SHERBROOKE, QUEBEC, SATURDAY, SEPTEMBER 14, 1946.

Fiftieth Year.

World News In Brief

London, Sept. 14.—(AP)—Throughout the British Isles, this week-end is being dedicated to the remembrance of the R.A.F., which six years ago tomorrow challenged the Luftwaffe in a patch of sky some 80 miles long and 40 wide to win the Battle of Britain and smash enemy hopes for an invasion of England.

In cities and hamlets throughout Britain, tribute will be paid in memory of that historic Sunday in 1940, when weary pilots, out-numbered 10 to one, rose for the decisive encounter and shot down 185 German planes during an aerial battle lasting throughout the day over southeast England. Against the Germans' staggering toll, the R.A.F. lost 25 planes, but 14 pilots were saved.

London, Sept. 14.—(C.P.)—A. V. Alexander, First Lord of the Admiralty, denied today he had walked out of a session of the Paris peace conference Military Commission yesterday.

"It is quite untrue to say I walked out," Mr. Alexander said as he arrived in London for the week-end.

"I was called away to keep an appointment and left the debate in the ordinary way." (In Paris it was reported Mr. Alexander conferred with Mr. Byrnes shortly after the British delegate left the session. The meeting was not scheduled until an hour before Mr. Alexander departed from the conference.)

Hot Springs, Ark., Sept. 14.—(AP)—At least three persons were critically burned and 15 or more were injured in a spectacular fire which destroyed the 75-room Grand Northern Hotel here early today. Physicians at a local hospital said no deaths had been reported.

The fire broke out at 12:50 a.m. in the 50-year-old hotel, a three-story brick structure. The Hot Springs Fire Department said many of the guests jumped to safety or escaped down ladders.

London, Sept. 14.—(C.P.)—Reinforced police details patrolled London's swank West-End today to prevent further "squatting" invasions following predictions by Communist leaders that big new dwellings on vacant private swamps were in the offing.

The authorities apparently planned no other action until Tuesday, when a ruling is expected in a legal test case designed to oust 1,500 men, women and children completing their first week of sleeping on pallets and eating food smuggled through windows of now bare pre-war luxury flats.

In a London working class district, meanwhile, legitimate tenants set out to beat the squatters at their own game in an "operation checkmate."

Alderman G. F. Rowe announced at Wandsworth that he was advising 250 families on the local housing committee's waiting list to take matters into their own hands.

Mr. Rowe said the committee already had requisitioned all available property, pending the completion of building repairs, but that squatters had begun moving in. So now he is telling the first of some 15,000 on the waiting list to "go and do likewise—first."

Mixed Marriages, Divorces Opposed By Church Council

By GEORGE BURMAN
Canadian Press Staff Writer
Montreal, Sept. 14.—(AP)—A forceful disapproval of mixed marriages and of any widening of the grounds for divorce was contained in a report on Christian marriage presented yesterday at the 12th General Council of the United Church of Canada by Chief Justice J. C. McRuer, of the Supreme Court of Ontario.

The lengthy report, prepared by a special committee of which Chief Justice McRuer was chairman, recommended an early conference between the clergy of various communions, especially between Roman Catholics and Protestants, to seek closer understanding and the reconciliation of their conflicting viewpoints on the matter of mixed marriages.

The position of the Roman Catholic Church regarding mixed marriages produced "most distressing and difficult" circumstances in the fact that Catholic canonical law declares all unions between Catholics and non-Catholics null and void unless performed by a Roman Catholic priest. Also, the Protestant partner must take a course of instruction in Roman Catholic doctrine and sign an "ante-nuptial agreement" to have all children of the marriage baptized and educated in the Catholic faith.

The report said that "when

Big Decline In Creamery Butter Noted

Production Last Month Dropped Four Million Pounds Below Output in Same Period Last Year.

Ottawa, Sept. 14.—(AP)—The Dominion Bureau of Statistics reported today August production of creamery butter dropped 4,000,000 pounds below that of August, 1945, for the "most serious" decline since last March, when the shortage of butter became an acute problem throughout the Dominion.

The bureau said the fact storage stocks at Sept. 1 showed an increase of less than 1,000,000 pounds against an increase of 2,000,000 pounds in the preceding month was indicative of the heavy domestic disappearance during August. During the two previous months the disappearance of total butter was approximately 26,500,000 pounds while in August it jumped to 28,000,000 pounds.

The creamery make in August was 34,015,000 pounds, compared with 38,044,000 in August 1945 while output for the year to date amounted to 198,400,000 pounds against 214,600,000 pounds in the January-August period of 1945, a decline of 7.6 per cent.

Cheedar cheese production dropped to 21,200,000 pounds in August and the total for the eight-month period was 103,100,000 pounds, representing declines of 25 and 22 per cent, respectively, compared with a year ago.

Total production of all concentrated milk products amounted to approximately 32,000,000 pounds for August and 219,500,000 pounds in the eight-month period ended August. The former was practically on a par with previous year, while the latter represents a decline of 1.5 per cent.

Fine Toronto Man In Passport Case

Toronto, Sept. 14.—(AP)—Dr. John Soboleff, Toronto physician, yesterday was fined \$500 and costs or three months for what Crown counsel described as his "gross stupidity" in signing a passport application for a man described as a Russian spy. Dr. Soboleff pleaded guilty.

The final report of the Royal Commission on espionage named Dr. Soboleff as "active" in obtaining a false passport at the request of Sam Carr, former national organizer of the Labor-Progressive Party.

J. J. Robinette, special Crown prosecutor, said there was no evidence, nor did the Crown suggest, that the doctor was a member of any Soviet spy ring or in contact with any Russian agent.

The name in the passport was that of Ignacy Witczak, a Pole said to have served on the Republican side in the Spanish civil war.

Young people contemplate a mixed marriage, the minister should counsel most serious consideration of the issues involved, and should seek complete agreement before marriage concerning religion in the home, and especially in relation to children.

Other proceedings during this third day's sessions included: 1.—Debate on the question of ministerial salaries was postponed following presentation of a report by Rev. George Dorey, of Toronto, newly-appointed secretary of the Board of Home Missions, which outlined a suggestion of the Saskatchewan conference for the creation of a central fund from which all active ministers would be paid on a basis of need.

2.—The question of the method of electing a moderator was referred to a sessional committee on law and legislation for study. Rev. Gordon A. Sisco, of Toronto, general secretary of the United Church, said that the executive of the General Council favored a method whereby a pastor might stand a better chance of being elected to the post than he does under the present system.

3.—Dr. Willard Brewing, of St. George's United Church, Toronto, as chairman of the Radio Committee, asked that the Board of Finance be requested to provide \$10,000 for radio programs during the next two years. The council endorsed the request.

Republicans Attack Wallace Speech as Undermining Position of State Secretary Byrnes at Paris Parley.

Washington, Sept. 14.—(AP)—President Truman today occupied the hot centre of an administration family row that may have serious international implications.

Republicans accused the President of angling for political advantage on the issue of American relations with Russia and invited him to choose between State Secretary Byrnes and Commerce Secretary Wallace as his exponent of United States foreign policy.

Mr. Truman put himself in the position by endorsing in its entirety and in advance the speech Mr. Wallace made in New York Thursday night, critical of Britain, advocating establishment of Russian, British and American spheres of influence and, most important domestically, criticizing United States foreign policy.

Mr. Wallace, last survivor of the New Deal cabinet and idol of the leftists, was addressing 19,000 in a Madison Square Garden rally called by the National Citizens Political Action Committee and the Independent Committee of the Arts, Sciences and Professions.

It was a political meeting launching a campaign to beat Thomas E. Dewey, Republican candidate for re-election as Governor of New York.

The President declared that the speech in no way departed from the foreign policy speech of State Secretary Byrnes in Stuttgart last week.

Thus the president was put into the position of endorsing such statements by Mr. Wallace as: "Make no mistake about it—the British imperialist policy in the Near East alone, combined with Russian retaliation, would lead the United States straight to war unless we have a clearly defined realistic policy of our own."

(In London, a spokesman said the Foreign Office was particularly surprised at Mr. Wallace's criticism of "British imperialism.")

Mr. Wallace fastened the blame for Balkan trouble upon Britain, and indicated the lack of a "clear realistic" policy in the United States administration.

That statement, following so closely the clear statement of Secretary Byrnes on policy in Europe, closely Allied with British policy, sent reporters scurrying to the State Department.

There the acting State Secretary, William L. Clayton, said he had not known what Mr. Wallace was going to say and could not understand the President's endorsement of what was said.

But all of what Mr. Truman had endorsed was not said by Mr. Wallace. When Mr. Wallace mildly criticized Russia in his speech, and at the mention of the President's name, the crowd began to hiss and heckle the Commerce Secretary causing him to drop some sentences.

He dropped the declaration that Russia should "stop conniving against us in certain areas of the world," and "should stop preaching that their form of Communism must, by force if necessary, ultimately triumph over democratic capitalism."

Mr. Wallace advocated a division of spheres of influence among the Big Three by friendly agreement—a policy radically opposed to that presented by Mr. Byrnes.

There was no doubt from the Republicans' reaction that they believed Mr. Truman had, from a political standpoint, made a major blunder.

From Republican Senators Owen Brewster (Me.), Robert Taft (Ohio) and Milton Young (N.D.), came individual comments all sounding one common note—that, by approving Mr. Wallace's talk in advance, Mr. Truman had undermined Mr. Byrnes' position at the Paris Peace Conference.

Senator Taft said in a statement that Mr. Truman was appealing, through Wallace, "for the support of the P.A.C. (Political Action Committee) and the Communists in the November election by advocating a milder policy towards Communism and a less friendly attitude toward England."

Big Agenda Completed By Church Synod

Refusal of Church Remarriage of "Innocent Parties" in Divorce Cases Among Issues at Winnipeg Conference.

Winnipeg, Sept. 14.—(AP)—A joint session of the upper and lower houses of the Church of England General Synod yesterday heard the traditional proclamation of the "Acts of Synod" addressed to the King and Queen and then prorogued to reconvene at Halifax in 1949.

The 17th General Synod there will be held in conjunction with the 200th anniversary of St. Paul's Anglican Church, built the year the city was founded and the oldest Protestant Church in Canada.

Before the prorogation of the 10-day meeting, said by delegates to have discussed the longest agenda in the Synod's history, it was announced the primate of all Canada, Most Rev. Derwin T. Owen of Toronto, would continue in office until after the Lambeth Conference of Anglican and Episcopal Bishops in London, in 1948.

Briefly, these were the highlights of the 16th General Synod: 1. A revision "for permissive use" of the Anglican prayer book and hymnal;

2. Continuation of a committee which has carried on conversations with other churches on the possibility of partial union.

3. Commendation of a report on a common ministry and communion service with the United Church (referred back to committee for further study).

4. Election for the first time in Anglican history of a layman, Reginald V. Harris of Halifax, as prolocutor of the lower house.

5. Appointment of committees to investigate public relations, a national magazine, and a restoration fund for Canterbury Cathedral.

6. Permission for widows and widowers to remarry brother or sister-in-law, aunt, uncle, nephew or niece by marriage. These provisions were listed among the prohibitions in the Anglican table of kindred and affinity.

7. Refusal of church remarriage of "innocent parties" in divorce cases, and reception of a report on the matter for further study.

8. Attendance of the first woman delegate, Mrs. R. E. Wodehouse of Ottawa.

Food Supplies In Alberta Drop As Strike Continues

Edmonton, Sept. 14.—(AP)—A drastic shortage of livestock products loomed in Alberta today as the 30-day delivery strike of all farm produce by more than 20,000 members of the Alberta Farmers' Union moved into its second week today.

Commenting on the results of the first week of the strike to force federal recognition of union demands for parity prices the relationship between farmers' costs and returns—the A.F.U.'s farmer president, Carl J. Stimpfle, last night said he was "quite amazed at the support farmers have given us. We are certainly getting results."

Butchers and grocers in Edmonton agreed as they reported dwindling supplies of meat, lard and eggs. A sharp decline in livestock receipts forced four big city packing plants to announce the laying off of some 1,200 employees yesterday. Reports from other parts of Alberta told of restaurants closed, butcher shops closing and serious shortages of eggs and dairy goods.

