REPRISALS IN IRELAND ARE CAUSING ANXIETY

The Poles Claim Further Advances Against Bolshevists

POLISH CAVALRY OPERATING IN REAR OF RETREATING SOVIETS CAPTURE PRISONERS AND GUNS

Polish Cavalry Operating in Grodno Region Have Reached a Point North of Lida—During Yesterday's Fighting the Poles Captured Thirteen Hundred Prisoners and also Took Eight Cannon—Lithuanian Artillery Has Shelled Polish Positions in the Suwalki Sector, According to Official Statement.

(Associated Press Despatch)

WARSAW, Sept. 28.—The Polish cavalry operating in the rear of the retreating Bolshevik forces in the region of Grodno have reached a point north of Lida, says an official statement issued here early today. During yesterday's fighting the Poles captured thirteen hundred prisoners, including a Bolshevik commissary, and also took eight cannon.

Lithuanian artillery has shelled Polish positions in the Suwalki sector, the statement declares.

North of the Pripet the battle is continuing in favor of the Poles. The Russians are retreating along the entire front, but are offering stubborn resistance as they fall back. The Poles in their advance are approaching the Shchra River. Further to the north the Poles have crossed the Niemen. South of the Pripet, adds the statement, the situation is unchanged.

CAPTURED RIFLES BEING SHIPPED TO GEN. WRANGLER

(Associated Press Despatch)
CONSTANTINOPLE, Sept. 28.—Forty-five thousand rifles and eight million cartridges, which were captured by the Germans from the Russians during the world war, are being shipped to General Baron Wrangel, head of the anti-Bolshevik Government in South Russia.

COURT HOLDS THAT DOCTOR WAS AT FAULT

Montreal Man Awarded \$3,000 Damages by the Superior Court.

(Associated Press Despatch)
MONTREAL, Sept. 28.—Dr. Geo. Dupont was yesterday condemned in the Superior Court to pay \$3,000 damages to Charles St. Martin on an action taken by the latter to recover \$10,000 damages, alleging that he was burned and injured in October, 1916, while under x-ray treatment at the hands of the doctor. Justice Mercier in giving judgment said that the doctor had absented himself from the operating chamber beyond the period prescribed by the "Minuterie" installed in the room to warn the operator when to interrupt the current and the court held that this amounted to negligence and imprudence on the part of the defendant, incurring civil liability.

BELIEVES HER BROTHER IS STILL ALIVE

Still Trying to Find Clue to Whereabouts of Mr. Ambrose Small.

(Associated Press Despatch)
TORONTO, Sept. 28.—Mrs. F. Lovett, a sister of John Doughty, private secretary of the missing Ambrose J. Small, wealthy theatre owner, testified yesterday before a special examiner here that she believed her brother, John, was still alive, though she could not give any reason for so thinking. John Doughty disappeared on December 28 last, less than a month after the disappearance of Mr. Small.

THE WEATHER

CLEARING AND COOLER
A marked high area and cool wave has spread into the Western Provinces, attended by strong winds. Showers have been experienced in most places from Manitoba to New Brunswick.

ESTATES OF KING EM. MANUEL SEIZED

(Associated Press Despatch)
LONDON, Sept. 28.—Estates owned by King Victor Emmanuel, of Italy, at Santa Maria, Di Capua Vetere, near Naples, have been seized by members of local agricultural societies, according to a despatch to the Exchange Telegraph Company from Rome.

AVIATOR HAD RATHER NOVEL EXPERIENCE

Paddled Astride Log to Get into Steamship Traffic Route.

(Associated Press Despatch)
VICTORIA, B.C., Sept. 28.—Paddling astride a log for several hours in an endeavor to get into the steamship traffic route and be picked up before he starved, Lieutenant W. H. Brown, M.C., R.A.F., was picked up in the waters off Nalau Island, south of Bella Bella, by the steamer Hidden Inlet, bound from Alaska to Seattle, after having been adrift on his strange craft twenty-four hours in the icy waters of the Gulf. Brown was flying from Albert Ray to Prince Rupert, but after flying for an hour and a half he was forced to land to repair the engine of his seaplane. Before this could be done, the machine was swept ashore on Nalau Island and sunk and there was no other course for Brown to reach the steamship route. He was one day on the island.

INCREASE IN DRUNKENNESS IN NEW YORK

Claimed Much Liquor Is Being Smuggled Across Border from Canada.

(Associated Press Despatch)
NEW YORK, Sept. 28.—An increased force of prohibition agents was despatched to the New York-Canadian boundary yesterday as the result of the publication in a local newspaper that at least one hundred cases a day of bonded Canadian whisky and gin were being smuggled by bootleggers into New York State via Plattsburg.

INTERNATIONAL AIR RACE NOW IN PROGRESS

Race for James Gordon Bennett Trophy Started This Afternoon.

(Associated Press Despatch)
ETAMPES, Sept. 28.—The International Air race for the James Gordon Bennett trophy, after having been delayed several hours, by adverse weather conditions, was started shortly after one-thirty o'clock this afternoon.

Kirsch, one of the three French entrants, flying a Nieuport, took the air and crossed the starting line at 1.37 o'clock.

The weather, which has been cloudy and damp, cleared after noon. The sun came out of hiding and the visibility, which had been so poor that the airmen considered it too dangerous to fly, improved rapidly.

After the International Airplane Race for the James Gordon Bennett trophy had been in progress less than an hour today, the contest had narrowly down to a possible three competitors, one of them Major R. W. Schroeder, of the United States.

Major Schroeder shortly afterward also was eliminated, withdrawing after flying 100 kilometres because of ignition trouble.

Howard Rinehart, the other United States entrant, withdrew shortly after starting because of difficulty with the steering mechanism.

De Romanet, one of the French competitors withdrew, after the second lap. Kirsch, a second Frenchman, withdrew after making 200 kilometres in 48 minutes, 52 seconds.

The only competitor remaining in flight at this time was the third French entrant, Sadi Lecoq, who had made 200 kilometres in 43 minutes, 42.35 seconds, a new world's record.

There remained F. P. Raynham, the sole British competitor, who, with all entrants save Lecoq out of the running, was still waiting to start.

REPORT STATES WAGE SCALE TO BE REFUSED

Miners Not Favorable to the Commission's Recommendations.

HALIFAX, N.S., Sept. 28.—The Herald today publishes the text of the statement with which the executive of the United Mine Workers of America transmitted the report of the Royal Commission, which recently investigated mining conditions in the Maritime Provinces, to the various locals. The statement advises the rejection of the report on the ground that the proposed sliding wage scale system is unfair to the miners.

NOVA SCOTIA TO EXPEND LARGE SUM ON ROADS

Civil Engineer Appointed to Look Over Work—Resignation of Board to Be Investigated.

(Associated Press Despatch)
HALIFAX, N.S., Sept. 28.—W. A. Hendry, C.E., has been appointed by the Provincial Highway Board to investigate the work done to date under the act providing for the expenditure of eleven million dollars on the roads of Nova Scotia. He will express his opinion as to whether or not the system of road building on some highways is within the means of the province of Nova Scotia and detail the system of accounting that has prevailed on construction work under way. Following the report of Mr. Hendry, the government will name a Royal Commission to investigate the situation which Hendry said involved the proposed resignation of the entire personnel of the Highways Board.

PEACE BETWEEN ITALY AND AUSTRIA IS RE-ESTABLISHED

(Associated Press Despatch)
ROME, Sept. 28.—King Victor Emmanuel yesterday gave the Royal Assent to the treaty of St. Germain, between Italy and Austria.

A WARNING RE IMMIGRATION FROM BRITAIN

Says Children Coming to Canada Should Pass Most Rigid Examination.

(Associated Press Despatch)
TORONTO, Sept. 28.—Dr. C. K. Clarke, the well known alienist, yesterday sounded a note of warning in connection with immigration from the British Isles and Europe, which will be heavy within the next few months.

His warning was occasioned by the report that 4,000 children would shortly be brought to homes in Canada from Central Europe.

"Every child under sixteen years should pass the most rigid examination before it is admitted into Canada," said Dr. Clarke. "These children from Central Europe may suffer from trachoma, typhus and tuberculosis which were prevalent during the war and afterward."

Dr. Clarke claimed that the system of examination at Quebec was not thorough enough. His opinion of it was that the examination consisted of personal observation or questions through interpreters to learn the mental capacity of the immigrant.

