ATLANTIC FAST LINE DISCUSSED IN HALIFAX

Public Meeting Last Night Discusses the C. P. R. Co's Offer

FORCIBLE SPEECHES MADE BY MESSRS. KENNY AND INNIS.

Halifax, Oct. 24.—Halifax wants a fast Atlantic line for Canada, and her people want it to be the very best that can be produced. The splendid meeting in the Academy of Music last night under the auspices of the Board of Trade, the crowded audience, the harmonious, enthusiastic spirit manifested, were ample evidence of this. No better public meeting was ever seen in this city than that of last night. From eight o'clock until after eleven, held by a fine array of speakers, the attention of the meeting was closely and roughly traced out the subject. Among the speakers were: Dr. Russell, M.P.; Wm. Roche, M.P.; A. C. Bell, M.P.; H. J. Logan, M.P.; Premier Murray, F. B. Wade, M.P.; T. E. Kenney, President King's County Board of Trade, and Senator Wood of New Brunswick.

The speakers were perfectly unanimous that Canada requires a fast line equal to the best or none at all; that the present was the opportune time. Mr. Kenney's and Innis's remarks were of especial interest from the fact that they advanced arguments to show that it was not necessary this most important matter should be sidetracked on account of not having the companies to take hold and carry it to a successful end.

Mr. Kenney was very warmly received. He expressed his thanks to Dr. Russell, J. Logan and Senator Wood. For himself he had always been in favor of a fast Atlantic service. Never in the history of this question had he thought the chances for its success been so great as at the present time. Fifteen years ago Sir Charles Tupper had, in the House of Commons, moved a resolution that \$500,000 be devoted to the establishment of a fast line. Subsequently this had been increased to \$750,000. Vested interests, financial reasons, and other causes had prevented the consummation of the proposal. He believed that we now have a company in Canada that could manage a fast line better than any company in England. He referred to the Canadian Pacific. People who say that it would be too great a financial task for us are the "men of little faith," the same class of men who had once said that the C.P.R. would not pay for its axle grease, and would never carry a bushel of grain. They were wrong in that, and they will be wrong in this. No company would have a greater interest in making such a line a success than the C. P. R. Co. whose interests depend upon the development of the country, on their bringing as many people here as possible, and keeping them here in order to make customers of them. A company that has pre-eminently succeeded in operating a splendid line on the Pacific could do the same on the Atlantic. We cannot secure this Canadian fast line because we have more faith than we had in the past, because the people are more unanimous. Mr. Kenney referred to the first through train on the C.P.R. from Montreal to the Pacific Coast, which was in 1885. He was in London at the time, and he called on the president of the C.P.R. and congratulated him. Sir George Stephens said he intended to wait on the British Government and offer to carry the Imperial mails to the Orient, which would mean a fast line on the Atlantic. Sir George said that the Atlantic line should be from a non-tidal port in England to Halifax. Halifax all the year round. Later in Ottawa Sir George had said that it could not be Halifax because of the hostile influence of the St. Lawrence. That influence is less hostile now than it was then. Mr. Kenney was glad to believe. His opinion was when he heard Quebec was proposed for the summer and Halifax for the winter to accept that because he was sure that soon it would develop into Halifax all the year round.

Mr. Innis spoke in part as follows: Finally let me say that the success which will attend the advantages which it is hoped to be gained by the establishment of a fast line will depend not so much on the subsidy and not so much upon the provisions of the contract to be entered into, as upon the ability, character and financial standing of the contractors. It is not good policy and will be the reverse of wise to give such a contract to a mere subsidy-seeking and financially weak combination. For this reason I was pleased to see that the C.P.R. had put in an offer to establish the service, and the acceptance of its offer would, to my mind, be a guarantee that the service would in every respect be worthy of Canada and of

THE PREMIER IN QUEBEC

HE ARRIVED YESTERDAY AFTER-NOON AND REGISTERED AT THE CHATEAU FRONTENAC — RECEIVED FEW CALLERS, AND TRANSACTED NO BUSINESS.

Sir Wilfrid and Lady Laurier, Hon. H. G. Carroll, Solicitor General, and Mr. Boudreault, the Premier's private secretary, arrived at Quebec yesterday afternoon over the I.C.R. from Montreal, and crossing to Quebec, proceeded to the Chateau. The Premier looks in splendid health, and last evening was called on by a number of local politicians, but only a few privileged ones were accorded an audience. To the others who sent their cards to his room he sent a message that he desired rest, but would be happy to see them this morning, when he was open for business. Among the callers received were Sir Alphonse Pelletier, and Messrs. J. B. Lablanc, chairman, and N. Rioux, member of the Quebec Harbor Commission, the two latter remaining closeted with him for two hours. It is not known what transpired during the evening, but it is certain that the question of a successor to Hon. Mr. Tarte was not practically discussed. This morning, however, Sir Wilfrid will meet the leaders of the party in this district, when the matter will be discussed.

NO YELLOW FEVER.

Havana, Oct. 24.—Dr. Dinlay, chief of the Sanitation Department, commenting on the health conditions of Havana during the month of September, says the death rate here was then 17.8 per 1,000. With the end of September a full year was completed since a case of yellow fever originated in this city. This is an event which stands unparalleled in the history of the island.

MORE MINES OPERATED

Wilkesbarre, Pa., Oct. 24.—There were 22 more mines in operation in the anthracite region to-day than yesterday, and the output will be close to 100,000 tons. This is as near as can be estimated. From reports received the total output yesterday did not exceed 75,000 tons.

When in full operation the mines employ in every capacity about 145,000 men and boys. Of this number it is estimated that 82,000 were at work to-day. A more amicable feeling prevailed to-day between employer and employee than yesterday.

The non-union men, despite what may be said to the contrary, are being displaced at many of the mines and the old employees are taking their places.

SHIPPING CHAMBER

PASSES RESOLUTIONS OPPOSING ANY SUBVENTION TO BLAIR TORPIDS — NOTHING THAT DOES NOT PROVIDE FOR AN EFFICIENT MAIL SERVICE AND CANNOT BE USED AS CRUIERS NEED APPLY.

London, Oct. 24.—At a meeting on Wednesday of the Chamber of Shipping of the United Kingdom, the following resolution was passed:

That having considered the report of probability of a large subsidy being granted for a fast mail service, and also for a service of large freight steamers between Canada and England we do protest strongly against the payment of any subsidies or subventions to shipping by the British Government unless they are confined solely to the purpose of securing a thoroughly adequate mail service and the utilization of such steamers as cruisers.

Morristown, N.J., Oct. 24.—H. Chandler Egan, the Western golf champion, representing Harvard, and H. N. McFarland, of the University of Pennsylvania, will fight out the individual championship of the inter-collegiate Golf Association in a final round of thirty-six holes, at match play, over the Morris County Golf Club links.

The best match of to-day was in the semi-finals between H. B. McFarland, of Pennsylvania, and H. B. Hollins, Jr., of Harvard. An extra hole was necessary and the former won five to six.

Paris, Oct. 24.—In the Chamber of Deputies yesterday, Prime Minister Combes said the Government was prepared to intervene in the strikes of the miners and dockers with the object of providing an early cessation of the troubles.

Genuine Castoria always bears the Signature of Chas. H. Fletcher.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

WORKMEN UNITE WITH EMPLOYERS

To Aid Them in Competition Against Wales

A NEW AND STRIKING PLAN

A PER CENT DEDUCTION FROM THE WAGES OF THE MEN IS TO BE SET ASIDE AS A SPECIAL FUND TO PAY 25 PER CENT OF THE COST OF ALL TIN PLATES COMPETING AGAINST WALES.

Pittsburg, Oct. 21.—Officials of the American Tin Plate Company and conference committee of the Amalgamated Association held a long session this afternoon after the Tin Workers' convention had finally adjourned, and to-night made an agreement that will allow the American Tin Plate Company to bid on the plate orders of the Standard Oil Company that are now being supplied by the Welsh manufacturers. The workers offered a concession to the company and to all manufacturers of a reduction from their wages under the following terms: That the men should be paid the full rate as at present. That a six per cent deduction shall be set aside by the company and placed in the hands of the Treasurer of the Amalgamated Association as a special fund. That out of this fund the Amalgamated Association shall pay back to the American Tin Plate Company a sum equal to 25 per cent of the cost of manufacture of all plates that are sold to other concerns using the rebate on Welsh tin when it is exported in made up form.

PASSENGER TRAIN HELD UP

SIGNALLED TO STOP AND PLUNDERED BY ONE MAN, WHO RIFLED THE EXPRESS AND MAIL CARS AND BLEW OPEN THE SAFE — ENGINEER DIES AT HIS POST.

Missoula, Mont., Oct. 24.—An east-bound passenger train on the Northern Pacific was held up last night near Drummond, Mont., 45 miles from this city, and Engineer Daniel O'Neil was killed.

The train, which included mail, baggage and express cars and nine coaches, arrived at Missoula at 10:20 p.m. and proceeded eastward after a short delay at this station. It arrived after midnight at a place two miles west of Drummond. There the train was signalled to stop and the engineer slowed up. While doing so he saw a man creeping towards him over the tender. The man, who was armed, called to O'Neil to stop the train instantly. The engineer took in the situation at once and pulling open the throttle tried to start the train at full speed. The robber disarmed him and fired at him. The shot took effect and the engineer fell dead at his post. The robber then proceeded to rifle the express and mail cars. He plundered the mail and blew open the safe in the express car, which was wrecked. The amount of plunder which he secured is not known at present, but it is supposed to be large. The excitement on the train was intense.

