Bennett, recently elected leader of the Conservative party, who came home last night to receive a tumultuous welcome from the citizens of Calgary, declared at a banquet given in his honor that no certainty existed that democracy was the best form of government the world had known.

The speaker discussed two questions concerning Anglo-Canadian relations which he said he approached "gingerly". The first of these questions was in connection with Canada's demand that immigrants from the British Isles be of first class physique. Mr. Jones said that he fully sympathized with the demand, but "are we to send our best and keep our worst?" he asked.

CHICAGO MAYOR STRIKES SNAG IN CRUSADE

Injunctions Taken Out to Prevent Bill Thompson Making Bonfire

CHICAGO, Oct. 25.—The frigate in which William Hale Thompson, mayor of Chicago, has been sailing a steady and smooth course to win "firing distance" of pro-English books in the Chicago public library, has struck an uncharted reef. The mayor's threat to seek out and burn in a huge lake front bonfire every book in the library found to have any passage savoring of pro-British propaganda, ran afoul two petitions for injunctions. One was filed by Edward J. Bohac, an attorney, who alleged the threatened destruction was without parallel except in ancient Alexandria, Constantinople and other places, where irreparable injury and damage to civilization was wrought. The other was filed by J. Kentner Elliott, also an attorney, who charged that Mayor Thompson is attempting to become a censor of the literature which citizens and tax-payers should read.

DEDICATION OF MEMORIAL AT RICHMOND

Impressive Service at St. Anne's Church—Tablet Unveiled to Memory of Late Sir Melbourne Tait by Son, Sir Thomas Tait—Special Music by Choir.

RICHMOND, Que., Oct. 25.—A beautiful and impressive service was held at St. Anne's Church, Richmond, on Sunday morning, October 23rd, when in the presence of Lady Tait, (widow of Sir Melbourne Tait), Sir Thomas and Lady Tait, Mr. and Mrs. McGill Tait, (sons), Rev. Ernest McGill, (nephew), and other relatives, a very beautiful tablet, the gift of Sir Thomas Tait, was unveiled by Sir Thomas and dedicated by the rector, Rev. H. O. N. Belford, in the presence of a large and interested congregation to whom the memory of Sir Melbourne is ever an inspiration and incentive to good.

The choir entered the church singing the special dedication hymn "Great God to Thee Our Hearts We Raise," which was followed by the unveiling of the tablet by his son, Sir Thomas Tait, after which a rectorial address was given and recited the special prayers. The choir then proceeded to their places singing the hymn, "O God, Our Help in Ages Past," after which the usual morning service followed with an impressive and appropriate sermon by the rector. The service was conducted by the Rev. Belford, who concluded by the singing of the hymn, "For All the Saints Who From Their Labors Rest," as a recessional.

The tablet is of brass, bordered with maple leaves and mounted in Melbourn, and bears the following inscription: "To the reverend memory of Sir Melbourne Tait, K.B., D.C.L., Chief Justice of the Superior Court of the Province of Quebec, Born at Melbourn, Quebec, 20th May, 1842, Died at Montreal, Quebec, February, 1917. He was for many years a member of this parish, ministering to the congregation in the office of lay-reader, as instructor of its youth in Bible class and as a valued councillor in its administration. An upright man, a just and conscientious jurist, a devout and loyal churchman, a courteous Christian gentleman, a wise and sympathetic counsellor, a faithful friend, whom to know was to trust and love."

Sir Melbourne Tait was born in Melbourn, educated at St. Francis College, Richmond, and afterwards at McGill University. He practiced law in Richmond where he was also secretary of the County. In 1870 he moved to Montreal to enter into partnership with the Hon. J. C. Abbott, (afterwards Sir John Abbott), Premier of Canada, after the death of Sir John A. Macdonald. He was appointed to the judiciary of the Superior Court and afterwards became Chief Justice and received the honor of knighthood. His loyalty, affection and interest in his old church and home were ever an integral part of his life and it might well be said of him he was ever "loyal unto death."

Indian Chief Treasured Perpetual Pass

An interesting incident is recalled by the recent celebrations in honor of the memory of Chief Crow Foot whose wisdom and foresightedness was largely responsible for the signing of the famous Treaty Number 7 which threw open a new empire in the west for settlement.

It was back in the '80's after the treaty with the Blackfoot Indians had been signed, and about the time the Canadian Pacific Railway was pushing its lines of steel into the west, Chief Crow Foot had become known to William Van Horne, then general manager of the Canadian Pacific and as a token of the esteem held for the famous chief by the whites, he was presented with a perpetual pass over the railway Company's lines. This pass became Crow Foot's most treasured possession and he exhibited it with pride among his tribesmen.

In some old records of the Company is proof of the old chief's gratitude. A letter to Van Horne reads as follows: "Great Chief of the Railway

"I salute you O Chief, O Great. I am pleased with railway you, opening the road free to me. The chains and rich covering of your name, its wonderful power to open the road, show the greatness of your Chiefness. I have done."

"His 'Crow X Foot' 'Mark'."

YOU WANT YOUR CHILDREN TO HOLD THEIR OWN
You want to see them among the leaders at school and at play. You take an honest pride in their studies, knowing that leadership in boyhood and girlhood arduous in the spark of ambition that leads to greater success in later life.

But children can't hold their own if handicapped by ill-health. The strain of study and outdoor sports must be balanced by extra nourishment which cannot be obtained from the ordinary food but which is abundantly supplied by Father John's Medicine.

If you are dissatisfied with the children's progress, put them on Father John's Medicine. This old-fashioned body-builder contains the extra nourishment, extra food elements that so many children need to gain weight, gain body, gain strength, gain in bodily vigor and mental alertness. Father John's Medicine, while containing cod liver oil, imposes no burden on the digestive organs and is pleasant to the taste.

For over seventy years, Father John's Medicine has built up pale, frail, under-nourished children and given them the strength to throw off deep-seated coughs and colds. Let it supply the body-building nourishment which your children need in order to hold their own.

