The Daily Witness. SATURDAY AFTERNOON, JUNE 29. Last Edition. MONDAY being Dominion Day there will be no issue of the Daily Witness.

TELEGRAPHIC NEWS. CABLE. THE PORTUGUESE DIFFICULTY. LONDON, June 28.—A special Cabinet Council will be held to-morrow to consider the De la Goya Bay question. It is expected that a portion of the Cape of Good Hope squadron will participate in a naval demonstration at Lisbon.

A ROYAL YACHTING TOUR. BERLIN, June 29.—Count von Waldersode, Commissioner in Chief of the army, will accompany the Emperor William on his yachting tour to Norway, and after his return on his trip to England. OMINOUS SIGNS. LONDON, June 29.—Large quantities of gold coin from South America are passing through Antwerp for Russia and Austria, the same as in the Franco-German war.

MURDER AND SUICIDE. BERLIN, June 29.—Early this morning an actor named Zeidemann arrived at (Gosau), in the night express from Treves and drove direct from the station to the lodgings of the well known tenor, Hans Geissner. He rushed up two flights of stairs, burst into the room, where Geissner was still asleep, and without a moment's warning shot him dead. He then blew out his own brains. The cause of the crime was jealousy, both men were in love with the same woman, an actress of some note, and the lady's partiality for the tenor drew Zeidemann to desperation.

CABLE NOTES. The weather for some days past has been very hot in England. In Dover 30 soldiers have been sunstruck, but no fatalities resulted. The German Government has reduced the hours of labor in the royal mines in Silesia by an hour a day. The World's Sunday-School Convention assemblies Monday. Three hundred Americans will attend. Many of the delegates are already in London. Queen Christina ascended 1,000 feet in an army balloon yesterday in Madrid. A meeting announced to be held in Cork on Sunday to protest against the evictions on the Pombony estate and to be addressed by Mr. W. O'Brien, has been prohibited by the authorities.

AMERICAN. CHRONIC MURDER DENOUNCED. CHICAGO, June 29.—A "Chronicle" memorial meeting was held last night and attended by 2,000 persons. Judge Prendergrast, Congressman Adams and Lawler, and others spoke. Resolutions were adopted denouncing the murder of Cronin and demanding that justice be done out to all who were guilty. Only about one-fifth those present were of Irish extraction, the remainder being mostly German-Americans and native Americans. THE WAGES OF SIN. SHOCKING DEATH OF SEVERAL DISREPUTABLE PEOPLE. PATERSON, N.J., June 28.—Four women and two men, all disreputable characters, were discovered dead in a house of ill-repute here. Death was caused by asphyxiation. Three of the women were stretched out on the floor naked. The oldest, aged 40, was lying in a pool of blood which came from an ugly wound in the head and covered her face and body. The right ear was almost torn from her head and the face was horribly swollen. The fourth woman, aged 35, was sitting in a rocking chair near the window with her arms folded. Goodfired, the keeper of the dive, was found in the rear of the house, lying on a cot, with his tongue protruding and swollen to four times its normal size. His features were badly decomposed. He was about 80 years old. The second man was found in a sitting position with his head resting on the bed on which Goodfired had evidently done the fatal work. The gang were seen last Wednesday night going into the city. It is believed they have been dead since Thursday morning. The coroner and police are investigating the case.

FUNERAL OF MRS. HAYES. FREMONT, Ohio, June 28.—The morning train brought a large number of persons to pay the last tribute of respect to Mrs. R. B. Hayes, the wife of the late President, who died at the residence of her son, Mr. Hayes, in this city, on the 27th inst. The funeral services were held at the residence of her son, Mr. Hayes, on the 28th inst. The funeral services were simple and unostentatious, preserving the character of a private rather than a public occasion. The interment took place at Oakwood Cemetery. CHICAGO'S POPULATION. CHICAGO, June 29.—The publishers of the new directory of Chicago claim that it shows that the city has a population of over 900,000 to-day. All the suburbs will vote on their annexation to Chicago, and the result is favorable to the city which boasts of a population of over a million.

