

THE STRIKERS' PAY DAY.

Pickets Posted Outside Hotel Warn Union Men That They Will be Fined If They Enter.

TWO STRIKERS WERE ARRESTED LAST NIGHT AT INSTANCE OF THE C.P.R.

Hundreds of strikers wended their way to the shops this morning to obtain their cheques in payment for the work they did in July. At 8 o'clock many persons were seen outside the shops but at nine o'clock the number of strikers increased, and at eleven o'clock the clerks in a specially composed shed were at their busiest in preparing the cheques to the men.

The shed is situated near a hundred yards away from the saloon which was closed just for the occasion—at least, so the men say. The strikers are loud in their condemnation of a saloon opening in the vicinity of the works, especially at the present time and one of the officials of the company told a 'Witness' reporter that he could conceive nothing more repulsive to the men's interest than the opening of the liquor den.

Max Boursky, one of the carpenters employed at the Angus shops, and also a striker, came up before Judge Leet in the Arraignment Court this morning, and pleaded 'not guilty' to a charge of trespassing upon the C. P. R.'s property at Place Viger street last night.

When seen today by a 'Witness' reporter the men's leaders stated that they computed that at least sixty men left their work in the wheel foundry this morning. With a view to effecting some business at the Angus Hotel, the bartender ventured outside the saloon's door shortly before noon today and invited the men to have cigars. However, the men were adamant; they could or would not be coaxed to enter the hotel, and the bartender consequently went back to the bar very despondent.

Mr. O'Connell, president of the metal workers' branch of the American Federation of Labor, will be in Montreal on Monday. In the afternoon of that day he will address a mass meeting in the Monument National and there will be a trades unionists' meeting in the same hall in the evening.

With regard to the rumor which emanated from Winnipeg concerning a meeting of Mr. O'Connell with Sir Thomas Shaughnessy to adjust differences, Mr. Somerville informed the 'Witness' this afternoon that Mr. O'Connell's visit here was only proposed with the intention of delivering a few speeches, but should the American labor leader be approached there remains but little doubt that he will see Sir Thomas if the opportunity presents itself.

ON TRACK OF CHINESE FUGITIVE. The Chinese sailor who escaped from the SS. 'Crown of Aragan', a few days ago, will probably be recaptured. Yesterday Constable Lee Johnston, the Chinese policeman, visited a laundry on Bleury street, and was informed that the fugitive had worked there all day, leaving in the evening to visit friends in Chinatown. The 'Crown Aragan' leaves Montreal to-morrow for Three Rivers, where she will stay five days, proceeding later to Quebec for ten days.

PASSENGERS ON THE 'VIRGINIAN'. (Canadian Associated Press.) London, Aug. 14.—Among the passengers sailing on the 'Virginian' to-day are Mr. K. N. McFee, Archbishop Matheson, Sir William Meredith, and Mr. J. A. Simon, M.P.

tioner was told by the striker that he was only taking a walk, but this answer was apparently not considered satisfactory by the acting policeman, who, without any warning, attacked him with his baton. The striker retaliated, and forcibly took the baton from the constable's grasp. The next instant the officer drew a revolver, but before he could level it at his opponent's head the striker had jumped upon him.

Besides the hundred or so special constables placed in the shops there are fifty city policemen and two officers. They are stationed in the works for 72 hours at a stretch, although, of course, they sleep at intervals. One policeman who came out of the works this morning, stated he had been on duty since Tuesday night and that he was going to have a rest until four o'clock this afternoon.

STRIKERS ARRESTED. Maximilian Giroux, a machinist, and one of the men who threw down his tools with his fellow-workers last Wednesday week, was arrested last night on a charge of intimidation. It is alleged that he stopped men working at the Angus shops, leaving the train near the St. Catherine street bridge, and when ordered to move on by a constable he became somewhat obstinate, with the result that he was taken into custody. Later in the evening he was admitted to bail on a surety of \$50. This morning Giroux appeared before Recorder Weir and he entered a plea of 'not guilty.' The Recorder thereupon fixed the trial for next Tuesday and allowed the man out on bail.

Max Boursky, one of the carpenters employed at the Angus shops, and also a striker, came up before Judge Leet in the Arraignment Court this morning, and pleaded 'not guilty' to a charge of trespassing upon the C. P. R.'s property at Place Viger street last night. Boursky, who was arrested by Catlow, a station detective, told the Court that he was going out on a train, but no ticket was found upon him. The judge adjourned the case until Friday and allowed the man out on bail of \$100.

To-day the ranks of the strikers were strengthened by a number of wheel moulders, who left the Angus shops. A prominent official of the company told a 'Witness' reporter that their loss would not be felt, as they could always buy wheels. He further stated that the average number of men that have been daily employed at the shops since the strike began were working to-day.

Extra city policemen were despatched to the Angus works this morning. However, there was no necessity for their services, as all the strikers conducted themselves in an exemplary manner. A 'Witness' reported a superintendent of one of the departments of the works said he was very pleased to see the way the men had behaved since the strike was declared.

MEN REFUSED TO BE TREATED. When seen today by a 'Witness' reporter the men's leaders stated that they computed that at least sixty men left their work in the wheel foundry this morning. With a view to effecting some business at the Angus Hotel, the bartender ventured outside the saloon's door shortly before noon today and invited the men to have cigars. However, the men were adamant; they could or would not be coaxed to enter the hotel, and the bartender consequently went back to the bar very despondent.

Mr. O'Connell, president of the metal workers' branch of the American Federation of Labor, will be in Montreal on Monday. In the afternoon of that day he will address a mass meeting in the Monument National and there will be a trades unionists' meeting in the same hall in the evening.

DEARER STREET LIGHTING.

Light, Heat and Power Company Will Want Higher Prices Next Year for Street Lamps.

WILLING THAT EXPERTS SHALL ESTABLISH NEW SCALE OF CHARGES.

Onwards from Jan. 1 next, on which date the present contract for the supply of light for the electric street lamps expires, the city will be called upon to pay a bigger price per lamp than is paid for its public lighting to-day. This fact was stated in a conclusive manner at a meeting to-day of the special Lighting Committee of the City Council with Mr. Walbank, the vice-president of the Montreal Light, Heat and Power Company.

Asked if the company would be prepared to make a new contract for street lighting at existing rates, Mr. Walbank said very decisively that it would not. The present rate is \$60 per lamp in the city, exclusive of St. Henri and Ste. Catherine, where the charge is \$90 per lamp. Mr. Walbank's suggestion is that the company and the city shall each appoint an expert. Together they will make an investigation and report what they consider is a fair price for lighting.

