The sugar social under the auspices of the Young Ladies' Circle and given by Messrs. A. J. Cromwell, W. G. Cross, E. B. Fischer and Chas. McKee, was a great success. Some 75 people partook of sugar and snow, and the other dainty refreshments provided by the hosts. A splendid time was spent by everybody. The receipts were \$7.60, which was added to the treasury of the organization.  
Mr. T. E. Garcon sold poultry to the amount of \$72.60. These were all raised in an incubator.  
Masters Harold and Willy O'Neill have returned from a trip to Windsor, Danville and Richmond, visiting relatives.  
Messrs. It was left in the hands of the councillor whose term is up, viz., De. McHarg, to see that every person having a vote is notified by printed flyers or otherwise as he sees fit, that there is a meeting to be held for the purpose of choosing a candidate. The meeting then adjourned until to-night at 7.30 in the Town Hall.

### EASTERN TOWNSHIP NEWS.

The various lumber camps in Magog Township and vicinity are now in the height of their busy season and judging from the lumber being brought out of the woods, the spring of 1907 will not be far behind that of other years.

Mr. Frank L. Ball, of Rock Island, who has been employed in a Boston broker's office during the past few years, has gone into a sanitarium on account of a pulmonary weakness which has developed lately, as the result of too close application to work.

The twentieth anniversary of the marriage of Mr. and Mrs. Maxime Molway, of Stanstead, was celebrated at their home on Monday night, when about two hundred of their friends gathered to do them honor. Mr. and Mrs. Molway were the recipients of a handsome silver service.

A regular meeting of the municipal council of Rock Island was held on Monday evening, the full board being present. The secretary-treasurer submitted the annual financial statement which was considered satisfactory. The liabilities of the town amounted to \$979.14, while the uncollected taxes aggregated \$926.74.

At the Rock Island Council meeting Monday evening a resident of Railroad street complained of the dangerous condition of that thoroughfare due to its use for sliding. The boys, he said, paid no attention to the signs recently put up. It was thought that an example would have to be made of some one and instructions were given for the arrest of offenders in the future. Similar state of affairs exists in other towns.

Mrs. M. Harvey, of Rock Island, met with an accident Saturday noon. While dipping water from a tub by the end of a high veranda, she slipped and fell a distance of about ten feet, striking her frozen leg side-hill, breaking her hip bone. Doctors Brown and Edgar were called and made her as comfortable as they could. It will be some time before she is expected to see her limb. Her daughter, Mrs. Shurtieff, is staying with her at present.

The wedding took place this week at Magog at the home of Mr. C. E. Towle, D.L.S. The contracting parties were Mr. Thomas H. Bullard, of Knowlton, and Miss Edna Towle, daughter of Mr. and Mrs. C. E. Towle. The wedding ceremony was performed by the Rev. R. J. Fothergill. After their honeymoon the happy couple will reside in Boston. Although both were well known in Magog, the news of the wedding came as a sudden and pleasant surprise to all their friends, who wish to extend their congratulations.

Mr. W. A. Taylor, of Waterloo, celebrated his 51st birthday the second of January. Though his health is not robust, he is able to be about town during the day. He eats and sleeps well and has a good many years before him. He is the oldest living person who was born in Waterloo. When a young man speckled trout was as plentiful in Waterloo lake as perch are now. It is no fish story to say that he used to catch all the trout he wanted weighing from two to five pounds. Speaking of fish and fishing, Mr. Taylor has probably caught more fish in his day than any other man in the Townships, and he still casts a fly occasionally with skill and success.—Waterloo Advertiser.

The annual meeting of the proprietors of the Waterloo Cemetery Company was held at the office of Mr. G. Stevens, Monday, 7th January. The old board of Trustees was re-elected as follows: Messrs. W. A. Taylor, G. H. Allen, James Snodgrass, G. E. Robinson, H. W. Cook, A. H. Hill, David McKenna, E. Slack and G. Stevens. The annual statement of the secretary-treasurer was submitted and approved. It showed a balance on hand of \$146.85. At a subsequent meeting of the Trustees the following officers were elected for the ensuing year: Mr. W. A. Taylor, president; Mr. G. E. Robinson, secretary-treasurer, and the president and Messrs. H. W. Cook and A. H. Hill, committee of management.

At the caucus of Roman Catholic elections, Rock Island, Tuesday evening, the retiring councillors, Messrs. L. A. Lanctot and S. T. Fregene, were chosen to be their own successors, the choice according to precedent being equivalent to an election. About 35 electors attended the caucus. Mr. Fregene was desirous of retiring and made an effort to get out by favouring the appointment of Mr. James A. Gilmore, but the latter declined to enter the arena of municipal politics, and the council will remain unchanged. Councillor Ball's term of office expires with that of Councillors Lanctot and Fregene, but he will in all probability be returned by re-election. In fact he has been re-elected for the position of Mayor.

Anson Heath, of the Nor-West road, brought J. Larcen before the Justice of the Peace at Magog on Monday last on a charge of using threatening language, even threatening to kill him. The defendant, Larcen, was not able to have his witnesses present, so the case was put off until Wednesday afternoon, when the case was taken up again for further hearing. Both sides were represented by an array of witnesses that gave various and diverse views of the case as they saw it. Justice of the Peace Gould after deliberation dismissed the case with costs to both parties. He likened the case to that of the importance—merely a neighborhood quarrel that should not have been brought into court.

A public meeting was held in the opera house at Magog on Sunday last for the purpose of choosing councillors for the coming municipal elections on Monday next. The gathering, although nominally public, was actually a meeting of the textile workers and their supporters. The names of several influential men were brought forward who would be likely to run, but no decisive arrangement was arrived at. The keynote to the situation was revealed when certain speakers expressed

Miss McLeay, who has been visiting at her uncle's, Mr. McAulay's, returned to her home in Lingwick last week.

Several people are laid up with la grippe and both doctors are kept busy.

It is understood the Mr. A. McLachlan has been appointed to take charge of the new St. Paul's church, also of the Town Hall.

Miss Mamie McCanna was in Sherbrooke on Friday last to visit her mother.

On Saturday last while the cars which stood over the roadway were being unloaded of some of the sections of the new "Sawyer Bridge," several of the horses became unmanageable and revulsion was noticeable, though no one was seriously injured.

Dr. McLaue has returned from Montreal, where he has been visiting for a few days.

