troupe, who will present their original Oriental novelties during the week of February 17th. The troupe is composed of three gentlemen and one lady. Miss Marie Bayroozy is the world's champion whistling dervish dancer; her record for whistling is 37 1/2 minutes, for which she holds a beautiful medal presented by the staff of Barnum & Bailey's circus. Every person who, did, alleged or young should see this weird, wild and fascinating dance, which is copied from those wild fanatical Oriental priests, who incite their followers to all kinds of extremes while performing this peculiar ceremony. It is to the races that practice it somewhat similar to the war dance amongst our American Indian tribes, and will be a very strong feature of the week's entertainment. The Bayroozy trio will in their turn also give some new and original acts, which are composed of Turkish gun drill, Egyptian and Turkish sword combat, gun spinning and various other features, during their engagement. Matinees will be held on Tuesday, Thursday and Saturday after-noon performances, beginning at four o'clock, and each night at 9 o'clock. There will be skating before and after each performance. The price of admission has been made so low that everyone can afford to go and see this wonderful troupe of Orientals perform. It is possible that a fencing contest may be arranged between one of the Bayroozy Brothers and a local exponent of that interesting sport.

the truth. It had to deal with millions of dollars, and it was, therefore, necessary there should be the fullest investigation.

Mr. Bennett commenced to deal with the Collingwood Dry Dock case, but Mr. McLean, of Lunenburg, tried to stop him by raising a point of order. He claimed that Mr. Bennett could not discuss the matter as it had not been reported to the House. In this he was supported by Mr. Brodeur.

PROTECTION OF FISH AND GAME. Mr. F. C. Wurtele, whose interesting paper "Carters' Narrows, Fallacies, and Myths," concerning Quebec, was published in the Chronicle of December 22, 1906, favors us with the following up-to-date addition: His Royal Highness Duke of Kent, father of her late Majesty Queen Victoria, resided in what is now called "Kent House," when in command of the 7th Royal Fusiliers, stationed at Quebec in 1793. A French Canadian jockey on drawing up at the Kent House was overheard to gravely inform his lord of tourists: "Queen Victoria she loved here." The tourists were no doubt highly edified with this bit of Quebec romance.

INTERESTING EVENT

Presentation to Organist of St. Matthew's by Members of His Choir.

There was an interesting incident at the close of the weekly choir practice at St. Matthew's Church last evening, when Mr. G. H. Harvey, A. R. C. O., the popular and highly esteemed organist and choirmaster, was the recipient of a tangible and handsome testimonial of the great regard in which he is held by the choir and choir. The presentation took the form of a valuable case of cutlery, and was made by Rev. Canon Scott on behalf of the clergy and members of the vested and auxiliary choirs. Canon Scott, in making the presentation, said it was but a slight token of the esteem in which Mr. Harvey was held by all and appreciation of what he had done and was doing in advancing the efficiency of the choir, which had been brought up to their present high state of excellence by his successful efforts. Canon Scott also spoke of the harmonious feeling which existed and the manner in which all worked together to place the musical services of the church on a high plane, which was due in no small degree to the tactful, persevering and skillful endeavors of Mr. Harvey. Mr. Harvey, to whom the presentation came as a genuine surprise, acknowledged it appropriately. He spoke in feeling terms of his pleasant relations with the choir and thanked the donors for their tribute to himself.

The Quebec Chronicle

QUEBEC, FEBRUARY 15, 1906.

AN OFFER OF IMMORTALITY.

We published not very long ago an appeal by the ladies of Montreal to the school children of both sexes of that city urging them to subscribe towards a fund in aid of the erection of a colossal statue of Peace on the Plains of Abraham in a position to command the gateway to the St. Lawrence, and, in the words of an advertisement which appears in the Montreal Star, to "challenge the admiration of all comers to Canadian shores." In case further inducement than that offered by sentiment and patriotism should be needed, the advertisement goes on to proffer immortality to every child irrespective of age or sex who should be successful in getting the names of fifty subscribers at ten cents each, or twenty-five subscribers at twenty cents each, "arrangements having been made to publish in Canada's great national illustrated paper, the Standard, the portrait of every successful girl and boy collector." There is something intensely practical about all this which appeals to the business sense of the community and which might well be initiated here. There are plenty of children, French and English, Catholic and Protestant, in this city, who would doubtless jump at the opportunity of gaining immortality on such easy terms, if only a few patriotic ladies and gentlemen would set the ball rolling.

FAUVERT SETS AN EXAMPLE

A despatch from Fauvert, in France, which we published in our issue of yesterday morning, states that the citizens of that town, which has the honor of being the birthplace of the brilliant and chivalrous Marquis de Montcalm, have started a subscription for the purpose of erecting on the Plains of Abraham, a statue to that brave commandee who "perished so gloriously there in defence of the city. We can well understand how favorably the proposition will be received by Canadians of French origin who will see in it a fresh expression of the intimate sympathy which has always existed between the dwellers in a distant land and the "old folks at home," and which has always been so tenderly cherished; and the acquisition of another statue to embellish the proposed Battlefields Park when it is completed, is always something to be thankful for. At the same time it would not be out of the way if Quebec added to the Battlefields Park a specimen of her own. The procuring of funds for a colossal statue of Peace is, as we have stated elsewhere, chiefly largely to the world at large; chiefly to the Dominion, of course, but measurably to outsiders in the British Isles and the other members of the empire and the people of Fauvert are sending a statue of Montcalm. It seems to us only fitting that Quebec should have a Battlefields Park statue all her own, and raised by her sole exertions.

AT IT AGAIN.

We published a despatch from Montreal yesterday to the effect that the Council of the Board of Trade of that city had resolved that the Quebec bridge must be at least one hundred and ninety feet above the level of the St. Lawrence, and had prepared a petition to be forwarded to the Government setting forth the increasing height of ocean steamers, making it necessary to further elevate the bridge in order that in years to come it might not interfere with the passage of the largest vessels above Quebec. Will

If you have any kidney or bladder trouble, get Munyon's Kidney Cure. Munyon's Kidney Cure makes weak men strong and restores lost powers.

the President of the Harbor Commission travelling about the British Isles and Europe, and impressing all who care to listen to him with the belief that the Dominion Government would undertake the task of taking another ten feet in depth and two hundred feet in width out of the bottom of the ship canal, and what with the Board of Trade petitioning for the elevation of the Quebec bridge to a height of one hundred and ninety feet above the water, it must be confessed that Montreal's ideas are not circumscribed and that the magnitude of her demands is only equalled by the offrontry with which she persists in them. By and by she will discover that with forty feet in the channel she has sometimes barely twenty-five in the harbor, and that this latter is altogether too playmate affair for the great national port, and then she will either insist on St. Helen's Island being dredged and blasted out of her way, or, which is more probable, the harbor of Quebec being dug up and brought up the river in flat boats.

THE QUEBEC BRIDGE.

The unfortunate disaster to the Quebec bridge, coming at a time when hopes were most sanguine, and its completion was measurably in view, will necessitate considerable further outlay, and grievously retard the time when trains shall be running over it to connect the Eastern section of the National Transcontinental with its continuation through the Maritime Provinces. It is a portion of the selfish game which Montreal has always played with Quebec, to delay as long as possible the completion of a project at which she has always sneered, and which she has lost no opportunity of blocking and obstructing by every means in her power, and accordingly we find the Council of the Montreal Board of Trade now taking advantage of the catastrophe which has occurred to urge what must, if adopted, amount to a complete change of plans and specifications, and possibly an alteration in the work already done. It is needless to dilate on the expense all this would entail; money never counted much with Montreal when it came out of the pockets of the Dominion; or the delay which must necessarily ensue; it is sufficient to point out to what extreme measures she will resort in order to make good her claim to be the great national port. Some people might think that if a port cannot be made a great national one without taking out the bottom of a river, and lift up the bridges across it into the regions of war-balloons, is not much of a port, per se, and is scarcely worth all the trouble and labor that is proposed to be expended on it.

COMING EVENTS.

Mr. Bryce, the British Ambassador to the United States, is expected shortly at Ottawa to confer with the Dominion Government on the results of the negotiations which he has been engaged in conducting at Washington in reference to sundry open questions which have existed for some time past between the Dominion and the United States, such as the regulation of the use of the waters of Niagara for power purposes, the fishing rights on the great lakes, the definition of rights of navigation on international waters, etc. etc. The majority of these subjects of difference are not new; they were in existence at the time of the Quebec-Washington conference, when a futile attempt was made to arrive at a satisfactory mutual understanding, and indeed the only one that has arisen since that day is the question of the Niagara water power. There is no very important pressing reason why these questions should be settled at all, though of course it is all the better to have them out of the way, if it does not cost too much. They are, as the Montreal Gazette properly remarks, "questions, largely because the United States wants to change certain conditions which are not unsatisfactory to Canada. In boundary waters, where the middle line marks the territorial limits of either country, the fishing rights should need no definition. The rights of navigation should be so easily fixed as to require little consideration." There will be some curiosity to learn what proposals Mr. Bryce brings with him, and also, some little uneasiness.

CROWN LIFE INSURANCE

Toronto, Ont., Feb. 13.—How keen is the fight for the control of the Crown Life Insurance Co. is apparent from a circular issued from the head office of the company in Toronto and bearing the signature of Hon. D. Tisdale, M.P., president of the company. This circular, which bears the date of February 15th, gives in detail the history of the negotiations for the amalgamation of the Crown Life with the Royal Victoria of Montreal, and the reasons for the directors of the Crown Life refusal to accept the proposition laid before them by Messrs. Rodolph E. Forget, M.P., and Mr. H. M. Molson, two of their own directors. The proposition was, it appears from the circular, that the each shareholder of the Crown Life should cut in two his holdings and wipe out one half of their stock in the company. The cash capital represented by such a go towards reducing the temporary impairment of capital of the combined company, the shareholders of the Royal Victoria to do likewise. It was proposed also that about \$150,000 of new stock should be subscribed at a premium of, at least, 50 per cent., and that this new stock should have a guaranteed preference in the way of dividend over the old stock in each company already reduced by half the premium on such preference stock to go towards further reduction of the impairment of capital of the combined company. Finally, says the circular, it was proposed that the management

Nothing Did Good

Until She Tried "Fruit-a-tives"

Madame Rioux is the wife of M. Jos. Rioux, a wealthy manufacturer of lumber in St. Moise. Madame Rioux is greatly esteemed in her home town and her testimonial in favor of "Fruit-a-tives" carries conviction with it, as it is entirely unsolicited.

St. Moise, Quebec.

I have much pleasure in testifying to the marvelous good which I have received from the use of the famous tablets "Fruit-a-tives". I was a great sufferer for many years with serious liver disease and severe constipation. I had constant pain in the right side and in the back and these pains were severe and distressing. My digestion was very bad, with frequent headaches, and I became greatly run down in health. I took many kinds of liver pills and liver medicine without any benefit, and I was treated by several doctors but nothing did me any good, bloating continued. As soon as I began to take "Fruit-a-tives" I began to feel better, the dreadful pains in the right side and back were easier and when I had taken three boxes I was practically well.

