SITUATION IN SPAIN IS VERY SERIOUS URGE REPRISALS FOR AIR RAIDS

CATALONIA WANTS INDEPENDENCE—HOPED NEW PREMIER WILL FIND SOLUTION
CITIZENS OF LONDON MEET—LORD MAYOR'S RESOLUTION WAS ADOPTED.

Paris, June 17.—Some light is thrown on the present situation in Spain, which has been the cause of misgivings recently, by a special correspondent of the Petit Parisien who has been making an investigation there. He wires the following summary of the situation which made the position of the late cabinet untenable and presents an acute problem for the new Ministry:

First of all, the situation in Catalonia (a district of about 12,400 square miles in the north-east of Spain with a population of nearly 2,000,000, whose capital is Barcelona) is critical. The inhabitants are aroused against the Spanish government and are agitating insistently for complete independence. One faction openly declares in a Barcelona newspaper that it will obey no law not passed by Catalonians for Catalonians, and demands independence at any price.

Aside from this local situation, the correspondent finds that the economic state of affairs in general demands speedy action by the cabinet. Strikes are imminent, especially in Asturias (an important district in north-western Spain on the Bay of Biscay), and may break out tomorrow. Strikes are under discussion by all railroad employes and most of the industrial workers. The cost of living has advanced fifteen to twenty-five per cent. in the last three months, and now the poor can no longer endure the strain.

The supply of coal is so scanty that it is almost impossible to operate trains. Stagnation of the export trade owing to the submarine warfare, is resulting in growing irritation.

Finally, there is the external situation, which everywhere is recognized as grave for Spain and which, the correspondent says, is made infinitely more troublesome by German espionage, German intimidation and the Germanophile press, which has wounded and antagonized Spanish pride.

Notwithstanding these difficulties, the correspondent wires, Spain believes confidently the new Premier will be able to find a solution.

TWO FRENCH STEAMERS ATTACKED BY SUBMARINES

Paris, June 17.—Two French steamers arriving at Gibraltar, one from the Mediterranean and the other from the Atlantic, report that they were attacked in sight of the Spanish coast and outside the zone blockaded declared by Germany by submarines of the largest type, says an official statement issued today. Both vessels successfully engaged the submarines and obliged them to abandon combat.

ZEPPELIN DAMAGED OFF SWEDISH HARBOR

Copenhagen, via London, June 17.—A Zeppelin was observed about three o'clock Saturday afternoon outside the harbor of Cimbrishamn, Sweden. A violent cannonade was directed against the dirigible, which withdrew in a damaged condition.

London, June 17.—A largely attended citizens meeting at the London Opera House today adopted a resolution proposed by the Lord Mayor, urging the government to initiate a policy of reprisals in the shape of ceaseless attacks on German towns and cities in order that their populations may experience the effects of such methods of warfare and thus be induced to force the German authorities to cease their air attacks upon open towns.

Several local mayors and members of the House of Commons were present and it was suggested that reprisals should be undertaken jointly by at least two of the Allied powers, namely, France and England, and that such cities as Berlin and Frankfurt should be selected.

MANY CHANGES ON THE TORONTO NEWS

SIR JOHN WILLISON SEVERS CONNECTION—F. D. L. SMITH BECOMES CHIEF EDITOR.

Toronto, June 17.—Sir John Willison, one of the best known journalists in Canada, and Editor-in-Chief and publisher of the Toronto Daily News, on Saturday, severed his connection with that publication, according to a statement handed out. He will devote more of his attention to the London Times, of which he is the Canadian correspondent. Mr. F. D. L. Smith, for many years editorial writer with Sir John Willison, has been appointed Editor-in-Chief, and Mr. C. W. McDiarmid, formerly advertising manager, is the new general manager. Sir John Willison declined to make any comment on his future plans.

Regarding the persistent rumor that he is slated for a senatorship, he had nothing to say. The resignation takes effect immediately. The News is to be re-organized under its new management, and Mr. Smith declared last night it would be on a good financial basis, but the personnel of the new proprietors he declined to disclose.

"Under its new management The Daily News," added Mr. Smith, "will continue to advocate those policies to which it has been long committed."

Mr. Smith is a Toronto journalist of long experience. He began as a reporter on The Empire, and was on the World previous to joining the News after Sir John Willison became editor. Mr. Smith has travelled extensively and is a close student in politics.

MONSTER AIRCRAFT SET ON FIRE BY GUNS OF ROYAL FLYING CORPS PILOT—ENTIRE ENEMY CREW KILLED AS DIRIGIBLE FELL TO GROUND IN FLAMES—ANOTHER RAIDER ESCAPED—ARTILLERY FIGHTING ON VARIOUS FRONTS—THE FRENCH STEAMER MISSISSIPPI SUNK BY SUBMARINE—RESUMPTION OF HOSTILITIES EXPECTED ON RUSSIAN FRONT.

Another Zeppelin airship and its entire crew has been accounted for by a British aviator. Flying high on a bomb-dropping raid over the Kentish coast of England the monster aircraft was set on fire by the guns of a pilot of the Royal Flying Corps, who went up to give it battle, and fell, a mass of flames, to the ground. Another dirigible which accompanied the raider made its escape.

Little fighting, except by the artillery wings, is taking place on any of the various war fronts. On the front in France, held by the British, aside from the military duels that have been only minor operations in the nature of raids, and a continuation of the aerial activity that has been so pronounced for weeks past.

Near Hurbise the Germans in a night attack seized portions of trenches held by the French, but later were forced to give back most of them in a counter-attack. On various sectors artillery duels are in progress. Considerable activity continues in Belgium in the regions of Steenstraete and Het-Sas.

In Macedonia the artillery duels which have been in progress for several weeks are still going on, but the anticipated infantry attacks have not yet developed. Meantime the Entente forces continue to throw troops into Thessaly, the occupation of various towns having been accomplished without untoward incident. French cavalry has now reached Pharsala and Domokos, south of Larissa, while Demirli has been occupied by the British.

Former King Constantine of Greece is reported to have arrived at Messina, Sicily, on his way to Switzerland.

Although quiet still prevails on the Russian front there seemingly is an indication that hostilities soon will begin again there. The Russian Duma at a secret session has passed a resolution calling for an immediate offensive and declaring that a separate peace with Germany would be ignoble treason toward Russia's allies.

A report received in New York from an incoming steamer is that a German submarine has sunk the French steamer Mississippi off the coast of France. Fortunately only one member of the crew perished.

A reconstruction of the Italian Ministry is reported to have been proposed to King Victor Emmanuel by the Premier as a result of the crisis which developed last week.

BRITISH STATEMENT.

London, June 17.—"The hostile artillery was active today south of Croisilles, south-west of Lens and at a number of points between Armentieres and Ypres," says the report from British headquarters in France tonight.

"There was great activity in the air yesterday. Seven German air-planes were brought down in air fighting, two of which fell within our lines; three other enemy machines were driven down out of control. Two of our airplanes are missing."

FRENCH STATEMENT.

Paris, June 17.—The official communication issued by the War Office tonight reads:

"After a bombardment carried out last night in the sector of Hurbise, the Germans attacked, north of Monument, a salient in our positions, which they succeeded in penetrating. Driven back after a spirited engagement, the enemy was able to maintain himself only in a small element in our advanced line.

"The artillery fighting continued throughout the whole day in this region, as well as in the neighborhood of Cerny and north of Braye-En-Laonnois.

"The Germans have been violently bombarding Rheims for several days past. Twelve hundred shells were thrown into the town today, resulting in several casualties among the civilian population.

"Belgian communication: Last night there was a great artillery action in the region of Steenstraete and Het-Sas and lively bomb fighting near The Ferryman's House. On two occasions the Germans attempted vainly to approach our advance posts established near this point during the course of the day. There was slight artillery activity along the whole Belgian-British front in the afternoon. We took several prisoners last night in a surprise attack carried out by us north of Gouzeaucourt. South of the Ypres-Comines canal a German raid was caught under the barrage of our batteries and was unable to reach our trenches. Since the first of the month the Portuguese troops have repelled several difficult attempts of the enemy."

"Eastern theatre, June 16: Along the whole front moderate artillery activity was displayed. British aviators caused great damage to the enemy encampments at St. Vrac, sixteen kilometres north of Petrenik.

"The advance in Thessaly continues without incident. French cavalry has reached Pharsala and Domokos, about sixty kilometres south of Larissa, and British contingents have occupied Demirli."

ITALIAN STATEMENT.

Rome, via Paris, June 17.—The War Office communication issued today says:

"The artillery was more active than usual yesterday on the Carnia front, where enemy batteries of medium calibre repeatedly directed their fire on our positions in the Val Piccolo and the Val Graffe. At various points on the front our reconnoitring parties inflicted losses on the enemy and brought in prisoners.

"This morning hostile aircraft bombarded Gorizia and other inhabited localities in the plain. There were no casualties and no damage."

NO DIMINUTION IN SUBMARINE ACTIVITY

BRITISH OFFICIALS SAY SINKINGS MAY BE HEAVIER THAN IN MAY.

London, June 17.—There has been no diminution in the submarine activity, said Captain Charles Bathurst, parliamentary secretary to the Food Control Department, speaking at Cheltenham last night and the ships selected for attack were those of heavy tonnage.

It was not unlikely, he added, that the June sinkings might be heavier than those in May. There must be an increased production of food and decreased consumption, and, above all, careful conservation. Last year's aggregate of live-stock in England was the highest on record and a considerable depletion of the herds was desirable.

The government, continued Captain Bathurst, was purchasing wheat and sugar at higher prices than they were being sold at, for only by averaging purchases was loss prevented. Forty thousand tons of sugar had been sent to the bottom of the sea in ten days, and therefore there was no hope of an increased sugar supply.

BELGIAN MISSION IN WASHINGTON

PARTY MET BY LANSING AND WERE ESCORTED BY CAVALRY.

Washington, June 17.—The Belgian mission to the United States, headed by Baron Moncheur, former Minister to this country, arrived here at 4.30 o'clock this afternoon.

The party was met by Secretary of State Lansing, Assistant Secretary Phillips and Counselor Polk, and was escorted by two troops of cavalry to the home of Larz Anderson, former minister to Belgium, where it will stay while in Washington.

