FRANCE AWAITS DEFINITE MOVE BY GERMANY Richmond, Cookshire And Waterloo Fairs In Progress

France Will Not Be Drawn Out By Vague Proposals

French Government Is Waiting to See Whether the Rapprochement Rumors Emanating from Berlin Are Only Trial Balloons Sent up to Attract a Complete Expression of French Opinion, or Whether Germany Is Ready to Discuss a Settlement that Will Satisfy France—France Again Informs Chancellor Stresemann that She Adheres to Her Determination to Make Abandonment of Passive Resistance the First Condition to an Opening of Direct Negotiations.

(Associated Press Despatch)

PARIS, Sept. 12.—Having informed Berlin that negotiations cannot be opened in the reparations deadlock while Germany's policy remains one of resistance, the French Government is waiting to see whether the rapprochement rumors emanating from Berlin are only trial balloons sent up to attract a full expression of French opinion, or whether Germany is ready to discuss a settlement that will satisfy France.

Acting on instructions from Premier Poincare, M. De Margerie, the French ambassador to Germany, has informed Chancellor Stresemann that France adheres to her determination to make abandonment of passive resistance the first condition to an opening of direct negotiations. The Premier has let it be known that he will consider in a conciliatory spirit any well-defined German proposal that is made after obstructionist tactics have ceased; but he is also said to be determined not to be led on by vague offers of negotiations.

CHANCELLOR'S ADDRESS AWAITED WITH INTEREST

(Associated Press Despatch) BERLIN, Sept. 12.—Chancellor Stresemann's address to the German editors was awaited with interest today in view of the Government's admission that informal "reconferencing" conversations on reparations are in progress with "all the powers," including France, and the announcement that he might throw further light on Germany's position with regard to the Ruhr.

The newspapers concede that a change in the situation is about to take place, the national press being of the opinion that this will be nothing short of capitulation. The papers, however, do not speculate as to whether the government will unconditionally halt passive resistance.

The government is apparently determined to get the Ruhr Valley in working order once more, inasmuch as the industrialists will be needed in the negotiations that will eventually settle the reparations deadlock.

NEW CURRENCY WILL BE ISSUED BY GERMAN GOVT.

(Associated Press Despatch) BERLIN, Sept. 12.—Gold, foreign currencies and commercial bills will serve at first to cover the new currency which, as a result of yesterday's cabinet decision, will be issued on a gold basis from a new bank of issue, according to the Vossische Zeitung.

The government, the newspaper says, believes it will be able to furnish sufficient guarantees to keep the new bank from becoming a tool of the private interests, but no decision has yet been taken regarding the amount of capital or the organization of the institution.

The paper marks will not for present be withdrawn from circulation, so that, as in the case of Russia, two currencies will soon be legal tender.

GERMANY IS CARRYING ON PERSONAL CONVERSATIONS WITH ALL THE POWERS

(Associated Press Despatch) BERLIN, Sept. 12.—By way of clarifying the political situation, a semi-official communique issued late yesterday admits that the government is carrying on personal conversations with "all the powers" and that Chancellor Stresemann and the French ambassador, M. De Margerie, has also personally "exchanged thoughts" on the present situation.

ITALIAN POLICE IN CHARGE IN CORFU

(Associated Press Despatch) ATHENS, Sept. 12.—Anxiety here over the Italian occupation of the Island of Corfu has been increased by the reported substitution of Italian police for the Greek functionaries in Corfu. Claim That Japanese In Many Instances Refused Assistance To Foreigners—Food Situation Is Now Fairly Satisfactory

Japanese Consulate at Shanghai Has Asked for Opportunity to Investigate Charges—Official Compilation of Earthquake Casualties Estimates Dead, Injured and Missing at 1,356,749.

(Associated Press Despatch) ONDONG, Sept. 12.—Foreign refugees arriving in Shanghai from Yokohama are reporting numerous instances in which Japanese officials and civilians are alleged to have refused assistance to foreigners following the disaster, says a despatch to the Central News from the Chinese city. The Japanese consulate at Shanghai has asked for an opportunity to investigate the charges.

OFFICIAL ESTIMATE OF CASUALTIES

(Associated Press Despatch) OSAKA, Sept. 12.—What is reported to be an official compilation of the earthquake casualties estimates the dead, injured and missing at 1,356,749. It is also reported that a total of 315,824 houses were destroyed.

