CHILDREN ARE ALWAYS PROTECTED

FOOLISH FUSTIAN OVER TERRIBLE EVENT

Mr. Mignault Makes an Important Declaration Before the Supreme Court.

London Papers Make Caustic Comment on Senator Smith's Speech on Titanic Disaster.

QUEBEC MARRIAGE LAWS

The Most Important Session of the Hearing Yet Held—Crucial Point of the Argument.

Ottawa, May 28.—What is considered to be the crucial point in the argument of the learned counsel opposing the right of the Dominion Parliament to enact the Lancaster Marriage Bill was reached in the Supreme Court this afternoon, when Mr. P. B. Mignault, K.C., of Montreal, asserted that the general public misunderstanding and many legal lights seemingly deliberately misconstrued the marriage law of the Province of Quebec. In referring to the fact that under the law in Quebec a marriage is null and no marriage at all, even though the parties contracting lived together a number of years, unless they being Roman Catholics of course, it was solemnized by a priest.

London, May 29.—The Senate committee's report and Senator Smith's speech are given prominence in the London morning papers, but only a few make editorial comments. The Daily Mail likens the speech to Martin Chuzzlewit's programme oration, and says that Senator Smith has buried a grave and terrible event beneath a mountain of foolish fustian, and has managed to discount and discredit the work of the Senate committee, when he descends to technical questions.

"The children are always protected," exclaimed Mr. Mignault with earnestness. "This point is absolutely misconceived and misconstrued by people who are responsible for the agitation. They have no right to misconstrue the law in this way and impute that the children are thrown on the world as natural children. It is not the law of the Province of Quebec and never was."

His notorious want of knowledge of the sea," says the paper, "renders his opinions absolutely worthless." The Express says: "Although the report sounds sensible, Senator Smith's grotesque oration deprives it of much of its value." The Daily Chronicle says: "The report does not benefit by Senator Smith's association with it. The Chronicle recommends the British public to withhold judgment until Lord Mersey's report is published. The Daily News admits that some of the conclusions are irresistible and very disturbing."

By far the most interesting discussion took place this afternoon that has ensued since the hearing started. Mr. Mignault showed his full mastery of the Quebec marriage laws on which he is a recognized authority. All the justices of the court joined in the animated discussion that took place at times, Messrs. Justices Idington and Duff being particularly anxious to go into the matter deeply and surely.

Justice Idington—"In the case of a priest, must it be a priest in charge of a church?" Mr. Mignault—"It must be the parish priest."

Mr. Mignault is expected to complete his argument to-morrow when he will be followed by Mr. I. B. Hellmuth, K.C., Toronto, who will take up the matter from another aspect and reply to Hon. Wallace Nesbitt, K.C., who opened the case for the promoters of the bill. Then the two Quebec counsels, Messrs. R. C. Smith, K.C., and Aime Geoffroy, K.C., are expected to present the case from the side of their province, and later Hon. Mr. Nesbitt and Mr. Lafleur will have an opportunity of replying. It is thought the case will consume the whole week.

Justice Idington—"Then the children would be illegitimate?" Mr. Mignault—"Not under our laws in Quebec. Article sixty-three clearly says that if the marriage is contracted in good faith in this way, but through ignorance of the parties as to the law, the children are protected. The children are always protected. This point is absolutely misconceived and misconstrued by the people who are responsible for the agitation. They have no right to misconstrue the law in this way and impute that the children are thrown on the world as illegitimate. It is not the law of the Province of Quebec and never was."

Continuing after luncheon, Mr. Mignault took up the phase of opposition to marriage in connection with the Quebec laws.

Justice Idington—"In other words your law produces all the civil effects." Mr. Mignault—"Exactly."

"Marriage may be prevented by means of the opposition of the father, mother, tutor or prior consort of one of the parties," he said. "In this event, there must be some officer—priest or minister—who by legislation is charged with the solemnization. Take the city of Montreal for instance. There are fifty Roman Catholic parishes in that city and about three times as many of other denominations. The law requires that to stay a marriage, notice must be served on some officer. It is set forth in the act that the articles of marriage must say there is no opposition. This shows the status of the parties."

Justice Idington—"Can he (meaning the husband) marry again?" Mr. Mignault—"As there is no marriage, he is free to do so."

The Chief Justice—"What argument is there for bans?" Mr. Mignault—"That is just the argument. If the argument of Mr. Lafleur is good then bans are useless. A man could easily, if refused at Montreal, journey to some other part of the Province and get married."

Justice Idington—"Then you contend here that Parliament has no power to declare the status thus brought about?" Mr. Mignault—"In my opinion the marriage is null and is not properly solemnized and is not a marriage."

Mr. Mignault—"The solemnization is left to the provinces and the Dominion cannot interfere in a putative marriage such as you refer to."

Justice Duff—"Do you intend to go so far as to say personal effect?"

(Continued on Page 8th.)

SHOE MACHINERY CASE IS ENDED

Commissioners Are Expected to Meet to Consider the Result Within a Week.

Montreal, May 28.—The open sessions of the commission which has been investigating the United Shoe Machinery Company of Canada, under the Anti-Combines Act, came to an end this afternoon. Mr. T. Chase Casgrain, K. C., concluded his presentation of the company's case and Mr. A. Falconer, K. C., summed up on behalf of the shoe manufacturers. The hearing then adjourned. It is expected that the commissioners will hold a private meeting in about a week, when they will make arrangements for the preparation of their finding. The work of the commission has extended over several months. Their meetings were held at Montreal, Toronto, Quebec and in other cities.

"NEWSY" LALONDE HAD HARD TIME

So Badly Checked Up by John Howard He Could Not Turn Out to Practice.

Vancouver, B. C., May 28.—Black and blue all over from the pounding he received in the game at New Westminster last Friday, "Newsy" Lalonde was unable to turn out to practice with the Vancouver lacrosse team today, and will not be in the daily workout until Thursday. Lalonde was checked hard by Johnny Howard all through the holiday game, and he is in bad shape as a result. However, he will be back on the team at inside-home next Saturday, when the rivals stack up for the second game of the championship series.

INVITATION TO HOLD CONFERENCE

London Dock Strikers and Employers Requested to Meet On the 31st.

London, May 28.—The overnment has invited both parties in the dock dispute to send representatives to a conference of the Board of Trade, which will be held May 31, with the object of arranging a settlement of the strike. This is the result of Sir Edward Clarke's report on the strike inquiry, in which he states that the trouble is mainly due to failure to carry out the clause in the agreement between the masters and the men providing that differences be referred to the Board of Trade for decision.

At each place many manufacturers were examined. In addition officials of the United Shoe Machinery Company, both the Canadian concern and the parent American company, were examined at length. The commissioners also went to various factories and were shown the machines at work, both those of the United Company and those of other makes.

Don Cameron was another absentee from practice. The sturdy defence man will be out of the game for a week or so with his injured shoulder and will not play on Saturday, his place being taken by Billy West. The rest of the team for Saturday's game will be the same.

Meanwhile the government is showing determination to deal firmly with the situation. The Home Office issued a statement to-night denying the allegations in the strikers' manifesto that the authorities were employing police and soldiers in the interests of the employers, and declaring that no military, but only police, had been called out to preserve order, which the government insists upon maintaining. The statement concludes: "The government will, if necessary, use all resources at its disposal to insure a continued supply of food to the people of London."

The investigation was started at the petition of shoe manufacturers of Quebec City, who complained that the methods of the United Shoe Machinery Company constituted a monopoly in restraint of trade. Particular objection was made to the practice of the company in leasing rather than selling its machines, and also to what was known as the "tying" clause in the leases, binding the lessees to use the machines for twenty years, and also providing that they should use only the machines of the company in their factories in connection with those leased.

It is understood that the commission intends to stop the rough work once for all by drastic action right at the outset. The three players who will probably come in for attention from the commission are Jimmy Gifford, Johnny Howard and Micky Lon, the two former for their effort to put "Newsy" Lalonde out of the business and the latter Vancouver man for his action towards the spectators after he had been sent off for ten minutes.

The Stevedores' Union adopted a resolution to-night calling upon the executive of the Transport Workers' Federation to declare a national strike.

