Quebec, Oct. 24.—(CP)—An assurance that well-paid jobs are waiting for workers in the woods of Quebec this winter was given today in a statement by Hon. J. S. Bourque, Quebec's Lands and Forests Minister.

Abroad the American Airlines Flagship "London." Oct. 24.—(AP)—This flagship of the American airlines, with 12 passengers and a crew of seven was speeding over the North Atlantic today for London, inaugurating a new service link between New York and London.

After a brief stop at Shannon the ship will deliver its passengers and products in London. The flight originated in New York at 3:30 p.m. E.S.T. yesterday—the first of American airlines post-war civilian service to Europe.

Montreal, Oct. 24.—(Wednesday)—(CP)—The Montreal Gazette today in a front-page story that a judicial probe on the whole situation of vice in Montreal for the last 20 years will result soon if present plans of a "powerful group of men and well known organizations materialize."

A special organization to prepare the inquiry is reported to have already been established, with offices, a secretarial staff and a group of investigators, the Gazette says.

The inquiry will examine all the aspects of gambling, betting and prostitution in the City of Montreal since the famous Coderre investigation (an inquiry conducted by Mr. Justice Coderre) of 1925, which was closed by conditions similar to those existing today.

Winnipeg, Oct. 24.—(CP)—Negotiations were scheduled to start today in an effort to avoid a general strike of about 12,000 production workers in 19 meat-packing plants across Canada that would practically paralyze the nation's beef industry.

Officials of the United Packinghouse Workers of America (C.I.O.), representing the employees, were prepared to submit their demands for a new master agreement to executives of the big three packing companies—Burns and Company, Canada Packers and Swift Canadian—at a meeting presided over by Mr. Justice S. E. Richardson, Government-appointed mediator.

Vidkun Quisling Is Put To Death By Firing Squad For Betraying Norway To Nazis

VIDKUN QUISLING

Arch Traitor Awakened in His Cell and Rushed Before Firing Squad to Pay Final Price for Dealing With Enemy His King and Countrymen Defied Throughout Bitter Years of War—Execution Surrounded by Great Secrecy.

Oslo, Oct. 24.—(AP)—Vidkun Quisling, Norway's arch traitor, was executed by a firing squad before dawn today, paying the final price for dealing with an enemy his king and countrymen defied throughout the bitter years of war.

The greatest secrecy surrounded the execution, a Foreign Affairs Office spokesman said.

Quisling was awakened in his cell and rushed quickly before the firing squad of ten Norwegian military police. The only witnesses were an unidentified member of the state prosecution, a clergyman and the officer who gave the order to fire.

Anneus Schjøedt, State Prosecutor, who presented the case against the former puppet dictator, and Henrik Bergh, Quisling's defence lawyer, said they had not been notified in advance that Quisling was to be executed today.

The Norwegian Embassy in London announced that Quisling was shot at 2:40 a.m.

The embassy said the Royal Norwegian Ministry of Justice issued the following statement:

"The sentence of death passed on Vidkun Quisling on October 13 by the Supreme Court in Oslo was carried out by shooting at 1:40 a.m., Norwegian time.

The Supreme Court did not recommend a reprieve. Neither could the state prosecutor.

"Quisling sent the King a letter in which he pointed out he was innocent, but added he did not ask for a reprieve.

"Mrs. Quisling, however, requested a reprieve on behalf of her husband. In a cabinet meeting yesterday, the king rejected Mrs. Quisling's petition for mercy and decided the sentence would be carried out.

"Quisling's relatives were notified of the execution at 9 a.m. this morning."

Quisling was sentenced to death for treason by a high court September 10 and his sentence was confirmed October 13 when his appeal was denied.

In the slightly more than five years he ruled Norway as Adolf Hitler's puppet, the name of Vidkun Lauritz Quisling became a synonym for traitor.

He was virtually unknown outside his own country before he emerged in April, 1940, as a collaborator with the German invaders of his homeland. Behind him was a record of political failure and disrepute with his profession, the army. Even after the Nazis lifted him to power he could rally no confidence among his people.

His three-week trial began August 20 before a high court of three judges and four laymen. The prosecution accused him of conferring with Hitler and other high German officials to force the invasion, urging them to such action. Subsequently, it was charged, he delivered defence data to the Germans and aided their occupation of Norway by urging his troops not to resist.

He was accused also of collaborating with the Nazis in deportations and oppressions that led to deaths among his people.

PROCEED WITH REORGANIZING OF MITSUI CO.

Harassed Japanese Government Also Preparing to Beg for Outside Aid to Meet Food Crisis.

By RUSSELL BRINES

Tokyo, Oct. 24.—(AP)—Directors of Japan's biggest multi-million dollar family monopoly, prodded by the stigma of being linked with the war effort, wrestled today with reorganization while the harassed Japanese Government prepared to beg for outside aid to meet a food crisis.

The problem before the directors of Mitsui, a company dating back to 1873, was what to do with holdings frowned on under the present setup by Allied occupation authorities.

The problem before the directors of Mitsui, a company dating back to 1873, was what to do with holdings frowned on under the present setup by Allied occupation authorities.

Mitsui directors, it was learned authoritatively, are discussing such drastic moves as the retirement of ten Mitsui families and the liquidation of their huge stock holdings. No definite decision has been reached, contrary to premature reports put out by Domei Agency.

However, a decision is expected soon on the basis of policies determined by the Allies.

The directors of Mitsui are discussing these possibilities:

1. Liquidation of the Mitsui Holding Company, capitalized at 500,000,000 yen (\$33,333,000), of which the Mitsui families hold 63 per cent of the stock. Mitsui Holding also has stock ranging from 37 to 100 per cent in 10 direct and 12

Record Vote Forecast In B.C. Election

Total of 147 Candidates Nominated for 48 Seats at Stake Tomorrow, With Coalition and C.C.F. Major Groups.

Vancouver, Oct. 24.—(CP)—Campaigning in British Columbia's general election came to a close today, leaving the fate of the Coalition Government in the hands of the electors.

A record vote is forecast when voters cast their ballots tomorrow in the 41 constituencies to elect 48 members. Altogether 147 candidates have been nominated with the Coalition and C.C.F. the major groups.

Voting begins at 10 a.m. C.S.T. (1 p.m. E.S.T.—2 p.m. A.S.T.) and polls close at 10 p.m. C.S.T. (1 a.m. E.S.T.—2 a.m. A.S.T.). A total of 476,819 civilians are registered to vote, compared with 417,839 in the last election. Unofficial estimates place the number of service votes as high as 60,000.

While all service personnel home from Overseas may vote, the counting of their ballots will not be made known immediately. Votes of those who were in British Columbia in time to register by the September 17 deadline, will be counted October 26, but choices of unregistered servicemen will not be released until mid-November—after officials have made a complete check of the authenticity of declarations made by them before voting.

Under the regulations, unregistered service personnel must declare residence in B.C. six months before enlisting and at least one month in the particular district where they vote.

Service personnel in the United Kingdom cast ballots October 13, 15 and 16 and B.C. service personnel outside the Pacific Coast Province voted October 18-19-20. Their votes will be counted Friday with registered servicemen in the Province.

The provincial campaign, void for the first time in the history of B.C. politics of the bitter battles between the Liberals and Conservatives, was featured by stiff criticism from the major opposition—the C.C.F. of the government's record of the last four years, its ministers and its future plans.

The Coalition Government, headed by Premier John Hart, provincial Liberal leader and Attorney-General R. L. Maitland, K.C., leader of the Progressive Conservative Association since 1938, was formed after the last provincial election, Oct. 22, 1941, when neither party received a majority.