**EXPRESS AND TELEPHONE CO.'S.**  
WORKING OF THESE CONCERNS TO BE INVESTIGATED BY RAILWAY COMMISSION.  
Ottawa, Jan. 12.—When G. F. Shepley, K.C., gets through with the insurance companies he will find another job of public interest ready for his hand, that of investigating the express and telephone companies for the Railway Commission. Both these classes of business are now under the jurisdiction of the board, which is rapidly becoming a specie of commission for managing of such portion of the public business as the Government is reluctant to talk of. In each case the board's most urgent duty is to ascertain what the rates are to be regarded as fair, and to arrive at any conclusion an intricate examination into the accounts is necessary. It will be necessary to examine the capital involved, circumstances under which it was subscribed, proportion of capital which represents cash investment, expenses of operating, etc. Following the example of the insurance commission, which retained Mr. Shepley to conduct the technical examination, the Railway Commission expects to obtain the services of the same eminent counsel for this part of the work now confronting it.

**BOYCOTT FRENCH SCHOOLS.**  
OTTAWA KNIGHTS OF COLUMBUS UP IN ARMS AGAINST CLEMENCEAU'S GOVERNMENT.  
Ottawa, January 12.—The movement to boycott goods of French manufacture, as a means of remonstrance against the treatment accorded the Roman Catholic Church by the French Government, has taken root in this city. At its meeting on Tuesday evening last, Ottawa Council, No. 455, Knights of Columbus, adopted the following resolution:  
"Whereas the action of the French Government in enforcing the separation laws recently enacted against the Catholic Church, requires that drastic measures should be taken by Catholic societies and Catholics generally in entering their solemn protest against that Government for the manner in which it is persecuting the Church in France;  
"And whereas the most effective means in the opinion of this council, to bring this persecuting Government to a realization of the folly of its wilful plunder and desecration of the Church, is for the Catholics of this country to boycott all French manufactured goods, and other commodities;  
"Therefore, be it resolved that the members of the council pledge themselves and their families to refrain from purchasing any goods of French manufacture until such time as the said Government restores to the Church its full freedom and the property of which it has so wickedly been despoiled, and also pledge themselves to do all in their power to induce others to act in a similar manner."

**How We Look at Prescriptions**  
We believe that when a person is sick enough to demand the attention of a physician that his prescription is important enough to demand our most careful attention to every detail of its compounding. It is important enough to be filled with the best drugs, and no other drug should be substituted for any of those indicated by the doctor. Such prescription work produces the effect the doctor seeks. It is the kind of prescription work that you should insist upon having—it is the kind you get here without insisting.

Can you answer "NO" to any of these Questions?  
1. Dr. Hugo's Health Tablets for Women are the prescription used for sick and run-down women by a great specialist in diseases of your sex. Such a prescription ought to be a good one, hadn't it?  
2. The tablets are compounded just for women and contain the special tonics which your peculiar system needs. That should make them a better medicine for you than any sold alike for both men and women, shouldn't it?  
3. The tablets contain the very latest ingredients and discoveries in medicine—are up-to-date. That makes them worth more to you than any medicine put on the market years ago, doesn't it?  
4. The tablets are a compound remedy, that is, they contain something for every organ of your system. They must therefore reach the organ which is causing you trouble, even if you don't know yourself which one it is. That is a big point in their favor, isn't it?  
5. Unlike the liquid preparations, the tablets contain neither alcohol nor opium. You don't want to drink whiskey or take opium, do you?  
6. Because the tablets contain something for every organ, they reach immediately the seat of the trouble. Result—immediate gain in health. That is what you want, isn't it?

**The Vital Question.**  
But here is the question of most vital interest to women suffering from a run-down condition or any trouble peculiar to her sex.  
Will you take the tablets? Will you risk 50c. to get back your old time life and vigor?  
The 72 tablets in a single box, taken now, will start you on the road to health. Take them now before your condition becomes harder to cure.

**The AUTOTONE PIANO**

What is it? It is a combination of the upright piano, and the newest, most complete and ingenious mechanism for producing music without study or practice, in a manner equal to that of great artists.

When played by hand, there is nothing about this piano to distinguish it from the usual upright piano, but by inserting a perforated roll of music, it is at once made into an instrument that can be played by anyone in the most artistic manner, whether they are possessed of musical training or not.

In introducing an instrument of this class to our customers, we have taken great care and chosen one that we feel sure will give the best results, and is the most up-to-date instrument of the kind manufactured.

We guarantee them fully, and make the price as reasonable as an instrument of this class can be sold for.

**About Getting Into Business**

The great business concerns of the country require annually the services of hundreds of young men and women in their offices, as stenographers and bookkeepers. Opportunities for promotion and advancement are always open to those who are competent, industrious and faithful. But before you can hope to secure a desirable place, you must be qualified. Business men have no time to train their help. The business colleges and commercial schools supply the special training necessary for entering a business career.

**LIBRARY AND ART UNION.**

**FINANCES IN GOOD CONDITION, AND INCREASED USE OF LIBRARY.**

A meeting of the Trustees and Library Committee of the Library and Art Union, was held last evening.

Mr. N. T. Trull in the chair.

Capt. Bennetts, the Secretary-treasurer, made his report, showing that up to Dec. 31st, 1906, all liabilities had been paid, and the Union starts the new year free of all debt.

The Librarian reported that in her department there was an increase in both subscribers and readers, due largely to new books added during the past few months. During October, November and December of 1906, there were 1231 books taken out of the library, and for the same three months of 1906, there were 1874, an increase of over fifty per cent. Of this latter number, 1509 were fiction, and 365 non-fiction. New books will be continually added as funds will permit.

A vote of thanks was passed to the Art and Culture Club for their generous gift through Mr. Morey (the founder of the Library and Art Union) of the picture of "The Light of the World," suitably framed, which will be hung in the Art Hall.

The successful reports of the Union are due largely to the Manager, Mr. H. Irwin, and of the Secretary, Captain Bennetts.

**PROPOSED TAX ON FOREIGN COMPANIES THEME OF LONDON MERCHANTS.**

London, Jan. 12.—A bill introduced in the French Chamber of Deputies under which foreign companies operating in France would be taxed quarter of one per cent. on their capital was discussed at a special meeting of the London Chamber of Commerce Wednesday afternoon and a deputation was appointed to make representations at the Foreign Office. The speakers declared a heavy handicap would be placed on all foreign companies if the measure became law and that it would weigh so heavily on some British manufacturers that they would be obliged to close their branches in France, as the tax would be levied on the whole capital of the company. It was pointed out during the meeting that British action in the matter will interest American companies having agencies in France as well as British concerns.

