## THE PRESIDENT'S COMMENTS

(Excerpts from an address delivered by the Very Reverend P.G. Malone, S.J., at the 69th Convocation, May 22nd, 1965).

It is with a distinct sense of pride that I bid you welcome to this sixty-ninth annual convocation marking the close of one hundred and thirty-seven years of education by this institution in Montreal. We are happy to say that our graduating class, the largest ever, has established a scholastic record that is a source of some gratification to their teachers and, we trust, to all of you, their friends and well-wishers. Within the expansion represented by the numbers there is the joy of fruitful growth. And what applies to the graduating class is, in all areas, the keynote of this year at Loyola: expansion joined to inner growth.

There have been a number of special events during the year. The first was the warm-hearted visit of Their Excellencies Governor-General and Madame Vanier for the official opening of the Vanier Library. In very short order, the fine new building has become an important part of the campus. Because of special budgetary allocations from the College and gifts from many friends, the book holdings are steadily on the increase. I may mention perhaps the wonderful effort of the Loyola Associates under the Presidency of Mrs. C.H. Wayland, the donation for engineering books from Mr. A.K. Velan, the trust fund established by Mrs. Mae Boyle, the various gifts to the D'Arcy McGee collection, and a number of other benefactions. While some of the gifts are small, they are deeply appreciated in the gigantic task of building adequate library resources.

During this year, the Parent Commission made its report. While we are perhaps somewhat impatient about the implementation of its recommendation concerning our university, we can, it seems to me, take considerable pride in the very favorable comment which the Report makes on Loyola College. It has always been our contention that any serious examination of this College and the needs of the English-speaking Catholic community would result in the kind of certain and favorable judgment which the Parent Commission has pronounced. We have hopes that the underlying principles stated by the Parent Commission and accepted by the Ministry of Education will soon issue in legislation needed for the realignment of resources that is considered necessary for the best interest of our community. In the meantime, Loyola College strives might and main to enhance what the Parent Commission calls its undeniable suitability to serve as nucleus for the establishment of a new university.

In the year now closing the full-time enrolment for day courses counted some 1,742 students, an increase of approximately 25% over the previous year. At the present time, I may note in passing, the enrolment for September is forecast at 2,100 or a similar growth once again.

A still more remarkable growth is to be found in the Evening and Summer Divisions where a 51% increase has brought the total to 2,582 students, of whom some 60% are seeking a university degree. In the Evening Division, more than one hundred professors have made Loyola's very sizeable contribution to the general community an achievement that in a very short space of time demands widespread respect and appreciation.

To permit the manifold recruitment of students and, at the same time, to enrich the content of our academic programme we have successfully maintained our efforts to strengthen faculty. That there is inner growth within the the numerical expansion is in no small measure the work of our teaching and academic staff.

I wish to pay here the tribute of thanks and appreciation that rightfully comes to them for the scholastic advance at Loyola. Central to their effort, is, of course, the task of teaching. But there are also research in steadily growing amounts, community service, committee work at the college, academic administration, student guidance, and publication - some of the phases of inner growth.

It is not possible here to make a comprehensive list of changes in the process of enrichment of our academic programme, but I may note that the Department of Communications is inaugurated, the curriculum in Engineering is to be expanded into a five year programme leading to a degree granted through Loyola, Sociology is already re-established, and Psychology is entering into departmental structure. The African Studies will begin to offer instruction in Swahili; meanwhile, it has gathered one of the best university collections in Canada of African literature for the Library. The D'Arcy McGee collection is slowly building up, thanks to many benefactors and the enlightened, enthusiastic work of our committee.

A significant advance and growth in the College has quietly taken place as our Board of Governors under the genial chairmanship of General Fleury has become familiar with the College and responsible for advice in formulation of all significant policy. Similarly, I may note the creation of a regular university Senate in which, under one of the most democratic structures in Canada and with a faculty manual that expresses the College's esteem of faculty co-operation, the scholastic excellence of Loyola becomes in more formal terms a responsibility of our entire academic community.

With the growing number of students, student activities become increasingly important. To discharge the College's responsibility more effectively, we have named a Dean of Students for general direction of student welfare, activities and financial aid. Father Gerald McDonough, S.J., will fill this newly created post. It is to say, without going into detail, that the personnel and service in this area have been considerably strengthened to provide the personal approach which characterizes our philosophy of education.

