## Chemical Discoveries Seem Like Fiction Story

"In too many cases people exaggerate what chemists can and are doing, writers get a little fact and expand it into fancy," Douglas Walkington, Sales Promotion Manager of Canadian Industries, told Westmount Rotarians at their weekly luncheon in Victoria Hall on Wednesday, when as guest speaker he spoke on "Chemical Facts and Fallacies."

"The Chemist is the greatest benefactor of mankind," the speaker observed and said that had he been engaged in a debate he could have proved his point, and when Mr. Walkington finished his address his listeners were agreed that the marvels produced by chemists were little short of the impossible.

Mr. Walkington throughout his address, spoke in a manner that even the least chemical minded of his listeners would understand and illustrated his talk with samples of the various items mentioned.

### Paint for Light Cord

Among the amazing facts presented by Mr. Walkington, was a type of paint which would carry an electric current. So that his audience could see for themselves, he had a piece of transparent plastic, one end of which was equipped with a bulb and socket and on the other end a plug. Running along the surface of the plastic were two lines of paint connecting the plug and the light socket, which when connected to an electric outlet the bulb lighted. The speaker jokingly remarked perhaps some day in the future when the little woman wanted an additional light installed, all the husband would have to do is get out a can of paint, run a couple of paint lines from an outlet to where the light was wanted, stick

## Mtl. Drama Guild Gives First Show

The Montreal Drama Guild presents its first show at Victoria Hall, Oct. 28th, 29th and 30th. Due to the growing interest in the living theatre, plus the plethora of local little theatre talent, the need of another theatre group was felt necessary by this new group. It was organized during the past summer. They aim to operate independently, selecting their casts by giving a reading to all actors who may be interested in appearing in their productions. Above all, they strive to produce plays which offer "good theatre", well directed and suitably staged. Moreover, they intend to donate profits from any production to some charitable or otherwise worthy cause.

In their first production, "Golden Boy," they feel they are off to a good start. If one is to judge by the turnout for the reading and casting of the play, the Montreal Drama Guild has proved a veritable magnet, attracting performers, presently inactive, from the various local dramatic groups. Then again, the play itself is one of a leading American playwright's finest works. Last, and not least, the Parade of Dimes Campaign to help victims of 'polio', will get the proceeds.

The director, Charles Lewis, is well known for his excellent work in the many roles which he has created. The sets will be designed by Hans Berends, whose work has enhanced many a stage and movie. The cast boasts such artists as Leo Piceri, Madeleine Sherwood, Gordon Jones, Charles Miller, Douglas Peterson, Sol Cohen, and many others.

## Tag Day For Handicapped This Saturday

The School for Handicapped Children will hold its annual Tag Day on Saturday.

It is the only non-sectarian non-denominational charitable institution in Greater Montreal devoted to the rehabilitation of the mentally deficient children who cannot attend the auxiliary classes set up by the School Boards for backward children.

Owing to the mental state of these children, it is necessary to operate an autobus to transport them to and from school, and, to give them their luncheon at the school.

The institution is dependent upon public charity for operation. The cause is one of the most deserving, and we appeal to the generosity of the citizens of the Metropolitan District to supply the necessary funds to foster this benevolent enterprise. Volunteer workers are needed to make the Tag Day a success. Boxes are being distributed at the Y.M.C.A. in Westmount, and Black Watch Armory, 2067 Bleury.

### Monthly Meeting

The Westmount C.C.F. Club is holding the regular monthly member's meeting on Tuesday evening, October 15th at the home of the Club President — Dr. J. Cyril Flanagan, 659 Grosvenor Avenue. The activities for the coming season will be discussed.

## Dishwashing Discussed In Food Handlers' Class

"Good Dishwashing," was the subject of the Food Handlers' Class sponsored by the Westmount Health Department, held Monday afternoon in Victoria Hall. A. G. Macnab of the Health Department, who is conducting this series of lectures, demonstrated and discussed the subject.

The fundamentals of good dishwashing require several distinct steps which must be observed to obtain first class results. Dishes, glasses and silverware are contaminated by the user, which provides an opportunity for the spread of disease unless the dishes are carefully washed. A dash of cold water or a "lightning" rinse in warm water will not do the job, the speaker asserted. If hand dishwashing is used, dishes should be:—Thoroughly scraped and pre-rinsed to remove soil; Washed in hot water with a good detergent; Final rinse in clean hot water at 170°F.

Points outlined were as follows: Sanitized dishes should be air dried without toweling, handled and stored in a closed-in cupboard to prevent contamination by dust, flies or insects.

Single service paper cups are recommended when sanitized utensils are not available.

Large utensils and equipment may be sanitized by live steam,

CHAIRMAN AIR CADETS

Leo Feldman, 637 Grosvenor Avenue, was re-elected chairman of the civilian committee of Squadron 148 of the Air Cadet League of Canada, at the annual meeting. Alex Ness was re-elected as secretary-treasurer and reported membership doubled during the past year.

## Scouts-Cubs Meet Leader

The Scouts and Cubs of the Western Area, together with those of Northwestern Area and the Sea Scouts, will meet Lord Rowallan, the Chief Scout of the British Empire and Commonwealth, at 3.55 p.m. at the armories of the 17th Duke of York's Royal Canadian Hussars, on Cote des Neiges Road, on Saturday, October 12th.

All Troops and Packs should arrive at the Armoury not later than 3.15 p.m. Full summer uniform should be worn, but in event of cold weather it is suggested that warmer clothing should be worn over top.

All Scouts and Cubs should attend whether they have uniform or not.

In the event of fine weather the rally will be held outside the Armoury, and if the weather is inclement, inside.

All Troops and Packs should arrive by the Remembrance Road entrance behind the Armoury.

## Westmounters Graduate At Colorful Ceremony

In the presence of His Excellency Most Rev. Lawrence P. Whelan, Auxiliary Bishop of Montreal, 32 students of St. Leo's and St. Paul's Academies received graduating diplomas at a colorful ceremony held at the Church of the Ascension of Our Lord on Sunday night.

"No matter how high a degree in education one may receive, one cannot rely solely on this acquired knowledge in a material light, but must add to it the light of faith," Bishop Whelan told the graduates.

A four-year scholarship to Marianopolis College was awarded to Miss Joan Carroll for attaining the highest percentage in the final examinations, among students of the Parish of the Ascension at St.

Paul's Academy. Miss Teresa O'Sullivan was awarded a bursary of \$50 for her high average in the provincial examinations. Both awards were donated by the Catholic Mothers' Club of Westmount.

In the boys' section of the graduating classes, Paul Iverness, who has won a four-year scholarship to Loyola College, was awarded \$50 for attaining first rank in the final examinations while Hugh Peckham also won a cash prize for coming second. These awards were likewise presented by the Catholic Mothers' Club of Westmount.

Valedictorian for the St. Leo's Academy graduating class was Paul Iverness and the salutatorian was Hugh Peckham. Miss Teresa O'Sullivan was the St. Paul's Academy valedictorian while the salutatorian was Miss Joan Carroll.

## Woman Injured By Automobile

An automobile travelling west on The Boulevard turned north onto Victoria Avenue on Saturday about 8 p.m. and collided with a woman. In an endeavour to avoid the woman the driver said he swerved and lost control of the auto which crossed the sidewalk and came to rest against the stop light.

Gerald Berke, driver, stated that while making a left hand turn onto Victoria from west on the Boulevard he did not see the woman until it was too late for him to avoid the accident.

Miss Bianch Litalien, was given first aid by Lauzon and Peuchamp of the Homoeopathic Hospital and was taken to that hospital in the Homoeopathic ambulance. Dr. Mitchell examined Miss Litalien at the Hospital and found she had sustained a double fracture of the right wrist and abrasions of the right hip.

## Help Boys' Clubs Fossils Asked

Montreal's Alouettes are on the way up Lew Hayman told the Fossils Club of Montreal at their meeting last night at Preston Hall. Mr. Hayman outlined the history of the new Montreal football club and told of the many difficulties encountered in building up a football team.

He encouraged the Fossils members to promote football in their effort to help boys' clubs in athletics. The Alouettes coach pointed out that football was one sport that builds self-confidence in boys and young men. Many French speaking Canadians are taking a keen interest in the game and Mr. Hayman suggested that high school coaches give students an early start in the rudiments of football. A question period closed the talk.

## Business Assoc. Opens Season

The Business Association of Westmount is featuring an open meeting as their first activity of the season, which will be held in Victoria Hall, at 8.15 p.m. Wednesday. The Association is extending an invitation to representatives of all firms doing business in Westmount to attend this meeting.

This year the Association is pioneering in a new type of service to the business community, in presenting a series of sound pictures on salesmanship. This series is known as the Bartmel Series on Salesmanship, and is widely known throughout the United States where it is being shown to large corporations in the retail field.

The first of the series will be run off at the open meeting. There is no admission at this meeting and it offers business men and women of Westmount an opportunity to see, at first hand, some of the methods of approach being used with success by alert sales forces elsewhere. An open forum for the discussion of suggested improvements in the business community will also be a feature of the evening.

The Association has planned a well rounded out programme of activity for the Fall and Winter months. The membership committee reports a large increase in membership, indicating a real interest in the efforts of the Association by Westmount business men and women.

# WESTMOUNT WHIMSIES

By Oliver Towne

Thanksgiving Day, with its attendant memories of turkey dinners, festive tables, and the nation's granaries full to overflowing with the fruits of harvest. Somehow the word seems synonymous with Autumn, with its crisp air, brightly colored leaves and smoky hued hills. One thinks of harvested fields and frost-coated pumpkins. . . Speaking of fields, how many of our veterans and their families are facing the coming winter with the prospect of spending it in shelters that are little better than such fields, fields that will soon be white with snow. A cold prospect, indeed.

We broke faith with those who died

Now lies another generation bold,

He held the torch and raised the cry,

## Scouts & Cubs

BY REG GROOME

The polio situation has improved sufficiently since the Rowallan Rally at the Forum was cancelled to enable Scout Headquarters to announce an alternative scheme which is as follows: All Cubs, Scouts, Sea Scouts and Scouters of Westmount Area, together with those of Central, South Shore and Lakeshore Areas are to meet at the R.M.R. Armoury on St. Catherine St. W., 4625, near the Glen, and must be in position by 2.55 p.m., one half-hour before the approximate time of arrival of the Chief Scout.

The date is, of course, this Saturday, October 12th; the Dress is FULL SUMMER UNIFORM; Colours: All Troops having colours should bring them. King's Scouts: Must be in full uniform for inspection by Lord Rowallan. This information is contained in a message to Scouters sent out by Col. A. Powis, Commissioner for Westmount Area.