LOAN FOR RECONSTRUCTION PURPOSES

(Associated Press Despatch) OSAKA, Sept. 11.—It is reported that the government has decided to expend all the budget surpluses up to 1925, amounting to 360,000,000 yen (\$130,000,000) for relief and reconstruction work. Minister of Finance Inouye is quoted as saying no decision has been reached by the government as to the flotation of a foreign loan for reconstruction purposes. It is believed there is no possibility of raising loans in the home markets for the time being.

FOOD SITUATION IMPROVING

(Associated Press Despatch) LONDON, Sept. 12.—The Japanese embassy yesterday issued a despatch received from the foreign office in Tokyo, which says the food situation is fairly satisfactory, but that there still is urgent need for building materials, clothing, blankets, medicines and disinfectants. Telegraphic and wireless communication is said to be improving, and the prospect is that within a few days the congestion will have diminished.

SUPPLIES BEING RUSHED TO JAPAN

(Associated Press Despatch) MANILA, Sept. 12.—The transport Meigs sailed from here for Japan yesterday with more than a million dollars worth of supplies for earthquake sufferers. The cargo included \$960,500 worth of army goods alone. The balance of the cargo consisted of red cross supplies. Medical supplies sufficient for a population of 150,000 for two months were sent beside sufficient to last a city the size of Manila for a month.

MANY FOREIGNERS SUBJECT-ED TO CRUELTY

(Associated Press Despatch) SHANGHAI, Sept. 12.—The liner Empress of Australia, which remained in the zone of the Japanese disaster for nine days before she took 200 foreign refugees to Kobe, was part of a scene in Yokohama harbor that might have illustrated a canto from Dante's Inferno. Passengers arriving in Shanghai on the Empress of Canada are describing the plight of the other liner.

PRINCE OF WALES ARRIVED TODAY AT QUEBEC EN ROUTE TO RANCH IN ALBERTA; WAS NO DEMONSTRATION

Prince's Wish that His Arrival in Canada Incognito Should Not Be Occasion for a Demonstration of Any Kind Was Well Respected—Genial Manner Made It an Easy Task for Everybody on Board Ship to Regard Him Simply as an Ordinary Traveller—Leaves Tomorrow Morning on Special Train for Canadian West.

(Associated Press Despatch)

QUEBEC, Sept. 12.—The Prince of Wales, travelling as Lord Renfrew, arrived here this morning on the Canadian Pacific liner Empress of France. The Prince is en route to his ranch in Alberta, where he is to stay for a month testing the simple life.

The Empress arrived at eight this morning. The Prince at the time was in bed. He did not leave the steamer till 11, when he drove in an automobile to the Chateau Frontenac. He was to spend the day and tonight there, leaving tomorrow morning on a special train for the Canadian West.

A small knot of newspapermen and moving picture operators gathered on the dock to watch the ship being warped into her berth. They were joined later by a number of dock hands and people awaiting to welcome relatives and friends on the liner. The dock was guarded by a number of C.P.R. police, who, however, had very little to do. The Prince's wish that his arrival in Canada incognito should not be the occasion for a demonstration of any kind was well respected.

Officers of the liner said that apparently the Prince had thoroughly enjoyed himself on his trip over. He had mixed quite freely with the passengers and had taken part in all the dances. On Sunday he read the lesson at the service.

The Prince's genial manner made it an easy task for everybody on the ship to regard him simply as an ordinary traveller. He was registered on the passenger list as "Lord Renfrew, London." His baggage, which is of a pretentious character, and numbers dozens of pieces, was labelled "E. P. Ranch, Alberta."

Early visitors to the ship to extend a welcome to the Prince were Lord Shaughnessy, representing E. W. Beatty, K.C., president of the Canadian Pacific Railway, and Sir Michael Culme-Seymour, admiral of the British North American squadron, whose flagship, Calcutta, was in port.

The Prince and his travelling companions, Brigadier-General Trotter, Sir Godfrey Thomas and Major McCallie, occupied a suite on the twelfth floor of the Chateau Frontenac. The rooms command a fine view of the river St. Lawrence stretching down to the Isle of Orleans and the blue Laurentians beyond on one side, and on the other they look down on the ancient citadel and most of old Quebec. No change in the furniture of the suite was made for the Prince and, at his request, no special preparations were made for his meals.

The only welcome of an official character that will likely mark the Prince's arrival here will be a call by Major O'Connor, D.S.O., aide de camp to Baron Byng, the Governor-General, some time today. Major O'Connor will likely present His Excellency's respects.