Word of the attack was sent to Drummond, whence it was telephoned to Deer Lodge, about 50 miles away. Bloodhounds were sent out at once and a search for the robbers began. It was thought at first that eight men were engaged in the holdup, but the latest advices are that one man alone perpetrated the murder and robbery.

TEN MILLIONS FOR LOYALISTS

BRITISH GOVERNMENT WILL MAKE ANOTHER LIBERAL GRANT FOR THE AID OF THE TRANSVAAL LOYALISTS.

London, Oct. 23.—The Daily Mail this morning says it understands that the Government will next week ask Parliament to vote a grant of \$10,000,000 for the benefit of those residents of the Transvaal who remained loyal to Great Britain during the war in South Africa, in addition to the \$15,000,000 granted under the peace treaty.

CHEAP POSTAGE STAMPS.

In the show window of almost every dealer in postage stamps on Nassau street, in New York city, may be seen complete sets of stamps issued by the different governments in South America, uncancelled, and marked for sale at an exceedingly low figure. Frequently the face value of the stamps is far in excess of the price mark. Many thoughtful people who used to collect stamps when they were boys wonder how New York dealers can sell genuine stamps cheaper than the stamps can be bought in the country that issues them.

The explanation is very simple. Most of the Central and South American governments have their stamps engraved in this city. The engraving companies make an agreement with the governments by which they furnish them for almost nothing, as many stamps as they want, on condition that as soon as the issue is retired the engravers have the privilege of printing as many more stamps as they choose to sell to dealers. The stamps are genuine in every respect, being printed from the same plates, the only difference being that they never saw the country they purport to come from. For this reason many collectors prefer cancelled stamps to their albums.

AMERICAN CAPITAL IN NEW ONTARIO

William J. Bryan and others Had a Great Scheme

WANTED THREE MILLION ACRES

THE COMPANY WAS TO HAVE SETTLED A CERTAIN NUMBER OF PEOPLE THERE AND WOULD HAVE MADE ITS MONEY FROM LAND RATES — AT PRESENT THE DEAL IS OFF.

Toronto, Oct. 24.—For some time negotiations have been proceeding between a number of capitalists and the Ontario Government respecting a project whereby the former sought to purchase a large tract of land in New Ontario, three million acres in extent, on an undertaking to locate a certain number of settlers there within a fixed period, the company to make its money from the sale of land. W. J. Bryan, the late Democratic candidate for President of the United States, was one of the parties interested, and J. G. Utt, of Chicago, was another, and also the Woodmen of the World.

There was difficulty in at once finding available land of the extent wanted and there were many other questions, such as the safeguarding of the interests of the settlers and of the Province generally. Considerable progress had been made in the adjustment of the points at issue, but it was announced to-day that for the present the negotiations had dropped.

POLITICS IN MONTREAL

Montreal, Oct. 24.—With the departure of the Premier for Quebec to-day, a full has succeeded in the political storm. The Premier announced that there would be no announcement of a successor to Mr. Tarte for ten days or two weeks, as the matter is one that requires careful action. The general feeling among Liberal politicians is that Mr. Brodeur will succeed Mr. Tarte, and that Mr. Prefontaine will be appointed Speaker of the Commons.

THE MARTYR'S CROWN

London, Oct. 24.—The China inland mission has received a report of the murder of the two English missionaries, Bruce and Lewis, in August last at Chen Chou Fu, in Ho-Nan province from a missionary who investigated the crimes. The rioters posted placards urging the destruction of the chapel and the annihilation of foreigners. Mr. Bruce sent a remonstrance to the local magistrate, who proceeded to the mission accompanied by troops, but he was too late. Mr. Bruce had been murdered when the magistrate arrived there. Mr. Lewis was startled by a rock crashing into his study, and he escaped to a neighboring house, the occupants of which thrust him out. The military force on duty at the Yamen slammed the door on his face. Mr. Lewis was murdered in the street. Of thirty persons arrested relative to these crimes, only two were beheaded.

THE GOSSIP OF THE CAPITAL

CONTRACT FOR TWO LIGHTSHIPS AWARDED — THE POLITICAL EXCITEMENT SUBSIDING — MESSRS. WHITNEY AND FOY IN COUNCIL — RETIRING PRESBYTERIAN MINISTER IS PENSIONED FOR SIX YEARS — THE REFERENDUM, ETC., ETC.

Ottawa, Oct. 24.—Mr. F. B. Polson, of the Polson Iron Works, was in the city to-day closing a contract for the construction of two large lightships for the St. Lawrence. It is understood the contract figure is \$250,000.

The excitement over the Cabinet crisis has died out here for the time being. Mr. Tarte returned to the city and spent the time at his house on O'Connor street to-day. The selection of a successor has narrowed down to Messrs. Brodeur and Prefontaine while Mr. Sutherland may be given the Public Works Department as hinted in some quarters. There are those that think that the Montreal Liberals oppose it going to an Ontario man.

Senator Ellis, of St. John, and W. S. Calvert, the Liberal whip, and Mr. Sutherland, M.P., North Essex, were among those present to-day on departmental business. Senator Ellis met Sir Wilfrid Laurier at Montreal.

Mr. J. J. Foy was here to-day consulting with Mr. J. P. Whitney, leader of the Ontario Conservatives. Both profess the utmost confidence that a change of Government in Ontario will be an event of the near future.

Bank Street Presbyterian Church will allow Rev. Dr. Moore a retiring allowance of \$1000 a year for six years. Dr. Moore is retiring after 30 years of service.

The local Licensed Victuallers' Association is sparing no effort to put up a strong fight in the prohibition referendum. Mr. Joseph Troy, the organizer, is covering the whole Ottawa district, and reports prospects bright for swamping the proposed law. On the other hand the prohibitionists are organizing and doing everything possible to bring out votes. One man said to-day: "There is just this difference between prohibitionists and the liquor men, the latter have barrels of money and the temperance people have none. With the liquor men it is a vital, direct, personal question, with the others it is not, and the men personally interested are putting up the cash."

The Quebec Chronicle.

CHRONICLE TELEPHONE No. 45.

QUEBEC, OCTOBER 25, 1902.

WHISTLING TO KEEP UP THE
COURAGE.

It was to be expected that Dr. Laurier's operation for political appendicitis would, while "entirely successful," be for some time to come rather doubtful as to its ultimate results. There are so many surgical operations, termed successful, in which the operator recovers and the operated on does not, that there is always a certain amount of nervousness until the question is decided one way or the other. How great that nervousness is in the case of the Liberal party is unconsciously, but powerfully, testified to by the Montreal Herald, which sought in its issue of the 23rd instant to allay the deep-set fears of its friends by chanting the praises of its operator, and extolling Sir Wilfrid Laurier for everything that he had and everything that he had not done for the last half dozen years. The editorial reads like a Psalm of Thanksgiving, by the sweet bucolic singer of the Eastern Townships, for deliverance from the hand of the enemy that was threatening his scalp, and it is not at all improbable that Hon. Mr. Fisher is deeply appreciative of the narrow escape he has had, but the outside world will see in our confere's disquisition the consciousness of the infliction of a severe blow on the party by the expulsion of Mr. Tarte, of a rude shock to the popular belief which looked on Sir Wilfrid Laurier as under all circumstances, and on all occasions, a courteous and kindly gentleman, and of the necessity for his rehabilitation in the popular esteem, and for the declaration of the French King's famous saying in a revised form that nothing is lost except honor.

"It was he," Laurier, says the Herald, "who removed the school question from the political arena." That is true if by such a removal is meant the settlement, which any Government could have done; but if it is meant that it was settled to the satisfaction of both sides, as Sir Wilfrid said he would settle it, that is notoriously untrue. The next great merit, according to the Herald, is that he "secured the denunciation of the German and Belgian treaties," as a result of which we have Germany discriminating against Canada alone of all the British possessions, and "caused the British preference to find lasting favor with the (British) people," which the Herald says was "a most daring stroke of policy." So it was, if "a most daring stroke of policy" is the Liberal synonym for unblushing effrontery, but the "lasting favor" did not last longer than until it was found out that the preference was, according to Mr. John Charlton, a negative quantity, and according to more friendly critics, an insignificant fraction of less than one per cent. The negotiations with the United States, which ended in a fizzle, are the next subject of praise, not because they were at all successful, but because their conduct gave "our neighbors to the south" no occasion for complaint." Next the unconstitutional no-precedent contingent forms a subject of laudation; and thanks are offered up that he "brought his party and," incidentally, "his country safely through." Finally we are told that when in London he "succeeded in binding all to his will." So he did, and what have we got by it? What we have not got is easier to enumerate. Sir Wilfrid's will lost us a British preference and the fast service. The culmination of the Premier's exploits was the bouncing of Mr. Tarte, and the Herald's editorial shows that our confere is afraid that the results will not be more satisfactory than the other exploits he has enumerated.

UNCALLED-FOR ADVICE.