The Weather

Toronto, June 17.—Depressions are situated tonight over the New England States and Manitoba and pressure is highest over the north Pacific Coast. Thunderstorms have been fairly general today in the Western Provinces and showers have occurred locally in Quebec and New Brunswick.

Temperatures:

	Min.	Max.
Victoria	52	60
Vancouver	48	68
Kamloops	52	80
Edmonton	50	66
Battleford	58	72
Prince Albert	56	58

Parry Sound	38	72
London	41	72
Toronto	42	71
Ottawa	42	70
Montreal	56	64
Quebec	30	66
Halifax	50	60

Forecasts:
Lower Lakes and Georgian Bay: Moderate to fresh southerly to south-westerly winds; fair and warmer, local thunderstorms on Tuesday.
Ottawa Valley and Upper St. Lawrence: Fair and warmer.
Lower St. Lawrence: Clearing, stationary or higher temperature.
Gulf and North Shore: Strong variable winds, showery today, then clearing.

Maritime Provinces: Strong southerly to westerly winds; showers at first, then clearing.
Lake Superior District: Fresh southerly, shifting to westerly winds; partly fair and warm, local showers or thunderstorms.
Manitoba and Saskatchewan: Some local showers, partly fair and cooler.
Alberta: Scattered showers, but mostly fair; not much change in temperature.

WOMAN IS FATALLY BURNED.

Tilsonburg, Ont., June 17.—Mrs. Ira Harris, of Brownsville, was fatally burned, it is believed, yesterday afternoon when her clothing caught fire when she put coal oil in the stove to start a fire.

SUPREMACY IN THE AIR

Dealings with the recent German baby-killing raid on London, the New York Times says:—

The nation-wide demand for the concentration of energy on the quick development of our military and naval air services has been stimulated by the reports of the recent outrageous assault by German flyers on helpless non-combatants in London. The allied air service is now supreme on the battle line. British airmen by their superior skill and courage, make possible General Haig's great triumph at Messines. Of course the Germans will make extraordinary efforts to regain supremacy of the air in the battlefield. They are still supreme in the massacre of women and children. All the airmen and all the aeroplanes America can provide are needed for the support of our allies. The Sheppard-Hulbert bill, now in the hands of the Senate's Military Committee, provides for the development of American air service on a large scale. Within a year it may be necessary to appropriate \$1,000,000,000 for this service. The intention is to call for \$200,000,000 without delay and to expend that money in the building of improved airplanes of all types and the training of airmen. Whether or not it is necessary to establish a separate department of aviation is at least open to question. There are too many cooks now. A Secretary of Aviation might be a superfluous ornament. People who are aware of the havoc the existing bureaus are capable of creating will not be disposed to favor the formation of a new war bureau. But the quick and thorough construction of scouting and fighting airplanes and aeroplanes and the equipment and the manning of them are the essentials.

As Mr. Howard E. Coffin, Chairman of the Aviation Commission of the Council of National Defense, says: "Domination of the air in all probability will prove the deciding factor in the war on sea perhaps as well as on land." We must send soldiers to reinforce our allies, we must have warships ready, we must provide huge quantities of supplies and ammunition, we must send big guns, but, without a strong air, the vigor of our preparations for land and sea warfare, we must get ready quickly to do our part, the largest part, in the air. The plans of the Defense Council, which are approved by the military experts, call for the construction of 100,000 airplanes in the shortest possible time. We can easily build 25,000 of these within a year, and some are sending 1,000 aviators across the Atlantic every month. But we must be about it."

RECOGNITION OF MOTHERS.

The laudable movement to honor each mother in Canada who has given and lost a son in the war is most fitting and should meet with universal support.

Commenting on the subject the Hamilton Spectator says:—

"The Associated Kin of the Canadian Expeditionary Force are undertaking to present to each mother in Canada who has given and lost a son in the war a token commemorative of her sacrifice and the heroism of him who bore it." Mr. Gordon Wright, in a circular letter, says: "It had once been proposed that some such recognition should be made by the Government, but it is felt that this reduces to a cold formality the most sacred and universal privilege of the people of Canada to recognize and participate in this two-fold national sacrificial offering to the Empire and the cause of humanity. We have assumed the initiative in this with no desire to, in any way, appear as usurpers, but because by the nature, personnel and scope of our organization, we have the logical right that transcends all others, by reason of our cause, the blood-bought credential that makes us actually more closely associated with these motives than could any other Dominion-wide force assume to be. The matter of design for this memorial is now well under way, and we will at an early date make public full particulars as to applications, presentations, and every detail of the matter that will completely systematize this distribution as expeditiously as it is possible, without marring it by robbing it in any sense of the serious sanctity of the cause or the occasion."

"It is proposed that a trustee be named in each Province, for this special understanding, to be carried out by and through our organization in our name, jointly with and for the people of Canada" said nominations for the several Provincial trustees are

invited. Friends are also invited "to furnish us names and addresses of mothers who are eligible for this recognition, together with the names and particulars of sons lost, in order that all the details may be got into shape as quickly as possible."

"Communications should be addressed to the Mothers' Recognition Committee, Associated Kin of C. E. F. London, Ontario."

REPRISALS FOR GERMAN ATROCITIES

The British Government will have to meet renewed demands for reprisals on the Germans for the horrible bombing of crowded sections of London. The Government is reluctant to begin reprisals of like nature, because the German General Staff would proceed with relish to a competition in frightfulness. The British Government cannot stoop to the barbarities which please and gratify the German mind of the Rhine.

What, then, can be done to teach the Germans to limit their war to military operations? Probably nothing, except to work might and main for the crushing of the enemy, and thereby to bring about the day of real retribution. Recently British and French aviators bombed Freiburg in Germany as a measure of reprisal for attacks on hospital ships. The Germans came back with more raids, and subjected many British officer prisoners to cruelties and indignities. The British have in England about 48,000 German prisoners, and about the same number of British prisoners are in Germany. The recent capture of 7,000 Germans gives the balance to the British. But already the conditions of British prisoners in Germany is the subject of much concern. The stories of starvation and maltreatment that issue from escaped men, or deserting Germans, seem to show that British prisoners already endure about all that flesh can endure. The Germans have the excuse of blockade conditions for whatever privations they wish to impose on the prisoners as a method of reprisal. The German prisoners in England are well fed, well quartered, and even paid for their labor. They are treated as guests.

Each fresh evidence of the barbaric instincts of the German General Staff but serves to remind the Entente Allies how impossible is any compromise with Germany. The civilian population of British get out of the news some perception of what German methods have done in Belgium and France.

THE LAWS OF THE NAVY.

Now these are the laws of the Navy, Unwritten and varied they be; And he that is wise will observe them, Going down in his ship to the sea; As naught may outrun the destroyer, Even so with the law and its grip, For the strength of the ship is the Service, And the strength of the Service, the ship. . . .

If ye labor from morn until even, And meet with reproof for your toil, 'Tis well—that the gun may be humbled, The compressor must check the recoil.

On the strength of one link in the cable Dependeth the might of the chain; Who knows when thou mayest be tested? So live that thou hearest the strain! . . .

Can't follow the track of the dolphin Or tell where the sea swallows roan? Where leviathan taketh his pastime? What ocean he calleth his home?

Even so with the words of thy Rulers, And the orders those words shall convey— Every law is as naught beside this one— "Thou shalt not criticize, but obey!" Saith the wise, "How may I know their purpose?" Then acts without wherefore or why? Stays the foot but one moment to question, And the chance of his life passeth by.

If ye win through an African jungle, Unmentioned at home in the Press, Heed it not; no man seeth the piston, But it driveth the ship none the less. . . . —Capt. R. A. Hopwood, R. N.

PRESS COMMENT.

Our Government cannot wait a year for the ships it must have if the food and munition wants of our allies are to be satisfied. It was announced on the 11th that the Emergency Fleet Corporation had recently placed contracts for sixteen wooden hulls. But the first of these is not to be delivered until April 1, 1918, and others are to follow at intervals between that date and Sept. 30. Orders had already been given for 80 ships, 20 to be made of wood, 18 of steel, and 32 of both materials. Probably a majority of these will be finished before next April, and it is expected that several of them will be ready for use within seven months. But the latest contracts warrant an inference that orders given hereafter will not be executed in less than a year.

Small additions to the fleet are made every week. Five German ships were allotted to Italy on the 11th, and one to France, making twelve used in this way. Within a short time a dozen more will be available. The forty German vessels seized by Brazil will go into service between South American ports and our own, thus releasing British and other ships for work in the North Atlantic. A few German vessels will increase our small merchant tonnage in the Pacific, but the carriers required there for Russia's supplies have not been obtained. Our commission of engineers now in that country urges the importance of sending to Vladivostok the 10,000 freight cars and 500 locomotives ordered here.

The conclusion cannot be avoided that our Government will find it necessary to take ships which builders are making in our shipyards, ships ordered and owned by foreign and American companies. Power to do this will soon be given to the Shipping Board. General Goethals says of his new assistant general manager, appointed in place of one of the two officers who recently resigned or were removed: "He will appraise ships now on the ways, ships which we shall probably take over under legislation now pending." There are nearly 700 of these still to be launched. Many are on the Pacific Coast. Probably the first work of a considerable number will be done for our nation and its war allies. The imperative demand for ships in such service cannot be satisfied by vessels which will not be finished until the middle of next year.—A. U. S. Exchange.

CANADIANSOLDIER'S LETTER

Says Dr. Cassell's Tablets Have Kept Him Fit Through Two Wars.

Sapper A. Hartley, of A Company, Canadian Engineers, whose home address is 906 Trafalgar street, London, Ont., is one of many who have written in praise of Dr. Cassell's Tablets. He says: "As a constant user of Dr. Cassell's Tablets, I would like to add my testimony to their value. I used them when I was in the South African war, and finding the benefit of them there, have taken them since whenever I felt rundown. I always recommend them, for I know that they do all that is claimed for them. In my opinion they are the best tonic anyone can take for loss of appetite, poorness of the blood, or general weakness of the system."