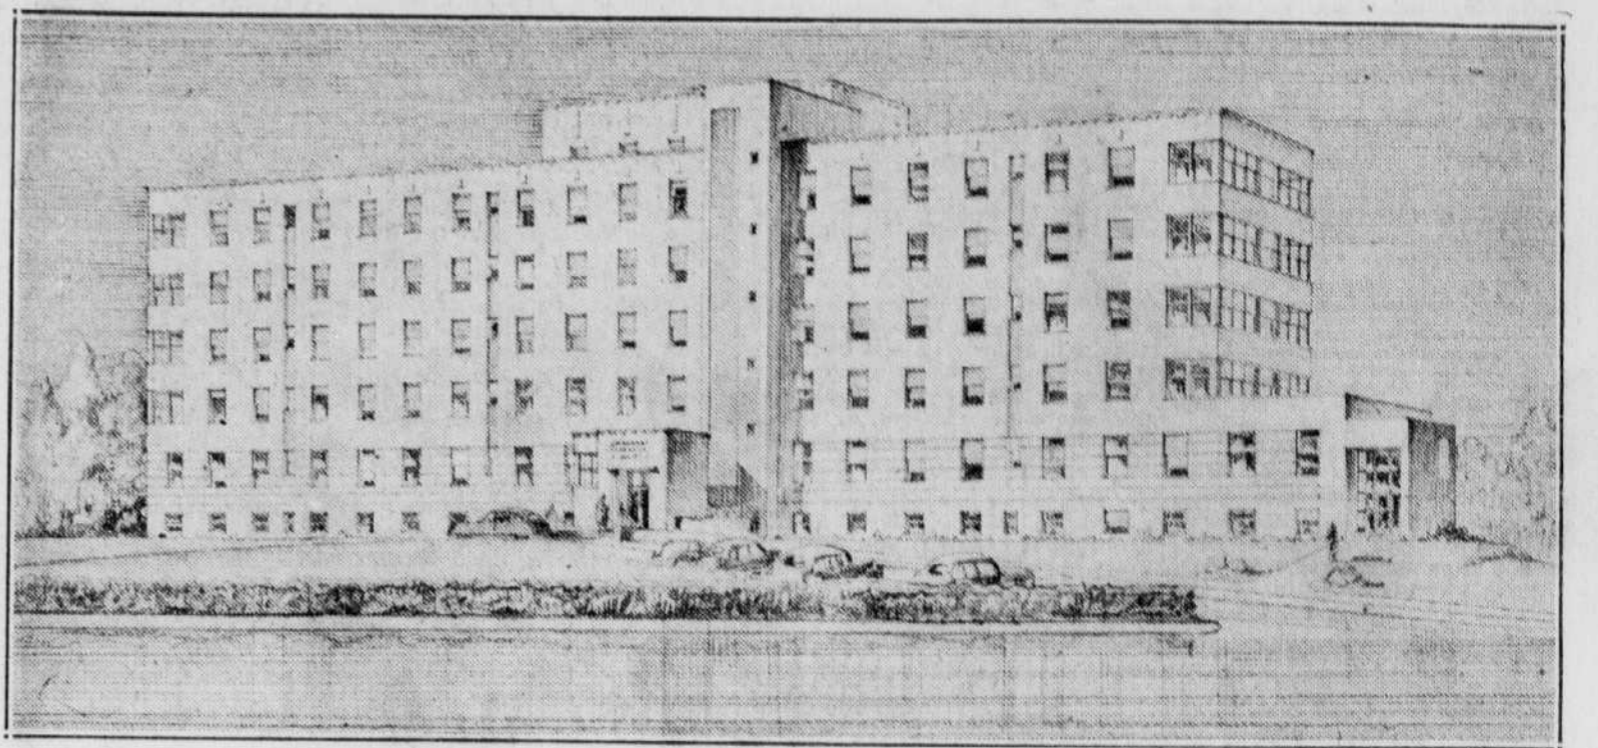

S. W. Sheppard, manager of the Alberta Livestock Co-operative, said his organization was getting practically no deliveries. He predicted "there won't be any meat in the cities and towns next week."

Mr. Stimpfle said he would release a statement tomorrow "with regard to the packing house workers and the strike." He predicted grain companies would begin to feel the strike early next week.

The A.F.U. president said the union's members, who will be polled at the end of 20 days to see if they wish to continue the strike beyond 30 days, "are determined to hold back their produce until such time as the Dominion Government recognizes them."

Mr. Stimpfle said reports reaching the union's headquarters in

Pictured above is an architect's sketch of the new Sherbrooke Hospital which will be erected on a fifteen acre plot at the corner of Portland Avenue and Argyle Street in the North Ward. RIVAL SEAMEN'S UNIONS EXCHANGE PICKET LINES

New York, Sept. 14.—(AP)—C.I.O. mariners were to exchange places with A.F.L. seamen on picket lines at United States deep water ports today as the great maritime stoppage continued.

However, in Baltimore, William Rentz, port agent for the A.F.L. Seafarers International Union, which with the A.F.L. Sailors Union of the Pacific, ended its country-wide strike Thursday, said that A.F.L. seamen in the Maryland port expected today to cross picket lines established by the C.I.O. men.

His announcement came several hours after Paul stall, port agent in New York for the S.U.-S.U.P., said in announcing the end of the A.F.L. strike that A.F.L. members would refuse to cross C.I.O. picket lines.

Mystery Letter In Murder Case

Whitby, Ont., Sept. 14.—(AP)—A letter which Mrs. Nora Kyle said she found in the home of her murdered friend, Mrs. Audrey Lyons, last November 11 remained a mystery today as the trial of Lorne Cecil Harris, 28, on a charge of slaying Mrs. Lyons continued.

Mrs. Kyle testified yesterday she read the letter and gave it to a police officer whom she was unable to identify. She said the letter was from Mrs. Lyons' husband, at that time a serviceman stationed in Eastern Canada.

Harris was convicted last February of murdering Mrs. Lyons and was sentenced to be hanged but his appeal was upheld and a new trial ordered.

Contents of the letter have not been divulged, nor has the letter been produced in court. A. W. S. Greer, defence counsel, said it might have a bearing on the murder.

Pay Boost To Be Accorded Army Oct. 1st

Army Officials Announce New System Will Bring Permanent Force Soldiers Up to Levels of Other Two Services.

Ottawa, Sept. 14.—(AP)—Soldiers of both the active and reserve armies are due Oct. 1 for a pay raise, the one Defence Minister Abbott forecast last April.

Army officials reported today that that day has been set as the probable starting date for a new pay system that will bring permanent force soldiers up to the levels enjoyed by the other two services.

Reserve army men will get the benefit of the increase on the basis of the 30 days of training they are slated to do annually. For purposes of computing pay two nights of training will be considered the equivalent of one day.

The limit of its strength has been set at 180,000 all ranks. Majority of the 14,054 officers and other ranks now serving in the interim army are expected to enlist in the permanent force by Oct. 1, leaving about 11,000 still required to complete Canada's peacetime army of 25,000 members. The transition period to permanent force status will involve new documentation, medical examination and trades qualification tests before the higher rates of pay are instituted.

Members of the two-year interim army force who are not accepted into the permanent army for medical or other reasons, may continue in the army until their temporary army commitment expires in September, 1947. These men, however, will continue to be paid according to rates paid during the war and which still are in existence.

At present there are 2,763 officers serving in the interim army, approximately the required number for the permanent force, but vacancies are still to be filled by specialist branches such as the medical corps and engineers.

Under the new system of pay, a private who is unqualified in any trade, will receive a basic rate of \$95 per month, compared with the present rate of \$76.50 a month. Re-qualification examinations of soldiers drawing present A, B or C grades may be carried out and the men classified in one of the four new grade groups.

The \$85 consists of \$50 pay and \$35 subsistence and reserve army men will get only the \$50. But they too can qualify for trades pay.

The new marriage allowance will be set at a rate of \$20 a month for men and \$30 a month for officers. These allowances are subject to a reduction of \$10 a month where the soldier's family occupies government-owned married quarters.

The new scale also provides for automatic increases of pay of \$3 a month after each of two three-year periods of satisfactory service as a private and higher increases for soldiers above that rank.

Barn At Barnston Destroyed By Fire

Barnston, Sept. 14.—Fire yesterday afternoon destroyed a barn belonging to Albert Pope and all the season's hay as well as the building was a complete loss. The conflagration started at 5 o'clock in the afternoon and farmers from the surrounding district rallied to Mr. Pope's assistance. They were able to save the tools as well as the cattle, but when the flames started to spread, they asked for help from the nearby Coaticook fire department.

It is believed that spontaneous combustion started the blaze. The loss is covered by insurance.

FUTURE BOMBERS MAY CARRY OWN FIGHTER ESCORT

Washington, Sept. 14.—(AP)—Huge bombers of the future may carry their own fighter planes with them for their protection if military plans now in the discussion stage materialize.

Projects to equip super-long-range bombers with jet-propelled "parasite" fighters, launched and recovered in flight, have been discussed among military and aviation industry officials.

One phase of the subject involves the possible conversion of a bomber such as the Consolidated Vultee XB-36 into a flying aircraft carrier so that it would have its own escort when in enemy territory.

The XB-36 is a six-engined plane weighing around 130 tons with a wingspan of 230 feet and a length of 163 feet.

Nun Killed In Car Accident Last Evening

Member of Local Order Returning to Duties at Magog Hospital Killed When Car and Truck Collide.

Sister Ste-Marguerite, of the Convent of the Sisters of Charity of the Sacred Heart, was killed last night when a delivery truck owned by the La Providence Hospital in Magog, in which she was riding, collided with a car owned and driven by Eugene Beauvais, of Sherbrooke. All other persons involved in the accident escaped with minor injuries.

The accident occurred at half past eight in the evening, about nine miles from Sherbrooke, and Sister Ste-Marguerite died shortly afterwards. The body was brought to Sherbrooke and it is now resting at the Convent on Bowen Street.

Sister Ste-Marguerite was on her way back to the hospital, where she worked as a nurse, after spending the day in Sherbrooke. There were six passengers in Mr. Beauvais' car.

An inquest will be held today.

Settlement Still Remote In Canadian Steel Strike

Hamilton, Sept. 14.—(AP)—The basic steel strike today wound up nine weeks of picket lines, claims and counter-claims, settlement proposals and rejections, with no official indication as to when the end was in sight.

As the 10th week approached, the latest development was a statement from H. G. Hilton, president of the Steel Company of Canada, analyzing the company standpoint on the union position outlined Thursday by C. H. Millard, national director of the United Steel Workers of America.

Millard declared at Toronto Thursday that if the companies agreed to arbitrate non-wage issues, a settlement was possible within a short time. It was indicated that the union wanted union security, double pay for Saturday holidays worked, and parity of wages as between the Ontario and Nova Scotia plants.

On the chief issue, wage rates, the union was aggressive to 12½ cents hourly increase provided it was accompanied by agreement on holiday pay and wage parity. The company opposed the government's formula of increases between 11 and 12½ cents on the grounds this formula was in general terms.

Hilton's statement last night said that on union security, Stelco was willing to institute a voluntary check-off system for workers who desire it, providing that a

Car Industry Still Snarled By Walkouts

Dealers and Manufacturers Declare Situation Will Become Worse Before It Gets Better in Automobile Production.

Toronto, Sept. 14.—(AP)—Strikes—big and little, Canadian and American—have so fouled up the automobile industry that dealers and manufacturers are sure of only one thing—the situation will become worse before it gets better.

Demand for new cars is still high. John L. Stewart, general manager of the Canadian Automobile Chamber of Commerce, says you can only guess at that.

Abandoning of the priority system for new cars Aug. 1 saw a huge increase in orders.

But in many, many cases people have placed orders with perhaps four different dealers because they're willing to take the first thing that offers," said Mr. Stewart.

The basic steel strike, now almost nine weeks old, and the rubber strike which started in mid-June, have crippled production at a time when manufacturers and would-be purchasers alike hoped the car shortage would be a thing of the past.

In Chatham, Ont., and Windsor, Ont., the Chrysler Corporation plants have been strikebound since June 18 by the United Automobile Workers (C.I.O.) demanding shorter hours and bigger wages.

At General Motors in Oshawa, Ont., the assembly line has been stopped, started, slowed down. As long as the steel strike continues the situation is expected to remain static.

Production at Ford of Canada in Windsor, Ont., has been cut by at least two-fifths by the steel and rubber shortages. The huge plants are in operation only three days a week.

Meanwhile, cars driven steadily throughout the war, when parts were almost unobtainable, are spitting rust to the junk heaps. The mortality of old models is expected to exceed new production for many months to come.

Sears' Statement Admitted At Trial

Windsor, Ont., Sept. 14.—(AP)—Mr. Justice Daiton Wells ruled today that statements given to police by Ronald George Sears, 18-year-old "slasher," were admissible in his trial for the knife-murder of Sgt. Hugh Blackwood Price.

The decision came after two days of testimony by police and Sears himself with the Supreme Court jury absent.

MANY SCHOOLS TO OPEN DOORS MONDAY NEXT

Hundreds of youngsters attending schools which fall under the jurisdiction of the Protestant School Board have already commenced classes after an opening delay of one week agreed upon by the commissioners because of the polio cases, but pupils of the local Roman Catholic Schools will not report for registration until September 16.

The opening of the Protestant Schools was delayed one week at the request of both municipal and provincial health authorities, but the Catholic Schools postponed opening for two weeks. Ordinarily all schools in this district open on the first Monday following Labor Day, but this year, due to the numerous cases of infantile paralysis, schools in this city and many others across the Dominion postponed opening dates one week and more as a precautionary measure against the disease.

The four local Protestant Schools as well as the Lennoxville High School and the Ascot Consolidated School opened their doors last Monday, September 9th.

The University of Bishop's College, which normally commences its fall semester on the 12th or 13th of September, likewise postponed opening a week this year. Registration will be taken this Monday and lectures will commence on Thursday.

ROOMS ARE SOUGHT FOR E.T. VETERANS

Widespread interest among veterans has been shown in the rehabilitation school being operated in Sherbrooke under the direction of Jean-Marie Lajeunesse and already a good number of vets have availed themselves of the opportunity offered them to learn some useful trade.

It was stated today that some fifty veterans from the district will be taken in during the near future, and Jean-Marie Robichaud, manager of the local tourist bureau, has been asked to scout around for room and board for these men. Mr. Robichaud stated to a Record representative that he has been able to find only about ten places, and he would appreciate anyone having rooms to rent for this purpose to get in touch with him at once.