One of the chief concerns of Loyola has been to attract the most promising students to this campus. With this in mind, we have set aside

about \$90,000.00 annually for student aid. In addition, we have received assistance for student aid from several benefactors. Perhaps I may single out on this occasion the creating of the Susan Langley Foundation by Mr. and Mrs. M.J. McCormick of Montreal. Because of the actual and planned funds available to the Foundation, we are in the happy position of increasing the number of awards that can be made to deserving students. We are delighted with this initiative on the part of Mr. McCormick and wish to convey the gratitude of both the College and the Student body.

To all who have in any way helped Loyola-and their number prevents a complete catalogue-may I express our sincere gratitude.

The Very Reverend P.G. Malone, S.J.  
President.

## REPORT OF THE FACULTY OF ARTS

This generalized report on the Arts Faculty is prepared by the Associate Dean of Arts at the request of Very Reverend Patrick G. Malone, President. It presents a summary survey of the faculty's activities and attitudes during the past year.

The report treats of Staff, Studies, Curriculum, Students, and Administration.

### STAFF

For the most part, we have a highly qualified, young, energetic and devoted group of professors. That the professors are doing their work well, is attested by the success of these students in graduate schools, and professional schools. Graduate success indicates 1) that we are preparing the students very well; and 2) that our evaluation of students is very accurate.

### STUDIES

783 or 46.5% of the total 1680 students were registered in Arts last year: specifically

4th year .....	097
3rd year .....	118
2nd year.....	223
1st year .....	345

This column shows vividly the rapid increase in the student body over the last three years.

### GRADING

An exhaustive study of the grading facts of the 1963-64 academic year was made during the fall session in the Arts Council. This was followed by a synoptic report on the /65 Christmas examinations for first year students.

There has been a big improvement, but much variation still exists, and understandably so with professors coming to us from varied systems. Perhaps we will have to grasp for close observation examination making effectiveness in the lecture hall, and course and curriculum designs.

### CURRICULUM

The Department of Communication Arts was established in March. In September it had begun offering courses under the aegis of the English Department, and with its cooperation. The creation of this department is a clear indication that Loyola is very much on the qui-vive, and actively aware of the great culture-shaping forces of the modern world. It was a bold step and

valuable. For instance, it emphasized the absence of two other departments whose presence is almost obligatory: Sociology and Psychology. (Now in Existence).

Another bold step, was the introduction of Dr. Blonar's plan for the first year English. Implementation was restricted to Arts students, but was so successful that it won the full support of the Administration for extension to all first year English students. An experiment in reading-improvement was carried out by the English instructors, with such success, and such desire on the part of the students to benefit from it, that it would seem that it should become permanent.

Plans are under way for an almost complete revision of all French courses.

## STUDENTS

We can not withhold our admiration for the young men and women under our care. Their youth, their ambitions, their willing and enthusiastic cooperation, and their, sometimes extraordinary abilities, are a constant source of delight to us. Many of them while maintaining good grades, are playing on Loyola teams, others are "running the school" in student administrative positions, others are taking a full share of national student responsibility, and others are fully engaged in extracurricular cultural activities. How they do it we do not know. They are splendid.

## ADMINISTRATION

We must express our appreciation and gratitude to those who are doing the "housekeeping" and thereby making it possible for us to get on with our task of educating youth. Money has to be found, and we could not lecture, or prepare our lectures if we had to find it. The material conditions have to be provided without which education could not go on. And co-ordination of efforts must be effected. This we appreciate. We especially appreciate the work being done so well by Father Registrar Tait and his team, including Mr. Bonyun and his computer.

## CONCLUSION

In general the academic year of 1964-65 was a year of steady progress and great promise for the future of Loyola College.

Rev. G. J. MacGuigan S.J.,  
Associate Dean of Arts

## REPORT OF THE FACULTY OF SCIENCE

### STAFF

The academic personnel in the Faculty reached a total of twenty-four full-time professors and three part-time professors. Seven new members joined the staff and there were five resignations. Four members of the Faculty were elected to the newly created Senate.

Ten members of the staff are actively engaged in research projects. One scientific paper was published during the year.

### STUDENTS

The enrolment in the Faculty reached 375. Of these, 160 were Freshmen. The facilities of the Faculty were also available to Engineering and Pre-Medical Arts students. Marianopolis College students attended some Physics and Chemistry laboratories. The names of twenty Science students, who attained final average marks of over 80% appeared on the Dean's Honour List in May. Fifty-two students graduated with B.Sc. Degrees at Convocation. It is worthy of note that fifteen Loyola graduates were accepted in September for professional training in medicine and four in dentistry.