"We must have a station at the port of Montreal, where immigrants can be tested as is being done at Ellis Island," continued the doctor. "And, also, there must be a follow-up system in the cases of immigrants who are admitted on probation. The Canadian public is not yet alive to the situation which confronts it in the immigration from Europe."

CLAIM MONTENEGRINS WERE SUBJECTED TO MOST TERRIBLE TORTURES AND HARDSHIPS BY THE SERBIAN ARMY OF OCCUPATION

Commission of Investigation Appointed by Montenegrin Foreign Office After the Withdrawal of Serbian Troops Records in Its Report Brutal Violence and Abuses by the Army of Occupation.

(Associated Press Despatch)
WASHINGTON, Sept. 28.—Terrible tortures and hardships were inflicted upon the Montenegrins by the Serbian army of occupation, according to an official report of a Commission of Investigation appointed by the Montenegrin foreign office after the withdrawal of the Serbian troops.

"Brutal violence and abuses are recorded," says the report. "For instance, owners of homes and huts were compelled to set fire to their humble dwellings and then the soldiers pushed them among the flames, where they perished."

"Women and children shut in the homes were submitted to the additional torture of bees thrown in so that they might sting these pitiful bodies; they even had the cruelty of putting cats under the skirts of women that were then sewed around the limbs, the animals were then whipped, so causing pain to the victims."

"Old people, women and children were beaten mercilessly with heavy sticks or iron rods and also with wet ropes, inmates of prisons were left without nourishment sometimes as long as ten days, the bodies of the dead in the prisons were left among the prisoners for seven days, the prisoners were forced to put their feet in the fire and nails were thrust under their finger nails, youths were hung by the hair and plunged into water up to their mouths, men were attached to carriages in the place of horses and then killed."

ONE SUPREME COURT FOR ALL THE EMPIRE

Viscount Cave Hopes that an Imperial Cabinet Will Be Formed.

(Associated Press Despatch)
TORONTO, Sept. 28.—Viscount Cave, noted British jurist, in an address yesterday to the Empire Club, of this city, alluded to the Imperial War Cabinet and said he hoped that this would become the Imperial Cabinet.

His Lordship said that the ideal legal relationship between Canada and Great Britain was that of consultation and advice, with perfect freedom of action.

Viscount Cave said he had been impressed with the British spirit of Canadians. Mr. Justice W. R. Riddell, in moving a vote of thanks to Lord Cave, referred to a question raised by Hon. W. E. Raney, Attorney General, for Ontario, in a recent speech as to the advisability of discontinuing Canadian appeals to the Privy Council of Great Britain.

Mr. Justice Riddell said he was absolutely opposed to this. If any change were to be made, he said, it should consist in the formation of one Supreme Court for the whole British Empire by the amalgamation of the committee of the House of Lords, to which appeal cases were carried from the British Isles and the judicial committee of the privy council, to which at present all other disputed judgments were carried.

THE LIBERAL LEADER OPENS WESTERN TOUR

Hon. Mackenzie King Says There Must Be Downward Revision of Tariff.

(Associated Press Despatch)
VICTORIA, B. C., Sept. 28.—Hon. W. L. Mackenzie King, Liberal leader, made the initial address of his western tour here last night. "A general election is necessary," he asserted, "in order to restore to the people control over parliament." He declared there must be a downward revision of the tariff with substantial reductions of duties on necessities of life and the instruments of production.

ACCIDENT ON GOVERNMENT ROAD SUNDAY

Compton Car Turns Over at Dufferin Heights—A Border Complaint.

STANSTEAD, Sept. 28.—(Special.)—Sunday was a busy day on the Government highway. Thousands of cars passed over the road.

One accident is reported, which occurred on the curve just below Dufferin Heights. An Overland car, driven by Mr. Dunsmore, of Compton county, left the road at the curve and turned over. The occupants were under the car, but fortunately unhurt.

Mr. Dunsmore, who says he was running very slowly, attributes the accident to the loose gravel, causing his car to skid on the curve. The car was not seriously damaged.

COMPLAINT RE 50c FEE
Considerable complaint is heard regarding the 50c fee charged American motorists entering Canada on Sundays. As there is no charge for Canadians crossing into the States, the fee seems unjustified. It is supposed to defray cost of men at the customs here, but the fees are far in excess of sum required for the purpose.

MONTREAL, Sept. 28.—At a meeting of the Montreal Stock Exchange yesterday it was agreed to continue the stabilized market for Victory Bonds until the end of the present year.

ANXIETY OVER THE RECURRENCE OF 'BLACK AND TAN' REPRISALS IN IRELAND IS BEING EXPRESSED

There Are Reports from Ireland of Numerous Threats of Further Reprisals, Circulated Verbally or by Posters—There Is Reason to Believe that Dublin Castle Is Now Seriously Investigating the Reprisals—Cabinet in London Is Also Taking the Matter in Hand.

(Associated Press Despatch)

LONDON, Sept. 28.—Serious anxiety over the recurrence of the "Black and Tan" reprisals in Ireland is reflected by English newspapers, which sharply call for the Government to halt what is described by the London Times as "semi-official lynch law." Earlier occurrences in Ireland passed without much notice here, but recent raids, especially those on Balbriggan and Trim, and the lukewarm criticism of the "Black and Tan" police forces by General Sir C. F. N. MacReady, military commander of Ireland, are causing considerable disquiet. Condemnation of recent disorders is not confined to newspapers which sympathize with the Irish Nationalist movement, the Conservative Graphic, which is an unsparing critic of the Sinn Feiners, declaring:

"This is not calm and orderly justice and punishment according to British ideas. It must be stopped."

Charges that the Government is following the methods of its opponents are made by the Times, which continues:

"Presumably there is a hope that Ireland will be ground to docility between the upper and nether millstones. The Government should be warned of the harvest it may reap."

The Archbishop of Canterbury has issued an appeal to Christians to make national troubles the subject of prayer. "Endeavors on either side of Ireland," he declares, "have been thwarted by prejudice, inflamed by passion, flouted or powerless and liberty travestied while capable men are striving eagerly, but vainly, to find a reasonable pathway through the darkening turmoil."

The standing committee of the Irish Peace Conference has passed a resolution recording its conviction that the reprisals are a "constant barrier to the success of the committee's efforts in the cause of peace."

In the meantime there are reports from Ireland of numerous threats of further reprisals, circulated verbally or by posters. Warnings are alleged to have been given several towns in West Clare that they would be burned unless Captain Lendrum, resident magistrate, of Kilmuckridge, who has been missing since last Wednesday, and who is believed to have been kidnapped, is not returned within forty-eight hours. The town of St. Neiz suffered from a raid at an early hour on Monday. Shots were fired into houses, some of the inhabitants were roughly handled, but none were seriously hurt.

There is reason to believe that Dublin Castle is now seriously investigating the reprisals. Special officers have been sent to Trim and have reported on conditions there. The Chief Secretary for Ireland is now conferring on the whole subject with the military and civil authorities in Dublin and elsewhere, with the view to stopping the reprisals, and the Cabinet in London is also taking the matter in hand.

It is explained there are two forces called "Black and Tan." One is composed of English recruits and the other largely consists of demobilized army officers who were engaged to assist in the defence of threatened barracks in disturbed districts in Ireland. Both wear mixed uniforms of khaki and black, owing to a shortage of full uniforms. Despatches do not disclose which element has been responsible for raids.

Band Attacks Town of Trim

(Associated Press Despatch)
TRIM, County Meath, Ireland, Sept. 28.—Because of the burning of the police barracks here Sunday morning and the wounding of Chief Constable White, a number of armed men descended on the town at night and burned buildings, damage being put at £50,000.

MacSwiney Had Better Night

(Associated Press Despatch)
LONDON, Sept. 28.—Lord Mayor MacSwiney, of Cork, passed a better night last night and was, in consequence, a little more refreshed this morning, said a bulletin issued by the Self-Determination League this forenoon.