The strike committee decided to accept the invitation of the Board of Trade for a conference. The Carmen's Trade Union also agreed to send representatives to the conference. Mr. Gosling, one of the leaders of the men, said that in view of the day's developments it would be needless at present to call a national strike.

It is understood that the commission intends to stop the rough work once for all by drastic action right at the outset. The three players who will probably come in for attention from the commission are Jimmy Gifford, Johnny Howard and Micky Lon, the two former for their effort to put "Newsy" Lalonde out of the business and the latter Vancouver man for his action towards the spectators after he had been sent off for ten minutes.

Mr. Edward Clarke's report in the matter of the dock decides in favor of the strikers on five of the points submitted and against them on two points, one of which was the actual pretext for declaring the strike.

EDMONTON'S ASSESSOR DROPPED DEAD

Edmonton, Alb., May 28.—D. F. McMillan, assessor of this city since 1906, dropped dead at the City Hall this morning as he was on his way to his office. Mr. and Mrs. McMillan came here from Brandon, where he had been assessor for twenty years.

AVIATION SCOUT BASES FOR BRITAIN

London, May 29.—The Admiralty intends, according to the Chronicle, to establish aviation scout bases along the whole of Great Britain's eastern coast line.

DECREASE IN FRENCH BIRTH RATE

Paris, May 28.—The births in France numbered 742,114, the lowest ever recorded. On the other hand, France compares favorably with the other countries in marriages, which totalled 308,778 for the year. Divorces increased over the previous year—numbering 13,058.

MAN STRUCK AND KILLED BY LIGHTNING

Kenora, Ont., May 28.—Seymour Daniels, an employe of the J. W. Smart Tie Milling Company, was killed by lightning yesterday while on the Lake of the Woods in one of the company's two boats. He came from Elmdale, Ont.

SPANISH RAILWAY STRIKERS SUBMIT TO ARBITRATION

Madrid, May 28.—The railroad employes on the Andalusian lines, who went on strike at Malaga May 25, have agreed to submit their differences to arbitration by the Governor of Malaga. The Governor has already prepared and submitted to both parties a scheme of settlement based upon the suppression of the obligatory Mutual Aid Society, to which the men are forced to contribute a percentage of their wages, and the distribution of the funds of the society among the employes. It is expected that this plan will prove acceptable. About 6,000 railroad men are involved.

B. L. E. WILL MEET NEXT IN CLEVELAND

Harrisburg, Pa., May 28.—Cleveland was today selected for the meeting place of the next convention of the Brotherhood of Locomotive Engineers, and it will be held in that city in 1915. The names of St. Louis, Oklahoma City, Stockton, Cal., Salt Lake City and Washington were presented. The selection of the convention meeting place occupied the morning session.

BROTHER DROWNED TRYING TO SAVE BROTHER

Regina, Sask., May 28.—While playing on a raft on a slough near Findlater yesterday, Alexander Zatskowski, aged 7 years, lost his hold and fell into the water. His brother, Edward, tried to rescue him, but also lost his hold and both boys were drowned before assistance arrived.

MONTREAL HARBOR AFFAIRS INVESTIGATION

Montreal, May 28.—The Public Service Commission this morning reopened the adjourned meeting into the administration of the affairs of the Montreal harbor, having reached the city from Ottawa last evening.

WOODROW WILSON CARRIES MINNESOTA

St. Paul, Minn., May 28.—Returns today show that Woodrow Wilson was endorsed at the Democratic caucuses held yesterday in a majority of the counties in Minnesota. Champ Clark failed to carry a district in the State, with the exception of the Fourth, in which he will be given solid delegations from Ramsey, Chicago and Washington Counties. If the unit rule prevails at Duluth, however, as now seems probable, all of Minnesota's 24 delegates to Baltimore will go instructed for the New Jersey Governor. On the face of the returns Wilson has 662 instructed delegates, Clark 193, Bryan 97, and 66 uninstructed.

BUSINESS SECTION OF TOWN FLOODED

Ansonia, Conn., May 28.—By the bursting of a retaining wall of the Canadian Ansonia Land and Power Company late this afternoon, the business section of this town was flooded and damage estimated at \$150,000 was done. There was five feet of water in the streets and conditions were growing serious when workmen were able to close the gates above the canal, shutting off the flow of water. No lives were lost, but hundreds of cellars were flooded and two boilers in factories exploded. The principal damage done was to factories of the Ansonia Brass and Copper Company and the Ansonia Novelty Company.

BOY MADE ATTACK UPON AGED LADY

Ottawa, Ont., May 28.—Beause, it is believed, he thought the act might result in his being deported to England, Henry Bowling, 16 years old, at noon today committed a brutal attack on the wife of his employer, Mrs. James Brady, by striking her on the head with a club while she lay on a sofa in her home at Eardley. Bowling is now in Hull jail, facing a charge of attempted murder. His victim, a woman nearly 50 years old, although for a time in a serious condition, will probably recover. She is under the care of Dr. Dowd of Quyon, who was called immediately after the attack took place and stitched a gaping wound nearly three inches long in her head. The boy will appear at Hull Police Court to-morrow. He is an undersized lad who left Ottawa a little while ago for a farm. Here he was a telegraph messenger.

Diamonds For June Weddings

We are now showing a fine collection of Diamond Jewelry and also a complete series of unset Diamonds. The unset diamonds were selected by Mr. Seifert during his recent visit to Europe; they are our high standard quality, brilliant, round, perfect, and a splendid color. Customers desiring a particular design or style of setting may select the diamonds from our stock of unset gems, and we will make the mounting to meet the views of the wearer.

In platinum there are many very delicate styles of mountings, the effect is light, durable and when used for diamond settings is almost invisible.

In Ring Settings a very popular style of ring this Season is the Princess. This is an oval, oblong or square cluster set with any number of stones from fifteen to fifty or more; the head of the ring is of platinum in which the diamonds appear embedded, the result is one great sparkling gem.

The use of platinum in three-stone, four-stone and five-stone half hoops is also very much in vogue, and produces a splendid effect.

Our prices of platinum set rings range from fifty to five hundred dollars.

Jabot or veil pins, long bar shaped patterns, with platinum settings are among the attractive things in jewelry that we are showing for June weddings.

Platinum Pendants set with diamonds, diamonds and pearls, diamonds and rubies, diamonds and sapphires are desirable presents for June brides. Our display shows many handsome designs.

Long pendant earrings set with diamonds and other precious stones continue great favorites, this style we show at all prices.

The Quebec Chronicle

QUEBEC, MAY 29, 1912.

GOOD ROADS.

Mayor Drouin's announcement that the Beauport and Charlesbourg roads are to be put in proper condition is more than timely. It is past that. That nothing has been done to remedy the state in which they have been for some time is a disgrace. However, better late than never.

The condition of most of the roads in the Province is about the same as that of those leading to Beauport and Charlesbourg, if not worse in many instances. We have heard and read volumes on the work which the Provincial Government has done or is intending to do to improve the roads, but most of it seems to be of the future as yet.

ROYALTY TO-DAY.

Divinity no longer doth hedge about a king. George V. had to appeal to the courts to silence stories of a morganatic marriage. The handsome young King of the Belgians resorts to the same method to stop scandalous reports that involve the Belgian court. Perhaps the disgraceful career of Leopold make the Belgians ready to believe almost any story concerning their monarch. The inclination of courts to bend to royalty makes vindication difficult, as detractors discredit verdicts in favor of royal litigants. Scandal has wings and gossip feed on whispers.

This is a sad time for monarchs. The splendid old King of Denmark, after a long and honorable career, falls dying upon the street in a foreign city and is not recognized until he is found dead in a hospital. Manuel of Portugal is an exile. Alfonso fears Spain may at any moment overturn his throne. Austria's Emperor has virtually abdicated and probably wonders if the dual kingdom will hold together when he is gone. The Czar of all the Russias lives in constant fear of assassination. Persia's former Shah, his throne lost, has turned bandit. China's baby Emperor had the crown snatched from his head and the long Manchu reign is ended. Powerful as he is, Kaiser Wilhelm has to fight like any President to keep a majority in the German Reichstag to support the measures of the Crown.

The Emperor of Japan is one of the few real monarchs left who is idolized by the people who concede him the divine right to rule.

BOY SCOUTS.

