 Orbisona,
 Pa.

American Engineers in England.
 LONDON, June 20.—The visiting American
 engineers left for Paris to-day. At
 Dover, where they embarked, they met
 with a cordial welcome from the citizens,
 and as they boarded the steamer the
 huzzas of the crowd were mingled with
 the huzzas of American national airs
 from a band provided for the purpose.
 Their reception throughout England can
 only be described as an ovation.

Toronto Law School—Masonic Lecture
 Toronto, Ont., June 20.—The appointment
 of Judge Strong as Principal of the
 Law School, may leave a vacancy on the
 Ontario Bench. R. T. Walker, of King-
 ston, is spoken of for the vacancy.
 J. Ross Robertson, Deputy Grand Mas-
 ter of the Grand Lodge of Canada, has
 finished his lecture tour to forty Masonic
 centres in different parts of his jurisdic-
 tion. The trip covered over 7,000 miles
 of railway travel, and over 4,000 mem-
 bers of the craft were present at meetings.

Torturing a Lunatic.
 CARTHAGE, Ill., June 19.—A young woman
 named Hannah Heitland has been work-
 ing for her brother in Quincy. She
 recently left her house and walked to her
 home in Tioga, a distance of 25 or 30 miles.
 She showed subsequently symptoms
 of insanity, and her parents, with other
 ignorant Germans of that vicinity, held
 a sort of incantation over the girl, stick-
 ing pins into her body to "drive away
 the evil spirit." The young woman be-
 came almost unconscious, and in this
 condition she was bound hand and foot,
 gagged and placed in a farm wagon,
 brought to Carthage and placed in a
 lively stable. Here she remained from
 noon yesterday until near midnight last
 night in an unconscious condition. The
 unfortunate creature was finally taken to
 jail, where a physician is trying to save
 her life. Pins were still found sticking
 in her person. A judicial investigation
 will be held.

Paine's Celery Compound
 Strengthens and builds up the old, and cures
 their infirmities. Rheumatism, indigestion and
 nervousness yield quickly to the curative power
 of Paine's Celery Compound.
 A Perfect Tonic and Invigorator, it
 CURES NEW LIFE.

"I am now 64 years old and have tried several
 remedies, but none had any effect until I used
 Paine's Celery Compound. I feel entirely dif-
 ferent for the short time I have used it. I can
 walk nearly straight, sleep sound and well, and
 feel as though there was new life and energy
 coming into my whole system."
 H. M. Lusk, Cleveland, Tenn.

Paine's Celery Compound is of unequalled
 value to women. It strengthens the nerves,
 regulates the liver and has wonderful power
 in curing the painful diseases with which wo-
 men so often silently suffer.
 41 per bottle. \$2 for 6. At Druggists.

Death of an Aged Priest.
 CHICAGO, Ill., June 20.—Rev. Father
 Joel Carroll, the oldest Catholic priest in the
 United States, aged 93 years, died at the
 Mercier Hospital, in this city, to-day.

Funeral of an Actor.
 BOSTON, Mass., June 20.—The funeral
 of late John Gilbert, the veteran actor,
 took place this afternoon from the Church
 of the Unity, this city.

No "Quid" Pro Quo.
 RICHMOND, Va., June 20.—Lawrence
 Lottier, plating tool manufacturer, assign-
 ing to-day with liabilities of \$47,000 and
 no assets stated.

The Fire Record.
 WOOLEN MILL IN FLAMES.
 WORCESTER, Mass., June 20.—Kent &
 Co.'s woolen mill at Janesville was dam-
 aged to the extent of \$20,000 by fire to-
 day. Insurance, \$17,000.

Death of a Confederate General.
 WASHINGTON, D. C., June 20.—Gen. A.
 C. Meyers, late Quartermaster General of
 the confederate army, died at his resi-
 dence, No. 1602 K street, in this city at
 6:20 a.m.

The Mayor Elect of Dublin.
 DUBLIN, June 20.—Mr. Winstanley, a
 Protestant, has been privately selected
 by the Home Rulers as their candidate
 for Mayor of Dublin. This is equivalent
 to an election.

No Use Denying It.
 LONDON, June 20.—The circular recently
 issued from Belgrade denying the reports
 about a Russo-Serbian military
 convention is given but little weight in
 London, and is not credited anywhere.

O'Donovan Rossa Arrested.
 NEW YORK, June 20.—Jeremiah Dono-
 van (O'Donovan Rossa) and Wilhelm
 Henrickson were arrested at noon to-day
 at the office of the United Irishman on a
 charge of criminal libel.

Debate on the Land Question.
 LONDON, June 20.—The debate on the
 Land Question, between Henry George
 and Samuel Smith, a member of the
 House of Commons, will come off at the
 rooms of the Liberal Club next Wednes-
 day.

**Relations between France and Ger-
 many.**
 LONDON, June 20.—The *Pesther Lloyd*
 to-day re-asserts that the relations be-
 tween Germany and Russia were
 strained, and says that it derives its in-
 formation from sources in Berlin which
 are absolutely unimpeachable.

The Boycotted Church.
 LONDON, June 20.—Father Crotty, of
 the boycotted church at Knockee, re-
 cently closed by order of Bishop O'Dwyer,
 has been given another parish near
 Croom, a short distance from Limerick.
 The Bishop retains the custody of the
 keys of the abandoned chapel at
 Knockee.

A Fire Bug's Suicide.
 BERLIN, June 20.—The buildings on the
 Baronel estate of Henstadt, in Meiningen,
 Germany, have been burned to the
 ground. They were set on fire by a
 stableman on the estate, who, after ap-
 plying the torch, hanged himself in one
 of the burning buildings and perished in
 the flames.

Maritime Conference.
 LONDON, June 20.—The Part Great Britain
 Will Take.
 LONDON, June 20.—Sir John Ferguson,
 Under Foreign Secretary, replying to a
 question in the House of Commons this
 evening, stated that the Government was
 now considering the question a pro-
 gramme for the coming Washington
 Maritime Conference. It was not desir-
 able, however, at this time to make pub-
 lic the subject which will be submitted
 for the consideration of the conference,
 as the nations which are expected to take
 part have not yet all agreed upon the
 subjects to be discussed. England, he
 said, desires to know the issues to be
 presented and does not favor the sub-
 mission of any questions to the confer-
 ence which can more properly be regu-
 lated by municipal legislation.

**PRESBYTERIAN GENERAL AS-
 SEMBLY.**
 Retiring Ministers—City Ministers Stipend-
 Marriage with a Deceased
 Minister.
 TORONTO, June 20.—There was a scanty
 attendance at the meeting of the Gen-
 eral Assembly to-day. Rev. J. McDonald
 presented the report of the retiring
 Ministers Committee which recom-
 mended the addition of a number of
 names to the fund for the aged and in-
 firm ministers. The names were Rev.
 John Stuart, Owen Sound Presbytery;
 Rev. Jas. Black and Thomas Goldsmith
 of the Hamilton Presbytery, Revs.
 Angus McCall and Wm. Walker of the
 Chatham Presbytery, Rev. Chas.
 Cameron of the Maitland Presbytery,
 Rev. Duncan McNaughton of the Bruce
 Presbytery, Rev. Peter Lindsay of the
 Miramichi Presbytery, Rev. A. L. Wiley
 of St. John Presbytery, Rev. Charles
 Chiniquy of the Montreal Presbytery,
 Rev. John Cameron of the Halifax Pres-
 bytery, and Rev. Archibald Currie of the
 Lindsay Presbytery. Rev. T. G. Smith,
 D.D. of Queen's College, Kingston, was
 admitted to the roll of the regula-
 ministry.

THE DOCTOR'S FOREBODINGS.
 CHICAGO, June 20.—A portion of the
 afternoon session of the Grand
 jury was occupied in taking of
 testimony, showing that as far back as
 1883 Dr. Cronin had stated to friends
 that his life was in danger and that if
 anything happened to him Timothy
 Cream should be held responsible.
 Timothy is dead, likewise buried. For
 three years a sturdy shaft has adorned
 his mound. Burke, the Winnipeg sus-
 pect, was present at its dedication, and
 it was by means of a photograph taken
 on the spot that he was identified as the
 mysterious Williams by the same wit-
 nesses who, a week ago, were confident
 that Moroney was the one wanted. The
 testimony of the other witnesses was of
 a routine character. Rumors are current
 to-night that Ioman Sullivan is on the
 eve of making a confession. This after-
 noon he made a request that he should
 be removed to the boys' quarter of the
 jail, an isolated portion of the building,

BUYING US OUT.

Magdalen Island to be an American
 Fishing Station.

NEW COAL DISCOVERY IN THE NORTHWEST.

Great Damage to Property and Crops
 by Floods in Nova Scotia.

HALIFAX HAPPENINGS.

Purchase of the Magdalen Islands by
 an American Syndicate—Demands of
 the Carpenters and Joiners Union.

HALIFAX, N.S., June 20.—Two Boston
 gentlemen have passed through Pictou,
 on their way home from the Magdalen
 Islands. They represent a syndicate of
 American capitalists, who propose to buy
 up the islands, and on them build up a
 second Gloucester. The islands are
 owned by a Captain Coffin, heir to the
 estate of late Admiral Coffin, who many
 years ago, in return for services rendered
 to the British Government, received a
 grant of the islands. Captain Coffin has
 offered the property for sale, the price
 to be said being half a million dollars, and
 the Boston syndicate has accepted the
 bid. Large fishing works will be at once
 started there, among them a number of
 lobster canning establishments. Pictou
 is to be made a port of transshipment. A
 small steamer will ply between that port
 and the Magdalens.

A committee from the builder's asso-
 ciation met a committee from the car-
 penters and joiners union to-day. The
 builder's committee made a proposition
 that the nine hour system be put into
 operation at once, the matter of wages to
 be arranged between the employees and
 men. The proposition was submitted to
 a meeting of the union held immediately
 after, which was largely attended, and it
 was unanimously decided not to go
 back *in toto* on the first demand made.
 The men seem firm in their demand, and
 say they are in a position to hold out for
 a long time.

FROM THE DOMINION CAPITAL.
 Coal Discovery in the North-West—
 Superintendent Cornwall Canal—
 Pressing Mr. Chapeleau's Claim.

OTTAWA, June 20.—The Dominion
 Government has been notified of the
 discovery of an anthracite coal mine by
 Mr. Brinkerhoff at Canmore, N. W. T.
 Its veins were traced four miles and are
 over nine feet in width. President Van
 Horn of the C. P. R. says the coal is
 excellent. An American prospector also
 observed that the sight filled him with
 astonishment. A company of St. Paul
 capitalists has been organized to work
 the mine.

No application has yet been made for
 a warrant for the extradition of Burke
 held at Winnipeg in connection with the
 Cronin tragedy in Chicago.
 It is reported that Mr. A. P. Ross, ex-
 M. P. for Cornwall, has been appointed
 Superintendent of the Cornwall Canal in
 place of Mr. MacDonald, who will be
 superannuated. Mr. MacDonald has
 been connected with the canal for 55
 years.

The *Free Press* says: Messrs. Girouard,
 Desjardins, Hall, Labelle and Lepine,
 Conservative members of Parliament,
 interviewed Sir John Macdonald to-day
 to urge the appointment of Mr. Chapeleau
 as Minister of Railways. One of the
 gentlemen stated before the interview
 took place that both his position in the
 Conservative party, his past services and
 his qualifications and experience made
 Mr. Chapeleau's claims to the position
 superior to those of any other aspirant.

FLOODS IN NOVA SCOTIA.
 Great Damage to Property and Crops
 HALIFAX, N.S., June 20.—A heavy rain
 storm last night and to-day caused the
 heaviest freshets ever seen on the Folly
 and great village rivers. Three bridges
 were carried away at the Acadia mines,
 including an iron one erected by the
 Government. An iron bridge at Folly
 Village, built by the Government in 1884,
 was badly damaged. The railway bridge
 at Debert station was badly damaged,
 and a wooden bridge on the main road
 between Folly and Truro carried away.
 A great deal of damage was done to in-
 tervale land, crops, etc., being destroyed.

SHOCKING IMMORALITY.
 Father and Daughter Charged With In-
 fanticide.
 LYONS, N.Y., June 20.—Alfred Hart,
 aged 46 years, a labourer living about
 three miles north of this place, and his
 daughter, Jennie, aged 26, were arrested
 yesterday on a charge on infanticide.
 Hart's neighbours had for some time
 been aware that the daughter was en-
 ciente, and seeing nothing of the child
 the girl was questioned about it. She
 told them that she was delivered of a
 child about three weeks ago and that it
 died soon after its birth. The body of
 the child was found yesterday and Cor-
 oner Case, of Macedon, was summoned
 and held an inquest. The girl admitted
 that the facts as alleged were true and
 stated that her father was the father of
 the child and also of another child now
 five years old. Hart's wife died about 8
 years ago. There is much excitement in
 the vicinity.

THE CRONIN CASE.
 Another Arrest Made.
 CHICAGO, June 20.—A grocery clerk
 named Keohn, who was ex-Detective
 Coughlin's constant companion, and was
 with him at Peoria where Coughlin made
 the threats against Dr. Cronin, was ar-
 rested last night. The police do not
 think Keohn was a participant in the
 murder, but that he might be able to tell
 more about the ex-detective than any-
 body now knows, on account of his in-
 timate association with Coughlin for such
 a long period of time.

**ASSOCIATION OF BRITISH AMERI-
 CANS.**
 Measures to Improve their Standing.
 BOSTON, Mass., June 20.—The National
 Association of British Americans con-
 tinued in session to-day when the Massa-
 chusetts Association was amalgamated
 with the National body. The following
 delegates were elected to represent the
 various state councils in the National
 Association, James Wemyss, Jr., Presi-
 dent of the association; Henry Arnold,
 Lawrence; Wm. Crome, Boston; D. D.
 Sinclair, West Medford; E. H. G. Dewey,
 Boston; James H. Stark, Dorchester; E.
 W. Bradbury, Boston; Geo. Donald,
 North Adams; Wm. Foote, Lynn; Charles
 Armstrong, Allston; J. Hendrick, Rox-
 bury.

