BALLOONIST TELLS OF THRILLING EXPERIENCE

Lost in the Wilds of Northern Quebec— One of Crew of the Dusseldorf. REACHED QUEBEC YESTERDAY MORNING.

Mr. Sam F. Perkins, who was assistant to Mr. Gerricke, the German balloonist, and one of the competitors for the James Gordon Bennett Cup, with his balloon, Dusseldorf II, arrived in this city yesterday morning by the Quebec & Lake St. John Railway, and immediately proceeded to the Chronicle office to get the latest news of the ten balloons which left St. Louis, Mo., on Monday afternoon, the 17th instant. Mr. Perkins, with his companion, as stated in yesterday's Chronicle, landed near Kiskissink on Wednesday afternoon last, a few hours after the landing of the other German balloon, Germania, at Cocococache, north of La Tuque. The crew of the Dusseldorf had quite an experience, particularly so in the Lake St. John wilderness, and as the young balloonist says, he had an experience which he was not ready to undertake if he was aware that his balloon was to be carried over the wilds of Lake St. John.

falling at the time, followed by snow, and they had to remain around the balloon, as they had not even an axe to cut wood with which to build a fire. All Mr. Perkins had was a jackknife, and even this was practically no use just then. On the following morning both attempted to get through the brush to Kiskissink, but had to return to the balloon. Mr. Perkins on the way securing some dry wood, with which they built a small fire, but they got so close to it that Perkins had his overcoat partly burned. On Friday morning another start was made, and, as only four miles had been covered in two days' tramping, the balloonists decided to plant a large flag on a mountain nearby. This had the required effect, as Mr. Theophile Boivin, a guardian of the Fish and Game Club, who was on his usual inspection of the Kiskissink river, saw the flag, and immediately concluded that something unusual had happened. Proceeding up the river and, through the brush the game guardian occasionally fired his rifle, which was heard by the balloonists, who shouted in response and kept shouting so frequently that they finally met Goivin, who escorted them back to Kiskissink, where they arrived on last Saturday afternoon and immediately communicated with the St. Louis Aero Club.

Mr. Perkins is a young man, resident of Boston, and member of several aero clubs, and in July last took part in the aviation contests in Montreal. Since then he has been doing the flying act in Mexico, and, having a certain knowledge of the United States and Canada, volunteered to accompany Mr. Gerricke, a German, who owned the balloon and who had no knowledge whatever of the country. Leaving St. Louis on last Monday afternoon, the Dusseldorf was carried over the Ontario lakes, but Mr. Perkins well remembers passing over Milwaukee. They were provided with a megaphone and occasionally descended near enough to land to ask the inhabitants in what State they were and get their bearings.

Mr. Gerricke remained over at Kiskissink to look after his balloon, while Mr. Perkins proceeded to Quebec, leaving here at 8.30 yesterday morning for New York, where he was entered to take part in the International aviation meet which commenced there on Saturday last. Mr. Perkins when seen by a Chronicle representative yesterday morning looked like a man who had had a rather rough experience. His clothes and red sweater were torn and burned in several places, and the only protection for his feet were a pair of canvas racing shoes. Still he wore a pleasant smile notwithstanding the hardships he had endured, but to a question as to how he enjoyed his trip, Mr. Perkins replied:— "Never again for me in a balloon if I know I am to be landed in the wilds of Lake St. John. I have had enough of ballooning in Canada, and after our experience, if any balloonist happens to fly around here, he will land sooner than we did. Fortunately we had lots of provisions and stimulants, as I had provided plentifully for my partner and myself, and the former, not knowing that I had looked after the provisioning, had himself put a large stock on board the balloon. It was lucky that we were thus equipped, for it is impossible to say what would have happened to us in the Lake St. John forests were it not for our discovery by Mr. Boivin. We had no idea of landing there, but thought we would land somewhere in New York State. We suffered considerably from cold when we landed at Kiskissink, and at a high altitude blood constantly oozed from our ears and noses owing to the lack of oxygen at such a height.

On Wednesday afternoon about 1.30 they noticed a small settlement, which later on they discovered to be Kiskissink, about 135 miles north of Quebec, and attempted to land there, but they were unsuccessful in their attempt, and the Dusseldorf was carried still further north. Messrs. Gerricke and Perkins still had fifteen bags of ballast on board the balloon, as well as lots of provisions and stimulants, but as they had for over a day crossed over a country which was not a wilderness, and fearing they would drop into Lake St. John if they continued on their trip, they decided to land in the middle of the forest, knowing that they were only about eighteen miles north of the settlement they had just passed over. The descent was made late Saturday afternoon, the balloonists dropping about ten thousand feet in nine minutes and landing in a thick brush. Both were knocked out, as Mr. Perkins remarked, and came to in about twenty minutes, only to find themselves in a wilderness. Unfortunately, rain was

"If we had had any idea in what part of Canada we were, or where we were going, we could have remained in the air for about thirty-six hours more. It is needless to say," concluded Mr. Perkins, "that I am satisfied we have won the trophy, as I do not think that the America II will ever go as far as we have, although it may land somewhere on the Transcontinental route."

SENSATIONAL FLIGHTS AT BELMONT PARK

New Record for Altitude Made by American Aviator in New York Yesterday.

New York, Oct. 24—The third day of the international aviation meet at Belmont Park, Long Island, made up for all the damp, cold and disappointment of the first two days. A new American record for altitude was set down to the credit of J. Armstrong Drexel, and the competition in the other events was at all times full of rest, action and beauty. The air fairly hummed with the buzz of the dipping, dancing craft and their incessant evolutions were so swift and so intricate that the spectators could not follow them and even the official scorer, prompted from the judge's stand by the tabulators and timekeepers, lagged behind.

Drexel soared for altitude in his record flight at just 3.40 p.m. five minutes before the second hourly altitude contest closed. In great circles he crept into the wind, pointing higher and higher into the glare of the setting sun to a height of 7,105 feet. Beneath him three busy biplanes were scuttering about the track, racing for place in the grand speed event. His descent was swift but unhurried and he landed lightly in the middle of the field. There was immediate surmise that he had established a new record, but no figures were available until his barograph had been unsealed and the reading of the stylograph on the plotted sheet inside it had been examined. Drexel had made, however, what proved to be a remarkable close estimate of what he had done. "I've been up more than 7,000 feet," he said. "And let me tell you that it was cold." The barograph is an aneroid barometer, to which has been attached a revolving drum of plotted paper, driven by clock work with a recording stylus attached. The instrument shows both the height and the time at which it was made. Drexel's reading showed clearly that he had risen just 7,105 feet. The best previous American record was 6,175 feet made by Walter Brookins at Atlantic City. Drexel's own best record, made last summer in Great Britain, was 6,750 feet at the time a world's record.

It is probable that the official records, as they finally will be compiled, will allow him only 7,100 feet to-day, as it is held that an aneroid barometer is an instrument not of sufficient accuracy to be relied upon for measurements down to the ultimate foot. The world's altitude record is 9,186 feet, held by Henry Wynamin, a Hollander. Walter Brookins also went up for altitude in a baby Wright biplane—a machine precisely like the new headless fliers that the Wrights brought out this summer, but with sharper upward cant to the planes, thereby enabling the aviator to point up more sharply and climb faster. Brookins went up 4,882 feet, according to the barograph, and won second altitude honors for the day. At the apex of his climb, his engine stopped dead, so that in gliding to earth with no power on he came down whizzing, about a mile and a half off the course. He struck with a bump which broke his forward landing skid. The damage was insignificant, however, and he was not hurt.

Next to the performance of Drexel the crowd took most enjoyment in the appearance of models never seen in America before. They included the new Wright climber used by Brookins in his altitude flight, a tiny Demoiselle, called the Humming Bird of aeroplanes, and a flying-fish Antoinette. In all there were ten machines aloft at once, all in spirited rivalry. Americans had never seen anything like it, and the exclamations of admiration and bewilderment were heard on every hand; but in the first international meet at Rheims there were seventeen in the air at once. Latham, whose name has been associated so closely with the development of the Antoinette, piloted the programme of the day went through by the card, and the events called off yesterday, because of the gale, were postponed to a later day not yet named.

SCHOOL TEACHER, A JEWESS, DISPENSED WITH.

St. Catharines, Ont., Oct. 24—The doors of school No. six south are closed to-day. Miss Epstein, a Jewess, from Toronto, was engaged some time ago as teacher. It is said that some of the religious teachings of the new teacher were contrary to the sentiments of the orthodox rate-payers of the section. Eventually it was discovered that Miss Epstein was not fully qualified. Mrs. Staff, wife of the ex-Reeve of the township, filed a statement to this effect. The board of trustees met on Saturday evening and decided to dispense with the teacher's services. The young lady's friends say that the board was not particular about qualifications when she was engaged because her salary figure was low.

STRIKE AMONG NEW YORK EXPRESS EMPLOYEES.

New York, Oct. 24—A riotous demonstration in which two strike-breakers were badly injured marked the third day of the strike by drivers and helpers of the United States Express Co., at Hoboken, N.J. Eight wagons, guarded by private detectives and manned by strike-breakers were assailed by strikers and their sympathizers and stoned. Police-men charged and dispersed the crowd. The trouble was renewed when three wagons were driven on to a ferry boat. The strike is for shorter hours and an increase in pay.

ARRESTED ON MURDER CHARGE

Remains of Girl Found in Westmount Have Been Identified.

Montreal, Oct. 24—The remains of the girl found in Westmount yesterday have been identified as those of Cecile Michaud who disappeared August 30th last. Albert Chevrier and Ludger Terrault, who had been charged with her abduction, have been re-arrested on a charge of murder.