LAKE MEGANTIC

Mr. Colin A. McLeod, who has been spending a few days with relatives at Echo Vale, has returned to his home at Pittsfield, Mass.

from Concord, N. H., and St. Johnsbury, Vt., are at present visiting Mr. and Mrs. M. D. MacDonald, Echo Vale. Mr. G. M. Thompson and family returned last week from their trip to Nova Scotia, and since their return, Mr. Thompson, is spending a few days of his vacation at the Club House of the Megantic Fish and Game Club, at Lake Macanannac. Mr. Beaudry, who has been spending the past few weeks on a visit to Fall River, Mass., for the benefit of his health, which has much improved during his absence from town. Miss Evelyn Kelly is attending the

Scottstown Model School. The School here has not been able to secure a Principal yet, but the Intermediate and Primary Grades are being conducted by Miss Margaret C. McLeod, of Bury, and Miss Grace Moore, of Megantic. Farmers are busy now taking up their potatoes which are turning out fairly well, but about 20 per cent. are small and 10 per cent. affected. Late sown grain is still green and uncut, and much that was cut under the recent wet weather was badly sprouted. Some thrashing is also under way. Miss Alice Wood is reported to be improving after a severe attack of typhoid fever. Mr. and Mrs. Norman H. McLeod, of Marsboro Mills, were in Keith last week, to attend the funeral of the late Mr. John P. McLeod, the father of Mrs. McLeod, who passed away quite suddenly on Thursday at the age of nearly eighty-nine years.

Boy wanted to sell Sherbrooke Record. Apply by letter, Record Office, or to Postmaster, Bury. Meeting of St. Paul's Guild was held at the residence of Mrs. Frank Turner. The afternoon was spent in sewing and transacting business. A dainty lunch was served at the conclusion of the hostess. Next meeting will be held at the residence of Mrs. A. B. Hunt, on October 8th. Service will be held on Friday evening, October 1st, at the residence of Mr. Rufus Ellis, Westbury. The infant son of Mr. and Mrs. Wm. Strapps was baptized in St. Paul's Church on Sunday last, by the Rev. C. T. Lewis, and received the names of Marguerite Velma. Mrs. Frank Murray and Miss Grace Murray, of Montreal, who have spent the last week in town the guests of Mrs. J. W. Bennett, returned to their home on Sunday and were accompanied as far as Sherbrooke by Miss Catherine Bennett, who will visit Mrs. John Murray, for a few days. Mrs. James Rudd is very ill at her home here, and her condition is causing her friends much anxiety. Friends of Mrs. F. J. Bennett are glad to know she is somewhat improved in health after her recent illness. The morning service in the Methodist Church on Sunday was very well attended. The day having been set aside as Harvest Home Sunday and truly the Church spoke well for the Harvest, it being beautifully decorated with all the various vegetables of our land as well as some fruit. These intermingled with cheery bright mountain ash berries presented a very pleasing appearance. The pastor, Rev. Mr. Brundage, spoke on the Harvest and Thanksgiving and his sermon was most elevating instructive and helpful. Showing how we as Nation have so much to be thankful for. The Harvest being great we may justly be proud of our Canada. The choir rendered an anthem in keeping with the spirit of the day. Many visitors were welcomed at this service.

IF YOUR EARS RING WITH HEAD NOISES

If you have roaring, buzzing noises in your ears, are getting tired of hearing and fear Catarrhal Deafness, go to your druggist and get 1 ounce of Parmitin (double strength), and add to it 1-4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal trouble of the ears, is hard of hearing or has head noises should give this prescription a trial.

MRS. B. B. JONES IS OUT WITH FURTHER FACTS IN HER CASE

Says Tanlac Has Now Completely Restored Her Health—Gains 35 Pounds.

"As Tanlac has helped me so much since I gave my testimonial three years ago, I feel it my duty to make another statement, for the medicine has really and truly made me feel like a new person," declared Mrs. B. B. Jones, highly esteemed resident of 187 Oak Avenue, Hamilton, Ont. "As I said in my previous statement, for thirty long years I suffered from nervous indigestion and stomach trouble. Everything I ate seemed to disagree with me, and I had severe pains all through my stomach. Gas formed in such quantities that it bloated me all up, causing severe palpitation of the heart, and I would have terrible headaches and dizzy spells. I lost a great deal of weight, and my kidneys also bothered me very much. "My condition finally got so bad that I was confined to my bed for about two and a half months, and when I got up I was so weak that it seemed like I just had to learn all over again how to walk. I had to live on a special diet and was so nervous that I just didn't know what to do. "When I started taking Tanlac, the first few bottles helped me so much I made a statement telling of the remarkable good it was doing me. Well, I kept on taking the medicine, and it has restored my health so completely that I feel like I owe it to all suffering people to make a further statement and let them know how it has freed me of all my troubles and built me up. "My appetite is so good and everything agrees with me so well that I'm now eating a lot of fruit and vegetables and have actually gained thirty-five pounds in weight. My nerves have quieted down, and although it has been seven months since I have taken any Tanlac, I'm still feeling just fine. Tanlac is the greatest medicine I've ever heard tell of during the sixty-six years of my life, and when anybody asks what helped me back to health and strength, I'm only too glad to tell them Tanlac did it." Tanlac is sold in Sherbrooke by Griffith's Drug Store and A. E. DuBerger, and in Lennoxville by W. J. H. McKindsey, under the personal direction of a special Tanlac representative. (Advt.)

DUNHAM, Sept. 28.—At the recent annual meeting of the W. C. T. U. which was held with Mrs. Hubert Currie, the following officers were elected: President, Mrs. Leon Rouse; 1st Vice-President, Mrs. A. E. Hagar; 2nd Vice-President, Mrs. W. S. McElroy; Recording Secretary, Miss Annie Small; Corresponding Secretary, Miss Winnie Small; Treasurer, Miss Annie Small; Proxy, Miss Winnie Small.

Reports from the various departments of work showed that an active interest had been kept up during the past year. The Treasurer's report showed a balance of \$2.90 in the treasury to begin the year with. The next meeting will be with Mrs. W. S. McElroy weather and roads permitting.

General Notes.

Owing to counter attractions the monthly meeting of the Women's Institute was very poorly attended on Wednesday last, and the next meeting will be held at the same home.

Prevost Lodge, No. 8, held its usual communication in Masonic Hall on Tuesday evening.

Prevost Chapter, No. 3, R. A. M. held its monthly convocation on Thursday evening, and at the same time observing its centennial. A number of guests were present including some of the officers of the Grand Council, Montreal, and also members from Mount Sutton Chapter.

At the close of the work a banquet was served with Mr. E. A. Fitchett, of Cowansville, as caterer.

Daily Day was observed in the Methodist Church on Sunday, the Sunday School taking the prominent part with Mr. W. S. McElroy, S.S. Superintendent presiding. A report of the Sunday School work and growth was given by the secretary, Mr. Ed. Baker. The Rev. Mr. Perley, of Stanbridge East, preached a most appropriate sermon on "Train up a child in the way he should go, and even when he is old he will not depart from it."

A 10-Day Tube of Pepsodent, to show you how to end film. See below.

Never Sleep With a film-coat on your teeth

All statements approved by authorities

Millions of people on retiring now combat the film on teeth. They fight it day by day. And those glistening teeth seen everywhere now form one of the results.

You owe yourself a trial of this new teeth-cleaning method. Dentists everywhere advise it. The results it brings are all-important, and they do not come without it.

What film does

Your teeth are coated with a viscous film. Feel it with your tongue. It clings to teeth, enters crevices and stays. And dentists now trace most tooth troubles to it.

The ordinary tooth paste does not end film. So, despite all brushing, much film remains, to cause stain, tartar, germ troubles and decay.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

Watch the teeth whiten

You will see and feel results from Pepsodent which brushing never brought you heretofore. A week's use, we think, will amaze you.

One ingredient is pepsin. One multiplies the starch digestant in the saliva, to digest all starch deposits that cling. One multiplies the alkalinity of the saliva to neutralize mouth acids.

Two factors directly attack the film. One of them keeps the teeth so highly polished that film cannot easily cling.

Watch these effects. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. Note how teeth whiten as the film-coat disappears.

The book we send explains all these results. Judge what they mean to you and yours. Cut out the coupon so you won't forget.

WELL KNOWN RESIDENT OF QUEBEC CITY PASSED AWAY.

The death occurred last night at his home in Quebec City, of Mr. Alexander Brodie, a retired business man, at the age of eighty-one years. The late Mr. Brodie was born in Montreal, but had spent most of his life in Quebec, and was for many years prominent in curling and golfing circles. He was an uncle of Mr. A. D. Brodie, Queen street, this city, and a sad circumstance in connection with his death, is the fact that his son, Mr. George Brodie, of Quebec passed away last week.

