

MARTIAL LAW THROUGHOUT SPAIN.

Naval Infantry Ordered to Barcelona Owing to Grave Situation.

CENSORSHIP OVER NEWS VERY SEVERE.

Madrid, July 29.—(Special).—In view of the grave situation in Barcelona, which steadily is growing more serious, the naval infantry has been ordered to that city.

Senor Lacierva, Minister of the Interior, now termed the Spanish Republic, today announced that any newspaper-printing reports disagreeing with the official information would be prosecuted and the edition suppressed.

The statement was issued this morning by the Ministry of Finance, designating to stop the fall of Spanish securities. It says that the Treasury has \$18,000,000, of which \$13,000,000 is in gold. No extraordinary taxes are contemplated.

Since the declaration of martial law throughout Spain yesterday the censorship over news has been more severe.

The complete mobilization of the Spanish army has been ordered.

CITIZENS ORDERED TO THEIR HOMES.

Madrid, July 29.—(Special).—The Military Government of Barcelona today published a decree ordering the inhabitants of the city to return to their homes.

After 24 hours anyone found in the street is liable to be shot on sight.

SITUATION IN SPAIN VERY GRAVE.

London, July 29.—(Special).—Information received through diplomatic channels in London tends to accentuate the gravity of the situation in Spain. It is intimated that there is reason to fear that the garrison at Madrid itself has been tampered with by the insurgents.

CONSTITUTIONAL GUARANTEES SUSPENDED BY KING.

Madrid, July 29.—King Alfonso yesterday afternoon issued a decree proclaiming martial law and the suspension of constitutional guarantees throughout Spain.

"DOWN WITH THE KING!"

London, July 29.—Special despatches from Madrid describe the situation as extremely grave. King Alfonso was wildly hoisted in the streets on his arrival and the Government is doing its utmost to minimize the effect of the rioting reverses suffered by the Spanish forces at Melilla. It will be obliged to send large reinforcements to that point.

Brigades of discipline are common both at Melilla and the Madrid barracks, and the despatches declare several soldiers have been shot daily for insubordination. It is also asserted that a whole battalion recently refused to fight at Melilla and fled, leaving their colonel to be killed, while several companies, when ordered to the firing line, retired by compelling their officers to go in front. This accounts for the heavy mortality among the officers.

In Catalonia the Socialists and other extremists are fanning the flames of revolution. Already the cry is heard, "Down with the King!"

TERRIBLE DISTURBANCES.

Late telephone advices from Barcelona describe the disturbances as terrible, especially in the Palleto, district, where gendarmes and mounted artillerymen charged the mobs with drawn sabres.

A mob headed by women was dispersed by cavalrymen this afternoon, women and children being shot.

Red Cross workers are giving aid to the wounded, the municipal doctors being unable to attend to all.

HIDE THIEVES FOUND GUILTY.

Heard and Leonais Denied Any Knowledge of Theft.

THE THREE MEN WILL RECEIVE THEIR SENTENCE ON FRIDAY.

The case against Leonais and Heard, charged with the theft of hides at Coaticook, was heard before Judge Maivene, yesterday afternoon.

Converse, one of the three alleged thieves, and pleaded guilty, some days ago, went into the box and gave evidence for the prosecution.

He swore that on the night in question he was under the influence of liquor, and started out for a drive. He met Heard and Leonais and they entered his wagon. When they had gone a short distance Leonais said that they should not go any farther, whereupon Converse said that he knew where they could get some hides at Smith's place in Coaticook.

They drove to Coaticook and left their team near the Grand Central Hotel, and Converse and Heard went to Smith's place. Converse went into the cellar of the shed and secured several bags of hides. They hid the bags in a fence. During this time Leonais was watching on the sidewalk. They then went to the team and put the bags in it and started for home. They then drove towards home, and

HORRIBLE TRAGEDY AT BARRE, VT.

Woman Shot and Murderer Takes His Own Life.

NO CAUSE CAN BE LEARNED FOR THE TERRIBLE ACT.

Barre, Vt., July 29.—(Special).—A shocking tragedy was enacted here last Sunday, when a Mrs. Mascott was murdered in cold blood, and her assailant afterwards shot himself. Mr. Mascott lived over their store, and the two clerks in the store boarded with them. On Saturday they had their dinner as usual, and there was no indication that anything was wrong. After dinner Mr. Mascott went to the store to write some letters, and one of the clerks took the two children and put them to bed, as he complained of a headache. Mrs. Mascott was doing the after-dinner work.

