Established 1897. SHERBROOKE, QUE., WEDNESDAY, APRIL 15, 1908. ONE CENT

TWO YEARS IN THE PENITENTIARY.

This is the Sentence of the Convicted Needleman.

HER REMARKS OF THE JUDGE IN PASSING SENTENCE—BEEBE PLAIN MAN IS ACQUITTED.

The Criminal Court room was crowded to-day when Adolf Hneglovitz, who was found guilty of theft on Monday, came up for sentence. Mr. Broderick, K.C., on behalf of the Crown, moved for sentence, while Mr. L. C. Belanger, K.C., on behalf of the accused, made a strong plea for mercy.

Judge Mulvena, in passing sentence, said in part: "You have been found guilty after an unusually lengthy trial, and you have been skilfully and zealously defended. The value of the articles stolen in this case was small, but that is only a relatively small feature of the offence. According to your own statement you are a new comer to this country, but you have not proved to be a very desirable acquisition. The evidence shows that in order to provoke sympathy, or rather perhaps to make a speedy and unquestionable sale of your wares, you simulated an infirmity which is one of the greatest afflictions of mankind. You pretended to be deaf and dumb, and, under this pretence, entered houses in the city without knocking, generally at an hour when the male members of the family were absent, and attempted at least on two occasions to intimidate the woman of the house, and succeeded in one case. Under cover of your infirmity you had the cheek to demand 25 cents for an article on the printed cover of which was marked ten cents. I cannot take into consideration in sentencing you the other charges of theft which have been laid against you, and which the Crown has withdrawn, but I cannot close my eyes to the evidence incidentally given in this case to these other charges. To crown all you went into the box and you deliberately perjured yourself. Punishment exists not so much to punish the accused but for the purpose of protecting society and deterring others. The evidence discloses the fact that you are one of the most dangerous kind of criminals that prey upon the public. You have been proven to be a fakir and perjurer and the meanest of all kinds of thieves, a sneak thief. I cannot give you less than two years in the penitentiary."

BEEBE PLAIN MAN DISCHARGED.

Michel Desjarlais, who had been committed for trial on a charge of having assaulted and attempted to rob, in company with P. L'Heureux, one Vitali Davide, a stone cutter from Beebe Plain, was arraigned. The accused asked for a speedy trial and pleaded not guilty.

Davide went into the box and told how that on the night in question in company with the two men mentioned above and some others he had a night of it drinking and playing cards in the house of one Cloutier. He left the house in the company of the two men, and when near the corner of Gilespie and King streets L'Heureux demanded five dollars from him, and on his refusing to hand it over he was caught by the throat by L'Heureux. He shouted for help, and shortly afterwards the constable came along and brought them all to the station. He could not say that Desjarlais touched him during the trouble with L'Heureux.

Constable Turgeon told of having been called to the scene through a telephone message and with finding L'Heureux on top of Davide. Desjarlais was standing some twenty feet away at the time he arrived, and appeared to be under the influence of liquor.

A number of witnesses were examined for the defence. Mr. J. O. Boyer, who lives at the corner of the two streets in question, stated that Desjarlais was standing some distance away when he looked out of his window, and that he called on him to go and stop L'Heureux.

A. Hood, who made one of the party that night, stated that Desjarlais appeared to be very much under the influence of liquor.

The accused, who went into the box and gave evidence on his own behalf, stated that he had no intention of robbing or assaulting the Italian, and that he had no preconcerted arrangement with L'Heureux, to rob Davide. He told L'Heureux twice to desist.

Sub-Chief Couture stated that Desjarlais was an honest man so far as he knew, and that his only failing was that of taking too much liquor.

The accused was discharged, the Court holding that there was not sufficient evidence to prove that the accused was an accessory or abettor to the robbery.

WHAT FRANCE SMOKES.

(Paris Correspondence of the New York Times.)

The Government has just published statistics showing the consumption of tobacco in the republic for 1906. They reveal that during the year nearly 607,000,000 cigars of French manufacture and 15,500,000 of foreign fabrication were smoked in France. As for the packets of tobacco also sold they would, if piled together, have constituted a huge block, each side of which would be forty-seven yards in length. And all this without prejudice to the 2,500,000 kilograms of cigarettes disposed of in the same year. The Seine, the Bouche du Rhone, and the Nord are the departments in which cigars are most patronized; as they take a quarter of the total number, and it is much the same with cigarettes. In 1906, too, there were 47,057 Bureaux de Tabac throughout France, at the rate of one for 864 inhabitants.

INHUMANITY OF EMSLEY FARMER.

Animals Found in his Stables Starved to Death.

THERE WAS HEAVY MORTGAGE ON FARM — OWNER HAD LEFT FOR THE WEST.

Brockville, Ont., April 15.—(Special)—The story of the inhumanity of an Elmsley township farmer has just come to light, the details of which are shocking and most revolting in their cruelty.

His farm was heavily mortgaged.

Hearing that the man had left for the West the holder of the mortgage went to investigate.