The liner was escorted up the river to her pier by an airplane of the Forest Survey Service.

REMEMBERED NAMES OF MANY CANADIANS

All the passengers spoke in terms of the highest admiration of the Prince. Hon. Justice Tessier, a Quebec high court judge, who travelled across the ocean on the Empress, told of having several delightful conversations with the Prince. Judge Tessier also had lunch with the Prince. "We talked of all manner of subjects and all sorts of events," said the Judge. "What struck me most forcibly was his remembrance of the names of many people he had met in Canada during his last visit. He asked me about numerous Quebec people and he also enquired about people he had met in Montreal and Toronto.

Among the people he asked about was Mayor Martin, of Montreal, and ex-Mayor Church, of Toronto. "I heard," said Justice Tessier, "the question he asked about the latter was: 'And where is Tommy Church now?' He was greatly interested when he heard of his translation to the House of Commons at Ottawa. Judge Tessier said the Prince spoke about the dances arranged in his honor during his previous visit and rather naively remarked: 'I suppose many of the girls I danced with are married and settled down by now.'"

FOND OF GAME OF BRIDGE

Judge Tessier said the Prince was fond of a game of bridge and played it quite well. After an evening game and when the decks were deserted the Prince liked taking a long stroll, even keeping it up till two in the morning sometimes. The Prince obviously had ideas of his own on the great topics of the day, but he never forced them on anybody. He was perhaps best of all as a listener. His questions, however,

WIDENING PARK ROAD AT DANGEROUS POINT.

The very bad corner which for a long time has been a menace to traffic on the road leading to the golf links is being widened by the city. At the northern end of Victoria Park the road dips down into a deep gully, turning sharply to the left at the bottom and climbing immediately up the other side with a slight bend to the right. The curve at the bottom of this gully is being widened, thus straightening it out to some extent, and making it much safer for vehicles. The work necessitates the filling in of a considerable portion of the gully at the side of the road, since the road surface is built up to a height of several feet.

The auditor's report for the year was then considered and suggestions made by the auditor were adopted. The membership report showed an increase in the general membership of one over last month. The general secretary's report showed considerable activity in almost all branches, particularly so in the community service, in the boys conference, the Eastern Townships amateur athletic meet, and also the Eastern Townships inter-high school athletic meet. It indicated also that activities were being organized for rugby, and it was hoped that there would be a four team league for

The September meeting of the Oxford Women's Institute was held at the home of Mrs. Benjamin Paige, a goodly number of members and visitors being present. Mrs. Faith presided. In the absence of the secretary, Mrs. Evelyn Faith, Mrs. J. M. Hamer was made secretary pro tem. The minutes of the previous meeting were read and confirmed. After lengthy discussion it was decided to table the matter until further information on the subject was available. A report of resolutions from Macdonald was read. The sum of five dollars was voted towards the supply of milk for social service work in Sherbrooke. Mr. P. M. Short invited the members to assemble at her home next Wednesday afternoon, that progress might be made on the Institute quilt. At the tea hour refreshments were served by Miss Marjory Paige, assisted by Miss Yeates and Miss McLeod. The October meeting of the Institute will be held at the home of Mrs. James Gautry.

BOARD OF DIRECTORS MEETING.

At first glance Jenks did not recognize Taung S'All, owing to the change of costume. Through the thinner smoke he could see several sailors running up. "Look out there!" he cried. "There is a lady here. If any Dyak moves, knock him on the head!" But, with the passing of the chief, their last peril had gone. The next instant they were standing on firm ground, and a British naval lieutenant was saying eagerly— "We seemed to have turned up the nick of time. Do you, by any chance, belong to the Sirdar?" "We are the sole survivors," answered the sailor. "You two only."

THE WINGS OF THE MORNING

A Great Story of Adventure and Romance BY LOUIS TRACY.

Soon the steady tramp of boot-clad feet advancing at the double was heard on the shingle, and an officer's voice, speaking the crude Hindustani of the engine room and forecastle, shouted to Mir Jan— "Hi, you black fellow! Are there any white people here?" Jenks sang out— "Perched on the rock over your heads. We are coming down." He cast loose the rope-ladder. Iris was limp and trembling. "Steady, sweetheart," he whispered. "Don't forget the slip between the cup and the lip. Hold tight! But have no fear! I will be just beneath."

LENNOXVILLE ANNUAL MEETING OF THE BIBLE SOCIETY.