Shortly afterwards the reports of three shots were heard by a neighbor, who rushed in, and was horrified to find Mrs. Mascott dead. It was found that there were two bullets in the back of her head. The young man was also found lying on the floor, with a bullet in his head. He was then alive, but could not speak. He was removed to the hospital, where he died shortly afterwards.

Mrs. Mascott was a fine woman, of excellent character, and the mother of two children.

No cause for the tragedy can be learned, but it is believed that the young man was taken suddenly insane.

WOMAN DYING FROM BURNS.

Fatally Injured in Early Morning Fire at Montreal.

COULD NOT FIND WAY OUT OF HOUSE, OWING TO SMOKE.

Montreal, July 29.—Burned so badly that there is no hope for her recovery, as a result of a blaze that broke out at 1 o'clock this morning at 353 Mathieu Lane, Mrs. Fernand Therrien, 48 years of age, was brought to the Notre Dame Hospital in an ambulance, and her husband, who was burned about the face, hands, arms and feet, was taken there with her. The surgeons say his injuries are not serious.

The couple resided in a tenement of two rooms on the upper floor of a two-story brick enclosed building at 353 Mathieu lane.

The blaze broke out in the kitchen and the general living room of the house, while the man and woman were asleep in the room in rear, so that when they awoke and found the house on fire they had to fight their way through the flames to the gallery in front.

They could not find the door leading out onto the gallery owing to the smoke and flames, and had to break through a window.

When Mrs. Therrien reached the gallery her clothing was all ablaze, and in her terror and excitement she jumped to the ground, a distance of fifteen feet.

She was still conscious, but suffering frightful agony, even the hair having been burned from her head when neighbors who had been attracted, by the screams of the couple came to her rescue and smothered the flames that were consuming her.

Therrien, who was not near so badly burned as his wife, was taken from the gallery by the first fireman to arrive in response to an alarm turned in.

When the surgeon who accompanied the ambulance saw the condition of the woman, he said there was little, if any, hope for her recovery, as in addition to the burns from which she was suffering, she must have sustained internal injuries as a result of her fall from the window.

The fire is supposed to have been the result of a lamp explosion.

It took the firemen, under Sub-Chief St. Pierre, only a few minutes to extinguish the blaze, and while the interiors of the two rooms were badly gutted, the damage will not amount to more than \$200 or \$300.

MUST HAVE ARMY OF LONG RANGE.

Hon. Mr. Haldane Says British Empire One and Indivisible on Defence.

SIR F. BORDEN SAYS CANADA WILL SPEND LAST DOLLAR TO MAINTAIN INTEGRITY OF EMPIRE.

London, July 29.—In proposing the toast of the "Imperial Defence Conference," at the British Empire Club banquet, in the Guild Hall, last night, Mr. Haldane declared:

"There is only one maxim which we can lay down, that the British Empire is one and indivisible on this question of defence. (Cheers.) I believe it to be one and indivisible on this question, that on that maxim that the army, which really concentrated. We recognize that command of the sea must come in the first place, and that the army, which is to protect the Empire, must be no army chained to these shores, but an army of long range, suited to deal with problems at long range."

Sir F. Borden in reply, said that while Canada stood upon her rights,

FOUND UNCONSCIOUS BY THE WAYSIDE.

Young Man Now Lies in Critical Condition.

FARMER BROUGHT HIM TO HIS HOME AND HE IS BEING WELL CARED FOR.

Lawrenceville, July 29.—(Special).—A gentleman driving along about a mile and a half from here, last Monday, about four o'clock, found a young English boy lying by the road in an unconscious condition. He picked him up and took him to his own house a short distance away, and tried to bring him back to consciousness but failed to do so. He then called the priest in. Word was sent to Mr. A. J. Brown's as it was thought he might be their boy, but he was not identified.

The doctor was called in and everything possible was done to restore him to consciousness, but without avail. He is evidently a stranger in these parts. His complexion is fair with sandy hair, and is about five feet in height.

CELEBRATED THEIR GOLDEN WEDDING.

DR. AND MRS. THORBURN, OF OTTAWA, FORMER RICHMOND RESIDENTS.

Many residents of the Eastern Townships, particularly of Danville and Richmond, and former students of St. Francis College, who recall the days of Dr. John Thorburn's residence here, will be interested to read of Dr. and Mrs. Thorburn's golden wedding celebration at Ottawa recently.

The Ottawa Journal reports this interesting event.

The Journal says: "Dr. John and Mrs. Thorburn today celebrated the 50th anniversary of their wedding, and this afternoon are from 3.30 until 6.30 at home to their friends. There are few other persons in Ottawa who have lived such beautiful and useful lives as Dr. and Mrs. Thorburn."