An examination of the outbuildings revealed a shocking condition of affairs.

In the stables were found eleven cows, two heifers, two horses, a colt and a pig, all having been starved to death.

PERMANENT COURT OF ARBITRATION.

To Interpret Newfoundland Fisheries Treaty.

BEING PLANNED BY BRITISH AND UNITED STATES GOVERNMENTS.

Washington, April 15. — (Special) — The British and United States Governments are planning to submit to a permanent court of Arbitration at The Hague the task of interpreting the Newfoundland Fisheries Treaty of 1818.

The ratification of the general arbitration treaty, recently negotiated between the two countries, will be necessary before The Hague Tribunal can be called upon to take jurisdiction, but this ratification is predicted in well informed quarters.

MEETING OF DAIRYMEN'S EXCHANGE.

Adopted Cowansville Rule Regarding Sales.

BUTTER AND CHEESE REMAIN PROPERTY OF SELLER UNTIL PAID FOR.

The Eastern Townships Dairymen's Exchange met in the Agricultural Association room, Sherbrooke, yesterday.

Mr. Mackinnon, manager of the E. T. Bank, occupied the chair.

The question of increasing the fee of members who absented themselves from the board and which had been proposed at the last meeting was still further considered. The chairman thought that some better way could be found of meeting expenses.

He would do all he could to obtain the support of the merchants and bankers in the city for the board. Some of the members lived too far away to be able to attend regularly and any increase in the fee might weaken rather than strengthen the position of the board.

It was decided to adopt the rule of the Cowansville Board in the sales of butter and cheese, that is that it should remain the property of the seller until paid for by cash or cheque. The new rule was to be read by the secretary at every sale.

It was stated that the butter was sometimes weighed by unresponsible parties and the secretary was instructed to write to the Government Department of Agriculture and bring that matter under their notice.

It was decided that sellers owning and boarding six factories, should be allowed to board any factories over that number free. Such combinations of factories, by putting up large quantities of butter of uniform quality for sale, were a great inducement to buyers to attend the board.

The secretary was instructed to try and induce outside factories to enter the board by personal interview and also by having pamphlets printed and distributed showing the advantages to be derived by selling on the board.

The first meeting will be on May 11, at 1 o'clock, sales to commence at 1.30 sharp and close at 3 p.m.

The following were present: Messrs. Converse, Vice-Pres., W. M. Tomlinson, E. E. Temple, J. H. Crepeau, J. W. McKay, Joseph Pouliot, J. A. Lapierre, J. W. Dion, J. A. Roy and W. R. Haven.

NEW SHERBROOKE MANAGER OF CANADA LIFE.

Mr. Douglas P. Taylor, manager of the Federal Life Insurance Co., of this city, has been appointed local manager of the Canada Life, succeeding the late J. A. Pennoyer.

GREAT DAM GIVES WAY.

Uncontrollable Flood Advancing Upon Great Falls.

DAMAGE DONE IN MONTANA ESTIMATED AT $250,000.

Helena, Mont., April 15.—(Special.)—Uncontrollable flood is rapidly advancing to-day upon Great Falls, a city of 15,000 population, as a result of the breaking of the dam at Hauser Lake, and it is believed that the Boston and Montana smelter, one of the largest in the world, is doomed to destruction.

The smelter, which is built on the river bank, employs more than 1500 men.

The employees were engaged all night in the construction of a "wing dam" around the smelter.

Preparations have also been made so that the dam at Great Falls may be dynamited as a last resort.

Craig, Mont., has probably been wiped off the map, although, as far as known, all of the 400 inhabitants escaped.

GREAT DAM GAVE WAY.

Helena, Mont., April 15.— Without warning, the great dam at Hauser Lake, on the Missouri River, 15 miles north of this city, partially gave way shortly before three o'clock yesterday afternoon, causing damage estimated at $250,000. No lives were lost and at nine o'clock, as far as can be learned, no serious damage has been caused by the volume of water, estimated at about 25 feet, which was precipitated into the channel below the structure. The narrowness of the river and its interwinding has impeded the headway of the water, and no great loss of property is anticipated in the towns and villages north of this city.

Hauser Lake dam, 70 feet high, 490 feet long, was completed last year at a cost of more than $2,000,000, and developed a horse power of 25,000, which was utilized in operating the various power plants in Helena and the Butte Mines and Amalgamated Copper companies smelter plants at Anaconda. The break in the dam site will not interfere in the operation of mines and other plants, as power was furnished last night from Canyon Ferry dam, and the companies sub-station in Butte.

"MYTHS" SUBJECT OF INTERESTING LECTURE.

BY INSPECTOR HEWTON BEFORE RICHMOND YOUNG PEOPLE'S CLUB.

Richmond, April 15. (Special)— A large audience assembled in the Foster Hall on Monday evening, it being the regular meeting of the Young People's Club, to hear Inspector R. J. Hewton lecture on the subject of "Myths."

