WESTMOUNT, FRIDAY, JUNE 14, 1946

PRICE—THREE CENTS

## English Rotarians and Friend Feted by Rotary

Westmount Rotary Club played host to three men, two of whom were fellow rotarians, at their weekly luncheon, on Wednesday. These guests were: Rotarians F. J. Sanguine, Popular Club; E. H. Palmer-Jones, Bermondsy, and D. A. Gates, all from London, England.

P. G. Delgado welcomed the visitors on behalf of the Westmount Rotarians, paying tribute to the high place the motherland holds in our hearts for the gallant part she played in the events of the last few years, and welcoming the guests as fellow Rotarians as well as citizens of the respected Isles.

Mr. Sanguine replied briefly on behalf of the guests, stating that they had just landed in Montreal and added: "We have been struck today with the marvelous welcome received here". Mr. Sanguine paid tribute to the work of the Westmount Rotary Club, wished them every success with their current undertaking the Carnival, and concluded by saying, "this is an occasion that we will long remember".

Mr. McAndrews was chairman during Mr. Boire's absence and reported that Rotarian Murray was home and his condition was improving steadily.

J. B. O'Brien introduced the guest speaker, Arthur MacPherson, the golf Pro at Marlborough Golf Club, a position which Mr. MacPherson has held for 19 years.

Mr. MacPherson traced the history of Golf back to its beginning in Scotland many years, but stated that the word Golf had been derived from a German word meaning club. The Germans and Dutch played a game that is sometimes mistaken for the beginning of golf, but Mr. MacPherson stated that their game was played on ice and really bore more resemblance to hockey than it did to golf.

A MacPherson highlighted his address, with many little anecdotes of golf as well as historical facts.

Past President Ewart Everson spoke briefly on the Carnival, urging all members to attend the Carnival every night and give what help they could in true Rotary spirit.

## E. Houston Injured Here

Miss Edith Houston, Dorval, was proceeding East on Western Avenue by automobile and stopped for a red light at Victoria Avenue, and while waiting her car was allegedly struck from behind by another auto, on Tuesday.

John Mussey employed at the Shell Oil Service Station heard the sound of autos colliding and looked up to see the machines motionless at the corner. Mr. Mussey reported he saw a soldier step from the rear auto, examine the front of the car and then drive off.

Mr. and Mrs. T. McGrail, 6715 Sherbrooke Street, W., passing in their car, heard Miss Houston's cries for help, and Mr. McGrail drove her to Western Hospital.

Dr. Hatch rendered first aid and stated Miss Houston was suffering from shock and possible fracture of collar bone and right shoulder.

The black Ford sedan driven by the soldier, witnesses declared, had a badly damaged left front mudguard and radiator grill, as it left the scene.

### By-Laws Brought Before Council

Enticement to participate in most of the tests of skill will be the valuable prizes offered the winners, for the Rotary Club has been fortunate in acquiring many articles which have been scarce during the war and are only slowly coming back on the market. Music, refreshments and other features that highlight carnival entertainment will also be found along the midway.

All precautions are being taken for the protection and safety of the public and the policing of the grounds and information service will be in the hands of the Young Men's Section of the Board of Trade.

## Scouts & Cubs

By Reg. Groome

Your correspondent spent the week-end at Camp Tamaracouta in the Laurentians, where the boys on the Camp Advance Party played the role of hosts. Doug Stewart, former Scoutmaster of Mount Royal Troop and Deputy-Trader at camp this summer, is in charge of the party. Others present included "Lofty" Leeson, the Handicrafts Instructor; John Allen, Scoutmaster of Pointe Claire Troop; Bob Worden and Allan Scott, both past members of Royal St. Lawrence Sea Scouts and recently discharged from the Navy; Don Slater, the Voyageur, Tom Moore, just out of the R.C.A.F., and Alec Cummings, the Artificer.

The boys certainly have their work cut out for them, what with painting all the boats, repairs, painting buildings and generally getting everything in ship-shape. A new lower wharf is in the process of being built while extensive repairs are being carried out in the crib and boat slip-way. The Handicrafts Building is receiving a complete outfitting and numerous other jobs are being done.

Visitors on Sunday were many and varied. Indeed, it looked almost like the middle Sunday of the first period in pre-war days (but it was much colder). First to arrive were Messrs R. G. Talbot and Co. Mr. Talbot is Scoutmaster of Storer Troop and Chairman of the Camp Committee. He brought his daughter and several Scouts from his Troop with him Next to arrive was C. J. Dendy, the Camp Factor, who brought with him his family and some relatives.

Willingdon Troop representatives arrived next, F. A. Barrow, Chairman of the Group Committee was present, along with his family and G. W. Leverette, Secretary-Treasurer of the Committee, came with his family. Scoutmaster Jim Cartier, Sr., was the next person we noticed, accompanied by several boys from his Troop, St. John the Divine.

Roy Williams of the CBC International Service, who was up at camp last week-end and is quite interested in Scouting celebrated his birthday anniversary Sunday. Congratulations! Roy is at present cumbering around with 2nd Westmount Troop and Ian Roberts. The two of them went up to Tamaracouta over the week-end and nearly froze Saturday night, sleeping in the open.

The Western Area Peanut Day was successful in raising its primary objective of \$2,500, an unofficial source informs us. In fact, people so liked the idea that there is a strong possibility it will be city-wide next year and not just confined to the west-end. In some cases, it was city-wide, for your reporter was approached by a Scout at the entrance to Central Station. Congrats to E. F. Badke, who worked so hard to put the drive over; he was Chairman of the Committee.

### Trinity Pack

Sixer Charlie Ancrum led the opening Grand Howl two weeks ago when Akela Hutchison and Baloo Roch were welcome visitors. Bagheera continued his story of his Navy experiences and then a sing-song was held with Rev. G. Mercer at the piano. Akela Hutchison presented Michael McLearn with his 2nd year service star and Bob Matthews with ToyMaker Badge.

The following tests were passed: Model, Milton Dorman and Denis Heathcote; the former had an excellent collection of plasticine animals; First-Aid Lorne Falle, Denis Heathcote, Eddie Smith and Bob Matthews; Knots, Carlton Moody and Robert Turnbull, both of whom have not yet completed their 1st Star work. The Green and Gray Sixes were each the recipients of awards for their efforts in the salvage drive. Punctuality for the meetings was stressed to the boys before the

Six competition prizes were presented for the month of May. The Grey Six were the winners with the Sand and Black Sixes close behind.

The following tests were passed: Cleaning Boots, Bill Kavanagh and Maitland Hannaford; Folding Clothes and Message, Bob Turnbull and Carlton Moody; Physical Exercises, Eddie Smith; Signalling, Bob Matthews, Ralph Bedford, Bagheera's brother and a former Scoutmaster of Trinity Troop in Toronto, was a visitor and passed Bob Matthews in Signalling.

### Hither and Yon

Yours truly just returned from a trip to Winnipeg, Manitoba. The Winnipeg Scouts and Cubs held a big display on Saturday June 1st. It certainly went over big. They even had advertisements in all the street cars, etc. The show was a grand success and the big rink where it was held was jammed to the doors.

Roy Williams of the CBC International Service, who was up at camp last week-end and is quite interested in Scouting celebrated his birthday anniversary Sunday. Congratulations! Roy is at present cumbering around with 2nd Westmount Troop and Ian Roberts. The two of them went up to Tamaracouta over the week-end and nearly froze Saturday night, sleeping in the open.

### USE LESS—GET MORE

Nutrition experts assure housewives that they can co-operate wholeheartedly in the current food conservation programme without fear of depriving their families of necessary food elements. Canada's Food Rules, which are available on application to the provincial health department, or to the Department of National Health and Welfare, Ottawa, indicate ways of getting more and better food values by actually cutting down and using less.

## First Official Function As New Legion President

Major-General Price, C.D., D.S.O., D.C.M., V.D., recently elected Dominion President of the Canadian Legion, performed his first official function in this capacity by drawing the winning stub for the Legion new car. Major-General Price in becoming Dominion President, takes over leadership of a powerful organization whose membership is fast approaching the 300,000 mark.

\* A man of great experience with veterans he dates his military career back to 1905 when he enlisted with the Victoria Rifles as a buck private.

It was in 1915 as a sergeant-major with the Royal Montreal Rifles at the famed battle of Ypres that he won his D.C.M. Three years later in 1918 and risen to the rank of major, he won the D.S.O. during the fierce struggle at Canal du Nord in Belgium.

When the last roar of the sixteen pounders had died down and the final Jerry "whiz bang" exploded, Basil Price taking stock found he had two citations for bravery and three wounds on his body.

In 1938 he was elected first vice-president of the Canadian Legion, and in 1939 when danger again threatened this country he answered the call to arms and enlisted, resigning his vice-presidency.

He arrived in the United Kingdom as head of the Third Brigade with the First Division in December 1939. Later he was appointed in command of the Third Division and upon retirement from this position was appointed overseas commissioner of the Canadian Red Cross and did a magnificent job.

Today he is a well-known and successful business man in Montreal. Proof of his executive ability and leadership was apparent recently when he headed the Legion Drive in Montreal for a Memorial Building, and in spite of those who scoffed at their objective of \$375,000, when the final bell clanged on the cash register, they found that they had more than \$400,000 in the till.

### PUBLIC LIBRARY WILL CLOSE FOR NINE DAYS

This is necessary to allow the interior to be painted and decorated.

### Anniversary Dance Was Great Success

The Anniversary Dance held by the Advent Youth Club in the Advent Hall recently, was very successful.

Those who attended enjoyed the music of the Rhythmeers Orchestra and the winning of various prizes added greatly to the evening.

The next dance sponsored by the Club will be in September.