"Dr. Thorburn has donated his life to educational work and has won for himself a name that will last as a Canadian educational reformer. In his work he has been assisted materially by his cultured wife, Dr. and Mrs. Thorburn, though moving upwards in years, continue to remain youthful in spirit."

The Journal then reviews Dr. Thorburn's career. He was born at Quothuan, Lanarkshire, Scotland, Oct. 10th, 1830. He took full course at Edinburgh university and taught for a time in Edinburgh. He came to Canada in 1856 and decided to remain. He taught at Yarmouth, N.S., then came to St. Francis College, Richmond, as Professor of Classics. In 1862 he went to Ottawa as headmaster of the grammar school, now collegiate institute. He held this position till 1882, when he became librarian of the Geological Survey and then Chairman of the Board of Civil Service Examiners, which position he held for a quarter of a century. He has been called upon to carry out a number of Government commissions of importance, one of which being the originating of a scheme for examination of candidates for admission to the Royal Military College, Kingston. He became chairman of the Board. In 1890 he became member of the Board of Collegiate Institute. He has been president of a number of associations. He has received honorary degrees from several universities.

Mrs. Thorburn is descended from a U. E. family of Nova Scotia. The Journal says: "Since coming to Ottawa in '62, Mrs. Thorburn has always been deeply interested in all that pertains to the welfare of the city. She has been identified with the Orphans' Home since its organization and some years ago prepared a sketch of that institution. Mrs. Thorburn has taken an active interest in other philanthropic and missionary organizations. She is a woman of quiet and refined taste, whose strong personality has won for her many friends."

REGISTRAR OF QUEBEC DEAD.

HON. EDWARD ROMILLARD DIED THIS MORNING.

Quebec, July 29.—(Special).—Hon. Edward Romillard, Registrar of Quebec since 1887, died today aged 78. He was a native of Bellechasse which county he represented in Parliament from 1861 to 1867.

SHERBROOKE SOLVES REVENUE PROBLEM.

Increased Valuation Will Give \$5,000 Additional.

VALUATORS SAY NORTH WARD WILL NOT HAVE TO PAY ALL THIS.

The city valuator says that the Record was not strictly correct when it said the new valuation roll would show a decided increase in Wellington street and North Ward properties. This was true as far as it went, they say, but that the fact of the case is, an increase of about 10 per cent has been made in the city valuation of many properties throughout the city.

While the figures are not yet available it is stated that the total increase will amount to at least \$400,000.

The advance of 10 per cent, on Wellington street property was practically general.

Throughout the residential section of the city, wherever the valuator found a property which seemed undervalued they raised it 10 per cent.

\$400,000 additional valuation will give the city at 12 mills, \$4,800 additional revenue.

EXHIBITS FROM MEGANTIC COUNTY.

Will be Sent to the Sherbrooke Fair.

WILL SHOW WHAT FARMERS ARE DOING ALONG AGRICULTURAL LINES.

Inverness, July 29.—(Special).—A meeting was held here on Saturday to arrange to send to the Sherbrooke Exhibition exhibits from the county of Megantic to show what the county is doing. Owing to the season being a somewhat busy one for such a meeting, the attendance was not large, but it was decided that something can be done in the most important classes, unless it be in horses and swine. For some reason, while there is a very good class of general purpose horses in the county there are but few, if any, that are fitted up to compete with the horses usually exhibited at Sherbrooke. As for swine, the county is not in it at all, as the local pork barrel creates the local demand which in the past has not called for exhibition types.

In cattle, Megantic's exhibition of short horns should be very creditable, as should also that of grade cattle, as there are a number of well-bred herds of short horns to select from, though recent high prices of milked may be somewhat against them this year. Those present were disposed to think that if the Sherbrooke Exhibition would have more competitors for heavy grade cattle that Megantic could hold its own against any other part of Quebec, at least.

As for sheep, it was thought that Megantic will be able to send good exhibits in the Leicester and Shropshire classes. In case of exhibits being sent there will be a few of our farmers' sons enter the judging competitions, which were considered an important and beneficial competition for all who would take part in it.

As for poultry, it is not likely that any will be sent unless some is heard from before the next meeting.

Megantic is likely to be represented in the dairy competitions, as the prizes are sufficiently large to induce both pig and cheese men to enter, and apart from the factory competitions, there is a fair prospect of the farm dairy being represented.