The school is serving a very useful purpose by providing veterans who had no trade prior to enlistment with knowledge and training in many lines, including motor mechanics, welding, electricity bench, radio servicing, rural repair shop, machinists and the building trades.

The St. Charles Seminary, the Normal School and the Jesus Marie School do not come within the jurisdiction of the local Catholic School Board, these four institutions fell in line with other Catholic Schools and will open on Monday.

AIR SHOW TO BE PRESENTED AT WATERLOO

Waterloo, Sept. 14.—With the trend of the times focusing on air transportation, much interest centres on the big Air Show scheduled for the Waterloo Exhibition Grounds on Sunday afternoon, September 15th.

Plans call for several of the new planes to be on the grounds, providing spectators with the thrill of aerial acrobatics, stunt flying, speed flying and other aerial exhibitions. Throughout the show passenger flying will also be a big feature, with the public afforded an opportunity to take a ride in some of the new planes, seeing the breathtaking beauty of the Eastern Townships' lakes and hills, and the surrounding towns, from the air, in all the brilliant fall colors.

As an added feature to the Air Show on Sunday the organizers have arranged for some of the finest stage attractions available to appear on the grandstand stage during the afternoon program.

Highlighting the stage acts will be the Brown Bombers, an all-colored seven-piece band from Chicago, who will play for the other acts and provide several enjoyable vaudeville numbers themselves.

Other acts will include Marcel the fire-eater; Boze, the daredevil of the air, performing on the high pole; a Chinese contortionist, and, for local interest, a greased pig catch, which should provide many laughs.

Several of the best flyers will be on hand to pilot the planes, during the big Air Show, which promises to be one of the most outstanding attractions yet presented in Waterloo.

ADDITIONAL SPORT NEWS BILL DICKEY REPLACED BY JOHNNY NEUN

Detroit, Sept. 14.—(AP)—In a move that followed sharply on the heels of Bill Dickey's statement that he was not interested in continuing as manager of New York Yankees next year, president Larry Macphail yesterday grabbed the reins and handed them to coach Johnny Neun, installing him as manager to finish out the season.

Dickey's removal after four stormy months as successor to Joe McCarthy was prompted, Macphail said in a statement issued in New York, by the "unfortunate manner and timing of Dickey's announcement, coming as it did on the eve of an important series with Detroit."

As Neun, 46-year-old managerial graduate of the Yankee farm system, took immediate charge of the club in its fight with Detroit for second place, Dickey's plans remained uncertain.

Stanley (Bucky) Harris, newly-appointed Yankee executive who joined the club here Thursday, said Dickey had left the team and probably would return to New York City.

In the climax of a row that began when Dickey demanded a show-down regarding his status in 1947, Macphail said in his statement that in view of the second-place battle with Detroit "I believe it best that Dickey not continue as manager of the club for the remainder of the season."

Macphail's statement also declared that Dickey had been told "that no decisions would be made (regarding his 1947 status) until after the close of this season."

The Yanks tumbled into third place this week after running second to Boston since August 3.

Dickey had said that he was relinquishing the managerial post for "personal reasons" and added without explanation "If Macphail didn't want me back, I didn't want to be back."

Neun did not reveal whether his elevation to the managerial job would go beyond this season.

Lantigen Has Research Laboratory In Montreal

Lantigen Laboratories announce the opening of an affiliated company, The Montreal Research Laboratories, situated in the new development for industrial sites in the suburbs of Montreal, the Town of Mount Royal. An entire floor in a new building now being completed is occupied by the company.

Always desirous of leading the field in the research of the antigens and vaccines, the new laboratory will be under the personal supervision of the medical director of the company. He will be assisted by two graduate bacteriologists. Equipment of the most modern type has been installed.

Dr. Valmore Olivier, a local dentist, was the winner of the new automobile drawn for by the Sherbrooke Junior Chamber of Commerce with ticket No. 12772. The drawing was made at the market place last evening by Mayor Guy Bryant and the winner was announced by Canon Napoleon Coderre.

TO GIVE ADDRESS

Of special interest to all farmers intending to exhibit at the Sherbrooke Winter Fair will be an address over CKTS at one o'clock Monday afternoon, September 16, when W. G. MacDougall, regional agriculturalist, will outline some important facts about exhibiting. Mr. MacDougall will be giving the Sherbrooke agricultural news over the air at the same time.

WEST SHEFFORD

Mr. and Mrs. William Phillips, after several years spent in West Shefford, where they played a prominent part in the community life, have recently moved into what is known as the Irish neighborhood. The best wishes of their many friends accompany them.

Mr. and Mrs. N. J. Craft, of Newport, Vt., accompanied by their children spent a day with Mr. and Mrs. Raymond Cabana and Miss Roberta. Mr. Craft has just returned from a business trip to the Hawaiian Islands.

Mrs. Burns, daughter of the late Mr. M. C. Lawrence and Mrs. Lawrence, who accompanied by her four children, spent several weeks with her sister, Mrs. Clifford Matthews, has returned to Toronto, Ont.

Mrs. Boynton, of Lawrence, Mass., spent several days with her step-daughter, Mrs. Raymond Cabana.

Mrs. Blake has made several short business trips to Foster and Waterloo.

Mr. John Mallette, son of Mr. J. A. and Mrs. Mallette recently won a scholarship the gift of the Air Cadets and is at present pursuing preparatory work in Montreal. John's many friends congratulate him on winning the scholarship.

Mrs. Guilmette spent a day with her brother, Luc, and Mrs. Marchessault.

Since coming to Shefford from Mansonville early in May, Sergeant Raymond Cabana, has developed a splendid business, specializing in restaurant work, which for efficiency, and courteous service merits the approval of many well-wishers.

Mr. and Mrs. Martial Pochin have returned from their honeymoon spent at Niagara Falls, Ont., Detroit, Mich., and other points of interest covering more than 2,000 miles. Sheffordians extend a hearty welcome to this popular young couple and join in wishing them a happy future.

Mr. and Mrs. J. P. McMahon and Mr. and Mrs. Arthur Dunn were among those who attended the silver wedding anniversary in Granby, of Mr. and Mrs. Edward McDonald.

Miss Thora Durrell, of Foster, spent several days here with Mr. and Mrs. Miles Enright, and her cousin, Wayne.

Mrs. Albert Collyer has been in Granby several times attending parties in honor of her niece, Miss Isabelle Bradford, R.N.

It was with deep regret that many of Mr. Kenneth Milmore's friends heard of his death in a Montreal hospital. For years he was connected with the local telephone company and his efficient, obligating and pleasant manner won many friends. In the various communities, where he lived Mr. Milmore identified himself with the work of the churches, schools, doing all he could as a citizen. His funeral took place at Sutton with Archdeacon Charters officiating, on Saturday, September 7. For some time Mr. Milmore was a warder of Historic Grace Church, Sutton.

Local Regiment Reorganized As Armoured Unit Planning For Active Training Season

Every year at about this time—at least since 1867 when the regiment was first mobilized—the call goes out for fall training of the Sherbrooke Regiment, now the 12th Armoured Regiment (Tank) (Sher. Regt.).

Lt.-Col. John Blue, E.D., Commanding Officer of the Sherbrooke Regiment.

As previously reported, the Sherbrooke Regiment has been converted into an armoured tank regiment and this conversion will necessitate all officers and N.C.O.'s, with the exception of those who served with the armoured corps during World War II, taking a short course to qualify for their present rank in the new

branch of the service. This special conversion course is starting at the regiment headquarters at the William Street Armoury on Tuesday, September 17, and each Tuesday and Thursday thereafter up to October 10. The short course will be under the supervision of Major F. H. Baldwin and other officers who saw service overseas with the Sherbrooke Fusiliers (Tank) Regiment.

Plans have been completed for the first regimental parade to be held on Tuesday, October 1, when the assessment of individuals will be made, uniforms and equipment issued and new squadrons organized.

A well-organized and interesting training program has been prepared for Tuesday and/or Thursday evenings throughout the fall and winter months, with special attention being given to small arms, gunnery, wireless, tank and armoured vehicle driving and maintenance.

Recreational activities also form an important part of the program for the year with indoor football, basketball, bowling, badminton and Saturday night dances included on the schedule.

Although numerous veterans of the last war have already joined up, it is hoped that all veterans, regardless of what branches of the service they served in, as well as all young men of this city and district will become members of the regiment.

Transportation for recruits will

be paid by the regiment. All personnel will receive full army pay according to their rank with extra pay going to those who are or can qualify as, tradesmen in the many vacancies existing for specialists in an armoured regiment. Recruits will be interviewed at the orderly room of the William Street Armoury any Tuesday or Thursday evening from now on and it is expected that many young men will take advantage of this opportunity to join this well-known regiment where they will learn a trade while receiving remuneration.

The regiment is under the command of Lt.-Col. John Blue, E.D., with Major F. H. Baldwin as second in command. The squadron commanders are Majors E. W. L. Arnold, Norman H. Welsh, Joe H. Gilbert and Earl Hall.

Major Paul Brennan, M.C., is the A. and T. officer attached to the regiment.

FIRE DEPT. IS PRAISED FOR ITS GOOD WORK

Directors of the S. Rubin Co. local clothing manufacturers, today lauded the Sherbrooke Fire Department, which was called to one of their warehouses in the early hours of July 29, to fight a blaze that had started in the building.

"Were it not for the presence of mind of Chief Donahue and his department," the letter stated, "we would have sustained a far more serious loss with irreparable consequences to the City of Sherbrooke."

"We as citizens of Sherbrooke," the letter continued, "take this opportunity of paying tribute to our splendid fire and police departments."

MISSION WORK AMONG ZULUS IS DESCRIBED

Following one of the series of Young People's meetings held by Alfred Gibbs, of Chicago, at Grace Chapel, those present Wednesday evening were privileged to hear from his brother, Edwin S. Gibbs, a missionary to South Africa presently on furlough in this country.

With the aid of a large map, and a vivid description of conditions on his mission field in the southern section of Natal, Gibbs took his audience there in imagination. For a brief hour, he was among the grass and mud huts of the natives who inhabit that part of Africa, and learned of the primitive conditions under which the people of the Zulu tribe live.

Stressing the need of more hospitals staffed with Christian doctors and nurses, as well as other benefits of Western civilization, Mr. Gibbs outlined the need of a church service at which the pastor delivered a ringing missionary sermon. He came down among the congregation at its close, and singing her out, took her by the shoulders, and told her to get going for God. Suing the action to the word, he gave her a strong push towards the rear exit. Sensing the voice of God speaking to her through that man, she attended Bible College, ending up years later in Swaziland, adjoining Natal in South Africa, as a missionary. Still not fluent in the native language, she invited some British soldiers stationed nearby to her home for tea. Among those who came was a Major Albany, who, during his conversations with her, saw his need, and accepted Jesus Christ as his personal Saviour and Lord. As General Albany, he later became one of the outstanding military figures of World War I.

After the war, he was posted as instructor to a Military College in England, where, during the Bible classes which he held for the men training under him, one by the name of Montgomery came to a like saving knowledge of Jesus Christ. He, in turn, played a key role in World War II, inspiring confidence among his troops, and leading them to victory in North Africa and Europe. Today, as Lord Montgomery of El Alamein, he has become one of the legendary heroes of the last great conflict.

Mr. Gibbs' address was listened to with rapt attention throughout, and, as he spoke of the various workers and situations in his chosen field, he asked for the continued support of the missionary effort there by constant prayer, with each one of his audience willing to play the part God showed them, to further His work.

Major F. H. Baldwin, second in command of the Sherbrooke Regiment.

FILM LIBRARY PROVIDED BY TRADE GROUPS

In order to promote visual education through films, the local Chamber of Commerce and the Coaticook Board of Trade (jr.), after many months of preparation, today announced that a free film library and a voluntary projection service are now in operation.

The film library is at the Board of Trade office in the Quebec Central Building, Wellington Street North, Sherbrooke. There are about 150 "talkies" at the free disposal of projector owners. To book them, parties interested may write or phone to the Board of Trade office. They must, however, pay express charges. New films are added every month.

Furthermore, the Sherbrooke Chambers and the Coaticook Junior Chamber of Commerce are placing at the free disposal of churches, hospitals, schools, societies, clubs, etc., voluntary projectionists with projector and films. It is understood that these showings are educational and admission must be free.

Those interested may contact the Board of Trade office in Sherbrooke. In Coaticook, Jean Lincoirt, president of the Junior Chamber of Commerce, is responsible for free movie service.

Visit To Local Jail Reveals Cleanliness And Discipline

By FRED KAUFMAN

"Stone walls do not a prison make, nor iron bars a cage," yet those two things are very much in evidence at the local jail on Winter Street, where the criminals of the district of St. Francis spend up to twenty-three months at a time. Directly behind the Sherbrooke Regiment Armoury, the jail was built almost a century ago and hundreds of convicts have passed through the steel doors that separate a world of freedom from a world of seclusion.

After obtaining permission from the local Sheriff to visit the premises, Governor J. A. Charest did the time and a grand total of twenty-five men were taken to the jail to guide us through the many corridors, halls, stairways and rooms until we were able to form a good picture of what life behind the bars is like.

On the day of the visit, the jail housed twenty-four men and four women, serving terms varying in length from a few days to twenty-three months, maximum sentence that can be served in Sherbrooke.

All sentenced men and women are served in the St. Vincent de Paul penitentiary in Montreal, where prisoners get a chance to work, a thing which they miss in this town.