Mr. Walbank's manner, however, it was very evident that he is satisfied in his own mind that such a finding will never be reported by the experts. He agreed to answer a series of questions giving a scale of charges for the city, and the matter will be further discussed at another meeting next Thursday.

Mr. Walbank informed the committee that he would not make any figures on a basis of less than a ten years' contract.

ITALIAN ATTACKED DOCTOR

UNPROVOKED ASSAULT PUNISHED BY WESTMOUNT RECORDER.

An Italian named Ben Rossi was up before Recorder McMahon in Westmount yesterday on a charge of assaulting Dr. T. P. Shaw, was found guilty and sentenced to pay a fine of \$15 and costs or go to jail for one month. He went to jail. Rossi, it appears, tackled Dr. Shaw, who was walking along Dorchester street with Mrs. Shaw, from behind, kicking him in the leg for no apparent reason. He then ran around the Western Hospital and back on to Dorchester street and across Atwater avenue, where he was caught by Constable Curley in front of St. Stephen's Church. Rossi showed fight, and Curley had a rough and tumble scuffle with him before he was able to take him to the station.

At Payne's Mills, the barns of Mr. Donald Macpherson were struck and destroyed with contents. At Dutton the storm was very severe. The large barns of Mr. W. J. McCallum and Mr. James McMullen, in the township of Dunwich were totally destroyed, with the season's crop. At Rodney, the residence of Mr. E. G. Lusty was struck and the roof badly damaged. ALD. FETHERSTON RESIGNS.

Withdraws From Chairmanship of Westmount Fire and Police Committee.

SAYS HE HAS BEEN SUBJECTED TO UNFAIR CRITICISM BY THE MAYOR.

Ald. J. Fred. Fetherston has forwarded his resignation as chairman of the Fire and Police Committee of Westmount to the city clerk. It came before the committee at the meeting held on Monday evening and it was unanimously de-

ALD. J. FRED. FETHERSTON.

cid to ask Ald. Fetherston to reconsider his action. Up to the present he has not done so and his letter will come before the council at the regular meeting on Monday, when it is expected that motion similar to that of the committee will be put through.

When seen by a 'Witness' representative Ald. Fetherston stated that he had sent in his resignation because of the unfair treatment that his fire protection by-law had been subjected to by Mayor Galloway and other members of the council. He said that he had worked hard and conscientiously in the preparation of the by-law, and aimed to make it as complete in every detail as it was possible to do in order to safeguard the interests of the citizens of Westmount. From the time that he first entered the council he had tried to be fair with everybody, but he did not consider that he had received the same treatment in return. He had gone thoroughly into all the phases of fire protection in framing the by-law, and had been materially assisted in doing so by Sub-Chief Tremblay, of the Montreal fire department.

RIOTOUS SCENES ON HARVESTER TRAINS.

Outrageous Conduct of Hoodlums From the Maritime Provinces.

THEY LOOT HOTEL AT CHALK RIVER, ONT., AND CARRY OFF \$1,000 WORTH OF LIQUOR AND CIGARS.

North Bay, Ont., Aug. 14.—Two excursion trains of harvesters from the Maritime Provinces were held at Chalk River yesterday for about an hour, waiting orders. During their stay in Chalk River the hotel was looted, the proprietor carried outside and over \$1,000 worth of liquors and cigars carried off on the excursion train. Even the cellar was ransacked and a carload of beer in kegs stolen. On the trains riotous scenes ensued, water tanks were emptied and filled with beer. Fighting became general and one man had his nose split and sustained other injuries. One policeman is with each train, but no attention was paid to the officer on this train.

At Mackie's station the travelling hoodlums amused themselves by wrecking the furniture in the station agent's house and otherwise misbehaving. At North Bay the police force and a number of citizens were present, and the first sign of disorder resulted in arrests, which put a damper on the hooliganism.

SPORTING NEWS

LACROSSE.

Player From Nationals to be Chosen for Olympic Team.

Ottawa, Aug. 14.—Nationals are to be represented on the Canadian Olympic Lacrosse team, Ald. Foran announced today that he had been reserving a place on the Maple Leafs for a French-Canadian, and it is now up to the Nationals to name their candidate. The place will likely be given to Duckett, who has made good with the Nationals. He was given his first trial at cover point last season, and has been steadily improving.

Duckett and Dr. Cousineau were mentioned, but Duckett seems to be the choice, as Cousineau has been out of the game for some time. Duckett is a strict amateur and has been playing for the Nationals for the love of the game. He is a big husky fellow, a speedy player, and good stick-handler. He graduated from the Intermediate Nationals.

There are now thirty candidates for the Olympic team and Ald. Foran and his conferees will have an interesting task selecting the fourteen who are to take the trip to the Old Country. Ald. Foran says that each of the men will be tried out in the exhibition games in Canada, and the best ones will get the places. He has been busy arranging the matches and the Olympians will play four or five matches before sailing for the Old Country.

Henry Hoobin, Paddy Brennan, Gus Dillon, Clary McKerrrow, Ernie Hamilton and Duckett, of Montreal, are almost certain to go. The other eight will be chosen from Ottawa, Toronto and other points in the west. The Nationals are entitled to representation on the Olympic team, said Alderman Foran last evening, 'they have done a great deal in the interest of lacrosse in Canada, and will certainly not be overlooked.'

PROF. MACOUN GIVES A PRACTICAL TALK ON STRAWBERRY CULTURE.

Hemmingford, Aug. 13.—Papers of interest to fruit growers and addresses on subjects of value to horticulturists were given at the annual summer meeting of the Pomological and Fruit Growing Society of the Province of Quebec, which opened here yesterday afternoon.

After the opening remarks by the president, Mr. Robert Brodie, Westmount, in which he explained what are the objects of the society—to disseminate a knowledge of the best methods of fruit-growing and of vegetable growing, and also floriculture—Mr. J. C. Chapais, of St. Denis en bas, read a paper on 'The planting of a family orchard in Eastern Quebec.' He advocated the family orchard, as he believed that fruit should form part of the diet of a family all the year round.

The question of injurious insects was also taken up, such as the railway worm, the canker worm, the apple maggot, etc., and the best methods of getting rid of the pests was discussed.

At the evening session, Prof. Blair, of Macdonald College, Ste. Anne de Bellevue, gave an orchard talk, in which he dealt with location of the orchard, soil, planting of the tree, and caring for it during the early years of its life.

CHAREST'S WHEREABOUTS KNOWN.

Police Court Official Alleged to be Withholding Information From the Authorities.

SYSTEM OF ADMINISTRATION IN THE ROAD DEPARTMENT SHOWN TO BE DEFECTIVE.