(Sgd) MADAME JOSEPH RILOUX.
"Fruit-a-tives" — or "Fruit Liver Tablets" are sold by dealers at 50c a box — 6 for \$2.50 — or will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.

and control of the Crown Life should be transferred to Montreal. In the circular it was pointed out that it would be an injustice to force the Crown Life into such an amalgamation with the Royal Victoria and figures are given in support of this claim. A committee of directors, the circular states, could not concede that it was in the interests of shareholders of the Crown Life that they should relinquish half their stock in the company and give other and new stock preference, preferential dividends over what was left, nor without ascertaining the wishes of the shareholders. Life passing into other hands by the transfer of the company's entire business to another city and province. The circular assures the shareholders that the Crown Life is doing well, but with an insufficient amount of paid up capital stock to permit it to do as well as the insuring public is willing it should do. Directors and shareholders were assured that one call of stock made with the premium incident to it would be sufficient. It was urged by the promoters of the company that large capitalization was a hindrance rather than help that the amount paid in was sufficient and that surplus earnings should be available not for shareholders but for policyholders. That assurance soon proved unreliable but rather than call upon the general body of shareholders they themselves and other shareholders paid a further amount into the treasury. At the annual meeting held it was agreed that further capital should be obtained and the question was referred to the board who will take it up immediately.

MEAL TIME MISERIES.

Indigestion Can be Cured by the Tonic Treatment of Dr. Williams' Pink Pills.

There is only one way to cure indigestion and that is to give your system so much good, red blood that the stomach will have strength enough to do its natural work in a healthy vigorous way. Many dyspeptic people do not know how to assist in digesting food, but these things merely give temporary relief—they never cure indigestion—and the trouble grows worse and worse, until the poor dyspeptic is gradually starving. In a case of indigestion a half dozen boxes of Dr. Williams' Pink Pills are worth all the mixtures and so-called pre-digested foods in the country. These pills cure indigestion because they strengthen and tone the stomach, thus enabling it to do the work nature intends it should do. Mr. Paul Charbonneau, St. Jerome, Que., says: "For months I suffered every meal the misery was intense, so that I finally ate most sparingly. I tried several so-called indigestion cures, but they did me no good. My general health began to run down. I suffered from headaches and dizziness and pains about the heart. Often after the lightest meal I would be afflicted with a smothering sensation. Finally my mother induced me to try Dr. Williams' Pink Pills. Under the use of this medicine the trouble began to disappear, and in less than a couple of months I had completely recovered my health and can now enjoy a hearty meal as well as any one."

It is because they make new, rich blood that Dr. Williams' Pink Pills always cure indigestion, anaemia, rheumatism, heart palpitation, neuralgia, sciatica, St. Vitus dance and the headaches, backaches and other indescribable ills of girlhood and womanhood. Sold by medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Exclusive News by Special Cable From the Capitals of the Old World

WILL NOW BE CUT

World's Largest Gem Taken From Scotland Yard Safe to Amsterdam Firm.

IS CLOSELY GUARDED

Process of Cutting the Monster Jewel Will Occupy Two Years.

LONDON. The incomparable Cullinan diamond, formally presented to the king on November 9 last, his majesty's birthday, yesterday left London for Amsterdam to be cut.

This marvelous gem, which weighs nearly a pound and a half, has been insured for \$2,500,000, and its value can only be conjectured. King Edward accepted it as a gift from the people of the Transvaal, and for nearly three months it has lain at Scotland Yard, guarded day and night by armed men.

It is four inches long and about two and one-half inches wide and deep. In its uncut state it is not particularly beautiful, and is neither useful nor ornamental.

The question of leaving it in its present condition has been discussed from every point of view, but at last the decision has been taken to send it to Amsterdam, the headquarters of the diamond industry.

The Men Who Knew. Only specially instructed representatives of Scotland Yard, who watched from a little distance, were aware that three quietly-dressed men, who entered a reserved first-class compartment in the 9 o'clock boat express at Charing Cross yesterday morning, were escorting the famous jewel.

Wrapped in tissue paper, the magnificent stone lay in a small brown leather bag carried by one of the trio, and this morning the value of the great sapphire will be handed to the great Amsterdam firm, employing 500 diamond-cutters, to which the task of dividing and polishing the Cullinan has been entrusted.

At Dover a special cabin had been reserved on the steamer, but not a soul on board, except the three guardians of the jewel had any idea that a treasure worth, at the lowest computation, many times the value of the great sapphire, lay in a tiny handbag in a deck cabin.

Each of the three guardians carried revolvers, and it would have gone ill with any stranger who had behaved suspiciously in their neighborhood.

Not Worth Stealing. But the extreme difficulty of dividing so enormous a gem into marketable stones, and the utter impossibility of selling it as it is, would deter any one but a maniac from trying to steal it. At Amsterdam, the headquarters of the diamond workers' union, where the finest appliances are at the disposal of the most skillful lapidaries in the world, the task of cutting and polishing will take two years, and will cost from \$2,500,000 to \$3,000,000.

There is much sorcery of heart among the diamond workers of Hatton Garden, at the stone having been sent abroad, but some of the wisest recognize that if Amsterdam cannot produce cutters of greater general skill it certainly has many who are more experienced in regard to large stones, and better equipped with tools.

For eleven weeks the huge gem had been deposited in a sealed safe at New Scotland Yard. On Thursday evening Lady Hopwood, wife of Sir Francis Hopwood, permanent under secretary for the colonies, cut the sealed tapes surrounding the safe in the presence of Sir Mervyn Macintosh, Sir Edward Henry, Sir Francis Hopwood, Sir Richard Solomon, Superintendent of Police and Chief Inspector Drew.

The stone was then taken to a West End jeweler, and yesterday morning detectives took it in a motor car, directing Charing Cross Station in time to catch the boat express.

Of course, the diamond will lose weight in the process of cutting. From 1000 carats it will be diminished till the main result may not exceed half that weight, though many smaller stones will be included in the "chippings."

The Kohinoor originally weighed 793 carats, reduced by successive cuttings to 281, 124 and 106 1/2 carats.

T. M. Cullinan, who gave his name to the stone, made a fortune before the war as a builder and contractor. After peace was declared he sold everything and bought old Joachim Princesse's farm, near Barbenton, in the belief that it was diamondiferous.

Stones worth millions of pounds have been taken from the shaft he sunk, and he is now a very rich man.

New Way of Evading Arrest

WOMAN STARVES HERSELF THAT PET DOGS MAY LIVE

Pathetic Story of Destitute Music Hall Star Who Performed Before Royalty and Earned \$750 a Week

LONDON. A woman has been starving herself in a small stable in a back street of Lambeth to feed the dogs which enabled her to earn a living for years. The food which kindly neighbors gave her every day, has been used to keep her pets in good condition.

The woman is Mme. Sanyeah, the music hall "star," who, twenty years ago, was earning \$750 a week. Since August she has rented the loft of a stable, and a baker gave her stale bread, and her daily food for weeks consisted of a few crusts of bread and a little water.

For three days she went without any food, and at last, in a state of semi-starvation, she crept to the animals' hospital of Our Dumb Friends' League, and asked for help.

In Hospital. The dogs are now housed in the hospital, with the exception of a fox terrier named Pigeon, the champion somersault dog, whom her mistress begged permission to keep.

"If Pigeon had to go with the others," Mrs. San. said, "I had made up my mind to take her in my arms and jump over Westminster bridge. She would have fretted herself to death without me."

The story of Mme. Sanyeah's life is a sad one. "I was born to circus life," she told a reporter yesterday. "My father was William Frost, the famous bareback rider. My mother was one of the first women tightrope walkers. She crossed a part of the Thames with me in her arms when I was only 3 months old."

"When I was 18 months old I used to appear in the circus, my father holding me in his arms as he went through his difficult performance."

"At 16 I was known as the 'Empress of the Air.' I was the first woman to attempt the hanging-by-the-teeth turn from the trapeze."

"I used to drive my own four-in-hand round London, and I drew a salary of \$50 a week."

Royal Patrons. "I performed before King Edward when he was prince of Wales, the kings and queens of Spain, Holland and Italy, the czar of Russia, the German emperor, and the shah of Persia. At a command performance before Prince Edward of Saxe-Weimar, at Portsmouth, I fell from the trapeze and injured myself severely. The prince was the first to come to my assistance."

"After that I was not strong enough for trapeze work, and began to train performing dogs. I have never struck my pet, and have trained them all by love and kindness."

"My luck has persistently followed me since I began to grow old. I could have received help from charitable quarters if I had been willing to give up my dogs, but they have been as dear as children to me, and I could not lose them as long as I had a scrap of food."

The dogs are in splendid condition. Besides Pigeon, there is a fox terrier, Snap, which walks up a plank on his forefeet; Paris, a beautiful black collie, which trots like a cavalry horse and marches and "dies" like a soldier; Pepper, the waiting dog; Tiny, a pretty fox terrier, which jumps through fire hoops; Tim, which dances and "cake-walks," and a little white dog, which has had one leg amputated and jumps as well as any of his fellows. The last member of the performing troupe is a white cat, which is devoted to the dogs.

A lady in the country hopes to take charge of the performers, but the animals' hospital is trying to find homes for three collies—Bruno, Sully and Mick.

LEHAR'S NEW OPERA WILL BE SUCCESS

Expert Says "The Man With Three Wives" is Adapted to English Stage.

ROOM FOR IMPROVEMENT VIENNA. Herr Franz Lehar, composer of "The Merry Widow," says that in his new opera, "The Man With Three Wives," produced at the Theater an der Wien this week, his idea is to give the piece a cosmopolitan character. The three acts are set in Vienna, Paris and London, and the music is composed with a view to suiting the character of each capital.

His whole tone is extremely modern by comparison with his earlier work. In an interview received by George Edwards, who has bought the English rights, said that the piece will be a success in London. The story appeals to him; but he misses songs likely to "catch on." There is room for extensive changes, but the principle elements of success are already in it. It could be very well adapted for the English stage.