A free sample of Dr. Cassell's Tablets will be sent to you on receipt of 5 cents for mailing and packing. Address: Harold F. Ritchie & Co. Ltd., 10 McCaul street, Toronto. Dr. Cassell's Tablets are the surest home remedy for Dyspepsia, Kidney Trouble, Sleeplessness, Anemia, Nervous Ailments, Nerve Paralysis, Palpitation, and Weakness in Children. Specially valuable for nursing mothers and during the critical periods of life. Sold by druggists and storekeepers throughout Canada. Prices: One tube, 50c; six tubes for the price of five. Beware of imitations said to contain hypophosphites. The composition of Dr. Cassell's Tablets is known only to the proprietors, and no imitation can ever be the same. Sole Proprietors: Dr. Cassell's Co. Ltd., Manchester, Eng.

In coal deposits than the other two Provinces, having anthracite, bituminous, and lignite fields, with an aggregate area of 16,000 square miles. The anthracite deposits at Cascade are small compared with the bituminous and lignite areas. The lignite is estimated at 60,000,000 tons. Saskatchewan has lignite alone, the total area being estimated at 5,500 square miles. The quantity therein contained is indefinite on account of the variable quality, but the Laramie and Belly River areas are estimated to contain 18,000,000 tons. Manitoba has in the Turtle Mountain district a small area, perhaps 50 square miles, containing about 100,000 tons. The construction of a "briquetting" plant in Saskatchewan, to supply the central and eastern parts of the prairie, would ease one of the greatest difficulties the West has to face. The cold prairie winter will have less terror if an abundant supply of good, cheap fuel is obtainable there.

The West has water power now undeveloped which will some day be harnessed to do work that at present has to be done by coal. Most of the electric plants of Saskatchewan, and contiguous areas of Alberta and Manitoba, are operated by coal. If lignite briquettes can be used for purposes usually served by bituminous coal, a radical transformation of the lighting and power situation in many communities is possible. Owing to the great distances, and sparse population, the big farming districts cannot hope to be served by electric lines as the farmers of some parts of Ontario are served by Hydro-Electric power. To these, lignite briquettes will come as a great lift, and agricultural settlement and production ought to be much stimulated thereby.—Toronto Mail and Empire.

MINARD'S "KING OF PAIN" LINIMENT The old reliable remedy for rheumatism, neuralgia, sore throat and sprains. Best Liniment Made. Mr. A. E. LAUNDRY, EDMONTON, writes: "I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best Liniment made." Minard's Liniment always gives satisfaction. For any ache or pain, it gives instant relief. Minard's Liniment Co., Limited, Yarmouth, N.S.

Synopsis of Canadian Northwest Land Regulations. The sole head of a family, or any male over 18 years old, who was at the commencement of the present war, and has since continued to be, a British subject or a subject of an allied or neutral country, may homestead a quarter section of available Dominion Land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made on certain conditions. Duties: Six months residence upon and cultivation of land in each of three years. In certain districts a homesteader may secure an adjoining quarter-section as pre-emption. Price \$3.00 per acre. Duties: Reside six months in each of three years after earning the homestead patent and cultivate fifty acres extra. May obtain pre-emption patent as soon as homestead patent on certain conditions. A settler after obtaining homestead patent, if he cannot secure a pre-emption, may take a purchased homestead in certain districts. Price \$3.00 per acre. Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$200.00. Holders of entries may count time of employment as farm laborers in Canada during 1917, as residence duties under certain conditions. When Dominion Lands are advertised or posted for entry, returned soldiers who have served overseas and have been honorably discharged, receive one day priority in applying for entry at local Agency Office (but not Sub-Agency). Discharge papers must be presented to Agent. W. W. CORY, Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for.

ZEPELIN WAS DOWNED BY BRITISH

ANOTHER HUN BABY-KILLING RAID ON ENGLAND—TWO KILLED.

London, June 17.—Two persons were killed and sixteen injured in last night's air raid, during which a Zeppelin was brought down. The following official report of the raid was given out here today:

Last night's air raid was carried out by two enemy airships. One airship crossed the English coast at about 2 a.m. and dropped six bombs on a coast town. According to the latest police reports two persons were killed, sixteen were injured and a large number of houses were damaged.

The second raider attacked the east coast town of West Anglia at about 2.30 a.m. She was heavily shelled by guns of the anti-aircraft defense and driven off. It is probable she was damaged by gunfire. Shortly afterwards this raider, after dropping a number of bombs in open places, was engaged and brought down in flames by a pilot of the Royal Flying Corps. The airship was destroyed. There were no casualties or damage in West Anglia."

Saw Zeppelin Fall. London, June 17.—A despatch from an east coast town says that thousands of persons witnessed the destruction of the Zeppelin. The attack by anti-aircraft guns on the dirigible lasted fully half an hour and people issued from their houses half dressed to watch the event.

When the black object drifting across the sky from the south-east to the north-east was seen to burst in flames the spectators cheered tumultuously. Pedestrians and cyclists dashed off in the direction of the fallen airship, but owing to the unexpectedly long distance few succeeded in locating the Zeppelin, which fell a few miles from the coast. It had been first winged by a land gun and was then finished by an airplane, which the Zeppelin fought to the last with her guns.

The dirigible dropped in a field of corn, far from any habitation and was completely destroyed. All of the crew were killed and their bodies badly charred. Some of the men appeared to have jumped from the doomed airship. Doctors hurried to the spot, but their services were needless.

The British airman who attacked the Zeppelin descended nearby unhurt. According to the story of an inspector who witnessed the affair, searchlights enabled him to follow the movements of the Zeppelin and the attacking airman. The Zeppelin twisted and turned in an attempt to escape or beat the airplane off, and the machine gun fire of the dirigible was heard distinctly. Presently another airman came upon the scene, and the Zeppelin continued to zig-zag in an endeavor to head out to sea. But the first airman held to his quarry and within a few minutes the end came.

725 RECRUITS ARE SECURED IN BOSTON

London, June 17.—The arrest of Col. Grivas and other Greek officers concerned in the fight with the French cavalry patrol which occupied the Greek town of Larissa is reported in a Reuter despatch from Saloniki. The troops of the Greek garrison who attempted to escape have been made prisoner. (Press dispatches from Saloniki last week said several French and Greek soldiers had been killed in a fight at Larissa).

A despatch from Piraeus, the port of Athens, says that the mayor of that city, an adherent of former Premier Venizelos who was driven from office at the time of the Royalist riots in December, has resumed his duties. Order prevails in Piraeus, as well as in Thessaly, which is being occupied by French troops.

BRITISH SUBJECTS IN U. S. MUST FIGHT. New York, June 17.—All male British subjects between the ages of 18 and 45 years now in the United States are to be compelled to join the British colors. It was made known here Saturday. British consuls and recruiting agents throughout the country are compiling lists of these men. Brigadier-General W. A. White, in charge of the recruiting, has gone to Washington to confer on methods to carry the plan through.

SOLDIER BLUE TO REPLACE NAVY. Soldier blue is seen just now so often that it seems probable this softer, more becoming shade may in time wholly supersede the dark marine tone. Partly because of dye shortage, partly because anything remotely resembling military dress is almost sure of success, this color is being used a great deal and a very pleasant change it makes. Organie blouses trimmed with fine white lace collars and cuffs, silk dresses and street suits are all to be found of soldier blue.

A PROCLAMATION TO THEHELLENSE

ALLIES ONLY DESIRED INDEPENDENCE, GREATNESS AND PROSPERITY OF GREECE.

Athens, via London, June 16.—M. Journart, the High Commissioner representing France, Great Britain and Russia, who recently brought about the abdication of King Constantine, has published the following proclamation addressed to the Hellenes:

"France, Great Britain and Russia desired the independence, greatness and prosperity of Greece. They intend to defend the brave little land they have liberated against the United efforts of the Turks, Bulgarians and Germans. They are here to check, mate the manoeuvres of the hereditary enemies of the kingdom. They will put an end to the repeated violations of the constitution, of treaties and he deplorable intrigues which led up to the massacre of soldiers of the Allies.

"Yesterday Berlin was in command of Athens and was gradually leading the people under the yoke of the Bulgarians and Germans. We resolved to re-establish the constitutional rights and unity of Greece. The protecting Powers, therefore, demanded the abdication of the King. They have no intention of tampering with the constitutional prerogatives; they have other aims, namely, to assure regular and constitutional progress of the country, to which the late King George, of glorious memory, had always been scrupulously faithful, but which King Constantine had ceased to respect.

"Hellenes! The hour of reconciliation has arrived. Your destinies are closely associated with those of the protecting powers; your ideals are the same as theirs, your hopes are identical. We appeal to your good sense and patriotism.

"Today the blockade is raised. Any reprisal against Greeks, to whatever party they belong, will be pitilessly repressed. No breach of the peace will be tolerated. Liberty, the liberty and prosperity of everyone will be safeguarded. This is a new era of peace and labor which is opening before you. Know that, respectful of the national sovereignty, the protecting powers have no intention of forcing upon the Greek people general mobilization.

GREEK OFFICERS ARE UNDER ARREST

WERE CONCERNED IN THE FIGHT WITH FRENCH CAV. ALRY PATROL.

London, June 17.—The arrest of Col. Grivas and other Greek officers concerned in the fight with the French cavalry patrol which occupied the Greek town of Larissa is reported in a Reuter despatch from Saloniki. The troops of the Greek garrison who attempted to escape have been made prisoner. (Press dispatches from Saloniki last week said several French and Greek soldiers had been killed in a fight at Larissa).

A despatch from Piraeus, the port of Athens, says that the mayor of that city, an adherent of former Premier Venizelos who was driven from office at the time of the Royalist riots in December, has resumed his duties. Order prevails in Piraeus, as well as in Thessaly, which is being occupied by French troops.

BRITISH SUBJECTS IN U. S. MUST FIGHT. New York, June 17.—All male British subjects between the ages of 18 and 45 years now in the United States are to be compelled to join the British colors. It was made known here Saturday. British consuls and recruiting agents throughout the country are compiling lists of these men. Brigadier-General W. A. White, in charge of the recruiting, has gone to Washington to confer on methods to carry the plan through.

SOLDIER BLUE TO REPLACE NAVY. Soldier blue is seen just now so often that it seems probable this softer, more becoming shade may in time wholly supersede the dark marine tone. Organie blouses trimmed with fine white lace collars and cuffs, silk dresses and street suits are all to be found of soldier blue.