We hope that every boy and leader in Westmount will turn out to welcome the Chief Scout. Don't forget your full uniform, for those without uniforms must be placed in a separate group. Scout Headquarters wish to emphasize that the Chief Scout will POSITIVELY NOT give his autograph to anyone. So, come one, come all and let's see YOU Saturday at the R.M.R. Armoury in uniform. Let's show Lord Rowallan that Westmount is the best area in the city: We can do it!

### Badge Dates

October Badge Dates at Scout Headquarters were announced re-

cently. On Tuesday, the 15th, a six week course in Prospector Badge will be begun by Instructor E. R. Paterson and on the Saturday, October 19th, Starman Course, another six week course also given by Mr. Paterson. A test in the theory of Handyman Badge will be conducted Monday, October 21st by H. L. Etienne, with the practical work to follow later.

Pathfinder Badge will also be taken on the 21st, exam only, by F. Roberts Walker. Cyclist Badge will be held on the 22nd, by Howard Murphy. You must bring your own bicycle for this exam. Also, on Tuesday the 22nd, Artist Badge exam only, by Stanley Corden. Another exam will be held on October 29th. On Wednesday, October 23rd, Knotter Badge will be taken by R. W. Part 1, theory, of Marksman Badge will be taken on Monday the 25th by W. J. McAllister (practical work later) and also Missioner Badge, by L. C. Houldsworth.

This is quite a complete badge list. If you want further details of any of these badges, see either your Scoutmaster or someone at Headquarters. Don't forget to bring a badge slip to all exams, and also, that courses may only be started if you attend the first lecture, not the second or third.

WESTERN AREA: Westmount Scouts may be interested in the Western Area Badge schedule since it is nearer home. Among the badges taken there this month are Friend-to-animals, taken by Dr. T. Harper, B.V.Sc., M.R.C.V.S., of the Westmount Animal Hospital, with practical work with animals; Cyclist; Ambulanceman, a five week course; Laundryman, Artist, Interpreter-French, Swimmer and Rescuer Badges by appointment with Neil Cameron, DE. 9201, and the Royal Life Saving Bronze Medallion by appointment with Jim Aspinall, DE. 9824. The fall has sprung,  
And I say to I,  
"I wonder where the green leaves is?"

The tree's sap that. . .  
Speaking of sap, that reminds me. John Dickens, that undernourished jackanapes, started looking for a white horse to ride on after I told him his name would be mentioned in this honourable column. Being so egotistic he wanted to ride a la Lady Godiva fashion. He discarded the idea after finding out that his hair wasn't long enough.

"But what will I do, Art?" he asked, twisting a copy of Breezy Stories in his hands.

"How will the peasants know it is I, John Dickens, honouring

we hope you sent in your reply card, or you're out of luck. The Chief Scout will speak about 9 p.m. and refreshments will be served later. . .

Last week in this column, a mistake of one word created an entire wrong impression. It was as follows: "It has been recommended from Imperial Headquarters in London, England, that the rank of Senior Sixer be ABOLISHED forthwith. This will solve cases where boys are held in Packs until the age of 14." (Yes, this actually happened). The word as printed last week read "ESTABLISHED" forthwith. The message should read as above. . .

The tentative dates set for the Westmount Area Sphinx Course under District Scoutmaster W. Bryce are: Part 1, November 16th; Part II, January 11th. This course is for all patrol leaders or prospective patrol leaders. . .

We are sorry to hear that E. R. Paterson, Executive Commissioner at Headquarters and a resident of Westmount, has been home in bed with a bad cold. . .

## Herbert Reddy Memorial Hospital Campaign For Funds Disappointing

In a joint statement released today, Maj. Gen. C. B. Price and Lyle D. Richardson, Chairman of the Public Relations Committee, stated that returns from the Herbert Reddy Memorial drive for funds have been disappointing to date. It is realized that with the major yearly campaign being conducted at this time, the demands on the purses of the public are unusually heavy. Nevertheless, in view of the urgency of the appeal and the public worth of the institution, it is hoped more contributions will be forthcoming.

## Westmount Brigade Parades

Trumpets were given out Tuesday last and Bandmaster Alan Robinson and Drum Inspector Peter Baily expect the band will make a good showing within a few weeks. Alan and Peter are former members, who served with the Navy, and are planning to enter the band in the annual competition for a Mace Pole.

The Model Railway Club, centre of keen interest, is expanding steadily, and is looking about for odds and ends in equipment. Members are requested to give the attic a going over in search of any items they may be able to donate. Lieut. Bob Morrow is looking after this project and anyone having any articles may reach him at WE. 2691.

Lieut. Alex G. Anderson will visit the Company this week, hoping to establish a First Aid Class along with Wayfaring, as interest has been expressed in these two groups. The Radio Class under Paul Fisk is expected to start shortly, with many of the boys planning to build their own sets.

Alex Upham, former lieutenant of the Westmount Company, now captain of the 3rd, started this new company last Tuesday with 46 boys. A number of the officers from the Westmount Company were present for the occasion to wish Alex "Good Luck" and take part in the ceremony.

## Legion Operates Many Iron Lungs For Polio

First full monthly meeting of Westmount Branch (Que. 39) of the Canadian Legion this Fall was held at Victoria Hall on Tuesday when, with good attendance, much business was accomplished and several new members initiated. The matter of identifying insignia was discussed, it being impossible to have appropriate berets made. The Branch possesses arm bands and will have berets as soon as possible. The Colours are also being made, it was announced.

The Legion has been divided into zones for better administration and the Westmount Branch is classed as in the South Zone.

Mr. McAdam of the Welfare Association spoke on the Red Feather Campaign, and made strong appeal for support. The Branch was quick to respond and every effort will be made to assist the Welfare Federation.

The meeting was fortunate in having as guest, Mr. Solomon, Provincial Command, who gave an interesting talk on the formation of the Legion, and how the Legion started "Operation Polio" recently,

to combat that dread disease. In Quebec the Legion now owns and operates many iron lungs, directly as a Legion activity, through the various medical centers, and the iron lungs are re-directed to any point requiring increased attention. Rev. Canon Oliver, followed Mr. Solomon also speaking on "Operation Polio," how deserving it was of support. Because of close contact with the results of the disease, as seen at the School for Crippled Children, he was able to describe the spectacle of kiddies, deformed for life, but cheerful and uncomplaining. In the near future the Branch will carry out "Operation Polio" in Westmount, and no doubt response of citizens will as usual be prompt and generous.

The Montreal Blood Bank has fallen dangerously low, because the cessation of hostilities has naturally made the public think that blood donations are no longer needed. Such is not the case because many veterans are still undergoing operations. Besides the need for blood by the general public is constant. Several members of the Branch are already donors and at the meeting more volunteered.

In the matter of Veterans' benefits, the Branch signified its criticism in no uncertain manner of the Government's recent change in the Veteran's Land Act, raising the minimum holding from a half acre to two acres. The intention behind the change is of course to continue the inducement for the establishment of small veteran farm lots, but the veterans also recognize the fact that the most urgent of all needs is re-housing, and small suburban or country town or village lots for building is one of the best solutions. A very strong protest will be sent to the proper authorities.

## Westmount Music Group Opening Wednesday Next

Wednesday evening, at 9 p.m., the Westmount Music Appreciation Group will present their first concert of recorded music in the Westmount Public Library. This is good news this year for those who attend these concerts, as the Group have announced the installation of two loudspeakers instead of one, as in previous years.

The program will consist of the following:

Prelude, "Ivan the Terrible," Rimsky-Korsakov, played by the Philadelphia Symphony Orchestra, Leopold Stokowski conducting; "Concerto No. 2 in G, Opus 44," Tchaikovsky, Benno Moiseiwitsch, pianist, accompanied by the Liverpool Philharmonic Orchestra, George

Weldon conducting; "Theme and Variations from Suite No. 3 in G, Opus 55," Tchaikovsky, Philharmonic-Symphony Orchestra of New York, John Barbirolli conducting; "The Seasons Ballet" Opus 67, Glazounov, Zurich Symphony Orchestra, Alexandre Glazounov conducting.

## Arts And Crafts Branch Formed

Mr. Gerard Ferrault, 632 Grosvenor Avenue, has been elected President of the Arts and Crafts (Quebec 186) Branch of the Canadian Legion. Previous to this appointment Mr. Ferrault was Secretary of the Westmount Branch No. 39.

The new President who served overseas with the famed Alouettes Squadron, has been a resident of Westmount all his life.

This new Branch has been opened to serve members of Allied Arts, such as Arts, Advertising, Drawing, etc. It is hoped that veterans who have attended the School of Graphic Arts, Technical School, School of Beaux Arts, School of Fine Arts, Sir George Williams College, The School of Arts and Crafts, Valentine School of Arts and any other similar schools of similar interest will become members of this Branch.

Today 4,650,000 trucks and 25,350,000 passenger cars are in use in this country, or nearly one truck for every five cars, a larger proportion than ever before.

At the Group's opening concert particulars will be given covering a musical quiz contest which will start with the second concert on October 30th and run through the entire season and ending with the next to last concert May 14th.

There will be three prizes awarded, 1st, 2nd, and 3rd consisting of albums of recorded music to the value of \$10.00, \$7.00, and \$4.00, and the winners will have the privilege of selecting their own recordings.

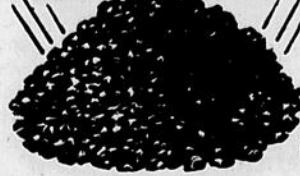

The quiz will be confined to the music which has been played by the Group and from time to time hints will be given to the audience to help them in their answers. The questions will be straightforward and no confusing or trick questions will be asked. The public, no matter where there residence is, will be cordially welcomed.

## Red Cross Reveals Help Given Ex-Servicemen From Both Wars

Each month in the province of Quebec an average of nearly a thousand war veterans have been turning to the Red Cross to help them in their distress.

Because the war is now more than a year in the past, it is difficult to realize that there are still ex-servicemen who are in distress. But it's true, and people who should know, predict that there will be even more distressed veterans as the cold weather closes in.

These distressed veterans are men who served in the recent World War and even men who served in the First World War. The misfortunes of life have dealt them a blow under circumstances which do not permit the government or other established organizations to give them the attention they need, so they turn to the Red Cross.

Very often a veteran finds that through some misjudgment of his own—or perhaps through no fault of his own at all—he is right up against a bitter crisis in his life. Often it's a crisis that affects a whole family. Usually it is medical or dental attention that he needs, sometimes, it's food or clothing to bolster him up and get him started again along the road to pride and self-sufficiency. In such cases of downright emergency the Red Cross steps in.