The Boy Scout idea was an inspiration and a benediction, and the strength with which it appeals to the imagination of the young and the common sense of older persons indicates that it is far more than a passing fad. The military purpose back of it in England is lost in the nobler and wiser thought which directs it here. The development of health, manhood, the spirit of helpfulness and self-sacrifice, of real brotherhood, of high standards of every kind—all this is good for war, if war should come, but it is still better for the battles and the emergencies of the everyday life of peace. The power of this idea is that it is essentially a boy idea. It is built on boy nature, boy imaginings, boy visions, the sort of thing that every boy plays at from the time he can toddle. It does not exclude his other sports, but makes him better fitted for them. It tends to stimulate him to everything that is worth while and to protect him from things dangerous and evil. It serves as a shield as well as a tonic, physically and morally. It requires the proper supervision as well as sympathy of older people to keep it up to the mark, and, as a matter of course, it cannot take the place of other training, but it has a wide and wonderful field and opportunity of usefulness, and it is justifying the enthusiasm and hope which it has excited. A fine army of healthy, manly youngsters, our Boy Scouts, should grow into a splendid force in the future life of the country.

Mr. Arthur J. Balfour is one of a group of some sixteen British statesmen who have contributed to a German magazine their ideas on the most effective way to restore cordial and friendly relations between the British and the German peoples. Mr. Balfour's contribution, although he is admitted to be himself one of the mildest of men, is said to be one of the most interesting of these contributions. He blames the persistence of Germany in its naval armament policy as responsible for the distrust that prevails in Great Britain. He asks the Germans to disavow those zealots who are preaching an extension of Germany's boundaries in Europe and the acquisition of colonies at the expense of other nations, and requests her to show the world that armies are more useful in peace than in war, and that the appetite for territorial expansion is a worn-out phase of patriotism.

If Mr. Balfour had preached the gospel to his own countrymen a few generations ago, it might have sounded more plausibly in foreign ears and perhaps have been more effective even with his own countrymen. It is comparatively easy when you have grabbed about all the land in sight, to discover that land-grabbing is "a worn-out phase of patriotism." But neither Mr. Balfour nor his countrymen made this discovery until they had reached out and annexed everything in sight, just as their forbears realized what sacred things law and property were after, by some mysterious process, all the real estate in the country had passed into their own possession. Not more important than the capacity to discover these things is the capacity to discover them at the right time. That time evidently arrived for Great Britain several years ago, but Germany then was a congeries of independent, shabby little principalities with no power of harmonious action. This situation lasted down to the present generation (some would call it the last), down to the creation of the German Empire in 1870. Up to that time the Germans had never ceased to

tion organized under the able and zealous chairmanship of Lord Grey, the predecessor of the Duke of Connaught in the Governor Generalship of this Dominion. Last year a National Committee, having the same purpose in view, was formed at New York. It is not quite apparent to what extent this movement has taken concrete form in the United States, but the favorable manner in which the proposal has been received there, as evidenced by the representative character of the National Committee, and the enthusiasm with which the idea has been taken up in Great Britain, indicates that the time has arrived when some tentative step may with propriety be taken by Canada.

This century of peace will have been completed on the one-hundredth anniversary of the Treaty of Ghent, which was concluded on Christmas Eve, 1814, and ratified on the 17th of February, 1815. It naturally possesses a special interest for Canadians. The older half of Canada is immediately adjacent to the United States, and is the portion of the British Empire that witnessed the actual conflicts of the War of 1812-14. The bitterness engendered by those far-off strifes has happily long since passed away, and it is fitting that we should participate in celebrating the blessings of peace which for a period of one hundred years will have existed between us and our neighbors.

A CASE OF IMAGINATION.

One of the most characteristic qualities of the big money makers of modern times is a powerful imagination. In some men, it has amounted to a gift startlingly like the sense of prophecy. By its exercise, they have been able to dare, to adventure. It has brought them amazing success. But also it has sometimes lead them into disastrous pitfalls. One such mishap is recalled by the death of Sir Julius Charles Wernher, comrade of Cecil Rhodes, which occurred a few days ago.

Wernher had accumulated \$75,000,000 in South Africa. The fortune rested upon diamonds. It was made up of diamonds. In 1905, Wernher met a French chemist who showed him stones he said he had made artificially. The millionaire began to tremble for his fortune. He knew that it would go to smash if any easy means could be found for manufacturing diamonds. In order to protect himself, he entered into partnership with the Frenchman. For four years, he gave up money lavishly. Then, convinced at last the chemist was a fraud, he caused his arrest. He admitted having surrendered \$320,000.

By his imagination, the talent to foresee the vast riches in the discoveries of South Africa, Wernher gained tremendous wealth, the friendship of an empire maker, and finally a title. The same imagination trapped him, made him the gull of a fraud and the laughing stock of his country.

BALFOUR AND GERMANY.

Mr. Arthur J. Balfour is one of a group of some sixteen British statesmen who have contributed to a German magazine their ideas on the most effective way to restore cordial and friendly relations between the British and the German peoples. Mr. Balfour's contribution, although he is admitted to be himself one of the mildest of men, is said to be one of the most interesting of these contributions.

He blames the persistence of Germany in its naval armament policy as responsible for the distrust that prevails in Great Britain. He asks the Germans to disavow those zealots who are preaching an extension of Germany's boundaries in Europe and the acquisition of colonies at the expense of other nations, and requests her to show the world that armies are more useful in peace than in war, and that the appetite for territorial expansion is a worn-out phase of patriotism.

If Mr. Balfour had preached the gospel to his own countrymen a few generations ago, it might have sounded more plausibly in foreign ears and perhaps have been more effective even with his own countrymen. It is comparatively easy when you have grabbed about all the land in sight, to discover that land-grabbing is "a worn-out phase of patriotism." But neither Mr. Balfour nor his countrymen made this discovery until they had reached out and annexed everything in sight, just as their forbears realized what sacred things law and property were after, by some mysterious process, all the real estate in the country had passed into their own possession. Not more important than the capacity to discover these things is the capacity to discover them at the right time. That time evidently arrived for Great Britain several years ago, but Germany then was a congeries of independent, shabby little principalities with no power of harmonious action. This situation lasted down to the present generation (some would call it the last), down to the creation of the German Empire in 1870. Up to that time the Germans had never ceased to

THE NEW DUNLOP SPECIAL BICYCLE TIRE

emigrate to other nations, but perforce they had to abandon the flag, the traditions and even the language of their fathers and all were lost to their country. The British way was different. Profiting by the lesson of 1776, they carefully cultivated the affection of their emigrants, and did everything possible to build up newer Britains in every quarter of the globe.

That is the example which Germany, even at this stage, vain would emulate. She sees nothing of "a worn-out tradition" in territorial expansion, but a wise and shrewd policy which she vain would imitate. It is true that most of the lands where new Germanies might be built up have already been acquired, but there still remain vast, unpeopled regions in South America, where the seeds of a new empire might be planted. She has sounded the rulers of these lands, and understands that a mutually beneficial understanding might soon be reached if only the Monroe Doctrine might be ignored or evaded.

And so, Germany may have two alternatives in view in her swollen naval estimates. One may be the downfall of England and the ultimate acquisition of the English colonies. That is the more likely of the two.

It is quite possible that the alternative is the creation of a force sufficient to set the Monroe Doctrine at defiance. To do this openly would be to incur a serious risk and to encounter the suspicions of the British.

Mr. Balfour's "worn-out tradition" is a good deal of a factor in the world yet.

ST. VITUS DANCE

Cured Through the Use of Dr. Williams' Pink Pills

Chorea, or as it is more generally known, St. Vitus dance, is a disease that usually attacks the young children, though older persons may be afflicted with it. Its most common symptoms are a twitching of the muscles of the face and limbs. As the disease progresses this twitching takes the form of spasms in which the jerking motion may be confined to the head, or all the limbs may be affected. The patient is frequently unable to hold anything in the hand or to walk steadily, and in severe cases even the speech is affected. The disease is due to debility of the nerves and is always cured by Dr. Williams' Pink Pills, which enrich the blood, tone and strengthen the nerves and thus restore the sufferer to good health. The following is a striking instance of what Dr. Williams' Pink Pills will do in this trouble. Mrs. Chas. Phipps, Pelee Island, Ont., says:—"At the age of fourteen my eldest daughter, Edith, became much run down, and the trouble developed into St. Vitus dance. First her left arm became affected, then the left leg and entire left side. She grew so bad that she actually could not hold anything in her hand, and could only go about with a sliding, jerking motion. Notwithstanding that we were giving her medicine, she seemed to be growing worse, and finally her speech became much affected. We became so much alarmed about her that finally her father got a supply of Dr. Williams' Pink Pills, and we began giving her these. In the course of a few weeks she was much better, and before all the pills were gone she was again enjoying perfect health. This was in 1908, and as she has not had a symptom of the trouble since I feel justified in saying the cure is permanent."