### EQUIPMENT

Although capital expenditures were curtailed in the last months of the school year, the departments of the Faculty acquired several expensive research instruments; notable among them were a Time-of-Flight mass spectrophotometer, liquid air generator, and a gas chromatograph. Further equipment was also obtained for the Computer Centre.

### CURRICULUM

A major change in curriculum occurred in the reduction of the number of Arts Courses given to students in the Science Faculty. The total number of Humanities Courses is now seven.

Rev. A. Graham, S.J.  
Associate Dean of Science

## REPORT OF THE FACULTY OF ENGINEERING

### PROFESSOR FRANK GUADAGNI, R.I.P.

It is with sadness that the Faculty of Engineering reports the death of Franco Guadagni, Professor of Engineering at Loyola since 1943. Shortly after his death in 1964, it was recorded in the Minutes of the Faculty of Engineering that—

“The members of the .....Faculty ..... sustained a terrific shock and loss with the passing of Frank Guadagni, and wish to pay tribute to his long, loyal and efficient work at Loyola over the last twenty-two years. He was a most beloved, respected and efficient teacher, a strict but fair disciplinarian, and a true friend to the students and the other members of the staff.”

### FIVE YEAR CURRICULUM IN ENGINEERING

In March, 1965, the Faculty of Engineering proposed to the Senate that the first three years of Engineering, which had been offered at Loyola since 1943, be replaced by a full 5 year program which, while continuing to form the student in the tradition of the Liberal Arts, would complete his formation in the principles of Engineering. This proposal was approved in principle by the Senate.

The two reasons which prompted the Faculty to make this proposal to the Senate are closely inter-related. The primary one is that since 1960, it has become pedagogically impossible for the final two years that its students have had to complete elsewhere to become professional engineers.

The other reason is that Loyola has been attracting a larger and larger number of students each year, who want to study Engineering. It was with an eye to its responsibilities to such a constituency that the proposal to substitute the full program for the partial program of Engineering studies was prepared.

Full specialization at the undergraduate level will be offered in Civil, Electrical, and Mechanical Engineering, and partial specialization in Chemical Engineering.

### ENGINEERING DEGREE

The first graduates of the new 5 year program will be presented for degrees in 1968. While it is hoped that it will be a Loyola degree that is awarded, nevertheless, provisional arrangements are being made with the University of Montreal for the latter's degree.

## PHYSICAL FACILITIES

For the short term, the additional space required to present the 4th and 5th years of the new program has been provided by allotting the gymnasium in the basement of the Central Building to Engineering. For the long term, however, a building functionally designed to present Engineering will have to be erected.

## INSTITUTE OF GEOTECHNICAL SCIENCE

The Institute, initiated by Dr. D.J. McDougall, its present director, became associated in 1964 with the Faculty of Engineering.

A degree program having been set up in 1962, the first graduates of it were presented for degrees this year, and four of them have gone on to post-graduate studies.

Investigations into the thermo-luminescence of rocks continued during the year, and 10 papers were prepared for publication.

## APPOINTMENTS, RETIREMENTS, LEAVES OF ABSENCE

Professor Yalcin has been granted leave of absence to act as temporary Chairman of the Department of Civil Engineering at Roberts College in Istanbul.

Professor Hudson, who is returning to industry, will be replaced by Professor Kubina, who has been associated with the research and development projects of the Canadian Aviation Electronics.

Professor Goldman, of Sir George William University, has joined the staff, as also Dr. J.B. Phillips, who has recently retired as Chairman of Chemical Engineering at McGill University.

## GIFTS

A substantial gift was received from Mr. A.K. Velan, a Governor of Loyola, for the purchasing of Engineering books for the library.

George Joly,  
Dean of Engineering.

## REPORT OF THE FACULTY OF COMMERCE

The faculty of Commerce was inaugurated in 1948 in order to offer Loyola students new academic opportunities in the business world. It was wisely realized that the concept of a Liberal Arts education should not be diminished, and as a result, the curriculum was set up to provide for the necessary training in Philosophy, Theology, Mathematics, English, and French. During the past seventeen years, this faculty has grown very rapidly, with its counterparts, at Loyola. In the Day Division the registration of the past three years has been as follows:

1965-66 (estimated 470)

1964-65 396

1963-64 335

This expansion has been parallel with the increasing interest shown by the public in business education with its new specialties of computers, operations research, linear programming, etc.

