TORONTO, Sept 27, 1865.

There was a destructive fire at Port Stanley this morning. The foundry formerly occupied by Davidson, and occupied by Brigham & Co., as broom, axe and wooden ware manufactory, with contents, was completely destroyed. There was insurance to the amount of $2,000 on stock, and $500 on machinery; besides the full amount being insured by the Commercial Bank on the building. An investigation was going on as to the cause of the fire.

A youth named John Clough, believed to be one of the ticket-of-leave men, lately imported from England to Ottawa, has been arrested on a charge of stealing.

Receipts of barley continue astonishingly large. Rice is firm and tending upwards, 75 to 79 cents paid to-day. Some eight or ten cargoes of barley have left for American parts this week.

MIDNIGHT DESPATCHES.

NEW YORK, Sept. 27.—The Post's Washington special says: It is believed in Washington that Howell Cobb has been arrested on a charge of participating in the Andersonville atrocities.

TAUNTON, Mass., Sept. 27.—The Hon. W. Baylis, formerly member of Congress, died in this city this morning, aged 89 years.

BOSTON, Sept. 27.—The steamer Bosphorus, from Liverpool Sept. 9th, arrived here to-day, bringing 500 emigrants.

NEW YORK, Sept. 27.—Thirty-three of the crew of the ship Calhoun were arrested to-day, charged by the captain with mutiny. It appeared from the complaint that, on the 21st Sept., there was a quarrel between the cook and some of the crew; the boatswain interfered to protect the cook, and a general mutiny took place.

THE FENIANS.—We are glad to find that the British government has resolved to put down the Fenian movement before it destroys more men. Such attempts at mischief are far better nipped in the bud than allowed to grow till their proportions become formidable—formidable, not so much to the Society against which the efforts of the dupes are professedly directed as to those who undertake a hopeless task. A few arrests made at this moment may save the cost of many lives at a future day, when the incipient folly shall have broken out in a manner to call for stern and unflinching repression. We are glad to see, too, that some at all events of the more honest and moral journals of the United States are doing their best to expose the folly and wickedness of the Fenian attempt to revolutionize Ireland by arms. Among the journals of this class we place conspicuously the *Tribune*, entirely as we differ from it on economical questions. In the number of the 26th inst., the *Tribune* devotes more than a column to the exploding of the delusion that any real harm can be done to English power in Ireland by the Fenians either of that island, or of the United States. It mentions some of the means which that organization is supposed to possess for beginning and carrying on a war against the most powerful nation in the world—such as $8,000,000 in the Fenian Treasury, a power of assessing—whether the assessment shall or shall not be paid—each Fenian to the tune of $20; 250,000 men in America; 200,000 in Ireland; and 5,000 in the British army; and finally, the printing of a currency for the new Irish Republic by a firm of Bank note engravers in New York. But summing up all these elements of warfare, it still shows by an exhaustive process and reasoning, the utter hopelessness of any rebellion against the British Government. Ireland has 6,000,000 of souls, says our New York contemporary; England and Wales 19,304,000, and Scotland 3,061,257. This comes to some 22,365,257. Thus then, reckoning every Irish individual in the census as a combatant, every such individual would have to dispose of one Saxon, and we suppose the "guilt" which attaches to that criminal nationality; and after all was done there would be 16,000,000 of guilty Saxons remaining for the 6,000,000 of Irishmen to begin upon again—all this, besides, irrespective of the Irishmen, Protestant and Catholic, who would be found on the side of Great Britain and against the insurgents. It is true, says the *Tribune*, that the Fenians are reported to have eight steamers, each capable of conveying one thousand men; but supposing that the men were all landed, what would it amount to; and then how could they be landed, with the British navy—not, as the *Tribune* says, celebrated for inactivity—on the watch for the invading fleet? The truth is that the whole scheme is a mischievous and dangerous delusion, which, we trust, will be put an end to by the prosecutions, really more merciful than vindictive, which the Government is instituting. We hope that the American press generally will follow the example of the *Tribune* in exposing the folly and absurdity of this sorry plot. If the British press had made a few such calculations as that which we copy from our American contemporary five years ago, it would probably have saved a good many losses to its readers, and some international embarrassments. The truth told now in the United States may save many from being shot and hanged or transported, and many more from being swindled out of their money.

SOUTH CAROLINA.—The news from South Carolina by telegraph informs us not only that that State has repealed the Secession Ordinance, but that she has adopted the emancipation of her slaves as a clause in her constitution. This is the best answer to the frequently repeated assertion that slavery and the war had nothing to do with each other. The statements on these heads are plain, and capable of being understood by all; but there follows a sentence, the full bearing of which may not be as easily comprehended by those who do not take the pains to understand the history and politics of our neighbours. The South Carolinians have, it appears, rejected the basis for representation founded on the entire black and white population. This basis gave the slave States a representation in Congress in proportion to their population, taking five blacks to be equal three to whites. There were manifest incongruities in this arrangement under the system of slavery, inasmuch as the voting power of the North was confined to men, while in the South it was extended, by increasing the representation of the States in proportion to their possession of chattel property. These incongruities would have been still increased in some respects, if blacks and whites had been put together as the basis for representation, after the former should have been freed, unless they were permitted, themselves, to cast the votes for their supposed representatives. South Carolina, we suppose, does not desire the blacks to vote. She, therefore, excludes them from her census for the purpose of ascertaining the number of representatives which she is to claim in the National Councils. This is logical, and removes some grounds on which the North might protest; but on the other hand, it is not difficult to understand what is the inevitable consequence. The State will be under represented, when her black population is thrown out of the census for representation, and in order to have the number of members to which she is entitled on the floor of the House of Representatives, she will herself have to ask for Negro suffrage, and a proportionate increase in the number of her delegates. So the great work of freedom moves on.