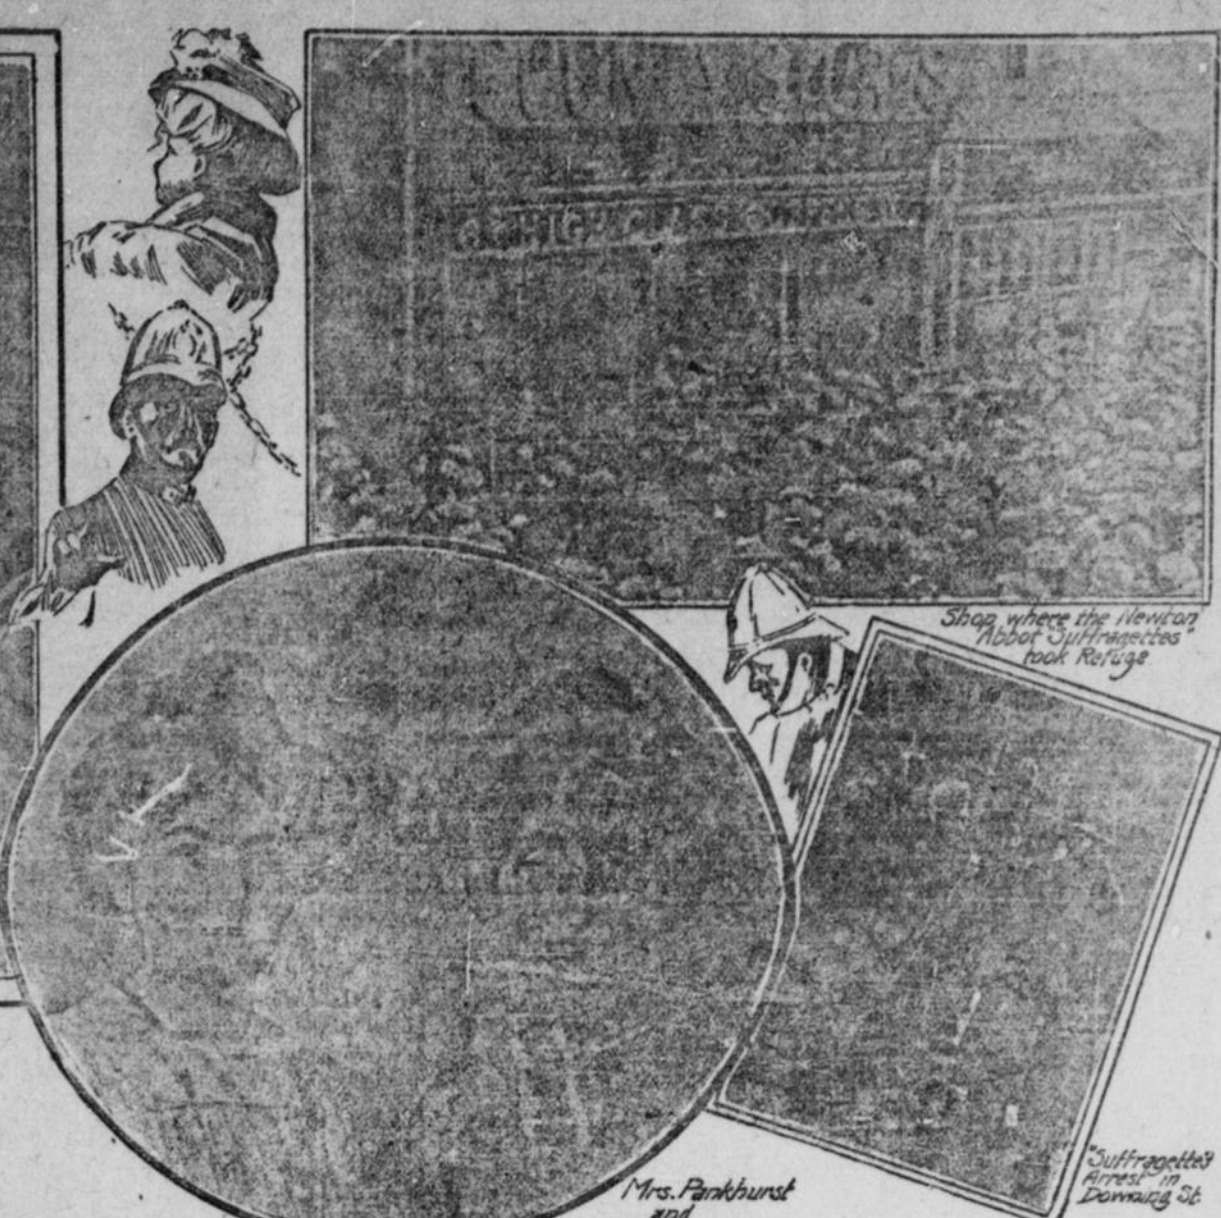

The piece as a whole is not likely to have the same success as "The Merry Widow." The orchestrated music did not seem always to match the songs. There are two excellent waltzes and several good melodies, but in the libretto the story was hardly made to develop naturally. At times the music seemed too high class for its surroundings.

The hero, Hans Zipser, is a cicerone of personal charm. He is a young man, leading characteristic is a love of home life. He has, indeed, a wife in each capital. The Vienna wife, as played by Frau Guenther, scores a great success in her "Slumber Song" in the first act. The comic element is supplied by an Englishman with four daughters of remarkable beauty, and a young man who loses his wife on their honeymoon tour, the wife consoling herself with a Chinese mandarin.

The second-act passes in a school for department in Paris, where a "Rose Waltz," an entire novelty, is danced by schoolgirls and cadets. Madame Karntouch, who plays the Paris wife, scores a great success. In the third act in London is a "Telephone Song," where all sorts of private matters are settled.

Dance Causes Bridge to Collapse. BELFAST. A bridge connecting Belfast, County Down, with the mainland, collapsed while a dance was being held on it, and many persons were thrown into the sea.

Paris and Motor Omnibuses. PARIS. Motor omnibus traffic is becoming an serious a problem in Paris as it is in London, and the police authorities are inquiring into the question.

WOMAN SUFFRAGISTS OF ENGLAND IN AGGRESSIVE CAMPAIGN FOR FRANCHISE

The recent opening of Parliament emphasized the extent of the woman's suffrage movement in England, as did also the election in Mid-Devon, when the royal procession at the opening of Parliament was returning to Buckingham Palace, three well-dressed women suffragists broke through the military cordon and made their way to within a few yards of the king's coach. They were waving strips of paper bearing the words "Vote for Woman." These papers were immediately taken from their hands by the police. One of the women fainted and the other two were rescued by force.

While the Cabinet Council was sitting at 10 Downing street the suffragettes tried to force their way into the prime minister's house. Two of them, Miss New and Miss Smith, chained themselves to the railings of 10 Downing street in order to make it more difficult for the police to remove them. With very little trouble, however, the police dispersed the chainers, and five of the ladies, one of whom had actually forced her way into the hall of the first lord's house, were arrested. Before the magistrates they refused to be bound over to be of good behavior for six months, and were accordingly sent to prison. Mrs. Parkhurst and her daughter, Christabel, leaders of the physical-force party in the vote-for-women campaign, are both strong believers in the value of physical force in the suffrage campaign, and each of them had the opportunity of testing the effect of physical force on themselves last week.

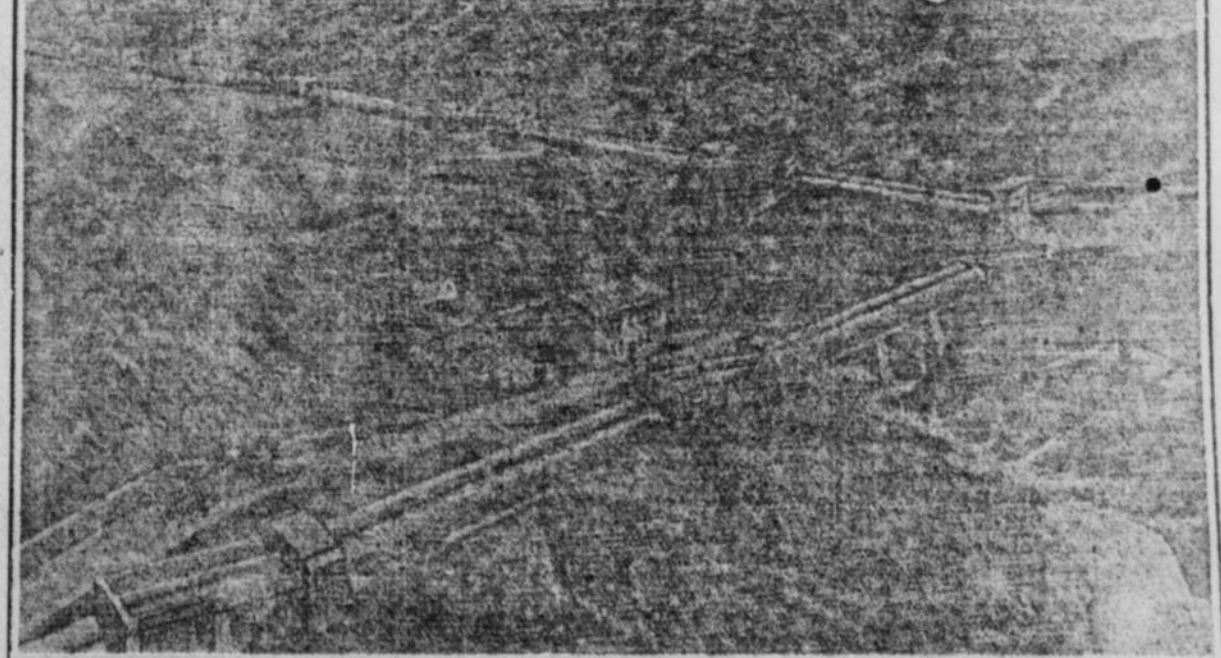

PROSPEROUS BEGGARS VILLAGES RAIDED PRISONERS ESCAPE

BERLIN. A clever gang of Turkish, Greek and Russian professional beggars, who have been "working" Berlin since the middle of December, after a series of successful operations in other continental capitals, was captured by the police today. Their profits had amassed at such a rate that they were compelled to open a bank account for the storage of their ill-gotten gains.

PARIS. A great wolf hunt is being conducted by the people of the little village round Dijon, situated on the outskirts of the forest lands.

MILAN. A remarkably daring escape has been made from the prison at Busto-Arsizio. The prison is situated in the municipal buildings, which include also the law courts. In a large room were six prisoners, two of whom, on awaking yesterday morning, were surprised not to see their companions, one of whom was the chief of a noted band of robbers. The daring escapees had taken away from a folding bedstead, which was placed in a corner of the room, a bar of iron, by means of which they had, with infinite precautions, removed pieces of the flooring from underneath the bed. Then they made a hole in the wall communicating with the garden which surrounds the building.

SEVENTY YEARS IN A WORKHOUSE. LONDON. An old woman who died at the Mansfield Workhouse yesterday had been in that institution over seventy years, being admitted when she was quite an infant.

WATER-LADDER UP THE ALPS: AN ITALIAN ENGINEER'S WONDERFUL CANAL

The king of Italy has recently been interesting himself in a very remarkable project—the scheme of the well-known Italian engineer, Pietro Caminada, who has devised a stupendous plan for joining by canal Genoa to Basel and the North sea. This is no vain Utopia, but a scientific and feasible plan cleverly conceived by a man of great abilities. The Continental newspapers have taken up the matter seriously, and Signor Colombo, the famous Italian statesman, has taken considerable interest in the scheme, and it is strongly believed in Italy that the government will adopt the plan and that the wonderful canal will be constructed and become a reality in a very near future.

Novelty at a Ball. SHEFFIELD. At the lord mayor's ball letters were placed in the hands of the guests, and a redoubtable column was included in the program. When booking a dance partners' list, a man who had written to the lord mayor and entered the letter on the card.

WORSHIP THE DEVIL IN MOUNTAIN SHRINE

English Doctor Spends Week With Strange Sect in Fastnesses of Mesopotamia.

STRANGE PHENOMENON

The Vision of the Prophet Ezekiel Recalled by Occurrence in the Desert.

LONDON. Dr. A. Hulme Griffith, who, with his wife, has been conducting a medical mission among the people of Mesopotamia, gives a remarkable account of his adventures.

