

- [The Montebello Conference](#) [La Conférence Montebello](#)

Hello ,

It may be a nice surprise for you to suddenly receive a note from "The Montebello Conference". And probably you can think of one or two memories of your years of participation in these interesting meetings at the Château.

Well! Imagine that we want them, your memories; Louise Rousseau, Louise Fleischmann and I, administrators of the Corporation, now dissolved, but Bibliothèque et Archives nationales du Québec has just agreed to welcome our archives, however modest they may be.

I will give you an excerpt from the remarks of BAnQ's decision-making committee on us: "*The members have understood the importance of this conference and wish to ensure that it does not fall into oblivion. They suggest that it might be interesting to also get interviews with former participants of these conferences.*"

Rest assured, there will be no interviews; but we thought you would be willing to write us one or two paragraphs, say between 200 and 250 words, that would express your best memory of what The Montebello Conference was like to you.

I would be grateful if you could send me your text, either by e-mail or by mail, to the address that appears at the bottom of this note. I will forward all the texts received to the "Fonds des Archives nationales du Québec".

Regards,

Antoine
