MORE COMPLAINTS ABOUT CENSUS

Reported Population of Montreal Is 25,000 Short, It Is Claimed.

Montreal, Oct. 19.—Judging from the inquiries received and the complaints made at the assessment department, the present Dominion census of the city of Montreal is about 25,000 short of its actual population, at a conservative estimate. This statement made to-day by Mr. P. W. Collins, of the Municipal Assessment Department, in discussing the returns from Ottawa. Mr. Collins also said that the best method of taking a census in cities was through the assessors. He could get better results in this way at half the expense. The assessment department had a complete list of the houses in town, and the assessors would prepare cards for each house for filling out. This was a scientific plan, and omissions could readily be detected.

"If the census enumerators had even come to us after they took the returns we could have checked the figures and told them of omissions." Mr. Wm. Robb, the City Treasurer, said that the assessment commissioners were going to recommend to the Board of Control that they should be instructed to take an annual census of the city.

Dr. Louis Laberge, medical health officer, said that according to his estimate, the enumerators were at least 4,000 short in their count.

C. P. R. TO SPEND \$5,000,000 ON HOTELS

Montreal, Oct. 19.—The C. P. R. announces that they will spend over five million dollars in hotel extension and rebuilding. Practically the whole system from the Atlantic to the Pacific Ocean are having extensive extensions and alterations made, and the improvements include the splendid new hotel now being erected at Calgary.

AN INTERESTING CEREMONY.

Montreal, Oct. 19.—An interesting ceremony was performed here to-day, when Mayor Guerin laid the corner stone of the new building which is to be erected by the Montreal Herald at the corner of Craig and Alexander streets. Interest was added to the event by the fact that it was the hundredth anniversary of the foundation of the Herald. A large number of prominent citizens were present and several speeches were made. Mr. James Brierley, President of the Herald Publishing Company, delivering the chief address.

It was little over a year ago that the Herald building was totally destroyed by the collapse of the supports beneath the water tank, on the roof and by the fire which followed the cave-in, with a loss of thirty-two lives.

BILL MINER STILL AT LARGE.

Atlanta, Ga., Oct. 19.—"Old Bill" Miner, the train robber, who escaped from the state prison at Milledgeville Tuesday and who also is wanted by the Canadian authorities, has reminded the state authorities that he is still at liberty.

A note from him was received to-day at the offices of the prison commission thanking them for their kindness. The note read:

"My dear sir: I write to thank you for your kindness in putting me at Milledgeville. My dear sir, don't trust a prisoner, no matter how sick he is or makes out he is.

(Signed) "B. MINER." The note was dated Oct. 17 and bore the postmark of a railroad post office, evidently being mailed from a train on the Georgia railroad.

STATE EXAMINED PROSPECTIVE JURORS

Seven Days Have Now Elapsed
Without Panel Being Chosen
in McNamara Case.

Los Angeles, Cal., Oct. 19.—Seven court days after the beginning of the McNamara murder trial, the state was given its first opportunity for the examination of prospective jurors. Attorney Clarence S. Darrow, chief of counsel for the defence, turned over the full jury box, reserving the privilege of examining one man further if he liked.

Three other men are under challenge for bias, awaiting a ruling from Judge Bordwell. The state, within a few minutes, successfully challenged John W. Roberts, a real estate dealer, who had fixed scruples against capital punishment, and began the examination of T. W. Adams, a retired real estate dealer. No talesmen were called today to replace Roberts.

The list of talesmen tonight stood: F. D. Green, orange grower. T. W. Adams, retired real estate dealer.

Seaborn Manning, rancher. A. R. McIntosh, retired baker. Robert Bain, carpenter. Ernest F. Decker, landscape gardener. Edw. C. Robinson, carpenter. H. Y. Quackenbush, retired carpenter.

Challenged for bias: George McKee, retired builder. Otta J. Jensen, farmer. E. J. Shower, paper hanger.

Quackenbush is subject to further examination by Mr. Darrow, to learn more of his qualifications to try James B. McNamara, who is charged with the murder of Charles Haggerty, one of the 21 victims of the Times disaster.

Deputy G. Ray Horton, who examined the talesmen on behalf of the state, disposed of Roberts, who had been made the subject of favorable comment from opposing counsel with seeming regret, questioning him at length to learn whether his views on the death penalty were such as to prevent him serving on the jury.

Roberts finally declared flatly that he would not vote a conviction which carried with it a death penalty and he was excused.

"You are a Socialist, I believe?" was the first question put to Adams. He said he had been one for ten years; that he favored a change in governmental conditions; that many laws now enforced, in his opinion, should be better not enforced, and that he was opposed to all forms of violence.

"You understand that in this case the death penalty is involved?"

"Yes."

"And you are naturally opposed to it, aren't you?"

"I don't know that I would be in a case of that kind," he said.

"But your feelings are averse to the death penalty?"

"No, I don't think my political belief has anything to do with the case more than any other man's."

"It is not a question of your political belief, but of your personal feelings," said Judge Bordwell and Adams said he had a feeling against the death penalty, but could do his full duty as a juror.

"Can you do your duty as well as if Harriman and Darrow—counsel for defence, who are Socialists—were not mixed up in it?"

"Yes."

"You have made an investigation of what sometimes is known in this country as the so-called problem of labor and capital?"

"No," said Adams, "I'm not a very good Socialist. I don't keep up to date."

He said he formed one opinion regarding the explosion about a week after it occurred, but that reading a Socialist publication had altered it and he now believed the Times building was blown up by gas.

Attorney Horton showed him an extensive statement bearing the signature of B. F. Bond one of Adams' neighbors, who said the witness had told him among other things that he could not believe the Times building was blown up by dynamite, as the state averred. Adams said he did not remember the occasion on this the statement was said to have been made, but recollected having said something to Bond.

"Does this statement express your views at that time?" asked Attorney Horton.

"Yes," said Adams.

His examination will be resumed tomorrow.

BOY ACCIDENTALLY SHOT BY FRIEND.

Halifax, N.S., Oct. 19.—Telephone advices from Centreville, Digby County, to-day tell of a fatal shooting accident in the woods near there. Two boys, both 14 years of age, named Ray Shaw, son of C. Shaw, and Loran Shaw, son of Geo. Shaw, were out gunning together. The accidental discharge of Loran Shaw's rifle sent a bullet into Ray's right side. Loran immediately ran to the village for help, leaving his victim on the ground still alive but in great agony. When the villagers returned to the spot the boy was dead.

The scene of the shooting was only half a mile from the village. Coroner Wm. Burns, of Sandy Cove, empaneled a jury and as the shooting was accidental a verdict to that effect was returned. The boys were cousins and chums.

NO SPITE FENCE.

Toronto, Oct. 19.—The civic legislation and reception committee decided today to ask the city solicitor to prepare a bill to prohibit the erection of such an objectionable structure as a spite fence forty feet high. "I think we have reached a state of civilization to stop that sort of thing," said Controller Church.

Montreal, Oct. 19.—It is understood here that the Hon. Sidney Fisher, Minister of Agriculture under the Laurier regime, will re-enter the political arena and that Mr. G. H. Boivin, member-elect in Shefford, will resign his seat to make way for his return.

Sensational Clearance Sale of Dress Goods Thousands of Yards to be Sacrificed Regardless of Cost

THE Great Sacrifice Sale of Fall Dress Goods will continue Friday. Thousands of yards of fresh, new, fashionable goods will be cleared at a mere fraction of the actual value. See the Big Window Display and note the beautiful patterns and colorings. Some of these fabrics are plain, others fancy—all are this season's latest importations. The mild weather has been responsible for a large overstock—consequently, out they go regardless of cost. These prices will take them out in short order:—

New Dress Goods Clearing at 15c

New Fancy Tweeds and Meltons, 40 inches wide, colors brown, navy, green, fawn, red and grey, really a remarkable bargain. Clearing at, per yd. 15c

New Dress Goods 30c and 35c for 22c

Fancy Tweeds and Cheviots, 40 inches wide, colors red, green, brown, navy and fancy mixtures, regular prices 30c and 35c a yd. Clearing at, per yd. 22c

Retail Division, 157-173 St. Joseph Street

Great Wall Paper Sale

THE balance of the immense Special Purchase of Wall Paper will be cleared on Friday, and while it lasts, at very low prices.

SURVEY OF THE BOUNDARY LINE

Costing the U. S. and Canada the Sum of Two Million Dollars—Completed Next Year.

Vancouver, B. C., Oct. 19.—J. D. Craig, chief of the Canadian boundary survey, arrived here today from Alaska, and says the past few months have been devoted to running a line along the 141st meridian from Mount St. Elias to the Arctic Ocean. This line is the boundary between the Northern parts of the United States and Canada. The survey started this year at the Arctic circle and completed the line to within thirty miles of the Arctic ocean.

The work consists of cutting paths twenty feet wide through the dense timber, putting up bronze monuments at average distances of three miles apart, and mapping the country. The expedition consisted of ninety men and two hundred horses. Canadian surveyors composed about half of the joint party.

The survey of the boundary between the northern possessions of the United States and Canada is costing the two governments jointly about two million. The work has been going on for the past two years, but will be completed probably next year. Work on the 141st meridian has been under way for the past five years. With the extension of the line from Davidson's Mountains, where it was left this year, to the Arctic ocean, the entire survey will have been completed. The Davidson mountains are about 8,000 feet high and are very rugged and inaccessible.

Montreal, Oct. 19.—It is understood here that the Hon. Sidney Fisher, Minister of Agriculture under the Laurier regime, will re-enter the political arena and that Mr. G. H. Boivin, member-elect in Shefford, will resign his seat to make way for his return.

ONTARIO LIBERAL MEMBERS MEET

Express Their Confidence in the Leadership of the Hon. Mr. McKay.

Toronto, Ont., Oct. 19.—At a meeting of all the Liberal members of the Legislature, as well as the Liberal candidates who have been chosen to contest seats in the approaching election, held this afternoon at the offices of the Ontario Reform Association, a resolution was passed, on motion of Daniel Reid, M.P.P., for Wentworth, and J. C. Elliott, M.P.P., for West Middlesex, expressing confidence in the leadership of Mr. McKay, and he will continue to lead the party in the next election.

After the meeting the following statement was issued by C. N. Smith, former M.P.P. for Sault Ste Marie:

"The general political situation in Ontario was freely discussed by the members of the caucus, and the unanimous conclusion was expressed that the Whitney government had failed to measure up to the expectations of the people of Ontario. The census returns just published, coupled with the conspicuous inability of the administration to take advantage of its great opportunity in the north country, were quoted as evidences of the necessity for a change of government in Ontario."

"It was felt that the agricultural policy of the Whitney government, so far as Old Ontario is concerned, and the colonization policy in connection with the agricultural lands in New Ontario is entirely inadequate. The census returns show that the Whitney policy has not only not retained the natural increase in the rural population of Old Ontario, but has absolutely failed to secure any part of the large immigration entering Canada for either New or Old Ontario, so much so that the rural population of the whole province has actually decreased during the regime of the present government."

MILITARY MADNESS OF EUROPE

America Must Be Kept Back From This Situation, Says Dr. Macdonald.

Kansas City, Mo., Oct. 19.—"America must be kept back from the military madness of Europe," declared Dr. James A. Macdonald, editor-in-chief of the Toronto Globe, in an address here this evening as the guest of the Knife and Fork Club.

Mr. Macdonald responded to the toast "The English speaking Fraternity" and referred to Anglo-American arbitration. "Not for larger armaments and a more irresistible fleet," said he, "but to prepare the way for the reign of reason and justice under the sanction of international law—that is the purpose of Anglo-American arbitration. Now as America must lead the way, and even now are leading the way, toward the peace of the world."

Dr. Macdonald said there is an indissoluble tie between the English-speaking nations that will never again be severed by international complications. Referring to the recent election in Canada he said:

"Reciprocity or no reciprocity, the trade relations between Canada and the United States will be made better."

CANADA'S INCREASE 32 PER CENT.

But Reasons Are Being Sought Still for the Expected Addition to the Population.

Ottawa, Ont., Oct. 19.—It is not likely that there will be any further announcement as to the details of the Canadian census until some time in November. The most important bulletins still to be issued are those which deal with the population of electoral divisions, the nationality and religions of the Canadian people.

On a percentage basis, the increase in population is satisfactory, the betterment in ten years being 32 per cent. The biggest percentage increase ever reached by the United States was 24 per cent. Alberta gained 411 per cent, Saskatchewan 396 per cent, British Columbia 103 per cent, Manitoba 78 per cent, Quebec 21 per cent, Ontario 15 per cent, New Brunswick 6 per cent, and Nova Scotia 1/2 per cent. Prince Edward Island shows a falling-off of 9 per cent.

During the decade 1,705,375 immigrants arrived in Canada, which, with the natural increase, should have made the population about eight millions. The only explanation of the disappointment contained in the actual figures is that the exodus from Canada has been much larger than estimated.

The Quebec Chronicle

FRIDAY, OCTOBER 20, 1911.

THE CENSUS AND IMMIGRATION.

The census figures show an increase of 1,710,554 in the past decade. The immigration figures for the same period show that during that period we have received 1,705,375 arrivals, an amount almost equal to the total gain in population. According to these figures, then, our natural increase in the whole of ten years has only amounted to a little more than five thousand—which is absurd on the face of it. A good deal more than five hundred births occur every year in Canada.

It must follow, therefore, that there must be a serious leakage from this country, either because the native-born emigrate or the immigrants do not settle in this country. Probably both of these things are causes. In any event the matter deserves serious consideration, and might well be made the subject of investigation. We are spending large sums of money to attract immigrants to this country and we have fondly believed all along that we were making a success of the business. Of course the trouble may be accounted for by inaccuracy in the taking of the census, but the commissioners had ample time to do their work thoroughly, and there can be little excuse for remissness in that respect.

COMMERCE AND WAR.

The influences which are apparently operating to restrain the Italians and the Turks may be recognised from the utterances of Winston Churchill, the British Home Secretary, in a speech delivered at Dundee, the other night. Referring to the unrest passing through the gigantic structure of fleets and armies which impress the civilisation of our times, Mr. Churchill pointed out how states and governments today "find themselves bound together, interlaced and interwoven one with another, by the tenacious work of trade interests, of commercial transactions, of intercommunication, of reciprocal insurance and of friendly connection." He asserted that states and governments now "find themselves standing upon the dizzy and precarious platform of international credit and complex artificial industry—a platform which, were it to collapse or be violently overturned, would produce consequences that no man and no monarch can foretell."