During two years' administration he and his wife came in touch with 248 towns and villages, received over 85,000 out-patients, and performed over 90 operations. The doctor spent a week with the sheikh of the Yazidi, or devil worshippers, who inhabit the mountains round Mosul. He says: "This curious tribe numbers about 20,000. They live among the mountain fastnesses, and owe allegiance to the sheikh. They are very hostile to the Turks, who are unable to subdue them, owing to the inaccessibility of their homes."

A Mysterious Religion. "There is a great deal of mystery about their religion, and they will not admit that they worship the devil, although there is ample evidence to that effect. Their priests are all clad in white, and carry with them a wand of office surmounted by a brass peacock.

"These are regarded as most sacred, and it is the boast of the Yazidis that none has ever been lost. "At the entrance to their chief temple is the figure of a serpent. This is looked upon with great veneration, and is kept black by means of charcoal. Each worshipper kisses this serpent before entering the temple. Their religious rites, which include the use of hypnotism, are kept very secret, and are only practiced between sunset and sunrise.

Extraordinary Phenomenon. Dr. Griffith said: "We had just pitched camp on the banks of the Euphrates—the same river as is mentioned by Ezekiel as Chabar—when we witnessed a wonderful display as we were watching the setting sun. During the afternoon the sky was lit up by rays of varied hues, projecting like the spokes of a wheel from the setting sun.

From either side of the sun there appeared a long, thin, white, dove-like appearance gave just the idea of the winged wheels within wheels described by the prophet. The period of the year was the same as that recorded in Ezekiel's account. After the phenomenon had lasted for some minutes the sun disappeared from the sky, which had the deep violet hue of the eastern heavens. I cannot account for the phenomenon, but after I had witnessed it I recalled that I had some time previously received a letter from England suggesting that I should look out for such a display."

Dr. Griffith states that the region between the Tigris and the Euphrates only awaits the employment of capital to become one of unbounded wealth.

STOLEN VAN DYCK IS FOUND IN VAN

Picture Valued at From \$100,000 to \$200,000 Recovered by Merest Accident. WAS CUT FROM FRAME

BRUSSELS. Van Dyck's famous painting, "Raising of the Cross," which was stolen two months ago from the church of Notre Dame at Courtrai, was found quite unexpectedly this week.

A commandant of gendarmes was riding on a highway between Thiel and the village of Ardoys, close to Bruges, at an early hour, when he noticed a carrier driving an old covered van, whose appearance aroused his suspicion. He stopped the man and asked him what he had in his van. The driver equivocated, whereupon the officer dismounted and searched the vehicle. Under a heap of rubbish he found the precious canvas, which has been smuggled throughout Europe since the day it was stolen.

While the officer was in the van the carrier made off and escaped in the darkness. The picture was taken to a neighboring house and a telephone message sent to the Bruges authorities, who dispatched mounted police to scour the country for the missing carrier.

On the night of December 7 the picture was cut clean from its frame in the Church of Notre Dame at Courtrai by expert hands. A motor car was heard near the church that night, and the only further clue was that a stranger, loosely described as an English commercial traveler, had visited the church some days before. The man was subsequently found not only as to the value but the exact date of the picture, which is valued at from \$100,000 to \$200,000. Ardoys is only a dozen miles north of Courtrai, on the road to Ostend.

The picture, one of the most beautiful of Van Dyck's religious paintings, follows closely the "Crucifixion" by Rubens, at Antwerp. The Savior, who is represented as being nailed to the cross in the midst of a hostile crowd, wears an expression of intense grief rather than one of agony. It is most dramatic, the tragic aspect being balanced by the gloomy background.

Novelty at a Ball. At the lord mayor's ball letters were placed in the hands of the guests, and a redoubtable column was included in the program. When booking a dance partners' list, a man who had written to the lord mayor and entered the letter on the card.

RUMORED CHANGES

In the Quebec Cabinet—Hon. S. N. Parent to Resume Premiership.

Despite denials in several quarters, persistent rumors of forthcoming changes in the Quebec Cabinet will not be downed. These involve not only cabinet changes, but also the appointment of a new Lieutenant-Governor, and changes on the Bench and in the Transcontinental Railway Commission.
The political prophets, who have been studying out the situation for some weeks back now offer for consideration the following slate, which, they declare, will be announced within a few days.
Sir Louis A. Jette, the Lieutenant-Governor, whose second term has now expired, is slated to replace Hon. S. N. Parent, as Chairman of the Transcontinental Railway Commission.
Hon. J. Taschereau is mentioned as the successor of Sir L. A. Jette, at Quebec, while Hon. Lomer Gouin, Premier of Quebec, is declared to be indicated as the next Chief Justice of the Court of King's Bench.
Hon. S. N. Parent, it is declared, will become Premier of Quebec once more, if Hon. Adolard Turgeon, who was the man most instrumental in securing his removal from that position, will accept office under him. Should this arrangement not be possible, it is declared that Hon. Horace Archambault, Speaker of the Legislative Council, will become Premier, and seek a seat in the popular branch of the Legislature.
Some color is given to the latter part of the story, at least, by the fact that Hon. Lomer Gouin, Hon. Adolard Turgeon and Hon. Horace Archambault spent several days in the early part of the week at Ottawa, in close consultation with Sir Wilfrid Laurier and Hon. L. P. Brodeur.—Montreal Star.

CASE OF SUICIDE

A Young Girl Takes Her Life with Poison while Temporarily Insane.

Quite a sensation was caused in one of the divisions of this city yesterday when it was reported that a young girl had committed suicide by poisoning. The news was true in all respects, but the unfortunate girl's name is not mentioned, owing to the fact that she belongs to a rather respectable family. A St. Roch's physician was called in but notwithstanding all medical science the young girl died in extreme suffering. The coroner of this district held an inquest yesterday when a jury returned a verdict, "Suicide, while temporarily insane."

THE TERCENTENARY

General Committee Now Only Awaits Appointment of Proposed Commission.

A full and definite statement in regard to the scope and arrangements for the Tercentenary celebration next summer will, it is expected, be made during the course of the coming week. A full meeting of the general committee will be held likely on Wednesday next, when everything, it is hoped, will be in readiness to proceed energetically with the preparations.
In conversation with Mr. H. J. J. P. Chouinard, one of the general Secretaries of the Tercentenary Committee, yesterday, a Chronicle reporter was informed that only the appointment of the proposed commission by the Ottawa Government was now awaited, before the actual work of preparation was proceeded with. This commission would probably be announced in the course of a few days, when the general committee would be in a position to determine definitely upon what amount of pecuniary assistance they could count and so decide what projects of the many suggested in connection with the celebration would be carried out.
An immense amount of preliminary work has been done, and nearly one hundred meetings of the different committees have been held. The work has progressed splendidly and shows every prospect for a most successful celebration. All the reports are ready for submission to the general committee, and there is plenty of time to carry out the project proposed. The Provincial Cabinet has already announced its intention of asking the Legislature for a grant of \$100,000 toward the celebration, and as soon the commission is appointed by the Ottawa Government, the press and public will be fully posted as to the intentions of the committee.

QUEBEC SYMPHONY SOCIETY.

A general rehearsal of the members of the Quebec Symphony Society is taking place this evening, at eight o'clock sharp, when every member is expected to be present, in order that the pieces on the programme for the coming Dominion competition in Ottawa should be gone through with the utmost care. The Society will compete on Wednesday, the 26th instant, the departure for Ottawa taking place on Tuesday—out at a quarter to two.

SYMPHONY SOCIETY

Will Enter Earl Grey's Competition at the Capital.

Ottawa Citizen.—The latest development in regard to His Excellency Earl Grey's annual dramatic and musical competitions is that the Quebec Symphony orchestra, the present holders of the musical trophy, will be in the competition.
It appears that the entry was originally in, but it was not believed possible to raise the necessary funds for the expenses. These are considerable, as the orchestra numbers about sixty members. Unexpectedly, however, the funds have been raised and the local musicians will have to try their skill against last year's champions. This amount will be received with pleasure by all the local artists, as they believe that the musical competition would be a real boon to the city, and a good deal of its interest. The entry of the Quebec Symphony into the lists will give the members of the local societies, the Ottawa Choral, the Opera Club, and the Canadian Conservatory of Music, and the Ottawa Musical Society, a real opportunity to test their skill and will double the interest in the competition.
At the advent of the Quebec Symphony has caused rather a mixture of opinion as regards the arrangement of the program for the week. The entries which were in, including the dramatic and musical, numbered only twelve, which allowed two for each night, and the program so arranged was in the hands of the printer. Quebec Symphony, being the holders of the trophy, must be allowed in and the company to drop out will be from Ottawa, as there are three musical and three dramatic companies entered from here. The committee will meet this afternoon and arrange for a preliminary judging. As the entrance of the Quebec company makes only four musical companies, it is likely that the four will go to the final and that one of the Ottawa dramatic companies will be counted out. In this event the Ottawa Theatrical club and the Ottawa Players' club would probably be judged this evening at the Russell theatre and a dress rehearsal would be called of the Ottawa Garrison Dramatic club, the third entry.
The entries for the dramatic competition are two from Toronto, three from Ottawa and four from Montreal, but Montreal, on account of the great population, is entitled to a larger entry.
The competition begins on Monday, Feb. 21, in the Russell theatre.

GENTLEMEN.

Today (Saturday) a grand reduction sale will take place in the shirt department. Come and take advantage of this.

MARCEAU & CIE.,
155 St. Joseph street.

TO LET

The First story of the Board of Trade Building, corner of D'Aloussie and St. Paul streets, presently occupied by J. B. Rolland & Son. Suitable for any business requiring spacious office room. Best location in lower town. Apply to the Secretary of the Board of Trade.

DAINTY BALL PROGRAMME

There's always more or less demand for "Ball Programmes," "Tally Cards," "Guest Cards," and "Menu Cards," for special occasions. I. P. Dery & Fils, Stationers, 59 D'Aloussie street, city, would carefully send samples. Phone 1123.

Kent House Slides are now open.

At the week end performance last night there was an exceptionally fine performance given, which will be repeated to-day. The singing was very fine and was loudly applauded, the chorus especially being exceptionally good. The programme consisted of the following:
The Italian Bandits, a tragedy, is well pictured, it shows the robbery, the capture of one of the pursuers, the fight, and the capture of the band, by a detachment of soldiers. Animated pictures, is very amusing, the trier practices in these pictures is something out of the ordinary. Testing a lifeboat, a very novel performance which will interest everybody. The tests are very severe. Red Tappism, a comedy in which a messenger, a policeman and several vehicles play a prominent part. Adventures of an overcoat. The coat is stolen, the thief steals a watch, the coat then passes through several hands and finally returns to the thief who is arrested. The public will be pleased to learn that the management have secured the services of their former well known musician Miss Goodyear.

HOMOEOPATHY.

Dr. Bender will resume practice in Quebec on Monday, February 3, at the (Kent House), 23 St. Louis street. Office hours: 9 to 10 a.m., 2 to 4 p.m.

BIDS FOR NEW YORK CITY BONDS

New York, Feb. 14.—A syndicate composed of J. P. Morgan & Co., the First National Bank, the National City Bank, and Harvey Fisk & Sons, put in a bid for the entire \$50,000,000 issue of New York City 4-2 per cent. bonds, bids for which were opened to-day. The syndicate offered 103,377 for \$47,900,000 and 100,377 for the remaining \$3,000,000. There were 1,103 bids in all. Many other bids for small amounts were considerably higher than the syndicate offer. The number of bids was a new record for a New York City bond issue, the largest number previously received having been 886. The average bid for the last bond issue in December last was 102,063.