Be sure you get the genuine pills which are sold by all medicine dealers or may be had at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

\$20,000,000 FOR WORK IN WEST.

Expenditure Proposed by the Grand Trunk Pacific Railway. West of Winnipeg on the main line 185 miles to be built east of Fort George and 150 miles west of Port George, leaving only 200 miles to be built in 1912 between Winnipeg and Prince Rupert. A total number of 500 miles of branch lines to Moose Jaw, Brandon, Calgary, Battleford, Prince Albert, and the Alberta Coal Fields will be complete and the building of the line from Calgary to Lettbridge will be started. Hotels will be erected in Edmonton and Regina of 150 rooms each and the terminals at Regina will be completed and passenger service will be inaugurated between Winnipeg and Regina, and Winnipeg and Fort William. This work will be all done this summer if the supply of labor is sufficient and the steel can be secured for the laying of the track.

Corporation of Quebec
CITY ENGINEER'S OFFICE.

Tenders For Fire Station.
CITY HALL.
Quebec, May 23, 1912.

PUBLIC NOTICE is hereby given that sealed tenders, endorsed Tender for Fire Station and addressed to the City Clerk, will be received up to Tuesday, the 11th June, at 4 p.m. Plans and specifications may be seen at the office of Messrs Staveley & Staveley, Architects, No. 92 St. Peter street, and also at the City Engineer's office.

Tenders must be made on the printed blank forms, and endorsed in the printed envelopes, which will be furnished to intending contractors, on application for the same at the City Engineer's office, and the Fire Committee will not entertain any tender that is not made on the said blank forms and enclosed in the said envelopes.

Tenders must be endorsed on the outside of the envelopes, with a certificate from the City Treasurer of the necessary deposit as security for the contract.

Each tender shall be subscribed to by two responsible parties willing to secure the execution of the contract. Each tenderer shall deposit in the hands of the City Treasurer the sum of \$3,000, to be confiscated from any one refusing to sign the contract. The Corporation does not bind itself to accept the lowest or even any of the tenders.

The contractor to pay for drawing up the contract, and supply the City Engineer with a certified copy thereof.
W. D. BAILLAIRGE,
City Engineer.

JAMES PERRY,
323 St. Paul St. Phone 519

THE LATE MRS. LAJEUNESSE

Had Given Twenty-Six Years' Valuable Service to the City of Montreal.

Mrs. Lajeunesse, police matron for more than a quarter of a century, died in the Hotel Dieu Hospital after a brief illness.

The deceased was born in Quebec on June 6, 1847. She was the daughter of the late Hugh McCaffrey, of Quebec. Thirty-eight years ago she married Louis W. Lajeunesse. Being keenly interested in charitable work, 26 years ago she was appointed police matron by the City Council. Her work was principally in the Recorder's Court, and her advice when dealing with young women first offenders, was generally taken by Magistrates and Recorders.

She had a great memory for faces, and it was said by Chief Campeau that she could tell a face five years afterwards. The Chief said that Madame Lajeunesse was a true sister of charity. Part of her duty was to assist the unfortunates, and she had times out of number given poor women clothing and food and had saved hundreds of young women from the prison cells and had them sent to reform institutions or placed in good homes.

For himself, the Chief said, he was generally guided by the advice of the dead matron. Madame Lajeunesse was fond of children, and she had probably taken care of more abandoned babies than any other woman in the Dominion. Frequently she had to take the little tots to her home, clean them, and care for them for several days until they could legally be placed in homes or an institution.

She had a special chair in the Recorder's Court, which was left vacant to-day. The police captains expressed regret at the unexpected death of the matron.

She is survived by her husband, Mr. Louis W. Lajeunesse, of the Court House, and three sisters, Mary, Maggie and Jennie McCaffrey, and a brother, John McCaffrey, all of Quebec—Montreal Star.

After the service in St. Patrick's Church yesterday morning, which was conducted by Rev. Father Donohue, with Rev. Fathers Lawler and Jones as deacon and sub-deacon, the remains were conveyed to St. Patrick's Cemetery to be interred in the family lot.

HORSE WAS DROWNED IN THE RIVER

A horse belonging to Horace Dus-sault, of Levis, ran away yesterday morning and plunged into the river at Drolet's Wharf and was drowned.

LABOR MEN WILL MAKE TEST CASE

Have Taken Action in Montreal Against Firm for Keeping Open Election Day.

Montreal May 28—The officials of the Trades and Labor Council and the Montreal labor party, took action to-day against the Thomas Davidson Company, Limited, alleging that they kept their factory in operation between the hours of 1 and 6 p.m. on the day of the provincial elections in violation of clause 352 of the Provincial Election Act.

The Labor party met many reverses in the elections, the two Laborites elected running as independents, one of them against the Labor party's candidate, and labor leaders claim that many men were prevented from voting because employers kept them at work. The object of the action against the Davidson Company is to make a test case.

GIVEN A BIG AWARD FOR HIS PROPERTY.

Toronto, May 28—An award of \$258,538, bearing interest at five per cent dating from 1905, or about \$323,583 in all, was granted Robert Davies, 583 in the Don Valley Brick Works, by the board of arbitrators appointed in 1911 to consider his claim to compensation for lands expropriated by the Canadian Northern Railway for track-aid. On February 9, 1909, the Canadian Northern Railway offered \$15,000, which was refused. The award came as a great surprise to the Canadian Northern Railway officials, but the arbitration board held that the land, being a shale bank, valuable for brick manufacturing, must be paid for accordingly.

DOCK STRIKE AFFECTS CANADIAN S.S. LINES.

Montreal, May 28—Speaking on the London dock strike, Mr. George Hannah, passenger manager of the Allan Line, stated that if conditions are not immediately remedied, all lines plying between Montreal and London will suffer. The Ionian, Mr. Hannah pointed out, is already delayed, and nothing is more certain than if the strike continues much longer, there will be starvation among London's poorer classes.

"The Allan Line," said Mr. Hannah, "has two loopholes of escape from this strike by which she can save her London-Canadian passenger traffic. We can ship the London passengers to Liverpool and have them there take our Liverpool boats; or we can send them to Glasgow."

SEALED TENDERS

addressed to the undersigned, and endorsed "Tender for Post Office Building, Maisonneuve, Que.," will be received at this office until 4:00 p.m., on Monday, June 17, 1912, for the construction of a Post Office Building at Maisonneuve, Que.

Plans, specification and form of contract can be seen and forms of tender obtained on application at the office of Mr. C. A. Reeves, Architect, 53 St. James street, Montreal, at the Post Office, Maisonneuve, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms the actual signature and the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 23, 1912.

Newspapers will not be paid for this advertisement if they insert it without authority from the department.

FELL DOWN AN ELEVATOR SHAFT.

Toronto, May 28—Slipping from the roof of the elevator which he was cleaning on the fourth floor of the Canada Life building, this morning, William Hurst fell sixty feet to his death down the elevator shaft. It is supposed that he missed his footing and fell backwards. His neck was broken and his head smashed to a pulp. Hurst is survived by a widow.

TORONTO WORLD, MAY 15th

—The C.N.R. have recently installed sufficient extra lifeboats of their Royat Line to accommodate their carrying capacity, including passengers and crew. In addition to this both boats are now carrying two wireless operators in place of one. The new iceberg-testing appliance, which was given a trial on board the Royat George on her last trip across has been pronounced a success. The machine is capable of locating the presence of an iceberg at a distance of two miles.

CITY OF QUEBEC

City Hall, City Treasurer's Office

Quebec, May 10th, 1912.