Old in Years But Keeps Appetite Young

An acid stomach ages people much more than the years they live; it creates more thin and weak bodies, and faces with sallow complexion than anything else; it causes more bad breath and carves more wrinkles of misery and age than all the other evils put together! Why?

Because a stomach full of acid sours your food, and starves your body.

A tablet or two of Pape's Diapensin chewed after meals will dissolve the acid in your stomach and clear up that sour, bloated, drowsy feeling. It will help your stomach digest your food. You will get back your young appetite; you will gain weight and your complexion will be clear and firm.

All drug stores have Pape's Diapensin.

How VIROL builds FOR LIFE

GEORGE POVALL TO-DAY Age 18

SAME BOY WHEN A CHILD PROOF that only VIROL can show

At 6 1/2 months, Feb. 8th, 1909, George Edward Povall, 5, Central Fire Station, Salford, Eng., wasted away until he weighed only 6 lb. 8 oz. "He was nothing but skin and bones" (see Photo 1). Then he was put on Virol. On March 9th, 1910, just thirteen months after he was first given Virol, he weighed 31 1/2 lbs. and was the fine healthy baby you see in Photo 2.

Not only did Virol effect an immediate improvement in this terrible case of wasting, but it laid the foundations of healthy growth and development. Since Virol saved his life, George Povall has not had a single day's sickness. He has won prizes for running, played football regularly, and to-day he is a well-built muscular boy of 18, in perfect health (see picture at top), as the doctor who attended him in his first and only illness has certified in a letter written recently.

But Virol is not only a life saver. Its extreme value to mothers lies in this. Virol builds up weakly children or children you are "just a little bit anxious about," to really robust permanent health.

These are guaranteed to be genuine photographs and accurate particulars of George Edward Povall. This and every other case published by Virol, Ltd., are open to the strictest investigation by any Doctor interested.

Infant Care

Mothers, you can't start too early to establish a child's serene and tranquil disposition. Even an infant can have a happy, fretless state of uninterrupted health. What will help do this? A simple, purely vegetable product as old as you are: plain Castoria.

A few drops of Castoria will settle all uneasiness in a jiffy. Will dispel colic or ward off constipation; and just as surely check diarrhoea.

In real sickness, call a physician. But many physicians urge only Castoria for those little childish disorders that need nothing more. You need never be afraid to give pure Castoria. It is safe and perfectly harmless, for it contains no paregoric, no opiate, no dope of any kind. At least, this is true of the genuine Fletcher's Castoria—and that is the kind doctors tell you always to buy.

Fletcher's Castoria is fine for any child. All children love to take it.

IT DIDN'T WORK, THOUGH

The presence of a couple of British cruisers in our harbor reminds us of a little story. A warship had not been anchored long and was not yet "thrown open" to the public when a party approached in a row-boat. An officer on deck demanded to know who the intending visitors were. "Oh," came the nonchalant reply, "just a few of the owners."

ADDRESS GIVEN ON JAPAN BY REV. MR. POWLES

Illustrated Lecture at United Church Hall, Cowansville, Well Attended—Thank-Offering Meeting of W.M.S. Held—Personals and Other News Notes.

COWANSVILLE, Que., Oct. 25. —A most interesting talk on Japan illustrated by numerous slides, was given in Trinity Church Hall on Thursday evening, October 20th, by Rev. Mr. Powles, Canadian missionary of the Anglican Church in Japan. Rev. A. T. Love introduced the speaker who is a native of Montreal and who with his wife has spent eleven years in that country.

Mr. Powles wore what would be called a Japanese full dress suit of very heavy grey silk with black silk overcoat, he also showed other costumes which he had with him including wooden sandals and white ankle length stockings divided at the great toe for the strap of the sandal. The description of the custom of choosing ones clothes by a certain color for a certain age was most interesting.

Mr. and Mrs. Powles, while in Japan were situated at the city of Takata in Mid-Japan, where the Anglican Church has oversight of ten dioceses, which have a population of nine million. Miss Isaacs is the only other foreign missionary in the city.

The views of the interiors of the homes with their floors of matting beds of rugs, and heavy comforters with hard head rests, sliding partitions and wooden shutters were very interesting.

The speaker paid a fine tribute to the thriftiness of the people, who through intensive farming, are able to support a family on what in this country would only be considered land enough for a garden plot; and very few had a clear title to even that much land.

Photographs of native pastors and others who had been of great assistance in the work of the Christian Church were shown and very highly spoken of.

The meeting was brought to a close with the singing of a hymn and prayer by the pastor.

Thank-Offering Meeting of W.M.S. The annual thank-offering meeting of the W. M. S. of the United Church, was held at the home of Miss M. J. Cotton on Thursday, October 20th, and was very largely attended. The president, Mrs. C. J. McQuat, was the chair.

The suggested programme in the missionary monthly was followed and proved very interesting.

Mrs. McQuat gave a synopsis of the first two chapters of the new study book, "New Path for Old Purposes," by Margaret Burton. The chapter headings are "New Occasions" and "New Frontiers of Christian Missions". This book shows the essentially missionary character of Christianity, and emphasizes the duty to apply the missionary spirit to establish just conditions in industry, race relations, internationalism and all other relations of life. It brings out the necessity of co-operation between east and west in the development of the Christian Church of the future.

A letter was read from the secretary regarding the details of the allocation for the society, which consists of an outfit for a girl of seven years, in one of the Home Mission Schools. A letter was also read from the missionary monthly secretary urging the claims of the magazine.

The offering amounted to about \$43. Refreshments were served by the hostess, and the meeting closed with prayer by Rev. S. W. Boyd.

25TH WEDDING ANNIVERSARY CELEBRATED

Presentation Made to Mr. and Mrs. E. L. Maynes, of Warden Heights.

WARDEN HEIGHTS, Que., Oct. 25.—A pleasant event took place at the home of Mr. and Mrs. E. L. Maynes, Warden Heights, on October 15th. The occasion being their silver wedding anniversary, their relatives, friends and neighbors decided to celebrate the day by gathering at their beautiful home to the number of about a hundred and fifty people.