ANXIOUS TO GO AFTER MISSING BALLOON.

Yesterday morning Mayor Drouin was called upon by Mr. Gassmer, of New York, who is anxious to find the whereabouts of the missing balloon, America II, and hopes to get up parties in this city to undertake the trip. It was suggested to him to try and organize a relief party at Roberval, where he would most likely secure parties willing to undertake a flight in the air. Mr. Gassmer is anxious to organize his expedition with the least possible delay.

CHARGED WITH STEALING A WATCH.

Yesterday afternoon a shoemaker, considerably under the influence of liquor, was relieved of his gold watch in a yard in rear of a hotel in Montreal ward. The victim of the robbery had no knowledge of his watch disappearing, but the theft was witnessed by a young man, who notified the police, and Constables Pare and McCabe shortly after arrested the thief, who had the watch in his possession. The victim was also arrested on the charge of drunkenness.

LITTLE BOY MEETS WITH STRANGE ACCIDENT.

Toronto, Oct. 24—While lying in his bed in his home at Gravesend, little ten-year-old John Young reached up and grasped the electric light bulb. In a flash his arm was burned to a cinder, and his skull, where it came in contact with his iron bed, completing the circuit, was burned through to the brain. His mother, Mrs. A. M. Young, has entered action against the town to recover \$34,000 damages. It was found necessary to amputate the boy's arm at the elbow and the medical expenses were heavy.

BIG MEETING MADE PROTEST

Against Remarks of Mayor Nathan of Rome in Regard to the Pope.

In reply to an invitation of St. Jean Baptiste Society, thousands crowded into St. Roch's Church last evening to protest against the recent utterances of Mayor Nathan, of Rome, against His Holiness the Pope. Every seat in the church was occupied and standing room was at a premium, and the clergy, officers of the different societies and Mayor and Aldermen occupied seats in the sanctuary.

YOUNG SYRIAN GIRL DISAPPEARS

Has Been Missing for Ten Days Past from Her Parents' Residence.

A young girl, 14 years of age, daughter of a Syrian pedlar in Desfosses street, named John Moreau has mysteriously disappeared, and no trace of the child can be found. The little girl, whose name was Victoria, left her parents, house on the 15th instant, since which time she has not been seen. The girl had been helping her father in the peddling business in Quebec, but had often gone as far as Montmorency Falls as well as Lewis and St. Romuald. She left her home on the 15th with a basket of goods, since which nothing has been heard of her, but up to the present have called in the aid of the police to inquire for her, but up to the present no trace of her has been found.

THREE RIVERS GIRL MAKES BIGAMY CHARGE.

Ottawa, Oct. 24—Arthur Godin, who married Elizabeth Gardener in Ottawa last September and resided with her at 280 Breuerhill Avenue, was arrested tonight at the instance of Maria Semprir, of Three Rivers, Que., who says the accused married her there July 10th, 1902. He will appear at Hull court to-morrow.

LOOKING FORWARD

Anticipating a great trade during this coming Christmas Season, we will, during the next few weeks, offer customers additional inducements to purchase some of their presents a month in advance.

The goods that we will offer during the month's sales will be of our usual high quality; some of these lines did not sell rapidly, the style or design did not suit our customers; now we have decided.

THAT THE PRICE WILL SELL THEM.

Our first Saturday Sale will be a sale of clocks, eight day oak mantle clocks, suitable for Dining Room, Drawing Room or Office. Five dollars will buy a nice Eight Day Clock that strikes hours and half hours on a gong.

Should you have a gentleman friend to whom you would like to present a clock for his Smoking Room or Den, we have a couple of clocks that we will sell at \$10 each, all metal, with large weights and a pendulum. Of Clocks that would sell anywhere for \$20 the price during the sale of \$10.

Small lever clocks in metal and in wood. A very desirable clock for a Boy's Room, Saturday Sale Price.....\$2

These little clocks are suitable for a Desk Clock, a Bed Room Clock or a Library Clock; and the price as long as we have them in stock is only two dollars.

There are two ancient Hall Clocks which strike on a bell. Sale Price.....\$50 each

A Brass Clock made in 1708 by Leonard Bourgois, Paris. Price.....\$50

An Astronomical Clock, a suitable present for an astrologist or scientist.....\$20

A Black Forest Trumpeter Clock.....\$50

A Mysterious Clock consisting of 2 glass spheres \$15

About the terms and conditions of our Saturday Sales. Owing to the very low prices all purchases must be strictly cash, and the goods delivered immediately.

First Sale Saturday, October the 22nd, commencing at 8 a.m.

The Quebec Chronicle

QUEBEC, OCTOBER 25, 1910.

THE AFTERMATH.

If Mr. Bourassa is reaping the second crop of Quebec nationalism, Sir Wilfrid was the sower thereof. He and his sowed broadcast and garnered as it paid them. It is small wonder, therefore, that he begins to feel alarmed at the thickness of the crop that is left. His utterances of to-day are as different from those of other days as chalk is from cheese, and to compare Mr. Brodeur welcoming the Niobe with the Brodeur of other days would be amusing if it did not bring out the nauseous Pharisism of these whited sepulchres. Sir Wilfrid knows that he has not scrupled to make use of Quebec Nationalism in the past, and Mr. Bourassa, his one-time ally, knows the weak joints in his armor and in that of his myrmidons. In the course of his speech at Montreal Mr. Bourassa said:—

"During the Boer war Mr. Tarte had sent him a pressing message to go to Ottawa, and on the train he had met Lomer Gouin and Rodolphe Lemieux. They talked the matter over and Mr. Gouin said: 'If Laurier sends a single soldier to South Africa I will denounce him before the whole country.'"

"At the Ottawa meeting there were present Sir Wilfrid Laurier, Mr. Belcourt, Mr. Champagne and others. After this Mr. Chamberlain had written to Lord Minto asking Canada to participate in the conference in London to discuss matters of military and naval import. Sir Wilfrid Laurier replied that they were quite satisfied with things at home, and he did not think that any general system of defence would be agreed upon."

"At that time Sir Wilfrid thought it would be a crime to send Canadians to fight the Empire's wars, and he said so several times in answer to Mr. McLean and Dr. Sproule, but then, of course, it was for Quebec's benefit. Hon. L. P. Brodeur and others had then gone all over Quebec denouncing the Conservatives for spending a million dollars in the purchase of guns, but now they swallowed an expenditure of fifteen millions."

Sir Wilfrid kept the fire alight a while. Now Mr. Bourassa has taken the smouldering embers and blown them into flame once more. And the Premier apparently fears that he may be burned by the fire with which he once played.

THE COAL OPERATORS.

The verdict rendered by the coal operators of Nova Scotia against reciprocity in this product should make Mr. Fielding sit up and take notice. We understand that those present at the meeting were unanimous in their verdict that such reciprocity would do much harm to the home market and it would be extremely doubtful whether any advantage would be gained in the foreign market. The coal industry is one of the most important assets of the Maritime Province and it is not likely that the Nova Scotians will approve of any policy that would react to its detriment. The St. Lawrence offers a considerable market to the Nova Scotians and, as even Mr. Brodeur, was constrained to admit, our ports and manufacturers would be likely to suffer if any change was made in existing conditions. It is obvious that the country as a whole does not hanker for any such charges though there are a few places where it might be beneficial.

A CANADIAN HERO.

By the death of Mayor Bruce Carruthers, Assistant Adjutant General for Signalling in Canada, the Dominion has lost an officer, who by his ability and bravery won glory both for himself, his town and his country and was worthy to be compared with the heroes whose names are household words the world over. He was not killed in action but his death was in a measure due to his campaign in Africa where in his second expedition he contracted cold that was followed by tuberculosis.

Born in Kingston forty-seven years ago he was educated at the Royal Military College and there developed a fondness for many sports excelling especially in boxing and fencing. Graduating in 1883 he was commissioned to the 21st Hussars, but later resigned his commission and spent two years in Australia after which time he returned to Kingston and became a Captain in the 14th Regiment, P.W.O.R.

As one grows old the bowels grow less active. Some then take harsh cathartics, and their bowels harden. Then they multiply the dose. Some take candy Cascarets. They act in natural ways, and one tablet a day is sufficient.

Vest-pocket box, 10 cents—of drug-stores. People now use a million boxes monthly.

When the first Canadian Contingent left for South Africa he applied to join but, as the contingent was complete, his application was refused. Far from being daunted he came down to Quebec and by the co-operation of an officer, who was one of his friends, he was allowed to carry the baggage of the latter on board. Once on board he hid himself until the vessel was out at sea, when he enlisted as a private. It was not long before his knowledge of military drill and signalling won him Sergeant's stripes. He was present at Paardeberg, Driefontein, Poplar Grove and many other actions, and as a result of distinguished service he was awarded a medal with four clasps.

But it was his gallantry at Harte River, when with the second Canadian contingent, which earned him undying fame. Thanks to his courage, a little band, consisting of 24 Canadians and 45 mounted infantry, refused to surrender, and, although surrounded on every side, held 600 Boers at bay for two hours before they were overwhelmed. At the end of that time the Canadians had 21 out of their 24 killed and wounded and the infantry 30 out of 45.

A despatch from Klerksdorp to the London Standard said:—"Lieutenant Carruthers was the only officer who was not killed or seriously hurt. He had several flesh wounds and his clothes were perforated in many places. He stoutly refused to go to the hospital. When he was taken prisoner some of the Boers wanted to shoot him, but they thought better of it, saying that he was too good a man to die that way."

By this heroic resistance at Harte River he and his Canadian comrades taught a lesson of courage and made his countrymen proud to be represented by such men. It was a deed that will go down as one of the brightest in the annals of the Empire, and Kingston does right in sparing nothing to honor the son who thus brought honor to her.