GIGANTIC TRUSTS.

CINCINNATI, June 28.—A gigantic new oil company, with a capital of millions of dollars, is being organized in this city. PITTSBURGH, Pa., June 28.—It is currently reported that the Monongahela coal operators are about to consolidate and form one gigantic company, controlling the entire output of the Monongahela river basin, and a part, if not a majority, of the Kanawha river mines. Also stated that the Standard Oil Company has offered to take a large block of stock in the proposed company. The smaller operators in the valleys will gladly dispose of their property at a fair price and retire from the field. The Pittsburgh and Southern Coal Company, which now practically controls the output of the Monongahela Valley, is at the head of the movement.

THE CHICAGO "MYSTERY." TWO THUGS AT WORK. CHICAGO, June 28.—Young Carlson, whose parents own the cottage in which Dr. Cronin was murdered, declared that two men came to the cottage yesterday and threatened him with death if he should identify Martin Burke, now under arrest at Winnipeg. DISTILLER SPELLMAN'S STORY. The grand jury to-day examined Edward Spellman, the "Roxie" details and district officer of the Clan-na-Gael. Spellman was examined about the alleged disbanding of Camp 20 since the murder. He told the grand jury the camp had not been disbanded. He said the records had not been destroyed, and that any records pertaining to the camp were at the disposal of the grand jury.

THE PERSECUTION OF CRONIN. D. J. Lyon, an ex police justice, was examined about the history of the case and stated before him, in which Dr. Cronin was a witness. The suit was a trumped up affair, the sole object of which was to place the doctor on the witness stand before the grand jury, and to make his life from early boyhood could be gone over.

HAS NOT "AQUELLED" YET. John J. Beggs, senior guardian of Camp No. 20, Clan-na-Gael, who was arrested on Tuesday, was to-day allowed to see reporters. At no period in the history of the Clan-na-Gael had anything to tell. He claimed his treatment by the police was brutal, and that the police had not offered the slightest excuse for his detention. He stated that the Clan-na-Gael was a regular fraternal order, and that the Clan-na-Gael was a regular fraternal order, and that the Clan-na-Gael was a regular fraternal order.

"COONKEY" IN COURT. KANSAS CITY, June 28.—While Recorder Boland was holding court here to-day a stranger entered the courtroom and spoke with him for a few minutes in guarded whispers. The judge looked much surprised and with difficulty controlled his agitation. The stranger, who was dressed in a suit and tie, and who was recognized by the Chicago grand jury, as well as the regular extradition papers from Washington. CRONIN'S REMOVAL FROM CHICAGO. CHICAGO, June 28.—An afternoon paper says—"The Grand Jury has dropped all other phases of the Cronin murder mystery, except that in which Alexander Sullivan was connected with the case and the moving story. Tomorrow so weighty that it must almost positively result in his indictment, has been submitted to the Grand Jury, showing the evidence before Dr. Cronin to be a British spy, not only a member of the Clan-na-Gael, but to the Grand Jury. Shortly after Dr. Cronin's disappearance, Sullivan was seen in the company of Father De Quen, the discoverer of Lake St. John, who came to Quebec in 1635 and died at the age of 96 years, and of Father Francois Dumbury, who was born in the town of St. Louis, Champlain, in 1645, and died at Fort St. Louis, Champlain, in 1645.

ATTEMPTED SUICIDE. At the strange lady who attempted to commit suicide by throwing herself from one of the ferry boats given her name as Margaret White, it was found that she was on her way to Montreal to join her husband. While at the Hotel Dieu she again attempted suicide by strangling herself with a handkerchief. The physicians pronounced her to be completely insane, and she has been sent to goal pending her removal to the asylum. REPARATION. It is stated that nearly 80,000 acres of land in the neighborhood of Commissioners Lake, on the line of the Lake St. John Railway, have been purchased from the Government by a number of French Canadians from the United States who went on the recent repatriation trip to Lake St. John.