To the strains of the wedding march, played by Mrs. Colwill, of Waterloo, Mr. and Mrs. Maynes took their places under the arch to receive the congratulations of their many friends.

Rev. H. Allenby, of Waterloo, then seized this opportunity to present them with a beautiful cabinet of silver, also a well filled purse as a slight token of the high esteem and friendship in which they are held by those present, as well as of many from a distance unable to attend.

Although taken entirely by surprise, Mr. Maynes replied in a neatly worded speech, thanking all, not so much for the gifts as for the friendship and goodwill which prompted them. The bride then cut the beautiful wedding cake, which had been placed on a table in the dining room, while the guests joined in singing, "For They Are Jolly Good Fellows."

Among the out of town guests were Mrs. Geo. Ashton, Mrs. McClashan, Mrs. Con, Mr. Frank Con, Mr. R. Huxtable and Mr. Walter Dave, of Montreal; Mrs. Geo. Cummings, and Miss G. that twinge of pain in the shoulder or elbow

—like sand in the bearings of a machine—that is rheumatism, and the sooner you attend to it the better.

A Radox bath will give you instant relief from the rheumatism as is proved by the following letter:—

"Just to bear testimony to the great benefit I have received from the use of your preparation, Radox Bath Salts. For several weeks past now have been using it for rheumatism (rheumatoid arthritis)—left ankle. Having constantly used it and received great relief, I cannot speak too highly of it, and shall have great pleasure in recommending it."

—A.M.

You can have the same instant relief from the throbbing pain of rheumatism. Simply put two tablespoonsful of Radox Bath Salts into a hot bath. Then sit in it for 20 minutes. The Radox-treated hot water penetrates the clogged pores of the skin and cleanses them from the uric acid which is the chief cause of rheumatism. You will feel a new man after a Radox bath. Don't delay. Get a 60c. pink pack- age of Radox from your druggist on your way home.

SPOKE ON "NEW ZEALAND". The Young People's Society of Plymouth Church held its regular meeting last evening with a good attendance of members and some visitors. In the absence of the president, Mr. Nelson Lethrop, Mr. Harold McCullough, vice-president, was in the chair. After devotional services, the chairman reported for the executive, stating that after mature consideration it had been decided to recommend to the Society that the meetings for the season be held every fortnight, with a varied programme that would be attractive to the members, the meetings to alternate with the Young Ladies' Guild. The members decided unanimously to adopt the recommendation of the executive, the next meeting to take place on November 8th.

The chairman then announced the speaker of the evening, Mrs. Leask, of Napier, New Zealand, who was introduced to the audience by Dr. G. Ellery Read. Mrs. Leask gave a

very delightful and informing address on New Zealand, during which she spoke of its topography, its flora and fauna, and its thermal region, where mother nature furnishes the cooking arrangements to perfection. Her characterization of the Maoris gave a vivid picture of a proud, warlike people who had been won from heathenism and hostility to the white man's Christianity, splendid loyalty to the British Empire and a large measure of culture, some of the very responsible positions in the Government being held by educated Maoris. It was a remarkable tribute to the genius of the British people in transforming a whole nation, a transformation hardly to be looked for after the hostile reception accorded to Captain Cook during his exploration of the islands.

Mrs. Leask referred to the advantages enjoyed by the people in New Zealand. Some of these were far in advance of other parts of the British Empire. New Zealand had made great experiments in social government which were succeeding admirably. Education was free and the schools were of a very high order. Poverty was almost eliminated. Even the Maoris had had their interests safe-guarded by the British Government which forbade that any Maori should sell his land without the consent of the Government. By this measure the natives had been saved from the land grabbers, and as a consequence there were practically no poor Maoris.

Mrs. Leask also spoke of the splendid loyalty of the New Zealanders to the Homeland, and the readiness with which the men answered the call of duty in the days of the Empire's great and the demands of a great war. No part of the British Empire was more loyal than New Zealand.

The address was listened to with the closest attention by all present. Mrs. Leask helped to make her information more vivid by the aid of picture cards projected on the screen. These gave a good idea of the country, the natives and some of their ancestral customs.

A vote of thanks was proposed by Mr. Edgar Kellett, who stressed the fact that Mrs. Leask had shown herself a missionary for her country, and suggested that Canadians should be as well informed and ready to speak of the advantages they enjoyed, advice in which Mrs. Leask most heartily concurred. This part of the meeting closed with the national anthem, after which games were played, into which all entered most heartily, and refreshments were served.

W. I. HELD OCTOBER MEET. The October meeting of the Assot Women's Institute was held at the home of Mrs. A. McCurdy on Thursday, October 20th, with a very good attendance. An exciting report of the quarterly executive meeting at Brompton was given by Mrs. Gibby. Mrs. W. T. Pearson, convenor in charge, reported a very successful event in the form of a reception by the teachers at the home of Mrs. Bradley on October 12th.

Mrs. Asche convenor of the Ploughmen's banquet committee, finished paying for food furnished by members and closed the accounts. The sum of \$40 was turned into the treasury.

Plans were made for health contests to be carried on at the school during the coming year.

The Social Service Committee reported a farewell gift to Mrs. Parkhill who has left this locality and who will be much missed from the W.I. Other plans were made in connection with this branch of the work.

There was a discussion in connection with the Sycuum lectures from McGill and also an illustrated lecture by Mr. Legge, of Granby, but for various reasons it was not considered advisable to undertake either at the present.

The roll call for the day, "Some Place I Visited During the Summer," proved quite interesting. After adjournment bulbs of various kinds were secured from the conveyer of agriculture, Mrs. Asche. Members had been requested to bring geranium slips to this meeting, but only a few were brought in. These are to be used in connection with the contest at the school.

Afternoon tea was served by the hostesses, Mesdames I. J. Parnell, A. McCurdy and E. J. Robinson. They were assisted in serving by the Misses M. Pearson, M. Paige and D. McCurdy.

Little Brown Owl
TODAY'S QUOTATION: "ALL IS CREATED AND GOES ACCORDING TO ORDER, YET O'ER OUR LIFETIME RULES AN UNCERTAIN FATE."—GOETHE.