Musical items were furnished by Miss Gunn, Mr. A. Barrie and Miss Brenette.

The lecturer began by defining a myth as a fiction formed unconsciously and then proceeded to trace the rise of those which became universally accepted in classical times.

Egyptians were chosen as a type of the primitive peoples, because conditions were more permanent there than in Caldea, Babylonia and the other empires of Asia. He showed how Ham and his followers colonized the land of the Nile, planted their wheat, in spring as they had been accustomed to do in their own lands, but that the growing grain was overwhelmed by the flood which took place toward mid-summer; that it was subsequently learned that the planting must be done after the inundation. The flood invariably followed the rising of the Dog Star. This was consequently selected as the beginning of the civil year; in the symbolic writing of the Egyptian calendar it was represented as a human figure with a dog's head. This figure or emblem the lecturer traced through the centuries and showed how it became personified, and gave rise to a line of mythical personages, such as Thaut, Aesculapius, Hermes and Mercury. He also incidentally traced the serpent bearing staff born by this emblem down to our times, when it is daily exposed on our street sides in the form of the modern barber's pole. The serpent in primitive times was the emblem of life, the same word being used to express both ideas, hence the selection of the brazen serpent to mark the hospitals set up by Moses in the wilderness. This dog-headed figure is the first key to understanding the classical mythology.

The emblem of the sun was the second key. He was called Osiris, that is, the governor, coachman, king, soul of nature, and was represented as a royal figure bearing a sceptre, surmounted by a circle, the Egyptian emblem of God, for the Egyptians were not idolators originally.

The third key was the female counterpart of Osiris, the male principle of generation. It was called Isis, and was the emblem selected by the Egyptian rulers to represent the earth on the calendar, and to say what feasts, fasts, sacrifices, etc., were to be performed upon the dates fixed by the other emblems.

The fourth key was the child or son, Horus, emblem of work, set up to show what public or private works were to be performed upon the dates fixed by the symbols of the civil and solar years.

At the close of the lecture a hearty vote of thanks to the lecturer was moved by Mr. J. C. Sutherland, B.A., seconded by Major W. J. Ewing, and John Hayes, M.D., all of whom heartily congratulated the speaker.

The next meeting of the society will be held on Monday, April 27th, when Dr. Hayes will speak on "The Times of Champlain."

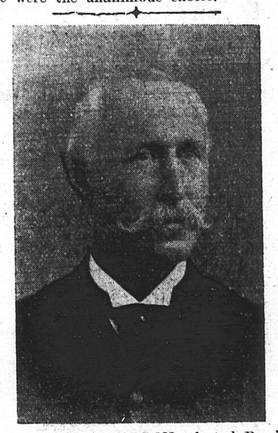

THE STANSTEAD CONSERVATIVES.

Speculation as to the Probable Candidates.

MR. L. A. AUDET, OF MAGOG, FOR LOWER HOUSE AND HON. M. F. HACKETT FOR OTTAWA, LIKELY CHOICE.

Ayer's Cliff, April 15.—(Special)—There is considerable discussion in the County of Stanstead as to who will be elected standard-bearers of the Conservative party at the convention to be held at Ayer's Cliff next Wednesday. Owing to the very bad condition of the roads it is not anticipated that there will be a large number of electors present outside of those who may be chosen delegates of the various polling places. Until recently it was thought without doubt that Mr. G.H. St. Pierre, K.C., of Coaticook, would be chosen as a candidate for the Legislature. He has recently given his friends to understand that he absolutely would not accept the nomination if tendered to him. This has made the party leaders look over the ground with the thought of securing another candidate. The concensus of opinion seems to be now that the nomination will be offered to Mr. L. A. Audet, of Magog. Mr. Audet has been identified with the public life of his town for many years, and has always been an active supporter of the Conservative party. It is generally conceded that the representative for Quebec must be a Catholic, although there are some in the County who think a Protestant might be of more value to the minority if sent to Quebec rather than to Ottawa.

While there does not appear much doubt as to the candidate for the Lower House there is not the same certainty as to who will be chosen for Ottawa. It is generally understood that Mr. A. H. Moore who ran against the sitting member at the recent by-election is in the hands of the party and although he is not seeking the nomination that he would again become their candidate if it was thought in the best interests of the Conservatives. If, however, Mr. Audet should be elected the candidate for Quebec it would not perhaps be considered expedient to choose a second candidate from the same town. While other names have been mentioned incidentally there does not appear to be anyone who is considered seriously as a possible candidate except Mr. M. F. Hackett, K.C., of Stanstead. It is known that Mr. Hackett, like Mr. Moore, is not seeking the nomination, but being a faithful follower of his party may be induced to accept it if he were the unanimous choice.

MR. CLARK GORDON, elected President of the Sherbrooke Curling Club.

IN THE QUEBEC LEGISLATURE.

Montreal Licenses to be Reduced From 475 to 400.

THE RULE OF ONE LICENSE FOR EVERY 1,000 POPULATION TO PREVAIL ELSEWHERE.