### EVENING DIVISION

The Evening Division has expanded considerably despite its relative infancy at Loyola. The Commerce Faculty is the only one offering a major in the Evening Division.

### RECOGNITION

During the past year 2 students completed their Honours Economics programme at Loyola, and 7 graduates passed the necessary examinations leading to their C.A. from the Institute of Chartered Accountants of Quebec.

This College also received recognition of their courses by the Society of Industrial and Cost Accountants, and a member of the Accounting Department was asked to serve on their Education Committee. Loyola College also has a representative on the Education Committee of the Institute of Chartered Accountants of Quebec.

Several members of the Accounting Department attended the Quebec Conference of the Institute of Chartered Accountants in Sherbrooke, and participated in a special conference involving long range prospects in accounting education.

### CURRICULUM

A new course was inaugurated for non-commerce students who were interested in several aspects of accounting including Income Tax, Cost Accounting, Succession Duties, Computers, Insurance and Banking.

## BUSINESS

Outstanding progress was made in Business disciplines under our first full time faculty member, Professor Paul Kawaja, Many new books were added to the library.

## RESEARCH

The Accounting Department has done some research for the Canadian Purchasers Association, and has used funds received to augment the great need for library books and to assist in the development of the Gudangi Endowment Fund.

Lawrence Bessner, B. Comm., C.A.  
Director of Commerce.

## REPORT OF THE EVENING DIVISION

### A. THE RISE OF THE STUDENT BODY

The rate of increase of enrolment in the Evening Division has been significantly large.

Total Winter enrolment in the Evening Division now comprises approximately 45% of the total enrolment of the College. This ratio corresponds to that of other Universities and Colleges, (which have an evening programme of studies, degree or non-degree).

### B. THE ACADEMIC PROGRAMME

The areas of Concentration were set up last year.

The Evening Division has been able to schedule a sizeable number of electives in most disciplines-thereby making up enough courses, at least in number, to qualify a student for a Major-during these past two years, without unduly disturbing the regular operations of the Departments.

### C. THE ACADEMIC STANDARD IN THE EVENING DIVISION

It may be of interest to notice that one of our graduates (Mr. Lebovics) has been admitted to the Faculty of Law of McGill University, and three others have transferred to advanced standing at McGill. This is a significant development, in view of the fact that McGill does not generally recognize Evening degree work.

A number of Evening Division students have transferred to our Day College and are doing representative work. Several of these have qualified after being admitted on probation. Our experience with probationary students has been, so far, a moderate success (50% in an area in which the probability of success is minimal).

The degree candidates in the Evening Division are on the whole as qualified as the degree candidates in the Day Division, and aside from a few students who were on probation and taking their courses in the Day College last year, this group normally comprises the following:

- 1) housewives who cannot take courses in the Evening but who wish to proceed to a degree on a partial-student basis;
- 2) degree candidates who work night shift;
- 3) degree candidates who are given partial leave of absence from obtaining the degree by taking extra courses in the Day Division.

In this case may I re-emphasize that no failing students from the Evening Division are taking courses in the Day College, even though there are a number of Day students of the very marginal category who are permitted to repeat courses by registering in the Evening Division and who are an extra burden on the good academic work which the average Evening Degree candidate is doing.

#### D. GENERAL OBSERVATIONS ETC.

The move to our new premises was a wise one, and students are impressed by the spaciousness and appearance of the new office. The Director's work in the past year was particularly facilitated by the support and encouragement of many people, among whom should be mentioned: Fr. Graham, Fr. McGuigan, Fr. Tait, Fr. Henkey, Professors Adams, Bessner, Blamar, Doyle, Prillo, Wareham and last but certainly not least Mrs. Manes.

A.G. Lallier  
Director, Evening Division

## REPORT OF CHIEF LIBRARIAN

The academic year of 1964-65 has been one of growth and progress. After moving into the new building, the library had to fulfill three different functions:

- 1) To serve the student population.
- 2) To buy in depth and lay the groundwork for a University Library of the future.
- 3) To build up research collections for future research work.

1) To serve our students, two professional librarians were appointed. One was engaged in the Reference Department and one, in the Circulation Department. A sub-professional was appointed in the Periodicals Department.

To provide a more efficient system of circulating books, the library changed from the Book Card System to the Charge Card System. The new system has proven to be economically advantageous and much more efficient than the previous one.