There are three main divisions in the Sherbrooke jail, one for women, one for juveniles from seventeen to twenty-one and the last section, the North wing, for male prisoners over twenty-one. Women are looked after by two matrons and their quarters are directly above the jailer's office. Maximum capacity in that part is eight, but at times more than that number have been housed in that wing and beds had to be put in the hallways.

Every prisoner sentenced to a term in jail is fingerprinted and photographed immediately after his entry and records are kept of all inmates, past and present. In previous years everybody, including suspects held for examination, underwent this procedure, but this has been discontinued since it was felt that a man or woman who is only under suspicion does not deserve to be treated like a criminal until convicted.

Within twenty-four hours after their appearance in jail, convicted prisoners are given a set of clothes and their own wearing apparel is cleaned and stored for the "duration" until convicted.

Once a week, on Fridays, inmates are led to a shower room in the basement, where they are obliged to clean themselves thoroughly and a change of cloths is provided for them after the bath. Only the infirm have a bath tub and this is considered quite a luxury.

It is now the general rule that all prisoners are locked up over night in their narrow cells, some of which are just wide enough to contain a bed with no spaces left on either side. Mattresses, incidentally, are again only found in the infirmary, all other beds contain straw cots. Years ago it was customary to put two prisoners in the same cell, but this practice has been discontinued and according to a directive from the provincial government, under whose jurisdiction all penal institutions in single confinement or in cells large enough to accommodate at least three.

E.T. CLERGYMAN SECRETARY OF CHURCH GROUP

Montreal, Sept. 14.—(C)—Rev. D. T. L. Forsyth of Waterloo, Que., was appointed secretary of the Board of Christian Education of the United Church of Canada, during proceedings of the church's 12th general council at Eskine-American United Church yesterday. He succeeds Dr. C. A. Myers, of Toronto, who has retired.

Rev. George Dorey, Toronto, acting secretary of the Board of Home Missions, was confirmed in that position, and as permanent secretary succeeds the late Dr. R. B. Cochrane of Toronto, who died last year.

A proposal that a fulltime secretary be named to the Board of Colleges and Secondary Schools was adopted by the council and the matter of choosing a candidate was referred to a sessional committee. This question came up while the committee on vacancies was considering a successor to the late Dr. W. H. Sedgewick of Toronto, who held the post of chairman of the board.

Dr. George W. Barker of Toronto has been part-time secretary since the death of Dr. Sedgewick. Appointment of a successor to Dr. J. C. Cochrane as secretary of the Department of Pensions was deferred to a later session. Dr. Cochrane resigned this spring for reasons of health and his resignation was accepted at a previous council session.

APPOINTMENT ANNOUNCED

Friends in this district will be interested to learn of the appointment of Dr. H. E. McKenna as regional organizing dental public health director of the Province of Saskatchewan, which was announced today. Dr. McKenna, a former governor on the Board of Dental Surgeons and member of the Canadian Dental Association, will aid in the formation of provincial dental public health services program in Saskatchewan, and will leave sometime next month to assume his new duties.

IMPORTANCE OF DRAINAGE AND PLOWING NOTED

Another in a series of radio talks about agricultural topics was given Thursday by W. S. Richardson, assistant superintendent of the Lennoxville Experimental Station. These talks are sponsored by the agronomes of the Sherbrooke area in co-operation with the Quebec Provincial Information Service.

Mr. Richardson chose as his last topic "Drainage and Plowing" two allied subjects and he explained the various methods to produce good crops.

"What effect has water on the soil?" asked Mr. Richardson. "We know that without water plants cannot grow, but too much water is also very detrimental to most plants. In the soil there are three kinds of water. First, the water which is contained in the cell structure. This is very closely guarded by the cells and is not available for plant growth. Second, is the water which is held as a thin film around the soil particles. This is the water on which the plant lives. Third, there is the free water which at times fills all the spaces between the soil particles and excludes the air. This free water acts almost like a poison to plants and keeps a soil cold. It is this free water which we try to remove by drainage."

"In preparing to put in drains of any type," the speaker continued, "the first and an important point is to be sure of an outlet. In some cases, especially on flat land this may require agreement and co-operation among a number of neighbors. Large open ditches are generally used as outlets or where the amount of water to be carried is too great for tile. In ordinary land drainage, the common sized tile are 4, 5 and 6 inches in diameter. Occasionally 8-inch tile is used as a collector from a number of mains. Three-inch tile are sometimes used but when we consider that four inch tile have in practice twice the capacity and do not fill with silt anywhere near as fast, it is generally considered advisable to use the four inch size."

"What constitutes good plowing?" Mr. Richardson continued. "It should be a uniform depth and width. The furrow slice should be turned so that all grass is covered. Straight plowing is not necessarily good plowing, but if a uniform depth and width of slices are maintained, it follows that the plowing is also straight. In order to be sure that all grass is covered, use a skimmer and be sure that it is adjusted properly. It is easy to pick out the land on which a skimmer was used, especially if it is wet in the spring and there is delay in getting the land worked. Where the plowing was done without a skimmer, the grass gets a good start between the furrows and it is much more difficult to work into a good seed-bed. Finish off the ridge and see that the dead furrows will act as surface drains as mentioned earlier. On hilly land plowing should be done across the slope rather than up and down, in order to prevent erosion."

"In conclusion, let me urge all farmers to clean their ditches and, where possible, get the plowing finished before freeze-up."

Municipal Booklet Wins High Praise From "Listening Post"

Sherbrooke's new municipal booklet illustrated with photographs and reading matter "designed to interest prospective manufacturers and visitors" to this city is gaining recognition as one of the finest publications of its kind. In addition to several congratulatory letters which have been received at the City Hall commenting on the layout and idea behind the booklet, The Listening Post, a monthly pamphlet published by the Canadian Federation of Mayors and Municipalities, has featured on the front page of this month's issue a condensation of the booklet along with a photograph giving a view of the city upon which is superimposed the City of Sherbrooke crest and the words, "Sherbrooke the Queen City of the Eastern Townships."

The pamphlet, a digest of municipal news published in the interests of local government in Canada, has a Dominion-wide circulation and reaches the desk of every city across Canada. The publicity given the municipal booklet in this respect alone should, therefore, bring a good deal of satisfaction to the City Fathers and enhance the reputation of the City of Sherbrooke throughout Canada.

Commenting on the booklet, The Listening Post states: "The booklet contains some excellent photographs, with attractively placed and informative reading matter on the various aspects of life in Sherbrooke."

Four full paragraphs on the city's potential resources, population, taxation, present industries, education, etc., are contained in a write-up beneath the photograph on the pamphlet and give readers a clean-cut picture of the overall statistics of the city.

Recently City Clerk Antonio Deslauriers received letters from municipal officials in other cities in the province commenting favorably on the booklet and stating that they had suggested publication of similar booklets in their respective municipalities.

J. O. Asselin, president of the executive committee of the City of Montreal had high praise for the booklet, Leon Trepanier, of the Three Rivers Chamber of Commerce, commented on the booklet from the illustrative point of view and M. G. Coulter, Mayor of Winnipeg, was particularly interested in the statistics which the booklet contained. These, in addition to many others, found the booklet replete with all the necessary details to publicize the City of Sherbrooke favorably to the rest of the Dominion.

The booklet was distributed to every principal city in Canada as well as to many cities in the New England States.

"Sandwich Man" Has Made His Reappearance

After a prolonged absence from the streets of Sherbrooke, the sandwich-board man has made his reappearance. Like so many other things, he fell victim to the manpower shortage during the war years and, once familiar sight at a corner, watching the world go by. The active man, however, has to make use of mass psychology—provided he wants to be a success in his profession.

His board bears a message which is supposedly irresistible to the passer-by. It is so full of promise, so enticingly worded and so important sounding that, no matter what his or her previous course might have been the victim—in this case the innocent passer-by—will turn around and follow the man with the sandwich-board.

For instance if you are hungry and you walk the streets for at least half an hour in search of a restaurant with an empty table, and you suddenly encounter a man with a sign saying "Eat at Joe's," you will naturally be tempted to ask him where Joe's place is. Or, as some progressive advertising agencies have already done, the sign which hides the man may say "Follow me, and you won't regret it." When this is the case, the human sandwich (this has nothing to do with cannibalism) has to use his knowledge of psychology to impress the message inscribed upon him on as many people as possible and also, at the same time, lead them on a direct route to Joe's.

But the problem of sandwich-board advertising is more complex. We have to consider the man. First of all he has to be patient, secondly he has to get used to being continually stared at, for if people would pay no attention to him, he might as well spend his time elsewhere than between two wooden or cardboard boards and, thirdly, he must get used to the fact that he can't sit down during working hours—unless some bright inventor designs a collapsible sandwich-board, and this isn't very likely.

It is the last point that is hard to get used to. Everybody likes to take a rest once in a while, even a sandwich-board man and he is therefore with deep concern for this trade, that we humbly suggest to him: Ask any horse how it can sleep while standing up and then do the same.

Three consecutive Want Ads may be inserted for \$1.25.

It is much more difficult to work into a good seed-bed. Finish off the ridge and see that the dead furrows will act as surface drains as mentioned earlier. On hilly land plowing should be done across the slope rather than up and down, in order to prevent erosion.

LENOXVILLE AND ST. PAT'S SCOUTS BACK

Scouts of the First Lennoxville and the Tenth Sherbrooke (St. Pat's) troops recently returned after attending their annual summer camp on Lake Memphremagog near Georgeville. The Sherbrooke Scouts were the guests of the Lennoxville troop, who had invited them after it was learned that the St. Pat's scoutmaster was unable to take his boy.

J. A. McKindsey, Lennoxville scoutmaster, was assisted by "Les" Marshall, of the sixth Sherbrooke Scotch Troop and A. S. John McDonough and Laurier Lapierre looked after the St. Pat's contingent.

Highlight of the camp was a trip across the Lake to Owl's Head Mountain, but bad weather spoiled part of the excursion. Other hikes included a cross country trek through the thick bush to Lovering Lake and trips to Lord's Island.

Church services were held each Sunday morning. Father Moisan and Father Tierney said mass for the Catholic boys, while Rev. Elton Scott and Rev. N. McLeod, both of Lennoxville, conducted the Protestant services.

Among the visitors to the camp were Brother Berchmans, of St. Pat's, Earl Turner, scoutmaster of the St. Peter's Troop and Douglas Racey, District Scoutmaster.

THE BATTLE OF BRITAIN

The observance tomorrow of the sixth anniversary of the Battle of Britain is a fitting tribute to that small but noble band of men who saved not only Britain but the entire civilized world from being overrun by the hordes of darkness. Had the "thin blue line" failed in this engagement which culminated on September 15 with the destruction of 187 Nazi aircraft over the British Isles, a Nazi invasion would have been sure to follow. With the British army virtually helpless as the result of the costly Battle of Flanders, the outcome can be easily pictured. The German occupation of the British Isles, the seizure of the Royal Navy, however, would have been but steps in the even greater Hitlerite ambition—the conquest of the world.

At that time the democracies across the seas were in a state of tragic unpreparedness, the mighty armament programs being then merely registered in parliamentary appropriations or at the best on the drawing boards of the industrial plants. The breaking of the back of the Luftwaffe on September 15, 1940, gave them time to organize the flow of men and materiel that increased to such a volume that the ultimate defeat of the enemy was assured.

Some idea of the critical position the Royal Air Force found itself in is revealed by a statement by Air Chief Marshal Lord Dowding, who planned Britain's defence in the days of the air blitz, that only seven hundred British fighters, many too slow to catch the German bombers stood between Hitler and victory. Yet this noble band were able to meet the best the Luftwaffe could throw against them. British strategy called for the limited defence of anything but the most strategic positions, the general idea being to conserve the fighting plane power to the greatest possible extent. By effectively carrying out this policy, the Royal Air Force was able to husband its reserves so that the Nazis never gained the control of the air required to permit a seaborne invasion.

September 15 has not been officially proclaimed as a day of remembrance but the spontaneous services of thanksgiving which are taking place throughout the Empire offer even greater proof of the appreciation felt by the people than could any fixed celebration.

THE STOCK MARKET SLUMP

Various reasons have been advanced for the current decline in stock prices which has resulted in billions of dollars being wiped from the values of issues listed on the various stock exchanges. One of these is given by Rep. Adolph Sabath of Illinois who claims short-selling manipulated by professionals was essentially the reason and that the big boys pulled a fast one for both monetary and political profit.

Mr. Sabath declares: "I can see no reason for this week's break. . . Production is at an all-time high, employment is at the highest peacetime figure in history, and government and private agencies have reported nothing to indicate that stock quotations. . . were out of line. There must, therefore, be a political motive behind this raid on the market."

The venerable legislator must be given commiseration or congratulation if he sees no cloud on the economic horizon which might be reflected in the attitude of investors. He puts great faith in general statistics. Production is high and employment is high. But what of the quality and prices of the articles produced, and how steady and fruitful is the output of the statistically employed? What about the recurrent outbreak of national strikes? What about the black markets which add prohibitive costs to prices already high? What about the disturbing international situation? Should not these and other economic ills have a place alongside Mr. Sabath's cheerful statistics? Are not they possibly legitimate cause for business' concern?

He might even ponder the explanation of the market slump given by Joseph Frazer, president of Kaiser-Frazer, even if he rejects the solution as prejudiced and political.