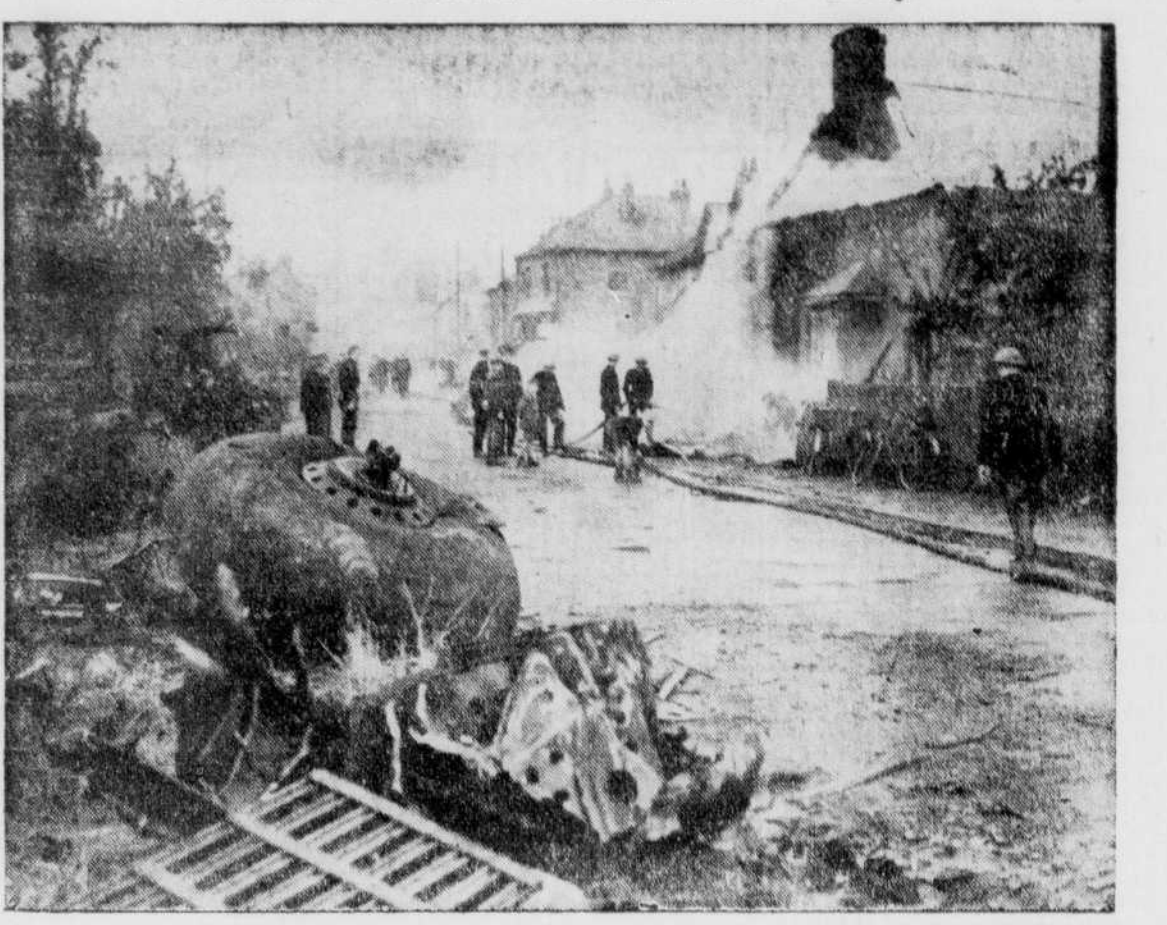

The coalition, termed "the marriage of convenience" by the C.C.F., was criticized severely by Party Leader Harold Winch, who maintained that the government failed to provide for post-war employment, lacked initiative in forecasting acute housing shortages for veterans and that its power bill, passed at the last session, failed to take into its scope the larger power distributing systems of the province.

Of the 147 in the field, 13 are women, five of whom are seeking re-election—three as C.C.F. members and two as coalitionists.

Standing in the provincial legislature at dissolution last Aug. 31, was: coalition liberal—18; coalition progressive conservative—11, C.C.F.—15; coalition—1; Liberal—1; Labor—1; vacant—1.

Bomber Crushes Cromwell's H.Q.

Said to have been Oliver Cromwell's residence at the time of the Battle of Marston Moor, the burning cottage above was set on fire when a blazing Stirling bomber crashed on the sleepy Yorkshire village of Tockwith. Seven persons, including the village postmaster were killed and 20 were made homeless. Located near the Marston Moor airfield, the little English village is near the site of the battle where Cromwell made history. Note size of bomber's wheel in foreground.

Report Victory Loan Sales At \$162,660,850 To Exceed Last Drive By \$20,000,000

Ottawa, Oct. 24.—(CP)—Maintaining its record pace, Canada's Ninth Victory Loan reached a total of \$162,660,850 for the first two days of the drive for a minimum of \$1,500,000,000, a figure \$20,000,000 ahead of contributions at the same point in the last loan drive, the National War Finance Committee reported today.

The men in the street, returning servicemen, business firms and executives all contributed liberally to keep up the pace in this biggest of Canadian loan drives.

A thousand R.C.A.F. reps reaching Montreal yesterday on their way home set the pattern by buying \$61,450 worth of bonds on top of previous commitments made in England.

Workers in two plants in Ontario had reached the million dollar mark in their payroll campaigns. At Sudbury 5,516 of the 8,000 workers of International Nickel had bought \$1,312,000 worth of bonds against their objective of \$1,750,000. Nine of the 42 group-payroll establishments had passed 200 per cent of their increased quotas.

The Toronto head office of the Massey Harris Company reported 5,527 workers had subscribed \$1,000,000 against their combined

objective of \$841,840 for all plants and offices across Canada.

Among yesterday's large purchasers were \$3,000,000 by the Imperial Tobacco Company of Canada, Ltd., and \$500,000 by Sherwin-Williams Company of Canada, Ltd., both of Montreal.

School children of Canada have added their penny banks to contribute \$500,000 so far.

Sales in British Columbia up to noon Tuesday totalled \$9,722,000 or 13.7 per cent of the Provincial quota, a record opening. North Burnaby in suburban Vancouver more than doubled its previous best day in the loan, investing \$44,450.

The R.C.A.F., in Montreal area reached 250 per cent of its \$300,000 quota with Lachine depot alone reporting \$40,000 against an objective of \$160,000. St. Hubert hit 200 per cent and other depots from 300 per cent up.

Canvassers carried their drive for bonds into homes, stores, business offices and factories. In Vancouver a butcher told canvasser P.O. Dick Small to "get out" when he came around. But after P.O. Small told him he had been shot down over Germany and was the only survivor of a bomber crew and had spent 14 months in a German prison camp, the butcher changed his mind. He bought \$3,000 worth of bonds.

At Lehigh, Alta., a woman drove up to Victory Loan headquarters and dumped a gunny sack of silver on the counter. In it were half dollars, quarters, dimes and nickels—enough to buy \$1,000 worth of bonds. She had saved the money selling eggs and milk.

Shooting for a goal of \$1,500,000, the three-week drive started Monday with a sales record of \$1,000,000 against their combined

Soviet Pact With Balkans

By DEWITT MACKENZIE Associated Press Foreign Affairs Analyst

When the Russians have determined on a major objective, they drive head-on for it. That characteristic is illustrated in the Soviet action in proposing to conclude unilateral trade pacts with the Axis satellites Hungary, Romania and Bulgaria—a move which Britain and the United States have protested as violating the spirit of the Yalta agreement for concerted policies among the Big Three. The significance of this development seems clear enough.

Moscow has laid out for its sphere of influence virtually the whole of Eastern and Central Europe up to the line running from the great German port of Stettin on the Baltic right down to the Adriatic. Within this zone is the new Poland, Czechoslovakia, Austria, Hungary, Finland and the Balkans, with the possible exception of Greece and Turkey, whose status remains to be seen.

Russia is determinedly consolidating this vast territory—taking over the Hitlerian sphere of influence. Germany's strength was politico-economic, backed by military power. Moscow's strength lies in similar factors.

Much of the Reich's pre-war domination was due to the economic hold which it exercised over the whole area. Broadly speaking, this was Germany's main strength. The smaller countries in question were economically dependent on the Reich.

Take Hungary, Romania and Bulgaria—since these are the countries in the limelight; More than 50 per cent of all their exports were absorbed by Germany. And they had no alternative markets!

The position was crisply summed up in Budapest just before the war by a famous Hungarian statesman. After calling attention to the fact that more than half of Hungary's exports went to Germany, he said: "There were no other markets, he said."

"All Hitler would have to do would be to cut off our exports to Germany for six months and we would be bankrupt. Do you think we are going to play along with him? The answer is 'Yes.'"

Thus, Russian trade is rushing in to the vacuum caused by Germany's disappearance. Time alone will tell whether this new economic setup will be as effective as the old one. Germany could make it work because of the fact that she was a great industrial power and could meet the demands of the smaller countries for manufactured goods, while at the same time absorbing their agricultural products. It would seem that Russia will have to hasten the economic situation in similar fashion.

Moscow daily is tightening the lines in its new zone of influence. And that zone, of course, is extending in other directions, to the Mediterranean and Middle East. And another great Soviet sphere is being created in the Far East.

ABBOTT SILENT ON PEACETIME SERVICE ISSUE

No Official Reaction In Ottawa to Truman's Recommendation That Compulsory Peacetime Training in Armed Services in U.S. Be Inaugurated.

By JACK BRAYLEY Canadian Press Staff Writer

Ottawa, Oct. 24.—(AP)—There was no official reaction in the capital from military or Parliamentary sources in connection with President Truman's recommendation to Congress yesterday for compulsory peacetime military training, but previously cabinet ministers and private members had expressed divergent views on the subject.

The Government has forecast a permanent army, navy and air force of about 55,000 men and indicated this force would be raised on a voluntary basis. Behind this force would stand a reserve army of 18,000 men, an army divisional re-

Nova Scotian Liberals In Sensational Election Win

Halifax, Oct. 24.—(AP)—Sweeping to the most sensational victory in Nova Scotia political warfare, the Liberal Government of Premier Angus L. Macdonald in yesterday's general election captured 28 of the Legislature's 30 seats, eliminated the Progressive Conservative Party from the House, and cut the C.C.F. representation by one.

Both Progressive Conservative Leader L. W. Fraser and C.C.F. House Leader Donald MacDonald went down to defeat as the Liberal tide rolled up seat after seat from the time the ballot boxes were opened shortly after 6 p.m. (A.S.T.).

Premier Macdonald's election in Halifax South was conceded thirty minutes after the polls closed, and the Canadian Press trend-analysis indicated the return of his Government at 7:24 p.m. By nine o'clock 22 Liberals had been conceded election, including all Cabinet Ministers.

The C.C.F. retained two seats in industrial Cape Breton, although their leader was defeated by J. Smith MacIvor in Cape Breton South. The Progressive Conservatives lost the four seats they held in the last Legislature, as the Liberals even moved into Colchester County, a Conservative stronghold for 39 years.

The victory was the greatest achieved at the polls since 1925, when the Conservatives under Hon. E. N. Rhodes ended a Liberal reign of office extending back to 1882 by winning 40 seats against three for the Liberals in the then 43-member House. The Redistribution Act of the early 1930's cut the House membership to 30, and 1937 Premier Macdonald's Government took 25 seats against five for the Conservatives.

Premier Macdonald, who returned to the leadership of the Nova Scotia Liberals this fall after five years as Federal Navy Minister, won a convincing vote of confidence in Halifax South where he piled up a majority of 3,123 over his Progressive Conservative opponent, with the C.C.F. and an Independent-C.C.F. candidate trailing far behind.

The Premier's majority was the second largest in the Province, only

Automobile Industry Holds First Of 3 Strike Votes

New York, Oct. 24.—(AP)—The first of three strike votes involving some 500,000 workers in the United States automobile industry's "Big Three" was to be held today as employees of General Motors Corporation balloted in a federally-conducted election costing an estimated \$250,000.