FASHION CUES. A frock that is very picturesque is made of yellow satin, and on the front of the bodice is embroidered a basket of flowers. Another frock for afternoon wear is a flesh pink georgette crape embroidered with bright blue glass beads.

DUMA FAVORS BIG OFFENSIVE

CONSIDERS SEPARATE PEACE OR PROLONGED INACTIVITY AN IGNOBLE TREASON.

Petrograd, via London, June 17.—The Duma in secret session has passed a resolution for an immediate offensive by the Russian troops.

The resolution declared a separate peace with Germany or prolonged inactivity on the battle front to be ignoble treason toward Russia's allies, for which future generations never would pardon the Russia of the present day.

"The Duma therefore considers," the resolution adds, "that the safety of Russia and the maintenance of the liberties which have been obtained lie in an immediate offensive in close co-operation with Russia's allies."

EXHORTS RUSSIANS TO RALLY TO FLAG

WORKMEN'S AND SOLDIERS' DELEGATES IRREVOCABLY OPPOSED TO SEPARATE PEACE.

Petrograd, June 16, via London, June 17.—A stirring proclamation placing the Council of Workmen's and Soldiers' Delegates on record as irrevocably opposed to a separate peace was adopted today by the Council. The proclamation was prompted by Austrian efforts to lure Russia to a separate peace and exhorts Russians "to rally round the banner of revolution and increase the energy of the military power for the defence of freedom."

The proclamation cites the receipt of a wireless telegram from Prince Leopold (Prince Leopold of Bavaria is the commander of the German armies on the Russian front) asserting that the governments of the Central Powers are ready to conclude peace with Russia and asking Russia to send delegates to confer with them. The reply of the Council is a declaration of its attitude and Minister of War Kerensky has caused it to be sent to all troops on land and sea and it has been widely circulated throughout the country.

"Prince Leopold says he offers a peace which need not necessitate a break with the Allies. He says that because he knows an offer of separate peace will be rejected by our troops," reads the proclamation.

Discussing the projected truce with Austria, the delegates declare that they have not forgotten the Stockholm, and continue: "Leopold has forgotten. The Russians know to what places German divisions have been transferred—the Russians hear the roar of bloody fighting on the Franco-British front, know that the wreck of the Allies means the wreck of the free armies of revolutionary Russia—that it means not only new graves of our brothers but the wreck of revolutionary freedom."

The proclamation declares that Russia will follow its own way to a general peace in spite of provocative efforts, and says: "Russia has undertaken to unite the democracies of all fighting countries in the struggle against world autocracy, but her plan will never be realized if German imperialism is able to utilize Russia's longing for peace, to disunite her from her allies and ruin her army.

"The revolutionary democracy of Russia is seeking a route to peace through an appeal by the government created by democratic Russia to the governments of its allies and by means of an international conference of Socialists. "Let the army by its energy and courage give power to the voice of democracy!"

CANADIANS WORK HARD IN BELGIUM

EFFECTIVE ACTIVITIES IN RAILWAY CONSTRUCTION AND AT CASUALTY STATIONS.

Canadian Headquarters in France, via London, June 16.—(By Stewart Lyon, special correspondent Canadian Press).—The Canadians played a worthy part in the great events occurring on the Belgian front, where in the early stages of the war the men from the Dominion made history that will never be forgotten. The ground that is now in process of redemption represents, for them, the unattainable. They contested every foot of the St. Eloï area, at the northern end of the battlefield, with the utmost tenacity and valor, but by the superior German artillery on Messines-Wytschaete ridge all their efforts were made fruitless, and thousands of Canadians died in opposing a further German advance. Their sacrifice was not made in vain. The ridge and a daily increasing part of the plain of Flanders beyond it are again in the possession of the Belgian people while the enemy, brutal and sullen, as always in defeat, shells, with long range guns, the villages in the area from which he has been driven in the hope of preventing the re-occupation of what, in most cases, are mounds of shapeless ruins, like those of the Somme and Arras regions.

In driving out the invader, the Canadians have done notable work, not on the fighting front, but in the engineering, road building and railway construction department. Some of the mines which have so utterly changed the outline of the ridge were completed before the Canadians left for the Somme last fall. For months, thousands of Canadians, commanded and officered by former railway contractors and engineers, have been adding to the mileage of the light railways in the Ypres salient. Yesterday, during a brief visit to the Belgian front, I watched a railway construction battalion, which was recruited in northern Ontario, pushing forward a light railway to a town on the new British front. The work of grading and track laying was proceeding under fire from the enemy's heavy artillery. Casualties were inevitable, but the men work with a will, knowing that by their labors the feeding of the guns is made possible.

There are now over a hundred miles of light railway in the second army area, some of it double track. The Colonel in charge of the work of extending the line to the new front was formerly a contractor for the construction of part of the National Transcontinental, and is accustomed to handling men in thousands, as he has to do on the rush job now in hand. With little military training, his men work like veterans. Until lately, building railways in a salient was most perilous. Now the track when put down, has a fair chance of staying where it is put.

The Canadian surgeons and nurses in the Canadian casualties clearing station in the salient were as effective in caring for the wounded from the battlefield of Messines as the railway builders were in providing facilities for feeding the guns. Over one-fourth of all the wounded were cleared from the Canadian stations. That meant great exertion for a long stretch of hours on the part of the staff, but this was borne gladly. By far the greater number of the wounded had been hit by shell splinters. There were few bullet wounds from machine guns or rifles, and scarcely any inflicted by bayonets, save in the case of Germans treated. This proves that the last minute plans of the enemy for the defence of the ridge failed to work.

On a former visit to the salient, during a period of preparatory bombardment, I learned that the enemy trench system on the western slope had been practically abandoned, and that the Germans were improvising a new system of defense on the crest. In this wire entanglements, stretching from tree trunk to tree trunk across a road which ran along the top of the ridge, with machine guns and rifle pits behind the wire, had chief place. If ever they completed their defence it was blown to fragments by the tremendous mine explosions which preceded our assaults.

The hospital records indicate that artillery was the only real obstacle to the conquest of the ridge. In the Belgian operations the Canadian clearing stations are so situated as to be of great value. They are finely appointed, with excellent facilities for performing necessary operations before the transfer of the wounded to the base hospitals. One of them is fortunate in the possession of ample grounds, gay with blossoms and foliage. Seeing it a visitor can appreciate the spirit in which the manager of a British house in a neighboring village which is also fortunate in possessing a green spot has hung out a big sign in golden letters, "come into the garden and forget about the blinking war." All those weary, wounded soldiers who are awaiting the hospital trains will have their thoughts brightened by looking out on the flowers, garden plots and lawns of this Canadian clearing station.

Of the battle-scarred area much has already been written. Amid a countryside dotted with bog gardens and rapidly growing cereals, the ridge rises gaunt and bare, its brown shell-pitted flanks and serrated crest suggesting some gigantic beast of prey dominating the low country round about. The verdure in future years will hide its present hideousness, but large portions will never again be used by man. The craters will remain as memorials more imperishable than brass.

FRENCH BROKE UP A GERMAN ATTACK

ARTILLERY SMASHED HUN PREPARATIONS AND THE ATTACK WAS ABANDONED.

Paris, June 17.—An attempted German attack north-east of Cerny, on the Aisne front, was broken up by the French last night, the War Office announces. Extremely violent artillery fighting occurred near Hurtebise. The statement follows:

"In the region north-east of Cerny the enemy violently bombarded our positions at Bovel, while German detachments assembled in the enemy trenches for an attack. Our artillery broke up these preparations and the attack was abandoned. Farther east, in the sector of Hurtebise, the artillery fighting became extremely intense during the night. German reconnoitering parties east of Rheims and north of Erlenmeyer were dispersed by our fire.

"In the Woivre and in the Vosges, at Hilsenhst, we made surprise attacks which enabled us to take prisoners and destroy a number of shelters of the enemy."

VICTOR EMMANUEL APPROVES MINISTRY

MANY OF THE PRESENT MINISTERS WILL RETAIN THEIR PORTFOLIOS.

Rome, June 16, via Paris, June 17.—Semi-official announcement is made that Premier Boselli has proposed to King Victor Emmanuel a re-constitution of the Ministry and that the King has approved the names submitted by the Premier. Many of the present Ministers will retain their portfolios. It is understood General Gastano Grandina has been selected as Minister of War, that Vice-Admiral Arturo Triangi will be Marine Minister; Gen. Dall'olio Minister of Armaments and Munitions, and Picardo Bianci Minister of Transportation, succeeding Enrico Arlotto, who will become High Commissioner to the United States, remaining in the Cabinet as Minister without portfolio.

The coal commission will be abolished and its functions will be combined with those of the Transportation Ministry. A Ministerial Commission, headed by Signor Scialoja, Minister without portfolio, and composed of Ministers who have given up portfolios, will study war and peace problems, collaborating with members of parliament and agricultural and industrial experts.

DADDY'S MONEY

Sometimes my daddy likes to tease. And takes me by surprise; I can't always tell his jokes. Unless I watch his eyes. The other day he said, 'My boy' Where did you get those clothes? Who bought the hat that you have on? Who gave you the shoes and hose? 'Who bought you the food that gives you life? Who bought this house and lot? Who paid for furniture and rug? Who gave you your little cot?' 'Why you did, daddy,' I answered back. 'You bought it all—and more.' 'Then—don't you love me better'n Mother?' But I looked down at the floor. Then I looked up at mother. And she looked back at me; And, somehow, before I knew it, I was up on mother's knee And daddy's eyes just crinkled up— I saw he would understand— 'Cause he had a mother once, himself He ain't always been a man. Course, I don't love my mother best. I love them just the same. But there's something 'bout a mother That a boy just can't explain. It's something sorter tender— You can't tell it if you try. It's things that mothers do for boys That daddy's money cannot buy! —Anna Kilpatrick Fain, in 'Christian Observer.'"

GERMAN STEAMSHIP WAS TORPEDOED

Amsterdam, via London, June 17.—According to the Telegraaf, the German steamship Turin, which was reported to have struck a mine off the Dutch coast while bound for Amsterdam from Sweden, in reality was torpedoed by a submarine. She remained afloat.