For this reason, Mr. Churchill expressed the belief that Great Britain, Germany and France, the leading Powers dwelling in the full sun-blaze of the modern world, are the very ones that would find the most difficulty in breaking peace with one another, would have the most to lose and the furthest to fall if a rupture occurred. It is not an easy matter these days for governments to move recklessly in the presence of tremendous industrial, financial and business forces that are making the great nations of the world more and more interdependent. Mr. Churchill finds in this fact an argument for the assumption that the peace of Europe will not be seriously threatened for a long time to come.

AFTER SIX MONTHS.

Last March a fire started in the loft of a twelve-story building in New York. The doors were barred. One hundred and forty-three women were burned in the fire, smothered to death or crushed into masses of broken bone and flesh upon the sidewalk.

A few days later 20,000 women and girls marched in the streets as a protest against the conditions that made the disaster possible. They demanded reform of the factory laws. The world's press devoted pages to the fire and its circumstances.

The other day the New York factory investigation commission, appointed because of that fire—began its hearing. Seven of the nine members of the commission, three lawyers, two paid experts and five reporters were present, seventeen persons in all. The papers hardly gave the meeting a line.

THE NEW YORK HERALD.

The defeat of reciprocity has cast a mantle of gloom over the New York Herald, and it has evidently decided to shut up shop as far as Canada is concerned. It is so disappointed in Canadians that it refuses to play with them any more. All its efforts to bring about our commercial subjugation have proved fruitless and it now confesses that it was mistaken in its opinions of Canada's good business sense. There is little doubt that it was mistaken, though hardly in the way in which it imagines. To use the choice phraseology of its confere, Mr. Hearst's Boston American, it has discovered that Canadians are no "mutts." Consequently the Herald has decided to close up its Ottawa bureau "for the present." Its "good intentions" have been misunderstood, and it therefore considers it time to take this course in order to prevent further misconception and (save the

mark!) to bring Canadians to their senses. Such an action, it considers, will "have time to bring Canadians to a realization of where their true interests lie." Too bad, eh!

Having thus played the role of the sorrowful, albeit long-suffering parent, the Herald then concludes with the following gem:

"But if the United States had any designs on Canada, neither the Canadians nor their overlord, England, could prevent it from carrying out such designs."

This is rich, and, under the circumstances, it is just as well that the Herald does intend to leave us alone for a while. There can be no misunderstanding the above. Of course, Canada can well laugh at such a piece of ridiculous insolence and bluff which is, no doubt, due to the chagrin experienced by the journal in question over the defeat of its pet scheme. She has heard similar Yankee bombast before. In years gone by, for instance, General Hull perpetrated a bombastic declaration of the same kind. Others have done it at various times. But if ever they crossed the border they usually went back quicker than they came.

PIANO ENDURANCE TESTS.

How far does proficiency of a certain sort cause a performer's fame to be extended? From Pennsylvania to Kansas, perhaps, for the Kansas City Journal makes a note of the fact that Harry A. Bennett of Bethlehem, Pa., has broken the world's record for the continuous playing of a piano, his time being twenty-seven hours, forty-six minutes and three seconds. Those benighted persons who are unfamiliar with the method for conducting this sort of a contest will be interested in knowing that during the long period in which Bennett was doing his idiotic stunt, he did not remove either hand from the keys, and that liquid refreshment was administered to him "in abundance."

Since it requires all sorts of people to populate a planet, some excuse may be found for the existence of those individuals who persist in thumping pianos. Also the sporting spirit in various people manifests itself in curious ways. One man will risk his neck racing an automobile, another will seek championship honors by taking chances on his stomach in eating contests. But participants in piano-playing marathons imperil the immortal souls of all in the vicinity. Of all the wholly unprofitable and "hopelessly insane performances on the calendar of imbecility," the least defensible, the most reprehensible is the endurance test in torturing a piano. Compared with the feat of pounding a piano against time, catching a greased pig or attempting to utilize a pair of boxing gloves in picking fleas off a dog, seems to be a rational undertaking or a praiseworthy endeavor. Long-distance dancers sometimes kill themselves by waltzing strenuously for hours, but the marathon pianist puts thoughts of murder in the heart of every one in the neighborhood. Music has charms, but piano endurance tests are more than most people can stand.

REGARDING THE YELLOW PERIL.

Whenever there seems to be danger of war in which China or Japan may be involved, there is usually talk about the "yellow peril," a term that refers to the supposedly overwhelming numerical superiority of the Mongolian races. That this apprehension is not justified was shown not long ago by an article quoted from the Indianapolis News.

It may be thought by those who have not investigated the matter that the Mongolians vastly outnumber the Caucasians. Such is not the case. The numbers given in a matter of this kind must necessarily be only approximate, and more or less inaccurate, yet one of the best estimates gives the total of the Mongolian races as 630,000,000, while the total for the Caucasians is 690,000,000, out of a grand total of all races of 1,520,000,000.

China has about two-thirds of the entire Mongolian population, but present events are showing that it is not an harmonious nation, and there are, and have been for a long time, feuds and differences that have made it anything but a united one. It is not a military country, and if it were there remains the fact that not a fraction of its people are acquainted with the means of warfare, and that millions of them have never seen a rifle. But those who speak of the "yellow peril" think that some day all this vast population will be taught warfare or that it will be made into a formidable military force. Such a result can only be brought about, if ever, in the remote future. It is a contingency concerning which there need be no anxiety for many years. While China is making rapid progress, comparatively speaking, no such change is passing over it as has occurred in the case of Japan. The "yellow peril" has been over-rated in a number of ways. It does not constitute a menace now, nor a very terrible one for the future.

STRATHCONA AND THE AGE OF ACHIEVEMENT.

On what he says will probably be the last voyage but one he will ever make across the Atlantic, Lord Strathcona arrived in New York the other day, on his way from England to the Dominion. As the veteran peer, standing on the deck of the giant Mauretania, viewed the unfolding panorama of skyscrapers and great bridges, looming over the inner bay of the American metropolis, he grew reminiscent and recalled how it had once taken him 42 days to make the journey he had just made in four and a half.

It is more than three score years since Strathcona made his maiden trip across the seas in an old packet ship, and in that time, the world, awaking from its centuries of inertia, has evolved most of these electrical and engineering wonders which make for present-day efficiency and enable us to do in one hour what formerly took us twenty to accomplish. It is true Stephenson and Watt in England, and Cooper in the United States, had put forth their first steam locomotives, Fulton his river steamboat, Murdoch, the Scot, illumination by gas, and Morse and Wheatstone their systems of telegraph. Though crude and primitive, these inventions, which gave a new impetus to civilization, set men thinking and fired their imagination as nothing from the beginnings of time had done before.

Contrasted with the ninety days taken by the Pilgrims to make the trip in the Mayflower from England to Cape Cod in 1620, the three months spent in negotiating his way from London to Baltimore by the original John Jacob Astor, and the eighty days required by Ben Franklin to go from New York to France, Lord Strathcona's voyage of forty-two days marked as important and epoch-making a step in the world's evolution as does his more recent four-day voyage, though he probably did not suspect it.

In the time it took him to make his forty-two-day journey across the Atlantic, Jayer-Schmidt, a Paris journalist, recently circled the globe for his newspaper. Thus, that which challenged our admiration and wonder last year or yesterday, to-day commands but passing notice. From the sailing ship to the steamship was a long stride, and likewise the transition from the stage coach and the pony express to the steam railroad. The land operated telegraph, with its limitation of fifteen words a minute, which brought the remotest corner of the world into constant touch with the centres of civilization, and destroyed the natural isolation of nations and communities, wonderful in its day and generation, like the original steamship and locomotive, now seems immature compared to the 1,000 words a minute telepost system of automatic telegraph which transmits over one wire as much as Morse sent over fifty-five and at a fraction of the expense. Wellington, at Waterloo, bivouacked by candlelight and Florence Nightingale, the "Angel of the Crimea," administered to the 198 survivors of the Light Brigade—the noble 600—of Balaklava, by oil lamp. "Bobs" in the Transvaal, shaped his campaign by gas, and Togo, the naval hero of the Japanese-Russian war, recently a visitor to the Dominion, by electric light. Practically all of these changes have come to pass in the lifetime of Strathcona. In meditating on them, as he looks back to the first of the 100 trans-Atlantic trips he has made in the last sixty years, truly can he felicitate with the world and say, this is an age worth while.

Man's Misery Promptly Banished

(From 'Man's Maladies.')

A certain sort of misery which causes a man to become abject in manner, timid, suspicious and jealous without real warrant, can be readily banished by a systematic nerve treatment which can be followed out in the privacy of home and restoration of a normal or natural condition speedily ensues.

A man feels and knows when he is not getting out of life all that it holds, and this knowledge makes the misery which occurs with such symptoms as uneasy gait, weak voice, downcast eyes, cold extremities, loss of flesh, loss of self control, lack of self esteem, pains in the back and back part of the head, shooting pains, heart palpitation, nervousness, sleeplessness, hollow eyes, sunken cheeks, colorless lips, dizziness and trembling.

The requirement to overcome these dreadful symptoms is a restoration of power and strength to the nervous system which has been poorly nourished or abused by thoughtless eating, drinking or social duties, perhaps superinduced by overwork. Keen, strong, sensitive nerves which carry every sensation or emotion to the brain centers or consciousness can and should be the possession of every living individual. Let this prescription be used and the result will surely reward the efforts. Obtain of any good druggist, three ounces of syrup sarsaparilla compound, in a six ounce bottle. Add one ounce of compound fluid bark, then add one ounce of tincture cadomene compound (not cardamom), and one ounce of compound essence caroli. Mix. Shake well and take a teaspoonful after each meal and one when retiring. The three last named ingredients are specially prepared and powerful concentrations, much used in various prescriptions, but contain no opiates to harm the system.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effective Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, 2, 3. No. 2 for special cases, 25¢ per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Wyndol)

A Family Medicine

The honest, straightforward statement of Mr. J. J. Vahling of his wife's and his experiences, is convincing proof of the great merit of Duffy's Pure Malt Whiskey.

"I very cheerfully recommend Duffy's Pure Malt Whiskey to everyone. I was ailing for many years and had severe pains in my back and weakness; but since I used this medicine I am much stronger and the pains have entirely left me. My wife had nervous trouble and headache. Now she is much better, owing to this wonderful remedy. We are thankful to you for what Duffy's Pure Malt Whiskey has done for us and will always have it in our medicine chest." J. J. Vahling, 1862 Menard St., St. Louis, Mo.

Duffy's Pure Malt Whiskey

It is one of the greatest strength builders and tonic stimulants known to medicine. It strengthens and fortifies the system and assists in building up the weakened tissues, in a gradual healthy manner. It is invaluable to bring restful sleep and for all throat, lung and stomach troubles.

All liquor dealers, or direct, \$1.25 a large bottle. Be sure you get the genuine; substitutes and imitations are injurious. Medical booklet, containing rare, common-sense rules for health and testimonials, also doctor's advice, sent free to anyone who writes.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

Buying Christmas Presents

in October

A year ago we introduced a plan to supply Christmas Presents a couple of months in advance; our plan proved very successful, a great quantity of goods were disposed of and a large number of our customers were saved the worry and trouble of selecting gifts during the rush time in December.

This Season we have selected a portion of our stock that we will display in our Show Windows with the prices in large figures, so that visitors may know at a glance the price of each article.

The Prices will sell the Goods

For Example

We have a lot of glass fruit dishes in silver plated wicker frames. These dishes did not sell as rapidly as we expected, and now we must make room for newer goods, consequently the original price will be cut in two.

A six-dollar dish for three dollars; a four-dollar dish for two dollars.

For very special values we recommend our customers to buy our one-dollar line of fancy goods. This line will include metal jewel boxes, brass ink stands, pen trays, racks, stamp boxes, candlesticks, photo frames, fern dishes, tea caddies, vases.

These are standard goods. They are all useful. The quality is the best. The only difference between them and the goods that we will display in December will be in the decoration or in the pattern, and the price now is half or less than half what the new goods will cost.

Shipping News

STEAMER GRAMPION FROM GLASGOW,

With Passengers and General Cargo Inward Bound—Express of Ireland and Corsican Sail Today

The Allan steamer Grampian, Captain Williams, from Glasgow, with passengers and general cargo, was 170 miles east of Belle Isle at 5:30 a.m. yesterday. Due here on Saturday evening.

ALLAN LINE.

Steamer Corsican, Captain Cook, leaves here this afternoon for Liverpool with passengers and general cargo. This is to be her second last voyage from Quebec for the season.

R.M.S. Virginian, Captain Gambell, from Liverpool, was 150 miles north-east of South Point, Anticosti, at 8 a.m. yesterday. Due here at 7 p.m. today.

C. P. R. LINE.

R.M.S. Empress of Ireland, Lieut. Forster, R.N.R., leaves port at 3:30 p.m. today for Liverpool with passengers, mails and general cargo. She is to make another voyage to Quebec this season.

Steamer Montreal, Captain McNeill, from Quebec, arrived at London yesterday.

QUEBEC STEAMSHIP CO.

Steamer Bermudian arrived at New York from Bermuda at 8:30 a.m. yesterday.

Steamer Korona sailed from New York for West Indies at 2 p.m. yesterday.

WHITE STAR-DOMINION LINE.

R.M.S. Layrentic, Captain Mathias, was 140 miles northeast of Heath Point at 12:45 p.m. yesterday. Due here tomorrow at noon.

BIG LINERS TO BE TAKEN OFF.

Several leading steamship companies are contemplating the adoption of serious measures in order to recoup themselves for financial losses resulting from the recent shipping strike in England. The recent increase of freight rates has not compensated them to the extent anticipated for the larger expenditure in pay to the men. Consideration is now being given to a number of proposals, the chief of which is that a lesser number of big liners shall be commissioned for passage and freight service this winter to the United States and Canada. The outcome of such a step would be that some hundreds of sailors, firemen and shore hands at Liverpool and other ports would be out of employment.—N. Y. Maritime Register.

FREIGHTS AND CHARTERS.

New York, Oct. 19.—Chartering was light in all departments of the tonnage market, although a moderate general demand prevailed. Rates were firm throughout and tonnage offerings were limited. Quotations for Liverpool 24d; London 3d asked; Glasgow 24d; Rotterdam 5c; Hamburg 40 pfennigs; Bremen 27 1/2 pfennigs; Hull and Bristol 3 1/2d; Antwerp 2d; Cork for orders 2s 6d; picked cargo, large lot, 2s 3d; cotton to Liverpool, per 100 lbs, 25c.