Naturally, the Red Cross first makes certain that the veteran's distress is real and that he is not entitled to care at the expense of the government or of one of the several organizations which exist to help certain categories of veterans.

In many cases, it is simply a matter of guiding the veteran to the proper authorities. But in many other cases, the Red Cross is called on to meet the expense immediately, without delay and has no way of recovering the money spent.

Most of these cases turn up in the big cities, that's why the principal centre for this Red Cross

work for veterans is in Montreal. It's in a red brick building at the corner of St. Antoine and Inspector streets, where two trained and registered nurses toil each day with of human suffering.

In charge is Miss Brenda Chillas, and next in charge is Miss Eleanor Johnson. They know from years of experience what to do and what not to do when a new case arises, or an old one turns up—as frequently happens.

Still a third person at the centre is Miss Patricia Mullaly, who is busy with the cases that fall under the Canadian Legion's Poppy Day Fund. The Poppy Day Fund is administered in Montreal, by the Red Cross Society.

In order to bind their effort together into a province-wide unit of thought and purpose, the Red Cross has an experienced director at work, H. M. Suckling, and to him, perhaps more than to any other man in the province, falls the lot of reviewing and organization work that each day makes life more hopeful for dozens of men who had begun to wonder whether their country had not entirely forgotten them in their hour of need.

This is but one of the varied peace-time activities which are keeping the Canadian Red Cross Society busy from coast to coast these days.

## Charles Miller Teaches Class Radio Courses

Due to the great many registrations coming in from all parts of the city and suburbs for enrolment for the fourteenth season of the Children's Theatre, Montreal's talented group of juveniles, directed by Dorothy Davis and Violet Walter, it has been found necessary to increase both the classes and staff in the north and west end studios.

Charles Miller, popular and well known radio personality, whose voice is heard daily over C.B.C., has joined the ranks of the teaching staff, conducting many of the radio courses, as well as some of the boys' dramatic classes.

Mr. Miller, who hails from Western Canada, has gained an enviable reputation from coast to coast, both for his stage and radio work. He has studied under such renowned people as Claud Parker of the American Academy of Dramatic Art, and his voice is certainly familiar to Montrealers, heard on "940 on the Dial", "Serenade for Strings" and other popular programmes. He has also broadcast interviews with such famous personalities as Tallulah Bankhead, Paul Whiteman, and other artists of renown.

Mr. Miller's radio course will include diction, voice culture, dramatizations and microphone technique, and will prove valuable not only to those who wish to cultivate talent in order to go into the professional field, but also those who wish to improve speech with good pronunciation and clear enunciation.

Pupils who qualify in Mr. Miller's classes will be given an opportunity to appear on "Calling All Children", the popular feature of the Children's Theatre, heard every Saturday morning over CFCF.

## CAUSE OF GREAT DISASTERS

On October sixth, thousands of communities across the North American continent, launched a fire prevention crusade against an enemy that robs us of countless millions yearly. From Halifax to Vancouver, New York to San Francisco, Edmonton to New Orleans, across Nevada waste lands, the Pennsylvania coalfields, the three Canadian orchards, across the gold belt, the wheat belt, the corn belt, the cotton belt,—people will be reminded that great disasters are either caused by sheer carelessness or avoided through caution and foresight.

We only know one side of the picture. The story of "near misses" will never be told and countless unsung heroes will never get a brewery award. But civic minded citizens don't bank on public recognition to perform their duty. And removing fire hazards is just as imperative as removing nests of infectious diseases. On the other hand, allowing fire-traps and fire hazards to go unchallenged for months on end is like allowing a time-bomb to remain undisturbed . . . and hoping for the best.

Montreal might not be tailing the list of fire-conscious communities, but we can be sure it is not topping the list either. In order to get away from that "unhappy medium," citizens must be reminded time and again that something like a four dollars fire tax is being levied yearly through property losses alone, aside from grief, injuries and death.

Very few taxes are higher than this one. But, worse again, this one is 80% avoidable as that much of our city-bred blazes are self-inflicted, home-made, and can be traced to carelessness and lack of interest in prevention duties.

## THRIFT HABIT IS THE OBJECT

One of the easiest things man does is to accept a habit. As the various Victory Loan campaigns approached during the war years, about the first question a citizen was asked was, "What is the objective this time?" Since money was needed to win the war and to take care of our men and women in uniform, the money objective in each campaign became a challenge to Canadian people.

Naturally, when the new issue of Canada Savings Bonds was announced, men and women promptly asked, "What is the objective this time?" And as they got the answer, "There is no money objective," they were momentarily puzzled. A sale of bonds with-

out a goal to aim at just didn't seem fitting and wasn't easy to understand.

It is literally true that no prescribed sum of dollars is sought during the sale of Canada Savings Bonds which opens on October 15th. This sale was not prompted by a desire to fill up the money bags of the Government treasury. It is being launched to meet the keen desire of thousands of Canadians to continue their program of regular savings inaugurated by the Victory Loan and War Savings Certificates campaigns during the war years.

However, there is an objective associated with the approaching sale of bonds to the public. It might be described as the determination of those who are responsible for the sale of bonds in all provinces of Canada that all citizens shall have an opportunity to buy bonds. That is why the story of the canvass of the new Canada Savings Bonds is being so widely told, and why investment dealers and the banks are setting up facilities which will enable citizens to buy, no matter where they may be located.

Put another way, each Canadian sets up his own objective this time. Canada Savings Bonds have been created to help a man help himself.

## THOSE HALF-EDUCATED SPECIALISTS

Specialists have been busy for centuries creating all sorts of things which might serve the whole of humanity, but which end up doing more harm than they do good, writes Dr. Gordon Bates in a recent issue of Health magazine, of which he is the editor.

"Specialists have created gunpowder, dynamite, V bombs and poison gas in spite of the fact that research in chemistry and physics could be directed wholly in the interest of human health and happiness," Dr. Bates says.

"It was a wise citizen of French Canada who, the other day, said that specialism is another form of ignorance. As a matter of fact, the trouble with the specialist is that too often he excludes from his mind nearly everything but that which is closely associated with his own specialty and tends to go through life like a horse with blinkers.

"Business men, specialists in their field, tinkered with tariffs and created masterpieces which appeared to their author to be a contribution to their country's good, but ignorance of the laws of economics have made their well-meant efforts result in chaos and war. Specialists in medicine have created cures for disease which should be prevented or have relied on medical means for preventing disease, the causes of which are social—and the same thing goes for theology.

"The remedy—good cultural education for everyone before entering on a life career. Every child has a right to a good sound general education before he becomes a specialist in anything. And for the benefit of mankind we should see to it that every child gets the education he deserves. Furthermore this education should be as broad and as extensive as the state can afford.

"We have suffered enough from half-educated specialists."

be solved. There would be no shortage of saucepans, and no lack of nails—they would be kicking about the floor, as they used to be in the old days of free enterprise!

In this "New Society" everybody works for everybody else, without any thought of profit or wage rates, and there would be no strikes, because there would be no labor unions to start them. There would be no need for individual initiative and advancement, and industrial competition would be abolished by an all-inclusive State Monopoly.

Of course, we would have to change human nature a little by a system of eugenics, or by producing a stereotyped species of human beings in hatcheries, similar to those described by Aldous Huxley in his "Brave New World." For the time being, however, we had better accept the world as God made it, and make the best of what the socialists seem to regard as a bad job of creation. Back in the early part of the nineteenth century Harriet Martineau declared: "I accept the Universe!" To which Carlyle replied: "She had better accept it!"

Some people have been women so long they just can't help being a little contrary at times.

 Are Discussed

The opinions expressed in this Forum are not necessarily those of this newspaper, and it does not accept responsibility for them.

Does our Canadian youth need a war in order to get an education? Is there no hope for those who through no fault of their own, cannot afford the heavy cost of leaving a farm home, to take higher education in city schools and universities? Can democracy survive if higher education remains the privilege of those who are in a position to afford it, rather than those who have the ability?

Establishment of a city hospital for alcoholics was urged in an address recently by David B. Rotman, director of the psychiatric institute of the municipal court. Dr. Rotman declared that the anti-

social behavior of one out of every four persons referred to the institute is due to alcoholism; 15 years the ratio was one to six. He urged that educational campaigns on the dangers of alcoholism, similar to the campaigns on syphilis, tuberculosis and cancer be carried out in the public schools. He advocated more stringent laws against the sale of liquor to minors and better enforcement of existing laws concerning such sales and drunken driving. The social results of the increase in alcoholism in the increased load of court cases dealing with crime, juvenile delinquency and domestic relations.

At the 60th session of the Colorado Episcopal diocese held at Denver Bishop Ingley maintained that "Science and technology have outstripped all moral controls, so that men and women have ceased to look to them for salvation."

John A. Lapp, labor mediator and educator told a Chicago City Club forum that freedom of speech was endangered in the arrest of Gerald L. K. Smith and Arthur Terminello for making inflammatory statements in addresses here. Ira Latimer, chairman of the local civil liberties committee, which is no longer a part of the national committee, had been active in the efforts to prevent the two men from speaking and later in their prosecution. "We have in the past sprung to the defense of unpopular speakers," Mr. Lapp said, "even when we loathed their views. Now the strange doctrine is advocated that we should protect the right of those with whom we agree, but not the rights of those with whom we disagree."

Recently in the Scottish village of Courthill, honor was paid to Kirkpatrick MacMillan, who just over 100 years ago invented the bicycle. The first the world heard of MacMillan was when he was fined five shillings for knocking down a child with his machine, which, traveling at eight miles an hour frightened the folk of the countryside. Like so many inventors, he died a poor man.

Financed by the Charles Anson Bond memorial trust fund, a plan to complete the first in a series of motion pictures which will portray the entire Bible is being launched by the American Bible Society. 150 feature pictures will be required to complete the series. Anson Bond formerly with the army's (U.S.A.) motion picture division will be in charge of production.

## WEEKLY REVIEW

# "ALL FOR WANT OF A HORSESHOE NAIL"

By LEWIS MILLIGAN

A summer cottager went into an Ontario village store and asked for a saucepan with a lid. The storekeeper said he was sorry, but he had no saucepans in stock, and did not know when he would get any for sale. "What," said the cottager, "you haven't got such a thing as a common saucepan?" "No," replied the storekeeper, "nor have we even got any nails, and they're darned common enough!"

This incident tells, in brief, the story of the widespread shortage of common things in Canada, particularly the products that are derived from the steel industry. As the storekeeper remarked, "nails are darned common enough"—or they used to be. They were so common that the average workman never thought of picking one up if he happened to drop it. But not so in these days, for nails are not merely scarce, there are none to be had, and in many instances

building projects are being held up for the lack of nails.

