INTRODUCTION

The results on the June 2004 uniform ministry examinations are presented for each school board and for the public and private school systems. Graduation rates are included for each school board. This information reflects the desire of the Ministère de l'Éducation to facilitate access to information that is in the public domain.

The report, which is also available on the Internet, is divided into three sections: organization of the examination session; results on the uniform examinations by administrative region, school board, public school and private school; and graduation rates by administrative region and school board.

The results are presented for the examinations as a whole by language of instruction and by ranking of educational institution for each uniform examination. The section covering graduation rates contains only one indicator presented in table form: graduation rates by cohort, observation period and sex. Additional information on the results on uniform examinations and graduation rates are available on the Ministère's Web site (see Appendix 1).

This information document is intended for educational institutions and the general public with a view to enabling:

- public and private educational institutions to have access to information for evaluating their educational practices, comparing their effectiveness over time, identifying their strengths and weaknesses, and comparing their performance with that of other educational institutions
- the general public to have access to official Ministère information

while taking into account the context and different characteristics of each educational institution when interpreting these results.

In order for the objectives of this publication to be met, it is important that educational institutions and the general public **keep in mind certain factors that may affect students' academic achievement** when comparing their students' marks with the provincial results. Such factors include:

- **Family situation:** The support and availability of parents, their financial situation and the family's standard of living in general are among the factors that may affect a student's academic achievement. Studies carried out in Québec and elsewhere have shown that the academic achievement of students from socioeconomically disadvantaged areas is generally lower. School boards have a socioeconomic indicator available for each of their schools that they should take into consideration when reviewing results.
- **The geographic location of the educational institution:** Learning in some subjects, such as the second language, may be affected by the institution's location. For example, the conditions for learning English as a second language are not the same throughout Québec.
- **The choice of courses offered by an institution:** In educational institutions with relatively few students in the second cycle of secondary school, the choice of courses offered may be somewhat limited and the classes more or less homogeneous. The institution's overall performance may thus be affected.
- **Mother tongue:** The proportion of students whose mother tongue is not the language of instruction may have an impact on examination results and graduation rates.
- **The integration of students with special needs into regular classes:** It is clear that in educational institutions that routinely integrate students with special needs into regular classes, the increased range of disparities among the students sitting for ministry examinations may affect the overall success rates for those institutions.
- **The grouping, in some schools, of students with major learning difficulties or psychosocial integration difficulties:** Such students enrolled in special classes in an educational institution may have a significant impact on the overall performance of the school.
- **Different practices related to admission:** Some educational institutions take in all students, while others base admission on past academic achievement or performance on aptitude tests.

PART I

1. ORGANIZATION OF THE EXAMINATION SESSION

1.1 Coordination

The Direction de la sanction des études has the responsibility of defining and applying rules regarding the certification of studies in general education. Consequently, it has a mandate to coordinate the administration of uniform examinations, correct the examinations and publish the results.

1.2 Certification Requirements

The certification rules in section 32 of the *Basic school regulation for preschool, elementary and secondary education* will apply beginning in the 2007-2008 school year. Until that time, to obtain a Secondary School Diploma (SSD), students must have accumulated a minimum of 54 Secondary IV and V credits, at least 20 of which must be at the Secondary V level or in vocational training. Of these 54 credits, the following are compulsory:

- 6 credits in Secondary V language of instruction
- 4 credits in Secondary IV or Secondary V second language (French sector)
- 4 credits in Secondary V second language (English sector)
- 4 credits in Secondary IV History of Québec and Canada

1.3 Preparation of Uniform Examinations

The responsibility for preparing examinations for the certification of studies is shared by the Ministère and the educational institutions. Each year, the Ministère selects a certain number of subjects for which it will prepare uniform examinations. Evaluation in the other subjects is the responsibility of educational institutions.

The uniform examinations are summative examinations used for evaluation purposes in subjects that are compulsory for the certification of studies or subjects that are prerequisites for certain college programs.

The following are some of the characteristics of uniform examinations.

- The examinations are prepared by teachers and education consultants in the English and French sectors of the education system. Every year, many people contribute to the development of uniform examinations and the Ministère coordinates the entire operation.
- These examinations are not field-tested prior to being administered to students in Québec schools; however, this does not preclude the field-testing of certain items that appear more problematic. A new examination is developed for each subject and each examination session. The Ministère strives to develop examinations that are comparable from one session to another.

