N P D Sod Turned

At the Des Joachims Hydro station yesterday one of the most momentous occasions of this scientific age was symbolized when Mr. C. D. Howe, Minister of Trade and Commerce and Prime Minister Leslie Frost of Ontario attended the sod turning ceremonies for NPD.

NPD is the code name of a nucler power demonstration which is being built at the Des Joachims site by three companies jointly. They are Atomic Energy of Canada, Ontario Hydro and Canadian General Electric. When the NPD is built it will demonstrate a method of producing power by means of atomic energy. Such a demonstration is now taking place in England and Canada is the second nation in the world to undertake such a project.

On the platform at the ceremonies were Rev. Father L. Gauthier, Parish Priest of the Village of Des Joachims and J. Hugh Proudfoot, MP for Pontiac. Also on the platform were the chief executives of the three sponsoring companies, other representatives of the governments and the Chairman of Toronto's Board of Trade whose 250 prominent members had chartered a special train from Toronto. In the audience at the ceremony were delegations from a number of foreign embassies at Ottawa including Russia's ambassador who had nothing to say to the press but distributed Russian cigarettes among the reporters.

Also in the audience was Mayor Charlotte Whitton of Ottawa with a small entourage from City Hall. The ceremony took place under canvas on account of a steady rainfall. Reporters were present from every newspaper and engineering magazine in an area which includes Montreal and Toronto. A dozen sound men from Pembroke, Ottawa, Toronto and Montreal radio stations recorded the speeches and over fifty cameramen took still and motion pictures for newspapers, magazines, television and newsreels. Representing the local weekly of the area, the North Renfrew Times, was Mrs. D. Dickson of Shawville.

New Anti-TB Secretary Mrs. Florence Neville

Mrs. Florence Neville of Fort Coulonge has accepted the position of Secretary-Treasurer of the Pontiac County Anti-Tubercular Association to replace Dr. C. Younger-Lewis who has moved to Carleton Place. Mrs. Neville is today having her direct mail notices printed to be sent to several thousand English and French speaking people in Pontiac. As is always the case, a number of people's names somehow get missed off the mailing list but whether they receive a letter or not they are all urged to help in the campaign to blot TB out of Pontiac.

Free chest X-rays and the new TB vaccinations where necessary have been made available in the past year to the public in our county. Also money from last year's campaign was sent to rehabilitation centers for help in the cure of Tuberculosis.

Contributions to the Anti-Tuberculosis Association may be sent to Post Office Box 99, Fort Coulonge, and may be used as deductions when computing income tax.

Honorary Presidents of the Association are J. Hugh Proudfoot and Raymond Johnston and the executive president is Dr. H. R. Rabb over whose signature the business of the organization is transacted. Phil Francoeur, Mrs A. C. Shennet, Dr. D. A. MacFallane J. Donlan, Dr. H. L. Keon, Cliff Robillard, Dr. E. B. Horner, Henri Madore J. R. Colton Joseph Steele Capt. A. C. F. Winslow, Alden Lavigne Dominic Sloan, Ira Merrifield, Renaud Rainville, and Reginald Scobie compose the executive. Mrs. Neville will doubtless receive the same great co-operation from her executive and the people of Pontiac as has Dr. Younger-Lewis in past years.

RESPONSIBILITY FOR IMMUNIZATION

In 1943 there were four hundred and sixteen deaths on account ofWhooping Cough in Canada. Two hundred and eighty seven Canadian died of Diptheria in that year. 21, 886 cases of these two preventable diseases were reported as well as six cases of Smallpox.

This means that even as recently as 1943 parents were not having their children immunized against these debilitating diseases. The Health League of Canada was greatly disturbed about this fact and so initiated NATIONAL IMMUNIZATION WEEK.

Ten years later, in 1953, through the incessant efforts of the Health League and all civic and service organization across the nation, parents had been made more aware of their responsibilities in this direction. In 1953 only nine and a half thousand cases of Diptheria and Whooping Cough were reported with 149 being fatal (Smallpox had been virually wiped out by 1946).