The demand for services has been so great and spontaneous that new appointments became imperative. For the 1965-66 academic year, two professional librarians have been engaged. One will serve the Periodicals Department and one will be part of the Reference Department. In addition a new sub-professional has been appointed to be the Head of Reserve operations.

2) Extensive orders have been made by Rev. C. O'Keefe, S.J., Dean of Studies, to bring the Georges P. Vanier Library up to the University Library level in the field of Psychology, Sociology, and Education.

In co-operation with different departments on the Campus, the Reference Collection has been substantially enlarged. The library subscribed to a large number of new periodicals and purchased a substantial amount of back issues of the most important periodicals.

3) Extensive purchases have been made by Dr. Savage, History Department, during his visit to Africa. Special collections are the nuclei of research work, but to arrange them for use and to keep the collection up to date requires special care.

### ADMINISTRATION

During the illness of Mr. Trowsdale, Chief Librarian Mr. Princz was appointed Acting Librarian from February to April. In April, Mr. Princz was appointed Deputy Librarian.

## ORDER DEPARTMENT

The substantially increased book budget of 1964-65 put heavy pressure on the Order Department. Ordering procedures were simplified to cope with this situation. The time consuming search for out-of-print materials had to be postponed in all cases.

## CATALOGUING DEPARTMENT

The ordering of diversified material and the demand for rush cataloguing increased original cataloguing. This is more time consuming than using Library of Congress cards. Thus, the Cataloguing Department faced the same kind of pressure, as did the Order Department. One Cataloguer had been engaged to classify all serials. This is still in progress. Preparations were made to classify and catalogue microform materials ordered by the different departments.

## PERIODICALS DEPARTMENT

A "KARDEX" system has been set up to ensure the continuous and accurate recording of all serials. Missing and back issues were ordered, and all journals, previously subscribed to, have been renewed. Preparations are being made to set up a "KARDEX" system for government documents and for African material.

## BINDING DEPARTMENT

The Binding Department's capacity is approximately 100 volumes per month, which is the work of a staff of one. This is sufficient for the current volumes of serials and for some back issues of periodicals.

## SCIENCE LIBRARY

A "KARDEX" system for recording the growing number of periodicals has been set up. The growth of the periodical collection will make the expansion of shelving space into the basement necessary in about two years' time.

## EVENTS

On Thursday, May 13, 1965, the new Library Board held a special farewell party for retiring Chairman, Dr. John Buell, at which time the library staff were invited to meet the new Library Board Members.

On Tuesday, October 27, 1964, the official opening ceremonies of the Georges P. Vanier Library were held at Loyola College. The Very Rev. Patrick G. Malone, S.J., President, welcomed His Excellency, General The Right Honourable Georges P. Vanier and Mme. Vanier. The formal opening of the Georges P. Vanier Library was made by the Governor-General.

The Thomas D'Arcy McGee Exhibition was held in the Vanier Library from October 27th to November 14th, 1964.

An exhibition of paintings by Mrs. Linda Dechene was held in the Library from May 17th to June 1st, 1965.

On December 8, 1964, Mrs. E. Clement and Miss D. Crossland attended the special Opening Dinner Meeting of the Colleges and Universities Section of the Quebec Library Association.

In June 1965, Mrs. E. Clement represented the Library at the Annual meeting of the Quebec Library Association.

## STATISTICS

AUGUST 1964 - APRIL 1965

Books on reserve _____	700	1,000
Books shelved _____		36,080

George Trowsdale,  
Chief Librarian.

## REPORT OF THE DIRECTOR OF DEVELOPMENT

Completing its second year of existence, the Office of Development at Loyola is able to report the establishment of a pattern of service to areas of College and associated bodies in line with objectives outlined in the 1963-64 published report.

BOARD OF GOVERNORS:— the Office of Development has been designated to function as Secretariat to the Board, arranging, announcing and reporting on meetings of the Board and its various Committees.

ALUMNI ASSOCIATION:— the Director of Development is a member ex-officio of the Board of the Association. Facilities of the Development Office have been provided in a variety of ways but mainly through assistance in the Alumni Fund for Loyola Appeal and in membership record development.

PUBLICATIONS:— under the supervision of the Publications Officer, centralized control of publications, advertising and related research activity is gradually being achieved. The Academic Calendar, Student Admission Information, Annual Report and miscellaneous pamphlets and booklets are produced under the supervision of Mr. Williams, working with appropriate committees of administration and faculty.

CHARTER APPLICATION:— the Office of Development provides secretarial service to the Petitioners for incorporation of Loyola University under Private Bill 133 presently before the provincial legislature.