The afternoon President George E.
 Gooch delivered his address. He urged
 the adoption of such measures as will en-
 sure the naturalization of every man of
 British birth in the United States. It
 was voted to hold the annual convention
 on the third Tuesday of June each year.
 Resolutions were adopted favouring the
 organization of labour bureaus and in-
 stituting clubs and reading rooms in the
 different branches. After discussing
 several other matters pertaining to the
 good of the Order the convention ad-
 journed until to-morrow.

U. S. Bankers in London.
 WASHINGTON, D.C., June 20.—The State
 Department has designated Morton, Rose
 & Co., of London, as its bankers in that
 city.

Cheap Foreign Labour Must Go.
 WILKESBARRE, Pa., June 19.—No little
 surprise was caused here to-day when
 the management of the Nottingham colli-
 ery of the Lehigh & Wilkesbarre Coal
 Company discharged all the Poles and
 Hungarians employed in the mine,
 to the number of nearly 300.
 A notice was also posted that in future
 none but English-speaking and experi-
 enced men would be employed. This
 is the first case of this kind on record,
 the employment of foreigners who will
 work for less wages than the English
 speaking men being generally encour-
 aged.

The fact that two accidents, each caus-
 ing the death of three men, have hap-
 pened in the mine within the last two
 weeks through the ignorance and reck-
 lessness of Poles and Hungarians is be-
 lieved to be the cause of this step.

Ontario Crop Prospects.
 OTTAWA, Ont., June 20.—The crop out-
 looks in the immediate vicinity of the
 city where there are low lying lands are
 not so bright as has been thought.
 Several farmers were discussing the
 crops on the Haymarket to-day, and it
 was the general verdict that potatoes
 have suffered the most and will in some
 low lying districts be a total loss. The
 large quantity of rain that has fallen has
 been too heavy to get off the saturated
 ground and lies in enormous pools in the
 low lands. The deluge of the
 last month did not wash out
 the grain crops, but it washed
 them up and rotted them considerably,
 and to add to this the last few days
 slight tinge of frost has been felt at
 nights, which has done some damage,
 especially with barley, peas and beans,
 which were burnt black. In high lands,
 however, the prospects of a bountiful
 harvest is assured. The hay will be a
 very good crop and early. Oats and
 wheat are doing splendid and so far are
 greatly ahead of last year.

provided, not exceeding \$300. The over-
 sure was acquiesced in the Home Mis-
 sion Committee to carry out the provi-
 sions.

The following committee was named
 to guard against the alleged encroach-
 ments of the Ultramontanes in Canada:
 Rev. D. J. McDonnell and Principal Mac-
 vear, joint conveners, the Moderator
 ex-officio; Dr. Robert Campbell, Mont-
 real; Dr. Cook, Dr. Warden, Dr. MacBae,
 Rev. James Fleck, Prof. Scrimger, Rev.
 N. McKay, Dr. Armstrong, Rev. N. W.
 McLean, Principal Caven, Rev. G. M.
 Milligan, Dr. Torrance, Dr. Laing, Dr.
 Laidlow, Dr. McMillen, Rev. J. A. Mur-
 ray, Jr. John Thompson, Dr. Robertson,
 Dr. King, Dr. McCulloch, Dr. Forrest, Dr.
 Burns, Rev. Falconer, Rev. Geo. Bruce,
 Rev. Thomas Totheringham. Elders:
 Hon. D. Laird, Hon. Alexander
 Morris, Messrs. J. K. McDonald, J.
 T. Small, and William Carlyle (St.
 Thomas Ward), Matthew Hutcheson
 J. McD. Harris, Hy. Morton, M. P.,
 J. S. Fisher, M.P.P., R. Murray, Geo. Hay,
 A. J. McKenzie, A. Bartlett, J. P. Millar,
 and Jas. Hutcheson, with power to add
 to their number.

The question of marriage with a de-
 ceased wife's sister came up when the
 returns of Presbyteries on last year were
 presented. Last year's remit to the
 Presbyteries asked those bodies to pass
 judgment as to whether or not the sub-
 scription to the formula, which virtually
 precludes marriage with a deceased
 wife's sister, should be optional on the
 officer holders in the church or not.
 Twenty-five Presbyteries out of twenty-nine
 reported in favor of subscription to the
 formula being optional. The assembly
 resolved accordingly.

Principal Caven presented the report
 of the Church Committee on Church
 union, which was pronounced satisfac-
 tory. The Committee was re-appointed
 with power to continue in the line they
 have adopted.

**PROHIBITION UPSET IN NEW
 JERSEY.**
 Remarkable Change in the Popular
 Vote.
 PROVIDENCE, R. I., June 20.—The total
 vote in to-day's election in this state was
 28,449 for repeal of the prohibition
 amendment, and 8,853 against repeal.
 The amendment is therefore repealed by
 5,469 more than the required three fifths
 of the total vote.
 The amendment was adopted in 1886
 by a vote of 15,113 to 9,230. To-day's
 vote in this city was 11,919 for repeal,
 2,094 against repeal.

THE AMERICA CUP.
 The Valkyrie Coming.
 LONDON, June 20.—Lord Dunraven, the
 owner of the yacht Valkyrie, said to-day
 in an interview that he felt confident the
 Volunteer would be selected to defend
 the America Cup. He and Mr. Kerr,
 his brother-in-law, would themselves sail
 in the Valkyrie in the race. He calculat-
 ed his yacht would win, especially if they
 had moderate weather. In a gale the
 Volunteer would probably have the ad-
 vantage. They would not use the centre-
 board. The Valkyrie left Queensdown
 to-day for Liverpool, and will race from
 that port to the Clyde. She will then
 sail for New York.

**LEFT THE SECOND TO FOLLOW THE
 FIRST.**
 Suicide in Same Place and Manner as
 his Wife.
 YARMOUTH, N.S., June 20.—John Cann,
 farmer, of Ohio, Yarmouth County,
 drowned himself in the lake near his
 house yesterday. He had been in town
 in the morning, drove home, changed his
 clothes, and, telling his wife he would be
 home to an early dinner, went out. He
 did not return, and as the afternoon
 wore on his wife got the neighbours to
 search for him. No trace of him was
 found until this morning, when he was
 found standing in the lake a short dis-
 tance from the shore, and a foot or two
 under the surface. He had apparently
 walked out backwards from the shore
 till the water was over his head. In just
 the same spot and just the same way his
 first wife drowned herself one year ago.
 Cann was about 55 years of age. He
 never showed any signs of insanity or
 depression, and was only married to his
 second wife a week ago.

**ASSOCIATION OF BRITISH AMERI-
 CANS.**
 Measures to Improve their Standing.
 BOSTON, Mass., June 20.—The National
 Association of British Americans con-
 tinued in session to-day when the Massa-
 chusetts Association was amalgamated
 with the National body. The following
 delegates were elected to represent the
 various state councils in the National
 Association, James Wemyss, Jr., Presi-
 dent of the association; Henry Arnold,
 Lawrence; Wm. Crome, Boston; D. D.

 looks in the immediate vicinity of

TRADE AND COMMERCE. FINANCIAL.

THE HERALD OFFICE, Thursday Evening, June 20, 1889. Montreal Stock Market. There was a very dull state of affairs on our local stock market to-day; in the forenoon 680 shares changed hands, and this afternoon the sale of 25 shares Telegraph was the only transaction. Telegraph was the most noticeable feature to-day; about 300 shares were placed at 94 @95; the closing transaction was at the latter figure, and there were still sellers but no buyers over 94. Gas was steady at 205; over 100 shares were sold, and the closing was rather firmer than yesterday. Richelieu was dealt in to a limited extent at 61 1/2, and closed steady. Canadian Pacific opened at 156, with sales of 125 shares, and at the close there were still buyers at 56, no sellers under 56. Other miscellaneous stocks were dull and unchanged. Bank stocks were dull and featureless. B. of M. seems drooping, with no buyers over 230, sellers at 231 1/2, no sales to-day. Commerce was dealt in this forenoon to the extent of 50 shares at 123, and this afternoon there were sellers at 123. Ontario was selling at 103 @107 and three shares Merchants were sold at 145. The day's sales amounted to 700 shares, as follows:—

MORNING BOARD. 50 Bank of Commerce.....at 123 1/2 13 Molson's Bank.....at 122 1/2 4 Quebec Bank.....at 175 3 Merchants Bank.....at 145 1/2 38 Ontario Bank.....at 137 1/2 19 " ".....at 103 1/2 115 Montreal Gas Co.....at 205 25 Richelieu & Ontario Nav. Co. at 61 1/2 30 Montreal Telegraph Co.....at 94 14 " ".....at 94 200 " ".....at 94 1/2 125 Canadian Pacific Railway.....at 56 \$3,000 Bell Telephone bonds.....at 101

AFTERNOON BOARD. 25 Montreal Telegraph Co.....at 95 The closing figures are as follows, compiled by Messrs. D. L. McDougall & Co., No. 13 St. Sacrament street:—

Table with columns: Stocks, Value of Shares, Sellers-Per cent, Buyers-Per cent. Includes entries for Bank of Montreal, Bank of Commerce, etc.

New York Stock Market. There was a very strong feeling in New York stocks to-day. The opening figures were a fraction higher in most cases, and during the early part of the day the advance was firmly maintained, at the close there was a slight reaction. Union Pacific opened at 62 1/2, but soon weakened and closed at 61 1/2, the lowest figures of the day. St. Paul opened a 1/2 higher at 71 1/2 and touched 71, closing 71 1/2. Reading opened 48 1/2 and touched 48 1/2, and closed the day at 48 1/2. Rock Island sold up 1/2 to 96 1/2, but closed off at 96. Western Union closed at 85 1/2 ex-dividend.

BRITISH METAL MARKETS. GLASGOW, June 19.—Scotch warrants at 42s 6d. MIDDLESBROUGH, June 19.—No. 3 Foundry G.M.B. at 38s. LONDON, June 19.—Tin, spot at £89 12s 6d; do. three months' futures at £90 7s 6d; market steady; Chili bars, spot, at £41 10s; do. futures at £41 10s; do. futures at £41 10s; Spanish lead at £12 10s; soft English lead at £12 15s; Silesian spelter at £18; Hallett's antimony at £60; tipples at 13s. WORKINGTON, June 19.—Hematite pig, Nos. 1, 2 and 3 at 50s. CLOSING PRICES.—Spot tin at £89 10s; tin, do. three months, £90 2s 6d; sales of spot, 100 tons; sales of futures, 150 tons; market easy; Chili bars, spot, at £41 10s; do. futures at £41 10s; G.M.B. copper, spot, at £41 10s; do. futures at £41 10s; sales of G. M. B. copper, spot, 50 tons; sales of futures, 225 tons; market quiet; Scotch warrants in Glasgow at 42s 7d; No. 3 Middlesbrough iron at 38s; soft Spanish lead at £12 10s.

PRODUCE AND PROVISIONS.

Table with columns: Stocks, Opening, Closing, High, Low. Includes entries for C. B. & Quincy, Can. Pac. Railway, etc.

Canadian Railways. Canadian Pacific in London 1/2 lower at 57 1/2. Messrs. L. J. Forget & Co.'s, London special quotes Grand Trunk securities easier at 69 for first preference, 49 for seconds, compared with 69 1/2 and 49 1/2 yesterday.

Exchange. The sterling exchange market continues very dull and rates are a shade easier. Sixty-day bills are selling between banks at 97-16 @98 1/2, and demand at 97 @98. Over the counter rates are for sixties 98 @99, for demand 100 @101, Cables, 108 @109.

Posted rates in New York are unchanged at 4.88 for sixties, 4.89 for demand. New York funds are quoted at 1/16-1/8 discount between banks, 1/4 @1/8 premium over the counter.

Table with columns: Posted, Actual. Includes entries for Sterling 60 days, do. demand, etc.

The following are to-day's rates compiled specially for THE HERALD by Messrs. W. L. S. Jackson & Co., No. 1761 Notre Dame street (P. O. Box 905), Montreal:—

Table with columns: Buyers, Sellers, Counter. Includes entries for N.Y. Funds, Sig. 90 days, etc.

Financial Notes. The firmer feeling reported in the local money market is still noticeable and banks are asking 4 per cent. on all new call loans. Commercial paper is offering quietly just now and bank rates of discount are 5 1/2 @7 per cent. The New York money market is unchanged and easy at 2 1/2 @3 per cent. The Bank of England minimum rate of discount is unaltered at 2 1/2 per cent. The London sheet rate for sixty day bills is easier at 1 1/2 per cent.

Writing on finances in the Northwest, the Winnipeg Commercial says: Monetary affairs have been steady in the city during the past week with no change in connection with trade finances from the quiet state noted in our last issue. The little life manifested at the banks with the opening of June has died away, and the slow movement which characterized the closing days of May have returned, and business with them is now down to a very quiet state. Besides the regular trade discount demand being light, there is no outside field for investment, and it is safe to say that every bank in the city could materially add to their present business without making any strain on the resources at their command. There is no attempt at cutting down of discount rates in the competition for business, as lower figures would not, and could not, add to the volume. From 7 to 8 per cent. is therefore the range for commercial paper, all first class being freely taken at the former figure. In real estate mortgage loans the number of applications have certainly been quite numerous, but they are almost entirely for small farm houses, and do not aggregate a big figure. The interest rate for such is steady at 8 per cent. Loan company agents report numerous sales of lands to new settlers, and in almost every transaction a new and safe loan is carried through, so that business all round is in a very satisfactory state at this time.

A Solemn Vow. Burns vowed to loved his Highland Mary "while grass grows and water runs," and so long as nature continues to present these phenomena it is safe to bet that Imperial Cream Tartar Baking Powder will make the best biscuit.