MAJOR-GENERAL C. B. PRICE DRAWS WINNING TOKEN

Recent N.D.G. Carnival and Fair highlight, was the drawing for the Legion new car, won by Jacques Pigeon of Montreal, by Major-General C. B. Price, shown holding aloft the winning stub, while President A. B. Morris, against the background of the Legion colours, looks on at the fascinated crowd who cheered the winner lustily. This was Major-General Price's first official function as the new Dominion President, Canadian Legion.

## Flower Clock Returns To Park

A once familiar sight is again seen in Westmount Park, as the famed flower clock nears completion once more. This is the first summer since 1941 that this clock has made its appearance for the pleasure and admiration of residents and tourists.

Due to the exigencies of war the flower clock ceased to appear in its usual place in 1942. This clock is reported to be the first of its kind on this continent, and was installed in 1926. This is the only flower clock in Canada, and one of a limited number throughout the world.

## Red Feather Local Review

A Column For The Socially Conscious West End Citizen

Many citizens of Westmount, comfortable in their homes, do not realize that in their own municipality are other homes where illness has left in its wake a handicapped person and a trail of unhappiness and gloom. The lives of many of these homes have been made more cheerful by the visits of a therapist from the Occupational Therapy Centre, one of the Red Feather Services operated by Welfare Federation.

Miss Ethel W. Adams, executive director of O.T.C., is proud of the work done by therapists under her direction, her chief regret being that the value of therapy is not fully recognized by the medical profession. A doctor must prescribe treatment before O.T.C. takes over in such cases as paralytic, arthritic and cardiac patients. Many doctors are ready to suggest therapy treatment, but they are slow in making it a definite recommendation.

Miss Adams, a likeable person, and one whom the patient feels he can trust, says: "Occupational therapy treatment would be easier if it were ordered by the doctor, for when it isn't, it takes a long time to build up interest in the patient."

Much of the work is done in the homes, but where possible, the patients are encouraged to come to the O.T.C. workshop on St. Catherine street. At first, some are unwilling, for they feel they cannot travel on street cars. However, after the first few trips, they are brimming with enthusiasm for their new work.

At the workshop, there is much equipment available for the patients. Looms for weaving, tables for leather work, saws, wood lathes, a drill press, and space for knitters and persons doing needle work, are crowded into the little workshop. One of the interesting tools is a "bicycle saw," a band saw operated by foot-power. This helps restore strength to weakened limbs.

Most of the output of the shop is in the form of children's toys, such as animals on wheels, wagons, and dolls' cribs. All are painted with non-lead base paint. There is other work, too: stuffed dolls and animals, table mats, rag rugs, knitted baby garments, leather articles, and many other hand-made articles which are made both at the workshop and in the homes.

These articles are available for purchase. Once a year there is a sale in a downtown department store (T. Eaton Company), while others are marketed through a number of small gift shops. They also are on sale at the O.T.C. workshop.

### Repairing Damaged Homes

Quietly and efficiently, the Red Feather Service of Family Welfare Association goes about its task of rebuilding broken homes in many parts of the city. One of the many transformations is that which took place in the home of Mr. Arnold. His troubles started when his wife deserted him, leaving a nine-year-old daughter, Janey, and four younger children.

Mr. Arnold couldn't give up his work, and so Janey did her best to keep the home in a habitable condition. Janey worked hard, but the mother had left the home in a state of neglect, and it was an overwhelming job, even for an adult.

Then Mr. Arnold heard of the Homemaker Service of Family Welfare. He discussed his problem with a worker, and expressed his desire to keep his home together. Family Welfare found

## Old Boys' Assoc. Present Two More Scholarships

By GEORGE COCHRANE

Two additional scholarships, worth \$100 each, will be presented annually, starting this year, to the two Westmount High boys with the highest standing who will take the twelfth year at the high school, it was decided at a directors' meeting of the Westmount Old Boys' Association held Monday evening at Westmount Junior High School. The scholarships are being presented to perpetuate the memory of the late Howard H. Mussells, former head of the Westmount High chemistry department who died in 1938, and brings to three the total of such scholarships.

While the work of Mr. Mussells is probably not very well known to the present students of Westmount High School, he was at one time one of the school's most highly regarded teachers. Speaking at the 1938 graduation exercises, H. B. Parker, then principal of Westmount High, had this to say of Mr. Mussells:

"With tragic suddenness, last June, on the very day that 200 of our pupils wrote the chemistry examination, Mr. Mussell passed away. He came here when this school was opened to head the department of chemistry. He was interested in chemistry, but he was deeply interested in the pupils. He loved the school work, but he displayed a passionate love for the boys. He was inspiring and forceful as he taught chemistry, but he taught more than chemistry. Mr. Mussells taught the pupils how to live. With him chemistry was important, but instruction in the supreme things of life, such as truth, honour and courage, was more important. Words are but a feeble expression of what he meant to this school. Mr. Mussells was a part of the institution. If this school has a tradition, the background of that tradition rests against Howard Mussells; a great teacher has gone."

In an attempt to foster inter-class sports the Old Boys' directors also decided at Monday's meeting to donate a trophy to the school for inter-class competition. A three-man committee, composed of Gordon McNeil, Bill Swindon and J. D. Lawley, was appointed to look after the matter. They will present a report at the next directors' meeting, which is expected to be held some time in the fall.

Present at Monday's meeting in addition to President Claude Ross, who presided, were: Herb Shayne, Arthur Davison, Wally Markham, Hugh Gurd, Bill Swindon, Pat Irwin, Gordie McNeil, Taylor Kennedy, Albert Briggs, Garfield Birnie, J. D. Lawley and Boyd Robson.

Son: "Pop, I got a lickin' in school today."

an experienced Homemaker to act as a substitute mother until the question of Mrs. Arnold's desertion was settled in court.

There's a great difference in the Arnold home now. At work, where Mr. Arnold has been employed for 20 years, his employer noticed a change in his work and remarked that things must be better at home. The teacher at school noticed a difference in the health and behavior of the children.

Mr. Arnold visits Family Welfare headquarters regularly to discuss his situation, and remarked: "We are living much better at half the cost." In fact, Mr. Arnold now is able to make a contribution to the Homemaker's wages, due to the fact that she is an excellent manager and has helped him live within his budget.

## LETTER to the EDITOR

Dear Sir:—

The citizens of Westmount would feel very secure if they were aware of the fact that amongst their taxi drivers are men who ferried the Liberators and Lancasters across the Atlantic after an apprenticeship on the bombers and fighters over enemy targets in Europe. Others who stood in observation posts directing the guns in action. Some who drove ammunition trucks under fire throughout the terrible years of the war.

Some of them have received the highest decorations from His Majesty The King. Others have only the compensation of having accomplished their duty.

They can only be distinguished by the Maple Leaf discharge emblem or probably the Silver Eagle of Poland and their exceptional competence and courtesy.

Our respect and gratitude to these men.

Lest We Forget,  
H. L'Orange.

Dear Sir:

I enclose text of a letter sent to the Westmount City Council and the Westmount School Commission in connection with the recent referendum which may be of interest to you.

Gentlemen:

Certain facts in connection with the recent referendum should be a cause for concern to the municipal authorities, both legislative and educational.

According to reports in the local press, only about one-third of the persons qualified to vote took the trouble to cast their ballots. Further, of those 2,604 ballots cast, a total of 1.15 were either spoiled or rejected, which is 4.4%. These two facts, when taken together, show that our community has neither the full sense of responsibility needed to ensure the success of a truly democratic municipal government, nor the training and education to use voting facilities correctly.

Two suggestions seem pertinent at this time.

First: that our educational authorities carefully consider training our youth in their civic responsibilities at all levels of government—federal, provincial and municipal. Some years ago an excellent textbook entitled "Canadian Civics" was used in the Westmount High School, but I believe this has been discontinued without replacement;

Second: that our legislative authorities consider taking steps to provide for more frequent ex-

ercise of the franchise in Westmount by qualified voters. This recent referendum was the first occasion, I believe, in the past ten years when I, as a voter, have had this opportunity. Whatever the reasons may have been, they do not answer fully the point that an intelligent and active body of civic opinion in matters related to our local government requires expression from time to time.

Yours truly,  
C. L. COPLAND.

#### WOOD THRUSH

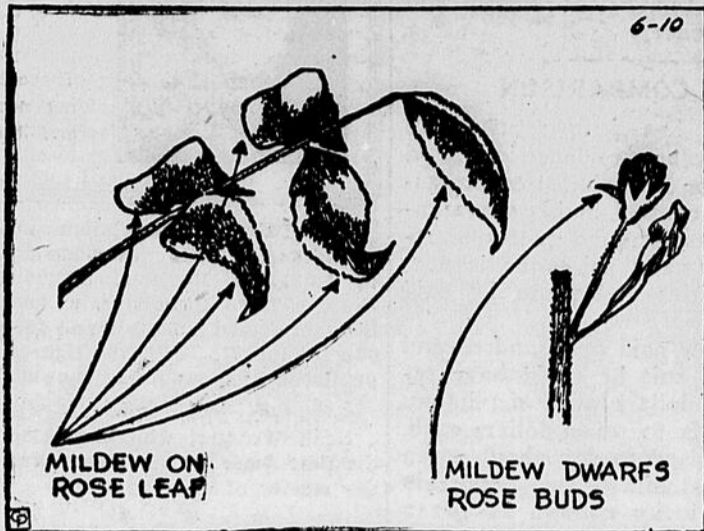

Once more some lucky Canadians are able to hear the rich, organ-like voice of the Wood Thrush. Southern Ontario has been favoured all along, but for forty years or more this, the handsomest and largest of the Thrushes, has been but a rare visitor to other parts of the Dominion. Then about ten years ago observers noticed that it was making its way north again, and each spring since reports have come in that it is slowly spreading.

If any species is to be encouraged it must be given the type of land that suits it. When we want Kingfishers we must have a body of water with fish, whereas if we are to have Sandpipers there must be beaches. When a change takes place in the country some kinds of birds leave while others take their places. But is a little difficult entirely to account for the return of the Wood Thrushes. These birds like a forest where trees grow to a height of 50 or 60 feet, with many dead ones. Yet they are not as shy as most kinds of Thrushes, and will frequently make their homes near human dwellings, nesting in gardens and orchards. We hope more of them will take a fancy to the shade trees in the streets of the settlements where their ancestors used to build.