**COMIC OPERA, "THE MIKADO," AT THE CLEMENT THEATRE SOON.**

What promises to be the most artistic production of comic opera ever given in Sherbrooke by local talent, will be produced at the Clement Theatre Friday and Saturday, Feb. 8th and 9th, with a special matinee on Saturday.

"The Mikado," a Japanese opera in two acts is without doubt the most successful and popular of Gilbert & Sullivan's productions.

The big production will consist of no less than seventy people together with imported Japanese costumes, electrical effects and elaborate stage settings. The production will be given in its entirety exactly as produced in London, Eng., for the first time.

Mr. and Mrs. Grant Heth, of Lewiston, Maine, have been engaged to wed and produce the opera, and judging from their past reputation in this line of work, the amusement-loving people of Sherbrooke can rest assured of a most brilliant and pleasing entertainment.

**THE TRAINING OF TEACHERS.**

**Dr. Shurtleff Speaks of Plans of Protestant Committee.**

**THE CONDITIONS ON WHICH THIS WORK IS TO BE TAKEN OVER BY THE MACDONALD COLLEGE.**

The matter of the taking over of the training of teachers by the Macdonald College, referred to in our columns recently, was discussed with the Record yesterday by Dr. W. L. Shurtleff, K. C., of Coaticook, who is a member of the Protestant Committee.

In appears that in June last Sir William Macdonald arranged to incorporate Macdonald College with the University system, and make it rank as a College of McGill. The offer which was considered by the Protestant Committee at a special meeting last week, came from the Board of Governors of McGill.

Asked as to its exact nature, Dr. Shurtleff said: "The Board of McGill Governors stated that they were prepared, if the Protestant Committee so recommended, to provide at Macdonald College for the training of teachers for the Province of Quebec. They will maintain, in addition to the main buildings of the Macdonald College, a residence for female teachers in training, efficient courses in nature study, household science and manual training. They will undertake to provide a strong and efficient staff of teachers and give free tuition to qualified candidates undertaking to teach in the Province of Quebec, and make the charge for ordinary living expenses on the lowest possible scale."

Asked as to the superintendence and supervision of the actual work, the doctor said:

"The terms of the memorandum in which Sir William conveyed his gift to McGill University provided that in the event of the adoption of the arrangement now contemplated shall be carried out under the direction of a committee upon which the Corporation of McGill, Macdonald College and the Government of the Province shall have representation. It is intended that this committee shall consist of eight persons of whom the Principal of McGill shall be one, and the Professor of Education in McGill, another. Two shall be appointed by the Faculty of Macdonald College, one by the Corporation of McGill, and three by the Protestant Committee."

Asked as to what would be done with the money now voted by the Government for the maintenance of McGill Normal School, Dr. Shurtleff said that he understood that the Government of the Province has already expressed its willingness to continue these sums and allow them to be devoted, in addition to the other grants, to the support of Protestant Education. And upon what does the coming into force of this arrangement now depend, was asked.

"The proposition was accepted by the Protestant Committee last week, and Premier Gouin was apprised of the fact. I understand that the Premier will consult with the members, who represent our Protestant population and they are agreeable, the Government will ratify the arrangement by legislation."

Dr. Shurtleff is of opinion that as this arrangement will secure to Protestants for absolutely nothing, increased facilities for teacher training, the best available teaching staff, a residence for students, free tuition, with board at actual cost, with some \$16,000 made available to assist Protestant education, there is not likely to be any objection on the part of members to whom it will be submitted.

**SEES END OF WORLD, SO GIVES HIS MONEY AWAY.**

**YORK MAN SURE FAMINE WILL PRECEDE DOWNFALL OF THE UNIVERSE.**

York, Pa., Jan. 12.—Philadelphia and other parts of the country are to be stricken with a famine, greater than that which now afflicts China, according to the latest forecast of Leo J. Spangler, prophet, philosopher, philanthropist and whilom groceryman of this city, whose prophecy that the world will come to an end in 1908, indicates that there is going to be a mighty interesting calamity race or the famine will be distanced. While the prophet is spending money to make additions to his home here, he says he might as well spend it as not, for he nor any one else will have any use for the money after 1908. He has determined to get rid of his money by spending it and giving it away.

### PRINCE MICHAEL TO BE DEPORTED

"NEW EVE" SECT LEADER REFUSED ADMITTANCE AT PORTLAND.

Portland, Me., Jan. 11.—"Prince Michael," one of the leaders of the religious sect in this country known as "The New Eve, or the House of Israel," who arrived from Liverpool on the steamship Canada, was detained by customs officials for examination Tuesday. Michael was discharged from the State prison at Jackson, Mich., after serving four years of a term, in 1892, on condition that he would leave the country and not return. He left at once for England, where he has since lived. The board of inquiry decided that "Prince Michael" and his wife, who accompanied him, should be deported, on the ground that his return would be in violation of his parole and his wife would be likely to become a public charge.

She's happy now, depend; Her joy is quite intense; She has the day to spend and likewise fifty cents.

#### THE PROVISION MARKET.

Receipts of provisions, Thursday were 23 packages lard, 42 do, tinned meat, 7 boxes hams and bacon, and 19 dressed hogs. There was no further change in the condition of the market, the undertone being firm, and prices for all lines well maintained. The demand for cured meats for local and country consumption is fairly good for the season of the year, but the export trade is comparatively quiet as present prices ruling in the leading foreign markets offer no inducement to packers to make shipments. A fair trade was done in dressed hogs and prices rule firm, with sales of abattoir fresh-killed at \$9.50 to \$9.75, and country dressed light weight at \$8 to \$9.25, and heavy at \$8 to \$9.50 per 100 lbs.

#### COUNTRY PRODUCE.

EGGS—The demand for eggs for local consumption continues good, and stocks on spot are steadily decreasing owing to the fact that no supplies are coming forward. Sales of selected fall gathered stock were made at 26c, selected summer stock at 24c, No. 1 candled at 22c, and Montreal lined at 21c per dozen.

POULTRY—There was a fair demand for fresh arrivals of dressed poultry, and sales of such were made freely at full prices. Sales of turkeys were made at 12c to 14c, chickens at 9c to 10c; fowls at 6c to 7c; geese at 9c to 10c; and ducks at 10c to 12c per lb.