PRODUCE AND PROVISIONS. Breadstuffs. Montreal, June 20, 1889. FLOUR—There is undoubtedly a stronger feeling in the flour market, but it is very doubtful if any advance in prices here can be established at present, as there are many holders of old stocks, anxious to sell before the warm season sets in. Prices are very firm, however, and although business was quiet to-day, being a holiday with some of the dealers, yet a good local demand is reported. quotations are as follows: Winter Wheat, patent.....\$5.10 @ \$5.50 Spring Wheat, patent..... 5.75 @ 5.90 Straight Roller..... 4.65 @ 4.80 Extra..... 4.35 @ 4.50 Superfine..... 3.50 @ 4.25 Strong Bakers'..... 5.25 @ 5.75 Ontario bags—extra..... 2.35 @ 2.50 City Strong Bakers'..... 5.80 @ 5.70 OATMEAL— Ordinary brigs..... 3.95 @ 4.25 do brigs..... 1.80 @ 2.00 Granulated, brigs..... 4.00 @ 4.40 do brigs..... 1.90 @ 2.10 Rolled Oats..... 2.00 @ 3.00 CORNMEAL— Bags..... 3.40 @ 3.50 Oats..... 1.80 @ 1.75

The firmer feeling is the west, and the more unfavorable crop reports from the wheat growing districts is having its effect on this market, and an attempt is being made to hoist prices, but without much effect. Higher prices are quoted, but we cannot hear of any transactions. The Commercial says: In Winnipeg a quotation for a round lot of wheat has been heard for weeks, or in fact for months, and the only prices heard of are those paid at western ports, and these have ranged from 55c to 70c. When or how the strain and deadlock will terminate is still a conundrum. Quotations are: Canada Red Winter, 96c @97c; Canada White Winter, 96c @97c; Canada Spring, 95c @96c; No. 1 hard Manitoba, \$1.12 1/2; No. 2 do, \$1.07 1/2; No. 3 do, Northern, \$1.06; Corn (in bond), 42c @43c; Oats (per 32 lbs.), new, 29c @30c; Barley, 53c @55c; Rye, 65c @75c; buckwheat, 48c @50c per 48 lbs. Peas, 69c @70c per 66 lbs.

Chicago Grain and Provision Markets. June wheat opened very strong and soon advanced 1 cent to 81c, but lost the advance and closed at 80c, yesterday's closing figures. July opened at 77 1/2c and sold up one cent to 78 1/2c, but closed at 78 1/2c. December option closed one cent higher than yesterday at 77 1/2c. Corn also was firmer and July option advanced 1/2c to 35 1/2c for July, closing 34 1/2c. Hog products were weak. Pork declined 1 1/2c @1 1/2c on all options. Lard closed 2 1/2c @2c lower than yesterday.

Table with columns: WHEAT, July, Aug, Sept. Includes entries for Chicago, St. Louis, etc.

Table with columns: WHEAT, July, Aug, Sept. Includes entries for Montreal, St. Louis, etc.

Montreal Provisions. PORK, LARD, &c.—The local demand continues good, but the aggregate sales are not large. Prices are well sustained as follows:— Canada, a.c.c., per bbl.....\$16.00 @ \$16.50 Chicago, a.c.c., per bbl..... 15.50 @ 16.50 Mess pork, western, per bbl..... 15.00 @ 15.50 India mess beef, per tierce..... 00.00 @ 00.00 Mess beef, per bbl..... 00.00 @ 00.00 Hams, city cut, per lb..... 00.11 1/2 @ 00.12 Lard, western, in pails, per lb..... 00.09 1/2 @ 00.10 Lard, Canadian, in pails, per lb..... 00.00 @ 00.10 Bacon, per lb..... 00.11 1/2 @ 00.12 Shoulders, per lb..... 00.00 @ 00.06 1/2 Tallow, com., ref'd, per lb..... 00.05 1/2 @ 00.06

The receipts are falling off, and prices are, though not quotably higher, fine fresh stock selling at 13c @13 1/2c per dozen, and seconds at 13c @13 1/2c. The potash market continues quiet and weak. We quote first sort \$3.85 @ \$3.90 per 100 lbs., second \$3.40 @ \$3.45 per 100 lbs.

Dairy Products. BUTTER.—The creameries do not seem inclined to accept present values for their stocks and are following their usual policy of storing, instead of marketing their product. There is no demand except for choice dairy and creamery, and of these a sale is round at 13c @13 1/2c. The New York Commercial Bulletin, of Thursday, has the following: The market keeps up surprisingly well when the liberal supply is taken into consideration, but with so large a quantity going direct into cold storage on account of shippers, an active demand from speculators here for the same purpose and a moderate consumptive outlet, prevent any material accumulation of line and restrain receivers in their views, who remain quite steady, in fact rather inclining to firmness on strictly fancy goods, but under grades are generally dull and the tone weak and unsettled. Fancy Western creamery is steadily held at 17c @17 1/2c, and some long lines have been taken for cold storage a fraction above 17c. Next grades under are plenty, but held at 16c @16 1/2c, though quality below 16c is very dull and irregular. A few lots have been taken by exporters at 15c @16c, but no general demand, as freight accommodation is very scarce for this week's shipment. State dairy butter is in small supply, but very little wanted. Imported creamery and Western dairy in fair request when the market is held steady, but under grades slow. High grade fresh

factory in speculative demand and held firmly, but lower grades rather more quiet this week. CHEESE.—The cheese market is very firm, and there is a good demand, with all offerings fairly well taken up at the advanced prices, 9c has been paid for a shipping lot of coloured cheese, and 9c 1/2 made easily on all late makes. The cable comes in steady at 47 1/2 per cwt. We quote:— Finest Colored..... 9 1/2 @ 9 1/2 Finest White..... 9 1/2 @ 9 1/2 Medium..... 8 1/2 @ 8 1/2 Low grade..... 8 @ 8 The New York Commercial Bulletin, of Thursday, has the following: The market has fallen into an unpleasant sort of position again and no one appeared to be particularly well satisfied with the state of affairs for the day. From those operators who have heretofore been on the lead in taking stock and setting a working basis, the demand came quite indifferent and only at radical bids, with the balance of the trade on buying side evidently undetermined in their action and waiting for something to guide them. The trouble now seems to be in a great measure due to the fact that the "Etruria," the only Liverpool boat for Saturday, on her last voyage capacity can only take 15,000 of 16,000 boxes, for which extreme freight rates are asked, and the effort is to get a shading on the price of cheese in proportion. Receivers are unquestionably easier in their views than at the commencement of the week, yet not prepared to fully come down to a point at which stock would be handled, and that makes a stand off. To all intents and purposes, it is a market as showing the best that could be made in the large minority of cases; but on a basis of a few sales reported and in deference to what is asked, we retain a small fraction additional for an outside quotation, although 9c does not quite reach up to some holders' views. The weather is cool and favorable, the stock in good condition and that induces some confidence to carry over and await the issue of the next two days. Skims were late in getting out and somewhat uncertain, with buyers talking about being unwilling to pay more than last week. British Breadstuffs and Provision Markets. LIVERPOOL, 11.30 a.m.—Wheat, quiet, and the demand poor; holders not pressing sales. Corn, steady, and the demand fair. Beerholm reports: Cargoes off coast: Wheat and corn, all. Cargoes on passage and for shipment: Wheat, firmer, corn, steady. French country markets, rather easier. Liverpool wheat, spot, rather easier, corn, do, firmer. Liverpool fair average red winter wheat, 6s 4d. No. 1 Bombay, spot white, 6s 7d. To-day's quotations, compared with yesterday's:—

THE BANK OF HAMILTON.

General Annual Meeting of the Shareholders. Highly Satisfactory Statement—Large Profits and Good Dividends—Shareholders Liberal and Happy—Business Improving and Excellent Prospects. At noon yesterday the seventeenth annual general meeting of the Shareholders of the Bank of Hamilton was held at the Head Office of the Bank, King street west, Hamilton. There were present:—Messrs. John Stuart, John Proctor, Adam Brown, M.P., Geo. Roach, A. T. Wood, F. W. Gates, Charles Gurney, W. F. Findlay, Geo. H. Papps, John Riddell, John Eastwood, F. W. Fearman, H. W. C. Meyer (Wingham), Warren F. Burton, E. J. Moore, H. H. Laing, Campbell Ferrie, Alex. Bruce, David Kidd, and others.

The President, Mr. John Stuart, in taking the chair, said:—"Well, gentlemen, I am very much pleased, and I am sure my fellow-directors are very much pleased, to meet you on this occasion. You, no doubt, are equally pleased with the report of the Bank's business for the past year. The figures now laid before you show a very considerable increase in the business of the Bank—the largest increase, by a good deal, of any one year in the history of the institution, and I think the largest increase also in the amount of profits. The profits, you will see, are 15 1/2 per cent. on the capital of the Bank, and on the combined capital and best of the last year, which is properly speaking the capital of the Bank, you will see that the rate of earning has been 10 per cent. Another thing mentioned in the report is the fact that two new agencies have been opened during the year—one at Toronto and one at Owen Sound. They are both doing well so far—indeed have exceeded the expectations of the Board—and we look forward in both cases with hopefulness that a very satisfactory business will be done by them in the future. You will appreciate, equally with the Board, the great strength of the Bank in its resources and in its management. It is one that will compare very favourably with other Banks in this country. This year has been a fortunate one with respect to bad debts. These are apt to be made in some measure all the time, but we hope that the present improvement will continue and that when another year has passed and we will be able to consider our record on this head equally satisfactory. I beg leave to move the adoption of the report," which was seconded by Mr. Geo. Roach, and carried.

Table with columns: June 19, June 20, June 21. Includes entries for Spring Wheat, Red Winter, etc.

SHIPMENTS OF CHEESE. Shipments of dairy produce from Montreal, prepared by Messrs. Canningham & Lemurier, for week ending June 22nd, 1889:—

Table with columns: Ship, Through, Butter. Includes entries for Per Parisian, Per Toronto, etc.

NEW YORK FLOUR, GRAIN AND PROVISION MARKETS. [SPECIAL TELEGRAM TO THE HERALD.] NEW YORK, June 20.—Flour dull but firm. Fine grades winter, \$2.25 @ \$2.75; do. spring, \$2.00 @ \$2.50; superfine winter, \$2.65 @ \$3.00; do. spring, \$2.35 @ \$2.90; extra No. 2 winter, \$3.10 @ \$3.50; do. spring, \$2.75 @ \$3.25; extra No. 1 winter, \$3.50 @ \$4.75; do. spring, \$3.40 @ \$5.15; City Mill extra, \$4.35 @ \$4.50 for West Indies. Southern flour closed steady. Wheat and family extra, \$3.30 @ \$5.00. Trade—Trading in options active and the tone of speculation bullish. The bears tried to break prices by selling freely early in the day, but their offerings were quickly absorbed and they wholly failed in their purpose. The closing prices were 1/2 to 1c higher than of yesterday. Spot lots closed strong. Spot sales—No. 2 red, 83 1/2c @84c; No. 3 red, 73 1/2c @74c; No. 2 red winter, June, 82 1/2c; July, 82 1/2c; August, 82 1/2c; September, 83 1/2c. Corn—Options were fairly active and firm, closing 1/2c @ 1/2c higher. Spot lots closed strong and slightly higher. Spot sales No. 2 mixed 42c @42 1/2c, and steamer mixed 41 1/2c; No. 2 mixed June, 41 1/2c; July, 42c; August, 42 1/2c; September, 43c. Oats—Options were firm and moderately active, closing 1/2c @ 1/2c higher. Spot lots closed 1/2c better. Spot sales of No. 1 white, 35c; No. 2 do., 33 1/2c @34c; No. 1 mixed, 30c; No. 2 do., 28 1/2c @29c; No. 2 mixed, June 28 1/2c; July and August, 28 1/2c. Rye—Dull. Barley—Nominal. Pork—Dull. New mess, \$13.25 @ \$13.50. Lard—Dull and featureless; July, 56 1/2c; August, 56.02 @ \$6.03; September, 56.09 @ \$7.01. Butter—Steady. Eastern creamery, 17c @18 1/2c; Western, 16c @17 1/2c. Cheese—Steady. Factory New York Cheddar, 9c @9 1/2c; Western flat, 8c @8 1/2c. Eggs—Steady. Fresh Eastern firsts, 15c; Canadian do. 14 1/2c; Western do. 14c @14 1/2c.

GRAND TRUNK RAILWAY COMPANY. Return of traffic for week ending June 13th, 1889:— Passenger train earnings, \$31,904 1889, \$27,955 1888; Freight train earnings, 247,955 1889, 241,204 1888. Total, \$279,859 1889, \$269,159 1888. Increase 1889, \$10,700.

THE CHEESE MARKETS. BROOKVILLE, Ont., June 20.—7,000 offered; about 3,500 sold at 8 1/2c to 9c; ruling price 8 1/2c. Think all will sell tonight. LESTOWEL, Ont., June 20.—At the cheese fair held here to-day 31 factories boarded 3,319 boxes coloured and 2,375 boxes pale cheese. No sales up to the close of the market. Buyers holding off, ten buyers present.

THE BANK OF HAMILTON.

General Annual Meeting of the Shareholders. Highly Satisfactory Statement—Large Profits and Good Dividends—Shareholders Liberal and Happy—Business Improving and Excellent Prospects. At noon yesterday the seventeenth annual general meeting of the Shareholders of the Bank of Hamilton was held at the Head Office of the Bank, King street west, Hamilton. There were present:—Messrs. John Stuart, John Proctor, Adam Brown, M.P., Geo. Roach, A. T. Wood, F. W. Gates, Charles Gurney, W. F. Findlay, Geo. H. Papps, John Riddell, John Eastwood, F. W. Fearman, H. W. C. Meyer (Wingham), Warren F. Burton, E. J. Moore, H. H. Laing, Campbell Ferrie, Alex. Bruce, David Kidd, and others.

The President, Mr. John Stuart, in taking the chair, said:—"Well, gentlemen, I am very much pleased, and I am sure my fellow-directors are very much pleased, to meet you on this occasion. You, no doubt, are equally pleased with the report of the Bank's business for the past year. The figures now laid before you show a very considerable increase in the business of the Bank—the largest increase, by a good deal, of any one year in the history of the institution, and I think the largest increase also in the amount of profits. The profits, you will see, are 15 1/2 per cent. on the capital of the Bank, and on the combined capital and best of the last year, which is properly speaking the capital of the Bank, you will see that the rate of earning has been 10 per cent. Another thing mentioned in the report is the fact that two new agencies have been opened during the year—one at Toronto and one at Owen Sound. They are both doing well so far—indeed have exceeded the expectations of the Board—and we look forward in both cases with hopefulness that a very satisfactory business will be done by them in the future. You will appreciate, equally with the Board, the great strength of the Bank in its resources and in its management. It is one that will compare very favourably with other Banks in this country. These are apt to be made in some measure all the time, but we hope that the present improvement will continue and that when another year has passed and we will be able to consider our record on this head equally satisfactory. I beg leave to move the adoption of the report," which was seconded by Mr. Geo. Roach, and carried.

Table with columns: Balance of Profit and Loss carried forward, Dividend 4 per cent., etc.