COMMUNICATIONS CO-ORDINATION COMMITTEE:— this Committee of the senior administrative staff of Loyola, which meets under the chairmanship of the President at regular intervals, has been served by Mr. Williams as secretary in the first year of its existence.

SPECIAL EVENTS:— a variety of public events were assisted by personnel of the Office of Development. Notable among them were Dr. Karl Stern's Lectures, La Poudrière Drama Quartet and Cinema '65, celebrating the 25th anniversary of the National Film Board.

LOYOLA PERMANENT ART COLLECTION:— a substantial beginning in the establishment of this Collection was made, largely through the tireless work of Mr. Samuel H. Schecter, the Collection Selection Committee and of course, the generous contributions that have been received. The Collection now possesses sixteen works of contemporary Canadian art.

LOYOLA ASSOCIATES:— this organization, in its first year of activity has established an enviable record of achievement and support under the presidency of Mrs. Charles H. Wayland. Substantial contributions to the Vanier Library have been received through the work of the Associates.

THE LOYOLA BONSECOURS CENTRE:— a Centre for exploration in the arts has been established in the Bonsecours section of Old Montreal and a resident artist installed. Official opening of the Centre was in June, 1965. Through the Centre, Loyola has given tangible expression to support of artists and to the programme of restoration of this historic section of our city.

CAPITAL DEVELOPMENT PROGRAM:— under the authority of the Board of Governors, the Office of Development has been occupied mainly with the problem of meeting capital development needs at Loyola. Over the past year, staff has been recruited and trained in anticipation of a national appeal for support. Development counsel has been retained to conduct a feasibility study and assist in subsequent plans to launch an appeal in 1966. The minimum objective of the appeal is \$16,000,000.00.

J. Stirling Dorrance,  
Director of Development.

## REPORT OF THE DIRECTOR OF FRESHMEN

The Office of Director of Freshmen, now in its second year of existence, carried out essentially the same program as in its first year of existence with some attempt to increase the efficiency of operation. Forty-six members of Faculty actively assisted this office and it is gratifying to note that those assisting in the work did a better and more intensive job. The effectiveness of the program varied from Faculty to Faculty as a direct function of the number of Counsellors per Faculty. In Arts, for example, some 120 out of the 300 odd students had a continuing relationship with their assigned Counsellor. In Engineering, the entire class had the same type of relationship, but in Commerce, and particularly in Science, the number of Counsellors available seriously limited the coverage provided. Up to the present time, it has not been possible to compare the success of this group of students with the overall class success because of unavailability of final results.

The orientation program carried out prior to Registration saw various members of the Faculty and Administration address the students on the College structure, program, opportunities and pitfalls. The program was attended by well over 80% of those who finally registered at the College. Recruiting Faculty assistance in this program was again a problem particularly because of the simultaneous registration of upper year students. Yet the number of personal inquiries on course, nature and content indicated that more assistance is necessary and that a more effective and intensive high school visiting program is required. Many students had not had the opportunity to review the program they were undertaking or their reasons for undertaking it. This, of course, is one of the reasons for the large amount of program shifting after registration.

Study and reading habits are easily verified with simple test techniques on an across the board basis. This leads immediately to the need of adequate remedial programs. To date, remedial measures, except in exceptional cases, have been pretty well limited to providing the student with self-study programs.

In conclusion, Faculty are to be complimented for their interest and assistance in the work. A special thanks is due to Father Registrar for assistance and advice in the solution of many of the immediate problems of the office.

Desmond F. Hudson,  
Director of Freshmen.

## REPORT OF THE DIRECTOR OF STUDENT AID

With the completion of one year of operation with a full time Student Aid Director, this office is pleased to submit the following report of operation.

### GOVERNMENT GRANTS:

#### PROVINCE OF QUEBEC:

Total for first and second term allotments		\$181,385.00
Number of students receiving assistance	484	
Number of students receiving re-consideration	<u>37</u>	<u>\$ 12,780.00</u>
	TOTAL	521
		\$194,165.00

An analysis of these figures show that the average loan was about \$370.00. About 50% of the student body applied for aid from Quebec and 70% of the applications were accepted.

Last year the approximate loan was \$366.00, so that our average loan is higher this year, and the amount of money received totals \$24,640.00 over 1963-64.

### COLLEGE BURSARIES:

#### LOYOLA BURSARIES:

Seventy two students applied for Loyola Bursaries, and thirty-three were accepted by the Scholarship Committee for \$8,500.00 making the average bursary \$210.00.