Kent House Slides are now open.

Nearly all our little ills come through inactive bowels. Those days that you lose because you don't feel right—Cascarets will save them all.

In the old days, physic was dreadful—calomel, castor oil, salts or cathartics. And they were worse than they seemed, for they irritated the stomach and bowels. They acted much as pepper acts in the nostrils. They flooded the bowels with fluids. But those fluids were digestive juices. And a waste today means a lack tomorrow. You secured relief, but you were actually worse off than without it.
It's different with Cascarets. Their effect is the same as that of laxative foods, or of exercise. They stimulate the bowels to natural action. No griping, no irritation. They act as a bowel tonic.
The old way, too, was to take large doses of physic. People waited until the bowels were clogged. The new way is to take one Cascaret when you need it. Carry the box in your pocket or purse. Ward off the troubles instantly. The modern plan is to keep at your best. The old way wasted too many good hours.
Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure you get the genuine, with CCC on every tablet. The price is 50c, 25c and

WANDERERS NOW MISS BRODIE WON

Can Quebec Defeat the Champions at Quebec Rink Tonight?

Granite Points' Competition at the Montreal Ladies' Bonspiel.

The sale of tickets for the Quebec Wanderer game at the Quebec Rink tonight opened with a rush yesterday, and the entire reserved section was sold out in about an hour. Prospects are that the Rink will be crowded to its fullest capacity, as the match has awakened the utmost interest, and is looked upon as likely to produce the greatest struggle of the season.

Can Quebec defeat the champions? is now the question which is actively agitating the minds of hockey followers in the Ancient Capital. Betting is pretty lively on the proposition, Quebec having, in the main, the favorite end though there are some who pin their faith to the Wanderers' ability, on their past performances here, to get away with a win again this year. This remains to be seen, however.

Montreal, Feb. 14.—The semi-finals of the single-rink irons and the final for the granite championships were reached yesterday in the third round of the Ladies' Bonspiel. Interest in the bonspiel has not abated, as all the rinks where curling was in progress were crowded.

One of the matches was played on Montreal sheets, between rinks skippered by Mrs. Pinhey, for Rideau, and Miss Brodie, of Quebec, the Rideau skip winning on the final end with the last stone of the match. Quebec was lying two shots with the score 11 to 12 in favor of Rideau, when Mrs. Pinhey with a beautiful stone wicket the two Quebec shots out and lay three. The Rideau Cutlers, who looked extremely neat in their green hats and edging of collars and cuffs, are a hustling quartette and should be able, on the form displayed against the strong Quebec team, who are considered to have stood a good chance of winning the championship, make St. Lawrence, whom they play to-day in the semi-finals, go all out to win.

During the afternoon the granite points competition was won by Miss A. J. Brodie, of Quebec, with a score of 25 points, a curious anomaly, Miss Brodie being an iron player winning the granite points, while Miss Dalton, who won the iron points, is a granite player. Miss Dalton also performed well yesterday, taking second place to Miss A. J. Brodie, with 21 points, an honor shared by Miss E. Clay, of Montreal. Miss Brodie, of Quebec, was next, with 20, with another Quebec curler, Miss Pope coming in order with 18. Quebec, an iron playing club, therefore carry off chief honors in the competition with first, third and fourth places.

Following are the results—
SINGLE RINKS, IRONS.
On Montreal Ice.
Rideau.
Mrs. J. Bryson, Miss Glass,
Miss McGee, Miss M. Scott,
Miss Macrae, Miss A. J. Brodie,
Mrs. Pinhey, Miss Brodie.

THREE CANUCKS IN.

S. L. Brooks, Toronto; Dave Hartley, Peterboro, and Dave Bennett, Hamilton, are the Canadians entered in the Kansas City six-day, 12 hours a day, walk advertised as for the championship of the world. There are in all 32 heel and toe candidates. Hartley left Peterboro last night for Kansas. He is in good shape and expects to win. Major Brooks is also in good condition, and expects to figure well up in the race, regardless of his fifty-odd years.

NEGRO'S STRENGTH

Colored Pugilists Show it in a Remarkable Manner.

"Why is it," a well-known scientist was asked a few days ago, "that so many negro fighters have such magnificently developed torsos? A man like Langford, if his color was white, would be considered more of a muscular phenomenon than Sharkey. The only white man I can think of on the spur of the moment who outclasses him in build is Hackenschmidt."

"The case is a simple physical fact," replied the scientist. "Did you ever notice how bright negro children are? Up to the age of 6 or 8 they are fully as bright as white children. But all of a sudden their development stops. A negro of 21 is still more or less of a child in his 'instincts' and actions."

"It is a racial characteristic that the negro's skull solidifies at a very early age. The sutures grow together. After that there is no room for further development of the brain. A white man's skull develops for several years longer than a negro's. His brain grows until he is fully matured before his skull takes its final form."

CHAMPIONS NOT COMING.

British and French Golf Experts Will Not Visit the U. S.

London, Feb. 14.—Arnaud Massey, the French golf champion, who also won the British championship last year; James Braid and Harry Vardon, former holders of the British title, and J. H. Taylor, who was runner-up with Massey, have declined the invitation to participate in the United States open golf championship.

WOOD'S FAST SKATING.

Chicago, Feb. 14.—Morris Wood, former amateur ice skating champion, who has recently turned professional, gave two remarkable exhibitions at the Logan Square meet yesterday, setting a new world's mark for the 220-yard dash at 0.30. This mark is for a nine-lap track, the former record being 0.29. Wood also skated a quarter-mile in the fast time of 0.39. In both events he skated against time.

CARNIVAL AT ST. ROCH'S RINK.

A grand masquerade will be held in the St. Roch's Skating Rink on Monday, 24th instant, when prizes will be given for the finest and most comical costumes and a special prize will be awarded to the clown, who must take part in a race which will take place that evening. An enjoyable evening is assured for skaters and spectators.

MYSTERY OF WHITE RACES.

The white man's development is equally divided between body and brain. The negro's, when the brain stops developing, is all turned into the channel of physical development. That's the reason that you see so many well-developed negroes among the fighters. The same reasons explain the mystery of the white races over the negro ever since the dawn of history. The white man's brain development has made him master, and the negro's muscular development has made him the worker for the nations of the earth. With the white man's brain to direct and the negro's strength to do the work, Egypt built the pyramids. To-day, all along the northern coast of Africa and the deserts of Arabia and Persia, modern scientists are finding traces of thousands of miles of ancient irrigation canals, that were greater in conception than anything in the modern world. They were designed by the ruling races and built by negro slaves—millions of them.

BLOW TO VICTORIAS.

Montreal, Feb. 14.—Ottawa will meet a weakened team in the game at the Arena to-morrow night, as it is now certain that Frank Patrick, the star point man, will not be able to appear, owing to having hurt his shoulder seriously enough to prevent him handling a stick for at least two weeks. Patrick's absence from the game against Shamrocks, falling on the ice with his arm outstretched, after a hard check from Jack Marshall.

The loss of Patrick will be a severe blow to the Victoria team in such an important game, and the committee will have to find a player to fill Patrick's place.

Cave Howard will also be missing, as his physician has forbidden him to play on account of heart trouble. This leaves Bodland, of the intramurals, as the best available, but it is doubtful if he will be able to hold his own in fast company.

FACTS ABOUT NEGROES.

"But there are some very smart negroes," I objected.

"Yes," said the scientist. "There are exceptions to every rule. But it's a characteristic fact that their children do not inherit the superior brain power. Among Caucasians intelligence usually runs through generation after generation. The best example of the tendency to go back to mere physical strength instead of mental strength is seen in French Hayti."

WOOD'S FOSPHODINE.

The Great English Remedy for Debility, Weakness and Nerve Pain. It is a powerful tonic and invigorates the whole system. It is a powerful tonic and invigorates the whole system. It is a powerful tonic and invigorates the whole system.

BABY'S OWN TABLETS.

A SMILE IN EVERY DOSE

The mother who, in her gratitude for what Baby's Own Tablets have done for her child, said that "There's a smile in every dose" coined a very happy and very true phrase. The tablets cure all the minor ailments of babies and young children, and make bright, smiling, happy little ones. Mrs. John Young, Auburn, Ont., says: "I have used Baby's Own Tablets for more than a year and I think they are the best medicine that can be given a baby. They are splendid at teething time, and for stomach and bowel troubles. You don't need a doctor if you keep Baby's Own Tablets in the house." That's about the highest praise a mother can give and it's true, every word of it. You can get the Tablets from any medicine dealer or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Kent House Slides are now open.

WE HAVE IT.

We have prices that will bring you to our place again this week. In Dress Goods, Gloves, Silk Blouses, Men and Boys' Suits, it will help you to read their big ad.

FAGY, LEPINAY & FRERE.

POLICE COURT.

Three men were before the Police Court yesterday charged with cutting down ornamental trees at Limoilou. They pleaded not guilty and had their trial fixed for the 17th instant. The charge against an Italian of having stolen a box containing a sum of money was dismissed for want of proof.

ITCH, Mange, Prairie Scratches. Barber's Itch and every form of contagious Itch on human or animal cured in 30 minutes by Wofford's Sanitary Lotion. It never fails. Sold by L. E. Mactel.

WE WANT TO SPEAK TO YOU

You will find what we want to tell you in our big ad. Do not miss to look at it because if you do you will be the looser.

FAGY, LEPINAY & FRERE.

When the French were attending to the government there, sending the negroes to school and doing everything possible for them, they improved. But it was all on the surface. They're left to themselves now, and already they have dropped back a couple of centuries. In the interior of the island the civilized negroes of a few years ago have deteriorated until they are exactly like the wild black people who were brought over 100 years ago by the slavers.

"And what has all that to do with the fighting game?"

PHYSICAL PERFECTION.

"Why," replied the scientist, "I am merely telling you why physical perfection is so common among the negro fighters. Next time you see a negro fight, if you happen to remember this, notice his head. You will find that he has a little bullet-shaped skull set on a grand pair of shoulders. His skull is thick, too, and that's why he is so hard to hurt with a blow anywhere about the head. A negro's stomach isn't any weaker than a white man's but that's the only place where he can be hurt to any great extent by a blow, and that's why when a negro quits in a fight, it is invariably after being pounded on the stomach—the only place where the punishment hurts. He would quit sooner than a white man every time if he could feel the punching the way a white man feels it."

SHIPPING NEWS

DOMINION LINE.

Steamer Ottoman, from Portland for Liverpool, arrived home on the 14th.

Steamer Maxman sailed from Portland for Bristol at 3.30 p.m. on the 13th.

Steamer Welshman sailed from Liverpool for Portland at 9 a.m. on the 13th.

CONTRACT AWARDED.

Messrs. Carriary, Son & Co. have again secured the contract for coaling the Empress steamers for the coming season. They are equal to any in the market as to speed and workmanlike ship, and the use of them means a large saving to the manufacturer.

MAURETANIA IN DRY DOCK.