The aim of NATIONAL IMMUNIZATION WEEK, which is September 23 to 29 is to wipe out Diptheria and Whooping Cough by means of simple innoculation. As each year brings forth its new crop of parents, it is up to the Departments of Health to educate these parents in the matter of immunization but it is very difficult to reach all parents. That is why during NATIONAL IMMUNIZATION WEEK all the publicity media join together to put across the message.

Any doctor or public health unit will innoculate and vaccinate your child. The vaccination is against Smallpox and the Innoculation is against Diptheria, Whooping Cough and Tetanus, all in one combination. It is a very simple proceedure but it is each parent's sole responsibility to see to it for his own children. If you neglect to have your child immunized you not only place his life in danger but the lives of the children he plays with. Almost total immunization isn't enough it must be 100% for a community to be really safe from these killers.

(The figures above are provided by the Health League of Canada. It may be noted that no statistics are given for cases reported or fatalities due to Tetanus although Tetanus is included in the immunization program. This disease is little heard of because its poison enters the body through an open wound and realistic doctors, when they are treating open wounds, will administer tetanus toxoid wherever they feel there is the slightest chance of tetanus infection.)

"WHAT DO YOU EXPECT?"

The "Weekly Editor" is a magazine distributed, obviously, to Canadian weekly editors. It comes out each month full of news of the other eight hundred odd (yes odd) men and women who share our profession. The magazine encourages us to improve our product, see our common problems in proper perspective and leap over the brick walls instead of knocking our heads against them. Altogether, the magazine performs a very useful function on every weekly editor's desk.

Next month, the "Weekly Editor" is running its annual editorial contest. We have never entered such a contest but might consider entering this one as the subject proposed for the contest has intrigued us. "What does the community expect of its weekly newspaper?" is the title chosen for this year's contest.

For an editor to settle down and write such an article might be quite easy and just as false. The only way we can possibly know what the community expects is from opinion expressed by representative members of the community.

With regard to the contest requirements, we intend to write an editorial on this subject and look to our readers to provide the material. Here is our request. Will you be kind enough, whether you live in the immedate community or receive your paper from a distance by mail, to jot down a few of the things you expect of your weekly paper. The invitation goes out to those of you who only use the paper with reference to one special club's activities as well as those who read every word every week. We would also like to hear from those who do not read the paper but depend upon it to convey their advertising. Nothing formal is requested - just a note addressed to the editor to indicate what it is that you expect of this paper.

The editorial we produce will not be ours but yours, and it should be very interesting even if it never wins a prize.

If you care to, you may use the following form:

I expect my weekly newspaper to do the following things:

OTTAWA Report:
by Anthony J. Wright

The 2nd. Canadian Infantry Brigade plus British units have just fought a mock battle, as part of NATO exercises, over ground near Paderborn, West Germany, where Roman legions were licked by local tribes nearly 2,000 years ago. Hermann, German chieftain, gave Roman commander Quintilius Varus, a kick in the pants there in 9 A.D. Seems to me pathetic that man is still waging war, or learning how to, for the same bits of earth he squabbled over all that time ago. The mock battle was watched, among others, by officers from the re-created German Luftwaffe and Wehrmacht. Remember those boys? They had a chieftain called Hermann too.

Meningitis is a bad thing, leaves after effects, hence there were long faces here when Hon. George Drew had to go back into hospital after a Bermuda holiday. Gossipers will be talking of his successor. American born Earl Rowe, the Commons' brightest impromptu debater and Drew's second fiddle, at 62 could handle the job, might not want to. Davie Fulton, (Kamloops, B. C.), at 40, could too, might want to. In fact W. L. Mackenzie King once pointed him out as a future prime minister, according to talk around here. Ontario's Premier Leslie Frost has given the impression he has no federal hopes. If George continues to find the going tough, the P.C will have to look for a replacement. It's a shame he was doing fine this session, was making things tough for the government at times. He got much support from his wife, comely Fiorenza, daughter of Edward Johnson who used to run the Metropolitan Opera in New York .