FATALITIES AT LANCASTER. LANCASTER, Ont., June 28.—The eight year old son of Napoleon Delisle, of Valleyfield, was drowned in the river here to-day. He fell off a large. His body has been recovered. This afternoon, while a ballast train on the Grand Trunk Railway was unloading about a mile west of this place, Conductor Page was standing on the platform when it met with some obstruction, and was overturned, Conductor Page falling directly underneath. He was taken to the Grand Trunk Railway hotel here, where it was found that he had one thigh broken, a severe contusion of the head, several ribs broken, and was internally injured. He lingered in great agony until 5.30, when he died. His remains have been forwarded to his relatives in Montreal. Page was a young man of about 35 years, had been on the road as conductor for about six years, and was esteemed very highly by his fellow-employees.

A VESSEL RELEASED. HALIFAX, N.S., June 28.—Collector Harrington received instructions from Ottawa to-day to release the schooner "Warrior" and the barrel of oil seized a few days ago on the charge of smuggling from Boston. FATALITIES AT LANCASTER. LANCASTER, Ont., June 28.—The eight year old son of Napoleon Delisle, of Valleyfield, was drowned in the river here to-day. He fell off a large. His body has been recovered. This afternoon, while a ballast train on the Grand Trunk Railway was unloading about a mile west of this place, Conductor Page was standing on the platform when it met with some obstruction, and was overturned, Conductor Page falling directly underneath. He was taken to the Grand Trunk Railway hotel here, where it was found that he had one thigh broken, a severe contusion of the head, several ribs broken, and was internally injured. He lingered in great agony until 5.30, when he died. His remains have been forwarded to his relatives in Montreal. Page was a young man of about 35 years, had been on the road as conductor for about six years, and was esteemed very highly by his fellow-employees.

THE QUEEN CITY. (Special to the Witness, June 29.) THE WRIT AGAINST MR. SAMUEL NORDBEIMER as ex-President of the Federal Bank in connection with the late Commercial Loan & Savings Company, for \$60,000. He will resist payment to the utmost and the case will go to the Privy Council. THE REV. DR. MCGLENN is announced to lecture again in Toronto early in August. THE PROGRAMME COMMITTEE for the Millers' Mass Meeting, which comes off here on the 9th and 10th of July, have issued the following list of subjects for discussion:—1, Re-organization; 2, appointment of permanent secretary and treasurer; 3, condition of the milling industry; 4, consignments back charges and insurance; 5, grinding in bond the ball passing into his son, inflicting a fatal wound. McGinnis then turned upon Blaise, but the latter shot him through the head. McGinnis will die.

WEATHER REPORT. METEOROLOGICAL OFFICE, TORONTO, June 28, 11 p.m.—The pressure is now above the normal throughout the Lake and Eastern districts, accompanied by fair weather everywhere. An important depression covers the North West, attended with fair weather. It is accompanied in Manitoba and Ontario by a large and excessive heat. Maximum temperature—Calgary, 76; St. Louis, 72; St. Paul, 70; Regina, 70; Winnipeg, 61; Port Arthur, 64; Toronto, 63; Kingston, 61; Montreal, 72; Quebec, 72; Halifax, 81. Probabilities for the next twenty-four hours—All Canada, light to fair winds, fine to warm weather.

REPARATION. It is stated that nearly 80,000 acres of land in the neighborhood of Commissioners Lake, on the line of the Lake St. John Railway, have been purchased from the Government by a number of French Canadians from the United States who went on the recent repatriation trip to Lake St. John.

REPARATION. It is stated that nearly 80,000 acres of land in the neighborhood of Commissioners Lake, on the line of the Lake St. John Railway, have been purchased from the Government by a number of French Canadians from the United States who went on the recent repatriation trip to Lake St. John.

THE ANCIENT CAPITAL.

(From Our Own Correspondent.) QUEBEC, June 28. Mr. Narcisse Morin, of St. Alexis des Monts on the North Shore below the Saguenay, has killed no less than 30 bears since the past spring, which have brought him \$500. Premier Mercier has leased Mr. Ritchie's house at Point de l'Isle (Island of Orleans) with the intention of spending the summer months there with his family.