BEANS—Business in beans was quiet, but the tone of the market remains firm, as supplies on spot are not excessive. There is some demand for small lots of choice primes at \$1.30 to \$1.35 per bushel, and car lots are quoted at \$1.25.

POTATOES—The demand for potatoes is fairly good and prices are well maintained with sales in a jobbing way at 85c to 90c per bag, and car lots were quoted at 75c to 80c.

MAPLE PRODUCTS—There was no change in maple product, and the market is very quiet at present. We quote: Syrup at 55c to 65c per tin of one gallon, wine measure, and at 6c to 7c per tin of imperial gallon, and at 6c to 7c per lb in wood; maple sugar, 8c to 9c per lb.

HONEY—The demand for honey is limited and prices are nominally unchanged. We quote as follows:—White clover comb, at 13c to 14c; white extracted at 10c to 10c; buckwheat at 8c to 8c per lb.

#### MOSLEMS ARE INCREASING.

#### MISSION SYSTEM IN ASIA MUST BE REORGANIZED.

Rome, Jan. 12.—Dr. Kenny Melbourne, a prominent Catholic and papal chamberlain of the highest rank, has returned to Rome after extensive travels in Russia, India and the Orient, where he studied the non-Catholic religions. Recently he has been frequently received in audience by the Pope, to whom he has reported the results of his studies. He affirms that Mohammedanism is rapidly extending, contrary to the general belief. Its adherents now exceed the number of Catholics. The Pope was deeply impressed, and admitted that the only remedy was the reorganization of the missionary system throughout Asia. "Such reorganization would imply, incidentally, the solution of the French protectorate over the Catholic missionaries in the Orient, which is likely to be divided in future among the Powers of the world, including Italy."

#### AS TO THE AMERICAN COW.

#### VALUE OF PRODUCTS PRESENTS FIGURES THAT STAGGER HUMANITY.

(New York Press.)

There are nearly 25,000 dairy cows in America and enough other cattle to make a total of over 60,000,000 head, including bulls, oxen, young stock, and the "flocks and herds which range the velle froe," and all condemned to slaughter. There are less than a million thoroughbred cattle in the country and more than 45,000,000 scrubs. The rest are half or higher grades. About 20,000,000 calves are born annually. The average value of a cow is \$22. In Rhode Island, a dairying state, the average is \$39.

The cows of the United States yield about 9,000,000,000 gallons of milk a year (watered and unwatered), the butter product is nearly 2,000,000,000 pounds (all grades), and the product of cheese over 300,000,000 pounds. Our cheese industry is making enormous strides. In a short time the output will be 1,000,000,000 pounds.

There is one item, a by-product, which is never alluded to when Misses Cow, or Sis Cow, is considered. Our gold production is a vast sum of money. Yet the rakings of our cowards and stalls for the fertilization of crops are estimated to be worth in cash eight times as much, or \$648,000,000. Such figures are bewildering. They stagger humanity.

#### JAPAN FINANCIALLY PROSPEROUS.

#### REVENUES EXCEED ESTIMATES—BUDGET FOR EXPENDITURE OF \$205,000,000.

New York, Jan. 11.—A copyright cable from the Times from Tokio says: The budget for the fiscal year, which the Government expects to present on Jan. 21, provides an expenditure of about \$205,000,000, of which \$206,000,000 is for ordinary purposes and \$99,000,000 for extraordinary purposes. In addition there are supplementary budget outlays amounting to \$1,000,000 which will be met from the current year's surplus, the revenue from the country's foreign trade and domestic commerce and industry being prosperous. The revenue for the current year greatly exceeds the estimates. The finance minister is devoting his energies to the curtailment of State expenses and the encouragement of national thrift. His programme seems to be generally approved and the session of the Diet is expected to pass quickly, especially since the financial outlook in Manchuria and Korea is favorable.

#### THE POOR RICH.

#### (From the San Antonio Express, Dem.)

Nothing so startlingly indicates the altered attitude of this country towards men of great wealth than the utterance of Simon Guggenheim on the occasion of his selection by the Republican caucus as candidate for the United States senatorship from Colorado. Said he: "An honorable ambition is permitted to every man, even to the wealthiest, and it is my ambition to serve my country."

Simon Guggenheim is a multi-millionaire, the son of the famous Meyer Guggenheim, who, by dint of sheer ability and hard work, raised himself from poverty to great wealth. His sons, six in number, have stood solidly together, and by industry and square dealing have added enormously to their wealth. They have the reputation of being good men in every sense of the word. Their wealth has been gained by the fortunate purchase and skillful development of various mining properties. They have not been accused of buying Legislatures or bribing judges, of violating the laws or ruthlessly destroying their competitors.

Nevertheless, so many great fortunes have been acquired by these cruel, buccanering methods that gradually in the popular mind has arisen a distrust of all men of great wealth. That this is wrong and illogical all men will admit. A man of wealth who has earned his money honestly and who uses it wisely is entitled to respect and honor.

However, in the haste to get rich, wrongs have been perpetrated in the world of business in America that have shocked the conscience of the nation. The very rich, having sown the wind, are now in process of reaping the whirlwind. And in such cases the innocent suffer along with the guilty. Hence a man like Simon Guggenheim finds himself put in an apologetic attitude for wanting to serve his country, simply and solely because he has great wealth.

Perhaps the time will come in this country when all men of great wealth will obey the laws as other men do, and when the criminal rich will be punished as the criminal poor are. Certainly the narrow and illogical attitude of the popular mind, regrettable as it may be in some respects, indicates an awakened moral perception on the part of the masses of the people. One thing is certain, when Simon Guggenheim has demonstrated his worth by honest and patriotic service to his country, he is sure to be recognized and appreciated.

#### A BANK FOR THE FILIPINOS.

#### (From the Hartford Times, Dem.)

In his admirable exposition of commercial and economic conditions in the Philippines, published after his return from the islands, with the Taft party over a year ago, Senator Newlands of Nevada showed that what the Filipinos chiefly need as a help to prosperity is, not free trade with the United States, but an agricultural bank. During the past year much testimony has come from the islands in support of the ideas advanced by the Nevada senator. In his recent report Secretary Taft had much more to say in favor of the bank scheme than he said a year previous, when he mentioned it without urging its importance. In the meantime the Philippine government has sent a special agent, E. W. Krommer, to Egypt to investigate the operations of the land bank established by the British rulers of that country. He reports that "the Egyptian bank has in a large measure freed the farming population from the usurers, and that the necessity for such a bank is even greater in the Philippines than it was in Egypt." In his opinion a similar institution would flourish in the islands, and should be given a fair trial because of the crying need for agricultural credits.