Charters—British steamer, 2547 tons, general cargo, hence to west coast Africa, private terms, November; British steamer, 2135 tons, general cargo, hence to South and East African ports, berthed, November 18; British steamer, 2025 tons, general cargo, hence to River Plate ports, berthed, November 7; British steamer, 2927 tons, same, November 15; Norwegian steamer, 1649 tons, coal, Newport News to Trinidad, private terms, prompt; Danish steamer, 2199 tons, coal, Philadelphia to two ports north side of Cuba, private terms, prompt; Norwegian bark, 1157 tons, lumber, Philadelphia to Buenos Ayres, for orders, private terms; British schooner, 424 tons, lumber, Mobile to north side of Cuba \$5.75; schooner, 449 tons, coal, Norfolk to Savannah, \$12.00.

NOTES.

Steamer Cadeby, Captain Jones, having discharged her cargo of coal, left yesterday morning for Grand Pabos, where she will load.

Steamers Kronprinz Olav, from Montreal for Sydney; Carleton, from upper lakes for New Brunswick, Helvetia, from Sydney for Montreal; Querida, from Anticosti for upper lakes, passed here yesterday.

Tug J. O. Gravel arrived from Montreal yesterday with a tow of barges.

Steamer Woburn, Captain Melick, having discharged cargo, left for Sydney yesterday.

Steam schooner Marie Josephine arrived from Anticosti yesterday and was loaded for Montreal.

New Moon, Saturday, 21st, 10:09 p.m.

MARK HAMBURG FOREVER.

Such is the heading used by an enthusiastic reporter, giving a report of a performance by the really marvellous virtuoso,

who will perform this evening at the Auditorium. Those who will be fortunate enough to hear the great artist this evening will certainly be astonished at the possibilities offered by such an instrument as the piano, and besides the immense enjoyment they will experience, it will be also a priceless lesson for a great number. Mark Hamburg has not gained the world-wide reputation he enjoys and increases constantly, without deserving it by a wonderful talent developed to extreme limits of human power, and every one who takes the trouble of thinking will easily realize this and admit that it must be so.

Plan of reserved seats and tickets of admission are at the box office of the Auditorium.

Mark Hamburg.

COURT GIVES HER A "JACKPOT."

The only apparent winners of a poker game in East Washington St., Indianapolis, are Mrs. John Foust and John, Jr., a few months old, neither of whom held a card. Mrs. Foust was the star witness at the trial of John Loudon, her husband and eight others, who had been arrested in a raid on Loudon's room.

At the close of the hearing Judge Collins looked across the bench at the tear-stained face of Mrs. Foust and the smiling face of her baby, who was in her arms, and said the last "jackpot," about \$25, was theirs. "You may question my right to do this," remarked the judge, looking at Loudon and the others, "but if you do, go ahead and replevin the money." No one objected. The \$25 was the amount Mrs. Foust said her husband should have brought home.

INFANTILE PARALYSIS CURED

Dr. Henry W. Frauenthal, surgeon-in-chief of the Hospital for Deformities and Joint Diseases, at Madison Avenue and One Hundred and Twenty-fourth street, N.Y., told a reporter yesterday that in some 1,500 cases of infantile paralysis treated there within the last five years there had been 30 per cent of cures and every other case had been greatly benefited.

"Rational treatment" is the method employed. The regular treatment as given in the dispensary of the hospital lasts for about half an hour and takes place every other day. Scores of mothers with babies on their arms, or leading children, besiege the doors every afternoon, and the capacity of the institution is tried to the utmost. After from five to seven minutes of electrical treatment by a trained nurse, the child receives the massage treatment for 10 or 15 minutes more.

The most effective part of the treatment is that which follows. In a large basement room are several flat tables, so arranged that children can be laid upon them facing a mirror. Then the little unwilling muscles are gradually exercised. The child is told to move the refractory limb slowly and patiently, according to prescribed rules and in certain directions which bring the paralyzed muscles into play. Meanwhile the child watches its own reflection in the glass. The children take it all as a new, merry game, and thus grow well without knowing it.

MEN'S MISSIONARY CONGRESS IN MONTREAL

Montreal, Oct. 19.—A long distance telephone message from Hon. R. L. Borden has been received at the office of the Men's Missionary Congress. The Premier says: "It is my earnest hope and wish that the Missionary Congress to be held in Montreal may be attended with every blessing, and that it may do much to promote and advance the great work for which this movement has been instituted."

It is probable that St. James Methodist Church will have to be used at least for the evening sessions of the congress. Among the noted speakers will be Sir Andrew Fraser, Robt. E. Speer, J. Campbell White and Silas McBee.

MOVEMENT OF BULLION.

London, Oct. 19.—Bullion amounting to £22,000 was taken into the Bank of England on balance today.

PUBLIC NOTICE

CITY TREASURER'S OFFICE.
CITY HALL.
Quebec, October 18, 1911.

Public notice is hereby given that the Assessment Books for all the Wards of the City of Quebec have been deposited by the Assessors of the said City, in the office of the undersigned, and that the said books will be opened to all interested persons every day from 10 a.m. to 3 o'clock p.m. (Sundays and Holidays excepted) for and during three weeks from FRIDAY, the 20th instant, to FRIDAY, the 10th of November next.

Any one who shall deem himself aggrieved by any entry made in the Assessment Roll shall make complaint to the Board of Assessors in writing, and under oath, taken before a Justice of the Peace or a member of the City Council, or before the Clerk of the said Recorder's Court. That complaint shall be lodged within the said time to the Board of Assessors, the Clerk of which shall give notice in the newspapers as hereinbefore set forth, of the place, days and hours in which the complaints will be heard.

After such date no complaint will be heard, and for no consideration will the books be changed.

C. J. L. LAFRANCE,
City Treasurer.

Public notice is hereby given that, under the Quebec Companies Act, leters patent have been issued by the Lieutenant-Governor of the Province of Quebec, bearing date the sixth day of October, 1911, incorporating Messrs. George Breakey, merchant; Michel Begin, foreman; Gersham D. Anderson, clerk; J. A. Greig, accountant; and Pierre Cantin, conductor, all of Breakeyville, P. Q., for the following purposes:

To acquire all the stock in trade and business as a going concern in the Chaudiere Mill Store, and pay for the same in paid-up shares of the company or any other legal consideration;

To buy and sell and carry on the business of general merchants and store keeper;

To act as agents for the purchase and sale of merchandise whether on commission or otherwise;

To print, publish and distribute catalogues, circulars, notices or other modes of advertisement and generally to carry on business through mail orders;

To carry on business as lumber merchants and mill owners;

To buy, sell, dress, manufacture, export and import lumber and carry on general lumber business;

To borrow money and issue promissory notes, bonds or privileges shares therefor;

To acquire as a going concern the assets and liabilities of any person or company carrying on a similar business to the present one and to pay for the same in paid up shares, bonds or debentures of the company or otherwise, to accept moveable and immovable property, either in payment of debts due to the company or to secure the payment of the same;

To borrow by creation of hypothec upon the moveable property of the company or by pledge of the company's moveable property;

And generally to do all acts and engage in any transaction necessary to further the business of the company and including the purchase of such real estate as may be advantageous to the company's business, under the name "The Chaudiere Mill Store Company, Limited," with a total capital stock of twenty thousand dollars (\$20,000), divided into four hundred (400) shares of fifty dollars (\$50.00) each.

The chief place of business of the corporation, will be at Breakeyville. Dated from the office of the Provincial Secretary, this sixth day of October, 1911.

JOS. DUMONT,
836 Deputy Provincial Secretary.
Oct. 19x4

McCLURE

Has built up a successful Optometry practice in this city in little more than one year.

WHY????

First—Absolutely painless and drugless Optometry. I honestly believe that this is the strongest reason for my success. People come to me in fear and trembling, and go away happy, wondering why they doubted. Second—Reasonable prices consistent with best work.

Third—What McClure sells or repairs he guarantees. This causes patients to send their friends to me—the friends doing likewise. In this way I have built up a big practice. People can rely absolutely upon my work.

McCLURE

Graduate Dominion College of Optic and South Bend College of Optometry. 18 MOUNTAIN HILL.

Wool's Phosphorine, The Great English Remedy. Cures and invigorates the whole nervous system, makes new blood, restores vitality, cures Rheumatism, Debility, Mental and Nervous Weakness, Neuritis, Neuralgia, Headaches, Epilepsy, Stomachic Disorders, and all other ailments of the blood. Sold by all druggists or mailed in plain package on receipt of price. New pamphlet mailed free. The Wool's Phosphorine Co., London, England.

SECRETARY WILSON
HAS NOT RESIGNED.

Washington, Oct. 19.—Secretary of Agriculture Wilson, who reached here late today from Chicago, denied rumors afloat here to the effect that he had handed his resignation to President Taft, to take effect November 15, or as soon thereafter as suitable. "There is absolutely no justification for the rumor," he declared emphatically. "I have no thought of handing in my resignation any time soon."

BRAZIL WANTS ADVICE
ON COTTON CULTIVATION

Kingston, Jamaica, Oct. 19.—The Jamaican government has been informed that Brazil is preparing to send a delegation here to study cotton cultivation.

MANAGER MCGRAW
IS CENSURED

Leader of New York Giants
Given a Severe Lecture by
Commission.

New York, Oct. 19.—The National Commission today censured John McGraw, manager of the New York National League Club, for his conduct during the Athletics-Giants game in this city last Tuesday and notified him that a repetition of his misconduct would result in removal from the field, a disbarment from all further world series games and the infliction of a heavy fine. First baseman Merkle of the New York club was also fined \$100 for improper language.

The National Commission made public tonight the following letters:

New York, Oct. 18, 1911.

Mr. John J. McGraw, Manager, New York National League Baseball Club, New York City:

Dear Sir:

In the discharge of its duty to maintain order and discipline in the series now in progress for the championship of the world, as required by the rules and regulations, jointly enacted by the National and American League, on Feb. 16, 1905, for the control of this event, the National Commission has taken official cognizance of your unwarranted conduct and language while passing from the coacher's line to your team's bench during the last few innings of the game played on the Polo Grounds on Tuesday, Oct. 17, 1911.

Notice is hereby served to you that a repetition of this misconduct on your part will at once be called to the attention of the umpire-in-chief of the game in which it occurs, with instructions to remove you from the field, and the commission will disbar you from all subsequent games. In addition to this penalty, a severe fine will be inflicted upon you.

The commission will not permit a manager or player to attempt to influence by word or deed public opinion against a capable and conscientious official of the game, and unless decisions are accepted by you in a spirit of sportsmanship, you will be dealt with as indicated in this letter.

Respectfully,

AUGUST HERRMANN,
B. B. JOHNSON,
T. J. LYNCH,
National Commission.

New York, Oct. 18, 1911.

Mr. Fred C. Merkle, care N. Y. National League Baseball Club, New York City:

Dear Sir:

You are hereby notified that a fine of \$100 has been imposed against you by the National Commission for using improper and indecent language in the game played on the Polo Grounds, in New York City, on Tuesday, Oct. 17, 1911, and you are warned that a repetition of the offence will result in your disbarment from the remaining games of the present world series by the commission.

Respectfully,

AUGUST HERRMANN,
B. B. JOHNSON,
T. J. LYNCH,
National Commission.

RESULTS ON

AMERICAN TRACKS.

Baltimore, Md., Oct. 19.—Track conditions at Pimlico were better today, but it was not a day for favorites. Three were tumbled over in succession at the start and the followers of the short physic nags were pulled in for the day. The long distance events featured in the day's sport.

Lafayette, Ky., Oct. 19.—Favorites had a bad day at Lafayette today. Prince Gal and Magazine, two heavily played horses, going down to defeat. Ethalva won the feature race, the fourth, in a driving finish with Compton and Donau. Queen Marguerite ran well and annexed the third race while Turret was first across the finish line in the second.

RECEIPT RECORDS

ALREADY BEATEN

New York, Oct. 19.—All records for gross receipts for the world's base ball series have been smashed in the three games between the Giants and the Athletics, while the attendance mark also is sure to go. The records have passed the highest mark of previous years by many thousands. The total for the three games reaches \$195,914.50, as compared with \$188,302.50, the previous record, made in the seven games' series between Detroit and Pittsburgh in 1909. The attendance records will be broken with the next game, in all probability. The figures already reach 101,783, as compared with 145,295 for the seven games of 1909.

The share of the players now amounts to \$105,792.82, as compared with \$79,071.93 which was divided among the Cubs and Athletics last year.

AUTO DRIVER WAS KILLED.

Sioux City, Ia., Oct. 19.—Billy Pearce, automobile driver, was instantly killed this afternoon when his Colby automobile crashed into the fence while he was speeding at Woodland Track. Pearce was practicing for the race meet which opens to-morrow. His home is said to be in Indiana.

KNOX BEAT
THE WEIGHT MEN

Wonderful Performance of a
Canadian Athletic in Scotland.

Walter B. Knox, of Orillia, Canada's crack all-round professional athlete, has returned to his home, after a brilliant season's campaign in Scotland. Knox returns home with one Scottish record at his belt—the pole vault—and the enviable record of having at one time or another beaten every one of the Scotch weight champions.

Knox's feat of defeating the burly, brawny Scotchmen is all the more remarkable because of his weight. He weighs only 154 pounds, and the fact is remarked by several critics, one of whom says that he is the best man, considering his poundage, who ever performed in Scotland. Another one says that he is the most scientific ball putter he ever saw.

Knox, who was away four months, won 57 firsts, 23 seconds, 31 thirds, and two fourths. Though he is a grand sprinter, he relied mostly on his pole vaulting, weight throwing and jumping. He only ran one sprint all the time he was across, and that was a handicap. He toyed with Scotland's pole vaulting champions all summer, striving to get on a match, but there was nothing doing, so he showed his real form and set the record at 11 feet 6 inches.

The best he did with the shot was 45 feet, though he once got it 46 feet 1 inch, but fouled.

He beat A. A. Cameron, John McNichol, Dick Adams, Jim Morrison, Jack McKenzie, Donald Macdonald, and Duncan Ross, all of whom are mighty men with the weights in Scotland.

In the Powderhall sprint of 130 yards, the famous Scotch professional handicap, run each New Year's Day, Knox already has an allowance of 7 yards.

Knox leaves for Gow Ganda, where he has some claims, next week.