THE CHURCH UNION QUESTION.

As the Church Union Question has been widely discussed in the press a statement has just been issued by the Executive Committee of those in the Presbyterian Church who dissent from the proposed organic union and "suggest the plan of Federation" as a better alternative. In doing this the authors of the statement say that they are not seeking to nurse any grievance nor to speak with authority for the Church as a whole, but they consider that owing to the importance of the subject the fullest discussion should be invited. The following paragraph occurs at the beginning of the statement:—

"We are in hearty sympathy with the ideal of true Christian unity and will labor to attain unto it. We feel that the proposed organic union of three of the Canadian Churches would be a hindrance rather than a help to that end. The time is not ripe for any such movement, and the experience of Protestant Christianity is against it. Moreover, any union in Canada which would leave out such Churches as the Anglican, Baptist, Lutheran and others would be a very imperfect representative of the Protestantism of Canada. But we believe that a Federation of all the Protestant bodies of Canada could be easily formed on the pattern now so well wrought out in the United States. And we believe that such a Federation, while preserving to every Church its individuality and its inspirational history, would remedy any evils that result, at home or abroad, from unwise denominational zeal, and would concentrate the united Protestant opinion of Canada upon the great social and moral questions of the day."

The Committee then goes on to say that the next twenty-five years will be the most critical in the history of Canada and that this question of union would inevitably involve years of debate and unsettlement, which in a time of crisis, would divert the attention and energies of the Churches from their supreme work of evangelisation at home and abroad. Besides this the Superannuation and other Benevolent Funds would furnish a problem too immense for solution.

The only justification in the opinion of the executive for organic union of the Churches would be the conviction that it was the will of God, and it is pointed out that the intercessory prayer in John 17—"that they all may be one"—is taken by some as a clear intimation that all Christians should be in one ecclesiastical organization. But few believe that "organic union" is there enjoined even by implication. In this connection it is interesting to recall the advice of Christ to his disciples when he told them not to interfere with those doing Christ-like work even though they were not "with" them. Unity of aim, purpose and will does not of necessity mean

the abolition of individuality.

The Presbyterian Executive Committee also argue that the best New Testament Scholarship is against interpreting the prayer of Christ as a prayer for organic union.

"No man living" it says "stood higher than the late Principal Marcus Dods, of Edinburgh, as a skilled master in New Testament exegesis, and we ask you to read the following extract from his great book on John, where, commenting on John 17th, 21st verse, he says:—"This text is often cited by those who seek to promote the union of the Churches. But we find that it belongs to a very different category and much higher region. That all Churches should be under similar government, should adopt the same creed, should use the same form of worship, even if possible, is not supremely desirable, but real unity of sentiment towards Christ and of zeal to promote His will is supremely desirable. Christ's will is all embracing; the purposes of God are wide as the universe and can be fulfilled only by endless varieties of dispositions, function, organizations and labors. We must expect that as time goes on men so far from being contracted into a narrow and monotonous uniformity, will exhibit increasing diversities of thought and of method, and will be more and more differentiated in all the outward respects. If the infinitely comprehensive purposes of God are to be fulfilled it must be so. But also if these purposes are to be fulfilled, all intelligent agents must be at one with God and must be so profoundly in sympathy with God's mind as revealed in Christ, that however different one man's work and methods may be from another's, God's will shall alike be carried out by both. If this will can be freely carried out by separate Churches, then outward separation is no great calamity. Only when outward separation leads one Church to despise or rival or hate another is it a calamity. But whether Churches abide separate or are incorporated in outward unity, the desirable thing is that they be one in Christ, that they have the same eagerness in His service, that they be as regiments of the one army, fighting a common foe and supporting one another, diverse in outward appearance, in method, in function, as artillery, infantry, cavalry and engineers, or even as the army and navy of the same country, but fighting for the flag and one cause, and their very diversity more vividly exhibiting their real unity."

Professor Denny, another most eminent New Testament Scholar, takes much the same view when he says:—

"It is not a sin that while some English Christians are Episcopalian, others are Congregational, Presbyterian or Methodist. The unity of the Church is not to be achieved by gathering all these into what the law would recognize as one entire morale; they may be one in the only sense which the New Testament cares for without having one and the same legal construction. They may be one in the unity of spirit, one in the same participation in the same supernatural life, without being one in organization. The body of Christ in the New Testament is vitally one; all the members in it live in each other, co-operate with each other, share each other's joys and sorrows; but there is no such thing in the New Testament as one all inclusive Christian corporation. Varieties of organizations are the necessary counterpart to the unity of the Spirit; the unity is shown to be real and effective in proportion as it subdues all these varieties to itself, knitting men through them and over them in brotherly love to each other, and in devotion to the common ends of the gospel."

POSAM'S RARE HEALING POWER

Proved in All Troublesome Skin Diseases—Results Seen Overnight.

A skin affection treated with poslam, the new skin remedy, immediately becomes responsive, itching stops and the trouble grows less annoying, less extensive, until it finally disappears and the skin regains its normal color and texture. Germ life is annihilated. "For a great many years I have been troubled with salt rheum on my chest. Nothing gave me any relief. Now I am completely well and poslam has done it," writes Mrs. Jessie Beach, Rockford, Mich.

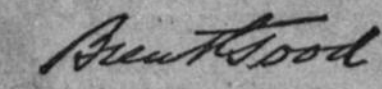

All skin diseases, including acne, tetter, piles, salt-rheum, skin scabs, barbers' and all other forms of itch, are relieved and cured by poslam, itching being stopped at once. The less serious troubles, such as pimples, red and inflamed noses, rashes, complexion blemishes, etc., respond so readily that results are seen over night.

Poslam is sold in two sizes (trial 50 cents; regular jars, \$2) by all druggists, particularly Henry Willis, 4 St. John street. For free sample, write to the Emergency Laboratories, 32 West Twenty-fifth street, New York City.

STEAMER REGULUS TOTALLY WRECKED

Nineteen of Her Crew Drowned—Steamer Burned to the Water's Edge.

St. John's, Nfld., Oct. 24—The steamer Regulus is a total wreck at Shoal Bay. She has been running between Newfoundland ports, Sydney, C.B., and New York and Philadelphia. She broke her tail shaft off the Bay of Bulls, 36 miles from here, during a heavy storm yesterday, while bound from Belle Isle to Sydney. The accident was reported here and a tug went to her assistance and picked her up. The storm increased, and four hawsers parted and the Regulus was lost in the fog and darkness. The tug found her at daylight a total wreck at the entrance of Shoal Bay. The tug learned that nineteen of the crew were swept into the sea and drowned in attempting to reach shore. When the tug left the steamer she appeared to be breaking up.

The Regulus was 859 net tons burden and was owned by Harvey & Co., of St. John's.

Steamer Burned.

Duluth, Minn., Oct. 24—The steamer Langham, 300 feet long, owned by the John I. Adams Co., of Detroit, and with a grain carrying record, burned to the water's edge off Keweenaw Point on Sunday afternoon. She was bound up the lakes for Port Arthur with a cargo of coal and passed the Soo last Tuesday but had not been reported since then. No details of the rescue of the crew have been received.

C.P.R. LINE.

Steamer Montrose, Captain Kendall, from London and Antwerp, with passengers and general cargo, arrived in port last evening, mooring at the Breakwater.

DOMINION LINE.

Steamer Manxman, Captain Christie, having landed Quebec goods and taken on board part of outward cargo, left for Montreal yesterday afternoon.

NORTH SHORE LINE.

R.M.S. General Wolfe, Captain Young, from North Shore ports, with passengers, mails and general cargo, arrived in port yesterday morning and moored in the Louise Dock.

QUEBEC STEAMSHIP CO.

Steamer Guiana arrived at St. Thomas, W.I. from New York at 6 a.m. yesterday.

FIFTY LIVES LOST.

Rio de Janeiro, Oct. 24—The British steamship Wally has been wrecked near the lighthouse at Arrochaes, off Para, and is a total loss. Some of the passengers and sailors have been rescued, but it is believed that nearly a hundred were drowned. The Wally plys between England and South American points. Late Sunday, according to information received here, her steering gear was rendered useless in the height of a gale. Unable to bring the Wally's head up into the wind, the captain ordered the lifeboats lowered. Before the command could be carried out by the crew, the Wally struck a submerged reef with terrific force. Instantly the vessel sank, while the two or three of the lifeboats, loosened before the Wally struck, floated off, but several of the crew and passengers managed to grasp the boats. They rowed up to the Arrochaes lighthouse. Fully 50 passengers were drowned. How many of the crew perished is not known, probably forty or fifty. The entire death toll will amount probably to 100. The Wally and her cargo are a total loss. Many of the passengers were English tradesmen.

LYOYD'S QUARTERLY RETURNS.

From the returns compiled by Lloyd's Register of Shipping, it appears that,

SHIPPING NEWS

excluding warships, there were 368 vessels of 1,154,197 tons gross under construction in the United Kingdom at the close of the quarter ended 30th September, 1910. The tonnage now under construction is about 36,000 tons more than that which was in hand at the end of last quarter, and exceeds by 376,000 tons the total building twelve months ago. Of the vessels under construction in the United Kingdom at the end of September, 287 of 786,223 tons are under the supervision of the Surveyor of Lloyd's Register with a view to classification by this Society. In addition, 55 vessels of 226,437 tons are building abroad to the Society's classification. The total building at the present time under the supervision of Lloyd's Register is, thus, 352 vessels of 1,012,660 tons. The returns include the work in hand in the principal districts, ownership, size and other details of vessels under construction, warships under construction, also a diagram showing the gross tonnage of vessels (excluding warships) under construction in the United Kingdom at the end of each quarter from 1882 to 1910 inclusive. There is included a table of foreign and colonial shipbuilding.