BOARD OF TRADE FOR THE B. N. AMERICAN PROVINCES.—We are glad to see the steps taken yesterday for the purpose of establishing a general Board of Trade for the B. N. American Provinces. Our opinion of the Confederation scheme is well known. We object to it, because, in our judgment, it will cost as much, not only in money, but what is worse, the ill-blood which always arises out of the unions, which are forced for political objects instead of growing out of the needs felt spontaneously by the people themselves. But we want all the commercial, social, and friendly feelings which the most ardent Confederationist can desire—a common currency, free trade between the several colonies, a general post office administration, and the best means of communication which the trade and travel will warrant by the routes which trade and travel will indicate for themselves, according to the principle of natural selection. For these reasons, we heartily approve of the movement inaugurated yesterday at the Board of Trade Rooms.

THE NATURAL HISTORY SOCIETY ROOMS will, by directions of Dr. Smallwood, the President, be thrown open to our visitors from the Lower Provinces to-day.

FRENCH CANADIAN MISSIONARY SOCIETY. —We have received a special appeal for funds in aid of this Society, which want of space prevents us from inserting to-day.

CORRESPONDENCE.

To the Editor of the MONTREAL HERALD.

MONTREAL, Sept. 27th, 1865.

In your notice of our improved car coupling now on exhibition at the Crystal Palace, you omitted some of its most essential advantages, and enumerated but one, consequent upon our not being present to explain the working of it. Its greatest advantage over the ordinary coupling consists in its being automatic or self-coupling, requiring no assistance in coupling cars, which will be the means of preventing accidents which are of daily occurrence in performing that part of the labor. Another is, that it becomes disconnected in case the engine should break through a bridge, leaving the remainder, or at least a portion of the train on the track.

It is the opinion of engineers and others competent to judge, connected with the Grand Trunk Railway, that had this device been in use at the time of the Beloeil Bridge accident, the whole, or most of the train would have been saved.

Very truly Yours,
A. B. TAFT & CO.

CONCERT OF M. JEHIN-PRUME.—This admirable violinist performs to-night, as will be seen by our advertizing columns. Mr. Prume is probably the finest performer on the violin who can be heard in any part of the world. After hearing almost every violinist of distinction during the last quarter of a century, we can safely say that we never met with his superior. He has met with great success at Quebec, as he did here during his former visit, and we trust that his performances to-night will be rewarded, as we know they will deserve to be.

GRAND MILITARY CONCERT.—We call the attention of our readers, and of the numerous visitors to the Exhibition, to the advertisement published in our columns of the grand musical festival to take place this evening at Nordheimer's Music Hall. Amongst the more interesting attractions of the programme we would particularly mention several Violin Solos by Herr Gruenwald, an artist of distinguished merit, who will be accompanied by the excellent Orchestra of the 25th Regiment. The Orpheonists, numbering 34 members (one of the very best musical associations in America) will also sing for the first time in Canada, several Operatic selections from Faust, Il Crociato, &c., with orchestral accompaniment. Altogether the programme is most attractive.

THEATRE ROYAL.—There was another immence house at the Theatre Royal, last night. To-night Miss Julia Daly, will appear in her world renowned character of Pamelia, in the popular play of "our Female American. Combe." The performance will conclude with the excellent farce always received with shouts of laughter, entitled "Toodles." Go early if you wish to secure good seats.

COURT OF QUEEN'S BENCH.

Wednesday, Sept. 27.

Before the Hon. Mr. Justice AYLWIN.

James Chancey West was charged on a second indictment with having on the 1st September 1865 in Montreal, stolen 20 yards of silk; five pieces of cotton; and a piece of flannel, the property of Mr. Romain St. Jean. The jury acquitted the prisoner.

The Grand Jury presented the following true bills:—Emery Bourmandais forgery (three bills); Plea guilty. Jean Baptiste Allaire and Thomas Alfred Lafreniere larceny three bills; Urbain Contant, larceny; James C. West, for being found at night in a store Cleophas Ouimet, for an assault with intent to a serious bodily harm. Patrick Rogers, pedlar without H. Fyke, recruiting for foreign service. The Grand Jury were then discharged.

Proceedings of the Visitors from the Maritime Provinces.

THE RECEPTION.

The last of the party of visitors from the Maritime Provinces arrived in this city from their Western tour, and shortly after eleven o'clock a public reception was held by His Worship Mayor Beaudry at the Donegana Hotel. Amongst the Canadians present were Hon. Messrs. Ferrier and McGee, C. Dunkin, Esq., M. P. P., Louis Beaudry, Esq., J. H. Winn, Esq., A. Heward, Esq., C. J. Brydges, Esq., J. Hickson, Esq., S. Bagg, Esq., R. Esdaile, Esq., A. M. Delisle, Esq., F. Pominville, Esq., W. J. Patterson, Esq., and some others whose names we did not ascertain. The majority of the visitors from the Lower Provinces were present.