PUBLIC NOTICE is hereby given that ON TUESDAY, THE EIGHTEENTH DAY OF JUNE NEXT, at TEN O'CLOCK IN THE MORNING, IN THE FINANCE COMMITTEE ROOM, AT THE CITY HALL in this City, will be sold, at public auction, a piece of ground designated by the number 569 of the official cadaster of St. Roch's ward of this city, the said lot being known under the name of the concert room, or HALL JACQUES CARTIER, and being situated between de la Couronne, St. Francois, Jacques Cartier and St. Joseph Streets, as figured and described on the plan made by the land surveyor Hugh O'Donnell, on the 17th of April, 1912, and deposited at the office of the City Engineer.

The sale will be made at the following conditions:

1. The said lot will be sold in one single lot.

2. The upset price shall be ten dollars (\$10.00) a foot, the purchaser accepting the lot as containing sixteen thousand nine hundred and eight (16,908) superficial feet, with the building thereon erected, and taking possession of it immediately after the adjudication.

3. Within two years from the date of the signature of the contract, the purchaser shall be bound to erect on the said lot one single building of a value of not less than one hundred and twenty-five thousand (\$125,000) dollars.

4. Every bidder shall deposit the sum of ten thousand dollars (\$10,000) before his bid be accepted.

5. The balance of the purchasing price shall be paid on the signing of the contract, said contract to be signed within the thirty days following the sale, under the penalty of the sale being cancelled and the deposit confiscated.

By order, C. J. L. LAFRANCE, City Treasurer.

Fifth, chap. 47, and Act I George the Fifth (2d session), chapter 59.

3. The present by-law is substituted by by-law No. 19, passed by this Council on the 27th of October, 1911, and said by-law No. 19 is declared repealed.

PUBLIC NOTICE

Is hereby given that, pursuant to law, the above by-law will be read a second time, for adoption, on Friday, the 31st day of May, 1912.

By order,

H. J. J. B. CHOUINARD, City Clerk

CORNWALL MEN PLAY FOOTBALL

Association Team Drew With R. C. G. A.—Officers Beat Cadets at Rugby, 34 to 13.

In spite of the sultry heat which prevailed here yesterday the officers, cadets and men of H.M.S. Cornwall put in some strenuous football on the Plains of Abraham during the afternoon.

There were two games played, one a game of Association football between a team from the training ship and a local side representing the R.C.G.A. Neither eleven was up to full strength as the gunners were without two of their best men, Boyd and Macintosh. On the other hand the visitors were minus the services of their officers who were playing in the Rugby match. A good game was nevertheless witnessed and resulted in a draw, each side scoring two goals.

The teams lined up as follows:—Cornwall—Beer, Tate, Davis, Hayward, Roe, Caggie, Coombs, Tims, Percival, Loney and Burghall. R.C.G.A.—Moult, Yates, Keir, Lt. Tremaine, Newton, Cingman, Lt. Irving, Richards, Bunyan, St. Clair and Lowing.

The game was refereed by Petty Officer Spettieue who discharged his difficult duties in impartial manner. As soon as the soccer match was over an interesting game of Rugby followed between the officers and cadets, some fine runs and pretty combination making the play attractive for the onlookers. Though the cadets tried their utmost and played a plucky game the weight and experience of the officers were too much for them and they were beaten by a score of five goals and three tries (34 points) to two goals and a try (13 points). The victory was due in large part to the splendid play of the chaplain, Rev. Mr. Gouge, who was responsible for most of the scoring. Manners, Ede and Mainprize also showed up well. For the cadets Smith was the pick and Welsby was very noticeable.

CRICKET MATCH.

The Quebec Cricket Club will play a match this afternoon against H.M.S. Cornwall. The club will be represented by the following:—Parmentier (captain), Massey, Bursall, McQuillan, Taylor, B. Price, A. Smith, Clegg, Bignell, Keir, Osborne.

BASEBALL MANAGER WAS SUSPENDED.

Cleveland, O., May 28—Manager Callahan of the Chicago Americans, to-day received notice from President Ban Johnson, of the American League, of a three days' suspension for Callahan's run-in with Umpire Westervelt during the Chicago-Detroit game last Saturday. Callahan sent McIntyre to the outfield in his place for four games, including two on Thursday.

BRITISH COLUMBIANS FOR OLYMPIC TRIALS.

Winnipeg, May 28—The British Columbia athletes who are to take part in the Olympic trials in Montreal are in the city to-day and will rest over until to-night when they will leave for the east in company with Joe Leeper, Jack Beckett and Army Howard, the Winnipeg representatives. The party includes Duncan Gills, who appears to have the weights at his mercy; W. R. Chandler, entered in the 10,000 metres; F. E. McConnell and Hal Beasley, in the 100 and 200 metres, and Tom Gallon in the 100 metres.

MONTREAL TRAP SHOOTERS FOR OLYMPIC.

Montreal, May 28—Messrs. J. H. Kenyon, R. B. Hutcheson and probably W. K. Davies, three Montreal men, will represent Canada in the trap shooting contests at the Olympic games this year. These three men were selected at a meeting of the Dominion of Canada Trap Shooting Association which was held this afternoon, the association having been authorized by the Olympic committee to select the team of three. The trap-shooting championship of the world is at present held by Mr. Walter H. Ewing, of this city. He was unable to compete in the trials held here for the selection of the team, nor did he enter his name with Mr. Cooke, the Secretary of the Association. If he goes to the Olympics to uphold his title, it will be at his own expense.

CHAMPIONS WILL HOLD A PRACTICE.

The St. Patrick's Lacrosse Club will hold a practice on Walsh's field this evening at six o'clock in preparation for their first match on the 9th of June. The champions expect to have a strong lineup this season and will leave nothing undone to keep their supremacy. There are so many good men in sight that it may come to be a problem to choose the best men, so that there are likely to be big practices in order to make good for the first lineup.

TORONTO DEFEATED MONTREAL YESTERDAY

Pulled Off a Victory by a Score of 3 to 1.

Montreal, May 28—Fitzpatrick's double and singles by Dalton and O'Hara gave Toronto two runs and the game in the tenth to-day. Viehhan and Lush both pitched fine ball, Hartman's error giving the visitors their run in the first while Lush's misplay allowed the locals to even up in the eighth. Score:

Table with columns for TORONTO and MONTREAL, listing players and scores. TORONTO: Fitzpatrick 2b, Myers cf, Dalton rf, Jordan lb, O'Hara lf, Bradley 3b, Holly ss, Higgins c, Fischer c, Lush p, Shaw x. MONTREAL: Demmlt lf, Yeager 3b, Hanford rf, Gandil lb, Russell cf, Connelly cf, Purtell 2b, Hartman ss, Roth c, Viehhan p, Pierce xx.

Score by innings: Toronto 100 000 00 2-3, Montreal 000 000 010 0-1. Summary:—Two base hits: Gandil, Fitzpatrick. Left on bases: Montreal, 6; Toronto, 8. First base on errors: Montreal, 1; Toronto, 3. Sacrifice fly: O'Hara. Sacrifice hit: Russell. Bases on balls: off Lush, 6; off Viehhan, 3. Struck out by: Viehhan, 4; Lush, 2. Hit by pitcher: Yeager. BASEBALL MEN WILL PRACTICE.

There will be a full practice of the Automatic Baseball Club on Walsh's Field this afternoon at 6 o'clock, when all players are requested to be on hand.

RACE TRACK BETTING IN NEW ORLEANS.

Baton Rouge, La., May 28—The opening gun in the fight to restore race track gambling in New Orleans was fired to-day when a bill was introduced in the Lower House of the General Assembly to legalize racing in New Orleans with minor regulations. There is bitter opposition to the measure and prospects for its passage are not especially favorable.

OPENING OF CROQUET LEAGUE SEASON.

The opening game of the season of the Canadian League of Croquet was played Sunday afternoon on the St. Jean Baptiste ground between St. Jean Baptiste and Napoleons. The Napoleons, champions of 1911, were the winners by 15 games to 9 games. A large audience was present to encourage the players. The winners names were as follows:—E. Hamel, Jos. Parent, J. Bisson, C. Giroux, P. Bisson, A. Brousseau, Jos. Pelletier, O. Bisson.

HANDKERCHIEF CASE.