Quebec, April 15—No immediate or general reduction of liquor licenses in the province is provided by the new Government measure, which is to be introduced in the Legislature today. On the other hand the bill establishes a gradual scale of license reduction, owing to the provision that in future, when once a liquor license has been withdrawn for infringement of the law, it shall not be renewed until a certain limit is reached.

In Montreal this limit to be gradually reached is to be placed at 400 licenses instead of at the present minimum of 475. In Quebec and other cities and towns the reduction is to proceed until the minimum of one license per 1,000 inhabitants is reached. This indicates that Montreal is to be the only exception to the rule of one license per 1,000 people.

Licenses are to be forthwith withdrawn upon conviction for a second infringement of the law. This means that the discretionary power of the judge is removed. Formerly it was left optional with the judge to withdraw licenses on third conviction.

THE POLICE AND THE LAW.

A doubt formerly existing as to whether municipal or provincial police should enforce the law is now entirely removed by stating that the municipal police in every city shall see to the

WATERVILLE WILL NOT LEVY SPECIAL TAX OF THREE MILLS AS PROPOSED.

Waterville, April 15.—(Special.)—An adjourned meeting of the Municipal Council was held Monday evening. The full board were present. After routine business a number of bills were approved and ordered paid. Mr. J. W. Mason was appointed rural inspector, and Mr. A. S. Hunter was appointed to take charge of the work on west and town line roads. A committee appointed to revise rental of the Social Hall, also, the large hall gave an incomplete report, and on motion the reports received and laid on the table for future consideration at the next meeting.

A large number of citizens were present and a numerously signed petition from the ratepayers was handed in protesting against the proposed tax of three mills on the dollar. The petitioners declared themselves well satisfied with the way the Council had managed the town business in the past, but suggested that attention should be given to have the sidewalk from the post office to the bridge in as good condition as possible during winter months.

In view of the protest embodied in the presented petition it was unanimously resolved that the motion passed at the meeting of the Council held on March 16th last, will not go into effect.

A petition was presented signed by a number of ratepayers, asking the Council to reconsider the appointment of the present road inspector in district number four and five. In the discussion that followed the Road Committee declared that if anybody was to blame for the condition of the roads, it was the Road Committee and not the Inspector, who did his work faithfully. On motion of Councillor Ward, seconded by Councillor Watt, the petition was received and laid on the table.

Mr. Sam Lord asked the Council to take care of the water running down on his property. Referred to the Road Committee.

The Waterville Brass Band by representation, asked the Council to give them the free use of the hall for Friday evening, May first for the giving of a concert, which was granted.

Mr. P. Sarrazin and others asked for an extension of the sidewalk south to their residences. The Mayor in response, stated this was a matter of great importance and would have to be taken into serious consideration. Better and more sidewalks were very much needed.

It is a Marvel or Simplicity

A good gasoline engine on the farm means that more and better work can be done at less expense than with any other power. When you consider the small amount of fuel a gasoline engine—like the International Harvester Company engine—consumes, you realize the fact.
More work can be done, because, there are no delays waiting to get up steam. Better work can be done, because, the power is steady. This engine adapts itself to the load it is carrying and requires very little attention. It will run the ensilage cutter, thresher, feed grinder, saw, pump, or any of the various machines about the farm, cheaper and better than any other power.
These gasoline engines are made in the following styles and sizes: Vertical, 2 and 3 horse power. Horizontal, portable and stationary, 4, 6, 8, 10, 12, 15 and 20 horse-power. Traction, 10, 12, 15 and 20 horse-power. One horse-power air-cooled; also, sawing, spraying and pumping outfits and jacks.
Our Famous — 4, 6 and 8 horse-power— are substantially mounted on skids and fitted with friction clutch pulleys and electric dynamos for the ignition.
For full information concerning I.H.C. engines, call on the nearest local agent, or write nearest branch house for catalogue and other advertising matter.

The Onlooker.

Forests and Waterways.

Concerning forest destruction, the preservation of our waterways is of equal importance with the perpetuation of our woodlands. Forests are in one sense the reservoirs of our rivers and the destruction of one must lead inevitably to the impairment of the other. Freshets in springtime and extreme low water in summertime, occurrences of growing frequency, are caused and aggravated by forest destruction. All this has been demonstrated too often to need any further proof. Coaticook is just now experiencing the results in very real fashion. The Coaticook River, which the town employs to produce its electric light, has been diminishing year by year and the process has reached a stage now where the supply must be conserved by raising the power dam. Coaticook's experience is typical of the present and significant of the future. Our water powers are a great and growing source of national wealth and their serious diminution is threatened by heedless deforestration. It is a question with which the Government alone can effectively deal. Scientific forestry, contains the remedy, the cutting down of those trees only above a certain diameter, and none but the Government can enforce the requisite regulations. Incidentally a perpetual supply of lumber and pulpwood would be ensured. Forest preservation is a question calling for statesmanlike action, than which none is more important to-day.

Lacking in Common Sense.