Across the country labor disputes kept about 225,000 men and women away from work, a slight drop in the last 24 hours.

As workers voted, officials of General Motors and the union resumed their wage conference, but there were no indications of a settlement. Walter P. Reuther, I.A.W.-C.I.O. Vice President, said at yesterday's sessions G. M. officials maintained an "attitude of complete indifference."

The strike of motion picture workers in Hollywood, which has been marked by increased violence in recent weeks, was placed before the American Federation of Labor Executive Council in Cincinnati today for consideration. Eric Johnston, chief of the motion picture producers' representatives, and Donald Nelson, independent producers representative, were to appear before the council as spokesmen for the industry.

Service Chicago's elevated lines were scheduled to be halted for two hours today as some 4,900 A.F.L. operating employees planned a work stoppage between 1 and 3

East Angus Pulpwood Blaze Is Now Well Under Control

East Angus, Oct. 24.—Flames are almost quelled now and smoke and steam dominate the scene as fire-fighters battle a small blaze reported at one end of the pile, with the whole, however, well under control, "and almost sure to be kept so," according to East Angus Fire Chief Roger Bouchard. His detachment has been reinforced with fire-fighting units from fifteen surrounding municipalities and several hundred soldiers from No. 6 Infantry Battalion in Sherbrooke.

Yesterday burning embers landed in the town, causing minor blazes which were brought under control in a short time, with little damage done.

Last evening two C.P.C. pumps arrived from Montreal and were used throughout the night. About thirty miles of hose is being used against the stubborn fire, fanned to a raging height by wind earlier in the week. Water is being drawn from the St. Francis River.

The Brompton Pulp and Paper Company has been in full operation, with wood stored in the St. Francis being used in the mills. It is expected that if progress in the battle against the fire is maintained, the wood salvaged will allow

operations to continue for some time to come. In the meantime, it is hoped that arrangements will be made for substitute supplies of the raw material.

EXPANSION OF TCA DISCUSSED BY PARLIAMENT

Members Consider Resolution to Bill Which Will Authorize Expansion of Canadian Air Services in Domestic and International Lines.

By GORGE KITCHEN Canadian Press Staff Writer

Ottawa, Oct. 24.—(AP)—The future of air services in Canada and of Canadian-owned air services abroad occupied the attention of the Commons yesterday as members considered a resolution to a bill which would authorize expansion of Trans-Canada Air Lines in the domestic and international fields.

Air services, both past and future, were given a lengthy going-over as Reconstruction Minister Howe, the minister in charge of civil aviation, replied to questions concerning the purpose of the proposed bill and outlined the Government's plans for the government-owned air line.

The resolution finally passed through all stages and the bill itself was given first reading.

### Danger Of Inflation Is Emphasized By J. E. O'Brien In Rotary Club Talk

Describing the work of the War-time Prices and Trade Board as being designed to benefit all Canadians by keeping the standard of living and the value of the dollar high, J. E. O'Brien, Field Officer of the Information Branch of the W.P.C.I.B., told members of the Rotary Club at their regular meeting last night that "hoarding, black market and panic buying will destroy any system of distribution that we can possibly evolve. There is an adequate supply of all the necessities of life for everyone in Canada if we will co-operate and buy only what we need. Don't buy two if one will do," he advised.

Mr. O'Brien warned that the many people who think that the battle of inflation in Canada has been won are mistaken and that everyone must learn to recognize inflation as their enemy.

He stated that now that the war in the Pacific had ended it has been possible to relax a number of wartime restrictions. He said that most restrictions against management and production had been removed. "These restrictions amount to about ninety per cent of all the Prices Board controls, the remaining ten per cent dealing with price controls only. As soon as demand equals supply, these controls will also be relaxed," he said.

Continuing, Mr. O'Brien dealt in detail with the cause and measures set up to protect Canadians against inflation. He said that it would be well for everyone to remember that inflation is an ancient foe being part of the terror and havoc of every war in history. "We have been defeated by him once and at a time when we were not nearly as vulnerable as we are now. In the First World War when only ten per cent of our effort was spent in war, he licked us badly and in the depression which followed the 1929 boom, with all its miseries and hardships

### ONE MINUTE NEWS ABOUT JOHNS-MANVILLE STRANGE USES FOR "WHITE GOLD"

You probably never heard of "diatomaceous silica." Scientists say it is the fossil remains of a tiny marine plant that lived over 5,000,000 years ago. At the Johns-Manville mine in California, where it is produced, they call it "white gold."

These chalky white fossils are truly pay dirt. From them Johns-Manville produces Celite, which has proved invaluable to industry. Celite is used to filter processed foods and liquids—also medicines like penicillin. It is used in matchheads, rubber overshoes, automobile polish.

But this versatile material doesn't stop there. One of the biggest jobs that Celite does is to provide high temperature insulation for industry. These insulations stand incredibly fierce heat—stop heat from escaping—save fuel. For details on how Celite can be used in your industry, write Canadian Johns-Manville, 199 Bay Street, Toronto.

### Extensive List Of Municipal Works Approved With Adoption Of Three By-Laws By Ratepayers Yesterday

Sherbrooke ratepayers have given their unqualified approval to an extended list of public improvements which the Aldermen estimate will cost in the vicinity of \$393,000, three by-laws, 646, 647 and 648, involving this sum being passed at a referendum yesterday. Although the by-laws were given approval in votes and valuation in each ward of the city, it is apparent the general public took little interest in the proceedings, barely 50 electors or four per cent of the names on the list going to the polls. The valuation figures were somewhat better, with slightly over nine million dollars out of an inscribed total of \$28,704,453, or about thirty-two per cent of the total, voting.

None of the by-laws received any sizeable opposition, but that which the ratepayers received with the most favor was By-law 646 which provided for an expenditure of \$220,000 on extension of sewers, gas

### INDUCTED NEW MINISTER FOR LOCAL CHURCH

In an impressive ceremony attended by the congregation of St. Paul's Church here last night, Rev. John Comfort was inducted into the incumbency of the Anglican church by Rt. Rev. Philip Carrington, Archbishop of Quebec. The Archbishop was assisted by Archbishop A. Jones, Lennoxville, and Canon E. K. Moffatt, Sherbrooke.

In a short address to the congregation, Archbishop Carrington declared that all denominations must preach Christianity. "All God's children are the same to Him," he stressed, adding that as congregations gather together, "believe that He stands in the midst and says, 'Peace Be Unto You.'"

"If you have faith, hope and trust, and put everything in God's hands, you will get peace," he maintained. "The Church of God is like a great, big family—and there is nothing so grand as a church where all work together for Christ and the spirit."

"Take the Holy Spirit," he urged, "and let it be in your lives. The church will be strong if you keep the spirit in your lives, and nothing will stand in your way."

A reception for the new rector was held following the service.

### OVILDA SAMSON DENIES SIGNING OF CONFESSION

St. Johns, Que., Oct. 24.—The trial of 53-year-old Ovilva Samson of Sherbrooke, Que., charged with the murders of Marie Anne and Leone Tougas, spinster sisters who were found bludgeoned to death in their home here September 1, resumed today with Samson testifying that he did not remember signing a confession, although it resembled his signature.

Defense Counsel Stanislas Dery and Jean Drapeau brought Samson to the witness stand in a battle between the Crown and defense as to the legality of a confession to the killings allegedly signed by Samson under questioning by Provincial police officers.

The jury, under Mr. Justice Louis Charbonneau, was again excluded from the courtroom while the confession fight went on. The trial will continue tomorrow.

### FILM MADE IN E.T. WILL BE SHOWN TONIGHT

"Land for Men," a film designed to depict the improved conditions brought about on farms all over the county by the war, will be given its Canadian premier showing tonight at 8:30 in the Community Hall at North Hatley. Admission to the hall will be free.

The film was photographed entirely in the surrounding district of Sherbrooke by the National Film Board. In order that the picture would seem more natural, residents of this district were used for the whole cast. The scenes include many of the farms and rural communities in Sherbrooke County.

It is planned to have the picture shown to returned servicemen so that they may get an idea of the changes for the better which have taken place on the farms since they enlisted. It is also being arranged to distribute the film to rural centres all over the Dominion so that farmers in the different districts may obtain a better understanding of each other. It was erroneously reported in yesterday's Record that the film was to have its premiere last evening.

### THE NOVA SCOTIA VOTING

The greatest surprise of the Nova Scotia elections is not the return of the Liberal Government under Premier Angus Macdonald, but rather in the size of the majority given him. All observers were convinced that the Liberals would continue their hold on office but the general consensus of opinion was that both Progressive Conservatives and the Co-operative Commonwealth Federation would cut into the substantial majority then held by the administration.

Instead of this both opposition parties lost ground, the Progressive Conservatives failing to take a single seat while the C.C.F. representation was cut to two—both elected from the mining section of the Province where the radical opinion has long predominated.

On strictly provincial issues, the Liberal Government was standing on strong ground, pointing to the advances that had been achieved in recent years, both in the realm of public works and in the improvement of provincial finances. The electors apparently realized this and preferred to let the present Government continue its policies in the post-war period than to change administrations at this critical time.

One ground for general satisfaction is the poor showing made by the C.C.F. who had sought to capitalize on problems created by reconversion to advance their own interests. They were effectively rejected by the electors. This, coupled with results elsewhere in the Dominion, indicates that the position of this group is still tenuous and their influence may vanish completely when stability is restored.

### THE WAR GUILT TRIALS

Marking the first great trial of war criminals, twenty-four men charged with plotting and launching the war will go on trial at Nuernberg in Germany on November 24. In the distant past, no doubt, many a defeated war leader was brought before his conqueror in chains and condemned to torture and death, but this is the first time that a war has been formally characterized as a crime and the men responsible for it indicted as criminals.