More About Agents
Dear Brown Owl:—I read with interest—not unmixed with ire—the letters dealing with what was termed door-to-door selling. There are the pros and cons in this as in other arguments, but I wanted to tell you about one of my experiences.

It happened that, at our house, we had been talking about getting a radio. When down town one day I happened to mention to a friend that we were thinking about getting a radio installed.

Well, this is what happened: within five days six agents called at our house and of course each was selling the best radio on the market. Now, I'm so puzzled I don't know whether to buy or not, or if I do, which one? Did you broadcast those few words I carelessly dropped, L.B.O.?

PUZZLED.
Reply.—No, "Puzzled," L.B.O. is not guilty of that broadcasting, even though your words may have been wafted to the Turret Window. In fact, it might be explained that since the appearance of those letters about door-to-door sellers, L.B.O. has been somewhat afraid of agents. There are, of course, the pros and cons, and it is safe to surmise that there are also ups and downs in an agent's experiences, just as in other forms of labor for the almighty dollar.

Agents form a part of our commercial system, and the experience related by "Puzzled" is proof that the Sherbrooke "door-to-door" sellers are right on their job. Their hearing, or perhaps intuition, has apparently been tuned to a high pitch, and let us hope that one of them wins, for "listening in" is lots of fun.

Today's Questions
Dear Brown Owl:—Will you please give me a little information about the Bowers in New York?
Also, please tell me the meaning of the word "kilt"? Does it mean the whole costume, or only part?
CANADIAN GIRL.

Reply.—The Bowers was once a plantation and was named by the early Dutch settlers. Later it became a street and passed through the farm of Governor Stuyvesant, and was noted for its cheap shops and places of amusements, while the people who frequented that section in "Old New York" were of the loud, flashy type. The "Bowers Kid" was a unique American type of street gamin, and for a long time was a favorite role for comedians to portray.

The visitor of today to the Bow-

ery finds an entirely different place. The street is wide and clean; there are some fine mission homes which have done splendid work in changing the old conditions relative to vice and cheapness, and a feature of the Bowers are the coffee-houses. As one strolls along, or goes the length of the street on the cars, the idea is formed that there's a coffee-house in every block.

The Highland kilt, or "phibbeg," and the tunic formed a single garment up to the end of the 16th century, we are told. The word "kilt" means "that which is girded, or tucked up" and is probably of Scandinavian origin. The Danish word "kille" means to "tuck up," but the chief mark of distinction of the Scottish kilt is the tartan, by which the various clans are distinguished;

in the plaid and colors. The Highland costume, today, consists of various garments and decorations, but the kilt is always heavily pleated and reaches not quite to the knees. It is a handsome and striking costume.

CHICAGO'S SILLY MAYOR.

The ways of the politician are curious, and it is probable that Mayor "Bill" Thompson is playing the political game, appealing to Chicago's foreign and anti-British population, in his crusade against pro-British books in the Chicago library. The seven thousand volumes, contributed by Queen Victoria and British friends following the Chicago fire, must include many standard British works, all of which are or ought to be friendly to British institutions. These will be dry with age and will serve as kindling for the mayor's big fire. The head of Chicago's civic government ought to know that the library that contains only one side of the question, and that the flattering home brew, is useless for the purposes of the student. One does not have to accept divergent views of various historical writers, but it is necessary to read them and digest them if one would reach a correct understanding.

Suppression of the press and of literature has been tried by many governments, in the age of autocracy, and it has never accomplished the purposes intended.

As a spectacle of civic foolishness, Chicago's mayor should receive the 1927 prize.

DANES AS SETTLERS IN CANADA

A number of Danish settlers came to the Eastern Townships this year and were placed on farms. Reports indicate that they have proven very acceptable. Denmark is a great dairying country and, it is to be expected, that sturdy migrants from that land would prove good farmers in Canada.

According to the St. John, N.B., Telegraph that province is seeking to secure Danish settlers. "As Denmark appears to have encountered a serious labor problem," says that paper, "this would appear to be an exceptionally favorable time to increase the flow of Danish immigrants to Canada, particularly to New Brunswick, where they have made so fine a record. According to Philip Snowden, who was Chancellor of the Exchequer in the British Labor Government, Denmark, instead of being the universally prosperous country pictured, actually has the largest percentage of unemployed in any country in Europe."

Northern European peoples, whether from Denmark or the Scandinavian peninsula, have always proven good settlers for Canada. The immigration to this country should be encouraged as far as possible.

PLAYING BOWLS ON PLYMOUTH HOE.

(The following is from Drake, Book X., by Alfred Noyes, the noted British author and poet, who lectures at Bishop's College this evening.)

There, while the ships refitted with all haste
 And axe and hammer rang, one golden eve
 Just as the setting sun began to fringe
 The clouds with crimson, and the creaming waves
 Were one wide riot of fairy rainbows, Drake
 Stood with old comrades on the close-cropped
 green

Of Plymouth Hoe, playing a game of bowls.
 Far off unseen, a little barque, full-sail,
 Struggled and leapt and strove tow'rd's Plymouth
 Sound.

Notless as any speckled herring-gull
 Flickering between the white flakes of the waves.
 A group of schoolboys with their satchels lay
 Stretched on the green, gazing with great wide
 eyes

Upon their seamen heroes, as like gods
 Disporting with the battles of the world
 They loomed, tossing black bowls like cannon-
 balls

Against the rosy west, or lounged at ease
 With faces olive-dark against that sky
 Laughing, while from the neighboring inn mine
 host

White-aproned and blue-jerkined, hurried out
 With foaming cups of sack, and they drank deep,
 Tossing their heads back under the golden clouds
 And burying their bearded lips. The hues
 That slashed their doublets, for the boys' bright
 eyes

(Even as the gleams of Grecian cloud or moon
 Revealed the old gods) were here rich dusky
 streaks

Of splendour from the Spanish Main, that shone
 But to proclaim these heroes. There a boy
 More bold crept nearer to a slouched hat thrown
 Upon the green, and touched the silver plume,
 And felt as if he had touched a sunset-isle
 Of feathery palms beyond a crimson sea.