"Roosevelt is a fool. The United States is making the same mistake as Russia did 25 years ago in trying to suppress Anarchist propaganda, which resulted in a revolution, which to-day is supported by all classes. The United States should take warning." This is an extract ungrammatical withal from an interview granted by Alexander Berkman, anarchist, of New York, to a leading daily in Montreal Friday. Berkman spent fifteen years in prison for shooting a man during the great Homestoke strike and was arrested in New York within three weeks for suspected connection with Union Square bomb outrage. He is a confrere of Emma Goldman and associate editor with her of an anarchistic paper called Mother Earth. The extract from his interview in Montreal quoted above exemplified a fundamental error in anarchistic propaganda as urged on this continent. It is too specious to deceive even the most slow witted. If we suppressed such rot as we should Berkman's wild utterance would apply with equal force to Canada, and he would be the first to make the application if given an excuse to do so. To compare our liberties with those of the people of Russia is merely to insult our intelligence. In Russia, of the day when Berkman spoke, the plain people had no voice in Government whatever, while the political ills from which we suffer are of our own making and we possess the power to remedy them in our control over the choice of our representatives in Parliament or Congress as the case may be. The idle dream of anarchists is to abolish all government, good or bad, autocratic or democratic, and since the end cannot be gained by fair means, foul means are continually resorted to. Academic anarchism is an innocent doctrine, incapable of doing harm in any enlightened nation but the anarchism, which we know, makes always for unrest and violence, murder and blood. Out and out anarchistic propaganda, whether of pen or lip, ought to be rigidly suppressed and it is dubiously complimentary to us that Berkman should have been allowed to make a speech in Montreal which which would not have been allowed in any city of the United States. If we allow the blood doctrine to be propagated here, the day will come when our Prime Ministers will be living in constant fear of anarchist attacks as American Presidents do to-day.

ISLAND POND MAN COMMITS SUICIDE.

DESPONDENT SINCE DEATH OF WIFE AND CHILD A FEW YEARS AGO.

Island Pond, April 14—Harry W. St. Peters, of Island Pond, Vt., shot and killed himself with a revolver late Monday afternoon during a period of despondency and melancholia, to which he had been subject since the death of his wife and son a few years ago. He was about 50 years old, a native of Bradford, and had lived in Chicago previous to coming here about a year ago.

Mr. St. Peters was janitor of the Bartlett building, and Saturday he was given a two or three days' vacation. He returned to Island Pond Monday afternoon from Norton by train and proceeded to what is called "the meadow." He there opened his vest and shot himself one-half inch below the left breast, holding the weapon so close to his body as to burn his shirt. Death was instantaneous.

St. Peters is survived by his mother, a sister, Mrs. E. J. Bagley, and an aunt, all residents of Island Pond.

carrying out and strict observance of the law.

DISTRICT MAGISTRATES.

By a resolution concerning district magistrates, introduced by the Premier last night a yearly salary of not more than $2,000 will be granted, instead of $1,200 as at present. In certain cases of business districts, however, salaries of $3,000 a year may be granted.

In the Public Accounts Committee, Hon. Mr. Leblanc drew attention to the St. Hyacinthe Dairy School, for which an expenditure of $15,000 was authorized, whereas no less than $82,000 was spent. As to the reason for the over expenditures, Hon. Mr. Leblanc has not yet been able to obtain precise information.

MORE MONEY FOR THE SCHOOLS.

Regarding Mr. Rodolphe Roy's bill to increase the elementary school fund to $150,000, Hon. Mr. Leblanc wanted explanations about the sale of reserve lands, which was said to have created the fund. In reply it was stated that the Flynn Government had created the elementary school fund of $50,000 by reserving 1,500,000 acres of Crown lands, which were not to be sold until the value increased, and in the meantime the money for the schools was taken out of another fund. Since then school funds had been once raised, and now it was proposed again to raise it to $150,000 by reserving in all 2,000,000 acres of land, which is not to be sold at present. Hon. Mr. Roy also stated that besides the elementary school fund there would be next year an additional expenditure of $50,000 for public schools. This meant an increase of $100,000 for education.

Letters to the Editor.

THE EARLY CLOSING PETITION.

Editor Daily Record:

Dear Sir,—As I am desirous of correcting a wrong impression which seems to prevail among a certain portion of our citizens, and at the same time to explain why I came to sign the petition now before the City Council, asking that a by-law be passed, whereby the hotels will have to close their bars on Saturdays at 7 o'clock in the evening, the easiest and surest way is to do so through the columns of your valuable paper.

When the petition was presented to me I was engaged with some important work, and did not pay the attention I ought to have done before signing my name. I was under the impression at the time that the petition called for the closing of all places where licenses are held at 7 o'clock on Saturday. On reading the petition as published in the Record the other night I find that it only calls for the closing of the bars. That is not a fair deal, and I wish it distinctly understood that I am opposed to any such measure. It is most unjust to the hotel keepers and practically gives the licensed grocer a monopoly of the liquor business during the four hours that the petitioners pretend is injurious to the welfare of our city.