FREIGHTS AND CHARTERS.

New York, Oct. 24—The market for steam and sail tonnage was quiet in all departments, and rates were steady and unchanged. Quotations for Liverpool, London, Glasgow and Antwerp, 2d; Rotterdam, 4 1/2d; Hamburg, 2 1/2d pfeennigs; Bremen, 20 pfeennigs; Hull and Bristol, 2 1/2d; Cork for orders, 2s 6d; picked ports, large tonnage, 2s 3d; cotton to Liverpool, per 100 lbs, 20c.

Charters—British steamer, 2,923 tons, general cargo, hence to South African ports, berthed, November 20; British steamer, 2,824 tons, same, December 5; British steamer, 2,662 tons, transatlantic trade, one trip on time charter, private terms, November; British steamer, 2,539 tons, same, one round trip, 3s 1 1/2d, delivery Hamburg, October; British steamer, 2,828 tons, ore, Huelva to New York, 10s 10 1/2d, Tinto terms, with options, October; Norwegian steamer, 683 tons, West India trade, one or two round trips, private terms, November; British steamer, 1,411 tons (corrected), coal, Newport News to Cardenas, private terms, prompt.

VESSELS MISSING.

Kingston, Jamaica, Oct. 24—Fears are entertained for the safety of several schooners that left American ports weeks ago with cargoes of lumber consigned to Kingston. The schooner Earl of Aberdeen arrived last night from New Orleans. Her sails, steering gear and the tall ruf were carried away during the hurricane off Cuba and the water tanks were damaged. The captain reports that he did not sight any of the other schooners which left Gulf ports before he sailed and were bound for Kingston.

NOTES.

Tug Hudson arrived from Sorel yesterday afternoon, with a number of coal laden canal boats in tow.

Steamer Norden left Chicoutimi on Sunday for Quebec, with a cargo of pulp.

The work of repairing the damaged caissons of the Quebec Bridge has been commenced in the Graving Dock.

Water and Whisky

The delightful flavor of "Old Orkney" Whisky is due much to the pure water used in distilling it.

Just as champagne owes its flavor to the peculiar conditions of soil and climate under which the grapes are grown, so "Old Orkney" Whisky owes much of its superiority to the pure water springing from the heather-clad hills of Orkney.

We can honestly guarantee "Old Orkney" because we always hold a 10 years supply in our bonded warehouses and bottle every drop of it ourselves.

NEW CHEMICAL IS DEATH TO GERMS

Minnesota Professor's Discoveries Promises to Make Science's Warfare Simple Task

St. Paul, Minn., Oct. 22.—Professor H. C. Carol, of the University of Minnesota, for many years head of the department of medical chemistry and toxicology and chemist to the Minnesota State Board of Health, has discovered a chemical that will revolutionize the warfare upon germ life, arch enemy of the human system, and bring success in cases where the physician heretofore has been baffled.

Professor Carol has had exhaustive tests made by leading bacteriologists, and their reports have more than borne out his assertions.

The new chemical, which he calls benetol, is eight times as strong as carbolic acid, and yet is not a poison. Never before have physicians been able to give doses of any disinfectant in sufficient strength to kill germs.

Professor Carol, in speaking of the new chemical, said:—

"I am so confident in benetol that I am willing to submit myself to cholera infection to prove that it can be successfully treated with my discovery. It may be difficult for the lay mind to realize the great benefits of a powerful germicide which can be taken internally. It means that internal infection can be arrested just as effectually by its use as external infection has been in the past by the old agents."

"As a further illustration in another way, suppose a soldier, parched with thirst after a battle, came upon a pool of stagnant water, in which the deadly typhus germ was present by millions. He might dip his cup full of that germ poison and by adding one drop of this new chemical that water would become harmless and would instantly change from a germ poison to a beneficial medicated drink."

KEEPING STRICT WATCH ON CHOLERA SUSPECTS.

New York, Oct. 24.—The steamship Taormina, from Genoa and Naples, which has been detained at quarantine since last Saturday because of the death of a woman from cholera at sea, was released this afternoon and proceeded to Philadelphia. The steamship Irisbrook, from Huelva, which has been under inspection since Saturday, was also released.

NATIONALE HAS FINE DRAMA

French Stock Company Won Another Success in "La Beaute du Diable."

OPENING OF MINIATURE RANGE

Will Take Place Early in November in the Drill Hall.

"La Beaute du Diable," a drama by Jules Mary and Emile Rochard, which won an important success in France, is the bill for the present week at the Theatre Nationale, and it was witnessed last night by a large and well-pleased audience.

With the return of the long autumn and winter evenings, when time hangs heavily on the hands of the young men and boys of the city, the Quebec Miniature Rifle Club comes forward to provide a wholesome place of recreation.

DYNAMITE FOUND

A stick of dynamite was found yesterday morning by Constable Levesque, of the Levis police, under a building owned by Captain A. Bourget, at Bienville.

RECORDER'S COURT

Seven prisoners charged with being drunk appeared before the Recorder yesterday. Two were fined \$10 and costs, or fifteen days' jail each; three \$2 and costs or eight days each, and two \$3 and \$5 respectively or eight days.

MATERIAL SOLD

The old No. 2 police station in Montcalm ward, having been abandoned, the material composing it was sold by auction yesterday morning in the City Hall and adjudged to Sergeant Letarte, of the city police, for the sum of \$52.

COURT OF SESSIONS

Frank Murphy, suspected of being connected with the bank robbery at St. Pacome, appeared before the Court of Sessions yesterday and was remanded until the 2nd of November for preliminary investigation.

MR. BISHOP'S ORGAN RECITAL

The following is the programme of the recital to be given by Mr. Bishop at the Cathedral of the Holy Trinity this (Tuesday) evening at 8.15 o'clock: Allegro (1st concerto).....Handel Largo (symphony in G).....Haydn Prelude and Fugue in G Minor.....Bach Scherzo in F.....Guilmant Offertoire.....Barnett Autumn Song.....Reed March.....Gounod

INTERESTING DEBATE AT METHODIST CHURCH

A very interesting and instructive debate was held in the Methodist Church parlor last evening. The subject under discussion was a live one of the day, "Emigration of Asiatics to the Dominion of Canada"—and was handled in a very satisfactory manner by Messrs. E. Silver and F. Wilson, Messrs. D. Jackson and Allingham, Rev. Mr. Cobbleddick's criticism of the debate was much appreciated by the large number present.

WISE WORDS. A Physician on Food.

A physician of Portland, Oregon, has views about food. He says: "I have always believed that the duty of the physician does not cease with treating the sick, but that we owe it to humanity to teach them how to protect their health, especially by hygienic and dietetic laws.

NEW-FIRE ALARM SYSTEM.

Mr. Beugin, Superintendent of the Fire Alarm System, will commence this evening installing the new Cole Key Guards to replace the old fire alarm box system, where keys were placed in residences near the fire boxes.

ORGAN RECITAL AT CATHEDRAL.

An organ recital will be given at the English Cathedral this evening by the accomplished master, Mr. E. A. Bishop, the programme of which will be found in another column. Many Quebecers do not realize that they have in their midst the finest organist in the Dominion, if not on this continent, and it is hoped the public will not miss an opportunity, so rarely offered, of hearing a perfect interpretation of the cho masters.

Would You Enjoy Vigorous Old Age?

Then use Duffy's Pure Malt Whiskey. It brings health and strength to every one along life's pathway. It aids digestion, stimulates and enriches the blood, invigorates the brain, builds nerve tissue, tones up the heart, fortifies the system against disease germs, makes the old feel young and prolongs life.

Mr. A. H. Jordan, of Cuba, N. Y., has lived a strenuous life, but he is strong, vigorous and active at 4 years of age. Recently he wrote: "I use Duffy's Pure Malt Whiskey regularly and think there is no better medicine for old people in their declining age. A few months ago there was published a little history of my early life as the oldest man now living in the town of Cuba, N. Y. I have lived a strenuous life, in earlier days following the river on lumber to Pittsburg and Cincinnati and hunting all over the northern part of Pennsylvania."

All druggists, grocers and liquor merchants, or direct, \$1.25 per large bottle. Write for free medical booklet and doctor's advice.

The Duffy Malt Whiskey Co., Rochester, N. Y.

GRAND MERE AND QUEBEC

May Play a Sudden Death Game in Montreal Thanksgiving Day.

The decision of this section of the Rugby Football Union may be decided in a sudden death game on the morning of Thanksgiving Day in Montreal. The inability of the Grand Mere team to meet the Quebecers here last Saturday, which was referred to the Union, was discussed at a meeting and it was recommended that an arrangement be made if possible for such a game.

The Quebec club expect a visit from the McGill intermediates on the 5th of November.

There will be a full practice on the Q.A.A. grounds this afternoon at four o'clock when all the players are expected to be on hand. There should be no relaxing in the practice as a couple of very important matches will be played.

MEET ME AT THE CHATEAU.

