World News In Brief

Pawtucket, R.I., May 10.—(P)—A man's right to a hearty laugh, even though police contend there is nothing to be merry about, strikes a responsive chord with Lawyer Eugene T. La Chapelle. La Chapelle said he would file a motion in district court to reopen the case of Samuel Hyder who was assessed \$4.60 yesterday on a charge of "revelling."

Police Chief Leonard Mills said "I have warned Hyder repeatedly against creating a disturbance by laughing loud when there's nothing to laugh about. So I ordered a patrolman to lock this guy up."

La Chapelle said he knew of "no law in this city which prohibits a man from laughing on a public thoroughfare."

Shanghai, May 10.—(P)—Rice shop owners demanded permission today "to shoot to kill" if mobs storm their stores, but Mayor K. C. Wu refused.

Wu told Chairman Chu Ching-Hwa of the Shanghai Rice Dealers' Guild the police would provide greater protection if the Guild reopened shops, now closed and barricaded against attack by rice-hungry Chinese.

The demonstrations are aimed mainly at frozen wages and high living costs.

Employees of the Chinese Government Radio Administration struck for higher wages, halting communications except for government and press messages.

Soviets Spearhead Drive Destined To Provide Complete Independence For Palestine, Probably Within Half Year

\$400,000,000 Of U.S. Aid To Turks, Greeks

House of Representatives Passes Bill Providing American Assistance in Fight Against Communism.

Washington, May 10.—(P)—The House of Representatives passed the bill to give Greece and Turkey \$400,000,000 worth of American aid against Communism last night after defeating overwhelmingly all moves to limit it.

The measure, already passed by the Senate, now goes to a conference committee for a adjustment of differences. These are minor, and leaders expect speedy agreement next week, but even so the bill will reach President Truman a month and a half after the deadline his administration was reported originally to have set.

With official reports that the plight of Greece particularly is growing more acute daily as dollar credits are used up and British aid tapers off, the State Department already has made plans to start the American assistance flowing as soon as President Truman signs the bill.

The House also crushed all attempts to bar the use of military aid in the program of helping the two Mediterranean countries resist Communism.

Arab States and Possibly India to Back Soviet Plan Which Is Meeting Strong Opposition from United States.

By JOHN A. PARRIS, Jr.
Lake Success N.Y., May 10.—(P)—Russia spearheaded a drive in the United Nations today aimed at giving Palestine full independence possibly within six months.

Continuing debate on the Holy Land issue, the 55-member Political Committee was faced with a Soviet demand that a proposed United Nations inquiry commission submit a plan for "establishing without delay the independent state of Palestine."

Should the Russian proposal be included in the inquiry group's terms of reference, the Commission would specifically be instructed to submit a plan to the regular session of the Assembly for action in September.

If the Assembly then approved the plan Palestine would be declared an independent state, provided that Great Britain, which holds the Holy Land under a League of Nations mandate, accepted the decision.

Most delegates agreed that it would probably be a long, hard road before Palestine is actually declared an independent state.

The Soviet proposal appeared due to draw the fire of the United States and Britain. They want merely to give the inquiry commission broad instructions and evade specific terms.

But the Arab states and possibly India were ready to back the Soviet proposal.

Andreï A. Gromyko, Russia's chief U.N. delegate, tossed the issue to the political committee yesterday in the midst of preliminary discussions of instructions for the investigating body.

The Soviet Deputy Foreign Minister also insisted that the group conduct an on-the-spot inquiry in Palestine.

Later, the Arab Higher Committee called on the United Nations for an independent state of Palestine immediately.

Appearing before the Committee to state the Arab higher Committee's views, Henry Katana, Palestine lawyer, declared that continuation of the British mandate threatens peace in Palestine and the security of the Middle East.

The Jewish Agency countered with a demand for free immigration that would build up a Jewish home in the Holy Land first.

The clash between the Arab Higher Committee and the Jewish Agency pivoted around the question of immigration, with the Arabs insisting that all entry into Palestine be halted immediately and the Jews seeking relaxation of British limitations on entry.

Killer Dies On His 2nd Trip To Chair

Willie Francis, Whose Life Was Spared Year Ago When Chair Failed to Work, Pays With Life for Murder.

St. Martinville, La., May 10.—(P)—Willie Francis made his second trip to the electric chair yesterday, wearing his Sunday pants and his "Sunday heart."

The same chair which spared his life through a mechanical failure a year ago, took it this time, quickly and apparently painlessly.

Electrocutioner Grady Jarrett threw the switch at 12:05 p.m. and again at 12:06. At 12:10 the Negro was pronounced dead.

Willie Francis told me two days ago that he was going to "wear my Sunday pants and my Sunday heart" to the chair.

"Ain't going to wear no beat-up pants to see the Lord," he said. "Been busy talking my way into heaven for the past year. Them folks expecting me to come in style."

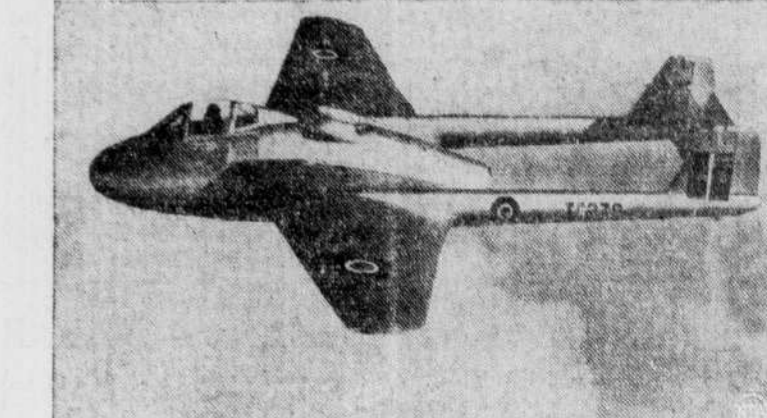

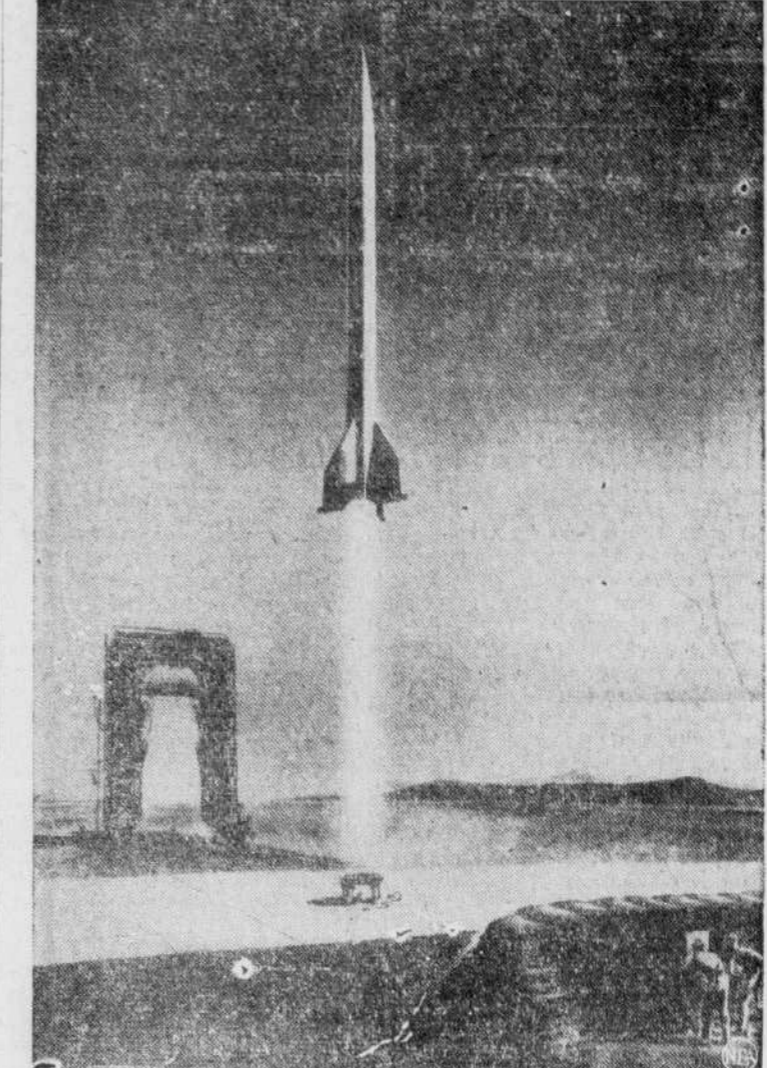

Willie paid the legal penalty for the killing of Andrew Thomas, a white druggist of St. Martinville, in a holdup that netted \$4 and a watch.

Francis went to the chair after a year's argument over the right of Louisiana to attempt an execution a second time after a mechanical accident had prevented the first try. The fight went all the way to the United States Supreme Court where the high justices divided five to four last January in ruling against Francis.

Only yesterday the Supreme Court had turned down another plea, which Willie's lawyer had taken to Washington without the knowledge of the sentenced man. The Louisiana Supreme Court and the State Pardon Board each refused three times to prevent Willie's second trip to the chair.