PRESS COMMENT

THE LEAGUE OF NOTIONS.

(Paris Avenir)
 For the first time, perhaps, since the foundation of the League of Nations, scepticism with regard to it appears to be general. Here are the delegates of fifty nations gathered together, including forty Foreign Ministers. An impressive gathering. But the mountain in labor looks as though it is about to bring forth a mouse. The motto of the session seems to be "What is the use?" ... The League of Nations, and particularly the Assembly, is to blame for trying (at all cost) to appear as though it were doing something, for leaving its proper sphere and projecting nebulous chimeras into the air which the cold blast of reality instantly dissipates. ... The chief virtue of the League is not what it does, but what it is.

WHAT ABOUT RUSSIAN KILLINGS?

(Chicago Tribune)
 A recent Associated Press cable from Leningrad reports that of twenty-six persons charged with espionage in Russia on behalf of the British intelligence service, nine were sentenced to death by shooting. Is the Soviet at war with Great Britain, that so-called espionage deserves the death penalty? Europe has been resounding with fulminations over the alleged judicial murder of two Italian anarchists, Sacco and Vanzetti. Why the silence over the nine alleged spies who are to be shot by order of the Communist government of Russia? Why are the intellectuals who have been trying and condemning American society in the name of humanity so patient with the Soviet killings? The execution of human beings for their opinions has been going on ever since the Bolsheviks captured power in Russia and goes on today. Its victims are not two, nor yet two hundred, nor two thousand. They are as yet unaccounted. They never will be counted. But more concentrated noise was made over Sacco and Vanzetti than over the massacre of thousands by the self-styled champions of humanity in Russia. Why not a world-wide protest against the most sanguinary tyrant of modern times?

GLORIFYING JESSE JAMES.

(Philadelphia Public Ledger)
 Announcement of a project to erect a monument to Jesse James at Kearney, Mo., may move the judicious to grief, but the general public, having acquired a sort of immunity to shocks in these convention-destroying, copy-scurvy times, may receive the news with philosophic calm. For the "movies" and modern fiction have placed crimes and criminals before us in a new and designedly favorable setting. The screen has rehabilitated the "bad man" of the West and presented him in the light of a hero—one with regrettable tendencies toward homicide and the laws of property, perhaps, but the possessor, after all, of many engaging qualities. As for modern fiction, valiantly supported by psychologists of the new school of behaviorism, it argues that even the desperado and man-killer is "more to be pitied than scorned." Old-fashioned moralists, of whom there are a few left, may regret this latest manifestation of the tendency to place the criminal literally on a pedestal. By the way, will Jesse have an equestrian statue? But those who send flowers to condemned criminals and look upon the law as an oppressor rather than the protector of society will surely contribute to the Jesse James monument fund, with the remark, perhaps, that if the influence of the departed bandit was not always elevating, at least no other man in our history succeeded in holding up so many people.

"THE DESERTED VILLAGE" IN PROSE.

(Christian Science Monitor)
 For those who delight in Goldsmith—and they are many—a recent news event of importance is the discovery of a prose version of "The Deserted Village," antedating the poem by eighty years and shedding light on the social conditions which it describes. It has hitherto been assumed by a number of commentators that the poem was largely the result of boyhood impressions, and it has generally been accepted that "Sweet Auburn" was none other than the Lissos of Goldsmith's school days. Even the characters are identified with members of his family, relatives or friends. To what view the new version will alter these views remains to be seen. Goldsmith was in the habit of noting down his impressions. Indeed, it is said that he first set down in words the ideas embodied in "The Deserted Village," that he next made a rough draft in verse, and that he finally altered to his own satisfaction on the margin of the paper whatever he had written. In other words of his similar method was employed. "The Vicar of Wakefield," cherished still as one of the most charming books in print, was lengthened with material much of which is apparently irrelevant to the essential story. But he was not alone in employing this method of writing, for Dickens at a later day is believed to have adopted it in the Pickwick Papers, and other authors have found it a convenient way to proceed. Whatever the origin of "The Deserted Village," one can always turn to it with pleasure, confident in the knowledge that it has lost none of its freshness, for the underlying idea is as much before the world today as it was when the poem was written. Goldsmith, in words that will ever be remembered, gave voice to the virtues and charms of the simple peasant life: Yes! let the rich deride, the proud disdain, These simple blessings of the lowly train, To me more congenial to my heart, One native charm, than all the gloss of art.

If the discovery of the prose version does little else than revive interest in the writings of Goldsmith, it will have served an excellent purpose.

After the devotional exercises, which were led by Mrs. Leask, the usual business routine was carried out. The treasurer gave a report, which was very satisfactory. The Young Peoples Society of St. Andrew's Presbyterian Church met last evening in the church hall. The president, Mr. Roderick Bownard, presided, and Miss Vera Ray, the secretary, presented items of business. The Society had the pleasure of listening to Prof. Boothroyd, of Bishop's University. The subject of the address was based on the humorous and truly human incidents which the historian discovers when he has access to the documentary sources of a certain period of ancient or medieval history. This was illustrated by incidents quoted from the time of King Alfred, the period of the Crusades, and also during the French regime of Canada. The address was given by Prof. Boothroyd in his own intensely interesting style. The professor is a prime favorite with the young people of St. Andrew's. A vote of thanks was tendered the speaker by Miss Helen Robertson and Rev. Alfred Bright. During the evening Mr. Ralph Gustafson delighted the audience with two instrumental solos. An invitation was received from St. Peter's Young People to visit them in the near future. The attendance was large and the evening one of the most enjoyable for some time past.

ANNUAL BAZAAR WAS CONCLUDED LAST EVENING

Believed that Proceeds Will Exceed Those of Former Years—Large Throngs in Attendance Every Day and Evening.