The Road Committee yesterday afternoon resumed its investigation into the Charest scandal, and at the outset, it was stated by Ald. L. A. Lapointe that an important official in the Police Court, whose name he did not desire should be published at present, had stated that he knew the whereabouts of Charest, but when Sergeant-Detective Charpentier asked him for information he refused to give any.

The question was asked whether the official could not be forced to impart his knowledge to the police authorities. Ald. Lapointe replied that he believed this could only be done by a royal commission, and by the time such a commission was formed Charest would of course have disappeared again, if he had not done so already. It was discredited that a public official, who ought to render every assistance to the police in the interests of justice, should act as this man was doing.

It is generally believed at the City Hall that Charest is in hiding within easy distance of the city.

Further evidence was given to the committee during the afternoon in regard to the padding of the pay-letters of the department by, it is alleged, the foreman Charest, through which some fifteen hundred dollars were obtained in the course of six months from the city under three fictitious names. The following facts were made very clear in evidence:

Mr. Dansereau, the head foreman, first received intimation of the fraud on July 10 last, during pay-time. The fictitious names of Robert St. Hilaire and Prevost were called out and, as had happened every week for the previous six months, no answer was given. The acting-paymaster accordingly returned the envelopes to the cashbox for removal to the City Hall.

Mr. Dansereau, on the information just given him, told the acting-paymaster, who was on that occasion Mr. Prieur, that the envelopes were not to be given to any one who might call at the City Hall for them. That was on a Friday and on the Tuesday following witness was informed by Mr. Prieur that the money had been paid to the girl who had been in the habit of calling for the three envelopes in previous weeks.

Several members expressed surprise at what seemed to be a deliberate subversion of orders on the part of the acting paymaster, especially as Mr. Dansereau had said a minute earlier that when he told Mr. Prieur that three of the names on the list were fictitious, and that the money had been fraudulently drawn for weeks past in those names, the official smiled.

A messenger was sent to the paymaster's office to inquire if Mr. Prieur were present, but the office had been closed for the day.

Mr. Dansereau was pressed to say if Mr. Prieur had given any reason for giving the money to the girl.

'Yes,' replied the witness, 'he said he had been ordered to do so.'

'Ah,' declared Ald. L. A. Lapointe, 'I remember now that orders were given at the office that the money should be paid over to the girl if she called for it, the intention being that two detectives should follow her from the building to ascertain to whom she took the money.'

'They did so,' said Ald. Lariviere, 'but they lost trace of her at the corner of Gosford street.'

There was some laughter among the aldermen at the expense of the detectives.

Comment was made on the fact that Charest had, according to the evidence given on Tuesday afternoon, carted stone, bricks and wood to the house he was building without the department being aware of the dishonesty. Mr. Dansereau said he had never any suspicion of Charest. As to the padding of the pay-list for so long without discovery, witness said he had eight foremen under him and they each had from twenty to seventy-five men acting under them. In slack times the men were changed every few days so it was obvious that with these changes constantly going on among a thousand men three or four false names among them would be hard to detect, if any of the foremen laid themselves out to be dishonest. The department was bound to place trust in somebody.

Ald. Ward maintained that there was something wrong with the system, and he said he thought some change might be made through which it would not be possible for fraud to remain so long undiscovered.

Evidence was given early in the afternoon to prove that the land on which Charest had built his house was purchased from the Shepherd estate. This testimony, however, had no direct bearing on the investigation, and was only put in to disprove a suggestion that had been made that the land had been bought from Ald. Lariviere.

The inquiry will be resumed on Tuesday afternoon next.

CHICAGO'S DROUGHT BROKEN.

Chicago, Aug. 13.—A twenty-three days' drought in this region was broken yesterday by heavy rain. The parched corn and the sun-baked fields were deluged in sheets of water. In the twenty-four hours ending at six o'clock last night the precipitation was 4.35 inches, the greatest rainfall experienced in Chicago since Aug. 2 and 3, 1885, when there was a fall of 6.19 inches.

THE KNOWLTON CONFERENCE.

Dr. Woodbury Gives Some Valuable Suggestions—Temperance in Schools—Dr. Barnes on 'The Child in the Midst.'

Knowlton, Que., Aug. 14.—A splendid rainstorm swept through the valley in which Knowlton is situated on Wednesday night. The evidences of its refreshing influences can be seen everywhere. The dark, lowering sky, with occasional showers, which has characterized Thursday, enabled the storm to get at the very root of things, and minister most effectively to nature's growing life in field and mountain.

The soil is of such a character on the Conference grounds and surroundings that there is practically no mud and no inconvenience is suffered because of the condition of the highways and bypaths.

When Dr. Woodbury, of Halifax, N.S., was here on Sunday last, he gave valuable suggestions to the officers concerning the question of future improvement of the grounds. In Nova Scotia there is a similar summer meeting, which has an average attendance of 1,000, and has had audiences often of ten thousand persons. With this work Dr. Woodbury is acquainted. He has long been identified, though a practising P. D. S., with the international Sunday-school work of the continent. He expressed great surprise and satisfaction with the present condition and outlook in connection with Knowlton Conference, and gave valuable counsel and suggestion. Very likely at the meeting of the newly-elected executive on Saturday next instruction will be given that plans be made whereby the grounds and buildings will be open and in use between June and September inclusive in 1909.

TEMPERANCE IN SCHOOLS.

The opinion was expressed by Mrs. Bryner, and heartily endorsed by Dr. Barnes, that the recent triumph of temperance reform in the South and other parts of America was to be accounted for by the fact that the rational teaching of temperance to the boys and girls of the past generation in the public and Sunday school was finding its result in the determination to overcome the destroying influences of 'the trade' by the adults of this generation. Emigration brings to America's shores hundreds annually. These people largely take up residence in the north. They come from the countries of Europe where the conditions are different. It takes much longer to train them in the way of temperance ideals. Therefore, the advance in temperance reform is slow in that part. Four Sundays annually are devoted to the study of temperance in the Sunday schools.

In teaching this subject to children Mrs. Bryner deprecated dwelling too much upon the 'awful' and 'rightful' terrors of alcoholism. She advocated rather the intelligent and scientific method as seen in the day school. Two of these quarterly temperance days might be recognized by each teacher presenting the question personally to their classes. While on the other two days there might be an open session, in which a carefully prepared programme with a view to the return to questions of temperance reform might be undertaken.

GRADING THE SCHOOL.

The difficulties and the happy results from successful grading were each emphasized in an address by Mrs. Foster Bryner on this subject.