Francis himself told his lawyer yesterday morning to make no last-minute attempt to stay the execution, saying he was ready to die.

Super-Weapons Made By U.S. And U.K.

Sketch at left shows new all-American rocket developed by the Navy, said to be capable of carrying much heavier loads than the German V-2 and more than doubling the 100-mile altitude achieved by the German missile. The rocket, unofficially dubbed "Neptune," will be tested in the near future, probably at White Sands, N.M., ordnance proving grounds.

Above, the Vampire II, British jet-propelled fighter plane, established a new jet-plane altitude record by soaring to 51,000 feet. The craft is powered with a Rolls-Royce "Nene" Britain's most powerful gas turbine engine, which recently passed Army and Navy tests in the United States.

15 Children Succumb To Rare Disease

"Some Sort of Influenza" Said Responsible for Deaths in Montreal District Institution.

Montreal, May 10.—(P)—Fifteen children, stricken by "some sort of influenza" died at a Montreal district institution during a recent three-week period, Dr. Arthur Chabot, district medical health officer for the provincial government, disclosed yesterday.

Thirty-two infants at the Gray Nunnery in suburban Notre Dame de Liesse were stricken, Dr. Chabot said. The last death occurred a little more than a week ago.

Dr. Chabot said none of the other 650 children, the majority of them illegitimate, at the institution was affected and that there has been no recurrence of the disease.

With the exception of one 18-month-old baby, all the children who died were one year old or younger, Dr. Chabot said.

"It came all of a sudden and we have no real explanation for it," the Health Department official said of the epidemic. "We established as far as we could following various tests that it must be some form of influenza."

Dr. Daniel Longpre, in charge of the infants' wards at the Nunnery, also said there was no good explanation for illnesses and said the epidemic appeared to be similar to one that claimed the lives of a number of children in Philadelphia recently.

New Officers Britain Seeks Ways To Hike Export Trade

U.K. Getting 44 P.C. of Her Imports from Western Hemisphere and Sending Only 14 P.C. of Her Exports Here.

Ottawa, May 10.—(P)—Britain is looking to ways to increase her exports to the Western Hemisphere, Sir Wilfrid Eady, second secretary of the British Treasury, said in a press conference yesterday in which he said talk of the United Kingdom carrying was "just plain nonsense."

The negotiator of Canada's post-war \$1,250,000,000 loan to the U.K. said his visit could be characterized as "an exchange of minds" with Canadian financial officials. He would leave for home Monday.

Sir Wilfrid said Britain fully expected to be able to convert current account Canadian holdings of sterling into United States dollars and said this subject was being discussed here along with potential increase of British exports.

The U.K. was getting 44 per cent of her imports from the Western Hemisphere and sending only 14 per cent of her exports here, he said. This was due to a distorted world economy and could not last.

"We are not living entirely on the American and Canadian loans," he said. "We have a considerable income from exports but we are trying to increase it."

Sir Wilfrid said he wanted to emphasize that Britons were not starving. Probably the biggest event there now was the end of an "astonishing" winter of floods, storms, a fuel crisis and other blows. A new spirit would show itself. Production was up in numerous lines beyond pre-war levels.

He said food parcels from Canada and elsewhere were "precious" because they brought variety to a drab menu. But the ration was one which gave the low-income brackets a better diet than they had between the wars.

Boycott To Be Carried On For Week

Women Plan Week-Long Buyers' Strike Against High Prices of Certain Commodities.

Vancouver, May 10.—(P)—Husbands were left to get their own dinner, while the "little woman" attended a mass meeting called by the local branch of the British Columbia Housewives Consumers Association.

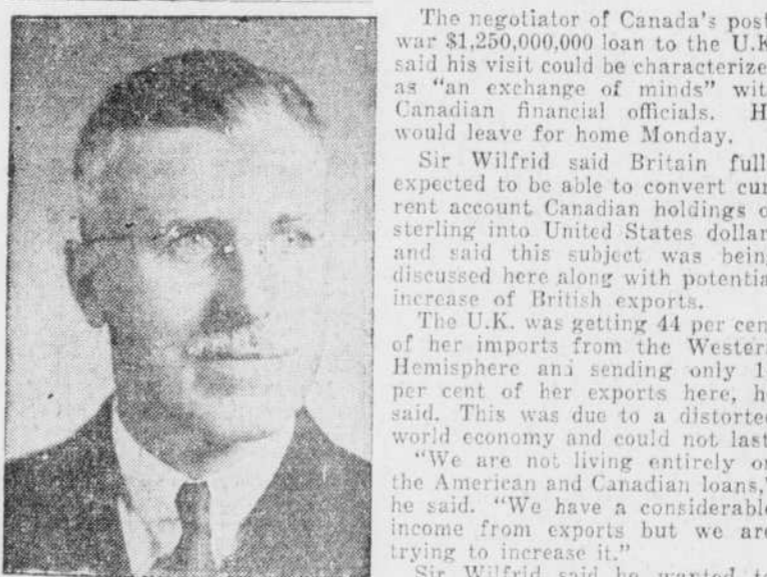

At the meeting final plans will be made for the week-long buyers' strike against the high price of certain commodities which is slated to get under way across the Dominion today.

Thomas Braidwood, president of the Vancouver Board of Trade, yesterday termed the proposed strike "an attempt by Communist-front organizations to gain leadership over many non-Communists."

"Sincere businessmen and labor leaders all are deeply concerned with the problem of the present inflation trend," Mr. Braidwood said. He advocated a balanced

Major John H. Molson, M.B.E., of Montreal, Named President and Col. A. A. Munster Named Vice-President of Corporation.

(Special to the Record)
Montreal, May 10.—Major John H. Molson, M.B.E., of Montreal, was named president of the Corporation of Bishop's University at a meeting of the Corporation held here yesterday. Col. Albert A. Munster, of Sherbrooke, was named vice-president.

Yesterday's meeting was held as a result of the recent adoption of legislation amending the University's charter.

The original charter of the University provided that the senior Anglican Bishop of the Province of Quebec, presently Archbishop Philip Carrington of Quebec, be president of the Corporation, and that the junior Bishop, Bishop John Dixon of Montreal, be vice-president. The charter changes which removed the veto power which the president and vice-president exercised over the decisions of the Corporation.

Both new executives have been active in the affairs of Bishop's University as Members of Corporation for several years.

Ayers Strike Discussed In Legislature

Labor Minister Declares Madeleine Parent and Kent Rowley Jailed to Protect Workers.

Quebec, May 10.—(P)—An appeal against the committee president's point of order yesterday featured proceedings in the Quebec Legislative Assembly as the subject of strikes came up while the House was in committee studying estimates for the Department of Labor.

Committee President Maurice Teller (UN—Montcalm) ruled, after a point of order had been raised by Premier Duplessis, that David Cote (Jad—Rouyn-Noranda) in attempting to bring up the matter of strikes after the question had been discussed by the House, was out of order.

Mr. Teller made his report to Speaker Alexandre Tache and in a vote, the appeal was defeated 45-24. Mr. Duplessis based his point of order on the fact that it was unparliamentary to discuss cases still pending before the courts.

Mr. Cote charged that every time he rose to speak he was called to order although other members of the House could discuss similar matters.

The Premier replied—and was upheld by the Speaker—that the matter had been discussed thoroughly by mutual consent and that there was no need to go into it further.

The affair came up when Joseph A. Francoeur (L—Montreal-Mercier) asked Labor Minister Antonio Barrette why he classified Madeleine Parent, organizer for the United Textile workers of America, and other leaders in the strike at the La-Chute, Que., plant of Ayers as Communists.

Mr. Barrette said it was "not because Madeleine Parent is known as a Communist that we have taken action against her—both she and Kent Rowley (Canadian director of the union) belong to Communist clubs—but to protect the workers."

"All she wants to do is create strikes, conflicts and disorder in order to further her own Communist ideal," said the Minister.

Hon. Johnny Bourque To Be Awarded D.C.L. By Bishop's

Col. the Hon. Johnny Bourque, Provincial Minister of Lands and Forests and of Hydraulic Resources, will receive an honorary degree from the University of Bishop's College on June 19th in recognition of his "valued friendship" to the university.

George H. Montgomery, K.C., D.C.L., LL.D., writing to Col. Bourque in his capacity as Chancellor of the University, said that "it will give us very great pleasure if at the forthcoming convocation of Bishop's University, to be held on June 19th, you will accept the degree of Doctor of Civil Law Honoris Causa."

Mr. Montgomery said that Col. Bourque's interest in the affairs of the University was "greatly appreciated."

"The many distinctions which you have gained in public, private and military life have given you a position where we feel that in honoring you with a degree the University would be honoring itself and I sincerely hope that it will be possible for you to be present at Convocation and accept the degree."

Col. Bourque, a veteran of two wars, has always shown a great interest in the welfare and progress of the Eastern Townships and has been a member of the Quebec Legislature since 1935. He is a former Minister of Public Works and since the return of the

Greek Guerrillas In Attack On Train

Athens, May 10.—(P)—Press dispatches said today an armed band of more than 100 attacked a passenger train between Tripolis and Kalamata, killed 11 persons and freed 28 Leftist detainees being taken to Kalamata for trial.