GENERAL STATEMENT. Capital Stock paid up \$3,000,000.00. Balance of Profits carried forward \$9,207.55. Dividends unpaid \$3,513.91. Dividend No. 15, paid last June, 1888, \$52.00. Reserve for interest due Deposits, change, etc., \$78,714.32. Rebate on Bills discounted \$34,413.76. Notes in circulation \$926,500.00. Deposits not bearing interest \$1,734,393.67. Deposits bearing interest \$3,409,637.69. Balances due Banks in Great Britain \$1,758,981.71. Balances due Banks in Canada \$1,388,687.63. Gold and silver coin \$29,677.51. Government Demand Notes \$468,824.01. Notes and cheques of other banks \$208,373.15. Balances due to other Banks in Canada \$9,735.72. Balances due from Banks in the United States \$128,239.31. Government Securities and Municipal and other Debentures \$492,527.70. Bills discounted current and advances on call \$1,595,373.51. Capital stock paid up \$3,000,000.00. Reserve Fund \$1,000,000.00. Amount reserved for rebate of interest on Current Bills discounted \$20,000.00. Balance of Profits carried forward \$10,425.15. \$5,703,089.33.

Assets. Gold and Silver Coin \$1,759,909.00. Dominion Government Notes \$273,489.00. Notes and Cheques on other Banks \$116,913.61. Balance due from other Banks in Canada and the United States \$110,013.49. Canadian and British Government and other Public Debentures \$488,218.70. Loans and Advances on call, on Negotiable Securities \$296,616.48. Notes discounted and advances current \$1,491,470.91. Notes discounted overdue (estimated loss provided for) \$4,061,996.94. Bank Premises \$85,000.00. Office Furniture and Sinks \$21,000.00. Other Assets not included under foregoing heads \$2,282.47. \$5,703,089.33.

Liabilities to the Public. Notes of the Bank in Circulation \$827,013.00. Deposits bearing interest \$2,161,180.93. Deposits not bearing interest \$1,734,393.67. Amount reserved for interest due Depositors \$36,359.26. \$3,049,196.04. Balances due to other Banks in Canada \$9,735.72. Balances due to other Banks in Great Britain \$1,758,981.71. Dividend No. 15, payable June 1st, 1889, \$52.00. Former dividends unpaid \$24.05. \$4,231.65. \$4,231,651.15.

Liabilities to the Shareholders. Capital stock paid up \$3,000,000.00. Reserve Fund \$1,000,000.00. Amount reserved for rebate of interest on Current Bills discounted \$20,000.00. Balance of Profits carried forward \$10,425.15. \$5,703,089.33.

After explanations from the president on the business of the Bank, he moved, seconded by Donald Mackay, that the report be adopted, which was duly carried. The usual resolutions thanking the President, Directors, and officers of the Bank, were then passed. The scrutineers appointed at the meeting subsequently reported the following gentlemen duly elected as Directors for the ensuing year, viz:— Sir W. P. Howland, Donald Mackay, A. M. Smith, G. M. Rose, Hon. J. F. Fraser, R. K. Burgess, and G. R. R. Crookburn, M.P. The new Board met the same afternoon, when Sir W. P. Howland was elected President, and R. K. Burgess, Esq., Vice-President, and Mr. Mackay, the Vice-President, having declined re-nomination in view of the large private business interests dependent upon his personal attention. Mr. Hazen F. Murray, of Picton, N. S., writes: "I was affected with dyspepsia and nervous debility, and tried many remedies without avail, but one bottle of Burdock Blood Bitters much improved me and two more made me a well man." Try "Montserrat" Lime Fruit Juice if you would taste a most delicious and wholesome cooling draught.

ONTARIO BANK.

Regular Annual Meeting of the Shareholders. The Directors' Report—Gratifying and Substantial Gains in Business—The Winnipeg Agency Closed—A New Vice-President. The thirty-second annual meeting of the Shareholders of this Institution was held at the Banking-house in Toronto on Tuesday, the 18th day of June, 1889. Among the Shareholders present were: Messrs. T. R. Wood, W. Glenney (Oshawa), Oliver Gilpin, Hugh Scott, Sir W. P. Howland, J. K. Macdonald, Donald Mackay, F. Kirk, R. K. Burgess, W. J. Macdonnell, A. M. Smith, G. M. Rose, Charles Hooper, and others.

On motion, duly seconded, Sir W. P. Howland took the chair, Mr. Holland, the General Manager, was requested to act as Secretary, and Messrs. J. K. Macdonald and W. J. Macdonnell were appointed Scrutineers. Sir William Howland, the President then submitted the following REPORT.

The Directors beg to present the thirty-second annual report and balance sheet, showing the result of the Bank's business for the year ended 31st May, 1889. The net profits, after deducting charges of management, interest accrued upon deposits, etc., and making provision for bad and doubtful debts, were \$135,111.60. Profit and loss (brought forward) \$494.05. Total \$135,605.65. Which have been appropriated as follows:— Div. No. 22, 3 1/2 per cent., paid 1st December, 1888, \$52,500.00. Div. No. 23, 3 1/2 per cent., payable 1st June, 1889, \$2,500.00. Rest, \$80,605.65. \$135,605.65.

Balance of profits carried forward \$9,207.55. The Directors have to report that although the earnings have been affected by the low rates for money obtaining throughout the year, the progress of the Bank in other respects is gratifying, and shows substantial gains in deposits, discounts and general business. The demand of the Bank's customers for facilities in this Province and Quebec has led your Directors to decide upon withdrawing the Agency at Winnipeg, and the active business of that office has been closed for some months. The liquidation of its assets is now being pressed, and your Directors hope, before another year, to dispose of the real estate and other securities still remaining. The different branches of the Bank, including the head office, have been duly inspected. All of which is respectfully submitted W. P. HOWLAND, President.

GENERAL STATEMENT. Capital Stock paid up \$3,000,000.00. Balance of Profits carried forward \$9,207.55. Dividends unpaid \$3,513.91. Dividend No. 15, paid last June, 1888, \$52.00. Reserve for interest due Deposits, change, etc., \$78,714.32. Rebate on Bills discounted \$34,413.76. Notes in circulation \$926,500.00. Deposits not bearing interest \$1,734,393.67. Deposits bearing interest \$3,409,637.69. Balances due Banks in Great Britain \$1,758,981.71. Balances due Banks in Canada \$1,388,687.63. Gold and silver coin \$29,677.51. After explanations from the president on the business of the Bank, he moved, seconded by Donald Mackay, that the report be adopted, which was duly carried. The usual resolutions thanking the President, Directors, and officers of the Bank, were then passed. The scrutineers appointed at the meeting subsequently reported the following gentlemen duly elected as Directors for the ensuing year, viz:— Sir W. P. Howland, Donald Mackay, A. M. Smith, G. M. Rose, Hon. J. F. Fraser, R. K. Burgess, and G. R. R. Crookburn, M.P. The new Board met the same afternoon, when Sir W. P. Howland was elected President, and R. K. Burgess, Esq., Vice-President, and Mr. Mackay, the Vice-President, having declined re-nomination in view of the large private business interests dependent upon his personal attention. Mr. Hazen F. Murray, of Picton, N. S., writes: "I was affected with dyspepsia and nervous debility, and tried many remedies without avail, but one bottle of Burdock Blood Bitters much improved me and two more made me a well man." Try "Montserrat" Lime Fruit Juice if you would taste a most delicious and wholesome cooling draught.

MR. HAGUE'S ADDRESS.

The address of Mr. Hague, the General Manager, to the shareholders of the Merchants Bank, will be read with close attention by those who desire to obtain an impartial and accurate opinion on the state of business in the Dominion, and will be read with advantage by traders who will make up their minds to be guided by the hints and advice which Mr. Hague gives them. Although the Merchants Bank has done well during the past year, the General Manager's remarks induce the belief that it required great care and never-ceasing watchfulness to obtain this result. The crops that promised so well in the early part of the year were subsequently seriously diminished, but the liabilities into which houses had entered on the faith of a probable good harvest remained. From this condition of affairs Mr. Hague draws a moral, and urges the necessity of caution and the practice of self-denial and self-control under the temptation to launch out. The prospects for the present year are good in all lines of produce, but importing has been so far overdone that the evil consequences have not yet entirely passed away. To people in this line of business Mr. Hague has some good advice to give and also to manufacturers, who, it will be seen from the dissection of business by one who knows it, require something more than a tariff to keep them from the rocks of competition. Mr. Hague's theory is that a bank is not merely a money shop, so to speak, but the sanctum of a friend engaged in watching in the commercial observatory with a view to protecting his clients from the gales and cyclones of trade. Those who so regard him are the men who in the end are the prosperous ones; those who look upon him merely as a fountain of discount and work him for all he is worth, and as far as he will let them, are like those houses of sand, which, when the rain descends and the winds beat, come down with a crash. These points seem to constitute the burden of Mr. Hague's song. Use caution in your expansion and trust your banker. He knows when you do not, or when your judgment is blinded by hope. At the same time it is pointed out that on the Banks rest the responsibility of enforcing caution. Enterprise and push the merchant may be trusted to supply; the duty of the banker is to supply sometimes the cash and sometimes the check. Oftentimes the latter, Mr. Hague thinks, is far more valuable than the former, though probably it would be hard to make the borrower think so at the time. Mr. Hague, like many other bankers, is entirely opposed to the proposal to interfere with the issuing powers of the banks. To do so he thinks would be to throw the business of the country into confusion, and it would be an unnecessary restriction. The banks are, he holds, the most interested in the stability of banks and are opposed to the scheme. It is not necessary because the note-holders are practically secured. To cut off the resources of the banks would entail the cutting down of mercantile loans, with consequent ruin and panic. We are aware that this view is controverted, but Mr. Hague, as General Manager of one of the leading banks of the Dominion, must speak with an authority which cannot be safely disregarded.

THE VICTIMS OF PROTECTION.

The spectacle of Carnegie, the Pittsburgh millionaire manufacturer, grinding down his workmen to starvation wages, and then spending the money so saved in banqueting the great men of England, is well calculated to make the employees of protected industries engage in some sober reflection. What interest can workmen have in supporting a politico-economic system which swindles them at every point? Once more Carnegie, perhaps without thinking so, has proved to workmen all over the world that protection is the essence of insatiable greed and selfishness, that it renders its beneficiaries callous and indifferent to the wants and sufferings of the people dependent upon them as employees, that, in short, the protected manufacturers, as frankly admitted by a protectionist politician, "are the men who get practically the sole benefit of the tariff laws." What a mockery it must be to

appeal to working men to support such a system under the fraudulent pretence that it will in any way promote their material welfare. A system which tends to make the rich grow richer and the poor poorer is one which should not be tolerated by the toiling masses.

UNITED STATES COTTON INDUSTRY.

For ten months ended April 30, 1889, as compared with the corresponding ten months ended April 30, 1888, the export of manufactured cotton from the United States declined from \$9,616,836 to \$6,951,774. This is not a very pleasant state of affairs in view of the admitted necessity of American manufacturers getting access to foreign markets. As Bradstreet's says, "these figures contain nothing to gratify the commercial pride of the United States." If it were not that the domestic trade is in good condition American cotton manufacturers would be in a deplorable condition. While Great Britain exports year after year 5,000,000,000 yards of cotton cloth, 150,000,000 yards is about the highest export reached by the United States. In the fiscal year 1887, the United States exported cotton manufactures to the value of \$14,929,000, and imported similar goods to the value of \$29,474,000. In fact, Great Britain imports the raw cotton from the United States and other countries, manufactures it into various fabrics and then exports more to the United States than the latter export to the whole world. That is a very good illustration of free trade vs. protection, so far, at least, as foreign trade is concerned.

BANK MEETINGS.

This is the bank meeting season and the managing boards of banking institutions are rendering an account of their stewardship to their constituents, the shareholders, and through them and the newspapers, to the public. These bank meetings, and the publicity which in recent years is given to their proceedings, serve very useful purposes of an informing and educative character. Business methods, the state of trade past and present, the outlook for the future, the financial breakers to be avoided, the caution as well as the energy to be manifested in pushing financial, commercial and manufacturing operations, all receive more or less ventilation. The result is that the business community are brought into intelligent contact with the financial and commercial situation and are thus placed in a position, if they will, to manage their affairs with the prudence and economy so requisite to success in these days of close competition in all lines of trade and industry. Yesterday we published, and called attention to, the financial statements and proceedings of annual general meetings of the shareholders of the Merchants Bank of Canada, Bank Ville Marie and La Banque Jacques Cartier, all Montreal institutions. To-day we publish the annual financial statements and reports of the Canadian Bank of Commerce, and Ontario Bank, of Toronto, and the Bank of Hamilton, all three held on Tuesday. They present very satisfactory statements.

The Bank of Commerce, which has a paid-up capital of \$5,000,000, made profits of \$538,113 on last year's business which, with last year's profit and loss balance, makes a total of \$553,912. Out of this sum two semi-annual dividends, aggregating \$420,000, have been paid; \$100,000 have been transferred to rest account, which now amounts to \$700,000, and \$33,912 have been carried to profit and loss account. Considering that business of all kinds during the year has been surrounded with an element of uncertainty, and that money rates have ruled lower than usual, this must be regarded as an excellent showing. The general manager's review of the work of the year, and of the business situation generally, is somewhat elaborate and notes many points of interest and importance to business men and the public. Some of these may receive attention later on. The shareholders of the Bank of Commerce are to be congratulated on the strong financial position which that important monetary institution occupies, and the care and prudence with which its affairs have been managed.

The Ontario Bank, with a paid-up capital of \$1,500,000, shows net profits for the year—including balance brought forward from the previous year—of \$139,205. Out of this two 34 per cent. dividends, aggregating \$105,000, have been paid, \$25,000 carried to rest account, which now amounts to \$575,000, and \$9,205 have been carried forward. The bank shows a substantial advance in deposits, discounts and general business, indicating that its resources have been carefully husbanded and the interests of the shareholders zealously watched and promoted by the directors and officials. Under such circumstances a successful year's business was to be anticipated. The Bank of Hamilton, with a paid-up capital of \$1,000,000 and a reserve fund of \$400,000, shows net profits for the year of \$140,332. Out of this sum two 4 per cent. dividends have been paid, aggregating \$80,000, while \$40,000 have been carried to reserve fund and \$10,425 carried forward. This must be regarded as an excellent showing. During the year the bank has actually earned at the rate of 13 1/2 per cent. on the paid-up capital. The directors and management are to be congratulated on these results, which cannot fail to be eminently satisfactory to the shareholders, and must increase public confidence in the stability of so important a financial institution.