It is not difficult to remember the events which led up to Hitler's invasion of Poland, although he had been solemnly warned that such a step would lead to war. Previous to that fatal move he had flouted Britain and France by violating pledges while most of the world looked on incredulously, believing that it was all a bluff. The invasion of Poland showed that Hitler was in deadly earnest and that he meant to win domination of the world. It was obvious that he had prepared for "the day" and that he had behind him the support of a well-organized German Party and of many powerful figures in the German nation.

For a time the German forces of aggression swept across various parts of Europe. They invaded and occupied countries, and their first setbacks were their failure to invade Britain and their crushing reverses in Russia. From then on their ultimate defeat hardly ever was in doubt. It was a long and desperate struggle which cost millions of lives and which stunned the world with suffering and terror. No other war in history ever caused so much death, ruin, pain and misery.

Hitler, the leader of the war conspirators, is believed to have died during the siege of Berlin, but twenty-three of the leading Nazis will be charged in person at Nuernberg and one will be tried in absentia, as he is still at large. All those found guilty will be in a terrible position. Instead of being the proud victors, as they had planned, they will be found guilty of the horrible crime of bringing death, desolation and havoc to mankind. The evidence also will charge cruelties and atrocities of the most terrible nature.

Most of all, the trial will set up a new standard as to the international conception of war guilt. The feeling of the civilized world can be stated as "Woe to those who foment and launch a war of aggression."

### UNIFORMITY A PRIME NEED

The whole-hearted manner in which distant municipalities, some of them seventy-five miles away, answered the call for assistance in battling the serious blaze at East Angus is another proof of the age-old willingness of the average human—either individually or collectively—to give of his best in assisting a needy neighbor. When everything is rosy, when each individual is able to go along his own way and look after his own affairs, there is a tendency for rivalries to spring up and sometimes these rivalries lead to rather frank expressions of opinion. But at a time of crisis, the great majority

of the human race is prepared to answer the call of a suffering neighbor, without waiting to see what is in it for himself.

But while the response is a tribute to this human fellowship, the experiences of the fire only serve to emphasize the truth of an oft-repeated statement. There is a tragic lack of uniformity in the fire-fighting equipment of the numerous municipalities—large and small—in this district. Thus while each group was fully prepared to merge their individual interests into the common whole, this variation between hose sizes, nozzle threads, etc., often prevented a particular piece of equipment from being used to its greatest efficiency.

The lessons learned in fighting this blaze should impress upon the people of this district the necessity for adopting some system to assure that the best use can be made of all equipment available to fight any serious conflagration. It would be too much to expect that all municipalities rebuild their water systems and purchase new fire-fighting equipment to bring them on the same standard as some central organization. But some system of adapters, designed to permit the interchange of this equipment, could be developed. Already many cities and towns in the district have equipped their fire departments with such devices so that the apparatus from an adjoining municipality can be used. Thus it would seem reasonable that the idea could be carried even further and that a central stock, or series of central stocks, be established.

Few municipal corporations there are indeed that will refuse to supply the best equipment to their fire departments within the means available to them and it seems a pity that valuable assistance available from a neighbor should be negated by the lack of a few simple devices. It must be realized that with the exception of a few very large cities, no municipality can fight a major holocaust with its own resources. To battle a major fire requires extended co-operation and to make this co-operation something more than a willingness to serve, it is essential that some common denominator be found for the various articles of equipment in use.

### THE BRITISH BUDGET

The new British budget, submitted to the House of Commons yesterday, is a close parallel to the Canadian submission of two weeks ago—it provides a moderate reduction in the taxes of the individual and at the same time slashes the corporations excess profits tax from one hundred to sixty per cent. Furthermore, the British Chancellor of the Exchequer makes no claim that there will be any resemblance of a balance between revenues and expenditures nor does he expect such a condition to be achieved for several years to come.

The taxation reduction provided under the interim taxation set-up has but one objective—to reduce the burden enough so that production will be accelerated through greater efforts on the part of the individual and the manufacturer. Mr. Dalton paints no bright picture for the future and in fact tells the people of Great Britain frankly that they will have to maintain their expenditures at the lowest possible level and at the same time earn as much as possible. By this means he hopes to build up the international trade position of the country to the point where it can again become an important factor in the economic recovery of the world.

The difficulties of the international situation are stressed in much detail and Mr. Dalton admits that the outlook is none too clear, especially in view of the fact that negotiations for some sort of financial assistance from the United States have not yet reached a definite basis.

### TURKEY AND RUSSIA

To understand the somewhat unexpected proposal of Turkey that the United Nations assume control of the Dardanelles, it must be remembered that Turkey, which straddles these straits, is in Russia's way and is fully aware that she could never resist the power of the Soviets. Therefore the proposal. It must have cost Turkey something to make this suggestion, but presumably she regards it as the lesser of two evils if her absolute sovereignty must be impaired. Although it is Greece at present that claims the Dodecanese and will be most upset by Russia's request that they be given her as Mediterranean bases—she has lodged a complaint that her views have not been sought—Turkey is again concerned.

These islands geographically are Turkish, by population chiefly Greek, taken recently from Italy. Whoever holds them threatens Turkey's flank and the latter therefore would prefer to see a weaker power than Russia installed if she cannot have them for herself.

From whatever settlement of these matters is effected we should obtain some idea of what change of thoughts has taken place in relation to strategic bases as a result of the atomic bomb. On the one hand the question is asked: Does it matter much who holds this point or that? On the other, is the assertion that seapower remains decisive and must be backed by land control of narrow waters still effective? In addition there is the question: To what extent is internationalization a solution?

### BIBLE THOUGHT FOR TODAY

And there shall ye remember your ways, and all your doings, wherein ye have been defiled; and ye shall cleanse yourselves in your own sight for all your evils that ye have committed.—Ezekiel 20:43.

### OUR CHANGING WORLD

### PRESS COMMENTS

#### "MORE ALIVE THAN EVER"

Buffalo Courier-Express  
An institution, said Ralph Waldo Emerson, is the lengthened shadow of one man. If that is correct, what can one say of ideals which are born and nurtured in one man's heart and through his own firm faith and conviction reach world-wide acceptance? Wendell Wilkie has been dead only one year and yet it is more apparent than ever before that without even holding public office, he did more than any man in his party to foster the ideal of world co-operation among his fellow-Americans and, as a citizen of this country, stirred in the hearts of humanity throughout the world the hope of a new and a better day in which all peoples would enjoy blessings consonant with the dignity of man. It may be truly said of him that he had a special gift for implanting ideas and making them take root. In recent months, Americans have come to see the clarity of his vision; they realize that within a few years the very existence of civilization will be contingent upon the world co-operation that he did so much to foster.

It was particularly fitting, therefore, that at this time, when the American people and humanity in general have come to a new appreciation of his insight, there should be formally dedicated a memorial in his honor, the Wilkie Memorial Building of Freedom House, New York City. At the ceremony, Sumner Welles, former Undersecretary of State stressed the enduring qualities of Wilkie's mission in these remarkable words:  
"Today, just twelve months have passed since Wendell Wilkie died. But surely we can speak of him as Thoreau once spoke of another American (John Brown) who gave his life for the cause of freedom: 'I meet him at every turn. He is more alive than he ever was.'"  
"It is well that it should be so. For that vital spirit of Wendell Wilkie has become inseparably identified with the ideals which the American people must ever seek to achieve if this nation of ours is to fulfill its rightful destiny."

**AIR TRAVEL IS HAMPERED**  
Windsor Star  
Two forms of priorities continue to hamper the proper development of air travel in this country. One is imposed by the Government; the other is maintained by the airlines themselves. They both must be speedily discarded, unless commercial aviation is to be unwarrantably delayed in coming to its appointed importance.  
People on Government business still get the preference in accommodation on airlines, and there is no justification for this. It was permissible in wartime, when security considerations had to be kept in mind. In normal times, it is intolerable. The United States is abolishing priorities of this kind, and we should do the same.  
As to the airlines themselves, they still give preference to favored passengers. The reason is of course, that the people travelling on business get the first call, and this has a certain surface justice. It is a principle, however, that cannot be entirely abandoned.  
The railroads have their problems of congestion, too, but they impose no priorities. First come, first served, is the rule there.

**AS WINTER COMES**  
Victoria Times  
The boat that was new-christened in the lake early in the year has been pulled up for the winter. It will return to the shore late next spring and it will glisten with fresh paint, but the first thrill of its launching, the first pride of its quick passage will be gone. Rains will cover the little beach that slowly climbed out of the water as the lake receded. And though next summer it will emerge again, it will not be quite the beachhead of enchantment

In the realm of research science, we have a warning as to the possibly serious effects of wholesale use of "DDT," the new poisonous insecticide created to kill tropical insect life and being used widely now in Ontario. From Chicago, Dr. Clarence Cottam, chief of the Division of Wild Life of the Interior Department of Fish and Wild Life Service, asserts: "DDT is effective against most types of insects. It is highly effective against flies and mosquitoes. But it will kill a lot of things we don't want killed. Our studies show that five pounds per acre in a forest will either kill birds or drive them out. More than one-half pound per acre is damaging to fish, turtles and frogs. DDT is effective against pollinating insects essential in fruit production. It is highly effective against bees."

The vast majority of Canadians want to be rid of all war-time controls as soon as possible. They are willing to put up with those that are necessary during the transition—but only temporarily. The national registration card was imposed upon them for a specific wartime purpose. It must not be continued as a convenience to the police, the liquor controllers, or anybody else.

Mrs. Style: "I want a hat, but it must be in the latest style."  
Shopman: "Kindly take a chair, madam, and wait a few minutes. The fashion is just changing."

Miss Speitz: "Oh, that's not incurable!"