The Montreal mails via the Grand Trunk, which should have reached here yesterday morning, only got in to-day owing to some mistake in the exchange of the bags. Two of the defendants, charged by the Turin-like Trust with tearing down their toll bar and damaging their property at Montmorency in the assertion of pretended legal rights to pay no more than one toll on the road in question, gave bail to-day to stand their trial at the next Criminal Assizes.

Mr. Hamel, Rector of Laval University, has gone to spend his vacation at a distant cottage at Levis the day before yesterday. The city markets were well supplied to-day. Wild berries were the first appearance and commanded a high price, as did also new potatoes. Col. Kinnaird, of London, who is making the grand tour of America, arrived in town to-day. QUEBEC, June 29.

ST. SAUVREUR FIRE. The sum of \$21,557 has already been received for the St. Sauveur fire relief fund, and some 200 new buildings are already in course of erection. MOUNT HERMON. Mount Hermon Cemetery interments for the year were 117, including twelve removals from the burying ground, being 40 less than last year. By the treasurer's accounts the revenue from every source has been \$2,066.88, and expenditure \$2,348.01, showing a shortage of \$481.13. From last year's account a surplus of \$1,084.85, as against, in 1887, \$857.70, showing an increase of \$227.15. On the other hand, interments this year are less than in 1888. At no period in the history of the cemetery has the disparity in the number of interments in two successive years been as great as now recorded, a fact suggestive of the wisdom of the course in endeavoring to create a substantial fund to replace the lesser revenue which (unless commercial prosperity and a substantial augmentation of our Protestant population occurs in the immediate future) appears inevitable. In this connection, in accordance with the terms of the late Mr. William Poston's will, one thousand dollars, the interest of which is to be applied to the maintenance of the cemetery, the legacy of the kind received, numerous monuments in the cemetery have been erected, at a cost of one hundred and thirty thousand dollars.

JESUIT REMAINS. In 1878 workmen engaged in the demolition of the old Jesuit college discovered human bones, which were collected in coffins and placed in the vault in Belmont cemetery. Damages recently involved the cemetery and the bones of some former occupants had to be taken and the Rev. Father Day, Superior of the Jesuits here, proceeded a short time since to the cemetery in connection with a medical practitioner, Dr. Hamel, to identify if possible the remains. An examination of the skulls and an investigation of the contents of the coffins in the cemetery resulted in the discovery, according to the archaeologist, Dr. Dionne, that the bones found eleven years ago in the Jesuit barracks square and deposited in a vault of Belmont cemetery were the remains of Father De Quen, the discoverer of Lake St. John, who came to Quebec in 1635 and died at the age of 96 years, and of Father Francois Dumbury, who was born in the town of St. Louis, Champlain, in 1645, and died at Fort St. Louis, Champlain, in 1645.

ATTEMPTED SUICIDE. At the strange lady who attempted to commit suicide by throwing herself from one of the ferry boats given her name as Margaret White, it was found that she was on her way to Montreal to join her husband. While at the Hotel Dieu she again attempted suicide by strangling herself with a handkerchief. The physicians pronounced her to be completely insane, and she has been sent to goal pending her removal to the asylum. REPARATION. It is stated that nearly 80,000 acres of land in the neighborhood of Commissioners Lake, on the line of the Lake St. John Railway, have been purchased from the Government by a number of French Canadians from the United States who went on the recent repatriation trip to Lake St. John.

FATALITIES AT LANCASTER. LANCASTER, Ont., June 28.—The eight year old son of Napoleon Delisle, of Valleyfield, was drowned in the river here to-day. He fell off a large. His body has been recovered. This afternoon, while a ballast train on the Grand Trunk Railway was unloading about a mile west of this place, Conductor Page was standing on the platform when it met with some obstruction, and was overturned, Conductor Page falling directly underneath. He was taken to the Grand Trunk Railway hotel here, where it was found that he had one thigh broken, a severe contusion of the head, several ribs broken, and was internally injured

HOW TO FEED THE LAND.

HINTS FOR OWNERS OF IMPROVED FARMS.