One of the principal objections to systematic grading is the oft-repeated statement: 'Our scholars will leave the school if we attempt to interfere with their preferences.' They will threaten to leave, said the lecturer significantly. One superintendent who had been informed by eight pupils that they would leave the school owing to changes about to be made, replied: 'We are very sorry to lose you. Before going please apply to the secretary and he will supply you with certificates of character, which will serve as an introduction to some other school where I trust you will find a home.'

Strange to say, no applications were made and the following Sunday every one of those pupils were in line. The same systematic arrangement that entered into the organization of a department store should characterize the orderly and rational grading of the modern Sunday-school.

If the school was large enough there should be an 'enrolling superintendent,' whose business it would be to consider the whole question of the best class for the development of each scholar.

'We are beginning to find out,' said the lecturer, 'that in the intermediate department men teachers do best with boys.' The question of teachers adapted to the classes was capable of much consideration. A regular and well planned method of promotion by arrangement of a workable system of 'examinations' was strongly advocated.

'Boys and girls believe in order,' said Mrs. Bryner, 'and their absence in many instances may be due to the fact that the school is not graded in accordance with some modern method.'

THE CHILD IN THE MIST.

'This child wasn't the kind of "dainty child" that one would like if he didn't like children.'

This was a quaint remark that dropped from Dr. Barnes in his address in which he discussed the incident in the gospels known as 'The child in the midst.'

The oriental custom by which despotic rulers banish old officials and appoint new ones at any time in their pleasure was referred to as accounting for the dispute between the disciples as to who should have the chief places in the kingdom.

Their reply to Christ's question as to what they were talking about had in it both a sense of shame and a sense of claim. 'Ambition,' said the speaker, 'is the raw material out of which aspiration is made. Ambition is a desire to get above men. Aspiration is the desire to get near God. The point Jesus made, it was asserted, was in calling attention to the child's humility. The child knew his strength and wisdom were insufficient to care for himself.

'Jesus saw the ideal in the child. The question that grown folk should ask in view of the presence of the child is "What is God's ideal for the child?" You cannot get the child to get an ideal only as he gets it from you. Unless you show it you cannot expect child-likeness in a child. How can one expect respect from the child unless we respect the child?'

'There is a great deal of indifference about the child,' said the speaker. 'There is a great deal of indulgence of the child. But there is far more disrespect for the child. We must have the child spirit ourselves if we would be the true friend of children.'

In speaking of man's relationship to the Kingdom as illustrated by this incident, the speaker said: 'No man has seen God who does not realize his own littleness. The sense of dependence is an essential to entrance into the Kingdom of Heaven.'

'The humble man enters the Kingdom of Nature while the one lacking this grace is sometimes destroyed. "Take hold of that handle," said a workman, referring to a machine charged with electricity. "If I did so," was the reply, "I should die."

'"Pooh!" said his work mate, and reaching forward he grasped the handle only to drop instantly dead. That man was not humble in presence of power.'

Solemnly added the lecturer, 'No man can lift himself by his unaided powers up to God. Who is the one that is becoming great? It is the man who is humble in presence of greatness.'

UNITED STATES AND JAPAN.

New York Journals Again Responsible for Creating Trouble.

UTTERANCE OF COUNT OKUMA SAID TO HAVE AROUSED INTENSE INDIGNATION IN THE UNITED STATES.

Tokio, Aug. 14.—Special despatches from New York and London printed in Japanese newspapers, represent that the recent utterance of Count Okuma, attributing the naval expansion policy of the United States to the sudden rise of the Japanese to the importance of a world power, is arousing intense indignation, and has caused a complete recrudescence of anti-Japanese sentiment throughout the United States.

The New York papers are quoted as editorially urging an American-Chinese alliance, for the purpose of offsetting the belligerence of the Japanese. The news paper is quoted as giving the views of Wu Ting Fang, Chinese Minister to the United States, on the subject of an alliance in which he threatens Japan with an early evidence of the real power of the American navy.

Americans residing in Tokio, Yokohama, and elsewhere throughout Japan, are extremely indignant. They believe that the special despatches exaggerate the tone of the New York newspapers, and it is felt that it is particularly unfortunate that at this time anything should be permitted to retard the increasing friendly relations of the two nations, in view of the elaborate arrangements on foot among the Japanese to welcome the American fleet and the growing cordiality exhibited on all sides towards Americans. American business men especially regret the publications, because the revival of the anti-Japanese propaganda in America, will undoubtedly afford gratification to the competing countries represented here and also seriously damage American trade.

Count Okuma's frequent utterances do not create a ripple here, and his most recent one was passed quite unnoticed by foreigners until the special announced the outcry of the American papers. Even among Japanese statesmen and newspapers, the first expression then was one of amusement.

Count Okuma is regarded here as a 'doctrinaire' politician, who is now completely without political influence except in academic circles. His statement concerning the American navy and President Roosevelt's advocacy of its expansion was undoubtedly brought out by reports of Congressman Hobson's speech in the Democratic national convention, when he quoted President Roosevelt as predicting an early war with Japan. The statement which has caused all the comment was an excerpt from a series of articles printed in the 'Hochi,' a Tokio newspaper, which are being written by Count Okuma, reviewing world politics, and printed from day to day.

When Count Okuma returned to-day to the city, he said to the Associated Press that he was surprised to find that his utterances had been considered purposely offensive.

'It was only natural,' he said, 'in reviewing the world's politics, to point out the Japan's rise above the horizon had caused the American navy to turn its attention toward the Pacific. It was undoubtedly true that some Americans talk unwisely concerning Japan, but never for an instant have I desired or intended to reflect on the honor and courage of the American navy or its administration, but it is an inevitable fact that commercial considerations weigh materially with all older commercial nations, even when it becomes a question of war. No one will endeavor more earnestly than myself to cultivate cordial relations with America.'

In an article published in the 'Hochi' on Aug. 11, Count Okuma attributed the present naval expansion policy of the United States to the sudden rise of Japan to the importance of a world power, saying, in part:

'Judging from the fragmentary speeches of President Roosevelt that have been transmitted here, it is not difficult to infer that the augmentation of the United States navy in the Pacific is directed against Japan.'

Count Okuma expressed a doubt, however, that the views and ideas of President Roosevelt would long continue to govern public opinion in the United States.

REPTILE HAD BEEN LEFT IN BUREAU DRAWER BY SHOWMEN.

Kingston, Ont., Aug. 14.—A snake lying in a bureau drawer in an hotel nearly put a young daughter of the house into hysterics. She opened the drawer, saw the slimy object, touched its cold clammy side, and when it moved she learned it was a reptile. Snake charmers performing here had forgotten it among their collection taken away.