The Ottawa Citizen thinks that Mr. Tarte ought to join the Conservative party, and the London, England, Chronicle thinks that the party may accept him as a leader. Neither of these suggestions is opportune, and the latter especially, according to the St. John Sun, would not be listened to in the Maritime Provinces, a declaration which we consider uncalled for at present. Mr. Tarte's position as explained by himself is in the Liberal camp; he has been turned out of the Cabinet, but as he was perfectly willing, and even wished to go,

that is immaterial, and as for the manner of ejection, Mr. Tarte labours under the delusion common to the Conservative papers that Sir Wilfrid is "fatigued, harassed, and ill," and makes allowances. He has nothing but the best wishes for his late colleagues and his party, and a good-natured pity for the Conservatives who, he thinks, expected to make something out of him. Obviously nothing is further from Mr. Tarte's thoughts than the Conservative leadership, even if it were offered him. He has no ambitions that way. He went into the Cabinet a Liberal with Conservative ideas, and he comes out of the Cabinet unchanged.

In the meantime he has been ejected for advocating National Policy ideas, and his ejection has sharply defined the lines between the two parties, on which the next general battle will be fought. It is impossible for the Liberal Cabinet, or would be impossible if it were anything else but what it is, to adopt the policy which Mr. Tarte has advocated, for that would be to confess that he had been made the victim of an intrigue by his colleagues, and of pusillanimity by Sir Wilfrid Laurier. When that issue comes to be fought out we have Mr. Tarte's assurance that he will be found advocating "a tariff of defence of our national interests, of firm and unambiguous protection for our industries, our agriculture, our working classes," and that is the Conservative policy as enunciated by Mr. Borden, and for advocating which Mr. Tarte has been turned out of the Ministry. Let Mr. Tarte call himself a Liberal as long as it pleases him. "What's in a name? A Tarte with any other name tastes just as sweet."

MR. BLAKE ON SOUTH OXFORD
PETITION.

Mr. Blake said: "When we find witnesses paid to perjure themselves and then threatened if they show an inclination to tell the truth, it makes me wonder that my learned friend (Mr. Watson) should say such things. I never in my life saw such a concerted attempt to defraud the ends of justice, by the most corrupt means, and I must say that the Court must wink very hard if it does not see the means being used to bring about what the petitioners wish."

In concluding his remarks, he said he could scarcely refrain from throwing out the suggestions that means should be adopted to protect the community from such outrages as the evidence in this trial had exposed.

During Mr. Watson's reply, Mr. Blake rose and pointing his finger at J. B. Jackson, one of the counsel for the Liberals in the case, said: "And it is just such men as that in the party who have led me to get out of it."

HAIL TO THE CHIEF.

Liberal papers all over the country are speaking of enthusiastic terms of the demonstration at Quebec when Sir Wilfrid Laurier arrived there. When the great statesman came back from London in 1897 there were like exhibits of popular joy. Then, a little later, it was learned in Parliament that there had been charges against the item "barges and stone lifters" in the appropriation for deepening the St. Lawrence channel, the following: "Japanese lanterns, 275 at 17 1/2 cents; 150 at 12c.; 23 gross of rockets, \$11.67; 450 bucket lanterns, \$20.75; torches, 10 dozen at 90 cents; 100 torches, \$20; sundries, \$54.20; cases and cartage, \$4.75." When it is learned what part the "barges and stone lifters" took in this year's show it will be known what the thing represented.—Montreal Gazette.

IRISH VERSUS CANADIAN CATTLE.

The many sons of Erin scattered throughout this country will learn with pleasure that Ireland has of late vastly increased her exports in livestock to Great Britain. During the first eight months of the current year the Green Isle supplied England and Scotland with 492,771 cattle, an increase of 180,099 over the corresponding period of last year; 720,878 sheep, an increase of 166,764; 384,634 pigs, an increase of 38,926; and 17,594 horses, an increase of 597.

These statistics are interpreted by a Canadian cattle man as showing that protection has proven an excellent thing for the Irish livestock trade. The impetus given to the Irish agriculture is regarded as at least partly traceable to the British embargo on Canadian and Argentine cattle. The restrictive legislation referred to has left Ireland a comparative monopoly of Britain's imported fat cattle trade, and this has undoubtedly facilitated the development of livestock raising in the Emerald Isle. It may therefore be expected that the Irish agriculturists will strenuously oppose any move of the Imperial Government looking towards the removal of the embargoes in question.—Toronto World.

CONSERVATIVE LEADERSHIP.

The London Chronicle, which thinks that the Conservative party may accept Mr. Tarte as a leader for want of an effective one of its own, is displaying not more than its usual ignorance of Canadian affairs. There

is no reason to suppose that Mr. Tarte intends to join the Conservative party. The Opposition will, of course, reap some benefit from his retirement from Sir Wilfrid's side, and if he votes and speaks in support of Conservative principles he will naturally be counted on the side of the Conservative party. But the Conservatives are too well satisfied with the leader they have to desire to replace him, even if a better man than Mr. Tarte were available for the position. The Opposition members are not likely to criticize too severely a man who is fighting their battle, or to say anything to discourage the former Minister of Public Works in well-doing. But having in their own leader a man of eminent ability, high character and unblemished public and private record, one whom they regard with affection and respect, and who is fulfilling in a most acceptable and successful way the high task assigned to him, the Liberal-Conservatives of Canada are content.—St. John Sun.

You are Weak
Instead of Strong

A WEAK, PALE, DESPONDENT
SPECIMEN OF HUMANITY.
LACKING IN VIGOR, STRENGTH
AND AMBITION.

Make Yourself a New Being:—Renew, Revitalize, Reinvigorate Your Lost Strength.
You're a discouraged, weak, miserable wreck—old before your time. Instead of a place of happiness the world is full of strife, worry and distress.

You are sick and not aware of it, just able to drag yourself around, but totally incapable of exertion or hard work.
Your stomach is crying out for assistance. Hadn't you better give it some Ferrozone?

Your nerves require a good bracing tonic, and the best thing for them is Ferrozone. Why don't you use this sovereign remedy? It is intended for cases just like yours.
Ferrozone is superior for the blood and nerves to any curative agent the world has ever known. Its recuperative powers are beyond description as a trial will demonstrate.

With the use of Ferrozone comes strength to overcome the difficulties and battles of life. Digestion and assimilation will improve, appetite will grow better. You will sleep soundly, and presto—before long you will be healthy, strong and well.

These blessings are all obtained by the regular use of Ferrozone, and can be purchased at any reliable drug store for 50c., or three boxes \$1.25. Sent by mail to your address if price is forwarded to N. C. Polson & Co., Kingston, Ont.

Every man had the right to his own opinion, but the trouble is that so few of them have anything more than the right.

TO CURE A COLD IN ONE DAY.
Take Laxative Bromo-Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

REPETITION OF THE CARNIVAL

ALL ARRANGEMENTS COMPLETE
FOR THE FINAL PRODUCTION
ON MONDAY EVENING NEXT AT
THE DRILL HALL - POPULAR
PRICES - A DELIGHTFUL PRO-
GRAMME - PLAN OPENS MON-
DAY MORNING.

The announcement that the most elaborate and beautiful entertainment, The Carnival of Musical Romances, is to be repeated on Monday night next has caused the keenest pleasure throughout the city. Nothing ever presented here has approached the Carnival for variety and beauty, and nothing has given more general satisfaction. As an indication of this it is necessary simply to point out that the attendance on Thursday evening was fully as large as on Monday. In fact the entertainment constantly grows in popularity, and that this is the case is simply due to the really excellent work of our talented Quebec amateurs, directed and organized by Mr. Lynwood and Prof. Agostini. The repetition to be given on Monday evening is expected to draw a much larger crowd than any of the previous performances, simply owing to the fact that the prices are to be greatly reduced. Instead of \$2.00 for reserved seats and 50 cents for general admission the public will be given the opportunity of seeing the Carnival at popular prices—25 cents, reserved seats 50 cents.

The programme for Monday evening will contain the gems of the repertoire, and will be as follows:—

- Coronation of Titania.
- A Night in Japan.
- The Gainsboro' Sextette.
- La Carmencita.
- The Bohemian Girl.
- Last of the Vestals.

This is a bill-of-fare that is most attractive. The sketch of A Night in Japan is particularly bright and the immortal "Nee Ban," who attends on the Mikado, is alone well worth the price of admission. A feature of the performance will be the presentation of prizes to the boys and girls who sold the most tickets for the engagement just closed. The prizes are for the boy a handsome gold watch and chain, for the girl a dainty gold bracelet watch, both the gift of the management.

On Thursday night last one of the best known of Quebec's business men presented a reserved seat ticket to each of his employees. This gentleman had seen the performances on Tuesday and Wednesday evenings and had been so charmed with them that he determined to give his clerks a treat and hence purchased the tickets as described. This is a precedent that other business men might follow without incurring their popularity with their work people.

The plan for Monday night will open at Lavigne's music store and at the Quebec News Co. on Monday morning at 9 o'clock. Those desiring first-class seats will do well to secure them as promptly as possible.

A FAIR CATCH.
St. Thomas Times.

Eavesdropping at the telephone is much more prevalent than it ever could be at the keyhole, detection being much less profitable. One way to detect the presence on the line is the sudden receding of the speaker's voice. An east-end woman who had been rather suspicious that her conversation by phone was being accidentally (?) overheard suddenly said to her friend: "Someone is listening." Instantly a strange voice indignantly exclaimed: "I'm not doing any such thing!"