Having freely gone over the scientific, commercial and social causes which are rendering the pursuit of agriculture unprofitable in this Province, and as a consequence are depopulating our rural communities, I shall now take up the question of plant food and the sources, and trust that a desire may be awakened to investigate more fully the principles and apply the same to the individual circumstances of the farm. I have nothing new to present. Men of culture

ACTUATED BY MOTIVES OF THE DEEPEST PATRIOTISM have been for the last fifty years and are still pursuing most careful experiments both in the field and in the laboratory which are giving to the world, to enable the agriculturist to increase the amount of his production and diminish the cost. Agriculture is a science and it is fast pushing its claims for recognition upon the thinking people of our age, and ours is essentially an age of thought and progress. There still remains a vast majority of farmers on this continent who have made no study of the subject and are taking no pains to inform themselves of the questions which have been solved in Britain and the Continent, and look with a degree of distrust upon those who would direct them to sources of enlightenment, and yet, as you apply it, it is they wonder in a vague way why they are so prosperous as they were years ago. These men are behind the age, and will necessarily get further and further so, as time goes on, until, through sheer necessity, they will be compelled to adopt the practices of their more progressive neighbors. Such men may be necessary to society, but they heavily clog the wheels of progress.

PLANTS, LIKE ANIMALS, subsist upon food which is derived from the air, water and the earth. That which is obtained from the air and water forming the sugar, starch, &c., of plants, and the fleshy portions of animals, is termed organic, and is mostly combustible, passing off in the vapor to the atmosphere ready for vegetable reproduction. It forms by far the greater part of both plants and animals, and is furnished by Nature as such. That which is taken from the soil is termed inorganic, mineral or earthy, giving strength and rigidity to the plant, and forming largely the bones of the animal. About ten elements are included under this division, some of which are found so abundantly in all fertile soils as to demand little or no attention, while others are required in very small quantities. Phosphorus, potash and lime demand the closest attention in order that the stock in the soil may not become diminished. The drain upon the land by each crop taken from it of mineral matter can only be replenished by the use of manure, or some universally acknowledged necessity of manuring, but by far the greater part confides their practices to that which is made on the farm, and of this the theory is that all the Province is ruinous. Farm yard manure might be termed

THE ESSENTIAL ELEMENTS OF THE PRODUCTS taken from the soil, after having sustained the vital processes of the animal, and built up their growth and products. The manure, and the objects of feeding, whether for growth, milk or beef, largely determine the value of the manure. Poultry produce the richest about the farm, for the reason they live upon concentrated food, and their excrement is rich in phosphorus, and is a valuable manure. A horse fed largely upon grain will produce more valuable manure than one fed on straw. A cow giving milk will not return as good a manure as a similar cow similarly fed doing nothing but living. In short, every function of life and every product is produced at the expense of food, and that so spent cannot appear in the manure. For this reason farm yard manure has been the mainstay of the agriculturist.

CONTAINING A COMPLETE COMBINATION of physical and chemical constituents. And if a sufficiency of this most valuable manure could be manufactured, the use of all the chemical substitutes would be unnecessary and the problem which is occupying our attention at present would never have arisen. The requisite quantity to constitute complete nutrition could, however, be only obtained by literally putting back the whole of the crops and living things which have derived direct and indirect sustenance from the soil, which would be impracticable, since the grains, seeds, cattle, poultry, milk, butter and wool are sent to market and go to feed the populations of the towns. What we consider the greatest advantage, even if gathered up from all sources about the farm, is only the excess of that portion taken from the soil by each crop and what is sold from the farm, besides the manure which is sold, and soluble salts which are being washed out by rain and snow falling on unprotected piles around our farm buildings all over the country. It is any wonder that the manure which is sold once they are done? Farmyard manure, properly used, is the most complete and cheapest fertilizer at the command of the farmer and I shall in my next take up its chemical composition and its effects. J. N. EWING, JR., Richmond, P. Q., June 1880.

THEOREMATIC DREAMS.