Since the opening of the new tea room and lounge in the Empire Dining room at the Chateau Frontenac, on Monday last, it is needless to say that this new innovation has found great favor with the public of Quebec, if we are to judge by the large attendance, both in the afternoons and evenings. On Monday last over 75 guests were served with tea in the afternoon, making a very brilliant opening for the first day. The decorations and cozy appearance of this apartment with a blazing grate fire at one end, comfortable chairs, Turkish rugs, handsome chandeliers, candelabras, and small tables laden with flowers, together with the entire repainting of the room, has made it one of the most attractive social rooms in any hotel in Canada. The management of the Chateau is to be congratulated upon making this move in Quebec, and it is not difficult to foresee the success which it will have before the season is out. It provides Quebec with another afternoon and evening attraction, where tea or other refreshments can be secured in the hearing of a most entertaining musical concert, rendered by the Chateau's orchestra, under the direction of Mr. Herbert Spencer. Mr. Quirk, who had charge of the Empire dining room during the summer months, is in charge, with a polite and obliging staff of waiters and everything possible will be done to add to the comfort of the patrons of the tea room. This is not the only new innovation which the management of the Chateau has made for the winter months. They have turned the Red Room, commonly known as the ladies' waiting room, on the right of the main entrance, into a cafe, which is open from noon until midnight. Here, everything is served a la carte, from a menu filled with all the delicacies of the season and the best that can be found in the way of Restaurant Supplies.

FOR YOU.

My Dear Patrons: Our programme for to-day pleased crowded houses all day yesterday, and why should it not? The favorite subject being a very cute comedy entitled "Summer Time," by the Imp Co. Then we have "Hank and Hank," "Curing a Masher," and "The Emigrant," all being good comedies. "The Mighty Hand," and the "Law of Honor," both good and excellent dramas. And we take you on a trip (in imagination) from Paris to St. Germain. Mr. Gilbert Lamont having recovered his recent indisposition is back again in good form and wins much applause with "Good-bye Betty Brown." I'd just like to remind you that there are only a few tickets left for the dramatic recital of Tennyson's "Becket," being given here on Nov. 3rd, and if you intend coming it would be as well to book your seats now. Why not come up to the show this very day and get your Becket ticket at the same time.

Yours very sincerely, Nickel Theatre Co.

THE N.Y. DRIVERS' EXAMINATION

Questions Chauffeurs Have to Answer Before They Get Their License.

Thousands of chauffeurs have been compelled to take the examination in New York State under the Callan law. Men well known in the automobile racing game were forced to appear just the same as the ordinary chauffeur. All who applied sent in beforehand a photograph, and before writing on the examination the photograph was compared with the original. A few Jews and many Italians and negroes were included. Foreigners who did not understand English were put through a road test. The examinations lasted several days, and one morning a New York paper printed the questions. A new set was then made out.

The questions were divided into three classes, semi-mechanical, traffic rules, and automobile law. For Canadians who are curious as to whether they could qualify under the New York test, one set of questions is appended:—

1. If the gasoline motor could not pull the car up a hill on the high speed gear, what would you do?
2. Name all the parts of an automobile that should be lubricated, and state whether oil or grease is used.
3. Name several conditions which will cause an engine to knock or pound.
4. If you are driving on the road and wish to pass a vehicle moving in the same direction, on which side of the vehicle would you pass? Answer "right" or "left."
5. What would you do if a car while proceeding directly in front suddenly swung around in your course?
6. In the event that the vehicle was coming toward you on the highway, what precaution would you take?
7. What is meant by one blast of a traffic police whistle at street crossings in Greater New York?
8. Under the traffic regulations of Greater New York, what vehicles have the right of way?
9. What precautions would you take in approaching a cross road outside of a city or village?
10. How often do you consider it necessary to examine the brakes of an automobile?
11. If you wish to stop your car, and the foot brake does not hold, what would you do?
12. What automobile equipment is required under the new motor vehicle law?
13. What would be the position of the controlling speed lever of an automobile before attempting to start the motor?
14. "John Smith," a duly licensed chauffeur, operating a car under the new motor vehicle law, is accompanied by a friend. May the friend drive the car?
15. What are you required to do under the new motor vehicle law, when meeting a horse or other animals on the highway, that appear frightened?

TWO MORE TURKISH "LEMONS" ARRIVE

Antonio Pierri, Wrestler, After Hackenschmidt and Gotch—Annual Circus.

New York, Oct. 24.—Antonio Pierri and his two "Turkish Lions," Yussif Mahmout and Hali Osman, arrived here this week. Pierri is bent on matching his charges against George Hackenschmidt, the "Russian Lion," and Frank Gotch, America's champion.

Pierri said he will deposit \$1,000 guarantee that Mahmout will defeat Gotch and the same amount that Mahmout will throw Hackenschmidt twice in one hour. He will insist, though, that the bouts be catch-as-catch-can style.

"Hackenschmidt is an actor," he said. "He doesn't know how to wrestle. He is a star at the Graeco-Roman style, but that is merely show stuff. He knows nothing about out-and-out wrestling. His long suit, is giving theatrical exhibitions.

"Gotch is a great wrestler. He can defeat Hackenschmidt without half trying, and no one knows that better than does the Russian. For that reason they will never meet in a fair match. I think so much more of the ability of Gotch than I do of Hack. That I will give the American no concessions. He must meet my man on even terms. Then, if he wins, I will say he is the world's greatest wrestler."

After Pierri had discussed the relative merits of his champion and the other claimants of the world's title, he told how Hackenschmidt, Zbysco, Lemm, and Gama evaded him in England. He said:

"While passing through London on my way to Turkey from America last May the managers of all four of these wrestlers insisted that they have a chance to meet my man. I refused at the time, but promised to return in September and take on one or all of them. I kept my word, and reached London in September and immediately posted \$1,000 to bind a match with any of them. Despite a clamor for the sporting public of London for a match, all four evaded me for four weeks, and then skipped out of town. "Hackenschmidt is coming to this country next month. He has already signed a contract to make an American tour, and when he arrives here I'll be ready to match Mahmout against him."

LACROSSE PLAYER SHOT IN THE LEG.

Montreal, Oct. 24.—Andy Hamilton, a player of the Montreal lacrosse team, was shot in the leg during a row in Windsor street early Saturday evening. He happened to be passing down the street when a fight was in progress between Ferd. Duchesne, an usher in the Bijou Dream Moving Picture Show, 1114 Windsor street, and a young Scotchman, under the influence of liquor, who had been ejected from the place, when a shot was fired and the bullet embedded itself in Hamilton's right leg, just above the ankle. He fell to the sidewalk and when it was realized what had happened he was carried into the Vancouver Hotel. An ambulance was called from the Royal Victoria Hospital. At the hospital it was found the wound was not serious, and after the bullet had been extracted he was able to return to his home, 38 Walker avenue.

It is not thought the shot will affect Hamilton's lacrosse playing, as he was able to hobble around yesterday. He was unlucky in regard to accidents, and has frequently sustained injuries on the lacrosse and football field. One of his team mates remarked yesterday, that if a brick or stone is thrown in any part of the city, Andy Hamilton would be around for it to fall on him.

OLYMPIC GAMES FOR YEAR 1912

Tentative Program Has Been Issued by Officers—Five Mile Race Added.

A copy of the tentative programme arranged by the international committee for the Olympic games of 1912 has been received from England.

Some of the track events seen on the London programme two years ago have been omitted and new ones put on instead. Those left out are the 200 metres flat and the 400 metres hurdles, and a new one is a five-mile cross-country race. The discus will be thrown three ways, that is, free style with one hand and the free style with the right and left hands, and from the pedestal "as at Athens." The javelin will be thrown two ways, that is, with one hand and the right and left hands. The javelin will have to be grasped in the middle. There will be two "all-around" contests. One will be as at Athens in 1906, made up of five events, and the other will include ten events.

The programme as it now stands is as follows:—

Foot racing—100 metres flat, 400 metres flat, 800 metres flat, 1,500 metres flat, 5,000 metres flat, 10,000 metres flat, Marathon race (40,000 metres), hurdle race (110 metres), 10,000 metres walk, five-mile cross-country race.

Team races—Relay race, 1,600 metres (teams of four, each to run 400 metres); relay race, 3,600 metres (five to run, three to count).

Jumping—Standing high jump, standing broad jump, running high jump, running broad jump, hop, step and jump, pole jump.

Throwing and putting—Discus (free style), best hand; discus (free style), right and left hand; discus (as at Athens); javelin, best hand; javelin, right and left hand; putting the weight, best hand; putting the weight, right and left hands; throwing the hammer.

Tug-of-war.

All around contests—Pentathlon; broad jump, discus, javelin, 200 metres run, 1,500 metres run.

Points to score according to place in each event; lowest points to win.

Decathlon; first day, 100 metres run, 400 metres run, broad jump, putting the weight, high jump; second day, 100 metres hurdle race, discus, pole jump, javelin metres run.

A WELL MERITED REWARD.

A few days ago Corp. A. J. McCusker and Pte. C. Knowles, two popular employees of the Ross Rifle Co., were the happy recipients of Mark IV. rifles, presented by their fellow workmen in the factory. No doubt they will keep up the good work started with the Mark II.

MONTE CARLO HAS HAD ITS REVOLUTION

Monte Carlo, Oct. 24.—Little Monaco has just had its revolution. Its absolute machinery is abolished and the will of the people prevails.

The transformation was so peaceful that the reigning prince, who still holds his title and is the figurehead of government, didn't deem it necessary to curtail his autumn visit in Paris in order to be with his "sovereign subjects" on this auspicious occasion. The announcement was made by Monsieur Deloth, the Mayor of Monte Carlo, acting by the authority of the heir apparent, Prince Louis, and by M. Jaoulstre, the chief of the reigning prince's Cabinet, who had received the decree in Paris.

The people marched in a procession through the streets shouting "Vive la liberte," but the visitors, not aware that they were in the midst of a revolution, continued their gaming.

A committee has been appointed to study reorganization of government and mode of electing a council to manage the principality's affairs. But the Casino authorities will be all powerful in the new regime, as they were in the old one, so they regard the revolution with complacency.

KETCHEL EARNED \$100,000 IN THE RING.