ST. ANDREW'S YOUNG PEOPLE HELD MEETING.

An excellent attendance and much interest and enthusiasm marked the meeting of the Young People's Society of St. Andrew's Church last evening, which was held in the lecture hall. Mr. Stanley Davis, the president, was in the chair, and opened the meeting with religious exercises, a hymn, prayer, a portion of scripture and the Apostles' Creed.
Rev. Alfred Bright then gave an address on "The work of the Presbyterian Church," dealing especially with the questions of the church in India, the island of Formosa and in Korea, which have greatly prospered, while those in the Canadian Northwest are bringing true light and knowledge to the alien people who have poured into the country, and like all missionary work, have become a factor in the life of the nation. The speaker referred to the crying need of more men for the ministry and the mission field, and hoped that more would be led by God's spirit to consecrate themselves to the work.
The evening closed with a service of song led by Mr. William Humphrey.

GRAND OPERA AT HIS MAJESTY'S LAST EVENING

Presentation of "Aida" by Creator's Company of Singers and Players Delighted Large Audience.

Sherbrooke music lovers have long anticipated the coming of Creator and his Grand Opera Company, and last evening's audience at His Majesty's theatre was representative of their appreciation both for the opportunity to hear Verdi's beautiful "Aida" and for the splendid presentation given by the galaxy of artists. Giuseppe Creator was accorded a warm welcome as he took his place with the symphony Orchestra, and from the opening strains of the overture until the climax had been reached in the words of Aida and Radames "Oh Earth Farewell," the audience sat spellbound under the influence of music in its highest order. Egypt, with her mystery, marvellous and religious splendor, and oriental charm makes a beautiful setting for the story "Aida," into which Verdi wove all the human emotions, with such intricacy that the histrionic powers of the actors are taxed to their utmost. In last evening's presentation the portrayal of these emotions was of as high a standard as the musical renditions, and the artists, each in their turn, won the hearts of their listeners, with their "finesse entere." Agnes Robinson, as "Aida," the beautiful Ethiopian princess, who has become a captive in the land of the Nile, has a pure soprano voice, and coupled with a wonderful power of expression, made her interpretation of this role all that could be described. Among her favorite numbers was the aria "O Skies of Tender Blue," "Amneris," daughter of the Egyptian king, was portrayed with dignity and charm by Ada Paggi, her rich mezzo-soprano voice, and dramatic power bringing out the characteristics of the princess of noble blood, yet with a woman's heart. In the scene before the gate of Radames' prison, Miss Paggi was at her best in both act and song, while the dual scene with "Aida" when they sang "O Immortal Love," the fine equality of both voices was brought out.

"Radames' captain of the guard, and beloved by both princesses, was interpreted by Francesco Bocca-Fusco, who has a lyric tenor of wide range and expressive quality, and with a splendid physique and dramatic power merited the praise accorded him.
His singing of "Radiant Aida" was a good introduction, and until his final renditions in the "Living Tomb," to which he has been consigned, his powers as both singer and actor were very evident.
The King of Egypt (Nino Riusi) and "Rammis," the High Priest, (Henry Weldon) were both excellent, their rich bass voices and dignified bearing adding much to the presentation.
The role of "Amonasro" the captive Ethiopian King, gave scope for expression of voice, adaptability in acting, and Silvio Caravetti, was equally at home in both his wounded dignity as a hostage of war, being finely brought out. The dual numbers by the two princesses, Aida and Radames, Aida and Amonasro, and Amneris and Radames were beautiful in their even blend of voices, and with the splendid chorus work, made a musical setting of rare quality.
The costumes and scenery, historically correct, and of weird beauty were greatly admired, among the finest being the dignified robes of the Egyptian royalty and priests, and the beautiful night scene at the river Nile.
Classical dances, in the temple and before the King, and the intonation of voices in the distance were very beautiful, among the latter being the song of the priestesses with harp accompaniment.
A great writer said "the mastery of the baton has been aspired to, sought for and sometimes conquered," and to Giuseppe Creator belongs the honor of having conquered, for his holding of singers and symphonic accompanists in close touch is of the highest order, and his visit to Sherbrooke with two popular operas will long be remembered by lovers of the divine art.

FORMER PASTOR OF CITY CHURCH PASSES AWAY

Late Mr. Deeprose Was Well Known in Eastern Townships—Fine Tribute Paid by Local Minister.

The death took place yesterday morning, as his summer home, near Kazabazua, Que., of the Rev. Charles E. Deeprose, a prominent Methodist minister, and a man respected and loved by all who knew him, and had the honor of his friendship.
The late Mr. Deeprose was one of the best known Methodist ministers in Eastern Canada, and served as pastor for several years in the churches at Richmond, Coaticook, and in this city, where he filled the pastorate from 1906 to 1910.
Born at Winfield, in Sussex, on December 31, 1857, Charles Deeprose received his early education in England, then coming to Canada, took a theological course in the Montreal Wesleyan College, from which he graduated in 1885 with class honors.
Following his ordination, he served as assistant at Dominion Church, Ottawa, and then held pastorates successfully at Richmond, Coaticook, Huntingdon and Sherbrooke. In 1900 he served as chairman of the Huntingdon district, and in 1902 was appointed chairman of Stantstead district. In 1901 he was elected secretary of the Montreal conference, chairman of Quebec district in 1906, and in 1910 returned to Ottawa as pastor of Ottawa South. In the same year he was elected president of the Montreal conference, and shortly after, president of the

Ottawa Ministerial Association, also serving as a delegate to the general Canadian conferences on several occasions.
About four years ago he went to Montreal, where he was pastor of Fairmount Avenue Methodist Church Fairmount Avenue Methodist Church, and until a serious illness compelled him to give up his active ministerial work, he was identified with movements for the social and religious welfare of the city as a whole.
He was superannuated, and retired in June, and his friends hoped that with rest and care he would have many years of comfort.
A fine tribute was paid the deceased by Rev. B. B. Brown, pastor of the Sherbrooke Church, who stated this morning, in referring to his passing away: "Mr. Deeprose was the most beloved, honored and respected minister in the Methodist conference, and was idolized by the people of Montreal, among whom he had lived as pastor and fellow man."

Make Your Home Worthy of Your Own Good Circumstances

MANY people are living with furniture which fills the need for something to sit in, eat from, and fill up space, but which does not reflect the good circumstances of the owner, nor make the home a place of beauty and comfort, and a joy to live in.

Many dull, uninterestingly furnished homes have remained that way simply because the occupants have not given serious thought to the appearance of their rooms.

Many people have grown accustomed to their surroundings and have failed to consider the progress of the times or their own prosperity. Unintentionally they have allowed the furnishing of their homes to fall behind their own advance in the business world and in social life.

Of course, other people—neighbors and callers—have noticed the old, drab furnishings, and, perhaps, have drawn wrong conclusions. They have thought the owners couldn't afford anything better. No one in good circumstances wants such wrong impressions carried away from his or her home.

To beautify and bring the home into keeping with modern, progressive standards of living is not an expensive undertaking. An entire house can be refurnished with beautiful, artistic furniture for no more than a good motor car would cost.

And, even if you think you cannot afford to refurnish the whole house you can start with a single room. A suite of lovely bedroom furniture or a handsome dining-room suite is obtainable for the price of a set of good furs.

After you have refurnished one room with attractive, modern furniture, the appearance of refinement and beauty created will make you enthusiastic about refurnishing the entire house.

And then your home will seem like a new home. You will love it and enjoy it more. You will be happier, for true happiness needs a beautiful setting.

As a Canadian citizen living in prosperous times in a country with a glorious future, you can well afford to brighten up your home and live in comfort and happiness amidst beautiful surroundings.

MARRIAGES

CONNORS—WOODROW
The marriage took place very quietly on Monday, September 27th, at The Manse, London street, of Mr. John Daniel Connors, of St. Johnsbury, to Mrs. Eliza A. Woodrow, of this city. The ceremony was performed by Rev. Alfred Bright, of St. Andrew's Church, and the couple left for a wedding trip to New Hampshire.

WINTLE—STEVENS.
TRENHOLMVILLE, Que. Sept. 28—A quiet but very pretty wedding took place at the home of Mr. and Mrs. W. H. Stevens, at high noon on Wednesday, September 22, when their only daughter, Mildred Maria, became the bride of Mr. Frederic Wintle, youngest son of Mr. and Mrs. A. E. Wintle, of Pine-

holm, only the immediate relatives of the bride and groom being present owing to a recent bereavement in the bride's family. The Rev. S. J. Pike, of Danville, Que., performed the ceremony, assisted by the Rev. Thos. Knowles, of Ulverton, Que. The drawing room was beautifully decorated with white and pink asters, the bridal party standing under an arch of hydranges and maiden hair fern.