A new handkerchief case for the traveller is made from 30 inches of flowered ribbon folded over at each end into pockets five inches deep. Turn down a half-inch hem and slip in it a piece of featherboning and briar-stitch the edge instead of hemming. Now overcast neatly the edges of the ribbon to form the pockets. The boning gives a little spring and makes it easier to insert the handkerchiefs. Make the sachet separately from a 5 by 3 inch piece of green messatine filled with several heavily scented layers of cotton wadding. At the upper side fasten a small bow of half-inch white satin ribbon, with a rosebud in the knot made of two shades of pink silk. This sachet is slipped in one of the pockets and can easily be refilled.—Philadelphia Public Ledger.

During Girlhood Young Women need a Tonic. THE growing age of young girls necessitates vigilant care on the mother's part, and the use of a tonic to assist nature during this period of transformation. The entire future health and proper working of the organs depend on care at this time. An ordinary diet is not sufficient to meet the demands of the system, which is overworked during the "growing age." The blood needs to be enriched in order to supply the nerves, muscles and bones with the necessary elements of growth. VIN ST. MICHEL is needed to furnish in an active and agreeable form the necessary reserve force to combat the fatigue, digestive troubles and the various discomforts that accompany this critical age. Doses: A wine glassful before meals and at any time that the need of it is felt. BOIVIN, WILSON & CO. Distributors for Canada and the United States. EASTERN DRUG CO. 14 Fulton Street, Boston, Mass. Agents for the United States.

Correspondence

HOW LONG WILL IT LAST?

Editor of the Chronicle.

Dear Sir: Might I suggest that the Superintendent of the Quebec Railway, Light, Heat and Power Company take a ride around the belt line on open car 223 or 213 and see how he likes it? The company's rolling stock is simply a disgrace to a civilized community, and I am quite sure that such conditions would not be tolerated anywhere excepting in old standstill Quebec. No wonder we are the laughing stock of the outside world as being hundreds of years behind the times. It is a well-known fact that the company is curtailing expenses in every possible way, and the reasons therefor are also pretty generally known, but surely they can afford a little grease for the axles of their cars and put an end to the hideous grinding noise that is heard at all hours of the day and night. But what's the use? We are too indifferent and apathetic to do anything but raise an occasional kick. What sort of a City Council have we to allow a company to run cars that ought to be on the junk heap—Poor Quebec, how you do advertise your failure to keep up with other cities!

Quebec, May 28, 1912.

DISGUSTED.

KNOCKS THE RAILWAY.

Editor of the Chronicle.

Dear Sir: Presuming that the management of the Q. R., L. H. & P. Co. are of a very saving disposition, I would imagine it would be a good idea were they to appoint an inspector to see that the grease which is so freely distributed on streets where the cars run be distributed in a proper manner and not put it all over the road and sidewalks. Many complaints are heard regarding this.

Another point which might be brought to their attention is the free distribution of grease on car seats. I had the pleasure of ruining a suit of clothes in this manner last week.

We all feel proud of our electric road and its up-to-date methods. A few suggestions of this kind might not do the management any serious harm. CITIZEN.

Quebec, May 28, 1912.

TO THE ELECTORS

OF QUEBEC CENTRE

Gentlemen: Now that the electoral storm is completely apaisé, allow me to thank you for your work, devotion and energy you displayed towards me in the recent electoral campaign.

I sincerely thank all those who voted for me and who worked for my election with a spirit which I can never forget. I am well satisfied with the result, as the majority was considerably decreased.

As regards those who did not vote for me, I am convinced that they will soon change their opinion, and that they will admit that under the circumstances it would have been preferable to elect one or two Conservative representatives which would not have changed the general result and which would have given more facilities to those desirous to obtain tangible and obvious improvements.

I hope to have the pleasure to meet and know each of you. In any case, you can rely on my entire devotion any time that I can be of any service to you.

Believe me, gentlemen, your obedient servant, ROMEO LANGLAIS.

BISQUIT BRANDY. Desiring to give the greatest satisfaction to our customers and to the public in general we beg to announce that the Agents in Canada for the well known and old established House of Bisquit, Dubouché & Co., Cognac, have appointed us Distributors for Quebec City and District. We further wish to call attention to the fact that each bottle of Bisquit Brandy bears a certificate that it is distilled from pure grape Wine of the Charente district. Retail Price \$1.00 per Quart Bottle. N. RIOUX & CO. Wholesale Distributors. QUEBEC CITY AND DISTRICT.

Drink Habit--

The Great Curse of Mankind.

If you could have heard an old grey-haired mother, broken in heart and spirit, recount her sorrow and anguish because of her drinking boy, as the tears fell fast from her cheeks, at the Quebec Neal Institute, 11 Haldimand street, the other day, you would say that the drink habit was the greatest curse of mankind. Next it is a forlorn wife, with little children; then an aged father, or a brother or sister or some one who has a deep personal interest in the drinking one, and all day long they come and go to the Neal Institute, without hypodermic injections.

OFFERS ONE THOUSAND DOLLARS TO ANY CHARITABLE INSTITUTION

With fifty-two Institutes in the United States and eight in Canada, treating 20,000 drinkers last year, without a failure in any case, this company will donate one thousand dollars to any charitable organization in Quebec if the Neal drink habit treatment fails to take from the drinker all inclination to drink, all desire, craving and appetite for liquor in three days in any case treated at the Quebec Neal Institute.

QUEBEC BOARD OF TRADE

Council Meeting Appoints Committee to Urge Immediate Action

The Council of the Quebec Board of Trade held a meeting yesterday, and acting upon the suggestion made by the Chronicle, appointed a committee composed of Quebec's leading citizens and merchants to act with the Council and urge upon the Dominion Government the important necessity of immediately beginning the work on construction of the railway terminals and equipment of the port of Quebec with docks and shipping facilities in general to handle the export trade on the completion of the Transcontinental Railway.

The President, Mr. Wm. A. Marsh, presided, and after discussing the question of the terminals and port, in connection with the near approach of the completion of the Transcontinental Railway, the Council adopted the following resolution:

"Resolved that a committee composed of the members of the Council and Messrs. Wm. Price, V. Chateauvert, J. F. Burstall, Sir George Garneau, John T. Ross, G. E. Tanguay, and D. O. Lesperance, be and is hereby named to consider the question of the completion of the Transcontinental Railway, and its terminals, docks, and elevators at Quebec, and urge the completion of the line from Quebec to Cochrane, simultaneously with the rest of the line from Cochrane to Winnipeg, and of its terminals, so that Quebec may be in a position to handle this traffic as soon as the railway is in operation.

"That the Secretary be instructed to write to the gentlemen named on the committee and notify them to attend a meeting of the Council of the Quebec Board of Trade to be held on Friday afternoon next at 3 o'clock for organization.

It is urgently hoped that one and all of the gentlemen named on the committee will accept and like good and patriotic citizens enter upon the work that will devolve upon them for the progressive interests of Quebec.

MEETING OF WATER WORKS COMMITTEE

Short Session Was Held Last Evening—Several Contracts Were Awarded.

A short meeting of the civic Waterworks Committee was held last evening under the presidency of Ald. Guillot, those present being Mayor Drouin and Ald. Collier, Gosselin and Berube.

Tenders were received from several firms for cast iron pipes, the contract being awarded to J. T. Farmer, of Montreal, at \$33.50 a ton. The same firm also secured the contract for valves.

The committee also authorized Mr. Gallagher, Superintendent of Waterworks, to take the necessary steps to prevent the Montcalmville authorities, when they are constructing gully wells, discharging the surface waters into the city drainage pipes.

The committee before adjourning decided to introduce water into certain streets.

FALSE ALARMS STILL SOUNDING

There was another false alarm sounded last evening from Box No. 86. It appears that this box is situated in a somewhat dark locality and has already given the firemen lots of trouble. The authorities should take immediate action.

IF YOU WANT FASHION CRAFT CLOTHES CUT TO ORDER, WE CAN MAKE THEM.

The Fashion Craft Shops have inaugurated a new departure and one which will appeal to many—and that is making Fashion Craft Clothes to order.

The knowledge of the Fashion Craft designers combined with the experience of their tailors gives to this clothing an individuality and fit not found in average made-to-order suit.

So confident are the Fashion Craft Shops of their ability to produce clothing which is different that they stand ready to guarantee the fit of every suit they make.

Under a guarantee of this kind there is no experimenting. If the suit doesn't fit, you don't take it. Don't forget the addresses, 128 St. Joseph St., and 178 St. John Street. L. Achille Roy, Proprietor.