Ottawa, Oct. 24.—A militia order to-day gazetted Capt. Fiest, Royal Canadian Regiment, to be transferred to No. 3. depot, from the 16th November, inclusive.

A Nervous Wreck Weak and Exhausted

COULD SCARCELY DRAG HERSELF ABOUT THE HOUSE, BUT FOUND NEW HEALTH AND STRENGTH AND GAINED ELEVEN POUNDS WHILE USING

Dr. Chase's
Nerve Food.

Take the case of Mrs. West, as described in her letter quoted below. She was pale, weak, and run down in health. Her blood was thin and watery, and her nerves so starved and exhausted that she was prostrated. Dr. Chase's Nerve Food cured her, and added new, firm flesh to her body to the extent of eleven pounds. You will find her letter interesting.

Mrs. S. W. West, Drayton, Wellington County, Ont., writes:—"About two years ago I got terribly run down, and finally became a victim of nervous prostration. I had no appetite, seemed to lose interest and ambition, and could scarcely drag myself about. Hearing of good results from the use of Dr. Chase's Nerve Food, I used three boxes with great benefit. In a short time I gained eleven pounds, and as I was very thin when I began to use the remedy I was very proud of the increase of weight.

"Then the following spring I became rather poorly, and they again built me up, and gave me such a good appetite that I wanted to eat nearly half the time I was so pleased with the cure the Nerve Food brought about that I recommended it to others and they have told me of the benefits they have obtained from this preparation. You may use this testimonial in order that others may learn of the good there is in Dr. Chase's Nerve Food."

If you have been affected as Mrs. West has, if you are not feeling strong and well, you will be surprised at the good that Dr. Chase's Nerve Food will do you. It puts color in the cheeks, rounds out angular and wasted forms, and brings new hopes, new confidence, and new life to take the place of despondency, weakness, and disease. 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmondson, Bates & Co., Toronto.

STYLE AND THE OAR.

To sit upon a seat
With the straps about your feet,
And to grasp an oar and use it, to re-
cover and to slide,
And to keep your body swinging,
And to get the finish ringing,
And to send the light ship leaping as
she whizzes on the tide;

To make the rhythm right
And your feather clean and bright,
And to slash as if you loved it though
your muscles seem to crack;
And, although your brain is spinning
To be sharp with your beginning,
And to leave your solid body inde-
fatigably back.

To seek your bed at ten,
And to tumble out at dawn,
When the clock is striking seven and
the winds of March are chill;
To be resolute and steady,
Cheerful, regular and ready
For a run upon the Common or a
tramp up Putney Hill;

To sink yourself and be
Just a unit, and to see
How the individual withers and the
crew is more and more,
And to guard without omission
Every glorious tradition
That the ancient heroes founded when
they first took up an oar.

In short, to play the game
Not so much for name or fame
As to win a common honor for your
colors light or dark.

'Oh, it's this has made your crew-
man
Such a chivalrous and true man
Since that day Father Noah went
a-floating in the Ark.

R. C. Lehmann in Punch.

CONSOLATION FAILED TO COME.

This story is told on a prominent club woman, says the N. Y. Sun. The woman in question makes up in brain what she lacks in beauty. And her husband offers that rare combination, cleverness and good looks. The woman was not unaware that comments were made on her husband's choice of a relatively plain looking wife and she determined to test the matter at first hand. So, one morning, she turned to her butler, who had been with her so many years, so as to render her question less odd than it would otherwise have been, and said: "John, did you never wonder that so handsome a man as Mr. X— chose me as a wife from so many prettier women?" Then she waited to have her soul comforted by allusions to her sweet smiles and winning ways. She waited in vain, however, for John, carefully refraining from giving his own opinion, merely replied: "Well, missus! De ways of de Lord am past findin' out."

Children Cry for CASTORIA.

TYPOGRAPHICAL ERRORS.

From a Maritime paper our eagle-eyed "clippie" snips out the following and wants to know if the long word in the second line is spelled correctly. "There were five large dancing stages, and on these the herpetochorion art was indulged in by young and old to the strains of excellent violin music."

The Colonist is in for a libel action, surely, having announced that "Professor McMillan and a party of thirty botanists" had gone on an excursion, instead of "Professor McMillan and a party of thirty botanists,"—Victoria, B.C., Colonist.

The other day a Mr. Avery was married to a Miss Small. A sub-editor headed the report of the ceremony, "A Very Small Wedding," but the compositor knew better, and set it up as "A Very Small Wedding."

"I wish to say to the congregation," said the minister, "that the pulpit is not responsible for the error of the printer on the tickets for the concert in the Sunday school room. The concert is for the benefit of the Arch Fund, not the Arch Fiend."—Canadian Printer and Publisher.

INDIAN TRAPPERS OF THE FAR NORTH.

Arthur Heming in Scribner's.

The going and coming of the fur brigade was one of the great events of the year to those nomadic people who stood watching the fast-vanishing flotilla. Were they not bidding farewells to fathers, brothers, sons, or lovers, chosen as the best men from their village of over 400 souls? Had they not had a hand in winning the treasure that was floating away? If only the pelts in those packs could speak, what tales they would unfold. During the early part of the previous autumn the Indians, with their families, dogs, and a few belongings loaded into canoes, had set out for various points in the surrounding wilderness. Then, as the little groups gradually separated, each family independently struck off in different directions, and, at last, after many days of paddling, poling, tracking and packing up, the wildest rivers, and with blanket and sails skimming over unnamed lakes, they reached their "land" just as the spirit of winter was sweeping over that great lone country and covering the silent waters and whispering forests over with her mantle of white. All winter long they had toiled with sleds, and hunted and trapped on snowshoes. Each family had trapped on the lands bounded by certain streams, the right to which had been handed down from past generations. Constantly they had moved their bark wigwams as their "marten roads" played out. Sometimes there had been feasting—when moose or caribou were near—but oftener fasting. As the short days of that long season slowly passed, the Indians gradually added to their pile of skins. At last the days lengthened, the snow sank away, the lakes opened, and the rivers once more ran free. Sleds were cast aside, canoes were patched up or new ones built, and the long journey to the post begun. But then it was easier travelling in the spring, for the water was high and the current right.

A cross old bachelor says the proper way to bring up children is to keep them down on all possible occasions.

A HEAVY SENTENCE.

CHARBONNEAU, CONVICTED IN
HALIFAX OF MANSLAUGHTER,
WILL SPEND TWELVE YEARS
IN THE PENITENTIARY.

Halifax, Oct. 24.—At Sydney to-day Horace Charbonneau, of Quebec, who was convicted of manslaughter, was sentenced to twelve years in the Dorchester Penitentiary.

CURIOUS INDUSTRY NEAR OMAHA.

Probably the most unique mine in the world is located within two miles of Omaha, Neb. Others have dug and washed for gold, silver, copper, iron, etc., but the owners of the mine in question, which is a placer, are mining for shot, and the finished product is turned out in quantities to earn a neat income for the workers.

Across the Missouri are located the Omaha Gun Club grounds, where frequent "shoots" have been held for the last twelve years. Some time ago A. H. Cooley, formerly Superintendent of the Barton-Nash Stone Company, and Thomas Britton, formerly Vice-President of the Britton Engine Company, were walking over these grounds and noticed that at a certain place the earth was covered with a layer of shot. At once the idea came to them that there was a paying mine if they could secure the right to work it, and keeping their discovery secret, they called upon the officers of the club and proposed to lease that particular spot for mining purposes.

They were laughed at, but secured the lease. It included a tract of ground extending from the shooting box, a distance of 300 feet, with about 300 feet on either side. It is over this tract that the shot intended for clay and live pigeons fly. How much of it has been buried in the ground is a question still to be determined. One thing, however, is certain, there is a great quantity of it, and the owners of the unique mine are taking out on an average of 300 pounds a day in working space not exceeding twelve by fifteen feet.

As soon as Cooley and Britton secured their lease they purchased a gasoline engine of two horse-power, with pump combination. Then they drove a well, striking an abundant flow of water at a depth of twenty feet. This done they constructed their sluice-boxes and were ready for work.

THE MODS OPERANDI.

As the shot is embedded in the ground to a depth of two feet, all the earth has been washed over. To do this it is shoveled into a sluiceway, 6 feet wide, 12 inches deep, and 15 inches high, standing on four legs about three feet above the ground. Water from the pump is turned on and the dirt is loosened, allowing the shot to drop to the bottom while the dirt is washed out at the end of the box.

When the greater part of the earth has been washed away, the deposit in the bottom of the sluice, consisting of shot, stones and other foreign substances is placed in a second box with a wire netting bottom. Here a second washing is given, after which the stones are picked out and the shot spread upon boards to dry. The shot is then placed in bags holding fifty pounds each, and is taken to the foundry. There it is recast into perfect shot or into lead bars.

The resurrected shot sells for \$3.50 for 100 pounds, a price a very little less than virgin lead. This difference in price is due to the presence of antimony, which must be removed before casting. Selling at this price, the two men are clearing \$10 a day, and some days by working extra hard, they net as much as \$15.

CHURCH SERVICES.

CATHEDRAL OF THE HOLY TRINITY.—Sunday, 26th October.—Holy Communion at 8 a.m. Morning Prayer and Litany at 11 a.m. Children's Service at 3.30 p.m. Evening Prayer at 7 p.m.