Grand Rapids, Mich., Oct. 24.—In the probate court to-day, Julia Ketchel, mother of Stanley Ketchel, champion middleweight pugilist, who was killed in Missouri, filed application for appointment of James A. Lombard, of this city, as administrator of her dead son's estate. According to the petition the estate is valued at \$18,000, of which \$3,000 is in real estate and \$15,000 in personal property. Ketchel is said to have earned about \$100,000 in the ring.

Fall and Winter—1910
Suit and Overcoat Styles

Never before in the history of Fashion-Craft has the selection been so varied or complete. Each individual taste can be exercised and suited, from the magnificent assortment shown. Values, owing to largely increased output, better than ever. Prices \$15 up,—difference in price denotes difference in material. Workmanship always the same.

CAPTAIN STUCK TO SINKING VESSEL 200 PEOPLE WERE DROWNED

Declined to Leave His Ship While Crew Implored Him to Seek Safety.

New York, Oct. 24.—Seven sailors, rescued from the sinking four-masted schooner Holliswood, lumber laden, from New Orleans for New York, were brought into Perth Amboy, N. J., to-day by the Norwegian steamship Harald, commanded by Captain E. A. Berg. Captain E. B. Wells, of the ill-fated schooner, declined to desert his ship and has in all probability been drowned in the Atlantic.

"I'll stick to her, boys," said Captain Wells to some of the crew members who wanted to remain with him on the half-filled and slowly sinking schooner. The Holliswood was overtaken by a storm on October 13. Captain Wells ordered the four masts cut down. The storm continued and the crew threw overboard some of the lumber.

The water continued to pour into the hold despite the efforts of the crew, and after three days they were beginning to despair of their lives when the steamship Harald hove in sight and sent a boat to take them off. The Holliswood was half filled with water when the rescue was made. One by one the crew of the sinking schooner, who implored the Captain to abandon the vessel, took farewell of their commander, and climbed aboard the lifeboat and were rowed to the Harald.

ATTELL GOT DECISION OVER KILBANE.

Kansas City, Mo., Oct. 24.—Abe AtteLL to-night got the decision over Kilbane in the 10th round.

REPORTED ILLNESS OF THE POPE UNFOUNDED.

Rome, Oct. 24.—A report was current to-day that the Pope was indisposed from an attack of the gout. This is declared to be unfounded. His Holiness held his usual receptions to-day.

STUDENTS AFFLICTED WITH PECULIAR EYE MALADY.

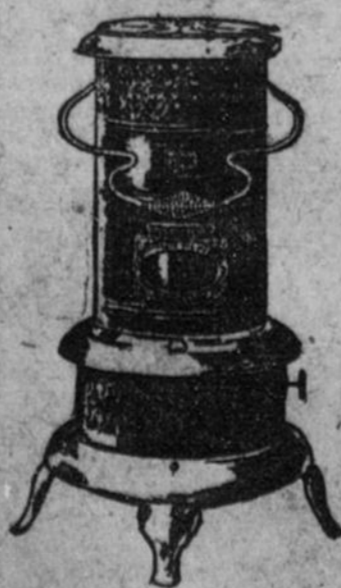

Hartford, Conn., Oct. 24.—Inflicted with a peculiar form of eye malady, which the specialists have not been able to diagnose, nine Trinity College students, members of the Psi-Upsilon fraternity, are under quarantine in the house of that society, and many other members of the chapter, some of whom room at the fraternity and have been allowed to take their meals there, are without a home temporarily. The disease was at first thought to be the ordinary "pink eye," which appeared at the college a year or two ago, but the physicians, while deciding against this designation, have not determined the exact nature of the disease. It has, however, been classed as some form of conjunctivitis, and the quarantine was declared to prevent its possible spread through the college.

FIGHTING WILL BE ON GULF OF MEXICO.

New Orleans, La., Oct. 24.—Secretary of the Navy George Von L. Meyer, who is here on a tour of inspection of United States naval stations, to-day said he could see no great reason for a naval base at New Orleans. "If there is ever to be any fighting it will be on the Gulf of Mexico," he said, "but will be around the entrance of the Panama canal. Of course, none of us anticipates a conflict, but if it should come the canal will be the place which will need fortifying."

Turn a Draught to Good Account

Often in winter you dare not open a window, even though the room be warm, because the cold air makes a draught that is dangerous. With a Perfection Oil Heater there need be no danger from draughts.

Open the lower part of the window a little, put the Perfection Oil Heater in front of it, and the cold draught will be turned into a pleasant, healthful current of fresh air. The

PERFECTION OIL HEATER

Absolutely smokeless and odorless

gives just as much heat as you desire. It is safe, odorless and smokeless. Has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove to clean and drop back. Burner body or gallery cannot become wedged, because of a new device therefor; it can be easily and quickly unscrewed for reworking.

An indicator shows the amount of oil in the font. Has a cool handle. Filler-cap is put in place like a cork in a bottle, and is attached to the font by a chain. Finished in Japan or nickel, strong and durable, well-made, built for service, and yet light and ornamental.

Dealers everywhere. If not at yours, write for descriptive circular to the nearest agency of the

The Imperial Oil Company, Limited.

Terrible Tidal Wave Sweeps Over Italian Island, Doing Fearful Damage.

Rome, Oct. 24.—The Ministry of the Interior this evening received news of a tidal wave at Casamicciola, on the island of Ischia, that drowned 200 persons. Communication with the island has been interrupted, and verification of the report is impossible.

The Ministry of the Interior has ordered four men of war to hurry to Pozzouli, at the foot of Mount Epomeo. It was nearly destroyed by an earthquake in July, 1883, when about 1,700 lives were lost. It has since been rebuilt and has a population of about 4,000.

LOCKED UP IN HOUSE; GIRL BURNED TO DEATH

New York, Oct. 24.—A three-year-old girl, looked up in a Mott street tenement with her baby sister, set her dress afire while playing with matches to-day. The screams of the children alarmed the women neighbors, but they were not strong enough to force the door and the children could not open it. One woman finally crawled out along the fire escape and entered through a window. She found the little girl ablaze, and she died before help reached her. The baby was not burned.

Their father, Michael De Luca, is locked up in the Port Chester jail charged with larceny. The mother is obliged to work, and their aged grandmother left the little ones to go in search of food.

WHEN AILING ASK YOUR NEIGHBORS

That's How Magnus Johnson Got Relief From Kidney Troubles.

They Told Him to Use Dodd's Kidney Pills—He Did and His Backache and Other Sickness Speedily Vanished.

Lac La Poudre, Alta., Oct. 24.—(Special.)—If you have Kidney trouble of any kind, from Bachache to Bright's Disease, and don't know how to cure it, ask your neighbors. They'll tell you to use Dodd's Kidney Pills. Such is the experience of Magnus Johnson, a well known farmer residing near here. In an interview Mr. Johnson says:

"In the year 1907 I took a pain in my back, due to a strain and hard work. I kept getting worse. In the fall of 1908 I was unable to do any hard work, and I began to suffer a great deal. I did not know what to do, and told one of my neighbors. He handed me a Dodd's Almanac. After reading it I concluded to try Dodd's Kidney Pills, and after using five boxes I feel fine and able to do any kind of hard work. Dodd's Kidney Pills cured my Kidneys, and I cannot praise them too much."

You don't experiment when you use Dodd's Kidney Pills. They have cured the Kidney ills of thousands of people all over Canada. If you have Kidney Disease in any form they will cure you.

DRESS GOODS SALE.

Marceau & Co.'s big dress goods sale, which started yesterday, proved a grand success. The values offered are without doubt an exceptional opportunity, and we would advise all who wish to procure a real bargain in dress goods that are worth nearly double the price asked to call at the popular store to-day. See advertisement appearing in another column.

Tuckett's Cigarettes

Be Particular in Your Smoking

Don't be satisfied with a cigarette brand just because you have smoked it for years.

Try another—
Try Tuckett's CLUB.

It is not a question of affording the best—the serious cigarette problem is: "Can you afford not to smoke the best?"

Made from the finest selected tobacco, and blended carefully and honestly—to produce that mellow flavor and fragrant aroma demanded by epicurean smokers.

SEARCH FOR MISSING BALLOON
Relief Expedition to Locate America II—Delegates Now in Ottawa

Ottawa, Oct. 24.—To direct operations in the search for the missing balloon America II, Mr. Edmond Stratton and Mr. E. Hawley, of the Aero Club of New York, arrived in Ottawa to-night. They bear letters of introduction to Earl Grey and credentials from the President of the Club and have mapped out a plan of receiving here all reports of the missing balloon. A relief expedition will if necessary be organized and the co-operation of government officials obtained in an endeavor to locate the only missing contestant in the spectacular race. Mr. Stratton is most hopeful of finding the aeronauts, who are hardy men and capable of standing a considerable degree of hardship. He received many messages last night, but none definitely locating the America. Mr. Hawley is a brother of one of the aeronauts in the balloon.
St. Louis, Oct. 24.—If Allan B. Hawley and Augustus Post and their balloon America II are not reported by Wednesday morning, S. L. Louis Von Phul, the representative of the Aero Club of St. Louis will attempt to find them with the St. Louis III, it was announced to-night. This plan was decided upon at a meeting to-day of Governors of the Aero Club of St. Louis. Von Phul will take with him J. M. O'Reilly, his aide in the international race, and go to Sault Ste. Marie, where his balloon will be inflated and sent north to the part of Canada where Hawley and Post are now supposed to be. The rescue party will take along a month's provisions and a collapsible canoe.
Toronto, Oct. 24.—Louis Spindler, who left St. Louis on behalf of the Aero Club to conduct a search for the missing balloon America II, is in Toronto, from where he will direct operations for the recovery of the missing aeronauts, Allan Hawley and Augustus Post. To-day he called upon the Hon. J. M. Gibson, the Lieut.-Governor, who was requested by the Club on Saturday to direct the provincial officials in the north to keep a watch for the missing men and their balloon, which is valued at \$5,000. Mr. Spindler later in the day got in touch with Superintendent Joseph E. Rogers, of the Provincial Police. Mr. Rogers has already notified his men in the north to be on the look-out. It is his opinion that the America II, has alighted on the Quebec side and may be rescued by Hudson Bay men.