I hope the Malcolm Construction Co. Ltd. of Winnipeg do or have done a good job on the officers' mess and quarters at Shilo, Man. According to the Defence Construction Ltd. they are getting $662,188 for the deal. Still we have to have our officers fighting fit. It's a lot of money to house and feed upper ranks.

At Winnipeg a fortnight back I met one of Canada's bravest flyers, Wing Commander "Danny" Walker who was one of the "Dambusters" (seem the film?). They blew holes in two vital Ruhr dams, flying in at 60 feet exactly, almost down the mizzles of German guns. Now Danny trains Canada's and many NATO, navigators. He's no hard boiled make em or break em instructor either, always has his eye on the weather if any of the youngsters are up doing their training. He runs the Air Force Navigation school at Stevenson Field, Winnipeg. Nice guy.

Lot of folk are unhappy about Britain's conduct of the Suez business. How right they are, it's hard to say. Some say Eden has botched it. Certainly if Nasser eats crow, which is not likely, Eden will have made his political name in Britain. He's a vain man —no help in this situation. Anyway now he's walking on eggs and people like Mike Pearson must be afraid he will break a few leaving the world with an omelette to unscramble. Too bad Winnie's getting on.

People sure help you in the country. Last weekend a neighbour who keeps bees brought some calcium cyanide round and put a wasp's nest out of action in a jiffy; I was digging up part of the garden to make a lawn and the sand wasps were angry with me. Funny how the ones who were out when we put the cyanide at the mouth of their hole came back and, foolishly, hovered round the hole long enough to be gassed themselves and to drop on the bodies of their comrades. The neighbour told me it's dangerous for him to get a wasp sting—he is innured to bee stings, is full of bee poison, but wasp sting with a different poison and would affect him far worse than other folk.

The Fabulous Niosis

Oft heard but rarely seen together are the fabulous Niosi Brothers. Among them they play virtually every major band instrument and appear one or the other of them, in practically every CBC orchestra in Toronto. At the left is a guy who is not a Niosi at all but a MacDougal, who is regarded as an authority on music and who supplies the three brothers with the tin horns that he claims they always blow. Johnny plays every percussion instrument in the books. Joe plays string bass, tuba, bass horn, and every other bass instrument around. Bert is arranger, leader, trumpeter, flutist trombonist, clarinenist, bass, tenor alto, baritone and soprano

Norway Bay

A great number of the Bay residents have left for their homes, but there are quite a number of families still with us. The unusual cool damp weather hurried some of them home, as well as the opening of schools and colleges.

Death has visited the Bay again. Another of the long time summer residents, Miss Irene Dock passed suddenly at the Bay. She came every summer to the Bay for some 48 years, and will be missed here. She was in her 67th year. For many years she was with the C. W. Lindsay Co. For years too she was with Mr. R. J. Cumming and with the real estate firm of Pommerville and Helmer These were all Ottawa firms and she was a trusted employee of them all.

A message has reached the Bay of the death of Mr. Menzie Dean, who was instantly killed Saturday evening in a car accident, while on his way to visit his mother in hospital. A son of Mr. and Mrs. Arthur Dean, who lived at the Bay for a number of years, Mr. Dean was accompanied in the car by his father and his young son. His father sustained broken ribs, while his son was uninjured.

Mr. and Mrs. Alf Barnes and Miss Patsy Barnes were on the Bay for the weekend.

Program, The Governor's Visit to the Club.

The Day of Reckoning, the Day when each club is expected to give an account of its stewardship and what it plans to do.

Chairmen of Committees,- Claude of Membership. Harland of Club Service, Dr. Fokes of Club Bulletin, Asa of Vacational Service, Dr. Powels of Community Service, Ossie of International Service and Wyman of Program, will be expected to report what their respective committees are doing. Maybe the Governor should visit us more often!