ST. ANDREW'S CHURCH.—PUBLIC worship to-morrow at 11 o'clock a.m. and 7 o'clock p.m. The Rev. A. T. Love will preach. Strangers welcome.

Lame Back? UNHEALTHY KIDNEYS!

Bright's disease, diabetes, rheumatism, rheumatic gout, uric acid poison, jaundice, gravel, catarrh of the bladder, painful passage of the urine, a frequent desire to urinate especially in the night, a dull, drubbing pain in the small of your back, pains in your groins, and the lower bowels, sore joints, and muscles, dizziness, pains in the back of your neck, torpid liver, eczema and scrofula, yellow, sallow complexion, coated tongue, tired, worn out feeling, lack of energy and ambition, are all caused by a weak, unhealthy condition of the kidneys.

If you have any of these symptoms, or if you feel badly, begin taking Warner's Safe Cure, the world's greatest kidney cure, which has a record of over 30 years' of successful cures of all these diseases; a trial will convince you that it is the only cure.

IF IN DOUBT MAKE THIS TEST.

Put some morning urine in a glass or bottle, let it stand for twenty-four hours; if there is a reddish sediment in the bottom of the glass, or if the urine is cloudy, or if you see particles or germs floating about in it, your kidneys are diseased and you should lose no time; get a bottle of Warner's Safe Cure, as it is dangerous to neglect your kidneys.

Remember, take Warner's Safe Cure, all other so-called kidney cures are imitations.

Warner's Safe Cure is purely vegetable and contains no narcotics or harmful drugs. It is free from sediment and is pleasant to take. (Be aware of so-called kidney cures, which are full of sediment and of bad odor, they injure the system.) "Safe Cure" does not constitute.

Warner's Safe Pills move the bowels gently and aid a speedy cure.

Warner's Safe Cure is what you need. You can buy it at any drug store, two regular sizes, 50 cents and \$1.00 a bottle.

Alderman Stubig Gratefully Tells How This Wonderful Medicine Cured Him of Bright's Disease.

"144 Rescoe Boulevard, Chicago, Oct. 19, 1900. Gentlemen: About two years ago I had one foot in the grave as the saying goes, and life looked pretty black to me; the doctors called it Bright's disease. I would give all I had to be cured, but nothing seemed to do me much good until a neighbor recommended that I try Warner's Safe Cure. It was with but little hope that I tried it, but within two weeks my health was improved and in four months I was completely cured. I hardly dared to believe that such good fortune was mine, but I have not lost a meal nor had an ache or pain since. Words seem but poor to express my gratitude. Yours truly, H. M. STUBIG (Alderman, 27th Ward.)"

TRIAL BOTTLE FREE

To convince every sufferer from diseases of the kidneys, liver, bladder and blood that Warner's Safe Cure will cure them, a trial bottle will be sent absolutely free, postpaid. Also a valuable medical booklet which tells all about the diseases of the kidneys, liver and bladder, with a prescription for each disease, and many of the thousands of testimonials received daily from grateful patients who have been cured by Warner's Safe Cure. All you have to do is to write Warner's Safe Cure Company, 44 Lombard street, Toronto, and mention having read this liberal offer in this paper. The genuineness of this offer is fully guaranteed by the publisher.

LABYRINTH OF THE MINOTAUR.

The story of the Minotaur and the interminable labyrinth in which the dread monster roamed has hitherto been classed among the choicest specimens of Grecian mythology, but the prevailing attitude must now be amended in view of the recent discoveries in Crete.

There, in the region which was unquestionably part of the dominions of King Minos, W. Arthur Evans, the distinguished archaeologist and representative of the Cretan Exploration Fund, has unearthed at Knossos (the Cnosos of the classics), what he believes to be the renowned labyrinth. The nature of the subterranean passages themselves and other indications appear conclusively to confirm the explorer's theory. Legendary history having thus been proved correct in respect to the last of the bull-man, the existence of the Minotaur itself can no longer be lightly dismissed as a mere fable.

Additional confirmation of the authenticity of the labyrinthine passages is found in the fact that these are not only in the territory of the redoubtable monarch, but are actually within the borders of his great palace of Knossos (the Cnosos of the classics.)

The palace has been found to be an immense structure, extending over fully five acres. There are numerous labyrinthine passages, great courts, and spacious halls and staircases. On the north side there is a great portico whose imposing appearance is added to by double rows of six columns. The approach to the portico was evidently made by a road from the coast through the valley. On the inner side there is communication with the central court by means of a stepway, which is flanked by bastions of immense square stones having on them representations of tridents.

The story of the Minotaur is probably the most repulsive to be found in all the range of classical literature. The grim monster, half man and half bull, was the offspring of Pasiphae, the wife of the King of Minos. The man-eating monstrosity had the body of a man and the head and voice of a bull. It walked upright and roamed through its labyrinthine lair making hideous noises which were accentuated by the cavern echoes.

Winnipeg, Oct. 24.—A Free Press special from Helena, Mont., says that international complications between Great Britain and the United States are likely to follow the action of the Canadian Mounted Police in driving back into the United States a big band of wandering Crees Indians, right hand wards of the Canadian Government who are terribly afflicted with small-pox.

Z. PAQUET'S Departmental Stores

BUTTERICK

We sell the famous Butterick Patterns and take annual subscriptions to the following fashion publications, viz.: "The Metropolitan," "Delineator," "Mirror of the Modes" and "The Glass of the Fashion."

THESE STORES
CLOSE AT 6 p.m.,
Saturdays and

THE STATEMENT OF HON. MR. TARTE

As Published by La Patrie on Thursday

HIS DEPARTMENTAL LABOURS

A COMPLETE LIST OF WHAT HE HAS ACCOMPLISHED SINCE HE TOOK OFFICE AS MINISTER OF PUBLIC WORKS—TRANSPORTATION IMPROVEMENT—THE BASIS IDEA OF HIS ADMINISTRATION.

Under the heading of "A Word to the Country," La Patrie of Thursday published the following over the signature of Hon. J. I. Tarte:

"The incident is closed...to the satisfaction of many people.

"The Conservatives rejoice at my resignation. That is legitimate. They think it will increase their chances of success.

"What then would an opposition exist on if they did not have hopes?

"Some of our political friends hail my retirement with content.

"Others—and I thank them with all my heart—have shown me the warmest sympathy.

"I am decidedly one of the most interested parties in the matter. I declare myself content.

"I leave the cabinet without regret, without pain, without bitterness, against anybody.

"I have tried to do my duty.

"For more than six years I have been in the Department of Public Works. I labored hard during the day. I worked late into the night.

"I had at heart the advancement of the great cause of our national means of transportation. This has been the basic principle of my administration of affairs.

"The equipment of the port of Montreal, the principal port of Canada, is on a fair way to be accomplished. The bases of a strong organization are laid.

"During the last six months, the Grand Trunk has elected its domicile in the western part of the harbor.

"The Canadian Pacific Company has located, in the East End, shops which will employ from eight to ten thousand men.

"The Harbor Board is pursuing with activity, the completion of our wharves and the construction of an extensive elevator.

"There remains the construction of permanent warehouses, and railway tracks to supply them.

"The deepening, the widening—of the St. Lawrence between Quebec and Montreal, to thirty feet deep and four hundred and fifty feet wide, is half finished.

"The department which I have just left has at its disposal, to finish this essential work, the finest fleet of dredges, of tugs, of stone raisers, that exists on this continent.

"At Sorel, the Government possesses a well-equipped ship building yard able to meet all the requirements of the fleet, and to carry out whatever new works may be necessary.

"My successor will only have to obtain from Parliament the money necessary to pay the crews of the fleet whose work, this year, will represent about four million cubic yards.

"The capacity of the dredges now at work in the St. Lawrence is over a million cubic yards per month.

"Port Colborne and the ports of the Great Lakes needed preparation for the trade which we can attract to the St. Lawrence.

"The works at Port Colborne are three-quarters done so far as the Department of Public Works is concerned.

"At Collingwood, at Parry Sound, at Midland, at Goderich, at Meaford, etc., works of improvements have been executed or are being carried out.

"I had resolved to give to Fort William and Port Arthur a first class organization. These two ports, which really form but one, are destined to be the centre where the products of the East will be exchanged with those of the West.

"At the present moment a powerful dredge is under construction at Sorel, with a view of improving the ports of the Maritime Provinces, that of St. John in particular.

"The port of St. John is, in point of winter traffic, the national port of Canada.

"My colleagues have at this moment, before them, tenders for important work to be done at Quebec, in view of the establishment of a fast steamship service.

"At Three Rivers, the contract for important improvements has been given.

"We must have, from the west to the east, from one end of the country to the other, a complete system of transportation.

"There are no indispensable men. I will easily be replaced. There are, in the Liberal party, men who will give Sir Wilfrid Laurier their undivided support.

"I wish that my successor may do more and do better than I did.

"I see that some reproach Sir Wilfrid Laurier for the tone of the letter which he addressed to me.

"The Prime Minister is fatigued—harassed—ill. The undeniable harshness of some of his words by no means changes my personal feelings towards him. I have grown old enough to take the circumstances into consideration.

"The Prime Minister has no right to tell me that I had failed in loyalty towards my colleagues, in using the language which I recently did on the fiscal question.

"To this unjust reproach, I have the right to oppose the numerous speeches which I made, in the same sense, during the last few years.