1.4 Administration of Examinations

Every year, the Ministère publishes an official timetable for the examination sessions. Educational institutions must fully respect this timetable: school boards and private schools may not hold a uniform examination at any other date than the one indicated in the official timetable. Educational institutions are responsible for administering the examinations and must provide the required premises and supervisory personnel. The Ministère provides the examination materials.

1.5 Correction of Examinations

Uniform examinations may contain both multiple-choice items and constructed-response items. The multiple-choice items are corrected by the Ministère and the constructed-response items, by the educational institutions. The French, language of instruction, examination (with the exception of the French writing examination) and the English Language Arts examination are corrected in full by the educational institutions in accordance with the Ministère's instructions.

1.6 Processing of Results and Determination of the Final Mark

For each subject tested in a uniform examination, the final mark of the student is determined by taking into account the result on the uniform examination and the result obtained during the school year.

For the reasons specified below, the Ministère may use two procedures called **conversion** and **moderation**, which can affect examination results and school marks. However, under no circumstances does the Ministère normalize results in the statistical sense of the word. If it were to do so, it would have to change the raw scores for an examination so that the distribution of the scores would follow a normal bell curve.

Conversion

To ensure that the examinations are fair, the Ministère endeavours to prepare examinations of comparable difficulty from one year to the next.

Despite the precautions taken during the development of the examinations, abnormally high failure rates may occur. In this case, the Ministère may either take corrective measures—for example, by removing a poorly worded question—or convert the results. Conversion is a procedure that involves raising all the scores of an examination slightly, thereby lowering the failure rate. In this respect, the first paragraph of section 470 of the *Education Act* stipulates that, “The Minister may, to avoid penalizing students unduly, revise the results obtained by them in the examinations he imposes, to compensate for any error or ambiguity in the examinations brought to his attention after they are taken.”

In June 2004, two questions on the Secondary IV History of Québec and Canada/Histoire du Québec et du Canada examination and one question on the Secondary V French Listening examination were removed.

Moderation

School marks, which are taken into account in determining the final mark on a uniform examination, may vary considerably from school to school and from class to class. These differences may be explained by a number of factors. The degree of difficulty of the local examinations varies from one educational institution to another. Some classes are heterogeneous, while others are more homogeneous and include only the strongest, average or weakest students. Finally, some institutions normalize their marks.

Thus, two groups of students from different classes or schools may have identical results on the local examinations, but it is impossible to determine objectively if the students' level of performance is in fact the same. Uniform examinations are administered to all students enrolled in a given course; therefore the results on such examinations are a good indication of the performance of different classes. It is thus possible to use the marks obtained on a uniform examination to "moderate" the school marks, that is, to minimize or eliminate the impact of the local variables mentioned previously.

When the Ministère uses moderation, it compares, for each class (usually about 30 students), the school marks and the uniform examination marks. Using a statistical procedure, the school marks for each class are changed so that they are consistent with the marks obtained on the uniform examination by this class, according to the mean and the standard deviation (that is, the dispersion of marks around the mean).

Moderation involves adjusting each students' school mark upward or downward. It cannot, however, result in the failure of any student who has obtained a pass mark both from the school (before moderation) and on the uniform examination.

Final Mark on the Uniform Examination and Final Result in a Subject

For each subject that has a uniform examination, final marks are made up of the students' moderated school marks and their results (converted or not) on the uniform examinations.

When there is more than one examination for a subject, or when one or more components of a subject are evaluated only by the school, a comprehensive final mark is determined that takes all these components into account.

1.7 Publication of Results

The Ministère is responsible for publishing the results. After an examination session, it publishes official documents for students and the data lists for educational institutions. This information is distributed as soon as possible after each examination session.

Educational institutions may thus evaluate their performance immediately and modify their educational practices as needed in order to ensure the academic success of their students.

Finally, the Ministère publishes an annual report intended for educational institutions and the general public.

2. EXAMINATION RESULTS

Part II of this report first presents an overview of the examination results on the June 2004 uniform examinations and the results recorded for all of Québec and for each administrative region. It then presents the June 2004 examination results for each school board and public school as well as for each private school. The number of examinations taken and the number of students are also given.

2.1 Overview

In June 2004, nine uniform examinations in the French sector (for seven subjects) and nine uniform examinations in the English sector (for six subjects) were administered to Secondary IV and V students.