WARNING RECEIVED BY A TEXAS FARMER AND HIS WIFE. Impending perils may cast a shadow persistently ignored in a waking state, while the mind is under the influence of a self deluding optimism—the wish that is father to the deed in the significance of the threatening danger. But in sleep the voice of the monitor cannot be silenced by such illusions, and warning forebodings often take the form of dreams, which, repeated with a vividness and frequency which last cannot fail to influence the actions of the individual, in spite of all waking sophisms.

DREAMED IT TWICE. I remember the incident of an American family that had settled in the northern portion of Cameron County, Texas, but before the end of a year removed to the vicinity of a larger settlement and sold their half completed home for reasons that remained a mystery to their upland neighbors.

"We had selected that building site after a good deal of prospecting," said the proprietor of that house told me a year ago, "and at first it seemed a puzzle to me that nobody had pre-empted it long ago. It was a broad hill with a fine prospect east and west, and a goodly amount of timber, and a range of good springs, and a ledge of soft limestone within a thousand yards of the house, where you could shape out building stone with a common saw. I never could hope to find better neighbors, they actually got up a picnic to celebrate our arrival, so glad they were to have English-speaking folks within visiting distance.

"We had every prospect of getting an improved road and a post-office, and three months after our first entry I would not have sold that homestead for ten times my direct expenses. But about half a year after that ranch seemed a haunted place and I didn't feel at rest night or day, though people that know men are not likely to call me superstitious. I never was afraid of darkness even when I was a boy, but I was afraid of ghosts would not scare me worth a cent. But one night, about a week after I had got home from a trip to Brownsville Landing, I dreamt our house was tackled by a band of Gopher bushwhackers (Mexican bandits) and that they shot me down and killed my little boy with a club, and then loaded their horses with everything they could.

"Two nights after I had exactly that same dream over again, and I could see every stick and stone in our yard, when I tried to make a break for our new neighborly place, and was shot down just as I rushed through the gate. I noticed the very horses and saddles of that gang and could have recognized every one of them if I had met them in daylight, and I now do believe that I did see them somehow or other on that trip to the landing.

THE WIFE'S WARNING. "The idea began to haunt me when that dream came back for the third time, though I never said a word, but one morning my wife seemed uneasy till all our farm hands had started to work, and then asked me to come out in the garden for her. I went, and she said, 'Do you think there are any robbers in this neighborhood?' she asked me when we were quite alone.

RELIGIOUS NEWS.

THE CHINA ISLAND MISSION has been enabled to send \$20,000 for the relief of the sufferers from the famine in China.

A WOMAN'S Christian Temperance Union is about to be organized in Oklahoma, the new territory lately added to the United States.

THE RATIO OF THE GAINS in converts in all the Protestant missions in China during the decade is about 140 percent; and in Japan it is over 300 percent.

FORTY DIFFERENT Mission Societies are at work in China. The oldest is the London Missionary Society, and the youngest the Church of England Zenana Mission.

THE MOST NORTHERLY MISSION House in the world is the one established by the Princess Eugenie of Sweden for the Laplanders at a point over 300 miles north of the Arctic Circle.

THE MARCHES OF LORENE presided at the annual meeting of the Princess Louise Home and of the National Society for the promotion of Jewish priests among the labor in Africa for the propagation of their faith.

THE ROMISH CHURCH is pushing for the open regions of the Upper Congo. Two Portuguese steamers recently carried from twenty to thirty Jewish priests to labor in Africa for the propagation of their faith.

AT THE BAPTIST ANNIVERSARIES in Boston, more than a score of young men presented themselves at the missionary meeting and said: 'We are willing to go to the heathen and give our lives in missionary work—will you send us?'

THE LATEST NEWS from Malange, one of Bishop Taylor's stations, is that an entire family of natives, five in number, have forsaken their idols and turned to Christ. May be the first fruits of a large harvest—Gospel in all lands.

PUNDITA RAMAIAH has named her school for widows in Bombay. 'Sharda Nandan'—The House of Learning. She has received financial aid most unexpectedly from a native gentleman. Although the school is small at present, greater things are hoped for.