The proceedings were opened by Hon. Mr. McGee calling the assembly to order, when

His Worship Mayor Beaudry proceeded to read the following address of welcome:—

Gentlemen of the Maritime Provinces:—

On behalf of my fellow citizens of Montreal, I beg to bid you all heartily welcome to this city, and to the soil of Lower Canada.

I am sure I only express the universal sentiment of the people of this city, of all orders and all origins, in extending to you in their name this public and official welcome.

Some of our citizens have had the pleazure of visiting you in your own homes, and you have invariably sent them back to us, cherishing warm sentiments of attachment to the Maritime Provinces and their people.

Although we cannot hope to contest with you the palm of hospitality, we venture to indulge in the expectation that your present visit to Canada may on the whole tend to increase and strengthen those feelings of common cause and common country, which are essential to us all, if we are to continue subject to a common sovereign. (Hear, hear.)

I am certain, gentlemen, that you, in common with ourselves, would not exchange your allegiance to that illustrious and beloved Sovereign for any other allegiance on earth. (Hear, hear.) And I may add that my fellow-citizens, whose organ I am on this occasion, feel that in extending to you this welcome, they are performing an acceptable duty, not only to their city and country, but also to Her Majesty the Queen and her representative on this side of the Atlantic.

Gentlemen, once again believe me, we are all very happy to see you in Montreal.

(Signed) J. L. BEAUDRY,
Mayor.

Mr. MCFARLANE, of N. B., said it was with sincere pleasure that they received this address of welcome. He might say to them that, having some information of this address while travelling yesterday, a few gentlemen met in the car and prepared a reply, which was entrusted to Mr. Shannon, who unfortunately was not present just now. He (Mr. McF.) might, however, on behalf of the visitors, return their sincere thanks for the hospitality extended to them.

Mr. MCFARLANE, however, had scarcely concluded before Mr. SHANNON made his appearance, and he then proceeded to read the following reply to his Worship's address:—

To His Worship the Mayor of the City of Montreal:

SIR,—The visitors to Canada from the Maritime Provinces beg to return to you their grateful acknowledgments for the kind address which you have presented to them.

Having spent most delightfully several days in the western part of this great Province, where they have been received and entertained with uniform kindness and hospitality, they have now retraced their steps to this its great centre and commercial capital, and on reaching the soil of Lower Canada, are met with the hearty welcome which you offer them on behalf of your citizens of all orders and all religions.

They are gratified to find that among those whose visit to the Lower Provinces during the past year is still remembered by them with pleasure, are to be found citizens of your own city, and they trust that the sentiments of attachment which were then commenced, will still be continued and deepened by the hospitable reception they have found on the occasion of their return visit. They cherish the feeling that their reciprocal hospitalities will be the means of more closely binding together those who though subjects of the same sovereign, have read "that was music. Why not make our currency, and our weight, and measures universal also? He had no authority here, but he might say that he was very glad the matter had been taken up in this way. These things, however, could not be regulated by Canada and the Lower Provinces; but would require the co-operation of England of and the United States. He rejoiced that they had been enabled to get up this meeting, and he hoped it would tend to good results. He would certainly urge the matter as far as he could before his Board.

Mr. D. LAIRD, of Prince Edward Island, was one of the delegates appointed on this question by the Chamber of Commerce at Charlestown. At the meeting of the Board they were unanimous as to the principle of the scheme, though some of the details might be objectionable.

Mr. ———, of Kingston, C.W., said that at a meeting of the Board of Trade of that city the general opinion was in favour of extending our commercial intercourse with the Lower Provinces.

Mr. GRANT, of Quebec, as the originator of this proposition, would make a few observations. The resolution on it, which was passed at the Detroit Convention, was submitted by himself, but owing to the large amount of business on hand, they could not discuss the question, and it was then decided that it should be referred to the Council of the Montreal Board of Trade, and that they should prepare a draft constitution. The present was felt to be a favourable opportunity for considering the question. They were there for that purpose, and he was glad that the gentlemen from the Lower Provinces agreed with the resolutions. He thought it might be well to proceed at once to consider them *seriatim*, so that their guests, on returning to the Lower Provinces, might carry back information of what had been done.

Mr. W. H. A. DAVIES thought they were hardly in a position just now to discuss so important a matter. They might pass a resolution approving generally of the scheme.

Mr. ESDAILE, President of the Montreal Corn exchange, concurred in the importance of the matter. It had not, however, been brought before the Committee of the Corn Exchange, and he was not prepared to express any opinion on the subject; but there could be no doubt as to the necessity of a uniform currency for the promotion of trade with the Maritime Provinces. He thought the cause of our being so much separated was the want of better means of communication.

Mr. JOSEPH, of Quebec, said anything they might now adopt would require amendment hereafter, and he thought they might just as well adopt these resolutions as a programme. On the part of the Board of Trade of Quebec, he had to state the concurrence of their Council in the resolutions with one or two trifling alterations.