The situation reminds one of the story we used to read in our elementary school books which concluded: "For the want of a nail the shoe was lost; for the want of a shoe the horse was lost; for the want of a horse the rider was lost; for the want of a rider the battle was lost; for the want of a battle the kingdom was lost—and all for the want of a horseshoe nail!"

That was a story with a moral for juveniles in the old days, but it is needed for adult education in these modern times, for it contains all the elements and essentials of social and political economics. The all-wise political economist of today reverses the story. He begins with the kingdom—the system. He tells us that if we only could establish a perfect economic system of government, then all our domestic, industrial, social and national problems would

Thanksgiving

By Rev. Canon R. Kenneth Naylor Rector of Trinity Memorial Church

I had the privilege of visiting the Province of Manitoba at the beginning of September and seeing a magnificent crop of grain being harvested to meet the terrible want of the world. It was a cheering experience and a beautiful sight.

I had the further privilege of preaching in two country churches where Thanksgiving Services were being held. Both churches were decorated with the produce of the gardens and with the wheat that is the richest and most characteristic crop of the West. But in each case the very centre of the decoration was a loaf of bread on the Lord's Table. The whole seemed to me to be symbolic of our relationship with our Heavenly Father. Last Spring at Ascensiontide we offered our prayers—on the Rogation Days—for God's blessing on our crops. We—represented by our farmers—had prepared our ground, winnowed the seed to keep it free of weeds, sown it with all the care we could, and had left it in God's keeping. We had co-operated with God as far as we could, but there were some things we had to leave to Him alone, and we asked for His continued blessing. God answered our prayers and now that our crops are gathered in we come together once more to offer thanks and prayers. Like the Hebrews of old we present our first fruits in His House.

The loaf of bread carries the symbolism a little further. For there we have man's further action upon the wheat. No doubt the wheat alone can be good food, but it is a far better food when it is processed. We have here not simply the co-operation of God and man but the co-operation of God and man and man. Wheat could stand for the work of one man by himself. Bread cannot. It is the result of the work of the farmer who sowed the seed and harvested the crop; of the trucker who brought the wheat to the mill; of the miller who ground it after he had secured his threshers from the manufacturer who made it. It is the result of the work of the merchant who sold it; of the housewife or baker who baked it, and of all who produced all the machinery for the various processes.

In short, that loaf of bread on the Lord's Table is the dedication to God not only of the fruit of the earth, but the dedication of the result of the whole of our industrial life. We thank God for the rich soil and the gentle rain and the ripening sun. Perhaps if we thanked Him with the same sincerity for the intelligence which

has enabled us to build the mills; to mine the ore; to make the machinery; to mill the wheat; to distribute the flour; we might realize that our labour wars are an offence against God who has enabled us in co-operation to do these things.

St. Paul told the Christians in Rome that the cause of the sins that befell the Gentile world was the fact that they were able to discern God in Nature and yet they did not recognize Him as God, nor were they thankful. That is why we are under judgment today. We have not dedicated our industry to God. We have assumed that it was ours to do with as we wished—even to fight over it. When we have really learned thankfulness God will grant us peace.

St. Luke's United

Services of Thanksgiving will be observed in St. Luke's this Sunday. The minister, Rev. Ralph E. Spencer, will continue his morning series of sermons on, "Laying the Foundations," when he will preach on the third subject in the series, "His Name Be Praised." The evening subject will be, "Our Date With Destiny." The choir, now being greatly augmented, will provide special anthems of praise.

Each elder undertakes to visit every member in his district four times a year. Not only does he visit with the purpose of getting acquainted with the members in his care, but, also, to present the member's communion card. This splendid service by elders is greatly appreciated. If, for one reason or another, you did not receive your communion card or you have a change of address, kindly contact the Roll Clerk at DE.9159. Your

### THE TURKEY

The turkey industry began before the discovery of America. Early Mexicans worshiped and partly domesticated the turkey, built solid gold, life-size statues to it.

When the Spaniards discovered Middle America in 1442, they also discovered the turkey. It went back home with them in 1498 and spread all over Europe, reaching England before 1550. When the colonists set off for New England they took their turkeys along and found a wild breed already in the woods.

Crossing the domesticated with the wild native stock resulted in the nation-wide industry of today.

### Deluxe Dream Gowns Will Be Modelled At Mock Wedding

### A Dream Come True

For the last three weeks I have been extolling the C.S.L. Gift Shop. I thought you would like to know just how this unique chain of shops came into being. In 1925 Mr. J. M. Bate of the Canada Steamship Lines Ltd. conceived the bright idea of doing away with the old magazine counters aboard ship. In their place he built a floating Bond Street. Hehe the passengers were able to buy gifts that were both attractive and a lasting memento for "the folks back home." Later he carried his brain child to the world famous Manoir Richelieu, at Murray Bay, Que. The Hotel Tadoussac, at Tadoussac and the Thousand Islands Club, on Wellesley Island, near Alexandria Bay, N.Y. Then came the grand finale to all this, in that new and notable link, the ultra-smart gift shop on Sherbrooke St., corner of Mackay, which I have described to you in previous chats. I feel that I am right in crediting Canada Steamship Lines for the renaissance of handicrafts and domestic arts. Previous to this we knew of hooked rugs only by the ordinary, garish, kitchen variety. By their intense enthusiasm for this work, they have inspired our artists to outdo even themselves, which you can witness by visiting the Sherbrooke St. shop, and seeing the rugs which have been designed for the C.S.L. Gift Shop alone. The Auxiliary Services Dept. of C.S.L. designs its own packaging, tapes, wrappings and its envelopes, all of which adds to its originality. The executives of this department live for just one idea: The Shops. No detail too trivial, no project too vast for consideration.

### Karen Bulow's HAND WEAVING

#### Luxurious Rugs

Those of you who have had the pleasure of meeting Karen Bulow know her to be the unassuming and modest person she is. So it was after considerable coaxing that she gave me permission to give you this news. Two years ago at the Canadian Handicraft exhibition in Toronto, Miss Bulow along with other well known manufacturing establishments, exhibited her own creations at the Design in Industry Exhibition. It is interesting to note that the technique employed in these rugs is the same as used in orientals. Actually, however, the designs are totally different. The one I singled out was a lemon and gray design. These rugs are woven on heavy linen warp, in any size required, and in any combination of colours that you may desire. They have a warmth and softness in them that you do not find in the manufactured

ones. These rugs are so well made that they will stand years of hard wear. Miss Bulow trusts only her finest skilled craftsmen in the making of rugs, and I feel too few of our Montreal people know of the luxurious quality and fame already aroused with her rugs. I was surprised myself to learn of the distant places to which these rugs have been shipped. If you are looking for something different and novel be sure and see these floor coverings. I was looking at a bolt of drapery material that had a richness seldom seen nowadays. It was a rust and cream wool with a silk thread woven through. Miss Bulow's studio is at 1174 St. Catherine St. West.

### Babyland

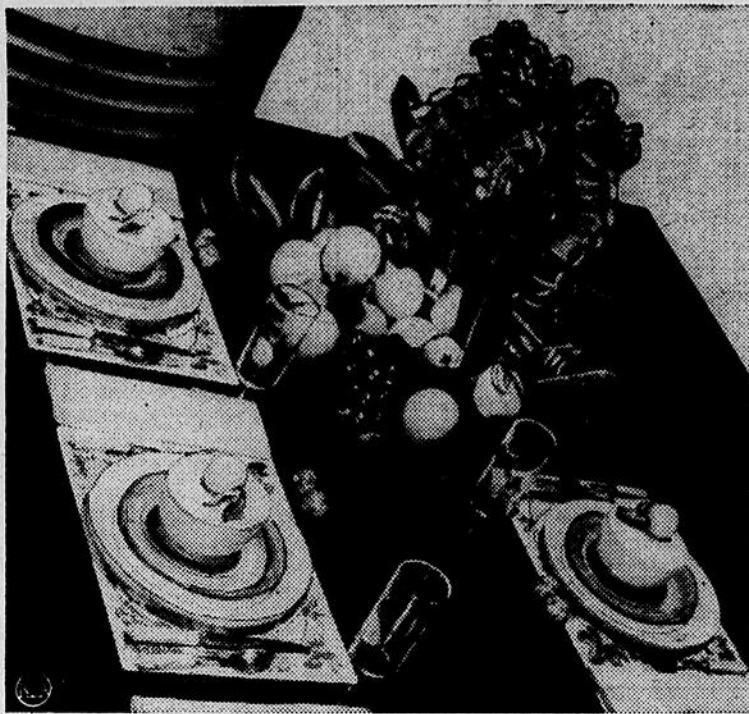

This week it is a joy to talk about BABYLAND at Morgans. This department is not as large as the others, but it is just as complete, and every thought for the little darlings has been carefully carried out, from their little powder jars to their warm winter coats. For their first fussy dress, you will find dainty white or blue organdy hand smocked dresses, from six months to six years. To go with these there are hand knitted pastel sweaters, in cardigans or pull over style, sizes one, two, three. To carry in the little lady's arms are hand made dolls, small size, with woolen hair, and dressed in very lovely taffeta, lace, and net. If you are looking for a Kenwood kimona, you will find a varied selection of these. The coats are very practical and attractive, I was looking at a lovely grey wool trimmed in bright red, with red epaulettes. To cover these little pets they have a complete stock of hand quilted blankets from crib to youth bed size. The crib size has little bears appliqued, and the youth bed size has little girls with poke bonnets worked on. These are well made and would look very attractive on a little bed. Now for the boys, they have not been forgotten. I found some hand knitted suits in brown and navy, and sweaters to match. I think some mothers will be pleased to know that they can procure chamois vests with zippers up the front, they come in sizes from two to six. The babies' furniture is connected with the infants' department. One crib and bureau set was very attractive in cream with painted figures in pink and blue, and some with floral designs.

### Au Beau Manoir

Those of you who have not as yet visited Beau Manoir at 1498 Sherbrooke St. W., have a treat in store. Here again is a specialty shop with an individuality all of its own. When walking through the spacious rooms, you think it has a like-

## Thanksgiving Table Talk

The warm feeling of peace and good fellowship pervading this year's Thanksgiving Day reunions of families who have been separated during long war years will be reflected in the gay, colorful table settings of many households.

For nothing so surely achieves a festive atmosphere as a beautiful or novel background for the holiday feast. And families who hadn't the heart to fuss much while their sons and daughters were away during the war, will outdo themselves this year.

Hostesses who want to strike a note of gracious informality when they entertain friends who drop in for Thanksgiving supper, will find in the above table setting novel ideas which they can

adapt. The china turkey, which is almost life size and realistically colored, makes an unusual table piece.

