CATHEDRALS, CONVENT AND HOSPICE DESTROYED BY FIRE IN NICOLET ==ONE NUN DIES FROM SHOCK

Seven Hundred Thousand Dollar Fire Destroys Splendid New Cathedral and the Convent of the Assumption Nuns —Fire Brigade Rushed from St. Hyacinthe by Special Train—The History of the Edifice.

THE NICOLET FIRE.—The old Church, which was burned.

Mgr. Brunault, Bishop of Nicolet.

Special to the Montreal Star.

Nicolet, June 22.—Shortly after six o'clock this morning, the fire which has raged all night in this village, which has done in all damage estimated at $700,000, and as a result of which one nun is dead, was finally extinguished.

Largely through the exertions of the St. Hyacinthe fire brigade, which was rushed here by special train at 9.30 o'clock last evening, the fire was placed under control. The cathedral, the parish church, the residence of Mgr. Suzor, the convent and outhouses of the nuns of the Assumption, besides the residence of the Richard family, were totally destroyed.

The fire was first noticed at 6 o'clock yesterday evening in the old parish church, which stands in close proximity to the new cathedral, recently completed at a cost of $150,000. For some days workmen have been at work cleaning out the older building, which it was proposed should be used for diocesan purposes. It is supposed that one of these in lighting his pipe before leaving the building dropped a glowing match end upon the wooden floor and as the workmen left the building at five, while the fire was not noticed until a few minutes before six, the flames had almost a full hour's hold before they were discovered.

A MASS OF FLAMES.

Discovered then, the church was a hissing cauldron of flames. From its high Gothic windows the flames in fiery tongues were leaping out angrily. The local fire brigade at once recognizing the gravity of the situation, while they did everything in their power with the limited means at their disposal to cope with the progress of the flames, telephoned to St. Hyacinthe asking for assistance.

By special train the fire brigade of St. Hyacinthe rushed to the rescue with a steamer and a special body of volunteers. They arrived in Nicolet by 9.30, and soon were on the scene.

But those intervening three hours had given the flames good headway, in spite of the efforts of the gallant little band of local fire fighters.

Leaping from the old parish church to the new cathedral close at hand, in a second the latter, like the former, was a sheet of flames. A strong wind acted as an active ally of the fire, and the stately edifice, dry as tinder from the warm weather of the past few days, was soon burning as fiercely as its companion building.

In spite of the many jets of water which was playing upon it, the fire made quick progress. The valuable vestments and pictures with other ecclesiastical furniture was all like tinder.

THE HOSPICE BURNS.

Then the wind which was fanning the fire, drove a tongue of flame across the intervening space from the new cathedral to the residence of Mgr. Suzor, a handsome stone building, just adjoining. In a second it, too, was burning as fiercely as the other buildings, and it was not long before "La Residence St. Joseph," as it is known, was as empty a shell as the two buildings adjoining.

Close at hand stands the convent of the Nuns of the Assumption. Three hundred in number, they dwelt in a handsome stone building, about two hundred feet away from the new cathedral. Built in rectangular shape, with a main building and two wings 200 by 50 feet in area, and three and a half stories in height, the building was a stately one. Last week it contained several hundred pupils also, but they had just returned to their homes for the holidays, else the tale might have been a very different one, and such another as the burning of that of St. Genevieve.

Across towards the convent the wind blew the flames from the cathedral. The fire brigades were directing their

CROWNED WITH ANCIENT RITES

Simple Ceremony Attended Coronation of King Haakon and Queen Maud.

Trondhjem, June 22. — Coronation day opened with a glowing but cold sun shining. A chill wind came off the Fiord, making it necessary to wear overcoats and winter clothing. The normal temperature in the Cathedral prior to the ceremony was under fifty degrees, and it was feared that many of those present would carry away a painful lasting reminder of the coronation of King Haakon and Queen Maud, although the Norwegian court wisely relaxed the rules governing dress.

The city was alive at an early hour, and by eight o'clock the avenues reaching to the Cathedral were filled with straggling lines of people, making for the choicest points of vantage from which to see the members of the royal family and the distinguished guests enter the Cathedral. The doors of the latter were opened at ten a.m., and soon afterwards three bishops, robed in black and white, drove up in a phaeton. The crowd uncovered when the bishops entered the Cathedral, which rapidly filled.

By 10.25 a.m. the majority of the spectators had arrived, and were seated, the women in evening costumes, and many of the men in bright uniforms and wearing orders. The effect was imposing in spite of the half-light in the interior of the old Cathedral.

The arrival of the bishops was followed by the appearance of a number of priests, all robed in white. They entered the north sanctuary at 10.30 and formed a semi-circle about the altar, and with bent heads offered up prayers for the King and Queen. Their entrance silenced the crowd.

In the meantime lines of soldiers and sailors formed a line from a specially constructed landing place, past the palace to the Cathedral entrance.

FOREIGN EMBASSIES PRESENT.

The royal and special embassies soon afterwards began arriving, and their members were hailed with cheers as they drove along, while a band stationed opposite the canopied portal of the Cathedral played the national anthem respectively of each country represented by the arriving embassy, and at the same time the troops presented arms.

The Prince and Princess of Wales entered last at 10.55 a.m. and their party was still in the street when peals of bells from the city churches announced that King Haakon was preparing to leave the Palace. By this time the dense crowds walled behind the line of troops extended from below the Palace into the bisecting streets and to the Cathedral, where, near the entrance, stood the tribunes which had been erected for the luckiest of the public.

The King and Queen after a brief delay in arranging the carriages and cavalry escort started for the Cathedral, preceded by their suites. A great cheer announced the departure of the Royal party. Their Majesties, who rode in a closed state coach, both wore ermine robes and were bare headed. The King smiled and saluted in reply to the salutations of the people.

CAMERA FIENDS ABROAD

When approaching the Cathedral Their Majesties faced half a dozen photographic machines and a score of cameras. The procession moved slowly. Handkerchiefs and flags were waved, but the crowd seemingly was impressed by the coming religious ceremony and the people generally were silent. Occasionally, however, there was an outbreak of cheers.

The Royal coach, drawn by four handsome bays, led by footmen, reached the Cathedral at 11.10 a.m. Their Majesties were received by the clergy.

When the Royal party entered all present in the Cathedral arose and the ceremonial began immediately. The completion of the crowning of King Haakon was communited by two army signallers, wig-wagging across the city, from the Cathedral to the hill batteries. The first gun, announcing the tidings, boomed forth instantly and then there was a roar of guns from the ships and land batteries, and the bells of all the city churches began ringing. These sounds carried the tidings over the city and harbor, and the echoes were carried up and down the Fiord. The crowning of Queen Maud commenced immediately afterwards. Her Majesty, who is of a naturally timid and retiring disposition, bravely faced the ceremony. She looked dainty and attractive.

Street Railway Sued for $5000.

Action has been taken against the Montreal Street Railway Company by Dr. L. B. Durocher and his wife for $5,000 for injuries suffered in an accident on Papineau avenue in January last. The plaintiffs, who were driving, were upset, and they attribute the accident to the condition of the rails which the defendant company were laying on the street. Both claim to have suffered serious injuries.

TWO MONTREAL MEN TO BE OFFICIALS TO-MORROW

The National Supporters Have Hope of Victory Because the Match is on St. Jean Baptiste Day—Officials That Have Been Chosen.

For the first time this season the Shamrocks and the Nationals will meet in a lacrosse match. Both the clubs have been looking forward to victory in this match so that when these two teams meet there is sure to be a very lively contest. Both clubs are very confident of winning, and the Nationals are doubly sure of winning, as it is on their own grounds, and for another reason as well. This eventful match happens to occur on St. John Baptiste day, and every French Canadian is inspired with new vigour thereby, and so the Nationals claim that the Shamrocks will have to be very lively if they wish to overcome them and keep up their present reputation.

Both teams are in the pink of condition and as they are eager for the fray the game will be a most interesting one. Hoobin will be missed from his usual position.

A referee has been chosen to the satisfaction of both the clubs and the choice has fallen on Mr. Arthur Hamilton, of Montreal, and he will be assisted by Roddy Finlayson, also of Montreal. Mr. Hamilton will also referee the intermediate match between Shamrock II and National II before the senior match.

The following is the line up of the senior teams:

National		Shamrock
Bellerose	Goal	Kavanagh
Jos. Valois	Point	Howard
Dicaire	Cover	McIlwaine
Cattarinich	Defence	Monday
Sauve	Defence	Kenny

CALUMETS WIN FROM CHICAGO

Capture First Game for Comiskey Cup—Many Montrealers Playing—Several Men Hurt.

Chicago, June 22.—A crowd of two thousand lacrosse enthusiasts saw the Calumets win the first of the series for the Charles A. Comisky Cup from the Chicago Club, at the West Side Ball Park. The game was a close one up to the last quarter, with the Chicago Club in the lead, but in the last session the Calumets found their feet and scored five goals, winning the game by 9 to 7.

The game was well played throughout. Referee Dan Whyte, of St. Paul, was very fair in his decisions, and insisted on clean playing. A. Rice and Peter Hill the Iroquois Indians playing with the Chicago team, were injured in the third quarter, the former losing a front tooth and the latter receiving a severe gash on the upper lip. J. C. Kearney, of the Chicago Club, was also injured in a struggle for the ball during the last quarter, and was compelled to leave the game for a time.

BOTH CLUBS SCORED RAPIDLY.

The face-off in the first quarter was called by Referee Whyte at 3.30. Morrison got the best of it, and passed to Kearney, who in turn shot to O'Malley for a goal shot that was not cleared. Then the Calumets repeated the fast work by getting their first goal in a minute after the second face off by a side shot by Millen. This scoring in the first minute of play made both teams realize that the game would be won only after a hard fight. The Chicagos made several passes at the goal during the next six minutes but each time Sadler, the star goalkeeper for the Calumets, cleared nicely.

At eight minutes Millen made another side shot from the ten-yard line that went through a number of the Chicago players into the net. Chicago tied the score at sixteen minutes when Morrison shot after a pass from Shaver. Sewell got another for the Calumets two minutes later, and then the Chicagos came back with their third score just before the whistle blew for the first quarter. Score, Chicago, 3; Calumet, 3.

In the second session neither team was successful in getting through the net, but in the third quarter O'Malley and Shaver scored for the Chicago team, and Millen put one through for the Calumets just before time was called. Score, Chicago, 5, Calumet 4.

The real slaughter came in the last quarter, when the Calumets seemed to get into a bunch of combination plays that the Chicago men could not break into. Sewell scored in the first minute and a half, and was followed one minute later by a clean shot by Morrison for the wearers of the green and white. This was followed by four straight goals for the Calumets, three of which were made by Sewell and one by Barrett. Just before time was called Chicago made its seventh score, when Shaver made a long shot that went straight as a die into the net.

The line-up:

Chicago (7)		Calumets (9)
Grigan	Goal	Sadler
Hill	Point	Donnelly
Irwin	Cover point	Anthony
Rice	First defence	Stevenson
Kelly	Second defence	Collins
Kearney	Third defence	Beaton
Morrison	Centre	Donnelly
Two Axes	Third attack	Rubridge
Gaisford	Second attack	West
O'Malley	First attack	Barrett
Kearney	Inside home	Sewell
Shaver	Outside home	Millen
Monkman	Field captain	Murry

Goals—O'Malley, 3; Millen, 2; Morrison, 2; Sewell, 5; Barrett, 2; Shaver, 2.

Referee—Dan Whyte.

CAPITALS READY FOR TECUMSEHS

There Seems to Be Some Dissention Among Players Over Coach Pete Green Leaving.

Special to the Montreal Star.

Ottawa, June 22. — Capitals put on their finishing touches last night, in preparation for the game against Tecumsehs at Toronto Island Saturday. Horace Gaul, who had his finger very badly split by a blow from Rapp's stick in practice the other night, will be unable to play. Neither Grimes nor Pat Murphy will accompany the team, but as they stand now, Capitals are stronger than they have been the past two years. The team will line up as follows: Goal, Hutton; point, Fagan; cover, Ralph; defence, Pringle, Shea and Starrs; centre, Ashfield; home, Eastwood, Fairburn, Houghan; inside, Ed. Murphy; outside, Allen. Capitals are very sanguine of their success against the western crowd. While it is not authoritative, there is a rumor of some dissension amongst the members of the executive over the withdrawal of Coach Pete Green from the Capitals. Two or three of the officials are alleged to be strong supporters of Green and others opposed to his retention, claiming the friction that existed between coach and players was not conducive to turning out a first class team. Beyond the rumor no facts can be obtained. It may be a repetition of the continuous breech in the Ottawa Hockey Club last winter, which it is alleged was the cause of the loss of the first game the Ottawas played against Wanderers in the Arena.

Barney Quinn, the well known defence player left last night for the west and will figure on one of the teams across the border in the Michigan Lake district, where lacrosse has been given a great impetus.

AN ELEVEN FOR THE PHILADELPHIA GAME

Toronto, Ont., June 22.—The committee appointed by the Canadian Cricket Association to select the international eleven this year will meet on June 25, at the King Edward Hotel.

The match will be played much earlier this year than last, July 9 and 10 being the dates decided upon. The games will be played at Philadelphia.

Last season the game was won by the Canadians by an innings.

A well known member of the C. C. A. stated this morning that he could not see how the team would be as strong this year. "We have lost two good slow bowlers in Dyson, who is now coaching Upper Canada College, and is therefore not eligible, and Cameron, who is over in Scotland. This will weaken the bowling greatly."

The places of these two men will be hard to fill. Bobbie Read will likely be given a chance. It is not known definitely whether the men from the East will accept positions on the eleven. They will all be asked, as in former years. Several new stars have loomed up, and will be considered when the list of names comes before the committee.

The merits of the following players will be taken into consideration when the team is being chosen. The majority of them have done fairly well this season:

D. W. Saunders, Toronto.
H. McGiverin, Ottawa.
H. Ackland, Ottawa.
E. Hill, Montreal.
H. Baber, Montreal.
— Evans, Mimico.
F. W. Terry, Mimico.
J. Hynes, Toronto.
E. Mossman, Toronto.
G. Butt, Oakville.
W. Wright, Toronto.
H. Hull, St. Simons.
E. McElroy, St. Simons.
R. Read, Toronto.
R. Sheather, Toronto.
H. Busto, Ottawa.
Whitaker, Mimico.

M.A.A.A. Weekly Races.

The regular weekly handicap of the M.A.A.A. were held last night with the following results:

220 yards run—1st, A. M. J. Griffiths, scratch; 2nd, D. B. Rennoldson, 18 yards; 3rd, Alex. Cameron, 14 yards. Also competed: J. C. Riddell, scratch, J. Speak, G. W. Scott, B. Harris, H. Bassett, W. Harris, E. J. Bradley, J. H. Gaylor. Time, .23 3-5 seconds.

One mile run—1st, J. N. McCuaig, 70 yards; 2nd, Peter Deer, scratch, 3rd, G. C. Palmer, scratch. Also competed: C. E. Stanley, Angus Cameron, Howard Mackay, W. M. Watson, J. H. McCrudden, A. M. J. Griffiths and R. W. Stevens. Time, 4 min., 40 3-5 sec.

120 yards hurdles—1st, E. B. Savage, scratch; 2nd, Alex. Cameron, 15 yards; 3rd, C. E. Stanley, 15 yards. Also competed: B. Harris. Time, 18 sec.

Throwing 56-lb. weight—1st, Arthur Smith, 10 inches; 2nd, Jos. Lauzon, 24 inches; 3rd, T. McBride, scratch. Also competed: H. Jackson. Distance, 27 feet 2½ inches.

ROYALS HAD VERY BAD LUCK YESTERDAY

They Lost in a Very Closely Contested Match Where One Hit Might Have Tied.

Special to the Montreal Star.

Baltimore, Md., June 22.—One hit stood between a shut out for the Royals and a tied score at least with the chance to win, and Joyce, who had already made three hits, was unable to do more than pop up an easy fly to short, and the game was over. Never had an inning opened with a fairer chance for the two pitiful little runs that stood between defeat and victory. It was the ninth, and G. Bannon, the first batter got four balls. Hartman smashed out a single to short centre. Joe Connor sacrificed. One hit would do the business and there were two chances. Dillon was put in to bat for Whalen, but Mowry caught his punt fly back of third by an almost phenomenal play. It was up to Joyce and Joyce failed. Nor was that the only similar chance the Royals had to win. In the first, third, fifth and eighth innings, the first batter got started and in the first, fifth and eighth, the first two got on bases before any one was out and yet not a run scored. In the first inning an attempt at a double steal picked off Joyce at third and two flies settled it. In the fifth a foul to third, a fly to right, and an infield out, left the two men who started in their tracks. In the eighth Wagner's attempted sacrifice only succeeded in forcing Joyce at third. Hueisman fouled to Byers and Massey forced Wagner. There were other fairly good chances, too. In the second Massey opened with a single, only to start a succession of plays at second base. Two forces and a steal. Runner got in on every inning but the fourth only for the hoped for run to "die a bornin." In the second inning Hartman, who began the game as Montreal's shortstop, questioned Umpire Kelly's correction on a called strike, and was ordered from the game and grounds. Weidman was put in at second, G. Bannon going to short. Both played very well. Whalen pitched a rattling good game and fewer hits were made off him than off Mason. But in the fifth inning, the Montreal support was bad, and in the third, two hits, with a sacrifice between, did the trick. Whalen himself let Hall get to second in the first by a bad throw to catch him napping at first and a moment later when Kelly hit to Hartman, Wagner let the throw get away from him. It was sheer hard luck, for Hall should have been caught. Instead the ball bounded away from Wagner so far that Hall scored. Mowry in the field was the star of the Orioles and robbed Montreal out of several apparently safe hits. Umpire Conner resigned from the staff after Wednesday's game, and Kelly umpired alone. Manager Bannon has filed a protest against Wednesday's game, as he alleges that Umpire Kelly said to a Montreal player after it was all over, "I knew Hall was out, but I hadn't the guts to say so." The team left last night for Newark.

COMMENTS HERE AND THERE.

In connection with the Suburban, the despatches comment on the absence of plunging and a contemporary asks:

Where are the plungers of yesterday?

Men who only a few years ago bet a small fortune on nearly every race, are now seldom heard of in public. It's a mighty tempting game, and there are but few who survive with fond fortune smiling upon them. Riley Grannan, who was in his prime in 1894, and won a fabulous sum on the dead heat between Henry of Navarre and Domino, is piking along on the Eastern tracks, backed by some one else's money. It was only two years ago that he accumulated $50,000 for Johnny Payne and George Bennett, but could not quit when luck was with him. He insisted on making big plays, and in three days' time lost all his winnings, and since then has never been able to hit his stride again.

When Grannan started on the turf, he was a bell boy at the St. Charles Hotel at New Orleans in 1889 and 1890. Bookmaker Botay, who afterward became the leading plunger of the West, was the first man to give Riley an insight to the racing game. He engaged Grannon, 'Bluff' Weck and Jim Cassidy to make his private form sheet. While with Botay he won a big stake on Samantha, a 40-to-1 shot. Then Ed. Applegate took him up, and from that time on he became one of the noted men of the turf. Mr. Applegate set Grannon up in a book, working on percentage, at Memphis, and he remained with him for several years. After trying his luck in the West he transferred his operations to the East, and it was a common occurrence for Grannan to bet as high as $20,000 a day on the metropolitan races. He has had his ups and downs for the past several years, but has never encountered one of his famous lucky streaks since he went broke the first time.

There may have been some of these plungers who relied purely on luck, but the continuously successful ones made racing a regular business and carefully reduced the odds against themselves as much as possible before plunging.

Such a one was Pittsburg Phil, whose right name was George E. Smith. He lived at Sewickley, Pa., and worked in the city of Pittsburg for a small salary. He helped support his mother and sisters, and started in betting on the baseball games in the poolrooms. He knew nothing about the horses and never gave them a thought until one day a fellow workman touted him on a horse and won him over to the bangtails. He started off playing them with so much luck and used such good judgment that everyone around the poolrooms would want to see what Smith was betting on before putting down a wager. It finally became necessary for the pool-room men to cut the odds every time Smith put up a bet, as the money would just roll in on any horse he selected to win. One day a big racing man dropped into Pittsburg to bet on a horse and heard of the wonderful youngster who had been picking so many winners. The man called Smith aside and told him that his place was on the race track.