"Big business and little business are bogged

down with government red tape," says Mr. Frazer, "thousands of rules, regulations, reports to make and questionnaires to fill out. The little businessman is spending so much of his time reporting to various government bureaus that he doesn't have time to run his business and produce or sell his merchandise. . . Our economy cannot exist half planned and half free."

This may be exaggerating the importance of government planning in the present chaotic state of business, but Mr. Frazer has repeated a frequent complaint which cannot be ruled out entirely in a survey to the possible causes why business suddenly went stone cold dead in the market.

AN INTERESTING SCHEME

Road engineers and municipal officials will watch with keen interest the shelter belt program now being undertaken in Waterloo County, Ontario, which will provide a ten-to-twelve rod windbreak of trees for every stretch of road that blocks in blizzards. While the main purpose of the scheme is to reduce the cost of winter road maintenance and reduce the danger of blockades, it will have important secondary results.

The first, of course, is the improvement of the appearance of the highways, the wooded areas doing much to relieve the barrenness which features too many of the heavily travelled routes at the present time. Also the trees should provide important shade for the drivers and cut down the accident rate caused by strain from driving in excessive sun.

Even more important, however, is the improvement in soil conditions which is bound to result, as these wooded areas will to a degree restore the country's biological balance between agricultural land and forest. The trees will serve to retain much of the moisture now lost by evaporation and in this manner will cut down the dangers of excessive drought. This latter factor is apparently appreciated by the farmers in the Kitchener area, which is located in Waterloo County, who are reported as actively co-operating with the County officials in deeding the land strips required at a fair and reasonable figure.

The general adoption of the Waterloo County plan throughout Eastern Canada should result in a material improvement in the general conditions in the rural areas.

NAVY OUTMANOEUVERS ARMY

On the surface, the battle between the Army and Navy over their merger into one department has been very quiet lately. But behind the scenes a war of nerves is raging between them. Several significant new developments have arisen since President Truman ordered the two services to reconcile their differences on how the merger should be accomplished.

It looks now as though the Navy has the upper hand on the Army. The issue probably won't flare into the open until Congress reconvenes. At that time Sen. Elbert D. Thomas is expected to introduce his bill, which covers the Army's side of the dispute and which is so obnoxious to the Navy.

But when the congressional reorganization is put into effect—unless it is sabotaged by inaction—the Military and Naval Affairs committees will be merged. This, according to present plans, will remove Thomas as chairman of the Military Affairs Committee.

If the Senate is Democratic, either David I. Walsh of Massachusetts or Millard E. Tydings of Maryland, the top men of the Naval Affairs Committee, will become head of the combined committee, on the basis of seniority. If the Senate should be Republican, one of three senators who favor the Navy's side of the argument will become head of the committee.

The Army hadn't counted on this deal of the cards.

ARMY AIRMEN HAVE SOURED ON MERGER PLAN

On top of that, one of the most surprising developments has been the change of attitude on the part of many top Army Air Force officials. It was the Air Force which kept a lot of the fire burning under the merger idea in the first place. The younger men in the AAF wanted to get out from under the stodgy yoke of the War Department. The merger, which would put them on an equal basis with the Navy and ground forces in the new Department of National Defense, would give them the independence they wanted.

But now, it is reliably reported, the Air Force, in some quarters, has soured on the whole plan. Several reasons are offered for this change.

The officers concerned might think there is a chance of the Air Force's becoming a separate department in itself. It is possible they don't like certain compromises the Navy has won from the original merger plan.

The Navy licked the Army over having a single chief of staff, as far as President Truman goes. At first he was all for the single chief of staff idea.

NAVY FEARS MERGER WOULD MEAN ARMY RULE

The second key issue on the merger is the method of achieving the combination. Navy officials feel that any legislation setting up the new Department of National Defense should spell out specifically just what the administrative setup would be. Unless this is done, they say, the result would be a haphazard arrangement of functions, with the Army usually getting its way in any dispute.

All during the dispute the Navy has agreed that some combination of the two services would make America's national defense stronger. But the Navy's objection to a quick throwing-together of the two fighting forces was generally interpreted as a basic objection to the whole idea. The Navy was slow to explain its position clearly, while the Air Force and the War Department were putting out bales of propaganda for their side.

Another point the Navy feels should be explored before a law is passed combining the services is just how much of the merger can be effected by administrative order of the President.

But, as an ace in the hole, if Thomas succeeds in introducing a bill of his own prepared for introduction, one which is believed would get by more easily than the Truman measure.

'COMON, FELLAS! LET'S CONCENTRATE ON WORL D PEACE!

Ye Olde School Bell!

By REV. B. S. MURRAY, M.A.

Throughout Canada these days that old school bell recalls memories as it rings. Memories of days that once were. Poets speak of them as golden rule days. I wonder! However, this is the time of the year when our youth creep like snails unwilling to school. And those at home reflect on Education.

Shocking is it when we discover that cigarettes, narcotics and alcoholic beverages receive from their sale more than twice as much money as that devoted to Education. Imagine people in 1946 advocating and permitting such a low value on education and then wistfully chattering about a new deal, a new era, a new day. Surely a civilization with such a faulty sense of values is headed for disaster. Will you determine to change all this so that your Youth shall, to borrow Isaiah's words, be called "Trees of Righteousness" (Is. 61:3), the planting of the Lord that he might be glorified?

Too long have we regarded Education merely in terms of developing and training the mental powers. It is much more than that. An intellectual training fits one to do more, but does not determine the moral character of what he does. Today we need to heed Isaiah's words: "All thy children shall be taught of Jehovah; and great shall be the peace of thy children." (Is. 54:13). Without the best of books, the Bible, functioning in our school training we shall develop a materialistic, unbelieving, immoral, selfish and hard generation which will eventually reduce Canada's greatness and our light will go out in darkness.

There seems to be one way. Plant Men! Listen to the call of that vast rich country. The Christian Frontier, which has been sadly neglected in the mad rush for things. Pioneer days are not over; they are only beginning in the spiritual realm. There is much undiscovered territory in the realm of the intellect. Begin then today a new journey of exploration into the land of human hearts. A thrilling adventure awaits. Launch out now, remembering that, as the Chinese say, if you are going to plan for one year, plant grain; if you are going to plan for ten years, plant trees; if you are going to

plan for a hundred years, plant men. That's the surest way of discovering a new world wherein the Four Freedoms will function effectively.

OUR TEACHERS: GOD BLESS THEM!

Each year a new voyage of exploration begins when the old school bell rings. From Grade I to Grade VII is the first phase; from Grade VIII to XI and XII is the second phase. Our guides? Our teachers. What an incalculable debt we owe them! I salute you who teach for you are walking in the footsteps of The Teacher, Christ. At your touch doors may open into fuller light, thoughts may stretch out into fuller ideals, and vague desires become realities, if you do truly lead. And yet, if you lead amiss, you may also close doors, kill thoughts, and thwart lives. A teacher, therefore, must be good and true, consecrated and faithful, daily imitating and absorbing the principles of Christ. Then will children, "catching" the beauty of their teacher's life, live the abundant life. Our only hope then lies in Christian education. Let us see to it that Canadian children have that. And I am most anxious that every available opportunity shall be theirs for the finest education possible. On to college then if possible! Truth is a vast sea demanding persevering voyagers.

THE UNIVERSITY OF BISHOP'S COLLEGE

In the Eastern Townships we are proud of our university which has for 101 years been flowing, carrying Truth and challenging those who contact her waters to drink deeply therefrom. Jesus, you observe in the Gospels, never speaks about knowledge and wisdom but He does stress Truth. To Him it is a deep word involving character. To develop men of truth Bishop's stands; truth that has been pressed down into character which in turn possesses individuals. Of course the end of all true education is service; it is no selfish luxury—its end and purpose is to equip us for service. Over the gates of Harvard University are the words: "Enter and grow in wisdom" and "Depart and serve your

country and your kindred." To which we add, the world for science has made the world a neighborhood; we must make it a brotherhood. Know the truth then, "How" to think is the democratic way. So go forward, ye who are privileged to weigh and consider Truth, ever remembering that learning is not a badge of distinction, a degree is not a sign of superiority—they are both passports to a complete service. Share with others the additional light you have gleaned; it is their oil, too.

So carry on, Bishop's! You have a wonderful location. Untold thousands today rise up, after your course through the years and call you Mother. Feeble we know are their lays but they are sincere. With your growing traditions, your adherence to all that is best in the English system of culture, your alertness to all that is true and abiding in modern research, keeping pace with the needs of Canada, having always as your ultimate end and purpose the training of youth for the highest and most effective service to humanity, we anticipate greater usefulness in glad tomorrows.

After all, Education is like a river. The tributaries of the little red schoolhouse; at the country cross-roads, the intermediate schools, the high schools and private schools all empty into the college or university. They are all part of a pattern; each has its distinctive part to play. And the aim is the same. Ich Dien. I serve.

KNOW SOMETHING AND KNOW IT WELL

Nor am I unmindful of those who have not had the advantage of a thorough education. Times there are when a college may be a place where pebbles are polished and diamonds made dim. But if a man is a diamond he may shine by the light of his own genius. I am convinced that any person who loves knowledge and will find some opportunity for self-improvement. It is good advice to know something and know it well! Is not a man's life measured by his knowledge? Christ said: "This is eternal life, to know God." To know something—to know God. Any man can make himself at home in a realm of knowledge that seems to lie outside of his environment, if he will only resolve to do so. The man who is simply a money-getter does not, in my judgment, represent the highest type of man.

Don't be discouraged. Success is possible for you. Canada needs leaders in happy and prosperous Tomorrows. Be prepared! Stop grumbling. Begin some systematic study, through correspondence or otherwise. Know something and know it well!

THAT YOUR SCHOOL . . .

As the old school bell rings once more calling you to a new journey of exploration I pray that your school may be honored in your heart, lest by careless deed or word you bring upon it reproach; and that being bound to one another in good-will and love, you may be united in praise and prayer, gladly becoming swift to hear and glad to learn of those who teach you His Truth. That old school bell will always awaken memories. Let it challenge you to prepare yourself for citizenship, churchmanship, and all the other "ships" in our loved Dominion.

Listen, ye young, to the clarion arresting tones of that old bell summoning you to "enter and grow in wisdom" and ye, who are graduates, be grateful for the calmness of mind, steadiness of purpose, and enabling friendships both of men and books that education has given you only in trust. It has endeavored to fit you to deal with the affairs of life honestly, intellectually and efficiently. Let that old school bell always say to you: "Go forth and take your place in the work of Canada, the Empire, and the world using the knowledge you have

MARRIAGES

MARSHALL-MUNRO
North Hatley, Sept. 7.—The marriage of Mrs. Dorothy Kezar Munro, daughter of Mr. and Mrs. W. J. Kezar, of North Hatley, to Mr. William Marshall, of Sherbrooke, son of the late Mr. and Mrs. William Marshall, of Adderly, Que., took place Saturday, September 7, 1946, at 11 a. m., in the Rectory of the Universalist Church, North Hatley. Rev. Albert Perry officiated.

The bride was attended by Miss Gertrude Phalan, as bridesmaid. The former wore a powder blue dressmaker suit, navy accessories and a corsage of white carnations. The latter wore a rose colored suit, black accessories and a corsage of sweet peas.

Mr. John Kezar, brother of the bride, acted as best man. The gift to the bride was a gold compact and to the best man a gold cigarette case.

Mrs. Kezar, the bride's mother, wore a dress of black and white silk jersey, black accessories and a corsage bouquet of red roses. A reception followed at the home of the bride's parents, Riverside Inn, North Hatley, where the bride's table was centered with a four tier wedding cake and white tapers and decorated with white carnations.

Mr. and Mrs. Marshall left on their wedding trip to Toronto and Windsor. The bride travelling in her wedding outfit.

Out of town guests included Mr. and Mrs. Fred Cutler, Miss Bertha Cutler, Mr. and Mrs. Don Sanders, Mr. and Mrs. George Crawford and Miss Gertrude Phalan, of Sherbrooke, Mr. Denis Kezar, brother of the bride, and Miss Catharine Cooper, of Beebe, Mr. and Mrs. E. Kezar, of Richmond, and Mrs. Hammond and son, Arthur, of Seagrave, Ont.

Mr. and Mrs. Marshall will reside in Sherbrooke.

McINTYRE-BROWN

The marriage of Edith Agnes, daughter of Mr. and Mrs. Walter Brown, of Lennoxville, to Mr. Donald A. McIntyre, son of Mr. Ethel McIntyre and the late Mr. Elmer McIntyre, of Sherbrooke, took place at St. Andrew's Presbyterian Church, Saturday, August 31st, Rev. E. A. Wright officiating.

The church was decorated with gladioli and hydrangeas. Mr. Wright, W. Gibson presided at the organ and Miss Thema Crawford sang.

The bride, who was given in marriage by her father, wore a gown of ivory satin, having a fitted bodice, long sleeves ending in points over the hands and a full skirt ending in a short train. Her veil of tulle illusion was of fingertip length and she carried a semi-cascade bouquet of pink roses and baby's breath.

Miss Sheila Oman, R.N., as maid-of-honor, wore a blue net and lace gown, a shoulder-length veil, yellow accessories, and carried a semi-cascade bouquet of peach gladioli.

Miss Betty Ann Brown, of Kirkland Lake, was flower girl, and wore a gown of pale pink organdie. She carried a basket of mixed blue and pink flowers.