Inexpensive solid color earthenware plates provide a contrast to the brilliant floral design of the individual place mats. And the covered soup dishes with matching plates rest on transparent glass service plates — a neat trick for synchronizing the color scheme.

The tumblers carry out the pear design used on the soup dish covers, as do the pear-shaped individual salt and pepper shakers. Waxy rhododendron leaves, tucked here and there among the fresh pears, apples, oranges and grapes, give a party air to this simple dessert.

tearoom, and all members are urged to be present and bring friends. Refreshments will be served.

### Tour Of Hospital Part Of Program Of Karnak Ladies

The next meeting of the Karnak Ladies Club will be the "Hospital Day" gathering. This will be held on Tuesday, at 2:45 p.m., at the Shriners' Hospital, 1529 Cedar Avenue. The guest speakers for the afternoon will be Dr. W. G. Turner, Miss M. E. Orr, and Illustrious Potentate D. L. Witter. A tour of the hospital has also been arranged.

This will be a very inspiring af-

ness to some shop or room that you have visited on The Continent, then again you think you are looking at a past age in some remote part of Quebec. Here you will find some of the most exquisite wall fixtures that are to be bought in our city, and I might say, on this side of the world. I'm sure you would travel far before you would duplicate any article in this shop. As an example of their artistry, on the floor were a pair of old flat irons which had been painted green and trimmed in rust and yellow. These were used for door stops. If you are looking for something odd in wall candle holders, do see their ceremec wall candle holders, they are something quite different. Also a pair of beautiful pink china prisms for a mantel piece. There are several very good carvings by the celebrated wood carver J. Hurteau, one was a set of three blue birds that could be pinned on the wall, also some very attractive wooden napkin rings and coasters. For those who are interested in ships, it would be worth their while to come in and inspect the four-masted schooners, they are perfect in detail, and would make an admirable setting for some mantel-piece. One of the specialties of Beau Manoir is their very fine collection of old French-Canadian pine furniture, none of the pieces are under a hundred years old. This furniture is all hand made, and is now beautifully coloured with age. There are quaint old desks, side tables, china cupboards, children's rocking chairs. Be sure to inspect their French jewellery.

# Vegetables And Fruit Tumble Out Of Squash In Autumn Decoration

Flowers always make a perfect centrepiece. But since we can use flowers throughout the year and it is only at this season that fruit and vegetables seem apropos, my vote is for these garden products, which if carefully selected as to color and form, well polished and attractively arranged are a picturesque display of Mother Nature's own colors.

A well-shaped and sizeable pumpkin covered with cotton batting makes the simplest container for these products and when filled

to overflowing with rosy apples, is both colorful and appropriate. Squash may also be used—cornucopia style, slightly tipped with the apples piled around it. An old-fashioned silver cake basket may offer the same assortment.

### NDG Women's Club

The Notre Dame de Grace Women's Club will hold a business meeting for members only on Friday, October 18th, in Victoria Hall at 3 p.m.

### Melville Church

# WVS Parcels Have Christmas Touch

October parcels for England, whether they be destined for friends of long standing, or whether they be for friends newly found through the Personal Parcels Scheme, will all have a Christmas flavour.

The British WVS has sent the WVS here a list of suggestions for foodstuffs, any or all of which, would be highly prized by the British housewife in planning and preparing the holiday fare for her family. The list, totalling seven lbs. is as follows:

Ground almonds, one-half pound; whole almonds, 1 lb.; candied peel, one-half lb.; sugar, 1 lb.; suet, 1 lb.; mixed dried fruit, 1 lb.

They suggest, as alternatives, crystallised fruit, canned fruit or candy. Gay wrapping paper and string are almost unobtainable in England, they might be included as padding in a parcel. Small gifts from 10c stores suitable for children would be another boon in parcels this month and next.

WVS draws your attention to the fact that their files still contain the names, and information concerning, many people in Britain who have not as yet been sponsored by a Canadian friend. The original allotment received in May has been placed, but at intervals since that time additional lists have been received by us. Widespread publicity of this fact has been interrupted by the Dominion Government, but WVS now asks you to help by telling your friends, showing them letters of gratitude you have received, or arousing their interest in any way you think best, in those British families who still wait for a personal parcel.

# Maritime Women Foregather At Tea

A reception and tea was held by The Maritime Women's Club of Montreal, Inc., on Saturday afternoon in the Prince of Wales Salon, Windsor Hotel. This was arranged by the social committee under the convenership of Mrs. Claude S. Richardson.

Mrs. A. D. Ross, president, was assisted in receiving by Mrs. J. E. MacVicar, Miss Margaret Murray and Mrs. M. A. Ross.

Mrs. Ross after welcoming the members and their guests outlined the programme for the coming year.

Several vocal selections were rendered by Armonde Davis, contralto, accompanied on the piano by Mrs. F. H. Mathewson.

Mrs. W. H. Porter, Mayor of Kentville, Nova Scotia, and a sister-in-law of Mrs. Claude S. Richardson, gave a very informal talk, through which she extended to the club greetings from the Maritimes.

Mrs. A. J. Moore gave a comprehensive summary of the summer's work at the Military Hospital, Ste. Anne de Bellevue. And Mrs. A. J. Boyd told about the personal parcels for Britain which have been sent during the past season.

Mrs. G. R. MacLeod, Mrs. J. E. MacVicar, Mrs. J. R. Peardon and Mrs. R. J. Russell presided at the tea tables.

# Serious Thinking Often Shirked By Many Women, Actress Claims

When Henry A. Wallace recently turned a Madison Square Garden political rally into an international incident, most of what was said that night by the other speakers was largely ignored. Among those neglected was Mrs. Florence Eldridge March, actress and wife of the Hollywood film star, Fredric March. Mrs. March spoke as chair-

man of the Women's Division of the Independent Citizens Committee of the Arts, Sciences and Professions.

One paragraph, the Christian

Science Monitor notes, in particular is worth calling to the notice of the ladies--although it by no means applies to ladies only. Pointing to woman's opportunities as a citizen in a democracy, Mrs. March said:

She can start quite basically and simply within her domestic sphere, remembering that politics, like charity, begins at home. She can teach her children that the word

responsibility is a companion word to freedom. . . She can teach them to play and work happily with children of other races, creeds and colors, and that differences in cultures are to be appreciated and enjoyed--not to be sneered or laughed at. She can lay aside her soap operas, bridge parties, and escape reading along with the other toys of her childhood and do a little homework in the problems that

confront her in the grown-up world. . . She can learn to base her opinion on something firmer than hysterical headlines. . . She can watch the voting record of her representatives in Congress and reject or accept them on the basis of that record. She will go to the polls with a bow of gratitude to the men who ploughed through abuse and ridicule to give her the suffrage -- and exercise her vote.

# Ingenious Earring Is Hearing Aid

Sensitivity and embarrassment occasioned by necessity of wearing a hearing aid has been obviated by ingenious camouflage.

The camouflage is applicable to feminine victims of faulty hearing. It consists of a hearing aid concealed right inside an earring.

The appliance makes it no longer necessary to wear a receiver directly over the ear opening. A transparent plastic tube carries the sound from the receiver to the ear, and is practically invisible.

The receiver itself is concealed within a silver or gold earring of beautiful design, which is matched by another ornament for the other ear. Glamour pins to match are also available.

# Variety In Belts Greater Than Ever

Belts appear to be the hit accessory of the season, judging by the numerous varieties seen at the National Fashion Accessories Show in Chicago recently.

The news about belts is not only in their popularity but in their variety of designs.

Remember the chatelaine purses Great Aunt Mirandy wore at her belt long ago? Well, their prototypes are now in high style. For grammar-school Susy, there was shown a narrow leather belt with a flat purse attached, and in the purse, yes, Susy can carry her milk money.

There was a black suede belt for a grown-up evening costume, and on the belt was a detachable fob purse made like a mask, with small mirrors forming the eyes and mouth.

For the junior-high crowd, or those a bit older, there was a narrow buff leather belt with a photo fob. Inside were places to carry favorite snapshots, and outside there was a perfect expanse upon which friends can scribble outographs or draw pictures, as they delight in doing.

### Numerous Peplum Belts

There are many varieties of "peplum belts." They fit down below the waistline a bit, and are thought to be the most generally becoming. One was bright green suede, scalloped at the bottom.

Belts are so popular this season, that college and high school girls are collecting them, it's said, and "wouldn't be seen" without one.