LAVAL CONFERS DECREE ON THE DUKE OF DEVONSHIRE

STUDENTS SANG NATIONAL ANTHEM AS THEIR EXCELLENCIES ENTERED PROMOTION HALL— GOVERNOR PRAISES UNIVERSITY IN REPLYING TO ADDRESS.

Their Excellencies the Governor-General and the Duchess of Devonshire accompanied by other members of the Vice-Royal party, the Lieutenant-Governor, Sir Evariste LeBlanc, and Lady LeBlanc, Sir Lomer Gouin, Premier of the Province, Lady Gouin, Hon. L. A. Taschereau, Mde. Taschereau, Sir George Garneau and other prominent citizens were present last night for the presentation of diplomas, prizes and medals at Laval University.

As their Excellencies entered the Promotion Hall of the University the Students rose and sang God Save the King accompanied by the Seminary brass band.

The degree of Doctor of Law was conferred on the Duke of Devonshire by Mgr. Pelletier on behalf of the University. In reply to the address made by the Rector of Laval His Excellency after expressing deep appreciation for the honor conferred upon him said:

"As the representative of the King, I have the honor to thank you for the address which you have presented to me, and I note with satisfaction the expression of your loyalty and devotion to the Throne. Laval during her long and distinguished history has always had a far reaching influence on successive generations and has been closely identified with the religious, social and intellectual life of Canada.

When one reflects on what Laval has done and is doing in conjunction with her sister Universities throughout the world in the cause of culture and knowledge one may be tempted to ask how it is that the twentieth century is witnessing the appalling spectacle of civilization convulsed in the most terrible war ever known with the sacrifice of millions of the best young lives and the ideous waste of treasure and material. The reason is, I believe, easy to find. Germany deliberately set herself the task of dominating the world in defiance of all the laws of God and Man. Her aims and method are alike well known and if we are to retain our self respect and our freedom, we must crush once and for all that spirit of arrogance and pride.

Tributes to the memory of the late Thos. Chase Casgrain and N. E. Dionne were made respectively by Mr. Eusebe Belleau, K.C., and Hon. Mr. Eusebe Belleau, K.C., and Hon. Thos. C. Chapias, M.L.C.

Following is a list of those awarded diplomas, medals and prizes in the different faculties: Doctors in Theology: Abbes William Vernum Macdonald, Florida Gagne, Christopher Milner, C.S.C. Doctors in Medicine: Messrs. Rosario Pettin, with great distinction; Paul Mercereau, with great distinction; Georges R. Talbot, with great distinction; Joseph Jules Roy, with great distinction; Camille Lavoie, with distinction; Ludovic Lavallee, Eugene Guillemette.

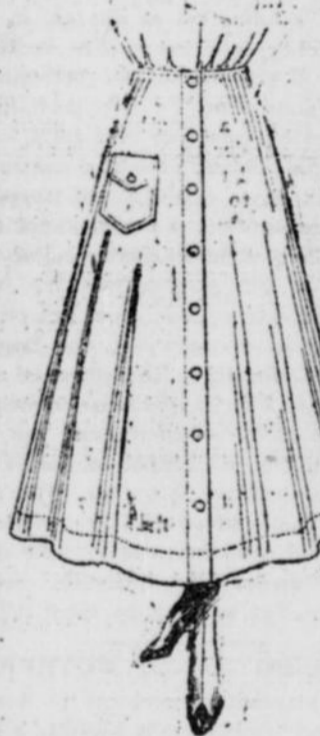

Licensed in Theology: Abbes James Charles McGuigan, with great distinction; Albert Chamberland, with great distinction; Edmond Dallaire, with great distinction; Antoine Lavoie, with great distinction; Laurent Lapointe, C.S.C. with great distinction; Heve Morin, S.C., with great distinction; Christie Foy, with distinction; Rosarie Benoit, with distinction; Armand Gosselin, C.S.C., with distinction; Honore Lapointe, C.S.C.

Licensed in Canon Law: Abbes Georges Roy, with great distinction; Louis Emile Hudou, with great distinction; Charles McHugh, with great distinction; Hector Benoit, with great distinction; Frs. Albert Cousinag, C.S.C., with great distinction; Arthur Douville. Licensed in Law: Joachim Grenier, with great distinction; Jean Marie Guerdar, with great distinction; Eugene Boucher, with great distinction; Leon Cliche, with great distinction; Ernest Drolet, with great distinction; Valmore Vienvenue, with great distinction; Ovide Mayrand, with distinction; Jules Lavigne, with distinction; Hilaire Payeur, with distinction; Pierre Audet, with distinction; Aime Fortin, with distinction; Adolphe Routher, with distinction; Paul Samson, with distinction; Ancien Tardif, with distinction; Auguste Sirois, with distinction; Elzabeth Mackay, Ernest Robitaille, Elzear Sirois, Alphonse Fortin, Lawrence Drummond.

WRESTLING MATCH. Red Paquet vs. Ant. Lepage. Three periods of 10 minutes each.

General admission 50c; Reserved Seats 75c and \$1.00.

High School of Quebec

The closing exercises and prize-giving of the High School will take place at the School, St. Denis Avenue, On Wednesday Morning, 20th inst., at 10:30 o'clock.

Parents and friends are invited to attend without further notice. F. C. WURTELE, Secy. H. S. Q.

Protestant Board of School Commissioners of Quebec

WANTED—A Protestant Lady Teacher to take tenth grade at the Girls' High School. Being a university graduate or having a first-class model diploma; a graduate preferred. Applications with recommendations to be sent to undersigned up to the 25th instant.

F. C. WURTELE, Secretary P. B. S. C. P. O. Box 216.

IN AND ABOUT TOWN

MANY FATALITIES OVER THE WEEK-END

MAN DROWNED AT AMOS—TWO WOMEN EXPIRED SUDDENLY.

A drowning fatality in the Abitibi district has been reported to Coroner Jolicœur over the week-end. The victim is said to be a man named Desjardins, who was drowned in the Harricana River at Amos.

From the same district news has reached Coroner Jolicœur that a man named Ulric Courchesne has died suddenly at Makamik, Abitibi.

Other deaths which occurred over Saturday and Sunday were Mrs. Widow Brulotte, of Lauzon, and Mrs. Couture, of St. Jean Chrystostome.

Inquests will be held on the victims today. Dr. Jolicœur has just returned from St. Jean Deschailions, where he held an inquest on the remains of an unknown man who was reported in Saturday's evening papers as being found drowned. Deceased who, travelled through the country repairing umbrellas, etc., died suddenly at the home of Mr. Ferd. Bedard. He is aged between 45 and 50 years.

About a year ago he was in the parish of St. Jean Deschailions and said he hailed from Montreal. Not a cent was found on his person. A verdict of "death due to congestion of the lungs" was returned.

HIBERNIAN CADETS HIGHLY PRAISED

COMPLIMENTED BY CADET INSPECTOR AFTER INSPECTION SATURDAY.

Saturday afternoon on the dot of 4 o'clock the Hibernian Cadet Corps paraded before Major E. T. Paquet, Cadet Inspector, the occasion being the Corps' annual inspection.

The Corps has greatly added to its numbers, Saturday's parade showing 142 cadet officers and privates. On the arrival of the Inspecting Officer the boys presented arms in a snappy style; whilst their steadiness under inspection was commented upon by several war veterans present for the parade.

The boys then formed close column of companies and swung around for their march past in companies. Their alignment and martial bearing more than satisfied the on-lookers as was manifested by the favorable comment. When the lads had returned in close column formation they again formed into line for Advance in Review Order. The Major Inspector then addressed the officers and "men" as follows:

"It gives me great pleasure to compliment you on the efficient manner in which you have undergone your inspection. Your Corps has made the greatest improvement of those inspected by me this year. Your work is most creditable, showing that you have worked hard during the short period (two months) of your training. I compliment your officers, instructor and the Reverend Brothers who have worked such good results. Should you continue this steady work you will easily be one of the best cadet units in the East."

The Inspector of Cadets then wished the boys an enjoyable vacation. He called for three cheers for the King which were lustily given.

The march homeward was by St. Louis, Buade, Fabrique and Palace streets. The drum and bugle corps gave a good account of itself when it is considered that they are but lads who have had only a few months practice. The showing made by the Hibernian Cadets speaks volumes for their efficient instructor who is now at Petawawa and for Rev. Brother Patrick, who previous to coming to Quebec had charge of the crack Mount St. Louis Cadet Corps in Montreal.

The Officers of the organization are:— Cadet Major G. Boyce, O.C. Acting Adj. Lieut. C. Cassidy. A Company, Cadet Capt. J. Peacock.

Cadet Lt. W. Henchey. B Company, Cadet Capt. J. Fisher. Cadet Lieut. A. Robitaille. C Company, Cadet Capt. J. Butler. Cadet Lieut. J. Timmons. D Company, Cadet Capt. G. Cullen. Cadet Lieut. T. Dupres. Sergt. Instructor Bouchard, accompanied the Cadets on parade.

The corps is indebted to a few good friends who have given practical encouragement.

COURT OF SESSIONS. A resident of Courville appeared in the Court of Sessions on Saturday morning, charged with assault. He pleaded guilty and was discharged on furnishing bonds to keep the peace for one year. A man named Simard, who was charged with robbery, was allowed out on suspended sentence.

PROCESSION IN NEW ST. PATRICK'S CHURCH

ANOTHER BEAUTIFUL DEMONSTRATION OF FAITH LAST EVENING.

Yesterday evening witnessed an other of the beautiful demonstrations of faith called forth in our city by the annual recurrence of the feast of Corpus Christi, when St. Patrick's Parish held its procession of the Blessed Sacrament.

It was intended to have an outdoor procession, and for this a tasteful Repository had been erected at the home of Mr. Robert Murphy, on St. Cyrille street, while all along the proposed route of march the householders had decorated their dwellings with flags and elaborate electrical displays. It was therefore regrettable that the rain, which began about the hour set for the procession, prevented an open air demonstration, as the very large gathering of parishioners who had come to take part in the procession would have made a most edifying showing, worthy of the magnificent spectacles of the week just past.