Once each year the faithful and persistent work of the British and Foreign Bible Society is brought to the minds of the people of the different churches in the district by the secretary, Rev. G. A. MacLennan, and never more forcibly and interestingly than in his illustrated lecture given last evening in St. George's Hall. Mr. W. W. Baker, forty many years president of the Society in Lennoxville, presided, Rev. R. W. E. Wright conducting the devotional service. Well-known hymns were thrown on the sheet, some of these being beautifully illustrated by suggestive scenes. Mr. W. H. Abbott gave the financial report which though not complete, was satisfactory, and Miss Freda Willard's name was gratefully mentioned as the sole collector for the fund this year. Mr. Abbott explained that the Bible repository had been changed to Mr. C. J. Lane's store, where copies of the Scripture could be obtained at cost price. The former officers were re-elected: Mr. W. W. Baker, president; pastors of the churches, vice-presidents; Mr. W. H. Abbott, secretary.

KNOWLTON LANDING

Among those who have closed their cottages and returned to their homes are Mr. and Mrs. M. A. MacFarlane, Mr. and Mrs. R. G. Plaw to Montreal; Mr. J. B. Beach and family to Sherbrooke. Mrs. V. G. Cummings and Miss Arlene have been visiting their brother, Mr. John Ingalls, at McConnell.

THE UNANIMOUS OPINION OF THE BOARD BEING THAT SUCH A CONFERENCE WOULD BE IN THE BEST INTERESTS OF Y.M.C.A. WORK.

It was also suggested that the secretary attempt to arrange for a meeting between the directors and Mr. L. A. Buckley, who will visit Sherbrooke as leader of the Eastern Townships boys conference. Mr. Buckley would give his experience as to the influence of the religious emphasis conference as he has found it in other places.

Mr. A. C. Stevens the chairman of the membership committee, asked the members present to give their hearty co-operation to the membership campaign to be conducted from October 10th to 13th inclusive.

The secretary then raised the question of additional funds to carry on the general work and the treasurer moved, seconded by Mr. Pierce, that the proper authorities be authorized to borrow an additional \$1,000.

HIGH RATIO OF ILLITERACY IN THE PROVINCE

Mr. Allen Claimed Schools Teaching Subjects Which Should Be Left to Universities, and Vice Versa.

"We have been teaching, in the schools, matters which should be taught in the universities; and we have included, in the curriculum of the universities, subjects that should be taught in the schools."

This was the expression of opinion given by Mr. Wm. Allen, immediate past president of the Montreal Rotary Club, and a former school commissioner for the Metropolis, when speaking before the local branch yesterday noon.

Rotarian Allen did not hesitate to give full expression to his opinions, and made the sweeping statement that, of the total illiteracy in the Dominion of Canada, seventy percent was the proportion credited to the Province of Quebec.

Comparing countries, he stated that illiteracy in Russia reached sixty percent of the population over twenty-one years of age; in the Province of Quebec it reached sixteen percent; in France it was four point nine; in Holland it was four percent; Denmark it was five point four; in Switzerland it was point three and in Norway and Sweden it was point one.

The Province of Quebec, Mr. Allen contended, was the only province in the Dominion which had failed to enforce compulsory education, although the law has been accepted throughout the United States and throughout Europe, with the exception of Russia.

Value of Education. In pleading with parents not to allow children to be handicapped by withdrawing them before completing or upon completion of the public school, Rotarian Allen pointed out that education is of far more value to children than wealth, and gave statistics to show that four years' high school education are equivalent to a bequest of \$18,000.

"Regardless of the vocation they choose," he argued, "education will benefit them. Lack of education will become an ever increasing impediment to their welfare and happiness. It may call for sacrifice on your part to keep them at school, but is it not worth it? Where can you find a better investment than your children?"

Knowledge of Citizenship and Economics. In observing that the curriculum was one to be proud of, Rotarian Allen held that there were still many improvements that could be made. He contended that the schools were teaching subjects which rightly belonged to the universities and vice versa. The grammar and political economy being taught in the schools should rightly be passed along to the universities whereas the pupils in the schools should be taught economics, the knowledge of citizenship and other subjects essential to the development of a good citizen.

This change in subjects would enable those leaving school early to at least secure a fundamental knowledge of the duties and responsibilities of a good citizen.

"We have good schools, a good teaching staff, equal to any in the Dominion, and the only objection I can raise is that the teachers are paid a ridiculous salary. People must realize that the children represent the finest natural resources the Dominion possesses, far superior to our forests, mines and fisheries."