Smith thought the matter over and asked his mother if she would allow him to attend the Kentucky Derby, which was near at hand. He went to the Churchill Downs and won enough money playing his own selections to buy his mother a home. He returned to his usual haunts, but only remained a few days. He gave up his job and went to Chicago. He remained in the Windy City three years and spent every morning at the race tracks watching the horses work. His careful attention to his calling made him a very successful bettor. He went East from Chicako and became one of the most noted plungers of the age. The only bad year he ever had was in 1896. That year he lost $80,000. When he died he was said to be worth over $1,000,000. He was one of the very few men who ever made big money plunging on the races. Some of the big bets won by Pittsburg Phil were $78,000 on King Cadmus, $44,000 on Parvenue, $36,000 on Sir Walter and $36,000 on Wernberg. It is said by those who knew him well that Pittsburg Phil handled over $100,000 a week, and the best part of the job was that he kept nearly all of it and died a rich man.

Probably the real reason that there are no plungers at present is that while at one time only a few made a business of it in America now hundreds do so.

Yale Beat Harvard.

Cambridge, Mass., June 22 — Through heavy batting and excellent pitching Yale defeated Harvard on Soldiers' Field, in the first game of their annual series. The Crimson would have been shut out, had not Madden, Yale's left fielder, allowed Currier's hard hit to go through him, with the result that the Crimson men made the circuit of the bases.

SAILORS PLAYED SOCCER.

A pleasant practice game of "socker" was played on Westmount Park between the sailors of SS. Canada and a mixed Westmount team. The sailors all put up a splendid game. The "tars," however, were somewhat at sea in stopping Westmount's combination, and had to acknowledge defeat by seven goals to nil. Whiteside 3, Macfarlane 2, Davies 1, Freedman 1, did the scoring.

WESTMOUNT'S PRACTICE.

West's will practice again this evening at 6.45, when all Seniors and Intermediates are requested to be on hand in anticipation of the Rosemount games.

TAKE A TRIP TO CARILLON.

The Westmount Club will have a trip by boat to Carillon on Dominion Day, Monday, July 2nd, as the guests of President Isidore Freedman.

The senior Point team which will play against the senior Outremonts on Beaver Field, will be as follows: Adams, Sutherland, Larrivier, Mackay, Greig, Ross, Wright, George, May, Munroe and D. Mackay. The second Point team will play the second Outremont team on Fletcher's Field, and will be as follows: Stewart, Greening, Gordon, McLaren, Watts, Samson, Miller, Hamilton, Watson, Johnson and Niddrie, with Henderson and C. Henderson as spares.

GREAT SUBURBAN AND OTHER RACES

Go-Between Won at Gravesend Although Only Third Choice—Results at Other Tracks.

New York, June 22. — Alexander Shield's 5-year-old Medler-Indigo gelding, Go Between, carrying 116 pounds, and third choice in the betting, at 6 to 1, won the $20,000 handicap at Sheepshead Bay. Go Between was but a short head in front of E. H. Hitchcock's 4-year-old Hamburg colt, Dandelion, which was equal favorite in the betting, with Cairngorm, at 3 to 1. Colonial Girl, backed down from 20 to 1 to 15 to 1, was third, three lengths behind the first two horses, and the same distance in front of nine others, in what was considered to be probably the worst field that ever started in the turf classic. The finish of the race was a terrific drive.

First race, steeplechase, short course—Golingny, 159, Ender, 13 to 5, won, Paul Jones, 144, Ray, 8 to 5, second, Kernel, 133, Stone, 6 to 1, third. Time, 4.07 2-5.

Second race, 6 furlongs, main course—Brookdale Nymph, 105, Radtke, 6 to 5, won, Tradition, 113, Miller, 4 to 5, second. Time, 1.23. Only two ran.

Third race, the Double Event, 5½ furlongs, Futurity course — Ballot, 122, Radtke, 5 to 1, won, Water Pearl, 129, Miller, 2 to 7, second, Ethon, 122, Sewell, 20 to 1, third. Time, 1.04.

Fourth race, the Suburban Handicap, 1¼ miles—Go Between, 116, Shaw, 6 to 1 and 2 to 1, won, Dandelion, 107, Miller, 3 to 1 and even, second, Colonial Girl, 113, Sewell, 15 to 1 and 6 to 1, third. Time, 2.05 1-5.

Fifth race, 5 furlongs, Futurity course—George S. Davis, 118, Horner, 3 to 1, won; Aalactnu, 118, Miller, 7 to 1, second; Yankee Girl, 115, Sewell, 8 to 1, third. Time, 1.00.

Sixth race, selling, mile and 1-16, on turf—Benevolent, 100, Miller, 5 to 2, won, Prince Frederick, 107, Martin, 5 to 1, second; Lancastrian, 105, Cherry, 5 to 1, third. Time, 1.48 2-5.

SOURIS ARE HARD AT WORK PREPARING

They are Putting on the Finishing Touches for Their Trip to Montreal Next Week.

Special to the Montreal Star.

Souris, Man., June 22.—The Souris Lacrosse Club, Manitoba champions and Minto Cup challengers, are putting on the finishing touches preparatory to their trip to Montreal. They leave here on Tuesday next and will arrive in Montreal on Thursday evening or Friday morning. They go to Winnipeg to-morrow, where they meet their old rivals, the Winnipegs, in their first league game for the Manitoba championship, where they will put forth every effort to retain their present standing and thus avoid a defeat before leaving on their Minto cup journey. They regret that, owing to unforeseen difficulties, they will be unable to play their strongest twelve in the game to-morrow, but still feel satisfied they can send down a winning team. From present reports it is likely a large number of western supporters will accompany the leaders on their eastern trip. A special sleeper has been chartered and everything possible will be done to land them in Montreal in the best possible condition. They will take along sixteen players and several of the executive. Invitations have been received from several eastern teams to play exhibition games but no decision has been arrived at yet as to whether they will accept or not.

DEVELOPMENTS AT 'ARCTIC' ENQUIRY

The Government Paid Fancy Prices for the Tobacco Ordered.

SOME FRICTION ON BOARD

Captain Bernier Admitted Having Some Diffrrences With Major Moodie During Voyage.

Special to The Montreal Star.

Ottawa, June 22. — There were at least three interesting developments at the enquiry into the supplies for the Arctic yesterday. The Conservatives scored a point by introducing expert evidence as to the price of tobacco, the effect of which will be to show that the Government paid double the wholesale price for the supply of tobacco purchased. Another expert was of the opinion that too much had been paid for the Bovril, and Mr. Bennett by persistent questioning, made it apparent that there was some friction between Major Moodie, who commanded the expedition, and Captain Bernier, the sailing master of the Arctic.

At the opening of the investigation Mr. Raymond, of the Queen's Hotel, Montreal, gave evidence as to the hotel bill of Mr. Boudreau, assistant accountant of the Department of Marine. He produced his books and stated that the reason why the account was contracted for a week before the date of payment was that the account had been sent on to the department. The explanation was deemed satisfactory.

SOME EXPERT TESTIMONY.

Mr. Wodenven, of the Beefine Company, Montreal, gave expert evidence as to the preparation and packing of the food. He said he had no opportunity given him to tender for the Arctic, but had he been asked to tender he would have quoted about $1 10 for the very best article he could put on the market. His goods were similar to Bovril.

The witness dipped the end of a lead pencil into an open tin of liquid matter labelled "Special Bovril," and told Mr. Bennett that it was not different from the standard article, except perhaps that it appeared to contain more salt. He would not be afraid to say that it was not superior to an article prepared by his company which was sold under the name of "Cordial" for $5 50 per dozen less than Beefine. It will be remembered that Mr. Mitchell, of the Bovril Company, said in his evidence that the Bovril supplied for the Arctic was more highly concentrated, and contained twenty per cent. more beef than the standard article. Mr. Wodenven said he could have supplied an article equal to that he had tasted for $1 10 per lb. The price paid was $1.65. Witness had not known this price was paid till a few weeks ago, when his brother had said to him: "Why is it that you, a good Liberal, cannot get any of these contracts?"

IS A GOOD LIBERAL.

In reply to Mr. Bennett, the witness said he was a Liberal. He had asked Senator Mackay to put him on the patronage list, but without success.

Mr. Bennett—"Mr. Mackay is not responsible for votes."

Mr. Bergeron—"I guess you are not dyed-in-the-wool enough."

CAPTAIN BERNIER AGAIN.

Capt. Bernier was called again and further examined in reference to occurrences on board the Arctic. He created amusement by describing how the liquor for the men was measured out during a week they were at work making a supply of fresh water ice. Every day he measured off one glass for each man, and put it into a pitcher. During the week five gallons were measured in this manner. The only champagne issued on his own responsibility was two bottles when the St. Lawrence river was reached. Major Moodie was not on board then, having left the Arctic at Chateau Bay. Capt. Bernier was certain that no boxes or barrels of furs had been transferred to the Neptune at Chateau Bay.

Mr. Bennett subjected Capt. Bernier to a close line of questioning as to whether there had been friction between himself and Major Moodie. He was successful in establishing the fact that there had been some differences of opinion. Mr. Carvall objected when Mr. Bennett asked the Captain if he would go north again under the same circumstances. The witness, however, volunteered the information that he had, since becoming a master seaman, never sailed a vessel subject to the orders of another man, and would not do so again. On New Year's Day, he had told Major Moodie that he was there to do his duty and would do it. Subsequent to that date, Major Moodie had issued some orders to his chief officer and mates. This had displeased him to some extent, but there had been no hard words about it.

Mr. Bergeron—"Did the Major ever punish you?"

Capt. Bernier—"No; I never did anything wrong."

Capt. Bernier was quite positive that Capt. Fortescue, the Government official who went to Chateau Bay on the Neptune, had not conducted an investigation before the departure of the Neptune for the North. "Something was going on in the cabin, but I could not go in," he said.

Captain Fortescue did not put any questions to him.

A mystery developed as to what had become of the mate's log book. Capt. Bernier said the last he saw of it was at Fullerton. He understood that it had been sent to the Department.

The witness said he had seen an article in a Quebec paper in which the statement was made that $25,000 worth of furs had been transferred to the Neptune at Chateau Bay. He had written to the paper disclaiming responsibility for the statement.

It developed that Capt. Bernier kept a private diary of the trip. He explained that he did this because he intends to write a story of his life at a later date. The captain was not disposed to put this diary in evidence. He assured the committee that it did not contain anything not already known.

To Mr. Carvell, the captain said the order not to trade with the natives for furs was not strictly observed. He did not think, however, that any of the ship's stores were traded for furs.

The witness told Mr. Northrup that the supply of Bovril taken was not too large. He could not say what had become of the 2600 pounds of Pemmican used during the trip. Major Moodie was in charge of it. This concluded the examination of Capt. Bernier, and he was discharged.

MAJOR MOODIE ALSO.

Major Moodie, who was called again, said the mate's log book was still in the possession of that officer when he left the vessel at Chateau Bay. He understood that it had been brought to Sorel and handed over to the department. Major Moodie said there is nothing in the missing book which would throw any light on the supplies furnished the Arctic.

THE PRICE OF TOBACCO.

Mr. W. F. Cockshutt, M.P., for Brantford gave expert evidence as to the price of tobacco. He said that the club brand of T & B tobacco during the summer of 1904 was selling to retailers at 67 cents per pound. The retail price was 75 cents a pound. These prices included the excise duty. Mr. Cockshutt was not questioned further but the importance of his evidence can be appreciated when it is explained that the T & B tobacco supplied the Arctic cost the Government 95 cents a pound plus the excise tax or $1.34 a pound, approximately one hundred per cent. more than the prices paid by retail dealers.

Canadian Artists Abroad.

Canadian Associated Press.

London, June 22. — The following French-Canadians are exhibiting at the Paris salon:—Suzor Cote, Clarence Gagnon, Miss Plimsoll, Alfred Laliberte, and Henri Herbert, the two latter being sculpture exhibits. W. H. Ingram has an interesting article in Canada on a visit to the Paris studio of George Hill, who is at present engaged upon the soldiers' monument to be placed on Dominion Square, Montreal. The monument shows a Strathcona scout just dismounted, examining the trail of the Boers. While doing so a shell from a hidden battery comes his way. The statue shows his horse rearing in fright, and the young Canadian quickly checking it, and at the same time gazing steadily in the direction from which the shot had emanated.

BATTERY INSPECTION.

Field Battery Executed Manoeuvres With Accuracy and Dash.

The annual inspection of the Third Battery of Field Artillery took place yesterday at St. Helen's Island, Major Leslie, of the Royal Canadian Horse Artillery, Kingston, acting as inspecting officer.

The battery first went through the field manoeuvres, executing each movement as the inspecting officer ordered, and surpassing themselves in accuracy and dressing. Major Leslie even gave some commands which the battery had not practised at all, but it was all one to them, and they quite eclipsed themselves going into and coming out of action. In gun laying, direct and indirect fire the men showed up better than they have since they came into camp.

The inspection ended by firing twenty rounds of blank ammunition, after which the whole battery with its waggons and transport marched to the boat, where they embarked for the city.

All around and considering the circumstances under which the officer commanding had to work, Captain Dodds may well feel satisfied with the work done by the men during their term of training.

THE HEART OF THE CITY.

In another column of to-day's Star will be found a description of the condition of the streets of Montreal, in the district from Victoria Square to St. Lawrence street, and from St. Catherine street to St. James street. This is the veritable heart of the city. If there is any one district which should be kept clean and in good repair this is it.

What do we find?

A state of affairs which would disgrace a country village. Work is done—that is employment is given to men who potter about on the streets—but a condition of absolute filth prevails. Mud is scraped up in piles and left until teams spread it over the surface, it dries up and is blown about as dust again.

The description of the dirty ways of the Chicago stock yards and packing houses was revolting. What must we think of the way Montreal is treated officially? Meats and other provisions might be as clean and pure as the skill of man could make them. Yet when they are put into the shops for sale there is blown in upon them the pulverized dirt from upset garbage cans, the reeking filth of foul back yards, the diseased germs bred and accumulated in the streets since last year.

We look at our death rate and sorrow for the slaughter of babes going on. We talk about pure milk for infants, and demand clean bread from the bakeries. Then we pollute them both.

We marvel at the mortality, and are blind to the cause. It is animal and vegetable rottenness, the discharges of men and beasts, the foul, festering, evil-smelling heaps left on the streets, dried by a scorching sun, ground and pulverized by the wheels of teams and hoofs of animals, hurled into milk, over bread, peppering meat, polluting all kinds of provisions. Here is the reason of our high mortality when warm weather comes.

We have this condition with us now, gentlemen of the City Council, on the eve of your summer vacation. It is not necessary to look in the by-ways, back yards and remote alleys. It stares you in the face, right in the very heart of the city, the proud Metropolis of vigorous young Canada.

THE USURY BILL.

When Premier Gouin, of Quebec, set the machinery in motion which resulted in the introduction of a usury bill at Ottawa, there was a Minister of Justice in office who had first-hand knowledge of conditions surrounding the question. Mr. Fitzpatrick, we are led to believe, was determined to push through such a measure, despite the opposition of certain capitalistic influences that would surreptitiously kill the bill. Mr. Aylesworth who now has the matter in hand, appears to be pursuing a policy of postponement for the alleged purpose of "further consideration." It is much easier for the opponents of the usury bill to reach the ear of the Banking and Commerce Committee and of the Minister of Justice than for the victims of the usurer to present their story of extortion and injustice. But the bill which Mr. Fitzpatrick fathered—based on the featured precedents of English legislation—will undoubtedly have the effect of safeguarding and ensuring the application of the greatest good to the greatest number. It would not create any disability that could not be offset over and over again by the benefit to be reaped by the victims of the loan sharks.

It is interesting, as we noted the other day, to observe the emboldened attitude of Montreal usurers in the face of what is going on at Ottawa. When the Canadian Finance case was adjudicated by the courts, the other Montreal usurers, for a while, carried on operations more or less under cover. When the legislation was introduced at Ottawa, there were indications that preparations were being made for "heavy weather." But the dilatory tactics pursued at the Capital have not gone unnoticed by these parasite financiers. It may only be a coincidence—but it is also a fact—that within the past ten days unusual activity has prevailed in Montreal's usury circles. Manitrap circulars are going through the mails, lines of "promotion" are being discussed by the Shylocks for an international campaign as affecting Canada and the United States. One prominent usurer makes the statement that "I have offices in the 53 principal cities of this country, as on the reverse side, and can accommodate patrons going from one part of the country to another."

Now, who has this activity in the thumbscrew shops at this particular juncture? Why this campaign under the very nose of a Parliament considering legislation that would put a stop to such malpractices.

Have the usurers "heard" anything? Or have they simply relied on the fact that the sentinels at Ottawa are asleep at their posts?

TAXATION AND REPRESENTATION.

The subject of municipal debt is dealt with by Sir Robert Giffen in the Nineteenth Century, and a note of warning sounded. He, naturally, had before his eyes conditions in Great Britain, and his suggested remedies chiefly have an equally local application. The warning, however, might afford food for thought over a far wider area. He thinks that the sanction of the Local Government Board to the borrowing of local authorities should be only given with the consent of the Treasury. With us the fact that legislative sanction to municipal indebtedness was necessary has not always proved a public safeguard. His suggestion that a limit to maximum borrowing might be narrowed to advantage has already been considered and acted upon here. The real trouble with us—at least in the past—was precisely that which Sir Robert finds prevailing in the Old Country. People become excited over a national debt which amounts to no more than a half year's income of the taxpayers whose property is liable; but they complacently, or with the mildest suggestion of protest, allow borrowing in local affairs to a relatively much greater amount.

Another point he deals with, and one which we may have to give some thought to eventually, is the demand for special representation among local authorities of the largest ratepayers in each district. The amount of holdings gives proportionate voting power in all incorporated companies and commercial enterprises. In municipal government, representation is divorced from taxation, and the largest ratepayer has but one vote, no more potent than that of the smallest. Indeed, some of the largest, such as railway and gas companies, are not directly represented at all. The claim is set up that it is the money of the larger ratepayers, chiefly, which the ratepayers generally, without real interest, are spending.

Sir Robert Giffen's suggestions are a departure from the principle "vox populi vox dei," such as is not immediately likely to come within the range of practical politics. Indeed, one London paper, which thoroughly agrees with him in the views expressed, somewhat bitterly comments that: "Sir Robert Giffen's proposal is so obviously just and fair that it will not have the smallest chance of being accepted."

"FREE TRADE IN STAMPS."

The Toronto papers have started an agitation for "free trade in postage stamps." This does not mean that they desire to use American stamps on their letters, but that they favor a repeal of the present regulations which only permits a man with a Government license to sell postage stamps. At present, certain persons are licensed to retail stamps, and they are paid a commission of one per cent. on their sales. Other people, however,—in Toronto, at all events—sell stamps without a commission for the convenience of their customers; and the Toronto officials propose to prosecute them. Hence these tears!

It does seem as if we ought to allow any man who will take the trouble of retailing postage stamps for nothing to do so. It is a good idea to have certain fixed places where they will be always on sale, and to pay these places by commission or in some other way for their trouble. But why should it be made a crime for other willing volunteers to oblige the public? If it be said that this will tend to so reduce the profits of the regular vendors that they will no longer work on commission, then they might be paid a small salary dependent upon the population which they presumably supply. This salary could be put at a rate equal to their present earnings, and then the country would neither gain nor lose by the change. We would have the same number of stamps sold as formerly, and we would pay the same amount for the service; but some of the vendors would be volunteers who would work for nothing.

In fact, the country could well afford to pay the petty commission to anybody who will bother with the retail sale.

THE RESULT IN NOVA SCOTIA.