The bride, who was unattended, entered the drawing room on the arm of her father to the strains of the wedding march, played by the Rev. Thos. Knowles, and looked charming in a dress of blue silk, made in panel effect, with butterfly bow and beaded in dull red and gold, and carried a shower bouquet of bridal roses and ferns. Immediately after the ceremony a delicious luncheon was served in the dining room. The table decorations were white and pink asters, with ribbon streamers to the four-storey wedding cake in

CLAIMS GAMES WERE "THROWN."
(Associated Press Despatch)
PHILADELPHIA, Sept. 25.—The first, second and final games of last year's world's series were "thrown" to Cincinnati by eight members of the Chicago Americans, according to revelations said to have been made last night by Billy Maharg, former boxer and well known in local sporting circles.

Maharg's story, as printed yesterday in the Philadelphia North American, says that he and "Bill" Burns, former American League pitcher, were the first to be approached in the conspiracy.

The Economical Covering for Your Furniture is Craftsman Fabrikoid

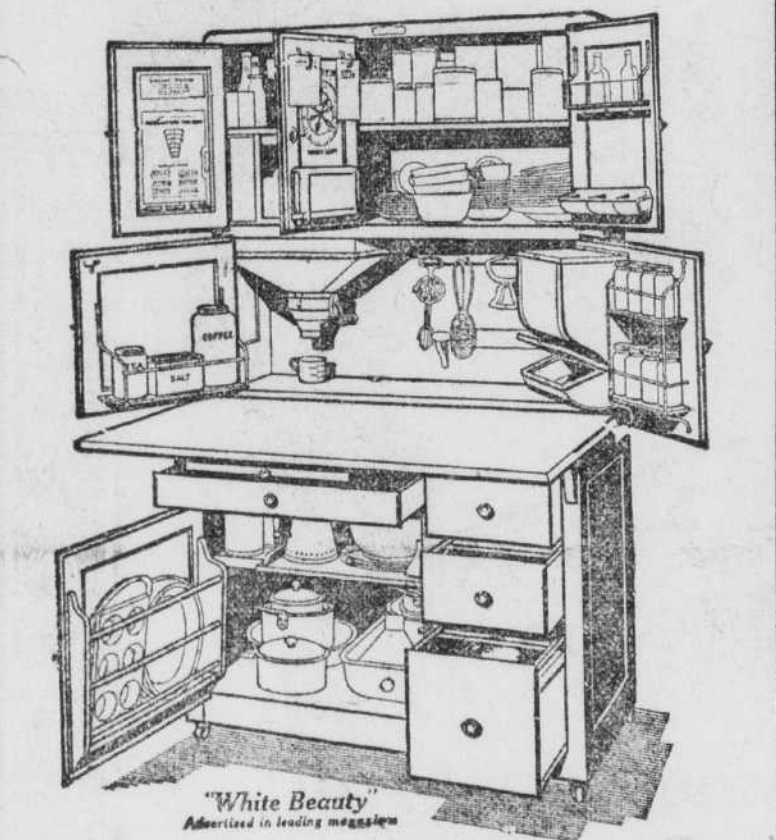

ARE you the mother of kiddies whose romping about the house has played havoc with the furniture? Upholstery torn, cut, stained? Frames good, but coverings in a horrible state? Craftsman Fabrikoid will replace the old coverings and make the furniture good as new—in fact it will probably outlast the furniture itself. Half the furniture you have seen covered with what you believed to be leather was Fabrikoid. It is difficult to distinguish between the two as far as appearance is concerned, for Fabrikoid is grained, pebbled and colored the same as leather. But it has advantages that leather does not possess. Leather must be accepted as it comes from the cow—Fabrikoid is built up to a fixed standard. Leather is hard in some spots, soft in others, absorbs grease and water, becomes stained and frequently rots and tears. Fabrikoid is uniformly the same, yard after yard—pliable, tough and absolutely impervious to water or grease—and above all, costs far less. Make your furniture upholstery permanent with Fabrikoid. Save money and make the chairs, cushions, lounges and couches kiddie-proof with this attractive covering. Your furniture dealer can supply it—he can do the work. Write us for further information about Fabrikoid and what can be done with it in your home.

BASEBALL FLASHES

ST. LOUIS, Sept. 28.—Cleveland maintained its half game lead in the American League pennant race yesterday, by defeating St. Louis. Mails hurled a steady game, allowing bunched hits only in two innings. It was his sixth straight victory.

CHICAGO, Sept. 28.—With Dick Kerr pitching masterly ball, the White Sox continued their victorious march in the American League pennant race, defeating the Tigers yesterday. The victory was Chicago's tenth in the last eleven games.

PHILADELPHIA, Sept. 28.—

BOSTON, Sept. 28.—Boston made its position at the top of the second division secure yesterday by taking a double header from Washington.

NEW YORK, Sept. 28.—New York was put out of the National League pennant race yesterday, when Boston won the second game of a double header. Brooklyn cannot lose out now no matter how the games result.

CHICAGO, Sept. 28.—St. Louis concluded its season's work here by trimming Chicago in decisive fashion yesterday, hammering out twenty-five hits.

NEW STAMP TAX SYSTEM WILL BE DELAYED

Merchants Must Get and Pay for Stamps in Advance.

It is stated that the new stamp regulations which go into effect here in November, would mean a complete rearrangement of the system of collecting the luxury taxes, together with the issuance of licenses to all traders. Under the new plans the sales tax will be collected as at present, with monthly payments by the business men responsible.

With regard to the luxury taxes there will be a general alteration. Since these taxes were imposed under the scope of the luxury tax had to make out statements in triplicate, showing all articles sold liable to such impost, the amount of tax collected, and submit such statements to the collector of special taxes, with cheques to cover, on the first and fifteenth of every month.

This involved a great amount of work, both for the dealers and for the department. Notices were received on Saturday with particulars of the new scheme, by which the luxury tax will be collected entirely by the fixing of excise stamps for the necessary amount of luxury tax to the sales slips for each article or package sold, and the collection of this amount from the customer at the time of sale.

These excise stamps have not been issued as yet, so that the present system will continue until probably the end of October, by which time it is expected the new stamps will be on hand, and plans for the working of the system perfected.

Those dealing in articles subject to the luxury tax will have to purchase their supplies of stamps from the department, probably securing sufficient supplies to last them over the month.

Dealers must pay for such stamps on securing them, and then collect the amount from the ultimate purchaser, their vouchers being made to show amount of purchase price, and then the amount of luxury tax collected. It is insisted that these collections must be made, so as to make it clear to purchasers that they are paying the luxury tax, and plans are being evolved to see that this is done.

As to this the regulation provides that:

"Vendors selling articles subject to luxury tax are required to furnish the purchaser, at the time of sale, with a voucher or sales slip, representing such sale and showing the tax as a separate item. Before delivering such voucher or sales slip to the purchaser the vendor must affix to such voucher or sales slip a stamp or stamps of the requisite denomination sufficient to cover the tax payable upon such article. The vendor must cancel the stamp or stamps, after they have been affixed to the voucher or sales slip, by means of an authorized perforator in such manner that the cancellation is entirely surrounded by the outer edges of the stamps."

The act provides that: "Every person who, being thereto liable, refuses or neglects to pay the taxes prescribed by sections 19BB and 19BBB of this act, or if such duty is payable in stamps, neglects or refuses to affix such stamps and to duly cancel the same, shall be liable on summary conviction to a penalty equal to not less than ten times the amount of such duty, but in no case less than fifty dollars."

SUBSCRIPTION RATES—Rates strictly in advance, in any address in Canada, Great Britain and the United States: One year, \$3.00; six months, \$1.75; three months, \$1.00; one month, 40c.

AN A. B. C. PAPER. The Record is a member of the Audit Bureau of Circulation, and its circulation is regularly audited and guaranteed.

AN ESTIMATE. Speaking to the Record, a prominent Eastern Townships citizen, closely in touch with the farming community all his life, ventured the assertion that ninety per cent. of the men who had sold their farm properties to take up agriculture or other vocations elsewhere would have been better off today if they had stuck by the Eastern Townships farms.