THE EMPIRE: The Montreal Herald justifies its slanders of Sir John Macdonald and misrepresentation of his statements at the Tallon banquet by pointing out that the Empire severely censured Mr. Wiman for his self-confessed plot to induce Canada by false pretences to accept "the only right road to annexation." There must be an epidemic loose amongst the Tory press. The Herald did not slander Sir John; it merely referred to a threat made by him to gerrymander the constituencies in 1891, a threat which Sir John admitted having made, and which the Hamilton organ in a certain way glorified. The Herald said nothing about Mr. Wiman or the Empire's so-called severe censure; it spoke of the Empire's vocabulary which contains the words "Pimps," "Crimps" and "Spies" for use against an antagonist. The Empire speaks of Mr. Wiman's self-confessed plot; Mr. Wiman denies it, and surely the Empire does not expect its subsidized utterances to be accepted against the word of—well, of almost anyone. We do not care a straw whether Mr. Wiman has or has not a plot in hand—though we should require corroboration of the Empire's assertion before believing it—Canada can take care of herself in such matters. But when the Empire says:—"We do not agree with THE HERALD in thinking that the partition of our country, like a second Poland, is a mere political question, that a foreigner who is confessedly plotting for it is a mere political opponent—or from THE HERALD's point of view, a mere political ally—it comes perilously near writing itself down an ass. The explanation may be that it is totally unacquainted with the history of Poland, and is merely talking wildly about things it does not understand. When THE HERALD requires the aid of the Empire to express its opinions about the country, it will not fail to send a courteous request for the same. In the mean time the Toronto organ would be more interesting if it would give the opinion of its friend from Sandy Row on the subject of Sir John Macdonald, Sir John Thompson and the Jesuits' Estates Act.

HALIFAX HERALD:—The anti-Jesuit howl is an attempt to inflame the Protestants by declaring that the Dominion Government is absolutely under the control of the Jesuits and the Pope. This is exceedingly rough on Mr. Dalton McCarthy, Col. O'Brien, Mr. Leo. H. Davidson, Mr. Carnegie, and other staunch Tories, who are taking a leading part in the agitation. Why these men should want to "inflame Protestants" against the Dominion Government, unless they want to destroy it, we cannot clearly understand.

WHAT OTHERS SAY.

"RECIPROCITY IN RASCALS." The United States authorities have not as yet given any signs of reciprocity with Canada in the matter of criminals and hoodlums. This is to be regretted, but relieves Canada, at all events, from being made the subject of jeers as being the haven of scoundrels. "Reciprocity in rascals" ought to be a good rallying cry.—London Advertiser.

A LOWER DEPTH.

A gambler who plays with loaded dice or shaved cards meets with the just contempt of his fellows, but the Tory press indorse the avowed determination of their chief, who with one foot in the grave as it were, proposes to repeat the iniquitous gerrymander compared to which the gambler's devices are child's play.—Cornwall Freeholder.

PROTECTIONIST CYNICISM.

Since Mr. Carnegie made his last reduction in the wages of his workmen in his protected steel works, it has been suggested that the expression Mr. Carnegie used last fall, "protection is hell," needs the addition of two more words—"with wind."—Detroit News.

THE CRUSHED FARMER.

Mr. Allen Pringle, a Lennox county farmer, in a letter to the Mail, after enumerating various reasons why so many farmers fail to "make ends meet," says that the chief cause of all—over-shading all the rest—is the heavy burden of indirect taxation, resting like a nightmare on the Ontario farmer and crushing him to earth. And the trouble is he fails to fully realize it. He knows he is down, but fails to clearly see the cause. "I have made the assertion," he says, "before, and others have made it 'unchallenged. But it will bear repeating, viz., that the average Ontario farmer 'pays from one to two dollars per acre 'on his land annually of indirect or 'tariff taxes. This is distributed over 'nearly everything he buys and sells, 'and he fails to realize and comprehend 'it till he studies into and figures it up. 'Now, I think this is the most important 'fact to drive into the farmers' to-day. 'For once in it will be sure to drive 'some of the partyism out. Once on 'vices your red hot Tory or rabid Grit 'that this is a fact and the party zeal 'that burns within him will assuredly 'get cool as his empty pocket and 'stomach get hot. For the remedy is 'just before him in the ballot box. Let 'the farmers unite and vote together, 'and vote only for the men who will do 'them justice, and lift from their backs 'the burden of taxation which keeps 'them down.'"—Hamilton Times.

MARRIED.

DAVIES-MACKINNON—On the 19th, at St. Paul's Cathedral, London, Ont., by the Very Rev. the Dean of Huron, T. Ridler Davies, Esq., Camille Fern, daughter of the late Alexander Mackinnon, Esq., London, Ontario.

DIED.

BRAYSON—On Wednesday, 19th June, at the residence of her mother, 115 Shuter street, Catherine Coy, fifth daughter of the late Alexander Brayson.

ROSS—At the residence of her son-in-law, C. H. Dehm, on the 18th inst., Margaret Buchanan Ross, widow of the late Graham William Ross, Inland Revenue Department, in her 78th year.

FUNERAL from the residence, 135 Dorchester street, on Saturday, the 22nd inst., at three o'clock.

Friends will please accept this intimation.

Thanks for Military Coercion. BELLING, June 20.—Retchsinger announces that the Emperor tendered his thanks to the Commander of the army corps in Westphalia for the resolution and judgment manifested by him in dealing with the strikers.

Yonkers' Corpse Mystery. YONKERS, June 19.—Residents on Ash-Burton avenue, in the eastern district of the city, have recently perceived an extremely offensive odor, which apparently came from St. John's cemetery, in the suburbs. This afternoon the police looked into the matter and found a bag, concealed under some bushes in the cemetery, which contained what is supposed to be badly decomposed human remains. The police will investigate further. At present they have no clue upon which to work. Bitten by a Mad Dog as an Experiment. SEDALIA, Mo., June 20.—Dr. Edward N. Small, as a joke, offered to give \$500 to the man who would consent to be bitten by a mad dog and then trust to a madstone for cure. He had several applications, and one man, a stranger from Arkansas, not to be named, bare his arm and the dog promptly bit a piece off it, dying in convulsions immediately after. The madstone was applied to the man's wound, and though he still lives and is apparently well, his recovery is deemed doubtful. He is evidently delirious. Four Boys Murder One. THREE HART, Ind., June 19.—Two brothers named Douzlas and two brothers named Pearson, whose ages range from nine to fifteen years, are charged with assassinating a boy named Snyder, aged thirteen, living in Vermillion county, and throwing his body into a creek. They had, it appears, a grudge against Snyder, and had often threatened his life, which he informed his father. Yesterday the four boys persuaded Snyder to go bathing with them. Last night the Snyder household, being alarmed at the absence of the boy, instituted a search, which resulted in finding his body in the creek. There were several knife wounds. One over the eye had penetrated the brain. There was also a bullet hole in his head. The four boys have been placed under arrest, but refuse to talk about the affair. BARRISTERS, ETC. THE BANK OF COMMERCE.

General Annual Meeting of the Shareholders.

The Directors' Report—The Bank's Assets Largely Improved—Sensible Advances of the President and General Manager—Review of the Commercial and Industrial Situation—Prosperity and Growth of Toronto—Warning to Real Estate Boomers.

Toronto, June 19. The annual meeting of the shareholders of the Canadian Bank of Commerce was held yesterday in the banking house at 12 o'clock noon. Among those present were:—Messrs. Henry W. Darling, Geo. A. Cox, John I. Davidson, Matthew Logat (Hamilton), Wm. Gooderham, W. B. Hamilton, Geo. Taylor, Hugh Ryan, John M. Bond (Guelph), T. D. McConkey (Barrie), John Scott, Rev. J. H. Starr, Alex. Nivn, Walter S. Lee, Philip Browne, R. H. Temple, Thos. Walmsley, David McGee, Edward Mitchell (Hamilton), Geo. Robinson (Sumnerhill), B. M. Britton (Kingston), P. M. Morrison, agent of the Presbyterian Church in Canada, and Rev. R. H. Warden (Montreal).

On motion the President, Mr. Henry W. Darling, took the chair, and Mr. J. H. Plummer, the Assistant General Manager, was appointed secretary to the meeting.

It was moved by Mr. W. R. Hamilton, and seconded by Mr. Wm. Gooderham, that Messrs. Philip Browne, R. H. Temple, and Henry M. Pellatt act as scrutineers. Carried.

The President then read the annual report of the Directors as follows:—

The Directors beg to present to the Shareholders the 22nd Annual Report, covering the year ending 31st May, 1889, together with the usual statement of Assets and Liabilities of the Bank.

The balance at credit of Profit and Loss Account, brought forward from last year, is \$1,739,117. The net profit for the year ending 31st May, 1889, after providing for all bad and doubtful debts, amounted to \$33,912 28.

Which has been appropriated as follows:— Dividends Nos 43 and 44, at seven per cent. per annum, \$429,000 00 Transferred to Profit and Loss Account, 33,912 28 Balance carried forward, 33,912 28

The past year has not been unfavorable to banking, having regard to the risks of the business. Our profits, however, are not as large as in former years. Rates for money for the main part of the year have ruled exceptionally low, and the customary profits from exchange operations have been seriously diminished by competition, small exports and the condition of the money markets in London and New York.

Out of the net earnings for the year, amounting to \$538,113.77, the customary dividends at the rate of seven per cent. per annum have been paid, and the sum of \$100,000 transferred to the Reserve Account, the undivided profits carried forward being \$33,912.28.

The entire assets have been subjected to the usual annual revaluation, and the fullest provision has been made for every debt, current or in default, in which there is an element of doubt. The branches of the bank, and the head office department, have been inspected during the year.

A branch of the bank was opened in April last at Sault Ste. Marie, Ontario, and the business already done has exceeded the expectations on which our decision to open at that point was based.

It has been found necessary to replace the circulation of the bank with a new issue of notes, and owing to the ability of counterfeiters to reproduce ordinary bank note engraving, much attention has been devoted to the subject. The directors believe that the new notes afford the most complete safeguard against counterfeiting known at the present time.

Considerable repairs and improvements to the Bank's various establishments have been found necessary, including new vaults, safes, etc., and the cost of these and of the new bank notes referred to has materially increased our expenses.

We are looking forward to the occupancy of the premises now being built for the Head Offices of the Bank next autumn. And advantageous sale of our present premises has already been arranged.

The Directors have pleasure in again bearing testimony to the zeal and efficiency with which the officers of the Bank, of every grade, have fulfilled their duties throughout the year.

HENRY W. DARLING, President. Toronto, 12th June, 1889.

Table with columns for Assets and Liabilities, listing various financial items and their corresponding values.

Notes of the bank in circulation, Deposits, Interest, Dividends, Capital paid up, Loss Account, Assets, Specie, Do in relation, Notes of and cheques on other banks, Balances due by agents of the bank in the United States, British, Canadian, and U. S. Government securities, municipal and other stocks, bonds, Call and short loans on stocks and bonds, Time loans on stocks and bonds, Other current assets and discounts, Bills discounted, not specially secured (less fully provided for), Prepaid debts, Real estate (other than bank premises), Bank premises and furniture, R. E. WALKER, General Manager, Toronto, May 31, 1889.

In moving the adoption of the report

Mr. Darling spoke as follows:—

THE PRESIDENT'S ADDRESS. The duty which now devolves upon me is a pleasing one, as the report presented is a record of progress and prosperity. This is demonstrated by the figures themselves; but the emphasis all must be laid upon the care with which the assets of the Bank have been valued, and the due provision which has been made for bad debts and contingencies. The language of the report admits of no misapprehension of qualification upon this point; and in the further facts that the shareholders have received what must be regarded as a large dividend in these days, that the handsome sum of \$100,000 has been added to the Reserve, and a balance of \$33,912 undivided profits carried forward, we should find cause for satisfaction and encouragement.

It may be further stated that in almost every respect we have gained ground during the year; as you will notice, our Circulation and Deposits both show substantial increase. The Assets of the Bank generally, through the liquidation of old matters, have been greatly improved, the three new City Branches opened last year have proved quite successful, and the new one opened a few months ago at the Sault is already taking its place with the others. The new issue of notes, as they pass from hand to hand, convey the impression to the public, as they ought to do, of our strength and standing, and we are sanguine they will prove durable and a credit to the bank.

At the various Branches we have sought to give further evidence of every needed provision being taken to secure the Bank's property, while affording to the public those facilities and conveniences in the transaction of their business which are necessary and conducive at the same time to the health of the Bank's officers. It may be mentioned we have still some further work to do in this line which we hope to undertake at an early date. The appearance of our new Head Office building, even in its present unfinished condition, is highly creditable to the architect, and its generous proportions seem to commend themselves to competent judges of street architecture as at once chaste and dignified. We hope that at the next annual meeting the shareholders will find us in the occupation of a substantial rental from our new offices to be let. We are fortunate in having disposed of our present building in good season, and the shareholders will be gratified to know that the total expenditure upon our new buildings so far has not exceeded our original estimate.