The newspapers Rizospastis and Embros said the attack took place at the village of Irasi, while the train was standing in the station.

Eight gendarmes, a railroad man, a woman and a child were said to have been killed during the attack, made with machine-guns and automatic rifles.

Official military reports said 50 guerrillas were slain during an attack by loyalist troops east of Elason on the slopes of Mt. Olympus and another press dispatch said a band of 100 attacked Verolia, killed six persons and setting 10 houses on fire.

Declares Canadian Business Prospers Despite High Tax

Ottawa, May 10.—(P)—Revenue Minister McCann said yesterday in the Commons that business, even under existing rates of tax, is generally doing better than before the war and, in some cases, better than during the war years.

Speaking during a sitting party devoted to the budget debate and partly to the passage of some of the Government's emergency control bills, Dr. McCann said the 1947-48 budget had contained "no immediate gifts" for business, although the excess profits tax would be removed at the year end.

"Business men may complain but they should try to remember that under existing taxes business has been going very well," he said.

"The corporation tax may be high and the excess profits tax high, but the fact remains that even after paying corporation taxes and providing for excess profits, most of our business enterprises have been showing substantial profits and doing far bet-

Report Wheat Seeding Far Behind 1946

Conditions in Maritimes and Quebec Particularly Backward—Pasture Growth Retarded.

Ottawa, May 10.—(P)—The Dominion Bureau of Statistics estimated in a summary of crop conditions across Canada that reports as of April 30 indicated the percentage of wheat seeding was six per cent in Manitoba, against six per cent a year ago, two per cent in Saskatchewan against 34 per cent last year and eight per cent in Alberta against 32 per cent.

"Moisture conditions, however, are reported to be generally favorable and it is anticipated that should satisfactory weather prevail seeding will be general well before the middle of this month," the Bureau reported.

The spring was late in all of Canada with the exception of British Columbia. Conditions in the Maritimes and Quebec are particularly backward with little or no field work completed and snow drifts still in evidence in many districts. Pasture growth had barely begun.

AT THE PREMIER

Alexis Smith and Humphrey Bogart would seem to be acting out the title of their latest starring film, "Conflict," in this dramatic scene from the Warner Bros. picture beginning tomorrow at the New Premier Theatre. Co-starred with them is Sydney Greenstreet.

SIMONEAU TO BE HEARD IN CONCERT HERE

Leopold Simoneau, brilliant lyric tenor, will be heard in a joint recital with his wife, Metropolitan

Opera star Pierrette Alarie, at the Granada Theatre on May 20. Born in Montreal, he inherited a natural musical talent from his father, who was a professional singer. However, at his mother's death, when he was but an infant, Leopold was sent to live with a married sister in Providence, R.I.,

where he remained until the age of 18. Music did not seem very important to him just then and he had decided that he would be a priest. Later, during his college years, his innate love of music asserted itself and he began to appear, as an amateur, in musical and theatrical productions. From there it was a short step to radio and once his professional work had begun, things moved swiftly. He won the Montreal symphony soloist contest over 30 competitors, also made an operatic debut with the Variete Lyrique of Montreal, singing the leading tenor part in "Mignon." He was engaged for the American premier of Berlioz' "Te Deum" with Emile Cooper conducting, and he has been heard in concert, on radio and in opera performances from Canada to the Gulf of Mexico. He recently sang Mozart's "Abduction from Seraglio" with the New Orleans Opera Company. This young French tenor is getting ahead rapidly and his recital here should be well received.

IN HOLLYWOOD by Erskine Johnson NKA Staff Correspondent

YOU'LL LAUGH AT THIS SOB STORY

Hollywood, May 11.—Remember the girl who cried because she was afraid of dying during childbirth in "Miss Susie Single"? Remember the girl who shed buckets of tears in "Shepherd of the Hills" because her child was ailing? Remember the girl who cried because she was afraid of identifying the wrong suspect for Linda Darnell's murder in "Fallen Angel"? Remember the girl who cried over Maureen O'Hara's death in "Sentimental Journey"?

Dorothy Adams is her name. Dorothy is dimpled, happy-go-lucky and has a mischievous look, but Hollywood has typed her as "the human wailing wall." Whenever there's need for a good crying scene Dorothy gets the call.

She's sobbed her way through an even 100 movies in her 14-year film career. Right now she's shedding tears over the illegitimate birth of Rex Harrison in "The Foxes of Harrow."

How does she get in the mood as a weeping willow? Dorothy whispered her secret: "It might sound better," she said, "if I thought of sad music or the travails of the world. But the truth is I think of a howlingly funny story, laugh till I cry, then just control the amount and variety of weeps and wails when I go into a scene."

PREWAR VINTAGE

Claudette Colbert's prewar leading man, George Reeves, will get the romantic lead in "The Night Has a Thousand Eyes" at Paramount. He was with Claudette in "So Proudly We Hail" before going into the service. . . . Sue Carol Ladd, once opposed to ranch life, now would like Alan to sell their town house and permanently move to their San Fernando valley ranch.

The censors, prodded by the State Department, are discouraging all studios interested in a film biography of Al Capone. . . . Dancer Johnny Coy may get the role Gene Kelly created on the stage in the James Gagney film version of "The Time of Your Life."

So Orson Welles would like to do the life story of Caruso. The life story of Orson Welles starring Orson Welles would be a lot more exciting. . . . The comedy sketch used by Esther Williams to entertain troops during the war will be used in her new M-G-M film, "On An Island With You." The sketch was titled, "I Can't Do Anything But Swim."

ACCENTUATING NORMALCY

Paul Henreid's first independent movie, "The Heaven We Chase," will be filmed on location at Westerly, Rhode Island. Paul sent a location scout east to pick out a typical Connecticut village. The Rhode Island town was in final choice. During filming of "Arch of Triumph," Louis Calhern and Prince Mike Romanoff had to appear together in a closeup, which is now on the cutting room floor, by the way. Director Lewis Milestone winced on seeing the small Mike beside the six-foot-three Calhern. "Maybe," said Milestone to Mike, "we better get a box for you to stand on."

"Certainly not," snapped Romanoff. "Calhern's monstrosity merely accentuates my normalcy."

Mrs. Smallman's greetings and directions for the coming year were read by Mrs. Orr, assistant to Miss E. Walker. Mrs. Orr congratulated the members for their good reports and faithful work during the year.

COLLECTIVE BARGAINING IS DEFENDED

Dr. Eugene Forsey, one time lecturer at McGill University, and at present Research Director of the Canadian Congress of Labor, defended the General Council endorsement of collective bargaining at the meeting of the Quebec-Sherbrooke Presbytery held in Lennoxville.

Speaking in reply to an earlier address by William Gibson, of Ottawa, Dr. Forsey said, "Collective bargaining introduces constitutional government into industry. Without it you have only individual bargaining. In an industrial civilization, the employer, usually a very large corporation, on the one hand, and the individual worker on the other, are fantastically unequal in economic knowledge and strength. Collective bargaining equalizes the parties. Without it, industry is a dictatorship of the employer, even though that dictatorship be a benevolent one. And even a benevolent dictatorship is no substitute for self-government. The point is that the worker enjoys rights, not benefits, under collective bargaining, which abolishes dictatorship in industry."

In reply to a statement of Mr. Gibson that management is at a marked disadvantage because the union representative knows all about the employer's business, Dr. Forsey said that as research director he had found it impossible to secure any financial statements from many of the corporations operating in Canada since many of them were foreign-owned (in the United States) and many other firms were private companies.

In referring to the proposed incorporation of trade unions, Dr. Forsey pointed out that he was not a lawyer, but that lawyer friends of his had advised him that since "incorporation was originally devised as a means of limiting liability, the incorporation of trade unions might work to the detriment of employers."

He continued, "Most of the discussions about such subjects are illustrated from events taking place in the United States. Great Britain is the home of classic trade unionism. It is time that we had a little national self-respect in such matters."

In speaking about freedom in industry, Dr. Forsey said that one must always be careful to ask "Freedom for whom and for what? Whose freedom is taken away by collective bargaining?" he asked "An individual worker is not free when he is completely under the dominance of his employer. An illusory freedom is taken away as a real freedom substituted under the union shop clause." He closed by pointing out that trade union insistence on the "union shop" is an attempt to avoid a thirty year period of strikes and to bring about peace in industry.

The Rev. Milton Little, Chairman of the Evangelism and Social Service Committee, introduced the subject by informing the members that a questionnaire circulated among the ministers in the Eastern Townships had shown the need for an investigation of labor relations. He complimented many of the industries for excellent recreation facilities, but declared that to have as high a turnover as some of the returns indicated was not in the interests of management or labor or the community.

Harriet Tomkins reported the activities of the W.M.S. "All the departments reported an increase over last year, including the treasurer's which was 178 dollars more. The future can only be judged by the present. In this case the outlook for the future is very bright."