WANTED TO EXAMINE MR. WALSH.

In the case of the contested election of Mr. D. Tansey, M. P. P. for St. Ann's division, a motion was presented before Mr. Justice Archibald in the Practice Court to-day, on behalf of the respondent, asking permission to examine the petitioner, Mr. Walsh, on the preliminary objections filed in the case. This demand was opposed on the ground that there is no provision in the law authorizing the examination of any party in the case before issue is duly joined on the merits. The Court maintained the objection, and the motion was dismissed.

THE CUNARD LINE.

A despatch from London yesterday stated that the managers of the Cunard Steamship Company at Liverpool, refused to confirm, deny, or in any way comment upon the report that the line intends to abandon Queenstown as a port of call, in favor of Plymouth. So far as is known, however, the post-office has not agreed to any such change, and it is a question whether the government would be willing to risk the wrath of the Nationalists, which undoubtedly would follow the abandoning of Queenstown as a mail port. It is considered, together likewise, however, that the Cunard Company, in the near future, will be obliged to send some of its steamers to the Channel ports in order to get more of the passenger traffic from the continent.

BUTTER AND CHEESE VALUES ARE HIGH, BUT WHAT WILL FALL PRICES BE IF THERE IS NO BREAK IN THE MARKET?

When compared with last week, the butter market to-day is quieter and undoubtedly weaker. Lower prices have been accepted by some holders, but this does not seem to have brought any increased activity in the local trade—export business is very difficult to work on account of the high prices that are ruling on this market.

Drusilla Heronworth are... she said brokenly. 'So cruel!'

'Oh! this is so cruel,' she said brokenly. 'So cruel!'

'You are my sister, my child, my dearest,' Bertha Heronworth answered.

'Can you tell me whose portrait this is?'

Bertha Heronworth took the jewelled frame in her trembling hand.

'That is not too much for a little girl who has a work-basket of her own,' said her mother.

'Yes,' thought Jessie, 'mother has given me a work-basket, and I ought to be willing to sew.'

'I have a dreadful pain in my side,' said Jessie in a few minutes.

'Oh, my hand is so tired!' was the next. Next there was something the matter with her foot, and then with her eyes, and so she was full of trouble.

'At length the sewing was done and Jessie brought it to her mother.'

'Should I not first send for a doctor?' asked her mother.

'The doctor for me, mother?' cried the little girl, as surprised as she could be.

'Certainly a little girl so full of pains and aches must be ill, and the sooner we have the doctor the better.'

'O, mother,' said Jessie, laughing, 'they were sewing aches. I am well now.'—Home Herald.

FAIRIES. (By James P. Webber.)

I never saw the fairies That sister reads about;

I've looked around the orchard, And up the waterspout;

I've peered within the coalbin, And searched mamma's clothes-press;

I've hunted through the garret, And everywhere, I guess;

I've climbed up all the apple-trees, And searched the garden nooks;

I think the only fairies are Just those within the books.

JESSIE'S SEWING ACHES. Jessie sat down by her mother to sew.

'All this,' she asked, in a discontented tone, holding the seam out.

'That is not too much for a little girl who has a work-basket of her own,' said her mother.

'Yes,' thought Jessie, 'mother has given me a work-basket, and I ought to be willing to sew.'

'I have a dreadful pain in my side,' said Jessie in a few minutes.

NEWFOUNDLAND FISHERIES PROBLEM.

Conclusion of the Modus Vivendi Announced by British Foreign Office.

London, Aug. 13.—The Foreign Office, in announcing to-night the conclusion of a modus vivendi regarding the Newfoundland fisheries, says: 'His Majesty's Government and the government of the United States united concerning the modus vivendi regarding the Newfoundland fisheries, and the government of the United States accepted as constituting in itself a satisfactory agreement for the season of 1908, without the necessity of a more formal agreement.'

BRITISH PRESS COMMENT.

London, Aug. 14.—The 'Morning Post,' in an editorial to-day, strongly attacks the government for consenting to a modus vivendi with the United States regarding the Newfoundland fisheries, and reproaches Sir Edward Grey, the Foreign Secretary, for yielding to United States pressure.

Continuing, the editorial says: 'That while the modus vivendi is concluded for the third time, arbitration is still pending and will continue to be pending until the Americans have matured their plans for securing a favorable verdict on an issue not of fact, but of reasonableness. Englishmen may well reflect whether the relief from the burden of armaments or from the worrying problem of imperial partnership may not be bought at too costly a sacrifice of normal ideals.'

The 'Times,' in an editorial, commenting on the fact that the modus vivendi was concluded with Newfoundland's consent and approval, says:

'Happily, a renewal of the unfortunate conflict between the Imperial Government and the colony has been avoided, even in appearance. The present government has not always shown tact in dealing with the affairs of the self-governing colonies, but in this instance it appears to have acted with dignity and in a conciliatory spirit, and has now happily reaped the reward of its patience.'

IN A RELIGIOUS MANIA

MAN KILLS HIS SON AND DAUGHTER.

Los Angeles, Cal., Aug. 13.—Driven insane by religious mania, H. J. Duffy, 60 years of age, to-day attacked and killed his son and daughter with an axe, and then cut his own throat with a razor, inflicting fatal injuries. Duffy lived at the home of his son, Fred Duffy. He had been on the verge of violent insanity, it is said, for weeks, as a result of religious enthusiasm. Awakening this morning, after attending a religious meeting last night, he was suddenly seized with a desire to kill. Seizing a sharp-bladed axe, he stealthily entered the bedroom of his son while the latter lay asleep. He crept close to the side of the bed, and, raising the weapon aloft, brought it down with terrific force across the neck of the boy, severing the head completely from the body. With a maniacal shout Duffy rushed from the house and down the street, waving his bloody weapon. Reaching the house at 451 North West Lake avenue, where his wife and daughter resided, he opened the front door and entered. Mrs. Ada Lacombe, the daughter, with her mother, was in a rear room, with her back to him. Without a word of warning he swung the axe high in the air and left her skull. Mrs. Duffy fled through a rear door, closely pursued by the maniac striking at her with the axe. The woman succeeded in eluding him, but not before she had received a severe gash on the elbow from the axe. Her cries finally attracted the attention of neighbors, who came to her aid. Duffy then walked to the street, where he drew a razor from his pocket and slashed his own throat, inflicting frightful injuries which will doubtless cause his death.