"Our children should be shamed in failure and proud in success, but unfortunately today the average man seems not to be ashamed of failure. The following qualities should therefore be developed as strikingly as possible: Ideals, initiative, love of success, and hate of failure."

Going back to the grammar taught in the school today, the speaker referred to the following examination question: "In what four ways may the members of a sentence be related to one another?" The answer submitted by a twelve-year-old girl was: "Agreement, order, government and case." It was thrown out, however, and the correct answer given as follows: "Predicative, attributive, adverbial and objective."

Facts Which Do Not Lie. The following facts were placed before the members present: "In 1911 more than 134,000 children of school age (5-16) in the Province of Quebec were unenrolled at school; this was 25.8 p.c. of the entire school-age population."

By compulsory attendance the United States has secured the enrollment of 97.5 p.c. of its children between ten and fourteen years. More than 221,000 children in Quebec or 42.1-2 p.c. were out of school every day school was open in May, 1911.

Less than 25 p.c. of the total enrollment are beyond the fourth year of the Protestant elementary school course or its equivalent of the Roman Catholic school course.

In 1916, thirteen percent of the children before the Montreal Juvenile Court could neither read nor write.

Forty-five percent of all children before this court in that year were neither employed nor attending school.

Alberta increased its aggregate attendance by 48 p.c. in two years after adopting compulsory attendance, and Saskatchewan increased

its enrollment by ten thousand in one year, by the same means.

In Montreal alone, five thousand children of foreign parentage, future citizens of Canada, are growing to manhood and womanhood with no school rights.

At the conclusion of his remarks, all too brief Rotarian Allen was extended a hearty vote of thanks, moved by Rotarian Henry Walsh, and congratulated upon the fearless yet interesting manner in which he had outlined some of the difficulties which were being contended with in educational circles.

Yesterday's luncheon was held in the new extension of the New Sherbrooke House which has been secured as the club's new quarters.

MARRIAGES

McGOWAN-ENRIGHT. WEST SHEFFORD, Que., Sept. 12.—The Roman Catholic Church, West Shefford, Que., was the scene of a very pretty wedding on Wednesday morning, September 6th, at 9 a.m. when Hattie Mary, only daughter of Mr. and Mrs. J. M. Enright, was united in the holy bonds of matrimony with Mr. Francis James McGowan, of Montreal.

The ceremony was performed by the Rev. Father LeCompte, of Waterloo, Que., the musical part of the ceremony being under the direction of Miss Rousseau. The choir rendered "Oh Lord I Am Not Worthy," and "Sacred Heart of Jesus."

The bride, who was unattended, was given away by her brother, Stuart, and wore a blue embroidered suit of poiret tulle, blue orient-tail jacket, Stone martin fur, grey duvetyne hat with shoes, stockings and gloves to match, and carried a shower bouquet of ophelia roses and lilies of the valley.

The groom was supported by his brother, Mr. J. T. McGowan, of Granby. The ushers were Messrs. Harold and Donald Enright, brother and cousin of the bride.

After the ceremony a dainty breakfast was served at the home of the bride's parents, only immediate relatives being present. Later the happy couple left on an extended trip to Buffalo, Detroit and other points west, followed by the best wishes of their many friends, who gathered at the station to see them off.

On their return Mr. and Mrs. McGowan will reside at 2169 Clarke Street, Montreal, and will be at home to their friends after October 16th.

H. Hughes, of South Durham.

The bride was becomingly gowned in a dress of white canton crepe, a veil which was prettily arranged in cap effect and held in place with orange blossoms. She carried a large bouquet of ophelia roses and maiden hair fern and was attended by Miss W. Majaury, of Inverness, who wore in South Durham.

After the ceremony several friends of the bride served a delightful buffet lunch to about seventy-five guests, the dining room being prettily decorated in a color scheme of pink and white.

OPENING OF THE GRANBY HIGH SCHOOL

Formal Exercises Were Held Last Week—Other General Notes.

GRANBY, Que., Sept. 12. — The Granby High School opened on Tuesday morning, September 4th, last with 219 scholars enrolled, this being the greatest number in the history of the institution to appear on the opening day. The commencement exercises were held at half-past seven in the evening, when the Clara Miner Assembly Hall was filled to capacity with parents and children of the school.