After some further remarks of a conversational character, the second resolution was amended by striking out the words "Incorporated by act of any Provincial Parliament," and the third by substituting "three" for "two."

On Motion of Mr. WINN, seconded by Mr. JOSEPH, the resolutions as thus amended were adopted.

On Motion of Mr. JOSEPH, seconded by Mr. FRASER, it was resolved that the first Meeting be held in Montreal on the first Tuesday of June next.

It was also resolved on motion of Mr. DAVIES, seconded by Mr. JOSEPH, that Mr. PATTERSON, be appointed Secretary *pro tem.*

The Meeting then broke up.

THE TRIP DOWN THE RAPIDS.

After the meeting in the Rooms of the Board of Trade, a number of the guests from the Maritime Provinces proceeded to Lachine by rail, where they found the Lothiniere steamer, ready to convey them down the rapids. They embarked accordingly and, after a pleasant trip reached Montreal at about four o'clock in the afternoon.

Intercolonial Board of Trade---Meeting at the Exchange.

At noon the meeting in reference to the Intercolonial Board of Trade was held at the Exchange, J. H. Winn, Esq., Vice-President of the Montreal Board of Trade, in the Chair. There were present, Messrs. W. H. A. Davies; Ben. Wier, Halifax, N. S.; R. W. Fraser, do; D Laird, P. E. I.; T. Rimmer, R. Esdaile, Geo. Denholm, J. J. Cusack; T. H. Grant, Quebec; A. Joseph, do; L. Donaldson, St. Johns, N. B.; T. Hendry, Kingston; J. H. McLennan; T. R. Jones, St. Johns, N. B.;— Spurr, do; and W. Darling.

THE CHAIRMAN, after explaining that the duty of presiding devolved on him in consequence of the absence in England of the President, went on to explain that the object of the meeting was to draw all the Provinces together in closer commercial intercourse. We felt that it was something strange they should know so little of each other. At the recent meeting at Detroit it was suggested that an Intercolonial Board of Trade should be established, and that some preliminary action should be taken by the Council of the Montreal Board, which might be communicated to the other Provinces for discussion at future meetings The following draft had therefore been drawn up:—

To the Council of the Montreal Board of Trade; —

Report of Committee appointed to consider the establishment of a Central Board of Trade, to be composed of Delegates from all the Provinces of British North America, which was considered by the Provincial Delegates at Detroit and referred to the Montreal Board of Trade to be reported on:—

Your Committee having given attentive thought to the subject, submit the following draft for your approval; and if approved by you for transmission to Boards of Trade throughout the Province, as suggestions for their consideration and concurrence.

1.—Objects of the proposed Provincial organization:—

1st. To promote intercourse and co-operation among Commercial men in British North America.

2r To watch over and discuss subjects of common interest, such as a uniform currency; similarity, as far as practicable, in Customs, Tariffs, and removal of restrictions from Intercolonial Trade; a uniform system of Weights and Measures; uniformity of Commercial system of classifying and recording Trade Statistics.

3. To promote Commercial intercourse with other Countries.

As the best means for securing these and other desirable objects, it is suggested by your Committee that the organization sought to be established be designated the "Intercolonial Board of Trade of British North America," to which all Boards of Trade, Corn Exchanges, or Commercial Assurance (incorporated by Act of any Provincial Parliament), shall be invited to send Delegates.

The members of said Board shall consist of two Representatives from each of the above mentioned local Corporations which shall agree to co-operate.

The Intercolonial Board of Trade shall meet annually, or oftener if occasion requires; the first meeting to be held at Montreal, and future meetings at such places as the Board may decide, the place of next meeting being fixed at every annual meeting.

That said Board shall appoint such officers, and make such by-laws, as they deem fit, and may invite Representatives from places having no Boards of Trade, when, from particular causes, questions likely to come under discussion may be held as to involve the local interests of such places.

That all needful expenses shall be paid by the Boards represented, in such proportion as the Intercolonial Board may assess.

Your Committee farther beg to recommend that the Montreal Board of Trade for Canada be established, to consist of three members from each of the incorporated Boards of Trade, Corn Exchanges, or Chambers of Commerce in Canada, who shall be elected by such bodies, in such modes as they may respectively appoint.

That such Board be called the "Canada Board of Trade," and shall meet half yearly or monthly, when circumstances so require, at such place as the Board may decide, previous to every adjournment fixing the place for next meeting.

That said Board shall appoint such officers, and make such bye-laws as they deem fit, and may invite such representatives from places having no Boards of Trade whenever they deem it advisable, and especially when questions are likely to arise involving local interests of such places.

That all needful expenses shall be paid by Boards represented, in such proportions as the Canada Board of Trade may assess.

That the objects of the Canada Board of Trade shall be, to discuss all subjects bearing on the general Commercial welfare of Canada, and especially to elicit and indicate the general feeling of the whole business population on all matters of navigation, currency, taxation, commercial law, and other like subjects, and to endeavour to promote such Parliamentary, Legislation thereon as may benefit the whole Province.

(Signed,) J. H. WINN,
Chairman of Committee.

Montreal, 22nd August, 1865.

Mr. WINN observed that this was merely a draft, in reference to which they would be glad to receive suggestions from those present.