Several weeks ago Duffy went to the Evergreen cemetery, and purchased a lot, explaining that he wanted it for himself, son and daughter. Three days ago he purchased a coffin for himself. Duffy not only purchased a lot in the cemetery for the burial of his victims, but had headstones erected for three graves. The plain tombstones were put in place bearing the names of Henry J. Duffy, Fred A. Duffy and Zaidiah Lacombe. The gravestones for his children were placed on each side of the one erected for himself. Duffy paid \$800 each for the headstones, and told the salesman he was in no great hurry to have them erected.

CHINAMEN DEPORTED

IDENTIFICATION BY NECKTIES OF NO AVAIL.

Ogdensburg, N.Y., Aug. 13.—When ten Chinamen were arraigned before United States Commissioner Kellogg to-day, charged with having entered the United States unlawfully from Canada by way of Rouses Point last January, an attempt was made by the defense to show that all of the Celestials had relatives here. The Chinamen arranged themselves in groups of two, and it was observed that each pair wore neckties of identically the same pattern and color. Five other Chinamen in the room immediately stepped forward and identified each group of prisoners and claimed to be related to them. The self-asserted relatives had apparently carefully noted the style of neckties worn by the men they picked out, and the authorities came to the conclusion that the neckties were used as identification marks. Commissioner Kellogg ordered the ten Chinamen deported.

THE POWERS WARNED.

Young Turks Declare They Will Brook no Intervention.

GREAT REFORMS UNDER WAY IN TURKEY—MONTREAL SYRIAN AT NEW YORK DINNER.

Constantinople, Aug. 13.—The first rift in the lute of Turkish European harmony since the grant of a constitution, occurred to-day, when the Young Turk Committee made an important declaration threatening foreigners if the powers intervene in Turkish internal affairs, and declaring that such intervention would provoke a rising which would place the lives of foreigners in danger. The Young Turks have demonstrated extraordinary powers in putting an end to incipient strikes. The employees of the Regie, or tobacco monopoly, will return to work to-morrow. They have also ended the tramway and dock laborers' strikes.

The Young Turks have suppressed tobacco smuggling, which for years was conducted openly. The government is resuming control where for years no control existed, except in the interests of palace favoritism.

The ringleaders in yesterday's demonstration by dismissed employees of the finance ministry have been arrested.

The government has intimated that a clean sweep will be made in the public departments. Only sixty employees will be retained out of 140 offices of the Council of State. At the customs ten out of thirty employees among the higher officials will be retained. The savings of salaries by these reforms will be enormous.

MAY EVICT SULTAN FROM YILDIZ KIOSK.

London, Aug. 14.—The Constantinople correspondent of the 'Telegraph' says the Young Turks Committee has decided, in order completely to end old traditions and prevent the possibility of a coup by the police guard, to insist that the Sultan abandon the Yildiz Kiosk, which will be converted into a national park, and reside in the Dolma Bagtche Palace on the shores of the Bosphorus. The project will not be enforced immediately.

MONTREALER AT DINNER.

New York, Aug. 13.—A movement to uphold the constitution that has been restored in Turkey was launched to-night at a banquet tendered to Nakié Moutran Pasha, founder of the new Ottoman Society, better known as the Syrian Ottoman Union Society, tendered him by influential Syrians of this country. Moutran Pasha is a wealthy man of noble blood, and for seventeen years he was the moving spirit among the Young Turks party in Paris. Among those at the dinner to-night was Nakié Hameh, a banker of Beyrout, Syria, who is going on a three weeks' hunting trip through Canada with the Pasha in a few days; Dr. R. Haddad; Kahlil Farah, of Montreal, who is said to be the wealthiest Syrian in America, a mine operator and owner, and Alexander Habaji, the toast-master.

Moutran Pasha said he thought the army would stand by the people for the constitution, and as the Sultan relies almost wholly on the army, the Pasha thought the constitution would stay. Those at the dinner pledged themselves to devote their lives to making the constitution permanent.

AERIAL NAVIGATION

PARSAVAL'S DIRIGIBLE BALLOON MAKES A SUCCESSFUL FLIGHT IN GER.

Berlin, Aug. 13.—The new Parsaval dirigible balloon, which is patterned on the flexible system, made its first ascent from Tegel, and late this evening. The airship carried five passengers. Experiments with the steering gear to prove its stability were carried out at an altitude of 750 feet. The ascension, though only a short one, was in every way successful. The airship will be fully inflated to-morrow in preparation for a twelve-hour journey, which is necessary before it is taken over by the government. A military steerable, semi-rigid system, balloon, cruised over Tegel while the Parsaval airship tests were being carried out, and then disappeared over Berlin. The two dirigibles manoeuvring close together created a remarkable impression on the spectators.

MR. WRIGHT'S ACCIDENT.

Le Mans, Aug. 14.—Wilbur Wright's second flight yesterday, which lasted two minutes, was a novel one. The aeronaut soared and descended at will, executing bewildering turns. Suddenly, as viewed from the grand stand, the machine slowed up and began curving slowly toward the earth. All appeared to be going well until it was tilted to leeward, and the delicate framework struck the ground and was deranged and torn.

Mr. Wright calmly stepped out and examined the wreck. He was quickly surrounded by anxious friends, to whom he quietly explained that there had been no accident in the air, but that he had merely decided to try a new descent. He shut off the motor at a height of 75 feet and endeavored to float downward. The real cause of the accident was the attempt to land exactly on the spot of his departure. In lifting the planes at the last moment in an attempt to continue the gliding progress he pulled the left plane too sharply.

The damage can be repaired easily, although because of the lack of the necessary material the work will require several days. Among the spectators to-day were M. Kapferer, the engineer of the French dirigible balloon 'Ville de Paris,' and other French enthusiasts.

THE QUEBEC NEW BRIDGE.

Messrs. H. E. Vautelet, of Montreal, Maurice Fitz Maurice, of London, and Ralph Modjeska, of Chicago, Three Eminent Engineers Appointed to Look After Reconstruction.

Ottawa, Aug. 14.—At the last session of Parliament the administration took power by a special act to construct the Quebec Bridge as a government work. It will be remembered that the committee which investigated the affairs of the Quebec Bridge Company presented two reports to the House. The report of the Conservative minority recommended that the erection of the new bridge be entrusted to a commission of eminent engineers. The government has adopted his suggestion practically, but instead of a commission, has appointed a board, composed of three high-class bridge specialists, who will conduct the work under the direction of the Department of Railways and Canals, thus giving direct responsibility to the government.

The Hon. Geo. P. Graham submitted to council yesterday a recommendation for the appointment of a board of three engineers of world-wide reputation, whose duty it will be not only to prepare plans for the bridge, but to superintend the entire work of construction.