We would be glad to welcome the Wood Thrush if only for its economic value. Essentially a ground bird, its food is largely insectivorous—grasshoppers, crickets, cut-worms, snails, caterpillars,

## To-day's GARDEN-GRAPH

By DEAN HALLIDAY  
Released by Central Press Canadian

June is the month to keep on the watch for mildew on roses. It is a fungus which strikes swiftly and turns rose leaves white and dwarfs both buds and blossoms.

Rose foliage must be protected if fall roses are to be enjoyed. And this is well worth the trouble for the late blooms are often more plentiful than those that blossom early.

The leaves of the rose are necessary to manufacture food for the plant's health and vigor. Therefore it cannot spare any of the leaves without having the loss interfere to a great extent with the plant's normal functioning and blooming.

Plants which retain their full foliage well into the winter are much harder and better able to withstand severe weather conditions than are plants weakened by early defoliation due to insects or diseases, such as mildew.

The effects of mildew on rose

leaves and buds are illustrated in the accompanying Garden-Graph. Fortunately it is one of the easiest of rose diseases to control.

For the control of mildew, the sulphur dust products are the best. Some of the better ones have combined with them a small portion of arsenate of lead, which helps control the rose-slug or eating worm.

Sulphur is one of the greatest of fungicides and when used every week to 10 days, so that a fine film of sulphur is kept on the rose leaves, the mildews and other types of fungi are held in check. Be sure, however, to have the protective sulphur film on the undersides as well as the upper surfaces of the leaves.

Dusts should be put on when the air is still, preferably in the early evening, before dark, so the material will be on the leaves during the cool of the night when fungi are likely to be active in the dew which gathers on the foliage.

and beetles, including the potato beetle. Any fruit it eats is a wild variety of cherries and blackberries.

With the characteristic brown Thrush colouring and distinctive eye with a light eye-ring, it is best told from the others by its size, the defined dark spots on its snow-white breast, and the tawny shade to its back.

his sword. This sword had been committed to the trusty hands of the family by none other than Sir Francis Drake.

Dick's quest for the sword was not to be easy. His capture by the Spaniards, his escape through the Central American jungle, his fight by Morgan's side at Porto Bello and later at the raid on Panama—these adventures are recounted in the breathless chapters of a zestful, dramatic and historically authentic tale.

#### WINDIGO

By Katherine Pinkerton

In this book the author has continued the story of Ann and Philip Jackman of "Adventure North."

When Ann and Philip came back to Fox Island for their

Christmas holidays they found the Indians gripped by superstitious fears of evil spirits, especially Windigo. Their special friend, a young Indian hunter, believing that he had been conjured into a windigo, had disappeared into the forest of northern Ontario. Ann and Philip, with their

houseguests, undertook to find him and bring him back. They soon discovered that they also had to deal with a white trader, whose unscrupulous schemes added to the dangers of the journey.

## HELP THE HELPLESS

The national clothing drive gets under way on Monday when local residents will be asked to go through their wardrobe and cull all clothing they can do without. Clothing is urgently needed, children's and adults', if hundreds of thousands of lives are to be spared in Europe this coming winter.

An example of what the children of Europe are suffering is provided by information reaching the Unitarian Church Committee from Czechoslovakia. The German occupation of that country and the ruin it left in its wake resulted in the appalling fact that ninety percent of Czech children are now tubercular. Unless something is done for them immediately, it is possible that the gallant Czech nation will die out.

Most of Europe is in as bad or little better condition. It is for these people, the overwhelming majority of them victims of conditions for which they are in no way to blame, that the present clothing drive is being held.

Give them everything that you can spare. Watch the papers for collection data.

## GETTING TOUGH ON BLACK MARKET

The Prices Board is getting tough on the subject of used cars. There has always been a big market for used cars, and, during the war years, business in second-hand cars boomed. It is still flourishing, due to the difficulties in obtaining new cars.

If you are in the market for a used car, it will help you to know what the new regulations are. They have been tightened considerably. For instance, first of all, any dealer must sell a used car to any person who offers cash, and may not demand an exchange or trade-in of any kind.

All used cars must display tags, showing the lawful price, the model, the year the car was manufactured, and all other particulars. When buying a used car, make sure that the total price paid for the car is inserted in a statement of sale, which must be signed by the buyer and the seller at the time of the sale.

If a dealer has a used car in his possession which has been sold or on which a deposit has been placed, he must display on the order a tag stating that it has been sold or optioned, as well as the date of the transaction, and the name and address of the buyer. **No car may be held on deposit or option for longer than five days.**

A Prices Board official emphasized "If every buyer who is asked to pay more than the ceiling price will report the facts to the nearest office of the Prices Board, the black mar-

ket will be at an end. However, if a buyer assists the black market, by deliberately buying above the ceiling and falsifying the statement of sale he is as guilty as the seller and equally liable to prosecution."

A buyer meeting any difficulties when trying to buy a used car should get in touch with the local office of the Prices Board and report the details at once.

## A TELLING COMPARISON

A Canadian who has just returned to Canada after several years residence in United States has become one of the most enthusiastic backers of price control in his community. Backing his enthusiasm he quotes startling comparisons between prices he is now paying for commodities and those he paid before his return.

Before his return he paid one hundred and twenty dollars for a suit he could have secured for fifty-five dollars at a maximum. His shirts cost him six to seven dollars each. Shoes for which he used to pay about seven dollars in Canada cost him fifteen dollars in the States. If he's lucky enough to get a juicy steak for dinner, he pays one dollar and ten cents a pound for it.

For the ordinary staple foods, this Canadian friend now living in the U.S. pays as follows: Bread, sixteen cents a loaf; butter, sixty-two cents per pound; sausages, seventy-six cents a pound, and wieners, eighty-three cents a pound. One day he started out to get some supplies for the baby. He picked up a nice baby carriage, a baby's cot, three baby shirts and a pair of shoes for himself, and the sum total for these items amounted to two hundred and ten dollars.

## DOES YOUR BOSS DO THIS ?

This item should be clipped and placed on top of the morning mail. An indignant stenographer writes:

"My boss receives his mail in the morning. The letters are opened and sorted for him. He knows just what has to be answered, and that the dictation has to be done that day. Yet he prefers to do something else until about four o'clock, and then it's please bring your book."

This writer has frequently observed that many executives deliberately dawdle until late in the afternoon, and then finish the day with a tremendous rush. The plan seems to be devised to impress the staff with their importance.

It is a cheap trick, unworthy of a real business man.

## IS YOUR MONEY EARMARKED ?

Like nearly everybody else, I seem to have spent my life working for money which was earmarked before I got my hands on it, writes William Feather.

Most if my dreams have been of the day when my income would be my own, to spend as I pleased. That day is due, but it doesn't seem to bring the slightest release.

So instead of spending ten bucks for a fine dinner, I trot over to a place where I can get fed for a buck. Seems to make me feel better.

As the Lords voted to lend the Lacock Abbey copy of the Great Charter to the U.S.A., they noticed a 700-odd-year-old mistake. "Hard on the plain man" (said Philologist H. W. Fowler) but dear to the heart of many a Briton is the age-old habit of spelling it "Magna Charta" and pronouncing it "Magna Karta." The Lord Chancellor invited the Lords to drop the "h" and they did.

Politics has stood still while science has made tremendous strides, said Dr. Leopold Infeld, noted physicist and professor of applied mathematics at the University of Toronto. Twenty years ago, we had in our hands all the means to create economic security for all Now with atomic energy and controlled machinery, we can imagine great factories run without human hands. And we are forced to imagine a social order in which machinery would take care of all needs, and a man would work perhaps a year of his whole life.

Yet, he added, if science moves ahead, there is the fear of the collapse of civilization, unless political science keeps in step with the strides of science.

It is not surprising that Mr. Churchill, late Lieutenant of the 4th (the Queen's Own) Hussars, formerly of the 31st Punjab In-

fantry the 21st Lancers with the Nile Expeditionary Force, veteran of the Battles of Omdurman and Spion Cop—was outraged. "Things are built up with great labour and cast away with great shame and folly!" he cried in the House of Commons. Premier Attlee had just announced Britain's decision to withdraw her troops from Egypt. The people of Egypt admit the sincerity of Britain as to withdrawing and even the Cairo rioters cheered Premier Attlee and Laborite Morrison. India had even less reason to doubt British sincerity. Even though the Simla conference failed, Britain continued and proposed a plan for India's freedom. If she failed, said one Indian politician, "all leaders of both parties will be thrown out in six months, and in five years India will be one hundred per cent Communist."

—From "TIME Magazine."

In the past 20 years the automobile took more lives in the U.S.A. (652,412) than all the battles in U.S. history. At a national Highway Safety Conference, President Truman departed from his prepared text to lash out with obvious feeling: "In some States—my own in particular—you can buy a license to drive a car for 25c at a corner drug store. A man or a woman or a child can get behind the wheel. If he is insane, a nut or a moron, does not make a particle of difference. The States take no steps to prevent you or me from being killed by some moron that has no more business at the wheel of a car than he has at the throttle of an engine."

Representative Clare Luce, whose only daughter was killed in a motor accident, called on U.S. communities to regard traffic violation as "potential murders." The delegates who knew the figures—40,000 killed and 1,400,000 injured in an average year—nodded understandingly.

Canada normally uses 43,000,000 tons of coal a year. She gets 17,000,000 tons from mines in four Provinces: N.S., N.B., Alta, and B.C. This production could be increased by half a million tons, say the experts, but no more. The rest is used in Ontario and Quebec, which have none of their own, and is imported from the U.S.A., in face of the fact that many millions of horse-power (water) are rushing unused to the sea day and night, because under our faulty economic system, scarcity is more profitable than abundance.