It is a pity that this fact could not have been seen and made the basis of legislation by Congress a year ago. The anxiety of the Philippine annexationists to advance their project by means of a tariff juggles was the obstacle which stood in the way of the proper action at Washington. There is little reason to believe that the interests of the millions of impoverished Filipinos will receive any attention from Congress at the present short session—such minor questions as whether President Roosevelt made a mistake in discharging colored soldiers from the army in Texas take precedence of the far greater considerations affecting the welfare of the unfortunate people who are "our wards" in Porto Rico, Hawaii and the Philippines.

## A Proven Cure For Indigestion

A healthy stomach does two things.

1st—gives up enough gastric juice to digest food—and

2nd—churns food, by means of its muscular action, until digestive

juice and food are thoroughly mixed.

An unhealthy stomach is either too weak to properly churn the food or it does not give up enough gastric juice to make digestion complete.

Then you have Indigestion—Heartburn—Distress after Eating—Sour Stomach—Headaches—and finally chronic Dyspepsia.

"Fruit-a-tives" cure Indigestion and Dyspepsia because

they give you a healthy stomach.

"Fruit-a-tives" actually strengthen the muscles of the stomach—increase the power of the churning movement—and also enable the stomach to excrete sufficient gastric juice to completely digest every meal.

"Fruit-a-tives" also cure the Constipation and Biliousness with which so many Dyspepsics suffer.

"Fruit-a-tives" are justified fruit juices, combined with tonics and antiseptics—and are an infallible cure for all Stomach Troubles. Try them. 50c. a box—6 for \$2.50. At all dealers or from Fruit-a-tives Limited, Ottawa.

Thousands have been cured of Indigestion and Dyspepsia by "Fruit-a-tives" alone.

#### NO ACTION IN THE MALBOROUGH CASE.

#### REPORTS OF RECONCILIATION AND LEGAL SEPARATION BOTH DENIED.

London, Jan. 12.—The presence here of some members of the family of the Duchess of Marlborough, and the expected arrival of Reginald Vanderbilt, and others, has led to various reports concerning the differences between the Duke and the Duchess, one announcing their reconciliation, and another that a deed of separation had been signed. As a matter of fact, the situation at present is as was announced on Jan. 4th, that there has been no reconciliation and there is not likely to be, although some friends of the Marlboroughs are still working to that end. The suggestion that a deed of separation actually has been signed is equally untrue. There have been almost continual exchanges, however, between the legal representatives of the pair, and some definite legal action fixing the future relations of the couple is expected shortly.

TO HONOR REV. T. S. CHAPMAN, OF MARLBTON.

Marlton, Jan. 12.—(Special).—The Rev. Rural Dean Robertson delivered the first of a series of lectures under the auspices of the Ladies' Guild of St. Paul's Church, in the parish hall, on the subject, "Westminster Abbey," illustrated by magic lantern. Mr. Robertson received a standing vote of thanks for his interesting lecture.

The following resolution was then put before the meeting: Moved, by Rev. A. Robertson, seconded by Messrs. George Merrill and Curtis Bishop, and resolved: That, inasmuch as this is the 54th anniversary of the Rev. Mr. Chapman's birth, and as he has spent some 58 years of his life in the parish of Marlton and Didswell, and has been instrumental in building churches, parsonages, model schools, the building of railroads, the improvement of roads, etc., as well as such places as Silver Lake, and Bald Peak, for the recreation and amusement of the public, it has been suggested by friends that something should be done to perpetuate the many activities of Mr. Chapman in the public interest; it is, therefore, proposed that as Nature has erected a monument here, known as Bald Peak, that this monument be changed to "Chapman's" and that a post in iron or stone be set on the mountain top with the new name engraved thereon; or, that a pyramid of stones be built up to serve the same purpose.—Carried.

ELECTION MEETING IN RUSSIA.

Regulations Which Seem Preposterous in This Country.

POLICE CHIEFS MAY DISPENSE THEM IF NECESSARY—MUST BE CONDUCTED WITH PROPRIETY.

St. Petersburg, Jan. 12.—The chiefs of police have received instructions regarding the supervision of the election of members in the respective districts. The voting register, which is now closed, and the total of the electors may be held if the police are satisfied of the character of the applicants, after 24 hours' notice. They may be attended only by the electors in the districts where they are held. The district chief of police must personally attend each meeting with an adequate force with him and be the judge of whether or not the meeting is conducted with propriety. He must dispense it if any revolutionary cry is uttered, or if the speeches are calculated to incite one section of the population against another, or if money is collected or if non-electors are present. He must also furnish a personal report of the meeting the same night to the prefecture. The first meeting was held Wednesday night in the Narva district near the Putloff Iron Works, and was closed by the police because of a speech by a Social Democrat elector, who denounced the illegality of the present Government. The present indications are that the Social Democrats and the labor parties in St. Petersburg far outnumber the other parties.

DUBASSOFF NOT ALARMED.

Count Witte took luncheon Thursday with Admiral Dubassoff, at the admiral's residence in Sergievskaya street. Afterward they went for a walk together in the gardens of the Tayride Palace. They were entirely unobserved and returned on foot to the admiral's residence without incident. There were sensational rumors that Admiral Dubassoff had been fatally wounded by a bomb. They were wholly unfounded. Both Witte and Dubassoff displayed complete tranquility during their promenade. Dubassoff recently resumed his daily walk along the scene of the attempt to assassinate him on Dec. 15th. He says that the only thing he has remarked is that the nursemaids seize their children and hurry away on his approach. They are daily habitues of the gardens and know the admiral by sight.

IS SURE OF FINAL VICTORY.

The Pope's Message to French Catholics.

FRENCH GOVERNMENT HAS DECLARED WAR ON ALL SPIRITUALITY. Rome, Jan. 12.—The Observatore Romano yesterday published the text of an important encyclical addressed by the Pope to the French Catholics. In it the Pontiff said that his chief object in addressing the faithful in France was to comfort them in their sufferings which he felt deeply. There was, however, great consolation in the fact that the Catholics of France were united. The French Government's declaration of war was not only against the Christian faith, but against all spiritual ideas. The French Catholics must be prepared for "all sorts" of trials, but they were certain of final victory. This meant that maintenance of their union with the Holy See, which was one of the greatest importance, as shown by the enemies of the Church to dissolve the union. Contrary to the statement made on the subject, the Church did not desire a religious war, involving violent persecutions. Being a messenger of peace and carrying out her mission loyally, the Church did not willingly expose herself to war and persecutions, as she did not desire to see her children suffering.