The Minister's recommendation was endorsed by his colleagues and an order-in-council was passed appointing the following board of experts: Messrs. H. E. Vautelet, C.E., of Montreal; Maurice FitzMaurice, M.I.C.E., of London, England; and Ralph Modjeska, of Chicago.

Mr. Vautelet is recognized as one of the leading civil engineers of Canada, having been connected with the bridge construction work of the Canadian Pacific Railway for many years.

Mr. FitzMaurice is at present chief engineer for the London County Council. He was associated with Sir Benjamin Baker in the erection of the great Forth Bridge, and was also one of the engineers entrusted with the carrying out of the Assouan dam across the Nile.

Mr. Modjeska has had valuable experience in the building of railway bridges in the Western United States. He is a son of Countess Modjeska, the eminent actress.

Both Messrs. Vautelet and Modjeska are graduates of the Polytechnic School of Paris.

HARRY THAW CASE

IF CALLED IN BANKRUPTCY PROCEEDINGS IN PITTSBURG, HE MAY GAIN HIS FREEDOM.

New York, Aug. 13.—That Harry Thaw will be free within a month is the opinion of prominent New York lawyers. Eugene Phibin, former district attorney, said to-day:

'There is no doubt that once Thaw steps foot outside of New York State he will be a free man, or, if not actually free, can be made so by a writ of habeas corpus. Thaw was not convicted of any crime. He was acquitted on the ground of insanity. Judge Dowling, believing it to be for the good of the state, committed Thaw to Matteawan. This commitment is legal only in New York.'

If the federal authorities demand proceedings in Pittsburg, those who have Thaw in custody have no other course than to produce him. Once across the river and in New Jersey, he would be legally free, and as long as he kept out of the State of New York he would have no fear of imprisonment. 'Had Thaw been found guilty of killing Stanford White, he would be a criminal and amenable to the law as such, whether in New York State or Pennsylvania.'

John F. McIntyre, a leading criminal lawyer, said that once outside of the state Harry Thaw would be as free as any citizen. The legality of the statute under which Thaw was sent to an insane asylum has never been tested in New York State. 'A commitment in this state has no extra-territorial force, and once outside the state Thaw would be a free man. Any judge outside of New York must discharge him on the grounds that he is illegally retained.'

WRECKED BAKER SHOP

REVENGE ON MAN WHO DISCHARGED NON-UNION EMPLOYEES.

New York, Aug. 13.—In an effort to have one man re-employed in a bakery shop in Lexington avenue, Harlem, from which he had been discharged for refusing to join a bakers' union, journey-men bakers, one hundred strong, wrecked the bakery of Pincus Jacobs early to-day. A riot ensued and the police were called out to dispel the crowd. Jacobs, the innocent cause of the trouble, employs twenty bakers. Several days ago the Bakers' Union, to which the men belong, lost its charter, and Jacobs, being a staunch union man, insisted that his men join another union organization. All of the men complied except Hyman Felhandler, who was discharged on that account. Since then, according to Jacobs, numerous delegations of bakers have visited him insisting on his re-employing Felhandler, but he refused to listen to them. To-day's riot was the result. A number of arrests were made, Felhandler being among them.

ASSAULTED A POLICEMAN.

Ottawa, Aug. 13.—As the result of a fight with the police last night, George H. Mason was fined \$7 for disorderly conduct, while one Reid, on a charge of interfering with a police officer, elected to be tried by jury, and was remanded. The prisoner gave his residence as Montreal, and said he was a commercial traveller, registered at a local hotel. At the latter place it was, however, ascertained that no such person was a guest of the house. Constable Dufresne's injuries are of a somewhat serious character, and Dr. McKinnon has recommended that he be relieved from duty for a few days. He sustained an ugly scalp wound on the back of the head, several stitches being required to close the gash, while the fingers of one hand are badly mangled.

SMUGGLED DIAMONDS.

Sarnia, Ont., Aug. 13.—John V. Smith, who was arrested at Port Huron while trying to sell diamonds smuggled over from Canada, and believed by the police to have been stolen, was arraigned before United States Commissioner Harris and held for trial. He was committed to jail in default of \$1,000 bail. The jewellery found on Smith is valued at \$1,000.

CANADA'S MORTAL ENEMY.

Montreal Medical Journal Pleads for a Commission on Tuberculosis.

PITTABLE LOCAL CASE SHOWS URGENT NECESSITY FOR ACTION.

The need for government action to stay the dread scourge, tuberculosis, is impressed on its readers by the 'Montreal Medical Journal' in the following article:

On July 17 a man who was dying of consumption lay for three hours on the floor of one of the charitable offices of this city—lay, because he was too weak to sit in a chair, and no place could be found to which to send him. The blame did not lie with the hospitals—they are not permitted to admit these cases, and at that very moment, to our certain knowledge, each of the three large general hospitals was overstepping its rules for charity's sake and was caring for at least one other such case. The two institutions which take such cases were both overcrowded, and could admit no more.

Should any one care to consult the papers of July 17 he will find that Montreal on that day was boasting a population of 454,000, argued upon a conservative estimate from directory sources, and that some authorities think a hundred and twenty million bushels of grain may come from our North-West—and we are buying a battlefield, and keeping an \$18,000 team at the Olympic games—and a dying man lies three hours on a floor because there is no place to send him. He is not a criminal, he is just a citizen, dying of the most widespread disease within our borders, and you have, as citizens of Canada, not made provision of one dollar for him and for hundreds like him. The writer knows how splendidly private enterprise and even municipal activity in some places has made provision for the prevention of tuberculosis, but it is nearly all at the one end of the illness—while the disease may be cured. Now, we have to make provision that the advanced case can be separated from the centre from which the disease can spread, and can be cared for as a man about to die should be. At our present position in the fight with tuberculosis, we have to recognize that for many years to come, hundreds and thousands of cases are going to die—each case a centre from which the disease spreads, and we have got to separate these people just as we rationally separate a man who has yellow fever.

NEW CAR LINE OPENED

FIRST TRIP OVER EXTENSION TO NOTRE DAME DE GRACE WAS YESTERDAY.

The opening of the new line of the Montreal Park and Island Railway through the town of Notre Dame de Grace took place yesterday afternoon. At four o'clock three special cars, decked with hunting left Cote street, with the directors and a party of newspaper men. On arrival at the boundary line at Notre Dame de Grace, the party was met by Mayor Trenholme and the members of the Town Council.

A trip was then made over the new line, the roadbed of which is in excellent condition, over the mile and an eighth extension. On arriving at the terminus the directors were greeted with cheers by the townspeople, who had turned out in hundreds in honor of this occasion. A trip was then made to Park Trenholme where a luncheon was served and speeches delivered.