"What do you mean?"  
"Your habit of talking to yourself."

A lady visiting Paderewski's villa in Paris noticed a cherry-stone on the mantel-piece, took possession of it, and had it set in pearls and diamonds as a memento of the pianist.

A few weeks later Paderewski met the lady, and in the course of their conversation she showed him the cherry-stone with its elegant and expensive setting.

"But, madam," protested Paderewski, stroking his magnificent mane of hair, "I never eat cherries. The one you found on the mantel-piece must have been left there by my servant."

"And how high does your balloon go?" asked the old lady.  
The sergeant scratched his head. "Funny you should say that, ma'am," he replied. "I've been wondering about it all day. You see, when we pulled it in this morning we looked up on top, and there, large as life, lay a blooming harp."

She was anxious to learn the latest news about her neighbor's accident, and turning toward her husband, who was immersed in the evening paper, she said, "Henry can you see anything in the paper about Mr. Jones running-over his mother-in-law?"

"Not yet," replied Mr. Peck. "I haven't come to the sporting news!"

Two men in a car went past the traffic lights when they were red, and were stopped by a policeman.  
"I'm sorry, officer," said the driver, thinking quickly. "I happen to be a doctor and I'm taking a patient to the asylum in a hurry."

The policeman was suspicious—but the passenger was just as quick. Looking up at the constable with a serene smile, he whispered: "Kiss me, darling!"

They got away with it!

Mr. Sharp arrived home from the office looking hot and bothered. He flopped into the nearest easy chair, wiping his brow.  
"What's wrong, dear?" queried his wife.  
"It's those darned gas-masks," he snapped. "They get heavier and heavier each day."  
"They do, darling," she sweetly agreed. "But this morning you went off with the electric iron box."

### ALUMNAE CELEBRATED 25th ANNIVERSARY

The twenty-fifth anniversary of the establishment of Mont-Notre Dame Alumnae Association was observed at the annual reunion of old pupils held yesterday at the convent. In the morning Mass was celebrated at eight o'clock in the convent chapel, the music being provided by the girls' choir, Mgr. Letendre officiated and also delivered the sermon.

In the afternoon the guests were welcomed by the Reverend Mother Superior and the president of the Alumnae, Miss Helen Slattery. There was an especially good attendance, many having come from some distance to attend this annual reunion at their Alma Mater.

During a short business session a report was given on the work accomplished during the past year, notably the award of three scholarships two of the value of \$75, each and one of \$20—the latter of which is open to competition and was this year won by Miss Marian Begbie, who was present and received it from the hands of Reverend Mother Ste. Anne d'Auray, in whose honor the scholarship was established on the occasion of the Reverend Mother's golden jubilee.

A report was also given in connection with the "Holy Providence Circle," a committee of the Association which meets at the convent every Wednesday to sew and knit for the underprivileged children who require clothing in order to be able to attend school. An appeal was made for more workers in this branch of the Association's activities.

Reverend Mother St. Damase, the director of the federated alumnae of all the schools of the Congregation de Notre Dame Sisters, gave a short talk on the work of the federation, setting forth its aims and duties.

Following the report of the nominating committee, which was given by Miss Charlotte Nadeau, in the unavoidable absence of the Chair-lady, Mrs. Charles Mignault, Miss Eugenie Codere was unanimously elected President, and Miss Geraldine Hebert, Vice-President. Misses Mildred Corcoran and Yolande Renaud were appointed joint Secretary-Treasurers.

A musical programme followed. Miss Beverley Parker played "Cordebo" by Athenoz, and Miss Mireille Bachand sang "Jules Massene's 'Ouvre Tes Yeux Blues.' Godard's Ave Maria was played on the violin by Miss Lorraine Gogan, accompanied by Miss Annie Corcoran. Mrs. Ampleman (Marie-Ange Blanchard) sang a selection from "Aida," accompanied by Mrs. L. E. Codere.

The guests later repaired to the gymnasium which was most attractively decorated in silver and blue, the centre table covered with a banquet cloth looking lovely with a silver basket of white carnations, blue candles in silver candelabra and blue streamers completing the lovely setting.

Each individual table was also centred with a blue candle in a silver candle stick, adding a further note of interest to the charming scene. A gay hour of reminiscence ensued, during which Mrs. L. E. Codere at the piano played many of the songs which the "old girls" were accustomed to sing during their school days.

## DOROTHY DIX

### Warned Against Marriage Two Crown Daughters Hindrance To Happy Second Union

DEAR MISS DIX: I am contemplating marriage with a widow who has three children, one 6, one 10 and one 20. I have a daughter who is 11 and I fear trouble between the two girls. I am past middle age and my fiancée is considerably younger. What would be the chances of happiness of such a match? I could not stand to live in a perpetual round of arguments about and among the children.

DOROTHY DIX

ANSWER: If you don't enjoy family rows, I won't certainly advise you to marry until those 20 and 11 year old girls have settled themselves and are out of the picture. If you bring them in contact under the same roof, you will have a perpetual domestic scrap.

JEALOUSY AND STRIFE  
For your daughter will naturally feel that as it is your money that is being spent, she has a right to the best of everything. And your wife will consider that one of the things that she married you for was to give her daughter the pretty dresses and luxuries she couldn't afford, and she will be set on her girl getting the most, and there will be jealousy and strife and you will be ground between the upper and nether millstone.

Also, consider that a man who is past middle age is going to be awfully upset by having to put up with the noise and mischief of young children, especially when they are not his own. You are used to peace and quiet and, unless you are made of the stuff of martyrs, you had better think twice before you become the answer to the widow's prayer that the Lord will send her a good home and somebody to support her children.

DEAR DOROTHY DIX: I worked hard and made a fortune, which I lavished on my children, who are now all grown. Through no fault of my own I have now lost my money and my children abuse me for not having a fortune for them to spend. Why should they be so ungrateful when I gave them everything when I had it?

A BROKENHEARTED FATHER  
ANSWER: I suspect that the reason why your children are selfish and ungrateful is because you spoiled them, because you reared them to think of nothing but themselves and their own pleasure. I am strongly of the opinion that parents reap just what they sow in their children, and that when their children mistreat them it is their own fault. You cannot cultivate selfishness and greediness and lack of consideration for others in anybody for 20 or 30 years, and then expect them to be unselfish and altruistic.

Every father writes his own price tag for his children. If he lets them speak impudently to him and defy his opinion while they are little, they will curse him when they are grown and treat him with contempt. But if he forces them to treat him with respect, they grow up honoring and reverencing him. If a father makes of himself nothing but a cash register for his family, he should not be surprised that they kick him around when the register is empty.

If you had taught your children to think of you and do things for you and to appreciate what you did for them when they were young, and would not now have cause to complain of their treatment of you.

DEAR MISS DIX: The crowd I run with seem to regard me as more or less of a sap. Everybody borrows from me and they always forget to pay me back. Everytime I get a few dollars ahead someone is sure to hit me for a loan. I am tired of it. What way out of it, please?

R. L. T.  
ANSWER: I should say that the solution of all your troubles is a Yale lock on your pocketbook. It is a fine and noble thing to be generous but you can only be generous if you have something to give, and you will never have anything if you are an easy mark who lets a lot of dead beats graft on you.

"Neither a borrower nor a lender be" said Shakespeare. It is good advice for when you lend to your friends you lose both your friends and your money.

The Record will be pleased to receive any letters to this Dorothy Dix column. These will be forwarded to Miss Dix who will answer them as quickly as possible.

MIND YOUR MANNERS  
The Situation: You invite guests to dinner at a certain hour and they don't come. Wrong Way: Feel that it doesn't matter how late dinner is served. Right Way: See that dinner is served soon after they arrive, putting it off only long enough to serve a drink beforehand—if you do serve drinks. Guests who have to wait to eat usually get impatient.

...these hands took care of you... will they have the skill to take care of him..?

THESE are young hands . . . reliable hands . . . they held a hot rifle and fought for your freedom. BUT unless they are trained in the skills of peace, they will not be able to provide a good living for their owner.

One of the big jobs your Victory Loan dollars can do is to provide thousands of returned men with training in paying skills . . . men who were fighting for us during those years that might have brought them trade or business experience. Who can refuse to sign for Victory in such a cause?

Now the war is over, but the fight to win the peace has just begun. Now is the time to show our appreciation, to give our men a good-start in civilian life, to repay in some measure what they gave up for us. Remember, there is now only one Victory Loan in the 12 months' period, so you can buy twice as many bonds this time.

### Anglican Youth Religious Training Vigorous Said Archbishop Of Quebec

Richmond, Oct. 24.—That the religious training of the youth of the Anglican Diocese of Quebec is being carried on in a vigorous and progressive manner was definitely evident from the proceedings of the annual meeting of the Quebec Diocesan Board of Religious Education held under the presidency of His Grace the Most Reverend Philip Carrington, Lord Archbishop of Quebec, in St. Anne's Parish Hall, Richmond, Clergymen and Sunday School teachers were present from Theford Mines, Sherbrooke, Lennoxville, Magog, Drummondville, Hatley, Danville, Compton and Richmond, while other clergy came from Quebec, Three Rivers, Leeds, Bury and Kingsley.

Following the usual formal opening, the report of the Secretary, Rev. W. W. Smith, of East Angus, who unfortunately was absent due to illness, showed an increase in the number of Sunday School teachers, a large number of boys and girls and young people attending camps and conferences and increased interest in the Sunday School by "youth" that reaches out to children in isolated places. The financial statement as presented by the Treasurer, Rev. George Harrington, revealed that all this work had received considerable financial support from the Board.

Proceedings on the second day began with a celebration of the Holy Eucharist in St. Anne's Church by

members of the Executive Committee elected were Rev. Canon A. E. E. Legge, Rev. A. E. Tulk, Rev. W. J. Rowe, Rev. W. J. Belford, Mr. Lloyd S. Sommerville, Mrs. P. Carrington, Miss C. Bendall and Miss Willows.