When the rain made it impossible to follow the original programme, it was decided to hold the procession indoors, boys of St. Patrick's School, the Hibernian Cadets, the girls of the various schools, flower girls and acolytes taking part. The Blessed Sacrament was borne by the Rev. Father Woods, Rector of Saint Patrick's. The Rev. Father Mylett, of London, Ont., acted as deacon and the Rev. Father Fahy as sub-deacon. The church was filled to its utmost by a devout congregation.

After the procession had wended through the aisles of the church, the Blessed Sacrament was enthroned aloft, in a very bower of white and green and red bloom—fit tribute to the All Pure Lord, the Faithful Lover of Souls. The Reverend Rector then read the Act of Consecration to the Sacred Heart of Jesus, dedicating each member of his parish to the Saviour of Men. The white-robed little ones who thronged before the altar steps, the youths and maidens, the matrons, the aged men and women present—all seemed to realize the deep meaning of the consecration, and the solemn words read aloud by the Rector found echo in every heart.

The singing of the magnificent hymn, "Holy God, We Praise Thy Name," brought to an impressive close a memorable ceremony, which adds new lustre to the good old St. Patrick's Parish, and augurs well for the success of the New St. Patrick's Church.

FUNERAL OF LATE MRS. JOHN BRADLEY

The remains of the late Mrs. John Bradley (nee Catherine Cunningham), were laid to rest in St. Patrick's cemetery on Saturday morning following a solemn Requiem service in St. Patrick's church at which Rev. Father Holland officiated, assisted by Rev. Fathers Meehan and McLaughlin, as deacon and subdeacon.

A large number of relatives and friends followed the hearse from the Montmorency Depot to the Church and cemetery. The chief mourners were: Mr. James Bradley, son; Messrs. P. Doyle, and Berrigan, brothers-in-law; John Doyle, and T. Berrigan, nephews. At the grave the prayers of committal were recited by Rev. Father Woods.

THE LATE MRS. ALBERT COPEMAN LAID TO REST.

The funeral of the late Mrs. Albert Copeman took place on Friday from her late residence, 14 Bon Pasteur st., to St. Patrick's Church and was attended by a large number of mourning friends.

The Solemn Requiem Mass was chanted by Rev. Father Meehan, C. S.S.R., who was assisted by the Rev. Fathers Woods and Holland, as deacon and subdeacon respectively.

At the close of the church service the remains of the late Mrs. Copeman were conveyed to St. Patrick's cemetery, where enternment took place, the Rev. Father McLaughlin reciting the last prayers.

The chief mourners were Mr. Albert Copeman, husband; Mr. Lawrence Fitz-Henry, brother; Messrs. Herbert, Henry and Charles Copeman, brothers-in-law, and Mr. George Copeman.

FIRE IN STORE ON COTE D'ABRAHAM.

Shortly before two o'clock yesterday morning, the firemen were called out to extinguish a blaze in the grocery store of Mr. M. Boyce, Cote d'Abraham. When the firemen arrived they found the glass in the main door broken and the door slightly open. The conclusions they arrived at was that the store was broken into and the fire set. If this theory is correct, whoever set the fire, evidently did not calculate that the firemen could be easily roused. The blaze was nipped in its infancy and extinguished with chemicals. Considerable damage was caused, however, by smoke in the store; and also to the dwelling upstairs where the occupants were nearly suffocated.

PROSPERITY WAVE TO ENVELOP U.S.

CANADIANS EXPECT BIG U. S. WAR BUSINESS BOOM, SAYS H. B. JOSEPH.

In an interview recently given to the Camden Daily Courier, Mr. Harry B. Joseph, a Philadelphia publicity man, stated that from his studies of the war effects on trade in the Canadian provinces, it is the belief in Canada, that the United States is on the crest of a gigantic wave of prosperity such as has never before been experienced.

Mr. Joseph, who is at present in Toronto working on a number for the Daily Mail and Empire, is well-known in Quebec, having published two special numbers for "The Chronicle." His remarks on the trade situation caused by the war will, therefore, be of particular interest to the citizens of the Ancient Capital.

The interview reads as follows:— That this country is on the crest of a gigantic wave of prosperity such as has never before been experienced, is the feeling in Canada as expressed to a Courier reporter today by Harry B. Joseph, a Philadelphia publicity man who has just returned from a several weeks business trip to Canadian cities where he carefully studied the war effects on the provinces and made a special endeavor to estimate, out of Canada's experience, the probable effect of war within the United States.

In Canada for the first few months of the war, nervous tension and pessimistic speculation during the war had its firm grip upon people, until gradually trade began to increase until at the end of the first year of the war, the increase on import and export business jumped four hundred per cent. In the first year of the war, the combined import and export business was something like five hundred millions, while during the year of 1916 it reached in excess of two billions. This was due mainly to the fact that the allied governments were buying much of their supplies in Canada. And now that the United States has become the financial burden-bearer of the allies, with the understanding that the billions of dollars in loans being made by this government is to be spent in the United States. Canada out of her own experience, predicts the greatest era of prosperity the United States has ever experienced. Canadian kings of industry say that this country will have to pass through a few months of doubtful feeling among its people as to what is going to happen, but they say with this period over, this country will soon find itself at its very wits end to handle the volume of trade that is on its way here, despite the war. Naturally at least a part of what the United States thus gains in business, Canada must lose, and she has already felt, to some extent, the diverting of the allied orders to this country.

Interesting also in Mr. Joseph's interview was the wonderful co-operation Canada has given throughout the war to date. In the first place Canada has raised for service 450,000 men out of which she has sent over 375,000 and out of the number sent 105,000 have been killed or wounded. A most remarkable thing in connection with the dispatching of the troops abroad is the fact that out of the 375,000 men shipped abroad, Canada has not lost a single man in transit. The men simply go, boatload after boatload. No one knows when they go or by what route they travel.

Hundreds of the wounded—some blind, some without arm or leg or both; some with disfigured features are back home, but every single one of them without a murmur. Every one of them smiling and contented with their sacrifice for country.

The troops are given six months' training under the instruction of skilled officers sent over from England for that purpose.

The soldiers get \$1.10 a day in pay and all dependent wives draw \$20 per month additional. Crippled soldiers, totally incapacitated draw \$480 a year. Any killed in action are protected to the extent of a life insurance policy for \$1,000 paid for by the government.

Canada is doing great work in shipping food supplies to England. In wheat especially she is helping out immensely. It is estimated that her exports of food supplies alone total \$300,000,000 annually. Her crops are all in excellent shape for a big harvest this year.

Considering the fact that the United States has undertaken the heavy load of the great war and since her experience will to an extent be what the other countries have passed through, Mr. Joseph's interview is of intense interest, especially since it brings such optimistic prediction so well founded concerning the prospects for business.

The feeling in Canada is that it will be necessary for the United States to send at least a million and a half men abroad to administer the telling blow to the enemy in the present conflict.

PORTUGUESE TROOPS REPEL GERMAN RAIDS

London, June 17—"Portuguese troops have repelled several German raids during June," says the official statement issued here this afternoon. "We captured a few prisoners last night as a result of a raid north of Gouzeaucourt. South of the Ypres-Comines canal a hostile raiding party, caught in our artillery barrage, failed to reach our trenches."

ST. PATRICK'S AND NAPOLEONS WON

In The World of Sport

TIPPERARYS WON IN JUNIOR SERIES

PATRICIAS MADE ONE ERROR, BUT IT COST THEM THE GAME ST. PATS AND NAPS ON TOP

Saints Defeated Patricias by Five to Three in Good Game at Exhibition Grounds—Frezell Pitched Great Ball for Saint Patrick's, Holding Losers to Four Hits—Napoleons Beat Lauzon by Nine to Five—Large Crowds Saw Fixtures.

Patricias made but one error in their game against St. Patrick's yesterday afternoon, but it cost the game, the Irishmen counting five runs after two were out in the fifth and though they did not score any before or after this cluster, it was enough to win, as the Patricias could do nothing with Frezell's mystifying delivery and only earned one of their three runs.

SUNDAY GAME NETTED \$10,000

NEW YORK AND ST. LOUIS TEAMS HAND OVER THE RECEIPTS TO ARMY CORPS.

New York, June 17.—St. Louis defeated New York, here today by a score of 2 to 1 in the first Sunday major league championship game ever played in Manhattan borough.

The entire gate receipts, estimated at \$10,000, will go to the treasury of the engineers reserve corps for the support of dependents of its members.

NATIONALS WON FROM TECUMSEHS

FRENCHMEN WERE TOO FAST FOR THE INDIANS—SCORE 14 TO 7.

Toronto, June 17.—The Nationals were too speedy for Tecumsehs in Saturday's N. L. U. fixture at the Island stadium, and won from the Indians 14 to 7.

Apparently Nationals expected a hard game, and brought along their best line-up. The game was not always clean and at one stage the teams were down to nine men a side.

Warwick and Green both turned out with the locals but Kalls and Fitzgerald, the St. Catharine stars, did not put in an appearance.

Table with columns: Team, Goal, Torpey, Whitehead, Green, Braden, McKenzie, Rowntree, Jacobs, Longfellow, Quellan, Barnett, Warwick.

JUNIORS WERE BRUSHED ASIDE

STADACONA VOLTIGEUR GAME WAS STOPPED BY LAUZON TEAM.

Though only half an inning remained to be played to enable a full game to be recorded, the Lauzon baseball team ruthlessly ordered the Voltigeur and Stadacona teams off the Levis diamond at 2:30 yesterday, though the juniors understood that they were to have the grounds until three; and the game had to be abandoned.

Though no official explanation has been made by the Lauzon club for their actions, whether they were right or wrong, makes no difference, the big fellows should encourage the youngsters and the way in which the juniors were interrupted yesterday, is not in keeping with the spirit of sportsmanship which all baseball players are supposed to possess.

Sporting Notes

"Billy" Frezell looked to be good for a no-hit game up till the seventh inning yesterday. Even at that it looked as if that first hit made off hit could have been fielded.

Marcel Savard made his debut behind the bat for St. Pats owing to the absence of "Steve" Newton. Savard caught a good game, though he was unfortunate in making a wild chuck to third base which cost a run, while his base-throwing while lightning fast was not accurate. He has the makings of a catcher, however, and with practice will likely prove a reliable backstop.