The result of the House of Assembly elections in Nova Scotia, as was expected, leaves the Liberal Government with a large majority, but the closeness of the fight in some of the counties, and the Opposition gains do not show that Liberalism continues to have such a firm hold on the province as previous elections indicated. The short time between the dissolution of the House and election day hardly gave time enough to even get candidates in the field, and in some instances the Opposition tickets looked like forlorn hopes. Yet the fight proved a spirited one all along the line. It was found advisable to summon members of Parliament and Senators from Ottawa to take part in the struggle, thus giving the local government the prestige and influence of the federal powers. On the other hand, it was unhesitatingly declared by the Liberal press that the Opposition was "a party without policy or leader." It was certainly true that no very definite policy was promulgated, and the Opposition did not even succeed in getting candidates out in all the counties. In the face of all this, two members of the Government were defeated, and the majority in the House reduced. The popular vote, however, points the more significant warning, assuming that the figures at hand are approximately correct. In the previous election, of 60,298 votes polled the Government got 35,367, and the Opposition 24,931, giving the administration a majority of 10,436 of the popular vote. In the election just held, with larger lists, only 59,699 voters went to the polls. The Government received 32,463 votes and the Opposition 27,236, reducing the Government's majority of the popular vote to 5,227, or about half what it was four years before. The "solidity of the South" is being impaired. To satisfy the cry of the Government press that the Opposition had no leader, the people have elected two. Mr. Tanner, the present leader, and Mr. Wilcox, a former leader.

The convention of the settlers at Nominingue opened yesterday under the brightest auspices. Mgr. Sbarretti, Premier Gouin and many other leading men honored the occasion with their presence, and contributed eloquent addresses to the enrichment of the celebration. Nothing but the highest respect can be felt for these settlers who have carried the flag of progress into the north country, and endured the sufferings of the pioneers with all the heroism of a race which produced the voyageur and the Jesuit missionary. The country they have undertaken to conquer for civilization is one of the fairest and most promising in the Dominion, and every citizen of this province, and, indeed, of the whole country, will wish them success.

British Trade Agent for Canada.

Special to The Montreal Star.

Ottawa, Ont., June 22.—Lord Elgin, Secretary of State for the Colonies, states that Richard Grigg, of the Middleborough Chamber of Commerce, is being sent to Canada by the Imperial Board of Trade on a special mission to promote the interests of British trade in the country. Mr. Grigg will select suitable persons in the chief Canadian business centres to act as local correspondents of the British Board of Trade.

THIS DATE 30 YEARS AGO.

June 22, 1876.

The Late Hon. Jos. Cauchon

The Lieutenant Governor of Quebec gave a dinner party last evening at Spencerwood, to which Hon. Premier Mackenzie and the Hon. Messrs. Cauchon and Geoffrion were invited.

The late Hon. R. E. Caron, LL. D., Q.C., who died in December of 1876, was Lieutenant-Governor at the time mentioned above. The Premier and his two colleagues also joined the silent majority some years ago. The Hon. Mr. Cauchon was subsequently Lieutenant-Governor of Manitoba for a term before his demise, and Hon. Mr. Geoffrion served for a short time as a judge of the Superior Court before he was called away.

The work on the North Shore Railway is not progressing very satisfactorily, and the Boucherville Cabinet's attention has repeatedly been drawn to the matter. Mr. T. McGreevy, the contractor for this important link of the great provincial trunk route, has had many favors shown him, and it is about time he was made to live up to his contract.

THE late Hon. Thomas McGreevy was well known all over the Dominion as a very shrewd politician and sharp after fat contracts. The Montreal, Ottawa and Occidental Railway, or North Shore line, was a very paying contract for him and a great many others. The line is now a part of the C.P.R. system. Mr. McGreevy was first elected to the House of Commons in 1867, and sat there up to the nineties, when, on certain charges brought against him and others by a member of the House, he was expelled.

Captain Dutton, of the Sardinian, corrects the statement of a morning contemporary concerning the colliding of his ship with an iceberg on the last trip. He points out that the berg was met with in the Atlantic and not in the Gulf, that on sighting the berg the alarm was sounded and the engines put going astern full speed, the berg being struck at the rate of one knot an hour.

THE late Captain Joseph Dutton, who died many years ago, was a cautious and skilful navigator, and was thoroughly acquainted with all the dangers attending the meeting of icebergs in the Gulf or Atlantic. He was in the service of the Allan Steamship Company the major part of his life, and performed his responsible duties with every satisfaction.

Mr. M. P. Ryan has been appointed joint commissioner of law and insurance stamps by the provincial Government at Quebec. He will take up his duties immediately.

THE late Mr. Michael Patrick Ryan, who passed away in the nineties, was elected to the House of Commons in 1868, to succeed the late Hon. Thomas D'Arcy McGee as the representative of Montreal Centre. He sat for several Parliaments, meeting defeat in 1875 at the hands of the late Mr. B. Devlin, Q.C. At the general elections of 1878 he defeated Devlin by a large majority. He retired from public life in 1882 on being appointed collector of customs for the port of Montreal.

The King of Hanover and his family arrived in London, England, yesterday, apparently with the intention of making England their permanent home. The King lost his sight many years ago, and now has lost his kingdom through the machinations of the Prussian Chancellor.

THE late King of Hanover was first cousin of Queen Victoria and an English prince. In the peerage he held the titles of Duke of Cumberland and Teviotdale, and Earl of Armagh, and was a Knight of the Garter. He refused to acknowledge the Emperor William I. as German Emperor, and Hanover, a vassal state, as Saxony, Bavaria, etc., had done after the Franco-Prussian war of 1870. The old king was possessed of great personal property, which he brought to England from under the nose of Bismarck, the Chancellor. The present Duke of Cumberland is a brother-in-law of Queen Alexandra and King Edward VII. and he also refuses to recognize Emperor William II.

THE MOTORIST.

When forth mid sylvan scenes he goes
A-speeding his machine,
He looks ahead and never knows
The beauties of the scene.
If clear and sunny be the day
He vows that he is glad—
But more than this he will not say—
He simply drives like mad.

And even when he stops awhile,
The green field spreading fair,
The blossom with its winsome smile,
Claim nothing of his care.
The sights which other men might please
He turns not to admire.
He has no mind for things like these—
He has to mend a tire.

PREVOST'S TRIAL FOR PERJURY OPENS

Former Civic Inspector is Accused of False Swearing Before Civic Committee.

FORTY WITNESSES CALLED

Ald. Nault, Whom Prevost Blamed for Dismissal, Denies That He Was Prejudiced.

Alphonse Prevost, former Inspector of the city water department, was before Judge Choquet yesterday to answer to a charge of perjury. It is alleged that Prevost committed perjury before the Water Committee in the recent investigation into his dismissal for neglecting his duty as inspector.

The witnesses examined for the prosecution were: Frank Dowd, secretary of the Water Committee; Ald. Clearihue, chairman; Ald. Martin and Ald. Nault, members of the Water Committee, and Felix Archambault, one of the five men who made the charge of neglect of duty against Prevost.

In reply to Mr. N. K. Laflamme, who represented Prevost, Frank Dowd and Ald. Clearihue testified that Prevost was refused the privilege of being represented by counsel at the investigation before the committee, and although he had offered to pay for a stenographer to take the evidence, the committee would not allow one to be present.

Ald. Clearihue stated that he thought that Prevost had given his evidence under oath at the investigation, but he was not prepared to swear that he had.

Ald. Martin said that he was not interested in the dismissal of Prevost, adding that his brother was appointed as soon as Prevost was dismissed.

ALD. NAULT'S EVIDENCE.

Ald. Nault stated that he voted for Prevost's dismissal but that he was not prejudiced against him. He denied that he had threatened before he was elected to have Prevost discharged if he did not work for him in his election in St. Joseph's Ward. He also denied the charge that he offered Prevost $2,000 to get ex-Ald. Sauvageau to retire from the contest.

Felix Archambault was asked if he had said that he would cut the head off a Frenchman to get even with an Irishman, and that it was to get even with Malone, Nault's opponent, that he had made the charge of neglect of duty against Prevost. He denied that he had made such a statement, but would not swear that he did not.

About forty witnesses are to be heard in the case.

Mr. Morrice's Art.

The Paris correspondent of the New York Evening Post writes on "The Paris Salons," dealing especially with a retrospective show of the Societe Nationale des Beaux Arts, covering a period of sixteen years. Of the work of Mr. Morrice (a son of Mr. David Morrice, of Montreal), he says:

"Canadian Landscapes. — It is a pleasure, in the midst of so much that is perfunctory or lifeless, reminiscent or imitative, to come upon the work of Mr. Morrice, who has had the courage to seek new motives under new conditions, and to study them for himself under these conditions, instead of adapting them to a well-worn recipe. He has exchanged the boulevards of Paris and the French seashore for Canada and its snow-covered fields and towns and shops; and he has shown that he can feel no less the beauty there is in the white lonely road under an incredibly blue sky, or the square wooden base of a house perched primly in the cold white wintry landscape, or the little row of houses so like a French village, facing the snowy street. There is nothing of the realistic rendering of snow and ice that astonishes one in M. Thaulow's versions of the Scandinavian winter; Mr. Morrice gives rather the aspect, the feeling of this frozen landscape, with its pure cold color, its cold white light, the subtle gradations and effects in its vast expanse of white broken by the swift sleigh, or by the little house, unlovely in itself, but of such pictorial value."

Fresh Air Fund

THE RIVER BANK HOME.

The Home on the Richelieu River, at Chambly, is being prepared for the opening on or about June 22nd. Applications for admission may be made to the Committee at the Star Office, 165 St. James Street, on the afternoons of Monday, Tuesday and Wednesday of each week during the season, between the hours of two and four o'clock. Every application must be accompanied with a certificate from the clergyman to whose church the applicant belongs. Blank certificate forms may be obtained from the Secretary, at the Star Office, St. James Street.

The Fresh Air Fund is administered by a volunteer committee of men and women, including the city missionaries, interested in the welfare and suffering of children. It is established to take away from the city, for a longer or shorter period, children and mothers whom the visiting doctor advises to send. It is:

1st—For the sick children of the poor.
2nd—For the tired working mothers with children.
3rd—For children threatened with sickness, and whose parents have not the means to enable them to leave the city.

Five dollars will send a mother and sick child to the country for a fortnight, and larger amounts will do proportionate good. Contributions may be sent to the Star Office, 165 St. James Street; Star Branch Office, corner Peel and St. Catherine Streets, or to Charles M. Alexander, Esq., Hon. PREMIER ATTACKED BY MR. BOURASSA

Member States That Lord's Day Bill is "Bad Tory" Measure.

AMENDMENTS SUGGESTED

Several Clauses Advanced, But the More Difficult Ones Stand Over —Kennedy and Lavergne.

Special Staff Correspondence

Press Gallery, House of Commons, Ottawa, June 22.—The entire afternoon of yesterday was devoted to the Sunday Observance bill, and although considerable progress was made it was largely work of a negative character, consisting of the discussion and rejection of amendments to various clauses of the measure. The feature of the afternoon was the clash between the Prime Minister, and Mr. Bourassa, the Independent Liberal of Labelle. Seldom has a leader had such plain words addressed to him as were addressed by Mr. Bourassa to Sir Wilfrid; and they were words of absolute frankness and were attended with considerable heat.

When the House resumed at 3 p.m. Mr. Pringle, Conservative of Cornwall, proposed that it be left to the employees to say whether they should have the twenty-four hours rest that the bill proposes to give them because of Sunday labor; but this was objected to on principle. It would enable the men to take themselves outside the operation of a public law by what in effect was a private contract.

Clause 4 respecting this period of rest for Sunday workers was allowed to stand and the committee passed on to the clause prohibiting games and performances where admission fee is charged.

MR. RIVET'S AMENDMENT.

Mr. Rivet, Liberal of Hochelaga, moved an amendment to the effect that these games should be prohibited unless specially authorized by provincial law or municipal regulation.

Mr. Taylor, Conservative of Leeds, went to the other extreme, moving that the clause be so amended as to prohibit practically all games and contests even when not carried on for gain or any prize or award.

That, said Mr. Lavergne, Liberal of Montmagny, might stop a game of cards in a private house; in fact it might interfere with the first citizen of the land.

This reference to the Prime Minister caused loud laughter from both sides, but Sir Wilfrid did not join in it.

Mr. Taylor here told of a trip made to Montreal years ago to purchase goods from a Hebrew who would not do business on Sunday. That was before the railway was built in 1856, "and," said he, "I was fifty years old then."

Loud laughter.

Mr. Taylor—"Let me speak again. I was then fifteen."

In regard to parks, Mr. Verville, Laborite, of Maisonneuve, asked if it was proper to enter a park on Sunday at which no fee was charged what made it wrong to go where there was a charge?

His question was not answered.

WESTERN LIBERAL ATTACKS LAVERGNE.

And now Mr. Kennedy, Liberal, of Westminster, took the floor and addressed a few words to Mr. Lavergne, of Montmagny, whom he charged with treating this serious question in a most flippant manner. That young gentleman, said Mr. Kennedy, might be wise in his own opinion, but he had no right to poke fun at the Lord's Day Alliance, whose members were as good as himself and many of them better.

Mr. Kennedy then quoted from a pastoral letter issued by Mgr. Bruchesi, Archbishop of Montreal, condemning public entertainments, horse racing, etc., on the Sabbath.

Mr. Kennedy hoped the member for Montmagny would respect that opinion.

Mr. Lavergne referred to the position of the Lord's Day Alliance friends as that of hypocrites. He would not be ruled by the opinion of those men, and he held that he had a right to discuss the bill before the House. The quotation from the pastoral letter did not apply to him, because he did not live in the archdiocese of Montreal, but Mr. Kennedy seemed to be a follower of His Grace.

Mr. Bourassa, Liberal, of Labelle, supported the amendment of Mr. Rivet. Let the province or the municipality regulate Sunday entertainments.

And now the Prime Minister spoke. All this, said he, showed how difficult it was in this country to secure a common view respecting these matters. The bill had been submitted to church authorities, both Protestant and Roman Catholic, and they had approved of it. In such a matter legislation was only possible by both elements of the population being willing to give and take. They could not have one law for Ontario and another for Quebec; there must be a common standard for all Canada, and that was what the bill proposed.

ONCE BARRETTI, NOW SHEARER

Last session, when the autonomy bills were under debate, the cry against him (Sir Wilfrid) was Barretti; now, with the Sunday bill before them, the cry of Shearer was raised.

They should try to arrive as soon as possible on some common ground. No one objected to the general principle of the bill, but when they came to discuss the details of the bill each seemed to desire the law for his neighbor but not for himself.

Mr. Rivet wanted his way, and Mr. Taylor wanted his way, but each should be willing to make some sacrifice in order to secure a common law.

Ontario must give up something, Quebec must give up something, and so have a law applicable to all.

At the Montreal park referred to in the debate there might be nothing wrong, but its performers were entitled to a day of rest as well as other citizens of the country.

Mr. Piche—"Have those performers a right to work and live?"

The Prime Minister—"Yes."

Mr. Piche—"Well, the only way they can do so is by performing on the Sunday."

ATTACKS HIS LEADER.

Then came Mr. Bourassa. The Prime Minister spoke of a common standard, but why was not that idea carried out last session? It was possible to have a common standard in some things, but in other things that was not possible. He did not wish to impose his views upon Ontario, nor did he wish his friends in Ontario to impose their views on him. If Mr. Taylor's people wanted his amendment let them have it, but in Quebec let them have equal liberty and answer the question for themselves. It might be thought that the Prime Minister was all powerful, but he could not do what he was attempting. He would fail as other and even greater men had failed.

The bill was a denial of true liberal principles, which had been fought for years ago in England. It was the most Tory bill ever before the Canadian Commons, and he was sorry to see the name of Laurier coupled with it.

To resist a leader when he was wrong was proof of admiration for him, and he for one would not bow to a leader if it meant renunciation of principle. He had not used the cry of Shearer. The Government were responsible for the bill and they could not hide behind others.

The bill was useless, and it was a crime to try to enact such legislation, which would only tend to sow the seeds of strife. The Prime Minister might triumph for a time by the force of his prestige, but he would leave to his political heirs the crop he had sown.

As for himself, said Mr. Bourassa, he would place principle before party.

RIVET'S AMENDMENT LOST.

Mr. Rivets' amendment was then put and declared lost, and a like fate overtook the amendment presented by Mr. Taylor.

Clause 5, respecting games, was then carried.

The clause prohibiting Sunday excursions was carried, but that respecting pleasure grounds where a fee is charged was allowed to stand.

The clause prohibiting the advertising Sunday performances was also carried.

It was now six o'clock. The Committee rose and reported progress.

The bill will not be taken up again until Monday.

NO BASIS YET FIXED.

Hon. R. W. Scott Says No Agreement With Ambassador.

Special to The Montreal Star.

Ottawa, June 22.—In the Senate on Thursday, Senator Lougheed asked if it was true, as stated in a cable report that the British Ambassador at Washington, Sir Mortimer Dura d, had agreed with the United States State Secretary Mr Root, as to the basis on which negotiations should be conducted for the settlement of fishery and other questions in dispute between Canada and the United States.

Hon. Mr. Scott said Ambassador Durand would make no arrangements for the settlement of disputes without the consent of Canada. Nothing had been done so far.

A bill respecting La Banque Provinciale du Canada was given its third reading after it had been amended to allow the use of the English name, Provincial Bank.

Mr. Kerr, of Toronto, opposed the third reading of a bill respecting marks on gold and silver on the ground that the promoters had taken a year to compile the most extreme features of similar acts all over the world. Time should be given for consideration of such an act.

The measure was endorsed by Hon. Mr. Scott, Senator Ferguson and Senator Gibson. It was given a third reading.

The following bills were read the third time: To incorporate the Western Trust Co., to incorporate the Pacific Marine Insurance Co. for the relief of W. E. Ogden; respecting the currency.

The Senate spent many hours going carefully over the lengthy act for the consolidating of the Yukon ordnances into statutes and for the consolidation of the mining regulations. It assed with some amendments.

TIMBER LIMITS SOLD.

Several Hundred Square Miles of Province's Resources Parted With.

Special to The Montreal Star.

Quebec, June 22. The annual Government sale of Crown timber lands took place at the Parliament House. Bidding was at first very slow, and scores of lots were put up and withdrawn. Later on a few of them were called for and put up again at the upset price, selling at a good advance thereon, after lively competition.

Mr. Boyle, of Ottawa, bought six lots on the Upper Gatineau, fifty miles, at $220 per mile; 35 at $265; 50 miles at $245; 50 miles at $235; 70 miles at $225; 50 miles at $230.

Mr Paradis bought 18 miles near Lake St John at $550 per mile. Mr Lefaivre 5 miles at $410 and 48 miles in Gaspe at $320.

Mr. Dupuis bought 43 miles at Gaspe at $320 per mile; Baron Lepine, 31-2 miles in Bonaventure at $325 per mile, and Maurice Quinn 21-2 miles at $500 per mile, 11-2 at $400 per mile, and 5 miles at $1,000 per mile, all in Rimouski and Gaspe Peninsula.

Messrs. Lefebvre and Mahon got two blocks in Gaspe West, on the Ste Anne River, one of 48 miles, at $320 a mile, and one of 43½ miles at $325, while Mr. Louis Cabot, of Boston, got 39 miles on the Grand River, Gaspe East, at $300 per mile.

Mr. John Rowley got 850 square miles at Sault au Cochon, at $155 per square mile, while Mr. Frank Bignell, in trust, purchased 60 miles at Rousseau and May Island, for $265 a mile.

After Mr. L. A. Cannon had entered a protest on behalf of the Federal Government against the sale of water powers, Hon. Adelard Turgeon declared the province was within its rights, and in the face of the protest awarded the power at Manicouagan Falls, to Mr. A. E. Delorimier, K.C., Montreal, for an annual rental of $200; Lot No. 9 Manouan Falls, to Senator Choquette, at a yearly rental of $505, and Lot No. 15, River Sault au Cochon Falls, to Mr. John Rowley for $505 rent a year.