TENNIS CHAMPION TO
GO TO AUSTRALIA

New York, Oct. 19.—William A. Larned, the seven-time lawn tennis champion, it was announced tonight, has so arranged his affairs that he will head the team which the United States will send to Australia in an effort to regain custody of the Davis Cup. For some weeks past it had been feared that American would be represented in the matches at Christchurch, New Zealand, only by Maurice E. McLoughlin and Beals C. Wright, as Larned had made it known that business engagements which he had been obliged to enter upon would prevent his taking the trip. Within the past few days, however, the brilliant player has succeeded in making arrangements permitting of his absence from the country long enough to take part in the matches, and late this week or early next week he will leave New York for the Pacific coast to join Wright and McLoughlin.

The three men, it is announced, will sail from Vancouver on November 1 on the steamer Zealandia, for the 22-day trip to New Zealand. Larned will captain the team and play in the singles.

SUPREME COURT CASES.

Ottawa, Oct. 19.—In the Supreme Court today the criminal appeal of Girvin vs. The King was heard. The appellant was convicted of arson. The charge was that she set fire to a general store at Lacombe, Alta., and on trial before Stewart J., at Red Deer, Alta., she was convicted and sentenced to imprisonment in Edmonton penitentiary. On the conclusion of the case for arson, counsel for accused moved the discharge of the prisoner on the ground that there was not sufficient evidence to go to the jury. The trial judge refused the application and evidence for the defence was adduced.

On a case reserved the ruling of the trial judge was affirmed on an equal division of opinion among the judges of the Supreme Court of Alberta in division of opinion among the judges of the Supreme Court of Alberta in banco. Harvey and Simmons, J.J., supported the conviction, and Scott and Beck, J.J., dissenting. The questions on appeal are:

1. Was the trial judge right in refusing to withdraw the case from the jury?

2. Was the evidence sufficient to justify a verdict against the prisoner?

Judgment was reserved. A. A. McGillivray, for the appellant; Wallace Nesbitt, K.C., and Chris. C. Robinson, for the Crown.

Langley vs. Rowlands was next heard. The respondent claimed a commission for effecting the sale of appellant's fruit farm, near Ashcroft, B.C., known as "The Basque Beach," for \$100,000 and recovered judgment for \$5,000 at the trial. The Supreme Court of British Columbia affirmed the trial judgment. The appellant contends that he was to receive the \$100,000 net and that the respondent was to get his remuneration by securing an advanced price of \$105,000 from the purchaser. Judgment was reserved. T. Lewis, K.C., for appellant; Wallace Nesbitt, K.C., and Chris. C. Robinson, for respondent.

WEATHER IS
NOT PROMISING

For Playing of the Fourth Game
in the World's Baseball
Series.

Philadelphia, Pa., Oct. 18.—The outlook for the playing of the fourth game of the world's championship series here tomorrow is somewhat dubious. Weather reports indicate that atmospheric conditions here will be unsatisfactory and the grounds at Shibe Park are still wet and soggy from the downpour of the past two days.

The players on both teams are now anxious to play the remaining games as soon as possible, and if conditions are at all favorable the game, which has been twice postponed, will be played. Manager Mack, of the Philadelphia American League team, today smiled at the report that the delay had favored the New York team more than it had the Athletics. He pointed to the fact that the rest had enabled Baker, the best hitter in the present series, to recover from the wounds received by the two spittings from Snodgrass. Jack Barry, he said, had also received a bump in New York, and the lay-off would benefit him.

Neither Manager Mack nor Manager McGraw will announce their pitching probabilities for tomorrow's game. It is believed, however, that Bender, the Indian, will go in for the local team, and it is not improbable that Mathewson will be on the mound for the Giants. Mathewson made the statement last night that Ames would probably go in today, but since the big fellow as had an additional day's rest, it is thought that McGraw will send him back against the American League champions, and hold Marquard in reserve for the fifth game in New York. It is argued that Marquard has shown form equal to that of Mathewson, and with a home crowd to cheer him on, he will do even better than he did in this city on Monday last.

Both Ames and Wiltse are anxious to go in against the local team, but McGraw is a sphinx so far as allowing his pitching plans to become known.

AMERICAN AVIATOR
KILLED BY FALL

Eugene Ely, One of the Best
Known Birdmen, Meet With
Death.

Macon, Ga., Oct. 19.—Eugene Ely died eleven minutes after he struck the earth today in his machine. He regained consciousness just before the end long enough to mutter: "I lost control—I know I am going to die." Ely fell a distance of 50 feet.

New York, Oct. 19.—Eugene Ely was one of the best known of the American aviators. His reputation was international as an expert, conservative and experienced. He has probably done as much or more than any other American aviator in furthering military experiments with the aeroplane, particularly in connection with the United States navy. It was Ely who first made the flight from a warship, successfully starting from the U.S.S. Birmingham off Norfolk, Va., in November, 1910. Subsequently at San Francisco on January 18, Ely landed a bomb under the deck of the armored cruiser Pennsylvania and a few minutes later started at the same point and returned to the aviation field some ten miles away.

In addition to these feats, Ely had demonstrated aeroplanes purchased for the army at San Antonio, Texas, and carried out scouting experiments in connection with the army at San Francisco. He was highly regarded by the army and navy officers and was a general favorite with all of them. He established a home near San Francisco and being recognized as a resident of California, although born in Iowa, was given a commission as lieutenant in the California National Guard.

Ely was 26 years old. He leaves a young widow, a native of San Francisco, and who is at present in New York city. Mrs. Ely is the daughter of the principal of the High School at Corte Madera, Cal. She was overwhelmed and prostrated to-night by the news and she has not been seen by any newspaper reporters. Ely joined Glenn Curtiss in 1909 and since then has made hundreds of exhibition flights.

GILL BROKE BIPLANE
ENDURANCE RECORD

St. Louis, Mo., Oct. 19.—Howard W. Bill, in a biplane, broke the American endurance record at Kinloch Field here this afternoon by remaining in the air 4 hours, 16 minutes and 35 seconds. The former record, made by the late St. Croix Johnstone, was 4 hours and 1 minute. Gill ascended at 12:45.55 o'clock, and descended at 5:06.30. His flight was principally over the field, but at times he flew over a triangular course of more than 30 miles.

BALLOON DROPPED
INTO THE RIVER.

Dieppe, France, Oct. 19.—A balloon left St. Cloud last night and was blown out to sea. It eventually dropped into the water and the three passengers were rescued by a trawler after clinging to the car for more than two hours.

THE BLANKET QUESTION

Almost every housewife at times finds herself in a quandary concerning her blankets. To trust them to the tender mercies of the washerwoman—is quite out of the question to send them to the ordinary laundry entails a risk—while to have them washed under her own eyes is too inconvenient.

We suggest that the Imperial be called upon the next time this problem arises. We are signally successful in the laundering of pure wool articles of all kinds. We return the goods soft, fluffy, and thoroughly cleansed. Try us. We do it right.

VETERANS WAIT
UPON THE DUKE

Ottawa, Ont., Oct. 19.—A deputation of veterans of the Fenian Raid of 1866-70 visited H.R.H. the Duke of Connaught, at Rideau Hall Saturday night, and were most heartily received. The deputation consisted of Messrs. Ed Kidd, M.P. for Carleton; W. E. McAlpine of Prescott; William Mahoney, James Ellis of Carleton; J. J. Uly of Montreal; H. Higginson of Prescott; C. W. Cousins and Captain J. A. Murphy of Montreal. The veterans were hospitably received by the Royal Governor-General, who conversed with them, recalling old times, and shook hands heartily with each.

Waco, Tex., Oct. 19.—C. P. Rodgers, the aviator en route from the Atlantic to the Pacific, flew from Dallas to Waco today, 100 miles in 95 minutes, landing at 4 o'clock this afternoon. His only stop was at Hillsboro, 34 miles north of Waco, where he replenished his gasoline. He will resume his journey tomorrow morning, with Austin, 108 miles distant, as the next stopping place.

BROTHERHOOD OF
R. R. EMPLOYEES

Elected Officers and Concluded
Its Sessions Last Evening—
Delegates Leaving.

The convention of the Canadian Brotherhood of Railway Employees, which has been in session here for two days past, brought its labors to a close last evening, and the delegates will leave for their respective homes to-night and to-morrow.

The next meeting of the convention will be held in the city of Ottawa in the third week of May, 1913.

The election of officers resulted as follows—

Grand President—A. R. Mosher, Halifax.

Grand Vice-President—Murdoch McLeod, Charlottetown.

Grand Vice-President for Prince Edward Island—W. N. Riggs, Charlottetown.

Grand Vice-President for Nova Scotia—Neil McKinnon, Sydney.

Grand Secretary—M. M. McLean, Halifax.

Grand Recording Secretary—F. J. O'Rourke, Moncton.

Grand Board of Directors—C. H. Kinnear, Moncton; S. C. Allard, Moncton; F. Macpherson, Point Tupper, N.S.; A. R. Boss, Moncton.

Grand Warden—C. E. Cole, Moncton.

Grand Chaplain—M. Lockhart, of Moncton.

Grand Auditors—F. McDonald, Pictou; C. McCready, Moncton.

THE GIRL FROM RECTOR'S.

The advance sale of seats for this delightful comedy is going on with a rush, and from present indications there will be crowded houses at both the matinee and evening performances, Saturday, Oct. 21st.

CANADIAN CLUB.

The French delegates Messrs. Bourquet and Bouzanquet, will be the guests at the luncheon of the Quebec Canadian Club today at 1 o'clock. The luncheon will take place at the Auditorium Cafe, and a large attendance of members is expected.

ENGLISH SHIRTS AND BLOUSES.

Thick, soft and warm English flannel shirts and blouses, for fall and winter outing have arrived from England by the Empress from Lloyd, Atter & Smith, for J. H. Mullin. They are especially adapted for outing. Call and see same at Mullin's store.

HORSE FALLS IN HOLE ON ST. JOHN ST.

A horse belonging to a milkman named Jobin, while being driven along St. John street about 6 o'clock last evening, fell into an excavation four feet deep at the corner of St. John and De Salabury streets, and had to be hauled out with ropes. There was no lantern at the spot where the accident occurred, but one was placed there after the accident.

EASTERN TOWNSHIPS BANK.

This old and progressive financial institution is still branching out for business, and has now reached the Ancient Capital. Offices have been secured at the corner of Notre Dame and Mountain streets, where it will open for a general banking business on and after Tuesday next.

These offices are in the centre of the business portion of the city and have been nicely and tastefully fitted up for trade. The new branch will no doubt meet with the encouragement which its enterprise deserves. Mr. D. H. Tolmie, a well-known banking man, will be in charge as manager, and his assistants will be Mr. Dessert, H. H. McKee and A. Kinnear.

BAPTIST CONVENTION.

The annual meetings of the Baptist convention of Ontario and Quebec are being held this week in Olivet Church, Montreal, of which Church the Rev. Joseph Sullivan is the well-known and genial pastor. The representation is a good one, delegates coming from points as far apart as Port Arthur and Quebec, as Sherbrook and Cobalt. Quebec is represented by the Rev. Hugh A. Ellis and the Rev. E. J. Stobo. It is good to find the estimation in which the Church of Quebec is held in the convention. The Rev. E. P. H. King was glad to meet with the representatives of his old church.

AN ORIGINAL AND RISKY BET.

In a conversation, yesterday evening, with a local amateur, the London representative of the great Russian virtuoso, Mark Hambourg, issued the statement that surely there would be this evening, at the Auditorium, at the very least, from twelve to fifteen hundred people. The local amateur, smilingly stated that the audience would not number more than five to six hundred. A rather hot discussion followed and ended in a bet between the two antagonists, Mark Hambourg's representative offering one hundred dollars against fifty that his figures would prove to be the most accurate ones. Evidently the artist's representative has an absolute confidence in Mark Hambourg's immense talent to draw large audiences. Has he previously visited Quebec? We don't know that he did!

PRESENTATION AND
ENJOYABLE SOCIAL

Pastor of Chalmers' Church
Was Presented With Silk
Gown and Cassock.

A delightful social entertainment was given at Chalmers' Church on Wednesday evening in honor of the Rev. Mr. and Mrs. S. T. Martin, which was largely attended by the congregation.

The committee of ladies who had charge of this entertainment are entitled to great praise. The floral decorations were in exquisite taste and were universally admired.

Mr. Arch Miller, Chairman of the Board of Managers, presided in his usual happy manner, and the musical programme under the direction of Mr. H. Gordon Perry, which consisted of piano duets by Mr. Perry and Master Willie Ross, and Miss Miller and Mr. Perry, and vocal solos by Mrs. T. B. O'Neil and Mrs. T. P. Ross, provided a rare treat.

The feature of the evening, however, was the presentation of a silk gown and cassock to the popular clergyman, the gift of the trustees, elders and managers, which was made by Mr. Miller in a few appropriate remarks. Mrs. Martin was also happily remembered, receiving a handsome bouquet of roses, which was presented by little Miss Jean Muir.

We predict for Chalmers' Church a continued era of prosperity under the guidance of its cultured and earnest pastor.

REPORTED APPOINTMENT

It is rumored that Mr. J. E. Prince, advocate, will be appointed postmaster of the St. Roch branch.

QUEBEC EAST

ELECTION CASE

The preliminary investigation in the case of Mr. L. P. Robitaille against Messrs. L. Letourneau, M.P.P., and Elie Depeyre of St. Roch's, was continued in the Police Court yesterday and again continued until this afternoon when the evidence for the defence will probably be concluded. Messrs. I. N. Belleau, K.C., and G. G. Stuart, K.C., appeared for the prosecution, and Messrs. L. A. Cannon and O. Morin for the accused. The witnesses examined yesterday for the latter were Messrs. Eric Dorion, H. de St. Victor, two bartenders at Masson's Hotel, Mr. Letourneau, M.P.P., and Elie Depeyre, the latter being under examination when the court adjourned. The investigation is held with closed doors.

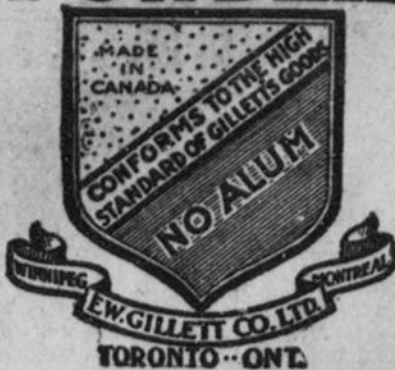

RECORDER'S COURT.