Last Meeting, Wyman spoke. He came! He saw! He conquered Both at Rotary and in the Show Ring. Not that he stresses the latter by any means, but the sense of achievement, of success was there all the time. Anyone who missed that meeting missed something worthwhile. Wyman first told of the history of Agricultural Fairs in Canada, the first at Windsor, N. S. in 1765, later how the Ottawa Valley became the hub of Fairs for Canada, in fact for the whole of North America, all replete with incidents and anecdotes of his experience in showmanship and in judging. He concluded with a remarkable testimonial for what the Fairs are doing for the teenagers on the farms, the 4-H Clubs, the objectivity, the sportmanship, the spur of competition the sense of fair play, the dignity the humanity of a good loser and a good winner, the urge to try and try again. A verbatim copy of Wyman's address could well find a place in our best journals.

Church Would End Elaborate Funerals

Windsor—The United Church of Canada said this week funeral services should remain simple and called for an end to elaborate displays of grief.

Recommendations on burial, adopted by the church's general council, said "elaborate and costly devices to restore a life-like appearance to the body have no place in Christian practice."

"Christian burials ought to be as simple as possible. Excessive expenditures on elaborate caskets, vaults and headstones are to be deplored.

"People should be on guard against being moved to commit themselves to such expenditures at a time of emotional distress."

No other rite or ceremony should be permitted at the time of the burial, the recommendation said.

Persons should make their own funeral arrangements well in advance to relieve survivors of the strain.

Elmside W. I.

The Elmside W. I. held their September meeting at the home of Mrs. James Campbell. The president presiding, the meeting opened with the Ode and Collect. Roll call was "Who was your first teacher", answered by all present. Minutes of the last meeting were read and adopted. A letter from Mrs. Taylor of Macdonald College was read re articles for Ceylon, which are to be at Macdonald by the 19th. The letter also advised that we are to have an extension of time in which to finish our Tweedsmuir competition. Final arrangements were completed for the school fair, to be held in the school basement, with the naming of a sports committee and provision for a booth.

The Quyon and the Shawville Fairs were discussed, with regard to the articles displayed there by members. All were well pleased with the results.

In the absence of the Treasurer, the report was read by the President. Committee convenors next gave their reports:

Agriculture—Peat moss or some soft waste may be spread around the roots of raspberry canes to keep the grass down. Publicity—the lucky 13 convention by Mrs. Berry.

At the October meeting all are to bring a donation for the Hospital.

The program was conducted by the three teachers, Mr. Keith Hale Mrs. Cartman and Mrs. F. Graham. The subject was the "Ways and means of teaching", which proved most interesting. The quiz sponsored by Mrs. P. Ballantyne was enjoyed. Prize winners were Mrs. S. McNeill, Mrs. F. Graham and Miss S. Campbell. Mrs. Storie and Miss McNeill moved adjournment. Tea was served by the hostess. Mrs. Joe Storie, assisting Mrs. W. Graham. We all enjoyed a piece of Mr. H. H. McElroy's cake. He was chief of staff of M. R. Bailey, Ottawa Ex. for many years.

9 LITTLE PIGS WENT TO MARKET

If you can send nine pigs to market out of every litter farrowed, it stands to reason that your cost of production per pig is a lot less than if just 4 or 5 pigs reach market. That's simple arithmetic.

What's the secret?

There is no secret. It's a question of starting with wellbred sows, using good management AND FEEDING PROPERLY.

For the dry sow we recommend SHUR-GAIN DRY SOW RATION a feed designed especially for feeding the sow during gestation to assure a strong vigorous litter. For the nursing sow we recommend SHUR-GAIN NURSING SOW RATION a feed that keeps your sow fit and helps her produce a good milk flow.

Tests prove that balanced feed sows will wean more pigs per litter. Use these two balanced feeds to feed your sows and be assured of feeds that are FRESH.

IN MEMORIAM

Dougherty—In fond and loving memory of a dear husband, father and grandfather, James H. Dougherty, who entered into peaceful rest September 25, 1954.

In sorrow we waited day by day,
And watched his suffering there,
Slowly but surely passing away.
From the pain he scarce could bear,
And then God called from His throne above,
His suffering and pain is past,
We know he has gone to realms of love,
And in Heaven has peace at last,
—Ever remembered by
Wife, Family and Grandchildren

WEDDINGS

Brown — Blakelidge

On Saturday, September 15th, 1956 in Grace United Church, Hamilton, Ont., by the Rev. W. G. Dickson Florence, only daughter of Mr. and Mrs. R. Blakelidge of Hamilton to Edison Garfield, eldest son of the late Mr. and Mrs. W. J. Brown of Starks Corners.