Examinations in French Sector

056-470 Sciences physiques 416
068-436 Mathématique 436
068-514 Mathématique 514
085-414 Histoire du Québec et du Canada
129-510 Français, production écrite
136-410 Anglais, production orale et écrite
136-420 Anglais, compréhension orale et écrite
136-510 Anglais, production orale et écrite
136-520 Anglais, compréhension orale et écrite

Examinations in English Sector

556-470 Physical Science 416
568-436 Mathematics 436
568-514 Mathematics 514
585-414 History of Québec and Canada
630-516 English Language Arts
634-560 French Writing
634-570 French Reading
634-580 French Listening
634-590 French Speaking

Table 1 presents a few points of general information on the June 2004 examination session for all of Québec. The equivalent data for June 2000, 2001, 2002 and 2003 are also presented.

TABLE 1 EXAMINATION SESSIONS, 2000 TO 2004

	2000	2001	2002	2003	2004
Number of Uniform Examinations	14	16	18	18	18
Number of Students Taking One or More Uniform Examinations	155 387	151 653	148 377	146 758	147 176
Number of Examinations Taken by These Students	357 632	382 509	390 165	383 594	386 082

Table 2 shows the average marks and success rates for all of Québec and for students grouped according to certain variables. The equivalent data for June 2000, 2001, 2002 and 2003 are also included.

The final marks for each subject for which a uniform examination was administered served as the basis for the average marks and success rates published in the report.

**TABLE 2 UNIFORM MINISTRY EXAMINATION RESULTS
ACCORDING TO CERTAIN VARIABLES, 2000 TO 2004**

	Average Mark (%)					Success Rate (%)				
	2000	2001	2002	2003	2004	2000	2001	2002	2003	2004

2.2 Results by Educational Institution and Administrative Region

The results presented in this section should make it possible to assess the performance of schools with respect to academic success. However, this information should be used with discernment, taking into account the factors indicated previously, which can affect students' academic achievement.

To facilitate their location, schools are listed by administrative region and in alphabetical order. Overall results for English school boards have been grouped under the region of the school board's head office; however, data for each school can be found under the region in which each school is located.

The results for all of Québec, presented at the beginning of each table, include all results obtained during the June 2004 examination session. Results for the public school system, also presented at the beginning of each table, do not include those for the Cree School Board and the Kativik School Board, which are not published in this report.

The results for the June 2004 uniform examinations are presented in tables 6, 7, 8 and 9.

TABLE 6 presents results for all the uniform examinations, for all educational institutions in Québec.

TABLE 7 presents results for all the uniform examinations, for all educational institutions in Québec educating students in French.

TABLE 8 presents results for all the uniform examinations, for all educational institutions in Québec educating students in English.

The Commission scolaire du Littoral and some private schools educate students in both languages. They appear in tables 7 and 8.

TABLE 9 presents the success rates for each uniform examination, by educational institution.

In each table, the results for schools in the public and private systems are presented separately. For each institution presented in tables 7, 8 and 9, the following information is given: the number of examinations taken, the number of students, the average mark (%), the success rate (%), the ranking of the institution and the variance of the success rate in relation to the success rates of all public and private institutions listed in the table. Table 9 provides the success rate for each uniform examination as well as for the final result for subjects with examinations that comprise more than one component.

TABLE 6
OVERALL RESULTS ON THE JUNE 2004 UNIFORM MINISTRY
EXAMINATIONS, BY EDUCATIONAL INSTITUTION

SUMMARY	NUMBER OF INSTITUTIONS	NUMBER OF EXAMS TAKEN	NUMBER OF STUDENTS	AVERAGE MARK (%)	SUCCESS RATE (%)
PROVINCIAL RESULT	606	386 082	147 176	75.0	87.1

1. Oral and written production

2. Oral and written comprehension

X. Success rates for educational institutions that had 10 students or fewer taking an examination. Note: Institutions that had 10 students or fewer for all the examinations are not included (see Appendix 2).

3. GRADUATION RATES BY SCHOOL BOARD AND ADMINISTRATIVE REGION

This section presents the graduation rates, by school board and by administrative region, for students under the age of 20 who have obtained a first diploma in the youth sector or in the adult sector.

The following diplomas are considered for the purposes of this indicator: the Secondary School Diploma—SSD, the Diploma of Vocational Studies—DVS (formerly known as the Secondary School Vocational Diploma—SSVD), the Secondary School Vocational Certificate—SSVC, the Attestation of Vocational Specialization—AVS, the Certificate in Life Skills and Work Skills Education and the Certificate in On-the-Job Training in a Recycling Facility. Only the first diploma obtained by the student is taken into account in the calculation. Also, wherever the student obtained a first diploma, it is counted in the school board where the student first enrolled in Secondary I.