SECULAR TEACHING IN PORTUGUESE SCHOOLS.
Lisbon, Oct. 24.—The secularization of the schools involves the replacement of religious instruction therein by systematic teaching of individual and civic morality. This is strongly favored by the reformers heading the government, who argue that the greatest peril to the young republic would be passed if they succeeded in educating the children so that they would apply the same honesty to political as to private life. It has been decided to suppress the faculty of theology at the University of Coimbra and abolish the taking of oaths by students and professors. The Portuguese Embassy to the Vatican has been reduced to a legation.

CHICAGO PLAYERS GOT THEIR'S YESTERDAY.
Chicago, Oct. 24.—The only consolation Manager Chance, of the National Baseball Club, and his fellow players got out of the world's series was from the divisions of the receipts, which took place to-day. Each player carried away a cheque for \$1,315. Secretary Williams and Trainer Simmons were voted full shares of the "melon." A fine of \$50, assessed against Chance for disputing a decision, was found to have been added to his expulsion from the grounds during Thursday's game. This was paid from the loser's share before the money was divided.

VAST IMPORTANCE OF GREAT NORTHWEST FORESTS.
Calgary, Alta., Oct. 24.—R. H. Campbell, Dominion Forestry Department, addressed the Canadian Club here on the vast importance to Alberta, of the Prairie Provinces and to the Dominion of the great forests located within her borders. "Educate the people not to throw matches and lighted cigars around. Place good fire patrols around, make fire breaks or lanes through forests as they do in Europe," were some of his suggestions. The rocky mountains with their timber were a great asset to the country. There was immense mineral wealth in the mountains, and the forests were needed to develop these. Requirements for wood as fuel and lumber were increasing rapidly. It was estimated there were 22 1/2 billion tons of coal in the eastern section of the Rockies, and large grazing areas in the Rockies. There was immense water power also. Forest reservations should be set aside. There was no more important question than the development and preservation of the national resources, and the forests were one of the greatest of national resources.

C.P.R. READY MADE FARMS POPULAR.
Calgary, Alta., Oct. 24.—The Earl of Harrowby, accompanied by his wife and son, who are making a tour around the world, were guests of the C.P.R. in Calgary on Saturday. The Earl is deeply interested in the ready-made farm scheme and may possibly establish a colony similar to that established by the Duke of Sutherland here. He will address the Canadian Club here.

Eczema on Leg for 25 Years
I have been treated by doctors for twenty-five years for a bad case of eczema on my leg. They did their best, but failed to cure it. My own doctor had advised me to have my leg cut off, but I said I would try the Cuticura Remedies first. He said, "try them if you like but I do not think they will do any good." At this time my leg was peeling from the knee down, my foot was like a piece of raw flesh and I had to walk on crutches. I bought a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent. After the first two treatments the swelling went down and in two months' use of the Cuticura Remedies my leg was cured and the new skin grown on. The doctor could not believe his own eyes when he saw that Cuticura had cured me and said that he would use Cuticura for his own patients. But for the Cuticura Remedies I might have lost my life. I am truly grateful for the wonderful cure that Cuticura wrought. I have many grandchildren and they are frequent users of Cuticura and I always recommend it most highly as a sure and economical cure for skin troubles.

DAMAGE BY GREAT HURRICANE IN ITALY.
Naples, Oct. 24.—The Island of Ischia, in the Mediterranean Sea, sixteen miles southwest of the city of Naples, has been storm-swept. First reports reaching here [given elsewhere in this issue] gave a very considerable loss of life from a tidal wave, but the latest reports indicate that the victims are few. Communication with the island is difficult, but brief dispatches from Casamicciola say that it is believed that some persons were killed by the collapse of houses. The body of only a woman has so far been recovered. Naples suffered from a furious storm of wind and rain last night and all today, the damage amounting to millions. Every section of the city bears the marks of the gale, and the suburbs were even more seriously affected, several persons being killed. The surrounding country has been devastated. An avalanche of stones and mud rushed down Mount Vesuvius, sweeping all before it as far as the town of Portici. It wrecked the train line and engulfed nearly a score of victims.
Up to the present there is no confirmation of the report that Ischia suffered from a tidal wave or a seismic disturbance. It was in the direct path of the hurricane which toppled over the houses in Casamicciola and other villages. While it is believed that there are some bodies under the debris, the slimy nature of the structures probably permitted most of the occupants to escape death or serious injury. There is much anxiety here, however, as many residents of Naples went to Ischia to escape the cholera.
The hurricane caused much destruction along the coast of the province of Salerno. The town of Cotara, on the gulf of Salerno, is reported to have been destroyed. Twelve bodies have been taken from the wrecked houses and there are many injured. Amalfi and Sorrento also suffered considerably. The reports place the list of dead in the storm zone as high as 200.

Sectional Filing Cabinets
Filing cabinets made in sections have come into such general use that, as with our sectional bookcases, the principle needs no extended description. The modern business office demands expansive equipment that will always harmonize with the original purchase.
Our filing devices offer a complete variety to select from—Vertical Letter Files, Card Index Files, Document Files, Check Files, Legal Blank Files, cap size, Vertical Files, Report Files, Catalogue Files, Insurance Files, etc.
We sell equipment suitable for any system in any business, and we furnish a higher class of equipment at lower prices than the so-called system experts who, to introduce their methods, often neglect the important question of construction, quality and utility.

TO ESCAPE THE BEEF TRUST
New Zealand May Nationalize the Meat Industry—News from the Capital.
Ottawa, Oct. 24.—In a report to the Department of Trade and Commerce, Mr. W. A. Beddoe, Canadian Trade Commissioner for New Zealand, says that the New Zealand Government is considering the advisability of the nationalization of the meat business, in order to head off the rumored control of business by the American Beef Trust.
From Manchester, England, comes the report that during the past three years exports of flour from the United States to Great Britain have decreased by 120 per cent, while exports from Canada have increased by 120 per cent.
A great gush of natural gas was struck half a mile east of Carlisle Springs, on the farm of M. M. Collins. Drilling for oil has been carried on there for some time, and a depth of 700 feet was reached when the gas was struck. It flowed from the rock with such great force that work had to be suspended. After running out for several hours it lost its force considerably.
James Wadsworth, of Daly avenue, a member of Sheriff Wright's hunting party, was brought to the city this morning from Ox Lake, in the Gattineau district, severely burned about the body, as the result of a lantern exploding at the camp last night. The patient was brought from Gracefield to the Protestant General Hospital. His burns are very serious and he is likely to lose his sight.

THE CHRONICLE
The Greatest SINGLE FORCE
In the Development of Quebec Advertising
Local advertisers know that "The Chronicle" is Quebec's daily shopping guide; many general advertisers recognize that through the employment of its columns they can reach more Quebec families and at a lower cost per thousand than through any other English medium, in the province of Quebec outside of Montreal.
The force of "The Chronicle," however, does not lie alone in the numerical strength of its circulation, superior as that is, but in the liking Quebecers have for it—a preferential attitude which makes it the great family newspaper of Quebec.
Manufacturers and Merchants desirous of having their goods used in most Quebec and nearby homes and by the people who reside therein, can readily accomplish this through "The Chronicle". If you wish our ad man will call on you. His phone is 45.

A BIG BLAZE THIS MORNING
Just as the Chronicle was going to press this morning a lurid reflection was visible in the sky of a big fire, which seemed to be raging in the direction of Cap Rouge. No information regarding the fire could be ascertained.

FOR THE FORTHCOMING WINTER.
If you want to see nice foreign furs and good stylish finish do not fail to go to Myrand & Pouliot's store during this week. They are running a special exhibition in the fur department which is the most complete in the city.

"HIS MASTERPIECE," SAYS TITO RICORDI.
Rome, Oct. 24.—Tito Ricordi, one of Italy's foremost musicians, is spending a couple of days here, and the World correspondent took occasion to interview him about Puccini's new opera, "The Girl of the Golden West," which is to be produced at the Metropolitan Opera House in New York next month. "I may safely assert," said Ricordi, "that New York will be enthusiastic over this latest production of Puccini's genius. I have no hesitation in proclaiming it to be his masterpiece."

Commercial News

NEW YORK STOCK MARKET

By Private wire to McDonald, Lepage & Co., Hochelaga Bank Building—
New York, Oct. 24—The speculation in stocks showed a disposition to adopt a waiting attitude with increasing weakness during the day, pending the working out of developments in the money market abroad and the confirmation of reports on which the recent advance in stocks was based. The most influential of these reports have centered about steel trade matters. The statement look explicit form to-day that steel trade authorities have received advices that the Inter-State Commerce Commission will permit the various roads to advance traffic one-half of the rates proposed. The fact that the hearings in the rate cases have not been completed made this assertion seem untimely. The effect was to arouse suspicion in the speculation, where confidence had been shown before. Doubts were aroused over the recently heard claims that the government authorities were to report favorably upon the status of the United States Steel Corporation. Some apprehension was felt over the effect in Congress of facts said to have been secured by the bureau of corporations of the allotment of steel rail production by an international pool of steel rail manufacturers. The course of money and exchange rates did not offer very striking developments, but the belief that higher money rates were probable held stock market operations in check. An early advance occurred in foreign exchange rates here. The price of copper was lower in London. The sustained production for September announced to-day by the Utah Copper Company affected conditions in the reported agreement for entralment amongst the principal producers. Bonds were steady. Total sales, par value, \$2,029,000. U. S. bonds were unchanged on call.