THE GREAT FAMINE IN CHINA.

People Eating Leaves, Twigs and Roots of Grass.

Shanghai, January 12.—Captain Kirtom, the foreign relief commissioner in the famine camp at the Sing Kiang Fu, describes the reugee camp, consisting of mat sheds arranged in rectangular groups in street formation, two miles long and half mile wide. In the other camps in the vicinity of Tsang Kiang Fu, of nearly a half million refugees, thirty per cent. show signs of distress, and among 10 per cent. the suffering is acute. The roads are thronged with rice peddlers. Women tear up the roots of grass for food, and are also cooking leaves and twigs. The effects of the officials are confined to attempts to persuade the people to return to their homes. Some of them comply, but more arrive than depart. One hundred thousand men are absolutely idle. Though it would not be difficult to organize relief works, none have yet been started. If the inaction continues there will be a gigantic problem to face. The end cannot be foreseen. The worst pinch has not yet been felt.

WEATHER PROBABILITIES.

Forecast for the next 24 hours, issued by the Meteorological Bureau: Strong easterly to northeasterly winds; snow towards evening or at night.

C. P. R. OPERATIONS IN SHERBROOKE.

Extensive Building Plans for Coming Summer.

NEW STATION, NEW ROUND HOUSE AND YARD EXTENSIONS.

It is reported on good authority that the Canadian Pacific Railway Company is planning to expend much money in Sherbrooke operations this year. The Sherbrooke appropriations are said to amount to a million and a half dollars.

If these are passed at the meeting of the company this week, the work will go on early in the spring.

The work includes a new and handsome passenger station on Belvedere street beside the main track, also a round house and important yard extensions on land purchased from the B. A. L. Co. beyond the Canadian Road Drill shops.

The present passenger station will probably be utilized as a freight and express office.

CASES HEARD BY JUDGE MULVANA THIS WEEK.

Judge Mulvana was in Waterloo and Sweetsburg on Thursday and Friday. At the former place Jas. Neely and William Scott were charged with petty larceny. They asked for a summary trial and pleaded not guilty. After hearing the evidence the Court held that the accused were not guilty. There was no proof whatever to connect him with the taking of the lost articles, and, as far as Neely was concerned, although the taking may have been irregular and unlawful there was no proof of felonious intent, and the accused were discharged.

AT WATERLOO AND SWEETSBURG.

The same parties were also charged with having committed an assault upon Israel Lambert of Sherford in connection with the same matter. The evidence was very conflicting, but the Court acquitted Scott and fined Neely \$2 and costs or fifteen days in jail.

At Sweetsburg, yesterday, A. Laflamme, of Sutton, who was charged with stealing a bottle of high wines, asked for a speedy trial and pleaded not guilty. His trial was fixed for the 21st of January.

Edmond Laflamme, committed for trial on a charge of stealing chickens, also asked for a speedy trial, and pleaded not guilty. His trial was fixed for the same date.

FIRE CALLS.

A fire alarm was sent in last night, by telephone, at 7.10 o'clock, for a fire at the Silver Spring Brewery. The fire had caught under one of the large vats. The vat was at the time being dried within by a charcoal stove, which, it is believed caused the fire.

What might have proved a very disastrous fire was prevented by one of the police force at an early hour this morning. As officer Cole was crossing the lower Magog River Bridge he noticed a fire behind Odell's Block, and immediately sent in an alarm at 2.16 a.m., from box 46. The fire was in J. D. Bush's shop—back of Odell's Block. On the arrival of the brigade the building was well charged with smoke. The fire had caught in the floor near the stove on the second story. It must have been smouldering for some time as quite a big hole had been burned through a double floor. It was a very close call. Stations 1, 2 and 3 answered the call and in about forty minutes had the fire extinguished.

After an lingering illness, Mrs. J. W. Deering died Thursday, a.m. 10 last. Much sympathy is felt for the bereaved family.

Recent visitors in town: Mr. W. L. Herbert of Ascut Corner, W. J. Farnham, wife and children; Mr. Chas. Stettin, all of Martinville, guests of Mr. and Mrs. A. L. Farnham; Miss Alma and Louisa Cote of Sherbrooke, and Mrs. Cote of Farnham, guests of Mrs. J. Lambert.

THE CIVIC ELECTION SITUATION.

Mr. C. F. Oliver Accepts Candidature in South Ward.

REQUISITION FOR MR. L. C. BELANGER COUNCILLOR IN CENTRE WARD—MAY ALL GO IN BY ACCLAMATION.

A delegation of South Ward citizens waited upon Mr. C. F. Oliver, this morning, and presented him with a numerously signed requisition, asking him to become a candidate for election to the Council. The South Ward vacancy occurs through the retirement of Councillor Belanger, who will not be a candidate for re-election.

Mr. Oliver expressed his appreciation of the numerously signed requisition. He had thought to retire from the Council on the expiration of his term as Mayor but did not feel that he could refuse the request of so many electors of his Ward. Mr. Oliver, thereupon, accepted the candidature.

The requisition in favor of Mr. L. C. Belanger for this South Ward vacancy is still in circulation. Many believe there is little likelihood of a contest. In the Centre Ward a requisition is being circulated favoring the return of Councillor Lanctot. Re-election by acclamation seems probable.

The nominations take place on Monday and it would not be at all surprising if all vacancies were filled by acclamation.

GERMANY'S INTRIGUE

IN PACIFIC FOILED.

ATTEMPTED TO SECURE LAND FOR A NAVAL BASE IN NEW HEBRIDES.

Sydney, Jan. 12.—An attempt on the part of the Pan-German League to obtain a naval base in the Pacific has just been brought to light here.

tation with the Governments of the Australian Commonwealth and New Zealand.

It now appears that the agents of the Pan-German League had nearly achieved the purchase, at four times its value, of a large area bordering Havannah Harbor, on the south coast of the Sandwich Island, which would form an excellent naval base for a fleet operating in Pacific waters.

When the convention was so unexpectedly signed by the British Government the negotiations for the purchase were suddenly broken off.