While the sugar of Megantic is darker than usual this year, there are those who are likely to send sugar and syrup exhibits. At this date it could not be determined what can be done in the horticultural department. With the handicap of being about ten days later than those south and west of Sherbrooke, we shall not be in it in some lines, in any case.

As for the woman's department, it was thought that the homespun blankets, Inverness bread, fancy work, etc., would find their way there, in case it is decided to send the county exhibits.

The next meeting will be held at Inverness on Saturday, August 14th, at 2 o'clock, when the presidents and directors of the Agricultural and Horticultural Societies will be present to consider the question with all interested, and come to final arrangements.

TO FOLLOW INSTRUCTNS OF CLAIRVOYANT

DETECTIVES AND DIVER GO AND SEARCH FOR BODY OF FRANCIS FOURNIER.

Montreal, July 28.—(Special).—Following the directions of a clairvoyant, two detectives and a diver left the city this afternoon to attempt to locate the body of Francis Fournier, who was drowned last November. Foul play is suspected.

The authorities are so certain the clairvoyant is right that they are sending the detectives with the diver. The medium stated that the body was weighted down with iron and sunk in Montfort Lake, just around the bend from the Montfort club house.

HEADMASTER OF B. C. SCHOOL.

Rev. W. D. Standfast, of Oxford, is Appointed.

WAS INTERVIEWED IN LONDON BY DR. PARROCK, AND WILL ACCEPT.

After some difficulty the Corporation of Bishop's College has at last secured Headmaster for Bishop's College School to succeed the Very Rev. Dean Biquell, who resigned last winter. Several men have been secured for the position since that time, but in every case circumstances arose which made it impossible for them to take up the work.

The new headmaster will be the Rev. W. D. Standfast, B.A., of Oxford, who has accepted the position. Mr. Standfast is 41 years of age and married. For several years he has been connected with clerical work and has also taught in several of the best schools in England. He is at present engaged as a master at St. Edward's School, Oxford.

He was chosen by the Rev. Dr. Whitney, Principal Parrock and others from among a large number of candidates and was personally interviewed by these gentlemen in London. He is a man of strong character and attractive personality, and has first-class testimonials from the schools with which he has been connected.

Rev. Mr. Standfast has a reputation as a preacher, lecturer and organizer, and it is expected that his work at Bishop's College School will be successful.

It is hoped that he will be able to sail from England early enough to be able to open up the school for the fall term.

WARRING FOREIGNERS FIGURE IN COURT.

Two Russian Women Could Not Hold Their Tongues.

AND WERE EXPELLED FROM COURT.—SYRIANS ALSO IN TROUBLE.

Theftford Mines, July 29.—(Special).—Judge Mulveta had a strenuous few hours here of Tuesday, when he heard two cases in which the interested parties were foreigners. As neither could speak English or French the services of an interpreter were required.

Alex. Bogas charged one Albert Bagdow with having stolen four pounds of meat belonging to him on the 15th of June last. Some thirteen witnesses were examined, and the evidence was very conflicting, and was translated from the Syrian language.

At a conclusion of the evidence the Court discharged the accused, holding that the charge was wholly unproven.

The same complainant and defendant were heard in another charge, wherein the former charged the latter with inciting certain parties to murder him.

At the request of counsel this case was continued until the 6th of August.

TWO RUSSIAN WOMEN AT WAR.

Rebecca Petak charged Annpje Greenberg with having struck her on the arm with a stick. The women are Russians, and an interpreter skilled in the language had to be called in.

The women continued the feud in the Court and lambasted each other to such an extent with their tongues that they had to be removed from Court. This happened seven or eight times, although each time they swore solemnly that they would be quiet.

Finally the evidence was finished, and although the evidence was very conflicting, the Court found the charge proven and fined the accused \$1 and costs.

ASSAULT CASE AT BLACK LAKE.

Black Lake, July 29.—(Special).—George Lacroix charged Simon Millen with assault and with chasing him into the house, breaking down the door to do so. The complainant's wife was so frightened that she fainted. He was fined \$5 and costs.

WILL SUE DELINQUENT TAX PAYERS.

Cowanville, July 29.—(Special).—The annual session of the Cowanville School Board, for the election of a Chairman, took place in Mr. DuBois' office Monday evening with Commissioners Enoch Buzzell, Nelson Buzzell and George F. L. Fuller in attendance. The main business of the session was to re-elect Mr. Enoch Buzzell as Chairman, and to instruct the Secretary to sue certain delinquent tax payers.

HAD MIX-UP WITH MOWING MACHINE.