The rapid increase in the value of real estate in the city of Toronto for the past few years has given the Board cause for satisfaction that so eligible a site for the headquarters of the Bank was secured in good time. We rejoice in the evidence of the prosperity and growth of Toronto so abundant all round us; the more, that we are persuaded it is largely of a substantial and lasting character. It is not the less true, however, that rash speculation is being indulged in in suburban properties, which are being sold to parties in various parts of the country who are probably ignorant of their real geographical position, at prices far in excess of their productive value for many years to come, even under the most favorable circumstances, and I think it is proper these outside speculators should know that those who are the most competent to judge of such matters in the city are being also from such investments, and predict for the victims of the army of Real Estate brokers and commercial travellers who are now pushing the sales of these outside properties a sorry harvest, which will surely be reaped. They are no friends of the city who say or do anything to encourage a continuance of this suburban real estate boom, and speculative builders would do well to call a halt in their operations until the present provision for the prospective increase of Toronto's population has been ascertained, both by occupation and investment; for it must be evident to every observer that such speculation is on slim margins, which will disappear on slight relaxation of value. Properties in the business part of the city, and on the better residential streets, are still well within interest producing figures, and are held by solid investors. To these, and to the individuals and corporations who, like ourselves, have a large stake in city property, the administration of our municipal affairs is becoming a matter of serious import. As applied to cities, our Municipal Government, despite the faithful and arduous labour of a public-spirited alderman here and there, must be regarded as a failure. The revenue of this city is rapidly increasing, and will soon exceed that of the rich cities of Ontario. A broad, comprehensive, far-seeing policy of efficient administration, consistently and honestly carried out, must be substituted for the shifting schemes the creation of designing aldermen, who are here in the plenitude of power to-day and away in the irresponsible realm of private life to-morrow; and the business men of the city cannot too soon address themselves to the subject of better municipal administration. Why should not Toronto attract the services of a few honest, earnest men, like his Worship Mayor Clarke, competent to fill the leading administrative positions in civic affairs, who would give their whole time to the work, and be paid accordingly? We venture to remark that the decision of the City Council recently arrived at, to carry on the work of the erection of the new municipal building by one of their own committees, in place of entrusting the duties to commissioners, to which in unmistakable terms they pledged themselves when asking the consent of the citizens to a large increase of money for the work, constitutes a breach of faith, unparalleled perhaps in the history of municipal government on this continent.

In banking it would be termed, in plain language, obtaining money under false pretences. As the General Manager has something to say to you in review of the business of the year, I shall close by formally moving the adoption of the report.

The resolution was briefly seconded by Mr. Geo. A. Cox, the Vice-President, and carried.

The President having called on the General Manager to address the meeting.

Mr. Walker made the following remarks:—

THE GENERAL MANAGER'S ADDRESS. Immediately before the beginning of our banking year in June last the money market experienced a sharp change from a condition of considerable stringency to one of ease. The stringency which was relaxing in a natural manner by liquidation following the many failures of the preceding winter and spring, was entirely removed by large sums of money forced upon the market through the floating abroad of Dominion Government and other loans, the deposits in banks increasing in one month as much as \$7,000,000. In the effort to put out this money the rates for ordinary mercantile risks were brought to a

point which is usually regarded as the minimum, while rates obtainable for the unusually large surplus of funds which could not be loaned for mercantile purposes shrank to a much more serious extent. In London for nearly six months in the year the discount averaged 1 1/2 per cent. per annum higher than the rates for call money in New York. Under these conditions, added to a decline in exports from America, our sterling exchange business has been much less profitable than usual, and the rates obtainable in New York for our surplus funds altogether unremunerative. For the entire year the rate for call money in New York averaged only 2 1/2 per cent. But while the condition for banking, as far as making profits is concerned, has been unfavourable, the risks incident to the business have not been above the average in most lines. It is true that it has not been a year in which enterprise has yielded a reasonable profit, and many failures have taken place—due in most cases to the troubles of previous seasons—the losses from which, however, must be borne by the creditors out of the meagre profits of the current year.

PROSPECTS FOR THE YEAR. Nevertheless, on the whole, we close the banking year with a distinctly more hopeful feeling, both in view of the improvement in the conditions of business from the weeding out of weak traders, and the sounder methods which naturally follow when the evils of expansion have been felt; and in view of the excellent crop prospects. At this time last year the promise of the crop was at best indifferent, but in Ontario it turned out better than our hopes, and had our farmers and dealers accepted the high price which obtained for a time, we should have had no cause for complaint. Notwithstanding the repeated warnings of the past, the idea that America had nothing to export and that the world had not went enough to last over until next year's harvest, is still current among farmers and dealers, and as a consequence, considerable wheat held over by them cannot now be marketed except at a loss of 25 to 30 cents a bushel. It is to be feared, however, that the situation is more serious than this alone would indicate. Last fall, when dealers were carried away by speculation, prices were pushed up in the United States and Canada, and the price of the first crop was at best indifferent, but in Ontario it turned out better than our hopes, and had our farmers and dealers accepted the high price which obtained for a time, we should have had no cause for complaint.

and this branch of the trade is in a distinctly good position. Large contracts have also been made for lumber of medium and low grades for the United States and South American markets at a slight advance in prices, but this condition is hardly likely to be maintained. In connection with our outlet for lumber in South America, we must bear in mind that shipments of magnificent lumber are being made from Puget Sound to Buenos Ayres, and strong competition for the ultimate possession of that market will be sure to take place. The southern pine, now thoroughly introduced into the Eastern United States markets, is brought into competition with our pine, to an extent which may sooner or later prove quite serious. For outside work it is not of much use, but for cheap interior building it is being used more and more every year. There is no fear that it can displace the finer northern pine except to a limited extent; but the power of lumber production in the Northern and Southern States, added to our own, makes the danger of over-production greater and greater every year. It would probably be much in the interest of our lumbermen if they could be induced for a few years to limit their output, with a view to reducing the large and increasing stocks held in the various lumber markets.

It is to be hoped that the recent increase in the export duty on logs will be removed, even if we may not also hope for the entire removal of this duty. The profits of manufacturers based on limits bought some years ago are still doubtless large, but this is not the case with limits bought at the recent high prices. It is, in fact, quite clear that the operations of some firms on limits recently acquired have been very disappointing.

AGRICULTURAL IMPLEMENTS. The manufacture of harvesting machinery has been so largely and successfully developed in Ontario that in any view of our business it commands a prominent place. The output during the present season will probably be ten to fifteen per cent. in excess of last year, and while the profits have been curtailed by competition, the large and perfectly equipped establishments are making as much money as could be expected in view of the quantity now manufactured. The sale of these implements is being more carefully made. But while the great manufacturing companies are doing well the case is different with the smaller ones. The selling prices during the last four years have fallen say 20 per cent., and although the perfectly equipped manufacturers have been able to bring about nearly an equivalent saving in labour and material the smaller ones have not been so effectual in this saving. As a consequence, of some twenty-two makers of harvesting machinery existing four years ago, only fifteen, I believe, are now left, and of these, four manufacture three-fourths of the entire product. Whether this is a good or a bad state of affairs, it is the natural course of manufacturing in a country where the growth of the market does not keep pace with the enterprise of the manufacturers. The three largest companies, all customers of this bank, could, I presume, supply the wants of the whole of Canada unless the wants of the Northwest grow very rapidly, as I sincerely hope they may. With this great power of producing cheaply some of our friends are successfully finding a foreign market for their product, and should they be able to compete with the exporting manufacturers in the United States they may yet be a greater development of this industry than we have supposed possible. In order to compete successfully, however, the circumstances under which our machines are made must be as favourable, having regard to capital, cost of labour, cost of material, and means of transportation, as the conditions elsewhere.

OTHER MANUFACTURES. In addition to reapers and binders the manufacture of the less important farm implements and of wools is greatly increasing. The wholesale manufacture of wagons is now becoming an assured success here. The furniture business, the development of which to its present proportions has all been accomplished in fifteen or twenty years, is capable of unlimited enlargement, provided a foreign market can be secured. All of these and many kindred industries are at present in a satisfactory condition. Depending on the state of our raw materials, especially our hardwoods, of which we have an inexhaustible supply—destined to be of incalculable value to us—these are the natural manufactures of a country which for a long time yet must be mainly an agricultural country; and everything which the enterprise of our people or the wisdom of our legislators can do to make these industries successful, and enable us to use this raw material should be regarded as of greater importance than the well-earned success attending our manufacturers whose raw materials have to be imported.

DISTRIBUTING BUSINESS. The business of our wholesale dealers in dry goods, groceries, hardware, etc., is experiencing the same change as that which I have referred to in speaking of manufactures. The margin of profits is growing smaller, the expenses of conducting business greater, and as a consequence the tendency is in the direction of the large firms, whose proportion of expenses to sales can be kept within reasonable limits, gradually absorbing the trade. The weakest point in the distributing business, however, is of course the granting of credits; and as I have undertaken to make one comparison between the manufacturers and the importers, I will venture on another. The bad debts contracted by our wholesale merchants are mainly due to the failure of country storekeepers. The greater number of these storekeepers depend on their trade with farmers. It is a fact that notes of Ontario farmers for millions of dollars go to implement manufacturers are annually paid without appreciable loss. While this is the case, our country storekeepers carry the book debts of farmers year after year, and numbers of these storekeepers fall, owing alone to inability to make collections. I am aware that it is not anything like as easy for a storekeeper to collect his debts as it is for the farmer's or dealer's, but this is surely to a great extent the fault of the storekeeper, in not making the farmer regard his contracts with him in the same rigid manner as when the farmer gives a note for a binder or a wagon.

GOVERNMENT SAVINGS BANKS. A year ago we were all hoping, apparently with good reason, that the government would reduce the rate of interest on the Government Savings Banks. We were even allowed to suppose that sev-

eral millions had actually been borrowed abroad to fortify the Finance Department in case the lowering of the rate caused considerable withdrawals. Nothing, however, has been done, and as the supply of money in the hands of our banks happens to be plentiful, the matter has dropped out of the public mind for the moment. The Government began to pay the present rate of four per cent. at a time when some banks were paying as high as five per cent. Since that time the rate of interest all over the world has moved downward, under the influence of natural laws, but the Canadian Government Savings Bank alone has failed to respond to this movement. Everywhere progressive nations, States, provinces, municipalities, and business corporations, which are carrying debts represented by long term bonds, are considering how to lighten their burdens by schemes of conversion, or by renewals at a saving of interest. The City of Montreal is trying to get upon a three per cent. basis, the city of Toronto upon a three and a half per cent. basis, New York is issuing bonds at two and a half per cent., and our smaller cities are floating their issues at four per cent., obtaining nearly par therefor. Our Dominion Government, however, still seeks, by distributing printed advertisements, and by paying its postmasters a commission, to borrow money at a rate which, when expenses are taken into account, averages 4 1/2 to 5 per cent.

The case with which every business venture, as well as every nation, carries its debt is mainly in proportion to the burden of interest it has to pay. It is of as great importance to every borrowing manufacturer, or merchant, or agriculturist that he be relieved of his interest burden on his borrowings from bankers as it is to great corporations or governments. Hundreds of business ventures in Canada have failed because of the burden of an extra one per cent. interest spread over many years. If bankers find that their deposits grow rapidly from year to year they have no occasion to dread the lowering tendency of money, but if those deposits are to be largely absorbed by the Government, and if all deposits are to be competed for by the Government at a rate of interest which it is impossible for banks to the borrower are kept above the natural level, and every borrowing manufacturer, merchant, and agriculturist should feel that the Government is thus imposing an additional burden upon him.

CONSUMPTION CURABLE. Since the fact that consumption is both preventable, and in its earliest stage curable, it has lost much of its terror. If the first symptoms are at once recognized, and the proper remedy applied, very few, if any one, need die of consumption, which is really lung-scrophula. Like many other diseases this formidable one grows out of impure blood, and this, in turn, from a diseased liver. Hence, we have the hacking cough, the pains in the chest, the inflamed lungs, and all the symptoms of hastening consumption, all the result of a diseased liver, and other untold miseries resulting from youthful indiscretions. Write for friendly letter of advice, enclosing stamp.

gone over our assets and ascertained our true position, with the assistance of your present officers. Now those officers have brought the institution to a position no one could have expected it to reach at the present time. This resolution is no doubt under these circumstances. There is no doubt the shareholders are under many obligations to yourself, Mr. President, and feel that your energies have accomplished a great deal, but what could you have done without able lieutenants at your side? I have very great pleasure therefore in moving this vote of thanks to the officers of the Bank.

Rev. Herbert Starr—Allow me to say in a very formal manner, as a representative of the shareholders in the Eastern Provinces, that I have listened with very great satisfaction and pleasure to your remarks, Mr. President, and those of the General Manager. At the time when the stock stood at 107, some of us who were interested felt it might go still lower. The information I gathered satisfied me, however, that the affairs of the Bank were on a very solid basis, and the progress since made has borne out that assurance. I am very much pleased and gratified at the statements made to-day. The resolution having been seconded by Mr. John M. Bond, of Guelph, was carried unanimously.

Mr. Walker briefly returned thanks for the staff, and added: "We have, it is true, made some progress during the past year, and I think we are continuing to do so. With reference to the figures shown in the statement, I can only say it is my aim and that of the Assistant General Manager, and of the Directors also, always to make sure they are a little better than they look."

Mr. Plummer also briefly responded. Moved by Mr. Alexander Nairn, seconded by Mr. John Scott, and carried.

"That the ballot box be now opened, and remain open until three o'clock this day, for the receipt of ballots for the election of Directors, the poll to be closed, however, whenever five minutes shall have elapsed without a vote being tendered."

The meeting then adjourned. The scrutineers subsequently reported the following gentlemen to be elected as Directors for the ensuing year:— Henry W. Darling, George A. Cox, George Taylor, W. B. Hamilton, James Crathern, John I. Davidson, William Gooderham, and Matthew Leggat.

At a meeting of the newly elected Board of Directors held subsequently Henry W. Darling, Esq., was re-elected President, and George A. Cox, Esq., re-elected Vice-President.

B. E. WALKER, General Manager.

Mr. Plummer also briefly responded. Moved by Mr. Alexander Nairn, seconded by Mr. John Scott, and carried.

"That the ballot box be now opened, and remain open until three o'clock this day, for the receipt of ballots for the election of Directors, the poll to be closed, however, whenever five minutes shall have elapsed without a vote being tendered."

The meeting then adjourned. The scrutineers subsequently reported the following gentlemen to be elected as Directors for the ensuing year:— Henry W. Darling, George A. Cox, George Taylor, W. B. Hamilton, James Crathern, John I. Davidson, William Gooderham, and Matthew Leggat.

At a meeting of the newly elected Board of Directors held subsequently Henry W. Darling, Esq., was re-elected President, and George A. Cox, Esq., re-elected Vice-President.

B. E. WALKER, General Manager.

Consumption Curable. Since the fact that consumption is both preventable, and in its earliest stage curable, it has lost much of its terror. If the first symptoms are at once recognized, and the proper remedy applied, very few, if any one, need die of consumption, which is really lung-scrophula. Like many other diseases this formidable one grows out of impure blood, and this, in turn, from a diseased liver. Hence, we have the hacking cough, the pains in the chest, the inflamed lungs, and all the symptoms of hastening consumption, all the result of a diseased liver, and other untold miseries resulting from youthful indiscretions. Write for friendly letter of advice, enclosing stamp.