By the time physicians arrived the man was dead.

SKATING.

FIRST CARNIVAL AT THE STADIUM—ABOUT SEVENTY-FIVE PRESENT IN COSTUME.

The first carnival of the season was held at the Stadium last evening. The building was prettily trimmed with flags and bunting, which added much to the spirit of the function. The ice was in very good condition.

The total number of costume skaters will reach about seventy-five. Several of the costumes were deserving of much credit, as they showed that pains had been taken in their preparation, and that they were not merely thrown on. One military uniform worn last night had seen active service. There was also the usual large number of comical and laughable costumes, which always provoke considerable laughter from the spectators.

The Harmony Band, with practically a full attendance of members, was present and furnished the music for the skaters. The band also deserves credit for its attempt to make the first carnival in the Stadium a success. Their music was much appreciated.

At about a quarter past nine non-costumed skaters were allowed to skate, which greatly increased the number on the ice.

The dining hall was opened last night and proved quite a success. This hall is also a part of the New Stadium, being just back of the balcony seats, and it is run by the Stadium management.

Among those who handed in their names with the names of the costumes they wore were: Norman Lewis, Tramp; John Parr, Peggy; Miss Marjorie Trull, Lady Curier; Earle Thompson, Summer Girl; A. Wingrove, Colored Tramp; Cedric Gibson, Topsey; Harry Parr, Tramp; Craig Whyte, Military Officer; Miss Lena Poole, Evening Star; Weldon Kenalty, Clown; Willie Smith, Tramp; E. FIFTY FOUR COUNTRIES SENT EMMIGRANTS.

PEOPLE REACHED CANADA LAST YEAR FROM THE FIVE CONTINENTS.