### SCHOLARSHIPS: Entrance, Endowed, Etc.

One hundred and fourteen Scholarships were given this year including thirty Entrance Scholarships. This represents a total of \$44,930.00 or an average of \$390.00 per scholarship. Four type "A" African Scholarships were already given out and two type "B" were awarded this year.

### S.A.C. LOANS:

S.A.C. this year inaugurated a new loan plan to help needy students, that did not fit into the general scheme of aid, or felt that additional assistance was needed. S.A.C. requested that we interview these students and make our recommendations. Ten students applied and eight received loans of an average of \$180.00 for a total of \$1440.00.

### LOYOLA ALUMNI AID:

The Alumni Student Loan Fund had applications from thirty students, and nineteen were accepted for a total of \$3875.00 making the average loan \$205.00. We co-operated with Dean Joly on this project by supplying him the necessary information this office had concerning other aid the applicants were receiving. With the approval of the Scholarship Committee we also recommended four students for the Loyola Alumni Bursaries of \$100.00 each.

### OUTSIDE ASSISTANCE:

Contacts were established with the Canadian Council of Jewish Women, La Société Saint Jean Baptiste, Birks Family Foundation with excellent results. The C.C.J.W. awarded \$500.00 as an emergency fund. This amount is given out at the direction of the Director of Student Aid. To date \$385.00 has been loaned to ten students, three have re-paid and the others should reimburse in full next September. Three students were granted Bursaries from this organization amounting to \$500.00. S.S.J.B. This office approached La Société Saint Jean Baptiste in order to find out our students would be eligible for the Prêt d'Honneur. We were advised that they had no objections, so approximately ten students applied and six were accepted for amounts ranging from \$300.00 to \$500.00.

### BIRKS FAMILY FOUNDATION:

We contacted this organization in view of getting some financial aid from them, since McGill and the University of Montreal were getting help from this foundation. We received \$2000.00 to date, with more to follow this summer. This money will be given to needy students as an interest free loan to be repayable after graduation. The granting of these loans will be made by the Scholarship Committee. Maximum amount limited to be equivalent of one year's tuition.

In conclusion, Loyola Students received \$260,000.00 from all sources for the year 1964-65. We believe this to be a reasonable amount for an institution of our size.

Paul Lefebvre,  
Director of Student Aid.

## REPORT OF THE STUDENT PLACEMENT OFFICER

Employers are showing an increasing interest in Loyola students for both permanent and temporary work. This, along with the fact that the employment situation generally has improved in the past year, resulted in a 31% increase in the number of students placed. More vacancies of all kinds came to our attention.

### GRADUATE PLACEMENT:

From October 1964 through March 1965, the office concentrated its efforts on the placing of graduating students in permanent employment.

This year, 56 companies made 66 recruiting visits which is the largest number ever made in one year. There were, however, slightly fewer graduating seniors planning to enter permanent employment. Consequently, some of the employers who came in towards the end of the recruiting period received a small response. The lower registration this year seems to be largely due to fewer Arts students being interested in careers in business and industry.

Most of the graduating students seriously seeking employment have now been placed. Of 91 seniors who registered with the office, the final outcome was as follows:

Placed.....	50
Found work themselves .....	12
Decided to continue studies ....	14
Repeating year .....	2
Going abroad with CUSO .....	2
Plans still in doubt .....	2
Lost contact .....	3
Applications still active as of June 30, 1965 .....	6

The number of graduates placed can be broken down as follows:

<u>COMMERCE</u>	Public Accounting .....	14
	Business & Industry .....	17
	Government.....	1
<u>SCIENCE</u>	Business & Industry .....	3
	Government .....	1

<u>ARTS</u>	Business & Industry .....	10
	Education .....	3
	Government.....	1

Starting salaries continued to increase over the past year. The average amount offered was over \$425. per month.

We received a number of requests this year from school boards in Ontario and Montreal suburbs for B.A.'s and B.Sc.'s to teach in secondary schools. The starting salaries were very attractive, ranging up to \$6,000. per year. There seemed to be a greater interest in the teaching profession among graduating senior this year.

#### SUMMER AND PART-TIME PLACEMENT:

587 undergraduates registered for part-time and summer employment. Students generally had an easier time finding summer jobs this year. Our office managed to place 137 in positions such as: office clerks, engineering assistants, salesmen, laborers, lifeguards, waiters etc. There is still, however, a serious shortage of good summer employment opportunities.