The petition also goes on to request that the hotels close on all national holidays, but nothing is said about the closing of the liquor stores. To favor one section of the trade is not just, and I for one wish to state right here that I am opposed to any such measure, and trust that the Council in their good judgment will not sanction any measure that will benefit one party as against the other.

To my mind there would not be such a cry against the liquor people if the laws as they now exist were more strictly maintained, and severe punishment meted out to those who bought liquor at the expense of their families.

I might state in conclusion that I am not the only one who was under a wrong impression in regard to the petition, for I have met several who signed the petition thinking that it meant all sections of the trade.

Thanking you for encroaching so much on your valuable space,

Yours truly,
J. D. KENNEDY.

MONTREAL POLICE ADVANCE CAUTIOUSLY.

TO THE CAPTURE OF A SHERBROOKE MAN WHO IS INTOXICATED.

Montreal papers give considerable prominence to the escapade of a former Sherbrooke man while under the influence of liquor. The John Dillon incident has evidently caused the Montreal police to be on the "look out" for trouble in dealing with cases of intoxication, and the papers say, "they advanced cautiously."

The party himself, according to reports, seemed to imagine himself to be Dillon and defied any to approach him. A civilian did, however, before the arrival of the police, removing his weapon.

The police later arrived and "approaching with all caution," made the capture without injury to themselves.

The prisoner taken before Recorder Weir was given two months.

Settling in Sunny Alberta.

No country ever offered the inducement to settlers that Western Canada is at the present time, and no country ever had such a tide of land seekers as are streaming into the west by every available means. Hundreds of millions are being spent by railroads. Look at the map of to-day of Western Canada and compare it with that of five years ago and you will see where the railroads have been spreading and spending money, and to think that only 10 per cent. of the territory is settled. What will it be when 1 and 40 per cent. of the land is under crop? Investors can buy land now through the Western Canada Colonization Agency, W. C. Knowles, Duluth, Minn., at wholesale prices, ranging from $6.25 per acre up. Choice building lots in Taber for sale. Now is the time to buy while the price is low. Tells How to Prepare a Simple Mixture to Overcome Bread Disease.

To relieve the worst forms of Rheumatism take a teaspoonful of the following mixture after each meal and at bedtime:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

These ingredients can be obtained from any good pharmacy, and are easily mixed at home by shaking well in a bottle.

This prescription, states a well-known authority, forces the clogged-up, inactive kidneys to filter and strain from the blood the poisonous waste matter and uric acid, which causes Rheumatism. Relief is generally felt from the first few doses.

As Rheumatism is not only the most painful and torturous disease, but dangerous to life, this simple receipe will no doubt be greatly valued by many sufferers here, who should at once prepare the mixture to get this relief.

It is said that a person who would take this prescription regularly, a dose or two daily, or even a few times a week, would never have serious Kidney or Uninary disorders or Rheumatism.

Cut this out and preserve it. Good Rheumatism prescriptions, which really relieve are scarce, indeed, and when you need it, you want it badly.

PAPER COFFINS.

(From Tit-Bits.)

Some undertakers, whose customers are poor people, are using coffins made of paper. The coffins are made in all styles of pressed paper pulp, just the same as the common paper buckets. When they are varnished and stained they resemble polished wood, and in point of durability it is claimed they are better than wooden ones.

BAD LEG CAUSED 9 YEARS TORTURE

VARICOSE ULCER HEALED BY ZAM-BUK

Mr. C. Johnston of Poplar Hill Creek, Athabasca Landing, Alta., writes: "Nine years ago a running sore commenced on my right leg, caused by a ruptured blood vessel. As time went on it got worse and my sufferings were intense. I had a very sore leg indeed, and had very small hope of ever seeing it healed, in fact I was told by several who had known such sores that I should suffer with it for life. This was very discouraging. When I was almost in despair I heard of Zam-Buk and wrote to the Company stating my case. They inspired me with hope, and I commenced with Zam-Buk, using it according to instructions. Other salves I had used caused me much suffering, but Zam-Buk soothed the pain, and although it appeared for some time to be doing little good, I persevered, and as soon as the wound became clean, it was only a matter of three or four days before my leg was healed."

BRIDE OF AN HOUR SUED BY WIDOW.

CHARGED WITH ALIENATING HUSBAND'S AFFECTION.

Philadelphia, April 14.—An hour after her marriage, suit was brought against Mrs. Joseph J. Zilligen, who was Miss Alberta Keel, by Mrs. Lillian C. Meeser, for the alienation of Mr. Meeser's affections. Meeser has been dead since January 10. The suit was hastened by the announcement of Miss Keel that she was to be married to Dr. Zilligen, formerly a member of the University of Pennsylvania football team, whom she met when he was meat inspector in the Reading Terminal Market, where she owned several meat stalls. Mrs. Zilligen is spending her honeymoon at her home, 1243 Fairmount avenue, and is apparently undisturbed by the surprising sequel to her marriage.