TORONTO BIBLE GROUP MEMBERS TO SPEAK HERE

Featured addresses will be given Sunday at Sherbrooke Baptist Church and St. Andrew's Presbyterian Church when prominent members of the Toronto Bible College will address these two groups.

Reverend D. A. Burns, superintendent of student activities, will be guest speaker at the Baptist Church morning service while Reverend J. B. Rhodes, principal of the T.B.C., will speak at the evening function of St. Andrew's Presbyterian. The latter will be a joint service.

Musical renditions by three members of the Bible College will also be given.

The college is completing its 53rd year. At graduation exercises held in the arena of the University of Toronto, on April 29, 55 students received diplomas. It trains young men and women from all communions in the knowledge and use of the English Bible, in methods of practical Christian service, and in other subjects usually taught in theological seminaries.

About 600 of its graduates have found their way into foreign missionary service, and about 500 have remained at home. Thousands have been trained as Sunday School workers, and as Christian laymen and laywomen who return to their churches to lead in all branches of the work of the Christian Church. The present student body numbers approximately 400.

High School

Continued from Page 3

schools of today are fine institutions, more efficient and with wider community value than the high schools of yesterday.

Mr. Roberts maintained that the high schools in general today are the same as they were fifty years ago. He said that programs were futile and that any changes made were superficial.

His plan called for a high school with a 14-16 hour day, seven days a week, 52 weeks a year, the whole organized as a miniature community, with institutions conducted by the students under the guidance and counsel of the teachers. Declaring high schools today static and unprogressive, he listed as objectives education for citizenship at national and local levels, help for developing aptitudes, education for family living, education for character and education for happiness.

The discussion which followed indicated that the meeting did not favor the progressive type of education as practiced in some American centres. Among suggestions was one that grants be used to train teachers rather than buy new equipment for schools. It was pointed out that the job of the high school is to train the brain, to present fundamental facts so that students may be able to reason and face facts.

It was the belief of Dr. J. D. Jefferis, head of the Department of Education at the University of Bishop's College, that children are not unhappy in schools today. Rev. E. C. Amaron, principal of St. Andrew's College, stressed that the key to the whole was the teacher.

Making his motion to send a delegation to meet with Col. Sauve, Dr. Crutchfield said that he had discussed the situation with the Minister and other officials and felt that the Protestant School Boards were getting a big opportunity in not pressing for co-operation and financial assistance from the new ministry in the matter.

The new ministry, Dr. Crutchfield said, had been given certain funds independently of the Department of Education to be used in helping arts and crafts training and technical and vocational training generally throughout the province.

"Many Catholic School Boards are getting valuable help from this new department," he said, "and I feel that the Protestant School Boards also should keep and make use of it."

He emphasized that he did not think that there was any reluctance on the part of the ministry to treat Protestant and Catholic School Boards alike but said that "We simply haven't gone and asked for it."

The ministry was a new and a very valuable one, he said, that was at the moment "not quite sure of its exact program and would welcome any suggestions from the Protestant School Boards."

The question of vaccination against smallpox in Canadian schools was brought by Dr. Lorne Phillips of St. Agathe. He pointed out that there was a scare in the United States over smallpox, that some cases had actually occurred there.

It was true, he said, that vaccination laws in the Province of Quebec protected the younger children against smallpox but pointed out also that the vaccination "was only good for about seven years" and that many of the older pupils and the teachers might be safe if the disease should appear here.

Around The Armouries

By The Sgt.-Major

With the new season comes a new spurt in activities, and in most units entertainment and special social functions have highlighted the past few weeks' activities. This week's column is more or less an "Around the Armouries with the Social Set," but it gives prospective recruits (who are still very much in demand) a few solid facts that were much enjoyed by the guests. Lieut. Jack Ganas led the singing, one of the most popular features of the evening. A buffet lunch was held and then dancing, followed by a few rousing selections by the Hobbs Quartet that literally brought down the house, especially when they revived the old army favorites of not so long ago.

Preparation for summer camp is one of the chief items of training in Eastern Townships units at the present time, with all ranks looking forward to their annual camping period with the usual enthusiasm. Outdoor training and special schemes will be pushed ahead for the next few weeks as C.O.s try to get their units in shape for the "Big Push" to camp.

In other outdoor activities, we call your attention to the Sports Page in today's Record for a summary and schedule of the Military Softball League which opens a week from today. Keep the schedule handy and try to attend as many of these games as you can to encourage the boys. They'll appreciate your support.

THE SERGEANT-MAJOR

12TH ARMORED REGIMENT Sgt. Cecil Shuffelt of the 12th Armored Regiment was the guest of honor at a farewell gathering last Friday evening in the Sergeants' Mess. This event was sponsored by his fellow sergeants. Sgt. Shuffelt has been a member of this unit for seven years; the past three years he has been Mess Caterer, a job which he did very well. Cecil was very popular with the boys and always had a smile of welcome for everyone. Sgt. Major Hatch, on behalf of the sergeants, presented Cecil with a bill-book containing a sum of money. He congratulated Cecil on a job well done and said that, although he will no longer be taking an active part in the activities of the unit, he would always be a welcome guest in the Mess. Sgt. Major John Gardner also said a few words in appreciation of the work done by Sgt. Shuffelt. Sgt. Shuffelt said that he will always remember his association with 12th; had always been proud to be a member and had got a lot of pleasure out of looking after the boys as far as messing is concerned. Cards, an Army Sing-Song and a buffet supper, served at midnight completed the night. The invited guests were Sgt. Major E. M. Anderson and Sgt. H. Wilson of the 35th; R.S.M. Digeon, C.S.M. Bereau and C.S.M. Deslauriers of the Sherbrooke Fusilier Regiment.

At the annual meeting of the officers Mess, Major Norman Welsh was elected president; Capt. Doug Ward, vice-president; Lt. Mitchell Armstrong, secretary; Lt. Ernest Howland, assistant secretary, and Capt. Harry Blain and Lt. Lorne Campbell, senior and junior members respectively. Following this the Annual Training meeting was held during which the C.O. remarked on the progress of training to date. The type of tank training that would be done at summer camp and the syllabus to be followed when training re-commences this fall, after the summer break. A report was also given of the Armored Corps Association conference held in Ottawa April 18 and 19, which was attended by Col. Blue and Major Welsh.

The Regimental Rifle team will travel to Montreal this week-end to shoot off with the winners of the Montreal area for the Province of Quebec Rifle Assoc. (militia) small bore championship.

All plans have been completed for the officers wireless exercise which will take place on Sunday, May 18. Six wireless vehicles will be used with Major Arnold handling the "Control" station.

Although the last Regimental Parade will be held on Tuesday, May 13, 1947, specialist training will continue on Tuesday and Thursday for wireless and driving and maintenance classes. The Regiment will commence parades again when a definite date for summer camp training have been announced.

35th L.A.A. Regiment The monthly meeting of officers which was to have taken place in the Cowansville Armory has been postponed to a later date.

The officers of the 35th and 38th L.A.A. Batteries held an informal get-together on Saturday, May 3. The host and hostess were Major and Mrs. H. S. Slatyer.

The Entertainment Committee made certain that this would be an enjoyable evening for everyone. Mr. Larry Pratt, pianist, provided music for dancing. He also played a few solos that were much enjoyed by the guests. Lieut. Jack Ganas led the singing, one of the most popular features of the evening. A buffet lunch was held and then dancing, followed by a few rousing selections by the Hobbs Quartet that literally brought down the house, especially when they revived the old army favorites of not so long ago.

Classes in motor transport and gunnery are being held in preparation for the coming summer scheme. Rehearsals will be held on June 3 and 5 when the members of the unit will get an idea of what will be expected of them when the actual scheme takes place, both on the road and at camp at Valcartier.

Recruits are still needed and are being enrolled at the armory on Tuesday and Thursday evenings. Lt. H. W. Scruton has recently joined the battery. He served with R.C.A.S.C. and First Special Service overseas during the war.

control bills which the Government wished to have passed before May 15, the deadline set for the ratification of such legislation.

The bills included one extending the powers of the Canadian Wheat Board until 1950 to allow it to fulfill 600,000,000-bushel, four-year wheat contract with the United Kingdom.

Trade Minister MacKinnon said he had no objection to a Senate amendment which would limit the powers of the Board to August 31, 1950. He said the wheat policy would be reviewed "long before" that time. The bill now awaits royal assent.

Given third reading was a bill that would continue the powers of the custodian of enemy property on matters which fall within the classification of trading with the enemy.

Also given third reading was a bill continuing wartime regulations covering the issuance and use of patents.

The budget debate was resumed shortly after the House opening which brought these announcements:

1. Veterans Minister Mackenzie announced that pensioned veterans taking training or continuing their education under the rehabilitation program in future will receive full training allowances and full pension. Up to now, their training allowance has been reduced in proportion to the pension.

2. Reconstruction Minister Howe announced that veterans have been granted "full priority" on materials for home-building with the elimination of a requirement that their houses be 50-per-cent completed before they could apply for priority.