One of the most successful of the annual bazars, given in the basement of the Cathedral for the benefit of the institutions of the Grey Nuns in Sherbrooke was concluded last evening. The amount of the proceeds will be determined today or tomorrow, but it is thought that they will exceed those of former years. Those in charge were busy until very early this morning raffling off the many articles donated for that purpose.

The past week has been a very busy one for all connected with the work at the bazaar. Those in charge of the booths have been present every afternoon and evening. Supper was served at the bazaar every day, and different groups assisted in the serving. In the afternoon, bridge and "900" were played. A number of attractive prizes were donated and were awarded to the winners each afternoon.

Children from the different Catholic schools in the city visited the bazaar in charge of their teachers, each school taking a different afternoon. Yesterday the orphans from the Sacred Heart Hospital were entertained there. They were conveyed to the Cathedral in trucks. There were about three hundred of them and they enjoyed themselves thoroughly. They were treated to refreshments, served at long tables.

The little children, some of whom were only three or four years old, spent what money they had and returned with balloons, candy and small articles they had purchased.

The popularity contest in which Miss Mariette Cabana and Miss Paule Mignault were competing, and which was to be won by the one bringing in the most money for the bazaar fund, was won by Miss Mignault.

People have been most generous this year in contributing to the bazaar, and those in charge have worked continually to make the event a successful and profitable one. The attendance throughout the week has been large and the bazaar has quite come up to the expectations of those who have worked and planned for it.

MAYOR'S VOTE SETTLED PHASE

(Continued from page 1) for one thing accused the Chief Magistrate of giving out information to the press, which he, (Ald. Langie) apparently felt was not any concern of the taxpayers, although it was in regard to the Westbury matter.

At the outset of last night's meeting Alderman Forest, it is believed, told the Council that he was not in favor of discussing the business behind closed doors, as it was a matter of concern to the citizens, and they should be given an opportunity of following what was being done. Before he was successful, however, in getting his comrades into the Council Chamber, the discussion was started in private and consequently was finished in the same manner, although this morning more of the developments of the meeting were available than had been the case on former occasions.

The matter as it now stands, while a little more definite than it was a few days ago, is not yet fully cleared up.

The aldermen have awarded the contract to the Newton Construction Company, plus the additional clauses asked for by the construction company, but have not yet signed the contract in their endeavors with the Government, regarding the signing of the lease for the river bed. This makes the situation boil down to the fact that the contract has been signed with the construction company, but the city so far has no claim on the site where it is planned to build the dam and other apparatus for additional power development.

The Mayor has refused to sign the contract with the construction company until the matter is definitely and finally settled with the Government.

Matter Can be Settled Without Mayor's Signature.

Although the Mayor has refused to sign the contract until the question of the Government lease is settled, it is understood that, according to clause 32 of the Cities and Towns' Act, the matter can be legally be settled without the Mayor's signature. The clause in this regard reads as follows:

"Every by-law, resolution, obligation or contract approved by the Council shall, within forty-eight hours after its approval, be presented by the clerk to the Mayor for his approval and signature.

"If he refuse to sign them he shall return the same, with his objections in writing, to the clerk, who shall submit them for reconsideration at the next sitting of the Council, as a matter of urgency and privilege.

"If the absolute majority of the aldermen reaffirm such by-law, resolution, obligation or contract, the mayor shall sign and approve the same, and if he refuse such by-law, resolution, obligation or contract shall be legal and valid, if signed and approved by him subject, nevertheless, to any special provision of law by which a specified majority of the Council is required for the approval of a by-law, resolution, obligation or contract, or where the approval of the mayor, specially required." 13 George V, c65, s32.

FALL IN TUB OF BOILING WATER PROVED FATAL

Four-Year-Old Daughter of Mr. and Mrs. Ferdinand Savard, of St. Edwidge de Clifton, Passed Away While on Way to Hospital Sunday.

ST. EDWIDGE DE CLIFTON, Que., Oct. 25.—A fatal accident occurred here on Saturday last when Madeline, the four-year-old daughter of Mr. and Mrs. Ferdinand Savard, was fatally burned when she fell into a tub of boiling water placed on the floor by her grown-up sister, who was preparing to wash the floor.

The little girl, during the course of her play, backed up against the tub, lost her balance and fell into the water backwards. The elder sister immediately pulled the child out of the water and called a physician. The medical man did all he could to help the little sufferer, and ordered her removal to the hospital on the following morning. The trip, however, proved too much for the child, who passed away while on the way.

MORE MINES WERE CLOSED YESTERDAY IN COLORADO

Peace Officers Are Continuing Their Drive Against Picketing—Disorders Narrowly Averted at Several Camps.

(Associated Press Despatch) DENVER, Colo., Oct. 25.—More mines were closed as the I. W. W. strike in Colorado's mining fields spread to new territory yesterday, while peace officers continued their drive against pickets and narrowly averted disorders at several camps.

Parading away from their homes at Walsenburg, a large group of pickets and strikers yesterday paid a surprise visit to coal properties in the adjoining county of Las Animas and caused the suspension of seven additional properties.

Mine company officials said the strike was growing more serious. Additional guards have been sent to the C. F. and I. mines from the steel works of the company at Pueblo.

SAYS CANADA FOLLOWED PRINCIPLE OF OPENING DOOR VERY WIDELY

(Canadian Press Cable) GENEVA, Oct. 25.—At a League of Nations conference called yesterday to discuss the abolition of prohibition on imports and exports, W. A. Riddell, former deputy minister of labor in Ontario, declared that Canada had followed the principle of opening the door very widely. Canada, he said, could only bind herself to a convention which would not clash with provincial legislation.

Mr. Riddell said he would like a relatively "tight" convention, though it was essential to avoid extremes.

MONTREAL LIVE STOCK MARKET QUOTATIONS

Prices Paid for Cattle and Other Live Stock at the Montreal Stock Yards.

(Canadian Press Despatch) MONTREAL, Oct. 25.—Live stock for sale on the two markets this morning amounted to 242 cattle, 1,480 lambs, 1,634 hogs and 117 calves. In addition there were half a dozen cars due before noon.