### RAMEZAY ROAD

Among the newer Westmount Streets is Ramezay Road, which begins at St. Sulpice Road and curves in a North-Westerly direction to Montrose Avenue, and then runs in an Easterly direction to the Easterly limits of the city of Westmount. One of the roads made in the development of the land previously called the "Prusts' Farm," Ramezay Road, like a number of other streets in that particular district has a name closely associated with the history of the early days of Montreal. St. Sulpice, and Dollard or "Daulac," as it is called, are other street names of this district which similarly echo the history of the first settlement.

It seems safe to conclude, judging by the association of the other street names that Ramezay commemorates that governor of the Island of Montreal, whose residence, the Chateau de Ramezay, is one of Montreal's most delight-

ful and interesting historical monuments. Although a portion of the Chateau has been restored and altered, a great part of it is still in its original state, and it is easy to picture the life of the de Ramezay family in the lovely old house.

Mr. Victor Morin, L.L.D., to whom we owe an account of the de Ramezay family and their Chateau, tells us that Claude de Ramezay, first of his family to settle in Canada, first came to new France with the Marquis de Denonville, the newly-appointed governor in 1685. De Ramezay was a lieutenant in the Marine troops, and at the same time his friend Philippe de Rigaud, later the Marquis de Vaudreuil, came out. Both young men were destined to a brilliant future, and each received promotion rapidly. De Ramezay was appointed captain in 1687, and in 1690 became governor of Three Rivers. In 1699 he was created commander gener-

al of the troops, and in 1704 became governor of Montreal. De Vaudreuil had preceded de Ramezay in each of these posts, and rose to be governor general of New France in 1703.

Both de Vaudreuil and de Ramezay were married in 1690, the latter taking as his bride Marie-Charlotte Denyse de la Ronde, both weddings being the occasion of much celebrating. It seemed at the moment as though all the future prospects of these two friends, de Ramezay and Vaudreuil, were of the brightest. However, fortune played strange tricks with these two families later, for it was a son of de Ramezay who, as commander in Quebec at the time of Wolfe's victory, had to surrender the city to the English in 1759. One of Vaudreuil's sons, as governor of New France in 1760, had to sign the capitulation of Montreal, and give Canada over to the English in the same year.

These shadows which were to fall on the families in the years to come were not yet on the horizon, however, and at the time that de Ramezay became Governor of Montreal all seemed to promise fairly for his family. Montreal by that time had a considerable number of homes built outside the original fort walls, most of these being built of wood, but some of stone with various aspects designed to make their defense against the Indians easier.

Usually these houses consisted of one room on the ground floor. Above this room was a storage place for crops. It was not until 1672 that any streets were laid out. At that time Basset, the notary and land-surveyor, had laid out streets, but the first buildings had been put up without any definite order. Sanitation in any way, shape, or form was completely unknown or overlooked. There was, of course, no street lighting, and the quarrels among inebriated soldiers, and the danger of attacks by Indians made it a precarious business for respectable citizens to be abroad after the curfew. The occasional night-watchmen with candle lanterns were not to be depended on for much protection against such odds.

When M. de Ramezay took over the governorship of Montreal such were the conditions. However he was possessed of much energy and organizing ability. One of his first actions to better these conditions was to request the Intendant Raudot to visit the city, and give dung into the streets, so as not to hinder the drainage of the streets. As a matter of fact the same order fixed the market days on Tuesdays, and Fridays, this custom continuing until the present day.

De Ramezay's plans were more ambitious than just to improve the Montreal of his day. Wishing to provide a residence worthy of the important duties which fell to his share, and the entertaining which he would expect to do in connection with his position he looked around for a suitable site. M. de Callières who preceded him as governor of Montreal had built his house at the western extremity of the town. De Ramezay on the other hand obtained land at its eastern end, from his brother-in-law, Nicolas d'Ailleboust de Manthet. This land was on Notre Dame Street, and faced the then garden of the Jesuits. His architect and contractor was Pierre Couturier, with whom he arranged that the house should be built 66 feet long by 36 feet wide, which dimensions were eventually increased.

The Chateau was built on a double lengthwise vaulting. The walls forming this vaulting were three and a half feet thick at the base, and increased in thickness towards the vaulted roof, permitting a bake oven to be built in the thickness of the wall, and chimneys for the kitchens for heating. The floors some explanation of the condition in which de Ramezay found

These stones were supported on joists 12 inches in diameter, making the floor fire-proof. Like most of the Canadian houses of this period the style was Norman. The Portrait Gallery of the Chateau, as it stands today, is of more recent construction. The vaulting supporting this part of the building is in brick, little more than a hundred years old. The towers at the two ends of the building were not built until 1903.

# Household Hints

By MRS. MARY MORTON

## Today's Menu

- Creamed Chicken
- Baked Potatoes
- Fresh Green Beans
- Radishes and Green Onions
- Rhubarb Strudel or Peach Pie in Rice Shell
- Coffee or Tea

## Rhubarb Strudel

- 4 c. corn flakes
- 2 1/2 c. diced rhubarb
- 1/2 tsp. grated orange rind
- 1 c. sugar
- 2 tbs. orange juice
- 3 tbs. butter

Put layer of corn flakes in greased casserole, add a layer of rhubarb, part of the sugar and half the grated orange rind. Add another layer of corn flakes and rhubarb, the remaining sugar, orange rind and juice. Cover with corn flakes, dot with butter and sprinkle lightly with sugar.

Cover the casserole and bake in a moderate oven (375 deg. F.) about 35 mins. Serve warm or cold with cream. Serves 6. I have an idea we can cut the amount of sugar in this recipe down to 3/4 c. or even 1/2 c. Try it with the smaller amount if you are like myself, and have to

be very sparing with sugar to make the allotment last.

## Peach Pie in Rice Shell

- 1 No. 2 can sliced peaches
- 4 tsp. cornstarch
- 2 tbs. cold water
- 1/4 tsp. almond extract
- 2 c. fluffy boiled rice
- 1 tbs. melted butter
- 2 whole eggs, separated
- 1/4 tsp. salt
- 1/2 tsp. cream or tartar
- 2 tbs. light corn syrup

Drain juice from canned peaches into saucepan and heat to boiling. Blend cornstarch with water until smooth, stir into hot juice and heat until syrup is thick and clear. Add almond extract and peaches, remove from heat. Mix boiled rice with melted butter and yolks of eggs which have been beaten with 1/2 of an egg white, and the 1/4 tsp. salt. Pat into buttered 8-in. pie plate to form shell of uniform thickness.

Pour peaches into shell. Beat the 1 1/2 egg whites until frothy, add cream of tartar and beat until stiff, then add corn syrup, beat thick and smooth, and spread meringue over pie. Bake in moderate oven (350 deg. F. 20 mins., or until delicately browned. Serve warm. Serves 4 generously.

## Picnic Sandwiches Give Way To New Type Casserole Fare

With the coming of summer, many people are thinking of going on picnics and even all day excursions again. "Picnics are grand for everybody but me," says the busy homemaker. This is true in many instances because all the work of planning and preparing the food is left to mother. Every member of the family, young and old alike, should be made responsible for at least one job. One may be asked to get the radishes or the lettuce from the garden and clean them. Another may be in charge of collecting and wrapping the forks, knives, spoons and plates needed. If a salad is to be brought along as the main course, surely someone besides mother is able to chop the vegetables, but it may be wise to leave the seasoning of them to her.

Every Canadian, it is hoped has heard about the conservation program and of the need to conserve bread, meat, cheese and eggs. In the past, sandwiches usually were considered indispensable to a picnic. Besides taking a long time to prepare they also put a strain on the butter ration. To save both bread and butter, two slices of bread per person might be allowed with various spreads like softened cheese, relish, jam, etc., to be carried in jars. Every member of the party can then make his or her own open-faced sandwich.

Baked beans, chowders or soups, vegetable, spaghetti or macaroni casserole dishes, wrapped in several layers of paper to keep hot, or substantial salads, are very nice on a picnic and will

satisfy the most ravenous appetites. For good measure, fresh vegetables, like radishes, green onions, celery, carrot sticks, cucumbers or tomatoes might well be tucked into every picnic basket.

Whole wheat or bran muffins may be used instead of bread. These cereals contain parts of the grain removed in milling white flours. A more general use of them in Canada will help to save wheat for overseas. Rolled oats or fine oatmeal used to partially replace flour in biscuits also serves the same purpose.

### Huge Savings If Canadians Eat Less Food

Wherever two or three are gathered together these days the conversation is apt to turn to Canada's part in solving the world's pressing food problems. Mr. and Mrs. John Doe — the whole Doe family, indeed — are eager to do their share in sending supplies to the hungry thousands in war-ravaged countries — but they are not always clear as to how they can best participate in the campaign to feed the hungry.

"Is it really true that if every family used three less slices of bread a day—just three slices—Canada would have almost 750,000 bushels of wheat to send overseas within the next three months?" asks Mr. Doe. "Yes, Mr. Doe," affirms the Dominion Government Food Information Committee. "Furthermore, you can contribute toward that vital wheat supply in other ways. If you forego that tempting piece of pie, for instance, or don't take that extra piece of cake . . ."

"But one piece of pie . . . a single piece of cake . . . ?" Mr. Doe is incredulous. True, nevertheless. Housewives will prepare less of the edibles which call for the stable foodstuffs so essential to stave off famine in other parts of the world, restaurateurs will order fewer of these delicacies for their patrons, if Canadians forego them.

Less wheat and less flour used in Canadian homes and restaurants, means more wheat and more flour for shipment to countries where famine threatens in hungry Europe and the Far East.

### Water-Carrying By Women Is Protested In Norway

In the days of great-grandmothers, the Norwegian peasant girl received a beautifully carved "vassele," a wooden carrying brace, as a wedding gift from her husband, symbolizing that from then on she had to haul the water for the household. For in those days you seldom found water faucets in the farmer's kitchen and equally seldom in the cowhouse.