3. Mr. Howe also announced that the government has been advised by oil companies that the fuel oil supply for domestic heating in the next heating season would be "definitely limited" and that additional supplies could be imported or produced to meet increased demands.

4. Prime Minister Mackenzie King said he did not know yet just what day President Truman would visit Ottawa "and until that is settled I am not in a position to give any details."

In the Senate, the Wheat Board Bill which went through the Commons before adjournment was disposed of by the Senators. In the Upper House, however, some Senators, mainly Senator J. W. deB. Farris (L-British Columbia) and Senator Arthur Roebuck (L-Ontario) contended that the measure constituted an action by the Dominion which, if repeated often enough, could steal from the provinces most, if not all, their jurisdiction over property and civil rights.

2 SENTENCED ON CHARGE OF BREAKING-IN

Roland Demers and Aurelien Tremblay, of Asbestos, accused separately of three attempts to commit theft by breaking in, pleaded guilty yesterday in Court of Sessions and were condemned by Judge Joseph Marier to serve two years and one year in prison, respectively.

The charges against them involved three thefts in Asbestos. These were at a store belonging to Mrs. Aster Bergeron, a jewelry store belonging to J. Emile Cote and the Cooperative de Consommation, of Asbestos. The thefts occurred on the night of April 7-8.

On April 24, Demers and Tremblay were freed after being condemned to serve time in jail. They were arrested in Asbestos on April 16 on a charge of vagrancy, to which Tremblay pleaded guilty. At that time Demers pleaded not guilty, declaring later that he erred, believing that he was charged with theft on the night of April 5-6.

FINE RECITAL WAS GIVEN BY LOCAL SINGERS

The annual recital of the local choir known as "Les Francs Chanteurs" took place Thursday evening before a large and appreciative audience, in the Church Hall of Christ-Roi parish and was presided over by Monsignor Leonidas Adam.

The group of mixed voices numbering about fifty, which was founded in 1944 by Prof. J. C. P. Boutin, its present director, showed careful training, good balance and noteworthy interpretation of the various selections on their program.

Miss Lorette Codere was accompanist for the oratorio numbers as well as the Strauss and miscellaneous other selections, while Paul-Marcel Robidou accompanied his own numerous and excellent arrangements of folk lore and popular melodies.

All soloists, as well as those singing duets, were recalled and responded by repeating a verse of their selection. At the close of the program the choir favored the audience with two encore numbers "Cecilia" and "Celle que mon coeur aime" arranged by P. M. Robidou.

Mrs. Rita Boutin, one of the soloists, and wife of the director, was presented with a beautiful bouquet of flowers, on behalf of the choir.

Ayers Strike Continued from Page 1.

Despite this, Mr. Barrette said, 90 per cent of the Ayers employees had returned to work. The labor situation in Quebec at the moment is very quiet, more so than elsewhere, but "all the labor trouble we have had in the last few years has been caused by the same small group."

Reine Chalouit (Ind.—Quebec County) said he realized the "difficulty in which the government finds itself—on the one hand workers are being exploited, especially in the textile industry, but on the other hand Communists take advantage of the situation to further their ends."

"The government's role is to protect the worker from exploitation and at the same time to fight Communism."

St. Georges de Beauve

Mr. and Mrs. S. K. Poyer very pleasantly entertained members of the Get-Together Club at their home. The evening was spent playing cards and games, after which Mrs. Poyer served delicious refreshments, assisted by her daughter, Charlotte. Mrs. W. Cathcart invited the Club to meet at her home for the June meeting.

Word has been received of the arrival of Mr. Thomas Comrie, in Scotland, where he is enjoying a two months' holiday. Mr. Comrie came to St. Georges eight years ago to accept a position as manager of the St. Georges Wollen Mills, and this is his first trip home to Scotland.

Mrs. H. Wintle and Mr. and Mrs. David Wintle and Mrs. Sydney Wintle, of Cumberland Mills, motored to Scottstown, to attend the fiftieth wedding anniversary of Mr. and Mrs. Pope.

Mrs. H. Wintle went to Levis to meet her daughter, Mrs. Jackson, and little daughter, Lorna, who have spent the past few months in Victoria. B. C. Mrs. Jackson will spend an indefinite time at her parental home owing to Mr. Jackson's transfer to Halifax, N. S., with the Canadian Navy.

MR. DONALD MORRISON, OF TIMMINS, ONT., FORMERLY OF DELL

Scotstown, May 10.—The death occurred on March 9, in Timmins, Ont., of Mr. Donald Morrison, formerly of Dell. He was born in Dell, in December 1885, and was the son of the late Alex S. Morrison, and his wife, the late Isabella Murray.

Mr. Morrison's illness was of short duration, and the news of his sudden passing came as a shock to his many friends in Timmins, as well as a host of friends, and relatives in Dell, Scotstown and Gould.

In 1926, he was united in marriage to Christie MacDonald, daughter of the late Murdo MacDonald, and his wife, the late Mary Jane MacLeod, and the following year Mr. and Mrs. Morrison moved from Dell to Timmins, Ont., where they resided until his death.

His remains were brought to Scotstown, by his wife, and brother-in-law, Mr. John C. Mr. Morrison was a member of Mackay Presbyterian Church, in Timmins, Ont., and had acted on the Board of Managers since the founding of the church. He was also a member of Gould Masonic Lodge, No. 79.

His remains were borne to their last resting place by friends of the Masonic Order: Messrs. David Hillis, Clarence MacAskill, Murdo Matheson, R. L. MacIver,

Daniel MacIver, and John Buchanan.

The profusion of beautiful flowers, which accompanied the remains, testified to the esteem in which the deceased was held.

He is survived by his wife, two brothers, Mr. Allen Morrison, of Barre, Vt.; and Mr. Norman Morrison, of Graniteville, Vt.; a sister, Annie, Mrs. Angus MacIver, of Claremont, N. H.; who was unable to attend the funeral, owing to illness; sisters-in-law, Mrs. Allen Morrison and Miss E. E. MacDonald, of Gould; and Mrs. Fred Mills, of Truro, N. Married Life

Husbands, Wives Must Continue Romance Through The Years

After putting the hero and heroine through three volumes of agony, the old-fashioned novel used to end: "And so they were married and lived happily ever afterward." Very often the plot of a love story does end that way, but only too often if the novelist were realistic, he would write something like this:

"And so they were married and they settled down into the jargon of domestic life. The wife didn't think it was worth-while to dress herself up and look pretty for a mere husband; so she became sloppy at home and dropped all the little coquettish tricks that had made her so alluring. The husband was good, kind and devoted to his wife, but he said it with half-stares instead of poetry, and she pined for flattery and kisses that didn't come out of cold storage.

"Then the babies came, and the wife changed from a sweetheart into a mother. She became so absorbed in Junior, that she forgot she had a husband who had a lien on her affections and attentions. He became only the man who paid the bills and on whom she did not bother to waste any further cajoleries, for they were monopolized by the kids.

"The husband got so busy trying to meet the demands of the little goldfishers and their mother for toys, expensive cars, clubs and things, that the woman on the dollar became more important to him than the woman at home. So they just gradually drifted apart until they became strangers who didn't speak each other's language any more.

"Then, all of a sudden—as it seemed to them—their children were grown-up, married and gone, and they were just two lonely old people who bored each other almost to extinction."

That is the way many a beautiful young romance ends 25 or 30 years later, and nothing more tragic can be woven out of the wool and warp of human blunders. For, after all, a middle-aged couple have many years to travel together and it is so pitiful when they cannot do it hand in hand.

The situation is hard on them both, but the man has consolation in his work. The woman, however, who has been ALL mother has nothing when her children have left the home nest. She has never cultivated outside people, so she has no friends. She doesn't feel it worth-while to get up good meals for her husband. She has no hobbies. She doesn't even know how to kill time agreeably. Therefore, she becomes one of the forlorn women who haunt doctors' offices, or one of the pests who break up their children's homes by trying to run them.

Perhaps, in the backs of their heads, most of these lonely wives have always cherished the theory that, when their children were settled in life, they would go back and have a second honeymoon. They would fascinate their husbands over again and they would be lovers once more. But life doesn't repeat itself.

The opportunity that slips through our fingers is lost forever. We can keep the fire on the hearthstone burning as long as we replenish the fuel, but we can't blow dead ashes into flames again. Husbands and wives can stay in love with each other just as long as they are first with each other, just as long as they make their marriage beautiful to each other, but no longer.

We pass this way but once. The Record will be pleased to receive any letters to this Dorothy Dix column. These will be forwarded to Miss Dix who will answer them as quickly as possible.

Seasonal Foods Cut Your Costs

By GAYNOR MADDOX The best way to cut food costs is to use as much as possible of the seasonal foods that are in abundance, and therefore cheaper. From now until the end of May at least, potatoes from the 1946 bumper crop will be good buys. So will spring eggs. Also walnuts. There are lots on the market and they are cheaper now than they were at Christmas time. One pound of walnuts in the shell makes a little more than 1 1/2 cups of halved meats.

Here is a list of abundant May foods from the United States Department of Agriculture: Oranges and Canned Orange Juice: On March 1st orange production was forecast at nearly 10 million more boxes than last year.