Bolton Centre, July 29.—(Special).—A serious accident occurred here on Tuesday, by which Mr. John Bressette came near losing his life. Mr. Bressette was mowing with a pair of spirited colts, when some part of the machine broke, frightening the colts so that they ran away, throwing Mr. Bressette off and striking his head against a wheel, rendering him unconscious.

Dr. F. McGowan, of Knowlton, was called and found two ribs broken, besides having bruises on the head and body. Mr. Bressette's condition is serious. The mowing machine was badly smashed, but the horses were not hurt.

MEN'S CLUB FORMED AT EAST ANGLUS.

East Anglus, July 29.—(Special).—At a meeting held last night a Men's Club was formed for the purpose of securing a building and establishing therein reading and recreation rooms for the use of the men and youths of the town, to which, it is hoped, may be added in the early future a library and small gymnasium. This is a means of adding reasonable and intelligent amusement, especially during the long winter evenings, hitherto so dull; and for many other reasons. There is room for development in the same direction, and it should commend itself to all the citizens, and it is hoped that it will meet their hearty co-operation and support.

MINING NEWS OF THE EASTERN TOWNSHIPS.

VISIT TO EUSTIS COPPER MINE.

Record Representative Turned Miner — Clad in Appropriate Attire, He Descends Far Into the Earth — An Important Eastern Townships Mining Industry.

A visit to a mine, no matter of what nature, is always a source of interest to one whose occupation keeps him above ground. A Record representative had the privilege the other day of descending into the bowels of the earth at the Eustis Mining Company, at Eustis. It is claimed to be one of the deepest mines in Canada, being about 3,100 feet from the outcrop down to where the last level is.

150 TO 175 HANDS EMPLOYED.

Few people in this vicinity have any idea of the vast proportions of the mine and the concentrating plant. It is a great deal to the business people of Sherbrooke and Lennoxville. Not only is there a large amount spent annually for supplies, but there is the pay roll of between 150 and 175 hands, which amounts to about \$6,000 per month.

1,500 TONS A WEEK.

In order to pay this amount considerable ore has to be handled, and this has been running to an average of about 1,500 tons a week. This ore is carried by three cars hauled over a trolley line from the mine and dump to the mill, at the rate of nine tons a trip. This quantity will be increased as men are now at work installing a new ore bin for the filling of these cars from the dump, which was thrown out as not being of a high water mark in the years gone by. This dump is estimated to contain about 75,000 tons alone.

GRADED INTO THREE PRODUCTS.

On the ore arriving at the mill it is put through the various processes and graded into three products. The largest is about the size of one's closed hand, the second smaller and broken, while the third is known as "fines."

This latter grade is concentrated at the mill, and when shot into the dump ready for shipment on the railway cars, it looks to the uninitiated as being a high grade product. It is, moreover, of great value and reaches as high as 45 per cent. of sulphur.

The larger ore is shipped to Boston to different chemical companies, where the sulphur is removed, and the cinder is then shipped to the smaller of the Eustis Company in Norfolk, Va.

The Nichols Chemical Company also get several hundred tons of the ore a month, as their mines are now closed down.

That, in brief, is a short sketch of what is done at this important mining centre, and will give a slight idea of the large amount of business transacted there.

THE WORKSHOPS.

On the way from the office to the mine various large workshops were visited, and also the large compressor rooms. In the past the company has been handicapped, in the summer through the low water reducing the supply of electric power, and this meant that the workmen would be idle occasionally for days at a time. Now all this will be obviated, because a steam plant has been put in as an auxiliary power, so that the work will go on steadily.

AT THE TUNNEL.

On arriving at the tunnel, which is about 1,000 feet long, your correspondent was on his way to the real top of the shaft. Previous to that, however, he had been advised that it would be better to make a complete change of clothing as the interior of the mine was not just as clean as a dry goods store. This forethought was very much appreciated. Mr. L. M. Adist, the superintendent, and Mr. F. M. Passon, the assistant superintendent, made up the trio. On arriving at the head of the shaft candles were handed round, and lighted. Some orders were given to the man who runs the hoisting engine. Here it may be said, there are two tracks. As the skips come up they are so arranged that when they strike the end of the rail to the dump, there are two extra wheels at the rear which causes the skip to tip, and it is emptied in a second.

"We will go into this one," said Mr. Adist. We got into what might be compared with a square coal scuttle. The top was covered half way over so as to keep the ore from falling out when running up. Orders had been given to stop the skip at level 20, and not to go too fast. This was for

NEW ASBESTOS PLANT AT LACHINE.