Mr. M. A. Vittie, chairman of the school board, presided and the programme opened with the singing of "O Canada." Principal C. A. Adams in giving the report said this was the fifteenth annual report that he had presented as principal of the Granby High School. He said that every scholar who had written the final examinations had passed their grades. Several interesting lectures had been delivered at the school during the past year, among which was the one by Dr. Aggrey, a native of the Gold Coast, Africa, but who is at present one of the professors at Livingstone University in North Carolina, U.S. Were Dr. Aggrey in his own country he would be king of the Gold Coast. Mr. J. W. Bengough was another lecturer, having given one of his cartoon evenings on Halloween night. Mr. George Legge had also given an illustrated account of his "Trip Across the Great Lakes," with the press association, the proceeds of these two lectures were for the benefit of the school gymnasium. The last lecture was delivered by Prof. Reilley, of McGill University, during the month of May upon the interesting subject of "Liquid Air." A splendid entertainment was given at Christmas time by the scholars, at which a collection was taken for the benefit of the athletic Y and of the school. The community motion picture entertainments were continued every Friday evening with splendid programmes and at these the High School orchestra furnished excellent music each night. Community singing had been introduced and led by Mrs. J. G. Fuller and had proved an added attraction to the Friday evening's entertainments.

Field day for the district of Bedford High School Athletic League was held in Knowlton in October 14th, at which six high schools were represented. The contest for the "Miner Cup" was very keen between Bedford, Cowanville and Granby, but the latter won out and holds the "Miner Cup" again this year. If the Granby School should win again this year, the cup will remain permanently with them.

An attempt had been made to beautify the school grounds by making flower beds and borders, the children donating seeds and plants and taking much interest in their growth. A donation of fifty dollars was given by Mrs. J. G. Fuller for this purpose, this being a part of the proceeds of the operetta, "Jack and the Beanstalk," given by the children last May.

The gymnasium has been fitted up with twenty pairs of Indian clubs and fifty bar bells. In closing, Mr. Adams paid a touching tribute to the late James A. Tomkins, who for many years had acted as secretary-treasurer of the school board, and who had always taken such an interest in the life and work of the school.

The school valedictory was then given by Miss Marian E. Jolley and the Rev. Thomas Brown, pastor of the Methodist Church, gave an interesting and inspiring address in which he pointed out the importance of education and suggested that one more holiday might be added to the list—a day when all factories and places of business would be closed and all citizens come together to pay a tribute to the noble army of teachers and scholars who are striving to uplift mankind and make them better Canadian citizens.

During the evening the piano selections by Mr. Smithson were much enjoyed. The cash prizes were then presented as follows:

- Grade XI—Marian Jolley, Bradford Walsh, Mary Layhew.
- Grade X—Loran Ball, Ena Taylor, Ruby Thompson.
- Grade IX—Eric Adams, Gordon Roberts, Keith Giddings.

EXPECT GREAT THINGS in the NEW CADILLAC

Even the superb quality which you have long associated with the name Cadillac is no adequate measure of the merits of the New V-63.

The simple truth is that Cadillac has advanced its own standards and achieved, in this car, heights of quality which are strictly new.

Your attention is directed, particularly, to these three elements:—

The New Cadillac V-Type 90°, 8-cylinder engine—harmonized and balanced by entirely new principles of design to a degree of smoothness unapproached in automotive manufacture.

New Body Styles—destined by their graceful, symmetrical design, distinctive

finish and exquisite appointments, to be the center of admiration in any company.

Cadillac 4 Wheel Brakes—a safety factor developed with the care and thoroughness characteristic of Cadillac engineering.

New delights await you also in enhanced dependability, ease of control, riding restfulness and, indeed, in every phase of car performance.

It is entirely logical that Cadillac, pioneer leader of eight-cylinder manufacture in America, should now raise multi-cylinder practice to an even higher pitch of excellence.

This is exactly what has happened in the New V-63, and Cadillac urges you to approach this fine car with **great expectations.**

May Tetreault, whose marriage to Captain C. V. Meyer takes place on September 20th. A large wash-tub, prettily decorated and a table piled high with shining aluminum and pyrex utensils were presented to the bride-elect, who though taken by surprise, thanked her lady friends (who numbered forty) for thus remembering her. During the evening each guest was requested to patch a block, the prize, a silver thimble, being won by Mrs. F. D. Swett for the neatest block. This as well as the patchwork blocks, were presented to Miss Tetreault. Dainty refreshments brought an exceptionally pleasant evening to a close and the guests

departed, all wishing the bride-to-be a happy and prosperous married life.

States Average Profit of Operators Has Been Multiplied by Three in Ten Years.