Mr. J.A.S. Townsend, of Quebec, was best man and the ushers were Mr. Lloyd McIntyre, of Montreal, and Mr. Clifford Brown, of Lennoxville.

The bride's mother wore a dress of black, with black and cerise accessories. Her corsage was of American Beauty roses.

The groom's mother, Mrs. Ethel McIntyre, wore a dress of blue and white print, with black accessories and a corsage of yellow roses.

The reception which followed the ceremony was held at 133 Quebec Street, where a three-tiered wedding cake, Rapture roses and larkspur formed the decorations for the bride's table. Hydrangeas and gladioli were used to decorate the rooms.

Later Mr. and Mrs. McIntyre left for the Laurentians, the bride travelling in an aqua suit, black felt and plastic hat, black plastic accessories and a corsage of peach gladioli.

Out of town guests included Miss Dorothy Brown, R.N., of Montreal West; Mr. and Mrs. Lloyd McIntyre, Miss Marion McIntyre, of Montreal; Mr. Bill McIntyre, of London, Ont.; Mrs. E. Murray, Mr. and Mrs. J. A. S. Townsend and daughter, of Quebec; Mr. and Mrs. Gordon Billings, of Three Rivers; Mr. and Mrs. J. Oman, of Dunham; Mr. A. W. Sykes and Miss Vivian Sykes, of Windsor Mills.

Mr. and Mrs. Cecil Moore and daughter, Miss Joyce Moore, London Street, left this morning for Montreal, where they will attend the Duncan-Moore wedding. They will be the guests of Mr. and Mrs. Gerald Moore, Rosemount, for the week-end.

Mrs. Harry Hunter, of Lennoxville, was in Richmond to attend the funeral of Mr. Sydney Barrie.

Mr. and Mrs. G. H. Carr, of Sherbrooke, are spending a week in Montreal, guests at the Ritz-Carlton.

Miss Adelaide MacRae and Miss Muriel Mardiga left last night to spend two weeks visiting in Springfield, Mass., and New York.

Friends of Miss Roma Bonnalie, Brompton Road, will regret to hear that she is a patient in the Sherbrooke Hospital where she underwent an operation.

Mr. and Mrs. G. A. Thompson, of Lemesurier, and Mr. and Mrs. Murray Nagent, of Kinnear's Mills, were guests of friends in Lennoxville while in town to attend the reception given Mr. and Mrs. Albert Hall Thursday night in honor of the fortieth anniversary of their wedding day.

Col. and Mrs. R. I. Dean and Miss Mary Dean, of Ottawa, are guests of Mrs. P. Pergau, in Lennoxville.

The Friendly Christmas Club was entertained at the home of Mrs. E. Soper, Esplanade Avenue. Cards were played during the evening, and the winners were Mrs. W. Carter, Mrs. Charles McKee and Mrs. J. Fraser. Late refreshments were served by the hostess assisted by Mrs. Webb, Mrs. J. Fraser will entertain the club at their next meeting.

The Women's Auxiliary of Trinity Church met at the home of Mrs. C. Wright on Federal Avenue, Mrs. T. Catcart presided over the meeting. Mrs. H. Moore conducted the devotional exercises. Conventors were appointed to take charge of the banquet to be held in the Trinity tea room September 21. They are Mrs. C. Wright and Mrs. W. Brown. Plans were also made to assist in the centennial supper later in the fall. After the business meeting, refreshments were served by the hostess, assisted by Miss M. Heath and Mrs. O. Williams.

The Women's Guild of the Church of the Advent met at the home of Mrs. S. Bachelier. The president, Mrs. F. Saunders, opened the meeting with prayer. The secretary, Mrs. R. M. Loughheed, read the minutes and Mrs. J. H. Wark read the treasurer's report. Several items of business were discussed. It was decided to hold a bridge party Tuesday evening, September 17, with Mrs. F. Saunders as convener for tables and Miss Fannie Knapp as convener for refreshments. The Christmas tea will be held Tuesday, November 26.

The next meeting will be held at the home of Mrs. J. H. Bryant, Tuesday, October 8.

Mrs. Andre Cloutier, president of the Junior Catholic Women's League, entertained the members at a supper meeting at her summer cottage at Lake Park. The business session, under the chairmanship of the president, opened with the usual League prayer. Plans were then discussed for the coming club season, and it was announced that the annual tag day in aid of welfare work would take place on the week-end of September 20 and 21. Due to an incomplete executive, it was decided to forego any further business until the next meeting, which will be held in St. Patrick's Church Hall on Tuesday, September 17, at which all members are requested to attend.

WOMEN'S CLUBS

BETA SIGMA PHI EPSILON CHAPTER

The Beta Sigma Phi met at the home of Mrs. Ben Howard, Howardene, Mrs. Helen Spafford presided and the meeting was opened with all repeating the opening ritual. Then the regular business meeting was held and plans for the year made. Principal discussion concerned a scholarship to be given to a graduating student of the Sherbrooke High School, worth one year's tuition at the University of Bishop's College. This was unanimously agreed upon and passed and will be given at commencement exercises, October 5th. Then the social program chairman, Mrs. Ruby Buckell, took charge. Mrs. Helen Spafford gave a talk on the origin of language. The closing ritual and a pleasant social evening followed.

The Golden Text is from Isaiah 33:6, "Wisdom and knowledge

Marriage Of Interest

MR. AND MRS. DONALD A. McINTYRE, photographed following their wedding which took place at St. Andrew's Presbyterian Church, Saturday, August 31st. Mrs. McIntyre was the former Miss Edith Agnes Brown, R.N., daughter of Mr. and Mrs. Walter Brown, of Lennoxville, and Mr. McIntyre is the son of Mrs. Ethel McIntyre and the late Mr. Elmer McIntyre, of Sherbrooke.

shall be the stability of thy times, and strength of salvation; the fear of the Lord is his treasure.

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Now faith is the substance of things hoped for, the evidence of things not seen. By faith Abraham, when he was called to go out into a place which he should after receive for an inheritance, obeyed; and he went out, not knowing whither he went. For he looked for a city which hath foundations, whose builder and maker is God." (Hebrews 11: 1, 8, 10).

The Lesson-Sermon also includes the following passage from the Christian Science textbook "Science and Health with Key to the Scriptures," by Mary Baker Eddy. "Faith should enlarge its borders and strengthen its base by resting upon Spirit instead of matter. As

God is substance and man is the divine image and likeness, man should wish for, and in reality has, only the substance of good, the substance of Spirit, not matter." (Pages 400 and 301).

MARRIAGES

OLIVIER-ROSS

The marriage of Helen Jean, daughter of Mr. and Mrs. Charles F. Ross, of Sherbrooke, to Mr. William Marcel Olivier, son of Mr. Eugene F. Olivier and the late Mrs. Olivier, of Sherbrooke, took place in the Canon Fiset Memorial Library, St. Patrick's Church, Thursday, September 12, at 3 o'clock. Rev. Father Rosario Mol-

san officiated at the ceremony. Pearly gladioli in tall stands were used as decorations and Mrs. Mildred Lergie Sampson played Rattle of Spring, Liebestraum and other selections.

The bride, given in marriage by her father, wore a white satin gown fashioned on princess lines, with a sweetheart neckline and long sleeves ending in points over the hands, the skirt falling in folds and ending in a slight train. Her fingertip veil of tulle illusion was held by a white ostrich plume and she carried a cascade bouquet of Talisman roses tied with satin ribbon.

Mrs. Allan Wark, sister of the bride as matron-of-honor, wore a floor-length gown of silver-gray and green silk jersey fashioned on classic lines, and a Juliet cap of lime green feathers with a silver veil. She also wore long lime green gloves and carried a cascade bouquet of Pisardy gladioli.

Mr. Wilfrid Olivier, brother of the groom, acted as best man and the ushers were Mr. Wesley Bradley and Mr. Rodolphe Olivier.

Mrs. Ross, the bride's mother, wore an afternoon dress of plum crepe, with black accessories, and a corsage of white gladioli.

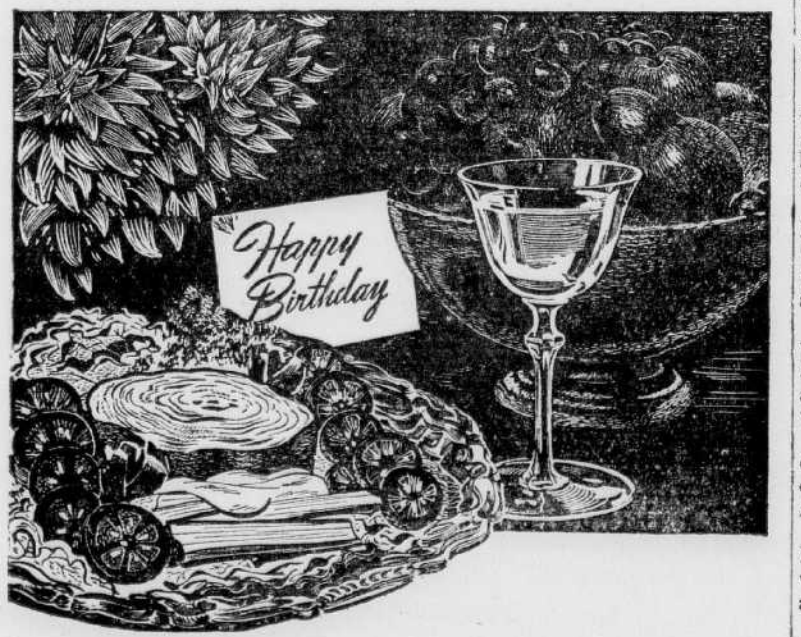

Mrs. Olivier, the groom's step-mother, wore a two-piece dress of midnight blue faille, with black accessories, and a corsage of pink roses.

The reception was held at 133 Quebec Street, where hydrangeas and peach gladioli were used to decorate the rooms. The bride's table was centered with a three-tiered wedding cake and adorned with Talisman roses.

Later, Mr. and Mrs. Olivier left on their wedding trip to New York and Bermuda, the bride travelling in a silk jersey dress of robin's egg blue fashioned on simple lines, with a light beige coat, a black off-the-face felt hat and black ac-

EVEN FOODS CAN BE BASIS OF ALLERGIES

By William A. O'Brien, M.D. Food sensitive patients usually complain of flatulence, bloating and passage of an excessive amount of gas from the bowel after eating food to which they are sensitive.

Dr. O'Brien, says they cannot eat eggs but still they do not find any difficulty eating foods in which eggs were used.

It is possible to skin-test a patient and learn the foods which may be causing his difficulty, but it must be remembered that a skin test may be one thing and difficulty with food another.

When anyone eats an unusual food like shellfish and has difficulty afterward, the relationship is obvious, but many food sensitive people are upset by ordinary articles in their diet and usually do not suspect the cause.

Doctor Alvarez reports a study of foods which most commonly cause distress. Onions, milk, cream, ice cream, raw apples, cooked cabbage, chocolate, radishes, tomatoes, cucumbers and eggs lead the list.

When food distress occurs every time after eating certain foods, it is a good practice to go on a fast for five days, drinking only water and not eating any food.

Food allergy is suspected in persons who are allergic to other things (pollen, animal dander and house dust) and have stomach upsets after eating certain foods.

Food can distress allergic persons in other ways than in the stomach or intestine. Some cause a stuffy runny nose and some produce hives (strawberries, chocolate, etc.) Foods are also reported as a cause of migraine headaches, but the association is difficult to prove.

Question: Is pityriasis rosea contagious? Answer: No, it is not contagious, and it does not result from a blood disorder.

NOTICE TO THE RATEPAYERS OF COATICOOK

The real estate owners of the Town of Coaticook will be called upon to vote on Monday and Tuesday, the sixteenth and seventeenth days of September from nine o'clock in the morning until five o'clock in the afternoon, on a loan by-law of \$40,000, for the construction of a high tension line and a sub-station to connect the town power station to the Southern Canada Power Co. Ltd. sub-station on Dixville Road.

This matter is of great importance for the Town of Coaticook, if the ratepayers wish to see her development continue. In the last two years, the sales of electricity have increased by about 30%, and the power station is at present loaded to capacity. Moreover, several of our present industries have made known their intention to purchase large blocks of electric power in the next twelve months, and it would be a big mistake if the town were not in a position to supply such power.

Thanks to your Council, it is now possible to obtain from the Southern Canada Power Co. Ltd., a contract with reasonable prices. We have reasons to believe that a connection as soon as possible with the Southern Canada Power Co. Ltd., would allow the Town to increase its sales to a large extent, besides giving an opportunity for general improvement in the service.

The Council will rely on your good will in order that each real estate owner shall come to vote on the days above mentioned without it being necessary to call upon him again.

September 10th, 1946.

Architect's drawing of the new Sherbrooke Hospital building to be erected on a 15 acre plot at the head of Portland Avenue, at the corner of Argyle, Sherbrooke, Quebec.

SHERBROOKE HOSPITAL BUILDING CAMPAIGN DESERVES YOUR SUPPORT

It meets a present emergency by providing greater accommodation to serve the already expanded population of the Eastern Townships.

It looks to the future with a plan to meet needs already in sight and to provide for further improvement and expansion as the need arises.

Today the Governors of the Sherbrooke Hospital are faced with the necessity of building a new hospital building to replace the present one which for years has done such valiant service on behalf of the people of the Eastern Townships.