Aldermen Gauvin and Trudel presided in the Recorder's Court yesterday morning and had ten prisoners before them. Two men for causing a row in a hotel on St. Patrick street were fined \$15 and costs or three weeks' jail each. Another man who also took part in the row and assaulted Constable Doyle in No. 2 Police Station was fined \$20 and costs or one month. A stranger arrested in Champlain street for being drunk and having a revolver in his possession was fined \$20 and costs or one month. He was subsequently sent to the Court of Sessions to answer a charge of pointing the pistol at a citizen. He will be tried on Monday next on the latter charge. An old drunker to the court on charges of drunkenness was sent to jail for three months in default of paying a fine of \$40 and costs. The remaining prisoners were condemned to fines ranging from \$2 and costs or four days to \$20 and costs or two months respectively, for drunkenness.

GOOD PROPOSITION FOR INVESTORS.

Messrs. Macgowan and Legare, representatives of the International Securities Company, Ltd., have just opened offices in the Nova Scotia Bank building, and have already begun to work up a business which promises to reach very large proportions. The company which they represent is the authorized and exclusive agent of the Grand Trunk Pacific Railway for town sites in divisional points of Melville, Watrous, Biggar, Wainwright, Tofield and Scott, on the main line of the G.T.P. The International Securities Co. also are owners and managers of town sites in upwards of fifteen of the principal and progressive sections of the Canadian Northwest. The International Securities Company keeps its fingers upon the pulse of Western Canadian progress. Its official records contain the most minute and authentic data obtainable about the enterprise, development, present situation and future prospects of the towns and cities of the west. When it selects a certain town or city as a place for investment, its clients may be assured that such town or city is chosen because it has proved to be a live town and one with the most essential elements of great growth in the future and these facts have been obtained by the company after a thorough investigation from every point of view having any relation to it as an investment prospect.

Mr. Macgowan has spent seven years all over the West, and is fully acquainted with most of the points where the companies are situated. Mr. Legare, his partner, is a well-known resident of Quebec. Both are progressive and practical men, and in their hands the business should rapidly grow. The firm also handles some good Quebec propositions.

IMPROVEMENT IN
POSTAL SERVICE

Postmaster General and Mayor
Drouin Had an Interview
Yesterday.

Hon. L. P. Pelletier, Canada's new Postmaster-General, was at his office yesterday and received a number of delegations.

Among those who called upon the minister was His Worship Mayor Drouin, who had a long interview with the Postmaster-General in regard to improved postal conditions in the city of Quebec.

The minister and the Mayor came to a perfect consideration in regard to certain improvements, and Hon. Mr. Pelletier promised to do all in his power to promote the interests of Quebec.

FIREWORKS WERE AGAIN POSTPONED

The fireworks display in connection with the unveiling of the Montcalm monument were again postponed last evening on account of the unfavorable weather. The display will take place on Saturday night.

WHAT A QUESTION?

Have you heard Mark Hambourg? Not yet; but I am going to hear him this evening. Are you going? Most decidedly. I would not miss the treat for anything. Neither would I—Conservation heard by our reporter on St. John street.

LOOK OUT

For this week's Montreal Standard, largely illustrated with the arrival at Quebec of the first royal Governor-General. On sale at all the principal newsdealers, and at Ant. Langlois, agent, 26 Mountain Hill. Price 5 cents.

SCHOONER SUNK IN MID-OCEAN

Halifax, N. S., Oct. 10.—A. B. Crosby, ex-M. P., owner of the schooner Renown, received the following message from Bremen, Germany, this afternoon:

"Renown sunk in mid-ocean; crew saved."

The schooner was bound to Newfoundland from Spain with a cargo of onions. She had been engaged in this trade by the R. Moulton company, Burgeo, Newfoundland, for four months. The Renown was 98 tons register and twelve years old. She carried a crew of six men. The loss is partly covered by insurance. The cargo was insured.

VERDICT OF MANSLAUGHTER IN THE BRAGDON CASE

Woodstock, N. B., Oct. 19.—William Bragdon, who has been on trial during the past three days for the murder of Woodman McCluskey, was found guilty of manslaughter tonight, with recommendation to mercy. Bragdon shot McCluskey during a quarrel in front of the former's house. Bragdon surprised McCluskey visiting his wife. Mrs. Bragdon went on the stand in her husband's defence and admitted being intimate with McCluskey for years whenever her husband was away from home. The defence was the unwritten law. Sentence will be pronounced Tuesday.

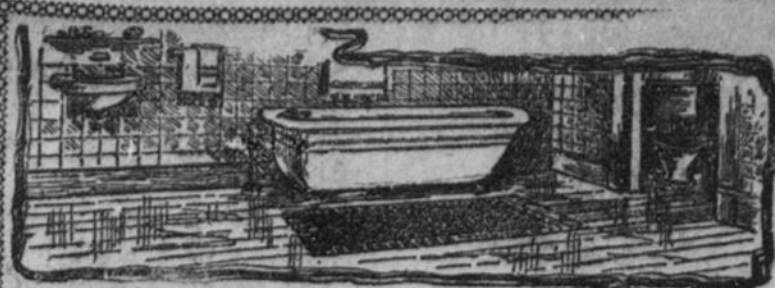

BRAKEMAN KILLED NEAR MONTREAL

Montreal, Que., Oct. 19.—Joseph Marcotte, a brakeman, was killed tonight in Verdun, when he missed his footing in an attempt to board a freight car while in motion. He was in the employ of the contractors, Hane, Quinlan & Robertson, who are building the new civic aqueduct, and lost his footing while trying to jump aboard some heavily loaded cars. He fell beneath the wheels and was crushed to death. An inquest will be held.

WINTER ECZEMA CURED BY ZAM-BUK.

Mrs. P. W. Drummond, of Thetford Mines, Que., writes: "Every fall, as soon as cold weather set in, my little daughter's face and hands would be covered with rough, watery patches, which, before long, turned into scabby sores. There would itch and smart terribly, and would remain on her face from fall until spring. This happened for three years, and we could get nothing which did her any good, until a short time ago I started using Zam-Buk, and now, after using hal a box of same the sores have entirely disappeared, leaving her skin as smooth and clear as it could possibly be."

Zam-Buk is also a sure cure for ulcers, abscesses, ringworm, blood-poison, scalp sores, chapped hands, cold sores and all skin diseases and injuries. 50c a box, all stores.

YOUR BATH ROOM

Should look just as well as your Parlor or Sitting Room. Yours can and will if you only place one of our new Varnished Tile or Wax Papers on it. We have some very nice designs in Sanitas, the modern finish for Bath Rooms. Consult us before going elsewhere for anything and everything in the Painting and Paper Line.

WOODSTOCK, ONT., MAKING STRONG BID FOR PREACHER

Woodstock, Ont., Oct. 19.—The people of Zion Presbyterian church, Brantford, are making a strong bid for Rev. R. B. Cochrane, of Knox Church this city. They give as their reasons for the call the facts that their church requires a preacher of exceptional ability, that owing to the local conditions the pastoral work of their church has been somewhat neglected, and that Mr. Cochrane's preaching and pastoral abilities are of a high order, while he has a genius for organization, especially among the young people.

SPORTSMEN

Send your game heads to Holt, Renfrew & Co., Ltd., to be mounted. First Class work guaranteed.

BLACK KNIGHT STOVE POLISH

It used to be that the dirtiest and hardest work a woman had to do about the house was polishing the stove. "Black Knight" Stove Polish has made it no work and no muss at all. "Black Knight" is a smooth paste, that is spread easily with a cloth or brush and shines like a black diamond after a few gentle rubs. It cleans as it polishes—keeps the stoves fresh and bright, with almost as little trouble as polishing one's shoes. It costs a big can of "Black Knight,"—at your dealer's, or sent postpaid on receipt of price.

THE F. F. DALLEY CO. LIMITED, HAMILTON, Ont. Makers of the famous "3 in 1" Shoe Polish.

WORLD'S SUNDAY SCHOOL MEETING

Will Be Held in Zurich in July of 1913—Work in Europe Reported On.

Philadelphia, Pa., Oct. 19.—At a meeting here to-day of the executive committee of World's Sunday School Association which was attended by Sabbath school leaders from Europe, Africa, and America, it was voted to hold the world's 7th Sunday school convention in Zurich, Switzerland, July 8 to 16, 1913. Wm. N. Hartshorn, of Boston, Vice-President of the World's Association, and President of the International Sunday School Convention, made a lengthy report of the recent visit to European cities in the interests of world-wide Sunday school work. Bishop Burt, whose home is in Zurich, emphasized the desirability of that city for the convention. He said that it was the desire of the world's association to influence the continent of Europe Zurich was a strategic city.

Bishop Hartzell, L.L.D., of Madeira, West Africa, addressed the committee at length, stating that because of the inspiration of the world's association in 1907, organized mission work has been inaugurated in North Africa, and for the first time in centuries, the organized church, it happens to be the Methodist Episcopal, is engaged in work on the shores of the Mediterranean along the thousands of miles of coast from Egypt to Gibraltar. There are now 27 missionaries at work.

Those attending the conference represented 285,000 Sunday schools and 28,000,000 scholars. Among those in attendance were the following:—W. T. Hartshorn, Boston, Vice-President; Fred A. Wells, Chicago, Treasurer; Bert Cashman, Chicago, Acting Secretary; Frank L. Brown, New York; H. J. Heinz, Pittsburgh; A. B. McCullis, Providence; E. H. Nichols, Chicago; G. W. Penniman, Boston; Justice J. J. MacLaren, Toronto.

TWENTY NEW COLLIERIES IN NOVA SCOTIA

Sidney, N. S., Oct. 19.—President Plummer and the directors of the Dominion Iron and Steel and the Dominion Coal Company, who arrived here today, were given a banquet by the city tonight. Mayor Gunn presided, and the speakers were J. H. Plummer, Senator McKeen, Frederick Nicolls, H. Nicolls, Dr. Kendall and J. S. McLennan. Among the directors present were Sir Montagu Allan, Mr. Caverhill and William McMaster. Sir William Van Horne, who is also here, was absent, owing to another appointment. Mr. Plummer said plans for the coal company meant that they would shortly be operating twenty new collieries in the province.

YOUNG MAN KILLED BY ROOF CAVING IN

Ottawa, Ont., Oct. 19.—While piling stones on the wall of the boiler house adjoining R. H. Wright's green house in Aylmer this morning, the roof of the green house on which Fred Caribau was standing caved in and the young man was carried below. He lived on a few minutes. Before a doctor arrived life was extinct. Caribau, who was about twenty-five years of age, is a married man and leaves a wife and three children in Aylmer.

CASCARETS WORK WHILE YOU SLEEP

Salts, Calomel and Cathartic Pills are violent—they act on bowels as pepper acts in nostrils.

Take a Cascaret tonight and thoroughly cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out.

Are you keeping clean inside with Cascarets—or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels.

Remember a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means a clear head and cheerfulness for months. Don't forget the children.

SOCIAL REFORM AND THE GOSPEL

Former Can Never Be a Substitute for the Latter, Says Professor Farmer.

Montreal, Oct. 19.—Social reform could never be a substitute for the Gospel, said Prof. J. H. Farmer at the Baptist convention to-night. The spirit of Christ must be applied to business and to the affairs of state. All citizens were responsible for the cursed drink traffic, and if all the so-called Christians were to band themselves together, it would have to go, and the white slave traffic would also disappear at lightning speed. It was horrible to think that no young woman could land at a Canadian railway station by herself and be quite safe.

Touching on the existence of slums, the speaker said that so long as the increase in the value of land went into the pockets of the few instead of into the pockets of the many who created it, so long would there be slums. It was to the honor of a Baptist, Lloyd-George, that a long step in the direction of giving the people their rights had been taken.

Western missions was the theme on which Rev. D. B. Harkness, the Superintendent of Missions, spoke. He told of the restless spirit of the immigrants and of the presence of Baptists in the West without places of worship and also of the Russians who were hungering for the Gospel. The expense of the work was greater than in the thickly populated towns of the east.

At to-night's gathering it was decided to send a telegram of greeting to the Governor-General, the resolution to do so being carried with enthusiasm, after which the National Anthem was sung.

Arrangements were announced by which all the Baptist pulpits and some of the sister churches will be occupied by delegates on Sunday.

A number of addresses on the Laymen's Missionary Movement and on missionary work in Western Canada were delivered at the afternoon session of the convention.

WORK ORDERED TO GO AHEAD

Winnipeg, Oct. 19.—J. D. McArthur, contractor for 185 miles of the Hudson Bay Railway, has been notified by Hon. Frank Cochrane, Minister of Railways, to proceed with the work on which he was ordered the other day to suspend operations. He has sent his men back to the Pass and will rush all the work possible before the winter sets in.

TOMMY MURPHY WON.

New York, Oct. 19.—Tommy Murphy, of New York, defeated Phil Brock, of Cleveland, in a ten-round bout at the National Sporting Club of America tonight. Murphy excelled at infighting and had easily the better of the first seven rounds. The eighth and tenth round were on the whirlwind order. In the final session Brock went at his opponent viciously and cut Murphy's eye and had him holding toward the end. There were no knock-downs.

HINT TO THE ALDERMEN.

To the Editor of the Chronicle:

Dear Sir,—If some of the Aldermen would pay more attention to the cleaning up of the city, and placing it in a proper hygienic condition, instead of wasting their time talking about the speed of automobiles, they would be doing a good deal more good. Notwithstanding the narrow streets of Quebec, there has not been one fatal accident during the past year. It is not necessary to draw your attention to the many fatalities which have occurred in many larger cities of not alone Canada but also the United States. Some of the Aldermen who talk of the speed of automobiles should try and find out some other means by which they can get their names before the public.

Yours truly,

PUBLIC HEALTH.

PERSONALS.

Hon. Geo. R. Smith, of Montreal, is a guest at the Chateau.

Dr. E. A. LeBel, of this city, has returned home from a month's visit to Winnipeg and the North-West, where he has been visiting his lands in that part of the country and where everything, he says, is booming.

THE NEW ERA BRAND.

Come and see the prices of our celebrated manufactured suits New Era. The price and cost will astonish you. FAGUY, LEPINAV & FRERE.

WILL CITY TAKE OVER EXHIBITION GROUNDS?

Question Was Discussed at Meeting of Finance Committee—Water Supply to City Hospitals.

Two civic committees, fire and finance, held meetings in the City Hall last evening, the former being presided over by Ald. Lockwell and the latter by Ald. Cannon. Others present being Mayor Drouin and Aldermen Messervy, Delisle, Emond, Cote, Lamontagne, Bergevin, Pouliot, Lavigneau, Verret, Trudel, Madden, Gosselin, Beaumont, Goulet, Morin, Guilford and Mulroney.