TO-DAY there are 500,000 native Christians in India. Yet there was a time when the Christian missionary said: 'If ever I see one of these natives converted to Jesus Christ, I shall see something more nearly approaching the resurrection of the dead body than anything I have yet seen.'

OF THE SIXTEEN NATIVE PASTORS in the Punjab in connection with the Church Missionary Society, seven are converts from Mohan medism. In one mission station in the Punjab, out of 557 on the baptismal register, 225 were converts from Mohammedanism.—*Evangelical Christianian.*

URING the 33 years of its existence Mr. Spurgeon's college has trained 802 of the 802 are still working as pastors, missionaries, and evangelists, 21 are without parastars, 23 engaged in secular callings, 70 dead, and 77 have been removed from the roll. Last year there were 282 pastors who made no returns.

THE TOKYO Christian Advocate says that the visit of Mr. L. C. Wishard, of the Y. M. C. A. College Secretary of the United States, who is evangelizing in Japan, has greatly aided the cause of Christian education in Tokyo. At one meeting 60 hearers arose and pledged themselves individually to carefully investigate the teachings of Christianity.

A NEW YACHT in connection with the anniversary of the London Missionary Society, was a young man's meeting, over which the venerable Joshua Harrison, the life-long friend of Samuel Morley, presided. The young man, who was minister of 292 members, the increase during the past year having been 101.

Children Cry for Pitcher's Castoria. Clothing, &c.

FOR FASHIONABLE AND CHEAP SPRING OVERCOATS—AND—SPRING SUITS, made to order.

Professional. JAMES B. ALLAN, ADVOCATE, Room 15, Sixth Floor, (New York Life Building).

THE NORTH AFRICA MISSION, formerly called 'Mission to the Kabyles and other Berber races,' has recently completed Tripoli, Mr. Mitchell and Mr. Harding landing there February 27. They report the people more bigoted than in Tunis, but, working with caution, they are thus far getting on satisfactorily. They expect to be able to send some Scriptures into the Soudan by the caravans.

READABLE PARAGRAPHS.
By taking hold of the cloth to balance himself Harry can walk all round the dining-room table.

A GOOD JOKE.
The following story was told to Mr. Gratian by Coleridge:
When my 'Lyrical Ballads' first came out, it was anonymously, and they made a good deal of noise.

HE RESENTED THE INDIGNITY.
The grandson of one Boston's best beloved literatures recently showed a similar spirit—in fact, everybody does. He was but a little over four when he was

THE VENERABLE FRENCH ENLIGHTENMENT was riding on an omnibus by the side of three young ruffians, who kept up a conversation upon such subjects as they thought likely to annoy their neighbor. The priest took no notice, but upon hearing the omnibus said simply, 'An avoué, messieurs.' 'Oh, no,' replied one of the ruffians, 'Never! 'Yes, yes,' replied the priest; 'we shall meet again. I am the chaplain of Marsa prison.'

THE SALVATION ARMY.
The Salvation Army mustered in full force, and with great enthusiasm, on the occasion of its annual meeting in London recently. General Booth, who spoke on the 'Future of Missions,' said his own idea was that the Christian Church should resolve itself into one vast missionary society, and divide the nation into two distinct classes, the friends and the enemies of the Christian Church.

A PIECE OF HER MIND.
A lady correspondent has this to say: 'I want to give a piece of my mind to a certain class of object to advertising, when it costs them anything—this won't cost them a cent. I enclosed a living letter for nearly two years with a hundred back-logs in plain stationery or writing; was being literally dragged out at last; my mind increased by dragging. At length, in despair, I committed the sin of trying an advertised medicine, Dr. Pierce's Favorite Prescription, and it restored me to the blessedness of sound health. I honor the physician who, when he knows he can cure, has the moral courage to advertise his feat.'

THE WEST INDIA FRUIT LAXATIVE is recommended by physicians as the most reliable and most effective remedy for constipation, biliousness, and other ailments of the bowels. It is a pure and pleasant medicine, and is suitable for all ages.