NEIL BRODIE IS AGAIN IN TROUBLE

Arraigned Before Recorder for Not Supplying His Houses With Conveniences.

Neil Brodie was again before the Recorder yesterday for violating the health by-laws and keeping his houses in an uncleanly condition.

On the present occasion it is as proprietor that Mr. Brodie is arraigned. He owns houses on Murray and William streets which are rented for two dwellings but which have closets only in the lower storey. Mr. Brodie, in spite of his ownership of much property, has been arraigned previously for keeping his own home in a filthy condition, thinks his tenants can also get along without conveniences and therefore has them sign agreements by which the residents of the upper dwellings are to use the closets in the lower storey.

This, however, does not meet the requirements of the city health authorities, who have a strange liking for cleanliness and sanitation, and Mr. J. F. Quinn, assistant superintendent of the Health Department, therefore had Mr. Brodie arraigned.

The Recorder, too, took a stricter view of the situation than had occurred to the proprietor.

"I will give you ten days," he said to Mr. Brodie, "to get closets in the upper dwellings, and if you do not do it, I will fine you $40 or two months."

Mr. Brodie pleaded that it was not his fault, but that the tenants were unwilling to have the work done.

The Recorder was inexorable. "It is not the tenants' fault," said he. "You are the proprietor and can have it done."

And the ten days' limit remains.

Robbed Thrice in Three Months.

Mr. A. Gravel, residing at No. 47 Marie Anne street, complained yesterday to Chief Campeau that since the middle of the month of April his dwelling had been visited three times by robbers. He believes that the same robbers operated each time, as the same methods were employed on each occasion.

On the first occasion, in the middle of the month of April, the burglars managed to get away with some meat and a quantity of wood and coal. The second time, in May, the thieves got nothing, but on the third occasion, last Saturday, they managed to get away with some twenty odd pounds of meat, besides a lot of vegetables and fruits. The robbers must have been familiar with the place, as they knew exactly where to find the different things stolen.

Longshoremen Will Celebrate.

The longshoremen will discuss the Anti-Usury Bill, which was introduced by the former Minister of Justice, Hon. Charles Fitzpatrick, at a special meeting, which has been summoned for Sunday afternoon. All arrangements will be made for the first annual picnic of the organization, which is to be held on Labor Day. It is the intention to bring on Charles Barter, international secretary-treasurer, of Detroit, for the occasion. Mr. William Mahon, general president of the Amalgamated Association of Street Railway Employes, of Detroit, will also be invited.

Awarded $600 for Thumb.

L. Duncan has been awarded $600 by Mr. Justice Doherty in his suit against the Ames Holden Company for $2,000 for the loss of part of his left thumb by a sole-cutting machine while in the defendants' employ. The court decided that the machine had not been in proper condition, but that the plaintiff was also somewhat to blame for the occurrence.

PECULIAR CASE OF DEFORMITY

Charles Boucher, St. Rosaire Farmer, Has Right Ear Nine Inches in Circumference.

A very peculiar case of deformity has recently been submitted to the consideration of the Medical Society of Montreal. It is that of a man named Charles Boucher, a farmer of St. Rosaire, whose right ear measures nine inches in circumference, and from each side of whose face hang fleshy protuberances about a foot and a half in length. He is 19 years of age and has been so deformed for years, these peculiar developments having put in their appearance shortly after his birth and gradually grown to their present size. He came to Montreal in the hope of having them removed by the surgeons here, and it is said that he will shortly be operated on. The case has attracted a good deal of attention among the practitioners of the city, and the result of the operation is looked forward to with curiosity. These growths are said to be a variety of tumor.

Court Maintained the Will.

Judgment has been rendered by Mr. Justice Forbin in the case of Dame D. Mondeau dit Desormeau, against her brother, Norbert Mondeau dit Desormeau, to break the will of their father, according to which the defendant had been left universal legatee. It was alleged that the testator had not been of sound mind at the time of making the will. The action was dismissed.

Annexation of Sault Au Recollet.

Ald. Laralee and Houle attended a meeting at Sault aux Recollet yesterday and explained to residents of that place the advantages which would result if the Sault threw in its lot with the city. Nothing definite was done, and another meeting will be held, when it is expected that a vote will be cast by the village in favor of becoming part of Montreal.

At the annual meeting yesterday of the Alliance National Francais Judge Robidoux was re-elected president; Dean Walton of the McGill Law Faculty; C. A. Choquillou, and Gonzalve Desaulniers, K.C., were named vice-presidents; Mr. J. B. de Crevecoeur, librarian of the Fraser Institute, was re-elected treasurer, while Mr. Salome was elected secretary.

The following were returned to the board of directors: Count de Sjevs, Hon. Senator Dandurand, J. B. d'Aoust, Leigh R. Gregor, Dr. St. Jacques, Edouard Fabre Surveyor, Dr. Desrosiers and E. Belanger.

It was announced that the membership now numbers 405.

COST DOUBLES MONTREAL.

Captain Walsh Discusses Quebec Charges for Discharging Cargo.

Captain Walsh, marine superintendent of the Canadian Pacific Railway steamers at Quebec, is authority for the statement that the cost of discharging a cargo in Quebec, owing to the scarcity of labor, is exactly double what it is in either Montreal or Liverpool.

The expense of doing business in the port of Quebec has always been a sore point with the various shipping companies operating in the St. Lawrence. The excessive charges of the port are, according to the local shipping men, largely attributable to the local union, under which all the freight handlers work at that port.

Constipation

You cannot possibly enjoy the best of health if your bowels are constipated. Undigested material, waste products, must be daily removed from the body, or there will be trouble. Constipation means bilious attacks, indigestion, headaches, nausea, dizziness, loss of appetite, thin blood. Ayer's Pills are gently laxative, all vegetable. We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

The Muscles And the Nerves

The heart, the stomach, the bowels and other vital organs of the body are composed almost entirely of muscles, and it is by the contraction of muscles that these organs perform their functions.

But muscles without nerves are as a dead mass of flesh, without power of movement or contraction. Hence the absolute necessity of nerve force in the body and the importance of such a medicine as Dr. Chase's Nerve Food to revitalize and reinvigorate the wasted nerve cells when these organs lag in performing their duties.

Weakness of the heart's action, failure of the stomach to digest food, nervous headaches, wakefulness, irritability and feelings of fatigue and discouragement tell of exhausted nerve force and denote the need of Dr. Chase's Nerve Food. As a blood builder, nerve restorative and spring strengthener there is no more effective treatment. 50 cents a box, 6 boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto.

Marble Quarried in Quebec.

Marble is now being quarried in this province. The Phillipsburg Railway & Quarry Company began operations on Missisquoi Bay last year, and on Wednesday a large number of Montreal citizens made an excursion to the quarries and examined the progress of the work. The marble is cut out of the quarry in the required sizes by a machine, known as a channeller, which leaves blocks as smooth on all sides as a block of ice.

IMPROVEMENT OF THE WATER SUPPLY

Plans Being Made at the City Hall to Effect a Big Change.

QUALITY AND QUANTITY

Necessity for Improvement of Both Recognized—$2,000,000 Will Be Asked to Make it.

It transpired at the City Hall to-day that steps are to be taken in order to both improve the quality of water supplied to citizens, and greatly increase its quantity.

When the Chairman Committee meets in the fall a motion will be made by one of the working members of the Water Committee, asking that the Legislature authorize the Council to borrow the sum of two million dollars in order to double the width of the aqueduct and also to put an intake pipe out into the centre of the St. Lawrence, near Lachine, so that the city will no longer be furnished with the murky waters of the Ottawa river.

Many complaints have been received by the Health Department as to the muddy state of the water, and there have even been brought to the City Hall bottles containing divers little insects which came through the water pipes.

The new plan which will supply a new water supply to the city, as stated, will cost about two millions. It is the intention to do away with the big steam engines and instal sufficient turbines to do all the city's pumping. Mr. Janin, superintendent of the Water Department, makes the assertion that if the city does not use steam the result will be a big saving in the cost of pumpage.

The Finance Committee has voted a sum of money to have preliminary observations made in order to get a definite plan to completely remodel the aqueduct here. Mr. J. O'Sullivan, an employee of the Water Department, has just been appointed to make preliminary observations. He will be assisted by engineers.

CANADIAN FINANCE COMPANY SUED

The case of Trudeau vs. the Canadian Finance Company was commenced in the Circuit Court to-day. J. B. Trudeau sues the company for the return of $71 which he claims he overpaid them. He had forty-seven people, who owe the company, subpoened and thirty-seven put in an appearance. They testified that they owed the company, according to the company's showing, sums ranging from $1 to $69. The court room was packed with poor people who are anxiously awaiting the outcome of the trial.

HIGH SCHOOL CLOSING.

(See also page eleven.)

Beaming faces of scholars and the proud bearing of fond parents marked the closing exercises of the Montreal High School this morning.

Alderman Farquhar Robertson was in the chair, ably supported by the Rev. Dr. Symonds, Mr. Wellington Dixon, the Principal of the school, and several of the older teachers. A hymn by all those present opened the proceedings when the Rev. Dr. Symonds led in prayer.

After the report of the rector, which was a glowing one, a song was given by the whole school. The kindergarten exercises by the members of the kindergarten department of the school followed and then in order came the reports by the teachers, interspersed with songs and recitations.

The distribution of medals and prizes brought the proceedings to a close, and to the strains of the National Anthem the different classes, headed by their leaders bearing flags, marched out of the hall and away to freedom from study.

ROYAL TRUST IS VICTOR.

Two judgments have been rendered by Mr. Justice Dunlop in suits brought by the Royal Trust Company against the Great Northern Elevator Company, and also the Great Northern Railway Company. The actions were concerned with the issue by the Elevator Company of $300,000 worth of bonds which have been mortgaged to the plaintiffs as the trustees of the purchasers of the bonds. The bonds bore interest at 5 per cent. per annum and there was also provision for a sinking fund for the redemption of the bonds.

It was to recover overdue interest and sinking fund instalments that the actions were taken. As the Great Northern Railway Company had leased the elevator from the Elevator Company and had taken over certain of their liabilities they were also associated in one of the actions.

The first claim for interest amounted to $17,935, and it was made against the Elevator Company alone. The second was for $39,000 in all, and was made against both companies. Both claims were granted in full with costs.

THREE ARRAIGNED ON MURDER CHARGE

Alleged Members of Gang with Lariviere on Night of Murder.

ALL PLEAD NOT GUILTY

The Three Accused are Joseph Chaput, Napoleon Sablonniere and Thomas Leithead.

A definite step towards the solution of the mystery of the murder of Emile Clermont, alias Lariviere, was taken by the Crown this morning, when three men were arraigned before Judge Lafontaine on a charge of being implicated in his murder.

The three men are Joseph Chaput, Napoleon Sablonniere and Thos. Leithead. They were arrested last night under warrants issued as a result of the Coroner's inquest.

There is known to have been a group of six men with Lariviere on the night of his murder, and it is alleged that these three were members of the group.

All three pleaded not guilty and were remanded for eight days.

The police in the meantime are following out every available clue with a view to apprehending the other members of the group.

COMMISSIONERS WERE UPHELD

The Law Department at the City Hall received news to-day that Judge Dunlop, of the Superior Court, had rendered an interesting judgment in the Amherst street expropriation case.

The commissioners' roll, awarding indemnities, was contested by Mr. William Clark, manufacturer. The total amount awarded to Mr. Clarke, by the commissioners, for lots Nos. 291 and 292 was $30,042. Mr. Clarke declared that the awards were ridiculously small, and filed claim for a total indemnity of $85,000. Evidence was heard by the court, and, as stated, judgment was rendered giving Mr. Clark the sum awarded by the commissioners in the first place.

The expropriation will now be gone ahead with.

The expropriation commissioners were much pleased with the judgment. They said that in the case of this expropriation they had endeavored to give awards that would be just both to the city and to proprietors.

PERSONALS.

Mrs. C. M. Hays and family, Ontario Ave., leave next week for Cushing's Island.

Mr. William Fitzgerald and Miss Annie Fitzgerald, of New York, are in town, the guests of Mrs. Thos. Fitzgerald, Mance street.

Sir Charles and Lady Ross left Ottawa yesterday for Quebec, whence they sail for England on Saturday by the Empress of Britain.

The marriage of Mr. Arthur A. Humphreys to Miss Ethel H. Berry, will take place at the Methodist Church, Montreal South, on Tuesday afternoon, at 5 o'clock.

The marriage of Miss Josephine Hume Locke, daughter of Mr. Piers Locke, to Mr. Allan J. Munro, son of Mr. Robert Munro, of Montreal, will take place this evening in St. Cuthbert's Presbyterian Church, St. Lambert, Rev. H. J. McDiarmid, the pastor, officiating, assisted by the Revs. John MacKay and J. R. Dobson. The bride, who will be given away by her father, will wear a gown of Irish lace over cream satin, tulle veil caught with a wreath of orange blossoms, and will carry a shower bouquet of white roses and lillies of the valley. The bridesmaids will be Miss Dorothy Locke, sister of the bride, and Miss Amy Buchanan, who will be gowned in Pompadour net over pink taffeta and will carry bouquets of pink peonies. Mr. Arthur McLaurin will be best man, and Messrs. Stuart Rutherford and Charles Hyde, the ushers. The bride's mother will wear grey silk eolienne over taffeta, trimmed with Venetian lace and Mrs. Munro, the mother of the groom, will be in black lace over satin. After the ceremony a reception will be held at the residence of the bride's parents, Lorne avenue. Mr. and Mrs. Munro leave by the Canada to spend a couple of months abroad. The bride's going away gown will be of cream poplin with Dresden trimmings, and she will wear a hat of old rose trimmed with shaded wings. The groom's presents to the bridesmaids are pearl rings, and to the ushers, pearl tie pins. Upon their return, Mr. and Mrs. Munro will reside at No. 241 Bishop street, Montreal.

Prevost Honorably Acquitted.

Adelard Prevost, who appeared before Judge Choquet to-day on a charge of perjury in giving evidence before a sub-committee of the Civic Water Committee in a case arising out of his dismissal, was honorably discharged by the judge this afternoon.

MONTREAL STREETS DISGRACE TO CITY

Careful Inspection of Several Principal Arteries Made Yesterday.

DAMAGE SUITS INVITED

Car Tracks Three Inches Above Mud Foundation and Asphalt Replaced With Macadam.

An inspection of a number of the principal thoroughfares in the heart of the city, thoroughfares which are among the most used by vehicles, shows that the general condition could not be much worse and that it is a wonder that the city is not mulcted to a greater extent by actions for damages.

During the present week there have been in Montreal in the neighborhood of one thousand people attending important conventions to say nothing of the thousands of visitors who have merely passed through the city, but who have nevertheless been forced to carry away with them anything but complimentary ideas of the business street of the metropolis of Canada.

Portions of St. Catherine, Dorchester, Lagauchetiere, Vitre, Juror and Craig streets and Fortification lane were inspected yesterday afternoon and the various reports made are published below:

ST. CATHERINE STREET.

The condition of St. Catherine street from Phillips Square to St. Lawrence street is far from what it should be on such an important business thoroughfare. From the square to St. James Methodist Church the street, with the exception of a few holes, is fairly clean. About fifteen feet west of No. 5 Fire Station, not far from the corner of Bleury street, there is a dangerous hole in the pavement, extending about ten feet. It is on the south side of the street, and offers much danger to the firemen, as well as the horses and apparatus, when responding hastily to fire alarms. Just east of Bleury—the length of the hill—the stone block pavement is good, but the side streets, between Bleury and St. Lawrence street, are dirty and slovenly kept, paper and rags being scattered in all directions. There are also several ugly looking holes in the pavement in the vicinity of St. Lawrence street, which the reporter found full of dirty water, and from which there was a bad odor.

LAGAUCHETIERE STREET.

On Lagauchetiere street no paving has been done of any kind, and apparently not much time and labor has been expended in keeping this thoroughfare in decent condition. There are no signs of recent repair or improvement of any kind, and some of the holes in the roadway remind one of a miniature bump on a toboggan slide. It would appear as though drains were unnecessary in this quarter of the town. The cobbles have sunk, been covered up and disappeared long ago, and the depressions on either side of the street, originally intended for gutters, are stuffed up with dirt, paper and all sorts of refuse, so that on rainy days the water undoubtedly remains on the surface, flooding the whole street.

Passing along the street yesterday afternoon a gang of cleaners had evidently just been at work. Little piles of refuse were heaped up in the roadway, but the cleaning was far from thorough, as might easily be seen from the condition of the gutters and the sidewalks. Waste papers and tin cans were the most annoying objects, and the eye rested upon them in every nook and corner, although the middle of the street was fairly clean.

The sidewalks are in very good shape, that is there are no holes into which a pedestrian would be liable to tumble on a dark night. The ends of most of the boards are badly eaten away, but the centre part is nearly all in good repair, except on the north side of the street, near Cote, and a small place opposite St. Patrick's Church.

West of St. Alexander street the street is good all through, and nobody could ask to see it in better condition. Most of the crossings at the street corners need repairing, in some places whole flags being gone, and leaving large holes for the foot passenger to skip over on a muddy day.

The Chinese quarter is kept fairly clean around the dwellings, although the odor exuding from some on a warm day is enough to knock a white man down.

FORTICICATION LANE.

There are few streets of Montreal on which, in proportion to their length, more traffic passes than in Fortification lane. This narrow thoroughfare, which looks almost like a tunnel it is so over-shadowed by the high buildings on either hand, and so frequently bridged over, is packed all day long with waggons and horses and men, so that passage even for a pedestrian is difficult. And yet this lane where so many men work throughout the day and on which so many large business houses have their rear, is left in a condition that would scarcely be tolerated in an alley of the slums.

The lane is only partially paved and even the paved portion is very irregular and full of depressions in which rain water or the water that is sprinkled on it in the vain endeavor to keep down the dust, collects in puddles. The sidewalk is so bad that no sidewalk at all would be a great improvement; any change must necessarily be for the better. Everywhere the way is blocked by the barrels and boxes and heaps of refuse thrown out for the scavengers, and indeed the appearance of the whole lane would suggest that it had all been left out for a scavenger and that he had not put in his appearance for some time. On the unpaved part of the lane heaps of mud and variously assorted filth were noticed where they had been scraped together beside what purported to be the sidewalk and had been left to be kicked about by the feet of passing horses. Needless to say papers blew about everywhere, but this is merely a matter of appearance, while the large amount of general refuse which is allowed to lie about the lane is a matter concerning the public health, especially in these warm days, when they serve as admirable centres of microbe-culture. This is a very serious subject when the great amount of traffic in this lane is considered and the number of establishments employing many hundreds of people which open on it and which thus receive its dust and microbe-laden atmosphere.

CRAIG STREET.

Craig street, from Victoria square to St. Lawrence is in such a condition that it is difficult to imagine it being much worse, unless a pick were used to break up the remaining good asphalt. As far as Alexander street the granite blocks make a good roadway, but from there to Bleury there are holes in the asphalt three to six inches deep, so that waggons heavily laden are constantly breaking their axles as they bump into the holes.

At Bleury street the crossing is a disgrace. The car tracks are in places three to four inches above the muddy foundation which adjoins them on each side, and from which asphalt has long since ceased to be seen. Wheels are often wrecked at this point as a driver endeavors to make a quick turn. From Bleury street to St. George's street there are 47 large holes, many of them filled in with macadam, but in most cases forming a pool of mud during the wet weather, and at all times dangerous. Two weeks ago a trunk was thrown from a cab as a result of the cab bumbing into one of the holes. The ruts along the car tracks are such that drivers have to use very careful judgment to prevent damage to their vehicles.

Facing St. Francois Xavier street the ruts and holes are just as pronounced, and Cote street, in wet weather, is almost impassable, in spite of the fact that twenty-five hundred people per day pass through it to the Theatre Royal. Opposite the street railway the tracks are uncovered at the sides and a few yards east there are holes containing no asphalt that in some cases run four feet from the track. There is a hole near St. Lawrence street, which, when it rains, contains four inches of water to be splashed upon pedestrians by the passing carts.