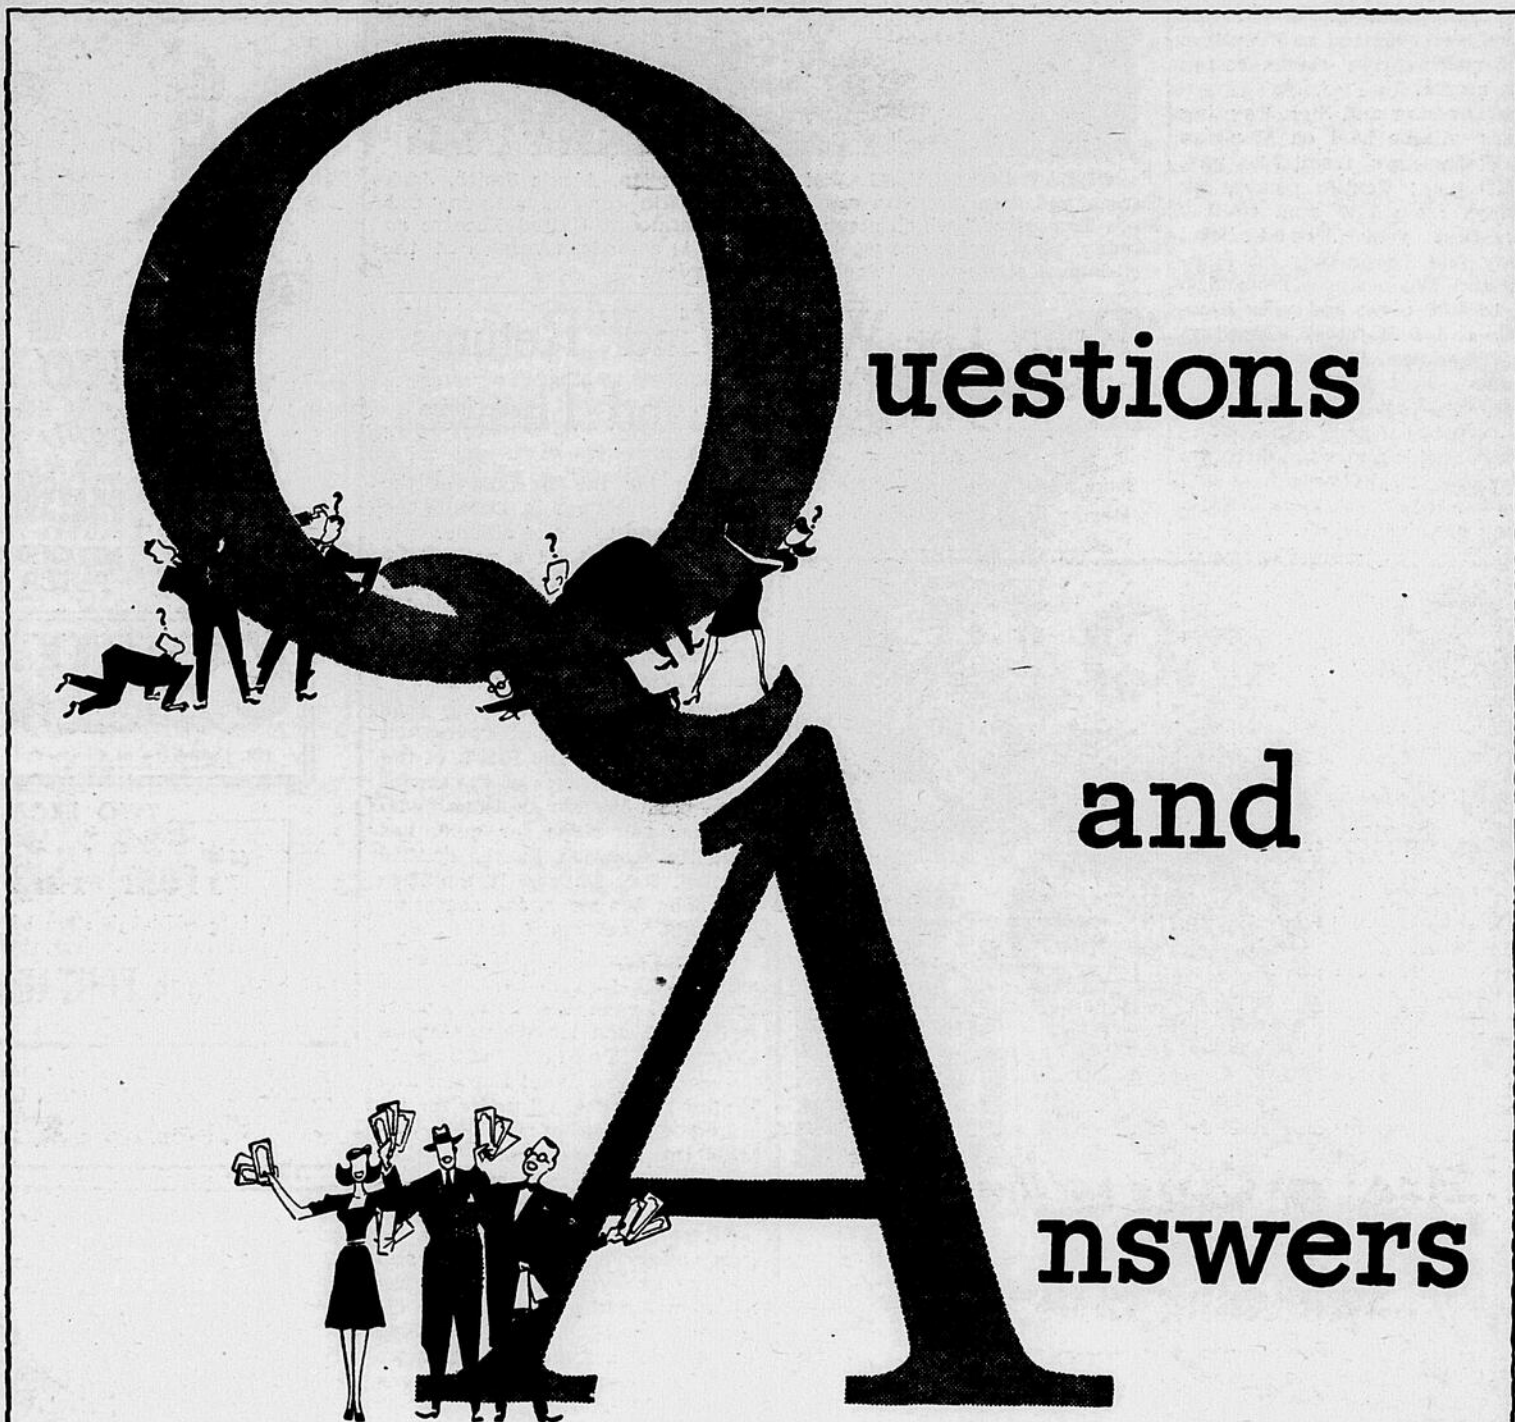

### Rummage Sales

A rummage sale is being held by the St. Matthias Social Service Club on Friday, October 18th, at 2:30 p.m., in the parish hall, Cote St. Antoine Road.

### NEW BRUCK FILM

Bruck Silk Mills will shortly introduce its new film "The Fabric of our Story," a sound and color feature which has been designed for showings to sales and consumer groups. It features a tour through the company's plant, explaining how fabrics are made and takes the audience on a trip to Murray Bay, with emphasis on travel and fashion.

An Ohio woman sued her husband for separate maintenance on their fiftieth anniversary. A golden opportunity!

### GENERAL

Q What are Canada Savings Bonds?

A Canada Savings Bonds are the successor to Victory Bonds and War Savings Certificates. They are your country's promise to return your money to you at any time and to pay you interest at an attractive rate.

Q Why are Canada Savings Bonds being offered?

A Because during the war, millions of Canadians learned the savings habit by buying Victory Bonds and War Savings Certificates. A recent survey shows that 82% of them want to keep on saving by a similar plan.

Q Is the Government selling Canada Savings Bonds just to raise money?

A No. Borrowing needs of the Government can be met by other types of loans. The main purpose of the Canada Savings Bond is to provide Canadians with a convenient way to continue this kind of saving and investment in peacetime.

Q Is there any limit to the amount of Canada Savings Bonds that one person may hold? If so, why?

A Yes. There is a limit of \$2,000 for each individual, but each member of a family may hold bonds up to the limit.

Q What is the price of Canada Savings Bonds?

A 100%. That is, a \$100 bond costs \$100. If payment is not completed on or before November 15th, 1946, interest will be added to the purchase price.

Q In what denominations are Canada Savings Bonds available?

A \$50, \$100, \$500 and \$1,000.

### CASHING OF BONDS

Q Can I cash my bond at any time before November 1, 1956?

A Yes, any branch in Canada of any chartered bank will cash your bond immediately at full face value, plus interest at 2 3/4%, upon your identification as the registered holder.

Q Can Canada Savings Bonds be assigned or transferred?

A They can be cashed, but not assigned or transferred. This is necessary to prevent any individual from acquiring more than the authorized limit.

### INTEREST COUPONS

Q What interest is paid on Canada Savings Bonds?

A 2 3/4%—payable yearly on November 1st from 1947 to 1956, by coupon cashable without charge at any branch in Canada of any bank.

Q Are interest coupons registered?

A No. They are payable to bearer.

### REGISTRATION PROTECTION

Q Why is it necessary to register Canada Savings Bonds?

A Registration gives protection in case your bond is lost, stolen or destroyed. It is also the simplest way to ensure that individuals do not hold more than the \$2,000 limit.

Q In whose name can Canada Savings Bonds be registered?

A They can be registered only in the name of one individual, adult or minor, up to the amount of the authorized limit.

Q Can Canada Savings Bonds registered in the name of a child be cashed?

A Yes. Banks are familiar with the necessary regulations.

Q Can Canada Savings Bonds be disposed of when registered in the name of a deceased person?

A Yes, any bank will supply the necessary information.

Q Can I replace my Canada Savings Bonds, if they are lost, stolen or destroyed?

A Yes. It is wise, however, to keep Canada Savings Bonds in a safe place, as you would any other valuable documents. In case of loss you should immediately notify the Bank of Canada, Ottawa, of the circumstances.

### HOW, WHEN AND WHERE TO BUY

Q Where can I buy Canada Savings Bonds?

A At any branch of a bank or from an authorized investment dealer, stock broker, trust or loan company -- or through the payroll savings plan if this is in operation at your place of employment.

Q How do I pay for Canada Savings Bonds?

A In any of the following 3 ways:

1. By payment in full at time of purchase.
2. By monthly instalments through a bank, trust or loan company.
3. By regular deductions from pay, where employers operate the Payroll Savings Plan.

8 out of 10 will buy again....

**GREAT COMEDY STARS!** Dennis Morgan, Alexis Smith, Jack Carson and Ann Sheridan are co-starred with Jane Wyman in "One More Tomorrow," which starts at the Westmount United Theatre on Sunday, playing for one week. The film is a modern version of the well-known stage play, "The Animal Kingdom."

## "Reap The Wild Wind" Returns To Screen Of Monkland Theatre

Take a lusty yarn of the roaring, roistering days when America was

fighting for the freedom of the seas and give Cecil B. DeMille the starting gun to make a super-epic of it and what have you got? "Reap the Wild Wind," no less, which returns in all its Technicolor beauty to the Monkland United Theatre, where it is now playing until Tuesday night.

This broad and sweeping tale, told in Technicolor, of Charleston and Key West in the 1840's, of the relentless hurricanes of the Caribbean, and lawless captains who wrecked tall ships for gold, has Paulette Goddard as its spitfire heroine. Ray Milland is the hero and John Wayne is the seafaring man who loves and loses.

Given stars like that, plus such supporting players as Raymond Massey, Lynne Overman, Robert Preston, Susan Hayward, Charles Bickford, Martha O'Driscoll, Louise Beavers, Janet Beecher and Walter Hampden, all under the inspired direction of Cecil B. DeMille, the picture cannot help being one of the all-time great film epics.

"Reap the Wild Wind" tells its gusty story against a broad and gaudy background. It's all the same to DeMille whether he's directing high jinks in an 1840 Charleston salon or a climactic fathoms deep battle between Wayne, Milland and a 60-foot giant squid. He loads every scene with the same theatric qualities.

Miss Goddard's performance as Loxi Claiborne, the fire-eating Southern belle who dons dungarees to fight the raging sea, has been acclaimed as one of her greatest characterizations. Milland and Wayne excel in their roles and their undersea battle with the giant squid is something to behold. Raymond Massey, as the deepest dyed villain ever created by DeMille, plays King Cutler, cynical, cold-blooded boss of the pirates.

## C.A.T. Officially Opened On Friday

Friday evening marked the beginning of an extensive chapter for the Canadian Art Theatre. Honored by the presence of His Worship Mayor Houde, the official opening of Canadian Art Theatre new building at 5767 Monkland Ave. and of the Theatre Schools took place. A host of students attended the gathering and they were afforded the opportunity to meet informally the directors and instructors of the theatre's company.