This is merely an estimate but there is no reason to believe it is exaggerated. There are outstanding cases of men who have gone west or elsewhere and have met with success beyond that which might have been enjoyed had they not made the change. It is doubtful if these represent ten per cent. of the whole.

Hundreds of men who have left the Townships have faced hardships unknown here and have not attained a competence. Crop failures and other mishaps to which they would have been less liable here have interfered with the realization of their hopes.

Agricultural conditions in the Eastern Townships have been uniformly prosperous. There have been serious problems to contend with. There has been and still is labor shortage. But there are compensating advantages, a sure and steady crop and unflinching market.

A careful study and investigation of conditions would have saved many men loss and disappointment. Those who today, being seized with the wander lust, nail up a "for sale" sign by the roadside will be well advised to make haste slowly for they may go farther and fare worse.

CHILDREN IN WANT. The Child Clinic investigation in Sherbrooke has brought to light the fact that there are families—how many is not revealed—where the children are never provided with milk. Tea, or some substitute, is served, but the natural and nourishing food of growing children is lacking.

In some of the schools of the city this want of proper nourishment was noticed and provision is made for serving milk.

If the food problems have become so serious in the case of certain families as to make it impossible for them to secure milk for the children the matter is one which might well interest some local child welfare organization and generous and sympathetic people in general.

That Sherbrooke lacks proper organization relative to child health and home sanitation is becoming more and more apparent.

LETTERS TO THE EDITOR

WOMEN'S INSTITUTES AN AID TO RURAL EDUCATION.

Editor of Record:—The laws of our Province are such that women are not given an active part in the making of laws pertaining to our schools. Nevertheless, rural education, better schools and "back to the land" policy are outstanding lines of activity with the Women's Institutes of Quebec.

The attitude of this organization is not that of destructive criticism, but to see where the Women's Institutes can lend their energies and co-operate to the end that every child in Canada shall have a fair chance to secure an education under conditions which make for the best mental, normal and physical development.

Provision should be made for education along practical lines, such as agriculture, domestic science, manual training, etc., and every school board should be induced to take advantage of government aid in this respect.

The following article is taken from the Journal of Agriculture, England, and shows that Women's Institutes in the Motherland (of which Her Majesty, Queen Mary, is an active member) are working along similar lines:—The improvement of the social and intellectual life of the village is essential for the maintenance of a vigorous rural population. Unless country life provides more avenues than are open at present for the employment of leisure-time, it is certain that the drift to the towns, which was so noticeable in the past, will continue. In order to prevent this exodus to the towns the great need of the village is the improvement of the social life of the country side.

The rural problem is essentially a problem of re-creating the rural community, of developing new social traditions and a new culture. What is needed is to establish in the village a living nucleus of communal activity which will serve as a centre for the satisfaction of the social and intellectual needs of the people. Such a nucleus is the village institute. The institute should be the headquarters

of organized local activities of all kinds, friendly societies, pig clubs and bee clubs, and agricultural and horticultural societies of one sort and another, adult schools, and classes arranged by voluntary organizations, Women's Institutes, schools for mothers, chess clubs and so forth, should be encouraged to use the institute; and one or more rooms, as may be necessary, should be provided for the purposes of their meetings. The institute should contain a hall large enough for dances, cinema shows, concerts, plays, public lectures and exhibitions. At the institute there should be a public library and local museum. If arrangements can be made for games and sports, so much the better. The institute, in a word, should be a centre of educational, social and recreational activity.

MRS. W. S. ARMSTRONG, Convenor, Publicity Committee, Quebec Women's Institutes.

PRESS COMMENT

"AMERICANS" AND "CANADIANS"

(Guelph Mercury) Some Canadians feel keenly and speak strongly about the epithet "American" by people of the United States, "who are no more 'Americans' than 'Canadians' are." Of course, our neighbors have no exclusive claim to the name "American," and to do them justice, they do not seem to resent our use of it, as applied to ourselves. Perhaps they never notice either our practice or our protests; nor is there any special reason why they should.

The matter is really one for us to settle for ourselves, without paying any attention to, not to say taking offense at, what our neighbors say or do. The question for us to settle is whether we shall go on asserting our right to call ourselves "Americans," if we please to do so once in a while, and call ourselves "Canadians" ten or a hundred times as often on all sorts of occasions, or whether we shall, without an effort to hasten the process, allow the practice of asserting our right to be recognized as "Americans" to fall quietly into disuse.

EXPERIMENTAL FARMS

(Quebec Telegraph) It will certainly not be the fault of the Taschereau Government if an additional impetus is not given to agricultural activity in this province. The announcement was made by the new Premier the other day in Montreal that twenty new experimental farms are to be established in the agricultural portions of the province. Considering the many facilities already in existence for furnishing agricultural instruction, under control of the provincial Department of Agriculture, this means a very substantial addition to present work in the interests of agriculture generally. In order that all these new farms will be in operation next summer. Of such passing importance is the extension of agricultural production that too much importance cannot be given to the Government's continued efforts to popularize the farming industry and to contribute all useful assistance to those engaged in it, especially in the shape of a knowledge of the most approved modern methods in dairying, cattle raising and crop production. In order to form some idea of what the province has done and is still doing in the way of agricultural instruction it is worth noting that it has three agricultural schools, the Oka agricultural institute, the Agricultural School of Ste. Anne de la Perade, and Macdonald College, the latter affiliated with McGill University, and the two others with Laval. There are also over fifty schools of domestic science, dairying and veterinary schools, etc., besides which, short courses of agriculture are given in various parts of the province every year by skilled lecturers trained and paid by the Department of Agriculture. Of special interest and value, too, to the agricultural community are the well edited Journals of Agriculture, French and English, published by the Department.

GHOSTS AT VERSAILLES

(Toronto Globe) Versailles has been stirred recently by more than a new Government. A few days before the meeting of the National Assembly, the election of M. Millerand to the Presidency and his selection of M. Leygues, an old Legitimist, to form another Administration, the ghost of Marie Antoinette is reported to have been seen walking in the park. Several tourists who were in the vicinity of the Petit Trianon claim that they saw a figure clad in the costume of her day under the trees, but that when they attempted to approach invisible hands pushed them away. The despatch does not attribute any political portent to the apparition, which, like Fischer's bomb warnings, may have been only a coincidence.

The story that the Petit Trianon is haunted is not new, but the strangest part of it is that people sane, unemotional and the reverse of credulous in ordinary walks of life have expressed their belief in it. The most circumstantial story was published in 1911, under the title "An Adventure," by two English ladies who had their first experience in 1901 and made frequent visits and careful historical investigations during the intervening years. These ladies were daughters of English clergymen who held and taught the faith of their fathers. They had the deepest distrust of stories of abnormal appearances, and never had any curiosity about psychical phenomena. The London publishers "guarantee that the authors have put down what happened to them as faithfully and accurately as was in their power." But the guarantee does not extend to mental as well as physical strabismus.

"You don't mean to say, Squibbs, that you haven't learned to drive your car yet? Why, tell me your wife has been teaching you for a week." "Well, it isn't my fault. Just as I begin to learn how, she starts in and explains it all over again."

USUAL TIRE TERMS PUZZLE MOTORISTS

Various Types of Wheel Casings Are Explained.

When a tire salesman says, "What will you have, Q. D. clincher or straight side, or regular clincher, what do you say? Here are the talking points that will give you confidence and relieve your embarrassment. Q. D. stands for quick detachable. A. Q. D. tire simply slides on and off the rim, requiring no stretching. Generally the outside flange or edge of the rim is also detachable, so that this can be done. Some of these tires are being used on split rims which are easily forced "out of round."

Some quick detachable casings are built with a clinch or hook which fits into the flanges of the rim, which are also hooked. Others do not have this clinch, but are straight. This has given rise to the term "straight side."

The clinch to hold it on the rim was the original type. The straight side casing represents an improvement or later development in the quick detachable eliminating innumerable ring cuts. It was found that a wire bead imbedded in the head edge of a tire was sufficient to hold it on the rim without the aid of the hook.

The fact is that there are two types of hard nonflexible beads—Q. D. clincher and Q. D. straight side. The term clincher simply indicates that the tire has a clinch. A regular clincher has an elastic bead that the tire may be stretched in applying, while a Q. D. clincher has a wire bead.