To calculate graduation rates, a cohort of students first enrolled in Secondary I at the beginning of the observation period was followed for 7 years. For example, the graduation rate after 7 years for the cohort of 1997 corresponds to the percentage of students **newly enrolled in Secondary I** in 1997-1998, who obtained a first diploma after 7 years of secondary studies in 2003-2004. Thus, of the 86 341 new students who were enrolled for the first time in Secondary I in 1997-1998:

59.7% obtained a first diploma in 2001-2002, after 5 years
an additional 8.0% obtained a first diploma in 2002-2003, after 6 years
an additional 3.1% obtained a first diploma in 2003-2004, after 7 years

Consequently, the graduation rate for the 1997 cohort was 70.8% after 7 years of secondary school studies.

Table 10 presents the graduation rates of four cohorts—those of 1996, 1997, 1998 and 1999. For each one, the graduation rate is given by observation period and sex.

The graduation rates for all of Québec, found at the beginning of the table, include students in private schools, but these are excluded thereafter. The method used to calculate graduation rates cannot be applied to private schools because of their limited number of enrollments and the mobility of their students, which would yield results of little statistical significance. The graduation rates for an administrative region include only the students in the school boards of

that region. Graduation rates of English school boards are given in the region of the board's head office, even though some schools are located in another region.

Table 10 indicates that the graduation rates after 7 years for students in the 1996 and 1997 cohorts dropped from 71.7% in 1996 to 70.8% in 1997. The graduation rate after 5 years was 58.2% for the 1998 cohort and 60.4% for the 1999 cohort.

Table 10 also makes evident the gap that persists between graduation rates for girls and those for boys. For students of the 1997 cohort, the graduation rate for girls after 7 years was 79.0%, while that for boys was 63.1%. For students of the 1996 cohort, the rates were 79.1% and 64.8%, respectively.

1. The graduation rates by administrative region correspond to the weighted sum of the graduation rates of school boards falling under a given region. Only the graduation rates for the public school system are considered.
2. The graduation rates by school board are calculated using the place of residence of the student corresponding to the territory of the new school board. The student's place of residence is taken to mean where the student was living when he or she first enrolled in Secondary I.
3. The results for all of Québec include those for the public and private school systems.
4. The territory of these school boards extends into more than one administrative region. The graduation rates for these school boards are included in the administrative region under which the school boards fall.

APPENDIXES

APPENDIX 1 ADDITIONAL INFORMATION

In addition to the PDF version of this document, the following information is available (self-extracting files in Excel 5.0) on the Ministère's Web site <<http://www.meq.gouv.qc.ca/sanction>> by clicking on "Résultats aux épreuves de juin" in the left-hand column.

Overall Results

- Overall results on the June 2004 uniform ministry examinations, by educational institution (by school board and public school, and by private school)
- Overall results on the June 2004 uniform ministry examinations for the French sector, by educational institution (by school board and public school, and by private school)
- Overall results on the June 2004 uniform ministry examinations for the English sector, by educational institution (by school board and public school, and by private school)

Results for Each Uniform Examination, by School Board, Public School and Private School

- Anglais, langue seconde, Secondary IV (final results 136-484, written production 136-470, and oral and written comprehension 136-480)
- Anglais, langue seconde, Secondary V (final results 136-524, written production 136-510, and oral and written comprehension 136-520)
- English Language Arts, Secondary V (uniform examination 630-516)
- Français, langue d'enseignement, Secondary V (final results 129-536, and writing examination 129-510)
- French, Second Language, Secondary V (final results 634-594, Writing examination 634-560, Reading examination 634-570, Listening examination 634-580, and Speaking examination 634-690)
- History of Québec and Canada, Secondary IV (uniform examination 085-414 and 585-414)
- Mathematics 436, Secondary IV (uniform examination 068-436 and 568-436)
- Mathematics 514, Secondary V (uniform examination 068-514 and 568-514)
- Physical Science 416, Secondary IV (final results 056-486 and 556-486, and written examination 056-470 and 556-470)

Graduation Rates

- Graduation rates by cohort, observation period and sex, by administrative region and by school board
- Graduation rates after 7 years, delayed secondary school entries and proportion of students enrolled in the private sector, by administrative region and by school board, 1996 and 1997