The canners and common bulls were steady at from \$2.75 to \$3.25 for the canners, and \$3.75 to \$4.50 for the bulls, according to weight. There were no good veals. Some very common ones were sold for \$10 to \$11.50 and a few fair ones at \$12. Grassers were mostly \$5.

Practically all the lambs received today were sold on contract at yesterday's prices. Good ewes and wethers \$11.25 to \$11.50 and common ones \$9.50 to \$10.75 according to quality. Bucks were \$2 per cwt. lower.

There was a large percentage of very light hogs included in today's offering. Hogs weighing less than 100 pounds were sold for \$9.25 and \$9.50, and good quality hogs were generally \$10, either fat or graded, with an odd sale reported at 10c more.

THREE MEETINGS OF CABINET IN A WEEK'S TIME

Will Likely Discuss Agenda for Provincial Premiers' Conference—First Session Today.

OTTAWA, Oct. 25.—The cabinet council will hold three sittings this week. The first of these meetings will take place this afternoon; while the other two sessions have been called for Wednesday and Thursday.

The agenda for the coming Inter-provincial Conference of premiers will, it is understood, occupy the major part of the time of the Cabinet at this week's deliberations. Preparations for the conference, which opens on November 3, are already well advanced; and by Friday, it is expected, arrangements will be completed.

The provincial premiers will, in all probability, meet behind closed doors; and an official statement will be handed out each evening covering the deliberations for each day. It is unlikely that a verbatim copy of the discussions will be prepared. Chief among the subjects which are expected to be considered are the questions of increased subsidies to the provinces, senate reform, amendments to the British North America Act and the respective rights of the provinces and the federal Government over water powers, such as the Carillon, on the Ottawa River. "Blue sky" legislation and the possible enactment of a federal law to set out more clearly the powers of companies incorporated under Dominion or provincial letters of incorporation will, it is intimated, be also under discussion.

STATES BOTH WRONG (Canadian Press Despatch) WELLINGTON, N. Z., Oct. 25. (Cable via Reuters)—(Bishop Barnes)—Most Rev. Dr. Churchill Julius, archbishop of New Zealand, referring to Canon Bullock-Webster's recent demonstration against Bishop Barnes in St. Paul's Cathedral, London, said he was shocked when he learned of it. "The Bishop of Birmingham is very clever, very contentious and somewhat narrow minded," said Archbishop Julius. "The clergyman who denounced the Bishop represents a very large body of churchmen. I say both were wrong because both were partial."

FAIRLY STRONG TONE RECORDED AT MONTREAL

Brazilian, Nickel and Spanish River Were Most Active and All Three Moved Upward.

(Canadian Press Despatch) MONTREAL, Oct. 25.—Brazilian, Nickel and Spanish River were the most active features during early trading on the local stock exchange today, and all three moved upward. Brazilian went from 190 1/2 to 191, Nickel from 63 1/2 to 64 1/2, and Spanish gained a point at 130.

Evidently the proposed merger between Abitibi, Spanish and several other similar companies had little effect on the early trading, as Spanish was the only one of those mentioned to enter the lists.

Other changes were: Massey Harris off 1/4 at 35, Steel up two at 161, Bridge up one at 130.

Missouri Pacific, New York Central, New York Ontario and Western were a point or so higher. International Harvester and Houston Oil had initial gains of 4 and 2 points, respectively. General Motors opened with a sale of a block of 5,000 shares from 127 to 127 1/2, an overnight rise of three points. Dupont opened down two at a new low for the current movement.

NEW YORK PRESS MARKET COMMENT

Furnished by McManamy & Walsh

Wall St. Journal—It was noticeable that drives on the down side were no longer attaining the success which attended similar efforts last week.

Journal of Commerce—There was a lack of positive trend to the market in the last hour of trading yesterday, when considerable nervousness was manifested in speculative circles over today's United States Steel Corporation quarterly statement, which is expected to make a poor showing.

Wall St. Journal will say today: Georgia Central utility \$150 a share.

Bon Ami profits greater.

American Car and Foundry earnings dividend.

Gulf States Steel makes fair showing.

Seagrave Corporation earned \$75, 116 in third quarter.

Motor Wheel income less.

Marland deficit less for quarter.

President Morris expects N. & W. to show \$20 a share.

Country And Dairy Produce Prices

MONTREAL, Oct. 25.—The following are the prices ruling yesterday in country and dairy produce:

BUTTER—The condition of the market for butter yesterday was unchanged owing to the continued limited demand for supplies and the small volume of business passing for the season of the year. Sales of odd small lots of current receipts of Eastern Townships No. 1 pasteurized creamery butter were made at 37 1-2c to 37 3-4c per lb., and No. 1 held stock at 37c to 37 1-4c per lb.

EGGS—There was no change in the condition of the situation yesterday, prices for all grades being maintained under a steady demand for supplies, and a fair amount of business was done in fresh extras at 56c to 57c, firsts at 46c to 47c, and seconds at 40c to 41c per dozen, while storage extras sold at 44c, firsts at 42c, and seconds at 38c per dozen.

POULTRY—The tone of the market for storage dressed poultry remains steady, and in a jobbing way a fair trade was done, which is attributed to the fact that very little fresh-killed dressed poultry is coming forward on account of the mild weather. Sales of selected turkeys weighing 6 to 13 lbs. each were made at 37c to 40c per lb.; green ducklings weighing 5 to 6 lbs. at 31c to 34c per lb.; domestic ducklings weighing 5 to 6 lbs. at 28c to 31c per lb.; selected ducks weighing 5 to 6 lbs. at 26c to 29c per lb.; selected geese weighing 8 to 12 lbs. at 25c to 28c per lb.; squab broilers at 36c to 41c per lb.; selected chickens at 30c to 37c per lb.; selected fowl at 22c to 32c per lb.