Believe it or not, those "lovely" old days still exist. Today only 36 per cent of the Norwegian farm kitchens have water piped into them, and only 42 per cent of the cowhouses have. The peasant wives still carry water to the kitchen as well as to the cowhouse; they are unduly burdened with this heavy chore. Every peasant wife spends on an average of one hour every day, or one month every year, in carrying water, as the ancient rule still exists that

water carrying is the duty of the wife. The women today carry their heavy water pails as their mothers and grandmothers once did. And they don't complain — the Norwegian peasants are patient people. But the public has now come forward with a protest.

A country-wide "peasant congress" held in Oslo recently proclaimed that it was the duty of the government authorities to see that running water was provided in every kitchen and every cowhouse. And the Agricultural Director, the highest agricultural official next to the Cabinet Minister, said in a speech that it was a shame for the Norwegian standard of culture to permit the women to work so hard and do so much water carrying.

### Unique Cornices May Be Made From Old Fashioned Gilt Frames

Within recent years those whose attics have been cluttered up with old gilt picture frames have come to realize that they have a place in the modern scheme of decorating. While it still may be true that "All is not gold that glitters," these ornamental frames are proving their worth in a number of ways.

#### Used As Mirrors

From some of the best ones, one can make really beautiful and useful mirrors by simply having the old pictures replaced with mirrors. A number have been converted into charming "shadow boxes," which is just another name for those decorative wall shelves on which to display your precious "what-nots." A deep box is built and this is fastened to the back of the frame. Into it are built shelves the right size to take care of your choicest figurines or china teacups. One quite small frame was made to house a pair of old dolls, and as they stand primly in their gilt-framed box they look for all the world like one of those quaint pictures of husbands and wives of long ago.

#### To Make Cornice

Very large frames are most impressive when made into win-

dow cornices. They give much the same effect as the lovely and highly priced metal ones used back in colonial days. While the frame to be used may have a raised surface in leaf, flower, or fruit design, it is preferable to choose one with a fairly flat face about 3 to 5 inches in width.

A frame approximately 4 feet by 3 feet in size will yield material adequate for the treatment of three windows of average size. The two long sides will make one cornice each and the two shorter sides when pieced together will make the third. On the under side of the frame there is usually an indentation — rabbet is the technical name — into which the picture formerly fitted. Into this rabbet is fitted a plywood board cut the proper size to fit your window, and this forms the top of the cornice.

This usually will be about 3 to 5 inches depending, of course, on how heavy or wide you wished your cornice. When the cornice is finished this plywood top is screwed to the top of the window frame to hold it in place. The job is made simpler if plain board is used to make the ends of the cornice instead of attempting to cut and fit these from the picture frame moulding. These ends are then gilded to match the frame.

## Smaller Meals At Functions Advocated

In answer to the Dominion-wide chorus, "How can WE help in the 'Save Food' campaign?" the Canadian Food Information Committee has made a practical suggestion regarding the serving of food at public functions. Simpler menus, smaller portions at luncheon, dinner or reception, the committee points out, will not only satisfy the appetite of the guests but will also help to appease the hunger of war-starved millions abroad.

Group functions may well be made a lesson in food conservation and the reduction of food wastage. They afford an ideal opportunity to cut down the serving of dishes calling for the flour, the eggs and cheese which Canada has undertaken to ship to the famine areas. In Europe 20,000,000 to 30,000,000 children need food. In Canada, about 30 lbs. of flour is used in the making of sandwich bread for 250 guests at an afternoon or evening party. That 30 lbs. will keep 30 children alive—just keep them alive—for one day, or will prolong the existence of one child for 30 days.

### SIMPLE FASHIONS WIN CUM LAUDE LAURELS

Special occasion dresses are casually styled for summer-long wearability. Left, the simple white pique frock is frosted with lace-trimmed ruffles encircling the neckline and rounding the hips in a double-tiered flounce. Right, sheer eyeleted cotton is fashioned with surplice-closed bodice and a skirt with front fullness sash-tied with piping.

## Bobbysoxers Are Now Strong For Smooth Look

Smooth outfits and graceful behavior won a battle this semester over "Sloppy Joe" duds and co-ed manners in a New York University classroom, where reformed bobbysoxers learned some lessons from which you can profit.

You can, if you're a teen-ager who'd also like to make a change for the better. For your new deal in dress, follow the rule co-eds learned for outfitting themselves smoothly and keeping closets safe from errors. That rule is to build your wardrobe around one safe color—black, navy or gray—and to pick as a backbone a simply-styled suit, dress or topper.

To ring in bright, scenic changes on a quiet background color, the wardrobe plan includes switches in jackets, blouses, hats, costume kerchiefs, belts, scarves and jewelry.

When the reformed bobbysoxer swapped their Sloppy Joe's for niftier outfits, they also switched from socks and loafers to stockings and shoes. That is another top for you.

The keynote of every co-ed's changed appearance was a changed hair-do. If you, too, wear a droopy bob, you can switch to any one of a flock of stylized hair-do's, as did these girls. But the style tried out in the classroom which made the best candidate for the second look or whistle was the bob brushed away from the face. Back hair, set to make a chignon of curls, was tied with a ribbon. The smoothie who picked this one was so sold on the new idea of sleekness that she capped her curls with an invisible hair-net.

How's your make-up? If your error is using a too-dark lipstick, as was the common fault in the classroom, here's the argument to induce you to switch to a lighter shade. A young face looks cleaner—and therefore better groomed—when the mouth is rouged a lighter shade.

Fathers Needed, Too!

Helen Gregg Green

The night my mother died, my father told me of our tragic loss, and added with tears in his eyes, "I'll be a better father than ever before." It was most touching to hear this big, studious man frequently ask after I returned from a party, "What did the girls wear? What did you have to eat?" He remembered such were the questions my adored mother had asked.

A deep friendship soon developed between us. But how sad that it had taken twenty years and the loss of our close companion and confidante to bring about this almost perfect relationship between father and daughter.

A father who shares with the mother the care of their baby, throughout childhood and youth, and continues this close intimacy

establishes a bond between him and his boy or girl that is worth its weight in gold in later years.

I have friends, who adopted a baby girl when she was nine months old. Joyce is now twelve, and a happy comradeship exists between the father and daughter. She frequently leans across the table, the mother proudly tells, puts her hand on her father's arm, and coaxes, "Tell me again, Daddy, how delighted you were to have me come to live with you and Mother."

When she was a baby, both parents had bathed her and attended to her needs. The father had helped with the feeding and dressing, and this care, together with an ever-increasing interest and assistance in her development, had made for a closeness and understanding between Joyce and her father that has since paid daily dividends in confidence and love.

Many times a father, who shows deep affection for the young child, allows an estrangement to take place as the little one grows from babyhood into childhood. This should never happen. If sometime during the day a father can have a quiet heart-to-heart talk with a son or daughter a bond of friendship will be established for life. A child does not understand his parent unless he has opportunities to really know him; there are many instances, unfortunately, where a child never feels other than a stranger to one or even both parents. Many cases of juvenile delinquency have been caused by the lack of a confidential relationship between parents and child.

A famous doctor in a world-renowned hospital came into a patient's room the morning after the doctor's first baby was born, dryly confessing, "I felt my part was so small!" Was it? A father's duties after his baby is born begin at once, and increase daily. From them, whether or not he listens, come insistent demands for time, thought, love, and understanding—yes, a generous portion of himself.

Miss A. Rankin To Wed In July In Australia

Mrs. James Rankin, of Verdun, announces the engagement of her younger daughter, Anne Anderson, to Mr. Norman James Green, of Wanganui, N.Z., formerly a flight lieutenant in the R.N.Z.-A.F., son of Mrs. C. E. Williams and the late Mr. James Green of Wanganui, N.Z.

The bride-elect left Montreal on June 7th for Vancouver, and from there she will journey to San Francisco, Calif., to sail on the S.S. Monterey on June 14th for New Zealand, where the marriage will take place some time in July. An interesting note is that the real Chinese brocade silk from which her wedding gown will be made, and the Chinese wedding slippers of embroidered silk were procured for her by the groom-to-be while he was stationed in China.

Among those who entertained for the bride-elect were: Mlle. H. Moreau, at an evening party and presentation of a baby-chenille bedspread; Mrs. Chas. Nicolson and Miss Muriel Kelegher, joint hostesses at a personal shower; Miss Evangeline Lalonde and Miss Marjorie McGhan, also hostesses at a personal shower.

The assembly staff of the Bell Telephone Company of Canada, where Miss Rankin was employed, presented her with a Sheffield reproduction tray, and the revenue accounting department held a shower and presentation of a Sheffield reproduction four-piece tea service. The decorations, unusually attractive, were made by Miss May Phelan. They consisted of a miniature garden wedding scene complete with lawn and arbor, over which real flowers were strung, and a wedding party of two bridesmaids, a bride and groom.

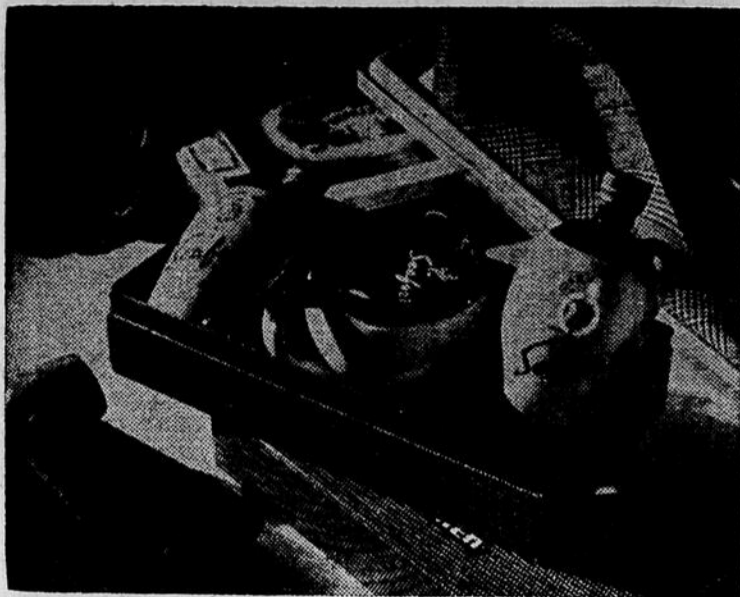

The Win-velt Club held a joint meeting and party at the home of the president, Miss Violet Coderre Fox, when a presentation was made of a silver deposit bowl and a silver and cut glass pickle dish.