DEATH OF A FORMER QUEBECER.

We are sorry to have to chronicle to-day the death of Arthur William Richardson, which occurred suddenly at Providence, R.I., on the 15th inst. Mr. Richardson was the eldest son of the late J. H. Richardson, who was well and favorably known as one of Quebec's leading educationalists. At the early age of 15 years Arthur Richardson graduated from the Quebec High School (then under the Rectorship of the Rev. Robert Kerr) to take a course of civil engineering, in which profession he was very successful. Mr. Richardson, always interested in newspaper work, had for some years written for several leading papers, so that in 1903, being in failing health, he accepted a position on the Winnipeg Free Press, which position he filled until 1908, when he returned to Providence, to take up journalistic work. Mr. Richardson leaves a son and daughter to mourn his loss. Mr. Richardson was beloved by all with whom he came into contact and his early passing in the midst of a successful career has caused great sorrow among his many friends both abroad and in his native city Quebec. We offer our sincere sympathy to his sorrowing family.

THE DOCTOR'S WIFE.

Agrees With Him About Food.
 A trained nurse says: "In the practice of my profession I have found so many points in favor of Grape-Nuts food that I unhesitatingly recommend it to all my patients.
 "It is delicate and pleasing to the palate (an essential in food for the sick) and can be adapted to all ages, being softened with milk or cream for babies or the aged when deficiency of teeth renders mastication impossible. For fever patients or those on liquid diet I find Grape-Nuts and albumin water very nourishing and refreshing. This recipe is my own idea and is made as follows: Soak a teaspoonful of Grape-Nuts in a glass of water for an hour, strain and serve with the beaten white of an egg and a spoonful of fruit juice or flavoring. This affords a great deal of nourishment that even the weakest stomach can assimilate without any distress.
 "My husband is a physician and he uses Grape-Nuts himself and orders it many times for his patients.
 "Personally I regard a dish of Grape-Nuts with fresh or stewed fruit as the ideal breakfast for anyone—well or sick."
 Name given by Canadian Postum Co., Windsor, Ont.

GRAND TRUNK PACIFIC RY.
 At a meeting of the Board of Directors of the Grand Trunk Pacific Railway Company, held Friday, May 24th, 1912, Mr. E. J. Chamberlain was elected President to succeed the late Chas. M. Hays. Mr. Wm. Wainwright was elected First Vice-President. Mr. M. M. Reynolds was elected a director of the company and Second Vice-President.

LUNCHEON AT SPENCER WOOD
 The list of invitations to lunch at Spencer Wood yesterday included Sir Ralph Williams, Governor General of Newfoundland; the officers of H. M. C. S. Cornwall, Sir Lomer Gouin, Hon. L. A. Taschereau, Sir Adolphe Routhner, Hon. Senator Choquette, Chief Justice Lemieux, Hon. Chs. Langelier, Col. J. P. Landry, Lieut. Col. H. E. Burstall, Capt. Hodges, Capt. Victor Pelletier, A. D. C., and Mr. A. Genevieux.

ROAD IMPROVEMENTS IN LIMOILLOU WARD
 As a result of Mayor Drouin's visit to Limoilou Ward on Monday, it is understood that certain improvements will be at once recommended to the City Council. These include the macadamizing of the Beaurport and Charlesbourg roads, as well as extensive repairs to the main streets. Mayor Drouin was accompanied by Mr. W. Bailhaige, city engineer, and Mr. Gallagher, waterworks engineer.

MAN KILLED IN AN EXPLOSION

Standing at His Door at Baie St. Paul, When Struck by a Piece of Flying Rock.

News was received in town yesterday afternoon from Baie St. Paul of a fatal affair by which a man named Ls. St. Hilaire, a resident of the place, lost his life. It appears that St. Hilaire, who was standing in his doorway, was struck by a piece of flying rock from a blast near by and had his skull fractured, dying a short time afterwards. The deceased was 58 years of age and leaves a widow and six children.

UNEXPECTED DEATH OF DR. FRED SEIFERT

News of His Passing Away Received With Deep Regret in Quebec.

It was with a deep shock of regret that news was received in Quebec yesterday of the death of a former popular and well-known young citizen in the person of Dr. Fred W. Seifert, son of the late Mr. G. E. Seifert and a brother of Messrs. A. E. Otto and Harold Seifert, of this city. A brief cablegram, received yesterday, announced his death at Forcados, West Coast of Africa, from fever. Dr. Seifert was physician on board the Elder Dempster Line steamer Falabra, which sailed on the 1st of May from England, arriving at Forcados on the 18th. Dr. Seifert's death took place on the 24th. Dr. Seifert was a graduate of McGill University and a clever physician with a remarkably brilliant career before him. His death at a comparatively early age will be source of sorrow to his large circle of friends and admirers.

Dr. Seifert was very popular in Quebec. He was well known in athletic circles. He had done great work for the Quebec Rugby football team and also played with the McGill University team. He was popular with all who knew him, a good friend, a splendid athlete, a promising student and well-educated physician. Before taking up his position in the steamship service, Dr. Seifert had practised with great success in the Northwest.

WOMAN JUMPS INTO THE RIVER

Tragic Occurrence Took Place at St. Joseph de Levis Yesterday Morning.

Talking quietly with her husband and walking down with him to the ferry landing at St. Joseph de Levis yesterday, a woman named Violet left him. The husband turned to retrace his steps, but on looking around found that his wife had disappeared. The unfortunate woman had evidently jumped from the wharf into the river. The couple were unknown at St. Joseph, where they had been boarding for about fifteen days past. They came from the United States, and the woman seemed to be mentally unbalanced. Her body has not yet been recovered.

The occurrence caused a great sensation at Levis. Mr. and Mrs. Violet had been boarding at the house of Thomas Poiré, 40 Commercial street.

QUEBEC CITY RIFLE ASS'N.

An important meeting of the above association will be held in the Drill Hall to-night at 8 o'clock. A good attendance is requested.

VALUABLE OLD AMERICAN BILL

One of the local dailies a few days ago referred to the finding of a 50-cent coin of 1853 which is considered very valuable at present.

However, there are also lots of other valuable notes and coins to be found, and last evening Mr. J. K. McCullagh, of the Empress of Britain, produced before the Chronicle staff an American quarter-dollar bill issued in 1776. The bill was found in a directory, 113 years old, purchased at an auction sale of books in Michigan a few years ago and is exceptionally well preserved.

FRED STERRY - Managing Director

THE QUEBEC MARRIAGE LAWS

Who wanted rain, anyhow?

Quebec's weather is still on the change.

Go it, B. Y. S.!" shouted the cadets at yesterday's football game. But "Britain's Younger Sons" (just a guess) found their superiors as usual in their officers.

If the rain keeps good, we may be able to buy potatoes almost as cheap as automobiles.

May is weeping like a June bride when her clothes do not get home on time.

This would be great weather to try out that last challenger for the America's Cup.

The police are now on your tracks. They are also anxious to have a look at your cellar and your back yard.

This section reads:

"All priests, rectors, ministers and other officers authorized by law to keep registers of acts of civil status, are competent to solemnize marriage.

"But none of the officers thus authorized can be compelled to solemnize a marriage to which any impediment exists according to the doctrine and belief of his religion and the discipline of the church to which he belongs."

That the effect of the second paragraph favors the view that Roman Catholics can only be married before a priest was Mr. Mignault's assertion. Because there was nothing compelling it does not favor the view that Roman Catholic priests have not exclusive rights among their own congregations. If their rights were not exclusive then marriage could be compelled. The law recognized this as an impediment and therefore he submitted his view that only a priest could legally marry Roman Catholics.

"It does not go the length of saying that someone else can solemnize the marriage," he stated.

"Another objection is on the question of marriage licenses. In Quebec they can be secured from officers appointed by the crown. It is left to certain persons delegated by the Lieutenant-Governor. Two sureties must be given of \$800 to show there is no impediment. The Roman Catholic Bishop and the crown can both dispense with the publication of banns. The license in the case of a Roman Catholic cannot make for dispensation of the publication and the non-Catholic in this regard.

"There is one question along this line before I leave it. What is the effect of the solemnization of marriage between Catholic persons before a non-Catholic priest? It should be and I maintain that it is the case that the marriage is non-existent and it should be as if no marriage existed."