There was also an increase in the number of part-time jobs available during the school year. 132 such positions were filled by our office.

#### EVENING DIVISION:

To serve students of the evening division, the office remained open one night a week. Twenty-two undergraduate students were placed in permanent employment.

#### OTHER ACTIVITIES:

The office supplied employment and career counselling to students, maintained a vocational library, provided employers with information about the College, made visits to firms to promote the service, conducted mail campaigns and cooperated with the Civil Service Commission, publicizing their vacancies and those of the National Research Council and other agencies.

In the fall arrangements were made for a written examination for positions as Foreign Service Officer and Junior Executive Officer with the Civil Service Commission.

We wish to express our thanks to the many members of the College staff whose cooperation contributed greatly to the effective operation of the Placement Service.

E. Steynor,  
N.E.S. Student Placement Officer.

## REPORT OF THE DIRECTOR OF ATHLETICS

Competing in the Ottawa-St. Lawrence Intercollegiate Athletic Association, Loyola fields Varsity teams in football, soccer, golf, tennis, sailing, hockey, basketball, swimming, curling, and skiing. A breakdown of each follows for the academic year 1964-65:

### FOOTBALL:

Competing in the Ontario Athletic Conference for the second year, Loyola placed second in an eight team league with a 5-2 won-lost record.

### SOCCER:

The soccer team experienced a winning season, finishing with a 4-3-1 record. This was a considerable improvement over last year's showing.

### GOLF:

The golf team competed in the OSL tournament hosted by Carleton University, at the Rideau Club in Hull, and performed well, placing third. The team also participated in the S.G.W.U. International Intercollegiate Invitational Tournament at Lachute in October.

### TENNIS:

The tennis team, formed on a challenge-knockout basis, played in several dual meets with neighboring Montreal universities in preparation for the CSL tournament, held this year at Sherbrooke. Loyola placed fourth in the five team meet.

### SAILING:

The Canadian sailing championships, sponsored by the Montreal Intercollegiate Sailing Association, were held at the Royal St. Lawrence Yacht Club in October. Loyola placed eleventh in the field of twenty-one.

### BASKETBALL:

The Varsity basketball team, despite its 10-6 won-lost record, were nosed out of the playoffs when they failed to win their last regular game.

The J.V. team experienced its most successful season under the capable guidance of rookie coach Al Grazys.

#### HOCKEY:

The hockey team finished the regular season with a 6-8 won-lost record. Nevertheless the team wound up in the playoffs and gave an excellent account of themselves. Defeating the Ottawa U. in the semi-final round by a 6-7 score, the Warriors were beaten 6-5 by S.G.W.U. in overtime for the O.S.L. title.

#### SWIMMING:

The swimming team performed in many invitational meets from October through February. In the March 6, O.S.L. meet at C.M.R., the team placed fourth. However, swimmers Udo Buechner and Chuck McCambridge made the team representing the O.S.L. in the National meet held at the University of Western Ontario on March 6.

#### CURLING:

The curling team participated in several invitational bonspiels this year. In the OSL meet at Bishop's, Loyola lost both games by one rock. In the Loyola invitational meet, the host team lost out in the final game.

#### SKIING:

Loyola hosted the OSL ski meet at the Chalet Cochand on February 5. The Loyola team placed fifth.

The extensive intramural program of the Intramural Athletic Council, promoted inter-class competition in football, golf, tennis, hockey, basketball, skiing, curling, swimming, bowling, and snooker and billiards.

J. Kennedy,  
Director of Athletics.

## REPORT OF THE TREASURER

The College changed its fiscal year end from July 31st to June 30th. The revised year end is that one generally adopted by most colleges and universities. Statements therefore reflect an eleven month period operation.

College funds decreased by \$706,166. during the eleven month period. Details of the change are shown below:

### APPLICATION OF FUNDS

Expenditures for land, buildings, furniture, equipment and renovations	\$ 693,219.	
Excess of operating expenditure over income per statement	<u>78,180.</u>	\$ 771,399

### SOURCE OF FUNDS

Income from donations and investments	<u>65,233.</u>
---------------------------------------	----------------

### NET DECREASE IN FUNDS

\$ 706,166.

LOYOLA COLLEGE  
BALANCE SHEET AS AT JUNE 30, 1965

ASSETS

Current Assets:		\$ 7,236.
Cash		
Accounts receivable	\$ 54,241.