FILES CONSIGNED TO MINISTER'S SON

When the Private Company Refused Them, Mr. Strubbe Purchased.

SALE TRANSACTED VERBALLY

Montreal Witness Gives Interesting Evidence Before the Public Accounts Committee.

Special Staff Correspondence.

Ottawa, June 22.—George J. Desbarats, who is in charge of public works at Sorel, was examined before the Public Accounts Committee this morning in respect to the purchase of files, steel bars, etc., from Mr. Charles Strubbe, of Montreal. Previous to his examination of this witness, Mr. Strubbe was instructed to go to Montreal to secure all the cheques he had issued at the time of the purchase of supplies.

Mr. Desbarats stated his belief that the files had been ordered by Mr. Prefontaine for the Marine Department from the representative of some French firm. He did not know whether Mr. Strubbe was the man, but the latter had shipped them to Sorel. The price paid Strubbe was the ordinary one, but the latter gave a discount of 15 per cent. He did not know what Strubbe paid for them. The files were used at Sorel, Quebec and Prescott.

Col. Gourdeau, deputy Minister of Marine, who was called, said that a careful search had been made through the files of the department for a record of the purchase of goods from Mr. Strubbe, but nothing could be found previous to a notification from Mr. Desbarats that the files had been received. He understood that the purchase was made as the result of a verbal agreement between the late Hon. Mr. Prefontaine and Mr. Strubbe.

Mr. Busteed, of Busteed and Lane, attorneys of Montreal, gave decidedly interesting evidence. He had acted on behalf of a Paris firm, which endeavored to collect a bill for a large quantity of files from Mr. Rolland Prefontaine, son of the late Raymond Prefontaine, the owner of a saw mill at St. Agathe.

The files were at the C.P.R. Station at Montreal, and Mr. Prefontaine refused to accept them either on the ground that he had not ordered so many, or that he had not ordered them at all.

Mr. Busteed had a talk with Hon. Mr. Prefontaine on the street one day, but the late minister said he had had nothing to do with the matter. Shortly after the witness was called upon by Mr. Strubbe, who wanted to buy the files. He considered that Mr. Strubbe was acquainted with a representative of the French house who had been in Canada. Mr. Strubbe offered 50 per cent. off the sum the firm was trying to collect from Mr. Prefontaine, jr., less another $500. After some negotiations, the offer was accepted.

The witness thought Mr. Strubbe had paid the freight bill, for the files had been held by the C.P.R. He received a cheque from Mr. Strubbe for $2,234. The sale was made to Mr. Strubbe by the French firm, who did not wish to become involved in a lawsuit in Canada. It would be remembered that Mr. Strubbe sold the files to the Marine Department for $4,700.

In reply to Mr. Gervais, Mr. Busteed said his negotiations were with Mr. Strubbe alone. No one else had spoken to him on the subject.

LICENSE WAS REFUSED.

On account of the full number of licenses having been supplied according to law, the application of Mr. Roland Stanley Devlin, proprietor of the Bath Hotel, was refused yesterday afternoon by the License Commissioners.

CONTINENTAL LIFE AND ATLAS LOAN

Manner in which Former Made Loans to Latter, Explained.

MANAGER ON THE STAND

Mr. Wallace, Manager of Atlas, Was Director of the Life Insurance Company.

Special Staff Correspondence.

Toronto, June 22.—An interesting bit of insurance history came out to-day when the Continental Life was up before the Insurance Commission. This company had on its board of directors, A. E. Wallace, manager of the unfortunate Atlas Loan Company. The Continental Life invested largely in Atlas Loan debentures, and made call loans to the Atlas Loan, and when the failure of the company occurred the insurance company lost. They had on their hands $38,900 Atlas bonds. The method of disposing of these was curious.

One of the directors, G. T. Somers, purported to buy up the debentures, the company assuring him meantime against loss.

The Continental Life was taken up by the Insurance Commission to-day. This company started business in 1899. Its president is Hon. John Dryden, and its solicitor, Mayor Coatsworth, of Toronto.

George B. Woods, the witness called to-day, has been manager of the Continental since its inception. In 1900 the Farmers' and Traders' Assurance Company, of Ottawa (formed in 1896) was amalgamated with the Continental. This company was chiefly a St. Thomas concern.

Mr. Wood stated that in the Continental, directors got rebates amounting to agents' commission when taking out policies. So with all employees of the company. This is universal, said the witness. If the Continental did not rebate for their employees these would go to other companies for insurance.

Among the assets taken over at the time of amalgamation was $25,000 Atlas Loan debentures, a company that afterwards failed. A. E. Wallace, manager of the Atlas Loan, came on the directorate of the Continental in 1901. During 1902, $25,000 more Atlas Loan bonds were purchased by the Continental Life, through the influence of Mr. Wallace. In 1901 and 1902 also, the Continental deposited $5,000 with the Atlas Loan, which account stood until the end of 1904. On the failure of the Atlas Loan, the Continental lost $3,000. Another deposit of $15,000 was secured by $17,000 Metropolitan Bank stock. Interest and principal of this was repaid. Before the Atlas Loan failure 4 1-2 per cent. was paid on this and after 6 per cent.

At the end of 1904, the balance of $3,000 on the first Atlas loan was written off as a loss. The $25,000 Atlas Loan debentures held by the Continental and the $3,900 bonds held in payment of a policy on the life of Mr. Murch, a director of the Atlas Loan, were sold in 1903 to G. T. Somers, a director of the Continental Life. By this arrangement Mr. Somers bought the debentures and a provision was made that the company reimburse him for any loss thereon out of their income. This transaction was suggested by Mr. Woods.

'ARCTIC' COMMITTEE CONCLUDES LABORS

Special Staff Correspondence.

Ottawa, Ont., June 22.—The inquiry into the supplies for the Arctic terminated suddenly this morning, and a report will be made to the House, probably Wednesday next. The Conservative members of the committee, it is expected, will present a minority report as it is not probable that there will be an agreement on all points.

When the committee met this morning, Mr. Northrup, who has been the chief examiner of witnesses for the Opposition, made a brief statement. He said the Conservative members were prepared to call a couple of witnesses to give evidence as to the conduct of the crew of the Arctic with the Eskimos, during the eight months the ship was ice bound at Fullerton. The majority of the committee had refused to accept evidence of this kind before and if it was the intention to adhere to this policy there would be no use in sending for the witnesses and they would be willing to close the inquiry. Mr. Northrup also drew attention to the fact that Captain Bernier, Mr. Weeks, the purser, Mr. Lemieux, and one member of the crew, had continued to draw their pay since the return of the Arctic.

Mr. Pardee assured Mr. Northrup that it would be useless to summons the witnesses as their examination would not be consented to. He offered to put a motion to that effect. This was not done, however, it being mutually agreed to close the inquiry. The members of the committee then settled down to work to select the evidence it would be necessary to print.

CONVENTION AT NOMINING.

Object of Co-operative Association is to Secure Better Advantages for Settlers.

Special Staff Correspondence.

Nominingt, June 22.—The three days' celebration of the co-operative association was brought to a close to-day by a visit to several of the neighboring parishes. The principal visit was to Ferme Neuve, by the new Gouin road, which has just been completed at a cost of $55,000. It is 35 miles long, and goes almost in a straight line from Nomining to Ferme Neuve.

After the banquet yesterday noon, which was presided over by Mgr. Sharretti, a meeting was held in a large tent near the church.

The speakers were Rev. Eugene Corbeil, and Rev. J. R. Cadieux, the former speaking on colonization, while the latter spoke of the advantage of the new association. Father Corbeil said that the Nomining District compared very favorably with other new parts of the province, and he encouraged the colonists to keep on working and they would be well repaid for their labors. Co-operation was necessary to import live stock and other necessities for cultivation of the soil. In that way they would get better rates on the railroads.

BOOM IN POWER PUTS IT OVER 98

In the first ten minutes trading at the afternoon session of the Montreal market, over 2000 shores of Pawer changed hands at 98. It went below that level on the pressure of profit-taking sales, and later saw 98¼. There were slight lulls in the trading, but the stock was extremely active when the trading spirit was on.

Towards the close there were sales at 98½.

Wall Street, 2 p. m.—Business came practically to a standstill in the afternoon, after the market got slightly higher. Great Northern pfd. increased its rise to 5¾, touching 301. United States Steel, Brooklyn Transit and Interborough Metropolitan rose 1 to 1¼. Atlantic Coast Line fell off 1, and Linseed pfd. 3¼.

Fine Art Enamels

So perfect has the art of enamelling upon gold become, that sprays of foliage, flowers and leaves are reproduced in life-like miniature.

The color effects are most beautiful in their soft, harmonious blendings.

One of the features of our present display is Art Enamelled Jewellery and we would direct special attention to a new line of Bar Pins and Waist Pin Sets recently received, with pearls in combination with the enamels.

Store Closes 5.30 p.m. 1 p.m. Saturdays.

6000 SHARES OF POWER TRADED IN

And Over 12,000 Shares Sold Since Beginning of the Movement.

TRADING IS QUITE GENERAL

With the "Street" Rather Puzzled as to Just What Seems to Be Going on.

Power had everybody guessing on the "Street" to-day. 5687 shares changing hands between 97⅛ and 97¾.

Since the movement in Power began this week, over 12,000 shares have been sold, of which the Forgets must have bought fully 6000 or 7000 shares.

Although that firm was prominent on the buying side again this morning, the trading was more general than at any time since the boom began.

McDougall & Cowans took a good block of the stock, and others, more or less prominent as buyers, were, Burnett & Co., Alex. Paterson & Co., W. J. Turpin & Co., and W. H. Weir & Co.

Other firms both bought and sold, and it was remarked by a broker that houses that have not traded in the stock for months took a hand in the dealings.

It is stated on the best of authority that an outside investment order has been filled for several thousand shares of the stock, and it was also stated that Mr. James Ross has transferred the last of his holdings.

Apart from all this, however, the Street seems to have the idea that there is something in the wind, although what it is is somewhat difficult to find out. The only factors on the surface are the increase in the dividend to 5 per cent., steadily increasing earnings, the development of the Soulanges power and other evidences of substantial progress.

Some of the optimists were predicting that the stock will see par before the declaration of the next dividend.

Apart from the features in Power, the market was very slow. About 375 shares of Street Railway changed hands, and that was the only stock to even attract the brokers' eyes away from the Power trading.

Canadian Pacific reacted from yesterday on a sale of 100 shares, while 100 shares of Mackay sold at 74¾.

The balance of the trading was small and scattered.

The shares of the U.S. Steel Corporation are sold in the face of the largest earnings in the history of the company. There are now every indication that the net income for the current quarter will break all previous quarterly high records.

The Wall Street market was hammered yesterday on unsatisfactory steel trade reports, but the present situation in steel, according to a high official of the Carnegie Steel Co., is most hopeful. All mills and furnaces are in full operation, as they have been for some time past, and there is no change in conditions in sight. There are many orders ahead, and it was stated by the official who was seen that there is every prospect for a continuance of operations for all plants for an indefinite period. No change in Steel Corporation prices has recently taken place.

A cable from London said: A gloomy view was taken of the Russian situation, and its influence on Paris market in particular, caused considerable anxiety. American stocks were weak. The Louisville dividend disappointed some holders, who had paid attention to rumors of an increase current a short time ago. Money showed a tendency to ease off; discounts were firmer. Foreign bourses closed weak and depressed.

Canadian stocks were exceedingly quiet in Wall Street, and the only trading was in Canadian Pacific. The prices at noon were:

	High.	Low.
Can. Pacific	161½	160⅝
Detroit Ry.	95½a	93½b
Havana Ry.	50 a	48¼b
do. pfd.	94 a	91 b
Twin City	113¼a	112½b
Granby	11⅝a	11⅝b

Navigation shares have been moving a little in the Toronto market. Yesterday Northern Navigation was up a couple of points, while St. Lawrence navigation was 135½ bid. Accompanying this is a rumor that the directors will declare a half-yearly dividend of 6 per cent. shortly. There is also talk of a new stock issue.

The Hill stocks were very dull to-day. There were no morning quotations on Great Northern, but Northern Pacific was fairly steady. It opened at 203 and saw 203¾.

The sales to noon in Wall Street were 496,200 shares.

The New York banks have gained $597,000 from the sub-Treasury since last Friday.

FAMOUS ORE DEAL MADE.

It is understood that negotiations have been virtually concluded for the acquisition of the Great Northern ore lands by the U.S. Steel Corporation. Formal announcement of this fact, however, is not expected to be made until next month.

MONTREAL EXCHANGE RATES.

Montreal exchange rates: Between banks: New York Funds, par to 1-64; Sterling, 60 days, 8 17-32; Sterling, demand, 9 5-32 to 9 3-16; Sterling, cables, 9¼ to 9 9-32; Paris, francs short, 5.18⅛ to 5.18 1-16.

WINNIPEG STOCK EXCHANGE.

At Winnipeg a movement has been inaugurated to organize a stock exchange, and a majority of the brokers favor the project.

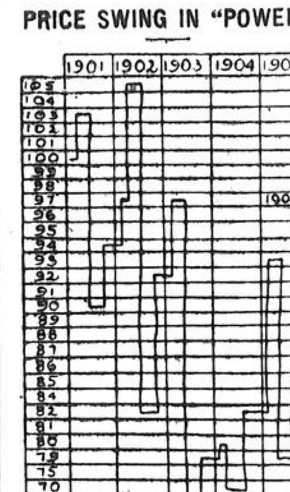
DID GATES RAID U. S. STEEL?

Stock Touched New Low Point on the Decline.

A new low record for year for United States Steel common was established yesterday when it sold at 36½, which was about 2⅛ points off. More than 130,000 shares were traded in on the exchange. The general impression on the "Street" was that John W. Gates and his friends had something to do both with the slump in United States Steel common and the break which preceded it in Southern Foundry Iron. Another thing used as bear ammunition was the rumor that United States Steel was about to authorize an issue of bonds to cover the expense of constructing its new plant at Gary, Ind. This rumor was officially denied.

That Gates had been instrumental in bringing about cut in Southern Foundry Iron was denied by representatives of Tennessee Republic companies, which are controlled by Gates interests. Sloss-Sheffield company, against which cut was supposed to have been aimed, also denied there was any ill-feeling between the two interests.

PRICE SWING IN "POWER."



The big buying and upward movement in Power calls attention to the fluctuations in that stock.

The movement has been a wide one and for some time par has looked to be pretty far distant.

CANADA'S "ALL NIGHT" BANK.

The banking committee in the House of Commons reported the bill respecting the Monarch Bank.

The Monarch is the bank that expected to keep open all day and night. The head office will be in Toronto, and there will be an all-night branch in Montreal.

GATES CROWD IS BEARISH?

Wall Street was filled with stories yesterday about the alleged bearish position of John W. Gates and associates. They were reported to have been large sellers of stocks yesterday, their offerings of Steel shares being conspicuous.—New York Post.

OUR SECURITIES IN FRANCE.

Drop in Russian Bonds Should Help U. S. and Canada.

Canada and Wall Street should view Russia's turmoils with complacency. From a dollar-and-cent point of view the lower Russian securities go the better is the chance of American stocks and bonds being taken up by foreign, and particularly French, investors.

One New York banker has put the situation this way: "Russian 4s are down to 78¼ in the London market. Taking into consideration our new footing in France for placing American securities, from a purely selfish standpoint the lower they go the better it will be for us, for the reason that it will create more confidence in our securities by way of comparison. It is estimated that the French people have invested in Russian securities between $2,000,000,000 and $3,000,000,000, and as these have now lost their savor, it will tend to materially strengthen the demand for another class of investments, and no better field can be found than that offered by America."

GOSSIP ON DETROIT UNITED.

The Increases for May and the Past Five Months.

The most noteworthy increase shown by the May statement of the Detroit United Railway is that of the gross earnings, which amounts to $72,577.

The results of operation were not quite so prolific of results because the increase in the net earnings was only 5.6 per cent.

Below are shown some of the more important features of the May report and that for five months expressed in percentages:

	May inc. Per cent.	6 mos. inc. Per cent.
Gross	16.8	15.2
Net	5.6	21.5
Charges	13.6	6 4
Surplus	*3.2	43.

*Decrease.

The charges for the month of May increased rather rapidly as compared with the average increase over the full five months.

However, the increases in the surplus earnings over the charges in the preceding months were so satisfactory that they can more than offset the increased charges.

BANK OF ENGLAND CHANGES.

How the Reduction in the Discount Rate Compares.

The Bank of England reduced its official rate of discount from 4 to 3½ per cent. The 4 per cent. rate was established on May 3 last, when it was advanced from 3½ per cent., the rate fixed on April 5. Prior to this the rate had been 4 per cent., established September 28, 1905, when it was advanced from 3 per cent. Three weeks before, September 7, the rate was raised from 2½ to 3 per cent. The 2½ per cent. rate had been maintained since March 9, 1905. At this date in 1903 the bank's rate was reduced ½ per cent.; in 1900, it was advanced 1 per cent. The present official rate compares as follows with that of the corresponding date in previous years:

	Per cent.		Per cent.
1906	3½	1900	4
1905	2½	1899	3
1904	3	1898	3
1903	3	1897	2
1902	3	1896	2
1901	3	1895	2

AVERAGE PRICE IS HIGHER.

The Canadian Pacific Railway Co. reports its land sales for May, with comparisons with the same month last year, as follows:

	Acreage.	Value.	per acre.
May, 1906	72,460.02	$550,665	$7.60
			Average
May, 1905	59,855.21	288,796	4.85

FRANCE IS AFTER CANADIAN STOCKS

Banker Says That Foreign Investors are Nibbling at our Securities.

SICK OF RUSSIAN BONDS

And Now Looking for Something That Will Yield More on the Investment.

The French, Belgian and general foreign buying of Canadian securities may attain greater proportions than was at first anticipated.

The foreigners have begun to nibble at our stocks, and, apart from the purchases of Toronto Ry. and Power for foreign account, there has been some enquiry for other tractions and industrials.

A leading Montreal banker, who is closely in touch with everything that is going on told the Star that he had hopes of seeing a fine foreign demand for first-class Canadian investments. France, with more ready money than any other country in the world, has had a sickener of Russian bonds and other similar issues, and has begun to look elsewhere for more profitable investments.

Wall Street has been quick to see the change in sentiment there, and, as pointed out the other day, five Wall Street houses, including Wassermann Bros. and Soloman & Co., have opened offices in Paris within the past three months. And the fact that France took the $50,000,000 Pennsylvania Ry. issue has stimulated efforts to place Canadian and U.S. securities in that market.

Recent correspondence with French people has revealed the fact that they have wanted to buy at a price, Montreal Street Ry., Mackays, Ogilvie Flour Mills, preferred and bonds, Dominion Steel bonds, Power, Toronto Ry. and two or three other issues.

Bank Profits.

Canadian banks have undoubtedly made a remarkable showing this year, or, more properly speaking, in 1905-6, and in every case almost earnings were ahead of the year previous.

The following table shows the profits in proportion to capital compared with the year previous.

TORONTO BUCKET SHOP RAID

Books Were Seized and Names Taken, But No Arrests.

The Attorney-General is anxious to have the status of the bucket shop settled once and for all in Toronto. There were no arrests in yesterday's raid there, but the proprietors were charged with "gaming in stocks." Books were all seized, and the names of the frequenters taken.

The brokers' offices raided as bucket shops were as follows:

McMillan & Co., 71 Yonge street.
N. B. Darrell, 8 Colborne street.
M. Cummings & Co., Rooms 28 and 29, Victoria Arcade.
John L. Lee, 49 King street west.
P. R. Brunskill, 43 Scott.
Fisher, Ray & Co., 25 Toronto street.
Barber, Cooch & Co., 22 Victoria street.
J. A. Cummings, 56 Victoria street.
Miller & Davidson, McKinnon Building.
Norman McKay, 12 Victoria street.
C. Davis, Victoria Arcade.
Heron & Co., 16 King west.