J. E. HAZELTON, 806 YONGE ST., Toronto, Ont.

FETTES COLLEGE SCHOOL.

The annual closing exercises and distribution of prizes took place in this institution yesterday. Mr. Oman in his report compared the work done this year with that of previous years, and showed that the average percentage obtained was much higher than on any previous year, thus showing that the education imparted in the institution is or a thoroughly sound and practical nature, as well as of the highest and of the most important kind. He was proud to say that last year's seniors had done credit to their old school for they won the gold medal and first prize in medicine in Bishop's College this year.

Prizes and order of merit list are as follows:—

PRIZES AND ORDER OF MERIT LIST—SENIORS—DIVISION I. Latin—1 and 2, F. Keenan, Wm. Coupland; 3, H. Bulmer. French—1, Wm. Coupland, 2, F. Keenan; 3, Geo. Cheese. Geometry—1, F. Keenan; 2, Wm. ALIEN LABOR IN THE STATES.

An Official Declaration.

WASHINGTON, June 18.—Some time since the British Minister made an informal complaint to the Secretary of State in regard to the operation of the Act of Congress prohibiting the importation and immigration of foreigners and aliens under contract to perform labor in the United States, especially so far as concerns the Canadian border. The Secretary of State referred the matter to the Secretary of the Treasury, saying that the "Canadian authorities hope that some arrangement may be made whereby the law may not be enforced, if possible, to the end that the old friendly feeling of intercourse and interchange of labour shall be allowed to remain undisturbed," and requesting such a reply as he might informally present to the British Minister. Acting Secretary Bachevalier replied to the Secretary of State to-day as follows:

In reply I respectfully invite your attention to the amendment to the Alien Contract Law, contained in the Deficiency bill, approved October 19, 1888, a copy of which is printed in the enclosed circular, dated November 21, 1888, which amendment you will see applies not only to immigrants of the prohibited classes arriving by vessel, but also to immigrants who may have entered this country within a period of one year from an adjoining country. This act, as you will see from the enclosed circular, was construed as imposing on the Secretary of the Treasury the duty of enforcing the provisions of the act referred to, and it has not been supposed that it was the intention of Congress to give the secretary discretionary power to suspend the operations of the laws in any case.

I enclose copies of several opinions which have been given during the administration of the acts in question. It is obvious that as the laws now stand it is incumbent upon the executive officers to enforce them, and that such considerations as those presented in your letter, however forcible and reasonable, should be addressed to the law making power.

Many Thanks,

"My age is 58 and for 20 years I have suffered from kidney complaint, rheumatism and lame back, and would have been a dead woman if it had not been for Burdock Blood Bitters, of which you bottles restored me to health and strength." Miss Maggie Hendebey, Half Island Cove, N. S.

Children Grv for Pitchers Castoria

NEW ADVERTISEMENTS.

ONTARIO STREET.

The City of Montreal,

By their undersigned Attorney and Counsel, hereby that on the 21st day of June, 1889, at eleven o'clock in the forenoon, or so soon as counsel can be had, the following parcels of land, situate, lying and being in the City of Montreal, in the Province of Quebec, in chambers, a petition calling upon the said judge, as Commissioner, to fix and determine, in conformity with the said Act, the price or compensation to be made to the owners of the ground or real property hereinafter mentioned or described, which the said Corporation has purchased by law upon the resolution adopted on the thirteenth day of May last, determined to acquire for the purpose of opening Ontario street, from the corner of the said city limits in the Hochelaga Ward of the said City, and to perform such duties as are imposed by law upon the said Commissioners, viz:—

1.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

2.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

3.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

4.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

5.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

6.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

7.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

8.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

9.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

10.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

11.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

12.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

13.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

14.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

15.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

16.—A piece of land with no building thereon erected, bounded on the northeast side by lot No. 159, said side measuring about 60.0 feet; on the southwest side by Harbor street (proposed), said side measuring about 25.0 feet; on the north side by lot No. 159, said side measuring about 25.0 feet; on the northwest side by Harbor street (proposed), said side measuring about 25.0 feet; containing a superficial area of about 1,500 square feet; the said piece of land being a reserve for Harbor street on the official plan and book of reference for the Hochelaga Ward of the said city.

ARTS AND SCIENCES

Annual Distribution of Diplomas For Study in the Faculty of Arts and Applied Sciences.

A MOST SATISFACTORY SHOWING ON THE LISTS.

The attendance at the Wm. Molson Hall yesterday afternoon on the occasion of the reading of the prize list and awarding of diplomas to the successful students belonging to the several high schools throughout the country, who had passed their examination for admission to study in the Faculty of Arts and Applied Sciences in connection with McGill University was not a large one.

The chair was taken by Sir Wm Dawson in the absence of Mr. J. H. R. Molson. The Very Rev. Dean Norman and the Rev. Dr. Cornish, two of the examiners, were also present.

The meeting opened with the reading of the following prize list by Mr. Chandler, the secretary:

ASSOCIATES IN ARTS.

I. Candidates under 18 years of age.

- Louis Greenberg, High School, Montreal, 1258 marks; Charles C. Gurd, High School, Montreal, 1175; Angus R. Mackay, Elixoch School, Montreal, 1113; James T. Brown, Huntingdon Academy, 1105; Alexander Cruikshank, Inverness Academy, 1079; Joseph W. A. Hickson, Elixoch School, Montreal, 1077; William Donahue, High School, Montreal, 1061; Edward M. Campbell, Inverness Academy, 1059; William M. MacKeracher, High School, Montreal, 1048; Alfred T. Bazin, High School, Montreal, 1031; Mary Jane Pearce, Girls' Academy, Sherbrooke, 1026; Mary A. Rossignol, Girls' High School, Montreal, 1017; Robert J. Haman, Inverness Academy, 990; Jessie Ballantyne, Girls' High School, Montreal, 984; Alexander Brodie, High School, Quebec, 969; Agnes A. Carter, Cowansville Academy, 960; Arthur Burnet, Cowansville Academy, 958; Cecil L. Brown, Huntingdon Academy, 953; Albee A. Skeels, High School, Montreal, and Margaret Craig, Girls' High School, Montreal, 930; Percy H. Gregory, Cowansville Academy, 928; Alfred W. Gifford, High School, Montreal, 916; F. Nellie Brown, Girls' Academy, Sherbrooke, 914; Leslie H. Boyd, High School, Montreal, 912; Sydney M. Dickson, St. Francis Coll. School, Richmond, 907; Jennie Rugg, Girls' Academy, Sherbrooke, 903; James Cox, High School, Montreal, 895; Lucy A. Oliver, Cowansville Academy, 872; Florence Moy, Girls' Academy, Sherbrooke, 871; J. McGerrige, Huntingdon Academy, 870; George F. Allen, Waterloo Academy, 869; William T. Freeland, Waterville Model School, 868; George W. Henderson, High School, Montreal, 864; Mary L. Bush, Clareville Academy, 856; John J. Hamilton, High School, Montreal, 833; Rosalind Watson, Huntingdon Academy, 832; Gracie H. Tickle, Girls' High School, Montreal, 827; Charles H. Mansur, Stantead Wesleyan College, 823; William F. Carter, Cowansville Academy, 821; Ethel L. Gale, Stantead Wesleyan College, 806; Harriet A. Fraser, St. Francis Coll. School, 805; Marion Evelyn Antifill, Girls' High School, Montreal, 802; John W. Blacket, Huntingdon Academy, 801; Barbara A. Brown, Inverness Academy, 801; Ernest Linton, High School, Montreal, 792; Ella May Scotte, Misses Symmers & Smith's School, Montreal, 789; Edward J. C. Chambers, High School, Quebec, 787; Blanche Spence, Misses Symmers & Smith's School, 783; Jennie Mills, Stantead Wesleyan College, 779; Alice L. Selby, Dunham Academy, 773; Frederick Selby, Dunham Academy, 772; May Henderson, Stantead Wesleyan College, 760; Peter Mc Kenzie, Inverness Academy, 755; Isabel E. Brittain, Girls' High School, Montreal, 751; John McMillan, Huntingdon Academy, 742; Nellie F. Selby, Dunham Academy, 741; Jennie Hutchins, Girls' High School, Montreal, 737; Julie S. Clement, Dunham Academy, 707; Annie E. McDonald, Gould Model School, 685; J. Armitage Ewing, St. Francis Coll. School, 679; Fannie E. Baldwin, Coaticook Academy, 656; Frank C. Fraser, High School, Montreal, 647; Arthur W. K. Massey, High School, Montreal, 609; Laura L. Foster, Coaticook Academy, 482.

II.—Candidates over 18 years of age.

- John A. McMaster, Huntingdon Academy, 937; William S. Johnson, Inverness Academy, 913; Margaret B. Walker, Huntingdon Academy, 903; Catherine M. M. Howard, St. Francis Coll. School, 880; Isabella Brodie, Girls' High School, Quebec, 873; Theresa F. Bannister, St. Francis Coll. School, 861; Henrietta E. Keough, Coaticook Academy, 838; Annie M. Warne, Waterloo Academy, 746; Carrie M. Sulis, Girls' High School, St. John, N. B., 714; Lionel Hodgins, Shawville Academy, 704; Agnes M. Johnson, Dunham Academy, 690; Elizabeth J. Ball, Waterville Model School, 686; Effie S. Gurd, Girls' High School, Montreal, 676; William E. Morehouse, Sherbrooke Boys' Academy, 649; Robert McMorine, St. Francis Coll. School, 619; Hannah M. McLean, Girls' High School, St. John, N. B., 576; Helen E. Burns, Girls' High School, St. John, N. B., 570; Zebie F. Murray, Girls' High School, St. John, N. B., 566.

JUNIOR CERTIFICATES.

I. Over 18 years of age.

- Margaret McLellan, Girls' Academy, Sherbrooke, 565; Louisa H. Chalmers, Granby Academy, 456.

II. Over 18 years of age.

- Howard L. Hindley, Granby Academy, 437.

The following candidates have passed the examinations required for matriculation.

I. IN ARTS.

- George F. Allen, Waterloo; Wm. D. Armitage, Shawville; Fannie E. Baldwin, Coaticook; Jessie Ballantyne, Montreal; Alex. Brodie, Quebec; Cecil L. Brown, Port Lewis; F. Nellie Brown, Lennoxville; James T. Brown, Huntingdon; Arthur Burnet, Farnham Centre; Mary L. Bush, Clareville; Agnes A. Carter, Cowansville; Wm. F. Carter, Cowansville; Ed. J. G. Chambers, Quebec; Thos. E. Chicott, Burford; Robt. Darling, Burford; Sydney M. Dickson, Tremblayville; Wm. Donahue, Montreal; Benj. B. Draper, Listowel; Laura L. Foster, Coaticook; Harriet A. Fraser, Richmond; Ethel L. Gale, Quebec; Percy H. Gregory, Cowansville; Chas. C. Gurd, Montreal; John J. Hamilton, Montreal; May Henderson, Stantead; Jos. W. A. Hickson, Montreal; Lionel Hodgins, Shawville; Catherine M. M. Howard, Windsor Mills; Wm. S. Johnson, Clapham; Agnes M. Johnson, Dunham; Henrietta E. Keough, Coaticook; Mary A. LeRouge, Montreal; Annie E. McDonald, Gould; John McGerrige, Ormstown; Wm. M. MacKeracher, Montreal; John A. McMaster, Huntingdon; Chas. H. Mansur, Stantead; David S. Moffatt, Irvine; Florence

LADIES EXCLUDED

By the Montreal Diocesan Synod Yesterday, FROM THE RIGHT OF VOTING IN VESTRIES.

II. IN APPLIED SCIENCE.

Alfred T. Bazin, Montreal; John W. Blacket, Huntingdon; Leslie H. Boyd, Montreal; Ed. M. Campbell, Inverness; James Cox, Montreal; Alex. Cruikshank, Inverness; J. Armitage Ewing, Richmond; Goldwin Foster, Montreal; Frank C. Fraser, Montreal; Wm. T. Freeland, Waterville; Alfred W. Gifford, Montreal; Louis Greenberg, Montreal; Robt. J. Haman, Inverness; Geo. W. Henderson, Montreal; Ralph E. How, St. John; John E. Jordan, Coaticook; Ernest Linton, Montreal; Angus R. Mackay, Montreal; Peter McKenzie, Inverness; Robert McMorine, Richmond; John McMillan, Ormstown; Wm. Moorehouse, Sherbrooke; Fred S. Spearman, Huntingdon.

Sir W. Dawson next presented the Montreal students with their diplomas, after which he called upon the Very Rev. Dean Norman to address the meeting.

The Very Rev. Dean, in the course of his remarks, said that the number of papers had very much increased since last year, which showed that the movement was spreading. He was happy to have to tell his hearers that the papers which had fallen to his lot were of a superior character and on the whole far in advance of the previous year.

The Chancellor then moved an amendment, to the effect "that until after the Easter Monday next after the passing of this Act, it shall be the duty of each vestry of the churches of the Diocese of Montreal, in their sittings are free, to fix the amount of annual contribution that shall be necessary to entitle the members of each church to be members of the vestry, and hereafter the rate of such contribution shall be fixed, and may from time to time be altered by the vestry, and that after the Easter Monday following the passing of this Act, the vestry in each church shall consist of persons being of the full age of 21 years, who shall sign themselves to be members of the said Church of England in Canada."

The Rev. Mr. Rogers could not agree with Mr. Wood's motion, or the Chancellor's motion, of the morning session, viz: "That in order to vote at Vestry meetings either a monetary qualification was necessary, or the voter must be a communicant." Mr. Rogers continued to say that in his church that every seat was free and that he had never levied money in any shape or form. He had had perfect harmony. He hoped the vestry would not be a party to the charges. His (he said) was a peculiar case.

The Rev. Dr. Cornish, also an examiner, addressed a few remarks, in which he said, that in the main he cordially agreed with the previous speaker. It was a good sign that improvement in education has not only been shown in the schools throughout the country, but also in the Universities. It was a peculiar fact that the answers in Greek were far better than those given in Latin. There was no royal road to these languages except they had a proper foundation upon which to proceed and that could only be done by their having a perfect knowledge of the grammar governing the same. He concluded by asking not only his hearers but all concerned to strive and attain greater accuracy in their work.