Products of Mines Will There be Manufactured.

PLANT SOON TO BE IN OPERATION.—MR. GEO. R. SMITH, VICE-PRESIDENT AND GENERAL MANAGER.

Thetford Mines, July 29.—(Special.)—Owing to the increasing demand for asbestos building materials of all descriptions, and the unlimited possibilities of its extensive use in Canada, there will soon be in actual operation at Lachine (near Montreal), P.Q., a large and fully equipped factory for the manufacture of asbestos reinforced corrugated and flat lumber, asbestos shingles, slates and sheathings.

Several months ago the Company

MR. GEORGE R. SMITH, Vice-President and General Manager of The Asbestos Mfg. Co.

(which is one of the Keasbey & Mattison Co.'s enterprises, owners also of the Bell Asbestos Mines) purchased the property and buildings of the Canadian Radiator Co. at Lachine, P. Q., since which time they have worked steadily changing and adapting the buildings, installing machinery, etc., for the manufacture of asbestos products, with the result that in the course of a very few months everything is expected to be in readiness for operation.

The name of the Company, which will occupy the unique position of being the only plant of its kind in Canada, is The Asbestos Manufacturing Co., Limited, of which Mr. Geo. R. Smith is vice-president and general manager.

The Company's head office is situated at the works and factory, Lachine, while a business office is also established at 705 Eastern Townships Bank Building, Victoria Square, Montreal.

GOOD STRIKE OF ASBESTOS.

On Charpentier Property Near Richmond.

EAST ANGLUS COMPANY ARE NOW OPERATING MINE.

Richmond, July 29.—(Special.)—It is reported that an important strike of asbestos has been found on the Charpentier property. This will be welcome news for it not only means considerable to the owners, but in being developed will give employment to a large number of men. The vein of asbestos struck measures 2 1/2 inches in length of fibre. At present the mine is being operated by a company from East Angus.

NEW ASBESTOS CO'S INCORPORATED.

THE B. & A. ASBESTOS COMPANY INCORPORATED.

Letters patent have been granted to the B. & A. Asbestos Co. There are in the company Messrs. Charles Audet, J. A. M. Audet, and J. A. Audet, all merchants, of the parish of St. Anselme, Tancredi Labbe and Jean Lachance, both gentlemen, of Thetford Mines, P. E. Beaudoin, merchant, of Thetford Mines.

The purpose of the present company is the working of asbestos and mines in general.

The shareholders shall incur no liability over and above the amount of the price that shall be agreed on to be paid to the company for its shares, and to do anything in connection therewith under the name of "B. & A. Asbestos Company," with a capital of five hundred thousand dollars (\$500,000) divided into five hundred thousand (500,000) shares of one dollar (\$1.00) each.

The principal place of business of the corporation in the province of Quebec will be at Thetford, in the district of Quebec.

COLERAIN PROPERTY TO BE DEVELOPED.

Has Been Bonded for Forty-Nine Thousand Dollars.

BOUGHT FROM GOVERNMENT FOR \$100 AND NOW WORTH \$175,000.

Inverness, July 29.—(Special.)—Another mining property in Coleraine, away back in the scrub, and about four miles from the railway, containing 100 acres, has been organized into a stock company with a capital of \$175,000 and bonded for \$19,000. An eighth share now would be worth \$21,750. This fortune is made and lost, or rather missed, by the stroke of your pen.

Campbell's Quinine Wine

Purifies the blood and tones up the system. It improves the appetite and gives new strength and vigor. It brings back lost color to the complexion and brightness to the eye. It adds to the joy of living.

AT THE PROTESTANT HOSPITAL.

So many patients have been admitted to the Protestant Hospital lately, that on several occasions there has not been an unoccupied bed in either public or private wards. Evidently the general public is learning to appreciate the advantages of hospital treatment, especially in surgical cases. It is much to be hoped that the Governors of the Hospital will soon begin the long talked-of, and much needed addition to the building. It is understood that several excellent plans for the addition are under consideration.

HIDE THIEVES FOUND GUILTY.

(Continued from page 1.)

when Menard and Converse stopped to get a drink Leonais drove off and left them. They walked home and when they got there they found the team standing near where converted into a manure pile. The hide and the horse also stated that he bought three horse and two cow hides from Leonais the previous week.

Mr. Smith stated in the course of his evidence that he had the same number of hides stolen as that which Converse said he bought from Leonais.

Leonais went into the box on his own behalf and denied any knowledge of the theft or hides.

Menard did not go into the box but endeavored to set up the ingenious plea that he thought Converse was a dealer in hides.