Mayor Drouin informed the committee that pursuant to a resolution of the committee, Chief Hamel, Ald. Bergevin and himself had called upon the Quebec Harbor Commissioners to try and exchange the property, on which No. 5 fire station recently destroyed, was erected, with another lot belonging to the commissioners, but the latter in reply asked the civic representatives for what amount they would sell their station site, adding that they had no available property for a fire station, as the car track passed through any property they had.

Mayor Drouin remarked that he had visited the property in question and acknowledged that it would be impossible to erect a station there.

The commissioners wanted the Mayor to fix a price on the station site as they were willing to purchase it and had a right to expropriate the property as it is probable that tracks will be laid along the wharves next summer.

His Worship remarked that a temporary station would have to suit until a proper site was secured, and Ald. Madden suggested that certain sheds near the police station on Louise Basin might be secured from the commissioners for the winter, while No. 5 station was being rebuilt, while others were of opinion that a portion of the Rattray block, corner of St. Paul and Prince of Wales street would be a proper place for a temporary station. Mayor Drouin replied that he would ask the architect to give an estimate of the cost of temporarily repairing No. 5 station, which could be used until another site was decided upon.

Ald. Messervy moved that the matter be referred to the next meeting and that in the meantime Mayor Drouin and the architect find a site for a fire station in St. Peter's ward, as apparently the present site was not available and that the architect give an estimate of the probable costs of repairing the present station and report as soon as possible to the committee.

Ald. Cote suggested that Mr. Talbot, architect, should be requested to give an estimate of the cost of temporarily placing the Lower Town station in the Rattray building.

Ald. Madden was in favor of selling the site lately occupied as No. 5 fire station and securing another property in Lower Town, as the Harbor Commissioners intended expropriating the land. He objected to a temporary lease as this meant that St. Peter's ward would not have a station for several years and also objected to Ald. Cote's motion for the employment of Mr. Talbot as architect when there were architects in St. Peter's ward who could do the work.

Ald. Pouliot suggested that two stories of No. 5 fire station be temporarily rebuilt and his suggestion appeared to meet with the approbation of the committee.

Ald. Bergevin then proposed that the names of Messrs. Stanley & Stanley be substituted to that of Mr. Talbot, architects to estimate the cost of a temporary fire station in the Rattray block and his motion was carried on the following division:

For—Ald. Bergevin, Messervy, Delisle, Lamontagne—4.

Against—Ald. Cote and Emond—2. Ald. Bergevin's motion was then declared adopted and the work will be awarded to Messrs. Stanley & Stanley.

Ald. Pouliot and Bergevin reported that after examining the tenders for the winter costumes of the Fire Brigade, they were of opinion that the tender of F. Simard & Son for coats and pants at \$11.29 was the most advantageous, and on motion of Ald. Messervy their report was adopted.

A letter was read from Mr. Allyn Taschereau, advocate, requesting the committee to expropriate the proprietors of the La Nation theatre, now Orpheum theatre, in St. Roch's, from paying the full theatre license of \$300, declaring that as they were only doing business here since January last they were willing to pay half the license, \$150, to the first May next, and would after that date pay the full amount. Mr. Taschereau explained that the building had been erected by La Compagnie Immobiliere Champlain and that the theatrical company was willing to sign a lease for five years with the proprietors, but on condition that the city exempt them from paying half this year's license as they were only doing business since January last.

When Mr. Taschereau had left the committee from the committee decided not to grant the request.

Letters from Mrs. Lacasse, widow of Sgt. Lacasse, and from Mrs. Savard, widow of the late Fireman Savard, asking that the committee grant them three months' salary were adopted.

Another letter was read from Mrs. Savard to the effect that the day following her husband's burial, she had received \$300 from the Firemen's Benefit fund, and that she was one of the victims of the fire in No. 5 station, having lost all her furniture besides the above amount in the fire and that she had been taken to the Hotel Dieu, having been injured by jumping from her residence over the

Enjoyment

tonight may mean suffering tomorrow, but not if your stomach, liver, and bowels are helped to do their natural work by

BEECHAM'S PILLS

Sold Everywhere. In boxes 25c.

station. She had lost everything and had several children to support and consequently asked that the committee grant her the amount which she had received from the Firemen's Benefit fund.

Mayor Drouin and several aldermen remarked that Mrs. Savard's case was a specially unfortunate one, but as the committee could do nothing in the matter the request was referred to the legal advisers.

The question of the approaches to Dorchester Bridge was then discussed. The bridge at present was 30 feet wide, but the city wanted to widen it to 40 feet and was now expropriating land on the north side of the bridge. The intention was also to widen Bridge street by 30 feet southwest of the bridge as far as Prince Edward street, thereby taking in a portion of the property recently occupied as a tollgate keeper's house and Mr. J. B. O. Gagnon's lumber yard.

Ald. Cote suggested that instead of expropriating 30 feet on the west side of Bridge street, the committee ask Mr. Drolet for what sum he would sell 15 feet of his property on the east side of Bridge street, between the bridge and Prince Edward street, and that was agreed to, but if the latter's price is too high, the committee will expropriate 30 feet on the west side and will pass a by-law to that effect.

A letter was read from the Jeffrey Hale authorities offering to settle the city's claims for arrears of water taxes, for \$2000. They are at present in arrears to the amount of \$5176, but some time ago the committee decided to supply water to the Jeffrey Hale and Hotel Dieu Hospitals at 10 cents a thousand gallons of water. The request was referred to the committee on amendments to the city charter, as such a permission must be granted by the Provincial Legislature.

A letter was received from Mr. J. H. Fortier, secretary of the Quebec Exposition Company, informing the committee that the sum of \$21,661 had been set aside for prize during the recent Quebec Exhibit. However, in certain classes no entries had been made and in others the judges had not awarded prizes, so that the company only paid out \$18,182.60 as prizes.

Ald. Cannon and Ald. Lockwell, who were two out of the three representatives on the Exhibition committee, stated that they had attended several meetings of the Exhibition Company, and that they were highly satisfied with the manner in which the directors had carried out the arrangements. The company was willing to extend the city's option for the purchase of the grounds until after the prorogation of the next session of the Provincial Legislature, as the city had to obtain that permission, but on condition that the city would pay the company the balance of the civic subsidy, \$8000, before the 25th instant.

Ald. Cote suggested that a special committee consisting of Mayor Drouin and Aldermen Cannon, Verret, Trudel, Cote be named to study this important question and report at a subsequent meeting.

The suggestion was adopted and the committee decided to pay the company the balance of the civic subsidy. The purchase of the property would amount to about \$93,000, the company being willing to sell the land to the city at 4 1/2 cents a foot and 50 per cent of the cost of the buildings, and transferring their franchise and charter to the city.

MEN'S MISSIONARY CONFERENCE.

Vancouver, B.C., Oct. 19.—Three sessions were held on this, the second day of the men's missionary convention which is to be followed by similar conventions, province by province, throughout the Dominion. The morning theme was "The Equipment for the Task," and five able addresses were delivered by leaders of the missionary thought in Canada, including Rev. Dr. R. P. McKay, Moderator of the General Assembly of the Presbyterian Church; Rev. A. E. Armstrong, Toronto; James Ryrrie, Toronto; Prof. E. Odium, Vancouver. How to create an intelligent home base, the leadership of the pastor, the efficacy of prayer in solving missionary problems, and the effective methods to employ in enlisting men in the missions, were discussed at length.

At the afternoon session the problem of the "local church" in all phases of the missionary movement were presented and discussed. Organization of a missionary committee and educational programme for the local church created much interest and discussion.

To-night able papers dealing with call to service and the significance of the world missionary conference held last year in Edinburgh were read by John R. Mott and Sir Andrew Fraser.

BARNARDO HOME BOY LEAVES AN ESTATE

Toronto, Ont., Oct. 19.—Frederick Hales of Mimico, an old Barnardo Home boy, has left an estate of \$2,451.75, but has left no will with regard to how he wished this disposed of, or any trace of relatives entitled to claim it. Hales was 34 years old and previous to entering the Barnardo Home, was an inmate of the Central London District School in Middlesex, England. He was sent out by Dr. Barnardo to Canada when about 12 years of age. He owned a house and lot on Fourth avenue in the village of Mimico, York county. If no heirs can be found the estate will revert to the crown.

STAYING TO SOLVE MYSTERIOUS DEATH

Young Music Teacher Who Ended Her Life With Poison.

Boston, Oct. 19.—In their effort to solve the mystery of the death of Miss Avis Linnell, the young music teacher who died of cyanide of potassium poisoning last Saturday evening, District Attorney Pelletier and Chief Dugan, of the police department, had a conference this afternoon with Frank H. Carter, a Cambridge man. Mr. Carter has said that he knows the name of a male friend of Miss Linnell who, he believes, furnished her with the poison with which she ended her life. The name of this acquaintance of Miss Linnell has not appeared thus far in connection with the case, Mr. Carter says, and he intimated that some surprises might result from his interview with the police.

Mr. Carter is a friend of Rev. Clarence V. Thompson Richeson, pastor of the Cambridge Immanuel Baptist Church, who is reported to have been engaged at one time to Miss Linnell. Whatever information Mr. Carter was able to give the police remained carefully guarded to-night.

Rev. Mr. Richeson occupies rooms in Mr. Carter's residence in Cambridge, but since last Saturday night when the tragic death of the young woman was announced he has been staying in Brookline at the home of Moses Grant Edmonds, a wealthy parishioner, whose daughter is engaged to marry him. Invitations to the wedding which has been arranged for the latter part of October were issued several days ago.

Thus far Mr. Richeson has made no statement publicly regarding his acquaintance with Miss Linnell, though friends said to-day that he would probably do so shortly. Until to-day he has been ill at the Edmonds residence suffering from a severe attack, according to his physician. But this afternoon he was able to drive with Mrs. Edmonds for a short call at his rooms in Cambridge after which he returned to Brookline.

ONTARIO ELECTION CASES IN COURT

Toronto, Ont., Oct. 19.—Acting on behalf of Hon. W. A. Charlton, Liberal member-elect for Norfolk, a cross petition was filed at Osgoode Hall this afternoon by Robert McKay, of the firm of Johnston, McKay, Dadds & Grant, against the protest preferred against the Hon. Mr. Charlton by Alex McCall, the defeated Conservative candidate. The usual charges of corruption were made.

One of the final allegations is that Mr. McCall "directly and indirectly from divers companies and associations, not incorporated for political purposes alone, received divers contributions, loans, advances, payments and promises and offers to pay money and its equivalent to and for and in aid of the political party to which the respondent belongs, and to and for and in aid of divers committees and associations of such party," etc.

In addition, Mr. McKay also filed a petition today against the election of David Marshall, the Conservative member who defeated Dr. Miller in East Elgin. The grounds are the usual ones.

SUCCESSION DUTIES ARE OVER ONE MILLION

Toronto, Ont., Oct. 19.—With the close of the financial year, still two weeks away, succession duties paid to the Provincial Treasurer have already passed the hoped-for million mark. The total amount received up today was \$1,027,081. Two of the largest payments this month came from the estate of the late Andrew Gunn, which returned the treasury \$15,578, and that of the late F. J. Phillips, which paid in \$18,539. Another revenue increase is expected to come from the Temiskaming & Northern Ontario Railway. Last year the estimate was \$625,000, while receipts were but \$420,000. For this year the Provincial Treasurer put the estimate at \$500,000, which sum, it is expected, will be turned over to the province.

CARTER'S LITTLE LIVER PILLS.

CURE SICK HEAD

Sick headache and relieve all the troubles such as indigestion, biliousness, constipation, etc., by taking this amazing compound, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cure.

Headache, yet Carter's Little Liver Pills are equally valuable in constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cure.

Acting they would be almost priceless to those who suffer from this distressing complaint, but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

aches, get Carter's Little Liver Pills and you will find them equally valuable in constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cure.

The Cancelled Order

"WELL, that's fierce—and a new customer, too. It wouldn't have happened if we hadn't been 'balled up' in our shipping department for the want of an elevator. I'll write those Otis-Fensom people today!"

Do you realize exactly what it means? Not merely a lost order with accompanying profit loss—that's easy; you can dispose of the goods elsewhere. But it means more than that. It means a dissatisfied customer. One who has tried your boasted service and found it wanting—found it lacking at a time when it should have proved prompt and efficient. You have jeopardized your connection with this customer. Perhaps broken a promise, and shaken his confidence in your methods. And the salesman who got the order is discouraged and disheartened because "the house" fell down on the first shipment. Can you blame him? Can you blame the customer? As a matter of fact, there is really no excuse for laggard, chaotic conditions in your shipping department so long as elevators so reliable and thoroughly efficient as

Send for our new illustrated booklet "Freight Elevators and Their Uses."

OTIS FENSOM FREIGHT ELEVATORS

are made at a cost so reasonable as to make their installation in any place that can use one, a decidedly profitable investment. The dependable qualities of the Otis-Fensom are shown by the fact that it is always in commission ready for immediate service. Rush orders can be executed with the utmost convenience and dispatch, because the improved facilities following the use of the

elevator has enabled the staff to systematically sort and arrange the different lines according to their proper classification. This time is saved—mistakes and delays are eliminated, and overhead expenses are minimized. For small warehouses we make a Hand Power Elevator with improved steel bearings. Constructed in a thoroughly substantial manner, it runs with the least friction.

The Otis-Fensom Elevator Co., Limited
Traders Bank Building Toronto, Canada

LEGISLATION ON MONETARY MATTER

Basis for a Probable Submission to the Congress of the United States.

Washington, Oct. 19.—Former Senator Nelson W. Aldrich, of Rhode Island, today submitted to the National Monetary Commission of which he is chairman, a revision of his plan for monetary legislation. The commission may use it as the basis of its recommendations to Congress.

The basic principles of the revised plan are substantially the same as those embodied in Mr. Aldrich's first proposal sent to the commission last January, which he said he expected would serve as a basis for national discussion.

Important phases which were then unsettled and those which have since been evolved are treated in the recommendations sent to the commission today. Most of the questions are re-handled with great detail as the result of discussions and conferences which have been going on since the plan was first suggested.

Briefly, the plan still provides for the organization of the National Reserve Association, with capital of approximately \$300,000,000, in which the United States Government and the banks owning shares in the association shall be the only depositors. The plan of dividing the United States at first into fifteen financial districts remains unchanged. In each district the banks shall form local associations of their own, which in turn will be represented in the branches and finally in the central organization through a system of election of directors, which, it is said, will make it impossible for any section or set of bankers to control the whole.