In the absence of the Archbishop, Archdeacon Jones presided at part of the afternoon session, when Dr. Harding Priest, of Toronto, was present and answered various questions addressed to him. He drew attention to the Teacher Training Correspondence Courses offered by the General Board of Religious Education and also stated that training of candidates for the ministry in psychology, teaching methods and administration, was being given in most Theological Colleges. During the discussion on the best methods of training Church School teachers, general support was given by those present to the suggested revival of diocesan summer schools, where special courses in such work should be offered.

Rev. Dr. Priest gave a very informative address on modern methods of imparting religious education, first stressing the importance of home surroundings and parental influence. He mentioned the need of training children in the art of worship, the importance of pupil participation rather than mere "telling" and the need of adequate equipment in the Church Schools. In regard to the latter he was able to give considerable information about films and slides in addition to other kinds of visual aids.

Mrs. C. Bendall, of St. Peter's Church, Sherbrooke, gave a very useful demonstration lesson to a class of juniors, which not only held their interest, but that of all present for about half an hour. At its conclusion, she discussed methods of illustration and answered several questions.

The last speaker was Mr. Kenneth Annett, a member of the staff of St. Francis College High School, who gave a most helpful talk on "Preparing a Lesson," which was followed by discussion.

Votes of thanks were then passed to the speakers and to the rector and people of Richmond for their generous hospitality. Lunch and supper were served in the Parish Hall by the ladies of St. Anne's Guild and W.A., which added much to the enjoyment of those who attended the meetings.

The proceedings were brought to a fitting close with choral evensong in the church, conducted by the rector, lessons being read by Rev. Canon Legge and Professor E. Scott, and an inspiring sermon was preached by Rev. W. W. Davis, Rural Dean of Quebec.

## A duty to those who have fought

All through our history efforts have been made to repay, in some small measure, the debt owed to those who have fought for their country. After the Seven Years' War and the Napoleonic Wars, soldiers were offered grants of land and other inducements, and hundreds of officers and men settled in Upper and Lower Canada.

This time we must do much more for our returned men than was done for the soldier settlers of early days. We must give them the training, the education, the money and the facilities to establish themselves quickly and successfully in civilian life.

That is one reason why we must all support the Ninth Victory Loan. Money is needed to support our army of occupation; to provide hospitalization for the wounded; to transport the men of our armed forces back home.

Above all we must see that our returned men are more generously treated than those of other wars, who in spite of their meagre equipment helped to make Canada great. What they achieved we must hold.

**In 1818**

the members of the 99th Regiment of Foot, stationed at Quebec after serving in Wellington's Peninsular campaign, were offered the opportunity of settling in Canada. The party, in charge of an officer, proceeded to Lachine, thence up the Ottawa River, and through the bush to the new depot at Richmond. Their families lived in tents while the men cut roads and built cabins.

Privates received 100 acres of land (larger grants for officers), with free transport to the settlement for men and their families, pensions of from sixpence to a shilling a day and army rations for twelve months. The head of each family received an axe, broad axe, mattock, pickaxe, spade, shovel, hoe, scythe, draw-knife, hammer, handsaw, 2 scythe stones, 2 files, 12 panes of glass, 1 pound of putty, 12 pounds of nails, camp kettle, bed tick and blanket.

### WAYS' MILLS

The Department of Home Economics of the Women's Institute, under the Convener'ship of Mrs. Freeman Sutton, put on a very successful "Remake Revue" in the hall. Sixteen members and many interested visitors were present as well as a number of little children, who acted as models for the many attractive children's dresses, coats and play suits on display. An exhibit of babies' and children's warm clothing to be sent to the UNRRA, attracted a great deal of interest. Among the garments modelled were the following: a kimono made from a paisley shawl over one hundred years old, having been brought from Illinois by Mrs. Thomas Ham's grandmother; a house coat made from a discarded rayon bedspread; a lady's coat made from a man's tweed ulster; a child's dress made from a cape twenty-two years old; a skirt from a cottage curtain; re-knit sweaters; children's snow suits; dresses and many other garments too numerous to mention, all looking like new, which reflected credit on those who had fashioned them with such care. This "revue" was the direct result of the fine re-made wardrobe shown last May by Mrs. Norma Benton, of the Re-Make Centre, in Montreal. Afternoon tea and

a social chat brought a pleasant afternoon to a close.

Clothing for the National Clothing Drive is being packed at W. B. Sargeant's. Please give what you can. "He who takes but never gives may last for years but never lives."

A National Film Board showing will be held in the Community Hall on October 26. The film, entitled "Early Start," deals with a Calif

Club project, and all those who are members and those interested in Calif Clubs will want to see this picture. Another is entitled "Land For Men," and was filmed in the vicinity of North Hatley, and should be of interest to all.

Arthur Jordan has returned home. Trout are salmon, and bass are sunfish.

It was stated that the present system of meat rationing has been decided on and the Board has been instructed to administer it. The sole purpose of meat rationing is to help the starving people of liberated Europe and to meet our requirements with Great Britain.

The Dominion Government is well aware of the burden rationing casts on everyone, including consumers, meat dealers and board officials, and would not have decided to resume rationing if there had been any other effective alternative.

### CORPORATISM DEFENDED BY LORD BISHOP

Four Sherbrooke barbers, all with fifty years or more service in their profession, were singularly honored at the Silver Jubilee celebration of the Sherbrooke Barbers' Syndicate held at the Magog House, under the chairmanship of J. P. Grosdin, President of the organization, Rt. Rev. P. S. Desranleau, Bishop of Sherbrooke, was guest speaker.

Tribute was paid Georges Rouillard, 80 years, with 60 years of barbering; J. O. Bouchard, 68 years, with 55 years of barbering; L. A. Simoneau, 76 years, with 54 years of barbering, and E. Morin, 78 years, with 50 years in the same profession.

In his address, Bishop Desranleau emphasized that corporatism is a natural and logical outcome of unionism. He warned as follows: "Recent changes that our corporatism is Fascist."

The speaker warned against the doctrines of Fascism. He remarked that it might have done some good before it began to degenerate. "Do not fear," he added, "there is no Fascism in our country."

"To declare, as was recently done, that our corporatism is Fascist, is childish, and the man who thinks along those lines has a lack of grey matter and a weakening of the brain."

His Lordship warned against a policy of state socialism and declared that monopolies, trusts and extreme capitalism had to be fought with every honorable and legal means. "From 1980 to 1939," he said, "a great number of small industries disappeared as a result of the monopoly, the trust, and extreme capitalists. Capitalism, as long as it is within the limits of man's rights to property, must exist and must continue to exist, but unless we are careful we will slip into socialism." He warned that Communism was as dangerous as Nazism, the evil of which, he said, was recognized by Pope Pius XI before anyone else.

Bishop Desranleau defended Quebec's educational system, declaring that when we study this question in the light of true facts we find that our educational institutions are as competent as those of other provinces. Canadian students were to the fore in universities abroad. His Lordship said, and while studying in Rome he had found Canadian students in colleges containing students from 32 nations. Why should one criticize the country school, the city institu-

### Reports Reviewed At Annual Public Meeting Of Danville Bible Society

Danville, Oct. 24.—On a recent Sunday evening, the annual public meeting of the Danville Branch of the Bible Society was held in the Advent Christian Church. Rev. Isabel W. Kennison, the pastor, conducted the service, assisted by Rev. Dr. Ross, of the United Church, Asbestos, and Rev. Mr. Black, of the local Presbyterian Church, Dr. J. Porter was at the organ, and during the service Mr. and Mrs. Elton Webb, of Asbestos, sang the duet, "God Answers Prayer."

Rev. M. W. Booth, B.A., B.D., District Secretary of the Montreal Auxiliary Bible Society, gave the evening address, and in an interesting and inspiring way dealt with the topic, "The Bible In These Times."

Mr. John E. Horan, President of the local branch of the Bible Society, presided at the brief business meeting. The Secretary-Treasurer's report, read by Mrs. Kennison, follows:

The 107th annual public meeting of the Danville Branch of the Bible Society was held at a union service in the Presbyterian Church on Sunday, November 12, 1944, at 7:30 p.m. The President, Mr. John Horan, conducted the service. Rev. A. Hinton offered prayer and Rev. George Robins read Psalm XLVI.

Rev. A. A. Fulton, District Secretary of the Montreal Auxiliary Bible Society, conducted a brief business meeting, during which the Secretary-Treasurer's report was read by Rev. Mr. Hinton and accepted, thereby ratifying the appointment, by the Executive Board, of officers of the committee and collectors.

Mr. Fulton expressed his pleasure in paying a first visit to Danville, and thanked all in the vicinity who were endeavoring to promote the work of the Bible Society. Mr. Fulton then proceeded to deliver a decidedly interesting address on "Mansuetudo," illustrated by stories and slides made from snapshots taken by him while located there as a missionary, immediately preceding the war.

At the conclusion of the lecture, Rev. George Robins expressed his personal appreciation, and that of the audience, in having been privileged to hear Mr. Fulton's presentation of the most practical, as well as the most interesting address listened to by them in many years, which demonstrated the co-operation necessary between the Bible Society and the missionary on the field, to result in any effective or permanent Christian work.

Referring to the annual canvass in 1944, which was not complete at the time of the annual meeting of November 12, the statement was made: "As regards . . . contributions, the indicator seems to be pointing downward once more." This proved true, for the total collections amounting to \$132.47, were \$15.21 less than those of the preceding year; and from holding ninth place among the 137 contributing centres in the Province of Quebec outside of the cities of Montreal and Quebec, Danville dropped to thirteenth in rank.