WATERING THE LAMBS.

(Saturday Evening Post.)

Little drops of water
Break the hardest rocks,
Little drops of water
Swell the Lamkins' stocks;
Little drops of water—
And other little drops—
Fill the largest buckets
In the bucket-shops.

GRANBY STEADY.

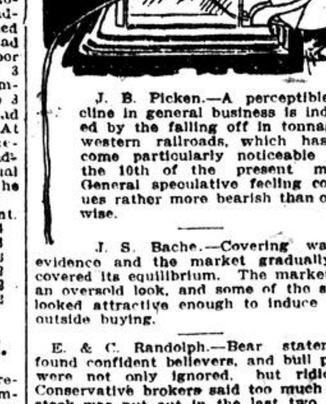
Granby Consolidated was quoted at 11⅝ bid and 11¾ asked.

OPENED 7 BRANCHES.

The new Standard Bank last year opened seven new branches and is about to start on two more.

PRAISES CANADIAN BANKS.

In an article on the Bank of England, the Financial Times says that a guaranteed bank currency like that in Canada might be adopted advantageously.



J. B. Picken.—A perceptible decline in general business is indicated by the falling off in tonnage of western railroads, which has become particularly noticeable since the 10th of the present month. General speculative feeling continues rather more bearish than otherwise.

J. S. Bache.—Covering was in evidence and the market gradually recovered its equilibrium. The market had an oversold look, and some of the stocks looked attractive enough to induce some outside buying.

E. & C. Randolph.—Bear statements found confident believers, and bull points were not only ignored, but ridiculed. Conservative brokers said too much short stock was put out in the last two days, and it will not be surprising if the market is soon found to be heavily oversold.

Miller & Co.—There is quite a tendency to call stocks at times, and to those who want to sell we would advise selling industrials in preference to railroad stocks.

Burnett & Co.—The manner in which all the good news of the last few days has fallen absolutely flat is taken as a clear indication that a good bull market is not likely to develop until next month in any event. It is pointed out that the news of the last few days should have been sufficient to have caused an advance of from 5 to 10 points in the price of stocks if there was any sustained buying power back of the market.

Charles Head — At noon the market looked a little over-sold.

Our bank meetings are getting to be so deadly dull these days that even Mr. John Morrison's characteristic remarks are sometimes appreciated by the few shareholders who turn up.

Mr. Morrison usually calls either for the distribution of $1,000,000 among the starving directors and shareholders or wants a three-cornered amalgamation between the C.P.R., the Bank of Montreal and the City Ice Co.

As usual, Mr. Morrison held forth at the Merchants Bank meeting on Wednesday, and registered a demand for 13 per cent. dividends.

He holds 62 shares of the stock of that bank.

Bank shareholders these days know that the banks are making money and that everything is prosperous and above board.

Therefore, they do not bother about attending the meetings.

Twenty-five or thirty years ago, however, bank meetings in Montreal often developed into incipient riots.

They couldn't keep the shareholders away with a club, and the repartee that passed between shareholders, the directors and the chairman was of the most strenuous and humid character.

There are no critics to-day, and the meetings are consequently very tame.

But few bank presidents or managers spread themselves these days to give the shareholders something interesting to listen to.

Mr. B. E. Walker, of the Bank of Commerce, is one of the exceptions, and his annual report is always long and interesting.

The raid on the Toronto bucket shops created no end of talk in Montreal, and the result of the affair will be watched with the keenest interest.

The Toronto raid was rumored two months ago, and for a time the shops were neglected by the blackboard watchers, who did not want to figure in any police court proceedings if they could help it.

Gradually, however, all fear of the raid died out, and when it was pulled off yesterday things were going at a normal gait.

If the Toronto bucket shop keepers can be found guilty, the question is, will the Province of Quebec be called upon to take action?

A brilliant artist in Everybody's Magazine, in writing about bucket shops, gives the following as a list of legitimate exchanges in Canada where people can trade in safety:

EXCHANGES IN CANADA.

Winnipeg Grain Exchange.
Toronto Board of Trade.
Montreal Chamber of Commerce.

Can anything beat that? There are but two important Stock Exchanges in Canada, and by a rare piece of stupidity the writer has omitted them both.

Is there something in stock-broking conducive to longevity?

While comparative new-comers, whose membership dates only from 1850 or so, have for one reason or another severed their connection with the London Stock Exchange, there are still seven members of 60 years' service or more, while Benjamin Edward Kennedy, the grandfather of the Stock Exchange, was a member when William IV. was King.

As that was 71 years ago, and a member of any exchange must necessarily be of age, competition for the long-distance belt in this respect must show better than Mr. Kennedy's 90 odd years.

The term "bucket shop" was coined in London half a century ago. Beer-swillers from the East Side prowled through the streets with buckets, draining kegs thrown out of public houses.

They congregated at cellar dens and disported themselves. These places came to be known as bucket shops.

The name came to America, and was fastened upon the places where stock trading is counterfeited.

MINING STOCKS ARE BETTER.

Nipissing Mines Now Selling on Mining Exchange Here.

The mining market is a little more active, and there have been several large transactions.

A new stock has come on the market, Nipissing Mining, of Cobalt. It has been placed on the curb markets in New York, Boston and Pittsburg, and appears to be in demand. It looks as if it might be quite an active stock, as soon as the certificates are issued.

It is reported that Consolidated Mining & Smelting is making a record increase in receipts, and that the profits this year will far exceed early estimates.

The following are the latest quotations furnished by Robert Meredith & Co., 57 St. Francois Xavier st.:

	Bid.	Asked.
Consolidated Mines	137	140

OPENED WEAK THEN RALLIED.

Wall Street Market Had a Very Irregular Course.

Wall Street, June 22. — The general pessimism which pervaded the speculative atmosphere this morning as a consequence of yesterday's development, was reflected by further aggressive selling of stocks in the opening hour to-day, but just as it had been obvious yesterday that the buying of stocks was almost wholly for professional account, it was equally plain to-day that the selling was of identical origin. A movement to cover shorts, therefore, induced a smart rally from the early depression, and while the course of prices has been irregular throughout the half session, there was a measurable improvement of tone around noon.

Crop accounts were highly contradictory, late despatches being to the effect that the reports of black rust in some sections of the belt, notably in Nebraska, had been confirmed. Better support was in evidence at certain points, So. Pac. being especially buoyant on heavy buying, accompanied by the rumor that the stock would be placed on a four per cent. dividend basis within 30 days.

COTTON STEADY AT NOON.

Liverpool was due to come unchanged on near and 2 higher on distant. Opened quiet, 1 higher on near and unchanged on distant. At 12.15, steady, net 1 to 2 higher on old and ½ to 1 higher on new. Spot quiet and unchanged, 612d. American mid. Sales 7000, 6000 American. Speculation and export, 700; imports, 3000, all American; estimated port, 6000; last week, 5923; last year, 15,630.

Prices at noon were as follows:

	Open.	High.	Low.	12.30
January	10.50	10.57	10.48	10.52
July	10.35	10.37	10.34	10.37

October	10.40	10.43	10.39	10.42
December	10.46	10.48	10.44	10.48

CONSOLS STILL WEAK.

British consols were weaker again, closing at 88 3-16 for account and 88⅜ for money.

CHEESE MARKETS HELD ABOUT STEADY

Butter Showed no Change, but Egg Market was Easier.

WHEAT MARKET WAS HIGHER

Rains Helped Crops in Ontario, But No More Moisture Wanted—Cotton Market Held Firm.

CHEESE. — The strong, buoyant feeling which was so noticeable in this market about Wednesday seems to have given place to one of steadiness. Although many holders are demanding 11⅜c for finest Ontario cheese, dealers think they would be able to fill any orders they might receive at 11¼c, in fact, trading at that figure was reported this morning. Eastern cheese continues to be quoted at 11 to 11⅛c. There is not quite so much activity observable as a few days ago, but a fair trade is passing, and exports are being well maintained.

Sales of Easterns were reported at 11⅛c.

Country cheese boards yesterday were selling not far from recent figures. Still, the fact that the Peterboro prices were not maintained, indicates that the prices paid on that board were above the market.

The Liverpool public cheese cable was unchanged to-day at 55s 6d to 53s 6d.

Receipts of cheese reported on the Board of Trade to-day were 14,388 boxes.

BUTTER—The market for butter is holding about steady, the tone being very firm, however. Quotations were all the way from 21 to 22c per lb. to-day for salted creamery, according to quality, two per cent. salt bringing the higher figure, when choice. Heavier salted sells at a lower price. There has been a fair turnover in this market during the past few days.

Receipts of butter reported on the Board of Trade to-day were 6916 pkgs.

EGGS. — The trend of the egg market is certainly downwards. Choice quality of Ontario straight gathered eggs, which have been sold right along by one merchant at 17c in wholesale lots, could be had to-day at 16¾c, and possibly 16½c. Other qualities of stock, some of it straight receipts, and some which is generally sold under the name of straight receipts, is selling as low as 16c in all probability. Of course, this stock is not at all equal to the quality first mentioned, but it is fair. There is every reason to look for further declines in the near future, as the stock is deteriorating rapidly, both on account of the heat and the lack of grain feed.

Receipts of eggs reported on the Board of Trade to-day were 1184 cases.

BEANS—Dealers report the bean market very dull. There is but a small demand, as usual at this time of year. Choice primes are quoted at $1.60 to $1.65 per bushel in almost any quantity.

POTASH — The market is dull. First pots are quoted at $5.42 to $5.47½; seconds at $4.75. First pearls are wanted at $8.75.

POTATOES. — The market for potatoes was steady to-day. Some doubtful quality is selling around 70c on track. Prices range all the way from the figure mentioned to 80c per 90 lbs., carloads, on track. In broken lots, delivered into store, sales are being made in 90 lb. bags to grocers at 80 to 90c, according to quality. The demand is hardly as active as it was recently, yet quite a little stock is being turned over.

CHEESE BOARDS STEADY.

Did Not Follow Peterboro and Evinced a Slight Reaction.

Kingston, Ont., June 22.—At the Frontenac cheese board meeting, there was a total of 575 boxes colored boarded, and of white 613 boxes. The bidding opened at 10⅞c; the price rapidly advanced to 11 3-16c, at which figure the market closed.

Roxton Falls, June 22.—At the meeting of the Roxton Falls butter and cheese board, 950 boxes of cheese were boarded. Price bid, 10½c; no sales, salesmen looking for higher prices. Next meeting of board, July 3.

Madoc, Ont., June 22.—Boarded, 1015 boxes of cheese; 225 sold at 11 1-16c, balance at 11c.

Tweed, June 22.—Boarded, 685 boxes of white cheese; all sold at 11c.

Woodstock, Ont., June 22—Little change in the price of cheese is reported this week, 10⅞c per lb. being the prevailing price. The make has largely increased in some localities, owing to veal calves having been mostly disposed of, and the weather conditions have been very favorable for an abundant flow of milk. The prices to-day rule higher than at this time a year ago by 1½c per lb. The pastures are rich and plentiful, and the output power of Oxford County during the week was certainly phenomenal. The cheese, unfortunately, is being shipped too green. Last week the bidding on the Woodstock board ranged from 10¼ to 10 11-16c, the average selling price on the curb being 10⅝c. Yesterday the bidding was exceedingly brisk and competition keen, yet no sales were made on the board, though the bidding ranged from 10⅛ to 10⅞c. This last offering was for the make of one factory, having a superior lot of white. The product of 19 factories was boarded, consisting of 2920 boxes, of which 1550 boxes were white and 1370 boxes colored. On the curb the factories which sold obtained as high as 10⅞c per lb.

GOOD RAINS IN ONTARIO.

Crops Will Be Benefited if Not Succeeded by Moist Weather.

Special to the Montreal Star.

Toronto, Ont., June 22. — Officials of the Agricultural Department and the Observatory agree in stating that the rainfall of the past week or so will have a beneficial effect on the crops, provided that it is now succeeded by less moist weather. Sunday's rain, according to the former officials, was confined to Lake Ontario and points east to Montreal, but other rains and thunderstorms have been general throughout Ontario. Up to this month the rainfall in the province has been about one-half inch above the average.

SHEEPSKIN SALE YESTERDAY

London, June 22.—A sale of 3934 bales of sheepskins was held in Mincing Lane yesterday. Competition was slow and prices irregular, except for half-wooled crossbreds, which were in special demand and advanced ¼d. Merinos were 3 to 7½ per cent. cheaper, and crossbreds showed a loss of 5 per cent. Following are the sales and prices obtained for clothing and combing:

New South Wales—498 bales at 5½d to 10d.
Victoria—476 bales at 5¾d to 1s ½d.
South Australia—233 bales at 5d to 10¾d.
West Australia—688 bales at 6⅝d to 10¾d.
Tasmania—385 bales at 6d to 11¼d.
New Zealand—971 bales at 5¾d, to 1s 1½d.
Punta Arenas—21 bales at 7d to 1s 1½d.

Foreign crop conditions, as reported by Broomhall:

United Kingdom—The crop outlook is fair.

France, Germany and Hungary—Recent weather conditions have been unfavorable. Fine weather, with warmth, is urgently wanted.

Roumania—Weather conditions have improved and the outlook for the crops is fair.

Russia—Odessa reports hot weather. Prospects in the south and south-west are generally favorable, although there are some complaints of lodging. Supplies at Odessa are very small and elsewhere smaller than last week.

Italy, Spain and North Africa—The crop outlook is favorable.

GRAIN CONDITIONS TO BE INVESTIGATED

Commission will be Appointed to Report at Next Session.

GRAIN INSPECTION ACT

Bill Has Passed Committee of the Whole and Was Read a Third Time.

Special Staff Correspondence.

Press Gallery, House of Commons, Ottawa, June 22.—Mr. Fisher's bill to amend the grain inspection act was considered when the House met at 11 a.m. to-day. It was explained that a commission would be appointed to enquire into all the conditions of the grain trade; and that a report would be presented during next session. The grade known as extra Manitoba hard is to be done away with and the word "plump" is to be eliminated from the terms establishing the standard known as "No. 1 Manitoba hard."

The bill establishes grades of winter wheat known as "No. 1 Alberta red"; No. 2 and No. 3. This would give the winter grown wheat of the West a better standing on the grain market.

Mr. Greenway, the Liberal, of Lisgar, Man., discussed the bill. As regards the promised commission he hoped the interests of the wheat grower would be considered. The farmer should not be lost sight of when considering the grain buyer and the miller.

The Canadian standards were too high—higher than the American standards, although the Dakota and Minnesota farmers got more for their wheat than did the farmers in Manitoba.

Mr. Greenway read a resolution passed by a western farmers' association, advocating a lowering of the standards in justice to the grain producers. Farmers should be encouraged to ship their own grain and Winnipeg should be made an order point, so that if their grain was lowered in grade there the farmer could say what was to be done with it.

Mr. Armstrong, Conservative of East Lambton, urged that a Government weigher for butter and cheese be appointed at Montreal.

Then the bill was read a second time, passed in committee of the whole, and read a third time.

The House then took up the bill to amend the Manitoba Grain Act of 1900. It is to prevent farmers' ordering in advance more than one freight car at a time. It is to prevent a selfish man getting a corner on cars to the loss of others wishing to ship grain.

The bill was read a second time and passed in Committee. The third reading was fixed for Tuesday.

The House then went into committee of supply, taking up votes for the department of the Interior.

In regard to votes for the Yukon, Mr. Oliver stated that the Government staff there had been reduced owing to quieter times and thereby a saving in salaries had been effected, amounting this year to $24,600.

The votes were under consideration, when the House rose at 1 o'clock.

WHEAT MARKET SLIGHTLY UP

News Was by No Means Bullish—Argentine Shipments Light—Local Oats Dull.

From the Special Correspondent of The Montreal Star on the Chicago Board of Trade:

Chicago, Ill., June 22.—July sold from 83⅜ to 84 to 83¾, and Sept. from 83½ to 84⅛ to 84, compared with closings yesterday of 83½ and 83⅞, respectively.

While the bulls in wheat were not inclined to alow it to sell to a lower level, they were not anxious to give it support at times when supplies were liberal. The weakness in coarse grains was against the wheat price, and the Modern Miller weekly outlook failed to note the unfavorable conditions claimed by some sections in private advices. An advance proof sheet said in part:

"Where threshing is completed or going on, the field is generally satisfactory, and in many instances is above expectations. The fine character of the wheat is especially commented upon, test weight being heavy and the milling quality equal to last year's crop."

Rains relieved the drought in Nebraska and Northern Kansas, but crop conditions in that locality are regarded as unsatisfactory.

The official Prussian report was bearish.

Stocks at Minneapolis and Duluth decreased 405,000 bushels for the week. Receipts at both points, 226 cars for the day; year ago, 167 cars.

Indian shipments of wheat:

	Last week.	Prev. week.
To U.K., qrs.	126,000	169,000
To Cont., qrs.	5,000	3,000
Argentine shipments to U.K.:		
Wheat, qrs.	30,000	184,000
Maize, qrs.	247,000	248,000
To Cont.:		
Wheat, qrs.	101,000	37,000
Maize, qrs.	86,000	109,000

In Argentine there has been frost, but no damage reported. Preparations for crops are making fair progress.

The Liverpool spot wheat market closed ¼ to ½ down on No. 1 nor. Man., at 6s 6d to 6s 6½d, and ¼ down on No. 2 at 6s 4¼d to 6s 4½d, and on No. 3 at 6s 2¾d to 6s 3d. Options closed ¼ to ⅜d up at 6s 7⅝d for July, 6s 8½d for Sept. and 6s 8½d for Dec.

Antwerp showed no change, closing at 17⅛ for Bahia Blanca; Paris at 23.85 for June, and 22.70 for Sept. and Dec.

At London No. 2 nor. Man. closed at 30s 9d for June and July, spot, and 30s 10½d for July.

Winnipeg wheat market was steady at noon, June being unchanged at 83⅝, July ¼ down at 84¾, and Oct. ⅛ up at 80⅞.

Chicago was ⅛ up at 83⅞ for July, Sept. being steady at 83¾. July corn was ½ down at 51½; July oats were ⅝ down at 38⅜.

At Duluth, July wheat was ⅛ up at 85½.

Inspections at Winnipeg yesterday were:

	Cars.
No. 1 hard	0
No. 1 northern	50
No. 2 northern	9
No. 3 northern	0
No. 4 northern	0
Other grades	7
Total	76
Last year	67

England—Weather fine and warm; forecast, unsettled.

France—Weather hot; forecast, north, cloudy and threatening; south, partly cloudy and threatening.

LOCAL MARKET—The market for oats showed no change this morning. Dealers still reported a dull market at steady prices, being 43½c in store for No. 2, and 43c for No. 3, and 41½c for No. 4.

MONTREAL TRADE IS DULL.

Wholesale Activity is Slackening Now That Midsummer is Near.

Dun's Bulletin of to-morrow will say: With the season getting on towards midsummer, there is naturally some indications of a slackening in wholesale activity, though in certain lines, notably metals and hardware, there is a continued brisk distribution. The warmer weather which has now set in is proving helpful to retailers of dry goods and kindred lines. Good business is reported in the export of dairy products, last week's shipments of cheese being the largest of the season, aggregating 103,645 boxes, while 18,365 packages of butter were also sent abroad. With regard to merchandise values, no noteworthy changes have developed during the week. Collections may be called fair, and call money is easier at 5 to 5½ per cent. The fewness of failures reported is cause for congratulation, only two district insolvencies being reported for the week.

BAILIFF'S SALE—PROVINCE OF QUEBEC, District of Montreal, No. 17796. Circuit Court. E. Cartier, Plaintiff, vs. Dr. D. Lalonde and vir, Defendant, and Mtre. P. R. Goyet, Advocate, Distrayant. On the third day of July, 1906, at ten of the clock in the forenoon, at the domicile of the said Defendant, No. 7 Perreault lane, in the City of Montreal, will be sold, by authority of Justice, all the goods and chattels of the said Defendant, seized in this cause, consisting of one little desk, one express, etc. Conditions cash. J. CAISSE, B. S. C. Montreal, 21st June, 1906.