Bryson

By Len Coyne

Mr. and Mrs. Denzil Brunet with Joan and baby accompanied by Miss Doreen Brunet, Hamilton, paid a short visit recently with Mr. and Mrs. Godfrey Brunet.

Miss Reanice Sullivan has returned home last weekend from a month visit among friends in Hull, Buckingham, Toronto, Hamilton and Windsor, while in Hamilton, Miss Sullivan joined the harvesters of the peach crop.

Owen Coyne, Greg. Murtagh and Ivan Saunders are students at St. Pats College; Carol Lemaire is taking a course at Hull Technical and Karl Goransson is continuing his studies at Ottawa U.

Bryson is apparently reverting to type, at least from the appearance at the last Council meeting of the many ratepayers who want a reduction in valuation of their respective properties. Rather than looking for a high valuation and low rate they want a low valuation and high rate. All are strong supporters of the old parties of taxation and all want the other fellow to take the load. Crown prosecutor, Paul, Martineau represented the complainents, "Inconsistancy thou art a jewell".

The Volunteer Fire Brigade is arranging for a Draw for a 30-30 rifle to be the main attraction at a Box Social and Dance at the Town Hall here before the deer season opens, October 26th is the day.

Q W I Would Encourage Private Television

The brief submitted by the Quebec Women's Institutes to the Royal Commission on Broadcasting appeared on the first day of the hearings in Montreal, Monday, Sept. 10th. Mrs. J. Ossington Granby, 2nd Vice president and a member of the committtee that drew up the brief was the spokesman for the Q.W.I. She was accompanied by the immediate Past President, Mrs G.E. LeBaron, North Hatley.

The brief incorporates the majority viewpoint of the Q.W.I. membership throughout the province. It stresses the need for a government sponsored system to give adequate service to all Canada, acting as a creative force in establishing national unity. It goes on to say, private networks, both radio and television should also be encouraged, as they provide an outlet for affairs of local interest and the development of local talent.

The brief asks that the field of advertising, "a necessary life blood" be constantly explored to make it more acceptable to the listeners but the CBC should also be given adequate financial assistance to aid it in developing a sound national policy in both television and radio, to assist it in expanding its services to meet the growing needs of this country, and to provide the finest in "Canadian information, education and entertainment".

The CBC was commended for its excellent news and sports coverage, programs for rural listeners (weather, farm broadcasts talk and dicussions, fine plays and music. The brief recommends more use of Canadian talent, avoidance of gun play and violence on children's programs and more women on the Board of Governors.

Farm Forums Resume October 29

Signalling the begining of autumn activities in many rural communities is the announcement of October 29 as the opening broadcast of National Farm Radio Forum.

"School Milk-Should we have a national school milk program?" will open the sixteenth season of Farm Form discussions, National Secretary Floyd Griesbach has announced. No dates have been set for following topics.

"This is a new approach which will provide opportunities for the introduction of topics of immedate concern to rural people", Mr. Griesbach says. At least two of the Broadcasts during the 1956-57 season will be of this kind.

Special feature during January will be a series of three discussions on a subject vital to farm people, "Parity for Agriculture". These will be discussed under the headings, "What is parity income for agriculture? How can it be achieved? Is it enough?" Summing up the series will be a fourth broadcast in which the findings of several hundred Farm Forums will be discussed and reported back to the Forums.

Other topics to be heard on Monday nights during the winter are "The Soil Bank Idea" "What price efficiency?" "What's Ahead" "A Man and His Neighbor". Under the heading "Does she put the price tag on?" the role of women shoppers in setting the price of farm products will be discussed.

Broadcast will be carried over the Trans Canada network of the CBC from 8:30 to 9:00 p.m. in all provinces (except Newfoundland) every Monday night from November to March.