"I did not organize a campaign in Ontario. I went into that province last year and this summer at the urgent invitation of the agricultural societies, of the chambers of commerce, of ministerial members.

"I had been represented, during the elections of 1900, especially, as a man who was disloyal to his Sovereign.

"I seized every possible opportunity to dispel that prejudice, which had no justification for its existence.

"If these who held the strings of the political organization in Ontario in 1900 had not prevented me from going to speak in that province, I am sure that the results of the last electoral battle there would not have been the same in many counties.

"I appeal on this point to the Liberal deputation, to our friends in the different district of Ontario.

"There is loyalty and 'fair play' among the English population. If I had been heard, I would not have been condemned.

"I had an ardent desire not to allow the cruel suspicion that I was not a loyal subject of His Majesty to float over my head.

"I went to Ontario, I opened a great many fairs. I spoke there. I discussed the questions of transportation and the tariff as I had done in the past.

"It is possible that I overshadowed somebody, that unintentionally I wounded some susceptibilities.

"I have been bitterly reproached for meddling with things which were under the control of other departments than my own.

"From my seat in Parliament I will ask my colleagues to reply to me for this malevolent attack.

"Indeed, when my officers reported to me that a dozen buoys were out of place in the St. Lawrence, I made it my duty to write without delay to my colleague, the Minister of Marine and Fisheries.

"Indeed, when during my voyages on the lakes, in the river, in the gulf I was impressed with the need of more buoys, more lighthouses, I addressed myself to the Minister who has charge of this important work.

"Indeed, when people have asked me in my own province, especially, to see that this or that service—such as a post office, for example—should be improved in this or that district, I naturally went to my colleague, the Postmaster-General.

"I have been for nearly thirty-five years a journalist. I have travelled much throughout Canada. It was natural that people should apply to me.

"The French groups in various sections of the Confederation have often entrusted me with difficult and delicate missions. I have fulfilled them to the best of my ability.

"I have, in all this, endeavored to serve the interests of my country, of my race and of my party.

"There are times when a Minister who knows that he represents considerable interests is obliged to hold firm, at the risk of creating opposition to himself. At the beginning, my situation was especially embarrassing. I had belonged for a long time to the Conservative party. If anything happened, or did not happen, which was displeasing to certain groups, it was I who was the culprit; I was a Conservative.

"I would not desire my worst enemy to have to travel the road which I have been forced to cover. My re-entering into private life is not a surprise for those who are among my intimate friends. I desired to retire before the elections of 1900; I have desired to retire since then.

"I yielded to the pressing solicitations of my personal friends, and I remained.

"The constitutional pretext, which is the cause of my departure, is nothing but a shallow argument.

"I thank Sir Wilfrid Laurier for having done me the honor to confide to me the important portfolio of Minister of Public Works in July 13, 1896.

"I have learned to know my country, its immense resources, its responsibilities for development.

"My experience will not be lost. I shall utilize it in my career as a journalist, and as a member of Parliament.

"I have served my leader and my party faithfully, loyally, honorably.

"For one or the other, I have never spared my time, my energy or my devotion.

"My views on the fiscal situation which confronts this country are, I have the profoundest conviction those of the very great majority of the Canadian people and of the Liberal party.

"A tariff of defence for our national interests, of firm protection, without ambiguity, for our industries, our agriculture, our working classes.

"That is the policy of to-morrow.

"That is the policy which I will continue to defend with my pen, with my speech, and from my seat in Parliament.

J. ISRAEL TARTE."

THE MODERN MOTHER.

Has Ways of Caring for Baby That Our Grandmothers Never Knew.

Many almost sacred traditions of the nursery have been cast aside by the up-to-date mother. Even the once essential cradle is now seldom found in the house blessed by baby's presence.

The modern baby is not fed every time he cries, but when the clock announces the proper time. The doctor approves of this and baby is better for it, but despite regular hours for feeding, nearly all the disorders of infants are caused by derangements of the stomach and bowels. Mothers' greatest problem is a treatment for these ills that will be gentle but effective, and above all, safe. Mrs. J. W. Bailey, of Lead Lake, Ont., writes from the fullness of experience when she says: "I have used Baby's Own Tablets for my six months old baby who was troubled with indigestion. The results were beyond my expectations. Words cannot convey to those who have not tried them the worth of these Tablets. I will never again use any other preparation for the baby, as I am convinced there is nothing so good as Baby's Own Tablets."

These Tablets are a gentle laxative and comforting medicine for infants and children. They are pleasant to take and are guaranteed to contain no opiate. If your druggist does not keep Baby's Own Tablets send 25c. to the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y., and a full sized box will be mailed, post paid, to your address.

ECONOMIZE.

You can economize by going to Faguy, Lepinay & Frere. You save your time and your money.

Five Points of Superiority in "Famous Active" Ranges.

- 1.—Ventilated oven.
- 2.—Thermometer in oven door.
- 3.—Broiling and toasting door.
- 4.—Basting door in large oven door.
- 5.—Sectional cast-iron linings.

These are all practical features—not mere claims, as in common ranges.

Before buying a range see that it has all these features—they are indispensable to good cooking, and the "Famous Active" costs no more than ranges that have no "Famous Active" special features.

Write for booklet.

COLOSSAL PAIN.

Ethel, who is between six and seven years old, went to the circus with her father not long ago and for the first time in her life saw an elephant. As the little girl gazed with open eyes on the animal's huge bulk she sighed and, turning to her father with a pathetic look on her face, said: "I'd hate to have a elephant's stomach ache!"

AN IDEAL MEDICINE. A New Discovery Which Cures all Forms of Catarrh.

The tablet is the ideal form in which to administer medicine, but until recently no successful catarrh tablet had ever been attempted. There is now, however, an excellent and palatable remedy for catarrh in tablet form, known as Stuart's Catarrh Tablets and sold by druggists, composed of the most recent discoveries in medicine for cure of catarrh and results from their use have been highly gratifying.

The old time treatment of catarrh was in the form of inhalers, washes, douches, sprays, etc. Later on internal remedies were used with greater success, but being in liquid or powder form were inconvenient to use and like all medicines in liquid or powder form, lose their medicinal properties when opened or exposed to the air.

Stuart's Catarrh Tablets, contain highly concentrated antiseptics, Hydrastin, Blood root, and Red gum which kill the catarrh germs in the blood and mucous membrane, and in this respect are strictly scientific and modern, because all authorities are now agreed that catarrh is a constitutional blood disease, and local applications can have only a transitory effect.

The use of inhalers, douches and sprays is a nuisance and inconvenience and can in no wise compare favorably with the same antiseptic given in tablet form internally, where they can reach the stomach and blood and kill catarrh germs right where they are produced.

A prominent lawyer and public speaker of Pittsburgh, says: "I have been troubled with catarrh of the head and throat for twelve years. In this climate it seems impossible to get rid of it. The continual dropping of mucus from the nose into the throat caused irritation and hoarseness, seriously interfering with my public speaking. It took me an hour or more of coughing, gagging, expectorating and sneezing every morning before I could settle down to work and this condition gradually brought on catarrh of the stomach, causing loss of appetite, poor digestion and a foul breath, which annoyed me exceedingly. My physician advised me to try Stuart's Catarrh Tablets and I took them for two months and was astonished to find how quickly they cleared my head, throat and stomach and I have no hesitation in recommending them. They are not only pleasant to take, but they seem to get at the very root of the trouble, because since using them I have had no trace of catarrh."

Druggists sell Stuart's Catarrh Tablets at 50 cents for full sized package. They can be carried in the pocket and used at any time and as often as desired since they contain no cocaine, mercury or any other injurious drug.

COSTUMES AND MANTLES.
Nothing to equal the assortment that the firm of Faguy, Lepinay & Frere has just received.

BUSINESS INSTINCT.

A Wall Street Man's Trade That Was Not a Bad Bargain.

A prominent Wall street man told the following story on himself the other day, but made his hearers promise that under no conditions would they reveal his name, as he did not wish to be bothered by the beggar who figures in the story:

The Wall street man was walking with a friend down Broadway when at Twenty-third street he was accosted by a beggar. The beggar was more persistent than the ordinary mendicant, and to get rid of him the broker said: "I will give you 50 cents if you will give me your coat."

"All right, boss," replied the beggar, and within a moment the change had been made.

The broker and his friend then turned back and went up Fifth avenue to their hotel. Still carrying the beggar's coat, the man of finance strolled into the lobby and began telling the story to his friends.

"I think you made a bad bargain," said one.

"Look in the pockets," said another. And as the broker went through the ragged garment he pulled forth 45 cents in money, a silver tipped pipe, a flask of whisky and a pouch of tobacco.

"You see," he replied, "this only proves that I never make a bad trade, even when I don't know what I am buying."

Buenos Ayres, Argentina, Oct. 24—A hurricane swept over Port District, province of Entre Rios, between the rivers Uruguay and Parana. Fifteen persons were killed and many injured. A hundred houses were destroyed and several ships sunk.