It is predicted that American hardwood forests will last only thirty-five years longer.

COBALT.
GROWING GREATER and LARGER EVERY DAY
Are you interested? Now is the time to buy before the companies make shipments and start paying dividends.
We strongly advise the purchase of SILVER BAR Cobalt Mining Company's stock at market prices. This company has now almost enough ore bagged to make a shipment, and believe they will ship within three weeks. Their stock is exceedingly cheap. It will make all who buy it now a good profit.

Seek to Have Donation Quashed.

Joseph Desjardins and others have taken action against Miss Clara Deschamps to have quashed a donation in her favor of $1,000 by the late C. Guindon, whose heirs the plaintiffs are. The sum in question is the amount of a policy in the Society of French-Canadian Artisans. The plaintiffs allege that according to the rules of the society such a donation can be made only to a wife or betrothed, and that the defendant stood in neither of these relations to the deceased. They are represented by Mr. D. L. Desbois.

DISPUTE OVER OCEAN RECORD

Allan and Canadian Pacific Lines Both Lay Claim To It.

BEST VOYAGES COMPARED

Based on Average Day's Run Virginian Shows 17.60 Knots, Empress 17.06.

An interesting controversy is now taking place between the Allans and the C. P. R. relative to the fastest run ever made by a steamship between Great Britain and Canada.

The London and Liverpool daily papers recently printed a statement that the Empress of Britain, of the C. P. R. Company's Atlantic line, holds the record between Moville and Rimouski. This the Allans deny, stating with positiveness that to their turbiner Virginian belongs the credit of making the fastest run between Moville and Rimouski.

As the conditions under which the two steamships sailed their best voyages are very different, it is hard to draw a sharp comparison of the relative merits of the two vessels.

COMPARISON MADE.

The time of passage of the Empress of Britain on her last trip was 5 days, 16 hours and 47 minutes, to which must be added the difference in time. In the case of the Empress the officers reckoned 4 1-2 hours' difference in time, while the Allans adhere to the old and almost universal custom of reckoning the difference on a westward passage as five hours, the difference between Greenwich time and standard time at Rimouski, Quebec, or Montreal, it all being the same.

ALLOWANCES MADE.

Reckoning the Empress on the same basis as the Allan liner would give 5 days 21 hours and 47 minutes. The Virginian's record voyage Moville to Rimouski computing the five hours' difference in time was 5 days 22 hours and 20 minutes. Again, however, the comparison is not complete, as the Virginian's trip is reckoned from the minute she left Moville with the mails which the Empress' time was calculated from the time she passed Moville, well out in the channel. This would give the Empress of Britain some little advantage, as it would mean the difference between the straight course and a deviation made by the Virginian in order to get into Moville for the taking on of mails. A glance at the map would indicate that the advantage lies with the Empress to an extent of perhaps fifty miles, perhaps a little less.

BY SHIP'S LOGS.

Under the circumstances the logs of the two vessels placed side by side are interesting, but again, however, the comparison is not exact as in the case of Virginian, the record is from Moville to Rimouski, while in the case of the Empress of Britain it is from Moville to Quebec. They are as follows:

	Virginian.	Of Brit.
Part of first day..	396	243
Second day	441	428
Third day..	447	443
Fourth day	431	421
Fifth day	425	4.9
Sixth day to Rimouski	355	*403
To Quebec..		440

* Whole Day

Computing the above on the only equitable basis, that is the knots run in twenty-four hours on an average, throughout the voyage, it indicates that the Virginian sailed faster, her time being 17.60 knots per hour while that of the Empress of Britain was 17.06.

MANY SAILING FOR EUROPE

The Empress of Britain Will Leave With a Full List of Cabin Passengers.

On Saturday, the 23rd, the C. P. R. steamship Empress of Britain sails from Quebec with what is perhaps the largest list of cabin passengers, both first and second, that has ever left Canada on a voyage. The saloon will carry 328 and the second cabin 250 passengers, making a total of 578 in the two classes. In addition the Empress will carry 300 steerage. The saloon list is as follows:

Dr. H. M. Aml, Ottawa; Mr. J. H. Anderson, Vancouver, B.C.; Mr. Percy Ashton, Mrs. Ashton, London, Eng.

Why everybody likes Abbey's Salt.

It is so pleasant to the taste that even children take it with pleasure.

It does not "cake" or flake on top of the water.

It effervesces slowly—may be drunk leisurely, without choking or blinding the user like seidlitz powders.

The granules all dissolve—thus the full benefit of the salt is obtained with every dose.

It is the ideal laxative and tonic to purify the blood—regulate stomach, liver, kidneys and bowels—and build up the system.

25c. and 60c. a bottle.

CITY TO CONTROL COMMISSIONERS ST.

Negotiations to Complete Civic Authority Over That Thoroughfare are Afoot.

At a short meeting of the Roads Committee, yesterday afternoon, it was explained by Chairman Lariviere that negotiations had been started for the city to get the entire control of Commissioners street.

From further explanations given it appeared that the city only owned a part of the street; a section of it being the property of the Harbor Board. It appeared that the city had been paving the whole street for some years past and the contention now was that the city ought to have full control of it.

The chairman also stated that Mayor Ekers had urged that steps be taken at once so the city might acquire the entire street.

Members of the committee said they would do their utmost so the city could get control of the street. Were this end attained the city would greatly improve the roadway and make it more suitable for heavy traffic.

Several appointments were made by the committee. Upon motion of Ald. O'Connell, Mr. A. Dillon, and upon motion of Ald. J. B. A. Martin, M. J. Lamoureux, were named clerks of the department. Mr. J. E. Blanchard was also appointed assistant engineer, and Mr. A. Charest and Mr. W. Bracken, section foremen.

Several contracts for sewers were awarded, the cost of which is mostly borne by the proprietors. M. Lapointe was given the contract for the sewer on Wurtele street, from Forsyth to Hochelaga street; on Hochelaga street for certain sections of sewers; on Hogan street, between Forsyth and Hochelaga; L. Giguere & Co., on Davidson and Montgomery streets; C. Bellehumeur, on De Levis street, from Forsyth to Hochelaga.

TO FORM MUTUAL FIRE COMPANIES

Manufacturers' Association Has Circularized Its Members Regarding the Proposal.

For months past the Canadian Manufacturers' Association has devoted a good deal of time and thought to the fire insurance business, the idea being to organize companies on the order of the New England mutuals.

This work of organization has now reached a stage where it is up to the members of the Canadian Manufacturers' Association to state whether they will support such companies if created. A circular sent to the various members of the association incorporates the following facts:

It is proposed to incorporate with Dominion Charter two mutual fire insurance companies for the insurance of manufacturing establishments of eligible construction, without special inherent hazard and where the exercise of proper precaution and care promise more than the usual exemption from losses, such companies to be known as The Industrial Mutual Fire Insurance Company and The Eastern Manufacturers' Mutual Fire Insurance Company, the head office of the former to be in Toronto and the latter in Montreal.

A form of agreement has been drawn up by the committee with the object of having the members, favorable, definitely announce their intention of supporting the formation of Mutual Fire Insurance Companies for manufacturers only. Arrangements to organize the companies outlined will be definitely decided upon by the members returning the agreement form duly filled in. The association, as such, cannot recognize or control insurance companies, so they take this means of ascertaining the names of those who may be interested, that they may be called together at a later date for the purpose of taking such further proceedings as may be necessary.

AUSTRALIA YIELDS PALM TO CANADA

Wealthy Antipodean Farmer is Considering Emigration From Commonwealth to Dominion.

Mr. James Western, an Australian farmer of wealth, paid a visit to the Canadian Pacific Railway Company's offices to-day. Mr. Western is thinking seriously of settling up his estate in Australia and moving to Canada.

He said to-day: "I have just returned from the great North-West and it seems to me that it is the greatest country in the world. I heard some discussions as to whether or not there will be room for all the railway projects now under contemplation. Room for them? There's room for half a dozen and they would all pay. I cannot say for certain at the present time what I shall do as it will depend much upon my family. I am, however, going to tell my four sons that Canada is the place for them."

KEEP CHILDREN WELL.

In thousands of homes throughout Canada there are bright, thriving children who have been made well and are kept well by the use of Baby's Own Tablets. In many homes parents say this medicine saved a precious little life. Dr. A. Danais, L.D.S., Riviere du Loup, Que., says: "At the age of five months we thought our little girl dying. Nothing we did for her helped her until we gave her Baby's Own Tablets, and only those who have seen her can realize what a change this medicine has wrought in our child. She is now about eighteen months old, eats well, sleeps well and is a lively, laughing child, and weighs 37 pounds. We always keep the Tablets in the house now, for we know their great value." If mothers wish to feel absolutely safe they should keep a box of Baby's Own Tablets in the house always. They cure all the minor ailments of children and are absolutely safe. Sold by medicine dealers or sent by mail at 25 cents a box, by writing the Dr. Williams Medicine Co., Brockville, Ont.

Some New Mission : : Furniture. : :

A new line of Mission furniture, in an early English finish, has just arrived.

This finish is unlike weathered oak.

In the early English finish the pores of the wood are filled.

For this reason, the wood is not as susceptible to the action of heat or cold.

The finish is smoother and somewhat better than weathered oak.

Backs and seats have loose cushions heavily laced.

These cushions are deeply padded and filled with the best felted cotton.

They're covered with the finest quality leather.

The contrast between the old English finish and the red leather is very effective.

Made throughout on Mission lines—plain and severe.

We have this furniture in rockers, Morris chairs, and arm chairs.

Prices from $18 to $42 less 10 p. c.

AN IMPORTANT SALE OF WHITE SHIRTWAISTS

OUR merchandising system demands that all stocks shall move with equal rapidity. Sometimes when purchasing abnormal quantities of certain lines, a miscalculation may be made, and then it is that drastic measures must be immediately taken to bring these quantities down to their correct ratio.

That explains why on Saturday we shall sell

at $1.75 each

any $2.25 Shirtwaist in the Department

The quantity we have on hand of shirtwaists at $2.25 is entirely out of proportion to the rest of the stock.

Amongst them there will be White Muslin Shirtwaists in six different styles, pretty allover embroidery fronts, some with five rows of fine embroidery in front, others with embroidered panels and fine tucks, embroidery collar and cuffs; still another in an Irish hand embroidered linen, and an American waist in a fine muslin Batiste, with twenty half-inch tucks down front to bust, some of these styles are open back and short sleeves; others with long sleeves and deep cuffs. Regular marked prices are $2.25 each. Special, Saturday, each $1.75

CLUB BAGS, SUIT CASES AND STEAMER TRUNKS

Some that have become slightly soiled,
Regular Prices $5, $6 up to $9, Saturday **$3.99**

A lot of suit cases, club bags, tourists' trunks and steamer trunks that have become slightly damaged during the making of recent improvements on the top floor, some with just a few spots of paint, hardly noticeable, but yet not in what we would call a perfect condition, will be offered on Saturday at $3.99 each, notwithstanding the fact that they were formerly priced $5, $6 and up to $9. MONTREAL MEMBER ON MONCTON DEAL

Mr. Ames Gives Clear Exposition of the Famous Purchase.

THE MINISTER'S DEFENCE

Opposition Points Out the Folly of Employment of a Middleman.

Special Staff Correspondence.

Press Gallery, House of Commons, Ottawa, June 22. When the House met at 8 o'clock yesterday evening the motion to go into committee of supply was made, and then Mr. Ames, Conservative of St. Antoine, Montreal, addressed the House on the Moncton land deal, recently investigated before the Public Accounts' Committee. Mr. Ames concluded th a resolution succinctly reciting the facts of the case, concluding with a censure on the Government for their part in the transaction.

Mr. Ames spoke briefly, but all the facts of the case he put before the House clearly and in a forcible manner. If any were ignorant of the se they could no longer plead ignorance when Mr. Ames had concluded.

Just prior to the last general elections in November, 1904, the land in question was acquired by the federal Government for the purpose of enlarging the yards of the Intercolonial railway at Moncton. Mr. Ames did not question the necessity of the purchase, but the manner in which it was accomplished was the subject of grave complaint.

On one side this land was bounded by land, already owned by the railway. It was not accessible from the east or the south, while on the west it was bounded by a creek. On the north it was cut off from the street by other property. And most of the land was low, much below the level of the railway tracks.

WHAT THE PROPERTY WAS.

The property consisted of five lots; namely, th Tanner property, containing 5 acres; the Jones property, 6.3 acres; the Gibson property, 3.2 acres; the Milner property, 3.93 acres; and the Gibson fraction, 3.35 acres, a total of 18.88 acres.

With the exception of one small lot the land was only valuable for railway purposes and even for that it would have to be graded up for much of it was marsh land dyked in from the Bay of Fundy. It was unsuitable for building purposes of any kind. The only possible purchaser was the Intercolonial Railway, and therefore it should have been acquired at a reasonable price.

The best part was the Tannery lot which was about on the level of the railway yard, and it was owned by a Moncton lawyer named Robt. W. Hewson and two other heirs. For ten years they had been trying to sell it to the Intercolonial, but had not succeeded, the railway not being ready to buy. This was not for lack of funds, because for three years there had been available a sum of $200,000 for the purpose of enlarging the Moncton yards. The Government during all that time could have purchased the land had they so desired.

It was evident that by May 23, 1904, the Government had changed their attitude upon this question as correspondence with the general manager of the Intercolonial Railway contained the statement that "the old Tannery property was for sale."

THE LAND FOR SALE.

Mr. Pottinger, general manager, said that he was told by the Minister (Mr. Emmerson) that the land was for sale, and the Minister said that he received the information from one Matthew Lodge, of Moncton. It was in Ottawa that Lodge told Mr. Emmerson and discussed the matter with him.

Here the lawyer Hewson appeared in the case. He gave Lodge an option on the property of which he was a part owner and Hewson was told to secure options on all the other lots, the price mentioned being $5,000. These were to be secured for Lodge, who did not appear in the documents relating to the case, but who all the time was "the power behind the throne."

Well, the result of it all was that Hewson bought all the properties and almost immediately after they were turned over to the Government at greatly enhanced prices.

The Jones property was bought on September 15, 1904, for $3,050, being at the rate of $484 an acre; on October 10, of the same year, it was sold to the Government for $6,300, being $1,000 an acre, and yielding a profit of 106 per cent.

On September 14, of the same year, the Gibson property was acquired by Hewson for $925, or $280 an acre. It was sold to the Government on October 10, for $3,300, or $1,000 an acre, realizing a profit of 250 per cent.

HEWSON'S PURCHASES.

Then on May 6, 1905, the Milner property was purchased by Hewson for $1,000, or $280 an acre, and 23 days later it was sold to the Government for $3,930, or $1,000 an acre, being a profit of 293 per cent.

The fraction of a lot—the Gibson fraction—was sold on May 6, 1905, for $100, being at the rate of $286 an acre, and sold to the Government on May 29, for $350, or at the rate of $1,000 an acre, a profit of 250 per cent.

The assessed value of all the land was $5,000, a little more than one-fourth of the amount paid by the Government.

The Tannery property was sold direct by Hewson to the Government, and it was a legitimate transaction, and for the purpose of studying the case that sale might be put aside.

The four other lots contained 13.88 acres, for which was paid, the sum of $5,075, and three weeks later those lots were sold to the Government to the advantage of Lodge for $13,880—a clear profit of $8,805. Hewson on behalf of Lodge paid at the rate of $387 an acre, and he sold it to the Government on account of Lodge, at the rate of $1,000 an acre. Mr. Hewson had said that his lot was the best and yet the Government paid as high a price for the marsh land purchased from the other small owners and turned over by Mr. Hewson to the profit of Lodge.

LODGE'S PROFIT.

The lawyer, Hewson, did all the work; he made the purchases, he examined the titles, he did the business, and for this he was paid $300. Lodge did nothing but throw a spell over the Government and yet he made $8,500 out of the country.

Why was Mr. Hewson brought into the case? Because he was part owner of a lot, and because the other owners were his clients and some his relatives.

He was able to get hold of the property, whereas it might have been a difficulty matter for Lodge to have accomplished.

But why did not the Government secure the services of Mr. Hewson and save Lodge's profit? By allowing Lodge to have anything to do with the land the country lost all that Lodge made.

And this should be borne in mind, said Mr. Ames—this land was purchased with money taken out of the capital account of the I. C. R., that money was borrowed and for many years to come the people of this country would be paying interest on the $8,500 made by Lodge—on the "rake-off" he secured by the deal.

If this transaction could be defended, then this method of doing business could be defended—a system that gave to unnecessary middlemen a "rake-off" on public business.

When one thought of these things, one ceased to be surprised at the deficits on the Intercolonial Railway.

Was the House going to stand by such things, and thereby say "do it again"?

Mr. Ames concluded with a resolution reciting the facts of the case as he had just presented it to the House, the closing paragraph of the resolution reading:

"That the said Hewson could have secured for the Government the said lands at the same price at which he did secure the same for the said Matthew Lodge.

"That the action of the Government, in paying to a middleman the sum of $8,505 more than was necessary in order to acquire the said property, was unjustifiable and deserves the censure of this House."

MR. EMMERSON'S DEFENCE.

Then Mr. Emmerson made his defence, which, in short, was to the effect that he knew nothing about a middleman in the case; the case had been left in the hands of his officials; they had purchased the land at a fair, reasonable price, and that was all there was about it.

Before the purchase the land had been valued by Mayor Ryan, of Moncton; W. Sumner, the local Conservative leader, and Mr. H. G. Marr, a respectable merchant of Moncton. They had found the price fair and reasonable. The price of $1,000 an acre was low in comparison with that of $1,000 for half an acre paid by the late Conservative Government in 1884, when Moncton was a small place, and land values much lower than they were to-day.

In securing the land the department had employed business methods, and had secured the property at a low price. He knew nothing about Lodge in the case; whatever profit he and Mr. Hewson made was a matter between the two.

MR. FOSTER'S ARRAIGNMENT.

Mr. Foster, Conservative, of North Toronto, spoke briefly for, said he, there was little to add to what Mr. Ames had said.

He dwelt upon a few points brought out in the investigation. It appeared from the evidence that when in Ottawa in May, 1904, Lodge had said to Mr. Emmerson that the old Tannery property was for sale, and Mr. Emmerson had remarked, "I will have to enquire into it."

That, said Mr. Foster, was a good hint to a sharp man like Lodge. It put Lodge on the scent; he followed it up, and was "in at the death."

In the following August Mr. Emmerson was in Moncton and went over the land publicly, and a few months later the middleman, Lodge, had options on the land, and was prepared to hand it over to the Government.

Because of the middleman, the Government had paid out $8,500 more than there was any need of paying—that much more than Mr. Hewson had paid for the land a few weeks before.

LODGE A LIBERAL.

It was not true that Lodge was a strong Conservative. During the last nine or ten years he had been an active supporter of the Liberal Government, and was a friend and companion of the Minister of Railways.

Mr. Lodge had made a profit of 167 per cent. on an investment of $5,000 turned over within a few weeks.

Mr. Hewson did all the work and got $300; Lodge did nothing and got $8,500.

This was a plan of operation that ought to be stopped. The employment of middlemen should cease, and the safest course would be to expropriate when land was required.

MR. FIELDING'S JUDGMENT.

The next speaker was Mr. Fielding, Minister of Finance. He said that the essence of the matter was whether or not the Minister of Railways had given any assurance to Mr. Matthew Lodge that the Government would buy the land. The Minister had made a positive statement that no such assurance had been given to Mr. Lodge, therefore the case against him falls to the ground. It would be legitimate criticism to say that the Minister should have purchased the land at an earlier date, but the line of argument adopted was not fair. Mr. Fielding argued that Moncton is an important city and that $1,000 an acre was not an excessive price to pay for land there. Higher prices had been paid in other Canadian cities of less population and poorer prospects.