Also, at the closing dinner of the ladies' section of the Verdun C.D.C. held at the Normandie Roof recently, Miss Rankin was presented with a 'Bride's Book' by Mrs. C. Meehan, on behalf of her colleagues.

Gifts Have Father's Day Appeal

Father's Day, on Sunday, will have special significance this first peacetime Spring in many years. His day, though not forgotten during the war, was overshadowed by it. Happily, this year's Father's Day will be different. He'll have your undivided attention.

Your Father's Day giving will be easier this year with many of his favourite luxuries reappearing in the stores. Gloves, hand-

somely finished, and ties with new colours and designs will be a welcome addition to his wardrobe. A dressing gown or lounging jacket will make his hours of ease luxurious, and some are made of new and interesting fabrics. Along with pipes, and cigarette lighters, men's toilettries have won a new high among the favourite "gifts for him." Taken all together, this year's list of available gifts offers a pleasant and wide choice for you.

## "Blithe Spirit" Gay Noel Coward Comedy At The York

The movie version of "Blithe Spirit", Noel Coward's enchanting story of an alluring ghost and her return to her husband here below, is now playing in its delightful Technicolor at the York United Theatre until Friday night.

Elvira, played by Kay Hammond, is the alluring ghost. For seven years she had been "out of this world" . . . and for seven years she had yearned to return to her husband Charles (Rex Harrison) on earth. In the interim Charles has remarried, but Elvira magnanimously forgives his second wife, Ruth (Constance Cummings). Elvira, however, may forgive Ruth for living, but Ruth does not at all forgive Elvira for materializing.

This oddly tantalizing situation arises quite innocently. Charles is writing a book about a homicidal medium. He invites a neighboring crystal gazer to his home to give a seance in order

to learn the "tricks of the trade".

His amused skepticism at her occult goings-on changes to dismay when, after Madame Arcati (Margaret Rutherford) departs, the shade of his first wife Elvira floats into the living room. Masculine vanity at the sight of this flattering apparition soon overcomes common-sense. And to the helpless indignation of Ruth, Charles begins to enjoy his astral bigamy.

Ruth was, naturally, very curious about Charles' first wife while she was safely residing in the heavenly ante-rooms. But this curiosity quickly evaporates when Elvira comes into her home, a ghost that has apparently come to stay. And so she does her best to facilitate a speedy return passage for the irresponsible Elvira.

A much too-charming ghost, Elvira is indeed the very spirit of the "other woman". And while some of the pleasures of this

### KENNETH HATTON

One of the best-known young men in local film and advertising circles, Kenneth Hatton has resigned his position of Advertising Manager of the United Amusement Corporation Limited, after being with the Company for 24 years.

Mr. Hatton joined the Company, then known as Independent Amusements in 1922 as stenographer to the secretary-treasurer. He was appointed Advertising Manager in 1932. His experience in the theatrical business has covered every angle of theatre operation. He is a partner in the Astor Theatre in St. Lambert, and also in The Ahuntsic Theatre now under construction both of which operate in association with the United Amusement Corporation Limited.

Mr. Hatton founded the Suburban News, a tabloid weekly newspaper, published in the South Shore of Montreal, of which he is President.

earth are denied her (cucumber sandwiches and dry martinis), she transcends some of its limitations, too. Ruth can not lock her out, nor can she hand her over to the police.

"Blithe Spirit", in Technicolor, is a modern comedy, told with wicked wit and mischievous charm. It is brilliant entertainment that will haunt audiences long after they have seen it.

**A TIMELY DRAMA!** Deborah Kerr and Robert Donat are the stars of "Vacation from Marriage," which starts at the Westmount United Theatre on Sunday, playing for one week.

## Fred Astaire and Lucille Bremer Score in Musical Delight

All the facets of entertainment are brilliantly blended in the new Technicolor musical, "Yolanda And The Thief", which is now playing at the Snowdon United Theatre until Friday night. It is an ideal vehicle for the talents of Fred Astaire and Lucille Bremer who prove themselves an acting, dancing and singing team of top calibre.

Fred Astaire, master of the jaunty role, is at his best as the light-hearted and light-fingered crook who finds himself "guardian angel" of a beautiful young heiress. Charming his way into her heart, as well as into her safe, he is well on his way to confiscating her fortune when the girl's real guardian steps in with unexpected results.

Miss Bremer is completely delightful as the naive maiden who

places her trust and her bonds into Astaire's slippery fingers, and in the numerous musical sequences proves herself a perfect singing and dancing partner for the incomparable Astaire.

Most of the picture's laughs—and it abounds in them—come from Frank Morgan and Mildred Natwick, the Broadway comedienne. Morgan is cast as Fred's partner in crime, affable and willing but not much of a help since his is the type of mentality that tries to sell an oil well to the man who owns it! Miss Natwick is riotous as Yolanda's aunt who can't resist a salesman, or any man, for that matter.

Great imagination has been shown in the setting of the mythical state in which the story takes place, and the musical scenes.

### "What Next, Corporal Hargrove?" Reunites Robert Walker and Wynn

Packing an atomic charge of laugh - power and fun, "What Next, Corporal Hargrove?" which is now playing at the Monkland United Theatre, until Friday night, reunites Robert Walker and Keenan Wynn in a continuation of the rollicking screen adventures of America's favorite G. I. Joes. The follow-up to "See Here, Private Hargrove", in which the erst-while training camp comrades are now full-fledged fighters in France, furnishes Walker and his buddies with the same kind of action-packed comedy as the original.

Walker, now a wide-eyed corporal, repeats the characterization originally made famous in the best-selling novel by Marion Hargrove. He comes to the new comedy fresh from his success in "Her Highness and the Bellboy". Keenan Wynn tops his own previous performance in the original G. I. comedy as Mulvehill, Hargrove's fast-thinking,

smooth-talking pal. It was this characterization in the original box-office smash which won Wynn critical acclaim and a rocket start toward his present popularity. Chill Wills, the homespun comedian, again scores in the continuation of his role as the hard-boiled Sgt. Cramp, nemesis of the two buddies.

In the most important role of her screen career to date, Jean Porter is the picture's sole featured feminine player. As a French mademoiselle who has her gleaming eyes on bashful Walker, this actress makes her mark as one of the most important newcomers on the Metro lot. She will be remembered as Red Skelton's tiny side-kick in "Bathing Beauty".

"What Next, Corporal Hargrove?" takes the title figure and his company overseas and finds them preparing to capture an already liberated village outside Paris. Hargrove, whose military

JOHNNY COY COMES HOME

Some years ago The Examiner published a picture showing Betty Speirs and Peter Miller at Bonaventure Station wishing one of their young pupils "good luck" as he set out in quest of fame and fortune. This week he returned to visit the Speirs-Miller Studio with all the laurels that Hollywood could bestow, plus a lovely young bride. Mr. and Mrs. Johnny Coy (her professional name is Dorothy Babbs) will be seen together doing a spectacular ballroom-tap routine in a movie shortly to be released.

Here we see Johnny explaining to Peter the intricacies involved in "shooting" a dance sequence with two cameras simultaneously. From left to right: Betty Speirs, Johnny Coy, Mrs. Johnny Coy and Peter Miller.

regular Metropolitan season. Maestro Rescigno, who is conducting La Boheme at the Lewisohn Stadium, will direct the production to here. A full symphony orchestra will be with him for the occasion.

The Montreal Festivals Office, Room 14, Windsor Hotel, in Montreal, will gladly supply further details about their new venture, to all interested music lovers, who write to the above address.

### Mtl. Festivals Plans Summer Outdoor Opera

Thousands of music-lovers from all parts of the Province of Quebec are expected for the first open-air stage productions of grand opera at the Molson Stadium this summer. Two of these momentous performances are to be given, La Boheme on July 10, with Grace Moore as the star, and Carmen on August 6, with the great Canadian tenor of the Metropolitan, Raoul Jobin, in the role of Don Jose.

The productions will be a presentation by the Montreal Festivals, long been recognized as a non-profit-making enterprise of national importance in Canada. This Grand Opera by Starlight is the latest effort to be made by the famous institution which has been responsible for the initial Montreal performances of such masterworks of a festival nature as Bach's St. Matthew Passion and B minor Mass, Beethoven's Missa Solemnis, Wagner's Tristan and Isolde and Debussy's Pelleas and Melisande.

The Molson Stadium, which seats more than 10,000, is regarded as an ideal place for out-door summer opera. For La Boheme and Carmen, a special stage is being erected, equipped with the latest in acoustical devices, to assure proper hearing in the remotest parts of the vast auditorium. In experimental use of the stadium for visual presentations, it has been found that the seating plan is such that everyone will have a clear view of the stage.

Miss Moore, one of the most celebrated mimics in the world, is to be supported by a full Metropolitan cast. Special scenery and costumes are from New York, and the entire production will be an exact replica of the La Boheme, which is to be staged at the Lewisohn Stadium in New York, starring Miss Moore, on June 24 and 25.