(Associated Press Despatch.)
WASHINGTON, Sept. 12.—The United States Coal Commission soon will make public its report of profits of anthracite operators, in reply to the proposal of Governor Pinchot that these profits be disclosed. According to reliable information they will show the average profit of operators has been multiplied by three in ten years, while the surplus of the five railroad companies in the anthracite field increased sevenfold in ten years. It is expected the showing will greatly increase the pressure on the government to oppose a price increase to the consumer.

GENERAL LIST LOST GROUND ON WALL STREET 'CHANGE

(Associated Press Despatch)
NEW YORK, Sept. 12.—(Wall St. Noon) Considerable short selling and profit taking came into the market during the morning after an early period of hesitation, and the general list lost ground. Resistance was offered, however, in a number of quarters, particularly by shares in the sugar group, and low price rail groups, several of which maintained their gains of a point or so.

FRESH DECLINES IN THE PRICE OF WHEAT

(Associated Press Despatch)
CHICAGO, Sept. 12.—Influenced chiefly by weakness of Winnipeg quotations, fresh declines in the price of wheat took place here today during the early dealings. Buying support developed, however, under \$1.05 for the December delivery. Trade was mostly of a local character. The opening which ranged from quarter cent to 5-8 cent lower with December at \$1.04 1/2 to \$1.05 1/2, and May \$1.10 1/2 to \$1.11 1/2, was followed by a moderate sag and then something of a rally.

Despite reports of frost, corn was easier with wheat. After opening at a quarter to 3/8 lower to 1-8 cent advance, December 68c. to 67 1/2c. the market underwent a slight setback all around.

NEW YORK PRESS MARKET COMMENT

Journal of Commerce. Good prices for some of the rails were registered practically at the outset and the tone of the market continued at a fair level of confidence up to closing.

New York Tribune.—The stock market drifted into a traders affair many weeks ago, with professional influences dominating the situation and under such circumstances it hardly could be expected that prices would move forward to favorable news in a manner paralleling that which prevails when favorable developments find a large public interest in the market.

Wall Street Journal.—Rails finally succeeded in breaking through the point of resistance encountered on the August rally, thus confirming the action of the industrial and fortifying the technical indications pointing to continuance of the recovery the whole line.

MONTREAL POWER FEATURE ON MONTREAL EXCHANGE

(Associated Press Despatch)
MONTREAL, Sept. 12.—Continued activity in Montreal Power was the feature of the first half hour of a brisk session on the local stock exchange this morning. This stock, touching 126, went to a new high. In the tractors, Brazilian dropped half a point from yesterday's close and sold at 43, while Illinois stood unchanged at 51 1/2. Quebec Railway, apparently under the influence of the circular letter to shareholders by Julian C. Smith, president of the Quebec Power Company, announcing that there would be no change of basis of the merger, acquired 3/4 of a point to 18 1/2. In the paper group Brompton was unchanged at 43. Mackay was stationary at 111 1/2. Shawinigan rose 1/4 to 120 1/2. The rest of the market showed no change.

'CY' WILLIAMS POUNDED OUT TWO HOME RUNS

Increased His Total to Thirty-seven—Ehmke Held Yankees to a Single Hit.

(Associated Press Despatch) NEW YORK, Sept. 12.—There were some minor sensations in the Major League yesterday.

Howard Ehmke pitched a no run, one hit game against the Yankees, leading Boston to victory, 3 to 0. Cy Williams pounded out a pair of homers in Philadelphia's game with the Robins, who went down to crushing defeat, 11 to 3, and Jack Scott shut out the Boston Braves, winning for the Giants, 10 to 0. Pittsburgh defeated Cincinnati 4 to 3, making them a game and a half ahead of the Reds and five and a half behind the Giants.

Ehmke was robbed of the honor of pitching two no hit games in succession by the awkward bounce of a sharply hit ball from the stick of Mr. Witt, the Yankee centre fielder. Howard Shanks, the Boston third baseman, was the victim of the crooked hop. But for that Ehmke would have accomplished a feat never before recorded to the credit of any pitcher in baseball history.

'Cy' Williams' homers came in the seventh and eighth innings and increased his home run record for the season to thirty-seven, two ahead of Babe Ruth.

Kelly was the hero of the Giants' victory. He scored a homer, a two bagger and two singles out of four times at bat, and turned in three runs.

The Eastern Townships Tennis tournament opened officially yesterday when Messrs. Walthour and Kempner, of North Hatley, playing on the Lennoxville courts, defeated Messrs. Beck and Clark in a couple of well disputed sets, 6-2, 7-5. The result came somewhat as a surprise as the Lennoxville couple are a steady pair, well acquainted with each other's play and winners of many previous events.