Hon. Mr. WIER of Halifax said the Chamber of Commerce of that city called a meeting on the reception of these resolutions and decided to send two delegates to meet the Montreal Board. He could assure them that so far as the Board he represented was concerned, the feeling was unanimous of the desirability of having closer commercial intercourse with Canada. It was to be regretted that for years past it had not been closer, but he was glad to see now that the people were beginning to understand more of each other. On this subject at present, he thought should not be so much to enter into a discussion of the details of the scheme as to decide on the desirability of such a Board. The Board he represented concurred entirely in the idea and hoped that it would be carried on. (Hear, hear.)

Mr. DONALDSON, of St. Johns, said he did not feel competent, to be there or to discuss this matter, as they had only received the communication from the Montreal Board, the day before he left home, and, there was no opportunity of discussing the subject. He went on to say that what was wanted was a uniform tariff in all the Provinces, and a uniform coinage. All would agree therefore in the object set forth in the first and second parts of the report. There was only one language universally

St. George's Society's Musical Festival in the Evening.

Yesterday evening, many of the visitors from the Lower Provinces, and a large number of citizens were present at the musical entertainment of the St. George's Society, which took place in the City Concert Hall. The various amateurs and other performers well sustained their parts, and the Band of the 25th, K.O.B., were more brilliant than ever in the selections with which they favored the audience. The Chair was occupied by the President of the St. George's Society, J. J. Day, Esq., who had on his right His Worship the Mayor, and on the left, Hon. P. J. O. Chauveau. The officers of the Sister Societies occupied seats on the platform.

The PRESIDENT made some appropriate introductory remarks observing that he left the speech of the evening to the Hon. Mr. McGee. As their annual concert had taken place some time ago, he (Mr Day) would not now go into any details as to the work of the Society, except to say that they had a home here for emigrants where they could heartily welcome them so far as their means permitted them. He thought they would do them the justice to say that during the last four years the St. George's Society had not been wanting in affording assistance to any of their distitute countrymen. It was pleasing to find that there was unanimity amongst those of all nationalities in these charitable works. At this time they were all working together very heartily. Welcoming the visitors from the Lower Provinces, he sat down.

Hon. P. J. O. CHAUVEAU Superintendant of Education, being called upon, said he would not presume to address this meeting in English, being the representative of the St. Jean Baptiste Society, had not their worthy president set them the example at the last meeting of that society, of addressing it in French. The St. Jean Baptiste Society joined heartily and with heart-felt pleasure in the meeting this evening. This festival had a double object; first, to enlist the sympathy of those present in the benevolent work of the Society, and secondly to extend a welcome to their guests from the Maritime Provinces. (Hear, hear.) And no class of the citizens were more anxious to heartily welcome our guests than those of French origin. They had still among the people of the Maritimes Provinces a large portion of their brethren speaking the French language. The hon. gentleman concluded by referring to the satisfactory unanimity existing between those of different nationalities in this city, remarking that they were not now engaged in crusades like those of old, but in crusades against vice, intemperance and evils of a similar character.

HIS WORSHIP THE MAYOR being called upon, said he would not detain them with a speech, but merely say in the old words—happy to meet sorry to part, happy to meet again."

In the course of the evening, the Minister of Agriculture visited the hall, and also addressed the audience.

Hon. Mr. MCGEE said: Mr. President, Ladies and Gentlemen,—I am very happy that the engagements of a rather busy week happened so to fall out as to enable me to be with the sons of St. George to-night. This is an era of reciprocity and return visits. The Spanish and French Sovereigns, we are informed, have just been exchanging such visits; what is even more remarkable, is the recent exchange of courtesies between the French and English navies at Cherbourg and Portsmouth; in the midst of machines and missiles of death, exchanging doctrines of good will among men; and we also, as you are aware, Mr. President are honoured with the presence of a large party of our fellow-colonists, who are at present the guests of Canada, and many of them at this moment, I am happy to say, your guests. (Cheers.) No one feels more acutely than I do, Sir, the inconvenience and discomforts they braved, in order to be with us at this season, under all the circumstances of the case. So far as I can, I beg to apologize to them, one and all, for those inconveniences. But, now that they are with us, I hope the citizens of Montreal universally, will, as the Mayor has properly observed at the public reception this morning, endeavour to make them feel "that sense of common cause and common country, which are essential to be cultivated, if we are long to remain subjects of a common sovereign," growth of practical liberality among our people.—I am proud that one should have many guests to observe and record the gratifying fact. (Cheers.) Better—I say without exaggeration—better the river should rise year by year to submerge half the city—better the great bridge itself, which spans the river, should be swept away, than that true tolerance, which makes Montreal a happy home for every man who comes into it, should cease to characterize its popuation. (Loud cheers.) With these, and perhaps a few other remarks, I should Mr. President, have thanked you all, and taken at once my seat, but that an unexpected duty to this city at large, and to Canada, has been imposed upon me, by a newspaper which a friend has this day placed in my hands. (Hear, hear.) The paper to which I refer is *The Times* of the 14th of September, containing a most extraordinary letter dated "Montreal, August 28th;" and an editorial article founded on that letter, and relying almost implicitly on the accuracy and completeness of the correspondent's statements. The correspondent, it is well known, is Dr. Charles Mackay, a worthy and a gifted man against whom, even if it were due to be said, I should not, on personal grounds, say one harsh word. I have a sincere respect and regard for Dr. Mackay, but my public duty to this city and the Union cause must be discharged without fear or favour to any man. I hold the paper here in my hand, but I shall not trouble you with many extracts; I think I give fairly the sense, when I say that we are represented to England and the world as a people wholly without patriotism; as priceing the most sacred interests at a money value; as wholly indifferent whether our future shall be annexation or confederation, as only so far as with the largest dollar. Dr. Mackay is a man of genius, and has a right to his opinions, but only on condition that he pays for them. (Cheers.) Pardon me, ladies and gentlemen, for the introduction of so serious a matter on so cheerful an occasion; but first and above all things the character of our city and the credit of our country, must be maintained, and no one can be ill chosen for such a duty. (Cheers.) I am much mistaken if this matter can end here; for one, I think it cannot be settled, until it is sifted. It is on every account most desirable for us all to know, whether or not this minority among us, "not much affected by so local a sentiment as patriotism," are more or less numerous, who are their leaders, and what are their plans? The *Times'* letter and article of the 14th of September have called attention to the fact, that there is such a minority, with well defined views, "confidentially" diffused through this city. Whoare they? And where are they to be found? Do they congregate on the Exchange? Do they frequent the courts of law? By what plea or pretext do they pretend to speak for Canada, and to describe this great city as having no other politics but pounds shillings and pence? These are all questions to be asked, and in your name I ask them, expecting sooner or latter, from some quarter, a reply. (Cheers.) Mr. President, I will no longer detain either those who are to follow me from fulfilling their parts, nor this good company from hearing them; I thank you all, very cordially, for the very kind reception you have given me, and I beg to commit to those of my personal friends who may be present, the particular charge of our Maritime guests who are with us this evening. (Cheers.)