Each opera will be sung, acted and staged exactly as it is in the

# Goltman Pupils Win Appreciative Applause As Annual Concert Held

The pupils of Frances Goltman, one of this city's best known pianoforte teachers, scored their usual success with great applause on Tuesday evening in Tudor Hall at Ogilvy's. There was such a large attendance that extra chairs had to be added before the concert could begin and many had to stand. It is seldom these days that one hears such an array of youthful pianistic talent on one programme, and judging from the applause the recital was one continued round of enthusiasm throughout the evening. Such interest prevailed that several pupils had to respond with encores, most of the students showed a remarkable technique for their years and every pupil performed from memory. The younger children played first, each showing good training in precision, tone and rhythm. These were Diana Strong, Raleigh Child, Dorothy Cohen, Louis Kovitch, Beverly Brydon, Carol Gardner, Dennis Huter Shirley Ann MacDonald, Jean Clement and Donald Morrell. Roslyn Mandelcorn showed good tone in a Romance, Jack Folkins played with spirit in "Pirates," and Betty Rusk was heard in a tuneful "Waltz"; Conrad Cohen rendered "Toy Soldiers," and a Krogmann "Waltz" was well played by Catherine Folkins.

Maureen Donohue, who played a lively "Tarantella" by Parlow and Enid Breslow, who rendered the "Emperor Waltz" by Strauss proved themselves talented little pianists. "Goblin's Frolic," by Heller, was played with nimble fingers by Judith Gold. Carol Rosenblatt showed ability in a Tschalkowsky number, Wendy Child good fingerwork in "Three Trolls," and Sally Gourlay played very well in an attractive "March" by Wright. Joan Davis showed sparkling fingers in a "Village Dance" by Pennington. Two smart pupils, Rona Feldman and Evelyn Montclair showed excellent rhythm in contrasting dances. A "March" was well played by Lillian Vocisano and Susanne Herman performed the "Waltz of the Flowers," by Tschalkowsky, with much expression and responded with an encore.

A Chopin Prelude was rendered by Joan Lanham with good tone, and Vita Horovitch played a "Presto" from a Sonata by Clementi with agile fingers, and earned an encore, Margaret Cre-

gan played with good expression in a tuneful Prelude by Wright, and Mendelssohn's "On Wings of Song," was rendered by Janet Booz with nice tone.

Gloria Pine and Marilyn Lapedis received generous applause for their duet, a Brahms Hungarian Dance. Louise Appleton played well in a Haydn "Minuet," Raymonde Grant showed good interpretation of the "Russian Sailors Dance" by Gliere and Isobel Hashim proved herself a talented student in "Spring Showers." Beverley Grossman, an exceptionally musical pupil, gave a remarkable rendition of "Malaguena" for her years, and responded to tremendous applause with a second number. A Grieg "Norwegian Dance" was played in excellent time by Jennifer Sheldon and Lois Klein showed good fingerwork in Haydn's Gypsy Rondo. Gloria Fine gave a Chopin Waltz with technical facility, Hinda Cohen a good performance of a Spanish Dance, Marilyn Lapedis earned much applause for Chopin's "Military Polonaise," and Rachmaninoff's "Polchinnelle" was admirably played by Mary Werleman, who was recalled for an encore.

At the end of the enjoyable concert, the pupils assembled on the platform and Miss Goltman, after thanking the audience for the enthusiastic reception accorded the performers and their interest throughout the recital, was presented with a beautiful basket of flowers from her pupils in appreciation of her efforts on their behalf. The audience joined in the singing of the National Anthem.—T. R. M.

### GEORGE ALBERT STANTON A Tribute

A sincere musician of outstanding merit passed away suddenly a week ago. George Albert Stanton, a revered gentleman with many scholastic and musical attainments will be mourned by the musical profession as well as his many personal friends. Mr. Stanton held numerous important offices in England (where he was born) prior to arriving in this country. He was a well known musician and conductor of choral societies and symphony orchestras. It was through Dr. Harry Crane Perrin, who was then Dean of the Conservatorium of McGill University that Sir William Peterson interviewed Mr. Stanton in London and Montrealers were indeed fortunate that this splendid man was added to the local colony of musicians after that meeting.

Countless students studied with Mr. Stanton when he taught at the MacDonald School for Teachers. He was connected with the

## Judy Garland at Her Best as Heroine of "The Harvey Girls"

The story of the pretty waitresses imported West by Fred Harvey and his now famous "eating houses" has been made into a completely captivating musical, "The Harvey Girls", which is now playing at the Westmount United Theatre until Saturday night.

Filmed in Technicolor against the picturesque frontier background of New Mexico of the 1890's, "The Harvey Girls" offers unlimited scope for the dramatic, comic, and song-and-dance talents of a dazzling array of players. Heading the cast is Judy Garland and John Hodiak, and including the nimble-footed Ray Bolger, Angela Lansbury, Preston Foster, Virginia O'Brien, Kenny Baker, Chill Wills and Marjorie Main.

Miss Garland is cast as Susan Bradley, on her way to Sandrock, a tough New Mexico pioneer town, to marry H. H. Hartsey (Chill Wills), a cowboy to whom she has become betrothed, unseen, as the result of his sympathetic correspondence. Discovering that his letters were a hoax perpetrated by Ned Trent (John Hodiak), proprietor of the Alhambra gambling hall, Susan joins forces with a group of waitresses who are helping to open a new Harvey restaurant in this tough town.

The battle between law and order in Sandrock, as represented by the Harveys and the Santa Fe Railroad, and crooked rule as represented by the dance hall crowd resolves itself into a per-

sonal feud. It is fought between Susan and Em (Angela Lansbury), queen of the Alhambra, over the love of Trent, with Susan coming out triumphant in the end, even though she has to resort to a brace of six-shooters to win her man.

The picture has been given a rich musical score replete with hit tunes divided between the talents of Judy Garland, Angela Lansbury, Virginia O'Brien, Cyd Charisse and Kenny Baker. It all adds up to outstanding entertainment.

### RESERVE STRENGTH

Fitness has been defined as "staying power", that something which enables one man to carry on when another, of apparently equal strength, has to quit. National Health authorities advise exercise for the acquisition and accumulation of "staying power". Only through exercise, suited to one's personal condition and needs, can reserve strength be stored up, they say.

# Dodgers Now Perched Atop League

## Edge Royals 5-4 in Crucial Tilt

Sonny Provost's Dodgers have taken over first place in the senior section of the Westmount Municipal Softball League. Dodgers clinched their bid for the top spot by downing Royals 5-4 last Thursday night.

In other games played last week, Cardinals shut out Staynor 2-0; Swans beat Police-Fire 17-4; Staynor lasted long enough to win 8-6 from Police-Fire; Swans beat Cardinals 9-4 and Dodgers trounced the Police-Fire nine to zero.

Royals grabbed off an early 4-1 lead in their crucial game with the Dodgers but Sonny Provost's team came back in the sixth and seventh frames to tie up the game and win out 5-4. Provost helped his own team out with three timely bingles while Stan Morgan smashed out a homerun for the losers.

Although they were outthit,

### Scout Title Play Decided Last Wed.

1st Westmount and St. Andrews won division titles in the Scout Section of the Westmount Municipal Softball League. The two troops played off for the section title on Wednesday evening.

1st Westmount won the King George division championship beating out 2nd Westmount, Sea Scouts and St. Matthias. They went through their regular schedule without losing a game.

St. Andrews and Westmount Park United ended up tied for the Westmount Park division title. In the playoff St. Andrews won out 18-9.

Cardinals shutout Staynor 2-0. Bill Vincent hurled for the winners and Hughie Brown for the Staynor nine.

Homeruns by Jim Haggarty, Rollie Loftus and Cliff McClay paced Swans to their 17-4 win over the Police-Fire nine. McClay fanned eight of the opposition in the process.

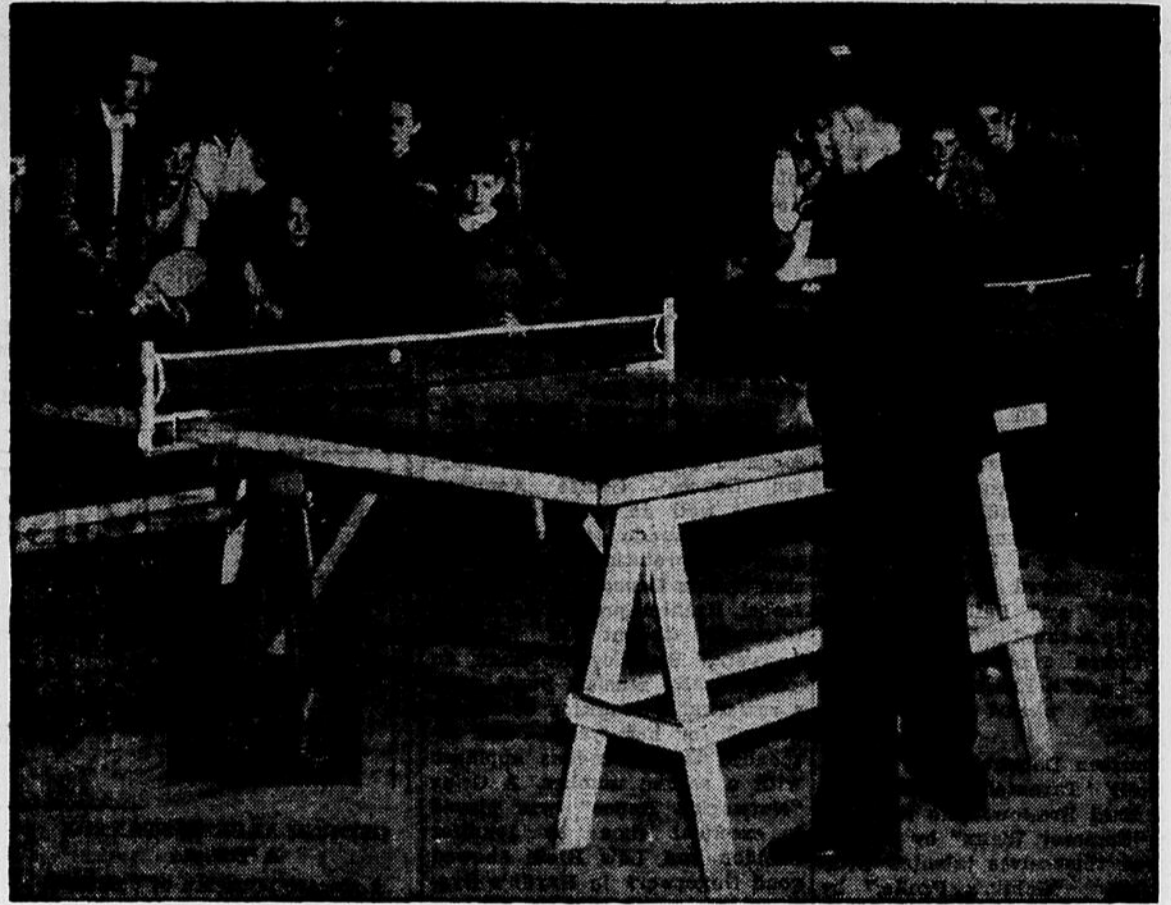

#### HOMERS GALORE

Seven runs in the third inning meant an 8-6 victory for Staynor over the Police-Fire nine. As usual the Department boys came with a bang at the end but were still two runs behind when the game was over. Although they lost the game, the losers banged out four circuit clouts with hurler F. Keys getting two of them while K. Ryan and J. Babeau got one apiece. Allan Jones homered for Staynor.