Sir W. Dawson then closed the meeting by remarking that he was pleased to know that twenty-four schools had been represented in the examinations. Another point that was very satisfactory was the high standing taken by the pupils representing the country schools in these examinations. He hoped they would continue to increase. It was also a matter of congratulation that they recognized the benefits of this higher education. A large number of applicants had appeared this year than ever before. He had been successful in the articulation of Arts for McGill and he hoped they would not stop there but join the classes at McGill. Twenty-three had obtained their matriculation papers in Applied Sciences and the same remark applied to them. They should not be content with that diploma but go on and aspire to higher honours in the coming years. By doing so they would increase the classes at the Mother University which would welcome them with open arms. (Loud applause.)

DOMINION BRIDGE COMPANY.

The annual meeting of the Dominion Bridge Company was held at the Windsor Hotel yesterday afternoon, a large number being present. The chair was taken by Mr. J. Abbott, and Mr. Luke Lyman acted as secretary.

The year's statement of business read, proved a very satisfactory one and on motion it was unanimously adopted.

On motion a 6 per cent. dividend was declared.

The following were elected directors for the ensuing year: Messrs. Job Abbott, F. Fairman, A. McHorn, W. Cassis, Alex. Ewan, J. P. Dawes and Jas. Cooper.

The meeting then adjourned.

PERSONAL.

Dr. Thomas Bonar, of Edinburgh, is at the Windsor.

Sir Richard Cartwright left for the West last evening.

Lieuts. J. S. Ibbotson, of the Royal Scots, and Rodden, of the Vics, returned to the city last evening from St. Johns Military School, where they have been undergoing a course of instruction. Mr. W. Wallack, of the editorial department of the Witness, leaves by the Lake Huron on Tuesday morning for a trip to the land of his birth. Mr. Wallack has the best wishes of his conferees for a safe and pleasant voyage. High Constable Bissonnette has returned from France after delivering up Mische, the Valence defaulter and deserter. Mr. Bissonnette visited the Paris Exhibition, and says that words fail to describe it. The Canadian department, although small, is interesting. The gentlemen composing the Executive Committee of the Winter Carnival have completed arrangements for the presentation of a picture of the Ice Castle, surrounded by photos of themselves, to Mr. Lucius Tuttle as a souvenir of his membership on the committee.

British Steamer Lost.

LONDON, June 20.—The British steamer St. Mark is reported to have sunk off Muros, Spain. The crew were saved.

CORONER'S INQUEST.

Coroner Jones will hold an inquest on the body of the late Mr. J. H. Webster, proprietor of the Cambridge House, St. Lawrence Main street, who was killed by falling down the elevator shaft at the Temple building on St. James street yesterday afternoon.

THE VOTERS' LISTS.

The Affidavit to be Filed. Now is the time for the voters to make sure of a vote and Mr. Archibald, the Revising barrister for Montreal West, is anxious that they should do so. He has at his own expense drawn up a form of affidavit which will be furnished free to every applicant and filled in by Mr. Archibald himself, so that there can be no difficulty. Those desiring to register should call upon Mr. Archibald as early as possible, as there is only a short time remaining before the lists will be closed. Mr. Archibald will be at his office on Tuesday and Friday evenings, after 8 o'clock, to enregister voters, this until further notice.

The following is the form of affidavit to be filed in—"CANADA.

ELECTORAL FRANCHISE ACT.

Electoral District of Montreal West.

To JOHN S. ARCHIBALD, Esq., Q.C., Revising Barrister for the said Electoral District:

Sir, I, hereby declare that I am entitled to be registered as a voter in Polling District No. 1 of the Electoral District of Montreal West upon the list for the year 1886, now being prepared, and I hereby make application to be so registered. The grounds entitling me to such registration are:— 1. I am of the full age of twenty-one years, and am not by any law of the Dominion of Canada disqualified from voting. 2. I am a British subject by..... 3. I am a resident of the said Electoral District and reside at No. street, within the Polling District above mentioned, and I have now and have had for more than one year next previous hereto, an income arising and derived within Canada exceeding three hundred dollars per annum. 4. I am the son of..... owner of real property situate in the Electoral District, valued upon the assessment rolls of the City of Montreal above \$..... and I am not disqualified from voting by any law of the Dominion of Canada. I have continuously resided with my..... at No. street, within the said Electoral District for more than one year next last past. All which I solemnly declare to be true in virtue of the Act for the suppression of extra judicial and voluntary oaths. Solemnly declared before me at Montreal, this..... day of..... 1886. Justice of the Peace.

HIGH SCHOOL BOYS

Pass a Satisfactory Military Inspection For the Elliott Medal.

The annual drill competition among the boys of the High School, for the medal donated by the late Mr. R. J. Elliott, took place on the school grounds yesterday morning. There was a large turnout of parents, teachers and friends. Among those on the grounds were Rev. Dean Norman, Dr. J. T. Finnie, Ald. Archibald, ex-Ald. Holland, Lieut.-Col. Bond, Capt. Gault and Vaughan, Drs. H. Aspinwall, Howe and F. W. Kelley, Messrs. A. N. Shewan, J. A. Cantlie, E. W. Arthy, C. S. J. Phillips, David Brown, Thos. Davidson, James Brown and many others.

The judges selected were Lieut.-Col. Gardner and Major Cole, with Lieut.-Col. Dugas as referee.

The commanders were Lieut. Gregor, of the M.G.A. (No. 1 battalion), and Capt. MacAnlay, of the Sixth Fusiliers (No. 2 battalion), both belonging to the school as masters.

To say that the boys underwent a strict military inspection is true, and it is equally true that they came out in a manner beyond the expectations of the most sanguine (even Mr. Shewan who always expects a great deal of his boys). Their marching and wheeling was a treat to behold, and would have been considered a creditable showing for some of our local corps.

After a few preliminaries the boys were gathered into companies. The first battalion was composed of three companies of the larger boys, and the second of four companies of smaller boys. The first and then the second battalions were put through several movements, after which the companies were drilled separately. All the movements were executed neatly and uniformly. When the exercises were concluded the battalions were drawn up and formed three sides of a square and awaited the decision of the judges who had retired. They were not long gone, and Lieut.-Col. Gardner in addressing a few words of encouragement to the boys said that the judges had been exceedingly well pleased with their performances. It was a credit to all concerned. He announced that the judges were unanimous in awarding the battalion prize to No. 2 battalion and the company prize (the Elliott medal) to No. 4 company of the battalion.

On the call of Capt. MacAnlay the boys gave three rousing cheers for the Queen.

The boys then marched down past the Windsor and along Dorchester and St. Catherine streets back to the grounds where they were dismissed.

The following is the official list showing the points gained by the battalions and companies out of a possible ten:

Table with 2 columns: Battalion/Company and Points. No. 1 BATTALION: March Past... 7, Advancing in Review order... 8, Column from line... 7. Company No. 1... 9, " " 2... 9, " " 3... 9, " " 4... 9. No. 2 BATTALION: Advancing in line... 9, Echelon... 8, Attack... 8. Company, No. 1... 10, " " 2... 10, " " 3... 10, " " 4... 10.

AMUSEMENTS.

Theatre Royal.

Natural Gas continues to draw at the Theatre Royal.

Next week Hearts of Oak will be the attraction. It is well known in Montreal, and in the hands of a strong company may be looked upon as a decided attraction.

Solher Park.

The principal attraction at Solher Park yesterday was the exquisite selections of Signor Liberti, who won the hearty approbation of the vast assemblage.

In 10 days time.

"Was troubled with headache, bad blood and loss of appetite, and tried all sorts of medicines without success. I then tried one bottle of Burdock Blood Bitters and found relief in 10 days." A. J. Meindie, Mattawa, Ont.

MARINE NEWS.

MOVEMENTS OF OCEAN STEAMSHIPS.

Table with 3 columns: Date, Steamship, At, From. Includes entries for June 19, 20, 21 from various ports like Glasgow, Philadelphia, etc.

PORT OF MONTREAL.

ARRIVED—JUNE 20. Bark Kentigern, 825, Dexter, Sourabaya, Jan. 3, sugar to order.

Vessels in Port.

GRECIAN, 257, H. & Allan. Gintona, 128, J. G. Sidney. Caspian, 177, H. & Allan. Ocean Prince, 185, J. G. Sidney. Lake Huron, 256, H. E. Murray. Coban, 885, Kingman, Brown & Co. Bames, 1564, McLean, Kennedy & Co.

QUEBEC.

ARRIVED. Bark Festina Lente, Ommundsen, Rio Janeiro, Dobell, Beckett & Co., ballast. Schooner Eugene, Caron, Glace Bay, Geo. Peterson, coal. Bark Beatrice, Linade, Rio Janeiro, Dobell, Beckett & Co., ballast at Chicoutimi.

GOING. Bark Hahnemann, Jefferson, Plymouth, W. J. Sharples. Steamship Parisian, Ritchie, Liverpool, Allan, Rae & Co. Bark Actaeon, Stein, Belfast, King Bros. Bark Marie Louise, Peiter, Lisbon, Dubel, Beckett & Co. Bark Helga, Schultsch, Dublin, Price, Bros. & Co. Glasgow. Steamship Aburgetoe, Langwell, London, via Sydney, H. Kennedy.

NOTES. The tug steamer Maggie Bell arrived from Montreal this morning with four canal boats in tow laden with American coal. Tug steamer Canada, from Nicolet, and Boston, from Riviere du Chene, both arrived this morning with saw log rafts for Montmorency mills.

Tug Mersey left to-night with schooner and bark for Montreal and barge Messey for Three Rivers.

Bark Jorgen, Lorentzen, has been chartered to ship a cargo of coals at Sydney for this port.

Steamship Greenland sailed from Cow Bay at 9 p.m. yesterday for Montreal.

A new steamer for steamship Polyneasia has arrived from England. A large gang of men are now at work on repairs to the vessel.

Bark Oscar, now on her way here with a cargo of coals, has been chartered to load coals at St. Thomas for Westport at 5 p.m.

Bark Saigon left port this evening to load lumber at Point des Monts.

Barks Lyneb, Arab, Henrietta and Astra, among others, are reported in the river at hand, inward.

Mail steamship Parisian sailed for Liverpool at 9:40 a.m.

Steamship Ashdene, at 12:30 a.m.; Dunmore, at 2 a.m.; and Horton at 3 p.m., all arrived from Montreal and proceeded.

Schooner J. Savard arrived from Montreal this morning under sail and anchored.

Steamship Montreal left for Montreal, 5 a.m.

Steamship Polino and Miramichi will arrive in port during the night.

Steamship Guy Collin sailed for London at 2 a.m.

Tug Champlain, while inward with a bark in tow, became disabled though some of her machinery giving out. The tug and her tow is being assisted up port by tug steamer Dauntless.

GULF REPORTS—JUNE 19.

LITTLE—Cloudy, strong northwest wind; 8:00 a.m. Dauntless towing Champlain and bark; Florence towing ship Ellen A. Reed; bark at Pillars; outward 12:30 p.m., Parisian.

PARISIAN—Cloudy, calm inward 7 a.m. steamer and 2 barks; outward 4 a.m. Lake Winnipeg.

CAPE DESPATER—FOG, west wind; Inward 5 a.m. Admiral.

MONTROUQUAN TO SHELDRAKE—Raining, calm wind.

POINT DES MONTS—Inward to-day five barks.

MOISE—Offet anchored here.

ANTICOST—Foggy, strong south wind. LOW POINT—Raining, strong south west wind. Inward Ashdene; outward Bonnavia.

CAPE RAY—Dense fog; strong south-west wind.

INLAND NAVIGATION.

SAULT STE. MARIE, June 20.—Up—White and Friant, Fanny Nell, Parana, Alberta, S. E. Teck, Northern King, Geo. T. Hope, Ohio, H. H. Clarke, Yakima, Canyanna, Siberia, Music, Wainwright.

DOWN—Anna Smith, Red Wing, C. H. Green, M. C. Bell, F. Solly, M. R. Ryan, Florida, Serbia, Moravia, Alcona, Alta, D. M. Wilson, Manitowish, Kasota, R. P. Flower, E. Sheldon, S. F. Ely, Toledo, Coaticook, Grace Holland, Fountain City, Yosemite, C. X. Ryan, M. M. Drake.

Went southwest, light, smoky. Tug Adams, with the schooner Montroy, are grounded on Sand Island, north shore of Lake Superior. The Adams has three feet of water in her.

PORT COLBORNE, Ont., June 20.—Up—Steamer Scotia and consort, Kingston to Huron; light; Rosedale, Kingston to Chicago; light; schooner E. Blake, Fair Haven to Owen Sound, coal.

DOWN—Steamer Alma Munro, Chicago to Montreal, general cargo; Dominion and consort, Toledo to Kingston, timber; schooner Mary Ann Lydon, Cleveland to Port Hope, coal; Erie Belle, Ashtabula to Hamilton, coal. Inland, southwest, light.

PORT DALHOUSIE, Ont., June 20.—Up—Nothing. DOWN—Steamer Teuchess and barges, Monticau to Collins Bay, timber; steambarge Dominion and barges, Toledo to Gardiner Island, timber; propeller Alma Munro, Chicago to Montreal, general cargo; schooner A. Lydon, Cleveland to Port Hope, coal.

WIND, southwest, moderate to fresh. DETROIT, Mich., June 20.—Up—Montgomery, H. J. Cummings, Groh and barges, Win. Chisholm, Northern Queen, Calvin and consort, Fairport, Interocean, Egan, Clinton and barges, Neshoto, propeller Fontana, Ssmo, David Vance, Corsica, Nipegon and consort, Livingston, Clinton, Rocky, Myles, Ganges, Ralph and consort, Miramichi, and barges, Otego and consort, India, Pasquo and barges, Niko, Surliguy, Constitution, and barges, Germain, Gerlach, C. H. Johnston, Peterson, Geo. Clinton, Gerlach, C. H. Johnston.

DOWN—Fairbank, St. Lawrence, Concord and consort, Porter, Chamberlain and barges, Messenger and barges, Spencer, Pennington, City of Mount Delaware, Ballender, Ironton, Nicolet, Nester, Delaware, Balander, Ironton, Rowley, Lady McDonald, Britain and barges, North Wind, Chenango, Wilson, Ononago, C. Clark and barges, Bull and consort.