Mrs. Meeser asks $50,000 damages. She charges that after her separation from her husband in 1903, while they were living in a house built with her savings, he engaged Miss Keel as his housekeeper, and that the meat stalls now owned and managed by Mrs. Zilligen were once the property of her husband.

AUTOMOBILES IN THE PROVINCE OF QUEBEC.

Attention has been called to a slight error in fact in connection with a paragraph dealing with "Automobiles," in Commenter's column, yesterday.

It was stated that no fee was charged at present by the Provincial Government for license to operate a car, other than as chauffeur. As a matter of fact a fee of $5 is charged all owners of automobiles in this province, being a fee for registration and for the issuing of a number for the car.

Chauffeurs are charged an annual license fee of $5.

CANTERBURY.

Mrs. Hewson is visiting friends here at present.

The Ladies' Guild met at Mrs. L. H. Barter's, Thursday. A goodly number of members attended, discussed the advisability of having a sugar social and finally decided to have a social Monday, April 20th. A good time is expected and plenty of good sugar will be served.

TO-DAY'S WIRE GOSSIP.

SITUATION IN NEW YORK AND LONDON AS DISCUSSED TODAY.

New York, April 15, (Special) —The underlying strength of the stock market was not subjected to any serious test yesterday but it was encouraging to note that such realizing of profits as occurred was rather easily absorbed. There was however little to be deducted from the day's operations as the trading was confined largely to the room. Where activity developed the trend was toward higher prices but the bull manipulators obviously were awaiting something special in the way of news. There were few developments in the situation at large that were of more than academic interest. Crop reports were mixed as is usual at this time of the year, but while it is too early to dogmatise about the outcome it is encouraging to remember that general agricultural conditions have seldom been more favorable at this time of the year.

THE LONDON SITUATION.

London, April 15, (Special) — Securities market as a whole are quiet and the tone for the most part is steady. There has been covering of gilt edged issues irrespective of the impending Transvaal loan. Repurchases of home rails also have resulted in rallies of ¼ to 1 p-c., the improvement being partly based on increasing hopefulness that the North Eastern Ry. labor controversy will be settled by arbitration. Americans extremely dull and shows ease in exchange ⅛ to ¼ p.c. Firmness characterizes Canadian Pacific stock, but Grand Trunk display heaviness. Foreigners evidence a harder tone. Money is restricted in London and discounts are firmer.

FLASHES.

Consols unchanged at 87 11-16 and 87 3-16 for the account. Americans ⅛ to ¼ below parity.

London, 12.30 p.m., C. P. R. 153½.

Recent advance in traction shares not due to any material improvement in the earnings.

London closed from Thursday night till Tuesday morning and holiday practically everywhere on Friday and Saturday.

Strength in exchange brings gold exports nearer, but none expected this week.

Only objection to Mexican Railroad financing plan comes from Mexican Central income bondholders.

Amount of railroad bonds to be retired between now and 1909 smallest in years.

U. S. Steel now operating 45 p. c. of blast furnace capacity.

30 roads first week April show average gross decrease 15.31 p.c.

Outlook for anthracite coal trade is said to be improving.

Brazilian Government issue in London treasury bills to amount of 3 millions pounds, five, six and seven months time issue, prices par.

Receipts of eggs Monday were 1,951 cases, as against 869 on Saturday and 2,003 a year ago. A weaker feeling developed in the market Monday and prices declined ½c to 1c per dozen, which was due to large arrivals and increased stocks on spot. The demand was fair and sales of round lots were made at 16½c, and single cases at 17c per dozen.

There was no change in the condition of the market for potatoes, prices being steady and business quiet. We quote as follows:—Car lots of red stock at 80c to 85c, and white at 90c to 95c per bag of 90 lbs., while in a jobbing way sales were made at $1 to $1.05 per bag.

The demand for beans in a jobbing way continues fairly good and the market is moderately active, with prices firm at $1.65 to $1.70 per bushel.

- - SAVE - - THE CHILDREN

Insure Them Good Health.

Ninety per cent of children, under twelve years of age, are being poisoned and parents don't realize it.

Irregular bowels are the chief cause. Your parents know that your bowels should move every day. You know you must be as regular as clock-work or the blood will become tainted.

Don't you realize that the children must be as orderly in getting rid of the waste matter of their system?

Then, if you find that any of the little ones go two or three days without action of the bowels, don't run to castor oil, senna tea, calomel, cascara or harsh "liver pills." Those simply purge the child—strain the bowels.

"Fruit-a-tives are the ideal medicine for children. They are fruit juices and tonics in the form of a pleasant tasting tablet. "Fruit-a-tives" stimulate the liver, causing more bile to flow. It is the bile, given up by the liver, which moves the bowels. "Fruit-a-tives" regulate the liver and bowels, and thus completely cure constipation. They sweeten the stomach, and are the finest tonic in the world to build up the system and make children plump and rosy. 50c a box—six for $2.50. Sent on receipt of price if your dealer does not handle them. "Fruit-a-tives" Limited, Ottawa, Ont.