NEW YORK STOCK MARKET.
New York, Oct. 24.—Some relief was felt to-day over the greater ease in call money and foreign exchange rates, but there was no demand for stocks and the list was irregular and flat throughout. The rise in the price of coal and further rumors of labor troubles in various parts of the country were among the few developments of the day. The strong features of the opening were Lackawanna, Reading common and second preferred, Baltimore & Ohio, and Toledo; St. Louis and Western issues. Operations in the last named stock were again believed to be largely manipulative and B. & O. soon lost its gain. Firmness was shown in such issues as Atchafalaya, Union Pacific, St. Paul, Missouri Pacific and Colorado Fuel and Iron. Trading was very light all through the morning session and fluctuations were narrow. The afternoon session brought no developments and such trading as was reported came from out of town. Call money ruled at between four and five per cent, but before the close of the day fell to two per cent, the lowest figures reported in some time. Demand sterling worked down to 456.40, and the great part of the day's business was on the selling side.

BANK CLEARINGS.
New York, Oct. 24.—The following are some of the weekly clearings, as compiled by Bradstreet's for the week ending October 23, with percentages of increase and decrease as compared with the corresponding week last year:

	Montreal	Toronto	Winnipeg	Vancouver	Hamilton	St. John, N. B.	Victoria	Quebec	Ottawa	London
per cent.	52.1	56.3	17.3	17.2	23.5	18.0	18.1	15.5	43.3	93.7

BRADSTREET'S WEEKLY REVIEW.
New York, Oct. 24.—Bradstreet's will say of trade in Canada to-morrow: Canadian trade reports indicate general activity, particularly in the demand and shipment of heavy goods for fall and winter wear, and in the movement of grain from the West for export by water routes. Hope is expressed that the British embargo on Canadian live cattle shipments to interior English points will be lifted, which case a large business is looked for. Montreal reports that cotton goods are expected to advance in price and that a large export business in grain is looked for before the close of the navigation season. Toronto reports increased sales to the North-West, from which section the best is not yet known, because the wheat crop has only just begun to move. Trade is most satisfactory in British Columbia. Foreign capital seeking investment in real estate and in the lumber industry. Increased offerings of grain are reported in Manitoba and the supply of cars is already insufficient. The failures for the week ending 23, as against 15 last week and 16 in this week a year ago. The bank clearings for the week aggregate \$50,306,995, a gain of 22 per cent over last week and of 49 per cent over this week a year ago.

QUEBEC CLEARING HOUSE.
Total for week ending October 23rd, 1902: Clearings \$1,591,584
Corresponding week, 1901: \$1,377,526
Balances 244,090

OTTAWA CLEARING HOUSE.
Total for week ending October 23rd, 1902: Clearings \$2,402,901.84
Balances 806,679.92
Corresponding week last year: Clearings \$1,676,702.12
Balances 104,056.33

MONKEY BRAND SOAP removes all stains, rust, dirt or tarnish—but won't wash clothes.

DUN'S WEEKLY REVIEW.
New York, Oct. 24.—Dun's will say of Canadian trade to-morrow: Favorable weather stimulates outside building operations at Halifax, lumber moving freely, and trade is up to the average in general lines with prospects considered encouraging. Coal mines in Nova Scotia are busy, the output surpassing previous years. A fair trade is reported at St. John in dry goods, groceries and hardware. Country produce comes in slowly, as farmers are still harvesting crops, and trade in the outside districts is consequently retarded. Collections continue satisfactory. Wholesale trade is good at Toronto, sorting business in dry goods being active, and a large turnover is expected in winter groceries and payments are satisfactory. Sales in nearly all lines are greater than in the corresponding period of last year at Hamilton, with prices firmer. Collections are prompt. Heavy goods move briskly at Montreal, which will continue until the close of navigation, a month hence. Dry goods are active and fur houses have their resources strained to fill orders. Money comes in well. Trade is fair at Quebec and collections have good orders on hand for spring delivery. Trade is good in all lines at Winnipeg and collections are improving. Business is rather quiet at Vancouver, except that lumber and shingle mills are taxed to their full capacity. Retail trade and collections are only fair.

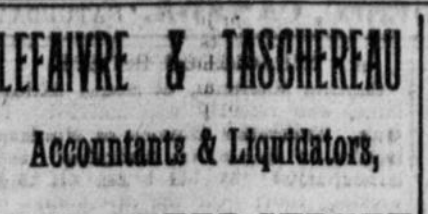

IMPORTS.

Local News.

FIRE AT HEDLEYVILLE.

A barn filled with hay, owned by
Joseph Thibault, at Hedleyville, was
burned on Thursday night last. A
cow also perished in the flames. Loss
about \$500.

MYSTERIOUS DISAPPEARANCE.

A resident of St. Sauveur, has dis-
appeared since two weeks past, and as
he was seen for the last time, at the
Louise Basin, fears are entertained
that he has fallen into the river.

FOR THE LADIES.

Messrs. Glover & Fry are making a
special display of Fancy Silks just
from the European looms. They are
also showing some novelties in Dress
Goods, Jackets, Waterproofs and Cos-
tumes.

SALE OF PROPERTY.

The property formerly owned and
occupied as a tannery by Mr. Norbert
Gemin, on Arago street, has been
sold to Mr. Migner, boot and shoe
manufacturer, of this city. The build-
ing, which originally cost about thirty
thousand dollars, was sold for \$3,500.

You are too kind to pay 25 cents a
bottle for shoe dressing, when you
can have the same for 20 cents, and
save 20 per cent. at Elzeur Turcotte's,
the grocer. All kinds on hand.

SERIOUS ACCIDENT.

Joseph Voiselle, ship laborer, who
resides at Cap Blanc, had his hip
broken yesterday while engaged in load-
ing the ss Hilda. The accident was
caused by the supporting gangway
falling upon him. The unfortunate
man was removed to his home in the
ambulance, where a physician was
called in to attend him.

BROKE HIS ANKLE.

William Kennedy, time keeper, had
one of his ankles broken yesterday on
the Louise Embankment. He was
standing in a shed where pulp was
being handled to load the ss Potomac
when one of the bundles fell upon his
leg with the above result. He was
conveyed to his home where he re-
ceived medical attention.

FELL FROM LADDER.

A painter named Jolicoeur, resident
of the Little River, while engaged in
painting a house, yesterday morning
on Boulevard Langelier, suddenly lost
his balance from a ladder and fell to
the ground, a distance of about twelve
feet. When picked up it was found
he had dislocated one of his shoulders,
besides sustaining an ugly cut
over the right temple.

AFTER CAR THIEVES.

Detective George Skeffington, of the
I.C.R., arrived in the city yesterday
to investigate a case of robbery from
the freight cars at Levis. Later he
proceeded to the Police Court in this
city and took out a warrant for the
arrest of certain parties he had every
reason to believe were the guilty
parties who had made away with a quantity
of goods.

HORSE BROKE ITS LEG ON ST. JOHN STREET.

Yesterday afternoon at 4.30 o'clock,
a horse with a two wheel cart attached,
owned by Mr. Joseph Mercier, Le-
vis, while proceeding along St. John
street, slipped and fell and broke one
of its legs. Mr. John Doddridge,
agent for the Quebec Society for the
Prevention of Cruelty to Animals hap-
pened in the vicinity, and put an end
to the animal's sufferings by shooting
it, when the carcass was removed.

A RAVING MANIAC.

On Thursday last, Constable Maran-
da, of the Levis police, was assigned
to proceed to St. Louis de Pintendre,
and convey a resident of that parish,
George L'Arrivee, aged 55 years, to the
Beauport Asylum. L'Arrivee, twenty-five
years ago figured prominently in the
Guinette murder case as the
principal Crown witness against two
brothers, who were tried and ac-
quitted. He has been insane for years
past, but of late become violent, and
when placed in the Asylum was a rav-
ing maniac.

BLOOD POISONING.

A young girl, named Lacombe, em-
ployed in one of the St. Roch's fac-
tories, is at present seriously ill from
blood poisoning. It appears that last
week her hat fell from her head, and
while in the act of replacing it, a
stick pin penetrated her left hand. She
paid no attention to the circumstance,
and two days later her hand com-
menced to swell and pain intensely,
when she called in a physician who
is now treating her for blood poison-
ing.

OBITUARY.

Another old Quebec landmark, in the
person of Mr. Joseph Dube, a former
well-known hotel-keeper of this city,
died yesterday at the residence of his
son, Mr. J. E. Dube, proprietor of the
Red Cross Pharmacy, corner of
Palace and St. John streets. Deceased
was a familiar figure in the city for
many years, and though 74 years of
age, was in good health until a few
months past, when he took ill and
was confined to his room where he
died. He was popular among a large
circle of friends and well liked for his
jovial, good-natured disposition and
upright character.

CITIZENS FUEL COMMITTEE.

At a meeting of the committee held
yesterday morning, it was decided to
ask the clergymen of the city to ac-
certain, as near as possible, the quan-
tity of wood likely to be required by
their parishioners who are not in a
position to pay the prevailing high
prices, thus giving them an opportu-
nity of obtaining their winter's supply
at cost through the Citizens' Fuel Com-
mittee.

This information to be furnished to
Mr. T. H. Norris, Maple Avenue, not
later than Wednesday, the 29th inst.,
as the committee meets on Thurs-
day, the 30th, and desires to be in
possession of as full particulars as
possible.

ROBERT STEWART,
Acting Hon. Sec. of Com.

A MIRACULOUS ESCAPE.