Mr. R. L. Borden summarized the main facts of the case in a short speech. Mr. Fielding, he said, was apparently more concerned in defending the actions of his party than in safeguarding the public interests. He was ready to justify this purchase of land at an advance of 160 per cent. over the price paid for it three weeks before as a consequence of which Mr. Lodge had got $8,505 of the people's money. He did not argue with Mr. Fielding's view that the charge depends on proof that Mr. Lodge had knowledge that the land would be bought. If Mr. Lodge had only guessed at this it must be admitted that he had made a pretty shrewd guess. But Mr. Lodge evidently had something to encourage him in the idea of selling the land to the I. C. R. The Minister admitted having a conversation with him and it would seem that something had been said which made it desirable for Mr. Lodge to get options on the land. When the Minister was at Moncton, in August, Mr. Lodge seemed to hope that his expectations were likely to be realized. It was a remarkable coincidence that he had secured options only on such property as the I. C. R. found it convenient to purchase. It was another remarkable coincidence that the Department decided to secure the land at practically the same time Mr. Lodge got the options. Apparently there was no necessity to buy the land at the time as part of it had since been leased for pasturage purposes. The whole circumstances were remarkable, Mr. Borden declared, and the member for St. Antoine was amply justified in bringing the matter up in the House. Every word of the proposed resolution could be proved from the records and he would support it with pleasure.

Dr. Reche, Liberal, of Halifax, and Dr. Sproule, Conservative, followed; and then the vote was taken. The motion was voted down on a division of 89 to 46. Mr. Verville, Labor member for Maisonneuve, voted with the Government.

The House then went into committee of supply, taking up the estimates for the Department of the Interior.

The sum of $650,000 was voted for general immigration expenses. In all a little more than one million dollars were voted. During the discussion it was stated that the boundary line from Lake Superior to the Pacific Coast.

At 1.25 this morning the committee rose and the House adjourned.

A HEALTHY OLD AGE

OFTEN THE BEST PART OF LIFE

Help for Women Passing Through Change of Life.

Providence has allotted us each at least seventy years in which to fulfill our mission in life, and it is generally our own fault if we die prematurely.

Nervous exhaustion invites disease. This statement is the positive truth.

When everything becomes a burden and you cannot walk a few blocks without excessive fatigue, and you break out into perspiration easily, and your face flushes, and you grow excited and shaky at the least provocation and you cannot bear to be crossed in anything, you are in danger; your nerves have given out; you need building up at once! To build up woman's nervous system and during the period of change of life we know of no better medicine than Lydia E. Pinkham's Vegetable Compound. Here is an illustration. Mrs. Mary J. Dabbruz, of 150 Main Street, Winnipeg, Manitoba, writes: Dear Mrs. Pinkham:—

"Lydia E. Pinkham's Vegetable Compound has been a blessing to me through that delicate period known as the change of life. For six years it disturbed my entire system. I had hot flushes, was extremely nervous, became pale and debilitated, very irregular in the monthly flow, and the blood all seemed to be in my head. I had frequent palpitation and throbbing of the heart; in fact, my whole system seemed to be in disorder.

"I received no relief from the suffering incident to this period until I took Lydia E. Pinkham's Vegetable Compound; but I date my relief from the time I took the first bottle. I gradually improved, nature took her course painlessly, and in due time I was a well woman."

Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, of Lynn, Mass., invites all sick and ailing women to write her for advice. Her great experience is at their service, free of cost.

Outing Costumes

The outing costume is a serious problem for the Summer girls, and still more serious for the older women.

When a suit of dressy form is under consideration, of course the dressmaker can work wonders, but, oh! the cost is wonderful in proportion. We have overcome the iniquities of excessive prices, for ordinary purses, in our ready-to-wear department. Here we have suits and waists at little more than the cost of materials; models, exact copies of the masterpieces of fashion, elaborately and appropriately trimmed.

The prices are lower than the same goods cost in other stores, because we sell more than others and can afford smaller profits and more of them.

HAMILTON'S

The Right Store in the Right Place.

OUR NEW STORE is neither too far West to inconvenience our friends who may wish to reach us from the East or North part of the city, nor too far uptown to occasion any travel to speak of to our Point St. Charles patrons, whilst every Westmount car passes our door.

It's Easy of Access to All Points, that's what everybody says about our new location—and what everybody says must be true.

Our Aim is to make our new home the model retail store of the city, if hard work, push, energy, honorable methods, absolute reliability and always making it profitable for you to buy here will do it—mark our word, **WE WILL.** This explains in great measure why we sell reliable seasonable goods so much below prevailing prices, some instances of which will be found in to-day's Store News.

SATURDAY ON THE MAIN FLOOR.

French Kid "Sample" Belts

We purchased about 100 of them the other day from the agent of a French manufacturer who was soliciting orders for them from the trade. They are a new style of belt that are not as yet on sale in this market.

Made of fine dressed and undressed kid, in white, black and fancy leathers, shaped backs, some have front and back buckles, others single front ones. Belts that would retail at an average of about $1.50 each. Special for Saturday at 75c

Ladies' and Men's Umbrellas

The durable unchangeable kind that looks as well and wears much better than silk. Full sizes in both ladies' and men's styles—and a variety of handles that will please the most fastidious.

Covered in fast black unchangeable twills, with steel rod and paragon frame, have the new bulb runner that will save your gloves from tearing when opening or closing. Umbrellas that are excellent values at $1.00. Saturday 75c

Ladies' Lace Chemisettes

The neckwear makers knowing the outlet we have here for anything particularly new, and especially when the price is enticing, are offering us some wonderful inducements this season. Here is an instance of it:

25 doz. White and Cream Lace Chemisettes, in Guipure and Oriental, assorted in about twelve different designs; they were manufactured to be a leader at 69c, at least so the maker says. We bought them so as to sell them on Saturday at 35c

SATURDAY ON THE FIRST FLOOR.

Messaline Silks

That soft clinging make of silk that is so much demanded this season for Waists; it's a 75c value, but because we've only Nile, cardinal, gray, navy and black to offer you, though any of them might be the shade you'd prefer. To-morrow we'll sell them at 49c

Foulard Silks

That pretty light weight figured Silk fabric that is usually preferred for negligees and house dresses, black and navy grounds, with small and medium white floral and spot designs, the balance of our 75c, 69c and 59c qualities. Saturday 35c

French Albatross

The favorite summer weight material that is fast superseding voiles and canvas cloths, strictly all-wool and double fold. Your choice of such desirable shades as cream, sky, pink, gray, red, navy, Nile, etc., to-morrow, Saturday, at 25c

Scotch Thread Ginghams

This is a collection of 10c, 12 1-2c and 15c qualities, no full range of any one kind, of course, or we'd sell them at their regular values, especially as the colors and patterns are all that could be desired. Just to clear up stock we'll sell them to-morrow all in one lot at 8½c

We insert this line at the foot of our announcement in hopes that too many people won't see it, as we have but 20 pieces to sell at the price, and don't wish to disappoint anybody. However, if you come early enough to-morrow you can have a length of this FINE WHITE VICTORIA LAWN AT 7½c yard, while it lasts.

THE WEATHER

PROBABILITIES FOR THE NEXT 24 HOURS

Moderate to fresh south to south-west winds; mostly fair and warm to-day. Showers and thunderstorms becoming general during the night and on Saturday.

To-day began very promisingly. Great heavy clouds covered the sky and seemed to foretell a delicious thunderstorm or at least a pleasant shower. But after a few drops of rain it all blew off and the sun came out bright and warm and the hopes of every one who was looking for a cooling rain fell again. But still the persevering weather prophet keeps prophesying showers and storms. If he keeps at it long enough he will surely be right some day.

SIXTY-SIX YEARS IN THE MINISTRY.

Archbishop Bond's Anniversary Celebrated Quietly at Cathedral—The Primate's Health.

In view of his recent ill-health and present convalescent condition, the celebration at the Cathedral of the sixty-sixth anniversary of Archbishop Bond's ordination as a priest was a very quiet one. The Primate's health is steadily improving, however, and he is able to go out every day, though still unable to participate in the services at the church. But considering his advanced age of ninety years his present state of health is remarkably good.

It was just sixty-six years ago that Archbishop Bond received his ordination to the ministry at the hands of Bishop Mountain in the Quebec Cathedral. After some years spent as a missionary at Naperville and as pastor at Lachine, he became assistant to Dr. Leach, rector of St. George's Church here, whom he afterwards succeeded, officiating for over thirty years.

During this time he had been appointed Archdeacon of Hochelaga and later Dean of Montreal. In 1879 he was consecrated Bishop of Montreal, and seven years ago was consecrated Archbishop. On the death of Archbishop Mackay, of Rupert's Land, he was chosen by the House of Bishops as Primate of all Canada.

Blockade in Lachine Canal.

The coal barge which for upward of forty-eight hours has blocked navigation in the Lachine canal is still in place, though the coal has been removed. It is hoped that the barge will be floated out of the lock this afternoon, when navigation can once more be resumed.

AGONY AFTER EATING

Dr. Williams' Pink Pills Cure the Worst Cases of Indigestion.

"I suffered so much with indigestion that my life had become a burden," says Miss Nellie Archibald, of Sheet Harbor, N.S. "Every time I took even the lightest meal it caused me hours of agony. The trouble caused a choking sensation in the region of my heart, which seriously alarmed me. My inability to properly digest my food, left me so weak and run down that I could not perform even the lightest housework, and I would tire out going up a few steps slowly. I sought medical aid, and tried several medicines, but without getting the least benefit. My sister, who lived at a considerable distance, and who had been an invalid wrote us about this time that she had been cured through using Dr. Williams' Pink Pills, and this decided me to give them a fair trial, practically as a last resort. In the course of a few weeks there was a notable change in my condition, and I began to relish my meals. From that on I began to gain new strength, and by the time I had used seven boxes all signs of the trouble had vanished and I was once more enjoying good health, and I have not since had any return of the trouble."

Dr. Williams' Pink Pills cure indigestion, because they make the rich red blood that brings tone and strength to the stomach. Nearly all the common ailments are due to bad blood, and when the bad blood is turned into good blood by Dr. Williams' Pink Pills, the trouble disappears. That is why these pills cure anaemia, dizziness, heart palpitation, general debility, kidney trouble, rheumatism, sciatica, lumbago and nervous troubles, such as neuralgia, paralysis and St. Vitus' dance. That is why they bring ease and comfort at all stages of womanhood and girlhood, and cure their secret ailments when the blood supply becomes weak, scanty or irregular. But you must get the genuine pills. Substitutes and imitations which some dealers offer never cure anything. When you buy the pills, see that the full name, Dr. Williams' Pink Pills for Pale People, is printed on the wrapper around each box. Sold by all dealers or sent by mail at 50 cents a box or six boxes for $2.50, by writing the Dr. Williams Medicine Co., Brockville, Ont.

CATHEDRALS, CONVENT AND HOSPICE DESTROYED BY FIRE IN NICOLET--ONE NUN DIES FROM SHOCK

(Continued from page one.)

best efforts towards protecting the building when suddenly a splinter, sailing through the air, high above the crowd, landed upon the roof of the convent, and it, dry as every building in the neighborhood was, in an instant, a mass of flames.

By almost superhuman efforts the Seminary and the Bishop's palace, lying somewhat outside of the rectangle in which the ecclesiastical buildings are placed, were saved.

One dwelling, that of Mr. G. Richard, was also burnt.

The Sisters of the Assumption, to the number of about two hundred, are quartered for the time being in the Brothers' School.

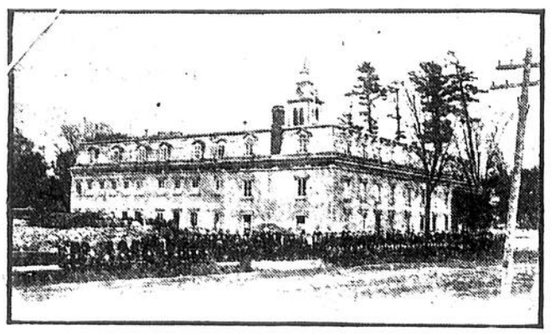
The St. Hyacinthe fire brigade, after rendering such splendid aid, returned home at six o'clock in the morning.

Nicolet's Religious Institutions.

Nicolet is situated on the south shore of the St. Lawrence about midway between Montreal and Quebec. It is a small town, but has always been remarkable for its religious institutions. It possessed a bishopric, a seminary, hospital, convent of the Sisters of the Precious Blood, and two fine academies conducted by religious orders. The new cathedral, only lately finished, was the finest in that part of the country, and cost almost $300,000. Monsignor Gravel was the first Bishop of Nicolet, and the ceremony of his enthroning was the occasion of a magnificent celebration in 1885.

Nicolet has a population of 3,000, and is furnished with all modern conveniences.

One of the most important institutions at Nicolet is the seminary, which



THE NICOLET FIRE.—Christian Brothers' school, which suffered some.

was founded in 1801 by the bequest of the Rev. Father Brassard, then parish priest of Nicolet. In 1803 it was raised to the dignity of a classical college by Monsignor Denault, Archbishop of Quebec. But its real founder and organizer was Monsignor Plessis, who, in 1806, bought over with his own money the growing institution which unforeseen circumstances had caused to pass into the hands of strangers. It was considerably enlarged in 1813 by the distinguished prelate whose desire it was to establish the institution on the firmest and broadest foundation. With that object he obtained from the Government letters-patent in 1821. In 1827 the present buildings occupied by the seminary were begun. It was affiliated to Laval University in 1863. The college is conducted by secular priests, formerly under the control of the Bishop of Quebec, but now under the Bishop of Nicolet. It celebrated its centenary in 1903.

The congregation of the Sisters of the Assumption, which was founded in 1850 at St. Gregoire le Grand, had its mother house transferred to Nicolet in 1872, where a fine building was constructed.

The Hotel Dieu, which was saved from the flames, was founded in 1886 by four sisters who came from the Hotel Dieu, St. Hyacinthe. The institution grew rapidly, and contains 70 professed nuns, and twenty novices, who devote themselves to the work of attending to the poor, the sick and orphans, and also to do outside nursing in the town and parish. The poor looked after by the institution number almost two hundred, and of these about ninety are orphans. This institution has also been the mother house for several others of the kind in different parts of the district.

The Commercial Academy of Nicolet was founded in 1801 by the Rev. Father Brassard, then parish priest, who left the necessary funds for the support of the school master who was to teach the children of the parish and neighborhood the principles of elementary instruction. In 1887 it was turned over to the Christian Brothers, and has since been greatly improved. Its grounds and buildings compare favorably with those of any similar institution in that part of the country.

The Convent of the Assumption was valued at $200,000. Rev. Sister St. Monique was the superior of the institution.

The St. Joseph residence has for some time been the retreat of retired priests of the diocese of Nicolet, and at the time of the fire was occupied by Mgr. P. H. Sugor and Rev. F. E. Baril. It was a fine building, and was valued at between $15,000 and $20,000.

The old Cathedral was built in 1831, and was for many years used as the parish church until the want of a larger building became pressing and the new church was built.

DR. F. J. SHEPHERD IS PRESIDENT

Succeeds Sir George A. Drummond as Head of the Art Association.

At the annual meeting of the Art Association yesterday afternoon there was much regret expressed at the retirement from the presidency of Sir George Drummond. The following resolution was passed:

"That the members of this association, in general meeting assembled, learn with regret that Sir George A. Drummond has resigned his position as one of the council; and they desire to place on record their high appreciation of the unflagging zeal with which, in the earlier struggles of the association, as in its more prosperous days, he devoted himself to the furthering of its interests and those of art generally; and further to express their admiration of his keen judgment and far-seeing action, which contributed so materially to the placing of the affairs of this association on a firm and solid basis."

The financial statement showed the receipts to have been $17,676, and the expenditures $206 less.

Election of officers was then proceeded with, and resulted as follows, one ballot only being cast:

President—Dr. F. J. Shepherd.
Vice-president—Mr. C. J. Fleet.
Treasurer—Mr. W. J. Learmont.
Councillors for two years — Messrs. E. S. Clouston, James Ross, J. R. Wilson, Dr. W. Gardner, D. A. Watt, and James Crathern.

Fingers Cut Off by Cycle Sprocket.

Jennie Renaud, 10 years of age, who lives with her parents at 200 Dufferin street, will lose two fingers of her right hand as the result of playing with a bicycle hanging from a ceiling. The little girl was standing on a chair revolving the pedals when she poked her hand between the chain and the sprocket wheel. The index finger was cut off and the others were badly mangled.

Presentation to Principal Jackson.

At the closing of the Lachine Academy yesterday, Principal Jackson was presented with a handsome Russian leather dressing case, with ebon nd silver mountings, and a beautiful bouquet of Beauty roses from the upils and teachers of that institution. The presentation was made by Rev. Canon Chambers, M.A., who spoke in terms of the highest praise of Mr. Jackson's work during the last six years.

HORTON VICTIM OF FOUL PLAY

Banjo Player Supposed to Have Been Thrown Out of a Saloon and Skull Fractured.

At the inquest held to-day into the cause of the death of Charles W. Horton, the colored man, who died in gaol last Saturday, as the result of a fractured skull, the police were instructed by the jury to try and find the person who struck or threw Horton out of a saloon.

An open verdict was returned to the effect that the cause of death was a fracture of the skull which had been inflicted by some unknown person.

The evidence showed that the deceased, who earned his living by playing a banjo in saloons and at concerts, was arrested on Thursday, June 7, on a charge of vagrancy.

On coming before the court the next day the Recorder did not think the prisoner was in a position to plead and remanded him to the gaol, where he died on Saturday. His body was sent to the morgue, where it was found by the medical examiners that the man had been probably done to death.

Besides his skull being fractured, he was also suffering from wounds.

Coroner McMahon was convinced that the man had met with foul play, but he did not think he had been knocked out for his money as it was shown that he had sold three banjos for drink, and his wife had left him because he did not give her sufficient support.

INFANT FOUND IN RIVER.

Morgue Officials Believe It Was Strangled Before Being Drowned.

The body of a male infant, of about seven months, was found in the river at the foot of Moreau street last night. Around the baby's neck was tied a rope, and from the child's appearance the morgue officials think that the infant was strangled to death before being thrown into the water. The police are at work unravelling the mystery and an inquest will be held later.

Improved Motor Car Service.

On May 28th, the Canadian Pacific commenced running a motor car service between Montreal, Vaudreuil and intermediate stations, making three trips each way, daily, except Sundays. This novel service has proved so popular with the suburban residents along the lake front that it has been decided by the Canadian Pacific that, commencing Monday next, that this car will make an extra trip every week day, leaving Windsor station at 8.10 a.m., 12.20 p.m., 3.00 p.m. and 8.00 p.m. Returning, will leave Vaudreuil at 10.20 a.m., 1.30 p.m., 5.30 p.m. and 9.10 p.m. The time taken for the run from Montreal to Vaudreuil is only fifty minutes. Passengers who have travelled on this car speak very highly of it, and many predict that there will be a large number of these cars in operation before long to take care of suburban business.

THE SAILORS DEFEATED.

The Y. M. C. A. played the team of the SS. Canada, at the baseball park on Wednesday evening, and the "tars" displayed more than novice form, their forwards playing a swift passing game. During the first half Y. M. C. A. were unable to score. At half time, Kinlock changed the forward line of the home team. The attack was then continued and it was not long before Jamieson scored. The sailors, however, immediately returned the compliment. The Y. M. C. A. then broke away again, and from a splendid pass from Steadman, Robinson put it through. From this on the visitors' goal-keeper was kept busy, and Dow had many attempts frustrated, but he worked hard. Before time was called the Y. M. C. A. secured two additional goals, thus winning by four goals to one.

St. Cunegonde Trouble Revived.

As the result of an action in damages taken a year ago by John E. Matthews against C. P. Fabien, then mayor of St. Cunegonde, for damaging statements alleged to have been made by him with regard to an electric light plant installed by the plaintiff, the defendant in that suit has brought action against the plaintiff for the sum of $1,999. He alleges that in the former action, which was withdrawn by the plaintiff shortly after it came to trial, charges affecting his honor were made, and also that he was at some expense to prepare a defence, for all of which he claims damages. He is represented by Messrs. Marechal and Landry.