The Swans scored all of their runs in the first three innings when they downed Cardinals 9-4. Bill Booth and Kevin Tolan banged out three hits apiece for the Swans.

The Dodgers had little difficulty with the Police-Fire team on Monday night, trimming their opponents 15-0. Frank Provost led the winners at bat with four hits in five times at bat. Logue McDonald fanned an even dozen batters on the losing team.

On Monday, Police-Fire will play Cardinals and Dodgers will hook up with Staynor. On Wednesday, Swans will meet Police-Fire while Royals will take on the Cardinals. On Thursday, Dodgers and Royals will meet in another crucial game on one diamond with Staynor taking on Swans on the other.

WHERE ARE THESE BOYS TO GO ON RAINY NIGHTS, AND IN COLD WEATHER?

This is the problem that the Rotary Club of Westmount will solve for members of the Unity Boys Club when they find them permanent quarters to use as a club room. Here they are playing ping-pong out-of-doors in Clandeboys Park under flood-lights supplied by the City of Westmount. It is to continue their excellent work with this boys club and in aid of the Julius Richardson Convalescent Home, the Montreal Children's Hospital and the Westmount Rotary Scholarships that the Rotary Club of Westmount is holding its annual carnival in Westmount Park from June 18th to 22nd.

#### VEGETABLE GARDENS

In planting this year's "Good-Will" garden, nutritionists at headquarters in Ottawa of the Department of National Health and Welfare, recommend inclusion of plenty of yellow and leafy green vegetables. These will provide Vitamin A, necessary for healthy skin and eyes, and also blood-building iron. It is hoped that many will raise vegetable gardens this year, to add to the world's food supply.

# Aces Trim Mustangs For Pee Wee Title

Jack Cote's Aces won the Pee Wee championship of the Westmount Municipal Softball League last week when they downed Dave McDougall's Mustangs in two straight games. Aces won the "A" division title while Mustangs had copped the honors in the "B" division. The scores of the games were 10-7 and 4-3.

Both titles were closely contested with the Aces copping the first 10-7 by virtue of a five run rally in the third inning.

The second encounter was very tight and required an extra inning of play before the Aces won 4-3. Dickie McLean's single in the last half of the third inning was the first hit of the game for either team. After Lewis Basthaw and Dave McDougall reached first on errors by the Aces, Jack Fenwick batted both of them in with a double for the first two runs of the game. The Aces got one of these runs back in the last half of the fourth when Jack Cote reached first on an error and crossed the plate on Brian McKeown's single.

### Tie Counts

Aces tied the score up in the last half of the fifth when Jim Beaton and Barry Martin got on base via errors with the first named player crossing the plate. Mustangs took a 3-2 lead in the first half of the sixth when Johnnie Swaine singled home Fenwick but Aces retaliated with two runs in the last half of the frame to take the game and the title. Don McMillan walked and scored on Brian McKeown's hit. McKeown then stole home with the winning counter.

The players on the championship Aces were Don Smith, Doug Patterson, Jack Cote, Brian McKeown, Hugh Doull, Joe Livingston, Allan Lightfoot, Jerry Apostolatos, Barry Martin, Joe Williams, Jim Beaton, Don McMillan, Mike Harling and Beall.

# Putting Tourney Starts Tonight At Seven O'clock

The first putting tournament of the season at Westmount Park will be held this evening starting at seven o'clock. No entries will be received after eight o'clock. Competitors will play 36 holes.

These tournaments were very popular last year and maximum entry lists were obtained in nearly all events towards the end of the year. A small entrance fee will be required with the winner earning a silver spoon suitably engraved for the event.

The tournament will not be played under a handicap system as yet, however, with two or three weeks of play completed, it will then go on a handicap basis. The ladies will, of course, be present for tonight's activities and compete in an event of their own.

### FIRST TOURNEY

The first putting tournament of the season at King George Park was held on Tuesday night with Johnny Haskell emerging as the winner. Haskell ended up the 36 hole event tied with Roger Lamb, each having carded 92's. In a nine hole playoff, Haskell copped the honors. Mr. McKee and Dave Ewing were right behind with 93's.

Another tournament will be held at King George Park on Tuesday night and they will be held there weekly throughout the summer months on that night. A ladies' event will also be staged here if enough female players turn up on the Tuesday evenings. Handicaps will be used at King George Park as soon as any player turns in two consecutive tournament scorecards.

# Y NOTES

### SOFTBALL

The Westmount "Y" Mixed Softball Team won their first game in the Westmount Church Softball League Tuesday evening, when they defeated the St. Andrews team 21-16.

Led by Kaz Nishio on the mound, the Westmount team displayed real playing skill and lead St. Andrews all the way, picking up four runs in the first inning and adding eight runs to their lead in the first half of the third. St. Andrews rallied in the last half of the fifth and picked up ten runs.

### SATURDAY NITE CLUB

Graydon Riepert, Master of Ceremonies of the Sat Nite Club parties, announced Saturday evening that the S.N.C. parties would be discontinued for the summer months following Saturday's dance.

The Westmount "Y" Sat Nite Club was organized in October of last year with the purpose of sponsoring weekly parties for members. The Club has had a very successful season, having conducted special parties at Christmas, New Year's and a spring semi-formal.

### SWIMMING

"Keep Cool in the 'Y' Pool" this summer" is a slogan you will want to remember. Swimming instruction classes for men and women are held every week with the purpose of assisting members to improve their swimming before their holidays. "The Learn to Swim Classes" for girls and boys are held twice weekly on Tuesday and Friday afternoons.

# St. Leo's In Bantam Win

Phil Martin's St. Leo's nine, unbeaten all spring in the bantam section of the Westmount Municipal Softball League, won the pennant last week when they downed Panthers 11-6 and 10-7.

The St. Leo's team came from behind on both occasions to win out. In the first game they were six runs down after two innings of play, nevertheless they pushed over 11 runs during the rest of the game to win out 11-6. They were behind by a 6-3 count after three innings of play in the second game but a five run uprising in the fifth frame gave them a lead they never relinquished and they won out 10-7.

Members on the championship teams were Donald Rolfe, Phil Martin, Hughie McDonald, Ted Budzen, Pete Ciceri, Jim Cotter, Neil Potter, Marty Kay and John Foy.

# Church Teams Play Double

The church section of the Westmount Municipal Softball League finally triumphed over the weatherman and ran off a double-header at Westmount Park. Four of the teams slid over some pretty muddy ground on Tuesday night before Advent beat Calvary 14-9 and the YMCA took St. Andrews into camp 21-16. The Baptist nine had a bye.

In next week's twin bill, Baptist will meet Calvary on diamond No. 1 while the YMCA will take on Advent on diamond No. 2. The hosts for the evening will be the Church of the Advent.

Advent scored in every inning except the seventh as they downed Calvary 14-9. The losers started off on the right foot by scoring six times in the first inning but they were held down from then on.

An eight run outburst in the third inning carried the "Y" to their 21-16 victory over St. Andrews in a five-inning affair.

# Westmount "Y" To Show Film

A series of films, together with demonstration of an instructional nature, on sports, crafts and scientific subjects are being held at the Westmount Y.M.C.A.

This Tuesday, June 17th, a special demonstration on Judo and its use as a method of self defence will be given by Gerald Hanson and Donald Despart, both of whom have taken part in many displays of this sort throughout the Montreal area.

Members of the Westmount Y.M.C.A., 15 to 18 years of age, are invited to attend and bring along their friends.

Events of this sort will be held each Tuesday evening at 8.30 p.m. for a six weeks period in the Social Room of the Y.M.C.A.

### CAMP WESTMOUNT

The "United Nations & World Citizenship" is the theme of Camp Westmount, the in-the-city Camp operated by the Westmount "Y".

The Camp, planned to meet requirements of boys 9-16 years of age, will open Monday, June 24th at 9.00 a.m. and continue until

Saturday, August 3rd. The Camp operates from 9.00 a.m. till 4.30 p.m. each week day with the exception of Saturdays.

Much of the Camp's activities will take place out of doors, with instruction in swimming and craftwork being emphasized. Other activities include visits to industries, woodcraft, baseball instruction, daily assembly periods, all day picnics, soccer, track and field, aeroplane building, plastic work, group games, moving pictures, sing songs and overnight camps.

### EAT LESS FOR HEALTH

Fortunately for Canadians, say national nutrition experts, they can safely cut down on some foods and still support the work of feeding the world's starving peoples. Whole wheat and Canada Approved breads are not only more nutritious, but are also more economical, according to officers of the Department of National Health and Welfare, Ottawa.