Regular clincher tires are ordinarily used on small cars. This includes tire sizes up to and including 31x4, with the exception of the 32x3 1-2. Tires above this size are ordinarily built Q. D. straight side. Quick detachable clincher types are going out of use. For those motorists who have old-style rims, a bead filler has been perfected so that straight side tires may be used without inviting rim cutting.

TORONTO WILL HAVE 'SAFETY FIRST' WEEK

Various Days of Drive Have Been Designated.

TORONTO, Sept. 28. — Toronto will have safety week from Ontario 10th to 16th, under the auspices of the Ontario Safety League. Similar large-scale campaigns have been conducted with great success in American cities, with the various organizations working for safety co-operating in an intensive drive against carelessness and accidents.

During Toronto's Safety Week the various committees plan to teach accident and fire prevention to every man, woman and child in a spectacular educational campaign in which various forms of publicity will be used. The public will be reached by means of posters, bulletins, billboards, street car cards, letters, advertisements, meetings and safety shows, and given a liberal education in safety.

The various days of the week have been specially designated—Safety Sunday, with special sermons in the churches; Monday is Careful Day for Motorists; Tuesday will be Careful Day for Street Car Men; Wednesday is set aside for School Safety; Thursday will be At Home Day for Safety; Friday is to be called Careful for Pedestrians; and the slogan for Saturday will be "Safety for All, All for Safety."

FIELD stone is one of the materials used so effectively in the house shown today. This bungalow, which is of the California type, presents a most artistic and unusual appearance simply by the ingenious use on the part of the architect of plain field stone. The possibilities of this material for home building is but little appreciated by many, many of whom have on their places sufficient stone to build as artistic and attractive a home as could possibly be built. True, the field stone used in this house does not form the main material of the house, but its use so enhances the beauty of this bungalow as to make it a most distinctive design.

The bungalow itself is of frame construction with field bowlder stone used for the main front walls, around the piazza and also for the chimney tops. Wide "colonial" siding is used to cover the walls from the stone foundation. With the frame section of this house painted

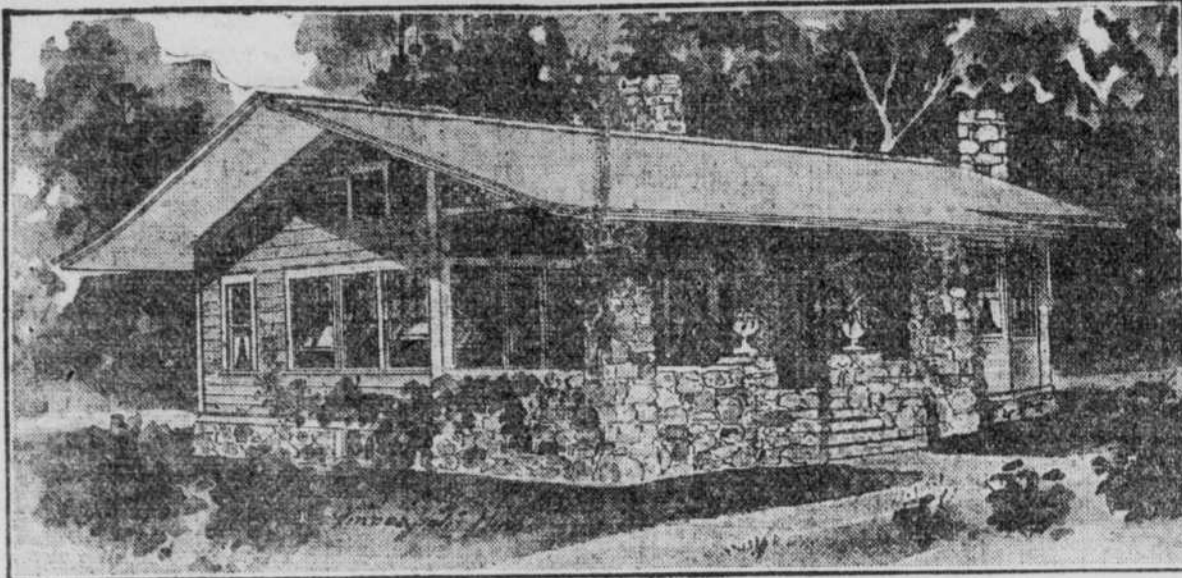

a dove gray or autumn brown, to harmonize with the stone foundation and pillars, and the roof of slate or shingled and stained a dull red or a soft green, an exceptionally attractive looking home would be the result.

The porch, of course, is easy to mentally picture as a most delight-

ful outdoor sitting-room. One enters this bungalow through a little sun room—so ideal for winter use—and on into the dining-room which has a built-in sideboard. Through a wide arched doorway one enters the living-room with its bay window and rough stone fireplace. Two bedrooms, kitchen and bath complete the plan which also allows for plenty of closet room. There is a stairway which leads to an unfinished attic. The bathroom has a tile floor and by being next to the kitchen permits the centering of the plumbing, which is an economical idea well worth considering. This bungalow has hardwood floors and finish which further makes it a home to delight even the most fastidious builder. The total width is 42 feet and depth is 34 feet. The main story is eight feet high and the basement is seven feet. It is estimated that, exclusive of plumbing and heating, it will cost between \$5,500 and \$6,500 to build.

CALIFORNIA TYPE OF BUNGALOW

CONSTRUCTION IN CANADA IS ON INCREASE

Ontario Leads in Value of Industrial Building Undertaken.

A marked increase in all kinds of construction throughout the Dominion of Canada during the first eight months of the present year is indicated in a comprehensive analysis of the building situation. The value of the construction including engineering and industrial as well as residential and business properties is placed at \$192,470,200 for the Dominion, as against \$121,753,500 for 1919, and \$74,310,200 for the corresponding eight-month period of 1918, and \$74,310,200 for 1918. Ontario leads all other provinces with a total for the period this year of \$85,925,600, as against \$52,047,600 for the four western provinces, Manitoba, Saskatchewan, Alberta and British Columbia; \$40,850,700 for the province of Quebec, and \$15,646,300 for the Maritime Provinces. With but one exception the record for the present year is substantially greater than the returns for the two previous years. In the case of the Maritime Provinces, however, the total for the first eight months of 1918 was \$19,982,500.

For the month of August Ontario again leads with a total of \$9,878,600 for the month, as compared with \$7,028,100 for the Western provinces; \$4,797,000 for Quebec, and \$1,771,100 for the Maritimes. It is evident from the construction undertaken this year that Ontario is in no immediate danger of losing her supremacy as the industrial province of the Dominion, as industrial construction proceeded here at a much more rapid rate than elsewhere in the Dominion. In fact, 50.87 per cent. of the total was made up of value of industrial construction undertaken, whereas in Quebec the rate is down to 5.92 per cent., and in the West to 39.53 per cent. Ontario's total of industrial construction is placed at \$4,577,300, as compared with \$2,471,000 for the four Western provinces.

The West, however, led for the month in the construction of business properties, such as stores, office buildings, etc. The total was \$3,123,600, or 49.96 per cent. of all construction undertaken, as against \$2,612,100, or 29.03 per cent. for Ontario, and \$1,672,500, or 50.47 per cent. for Quebec. Ontario leads in residential construction with a total of \$1809,000, or 20.10 per cent., as against Quebec's \$1,445,400, or 43.60 per cent.

Alexander McMillan, lot 796, East Ward. Price \$2,400.

MONEY CHECKS BUILDING IN EASTERN CITY

Difficult for Loan Companies to Compete Against Government Issues.

HALIFAX—“We have considered no applications for loans or build-ups during the past two months.” It was the manager of one of the older of the loan companies of this city who made this remark when asked about the money situation. It is a noteworthy thing, he said, that the loan companies have not increased the rate of 7 1/2 per cent. their charge, on loans, though they pay one per cent. more on bonds and debentures than before. While the interest rate on money borrowed by the loan companies of Halifax is one per cent. higher, the rate they obtain on loans they make has been the same since 1913. It is probably the only business where the “raw material” costs more and yet sells at the same old figure.

The loan companies are finding it hard to compete in the money market with Victory bonds selling at a price to net about 6 1/2 per cent. Their securities in the main are in the form of short term loans at 5 1/2 per cent. People have been educated in the matter of loan buying and investing in Government bonds, but the loan companies are on the spot and will take money in small amounts, so that there is a good appeal to a community which finds the loan company more convenient than the broker and outside investment.