SPORTING NEWS.

ANNUAL MEETING OF CURLING CLUB.

Mr. Clark Gordon is Elected President for Ensuing Year.

THE NEW RINK QUESTION IS DISCUSSED AT CONSIDERABLE LENGTH.

The annual meeting of the Sherbrooke Curling Club was held last night in the Magog House with Mr. F. N. McCrea in the chair.

There were present Messrs. J. K. Edwards, C. K. Fraser, N. T. Truell, A. D. Brodie, J. T. Parkes, L. A. Bayley, C. W. Cate, W. M. Tomlinson, C. G. Hobson, A. W. Blue, C. A. McKechnie, C. G. Thompson, M. Adams, J. W. McKee, Clark Gordon, M. Berry, E. H. Irwin, Secretary, and Col. R. J. Spearing.

The principal business before the meeting was to decide what was to be done about the Canada Paper Co. property on Water street, which the club had been thinking of purchasing as a site for a new rink. A letter was read by the Secretary from Messrs. McCrea and Cate, the owners of the property, to the effect that a decision one way or the other should be arrived at by the club, whether they wanted the site and were prepared to pay right away or not.

Mr. McCrea, speaking for himself, said he did not want it to be thought he was asking the club to take this property. There was no obligation for the club to do so, and as far as he was concerned he would just as soon keep it as not, that is, from a financial standpoint. But he was a sportsman still and would like to see the Sherbrooke Curling Club with an up-to-date rink. Therefore, he was willing to come to a definite agreement. The property, however, could not be allowed to be idle any longer, and what was to be done should be done at once. He advised the club to consider the matter carefully and not to make the purchase unless they felt like it.

Mr. Cate substantially agreed with Mr. McCrea.

After some discussion these gentlemen agreed to keep the matter open until the 25th inst. on the condition that a canvass should be made in the meantime, and that a sum sufficient to buy the site and build a suitable rink should be subscribed. It was thought that that would require about $6000.

The club agreed to this arrangement and Messrs. A. W. Blue and J. W. McKee were appointed canvassing committee.

The next business was the election of officers, the following being chosen: President, Clark Gordon; Vice-President, C. G. Thompson; Patrons, Judge Hutchinson and Mrs. Hutchinson; Chaplain, Rev. G. FRAUD.

"Sir," says the aggrieved customer, approaching the bookseller, "I have called to express my opinion of your business methods!"

"What is wrong?" deferentially asked the bookseller.

"I bought a set of Shakspeare from you last year. It weighed fourteen pounds. Yesterday I ordered a duplicate set for my son's library, and it only weighs thirteen pounds nine ounces. I'd have you understand, sir, that there is a city ordinance against short weights!"

Thoroughly humbled, the bookseller made up the shortage with seven ounces of miscellany. (Chicago Evening Post.

ASK GOVT. AID FOR QUEBEC HOTEL PLAN.

IT IS SAID ONLY HALF OF 50,000 EXPECTED GUESTS CAN NOW BE HOUSED.

Montreal, April. 15.—The Quebec Tercentenary Royal Commission held a meeting at the Provincial Government Building yesterday morning.

Mr. G. Gignac, of Quebec, came before the commission with the plan of a mammoth temporary hotel which a syndicate proposes to build in Quebec on the "Buttes a Neveu," a large field adjoining the Plains of Abraham. This immense structure would be built to accommodate 3,000 people.

It was reported at the meeting that Quebec can accommodate about 25,000 tourists, but as some 50,000 more are expected to attend the celebration, some means will have to be taken to secure more accommodation.

The commission had not decided as to anything when it adjourned for lunch, but it is unlikely that it will give financial support to any hotel scheme. If such are to be had, it will have to be at the risk of their promoters. In any event, nothing will be decided until the matter has been discussed in all phases.

The Duke of the Abruzzi yesterday resumed command of the battleship Regina Elan at Spezia, and visited the admirals commanding the Mediterraneau fleet at the dockyard.

REVENGEFUL ACT AT PINE RIVER

GALICIAN ATTEMPTED TO BURN HIS FAMILY ALIVE.

Dauphin, Man., April 14.—Apparently a most dastardly effort at revenge has been made at Pine River. Owing to domestic troubles, a Galician named Andrew Wanger, aged 24, separated from his wife. The latter with her child, returned to her parents, named Galan. During his absence Galan alleged that Wanger went to Galan's house and fastening the door with a rope on the outside, set fire to the house. The flames speedily gained headway, and only with great difficulty did mother, wife, and child escape, through a solitary and small window and that not unscathed.

JESSOP'S STEEL!

Use Jessop's Steel in the beginning and save the cost of the education which users of cheap steel inevitably pay for, and pay dearly. If 75 per cent. of the value of your tools is represented by labor, and 25 per cent. by material, is it wiser to economize on the steel or on the labor?