Cornier, Ernest Boivin, Chicoutimi; Mme. Alfred Cote, Henri Simard, Baie St. Paul; Jos. Hamel, Fraserville; B. E. Work, J. H. Work, Leeds; S. W. Moore, Inverness.

DEATH OF MRS. P. B. MURPHY. Our obituary column this morning contains the death notice of Mrs. P. B. Murphy, one of the best known members of St. Patrick's congregation in this city, and wife of Mr. Murphy, of the firm of W. & J. Sharples. The deceased, who was the eldest daughter of the late Mr. John O'Leary, in his lifetime a well-known contractor of this city, has been ill for about a week, and her demise was due to heart failure. Mrs. Murphy leaves a husband and several daughters and sons, besides a large circle of friends, to mourn her death.

ANOTHER BIG BILL AT THE AUDITORIUM. Packed to the doors again was the Auditorium last evening, when another fine bill of moving pictures and vaudeville was offered. There is no falling off in the popularity of the Auditorium, and the specially fine bills which are being offered weekly are meeting with justly deserved recognition. The programme this week includes one act that is exceptionally strong and interesting, Richardson's performing dogs. This act is well worth seeing. The dogs are all well trained and do their different stunts in a manner that is very pleasing. The wind-up is sensational, when one of the little dogs climbs a vertical ladder as high as the proscenium arch and then takes a leap for life into a blanket below. There is also a musical act and a comedy act, both of which seemed to please the large audiences in attendance yesterday. The usual high-class order of pictures were also shown, and they embraced a number of extremely interesting subjects. The whole performance is one that cannot fail to prove most enjoyable to the most fastidious, and no more pleasant place to spend an hour can be found than the Auditorium.

SUDDEN DEATH OF STREET CAR EMPLOYEE. Albert Pelchat, an employee of the Quebec Railway, Light, Heat and Power Company, died suddenly after a few hours' illness yesterday morning. The deceased was well known in Quebec and was much esteemed by his fellow-employees. He was vice-president of the National Fraternity of Street Car Employees.

HAIL MERCHANTS OF THE PACIFIC

In Hong Kong on Their Way to Canton, Which City Prepares Notable Welcome.

Hong Kong, Oct. 24.—The delegates of the Pacific Coast Chambers of Commerce arrived here to-night. They have been enthusiastically, even rapturously, welcomed wherever they have been in China, and specially at the conferences and banquets at Chefoo, Poochow and Amoy. At the latter place magnificent decorations in honor of the American visitors had been arranged.

Mr. Robert Dollar said that although it had been made clear that the delegation was not of a political character it was hailed as the representative of a powerful nation seeking an alliance with China.

The Californians were deeply impressed with the staunchness and ability of the Chinese officials and business men.

To-morrow the mission proceeds to Canton, having chartered a steamer. There will be a reception by the Viceroy, a banquet by the Provincial Assembly and visits to the native factories.

The merchants' guilds have also prepared entertainments and trips on the railways to Peking and Sams-shai.

According to the present programme the party will start for home next Tuesday.

DEATH OF FAMOUS PASTOR OF FAMOUS CHURCH

Elmira, N. Y., Oct. 24.—The Revd. Annis Ford Eastman, with her husband, the Rev. Samuel E. Eastman, held the joint pastorate of the Park Church (Congregational), made famous by the late Rev. Thomas K. Beecher, died here yesterday from uraemic poisoning. Mrs. Eastman took great interest in the equal suffrage movement and was the first woman to be ordained to preach in the Congregational Church.

SOME OF THE BEST NEW YORK ATTRACTIONS.

Interesting to Visitors From Quebec. "The Twelve Pound Look," J. M. Barrie's forty-minute play, was written by him for Miss Ethel Barrymore as a compliment for her performance of his play, "Alice-Sit-by-the-Fire." Miss Barrymore will produce this play during her next engagement in New York.

Charles Frohman will present William Gillette's new comedy, "Electricity," in which Miss Marie Doré is appearing, at the Lyceum Theatre, New York, on Monday, October 31, when G. P. Huntley and Hattie Williams, in "Decorating Clementine," will give the first performance of the latter play in Brooklyn.

Charles Frohman's production of the musical comedy, "The Dollar Princess," which ran all last season at the Knickerbocker Theatre, New York, returned to the city of its first American presentation last week, at the New York Theatre. Donald Brian and the other favorites of the Knickerbocker Theatre cast reappear in their original parts. The company which is at present constituted contains some new faces, particularly the Misses Daisy Le May, Carroll McComas and Hilda Vining.

Arthur Conan Doyle, author of "The Speckled Band, an Adventure of Sherlock Holmes," which had its first American production at the Boston Theatre, Boston, last Monday night, is at once a physician, a novelist and a dramatist. Most people, even close readers of his novels, think Mr. Doyle is an Irishman, but as a matter of fact he was born in Edinburgh on May 22nd, 1859. His father was Charles Doyle, an artist, and his uncle was Richard Doyle, the famous caricaturist on London Punch.

A. E. Matthews, the English comedian whom Charles Frohman brought to America this season to play the principal part in "Love Among the Lions," says that in New York lately he saw the best performance and the best example of stage management he has ever seen in England or in America. But nothing could induce Mr. Matthews to divulge the name of the theatre that contained all three of these treasures of the stage. At present Mr. Matthews is busily engaged in rehearsals for an all-star revival of an old comedy which Charles Frohman will shortly produce on the scale of his presentation of "Caste" last season.

BRIEF NOTES OF DOMINION NEWS.

Dr. Allen O. Earle, K.C., one of New Brunswick's best known lawyers, is dead.

Alphonse Couture, 20 years old, is dead from an overdose of wood alcohol at Lake Megantic, Que.

A Sunday law test is in progress at St. Catharines, Ont., where two restaurant keepers have been summoned for selling cigars and candy on Sunday.

Lewis W. Mulholland, who died in Toronto Sept. 17th, left property worth \$62,700. He died intestate. Two brothers, five sisters and children of three deceased brothers and sisters divide the property.

A special train of 25 cars of copper ore passed over Quebec Central Railway from the Macdonald copper mine at Weedon. The shipment is made by the East Canada Smelting Co. and it goes to Wilmington, North Carolina. The ore is very rich.

An appeal to the Privy Council in defence of provincial rights for the granting of charters has been definitely decided upon, and at least Ontario and Quebec, with probably the seven other provinces will unite.

Mr. L. A. Bedard, St. Hyacinthe, is at the Victoria.

STOMACH DISTRESS SIMPLY VANISHES

Indigestion, Gas, Heartburn or Dyspepsia Go and You Will Feel Fine in Five Minutes.

If you had some Diapepsin handy and would take a little now your stomach distress or indigestion would vanish in five minutes and you would feel fine.

This harmless preparation will digest anything you eat and overcome a sour, out-of-order stomach before you realize it.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your Pharmacist for a 50-cent case of Page's Diapepsin and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and besides, there will be no undigested food left over in the stomach to poison your breath with nauseous odors.

Page's Diapepsin is certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is at any drug store waiting for you.

These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disturbance.

THE LATE DR. MACLAGAN.

Archbishop of York's Tribute. The Archbishop of York, preaching at York Minster yesterday morning, referred to the late Dr. MacLagan, and said that the basis of his work was spiritual. They had been told in the public notices, which reflected the surface impressions of contemporary opinion, that he had no great gifts of intellectual strength or power to move the great masses of men. It might have been so; he would have been the last man to claim such gifts.

The office of Bishop is primarily a pastoral office. The world with its usual shallow ignorance did not always remember this. It preferred the more showy gifts of eloquence and capacity in the world's affairs. But spiritual reality, spiritual care for the people, was after all, the true ideal of a Bishop. It was the ideal of Jesus Christ in His first communion: "Feed My Sheep." It was the ideal of our own Church, which in the great office for the consecration of Bishops lays no stress upon him as Prelate, but all stress upon him as pastor of his people. Dr. MacLagan's gift was faith. It was the faith of a scholar. For he was always a scholar in this most true sense of the word, that he put his mind to school in the great traditions of Christian theology, and the language of his sermons, Charges, and all the arrangements of Divine Service reflected the quiet exactitude of a mind which had disciplined itself against sentiment or self-will, or foolish craving for originality, and had ordered its thoughts in conformity with the high mysteries of the theology of the Church.—London Times.

A WONDERFUL DISCOVERY.

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound the wound is protected from poison. Not one species of microbe out of the thousands known has been found that can live in Zam-Buk! Its immediate application to a wound renders blood-poisoning an impossibility.

Then again, as soon as Zam-Buk is applied to a sore, or a cut, or a scratch, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should note this.

Again, as soon as this wonderful preparation is applied to a wound or to a diseased part, the microscopic cells beneath the skin's surface are so stimulated that they undergo rapid changes; and new healthy tissue is formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. It is just as if a mason, called to place good sound material at the foundation of the wall and then raise it up until the old damaged portion was no longer needed, and was thrown completely away. This is why the cures worked by Zam-Buk are permanent. They are real "foundation" cures.

Only the other day Mr. Marsh, of 101 Melromier Ave., Montreal, called upon the Zam-Buk Company and told them that for over twenty-five years he had been a martyr to eczema. His hands were so covered with sores that he had to sleep in gloves for several years! Four years ago Zam-Buk was introduced to him and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema! Zam-Buk cures are permanent. Is it in your home?