Al Worth twice had chances to break up the game with a hard drive, when he faced Loignon with the bases full, but each time he failed to get the ball out of the infield. Worth, however, was the stonewall of the St. Pat's defence, however, twice stopping vicious line drives when the bases were occupied.

Lauzon stuck to the Naps for five innings, but the Levis boys were there with the punch and won out in the closing innings.

Loignon is pitching high class ball just now. Yesterday he allowed his temper to get the better of him when Bernard let Robitaille's throw get away from him and handed up some easy balls to the St. Pat's batsmen. Had he retained his self-control, he might have retired St. Pats in that inning with only two runs instead of five.

Patricias are much improved and though an all-local team, they shape up as good as any in the league. Some good coaching and hard practice will make them a tough proposition later on.

St. Pat's made a find in Airiente, the Italian outfielder, who played with them yesterday. He is a good fielder and a sure hitter.

The Fleming-Allen bout scheduled for Wednesday night will take place at the Grande Allee Rink instead of at the Arena. The Irish-Canadian Club will make all final preparations for the bout today.

"Joe" Montminy is eager for a scrap now that he has learned that some dark-horse is to be sprung on him.

Secretary Lepine regrets that there was a shortage of chairs on the Exhibition Stand yesterday but states that owing to the work being done on the structure, it was impossible to secure accommodation in time for yesterday's games. He hopes, however, that fans will have all the comforts possible next Sunday. And there is no admission charged.

The interruption of the Stadacona-Voltigeur game before it was half way over, is not a good note for the Lauzon club. Any organization in sport ought to help out the younger element. In this case, it seems that discouragement instead of encouragement is the motto.

With their last year's manager in the line-up, Tipperary's luck changed and they won a game. The Frasers have protested the game.

Henri Paul Drouin made his debut as City League umpire yesterday but as he was placed on the bases, the fans did not have an opportunity of hearing his melodious voice.

Facts not worth knowing: Why worry about scenery when fine views may be seen at any movie show.

If you hand the bartender some cash to pay for a round of drinks and tell him it has all been subscribed, is it against the Anti-treating law for him to accept.

GET-AWAY DAY AT CONNAUGHT PARK

OPERA GLASS WON DUKE OF CONNAUGHT CUP AND STAKE.

Ottawa, June 17.—The spring meeting of the Connaught Park Jockey Club opened Saturday with fine weather, a fast track and one of the largest crowds on record in attendance.

The feature of the opening day was the Duke of Connaught Cup and stake of \$1,000. This brought out a good field and resulted in a win for Harry Giddings imported colt, Opera Glass.

Walker's Dolina-ran second and Captain Press' Hubbad, the favorite, was third. Opera Glass did the mile in 1:40 2-5, close to the track record.

The summary: First Race. Purse \$600, two-year-olds, five furlongs: Marauder, 114, Sterling, \$5.30, \$3.30 and \$2.50.

Second Race. Purse \$600, three-year-olds and up, claiming six furlongs: Anita, 109, Collins, \$5.20, \$4.20 and \$3, won. Between Us, 111, Cooper, \$8 and \$4.90, second.

Third Race. Purse \$700, four-year-olds and up, steeplechase, claiming about two miles: Stucco, 152, Clark, \$10.30, \$4.20 and \$2.90, won. Newhaven, 147, Brooks, \$5.00 and \$2.90, second.

Fourth Race. Connaught Cup, \$1,000 handicap, three-year-olds and up, one mile: Opera Glass, 104, Bell, \$15.20, \$9.40 and \$3.30, won. Dotina, 100, Collins, \$17.00 and \$3.40, second.

Fifth Race. Three-year-olds and up, one mile: Statim, 98, Collins, \$7.40, \$4.60 and \$3.00, won. Old Pop, 105, Cooper, \$7.70 and \$5.60, second.

Sixth Race. Three-year-olds and up, one mile and twenty yards: Athena, 109, Crump, \$8.60, \$3.00 and \$2.80, won. Reno, 109, Donohue, \$2.80 and \$2.40, second.

Seventh Race. Four-year-olds and up, one mile and a sixteenth: Sam Slick, 108, Parlington, \$9.30, \$4.60 and \$4.20, won. Boxer, 102, Mink, \$3.00 and \$4.00,

Lauzon shaped up well against the Naps, but failed to show the same systematic effort which Frank Gagnere's always demonstrate, and better team-play and all-round generalship won a double victory for the Napoleons.

Maurais pitched brilliant ball for the winners, while Carrier was the big hero of the afternoon, getting two hits and pulling down five hard hits to centerfield, on one of which, he doubled Regis off first base on a beautiful throw.

NO OCEAN LINERS OVER WEEK-END

LIGHTER CRAFT VERY ACTIVE HOWEVER — AMERICAN YACHTS ARRIVE.

Although no ocean liners arrived over the week-end the movement of lighter craft was brisk. A number of coal vessels arrived while others left after discharging their cargoes here.

Among them was the Stewart W. which arrived down with coal for the Canadian Import; the Drummond left for Sydney after discharging her cargo at a berth in the inner basin. The Henry B. Hall left Levis on her return to the Lakes. The Mapleton arrived from Sydney with coal which is being discharged under the claims of the Canada Steamship Lines Ltd. The Byron Whitaker has returned after leaving a consignment of coal here.

The American steam yacht Sever has come down en route to a lower port. Another American yacht, the Ycomas, passed here yesterday on her way to the Lakes.

BRITISH EXPORTS WERE MAINTAINED

Great Vigor in Trade Shown Despite Submarines and War's Distractions.

For all the ruthless submarine campaign of Germany, in effect for four out of the five months, Great Britain's exports to May 31st show an increase as compared with the corresponding period a year ago.

Higher commodity prices no doubt pay a considerable part in the increase. The fact remains that despite the distraction of war, and in the face of the serious difficulties imposed by Germany's indiscriminate sinking of ocean tonnage, the United Kingdom has been selling about \$278,000,000 of goods a month to the rest of the world. No more striking testimony to the vigor of British trade could be asked.

It has already been briefly noted in the week's cables that exports showed a slight decrease in May while imports showed a slight increase. The contrary movements resulted in an increase of about \$40,000,000 in the adverse balance of the month. Comparisons with May a year ago follow:

May	1917.	1916
Imports	£87,642,238	£88,814,830
Exports	48,487,236	47,024,411

Exc. imp. £44,204,980 £36,790,119

Despite the more unfavorable turn of the May figures, the adverse balance for the five months is not very much different from that of a year ago. Due no doubt to the extraordinary Bal. £198,772,238, 1917; £193,355, comparisons with 1916 are more unfavorable. Five months figures of imports and exports for three years, with the excess of imports in each case, follow:

Five months:	1917.	1916.	1915.
Im.	£414,757,349	£387,889,270	£352,556,082
Ex.	215,985,120	191,717,532	194,532,315
	1916.	188,371,225	1915.
	952,1916.	£164,184,860	1915.
		£164,184,860.	

40 FOOT HELL GATE CHANNEL APPROVED

U. S. House in Committee Adopts the Authorization.

Washington, D.C., June 14—The House today in Committee of the Whole adopted the authorization of a forty foot channel through Hell Gate in the East River, New York.

Passage of the River and Harbor bill was foreshadowed when republicans were beaten in an effort to confine the proposed appropriations to such items as the President should approve as war measures. Incidentally Champ Clark, Speaker of the House, told members that it was time to cease "miscellaneous and promiscuous talk" on the bill in speeches which had been made at least one hundred times, and get down to the real programme of war legislation.

Mr. Parker, republican, of New Jersey, offered an amendment to the bill which started the three hour fight to limit the proposed appropriations. The Parker amendment provided that "during the continuance of the present war no money shall be so expended (referring to River and Harbour appropriations), except for necessary repairs and the preservation of existing public works, or for construction and completion of works of immediate military necessity, to be determined by the President."

FREIGHTS AND CHARTERS.

New York, June 16—Rates on steam and sail vessels were strong, but the light supply of available tonnage restricted chartering, although a good general demand prevailed.

Charters: Steamer, 4,543 tons, general cargo, New York to Aichangel, private terms, June; schooner (new) 2,000 tons dead weight, general cargo New York to South Africa, thence to west coast Africa, and back with palm oil to Boston, \$225,000 for the round trip, July; schooner, 1,878 tons, thence Brunswick to New York, etc.

Had Headache For Two Years

A BARRIE MAN TELLS OF PERSISTENT HEADACHES AND INDIGESTION—FINALLY HE FOUND HIS WAY TO GOOD HEALTH.

Barrie, Ont., June 16.—For two long years the writer of this letter was subject to severe headaches. The nervous system got run down, digestion failed and there was continuous loss of weight.

The use of Dr. Chase's Nerve Food changed all this, and now with scores of other Barrie people Mr. Nader is recommending the use of this food cure as the best means of building up the exhausted nervous system and curing headaches, indigestion and all the annoying symptoms of a rundown condition.

Mr. John Nader, 38 Penetang street, Barrie, Ont., writes:

"During the last two years I had an attack of indigestion, accompanied by severe headaches. I suffered from loss of appetite, and my system became run down. I also lost considerably in weight. I began using Dr. Chase's Nerve Food, and as they helped me I continued this treatment for some time. My condition is now greatly improved, my headaches are gone and my health in general is much better. I can cheerfully recommend the use of Dr. Chase's Nerve Food to those suffering from nervousness of any kind."

As a spring tonic and restorative to overcome tired, languid feelings and build up vitality at this time of year there is nothing to be compared with Dr. Chase's Nerve Food.

Dr. Chase's Nerve Food, 66c a box, a full treatment of 6 boxes for \$2.50, at all dealers, or Edmondson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

CANADIAN GOVERNMENT RAILWAYS.