At this point court rose for the day. Mr. Mignault will continue his reply to Mr. Lafleur tomorrow, after which Mr. I. B. Hellmuth, K.C., will reply to Hon. Wallace Nesbitt, K.C.

NOVA SCOTIA M. P. IS ILL.

Halifax, N. S., May 28.—A. DeWitt Foster, M. P. for Kings, is seriously ill with an affection of the throat and ear. He will be brought to-morrow from his home in Kentville to Halifax to enter the infirmary. Mr. Foster became ill two weeks ago and seemed to be improving, but four days ago he suffered a relapse. His condition gives his friends considerable anxiety.

JURY BRIBING IN

McNAMARA TRIAL
Los Angeles, Cal., May 28.—Bert H. Franklin, former chief detective for the McNamara defence and now star witness for the prosecution in the trial of Clarence S. Darrow for alleged jury bribery, took the stand late to-day and related what he declared to be the manner in which he and Darrow, then chief counsel for the McNamara brothers, attempted to bribe jurors in the trial of James B. McNamara.

"It's about time to get busy with the jury," Franklin quoted Darrow as saying to him on Oct. 5, 1911. The next day he said Darrow gave him a

PUBLIC UTILITIES COMMISSION

Meet and Decide Some Important Quebec Matters of Great Interest.

The Public Utilities Commission held a session in this city yesterday, when a number of important questions of public interest were decided. Lieut. Col. Hibbard presided, and associated with him were Sir J. George Garneau and Prof. Laberge, with Mr. Joseph Ahern, secretary.

The proceedings opened by Lieut. Col. Hibbard stating a decision arrived at by the commission respecting the complaints of the Canadian Fire Underwriters regarding the overhead wiring conditions in Quebec. The defects pointed out in the complaint were the too great proximity of the different tension or varying voltages, where carried on the same poles or not. The improper and dangerous attachment or proximity to structures of wires charged with electric currents, etc.

The commission ordered that the wires of the different companies, whether in the same class or not, shall not approach within three feet of one another, whether strung on the same poles running parallel or crossing. The cost of removal to be borne by the company whose wires were last placed on poles.

Extra high tension wires must be at a minimum distance of at least five feet. In cases of difficulty to determine which party is responsible for the proximity of wires, then the owner or party in control, which more recently secured the right to string wires, shall keep an account of the cost and may apply to the commission after giving five days' notice to the owners for relief. Any poles removed to comply with above order, the city engineer of Quebec shall upon application make arrangements therefor and with the outlay which shall be a part of the expense of removal of wires. All wires entering buildings shall comply with rules and requirements of the National Board of Fire Underwriters respecting such wires, etc.

The application of the Quebec & Lake St. John Railway to expropriate certain properties at Limoilou, including a property owned by Mr. George Valliere, was granted.

Messrs. Gallipault, K. C.; Perron, K. C., appeared in the interest of Mr. Valliere, and Mr. Arthur Fitzpatrick conducted the case for the railway company.

The complaint of the City of Quebec against the Quebec, Railway, Heat, Light and Power Company, the Frontenac Gas Company and the Quebec Gas Company was heard. Messrs. E. Corveau and J. E. Chapleau, city attorneys, and Ald. L. A. Cannon appeared in behalf of the city, while Mr.

NEW PRESIDENT GRAND TRUNK RAILWAY SYSTEM ANNOUNCES

The Early Completion of Grand Trunk Pacific from Cochrane to Frinca Rupert

NO ALLUSION MADE TO QUEBEC SECTION

It is very evident that the Grand Trunk Pacific Railway authorities are not much concerned respecting the completion of the eastern sections from Cochrane to Quebec and from the latter point to the Maritime Provinces, judging by the official statement made in Montreal a few days ago by the newly elected president, Mr. E. J. Chamberlain.

Mr. Chamberlain, in the course of an interview, said: "That before all else the Grand Trunk Pacific must be pushed to completion as early a date as possible, and all the best energies of the organization must be utilized to that end."

"This is not only highly desirable from the company point of view, but also from the country's point of view. The Western country is developing at a tremendously rapid rate, and already the existing railways are unable to properly handle the business. The Grand Trunk Pacific is already an imperative necessity to the country, and we have got to get it running throughout the whole length as speedily as possible."

Mr. Chamberlain was asked when the trains would run from Montreal to Prince Rupert. He answered that he "believed this would be possible in 1913, but not until late in the year."

"Everything depends upon the labor question. If, as we hope, we can secure an adequate supply of labor from now on, we shall get the line through to the coast next year all right. But I may tell you frankly that labor, especially in British Columbia, is in a great state of unrest, and it is difficult to say what will happen; but at any rate we have strong hopes that by the time navigation closes this year we shall be able to ship grain from Western Canada through to Montreal, via Cochrane, on the Ontario Government railway and the old Canadian Atlantic line, which latter now belongs to us. The contractors on the Transcontinental Railway are hoping to get the line finished from Winnipeg Junction to Cochrane, and if they succeed, then trains will be able to run over our own route from Montreal as far as the Rockies."

It is on this account that the Chronicle is calling the attention of the public to this question of agitation for justice. The Grand Trunk Pacific is no doubt putting forth all its energy to complete the system from the Pacific coast to Cochrane and from the latter point divert the Western grain trade to Boston, New York and Providence. R. L. ports, with the calculation that, once this course is adopted, the company can defy Canada best, and quicker, by doing just as it pleases.

The government in the meantime must step in and insist that the grain trade of the West must reach the ocean through none but Canadian ports, but in order to do this, the Quebec railway terminals must be got ready, likewise the harbor equipped with adequate docks and shipping facilities.

Mr. Chamberlain, in the course of his interview, said that trains would be running to Montreal by the end of the year 1913, the grain shipped via Cochrane over the Ontario Government railway, and the Canadian Atlantic. He does not, however, say such grain will be shipped to Montreal, and furthermore ask how much could that port handle out of the future enormous product, estimated at 250,000,000 for the year 1912.

The Dominion Department of Railways and Canals, a few days ago, issued an official statement of the Western grain carried by water from Fort William through the Canadian Sault Ste. Marie canals, which amounted to 63,000,000, and nearly half, or 48.8 per cent., was taken to the Buffalo, N. Y., freight elevators, and from there by train to the port of New York. If such a large volume of grain was shipped from Fort William to Buffalo in the season of 1911, which amount of the cereal would find its way to the ocean through American ports, under different circumstances, when the crop will be doubled and bettered.

PERSONAL

Mr. Perron, K. C., of Montreal, represented the Merger. The complaint emanated from the gas escapement and the excavation of the city streets. The city always contended that the street repairs should be made under the supervision of an engineer.

The commission acquiesced in the protest, and ordered the company to stop all work until the commission could appoint an engineer.

An application was received from the Dorchester Electric Company, who have the contract for the lighting of the city streets, requesting the commission to find them a right of way among the numerous poles erected. They wish some of these poles removed, and ask leave to use other poles erected. The application was fixed for hearing at a later date.

Two complaints were heard from Mr. Robert Trudel, N. P. One against the Quebec & Lake St. John Railway for running a motor passenger car on the company's line and not complying with the Armand Laverne law in having the sign "Motor Car" painted in French as well as in English. The second complaint against the same company was the running of this car without accommodation for second-class passengers. Mr. Trudel conducted his own case, and Mr. Arthur Fitzpatrick appeared for the railway company. Both complaints were dismissed.

The commission next proceeded with routine business and adjourned to sit again in Quebec on June 18th and 26th.

YOUNG MAN DROWNED BY BOAT UPSETTING.

Montreal, May 28—Rodolphe Hamelin, a young clerk, was drowned yesterday afternoon at Ahuntsic, when a boat in which he and Rosario Filion were rowing was caught in the swift current of Riviere des Prairies and upset in the rapids under the railway bridge. Filion clung to a rock and was rescued. On Sunday another young man, John Dunn, was drowned in a similar accident.

GARDEN PARTY BY GOVERNOR GENERAL

Their Royal Highnesses the Duke and Duchess of Connaught, who are to arrive here next Sunday or Monday, for a visit of a couple of weeks, will give a garden party at the Citadel on Saturday afternoon, June 15, from 5 to 7 o'clock.