Yet money is scarce in the treasuries of these companies at the present time. They are loaning some money, but it is in the form of advances on former contracts, and to builders whose work is already in progress. The result is that building is being curtailed, particularly of dwelling. The falling off in permits is one effect of this. The opinion here is that this condition is only temporary, and that there will ere long be a readjustment that will remedy affairs. The loan company managers have been considering an advance in the rate to eight per cent., but no action has as yet been taken. Another thing that will have to be done perhaps will be to make new issues of debentures at a higher rate than the 5 1/2 per cent. now outstanding.

LOANS ON BUILDING. A statement of the amount loaned on buildings in Halifax by the companies since 1913 is interesting. Practically the whole of this was on real estate property. The figures are as follows:

1913	\$1100,000
1914	1,200,000
1915	1,300,000
1916	1,330,000
1917	1,425,000

J. S. Mitchell & Co., Ltd.

1918	1,340,000
1919	2,500,000
1920	2,500,000

At the end of the present 12 months' period may be \$200,000 more, or an aggregate of \$2,700,000.

The housing situation in Halifax is still acute, and the lessening of available funds for building operations is one that requires consideration. There are fewer people than formerly who can finance the building of a house without borrowing, and there are not so many contractors who are in a position to wait for their money as was once the case. Prices are so high and all costs so excessive that a contractor must get a proportion of the mortgage money as well as the owner's principal as he goes on. The problem of the loan company is thus all the greater.

G. D. Finlayson, superintendent of insurance, paid a recent visit here for the purpose of looking into the affairs and condition of the trust and loan companies. It is reported that he found things satisfactory, and volunteered the information that it is proposed to introduce federal legislation, making certain minor changes in the laws regarding banks and trust companies.

1000 Eggs in Every Hen TELLS HOW "The great trouble with the poultry business has always been that the laying life of a hen was too short," says Henry Trafford, International Poultry Expert and Breeder, for nearly eighteen years Editor of Poultry Success.

The average pullet lays 150 eggs. If kept the second year, she may lay 100 more. Then she goes to market. Yet it has been scientifically established that every pullet is born or hatched with over one thousand minute egg germs in her system—and will lay them on a highly profitable basis over a period of four to six years' time if given proper care.

How to work to get 1,000 eggs from every hen; how to get pullets laying early; how to make the old hens lay like pullets; how to keep up heavy egg production all through cold winter months when eggs are highest; triple egg production; make sleeker hens bustle; \$5.00 profit from every hen in six winter months. These and many other money-making poultry secrets are contained in Mr. Trafford's "1,000 EGG HEN" system of poultry raising, one copy of which will be sent absolutely free to any reader of this paper who keeps six hens or more. Eggs should go to a dollar or more a dozen this winter. This means big profit to the poultry keeper who gets the eggs. Mr. Trafford tells how. If you keep chickens and want them to make money for you, cut out this ad and send it with your order and address to Henry Trafford, Suite 602M, Tyne Bldg., Huntington, N.Y., and a free copy of "THE 1,000 EGG HEN" will be sent by return mail.

NEW DEMAND OF MINERS NOT SETTLED YET

Director of Coal Operations Expected in Calgary Shortly.

(Associated Press Despatch) CALGARY, Alta., Sept. 25.—No word has been received in Calgary yet, as to when W. H. Armstrong, director of coal operations, will be in the city to discuss the new situation that has arisen over the demand for an increase of \$1.15 per day for day wage workers in the coal mines in this province. Pending his arrival operators will not express any opinion. They will no doubt arrange to meet the officials of the United Mine Workers of America at a conference but the outcome of this is highly problematical, as they have on the strength of the recently signed agreement, gone ahead making contracts for their coal.

HON. WIGMORE ARRIVES IN OTTAWA. (Associated Press Despatch) OTTAWA, Sept. 25.—Hon. R. W. Wigmore, Minister of Customs, arrived in Ottawa last night. A SIXTH BANK IN BOSTON HAS BEEN CLOSED

Commissioner Allen Takes Over Affairs of the Fidelity Trust Company.

(Associated Press Despatch) BOSTON, Mass., Sept. 25.—Bank Commissioner Joseph C. Allen today took over the affairs of the Fidelity Trust Company. His action marked the closing of the sixth banking institution in this city within two months. The other was the Hanover Trust Company, of which Charles Ponzi, the "financial wizard," was a director and largest individual depositor; the Prudential and Cosmopolitan trust companies, and two small private banks.

The capital of the Fidelity is \$3,000,000, and according to the latest available statement from the company, had a surplus of \$700,000. Its deposits totalled about \$18,000,000. James Ferguson, its president, is affiliated with several other financial and industrial institutions, as is Edwin T. Enright, the vice-president. The latter is president of the State Senate.

The Fidelity Trust Company was one of three banks which yesterday invoked the law requiring ninety days' notice for withdrawal of savings deposits. The reasons for the closing of the bank, Commissioner Allen said, were "the steady withdrawal of deposits, and slow and doubtful loans."

SUB HAS NO FUTURE AS A WAR WEAPON

Captain Munro Is Discussed by Captain Donald Munro, C.M.G., R.N.

TORONTO, Sept. 25.—The submarine as a weapon of war has no future, having been rendered ineffective by the perfection of the depth charge, Captain Donald Munro, C.M.G., R.N., said in a speech here last night under the auspices of the Navy League.

Captain Munro was adviser on port defence to the Admiralty during the war. His advice to Canada on naval matters was summed up in the dictum that the building of Canadian warships might be left to a later date, all efforts being concentrated meantime in training of men. The sending of boys to sea on training ships, with the express purpose of making seamen of them, he advocated as the only effective method of raising sailors.

Apprenticeship to the merchant marine he did not consider advisable or efficacious.

NEW YORK PRESS MARKET COMMENT

The Sun.—The stock market furnished further conclusive evidence during yesterday's trading that the trouble with the securities market was not so much fear of the money situation as it was the fear that the price cutting campaign may go a good deal further than had been expected.

The Journal of Commerce.—Many bankers regard the price re-adjustment as on the whole favorable to better business conditions. They believe the change was inevitable and that the sooner it is reckoned with and disposed of the earlier there will be a restoration of satisfactory trade.

The Wall Street Journal.—A great deal of recent buying of Crucible can be traced to inside sources. It is claimed that a new bull pool has been formed in Crucible and that a rise will be based upon the plan of the company to declare another substantial stock dividend.

The Wall Street Journal will say today:

Canada's Sea-Conscious Spirit

must be developed

The Merchant Flag of Canada Must Fly in Every Port in the Empire.

"The Sea does not separate—the Sea Binds"

To develop our Sea Heritage, we must send chosen and trained emissaries—our most able business men—to make preferential trade agreements with other nations in the Empire. And we must make good these trade agreements with Canadian Ships.

QUEENSLAND TO SHORTLY RAISE A BIG LOAN

Three-quarters of Loan Secured, Earmarked for Obligations Maturing in London.

(Associated Press Despatch)

LONDON, Sept. 28.—The Morning Post learns that of the million pounds advance which Premier Theodore, of Queensland, Australia, arranged with the Bank of England for that state, more than three fourths was earmarked for obligations maturing in London, leaving only two hundred thousand pounds to be remitted. Hence there has been need of the raising of a local loan in Queensland.

In a recent speech Premier Theodore said the failure of his financial mission to London would not be allowed to affect the development of the state. A two million loan would be raised locally, he stated.

Premier Theodore, of Queensland, visited London in an effort to raise funds to finance the operation of the Queensland Government owned steel plant. He was met with much opposition in London, much of it being based upon statements made by opponents of the Labor Government which he heads in Queensland.

a visitor at St. Johns on Saturday.

The field day for the children of the two Sunday Schools was held on Saturday afternoon and was an unqualified success. The weather was delightful and a large number assembled to enjoy the children and the sports. There were prizes for everything and everyone, unlimited ice cream, candies, etc., and the children were unanimous in voting it the best picnic ever held.

Mr. John Miller and his mother, Mrs. Phoebe Miller, spent Saturday in St. Johns.

Mr. Green wishes to thank the boys who turned out to assist in the removal of the delapidated fence at the road side of the Paragon property on Friday morning. Not only is the appearance of the street very much improved, but it is hoped that the cause of the bad snow drifts at that point has been done away with.

Mrs. M. P. Edy entertained a party of ladies at tea on Thursday after-