Grapefruit and Canned Grapefruit Juice and Segments: On March 1st, grapefruit production was estimated at nearly 63 million boxes.

Peanut Butter: Last year's peanut butter production was nearly 3/4 million pounds more than the year before.

Dried Peaches: A huge amount waiting to be stewed, made into pies and pastries at a very reasonable cost.

Tom Turkeys: Stocks of frozen turkeys in cold storage on March 1st totalled 126.1 million pounds. This compares with an average of about 66 million pounds for the five years from 1942-46.

These are heavy toms. One of the largest and best-known producers of quality quick-frozen foods announces a reduction in prices from May 12th to June 7th on the following items: rhubarb, mixed vegetables, corn, peaches and turkeys.

MONDAY'S MENU BREAKFAST: Orange juice, ready to eat cereal, soft-cooked eggs, toast, butter, dried peach butter, coffee, milk.

LUNCHEON: Toasted peanut butter sandwiches, sliced tomatoes, stewed rhubarb, cookies, cream cheese, tea, milk.

DINNER: Scalloped left-over veal with green pepper and onions, mashed potatoes, quick-frozen corn, bread, butter, radishes and raw carrot sticks, quick-frozen peaches, sponge cake, coffee, milk.

Air Vice Marshal Stedman Named Air Adviser In Defence Research

Hon Brooke Claxton, Minister of National Defence, today announced the appointment of Air Vice Marshal E. W. Stedman, OBE., of Ottawa, as Air Adviser to the Director General of Defence Research. One of Canada's most eminent aeronautical research engineers, A/V/M Stedman headed the Canadian delegation to last year's atom bomb trials at Bikini. His new appointment makes available to the Defence Research Board his unusually valuable experience in the fields of aeronautical research.

The Defence Research organization, which is now being formed under the Defence Research Board, has been planned on a purely interservice basis. In order to ensure that the special research needs of the individual Services are always kept in mind, plans were made for the appointment of a senior scientist as Adviser to the Board, on the problems of each Service. These Advisers will be available, not only to the Board, but to their respective Services.

The appointment of Professor Otto Maass of McGill University as Army Adviser, was announced a few weeks ago. Dr. G. S. Field was recently appointed Naval Adviser to the Defence Research Board. He is also Director of Scientific Research and Development in the Royal Canadian Navy. The triumvirate of advisers is now completed by the appointment of A/V/M E. W. Stedman as Air Adviser.

In 1918 he transferred to the Royal Air Force where he attained the rank of Lieutenant Colonel and received the OBE for his work while in charge of an aircraft repair depot in France.

C.P.R. EXTENDS TRIBUTE TO D. C. COLEMAN

Montreal, May 10—The Canadian Pacific Railway Company recorded the tribute of its thanks to D. C. Coleman, retired chairman and president, at the annual general shareholders' meeting in a resolution unanimously passed reviewing his services over 47 years, longer than any other chief executive officer had been with the Company.

Moved by Huntly R. Drummond and seconded by Hon. J. E. Perrault the resolution spoke of the railway knowledge gained in actual operation, conspicuous ability and unswerving devotion to the best interests of the Nation and of the Company which fitted him to head the Canadian Pacific in the critical period of the greatest war the world had ever known.

In speaking to the motion Mr. Drummond said the Canadian Pacific is glad to benefit of Mr. Coleman's counsel from the retirement he entered last February by virtue of his remaining a director. Mr. Perrault hoped Mr. Coleman would turn his writing talents to the preparation of a history of the Canadian Pacific over the period since 1899, when he first entered the service.

Text of the resolution, which is to be forwarded to Mr. Coleman bearing the company's seal, follows:

Resolved: That there be inscribed in the records of this meeting an expression of the appreciation of the

shareholders for the distinguished services rendered to the Canadian Pacific Railway Company and to the Dominion of Canada by D. Alton Correy Coleman, C.M.G., LL.D., D.C.L., who recently retired as chairman and president of the company.

"It is fitting that Mr. Coleman's services to the company and to his Country should be gratefully recognized and recorded at this annual general meeting. The shareholders desire to offer him the tribute of their thanks for the efficient leadership he has given during many trying years in the solution of the problems of Canadian Transportation and business.

"Mr. Coleman first became associated with the Canadian Pacific Railway in 1899—an association which has continued with satisfaction to the company for over 47 years. His rise in the service was rapid and it was during his term of office as vice-president of Western Lines, following his appointment in 1918, that the company built and placed in operation in the Prairie Provinces some 2,250 miles of railway. All of the new territory served was traversed and examined by him before construction was undertaken.

"Railway knowledge gained in actual operation, conspicuous ability and unswerving devotion to the best interests of the nation and of the company were among the great qualities which fitted him to be the chief executive officer of the company in the critical period of the greatest war the world has ever known.

"It is gratifying to the shareholders that during Mr. Coleman's tenure of office as chairman and president, the Canadian Pacific Railway Company rendered notable aid to the Allied cause through its railway, steamship, air lines and other services, and that it maintained the efficiency of its operations despite the difficult conditions created by World War II. Even before the war ended Mr. Coleman had inaugurated a comprehensive shipbuilding and ship reconditioning program to replace the heavy losses of Canadian Pacific tonnage by enemy action. He directed the company's full contribution to the war effort as the contractor for the execution of a \$195,000,000 munitions program at its shops, and as host for the company at its Chateau Frontenac in Quebec City when the historic war conferences were held there in August 1943 and September 1944 at which strategy was devised and decisions were reached that a mighty influence on the course of history.

"In his fine contributions to educational and social welfare organizations the shareholders recognize in Mr. Coleman a public-spirited Canadian and a devoted Canadian Pacific officer.

"The shareholders understand Mr. Coleman's desire, after a fruitful and successful career, to enjoy respite from the major responsibilities of active business life, and are confident in the knowledge that his work for the Canadian Pacific will endure. They are pleased to know that his vigorous mind will still apply itself to the problems of the company by its continuance as a member of its board of directors. They earnestly hope that his strength will be long preserved and that he will be rewarded for many years to come with health and happiness."

ROAD REPAIR FACTS BARED AT WATERLOO

Waterloo, May 10.—With the coming of warmer weather, the newly paved roads of one year have come under the critical eye of citizens to witness what damage had been caused to this \$33,000 project. It is easy to find damaged portions and spots that are broken and difficult to pass. But the members of the Waterloo Council wish to make a number of facts known to the citizens in defence of the advisability of having had this work done.

In all there was seven and one-half miles of streets paved in Waterloo during the past two seasons at a gross expenditure of thirty-five thousand dollars. Of this, no more than one quarter of a mile of pavement has been damaged according to the estimates of an expert on these affairs, which means that seven miles of paved roads is still in first class condition. When it is considered that major highways are being repaired each year over and over again with very often unsatisfactory results, the members of the council feel that as far as this is concerned, the roads are still a successful undertaking.

With the questions as to expense, the interest paid on this loan is \$1,050 annually, and with the paving of the streets, it omitted the necessity of spreading calcium chloride over the roads, which cost the town an annual amount of \$1,200 and the gravel and labor spent each year on the maintaining of gravel roads amounted to between five and six thousand dollars, and so far this year no money has been spent on gravel or chloride.

In calculating the costs, after the interest has been paid, the town has accumulated a total of almost six thousand dollars to repair the damaged portions of the streets and all this without extra cost to the citizens over the records of past years. It can be of no doubt to anyone who has used the paved roads that they are a tremendous benefit to the town. It was also made known at the time of paving that it would require two or three years to discover the parts of the roads that would be difficult to maintain, and to repair them each year until they were permanently secure. This is the first year, with satisfactory results obtained.

The members of the town council should not too severely criticized for having this work done, as the referendum held for permission of the citizens was passed with a satisfactory majority, and the work was done in a satisfactory manner. The results after the first year are found to be satisfactory with the experts, and the costs of maintaining these same streets will be no more and in some respects not as much as the gravel streets. The job of repairing the damaged parts will be commenced at an early date and once again the citizens of Waterloo will be privileged to enjoy driving over streets that are smooth over the entire seven and one-half miles rather than over only seven and one-quarter miles.

A CHURCH SUPPER
St. Paul's United Church was the scene of a most successful supper, when the members of the Women's Association combined with the men of the church in putting on a baked bean supper. Approximately three hundred and fifty people were served a delicious meal, and it was announced that the net results amounted to \$220, which are to be diverted to the "Renovation Fund," with the women getting credit for half the net.

The work that has been done both the exterior and interior of the church has been a big undertaking, and only a very small portion of the total costs remains to be paid off, and it is hoped that within the year the loan will be written off in its entirety.

Under the joint presidency of Mrs. Romilly Graves and Mrs. Frank Bockus all the plans for food were arranged and carried out, while the male members of the congregation sold the tickets and waited on the tables and attended to the heavier chores so necessary in the staging of a large supper. All plans were well laid and everyone knew what his or her particular job would be and every thing progressed without a hitch.