PRESS ENTERTAINMENT.

After the concert, Mr. McGee entertained a number of members of the Press of Canada and the Lower Provinces at a supper in the Jacques Cartier Club Room, Cosmopolitan Hotel. The meeting passed off very pleasantly.

THE EXHIBITION.

SECOND DAY.

Immense crowds visited the various departments of the exhibition yesterday. The whole city seemed to be moving about in the streets, the weather strange to say, being very favorable for sight seeing. The Crystal Palace was crowded throughout the day. The articles were more perfectly arranged than on the first day, and many of the specimens of art and industry exhibited attracted the marked attention of the visitors. The judges had a very onerous task to perform, and as they had not yesterday brought their labours to a close, we defer publication of the prize list of this department in order to present it in complete shape to our readers. We abstain from further notice of this portion of the exhibition after the very full account published in these columns yesterday morning.

The Horticultural department was no less successful on the second than on the first day. The very fine display there exhibited has been greatly admired, and the beautiful music furnished in the evening has rendered the link still more attractive. The spectacle after the building is lighted up is one of a most striking character. The long walk lined with the choicest productions of the conservatory, garden, and field, the rippling of the fountains, the beautifully modulated notes of the musicians, and the ever moving crowds of gaily dressed ladies and gentlemen through the promenades, all contribute to the liveliness of the scene.

The exhibition will remain open again to-day when it will be visited by our guests from the Maritime Provinces. The prizes in the list of extra entries, which were not awarded the first day, are as follows:—

Felix Papin, prize for large oleandre. J S Murray, four Stalks of high Corn. Lady Graham news moss picture in cone frame.

AGRICULTURAL DEPARTMENT.

Yesterday the stream of visitors began to flow in from the moment the doors were opened. An immense crowd was present during the whole day, and, as far as could be ascertained not less than sixteen thousand persons attended during some part of the day. The City cars were crowded all the time and cabs, sulkeys, cariols and every vehicle which could be turned out were made use of for conveying passengers; the apples, cakes, spruce and ginger beer were swallowed by the bushel and the gallon, from the refreshment stands placed along the streets leading to the ground, while the portrait of a wonderful fat Scotch lady, gazed with a beefy smile

(*From Kenneth Dowie & Co.'s Circular.*)

Liverpool, Wednesday, Sept. 13.

Our Corn market on Friday last was poorly attended, and the sales of Wheat very small. Holders, however, were firm in demanding previous rates of Monday. Flour was in most limited request, and at 6d per brl decline. Indian Corn was in retail demand at 6d per qr below the currency of previous market day. At our Corn market yesterday there was a better attendance than on Friday last, and with rather more business done; holders of wheat were very firm, and sales were effected at full rates of Friday last. Flour was very dull at late decline in value. Indian Corn in good demand at rates about 6d per quarter under last market day's value.