Especially noticeable today is the fact that many top notch actors and actresses have given credit to Canada through their activities in the United States and in other parts of the world. It is the aim of the C.A.T. through the medium of this school to increase representation and also to provide in Canada an all Canadian theatre. Though the endeavor shall be difficult, present progress in radio and theatre has weaken-

ed a great deal the many barriers to be confronted. As expressed by Mayor Houde, the theatre is an asset and a necessary function to the community and it is felt with optimism that an assurance of a successful future is indicated.

MUSIC AND ROMANCE IN THE "NINETIES"! Kathryn Grayson, Jimmy Durante and June Allyson head the cast in "Two Sisters from Boston," which starts at the Seville United Theatre on Saturday, playing until Tuesday night. The film tells the story of a talented young lady from Boston who tried to enter Grand Opera by starting from the Bowery. Featured in the cast are Peter Lawford and Lauritz Melchior.

### "Two Sisters From Boston" Has Superb Song-And-Dance Talent

Youth and beauty—love and laughs—opera and swing—all combine into one glorious musical in "Two Sisters from Boston," which is now playing at the Westmount United Theatre until Saturday night, with Kathryn Grayson, June Allyson, Jimmy Durante, Peter Lawford and Lauritz Melchior in starring roles.

Colorful settings and costumes of the turn of the century bring the nostalgic beauty of the early 1900's to life in the story of two sisters who forgot the strait-laced conventions of their Boston background for the adventure and excitement of New York.

In real life, Kathryn Grayson's greatest ambition is to sing in opera—in "Two Sisters from Boston" she realizes her wish. For she teams in opera sequences with none other than Lauritz Melchior, world's greatest tenor, who makes his second screen appearance following his hit in "Thrill of a Romance."

They sing thrilling operatic arias based on scores by Mendelssohn and Liszt. But Miss Grayson also has a chance to sing in a Bowery beer hall, where she is bill-

ed as "High C Susie," and she offers tear-jerking ditties of the day. Her partner in this phase of her life is the inimitable Jimmy Durante.

June Allyson, one of the screen's favorites, has the other feminine lead as the prim and proper Back Bay sister, and also has a chance to demonstrate the singing and dancing ability which originally brought her to Hollywood from the Broadway musical stage.

Comedy is in the hands of Durante of the irrepressible humor, impressive nose, and exuberant manner. He's the piano-playing singer in a Bowery beer-hall, a role which closely parallels his own start in show business at Dia-

mond Tony's Coney Island "jermt." Heart-throb of the younger set, Peter Lawford, English actor who won approval with his sensitive portrayal of Irene Dunne's son in "The White Cliffs of Dover," has his most important screen role, plus two leading ladies, in the romantic lead.

### MRT Presents Amusing Drama "Uncle Harry"

To stage this play, M.R.T. has cast a group of experienced Montreal players, headed by the West-end acting couple, Robert Goodier and Eileen Clifford. Robert Goodier has just returned from touring with the phenomenally popular Navy Show, a revue which played to troops and the general public in England and on the Continent. Pictures of Mr. Goodier were featured in Life Magazine's story of The Navy Show and he subsequently played in the English film version which is soon to be released. Eileen Clifford, Mrs. Goodier offstage, is well known to Montreal radio listeners as Laura in the daytime serial, "Laura Ltd."

"Uncle Harry" will be directed by Jean de Savoye, for many years drama director for the Westmount Women's Club. West-end residents will be familiar with several of her recent efforts, including "Blithe Spirit," "The Man Who Came To Dinner," "Susan and God" and "Cry Havoc." Associated with Mrs. de Savoye in this production will be Charles Rittenhouse, supervisor of speech Arts for the Montreal schools, who played in the original staging of the play under the direction of the author, Thomas Job. Mr. Rittenhouse will play the same role he had on that occasion. Others of the cast are Dorothy Danford, Suzanne Avon, Marion Keith, Albert Miller, Walter Wakefield, Douglas Peterson, John Gibbon, Griffith Brewer, Jerry Thompson, Mary Lindsay and Edward Wilson.

# Locals Blank Holy Cross 11-0

## Win Worth Four Points To Team

Coach Bruce Johnson's Westmount Football team defeated Holy Cross 11-0 last Saturday afternoon at Westmount Park.

Although the game was poorly played, the Westmounters held the edge throughout the whole affair. Jim Patterson and Bill Telfer were the touchdown scorers while Don Ewart scored the other lone point on a pass off a convert by Sandy Spence. The game was a four pointer and close to 3,000 spectators looked on.

The Westmounters started the first quarter off by taking possession of the ball after the kick-off and making two first downs, but then fumbled on their opponents 20-yard line. The ball exchanged hands and another fumble came up. Bojeck made a twenty-yard gain for Holy Cross on an end run.

The Westmounters started rolling in the second quarter with plunges by Asch and Telfer. Mishio's pass to Binmore was good for fifteen yards. With the local boys on the Holy Cross ten yard line, Bill Telfer went over standing up for the first major score. An attempted pass on the convert failed. Sandy Spence of Westmount made twenty yards on a plunge. A Spence to Gregor-Pierce pass was incomplete. Toward the close of the quarter, Dougherty of Holy Cross made thirty yards on an end run and was tackled by Ben Young.

### THIRD QUARTER

The third quarter was scoreless, with both teams having possession of the ball the same number of times. After making a fifteen-yard gain for Holy Cross, Sperrit was stopped on a tackle by Cox. Marrotli intercepted a Westmount lateral and gained thirty-five yards. Jackson tackled Sperrit after he made fifteen yards. Bill Dryden blocked a Holy Cross pass to end their hopes. Ewart made a six-yard plunge, but Westmount fumbled on the next play to end the quarter.

### FOURTH QUARTER

Asch ran back Bojeck's kick, and made first down on a plunge. Telfer's end run was good for ten yards. Bojeck recovered a Westmount fumble and galloped down the gridiron for a fifty yard gain. Bojeck was stopped hard by Marshall on the next play. Holy Cross fumbled on the next play and the Westmounters started up the field on plunges by Telfer and Mishio. The local boys were held and Boright intercepted a Holy Cross pass to give Westmount possession of the ball. Jim Patterson then made a twenty-yard gain on a plunge and a few minutes later went over for a touch.

## Argos Trim Rough Riders, St. Leo's

Jim Brow's Argos have got off to a flying start in the midget schedule of the Westmount Municipal Six-Man Rugby League. The Argos have won their first two starts, downing Dave McDougall's Rough Riders 5-2, and Ross Murray's St. Leo's outfit 18-5.

In a single game played last week, the Rough Riders and Aces played a 15-all tie.

The Rough Riders, Argos, Aces and St. Leo's make up the four-team loop. A fifth team entered at the start of the schedule but dropped out when it was deemed as not strong enough to compete with the other clubs.

The Rough Riders opened the scoring in their game with Argos when Carter Powis downed Jim Brow for a safety touch but before the first half was over Gordie Fehr, Argos, snared a forward pass out of the air to go over for a major score. Argos added another point in the second half when Brow kicked a rouge to make the final score read 6-2 for Argos.

The Aces-Rough Riders 15-all game was an exciting tilt, with Aces holding a five point lead up until the last minute of play, when Pat Craig intercepted an Aces' lateral pass and then ran over for a touchdown from 25 yards out.

The clubs were all tied at half-time as well, 5-5. Jack Cote got two tries for 10 points for the winners with John Petry getting the other major score. John Swaine picked up the Rough Riders' other 10 points.

Argos accumulated a 12-0 lead at the halfway mark in their game with St. Leo's and finally won out 18-5. Tommy Thomson paced the winners with 10 points, Jim Brow contributing six and Gordie Fehr, two.

The Saints saved themselves from a shutout in the last half when Herb Guilfoyle grabbed one of Ross Murray's forward passes from out of the air to go over for a major score.

A bantam game between Rough Riders and St. Leo's will be played tomorrow morning at 9.30 a.m.

The complete bantam schedule is as follows: Mon., Oct. 7, Rough Riders vs. Argos; Tues., Oct. 8, St. Leo's vs. Argos and Aces vs. R. Riders; Fri., Oct. 11, Aces vs. Argos (11.00); Sat., Oct. 12, R. Riders vs. St. Leo's (9.30); Thu., Oct. 17, Argos vs. R. Riders (4.30); Sat., Oct. 19, Aces vs. St. Leo's (10.15); Tue., Oct. 22, Argos vs. St. Leo's (4.30); Fri., Oct. 25, R. ### ARGOS-ALOUETTES CRUCIAL MEETING

Toronto Argonauts come here Saturday to meet Alouettes in what is the critical game of the year for the local squad. In fact, it is the game which local fans have been anticipating since the season began. Unfortunately, Alouettes aren't as close to Argos in the standing as local fans hoped following last week-end's games with the tough Ottawa Roughriders, but the meeting between the traditional rivals is still crucial enough to make it the game of the year locally. A win for Alouettes is imperative if they are to stay in the running.

\* \* \*

In some respects, the short field at Delorimier Stadium (it is only 100 yards between the goal lines instead of the regulation 110) may work to the disadvantage of the local team, who lack a good distance punter. Being outkicked on the short field will be a real handicap, especially as there isn't room behind the uprights to do much fielding and running. The goal posts are backed up close to the fence in left field, and to the grandstand behind first base.

Win or lose, however, Alouettes can be counted upon to put up a great wide-open battle—the kind of game that pleases the fans. If they can stop Joe Krol, they'll probably hand Argos their first defeat of the year. Last time the teams met, in Toronto, the game ended in a tie.

\* \* \*

### McGill Showed Class

McGill showed plenty to take Queens with Murray Hayes in the starring role. His rumback of the kick-off for a 95 yard touch was the neatest job of ball toting seen on the Molson Stadium field in a good many years. However, the Redmen are going to have their hands full with both Western and Varsity. Varsity, although bolstered with two ex-Argos stars, Myers and Doty, went down before the Londoners 20-7 last Saturday.

\* \* \*

### When Army Meets Notre Dame

All indications point to a furious battle when the Army meets Notre Dame. The Cadets kept rolling, taking Cornell 46-21, with Glen Davis scoring four majors to pick up where he left off last year. The Irish played under wraps last week to take their second straight, over Pittsburgh, 33-0. November 16 is the day in Yankee Stadium when the nation's two top teams meet. It should be a great battle.