The receipts for the year 1944 follow: Collected by Mrs. John Philbrick, \$15.95; Miss Charlotte Wadleigh, \$7.00; Mrs. Mills and Miss Betty Morrill, \$30.10; Miss Bernice Hutton, \$10.00; Mrs. Warren Patterson, \$1.70; Miss E. Rick and Miss D. Carmichael, \$3.30; Mrs. John Horan, \$2; Mrs. John Ver-

meeren, \$3.50; Mr. Chester Perkins, \$10; Miss Carole Saffin and Mrs. H. W. Goodenough, \$12.50; Miss Muriel Bernard, \$3; Mrs. Alden Boreham, \$2.20; Mrs. Spencer Brock, \$6.55; Miss Irene Beardon, \$4; the Secretary, \$11.50; collection at annual meeting, \$8.57; forwarded direct to Bible House, \$2. Total \$134.47.

There were included in this total one "In Memoriam" subscription; four \$5 subscriptions; one of \$3; two \$2 subscriptions and thirty-nine of \$1 each.

The 1945 activities to date include: annual executive meeting held in the Vestry of the Advent Christian Church on Tuesday evening, July 10, with nine members present and Mr. John Horan, President, in the chair.

The officers, Mr. John Horan and Miss E. Adams; and the committee, Mr. H. W. Goodenough, Mr. Mark Mills, Mr. James McCallum, Mrs. Charles Fowler, Mrs. John Philbrick, Mrs. George Johnston were re-appointed; and upon motion by Rev. A. Hinton, seconded by Rev. George Robins and carried, Mrs. Harry Wilson and Mr. Harry R. Barnard were appointed additional members of the Executive Committee.

The following were the collectors appointed to canvass the fourteen districts in the Danville branch: Village of Danville, Miss Mabel Healy, Mr. George Duffett, Miss Bernice Hutton, Mrs. H. Pye, Mrs. George Morrill, Mrs. Warren Patterson, "The Try Class" of the Advent Christian Church; Nicolet, Miss Gwen Elliott; Castleray, Mrs. J. Vermeeren; Lorne, Mr. David George; Danville to Statington, Mr. Chester Perkins; Pinnacle, Miss Carole Saffin and Mrs. H. W. Goodenough; Valley Road, Miss Muriel Bernard; Scotch Hill, Mrs. Alden Boreham; Denison's Mills, Mrs. Spencer Brock; and Snaden Road,

Miss Irene Beardon. This year's canvass is well advanced, and the total contribution will exceed that of last year. Impressed with the tremendous need of increased missionary effort throughout the world, the response has revealed a deepened interest in restoring the Bible to those who have been deprived of it, and in sending it where it has never been taken. One of the leading collectors went away from the first house visited with a cheque for a "Life Membership Fee" of fifty dollars and eleven dollars from the other occupants. Incidentally, the membership of two of Danville's churches includes four Life Members of the Montreal Auxiliary Bible Society.

On behalf of the officers and committee of the Danville branch, we would extend thanks to all the contributors, and to the collectors, who have given so much time to the work of assembling these gifts.

As stated that the total subscriptions of the Danville branch in 1944 were \$134.47. This, however, is not the full amount which might have been credited to this branch. Several years ago Mr. B. H. Barnard, who had been a member of the Executive Committee, President and Honorary President, as well as a regular and generous contributor, and Mrs. Barnard, then a member of the Executive Committee, and later, also an Honorary President, gave to the British and Foreign Bible Society a substantial gift, under the donations bearing "Life Interest Plan."

While this gift has not been entered in the books, heretofore, it will be recorded among last year's contributions as soon as certain legal formalities are complied with, since under the terms of the donation, the Bible Society came into full possession of the gift only in October of last year.

At the moment, the exact amount

is not known which will accrue to the Montreal Auxiliary, as the Auxiliary of origin, and in turn be credited to the Danville branch.

This donation added to the aforementioned total of \$134.47 will, unquestionably, and by a large margin, make the year 1944 a "banner year."

### Month's Activities Planned During Session Of North Hatley W. I. Branch

North Hatley, Oct. 24.—Mrs. M. Sampson and Mrs. G. LeBaron entertained the North Hatley branch of the Women's Institutes, at the home of Mrs. Sampson.

The business meeting, presided over by Mrs. Bennett, was featured by discussion of the "remake" demonstration to be given by the Provincial Demonstrator, Miss Walker, in the Community Rooms on the afternoon of Monday, November 5. This demonstration will begin at 1.45 p.m., and will be open to the public. Tea will be served at the close of the demonstration. It is hoped that women who are not Institute members will feel free to take advantage of this opportunity if they are interested.

Final plans were made for the packing of the clothing which has been collected in North Hatley in response to the appeal made by UNRRA. Mrs. Rest is chairman of the committee, and it would seem that a large amount of clothing is coming in.

Mrs. Daintrey reported on the progress made thus far in arranging for showing by the National Film Board. It is hoped that a date will soon be set.

# NATIONAL HOCKEY LEAGUE GETS GOING TONIGHT AT BOSTON

## Sellout Crowd Is Expected To Jam Garden As Black Hawks Meet Bruins

By ALAN HARVEY  
Canadian Press Staff Writer  
After six wartime seasons in which attendance soared and playing standards slipped, the National Hockey League reverts to peace-time footing tonight with opening of its 28th consecutive campaign.

The 150-game first post-war schedule, eagerly awaited by scores of established stars trying a hockey comeback after varying periods of military service, gets under way with a single game between Chicago Black Hawks and Boston Bruins.

A sellout crowd will jam Boston Garden to send the N.H.L. off on its earliest start in history with the first of 30 Wednesday night games, 13 of which will be played in Boston. The unusually large mid-week quota is designed to ease travel difficulties on week-ends.

Boston and Chicago finished outside the first three last season but both clubs have added strength which team officials contend will shape them into strong challengers for the Stanley Cup. Toronto Maple Leafs won from Detroit Red Wings after ousting the league champions, Montreal Canadiens.

Manager Art Ross predicted "great" hockey from Bruins and Johnny Gottselig, Chicago coach, was similarly enthusiastic.

Boston's Kraut line—possibly the

only great attacking combination of pre-war years which seems destined to remain intact—will be reunited for the first time since 1942 when Milt Schmidt, Bobby Bauer and Woody Dumart take the ice together. Dumart's appearance may be brief, however, because of an infected leg.

Pat Egan, nursing an injured kneecap, will be absent from the Boston blue-line brigade which will comprise Jack Church, Murray Henderson, Jack Crawford and 33-year-old Dit Clapper, Boston playing coach in his 19th consecutive season with Bruins.

Paul Bibeault won a last-minute call for the netminder's job over Harvey Bennett. He will oppose Doug Stevenson, 20-year-old Edmonton netminder who apparently has won the Chicago first-string job over Mike Karakas.

The Chicago defence, strengthened by return of Johnny Mariucci from the United States Coast Guard Service, will be drawn from Mariucci, George Allen, Eddie Wares, Joe Cooper and Reg Hamilton.

The Bentley brothers, Doug and Max, will flank Bill Mosienko on the first-string Chicago attacking unit. Red Hamill, Chicago captain, will team with Pete Horeck and Don Grosso and the third line will be built around Winsky Johnson, Clint Smith and Alex Kaleta.

## Coach Has Poorest Seat In Stadium, So Isbell Master-Minds From High Perch

Cecil Isbell does his master-minding by remote control from a perch high up in the stadium where Purdue is playing. You'll never find the Boilermaker boss on the sidelines when a game is in progress unless conditions make it impossible to arrange a phone connection between a selected spot well up in the stands and the bench.

"A coach has the poorest seat in the stadium when he sits on the sideline," explains Isbell. "Seated or standing on the level of the field, he doesn't know what's going on half the time. I like to be 'way up there, where I have an opportunity

to analyze the offense and defense before making decisions."

For some years it has been common practice for head coaches to be advised by assistants assigned to phones in press boxes, but so far as Isbell is concerned, the first head coach who consistently does the back-breaking and breath-taking mountain climbing himself before the game and between halves.

Purdue's youthful and air-minded head coach feels that instead of being guided he should be in the most advantageous position and assume the responsibility for all strategic decisions. So the man who left Lafayette to pitch the Green Bay Packers to gold and glory phones instructions to athletic director Guy Macey and assistant Joe Dienhart, who make the actual changes in personnel and tactics.

Other head men have tried this, including Curly Lambeau of Green Bay, who succeeded in remaining in the stratosphere of the Polo Grounds for the entire length of

## Kansas City Team Voice Protest To Chandler As Royals Sign Robinson

By GAYLE TALBOT.  
New York, Oct. 24.—(AP)—Senator A. B. (Happy) Chandler, who hasn't been getting along too happily, anyway, since he undertook to fill the late Judge Landis' shoes as baseball Commissioner, can thank Branch Rickey Sr. for his latest prospective headache.

Threatening to camp on the Senator's doorstep today were the owners of the Kansas City Monarchs, negro professional baseball team, whose star shortstop, Jackie Robinson, was signed by Rickey last night to a contract with Montreal Royals of the International League—the Brooklyn farm club at Montreal.

"We won't take it lying down," said co-owner T. Y. Baird of the Monarchs. "Robinson signed a contract with us last year and I feel that he is our property. If Chandler lets Montreal and Brooklyn get by this time he's really starting a mess."

The reaction of the Monarchs' co-owner was, perhaps, the most interesting obtained to the signing of the first negro player to a contract in organized ball. It had been generally felt—and no doubt by Rickey, himself—that the revolutionary move would be universally hailed by negro baseball as the long-sought opening wedge into the big leagues. Owner Baird's beef was, therefore, a considerable surprise.

President Clark Griffith of Washington Senators was quick to see the justice of Baird's complaint, declaring:

"That is a well established league, and organized baseball shouldn't

take their players. The negro league is entitled to full recognition as a full-fledged baseball organization."