Captain MacInnes, of South African
fame, who recently was married to
Miss Wolferstan Thomas of Montreal
arrived in Quebec on Thursday last
accompanied by his bride, on their
wedding tour. On the afternoon of
the same day the happy couple de-
cided to go for a drive to the Mont-
morency Falls, but instead of em-
ploying a carter, they procured a rig
from Mr. P. Campbell's livery stables.
The captain and his bride left the Cha-
teau Frontenac in a dog cart drawn
by one of Mr. Campbell's most valu-
able horses. They proceeded through
the city to Bonaventure bridge, which
they crossed, and were proceeding
La Chaudiere at a lively rate, when
suddenly their horse swerved and ran
into a farmer's cart. The collision
was so violent that one of the shafts
of the dog cart snapped, and at the
same time the horse was thrown to
the ground. In the animal's efforts
to rise the dog cart was overturned,
causing the bride and groom to be
hurled into the ditch that runs paral-
lel with the roadway. Fortunately the
young couple were not injured, but
their clothes looked as if they had
run the gauntlet of a rough campaign,
ruffled and besmeared with dirt. They
were soon on their feet again, but
only to see the horse they had been
driving speeding along the road at an
awful pace. The horse, when it did
rise to its feet, started off on a mad
career, and was only stopped when
it was nearly exhausted. Captain
and Mrs. MacInnes returned to the
city and reported the accident, when
Mr. Campbell sent two of his men out
to bring back the horse and rig. The
horse was found but in a pitiable
condition, injured by the collision, and
will not be fit for work for months.
The dog cart, or rather its remnants,
was gathered together and brought to
the city, but it is questionable if it
can be repaired. Captain and Mrs.
MacInnes are still in the city, none
the worse for their experience.

FIRE ALARM.

An alarm from box 85, corner of
Massie and Caron streets, was turned
in this morning at 4 o'clock. No de-
tails were obtainable before the paper
went to press.

Children Cry for
CASTORIA.

A SOCIAL HOP.

At the Drill Hall last night there
was a most delightful hop tendered to
the participants in the Carnival of
Musical Romances by the management.
A large crowd was present, and all
had a jolly time. Refreshments were
served and the party broke up about
midnight.

READY TO CHANGE TRACK.

Mr. J. H. Walsh, General Passenger
Manager of the Quebec Central Rail-
way, arrived in the city yesterday
from Sherbrooke.

In conversation with a Chronicle re-
porter last night, Mr. Walsh said that
the management of the road had made
every arrangement for the changing of
its route from Scott's Junction to the
new Quebec bridge, and the work of
laying the track will be proceeded
with just as soon as the superstruc-
ture of the new bridge is commenced.
He was unable to state the exact lo-
cation that the track will be laid, as
several had been surveyed; this will
depend on acquiring the right of way.
Mr. Walsh said that the Quebec Cen-
tral Railway did a record business both
as to freight and passenger service
during the past year, and far in ex-
cess of the previous twelve months,
but admitted that the cost of opera-
tion was increased the same as other
railroads of the country. The great-
est success was the Boston and New
York service, the latter giving the
greatest satisfaction as well as hand-
some returns.

A LITTLE ACCIDENT

Toronto, Oct. 24.—The Mail and Em-
pire's Ottawa correspondent says that
when Sir Wilfrid Laurier boarded the
train at Rimouski on his return
from the old country, five resignations
were tendered him with the intima-
tion that they must be accepted unless
Mr. Tarte was dismissed. The five,
according to the correspondent, were
Messrs. Sifton, Mulock, Fisher, Tem-
pleman and Paterson.

A LITTLE ACCIDENT

Food that will safely and surely carry
a man through exhausting mental
work is worth knowing of.

A man in St. Louis, Mo., says:—
"In my work it is necessary to begin
at seven o'clock and work straight
through without lunch until two P.M.
You can readily see that this is a
strain on the ordinary person, and I
was frequently worn out and sick
with hunger and weakness. On nume-
rous occasions when two o'clock came
round, I was so utterly exhausted and
unstrung as to be forced to lose the
remainder of the day, and that carried
with it a loss of money."

The first package of Grape-Nuts came
into our house a little over a year
ago by accident. There has been one
by design ever since that time. Al-
most immediately after beginning to
use Grape-Nuts, I felt its good effect
in my ability to work those long
hours in comfort. There was no sick-
ness or weakness, and no loss of time
from exhaustion. In my business, it
is also necessary to work every Wed-
nesday night of each week. The
change from day to night work and
then back again is certainly no light
call on the reserve force of any one,
and my invariable preparation for this
task is a generous saucer of Grape-
Nuts and cream, a light lunch but a
most sustaining one.

An old friend was visiting me recent-
ly, and while eating the evening meal,
I was extolling Grape-Nuts to him.
He rather doubted the deliciousness of
the food. My three children, aged
four, six and eight years, were at the
time watching a large cream cake
on the table, and enjoying in anticipa-
tion the treat. I asked the three
which they would prefer for dessert—
cream cake or Grape-Nuts. Without
hesitation, they answered in chorus,
"Grape-Nuts." My friend was con-
vinced.

The only breakfast the children have
is Grape-Nuts and milk, and you
could not find a more hearty trio.
Name given by Postum Co., Battle
Creek, Mich.

TIRED OUT.

There's many a farmer's wife sits on the
porch in the growing shadows of a sum-
mer evening, knowing to the full what it
is to feel tired out; as if there was not
another ounce of effort left in her. But
she knows how sound her slumber
will be and how refreshed
the morning will find her. That's the
tiredness of a healthy
woman. But it's another
thing for the sick woman to
feel tired out. Rest only seems
to increase her aching nerves.
Sick women, hundreds of thousands of
them, have been made well by the use of
Dr. Pierce's Favorite Prescription. It
establishes regularity, dries weakening
drains, heals inflammation and ulceration
and cures female weakness.

"Words cannot tell what I suffered for thirteen
years with uterine trouble and dragging-
down pains through my hips and back," writes
Mrs. John Dickson, of Grenfell, Assiniboia Dist.,
N. W. Ter. "I can't describe the misery it was
to be on my feet long at a time. I could not eat
or sleep. Often I wished to die. Then I saw
Dr. Pierce's medicine advertised and thought I
would try them. Had not taken one bottle till
I was feeling well. After I had taken five bottles
of 'Favorite Prescription' and one of 'Golden
Medicinal Compound' I was like a new woman.
Could eat and sleep and do all my own work."

The Medical Adviser, is sent free on
receipt of stamps to pay expense of cus-
toms and mailing only. Send 31 one-
cent stamps for the book in paper covers,
or 50 stamps for the volume bound in
cloth. Address Dr. Pierce, Buffalo, N.Y.

Mainly About Persons

Mr. E. W. Varney, jr., is a guest at
the St. Louis.

Mr. Gillies, M.P.P., Pontiac, is a
guest at the Chateau.

Sir A. P. Caron registered at the
Chateau, yesterday.

Mr. K. P. McCaskill, of Montreal,
arrived in town yesterday, and regis-
tered at the St. Louis.

Mr. and Mrs. St. George Boswell,
left yesterday afternoon by ss Lake
Erie, for a trip to Europe.

Hon. Mr. H. G. Darroll arrived in
town last evening, and is registered at
the Chateau.

Mr. and Mrs. Miss Birchell, of Mon-
treal, are registered at the Chateau
Frontenac.

street, as all outstanding business
must be settled before Monday night's
production.

New Dress Goods,
New Trimmed Hats,
New Suitings,
5 per cent. Discount for Cash.
GLOVER, FRY & CO.

ATTRACTIONS AT MONTMORENCY
FALLS.

The 6th Regiment Band will play on
the Kent House Grounds, Sunday
afternoon, October 26th. The Zoo-
logical Park in connection with Kent
House contains the following fine
specimens: four buffalo, four moose,
four bears, eleven foxes, one beaver,
three ground hogs, four owls, three
hawks, and several other small ani-
mals. Electric trains will run every
half hour during the afternoon.

SEATS FOR MASCAGNI.

The visit of the Great Mascagni,
with his immense Opera Co., of one
hundred and sixty performers, to Mon-
treal, has aroused extraordinary en-
thusiasm, not alone in the big Metro-
polis, but here and all the big cities
convenient to Montreal. That
society will be there as well as every
music-lover that can possibly attend
is already assured by the booking of
seats and boxes. The Arena will be
well worth visiting on Oct. 31st or
November 1st. Mascagni has selected
for his first appearance in Montreal,
his most famous work, "Cavalleria
Rusticana," and the less well-known
but equally beautiful "Zanetta." Each
is one long act so that the two to-
gether make up an evening's enter-
tainment of the usual length. "Caval-
leria Rusticana" without a doubt, is the
most popular opera which has
been produced in the last twenty
years, and it probably will be in the
repertoires of all the great opera
houses when most of the other works
known to-day are forgotten. "Zanetta"
was never given in America be-
fore Mascagni produced it here. Italy
had long ago proclaimed it one of the
master's best operas, and it seems
that this verdict will stand in this
country. None need be surprised if
it rivals "Cavalleria Rusticana" in
popularity. The story was taken
from Francois Coppée's little play "En
Passant," produced by Sarah Bern-
hardt at her Paris theatre.

PICKING OUT A SHOE

is a matter of great importance.
If you don't know the dealer you are
liable to get left. What you buy here
you can bet on. We keep

All Kinds of Shoes,

except the inferior kind. You will
find every new shape a style worthy
of consideration, in our stock for men,
women and children.

Our prices are less than good shoes
are worth