### Entries Total Three In Loop

Three teams will contest the issue in the midget section of the Westmount Municipal Six Man Rugby League that got underway on Wednesday. As with all the other sections of the league, the games will be played at King George Park. The next game on the schedule is slated for tomorrow morning with Bert Kelly's Alouettes taking on the St. Leo's Greys. The third team in the loop is the St. Leo's Greens.

A complete schedule is as follows:— Wed., Oct. 9, Greys vs. Greens (4.30); Sat., Oct. 12, Alouettes vs. Greys (11.00); Tues., Oct. 15, Greens vs. Alouettes (4.30); Fri., Oct. 18, Greens vs.

the number in this group will be limited.

### WEIGHTLIFTING

Members will be pleased to know that the Weightlifting room is now ready for use. For body-building exercises using weights, we suggest a regular routine of three periods per week. Plan your schedule now. Weightlifting periods are Monday, Wednesday and Friday, 7.30-9.30 p.m. and Saturday afternoon 2.00-4.00 p.m.

Arrangements are being made for a mixed Fencing Club, a Dancing Instruction Club and Mixed Swims. If you are interested in these groups, call the Physical Director for further information.

### BADMINTON

Y.M.C.A. Badminton Club got away to a good season with a splendid turn-out the first night, Wednesday last. The Badminton members are electing a new executive for the coming season to include President, Secretary, and Treasurer. The Badminton Club will meet twice weekly. Wednesday night is definite and a second night to be arranged most convenient to members.

### SATURDAY NITE CLUB

Following their executive meeting Wednesday evening, Miss Lillian Goode, Chairman, announced final arrangements for the first big party of the Saturday Nite Club for the new season. This Saturday, October 12, is the night to reserve for the first party. Music will be supplied by Johnnie Pepper and his orchestra. The committee is arranging special decorations and dance programs. Don't miss the fun!

Greys (4.30); Sat., Oct. 19, Greys vs. Alouettes (11.00); Thur., Oct. 24, Alouettes vs. Greens (4.30); Sat., Oct. 26, Greys vs. Greens (11.00); Tues., Oct. 29, Alouettes vs. Greys (4.30); Fri., Nov. 1, Greens vs. Alouettes (4.30).

## Academy Drops Tough Opener

A fighting Academy squad went down to a heart-breaking defeat before Catholic High in their initial start of the Senior Interscholastic schedule at Loyola College grounds last Sunday afternoon.

St. Leo's weren't counted on to supply much opposition to the Black and White but surprised a crowded stand of football enthusiasts by actually outplaying the well-staffed Durocher St. gang. Lack of goal line punch was the big stumbling block to the Red, White and Green as they moved in to close proximity of their opponents' goal-line a number of times, only to be foiled when within reach of pay dirt territory. In the matter of first downs and completed forward passes, St. Leo's enjoyed a wide margin.

With the white flag up, signaling the last minute of play, Jimmy McCarthy, brilliant half for the Academy, snared a thirty yard pass from team-mate McKenna on Catholic High's 45 yard line and carried the ball for forty yards, being finally downed on the enemy's five yard line. There within the shadow of the Catholic High goal posts, the hardy young Westmounters made their last valiant attempt to wrest the game out of fire. Three fast pass plays were attempted, only to fall inches short of their intended receivers who were anxiously waiting to grasp the elusive pigskin. On the fourth and last down of the game, a Black and White player intercepted a McKenna pass to run it back to his own five yard line.

The standouts for the Red, White and Green were Jimmy McCarthy, Moe Strachan, Bud Guilfoyle, Martin McKenna and Gerald Berry. Kavannagh, Danaghar and McMenamin showed fine football for Catholic High.

Interest is high in the team's next game which is against Loyola this coming Monday afternoon at 2.00 p.m.

BY WINIFRED E. WILSON

**CANADA GOOSE**

Of all our birds the Canada Goose seems most human, and in some respects appears to be more intelligent than many people. If not shot down, this handsome, 35½ inch waterfowl lives to a great age; one is known to have reached 47 years. Mating for life, it is miserable when its partner dies.

About 90% are Eskimo by birth, for the breeding grounds extend as far north as the tree limit and spread from British Columbia to Labrador. The nest is a large, shallow saucer of grasses and feathers, almost always made on the ground beside a marsh or pond. While the goslings are growing up the parents moult, and for a time are unable to fly, but by the beginning of October the whole family, in beautiful, new grey suits trimmed with black and white, is ready to travel. Father leads the way, followed by mamma and the children.

Many Canada Geese stop over at the Jack Miner Bird Sanctuary at Kingsville, Ontario, on their way north in March. Having found it peaceful, they wisely bring their young ones to the same place in the autumn. There must be occasional rests on the lengthy trip, and at each stop the flock is joined by other families. So wary are the older birds that when feeding in a grain field sentinels are posted to watch out for danger. As these stand on guard, their long, black necks with the white choker collars are stretched up as far as possible. Geese have keen sight and acute hearing.

At the least sign of anything unusual, the leader (which we assume is an old, efficient guide) gives a warning call, and up rises the whole flock — not in confusion, but in well-planned order, forming a perfect V as they take to the sky. This formation, always kept throughout migration, has been copied by airmen. It is a splendid sight, as they pass overhead, sometimes wheeling to right or left, individuals changing places at intervals, and a fresh leader occasionally coming up to take the key position while the first one relaxes for a time.

On they go, keeping to their invisible flyway, their wild honkings filling the air; on to their winter quarters in the southern states, there to await the season when the ice begins to crack on Canada's lakes, and they may return home.

Why do birds fly south in autumn?

**PUTTING**

The Westmount Putters Social club will commence its weekly meetings in Victoria Hall on Monday evening October 21. It is hoped to have all the persons who used the putting greens during the summer months out to attend the opening session.

**TRINITY PACK**

**IMPORTANT:** Trinity Pack will travel to the Duke of York's Armoury on Cote des Neiges Road Saturday to see the Chief Scout. Transportation will be by autobus and, therefore, the Pack will assemble at the Church not later than 2.45 p.m., in full uniform, if possible. Those without uniforms will also be welcome, however, and a full attendance of the Pack is expected. The cost to the boys for the bus trip will be ten cents and we hope to see YOU there.

**THE FRIDAY NITE CLUB**

The Friday Night Club for girls and fellows, members of the Y.M.C.A., has now recommenced its teen-age program.

So far the dances have been exceptionally well attended and there are great expectations about a special masquerade Hallowe'en dance, to be held on the last Friday in the month.

A new Executive is to be elected by the Club on Friday, Oct. 13th.

**SATURDAY AFTERNOON MOVIES**

The regular Saturday afternoon movies, commencing at 1.30 p.m. are now being shown at the Y. Members are invited to bring along their friends.

**HALLOWE'EN PARTY**

The Y Leaders' Corps and the Hi-Y Clubs will co-operate in putting on a costume party on Hallowe'en.

Prizes will be offered for the best costumes—there will be a catwalk, games, movies and contests. In short, it should be the real thing!

The party is open to all younger members of the Y.M.C.A. and their friends.

**HI-Y**

The Westmount Senior Hi-Y Club has again commenced its activities for the year. At the first meeting of the Club the President outlined the proposed program for the year.

It is expected that this year's club will have a varied program including speakers, visits, service projects. The program of the club will centre around the idea of service to youth in other lands devastated by the war.

**SENIOR BOYS**

Senior boys are being offered a full and interesting program at the "Y". Regular classes for this section commence on October 15th. Among the varied activities open to members of this section are badminton instruction, basketball, boxing, judo, weightlifting, advanced swimming, photography and woodturning. Regular gym classes are to be held each Monday and Thursday evening at 7.00 p.m. for working fellows, while those going to school will be able to come to the "Y" on Monday afternoons.

Bro. Bernard, principal of St. Leo's, and Edward Connelly, vice-president of the English section of the school.

Names of St. Paul's Academy graduates are as follows: Teresa O'Sullivan, Joan Carroll, Barbara Ann Byrn, Mary Callaghan, Barbara Commins, Barbara Dowling, Magdelina Ellis, Dorothy Hanley, Audrey Lefebvre, Helen Losito, Marguerite McDonald, Joan MacDougall, Noreen McArt, Mary Ellen Mulcair, Jeanette Renaud, Patricia Walsh.

Names of St. Leo's Academy graduates are as follows: Paul Iverness, Hugh Peckham, John Asselin, Christopher Bortnowski, Adam Brzezinski, Robert Cannon, Frank Cliffe, Frank Creaghan, Gerald Fegan, Richard Griffin, John Lunny, Leigh Manning, John McVey, Robert O'Brien, Paul Shaw and John Wright.

a bulb on the wall at that point, and the job was finished.

**Triumph for Chemists**

Other items illustrated were, cellophane strips on which recordings could be made; porcelain enamel that can be used on light metals; plastic records that can be bent, banged on the table and which give a truer recording than the present variety; tumblers, plates, bowls, etc., that can be thrown on the floor and stepped on without breaking; plastic window screens through which a pencil can be pushed and the material will resume its original position with a little working with the fingers; nylon lace curtains that can be washed and put back on the windows within 10 minutes; windproof, water repellant men's jackets that may be folded up to occupy a place slightly larger than a large wallet; and fibre threads made from sea-weed that will dissolve in water. These threads have many uses, as for example they may be woven into a fabric and then dissolve out, leaving patterns and eliminating the necessity of drawing threads after weaving. This substance is also used for wrapping woollen fibres which are too small to weave, then after weaving the substance is dissolved out and an exceptionally fine woollen fabric is obtained. This process is being used in England at the present time with excellent results.

**Un-Used Discoveries**

Together with the many amaz-

ing discoveries made by chemists, are many other discoveries, such as "Bouncing Putty," the speaker explained, for which as yet no use has been found. This material is about the consistency of chewing gum, after being chewed, but when thrown on the floor has more bounce than rubber. With such un-used discoveries in mind, and those which are be-

ing continually added by chemists, Mr. Walkington concluded his address by saying, "maybe many of the marvels or surprises of the future will come out of the chemists' laboratory."

Careless smokers cause approximately one-fourth of all forest fires.

**THEY'RE BACK...**

**TO SERVE YOU**

WHEN YOU VISIT YOUR BANK THESE DAYS YOU

are likely to see faces you have long missed — members of our permanent staff back from active service. Almost five thousand are "back on the job" while others are recovering from wounds and others are still with the forces:

These gallant men who left the banks to enlist and have come back have shown themselves to be alert, self-reliant, eager to get on with the business of living.

Some of them have been away for five years or more. Many have won distinction. All have acquitted themselves with honour. All are welcome back.

In your bank these men find appreciation, security and opportunity for advancement. Our plans for them express our sincere desire that, in banking service, they may find ample scope to make their further contribution to this nation's security.