Through Mayor Trenholme and Mr. Alphonse Decarie, the leader of the council, both of whom spoke, the visitors learned that the town of Notre Dame de Grace possesses a valuation of nearly six million dollars, or an increase of two millions during the past year, with a population of four thousand people. Three years ago, the speakers informed their guests, they were without any improvements. Now they boasted of a fine sewerage system, electric light and water plants under way, and last but not least, two fine parks, one in the east, called Notre Dame de Grace, and the other Trenholme Park, and the other 600,000 feet square, and was purchased for the sum of \$59,000.

Both speakers remarked that the council intended having as fine a boulevard where the new tramway line is, as any city or town in the Dominion possesses.

In proposing the toast of the railway company the mayor read a letter from Senator Forget, regretting that illness had prevented him from attending.

Mr. W. G. Ross, the managing director, spoke of the advantages Montrealers possessed over the people of other cities where the railway facilities were not so good. Here in Montreal Mr. Ross remarked that people could go from the town of Notre Dame de Grace to Dominion Park for five cents, a distance of about ten miles.

Mr. Duncan McDonald, general manager, responded in French. Mr. F. D. Monk, M.P. for Jacques Cartier; Mr. J. C. Decarie, M.P.P., and the Rev. Father Dion, parish priest, also spoke. After the singing of 'God Save the King,' and 'Auld Lang Syne,' the party returned to Montreal, and thence to Dominion Park, where they were the guests of the Street Railway at their picnic.

Among those present were Messrs. W. G. Ross, Duncan McDonald, U. H. Dandurand, P. Dube, H. E. Smith, R. M. Hanford, M. J. Kennedy, W. McNaught, Alf. Byrd, W. McL. Walbank, A. Gaboury, J. Robertson, E. Decarie, Geo. Mareil, Geo. Tetrault, J. R. Smith, Emile Barlatier, J. E. Roy, Gustave Patten, Ald. A. Decarie, Ald. T. Prudhomme, Ald. McDonald, Ald. Vallant, Ald. B. Decarie, O. Lavallee, J. Sullivan, J. McCormick, O. Emond, L. Decarie, Jas. McShane, F. D. Monk, M.P.; Alex. Scott, Paul Galibert, S. White, and many others.

PERJURY IN GOULD CASE.

New York, Aug. 13.—The grand jury to-day found indictments accusing Mrs. Benjamin Teal, Harry H. Mousley, a private detective, and Julia Fleming, a seamstress, of attempting subornation of perjury in inducing Mabel MacCauley to give false evidence against Frank J. Gould in divorce proceedings brought by Mrs. Gould. All the defendants are at liberty on bail on similar charges made by the District Attorney. They will be arraigned to-morrow.

OMER ROCHETTE.

Quebec, Aug. 13.—Omer Rochette, sentenced to death for the poisoning of his wife, but who escaped the gallows by the commutation of his sentence to life imprisonment, was this morning taken to St. Vincent de Paul Penitentiary, where he will spend the remainder of his days.

WILL NOT ENTERTAIN FRENCH VISITORS

BUT QUEBEC CIVIC FINANCE COMMITTEE GRANT \$1000 TO NIE SUFFERERS.

Quebec, Aug. 13.—At a meeting of the Civic Finance Committee to-day a grant of \$1,000 was voted to the nie sufferers, but the committee refused to grant any financial aid for the deportation of the nie sufferers to Duplex, which is expected to depart Sunday next, on the ground that no official notification of the nie sufferers had been received by the committee. Moreover, considerable sums had already been voted recently by the committee for the entertainment of visitors.

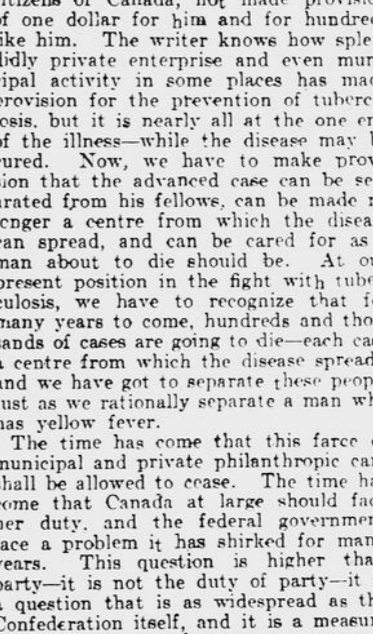

The Committee Duplex is a party of prominent business men, journalists and other persons who are visiting Canada with a view of fostering cordial relations between the two countries.

NIGHT RIDER CASES

Murray, Ky., Aug. 13.—The case of Jake Ellis, charged with being a night rider, having resulted in a conviction, all of the other night riders in the county, the prosecution and the grand jury investigation as to the connection of several of the night rider bands is being continued. Because of threats against the grand jury, the town of Murray was placed under the present term of curfew, and a strong patrol was organized in the eastern part of the county.

THE 'WITNESS' DAILY MODEL

The home dressmaker should keep a little catalogue scrap book of the day's pattern cuts. These will be found very useful to refer to from time to time.

1446 NO. 1446—LADIES' OVERWAIST.

Of all the useful accessories that have been brought out within the last few years nothing is more so than the plain waists or overwaists that are so plain, simple, and fresh. They are so simple, they are so easy to make, and they are so useful. Even the little boleros and cardigans because they were made of armholes. Then, too, the new garment that adds any warmth to the dress. Everything must be so easy. This simple overwaist gives the freedom of movement, the all-over lace and muslin, the folds. SWEDE WAS NOT SWINDLED

JUDGE SAID JANSEN DID NOT KNOW HOW HE HAD SPENT HIS MONEY.

Fred Jansen, a Swede, who accused a city hotel keeper of swindling him out of \$1,000, lost his case before Judge Bazin yesterday afternoon. The evidence showed that he had squandered his money on champagne and automobile rides, and the magistrate said he was satisfied Jansen did not know what he had done with the rest. He had certainly bought wine freely and given much away in tips.

As the evidence against the accused, who were Louis Brner, proprietor, and George Senecal, porter, of the Empire Hotel, Chabouley square, was not strong enough in the judge's opinion, to warrant their committal, he discharged them.

Mr. Peter Bercovitch, who represented Jansen, informed Judge Bazin that he would bring the case before the Grand Jury, which meets next month, to ask for a commitment against the accused, and asked that the amount of the bond necessary be fixed.

Judge Bazin fixed the amount at one bond of \$500, or two of \$250, and if the case is not brought before the Grand Jury after all the papers have been prepared and witnesses summoned, the money will be confiscated by the government.