If there had been any expectation that the announcement of Robinson's signing would rouse a storm of controversy in organized baseball circles, it failed to develop immediately. For the most part owners and league officials preferred not to comment last night, but those who did almost unanimously said the graceful thing.

President Frank Shaughnessy of the International League, of which Montreal is a member, said "As long as any fellow's the right type and can make good and can get along with other players, he can play ball. I don't think much prejudice exists any longer."

Eddie Collins, General Manager of Boston Red Sox: "Robinson worked out for us last spring. Very few players can step into the majors from college or sandlot baseball. Of course they always have a chance to prove themselves in the minors. More power to Robinson if he can make the grade."

President Horace Stoneham of New York Giants termed Rickey's action a "fine way to start the program" and said his own club would begin scouting the Negro leagues next year. Bill Benswanger, president of Pittsburgh Pirates, said "It is an affair of the Brooklyn and Montreal clubs whom they may sign, whether white or colored."

Joseph A. Brown, secretary of the Buffalo Club of the International League, called the move "very surprising—hard to believe."

## Lennoxville High Defeated S.H.S. Juniors On Local Gridiron By 23-0

A powerful Lennoxville High School sextette yesterday afternoon defeated Sherbrooke High School Juniors 23-0 at the local Parade Grounds. Gordie Budning, S.H.S. quarterback, turned in a brilliant performance for the losers. Time after time Budning would race back and pull down the plunger who was going over for a sure touchdown, saving his team-mates from being swamped by a much higher score.

Led by Butler and Hunting, who were powerful plungers for the visitors, L.H.S. scored a converted touchdown in the first few minutes of play. Hunting carried the pizskin 35 yards on an end run and Butler crossed the line for the major. Stafford recovered Hunting's fumble and put S.H.S. on the Lennoxville 33-yard line in the final play of the quarter.

In the second quarter Hunting caught Baggot's kick and brought L.H.S. to the S.H.S. 30-yard line. L.H.S. fumbled and Stafford recovered. However Stafford fumbled on the next play and L.H.S. regained possession of the ball. Butler threw a 25-yard pass to Hunting, who crossed the S.H.S. line for a major. The convert failed. The half ended with L.H.S. winning 11-0.

In the third quarter Hunting crossed the S.H.S. line on a 40-yard

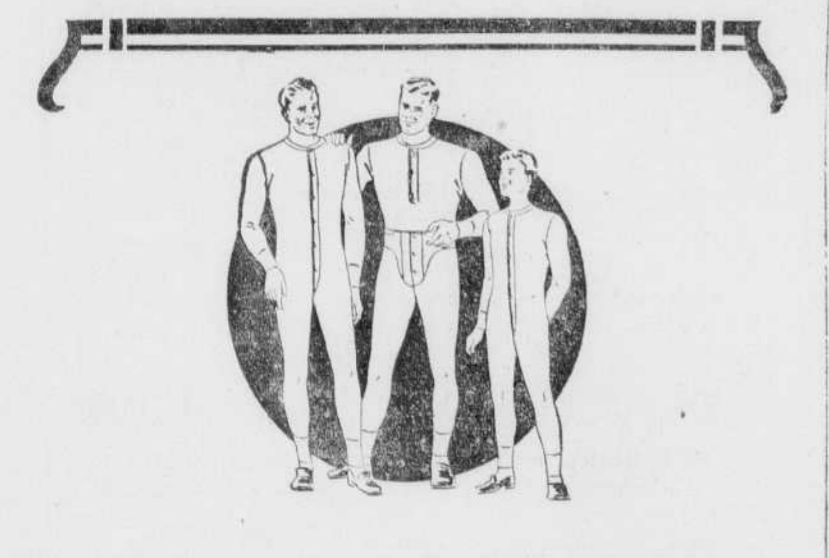

end run and Butler kicked the convert. With only a few minutes remaining in the quarter, Butler scored Lennoxville's final touchdown on an end run. He kicked his own convert. The last quarter went scoreless. S.H.S. tried desperately to tally but were unable to do so. The game ended with L.H.S. winning 23-0.

Waterville Ladies' Aid Entertained In Massawippi At Mrs. Gilson's Home

Waterville, Oct. 24.—The Ladies' Aid of the Waterville United Church was delightfully entertained by Mrs. Bertha Gilson, at her home in Massawippi.

In the absence of the President, Mrs. R. L. Gale, the meeting was conducted by the First Vice-President, Mrs. Robert Reed.

The devotional service was dedicated to the memory of Mr. William H. Baglow. The two Scriptural quotations were read from II Timothy IV, 6 and 7, "For I am now ready to be offered, and the time of my departure is at hand. I have fought a good fight; I have finished my course; I have kept the faith, and I Corinthians XIII, 13, "And now abideth Faith, Hope and Love, these three, but the greatest of these is Love."

In Harry Emerson Fosdick's book, "The Meaning of Faith," there is a chapter on "The Abundant Life." It is from this chapter that the following thoughts were taken: "The meaning of service and the abundant life, surely he whom we honor today possessed the abundant life, he interpreted for us the meaning of service." Of him it could be said "When he entered a room, it was as though another candle had been lighted."

Mr. Baglow's radiant personality, his useful work, his larger interests shared so generously with his many friends, will long be remembered as his secret of abundant living.

Following silent prayer, the beautiful prayer by George A. Miller was reverently read.

The minutes of the last regular meeting of the Aid were read by the

Secretary, Mrs. Eric Swanson. Mrs. Fred Bell, Convener of the rummage sale held recently, thanked her assistants and all who so generously contributed to the success of this sale. She also announced that two bales of warm clothing were contributed from gifts to the rummage sale and sent to the Red Cross rooms for the National Clothing Collection.

Mrs. P. H. Ingham announced the postponement of the apron and food sale, the new date is to be announced later.

The vote of thanks to the hostess for her gracious hospitality was moved by Mrs. Edwards, and seconded by Mrs. Beckett.

Delicious refreshments were served at the tea hour to the many members and friends present.

ST. JOHN'S GUILD A largely attended meeting of the Ladies' Guild of St. John's Church was held at "Fairview Farm," near Lennoxville, with Miss Kathleen Taylor acting as hostess.

Cars for transporting the members were loaned by Canon Roy, Mrs. Clifford Burton and Mr. F. E. Holihan.

A great deal of business was transacted, including plans for entertaining the clergy at the forthcoming Deaneys sessions. Various arrangements were also made for commemorating the one hundredth anniversary of the building of St. John's Church. It was decided to postpone the rummage sale as it was felt preference should be given to the UNRRA Clothing Drive for the relief of needy people in the war-torn countries.

A large number of visitors were present and a happy and enjoyable period of fellowship was enjoyed by all.

Miss Taylor served delicious refreshments.

YOUTH SUNDAY The annual Youth Sunday was observed in St. John's Church on Sunday morning, October 14. There was a large congregation present, including the members of the Sunday School with their teachers.

The Scripture lessons were read by Russell Brown and John Wood, while the offertory was taken by Robert McVittie, Jr., and Galen Vance.

Rev. Canon Ernest R. Roy, M.A., gave an inspiring address on the present day challenge to youth.

General Notes. The beautiful flowers placed on the altar of St. John's Church on Sunday, October 14, were in memory of Mrs. Reginald King.

Warmest congratulations are extended to Robert McVittie, Jr., who won three first prizes at the recent ploughing match conducted under the auspices of the Ploughmen's Association of Stanstead County.

Guests of Mr. and Mrs. J. W. McIntyre and family over a weekend included Mr. and Mrs. Allen Watts, of Lakeside, Mrs. William Longmore and daughter, Luella, of Ayer's Cliff, Mr. Chester McIntyre and Mr. and Mrs. James Grady and Beverly Grady, of Lennoxville, Mr. Norman White and Mr. and Mrs. Percy Grey and two children and Mrs. Ethel McIntyre and Miss Eunice McIntyre, of Sherbrooke.

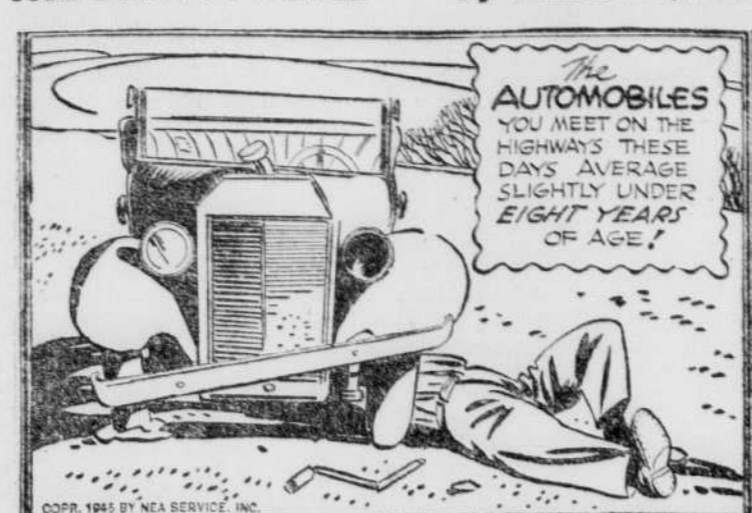

Mr. Reginald Tope, of Kingston, Ont., Mr. Lawrence Tope and Miss Dorothy Tope, of Montreal, spent a week-end with their parents, Mr. and Mrs. Chester Tope.

Mr. and Mrs. John Gallagher, of Plymouth, N.H., Mr. and Mrs. Ernest Wright and Mr. and Mrs. Fred Glass, of Lennoxville, were visiting at the home of Mr. and Mrs. J. W. McIntyre one evening.

Miss Marguerite Miltimore spent a week-end in Montreal.