New York, Feb. 14.—The new giant Cunard liner Mauretania has been laid off for a trip and is now in dry dock in Liverpool. To-day it became known that her sister ship, the new turbine Lusitania, is also to have a rest and an overhauling. Both have been in commission only a short time and neither has met with any accident, but a new summer schedule is to be adopted and advantages is being taken of this fact to give the big liners a thorough examination after the stormy weather they have recently encountered. Of course no matter how careful, it is always possible to effect slight improvements after she has been running a while and actual experience has shown how she vibrates, and there is little doubt that this overhauling will be used to make greater or less improvements in both vessels. It was said on authority here yesterday, however, that stories that something was to be done "to moderate the vibration in the Lusitania" were incorrect, because practically no vibration was felt on either passengers who have crossed on the Lusitania, it was said, had been altogether satisfied with her behavior. The Mauretania will next sail from Liverpool on February 22nd and from here on March 7th. When she is disposed of the Lusitania will be put in dry dock. She sailed from here on February 8, and her next sailing from this side will be on March 21, unless the present schedule is changed. "It is customary for our line to overhaul our boats at certain times," said V. H. Brown, general agent of the Cunard line, yesterday.

A WAGES AWARD
BOARD OF INVESTIGATION'S

Interesting Report in the Telegrapher's Case

EMPLOYERS HAVE RIGHTS

Not to the Public's Advantage That Properties Should Be Made Unprofitable.

The following which will appear in the February "Labor Gazette," is from the Report of the Board of Investigation under the Lennox Act, composed of Prof. A. Shortt, J. G. O'Donoghue and W. Nesbitt, K.C., which recently adjusted the dispute between the Grand Trunk Ry. and the Telegraph operators.—
 "The board were much impressed by the suggestions that the same board had recommended a high rate of pay to the telegraphers in the service of the Canadian Pacific than they were prepared to recommend in the present instance. We are glad to be able to report that the parties appreciated the reasons why the members of the board could not in this instance see their way to the recommendation of any higher rate than that finally agreed upon between the parties, and we desire to put upon record some of the reasons why we came to this conclusion.
 "We thought, under the present conditions, that the offer of the company in the matter of increase of wages was all that could be justified. There are many considerations entering into the question. In our view, there is the right of the men to receive a living wage, and that right is paramount. The workman is entitled to get a fair day's wage for a fair day's work. What, however, often seems to be ignored is that capital and labor are both necessary in order to produce a profit, whether it is in the operation of railways, in manufacturing, or in any other branch of trade. The aim of the worker should be to secure a fair share of this profit. But there is also to be considered the position of the man who advances the money to enable the undertaking to be carried on which gives employment. He, too, is entitled to receive a return for his money and his risk. A hundred millions of the capital stock of the Grand Trunk Railway receives no dividend whatever. If such dividends on the preferred stock as are now being paid are still further reduced by the wages bill being increased, what must necessarily follow? The employees cannot obtain further money for expansion, for it can be more remunerative to employ in other undertakings. This certainly would be a disadvantage to the vast numbers who find employment on railways. There is the constant demand of the public for the betterment of the service and equipment, for increase of facilities, the bettering of the roadbed and general improvement in the accommodations. These can only be obtained where the parties asked to advance the money can see some possibility of return for the advance. Our experience on a number of these boards has led us to the conclusion that there seems to be an oversight on the part of the public of two things: First, that there is a continual demand for an increase of expenditure upon the part of the company for facilities, and, second, a continual demand for a reduction of the tariffs which furnish the monies necessary to provide these facilities and accommodations. The growth of earnings is not keeping pace proportionately with the growth of expenses. If the operating expenses and the wages to employees must be increased from time to time, and the public so demand, very serious considerations must be given to the responsibility for the reduction of freight and passenger rates inasmuch as every reduction directly affects the ability of the railways to pay the wages asked by their employees. There is no doubt that the cost of living has greatly increased, and that the employees of a railway company are entitled to be better compensated to meet such increased cost, but surely they are not entitled to be compensated at the sole expense of people who have invested their money and who would in return be deprived of their means of livelihood. The public should bear their share. The railway employee spends his money for the benefit of every other member of the community from farmer to manufacturer, and if the employee has to obtain more money to meet his increased cost of living, other classes of the community who receive the benefit of the money he spends should contribute their share towards enabling him to get the money he has to expend; and it is for the foregoing reasons, that, under the present conditions, and having in view all the surrounding circumstances, we thought that the offer of increase made by the officials of the Grand Trunk Railway Company had gone as far as could be justified, though not necessarily to the limit which the telegraphers ought to receive under other circumstances.
 The deterring of the investment of capital in railway undertakings would certainly not be a benefit to the community at large, and if the property of lenders is to be practically confiscated between the demand of the public on the one side, and the demand of the employees on the other, it must lead to a general reduction in wages or a shrinkage in the number of employees, with a much greater ultimate loss to labor. It has been suggested that this state of affairs may be met

by the state becoming sole owner of the railways. To accomplish this the capital necessary to make railways and work them would still have to be found. The mere fact of state ownership does not bring capital down from the skies like the manna to the Israelites in the desert. If borrowed by the state, interest must be paid for it, and probably at a higher rate than the state now has to pay, for two reasons, first, because of being larger borrowers; second, because of the risk incident to industrial undertakings. If raised by taxation, this would be nothing more than getting it from the collective resources of the country. The wages, other than the living wage before referred to, which are paid by railway companies to their employees, must, therefore, disfigure it as we may, depend upon what a company earns after the interest on capital employed is paid. This may equally be said of all industrial and commercial undertakings, and no amount of vague philanthropic talk can alter this fact any more than it can alter the fact that two and two make four.

Church Services.

St. Andrew's Church (Presbyterian) Levis.—Pastor Rev. J. A. Macfarlane, M.A. Regular Sunday services at 11 a.m. and 7 p.m. Sunday School and Pastor's Bible Class, 10.25 a.m.

New Pine Air Cure
For Catarrh Colds

Dwellers in pine forests never have colds, never know the meaning of catarrh.

Upon this fact is built "Catarrh-zone," which forces into the lungs and nostrils the healing balsams and soothing antiseptics of the pine forest.

The health-laden vapor of "Catarrh-zone" cures the worst of coughs, colds and catarrh—does it in a pleasant, simple way.

The inner corners of the lungs are treated, the uttermost parts of the bronchial tubes are reached, every cell in the nose and throat is bathed in the antiseptic balsam of Catarrh-zone.

Simply invaluable is Catarrh-zone because so safe, so effective, so sure to cure business, whooping cough, catarrh, nose colds or bronchitis—try it yourself.

Complete two months' treatment, guaranteed, price \$1.00; small (trial) size 25c., dealers or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

STATE OF TRADE.

New York, Feb. 13—Braidstreet's statement of trade to-morrow will say:—In Canada trade has largely recovered from the tie-up due to blizzards in the eastern half of the Dominion, but business as a whole is being conservatively carried on. Failures for the week number 44 as against 59 last week and 29 in this week a year ago.

Only One "BROMO QUININE" that is **Laxative Bromo Quinine** Cures a Cold in One Day, Grip in 2 Days on every box. 25c

MONTCALM WARD.

Letter From Alderman P. Hogan To The Electors

The undersigned, at the request of a large and influential number of the electors of Montcalm Ward, consented to again come forward for Seat No. 3 in the interest of Montcalm Ward, and the city of Quebec in general. When the request was made, I was given to understand that I would not be opposed. Now, however, I find that I will have to undergo a contest, and I feel it incumbent upon me to accept the situation by honoring the confidence placed in me by my friends and electors of the Ward, by facing the contest.

I cheerfully recognize the right of Mr. M. Monaghan to exercise the prerogative of his citizenship to enter the list, but at the same time I desire to call the attention of the electors to the fact that I have represented their interests in the City Hall for the past six years, and during that period have consistently and persistently done my duty in the interest of the Ward and the city of Quebec in general.

Therefore, if you consider my past record as your Alderman of value, in the interest of Montcalm Ward and the city of Quebec, I can with confidence appeal for your support as your municipal representative, for which knowledge of city affairs qualifies me, and is undeniably conducive to the welfare of the Ward and city.

I trust that the electors will realize that I have to contend with opposition at the eleventh hour which I did not anticipate, which will greatly handicap my earnest desire to call upon each and every elector to solicit the favor of your vote. Therefore, I take the means of asking the honor of your favor, through the medium of the "Press," trusting that you will accord me the same support in the present contest, as you were good enough to support me in the past, a support I rely upon with confidence, for the reason that I have always performed my duty as Alderman to the best of my humble ability, in keeping with my conscientious judgment.

P. HOGAN.
Quebec, Feb. 10, 1908.

TO THE ELECTORS OF PALACE WARD

ALEX. J. MESSERVEY.
Candidate for Seat No. 3, Palace Ward.
Quebec, 12th February, 1908.

To the Electors of Palace Ward:

Having represented you for the last two years in the City Council, I ask to be judged by my votes publicly received.

I again solicit your vote and influence on the 17th February instant, and can assure you that I will continue to work in the interest and for the advancement of the city, while voting only for public measures after studying them in all their phases.

The matter of snow removal and the establishment of a "garbage system" must be thoroughly studied, and after full investigation, if I find it conducive to the public good, I will lay the matter in detail before the Council.

Your obedient servant,
ALEX. J. MESSERVEY.
Candidate Seat No. 3.

TO THE ELECTORS OF PALACE WARD

Quebec, 16th February, 1908.

To the Electors of Palace Ward,

Having consented, at the request of a large number of the electors, to present myself as a candidate for seat No. 3 of the Ward, I consider it but just on your behalf as well as my own, to submit the following views, to remove certain impressions which have been created against me of a nature to conflict with the truth.

In the first place I reserve to myself the right of independence and to conduct my actions in the Council, if elected, in such a manner as will best serve the interests of the city and of the ward in particular.

I do not represent nor am I connected with any party or parties, merely representing individual voters. I am not a politician.

I am not a representative or supporter of the so called "Liquor element."

With respect to the Mayoralty, I am of the decided opinion, that as the Chief Magistrate of the city is the choice of the majority of the citizens, that it will be my duty, upon election, to support their representative in every measure which is of a character to prove beneficial to the city and to the ward.

With respect to the proposed Park, to commemorate the deeds of Wolfe and Montcalm it is hardly necessary to state that as an officer of many years standing and deeply interested in the Canadian Militia, and as a citizen interested in the welfare of the city that I am heartily in sympathy with the projected movement.

Yours truly,
ERNEST F. WURTELE.

TO THE ELECTORS OF ST. LOUIS WARD

Quebec, February 12th, 1908.

Ladies and Gentlemen:—

At the request of many influential electors of your ward, some of them among the largest property holders, of all creeds and nationalities, I have accepted the nomination for Seat No. 2 in the forthcoming municipal elections.

I was not only born but have lived in the ward all my life on the most friendly relations with my own countrymen and my neighbors and citizens generally of French and English origin.

I am the owner of considerable real estate in the ward, and having leisure time at my disposal, together with a thorough knowledge of the French language, feel that I am a fit and proper person to be elected to a seat in such an important division of the city, promising if that honor is conferred upon me, to safeguard not only the interests of the taxpayers of the ward in particular, but those of the whole city in general.