There was little or no waiting for the patrons, and while they were waiting in the body of the church they listened to organ music furnished by Mrs. Charles Daigreault and Mr. Roger McKerrow. For two and one-half hours, a steady procession of men, women and children filed into the banquet, where food was in abundance.

At the completion of the meal, there was considerable food remaining, and Mr. Orval Quilliams acted as auctioneer and was able to distribute it among the remaining persons. It was a completely satisfactory undertaking both for the patrons as well as the organizers, who deserve all the credit for the successful results obtained. Rev. E. D. Mitchell expressed his pleasure at the supper and its satisfactory results.

want to know...

when I should take out life insurance

There is one answer to this question — "Just as soon as possible."

Those who start an insurance program in early youth reap the benefit of lower rates and avoid the risk that in later years they may not be insurable. To them, the present is free of worry, and the future free of fears.

Everyone's needs and wants are different. It takes the help of a trained insurance advisor to chart a sound program that may be adjusted through the years.

If this advisor is a Mutual Life of Canada representative you get the benefit of our seventy-seven years' experience in adjusting life insurance to the needs of people of all ages, in all walks of life. Ask your local Mutual Life man how a Mutual program can be planned to meet your particular needs. Let him tell you about low cost life insurance.

BALL SEASON OFFICIALLY OPENS TOMORROW AFTERNOON

Sherbrooke Receives Drummondville; Sports Committee To Hold Drawing

The Sherbrooke Baseball Club will try, weather permitting, for the second time to stage the official opening of the baseball season tomorrow afternoon at 2:30 when they are hosts to the Cubs of Drummondville.

The locals will play only one game tomorrow, and that will be in the afternoon at Sherbrooke, as the grounds in Drummondville are not ready yet.

His Worship Mayor Guy Bryant will throw the first ball, Dr. A. N. Dupuis, president of the Sherbrooke Club, will act as catcher with Hon. Johnny Bourque, Minister of Mines and Forests and Hydraulic Resources, doing the swinging.

The opening was supposed to have been held last Sunday against Acton Vale, but was postponed owing to the condition of the grounds. Rain had made the diamond a sea of mud and the outfield a lake.

The starting pitcher for tomorrow has not yet been announced, but no doubt Coach Dube will draw from "Long John" Harvey, Larry "Lefty" Lettri or Ollie Olanston to mow down the opposing batters.

The local executive is looking

around for a new first baseman with a new man to look after the hot corner. In the opening game at Acton Vale, Bob Jewett held down first base and Larry Frechette filled in at the hot corner. They did a fair job but the local mentor is trying to improve both these positions but, as yet has not located anybody. The rest of the team will be the same as was fielded last Sunday. Nick Shamot and Ken Jraulich will look after the catching chores, with Paul Ruel at second, Manny McIntyre at short and Normie Dussault, Gilles Dube, Paul Paquin and Spike Bernier working in the pasture.

At the same time Alderman Paul Hamel, chairman of the General Sports Committee, has announced that the lucky number for the subscribers to the Sports campaign will be drawn.

The committee will sell tickets previous to the drawing and they may be obtained from members of the committee at the ball park. The money that is obtained from this subscription is used, throughout the year, to help all sporting groups of the city and is a good cause, so fans, purchase your tickets to give the youngsters a helping hand.

LANG SCORES HIT WITH SHOW IN COOKSHIRE

(Special to Record)

Cookshire, May 10.—Bill Lang, Canada's outdoor ambassador, presented lectures and movies to audiences at Cookshire under the auspices of the Cookshire Chamber of Commerce.

School children saw a special show that consisted of a lecture and the films "Game Trails of Ontario" and "A Tour Through French Canada." In "Game Trails" the photography of nature's own coloring and tinting was throughout the picture a masterpiece; Canadian game animals, the moose, deer, and fox, all appeared at close range in their natural habitat. "Tour" was a colored record showing, among other things, men catching the Ouananiche (land-locked salmon) with the fly in the Saguenay and Peribonka rivers, in the land of Mary Chapeleau.

Many pupils from Cookshire, East Angus, and Sawyerville High Schools, Island Brook and Buiver Intermediate, and Eaton and Birchton Schools attended the exhibition.

Later, a capacity crowd saw "Game Trails" and a demonstration of fishing. The audience was very interested in the picture.

Lang demonstrated the art of fishing with varied types of lures and bait, including flies, plugs, minnow, frogs, and earthworms, and fishermen from the surrounding districts were very enthusiastic during the exhibition. He also showed his listeners how to catch bass and trout with ease.

For this very instructive exhibition the Cookshire Chamber of Commerce are indebted to their President, H. C. Barter; secretary, R. G. Gagne; publicity committee, E. S. Heatherington and G. Morin; and entertainment committee, E. T. Neall and Alfred Maskell.

"SPORT SHOTS" and "POT SHOTS"

BY LEN. O'DONNELL

The local baseball club is having a hard time getting a game on their home grounds. Sunday the club was forced to postpone their official opening, owing to the weather, and Wednesday they were forced to cancel an exhibition tilt with Granby Red Sox for the same reason. Coach Dube has his boys working out in the arena, until the sun appears on the horizon. Don't get discouraged, Lefty, the sun has not gone out of business. The major loops are in the same position.

The annual track and field meet, sponsored by the Y's Men will be held Saturday, May 24, at the Parade Grounds. This is a yearly event that is put on for the young athletes, and this year the group are looking for a record entry. So you budding stars had better start getting in shape. It looks as though last year's title holders had better look to their laurels. Coach Pye's boys from Lennoxville will be out in full force with such promising stars as, Lloyd Gunderson, Edson Warner, Alan Hunting, Charlie Clarke, and the Kuehner brothers, Don and John, to carry the orange and black colors of Lennoxville High School. The dead line for entries is Saturday, May 17, so boys, hurry and get those forms back, to give the committee a chance to draw up their program.

The Parks Committee, under the able guidance of its chairman, Alderman Sylvio Rousseau, is going to lay out baseball diamonds on the city parks for the youngsters. Nice going Sylvio, congratulations to you and your committee. The kids will really appreciate this.

I am informed by K. D. Lindell, of Asbestos, that the City of Asbestos has subscribed \$10,000 towards building an up to date arena in the mining city. Well done, Asbestos. Here's hoping the balance of the amount required rolls in fast, and that you obtain your objective in the very near future.

The harness racing season must be close, as all the local horses have left their winter quarters at the Fair Grounds to train elsewhere. The Dugre brothers' string has moved to Sorel. Dr. R. Veilleux's down the river to Danville, while Eddie Blouin, Sam Favi and Earl Combs have all moved up to the Cliff. This seems very funny when there is supposed to be a "good track" at the grounds, but all the trainers I had a talk with, tell me that it is impossible to work their horses out here, and the reason is that the half-mile circle is in such poor condition and that they cannot risk injury to their steeds. "What about it, E.T.A.?"

It seems very funny to this reporter that Barbara Ann should return the canary-colored convertible coupe if she wishes to represent the country in the next Olympic Games, when in 1928 Percy Williams, the speedster from Vancouver, who won the 100 and 200 metre sprints, was presented with a car and was not forced to return it. It did not injure Williams' amateur standing as he was on his way to the International Games in New York the following year, and on to Los Angeles in 1932, for the Olympics. I wonder if the top officials can explain the difference between these two cases. They seem identical to me. Perhaps Mr. Dawes has changed the ruling since he took over the chairmanship, or, on the other hand, maybe the figure skaters have a ruling and the sprinters another one. What a lot of tomfoolery! The only thing that is amateur today is the name itself. Why not come out in the open and quit hiding behind names? All the sporting fans in the country know that there is no longer any good old amateur sport left, so why try to kid the public?

Well, the fever has hit Windsor Mills, and they have fallen in line with the rest of the district, and have made arrangements with Bill Lang to give a presentation of his picture at Philadelphia (2), Chicago at Cincinnati (2), St. Louis at Pittsburgh (2), and Baltimore at Buffalo.

A meeting of the Industrial "B" Softball League has been called for Monday evening at the New Sherbrooke House. This league lays claim to the city softball crown, as they defeated the "A" titlists last season, and are looking forward to a bigger and better year. The executive has convened already once, but could not draw up their schedule until they heard from the Parks Committee regarding dates. But they expect to have everything lined up for Monday evening.

I received a note from Bobby Bell, the hard-working soccer enthusiast, who is trying to form a league in the district this year, and any organization interested may drop a line to Bobby, care of

ROYALS CLOSE GAP BETWEEN JERSEY CITY

Montreal Royals moved within half a game of the International League-Leading Jersey City crew as they trounced the Little Giants 6-3 at Montreal yesterday. Johnny Van Cuyk, last year's leading twirler in the Texas League, held the Jerseys to four hits while Royals were plastering three hurlers for 11 safeties.

Walt Sessi banged two homers and catcher Roy Campanella banged one out of the park to lead the assault by last season's Little World Series champions.

Jack Graham belted his sixth homer of the year for Jersey's in the fifth.

At Rochester, Lefty Bob Kuzava, rookie Baltimore twirler, gave up only six hits as the Orioles blanked Red Wings 3-0. It was his second straight win.