The service has been at all times high and has been given under most difficult and trying conditions, due in recent years to the demands and limitations of war. Notwithstanding these difficulties the standards of efficiency and service have been well maintained. The Eastern Townships owe much to the staff who have carried on so magnificently, even when their numbers were depleted by the exigencies of war.

But now the Board of Governors have deemed it advisable to undertake a task that cannot longer be put aside if our families and our neighbors are to have proper scientific care and the best of medical attention when sickness and misfortune strikes. A hospital is not a profit-making business; it has no reserves that might be used for rebuilding. It will be greatly to the advantage of the residents of Sherbrooke and the Eastern Townships to have this modern hospital in their midst, and an opportunity is now given to all residents of this district to contribute as generously as your circumstances will allow.

Senator George D. Aiken Will Address Boundary Communities

Derby Line, Vt., Sept. 14.—Senator George D. Aiken will speak at the Haskell Opera House, Wednesday evening, Sept. 18th, under the auspices of the International Community School. His subject will be the St. Lawrence Seaway, and he will tell how it will effect the Northeastern section of the United States and the Southeastern section of Canada.

The Executive Committee of the International Community School met at the Haskell Free Library recently to complete plans for this year's school sessions, and the President of the School, Gary Earl Heath, announced that the school would hold this special opening meeting at the Opera House to serve the double purpose of giving local people the chance to hear the plans for the St. Lawrence Seaway and to learn what features the school had to offer this fall.

Plans are well underway to assure a really interesting group of meetings for the Community School, and a full announcement of the speakers, interest groups, and other features will be made on Sept. 18th.

Senator George D. Aiken is now the Senior Senator from Vermont and one of the leading advocates of the Great Lakes-St. Lawrence Waterway Project, and this will be the first opportunity that people in this vicinity have had to hear the full story of this development. As is customary at meetings of the International Community School, there will be an opportunity after the talk to ask questions of the speaker.

CLARENCEVILLE

The members of the "500" Club held a delightful picnic supper at the summer home of Mr. and Mrs. D. G. Macfie, on Missisquoi Bay, after which they were invited over to the summer cottage of Mr. and Mrs. A. Collins, where cards were enjoyed. Guests for the evening included Mr. and Mrs. D. A. Collins, of Montreal; Mr. and Mrs. Nunna, of Cowansville, and Mr. and Mrs. F. Derrick and Mr. Norman E. Derrick, of Clarenceville.

Mr. and Mrs. William Mosher, of Hartford, Conn., and Mr. and Mrs. Celtic Brown, of Buckingham, spent the week-end with their mother, Mrs. Jack Mosher, and grandmother, Mrs. Arvide Derby. Mr. and Mrs. H. Chilton entertained Mr. and Mrs. G. Marshall Young on Mrs. Young's eighty-fifth birthday, September 8. After a delicious birthday dinner "500" was played during the evening.

Mr. and Mrs. Hilton Grant and daughter, Miss Patricia Grant, have left for their home in Chicago, Ill., via New York. They had been visiting Mr. and Mrs. G. M. Young and other relatives, in Sutton. Mr. and Mrs. Merton Derrick are entertaining his brother and wife, Mr. and Mrs. Morgan Derrick, of Hartford, Conn. Miss Ernestine Derrick and Miss M. Jones, of Montreal, were week-end guests of Mr. and Mrs. A. C. Collins.

BROOKLYN DODGERS CUT ST. LOUIS CARDS' LEAD TO 1 1/2 GAMES

Brooklyn Shades St. Louis Cards 4-3 To Even Series One All

By JACK HAND
 Brooklyn, Sept. 14.—(P)—Brooklyn opened quickly with four runs in the first inning yesterday and grimly held on through a nerve-racking marathon of 2 hours and 57 minutes to shade St. Louis 4-3 and cut the Cardinals' National League lead to a vulnerable 1 1/2 games.

Squaring the series-of-the-year with the Red Birds before 21,935 paves, the rebounding Dodgers pulled even with the leaders on the losing side of the ledger. They have played and won three less than St. Louis.

Two and a third innings of superlative relief pitching by Kirby Higbe, the goat of Thursday's 10-2 rout when he was belted for five runs in the first, saved the day for rookie Joe Hatten, who staggered in and out of trouble until the seventh, when manager Leo Durocher brought in Higbe to replace him.

Hatten looked as though he was ready for the cleaners in the second when the Cards had two on

with one out, but he got out of it. In the fourth the Cards picked up their first run on Enos Slaughter's single, an error by Pee Wee Reese on Erv Dusak's roller and Marty Marion's run-scoring single. St. Louis loaded the sacks with two goals, but Hatten fanned pinchhitter Buster Adams for the third out. Then in the fifth, after successive doubles by Terry Moore and Stan Musial sliced his lead to two runs, Hatten got by on the strikeout route.

Meantime the Brooks still were celebrating a four-run opener that doomed George (Red) Mauer.

Eddie Dyer of Cards' almost exhausted his bull pen stock, using five hurlers. But he managed to leave Lefty Harry Brecheen available for today.

Brecheen, winner of 13 and loser of 13, had pitched against the Phillies Tuesday and would be going with only three days rest.

Leo Durocher wavered between Vic Lombardi, the crafty little south paw with a 12-8 win record, and Kube Melton, with a 5-6 season mark. For today's game.

LOCAL HOCKEY PLAYERS SIGN FOR BALTIMORE

Six local hockey players have been signed to play for Baltimore Clippers in the United States Eastern League.

Henry (Guido) Roy, playing coach of the Clippers, reported that he signed six of Sherbrooke's hockey players for this coming season. They report to Baltimore for October 7 to start pre-season training.

The following players have affixed their signatures to Clippers' contracts: Roland LaBarre, Pee-wee Leblanc, both of last year's Rangles, Henri (P-Ris) Boisvert, with Drummondville in the Provincial League last year, Phil Piche, Sherbrooke, who played formerly with the old Sherbrooke Red Raiders team of '38-'39, Gerry Perrault, of last year's Indians intermediate club, Larry Frechette, who starred for the Clippers last year in goal and who will be holding down the same position this year.

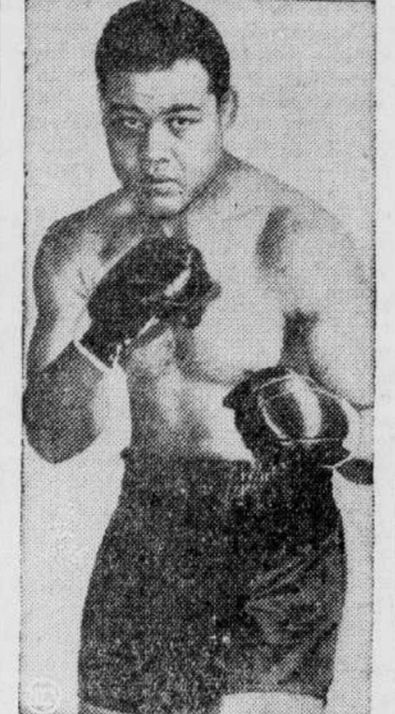

Baltimore Clippers play sixty games in the league schedule with twelve extra games in the round robin playoffs, not counting exhibition games.

Each team in the league has the right to sign twenty-four players and to dress eighteen for the games. The other teams in the league are Washington, Philadelphia, New York Rovers, Boston Olympics, formerly of the old Provincial Hockey League, and Baltimore Clippers.

Louis Picked To Kayo Mauriello Within The First Four Rounds

By NED BROWN
 NEA Staff Correspondent
 New York, Sept. 14.—Joe Louis is primed to knock out Tami Mauriello within four of the scheduled 15 rounds at Yankee Stadium, Sept. 18. I never saw the champion looking in better shape and trainer Mennie Seamon assures me that the Harlem restaurateur's condition is not confined to his appearance.

The Brown Bomber plans to

Joe Louis enter the ring weighing 207 pounds, about what he scaled for Billy Conn in June.

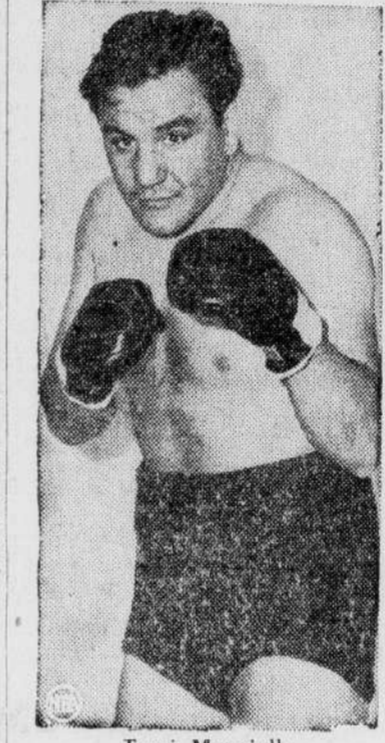

and dull training for Conn, he was fast and sharp this trip. His stomach looks like a washboard. Compared to the challenger's midriff the champion appears washy.

The measurements handed out by Mike Jacobs' publicity department must have been dreamed up to make the challenger look more formidable. Louis' waist is given as 36 inches, Mauriello's 34 1/2. Looking at the pair I'm inclined to think if Joe's is 35 they made a mistake and Tami's is 44 1/2.

The only advantage in favor of Mauriello is his age, 23, against Louis' 32. The champion is at least four inches taller than the Italian, has a longer reach, is 12 pounds heavier than his 159-pound challenger.

Unlike many other warriors today, Louis and Mauriello seemed to enjoy training. Louis was positively jovial at times, the home-grown athlete carefree, confident.

The advance sale and interest—or lack of it—indicates a gate of little more than \$200,000 at \$5, \$10 and \$20. Louis gets 40 per cent of the net, Mauriello 20. Louis was not always had a

Tami Mauriello

cinch in first meetings with opponents. Schmaling knocked him out, Bradlock had him down, Farr gave him a tough fight for 15 rounds, Galero dropped him. Go-doy puzzled him for 15, he couldn't catch Pastor in 10, and Conn came within an ace of knocking him out.

Mauriello has the punch and the heart to score an upset. He's a tearing-in aggressor with a solid wallop, will take a punch to score one and is always dangerous. Louis is cagy, clever, a terrific hitter, but in the past hasn't taken a clout to the head too well.

But Joe Louis swats too hard for a game fellow as easy to hit as Tami Mauriello.

There may be an exciting moment or two however, which is more than could be said for the Billy Conn fandango.

Local Squad Plays Exhibition Game In Preparation For League Opening

On the Parade Grounds at 2:30 o'clock tomorrow the Sherbrooke Rugby Football team will have an inter-club exhibition match.

The squad will be divided into teams, red and blue. The purpose behind this game is to pick out the best men on the squad for the opener on Sunday, September 22, against Rockland Football Club in Montreal.

Coach Freddie Hobbs already has a few starting men picked but he wants to have the best men of his squad on the starting line. The boys have been turning out faithfully for practices and the team is rounding into pretty good shape. With this practice game under their belts it should help to polish up on the timing and execution of plays in general.

The teams will be picked from the following:

Bertie Rice, 165 lbs., played previously with Sherbrooke, half or flying wing.

Bill Potts, 155 lbs., played with Sherbrooke High School and Royal Canadian Navy, Halfback.

Warren Spalding, 175 lbs., Sherbrooke High School and Athletics, outside end.

Philip Hovey, 190 lbs., High School and Athletics, Fullback.

Harry Blue, 190 lbs., Sherbrooke Athletics.

Lorne Campbell, 130 lbs., High School and Stanstead College, Quarterback.

Ted Boduch, 160 lbs., High School end.

Dick Wilson, 170 lbs., High School and Sherbrooke Athletics, end or halfback.

Warren Berwick, 185 lbs., High School and R.C.A.F. inside.

Rae Nelson, 175 lbs., Sherbrooke Athletics, inside.

Ed Nelson, 190 lbs., Sherbrooke Athletics, middle.

Ross Hunting, 170 lbs., High School and Stanstead College, halfback.

Russ Bradford, 150 lbs., Macdonald College, snaphack.

Doug Brooks, 180 lbs., High School, Bishop's University and Army, end.

Harold Drews, 170 lbs., High School, middle.

Malcolm Cathcart, 158 lbs., High School, end.

Harold Pye, 180 lbs., High School

and Athletics, halfback.

Kenny Leith, 140 lbs., Athletics, end.

Gordie McFarlane, 150 lbs., High School and West Hill Tech, Hamilton, Ont., end and quarterback.

Gordon Ross, 185 lbs., High School and Calgary Stampeters, Jrs., inside.

Jim Strickland, 170 lbs., Athletics, snaphack.

Lorne Murphy, 185 lbs., High School and Athletics, snaphack.

Ken Jackson, 175 lbs., High School and Athletics, quarterback.

Buddy Jackson, 135 lbs., High School, end or flying wing.

John Bryant, 190 lbs., High School and Athletics, middle.

Lorne Arnold, 175 lbs., High School and Athletics, halfback.

Tom Morrison, 145 lbs., High School and Athletics, end.

Allan Reginald, 175 lbs., Winnipeg Blue Bombers and Montreal Hornets, middle.

PIRATES TAKE DOUBLEHEADER FROM BRAVES

Scattering 11 hits while his mates smacked a trio of New York hurlers for 12, right-hander Joe Begg pitched Cincinnati Reds to a 4-1 National League victory over the tail-end Giants yesterday.