To provide for the \$730,000,000 of 2 percent Government bonds now owned by the National Banks and used as the basis of note circulation, which are to be absorbed by the reserve association, the following plan is proposed:

Upon the application of the reserve association the Secretary of the Treasury shall exchange the 2 percent bonds with the association will buy from the banks at par and accrued interest, for a new issue of 3 percent securities, payable 50 years after the date of issue.

The reserve association will pay to the Government a special franchise tax of 1 1/2 percent per year on the amount of such bonds. As the Government's actual interest charge on the 2 percent is not actually 1 1/2 percent, since the banks pay a half of one percent as a tax when the bonds are used as the basis of note circulation, this will reimburse the Government for the extra interest it will be called upon to pay as a result of exchanging the 2's for 3's.

One effect of the exchange will be to enable the Government to provide permanently for a large portion of the interest bearing public debt at a net interest charge of 1 1/2 percent. This arrangement proposes a solution of what many financiers declared the greatest obstacle to the plan. It disposes permanently of the bond-secured currency without loss to the Government and without imposing upon the reserve association the ownership of the \$730,000,000 two percent bonds.

FLOODS IN ADIRONDACKS START MILLS RUNNING

Saratoga, N. Y., Oct. 19.—A heavy rainfall, which began Tuesday and is still in progress flooded the streams in the lower Adirondacks. At Corinth the Hudson river has risen two feet in 48 hours, and the mills of the International Paper Company, which have been working half time for several months, owing to low water, have resumed full operations.

The rise in the Hudson has been so rapid that all work on the construction of the barge canal at Mechanicsville has stopped and fears are felt for a number of cofferdams in the river.

INDIANS TO HOLD CONGRESS

Final preparations for the opening of the convention of the American Indian Association here Thursday have been made. In the convention for the first time in the history of the American Indian representatives of all the tribes will gather to act for the common weal.

The initial meetings Thursday will be for the delegates only, and plans for the formation of a permanent association will be made. A public meeting will open the convention, at which addresses of welcome by Dr. W. O. Thompson, President of Ohio State University, and Governor Judson Harmon are scheduled, with others by many distinguished statesmen and Indian leaders.

Many efforts have been made to establish an Indian association, but never before have the Indians attended in a body and with every tribe represented. The majority of the Indians attending are professional or business men. Among those to speak are Charles E. Dagenett, Federal Supervisor of Indian Employment, Denver, Col.; A. C. Parker, New York State Archaeologist; and Gen. R. H. Pratt, founder of the Carlisle Indian Institute.

PERSONAL

M. H. A. Crankshaw, manager of the Orpheum Theatre, has his suite of rooms at the King Edward Hotel for the winter.

M. F. P. Cummins, Mrs. Alice Cummins, Mrs. A. F. Brunet and child of Nicolet have their apartments at the King Edward Hotel for the winter.

Arrivals at the King Edward Hotel—M. B. Ellison of Montreal, M. W. Lafleur of Toronto, Ont.; M. L. Latour of Ottawa; Eugene Allard, Geo. Hamel of Grand'Mere; M. L. Gailpeault of Ste. Bridge; M. L. Becker of Preston, Ont.; Mrs. Milton of Vancouver; M. L. Blais of Belleville, Ont.

M. Emile Debonnet, with Mme. Debonnet and Mlle. Oresdi, of Paris, who have been on a visit to Quebec, left yesterday afternoon for home. The party were greatly delighted with their trip to the Ancient Capital, which they declared was the most interesting point which they had visited in the whole of America.

Miss Ethel Wiggs entertained a number of her friends to a five o'clock tea yesterday afternoon in the Chateau Frontenac, in honor of Miss Farfar, previous to her departure from this city. The guests were received in the ladies' parlor and afterward adjourned to the round room, which was prettily decorated for the occasion. The ladies who assisted Mrs. and Miss Wiggs in pouring tea were Mrs. S. T. Martin, Mrs. A. R. Beverley, Mrs. E. E. Ross and Mrs. C. A. Sewell.

Arrivals at the Chateau—George Booth, Montreal; Leopold Quevillon, Montreal; J. D. Leffingwell and wife, New York City; Mr. and Mrs. Campbell, Montreal; Charles A. Lent and wife, New York; J. H. Blair, London; J. F. Reynolds, Philadelphia, Pa.; Charles A. Taylor, Toronto; A. A. Jamieson, London, Eng.; William Delano, Grand Rapids; Mrs. W. B. Gainlen, Oxford, Eng.; R. J. Stinson, St. Catharines; J. T. Walsh, Montreal; W. T. Thompson, London, Eng.; Mr. and Mrs. Wardlaw, Sheffield; Thomas Robinson, England; Mrs. Robinson, England; Miss Robinson, England; H. Fontaine, New York City; Mr. and Mrs. A. Schutz, Berlin, Ont.

Arrivals at the Clarendon—G. M. Fairchild, Jr., Vancouver; Mr. and Mrs. C. J. Mullin, Ottawa; Mr. and Mrs. C. F. Cutter, Newcastle on Tyne, Illinois; Mr. and Mrs. A. Y. Fair, Colebrook, N. H.; Ant. Valiquette, E. Mayer, Montreal; Z. Dickinson, Thetford Mines; Dr. and Mrs. F. Tigh, Newburyport, Mass.; J. E. Lafond, Montreal; Mr. and Mrs. Arth. Gullbott, Beauce; Mr. and Mrs. R. C. Suge, Montreal; E. D. Cornish, Rochelle, Eng.; W. Redfern, Ecclesdale, Eng.; J. E. Talbot, Montreal; Hon. Judge B. Letellier, Beauceville; D. B. McRae, Toronto; Arth. du Tremblay, Ant. du Tremblay, Robertville; Jos. Thornton, Grand Bay, N. B.

IMPERIAL TOBACCO COMPANY'S PETITION

New York, Oct. 19.—The Imperial Tobacco Company, Ltd., of Great Britain, filed a petition in the United States Circuit Court today, asking that the decree of the Supreme Court be confined to cancelling the covenants by which it was agreed that the Imperial Company should refrain from doing business in this country other than the purchase of leaf tobacco, and that the American Tobacco Company should refrain from doing business in Great Britain.

BRITISH NATIONAL INSURANCE BILL

London, Oct. 19.—It is officially announced that as a result of a final conference to-day between Chancellor Lloyd-George and the representatives of the Friendly Societies, at which concessions were made by the societies, opposition to the Chancellor's national insurance bill, which has been a most serious obstacle, has been withdrawn and the support of the societies pledged. The bill will be taken up when Parliament re-assembles on Oct. 24, and pushed through.

The Handy Heater

PERFECTION
SMOKELESS
OIL HEATER

You often need some heat in early Fall, when you have not yet started the furnace.

In whatever part of the house you want it, you can get it best and quickest with a Perfection Smokeless Oil Heater.

The Perfection is the most reliable heater on the market, and you can move it wherever you please.

Start it in bedroom or bathroom, and you dress in comfort on the coldest morning. Take it to the dining-room, and early breakfast becomes a pleasant, cosy meal. A touch of a match at dusk, and all is snug for the evening.

The Perfection Smokeless Oil Heater is beautifully finished—an ornament anywhere. Drums of plain steel or enameled in blue; nickel trimmings. A special automatic device makes smoking impossible. Burner body cannot become wedged. All parts easily cleaned. Dampers top. Cool handle.

Dealers everywhere; or write for descriptive circular to any agency of

The Imperial Oil Company, Limited

BODY OF MISSING SCHOOL TEACHER

Found Floating in the River Half Mile From Her Boarding House.

Parry Sound, Ont., Oct. 19.—The body of Violet Smith, the Dillon Park school teacher missing for ten days past, was found at noon today floating in the River Shebushakong, about half a mile from her boarding house. The remains were badly decomposed, but no external marks of violence have yet been detected.

AT 22 SHE WEIGHS 825 POUNDS

Gertrude Burk, of Chicago, largest woman in the world, weighing two and a half times as much as President Taft, is visiting at the home of Mrs. H. W. Hayes, in Alton, Ill. Miss Burk is 22 years old, weighs 825 pounds, stands 5 feet 7 inches, and some of her measurements are: Arm, 28 inches; waist, 54; bust, 75. She wears No. 4-1-2 shoes and No. 7 gloves.

When she was born Miss Burk weighed 15 pounds, and at 8 she weighed 250. At the Hayes home she sits on two chairs placed facing each other. She goes through doors by turning sideways, and it is a pretty hard squeeze at that. Efforts have been made by showmen to get Miss Burk to exhibit herself, but she has never been on the stage. Her parents left her an estate, and she does not need the money.

PICKLING ONIONS AND CUCUMBERS.

Constant Reader: (1) Onions, cucumbers, and cauliflowers can be left in brine from 1 to 6 days before pickling in vinegar, but if longer than one day they should be rinsed with water before putting into the vinegar. (2) Do not leave in an open building, but keep under cover. (3) Brine that will float an egg is strong enough for the purpose.

MISSIONARY CIRCLES ARE DISTURBED

Fears in London That Chinese Admiral May Bombard the Rebel Camps.

London, Oct. 19.—Fear that the Chinese admiral will bombard the rebel camps at Wu-Chang has disturbed missionary circles in London. Dr. Somerville, a member of the London mission at Wu-Chang, who is now here, points out that as Han-Yang and the native city of Hankow which are opposite the rebel camps, are also in the hands of the revolutionists, the imperial gunboats will be precluded from taking up a position in the river between two fires and so will be forced to throw their shells from the north. In this case the American Boone University and the American, Swedish, Wesleyan and London mission hospitals and schools will all be in a direct line of the firing.

Dr. Somerville says that a French agitator who is prominent in the present outbreak, carried on a revolutionary propaganda at the club connected with Boone University, several of whose students were executed because of their connection with him.

COTTON.

New York, Oct. 19.—Cotton futures closed steady. Closing bids: Oct. 90 1/2; Nov. 90 1/2; Dec. 91 1/2; Jan. 92 1/2; Feb. 93 1/2; March, 94 1/2; April, 95 1/2; May, 96 1/2; June, 97 1/2; July, 98 1/2; Aug. 99 1/2; Sept. 100 1/2. Spot closed dull. Middling uplands 93 1/2; do gulf 96 1/2. Sales 400 bales.

Liverpool—Cotton, spot, good business done. Prices 9 higher. American middling, fair, 56 1/2; good middling 54 1/2; middling 52 1/2; low middling 51 1/2; good ordinary 49 1/2; ordinary 46 1/2. The sales of the day were 8000 bales, of which 500 were for speculation and export, and included 7000 American. Receipts were 44,000 bales, including 33,900 American. Futures opened steady and closed quiet and steady.

KNOWS NOW

Doctor Was Fooled by His Own Case for a Time.

It's easy to understand how ordinary people get fooled by tea and coffee when doctors themselves, sometimes forget the facts.

A physician speaks of his own experience: "I had used tea and coffee for years and really did not exactly believe it was injuring me, although I had palpitation of the heart every day."

"Finally, one day, a severe and almost fatal attack of heart trouble frightened me and I gave up both tea and coffee, using Postum instead, and since that time I have had absolutely no heart palpitation except on one or two occasions when I tried coffee, which caused severe irritation and proved to me that I must let it alone."

"When we began using Postum it seemed weak—that was because we did not make it according to directions—but now we put a little bit of butter in the pot when boiling and allow the Postum to boil full 15 minutes which gives it the proper rich flavour and the deep brown color."

"I have advised a great many of my friends and patients to leave off tea and coffee and drink Postum, in fact I daily give this advice." Name given by Canadian Postum Co., Windsor, Ont.

Many thousands of physicians use Postum in place of tea and coffee in their own homes and prescribe it to patients. "There's a reason."

A remarkable little book, "The Road to Wellville," can be found in pkgs.

IF you can stand indifferent health in order to "enjoy" your coffee, no one should interfere.

But if you want to get well and stay well, a ten days' trial of

POSTUM

in place of coffee is a step in the right direction.

Correspondence

To the Editor of The Chronicle.

Sir—A letter published in the Ottawa Journal in defence of the City of Quebec, and quoted in a Quebec evening paper of the 18th instant, contains the following statement: "There is no fifth about Quebec for which the population of that city can be held responsible."

I regret exceedingly that the strongest exception must be taken to this statement; for the population of Quebec is directly responsible for the filthy condition of her sidewalks, due to promiscuous expectoration. There are times, especially after a prolonged spell of dry weather, when it is nothing short of nauseating to walk over our pavements; and the ill-effect upon the public health is beyond all computation. Only the other day reference was made by the Provincial Board of Health to the fact that the dreaded plague, tuberculosis, is on the increase in this Province only; and expectoration was pointed to as one of the most fruitful mediums of infection.

There are cities in Canada wherein one can walk an entire block without seeing any such cause of offence; and my pride in Quebec is such that I would give much to see her qualified to stand beside these others in the matter of civic cleanliness. There is but one way to attain this—by the adoption and enforcement of an anti-spitting bye-law. When the cities I have in mind adopted such a bye-law they posted warnings at the intersections of all the principal business streets, making especial mention of the maximum penalty for infringement. A vigorous campaign was at once instituted, and the minimum fine (without costs) was inflicted in all cases of detected offence. The effect was most satisfactory; in a very few months an infinitely higher standard of cleanliness prevailed. And there has been no difficulty in maintaining it.

Is there any reason why this should not be done here? But if such a plan is adopted the bye-law must not be allowed to look after itself—as apparently was the case with the recently passed vaccination bye-law. The adoption of a law without its energetic enforcement is almost worse in its effect than no legislation at all.

This suggestion is offered in no spirit of unfriendly criticism—for my interests are in Quebec, and I have only her best interests at heart. But the fact that we have so many causes for pride in our city should not blind us to the necessity for the removal of one outstanding cause for shame.

QUEBECER.

CANADIAN LADY GOLFER IN FINALS

Philadelphia, Oct. 19.—Miss Dorothy Campbell of the Hamilton Golf Club, Ontario, defeated Mrs. Roland H. Barlow of Merion, the eastern champion, 3 up and 1 to play today in the semi-final round of the Berthel Cup gold tournament on the links of the Huntington Valley Country Club at Noble. She will meet Mrs. Caleb Fox of the home club in the final match tomorrow. The latter won today's match from Mrs. C. H. Vanderbeck of the Philadelphia Cricket Club, 2 up and 1 to play.