POTATOES—The market for potatoes was without any special feature yesterday, the undertone being firm on account of the fact that supplies on spot in first hands were not excessive, for which the demand was steady, and a fair trade was done, with sales of Prince Edward Island Green Mountains at \$1.45 to \$1.50 per bag of 90 lbs.; New Brunswick Green Mountains at \$1.40 to \$1.45 per bag in bulk; cobbles at \$1.30 to \$1.35 per bag in bulk; and Quebec choice white stock at \$1.25 per bag in bulk ex-truck.

NEWS OF SPORTING WORLD

CANZONERI WON DECISION OVER JOHNNY DUNDEE

However, Manner of Contest Last Night Left Much to Be Desired—Crowd Called for Action.

(Associated Press Despatch) NEW YORK, Oct. 25.—A former New Orleans bootblack, Tony Canzoneri, has enhanced his claim to the featherweight championship of the world by a fifteen round victory over Johnny Dundee, the former title holder. But the manner of his latest conquest leaves much to be desired. Canzoneri plainly carried the veteran over the limit last night at Madison Square Garden, but there was not a damaging punch landed and Canzoneri, while giving the old master a boxing lesson, showed that he is unversed in the art of pulling his punches and making them appear real. A crowd of approximately 10,000 began calling for action in the fourth round. While Dundee, casing a come-back after a year's lay off, was wildly cheered as he entered the ring, he was roundly booed at the final song. Many of the spectators left the Garden at the end of the seventh round. As the New York State Athletic Commission did not recognize the contest as involving the featherweight championship, it is probable whether that body will call a hearing to consider the suspension of one or both of the principals. Dundee, who only a month ago weighed 140, entered the ring at 125 1/2 pounds, a half pound under

the featherweight limit, while Canzoneri scaled 124.

TO GROOM WALKER FOR HEAVIER RANKS
(Associated Press Despatch) CHICAGO, Oct. 25.—Jack Kearns, who has pestered Jack Dempsey, his former pal, through the courts for years claiming his managerial percentage, now talks of seeking revenge in the ring. Kearns' plan is to groom Mickey Walker, middleweight champion, for the heavier ranks as weight adds itself to Mickey's figure. Walker, who is about ready for the light heavyweight class now and will be able to mix with the biggest boys before long. When that time comes, Kearns hopes Dempsey may be one of those in Walker's path.

Walker meets Mike McTigue here November 1.

RESULTS OF LAST NIGHT'S BOUTS

GOLF AS CHAMPIONS PLAY IT

What points are most important in getting distance on a drive? By JOE TURNESA
Runner-Up National Open Championship, 1926. Shreveport Open Champion, 1927. Sacramento Open Champion, 1927.
In order to obtain more distance, stand with left foot forward so as to get the full benefit of the pivot, with weight on the right foot so as to be well behind the ball. Start the swing with the left hand, the left shoulder turning immediately with the club to bring the swing up at full length to top of the right shoulder.

Starting down, swing with the whole left side, meaning the left arm, left hand and shoulder. Hitting with the right hand and right hip, turning fully through the ball, finishing with hand well out, with weight on left foot—this gives more pivot and more pivot means more distance.

LETTERS TO THE EDITOR

ANSWER TO "SPECTATOR."

To the Editor,
SHERBROOKE RECORD.
Sir—Will you kindly allow me the use of your column to reply to "Spectator," who would give the impression, from the tone of his remarks as being a sportsman, and ask why he goes behind a nondeplorable to air his views.
First, may I ask, has the Eastern Townships Football Association a claim over other sporting organizations to the use of the Parade grounds?

Second, Does not "Spectator" appreciate the fact that the local football clubs have had every Saturday from the month of May until the opening of the rugby season without any interference from the other sport organizations?
Third, Does he expect the executive of the E.T.F.A. to treat their agreement with other sporting organizations as a mere scrap of paper?

Fourth, Does "Spectator" feel that to show real sportsmanship this game should be played on the "Ball Park" in opposition to the rugby clubs, because the latter are having their legitimate rights? Now, Mr. Spectator, if you are not afraid to sign your name, make yourself known and we will be pleased to answer any of your questions, (publicly) and let the public decide where the sportsmanship lies.
Yours very truly,
H. L. PETTS
Sec. Treas.

HERMAN GIRARD MAY NOT FACE SECOND CHARGE

Rumored that at Coming Session of Court of King's Bench Crown May Make Motion that Second Charge Against Richmond Youth Now Serving Seven Years for Death of Young Girl Be Dismissed.

According to rumors heard in regard to the coming session of the Court of King's Bench when the court meets on November 3rd, a motion may be made by the Crown that the second charge against Herman Girard, of Richmond, who is now serving a seven year term in the St. Vincent de Paul Penitentiary for manslaughter, be dismissed.

Girard, it will be recalled, was arrested on a charge of manslaughter following the death of young Irene St. Germain in Richmond. He appeared before at the last session of the Court of King's Bench, and in June, 1926, was sentenced by Mr. Justice Archambault to seven years in the penitentiary. The second charge, more serious than manslaughter which he was also facing, was left over until the coming session of the court, but, according to rumors, this charge will be withdrawn, and justice will be satisfied with Girard serving seven years for the death of the young servant girl whom he took out in his car one night and whose dead body he brought home.

Better the Man with His Eye to the Sky than the Man with His Ear to the Ground

ALL through its long, successful history, General Motors of Canada has had its eye to the horizon . . . listening not for what followed, but looking always toward the thing ahead.

And General Motors has seen many of its visions realized.

It has seen a great industry grow up in Canada to supply the Canadian family with a means of transportation to meet its needs and resources, to answer the desire for style, dependability, luxury.

It has seen, in the Canadian Fisher Body plants, the perpetuation of Canadian ideals of craftsmanship.

It has seen, in the General Motors Research laboratories, the development of countless advances and refinements on which much of modern motoring comfort depends.

It has seen, on the General Motors Proving Grounds, the proof of principles which are now accepted factors in automobile design and construction.

It has seen the triumph of co-operative purchasing and manufacturing methods with their resultant economies to be shared with the buyers of General Motors cars.

And the eyes of General Motors are still to the horizon . . . still seeking new ways to improve General Motors cars and to place the cars within reach of ever-widening circles of Canadian buyers.