The urgent questions at present engaging the attention of our people, namely the removal of snow in winter and garbage in summer from the streets, as well as the paving of several of the latter, will receive my best consideration, and I have no hesitation in saying that I favor the city assuming the cost of the same with a due regard to economy.

It is also my intention to use every reasonable effort to secure a reduction of the insurance rates, and, if possible, that of civic taxation, and, in a word, to assist in the promotion of any scheme that will tend to the embellishment of the old rock city, and make it a greater attraction to tourists, and thus in some measure add to the business prosperity of the citizens at large.

In my canvass of the electors to solicit your votes I have frankly declared myself a supporter of His Worship Mayor Garneau, and if his election had been contested I would have made it my duty to cast my vote in his favor, feeling as I do, that apart from other considerations, with the approaching Tercentenary Celebration, next August, which means so much for Quebecers, and for which occasion all should do their utmost to make the affair an unbounded success, we must not only have the strongest but the most influential man possible as our chief magistrate. His election by acclamation is the best proof of this.

I might be permitted to say that I have no personal ends to serve, or favor to ask of the Council, and my sole ambition, if elected, will be to support every wise and beneficial measure that may, from time to time, be brought forward.

Trusting, ladies and gentlemen, that with your votes and influence, I will be returned at the head of the poll for No. 2 Seat on Monday next.

I remain, yours sincerely,
JOS. A. GALE.

TO THE ELECTORS OF MONTCALM WARD

Gentlemen:

Two years ago I had the honor of soliciting your support as candidate for seat No. 2 of the Ward, and it was gratifying to me to witness how you rallied in such great numbers to my assistance. Today I again solicit your votes and I promise you that I shall do my utmost to deserve the confidence which my worthy friends, many of whom were personally unknown to me, then reposed in me.

I appeal to all my old friends to assist me at the present juncture by exerting their acquaintances in this large and representative ward to record their votes.

To see each voter personally would be an utter impossibility. Therefore I crave your indulgence should I chance not to meet or call upon you before Monday next.

Yours respectfully,
M. MONAGHAN.
Feb. 15.

TO THE ELECTORS OF CHAMPLAIN WARD

I take this opportunity of thanking you for the great confidence that you have placed in me by electing me for a third term by acclamation to represent you in the City Council and I can assure you that I will be ready to do all in my power to advance the interest of my ward and the city at large. Once more thanking you, I remain,

Your faithful servant,
PATRICK DINAN.
Alderman, Seat No. 2, Champlain Ward.

TO THE ELECTORS OF ST. JOHN'S WARD

Gentlemen,—I request you to re-elect me for my seat. I think that I have acquitted myself of my duties as an Alderman in a such manner as to earn your support. I have done all I could for the advancement of my ward, but there still remains still lots to be done. If you continue to support me I will continue to work in your interests. More than ever, I am quite aware of your requirements and our most devoted to your interest. If you think that I am worthy to represent you in the City Council, if you have confidence that I can help you, you should support me. On the contrary, if you think that my opponent is superior to me your duty is to elect him to represent the ward, and you should choose the best man.

RENE P. LEMAY.
Candidate for Seat No. 3, St. John's Ward.

TO THE ELECTORS OF JACQUES-CARTIER WARD

Gentlemen,—While cordially thanking you for the sincere mark of confidence which you gave me in electing me by acclamation as Alderman for No. 1 Seat, I wish to state that I quite understand the particular significance given under the circumstances and that I propose to carry out the mandate which you have conferred in me in a most conscientious manner.

Your devoted servant,
ONESIME PULLIOT.

TO THE ELECTORS OF ST. PETER'S WARD

I beg the electors of St. Peter's Ward to accept my sincere thanks for having elected me by acclamation as Alderman for Seat No. 2 and I can assure them that I will endeavor to the best of my ability to merit the confidence which they have placed in me.

JOS. O. SAMSON.

B. Boutet's, 203 Morin street; Poll No. 76 comprises Bagot and Boisseau streets, at Napoleon Boutet's, 374 Bagot/Bagot street; Poll No. 77 comprises Napoleon, Signai and La Salle streets, at Joseph Thibault's, 73 Signai street.

H. J. J. B. CHOUINARD,
City Clerk.
Quebec, Feb. 12, 1908.

TO THE ELECTORS OF ST. LOUIS WARD

Quebec, February 12th, 1908.

Ladies and Gentlemen:—

At the request of many influential electors of your ward, some of them among the largest property holders, of all creeds and nationalities, I have accepted the nomination for Seat No. 2 in the forthcoming municipal elections.

I was not only born but have lived in the ward all my life on the most friendly relations with my own countrymen and my neighbors and citizens generally of French and English origin.

I am the owner of considerable real estate in the ward, and having leisure time at my disposal, together with a thorough knowledge of the French language, feel that I am a fit and proper person to be elected to a seat in such an

CITY OF QUEBEC,

CITY CLERK'S OFFICE. Quebec, Feb. 11th, 1908.

PUBLIC NOTICE is hereby given that, in conformity with the provisions of the Act 51-52 Viet., chap. 78 and its amendments...

FOR THE OFFICE OF MAYOR. Mr. J. Geo. Garneau, merchant. FOR THE OFFICE OF ALDERMAN FOR SEAT NO. 1

St. Lewis Ward—Patrick Campbell, livery stable keeper. Palace Ward—Cyrille Duquet, jeweller; Lawrence Arthur Cannon, advocate

FOR THE OFFICE OF ALDERMAN FOR SEAT NO. 2 St. Lewis Ward—Alexander Cummings, contractor; Jos. A. Gale, merchant; A. H. Hall, Veterinary surgeon

Palace Ward—Antoine Aime Lantier, dentist. St. Peter's Ward—Joseph O. Samson, merchant. Champlain Ward—Patrick Dinan, stevedore

St. John's Ward—Damien Matte, trader. Montcalm Ward—C. J. Lockwell, manufacturer. St. Roch's Ward—Albert Jobin, physician; Louis Letourneau, manufacturer

Jacques Cartier Ward—Hubert Moisan, undertaker; Alphonse Huard, notary. St. Sauveur Ward—Omer Brunet, machinist; Joseph Arthur Vermette, furrier

St. Valier Ward—Jules Patry, advocate; Telephore Verret, butcher. FOR THE OFFICE OF ALDERMAN FOR SEAT NO. 3

St. Lewis Ward—Alexandre Gauvreau, notary. Palace Ward—Alexandre James Messervey, accountant; Ernest Frederick Wurtelle, accountant

St. Peter's Ward—Charles G. Noreau, merchant. Champlain Ward—William John Mulroney, stationer. St. John's Ward—Rene Pamphile Le-may, architect; L. Arthur Hudon, Burgess

Montcalm Ward—Michael Monaghan, agent; Patrice Hagon, merchant. St. Roch's Ward—Napoleon Drouin, manufacturer. Jacques Cartier Ward—Nap. Barbeau, contractor

AT THE THEATRE.

BIG ACROBATIC FEATUE AT BENEETS NEXT WEEK.

Since the opening of this popular theatre to vaudeville the manager has presented all kinds of acrobatic feats of a sensational and comical nature and it seems almost impossible that anything new could be presented in this particular line of business. The four RIANOS have an acrobatic sketch that is entirely new and original. The scene represents a hotel in South Africa, and the maid of all works is perched upon a shelf to keep out of the way of a big snake that has escaped from the connection of a reptile gatherer, a guest at the hotel. While she sits secure the ugly serpentine creature protrudes from a bunch of plants, over the young woman's head and lowers with distended jaws, and though about to seize the girl. She gives a yell and comes down from her perch in a hurry, describing many startling turns in her flight to the floor. The professor the animal collector, comes in and he and the maid of all work tumble about like two rubber balls in a endeavor to escape from the two huge gorillas that bound through the hotel windows to chase them. The gorillas are, of course, the other two RIANOS, and the acrobats perform feats that would

with the famous Lole Fuller. Four different dances are done which are alone a feature of their pretty effects. Two special electricians, in addition to the house staff are required to work the many different calcium effects. This number ought to create somewhat of a sensation among local theatre-goers, as it is a distinct novelty. Although several acts of a similar description have been seen here, this act is guaranteed to be entirely away from the ordinary numbers of this kind. No doubt local patrons will be pleased to hear of the return engagement of Miss Dargoval who made such a tremendous hit here last season. Miss Dargoval will present an artistic Epano logos, introducing her well cultivated soprano voice in a repertoire of choice French selections. Another colored act which is said to be the finest ever. The act is called the Chinaman and the Coon, and is said to be the best colored number now appearing in vaudeville, and they are in receipt of many flattering press notices from the different cities where they have appeared. Bellman and Moore well known vaudeville artists will make their initial appearance in impersonations of well known stage celebrities. The Perry sisters three in number will introduce a novelty in the sister line. The act consists of singing and dancing, but in addition to the above, they will introduce a surprise, never seen in this city. Ferreros and his wonderful dog and the Bennettoscope complete an exceptionally fine bill. Manager Aloy is negotiating with the Abert/Opera Co. in view of play-

MISS JOHANNA O'MEARA.

Of the Famous O'Mear Sisters Daring Wire Artists, who will Appear at Bennett's Soon.

even cause an agile member of the Simian tribe's heart palpitate to attempt. The act is the very best of its kind on the road and is easily one of the big features of the week's bill. One of the most spectacular novelties ever seen in the fire dancing line will be presented by Ameta. This young lady compares very favorably

ing an unlimited engagement of comic Opera. The above Co. have a cast of nearly 60 people and are now playing at HIS MAJESTY'S THEATRE, Montreal. It is quite possible that in the near future that local theatre-goers will have an opportunity of seeing some good Comic Operas and Musical Comedies.

Why Many People

Look So Old

To look old before their time seems not uncommon to-day, with many people who should still be in the prime of life. Physicians say nothing in the world is so sure to age a person, to destroy their vitality and happiness as pain. A comparatively young man who suffers with muscular or inflammatory rheumatism, looks older than a man twice his age. The farmer, the man who works hard at labor, the mechanic, is subject to the baneful influences of dampness, fog and inclement weather. It is hard for him to escape pain. What he needs at home is a bottle of that tranquilizer, Polson's Nerviline, which gives instant ease to every kind of pain. So strong and concentrated is Nerviline that one application, is as good as six ordinary rubbings with other liniment. The most wonderful pain-subduing substances in the world are in Nerviline—that's why it penetrates so quickly, why it instantly cures pain that other remedies can't even relieve. You'll be surprised how quickly Sciatica, lumbago or rheumatism are cured by Nerviline—seems almost magical the way it will cure a cold or sore throat. When the chest is sore and it hurts to draw a long breath, one rubbing with Nerviline is sufficient. So highly valued is Nerviline by those who use it, that many families consider it quite as good as a doctor for aches, pains and minor ailments of every kind.

T' SHU' DO VN

Toronto, Feb. 13—Hard times in the West will cause the shutting down of the American Abell Engine and Trestle Co.'s plant here for a while, and within a month 100 machinists will be laid off. This makes a total of 500 men laid off since last October. The company's full force of mechanics is 555, and after this month only about 50 will be at work, and these only to keep what work is on hand moving. The American Abell Engine and Trestle works were established on Abell Avenue in Toronto five years ago, and until the past year business has been good. The company also operates large plants in Minneapolis, Minn., and Battle Creek, Mich.