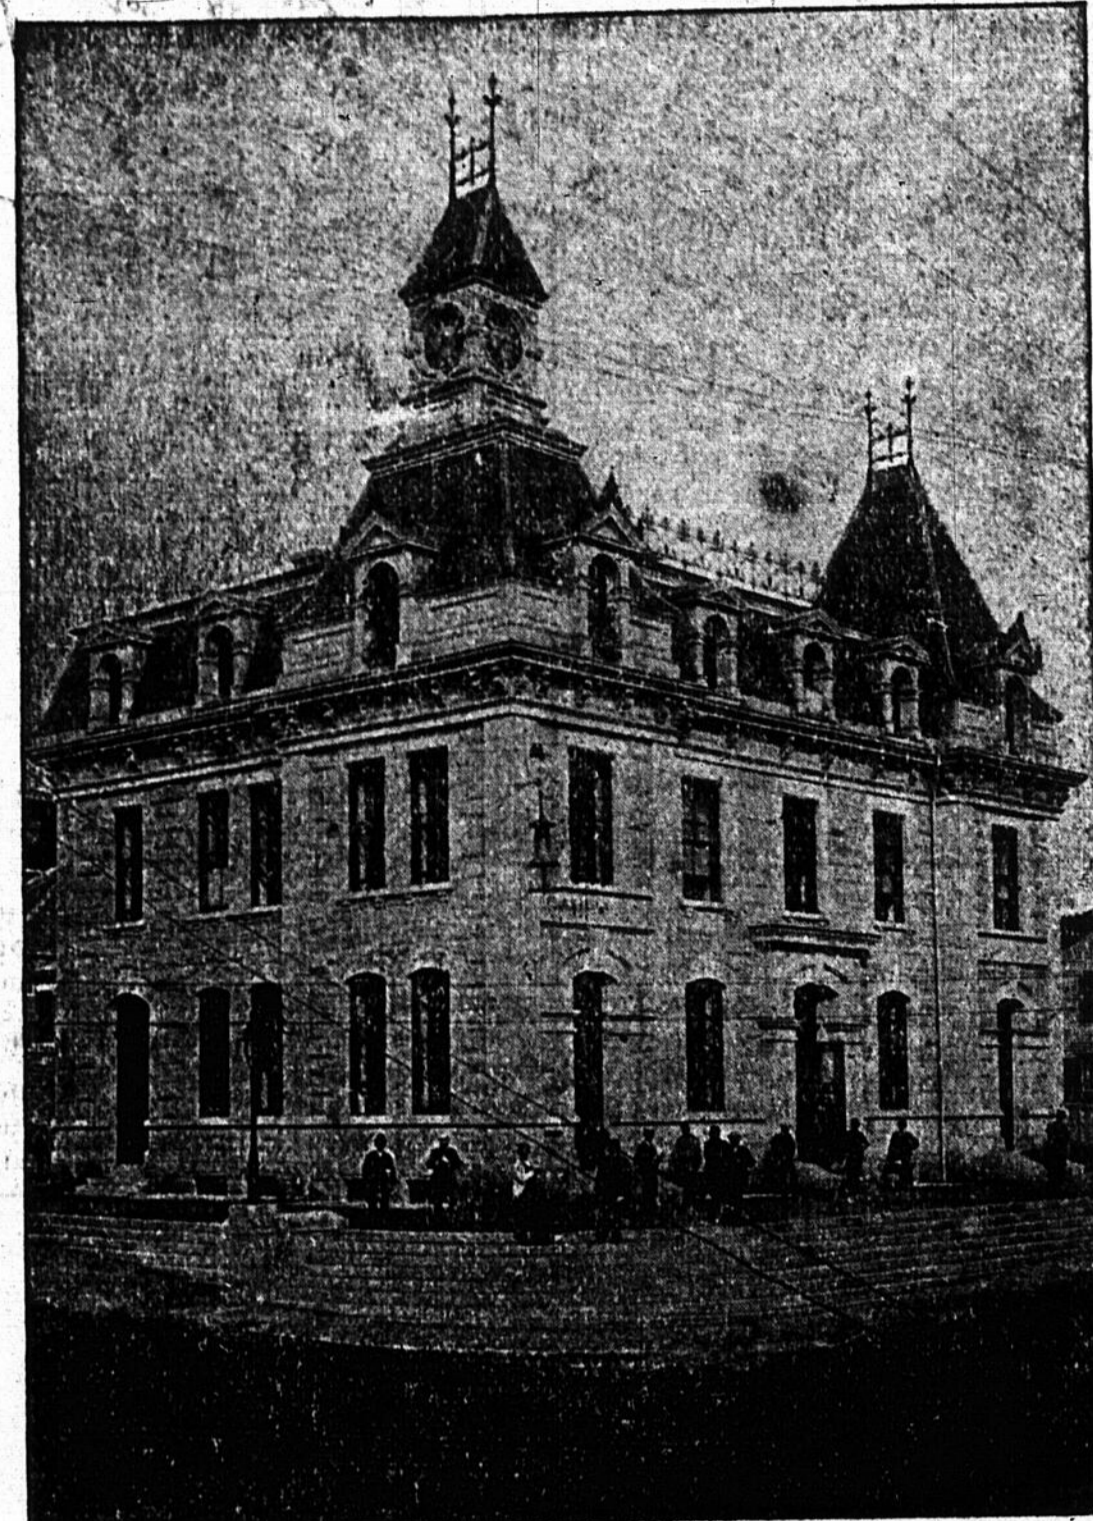

Ottawa, Jan. 12.—An analysis of the immigration into Canada for the fiscal year 1906, totalling 189,064 shows that apart from the British Isles and the United States of America there were arrivals from fifty-four different countries of the world, representing the chief races of the five continents. It is interesting to note in this relation that 46 immigrants came from South Africa, 171 from the West Indies, 240 from Newfoundland, 89 from New Zealand, 7 from Persia, and 15 from Egypt. These figures are given here merely to show that the opportunities offered by Canada to capital and labor have aroused the attention of persons in the most remote parts of the world, who are de-

NEW BATTLESHIP TO BE IN WEST INDIAN WATERS FOR SOME TIME.

London, Jan. 12.—The British battleship Dreadnought is about to make a notable cruise across the Atlantic, which will take her to West Indian waters at about the time Rear Admiral Evans' squadron will be in the same vicinity, thus affording the American officers a possible opportunity to see the latest marvels in naval architecture. The purpose of the cruise is to test the seaworthiness of the battleship during the worst of the Atlantic season, and also to test her batteries under adverse sea conditions.

The Dreadnought left England for Gibraltar Wednesday, whence she will sail on January 26 for Trinidad. The Admiralty allows eight days for the

DESERTIONS LAID TO ABOLITION OF CANTEEN.

CONGRESSMAN DECLARES SOLDIERS ARE FREQUENTING LOW GROGGERIES.

Washington, Jan. 12.—The army canteen was the subject of controversy in the House yesterday, while the army appropriation bill was under consideration. It had been asserted that there were more desertions during the past year than usual, and some one asked what the reason was.

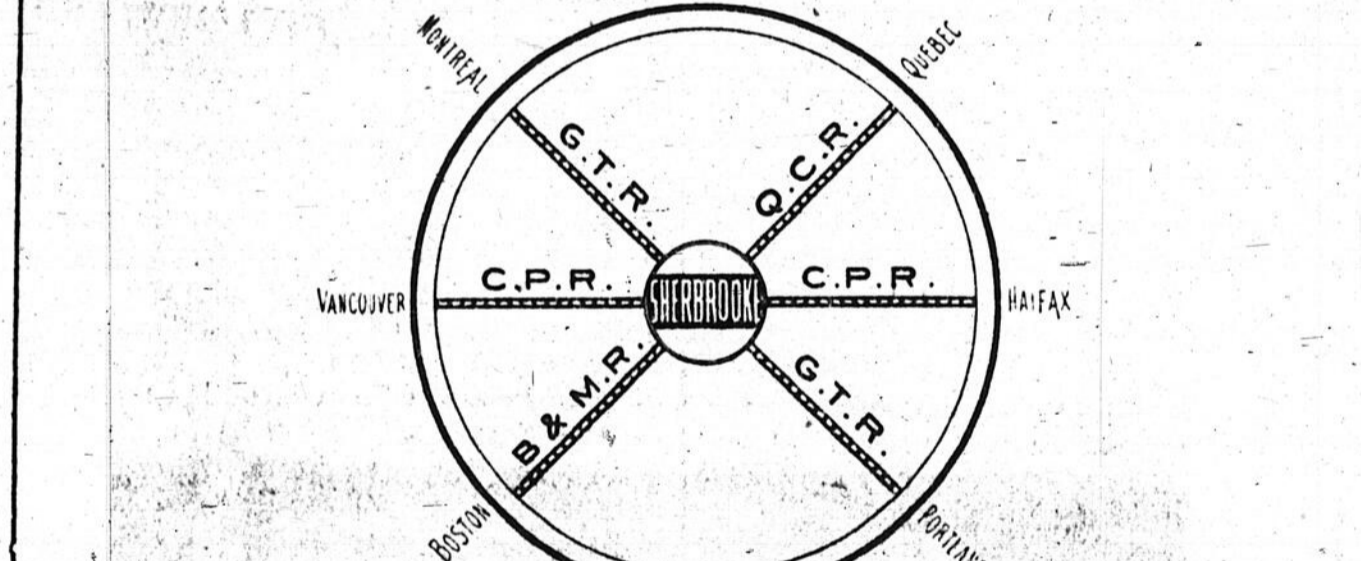

"The abolishment of the canteen," exclaimed Representative Kahn, of California. "That is why the army is

ocean trip. The warship will stop about two months at Trinidad, devoting most of the time to gun practice in adjacent waters. It is understood that the American warships will rendezvous at Culebra, near Puerto Rico, at about the same time, which is hardly more than a day's sail from the Dreadnought's rendezvous.

DISASTER IN GERMANY.

SCORE OF PERSONS LOSE LIVES AS RESULT OF CELLULOID EXPLOSION.

Strassburg, Germany, Jan. 11.—(Special)—Twenty persons were killed to-day by the explosion of a vat of Berling celluloid in the book bindery at Geiselsloh, owned by an English firm. Flaming liquid was thrown over the

falling off. Now that the canteen has been abolished the soldiers are frequenting low groggeries, and when the time comes for them to return to their posts, they are unable to do so. Almost every army officer gives the abolition of the canteen as a reason for the diminution in the army.

THAT WAS ALL. "She had played in amateur theatricals, you know, and threatened to go on the stage if her parents wouldn't let her marry the duke."

"They let her go on the stage, gave the duke a check for a front seat, and were not at all surprised, when he sailed back to France the next morning." (Cleveland Plain Dealer.)

SMALLPOX.

The cause of smallpox which existed at North Coaticook until recently are now a thing of the past. The council paid quite a large bill to Professor Keenan for watching the premises during the quarantine, but inasmuch as there was no spread of the disease the money was doubtless well invested.