Neither the denial nor the plea convinced the Court and they were both found guilty.

They were remanded until Friday for sentence, when Converse will also be sentenced.

MUST HAVE ARMY OF LONG RANGE.

(Continued from page 1.)

she insisted upon her freedom. It is untrue and unfair to Canada for any man to say, as had been said, that Canada's patriotism and loyalty depended in the slightest degree upon what the fiscal policy of Great Britain might be. (Hear, hear.) He thought true imperialism was that which led the different nations along the lines of development of their own resources, but they realized their imperial responsibilities. The people of Canada were prepared to pay their share of the cost. In thoroughly preparing themselves for local defence they were preparing how best to take their part in the defence of the Empire. With the guidance of Mr. Haldane a plan had been adopted in Canada by which he believed local means of defence would be so carried out that should any one of the dominions wish at any time to send a division or force to assist the Mother Country it would be easy to carry out that end. Why could not the same thing be done in regard to the navy? Canada would be prepared to spend its last dollar to assist in the maintenance of the integrity of the Empire. (Cheers.)

DEATHS REPORTED.

MRS. E. S. BERNARD, RICHMOND. Richmond, July 29.—(Special).—Mrs. Bernard, wife of Lt. Col. E. S. Bernard, died at her residence, "Cleavefont," Richmond, Que., Wednesday afternoon after a long illness. The deceased lady had been a life long resident of this place and her father, Mr. F. W. Cleeve, P.L.S., was, in his lifetime, a leading citizen of Richmond. Mrs. Bernard leaves in addition to her husband and large number of relatives including at Richmond Mr. George Barlow, an uncle. The late Sir Thomas Cleeve, of Limerick, Ireland, who died recently, and who was born in the Township of Cleavefont, was a cousin. The funeral takes place on Friday afternoon at two o'clock.

QUEBEC PRESBYTERY MET IN THE WOODS.

Ordination Service Was Witnessed by Large Congregation.

MR. J. M. McLEOD WILL GO TO WORK IN FAR OFF KOREA. Milan, July 29.—(Special)—On an ideal day, and in the woods near the Hampden Presbyterian Church, the Presbytery of Quebec met and was duly constituted by the Rev. R. MacKenzie, of Stornoway, who presided.

The purpose of this meeting was the ordination and designation of Mr. J. M. McLeod, who has been called by the F.M.C. to a new station about to be opened in far-away Korea.

The Rev. R. P. MacKay, D.D., of Toronto, and the Rev. A. Murray who has been so efficiently supplying the Hampden Church, were present, and asked to sit as corresponding members.

The Presbytery found that all the preceding steps had been in order and repaired to the Church where divine worship, was conducted by Rev. W.F. McKenzie of Stornoway, assisted by other brethren present.

After the sermon the beautiful service of the ordination and designation was proceeded with. The Rev. Dr. MacKay offered the ordination prayer and after the laying of the hands of the Presbytery, Mr. McLeod was addressed by Rev. R. MacKenzie. The Rev. Dr. MacKay then addressed the congregation describing Korea and stating the character of the work to which Mr. McLeod had just been set apart.

At the close of this interesting address, the Rev. Dr., as is usual at such services, presented Mr. McLeod with a beautiful copy of the Scriptures in the name of the F.M.C. The large congregation present was delighted with the whole service in that such a service has never before taken place in the Province of Quebec outside the city of Montreal. A liberal offering was taken in the interests of F. M. Work in Korea.

The Presbytery was entertained at dinner in the home of Elder Nicholson where with a number of friends they spent two very pleasant hours.

Letters to the Editor

BOATMAN IN TROUBLE.

Editor of the Daily Record, City.

Dear Editor:— Will you kindly allow this article to appear in the Daily Record on courtesy by motorists on water to boatmen, canoeists and sailboats. It has been the unpleasant experience of the writer to have been actually run down by motor boats on Little Lake. Many while trolling, and lines broken and trolls being lost by these people. Only last Sunday, a couple of friends and myself were fishing at the Lake when we were run down by one of these boats owned by a resident at the lake. The motorists were warned off, but no attention was paid to our warning by them, instead they continued to come directly and straight on, breaking our lines and by doing so losing two trolls, and as I believe, there is a law that all boats run by machinery shall give right of way to boatmen, canoeists and sailboats on lake, river or sea. This is certainly not enforced at Little Lake, and it's a very common occurrence, while people are fishing or boating to have the motorists keep running around the boats out of pure spite, in some cases.