The attention of the travelling public is called to the following changes and increases in the passenger train service of the C. G. Ry.:

The new Levis-Edmundston Passenger Express has been extended, effective June 10th, to run daily, both ways, between Levis and Edmundston; leaving Levis 4.30 p.m., arriving Edmundston 1.40 a.m.; returning train leaves Edmundston, 12.45 a.m., arriving Levis 10.25 a.m., Sundays as well as week days. This train runs through to Moncton on Tuesdays, Thursdays and Saturdays, leaving Edmundston 1.50 a.m., Eastern time, arriving Moncton 12.05 noon, Atlantic time; returning leaves Moncton 4.00 p.m., Atlantic time, Tuesdays, Thursdays and Saturdays, arriving Edmundston 12.35 a.m., Eastern time, and Levis 10.35 a.m.

The new Campbellton-St. Leonard Passenger Express, leaving Campbellton 9.00 a.m. Mondays, Wednesdays and Fridays, arriving St. Leonard 2.15 p.m.; returning leaves St. Leonard 1.10 p.m., Tuesdays, Thursdays and Saturdays, arriving Campbellton 7.00 p.m.

The Levis-Montreal Local Express, leaving Levis 4.15 p.m. daily except Sunday, and the Montreal-Levis Local Express, arriving Levis 1.25 p.m., have been restored, effective June 10th.

The St. Lawrence Special is also being restored—Montreal to Mont Joli, first trip, June 13th, and Mont Joli to Montreal, first trip June 17th.

The time of the "Ocean Limited," between Montreal and Halifax and vice versa, and the time of the "Maritime Express," between Montreal and Halifax and vice versa, has also been shortened.

The Levis-Campbellton and Campbellton-Levis Express have been extended, effective June 10th, to run Sundays as well as week days.

The Murray Bay River Quebec Summer Passenger Service has also been restored, effective June 10th.

West of Quebec.

Effective 17th inst., the "National Atlantic" will be due, arriving Quebec 6.30 p.m. instead of 7.00 p.m., and on Mondays, Tuesdays and Saturdays, instead of Tuesdays, Thursdays and Saturdays.

The LaTouque-Quebec Local Express will be due arriving Quebec 1.00 p.m. on Tuesdays, Wednesdays and Fridays instead of Mondays, Wednesdays and Fridays.

For further particulars see regular advertisement in another column.

Closing Letters
By Local Brokers

(By Canadian Press)
New York, June 16—Business during today's brief session was perfunctory and insignificant on the whole, specialties and low priced rails comprising an unusually large per centage of the relatively small turnover. Investment shares and leading industrials were irregular or heavy. Steel's and related issues showing more or less pressure.
Savage Arms was the chief feature in point of actual strength, scoring a net gain of 1-2 points at 104 3-4. Extreme gains of 3 to four points were made by Industrial Alcohol, Virginia Iron, Wilson Company, Brunswick Company and several of the more obscure speculative issues, but most of these advances were forfeited in part.
Of the seasoned or representative stocks shipping's were most in favor, Marine Pfd. rising 2 1-2 points and Atlantic, Gulf and West Indies slightly more than a point. Coolers added moderately to recent advances, but yielded on profit-taking.
United States Steel reacted more than a point and made almost full delivery, but lost ground again in the final operations. Motors and oils met with reversals of 1 to 4 points. American Sugar declined almost 2 and copper's were lethargic. Cuban American Sugar and Union Bag and Paper were weakest of the specialties, losing 8 points at their worst. Partial rallies marked the irregular close. Total sales amounted to 280,000 shares.

(By Breen & Gourdeau)
New York, June 16—Today's session of the stock market amounted to a purely nominal affair. Prices fluctuated within decidedly narrow limits. The volume of business transacted showed marked contraction in such dealings as occurred and were of a highly professional character. Nothing developed during the two hours to which trading was limited that might in anyway be regarded as a noteworthy feature. Generally speaking, the situation and outlook are practically unchanged.
Sales, stocks, 278,300.
(By McDougall & Cowans)
Montreal, June 16—Can. Steamships was again most active issue, and sold up a point to 43. The preferred was well bought at 21. There was not much activity or change in price in Dominion Iron, or Steel of Canada. Other stocks throughout the list which have been inactive were in good demand and showed strength. Brazilian was up to 39 3-8. Exchange today was back to the high mark it reached a few weeks ago. Smelters sold at 27 1-8. There was no reason given for this; probably labor conditions are showing improvement, Scotia had an advance of two points from yesterday selling up to 102. And a lot of Civic sold at 77. The local market acted very well during the short session.
(By Bruneau & Dupuis)
New York, June 16—At the close of last week the threat of real stringency in the money market was in evidence, although rates were kept around 4 1-2 to 6 per cent most of the time. The situation became acute yesterday and our institutions stepped in and as a measure of relief loaned heavily, the amount being estimated as high as fifty million dollars. Rates might just as well be 25 to 50 per cent as those which prevailed, under existing circumstances. The trouble is, there is not enough money to go around, for the liberty loan unfortunately came on the same day as payment of income tax for 1916 and all these matters naturally made our leading institutions timid about making liberal advances during a time when these huge government requirements had to be taken care of. July disbursements also will be unusually heavy and on the 28th, of June the second payment on the liberty bonds is due, so altogether there is enough in sight in the near future to keep the market in a disturbed condition for some little while.
We think it will probably be well into July before money comes back to where it was before all these extraordinary requirements developed and it may well be that the market will continue dull at or near present figures until that time. We see no reason to become alarmed over these conditions as they are only temporary and are caused by factors which are perfectly apparent to everyone and people generally will accept them. It often occurs that there is no very apparent reason for a money stringency and this puts an entirely different complexion upon such an incident. The worst that we can see in prospect is a dull and waiting market and it looks as if we would have these conditions for a few weeks. The market closed with some activity but no important change in prices.
Total Sales, Stocks, 278,300.

There was some misgivings regarding the money situation and this feeling was accentuated after the publication of the bank statement which disclosed a further actual decrease of almost \$15,000,000 in reserves. This leaves excess reserves at about \$64,000,000, the lowest level of the year, but considerably above the minimum reported in the early part of last December. Actual loans increased by less than \$25,000,000 and combined demand and time deposits contracted by slightly more than \$29,000,000.
Bond dealings were exceedingly restricted, with an irregular tone. Total sales, par value, aggregated \$750,000.
Liberty bonds were moderately active, the price ranging from par to 100 5-8.
United States regular issue declined 1-8 to 1 per cent on call during the week.

Chemically Self-Extinguishing

What do these words mean to you? They mean greater safety in the Home—Surely something that interests you keenly!

Perhaps you have noticed these words and the notation "No fire left when blown out" on our new "Silent Parlor" match boxes. The Splints or sticks of all matches contained in these boxes have been impregnated or soaked in a chemical solution which renders them dead wood once they have been lighted and blown out and the danger of FIRE from glowing matches is hereby reduced to the greatest minimum.

AT THE THEATRES

PAULINE FREDERICK AND CHARLIE CHAPLIN TODAY AT EMPIRE THEATRE

FREE BOXES OF CHOCOLATES TO LADIES ATTENDING THIS AFTERNOON'S SHOW — THE BEST PICTURES IN TOWN.

Today is a Big Day at Empire—Today, marks the first run of the famous Paramount programme at this theatre and the first picture to be shown will be: "Her Better Self" featuring the greatest of all great screen stars: "Pauline Frederick". But that is not all. Who else do you think is on the bill? Charlie Chaplin—the comedian who will draw down one million dollars for a year's posing for pictures. Do you think he is worth it? See him in "The Count" today and count the laughs. After you count a thousand, count in all your own smiles and you'll find the total will be almost two thousand. And besides—Today, the Empire management, out of the fullness of their hearts, will present to each lady attending the matinee performances a box of Beaumont chocolates. The Price of admission is only ten cents. "Her Better Self."

PAULINE FREDERICK "HER BETTER SELF" FAMOUS PLAYERS-PARAMOUNT

"If you'll marry this Baron we've found for you, I'll get you a new motor," or words to that effect was what Vivian Tyler's father said to her in "Her Better Self," a Famous Players-Paramount picture starring Pauline Frederick on the Paramount Program. A story of the change effected in a frivolous daughter of

wealthy parents by the strong character of the man she loved, lightened with touches of humor. What would you do were you offered a motor to marry a Baron? Doubtless just what Vivian did, which you will see for yourself at the Empire Theatre today.

SELECT PROGRAMME AT VICTORIA THIS WEEK

TODAY AND TOMORROW SEE YOUR SCREEN FAVORITE MME. PETROVA.

SCENE FROM "THE SECRET OF EVE"

Mme. Petrova Seen in Four Roles in "The Secret of Eve." Great scenes abound in "The Secret of Eve," the Metro-Popular Plays and Players production starring Mme. Petrova. This five-act screen drama has been written by Aaron Hoffman, a wizard of the film drama, directed by Perry Vekroff and produced by Popular Plays and Players.

Wednesday and Thursday Another Splendid Feature. Ella Hall in "The Little Orphan" and Friday and Saturday, "Babette" featuring Peggy Hyland. At all times one is assured of the seeing the best releases to the moving picture world. Come and decide for yourself, who has the best picture programme and no advance in admission.

THOUSAND DOLLAR WEEK AT THE AUDITORIUM.

All This Week, the Auditorium Offers a Thousand Dollar Vaudeville Programme. Also First run Motion Pictures—Some Acts That Will Please Everyone.—Admission Prices Have not Been Raised.

GLADYS LESLIE IN "AN AMATEUR ORPHAN"

At Olympia Today. Gladys Leslie will be offered at the Olympia today and tomorrow in "An Amateur Orphan" a beautiful five-act photoplay. The Pathe weekly also on the programme. The pictures now being shown at the Olympia are selected from the best on the market. No matter when you attend you are sure of seeing a masterpiece.

FAIRBANKS AT BEST ON SCREEN

Douglas Fairbanks and Jewel Carmen Star in New Play Monday, Tuesday and Wednesday at the Classic. Douglas Fairbanks at best on screen! That's what Heywood Brown the dramatic critic of the New York Tribune, said in his paper after he had seen Douglas Fairbanks in "Manhattan Madness". People who think they don't like motion pictures should see this play.

PERSONAL

Mr. W. E. Brown, of Bangor, Me., is staying at the Chateau. Mr. J. T. Anthony, of Montreal, is a guest at the Chateau. Mr. Alfred Savard, left for Montreal on Friday afternoon.
