THE "KRASEL" ASH SIFTER

PATENTED IN CANADA, APRIL 16, 1896.

PATENTED IN UNITED STATES, OCT. 27, 1896.

I claim the following advantages for the SIFTER:

It will sift your Ashes twice, thereby saving every particle of Coal. It works easier than any other Sifter in the market.

Will not wear out in a short time.

Will not destroy your clothes and furniture with dust.

It will pay for itself in one month's time by using small cinders, generally thrown away by any other Sifter, for banking up Ranges or Furnaces over night.

It will separate small from large Cinders, and leave nothing but pure Ashes to be taken away.

Bottom receptacle can be carried without exertion.

Double Sifters, \$2.50. Single Sifters, \$2.

Larger size made to order.