Glenn Gardner pitched shutout ball for Rochester until the sixth, when three hits netted a run. Orioles added two more in the ninth to make things certain.

Claybourne Tangles With Cortez, Pusie Meets Jack Calza Tonight

The promoters in charge of wrestling at the local Arena have, by popular request of the fans, re-matched Gentleman Jack Claybourne of Harlem N.Y. and Manuel Cortez, the wrestling champion of Mexico, in the final bout to be staged this evening.

These two grapplers last week gave the fans a good exhibition of wrestling. It was a match of science, rather than the rough and ready type. Both these men know the game, as well as the various holds that go with it, and they gave the fans a good display of up and coming wrestling, and it is by their special effort last week, that the promoters consented to the re-match.

In the semi-final, Jean Pusie from Chamblay will tangle with Jack Calza of Milwaukee. In this bout the fans will be treated to a real hard, rough and ready brand of wrestling. After the exhibition that Calza put up last week, against Larry Moquin, anything can be expected from the man from across the border, but Jean Pusie has a reputation of being able to look after himself and no doubt will give our American friend all he is looking for, if he should start a rough house.

In the second match of the preliminaries, George Gagney, of Quebec City, will make his first appearance this season at the local Arena and will be matched against Harry Madison, of Montreal. This bout should be very interesting to watch and should prove a hard battle before the winner is declared.

In the opening match of the evening's activities, Young Paquette from Magog will tackle Ted Williams, of Boston. The E. T. boy from Magog will have his hands full with Williams, who is a rough customer, and was once disqualified last week by referee Sammy Mack, but the local boy should give a good account of himself.

SHERBROOKE PURCHASES DION

The Sherbrooke Baseball club announced today that they had purchased the rights to Maurice Dion, of Granby, from the Granby Red Sox.

Dion plays first base, is a left handed batter and player, stands 5'10", weighs 160 lbs. and is 22 years old. Last year he played for Acton Vale in the Provincial circuit.

While performing last season for Acton Vale, he was considered as one of the outstanding first basemen of the league and was rated very highly. He will be seen in action tomorrow afternoon at 2:30 when Sherbrooke takes on the Cubs of Drummondville in a regular fixture of the Provincial Independent Baseball League.

NORMAN VON NIDA WINS PRO GOLF TOURNEY

Southport, England, May 10.—(AP)—Norman Von Nida, who plays golf in his native Australia during the Southern Hemisphere summer and then tours the English summer circuit, won the Dunlop-Southport Professional Golf Tournament today with a 285.

It was his second successive triumph—following a 10th-place finish in the season opener.

Jewels And Seashells Take Opening Tilts Of Afternoon Loop Title Playoffs

A Jewel victory over Emeralds to the tune of 1,224 to 1,068 was the outstanding feat at the opening Ladies' Afternoon League title playoff games at New Bowling Alley Wednesday night. Seashells beating Pearls in the other duel, 1,388 to 1,348.

Both jousts were the first contests of two-game, total pinfall semi-final playoffs.

Jewels led all the way in the Jewel-Emerald game. They enjoyed a big first string, at least considering the other string scores of the two teams, and though their pinfall production dropped steadily during the rest of the way, they were still a fair 156 points ahead of Emeralds when the game was over.

Mrs. Martin, of Jewels, rolled the high scores, 155 and 324.

Mrs. Sterling, of Emeralds, outdid her teammates with a single string pinfall of 102 and a three-string score of 246.

The other tilt was closer. Seashells had only 426 to Pearls' 408 at the end of the first string—a difference of 37—before they got onto the right track in the second frame. By outscoring them 484 to 449 in that chapter, they reached the end of the string out point ahead of Pearls. A 39-point advantage in the third string increased

their lead to 40 points, and this was their edge when the game had ended.

For Seashells, Mrs. M. Mathewson earned high single of 132 and Mrs. F. Gordon high triple of 272.

Mrs. V. Dixon turned in scores of 133 and 330, the top Pearl record.

The teams and detailed scores are as follows:

BRANCH RICKEY HARD MAN TO BARGAIN WITH

New York, May 10.—(AP)—President Warren Giles of Cincinnati Reds, who has bought more middle grade outfielders than any man alive, admits that the hobby is beginning to pall on him.

He made the admission here while denying a report that he was about to pay \$200,000 for an assorted collection of slightly wilted Brooklyn Dodgers, including the inevitable outfielders.

He said that, actually, he had walked out of Branch Rickey's office murmuring "Thanks, Branch, for the education."

Giles agreed he had entertained some hope of extracting a spare Gardner from Ebbets Field.

"Before I could even get started talking about an outfielder," Giles recalled sadly, "Rickey opened up and outlined his plan to give me what he called a 'package deal'."

"That is, he was willing to let me have, for a good price, a half-dozen or so players that he's going to have to get rid of, anyway, to get down to the player limit."

"Oh, yes, Rickey did offer to make me a better deal if I was willing to part with a couple of my players, Grady Hatton and Ewell Blackwell."

Hatton and Blackwell, it might be explained, are just about the best third baseman and the best pitcher, respectively, in the National League.

Jet Pilot May Be Forced To Extend Himself For Honors In Preakness

If it's neck and neck again in The Preakness, Jet Pilot will be at no disadvantage, as Maine Chance Farm colt demonstrates reaching for carrot held by Tom Smith.

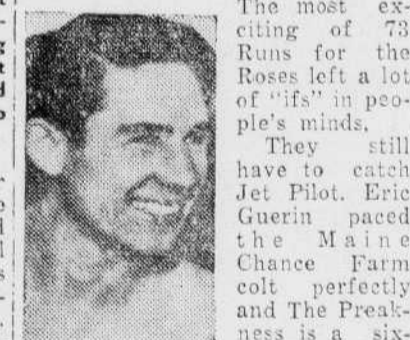

Baltimore, May 10.—The blanket finish in the Kentucky Derby makes the even more historic The Preakness a greater show than ever.

The most exciting of 73 Runs for the Roses left a lot of "ifs" in people's minds.

They still have to catch Jet Pilot, Eric Guerin paced the Maine Chance Farm colt perfectly and The Preakness is a sixteenth shover than the Derby.

"Phalanx will be less sluggish at the start," say supporters of Cornelius Vanderbilt Whitney's stretch-running son of Pilate, "Eddie Arcaro will make his move sooner and the chances are Old Banana Nose won't have to swing out in order to get through on the stretch turn."

"Faultless didn't like the

Churchill Downs track, which was made to order for Jet Pilot," argue the backers of the Calmet Farm's brown charger.

"I'll beat those which ran in the Derby," promises Johnny Longden, who again will be aboard On Trust.

Because there is no stickout, as many as 15 may go in The Preakness at old Pimlico, which would make it the richest race of the year. The winner's share may even exceed the record \$108,400 Azucar earned for his owner in the first running of the Santa Anita Handicap in 1936.

This old handicapper will stick to Tom Smith and Jet Pilot until the swift and beautifully-bred member of the Myrtlewood family is beaten, especially at a mile-and-three-sixteenths. Phalanx is the one to beat, of course, but may have to wait until he gets a crack at Jet Pilot in the mile-and-half of the Belmont Stakes.

On Trust is placed in the show position on the superior speed he showed while under a tight hold until he flattened out in the Derby, a race he needed. Faultless

drops down a notch in our book because Jet Pilot pulled away when the son of Bull Lea had him collared on the threshold of the more important money.

Of the Derby field, in addition to Jet Pilot, Phalanx, Faultless and On Trust, there will be Cosmic Bomb, Bullet Proof, Riskalator and Double Jay. Down from New York, trainers intent on stirring up trouble, are Cornish Knight, Blue Border, Seneva and Owner's Choice.

Winner of two races at Churchill Downs, adjudged not ready for the Derby and pointed for The Preakness, is King Bay. Royal Governor is going. He won the Chesapeake Trial and was second to Bullet Proof in the Chesapeake Stakes. Horses which have been racing in Maryland, their handlers' eyes on The Preakness, are Wide Wing, Contest, Mityme, Golden Bull, Uncle Remus, Reppand, Tail Spin and Tavistock.

The Run for the Black-Eyed Susans easily could develop into a traffic jam, although the result of 364 nominations gives you a rough idea of the trouble train-

ers have getting horses to the races.

So more than 40,000 people will jam the totally inadequate ramshackle stands on the streetcar line at Parker Heights and Belvedere and overflow out into the infield.

Second place is worthwhile at \$20,000, third at \$10,000 and even fourth at \$5,000. To the winning owner goes the traditional Woodlawn Vase, and a paint job will make the horse and jockey atop the antiquated clubhouse a reasonable facsimile of the winning combination.

The Preakness is two years older than the Derby, but it has had its lapses, so this particular second leg on the Triple Crown is the 57th running.

The Preakness is at a mile-and-three-sixteenths because the Pimlico stretches, linked by hair-pin turns, are a bit shorter than those of Churchill Downs, and the race must start at the head of the stretch.

From there on you're on your own, where the player has been all along.