Both matches were played in the rain and were closely contested up to the 17th hole.

FAST PASSAGE.

City Island, N.Y., Oct. 19.—Schr. Lawson (British), from Port Greville, N.S., and schr. Jost (British), from Spencer's Island, N.Y., made the quick passage of 70 hours to City Island.

The Why and Wherefore of Advertising

If you are satisfied to plod along in a small way, trusting to interest the curious passer-by—or those who are hurriedly looking for something in their most convenient locality, willing to put up with a small variety of goods for the sake of expediency—your business *may* exist without the aid of the newspaper.

If you could find a location where two-thirds of the population of this town would pass once or twice a week, you *might*, with the aid of well-dressed windows, *almost* dispense with newspaper advertising so far as *local* trade is concerned.

But, since to find such a location is almost an impossibility in a city of any size, and since the purchasing public is so accustomed to take the time to read well-written and well-displayed ads. in the daily news-sheet, with eyes wide open for suggestions, the newspaper is absolutely essential to any *successful* business.

Newspaper advertising is now almost universally recognised to be the best possible means of reminding the public that you are in business—what kind of business—and where located.

Moreover, it behoves the advertiser to command, not only the attention, but the *respect* of the public by means of well-written ads., appealing to the purchasing instincts of prospective customers.

At the Chronicle you will find every possible convenience and encouragement. The Chronicle "Ad. Man" is a good man to know—take him into your confidence—he can, and *will* help you.

NO LATE NEWS FROM HANKOW

It Is Hoped That the Women
and Children Have Been
Safely Removed.

Peking, Oct. 19.—The foreign legations in Peking have received no despatches from Hankow since six o'clock last evening. The last message from the American Consul-General, Roger S. Greene, stated only that the fighting had begun. It is believed, however, that the concessions in Hankow are safe, and that the ten or twelve foreign cruisers and gunboats in the harbor are ample protection, even from the joint Chinese army and navy.

But it will be impossible to prevent stray shells from threatening the foreigners, conflagrations and looting by the rabble. It would be difficult to cordon the concessions, because they are not surrounded by a wall. Only narrow streets cut them off from the densely packed Chinese city.

It is hoped that all the women and children have already been safely removed from Hankow, as it is feared that the defeat of the revolutionaries might be followed by excesses on the part of the mob, careful inquiries indicating that the people have more fear of the revolutionaries than sympathy for them.

The German legation at Peking made denial to-day of the report that German troops had been engaged in the fighting in the streets of Hankow. The board of communication early last evening received two despatches. One mentioned Siakou, in Hu-Peh province, as having been captured by the rebels; the other was interrupted while being transmitted.

A report has reached here that Imperialist troops have refused to detain at Hankow. Other reports state that the Chinese gunboats took little part in yesterday's fighting. Their inactivity is explained by the fact that a direct fire would have endangered their own troops, while a flank fire would have involved a bombardment over the foreign concessions.

Signs of discontent at Hankow are subsiding after yesterday's fight. The rebels who retreated owing to the shortage of ammunition and the arrival of Government reinforcements, retired in a southerly direction. Some of them re-entered the native city of Hankow, while others made their way towards Wu-Chang. The loyal troops were not sufficiently strong to press home any advantage they had gained.

The American attaches, Lt.-Col. W. D. Beach and Capt. J. H. Reeves, returned to Peking last night because they were not permitted to accompany the troops to Hankow. They say that the orderliness and precision with which the troop trains are being sent southward is admirable. The food supply seemed to be abundant and the troops were in good spirits. The rapidity with which 20,000 men have been despatched to the south has surprised the military attaches. The Chinese army, they declare, seems to have learned the lessons of modern tactics well, but the fighting spirit is evidently still lacking in the race. The fact that the rebels did not advance along the railway prior to the arrival of the Imperial troops, may not have been owing to lack of initiative but to the possibility that the revolutionaries would prove disloyal to the new republic which the leaders are bent upon creating. It is thought that both armies are in danger of wholesale disaffection. No concrete idea, either imperial or republican, holds the minds of the troops, while general discontent with bad government affects both.

There are conflicting reports regarding the first division, which is entirely Manchu. It has been stated that this division left Hankow, but reliable reports say that the Manchu regiments have all been retained in the immediate vicinity of the forbidden city.

Reports that the infant Emperor has been taken to Tien-Tsin and secretly placed in the foreign concessions are groundless.

The Japanese cruisers and gunboats in the Yang-Tse-Kiang are establishing a wireless service from Hankow. Japanese torpedo boats, which have arrived at Tien-Tsin may connect with Tokyo, as well as with Hankow, by wireless communication.

The American legation has asked the Chinese government to insure the safe transportation of Americans from the Peking-Hankow railway zone, should disorders develop. Much alarm has been displayed all along the railway line, owing to the wildest rumors, while no news has been made public to reassure the people.

Lt.-Col. Beach, in speaking to-day of conditions in Hu-Peh, says that there is a good crossing on the Yang-Tse, five miles north of Wu-Chang, and it should not be difficult for the imperial troops to cross the river under the protection of the gunboats. He was informed at Hankow that the rebels have probably 12,000 soldiers.

Captain Reeves gave it as his opinion that the imperials have made a great mistake in taking the field, instead of the mountain guns, as the lack of roads makes mule-carried cannon preferable.

An edict issued to-day gives Yuan Shi Kai as viceroy of the disaffected provinces, authority over the war minister, Yin Tehang, who is now serving as a general in the field.

A strict censorship was established to-day on all the trans-provincial messages regarding military movements and also on all code messages, except consular and legation despatches. Even the legations are deprived of news by the interruption of the wires, and there is anxious suspense, as the last messages re-

ceived described the continuance of desultory firing, with rebel reinforcements crossing the river. The censorship is being criticized here. The legations fear that the lack of news from China will give rise to most serious rumors and speculations in Europe and America. The Government has considered also the censoring of telegrams going abroad, but has not yet decided to institute such a restriction.

According to a consular despatch, the rebels, after crossing from Hankow on the night of October 17, evidently marched all night long in a northeasterly direction around the foreign concessions and attacked the imperialists shortly after daybreak at their camp near the railway. The station at which the encounter took place was not that behind the concessions, but seven or eight miles to the eastward, on the Yang-Tse. The other station, which has frequently changed hands and at which the disarming and slaughter of three imperial soldiers took place, is evidently the main station, immediately behind the concessions.

Despatches from Shanghai, asking Peking for news, say that the telegraph wires from Hankow to Shanghai are also cut. Several gunboats carry wireless systems, which should be working between Hankow and Shanghai.

It is expected that imperial troop trains are arriving frequently behind Hankow. The foreign railway management of the Hankow-Peking line, claim that they succeeded in withdrawing all but a single locomotive before the rebels crossed from Wu-Chang and Han-Yang to Hankow.

Officials of the Chinese foreign board reiterate that the recapture of Wu-Chang is only a matter of days. The attitude of the Chinese here towards foreigners cannot be criticized and not the slightest danger is anticipated.

The province of Sze-Chuen continues to be isolated. There has been no news from that quarter in several days.

MET DEATH EARNING MONEY TO BE MARRIED.

Montreal, Oct. 19.—While working overtime in order to earn more money, as he was to be married in a few weeks, Robert Wills, an employee of the Canadian Rubber Company, was electrocuted this morning, while installing new wires. Wills, who was employed in the electrical department, worked all day yesterday, but hearing that work was to be continued through the night, asked to be allowed to work overtime, saying he was about to be married. His foreman, Robert Tees, gave him this permission, and he and another electrician, J. Bastian, went upstairs to connect some wires. This morning early Wills inadvertently touched a live wire and was killed.

RETIREMENT OF

MR. W. B. BULLING

Montreal, Oct. 19.—At a meeting held today of the Canadian Freight Association the following resolution was passed:

"This association learns with regret that Mr. W. B. Bulling, owing to ill health, has been obliged to retire temporarily from active duty. Its members desire to place on record an appreciation of his services. His long years of experience, his accuracy and strength of memory, and the thoroughness of his work, inspired respect and confidence, while his unfailing patience, integrity and courtesy caused him to be held in high esteem and friendly affection by all."

"It is the hope of this association that a complete rest may restore his health and enable him to once again become an active member."

Mr. W. B. Bulling is assistant freight traffic manager of the Canadian Pacific Railway and is exceedingly well known throughout the railway world. His many friends will regret to hear of his serious illness.

DEATH OF

METHODIST MISSIONARY

New York, Oct. 19.—News of the death at Pauri, North India, on Oct. 16 of the Rev. James M. Messmore, an aged Methodist missionary, was received by the Board of Missions of the Methodist Episcopal Church here today. A few months ago Dr. and Mrs. Messmore completed 50 years of mission work in India and the missionaries and native Christians joined in presenting them a testimonial. Dr. Messmore's retirement had been authorized to take effect a few weeks hence.

Dr. Messmore, who first sailed from America for India in 1860, had not been here on furlough since 1881. He was born in Canada and studied at the Garrett Biblical Institute at Evanston, Ill., before going to the mission field.

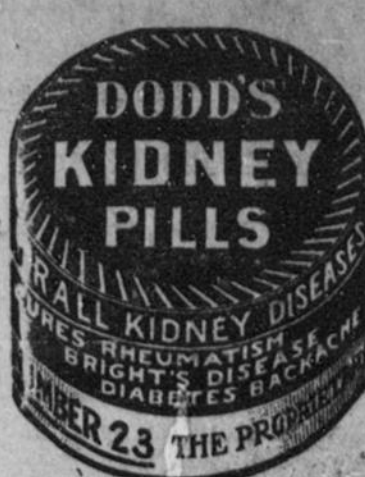

VALORIZATION PLAN FOR SOUTHERN COTTON

New Orleans, La., Oct. 19.—That the southern states issue bonds for the valorization of cotton in the same manner as the Brazilian government has done with the coffee crop of that country, is a suggestion which Theodore H. Price, the New York cotton operator, will make to the conference of cotton states governors which will meet here October 30 to discuss plans to check the downward price of the staple.

Mr. Price, in a letter to the governors, points out that the Brazilian committee, by the valorization plan, had advanced the price of coffee in two years several cents a pound, and that the country, which was rapidly becoming impoverished, is now more prosperous than ever before in its history.

NOBEL MEDICINE PRIZE.

Stockholm, Oct. 19.—The Nobel prize in medicine has been awarded to Professor Alvar Gustafsson, of the Faculty of Medicine of Upsala University, Upsala, Sweden, for research work in dioptries in connection with his study of the eye.

**TURKISH CHAMBER
FULLY CONFIDENT**

That Government Will Safeguard the Integrity of the Empire.

Constantinople, Oct. 19.—The Chamber of Deputies, today, by a vote of 125 to 60, adopted a motion to the effect that it had confidence in the Government to safeguard effectively the sovereign rights of the Sultan in Tripoli and the integrity of the Empire. The Chamber also expressed confidence in the Cabinet.

The Grand Vizier outlined the policy of the Cabinet with regard to Tripoli, and said that it was the Government's intention to continue to offer passive resistance to Italy, while persisting in its diplomatic efforts to secure an equitable settlement. He added that the replies received from the Powers with reference to mediation were more favorable than generally understood.

Vienna, Oct. 19.—Italy is reported to be hastening the completion of three Dreadnoughts and has ordered 4,000 tons of armored plate from an American concern, because the Italian works are unable to furnish it speedily enough. It is expected that the ships will be ready for service by the end of 1912.

Tripoli, Oct. 19.—The town of Derna was bombarded October 18 by the Italian squadron. The forts were destroyed before the Turkish flag was hauled down. A heavy sea was running, which prevented the landing of forces, but it is expected that the troops were able to land at both Benghazi and Derna today.

Tweeds are the latest novelty for the autumn season. Our assortment is most complete. Give your order now, so that you will have best choice.

SHORT HAIR MADE DISTINGUISHING MARK

San Francisco, Cal., Oct. 19.—Short hair has been made the distinguishing mark of the Chinese revolutionists, according to a message from Hankow, received today by the Shung Sao Yat Po, which says the revolutionary government has given the male inhabitants of Hankow and Wu-Chang until October 22 to cut off their queues.

"This means that those refusing to lose their queues will lose their heads," says Neg Poon Chew, editor of the paper, and one of the local leaders of the Young China movement.

Another special dispatch from Shanghai records a rumor that three imperial warships have surrendered and raised the flag of the republic. It is also said that the rebels have captured Wang Chow, province of Hu-Peh, occupied the forts and telegraph offices there and are advancing toward Sheung Yang.

Other messages say the American consul at Nanking has asked the American legation at Peking for warship protection, expecting serious trouble there. Daily papers have been established by the rebels in Wu-Chang. On Fang Shi, commissioner of native opium taxation, attacked by rebels in the province of Sze-Chuen, has survived his wounds.

Specialist Did Skin Trouble No Good

Very Itchy and Disfiguring. Got a Little Cuticura Soap and Ointment and Was Cured.

"For two summers I suffered with skin trouble on my arms, and on my legs from my knees down. My arms were badly disfigured, and I kept them covered. It came like the hives, and was very itchy. I consulted a specialist, who gave me medicine, as well as an ointment, but seemed to do no good. It was beginning to appear on my face. I got a little Cuticura Ointment and some Cuticura Soap. The first touch of Ointment seemed to relieve, and before the Cuticura Ointment was finished I was cured. I have not the least sign of trouble. I think it would have spread over my whole body if Cuticura Soap and Ointment had not cured me. I am delighted with them, and do feel pleased to think I have something I have confidence in. I tell all my friends about them, and I think Cuticura Ointment is the best I ever saw." (Signed) M. J. Beddy, 73 McCaul St., Toronto, Dec. 22, 1910.

Cold-Sore Began to Heal With First Use of Cuticura Ointment.

"Cuticura Ointment cured a very bad cold-sore that gave me hours of severe pain and loss of sleep. I tried lots of other remedies but nothing did me any good till I tried Cuticura Ointment, and from the very first application it began to heal and now there is not even a scar left." (Signed) Mrs. W. Boyce, Mermaid Farm, P.E.I., Jan. 8, '11. For more than a generation Cuticura Soap and Cuticura Ointment have afforded the speediest, safest and most economical treatment for skin and scalp troubles, of young and old. Although they are sold by druggists and dealers everywhere, a liberal sample of each may be obtained free, from the Potter Drug & Chem. Corp., sole props., 37 Columbus Ave., Boston, U. S. A.