The Reds sewed up the game in the second by blasting rookie Mary Grissom for five hits and three runs including a two-run circus smash by Max West.

Johnny Mize, Giant first-baseman and home run king of the league, returned to action for the first time since Aug. 5 and fractured his right toe in the eighth inning. Mize, who had previously fractured his right hand in an exhibition contest, will be out for the remainder of the season.

Pittsburgh Pirates made it six victories in their last seven starts by taking both games of a double-header from Boston Braves, winning the first 4-2 in 14 innings and the second 10-1.

Chuck Workman, former Tribesman, bashed out a homer to clinch the overtime win for lefty Fritz Ostermuller at Mort Cooper's expense.

Rookie Edson Bahr held the Braves to five hits while his teammates pounded three rival pitchers for 12 in the nightcap.

Charley Schanz held Chicago Cubs to seven hits to give Philadelphia Phils a 4-1 victory and laid the debut of pitcher Hal Manders with the Cubs.

Manders, purchased from Buffalo of the International League, and a cousin of Cleveland's Bob Feller, was touched for six hits and three runs in the first two innings.

Red Sox Staging Comeback After 28 Years' Absence From Series

By HARRY GRAYSON
 NEA Sports Editor
 Boston, Sept. 14.—(NEA)—It's been a long time since the Red Sox were to be exact—but the Red Sox are old hands in World Series. Indeed, baseball's fall fashion show cut its teeth as the proud Americans cheered up the proud Pittsburgh Pirates, five games to three, in 1903.

The Red Sox are the only major League club which has appeared in more than one of them that are unbeaten in the World Series. And in the first 18 years of the American League, the Red Sox popped down in front six times, were three second and out of the first division on only four occasions.

They got cracks at the National League champions only five times, however, because when they repeated in 1904 John J. McGraw and the haughty New York Giants refused to accept the challenge, seeking to label the new league as being of the bush variety.

Until Harry H. Frazee sold them out in 1919 the way in which the Red Sox were a belting crew.

Down through those years—from Cy Young to Babe Ruth—no city has had a larger share of the game's great names.

A distinct threat from the birth of the American League at the turn of the century, the Red Sox, under Jimmy Collins, all-time third baseman to this day, assumed command in 1903, bounced back like an election repeater.

With this outfit was the daddy of pitchers, Denton Tecumseh Young, taking his turn with Bill Davenport and Long Tom Hughes. The never-to-be-forgotten Lou Criger edged in.

In the infield were Candy Lachance and his handle-bar moustache, the mean Hobe Ferris, squatty Freddie Parent and the graceful Collins. In the outfield were Chick Stahl, who later committed suicide, and the home run manufacturers, Pat Dougherty and the original Buck Freeman.

Big, awkward but smart Jake Stahl, a first baseman, had taken over when the Red Sox smacked the Giants, four games to three, with the second engagement a 6-6 11-inning tie at Fenway Park, in one of the more spectacular World Series in 1912.

The Boston party introduced the immortal outfield combination of Duffy Lewis, Trips Speaker and Harry Hooper. Pitching was Smokey Joe Wood, Buck O'Brien, Hugh Bedient, Sea Lion Charley Hall and big and left-handed Ray Collins. The catchers were Bill

Carrigan and Forest Cady.

Heinie Wagner, who continued to challenge Ty Cobb after being cut from the team to tonsils, was the shortstop, Larry Gardner the third baseman.

The Athletics beat out the Red Sox in 1914, but the blokes from Fenway Park struck back for additional World Series helpings in '15 and '16, with Catcher Carrigan in charge.

The superior pitchers in '15 were Ernie Shore, George Foster and Wood, but a skinny, left-handed named Babe Ruth had come along and so had a summing artist named Carl Mays. Everett Scott arrived as a shortstop and, with Connie Mack breaking up the A's Jack Barry was purchased to play second base.

This knitting of Red Sox won four out of five from the Phillies, and Spoke Speaker was sold to the Indians for \$50,000 and several players to balance the deal.

With Tills Walker in centre field, the Red Sox once more showed the way in '18, yielding the Dodgers only one victory in five starts.

Among the features of this series was a 14-inning pitchers' battle between the southpaws, Ruth and Sherron Smith, the man destined to become the Sultan of Swat getting the decision, 2-1. Of all his records, Ruth is today proudest of having pitched 25 scoreless innings in the World Series—against the Brooklynites in '16 and the Cubs in '18.

Bill Carrigan retired to enter the banking business, and the Red Sox, beaten only by the White Sox in '17, won another pennant under Ed Barrow in the abbreviated war year of '18, poking the Cubs four games to two in the World Series.

Babe Ruth was converted into an outfielder in 1919, and the Yankee empire was built with Red Sox as Harry Frazee unloaded to get back into snow business.

Indianapolis, Sept. 14.—(P)—Jimmy Demaret, co-winner of the Inverness Invitational Golf tournament at Toledo, and George Fazio, Canadian Open champion, Thursday defeated Wayne Timberman and John David of Indianapolis in a best ball exhibition match at Meridian Hills Country Club, four and three.

Demaret took top honors with an individual 68 over the par-71 course.

NO GUILD IS REQUIRED IN HOCKEY LOOP

Clarence Campbell, president of the National Hockey League, commenting on a dispatch from Boston in which Bob Murphy, leader of the American Baseball Guild, was quoted as saying he had received "numerous requests from professional hockey players to form an organization similar to the Baseball Guild." Murphy was further reported as saying he had talked with "quite a few players of several hockey clubs" and had received letters from many of them.

The N.H.L. president said it would be interesting to know the alleged causes of dissatisfaction on the part of the players referred to by Mr. Murphy.

"The history of professional hockey is so full of examples of fine sentiment and generosity that they will be remembered by players and the public alike."

Mr. Campbell said the proposal to unionize hockey players along the lines followed by the baseball players' guild is not new. Similar suggestions had been made at various times throughout the past 20 years.

However, he added, the terms under which a player undertakes to play hockey, including salary, expenses and so on, are primarily a matter between the player and his club and would require no action by the president of the N.H.L. But if the player and his club were unable to reach an agreement, then provision was made by which the president was to act as an arbitrator.

"There have been comparatively few cases in the entire history of the N.H.L. when even this provision has been put into effect, because the club knows that the player must be a 'satisfied player' or he will not give his best efforts," Mr. Campbell said.

Racing Club Will Present Card At Exhibition Track Tomorrow

With the announcement of the executive of the newly-formed Sherbrooke Racing Club comes the list of entries for tomorrow's program of harness racing at the Exhibition track. Until the formation of the Club, racing was promoted here this season by Sam Fabi.

The executive is headed by Dr. Romeo Veilleux as president. With him on the slate are Adelaar Dumas as vice-president, Marcel Bernard as secretary-treasurer, Ivan Dugre as secretary of the races, Sam and Georges Fabi as race organizers. On the board of directors are Lucien Dugre, Paul Breault, Robert Fabi, Jean Bombardier, Romeo Charest and J. Hudon.

Tomorrow's races, sponsored by the Club, have been organized by Sam and Georges Fabi. For a total purse of \$800, and with two heats to each class, the card carries a 2:26 and 2:20 Bar Trot and Pace, a 2:15 Bar Trot and Pace, a Classified Trot and Pace and a Junior Free For All.

LOCAL TENNIS CLUB PLAYS DOUBLES FINALS

Mixed doubles finals in the Jacques Cartier Tennis tournament will be played tomorrow afternoon. Isabelle Hibbard and Paul Mailhot meet Mrs. Phil Marcoux and Gordon Harmer for the title.

Isabelle Hibbard won the singles title and Paul Mailhot won the men's championship. Together they make a strong combination to beat. They eliminated Paul Delorme and Jean Gagnon in the semi-finals.

Helen Tessier and Gordon Harmer played together until the finals. They eliminated Raymond Dubuc and Bill Blodoue in the semi-finals. Now Miss Tessier is unable to continue playing so Gordon Harmer teamed up with Mrs. Phil Marcoux. This combination should put up a stiff battle against their opponents. The tilt will get underway at about 2:00 o'clock.

TOURNAMENT AT LOCAL TENNIS CLUB ADVANCES

Due to poor lighting only one match was played in the Mt. Pleasant tennis tournament last night.

Andre Panetton defeated Bill Hammond in straight sets, 6-2, 6-1. Paulin Roy won by default from N. Gagnon. Cool weather makes it impossible to play after 8:30 and as a result few matches are run off each evening. The tournament has not yet reached the quarter finals. Games scheduled over the weekend are:

SATURDAY

1:00—Isabelle Hibbard vs. Miss Giselle Royer; Francoise Joyal vs. Pauline Boire.

2:00—Guy Massiotte vs. Laurent Turmel; John Hibbard vs. Bill Jones.

3:00—Suzanne Renaud vs. Simone Chevalier; Russell Marois and Dr. A. Page vs. Andre Renaud and Gerry Ferguson.

5:00—Mrs. Jean Ferguson vs. Suzanne Allard; Helen Fitzgerald vs. Marthe Tangway.

7:00—Raymond Perrault vs. Craig Bishop.

8:00—Rolande Bergeron vs. T. Morin.

SUNDAY

10:00—Paul Blais vs. Andre Renaud.

11:00—Bill Hammond and Conrad Gregoire vs. Guy Choquette and R. Perrault.

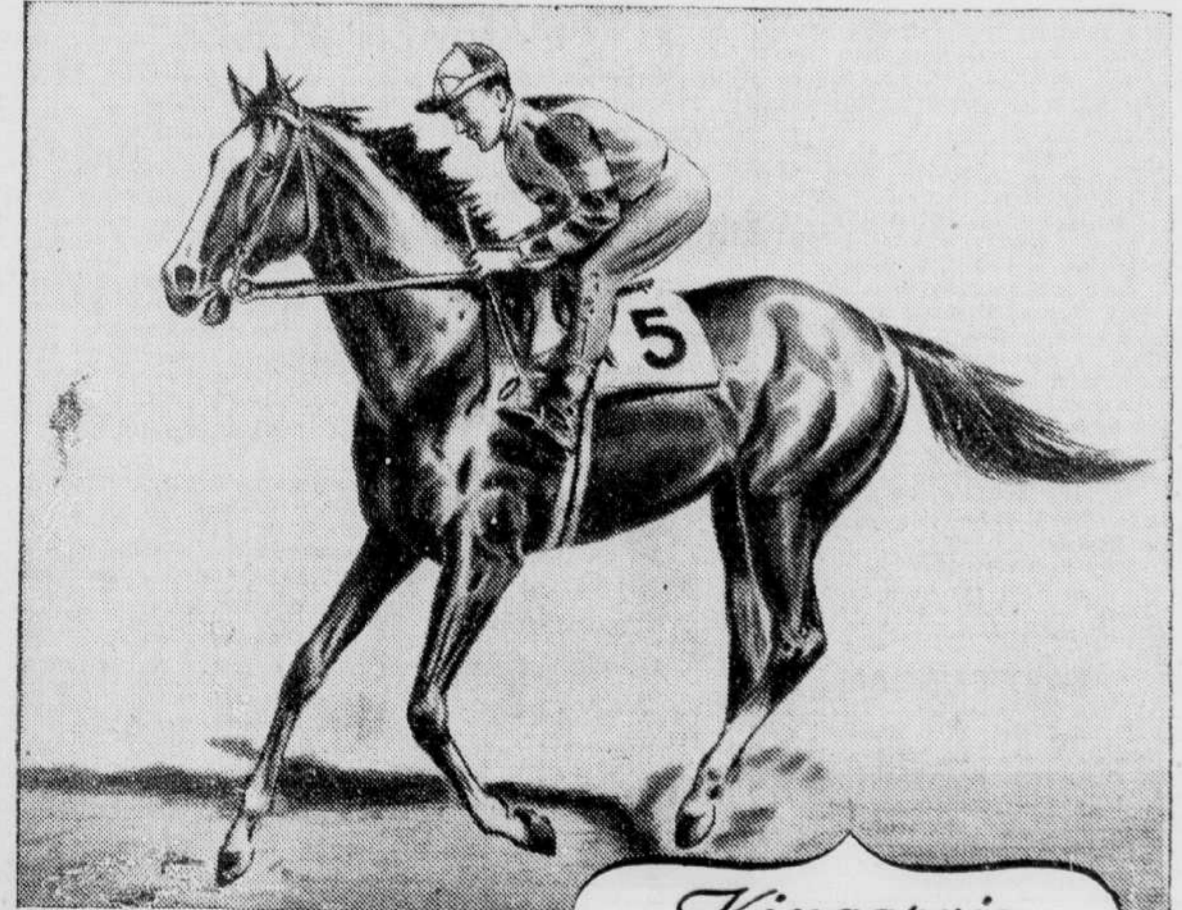

1:00—Mrs. Roger Roy and Mrs. John Hibbard vs. Simone Chevalier and Pauline Joyal; Marthe Tangway and Mrs. Jean Ferguson vs. Mrs. P. Marois and Craig Bishop.

2:30—Suzanne Allard and Suzanne Renaud vs. Francoise Joyal and Isabelle Hibbard; Gaston Blais vs. Laurent Turmel.

4:30—Paul and Marcel Blais vs. T. Morin and P. Roy.

5:30—Monique Boire vs. Florence Dauplaise.

7:30—Darcy St. Pierre vs. Marcel Blais; Dr. A. Page vs. Guy Choquette.