From David Bannerman's Circular, Glasgow, Wednesday, 13th Septembr:—The weather, on the whole, has been fine, though slightly broken by occasional showers. The Potato crop, which, with some exceptions, is spoken of as a large one, is much injured by disease in the West of Scotland, and also in other parts of the country, as well as in England and Ireland. The market has been in a yielding mood all the week. On Thursday 21s 9d was taken for good Milwaukee, ex ship; on Friday and Saturday, 2s 6d; on Monday, 21s 4½d for a parcel just arrived from New York. Barrel Flour has been very slow of sale. Ordinary brands of No. 1 Superfine Canadian were freely offered at 24s 9d, and ordinary brands at 25s 6d, and found few buyers. Indian Corn was dull and rather lower. The attendance at to-day's market was fair. With only a small business to-day, American and Black Sea Wheat is 6d cheaper since last Wednesday; Scotch 3d to 6d. Barrel Flour, though not plentiful, is only saleable in retail at a decline of 6d per barrel. There are no Canadian Peas except in second hands. Indian Corn is 6d worse to make sales. Ashes are quiet, without change. The sale for Butter is only moderate, and prices are in buyers' favour still. There is a better supply of Cheese this week, but previous prices are about maintained.

BUSINESS NOTICES.

BOGLE'S HYPERION FLUID.

THE GREAT WORLD-RENOWNED HAIR RESTORATIVE,

For preserving, restoring, curling, cleansing, dressing and fashioning the Hair and Moustachios into the most soft silky and glossy description imaginable. Patronized by Her Majesty the Queen and the Royal Family, by the President of, and the elite of fashion throughout, the United States.

The unprecedented demand for this wonderful Hair Restorative has led to the fabrication of a host of counterfeits, often containing elements most deleterious to the hair, and thousands have had cause to regret their use. See that you get the genuine.

The virtues of Bogle's Hyperion Fluid for the Hair require no panegyric. Its universal success has never been equalled, and the immense good it has done is testified by thousands of certificates from physicians and parties of the highest standing, open for inspection at the Proprietors. Therefore,

All who suffer from Baldness—
All who are troubled with Dandruff—
All who have Salt Rheum, or any Humor on the Scalp.
All who have "Hair Eaters" at the Roots of the Hair—
All who are troubled with Headache, and
All who wish to have a beautiful glossy Head of Hair, in luxurious growth to the latest period of life, Use Bogle's Hyperion Fluid.

BOGLE'S ELECTRIC HAIR DYE
Is proven to be the very best in the world. It instantaneously changes Hair to any required color, life-like and natural.

BOGLE'S MYSTIKOS, OR MYSTIC HAIR TINT.
A new discovery for gradually restoring Grey Hair to its original color. Only one preparation Simple and easily applied. Super for Whiskers Moustachios and Eye-Brows.

Sold by all respectable Druggists and Perfumers throughout the World.

PROPRIETOR—W BOGLE, Boston, U. S.

An ounce of fact is worth a pound of theory and the swarm of conclusive facts that cluster around that incomparable preparation, Hoofland's German Bitters, prepared by Dr. C. M. Jackson, for Jones & Evans, Philadelphia, establishing its value as a tonic and restorative, are such as would prevent incredulity itself from questioning its efficacy. In all cases of diseases of the Stomach, whether acute or chronic, it may be recommended for its soothing, cordial and renovating influence. Dyspepsia, Heartburn, Loss of Appetite, Nausea, Nervous Tremors, Relaxation and Debility, &c., are relieved by the Bitters in a very short space of time; and a perseverance in their use never fails to work a thorough cure.

For Sale by Druggists and Dealers generally.

Ask for Hoofland's German Bitters. Take nothing else, and see that the signature of C. M. Jackson is on the wrapper of each bottle. These Bitters are for sale by druggists and storekeepers in every town and village in the United States, Canadas, West Indies, and South America.

THE WONDER OF THE AGE.

MYSTIKOS OR BOGLE'S MYSTIC HAIR TIN

The Newest and Greatest Discovery—The indispensable appendage to every toilet—The companion of young and old—The "long sought for and now found."

IT IS NOT AN INSTANTANEOUS HAI DYE, but it gradually and mystically restores hair to its original color, and gives to grey, or to any unpleasant hue of hair, any tint, varying from the lightest, through all the intermediate shades, to the deepest black, lifelike and natural, at pleasure. It can be used as easily as oil to the hair. The directions are so simple that a child may apply it. It is contained in one bottle. There is no washing of the hair before or after the application. It will not stain or discolor the scalp. It is as harmless as water. It is chiefly composed of vegetable ingredients, and no sulphur, lead or deleterious minerals are contained in it. It nourishes and strengthens the hair, promotes its growth, and sustains it in prestine beauty to the latest period of life. In short, it is a wonder, a luxury, none should be without it. Try! Be convinced!

The Mystic Hair Tint is peculiarly adapted for ladies, on account of its easy application. Also and for the same reason, to gentlemen in the army or navy.

The Mystikos is also the cheapest article as one bottle will last from nine to twelve months.

_ Concise and simple directions accompany each package.

PRICE, $1.50 PER PACKAGE.

Holloway's Ointment and Pills.—Neither caustic nor the knive can ever be required in the treatment of wounds, ulcers, tumors, or schirrous swellings, to which Holloway's Ointment has been applied in time. The effect of the Pills on the digestive apparatus is all but miraculous.

Sold at the manufactories, 80 Maiden Lane, New York, and No. 244 Strand, London; and by all druggists. If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane: enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make; 25 cents, 62½ cents, and $1 per pot.

The New York *Tribune* says, "the reason why Drake's Plantation Bitters are in such immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced, &c."