Catarrrh is not a Luxury OR A NECESSITY.

Catarrrh makes a man ridiculous—it makes him an offensive nuisance and it makes him dangerously sick. It is pretty easy to bring on consumption, pneumonia or at least a throat affection. You can not afford either, but you can afford the cure for it. It is Dr. Agnew's Catarrrh Powder. It relieves a cold or catarrrh, or cures a headache in 10 minutes. Don't hawk and spit and disgust your friends, but cure yourself by the use of this remedy. Dr. Agnew's Ointment relieves eczema in a day, 35c. Sold by L. E. Martel.

WAS SIXTY YEARS A MAN

Katherine Vosbaugh, who has masqueraded as a man for sixty years, is dead at Trinidad, Colorado. Her true sex was discovered only recently, when she was admitted as a patient to the Trinidad Hospital. Only once before during her entire life was the fact that she was a woman known.

In her time she has filled many responsible positions. She possessed the spirit of a man, as well as the man's apparel, and was more chivalrous than many a man.

She proved this by marrying a young woman whose fiance had deserted her at a time when her good name was at stake. But she first told her life story to the young woman, who lived in St. Joseph, Mo.

THE OTHER TIME. That was the first time Katherine Vosbaugh had to acknowledge that she was a woman. She was then 30 years of age.

The second time was when she was dying and was compelled to inform the hospital physician.

During her life she has been bank clerk, sheep herder, bookkeeper, restaurant keeper and mining camp cook. She spoke several languages. She seemed most happy when in rough overalls and shoes, doing laborious work. This in spite of the fact that she was brought up in refinement.

BORN IN FRANCE. Katherine Vosbaugh was born in France. She came to America in 1842, at the age of 18. Her father had just died. She decided to make her way as a man. So, donning trousers, she settled in Joplin, Mo., as a bookkeeper.

For nine years she remained in Joplin, and was esteemed a fine young man. Then she went into a bank at St. Joseph. It was here that she learned of the trouble of the young woman, whom she afterwards married.

When Miss Vosbaugh's "wife's" baby was born, the odd couple moved to Trinidad and opened a French restaurant. The baby died a few months later. Then the mother disappeared. The people of Trinidad had much sympathy for the deserted "husband."

SHE WAS BRAVE. Forty years ago Miss Vosbaugh obtained employment at Sam Brown ranch. Later she accepted work as camp cook, and remained in that capacity up to two years ago. In many stirring scenes when men revealed fear and nervousness she kept her poise.

The Popularity of Dewar's Whisky

proves its quality.

SECCOTINE

THE GREAT ADHESIVE.

Sold by I. P. DERY & FILS, Stationers
59 Dalhousie Street, City.

For new work, for old work, for making and mending, for use on wood, iron, glass, leather, paper, bone, or other material, Seccotine is invaluable to mechanic, carpenter, amateur, boy or girl.

FLORENCE NIGHTINGALE.

The Story of the Good Work She Did in the Crimea.

When Miss Nightingale sailed with her thirty-seven nurses she arrived upon the scene of her work in time to receive the Balaclava wounded; and, but a day or two later the six hundred sufferers from Inkerman began to be carried in.

The hospitals at Scutari are described in one of Lord Palmerston's own letters as a hotbed of pestilence. Never did the presence of one human being of heart, intelligence and will effect so swift and magical a transformation in a scene of torture and of chaos.

The death-rate rose to as high as 42 per cent in the early weeks of her work; when her measures had been in full effect for a few months that terrible figure of mortality had fallen as low as 2 per cent.

Statistics have never told a more wonderful tale. At the end of all she succeeded in occupying the triumphal honors which had been designed for her.

Greater enthusiasm had never been known in England. A warship was ordered to bring her home. London prepared herself for one of its overwhelming welcomes.

Miss Nightingale, in spite of the fever and intolerable fatigues which permanently weakened her health, had remained at her post to the last. But she now embarked quietly in a French vessel, and she had safely reached her home in the country before the fact and manner of her return became generally known.

Every Reader Should Know

The Following Medical Facts:

How few realize that twenty-five per cent. of all disease has its origin in some interference with the function of elimination. Up to a certain point the body has power to object to destructive elements, but this power is limited. When it happens that the body is loaded with wastes and poisons which it can't eliminate, fermentation, decay and germ life run riot through the blood. Serious illness is the result unless nature is assisted by a cleansing tonic like Dr. Hamilton's Pills, which are purely vegetable, contain no mercury, no bismuth, no injurious metallic ingredients of any kind. Such a medicine is the greatest possible assurance to every man and woman of health, spirits and contentment. Grand results are achieved, and famous cures made every day by Dr. Hamilton's Pills, as this letter proves.

From Newfoundland, Miss 178an Anthony, of Upper Gullies, Conception Bay, writes: "In praise of Dr. Hamilton's Pills, I must say that I have used them with grand success for three years. They never fail to cure me of indigestion or constipation. Formerly my face was full of pimples but now my complexion is clear and ruddy. In more ways than I care to mention have Dr. Hamilton's Pills helped me, they would be good for every woman to use."

Insist on only Dr. Hamilton's Pills, 25c. per box or five boxes for \$1.00 at all dealers.

For Coughs
 It would be very interesting to know how many years your family physician has prescribed Ayer's Cherry Pectoral for coughs, colds, and all forms of lung troubles. Ask him the next time you see him. We know physicians who have used it for over half a century.
 Ayer's Cherry Pectoral. Its a regular medicine, a strong medicine, a doctor's medicine.

Correspondence

MONTCALM WARD.
 To the Editor of the Chronicle:
 Sir,—It is with a great deal of pleasure that I heartily endorse the opinion expressed by "An Interested Elector" in connection with the coming election in Montcalm Ward, and his appreciation of the valued merits of the present member Alderman Hogan. This gentleman's candidature is one that should be warmly received by the great majority of the electors of that Ward. Mr. Hogan has been most sincere in his efforts to do all the good possible for his ward, Honest, and above board in all his dealings, and at all times most conscientious in maintaining for our citizens and our city, the best possible measures for the general good. I heartily endorse all that has been said in his favor and believe that Mr. Hogan will be returned by a still greater majority than ever.
 Yours respectfully,
A. SINCERE ELECTOR.
 Quebec, Feb. 14th, 1908.

Correspondence

To the Editor of the Chronicle:
 Sir,—An advertisement appears in yesterday's issue of the Montreal Star headed, "The Battlefields of Canada, The Great Tercentenary Celebration," and calling upon the citizens of Montreal to liberally aid the Governor-General towards the acquisition of the battlefields of the Plains of Abraham and Ste. Foye at Quebec, and in the formation of a great National Park.
 The object is surely a good one, and one which must commend itself to every citizen of Quebec of both nationalities. There is no city in the Dominion as much interested in this matter as our own, and this for reasons too obvious to mention. Placing it on the lowest ground, both the Tercentenary Exhibition and the National Park will materially help this city, the one by bringing a large influx of strangers next summer and the other by adorning and beautifying our surroundings.
 It is surely then right that the citizens of Quebec should subscribe liberally to the object to be attained, and should be called upon at once to do so, and that Montreal, perhaps less interested in this matter than we, should not be allowed to take the lead. It is said the Provincial Government will vote \$100,000 toward the Tercentenary fund and the Ontario Government a similar amount. Steps have already been taken to collect monies in England and France, the colonies are being appealed to, New Zealand is already responding, and the boys and girls, it is said, in Calcutta are assisting.
 What is Quebec doing, what are our own citizens going to do? It does not enter into the mind of any, to allow the opportunity to pass, or to reap the benefit without subscribing toward the object.
 It is humiliating in the meantime to hear the residents of other cities, especially those of Montreal, asking as they are doing why Quebecers are so slow in moving in the matter, and what they intend to do.
 Will somebody in authority make the public aware what steps are being taken, or are to be taken toward raising a public subscription. There is no time to lose, and the general public I feel sure, would be pleased to learn that a strong move was at once to be made in this direction, and that public subscription lists were being started, so that each of us, and every boy and girl in the city, may, at least, be afforded the opportunity, through Quebec sources, in this way to help the Tercentenary Celebrations and to show our appreciation of the Governor-General's movement.
 Might I suggest also that the public be made aware whether in subscribing they can do so toward the Tercentenary Fund or to that for the purchase of the battlefields and the National Park, or to both as they may desire.
 Thanking you, Mr. Editor,
 I remain, etc.,
 CITIZEN.

Correspondence

DAY BY DAY.
 February is certainly carrying the weather to extremes.
 Patience is a virtue—more especially at a belated hockey match.
 St. Valentine's Day was naturally in a melting mood.
 The house-hunting season is on, and if the hunters would only carry guns they might possibly bring the rents down.
 Wonders never cease, they say. But possibly wanderers may after Quebec cuts out the pace for them tonight.
 Possibly the heat of the municipal campaign may be having some effect on the weather. But just think of the frost some of the candidates will encounter on Monday.
 The lost roads of winter are fading away.
 Now one can walk along the street without being scared almost to death by those mid-February "works of art" in the shop windows.
 Montreal wants the Quebec bridge raised to a height of 190 feet. Well it certainly is too low now.
 'Tis now very plain that to make the Plains of Abraham less plain is to be plain sailing, remarks the Rover.
 It is reported that at Monday's steeplechase no less than sixteen of the runners will not be in at the finish.
 The idea to have floating hotels duly licensed to ply on the river front is for hard to beat.
RUNAWAY HORSE.
 The horse of a milkman named Achilles Turgeon, frightened by the fall of some snow from a roof, ran away at the corner of Grand and Beaufort streets yesterday morning. While turning into St. Joseph street, the horse collided with another vehicle, which was somewhat damaged, and Turgeon had a narrow escape from being seriously injured.

 'Tis now very plain that to make the Plains of Abraham less plain is to be plain sailing, remarks the Rover.
 It is reported that at Monday's steeplechase no less than sixteen of the runners will not be in at the finish.
 The idea to have floating hotels duly licensed to ply on the river front is for hard to beat.
RUNAWAY HORSE.
 The horse of a milkman named Achilles Turgeon, frightened by the fall of some snow from a roof, ran away at the corner of Grand and Beaufort streets yesterday morning. While turning into St. Joseph street, the horse collided with another vehicle, which was somewhat damaged, and Turgeon had a narrow escape from being seriously injured.

What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription."
 The answer is that "Golden Medical Discovery" is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder—curing a large per cent of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous colitis, hemorrhoids, uterine or other pelvic organs). Even in the chronic or incurable cases of these affections, it is often successful in affecting a cure.
 "Favorite Prescription" is advised for the cure of one class of diseases—those which weaken the system, and exhaust the vitality, and are due to a general debility. It is a powerful yet gently acting invigorating tonic and nerve. For weak women, out-of-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.
 A book of particulars wraps each bottle giving the formulae of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.
 The words of praise bestowed on the several ingredients entering into "Doctor Pierce's" medicines by such writers should not be non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof they speak.
 Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of a portion of native American medicinal forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines of known composition, any secret nostrum.
 Dr. Pierce's Pills, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.