It may result seriously some day, which would be a good lesson to some of them, and if anything is said to them, all one gets is that the smaller boat should get out of the way and give precedence to the larger. I hope (if this is printed) that all persons owning motor boats shall see it and perhaps have the decency in the future to be at least polite and obliging on the water.

Of course, everyone has an equal right to be on the lake, but at the same time, the motorists know it is unpleasant to smaller boats to have them around and keep going around.

It is very annoying and on several occasions there have been hard words used on both sides and sometimes very near a fight. But whose fault is it? Anyone could answer that question. Everyone who hasn't a motor boat is as annoyed as those who have, so they seem to think.

I trust that I have not put down anything that can be taken as referring to any people in particular, and that the Editor will be so kind as to allow this to appear.

Yours respectfully,
BOATMAN.

ROCK ISLAND.
Mr. William Spalding's many friends were congratulating him on Tuesday on his 75th birthday. Mr. Spalding is entertaining his brother, Lyman, from Boston.

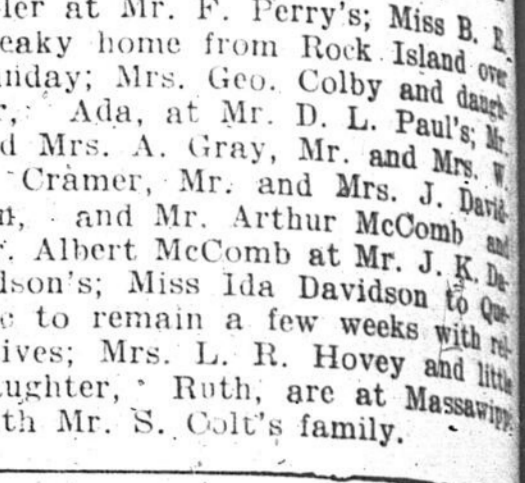

The Haskell Free Library has reopened, Mr. Carpenter having returned Monday evening from his vacation. The summer home of Mr. and Mrs. B. P. Ball at "Ball Point," Lake Park, presented a lovely scene Monday evening, the occasion being a surprise party to Mr. and Mrs. Ball gotten up by some of their more intimate friends. Over seventy guests were present from the village and lake. Mrs. Ball was enjoying "Bridge" at a neighboring cottage and her surprise may be imagined as she returned to her home to find such a ray party in possession of their lovely new cottage. Very substantial refreshments were served about 7 o'clock after which the party were delighted with trips on the lake, some in Gen. Butterfield's electric launch, some in T. Caswell's new motor boat and others in the Yucco. Mr. and Mrs. W. H. Hovey and Mr. Shirley Ticehurst formed an orchestra and dancing was enjoyed from 8 till ten o'clock at which time the company dispersed. It was a fine warm day and together with an ideal moonlight evening it was a time that will long be remembered by the guests.

The Lay whip factory has been shut down for two days owing to repairs being made on the boiler room, etc.

Mr. Wm. Pike has strung electric wires to his house in Derby Line from his power plant in Rock Island.

Arrivals: Mr. W. K. Harding, from Boston, at his home for a vacation; Mrs. P. Corcoran, of Warden, Que., visiting her daughter, Annie, and her sister, Mrs. O'Rourke; Mrs. J. A. Hunt and children home from Cambridge, Vt.; Mr. and Mrs. Green and son, Valentine, from New York, have arrived at Mrs. Brigham's; Misses Nellie and Ethel Nichols, of Everett, Mass., at Mr. Fred Taylor's; Miss Edith Moulton, of Brooklyn, N.Y., visiting her brother, Ernest, at Holland; Mrs. T. J. Norris and guest, Mrs. Struthers, left Tuesday morning for Quebec; Mrs. L. R. Robinson is on a visit to relatives in Orono, Me.; Mrs. Watts and daughter have gone to Three Rivers.

LIBBYTOWN.
Arrivals and departures: Mr. and Mrs. E. L. McClary at O. W. Perry's; Mrs. D. Libby and Mr. and Mrs. B.

DON'T BUY A "HALF-AND-HALF" FURNACE

Some people buy a coal-burning Stoves Furnace—thinking that at some future time they may use coal.

This is false economy. The fire-box of such a furnace is made of iron—in such a way that wood cannot burn to best advantage.

It stands to reason that a coal fire-box will not burn wood properly—if it did the wood furnace would be made that way. Insist on having an "All-Steel" Wood Furnace, with double-wall asbestos lined lining and dead-air space—the most economical.

Then if you wish to change to coal in a few years, you'll have saved the amount in fuel.