The complete draw is as follows, with the possibility of minor changes.

It is expected that a programme of exceptional interest will be arranged, and that the Granby meeting will be made one of the best of the organization has yet held.

Tuxis Notes

An emergency meeting of the Tuxis Council was called in the Y.M.C.A., yesterday to consider the refusal of Messrs. H. Griffith and H. Conley to run as candidates in the forthcoming election for mayor. It was considered by those present that in the best interests of all, while not just in verbal accord with the constitution, it would be wise to name two others and the following were nominated: V. Bouchard, who for the past year has acted as secretary for the Council, and Cecil Netherfield. It was further agreed that H. Griffith be the returning officer for the election and the mentors of the squares deputy returning officers, who will take the ballot at the regular meeting of the different squares—Tuxis and Trail Ranges—and hand them in at the Y.M.C.A. not later than Saturday, September 15th, at 7:30 p.m. Mentors must make sure that no boy votes twice and a list of names of those voting must accompany the ballot papers.

COOKSHIRE FAIR GOT GOOD START

(Continued from page 1.) are exceptionally small this year. Amongst the Hampshires the chief exhibitor was Mr. F. G. Bennett, of Canterbury; while for the Oxford, Messrs. C. Lefebvre, of Birkton; and H. A. Taylor, of Cookshire, were the only ones showing. There were several showing in the Dorset Horned and Shropshire classes.

Showing of Swine Small.

There are very few entries in the Swine Department there being only three chief competitors, viz., Messrs. C. A. Wheeler, Birkton; G. Marois, Cookshire; and Walter Locke, Eaton Corner. Mr. R. M. Elliott, B.S.A., of Ottawa, Ont., is acting as judge in this department.

Maple Sugar and Honey Exhibit.

The maple sugar and honey exhibits are not only an acquisition but also an innovation, being the first exhibits of this nature in the Eastern Townships. Maple sugar in cakes of various sizes and shapes, maple syrup in bottles and cans are included in this exhibit; also cakes, cookies, biscuits and candies made of maple sugar or honey are shown and are most tempting and appetizing. It was through the efforts of the Hon. Jacob Nicol that a grant of \$200 was donated by the Provincial Government towards this exhibit for prize money, and there are a large number of entries.

In spite of the late and cold summer, the showing of flowers grown at "Evergreens" are magnificent. "Graceful" "Amaranthus," "Prince's Plumes" occupy a prominent place, while "Celosia" (Cock's Comb), in deep reds and orange are intermingled with cut flowers in a variety of colors, such as, roses, gladioli, sweet peas and asters. "Sunrise" grown from seed, is exhibited for the first time here, and is attracting much attention.

Calf Show.

Some twenty calves were entered for the Boys' and Girls' Calf Competition. There was an excellent showing, and after the judging there was the only parade of the day on the race track before the grand stand. Prize winners were Master Francis Cromwell, (Bull Calf), Miss Patricia Cromwell, Cookshire, (Heifer Calf); Master Donald Wheeler, Birkton, Senior Grade Shorthorn; Master Victroler Lemieux, Junior Grade Shorthorn; Master Noel Marois, Cookshire, Ayrshire.

Judges: Mr. J. A. McClary, Lennoxville, and Mr. R. M. Elliott, Ottawa, Ont.

Cookery and Canning Dept.

Quite a fair number of excellent entries are noted in the Cookery and Canning Department. Mrs. George W. Cook, of Cookshire, is acting as judge. Mrs. F. A. Hodge, Birkton, has a large number of entries. Ogilvy's first prize (special) for bread was won by Mrs. Stephen Hodge.

Mrs. R. A. Smith, of Sherbrooke,

Experimental Farm Exhibit.

The Experimental Farm, Lennoxville, has again a good showing in the main building. Various grains in sheaves are in evidence, the varieties being the best recommended for raising in this district. Advice is being offered to all who request it, and the annual report of the farm is distributed freely to interested farmers. Amongst the flowers shown are phlox, zinnias, asters, stocks, carnations and sweet peas. For vegetables, all varieties are included in this year's exhibit. It is interesting to note a forty-six pound pumpkin, one of the products of the farm, also a novelty, viz., green and red pimientos (sweet peppers). Flax, grown at Lennoxville, is displayed in all the different stages until it is ready for spinning.