The *Tribune* just hits the nail on the head. The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each bottle, and the bottles are not reduced in size. At least twenty imitations and counterfeits have sprung up. They impose upon the people once, and that's the last of them.

The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an immediate beneficial effect. Facts are stubborn things.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
"REV. W. H. WAGGONER, Madrid, N.Y."

"* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefitted by their use.
Thy friend, ASA CURRIN, Philadelphia, Pa.

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * The Plantation Bitters have cured me.
"REV. J. S. CATHORN, Rochester, N. Y."

"* * * Send us twenty-four dozen more of your Plantation Bitters, the popularity of which are daily increasing with the guests of our house.
SYKES, CHADWICK & CO., Proprietors Willard's Hotel, Washington, D. .

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.

They are Sugar-Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.
G. W. D. ANDREWS, Superintendent Soldiers' Home, Cincinnati, O.

"* * * The Plantation Bitters have cured me of liver complaint, with which I was laid up prostrate, and had to abandon my business.
H. B. KINGSLEY, Cleveland, O.

"* * * The Plantation Bitters have cured me of a derangement of the kidneys and the urinary organs, that has distressed me for years. It acts like a charm.
C. C. MOORE, 254 Broaway.

New Bedford, Mass., Nov. 24, 1863.
Dear Sir,—I have been afflicted for many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine glassful after dinner. Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me, and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters.
Respectfully, JUDITH RUSSELL.

If the ladies knew what thosands of them are constantly relating to us, we candidly believe one-half of the weakness, prostration and distress experienced by them would vanish. James Marsh, Esq., of 159 West 14th Street, New York, says, "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself and both are hearty, saucy and well. The article is invaluable to mothers." &c.

Such evidence might be continued for a volume The best evidence is to try them. Persons of sedentary habits troubled with weaknes, lassitude, palpitation of the heart, lack of appetite distress after eating, torpid liver, constipation, diabetes, &c., will find speedy relief through these bitters. They speak for themselves

Every bottle for exportation and sale out of the United States has a metal cap and green label around the neck.

Beware of refilled bottles. See that the cap has not been mutilated. Any persons pretending to sell Plantation Bitters in bulk or by the gallon is an impostor. We sell it *only* in bottles.

Sold by principal dealers throughout the habitable globe.

The attention of the public is directed to the Act recently passed by the Legislature, under which Policies of Assurance in favour of Wives or Children, or assigned to them, cannot be seized by Creditors of the Assured. Policies of Assurance now, therefore, form a perfectly sure provision for Widows or Children.

EXAMPLES OF PREMIUMS TO SECURE £100 STERLING OR $486.67, PAYABLE AT DEATH

Ages, with Profits.		Ages, without Profits.	
25	$10.52	25	$ 9.65
30	$12.00	30	$10.99
35	$13.76	35	$12.61
40	$15.94	40	$14.60
45	$18.80	45	$17.21
50	$22.63	50	$20.75

These may be paid half-yearly or quarterly.

This Company does not seek to call attention by the *extreme* lowness of its Premiums, a course much followed by many offices at the present day—though they are as low as is consistent with safety, but would desire to commend itself to those wishing to secure an undoubted family provision by its known respectability and security, a matter frequently lost sight of. They would also point to the large *Bonus*, or addition to the original sum assured, which accrues to Policy holders. Thus a Policy taken out in 1847 for £1000, had in 1861 increased in value to £1,310.

UNCONDITIONAL Policies granted to persons settled in this country, upon which no extra premium can be exacted, rendering these Policies valuable securities for debts and marriage settlements.

Persons assured are permitted, without payment of extra premium, to join Militia, Yeomanry, or Volunteer Corps, and to perform any military duties required of them in peace or war, in defence of their country.

CLAIMS paid at the end of three months after proof of death, or immediately, if preferred, on discount.

AGE AND INTEREST admitted on the Company's Policies in all cases where proof is given satisfactory to the Directors.

THIRTY DAYS OF GRACE allowed for payment of Premiums, and in the event of death taking place during the currency of these days, before payment of the premium, the policy will be as valid and effectual as if it had been paid.

NO EXPENSES in connection with obtaining policies; and all Medical Fees paid by the Company.

No policy of five year's duration shall be liable to any ground of challenge whatever, connected with the original documents proceeding on which the assurance was granted; but the sum assured shall, subject to the payment of premiums, and extra premiums, if any, be payable in terms of the policy, after proof of death to the satisfaction of the Directors.

A bonus declared every five years; the next division of profits will take place 25th May, 1869.

By a new table of rates, the premiums are reduced to about one-half of the ordinary rate, and for the remainder of life are increased, but still moderate.

Loans advanced to the amount of the office value, of policies.

Policies with profits purchased at any time after payment of one year's premium, and policies without profits after three years' premiums have been paid.

Assurances allowed to lapse may be revived upon certificate of health and a small fine; and in the case of policies of five years' duration, upon which no debt exists, payment of premium may be made at any time within one year after the days of grace expire.

Should the assurer die during that period the claim is binding on the Company, under deduction of premium and fines.

Claims settled in Montreal without reference to Head Office, giving to this Company all the advantages of a Local Office, with the benefits of a large business and connection.

Every information as to Life Assurance, and copies of the Act referred to in the above advertisement, will be given by the Manager or any of the Agents.
